

"A man blames others for his failures but, for his successes, he takes credit."
... Josh Billings.

Hope you don't mind mind if we include a short quote from one of the noted men of the world. If people would consider the import of the statements of many of our most reputable men, this would be a much better place in which to live.

Other than deciding to begin each weekly column with a quote of what we consider to be some importance, we are here and now going to drop the so called "editorial we."

At least, I am going to try.
-TH-

In my opinion, one of the most worthy projects now being pursued in Friona is the work of a small group of people attempting to teach the English language to the Spanish speaking people who are here from Mexico and who have little understanding of the local language.

I can't say that it is the only worthy project though. There are many others who are working on much needed projects.

The thing about this undertaking which impresses us most is the idea that in our community, there are people who are actually working toward creating a better understanding and relationship with a neighboring nation. If the peoples of America and Mexico could understand each other, it is my belief that much of the friction and quarrelling would be removed from their relationship.

And what is more, the Mexican people at the classes are participating with an enthusiasm which I have seen in few classes of its nature. I have yet to see a group of students in high school or college who seemed as eager to learn as the group at the class in the American Legion Hall last Sunday.

But there should be another project started which would be just as beneficial not only to the nations, but also to the residents of this community. That is the opening of a class to teach Frionans to at least understand and speak enough Spanish to communicate ideas with the Mexican people who spend a good deal of their time working on the farms in this area.

If this were possible, many of the suspicions and frictions between the races would be removed. To do this would be the most admirable thing which a community could do. In fact, we might just set a precedent for other communities. All we would need to do would be to develop to the point where Friona had a majority of merchants farmers and residents who could speak both languages.

To my knowledge, there are no towns this far from the Mexico border that can boast a predominance of Caucasian people who are also bi-lingual.

I am not fluent in the Spanish language, but I do have some understanding of it. If I can help Wesley Foster and his assistants in their efforts to teach English to the Mexican people, I shall be happy to do my part. And, I would ask that others do the same.

Here and now, I challenge the people of Friona to establish and participate in a program to teach the fundamentals of conversational Spanish to the residents in this area.

The American people have often been condemned for expecting foreign people to learn our language instead of trying to learn theirs. Let us reverse this trend and try to learn the Spanish language. If we can find just half the desire to learn which is being demonstrated by the Mexicans here, we will take a great stride forward in a very short time.

If you are interested in learning the Spanish language, take a few minutes and write, call or stop in.

Dimmitt Group Charged With Farwell Burglary

Over \$725 in merchandise which was taken from Gladys' Ready-To-Wear Shop in the Sept. 4 burglary in Farwell was recovered this week, Sheriff

Charles Lovelace reports. The action came after a Dimmitt trio was apprehended in connection with similar thefts in the area.

Lovelace reports that two of the group, Randy Follis and his wife, Helen Marie, have signed a confession admitting to the Farwell burglary.

Among the items returned to the Farwell shop were 48 pairs of women's hose, dresses, coats, gloves, sweaters, purses and jewelry.

The Follis couple and Charles Ray Houtchins, a commercial photographer, were charged with burglary in Potter County Sunday afternoon. Some of the stolen items were revealed upstairs above Houtchins' photo shop. Other articles were located in the homes of Follis and Houtchins.

Warrants were also issued for the couple and holds were filed by the Farmer officials. The group will face charges here after the completion of legal action in Potter County, Lovelace said.

Reports indicate that nothing taken by the trio was disposed of. Careful searching turned up almost every item on the impressive list of stolen merchandise.

Band Places In Competition

The Friona High School Band rated a "2" in the Region 11 University Interscholastic League marching contest at Dick Bivins Stadium Tuesday.

Other schools entering class AA competition were Tullia, Dimmitt, Dalhart, Spearman, Wrayton, and Childress.

High School Band Twirler's Ensemble rated a "1". Individual twirler ratings were Pam Roden, "1"; Mikie Welch and Brenda Collier, "2"; Charlotte Nettles, Linda Castleberry and Ann Baxter, "3".

Forty-six schools entered the contest.

Brooks Booked In County Jail

Earnest Brooks, 20, was returned to the Farmer County jail from Perryton Saturday.

He is charged with theft from a Farmer County farm. Bail was set at \$1,000.

Mabry, Watkins Tie In Contest

The Cotton Bowl contest followed the football pattern of upsets last week. For the first time this year, two contestants emerged in a tie for first and second place.

Young Joe Mabry and Mrs. Thelma Watkins both picked the winners of eight games and erred 22 points in the tie-breaker. J. S. Clark also had eight correct choices but a 28 point spread in the tie-breaker to capture third place.

Mrs. Watkins was foiled in her attempt at guessing the winners of the ten games by the Baylor - Tech and TCU - A&M upsets.

Mabry correctly predicted TCU to win over A & M but was wrong in his choices of Baylor and Tullia over Tech and Dimmitt.

Clark also picked Baylor to win and missed a second prediction by choosing Oklahoma over Kansas.

With the contest entering its ninth week, Frankie Allen is leading the pack with a total of 56 correct predictions for the season.

Mrs. Mildred Agee is close behind with a score of 53.

Mrs. Thelma Watkins and Mrs. W. R. Mabry share the third place spotlight with 52 correct choices each.

Jackie Clark and J. S. Clark are also tied for fourth place. Each have correctly predicted the outcome of 51 games.

Banquet Highlights Lions' Birthday

"American people are on the move because the wagon wheel was invented before the rocking chair," R. A. Lipscomb past Lions International Director, said in his address to the 163 Lions, wives and visitors at the Friona Lions Club 20th celebration dinner Sunday.

"If the rocking chair had been invented first, we would still be rocking. But we would be rocking in a cave," he added.

The Friona Club began the celebration of their twentieth birthday Saturday evening with a social gathering conducted by Bill Nichols.

The cabinet meeting of the Lions District began the day's events Sunday at 9 a.m. in the Community Room of the Friona State Bank. Wives of the visiting cabinet members attended church at 10:30.

Visiting dignitaries and local Lions gathered at the school cafeteria at 1 p.m. for the banquet and culminating activities.

Joe Tooley and Lowell Byrum led the crowd in a round of loud if not musical singing prior to the invocation by Wallace Kirby, pastor of the Friona Methodist Church.

Recognition of the past presidents opened the activities after the meal. Awards were then presented to members of ten, fifteen and twenty years standing.

W. L. Edelman, charter president, discussed the birth and growth of the organization in Friona.

The club was first organized in 1941 during the period when war clouds were hanging over the nation. The Muleshoe Lions served as the chartering club for the 18 charter and two transfer members in the newly

formed organization. The club has grown to boast a total membership of 64.

W. W. Didiak, district governor, introduced the banquet speaker, R. A. Lipscomb.

Lipscomb's topic dealt with the heritage of the American people.

"America has often been referred to as the great melting pot but I would rather think of it as a great Mosaic," he said.

"All nationalities are blended together to make this Ameri-

can Mosaic and Lions are part of that Mosaic," Lipscomb added.

"American people are so concerned about their country that they established service clubs. The Lions are one of those," he stated.

When presented with a check at the close of his address, he did not bother to look at it but immediately donated it to the newly chartered Hi-Plains

(See Lions, P. 5)

PTA Schedules Variety Show

The Friona Parent-Teacher Association will sponsor a talent show Nov. 16 in the High School Auditorium.

The organization voted to undertake the project at the meeting last Thursday evening. Proceeds from the event will go toward purchasing a "Controlled Reader" and accessories for the third and fourth grades in the Friona schools.

The reader will be used in conjunction with the present reading courses and is expected to greatly increase the reading comprehension and reading speed of the students.

Tickets to the show will be \$1 for adults and \$.50 for students.

Approximately \$500 will be needed to purchase the reader, film strips, and auxiliary kits under present plans, according to association reports.

The reader is priced at about \$270 and the film strips are

\$70 per grade. Prices on the kits vary.

The PTA is asking community organizations and residents to plan for entries in the talent show and anticipate a wide variety of acts.

During the brief business session Mrs. Doyle Cummings was elected delegate to the state PTA convention at Houston next month. Mrs. Jay Claborn was elected alternate.

Announcement was made of winners of the membership drive contest. Classes securing the most members, in each of the three schools, were high school, freshmen; junior high, Mr. Richard Dickson's sixth grade; elementary school, Mrs. Guy Lemmond's first grade.

Winner in each division was presented a cake.

Hostesses for the meeting were Mrs. Eric Wishing, Mrs. J. G. McFarland and Mrs. F. L. Rogers.

English Classes Begin For Mexican Nationals

Communication is said to be the key to understanding and a group of Friona residents are attempting to build a bigger and better key.

Wesley Foster is ramrodding an English class for the Spanish speaking people who are helping with the harvesting. The classes convene each Sunday at 5:30 p.m. in the American Legion Hall in Friona.

In the first session of the year, Oct. 15, a total of 92 gathered to try to learn some part of the English language. Harvesting operations prevented a group from returning last Sunday evening so there were only 72 present.

The first attempt at such a project was begun in Friona in 1959 and received what is

termed as excellent reception.

Efforts to repeat the program last year bogged down before the first class was scheduled. Prior to beginning the classes this year, a Spanish speaking delegate visited all the near - by camps and personally invited the people to attend the free instruction periods and partially explained the purpose of the program.

Cars, pickups and trucks were called upon to furnish transportation for the harvest hands to the classroom. Many of the area residents donated the services of their vehicles for the project.

The Easy Reading Course in English which is being used for the project employs graphs, charts, drawings and books very similar to that used in the first grades in our schools. Drawings are matched with drawings and letters to help convey the meaning of the pronunciation sounds. The method was designed by Dr. Frank C. Laubach, a noted teacher in the linguistic field. Copies of the system are available in over 40 different languages.

W. H. Awtry, Ernest Anthony, and Hoyt Smith are assisting Foster with the class. They help with the necessary

Spanish instructions to the group. Foster speaks very little Spanish.

When asked if similar programs to teach the local residents of the Spanish language is needed, Foster replied emphatically:

"Yes! Every businessman in town ought to be able to speak at least conversational Spanish."

The idea for the undertaking began when the Commission on Missions and Christian and social relationship

(See English, Page 2)

School Shows Master Art

Master paintings of early American scenes will be on display in the Junior High School Library next week, Alton Farr, superintendent, reports.

The exhibit is furnished by the Colonial Art Company of Oklahoma City.

Tickets will be sold for the event and all proceeds from the exhibit will be returned to the school in the form of paintings. These paintings will be used to decorate the halls and rooms of the school, Farr stated.

RECOVERED CLOTHES are inspected by Gladys Hromas; Tom Atkins, deputy sheriff; and Charlie Lovelace, sheriff, after Lovelace returned the items from Amarillo where they were taken following their discovery in Dimmitt. The lady's apparel was taken in the Sept. 4 burglary of Gladys' Ready-To-Wear Shop in Farwell. A Dimmitt couple is charged with the crime.

DOUBLE WINNERS . . . Mrs. Thelma Watkins and Joe Mabry divide the combined first and second prize money after tying in both correct predictions and in the tie-breaker. Both had the winners of eight games and missed the score between Friona and Dalhart by 22 points.

Editorial Comment:

AN EXPERT PROJECTS

Red Plan For WW III

(EDITOR'S NOTE: The following is a hypothetical description of a possible Russian program for global takeover by Gilbert Lloyd, a real professional in the field of International Affairs reporting. The article proved so provocative and plausible to us that we felt duty bound to reproduce it in full for our readers.)

The hour of reckoning with Red Russia drew palpably closer with the open, announced and periodic blasting off of Soviet nuclear test bombs. With the sudden new advantage of a UN rendered tragically headless and helpless as a disabled airplane plunged into an African jungle, the Kremlin masters may well have been feverishly setting their time-table ahead. Here is the way it could happen.

However soon Khrushchev decides the free world, and particularly the U.S., has been sufficiently softened up, his ultimatum may read like this: "The Soviet Union is now fully prepared to defend itself and to preserve peace. Atomic rockets are zeroed in on all imperialistic centers of aggression (i.e. cities); submarines are in position off your coasts, and nuclear bombs have been planted at your centers of government. "Within 24 hours you will agree to withdraw all forces from Berlin and West Germany, and to abandon all aggressive bases now occupied outside the continental limits of the United States. "These actions will be car-

ried out on the following schedule: From Berlin within two weeks, from Europe in two months, from all other foreign bases no later than four months. "If an affirmative reply is not received to this note within 24 hours from time of transmittal, Soviet military forces will have no choice but to take defensive action to protect the integrity of the USSR."

Similar communications will be handed to the British and French governments. While the big powers face their agonizing hour of decision the smaller nations surrounding the USSR will be treated with even more abruptness. Finland, all of Scandinavia, Austria, Greece and Turkey will receive the bad news by way of radio broadcasts. Their orders will call for immediate disarmament accompanied by declarations of friendship for the Soviet Union.

Along with these demands the communists will prescribe that their borders be thrown open and Soviet inspection teams allowed unhindered access. No sooner have the fateful broadcasts been concluded when the skies over these small free countries will be filled with Red transport planes dropping massed parachute armies. And throughout the world communist fifth columnists will riot and incite civil disturbances. Red China is not sitting idly by while all this is going on. Similar ultimatums blaring forth from Peiping will carry the same threats to the neu-

tral and free countries of the Far East. Red guerrilla forces in Laos, Vietnam, Thailand, and Burma will come out in the open and be reinforced by regular Chinese communist troops. South Korea will be reinvaded while underground forces in Indonesia easily take over the government. India will be completely torn apart by bloody rioting.

The Communists will have finally pulled their supreme bluff and now be ready to make their move to control the world. Or is it a bluff? That is the question planned to torture the minds of statesmen in Washington, London and Paris during this twenty-four hour period of grace. The preceding account, of course, is all conjecture. At least it is supposition up to this moment. But it could turn into grim reality any day, any hour. Time is drawing short. The signs are ominous. Are we prepared for the ultimate test? (Time will tell.)

Recent visitors in the home of Mr. and Mrs. Fred Dennis and family were Mr. and Mrs. Ralph McLeod and Mrs. Dick Crawford, Denise and Deann, all of Santa Ana, Calif. Mrs. McLeod is a sister of Mrs. Dennis and Mrs. Crawford is her niece. Mr. and Mrs. Sam Williams attended the 18th District American Legion and Auxiliary convention at Borger during the weekend. Legion Commander Willis A. Hawkins Jr. of Hart directed activities of the meeting.

LETTER TO THE EDITOR

A Question On Taxes

Editor FRIONA STAR
 I would like to have your comments on the copy of the letter to the Governor that I am enclosing.

Oct 12, 1961

Hon. Price Daniel, Governor of Texas, Austin, Texas.

Dear Gov. Daniel:

In view of the fact that we now have a sales tax that will bring in large revenue for the State and many people believe will bring considerably more than estimated. Now I request that you consider presenting the tax program to the next session to clarify the present law and recommend the abolition of the State Ad Valorem Tax.

I feel sure that with a little economy that the State will have adequate revenues without the Ad Valorem tax. I would like to have your thoughts on this subject.

Sincerely,
 Jesse M. Osborn
 Rep 96th Dist.,
 Box 416
 Muleshoe, Texas

EDITOR'S COMMENT:

It is my opinion that something definitely needs clearing up in the present sales tax law. Any effort in this direction is looked upon with high regard from these quarters.

In talking with the businessmen and residents in this area, I feel that they are in accord with me in proposing that the sales tax be broadened to cover all transactions and perhaps reduced to one per cent. In its present form, it would in many cases be worth more to the businessman to absorb the tax than to have to put up with the headaches of trying to determine what is and what is not taxable.

As for abolishing the Ad Valorem tax, I hesitate to endorse this suggestion before completing some additional investigation. I would like to know what percentage of the present budget is derived from this source and how long it would be before the increasing expenses of the state reached the point where a move to reinstate it if it were removed. I would rather see a tax remain on the books than to see it removed and then dropped

back on the populace a short time later.

Don't misunderstand me, I am a firm supporter of any move to reduce taxes of any kind. The only reason I would favor the retention of any tax is because I dislike the feeling of having additional taxes loaded on my shoulders. If a tax is removed and then replaced, it is just as irritating as if an entirely new one was dreamed up and initiated.

On the subject of economy, I say, "Go to it." How about starting by working to reduce the monumental expense incurred through the ever growing "red Tape" procedures? I suggest working to bring back a semblance of simplicity to the clerical side of the government.

I am publishing this reply along with your inquiry. I will encourage citizens of this community to send their views on the subject. I believe there is enough concern for the tax structure that you will receive some much more constructive letters.

Sincerely,
 Travis Harrell
 Editor

TAX-MAN SAM SEZ:

The Internal Revenue Service has a number of free publications to help taxpayers solve the mysteries of the tax laws. Circular E is available for businesses. It explains how to withhold social security and income tax. Circular H explains how to withhold and pay the social security tax on maids to housewives. Circular A explains how to withhold and pay social security tax on farm employees. If you have a tax problem the tax folks are business to help you. They will do their best to help you find the answer.

Two Cars Collide Tuesday

A two-car collision rendered an estimated \$225 damage to the vehicles but did not result in personal injuries Tuesday at 6:35 p.m. at the intersection of Sixth and Euclid.

William Russel Scales was driving a 1949 sedan east on Sixth St. Mrs. Aubrey Hodges was driving a 1961 station wagon south on Euclid when the two vehicles collided in the center of the intersection. A stop sign faces the approach of Euclid to Sixth St.

Mrs. Rhodes received a traffic citation.

Additional reports from the City Police Department show that two Chrome flipper hub caps were stolen from Mike Wilson Monday. He is reported to have had his car parked behind the drug store when the hub caps were taken. The caps were valued at \$20.

The Coke box at Wilson's Humble Service Station was opened with a key and an estimated \$6 was taken Monday night, Ben Moorman, police chief, reports.

ONE, TWO, THREE . . . Spanish speaking students of the English class being conducted in the American Legion Hall by Wesley Foster eagerly follow the pointer and loudly recite the indicated phrase. Over 70 people were in attendance at the second session Sunday evening.

taining an energetic leader for the classes.

"All I know is that I got roped in," Foster chuckles. "But I must add that I have thoroughly enjoyed working with them."

This year, 72 additional copies of the reader book were added to the supply. Over 100 are now available. The books were purchased from the Baylor bookstore in Waco by the WSCS.

Additional reading material is distributed during the latter part of the program. This material provides practice in reading English.

Anyone who stands in the classroom and listens to the rousing response to the movement of the pointer along the wall chart can not help but realize the enthusiasm with which the Spanish speaking students greet such an opportunity to learn the English language.

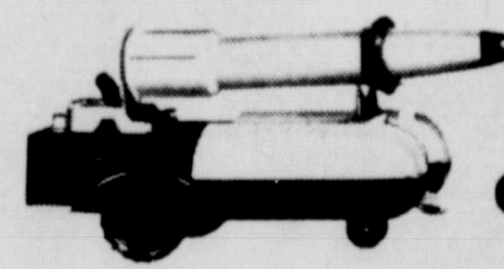

Farmers who care take time to repair.

Here is the most exciting new toy of the year!

The **ENCO** Energy Rocket
 Only \$2.95* with coupon from your neighbor in a HUMBLE uniform

This Humble exclusive is a fascinating toy. So safe and easy to use, a small fry of six can run it. So much fun, even Dads will monopolize it.

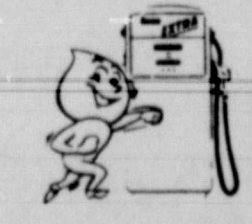

Its principal parts are of Escon[®] Humble's tough new plastic. It's battery powered, easy to assemble, (and the car is securely held together by screws). Simply start it, place on track and after a turn or two, throw the switch. The car zips down the side-track into a plastic bumper and *ch-o-o-sh!* The rocket zooms toward the ceiling (but doesn't hit it).

Ask for a coupon at the Humble sign in your neighborhood today. Mail with \$2.95* (cash, money order or check) to address on coupon.

*plus State tax where applicable

Without coupon—You can buy the **Enco** Energy Rocket without a coupon for \$5.95.* Mail cash, money order or check with name and address to Rocket, Humble Oil & Refining Company, P. O. Box 1244, Houston 1, Texas.

"Give your car an energy boost—fill up with Enco Extra gasoline"

HIGHLIGHTS AND SIDELIGHTS

Water Projects Must Move

By--Vern Sanford
Texas Press Association
AUSTIN, Tex.--City officials in Texas got a warning from Chief Engineer John Vandertulp of the State Board of Engineers.

He said Texas had better get moving on its water projects. Vandertulp's staff has just completed a water study outlining ways in which Texas cities and industries could meet their water needs for 1980. Half of the 14 reservoirs now under construction in Texas will be too small to supply their service areas by then.

It is going to take \$1,000,000, 000 to build the reservoirs, treatment plants and distribution systems to provide water the Texas of 1980 will need. It will also take planning and working -- starting now -- to get the 45 new reservoirs proposed by the Board of Water Engineers' plan built and full

of water by or before 1980. Plan is endorsed in most details by the U. S. Study Commission.

SALES TAX MODIFICATION--State Comptroller Robert S. Calvert thinks it's time to change the oil tax plan just adopted by the Legislature.

Constitution allocates the new sales tax on motor oil to the State Highway fund for road building. Consequently the corner service station man must keep books on this tax separately from sales taxes he collects for the State's general fund.

Calvert plans to suggest to the Legislature that this oil tax be levied at the jobber level, same as gasoline sales taxes. This will simplify bookkeeping and collecting.

Speaker James A. Turman agreed that there are inequities in the new sales tax which the Legislature should correct.

First to talk openly about paying the tax under protest were the vending machine people. They can't collect sales tax on items selling for less than 25 cents, but they must pay sales tax on their gross sales.

Texas Merchandise Vending Association plans to ask for a court ruling.

LAST GO-ROUND -- Sale of \$25,000,000 in bonds for the Veterans Land Board completes the borrowing by the State government for that program. Voters authorized \$200,000,000 to finance purchases of farms and ranches for veterans.

In the last year, about \$37, 500,000 has been invested in land since the program was revived after an increase in the authorized interest rate.

L. H. Page of Carthage, member of the Veterans Land Board, estimated that veterans will pay enough extra interest that the state will have made \$100, 000,000 profit on this program by 2005. That is when the last loan is supposed to be paid off.

MORE STUDY -- Governor Price Daniel asked the Legislative Council to bring its 1958 study on loans and interest rates up to date.

Governor Daniel now seems likely to call the Legislature back into session in January. He wants up-to-date facts on the subject of regulation of interest rates and lenders. Regular session just could not reach agreement.

He will ask also for passage of a bill extending the new escheat enforcement procedures to unclaimed bank accounts in banks and savings institutions.

Speaker James A. Turman appointed a special House committee to make a follow-up study of escheat laws. Reps. Franklin Spears, San Antonio; Ted Springer, Amarillo; Richard C. Slack, Pecos; Paul Haring, Goliad; and Reed Quilliam, Lubbock, are its members.

GOVERNOR APPOINTS -- Gov. Price Daniel assigned Dr. James A. Turman (no kin to Speaker Turman), Texas Youth Council director, and Rep. Don Kennard of Fort Worth to attend the National Governors' Conference on Delinquency and Youth Crime in Denver, Colorado.

They'll come back armed with arguments on why Texas needs juvenile parole officers in more than just the five biggest counties. That's extent of present program.

Governor Daniel is asking the Legislature to expand the five-man juvenile parole set-up it created this year. Kennard has sponsored juvenile parole legislation.

FIRST RUNNER -- Sen. Preston Smith of Lubbock became the first candidate for lieutenant governor in the Dem-

ocratic primary next May 5. Smith, who served three terms in the House of Representatives and five years in the Senate, ran third in the 1950 lieutenant governor's race. That was the year Ben Ramsey won the run-off and started the first of his six terms in the office.

Senator Smith, 49, is a theater operator.

HIGHWAY SPEEDUP -- Faster feeding of federal-aid money into highway construction is reflected by the State Highway Department's monthly report.

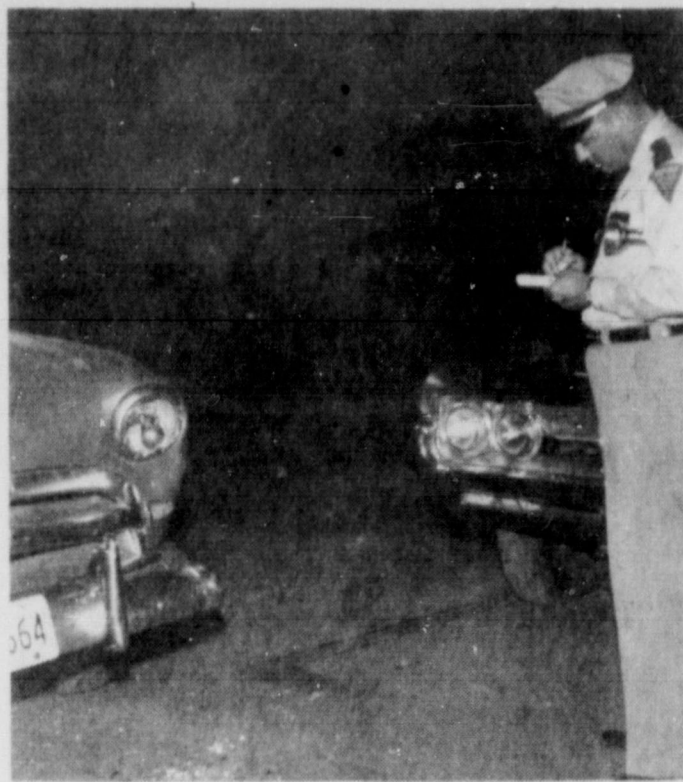

As a recession-trimmer, U. S. cash was sent out faster than had been scheduled. On October 1, there were \$325.

858, 057 worth of highway construction contracts outstanding in Texas, averaging at just about 50 per cent completion.

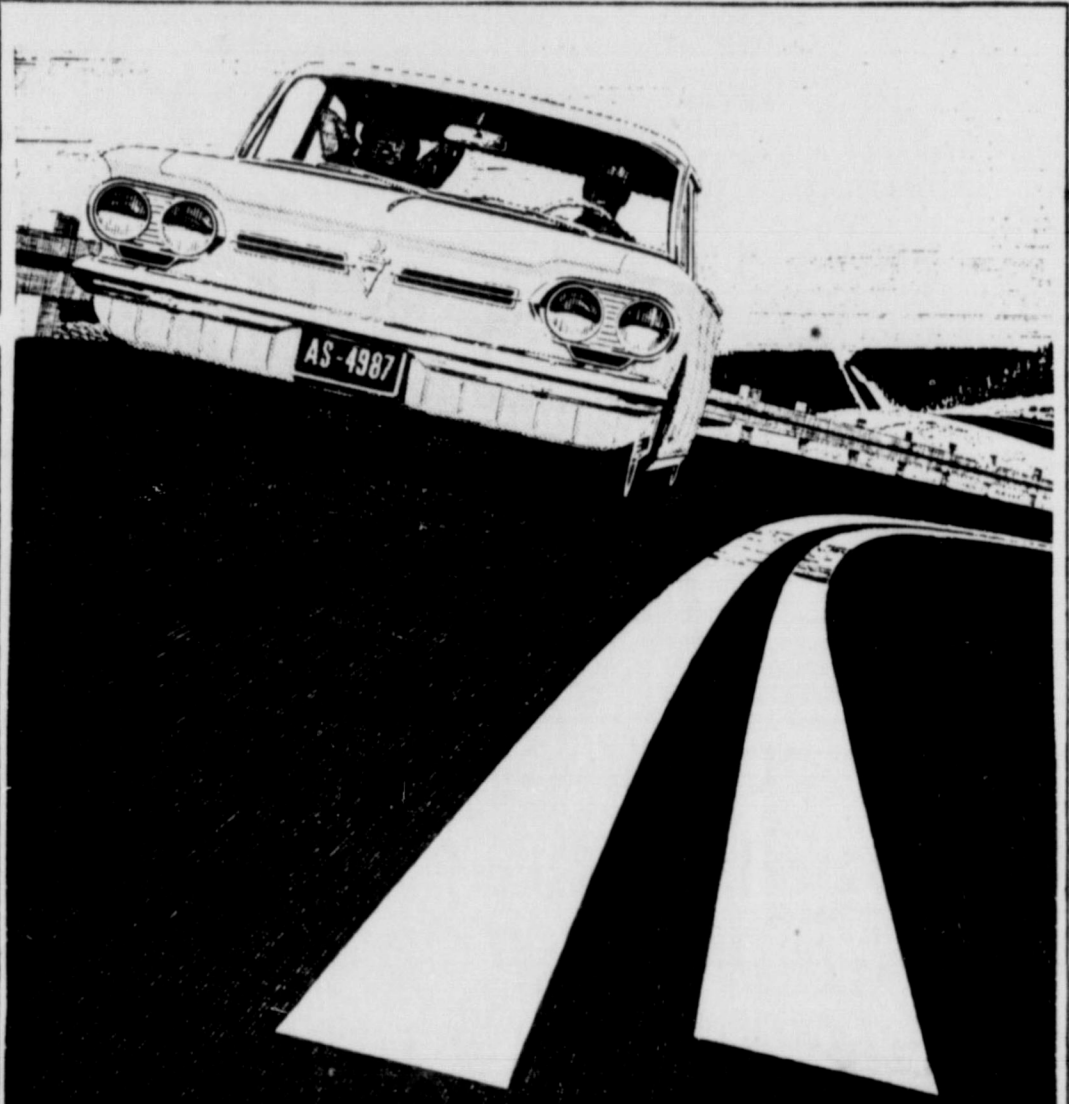

During last month, highway contractors completed \$18,684, 270 worth of new construction. Figure doesn't include the maintenance work by Highway Department crews.

SHORT SNORTS

The Berliner Morgenpost of Berlin notified Governor Price Daniel that it is sending a check for 700,000 marks (about \$200,000) which it raised from the people of Berlin, to be used to help victims of Hurricane Carla. Check is made out to Vice President Lyndon B. Johnson, a recent visitor in Berlin.

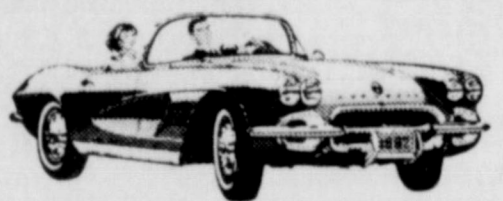

BROKEN GLASS . . . from a smashed headlight litters the pavement after a two-car collision at the intersection of Sixth and Euclid Tuesday night. Ben Moorman, police chief, is filling out an accident report. There were no injuries.

'62 CORVAIR MONZA
NEW FACE, SAME SPORTING HEART

We might as well tell you straight off: Corvair's the car for the driving enthusiast. Think that lets you out? Maybe. Maybe not. Until you've driven one, you really can't say for sure, because Corvair's kind of driving is like no other in the land. The air-cooled rear engine sees to that. You swing around curves flat as you please. You whip through the sticky spots other cars should keep out of in the first place. (Especially this year, now that you can get Positraction as an extra-cost option.) You stop smoothly, levelly with Corvair's beautifully balanced, bigger brakes. Corvair's found other new ways to please you this year. A forced-air heater and defroster are standard equipment on all coupes, sedans and both Monza and 700 Station Wagons. So are dual sunshades and front-door armrests and some other goodies. You'll note some new styling, inside and out. Nice. And safety-belt installation is easier, too, and cheaper. So you can see we haven't really done much to Corvair this year. Why on earth should we? If this car, just as she is, can't make a driving enthusiast out of you, better take a cab.

And here's America's only thoroughbred sports car, the '62 CORVETTE. We warn you: If you drive a Corvette after your first sampling of a Corvair, you may well end up a two-car man. And who could blame you?

See the '62 Corvair and Corvette at your local authorized Chevrolet dealer's

Freshmen Crush Wolves Down Chiefs, 62-6 Clovis, 27-19

Friona's fish footballers added another win to their impressive record of 4 wins, 2 losses in the Saturday tussel with Clovis.

Despite a plague of fumbles the freshmen eleven pulled out ahead of the final gun with a 27-19 victory.

The teams spent the first quarter feeling each other out and got down to work in the second session. Milton Hargus intercepted a Clovis pass to start the drive which ended in the first Friona six. Danny Murphree took the ball on the fifty and galloped into the end zone. Jimmy Snead snapped the point after.

Larry Buckley snatched another Clovis pass out of the air on their 40 yard line to set Hargus up for another touchdown. But, Clovis could not be

contained and they pushed the pill across to set the score at 13 to 7 at the end of the first half.

Friona kicked off to Clovis to open the second period. The Gattis Jr. High team pushed to the Friona 30 but failed in a first down attempt and the ball went over to Friona. Hargus again slipped by the Clovis tacklers to score on the first play. Douglas Dodd slammed the extra point over.

Clovis poured on the coal to push across shortly after the Friona kickoff, leaving the score at 20 to 13.

Early in the fourth quarter, a 15 yard penalty for holding against Clovis placed the ball on the Clovis 10 and set the stage for another Hargus score.

Hargus rammed the final ten yards and Dodd rallied the point after to end the Friona scoring for the game.

Friona got into the holding racket after their kickoff following their touchdown and received three 15 yard penalties to set Clovis up for their final score.

Friona took the Clovis kickoff but fumbled it on the 30 yard line. Clovis recovered but was hacked up to five yard line.

Danny Murphree snagged a Clovis pass out of the air to halt the drive as the final gun sounded. Final score---27-19.

Texas high schools and colleges are ordering the free income tax training materials from the Internal Revenue Service for the ninth year in a row. Early in September District Director Ellis Campbell, Jr., asked the 1385 school principals in the Dallas District to send in their order for this year's material. By the end of September 425 schools had responded ordering material for several hundred teachers to use in training approximately 45,000 Texas students.

Mr. Campbell reminded teachers that the income tax training material should be ordered before November 1, 1961. He also expressed the hope that all the schools would find a way to give this important training to as many high school and college students as possible.

Max Reeve was the man of the hour in the Chieftain rout at Dalhart Friday.

Reeve snatched a deflected Dalhart pass in the second quarter and romped fifty yards to tally the only six points for the Friona squad in the 62-6 defeat.

"He was laughing so hard he could hardly keep his feet under him," one official commented on Reeve's run down the field. But Reeve crossed the goal line an arm's length ahead of the nearest Dalhart player.

Dalhart pushed through the Friona line to score four times in the first half. Max Reeve pounced on a Dalhart fumble to give the Chieftains possession of the ball on the Wolf 11 yard line shortly after the opening kickoff.

A fourth down pass from Floyd Reeve to Gary Snead was out of the end zone and allowed the ball to go over to the Wolves who marched 99 yards in seven for the game.

plays for their first score of the one sided battle.

Friona was unable to gain a first down after the Dalhart kickoff and Snead stepped back and slammed a 50 yard punt to the Dalhart 35. Louie Allred took the punt and scampered through the Friona defense to chalk up the second wolf score.

Again the Chieftain team bogged down and was forced to punt. Six plays later, the score stood at 20-0 for Dalhart.

The Wolves scored their fourth touchdown by intercepting a Chieftain second down pass and returning it to the one yard line. Dalhart's Jay Rounsaville snapped a pass to Bill Baggett to complete the drive.

Friona was again forced to punt and renew their defensive efforts. When the Wolves' Bill Cunningham dropped back to pass, Chieftains managed to break through the line and a desperate stab deflected the ball

into the grasping arms of Max Reeve. He didn't need any prompting as to what to do. He stumbled but kept his feet and plowed his way to the end zone.

In the second half, Friona was unable to make any showing against the top rated Wolves. Despite the Chieftains' desperate efforts to contain the Dalhart squad, the game ended with a lop-sided score of 62-6.

Friona will meet the Dimmitt squad there Friday at 7:30 for their third conference game.

Red Raiders Meet SMU

Texas Tech's surprising Red Raiders meet the Southern Methodist University Mustangs in Dallas Saturday afternoon.

Crippled and with fewer experienced players than any of their opponents, Coach J. T. King's Raiders have, on successive Saturdays upset Texas Christian 10-0 and Baylor 19-17. At least one rating service had the Bears ranked as high as 13th nationally.

Such victories, cherished as they are, can't help but alert the remaining foes on the Texas Tech schedule. After combatting SMU, whose Mustangs held Rice to a 10-0 score in Houston last week, the Raiders meet Rice at Tech Nov. 4, Boston College at Tech Nov. 11, Arkansas in Little Rock Nov. 25, and West Texas State at Tech Dec. 2.

Tickets for the remaining three home games are available at the Texas Tech Athletic Office or may be requested by mail. Crowds so far have been 38,500 for Texas A&M, 25,500 for TCU, and 32,500 for Baylor.

County HD Clubs Have Council Meet

Seven Home Demonstration clubs were represented at the county council meeting October 23, in the Friona State Bank building.

Council officers elected for the coming year are Mrs. Jay Sanders, chairman; Mrs. John Hand, vice-chairman; Mrs. Kitten, secretary; Mrs. Ellis Tatum, treasurer.

The Friona Methodist Church will be the meeting place for a salad luncheon November 9. On November 30, a kitchen appliance demonstration will be held in the Southwestern Public Service auditorium and a covered dish luncheon will be served at noon.

Home Demonstration clubs

represented were Hub, Friona, Northside, Lazhuddie, Rhea, and Oklahoma Lane.

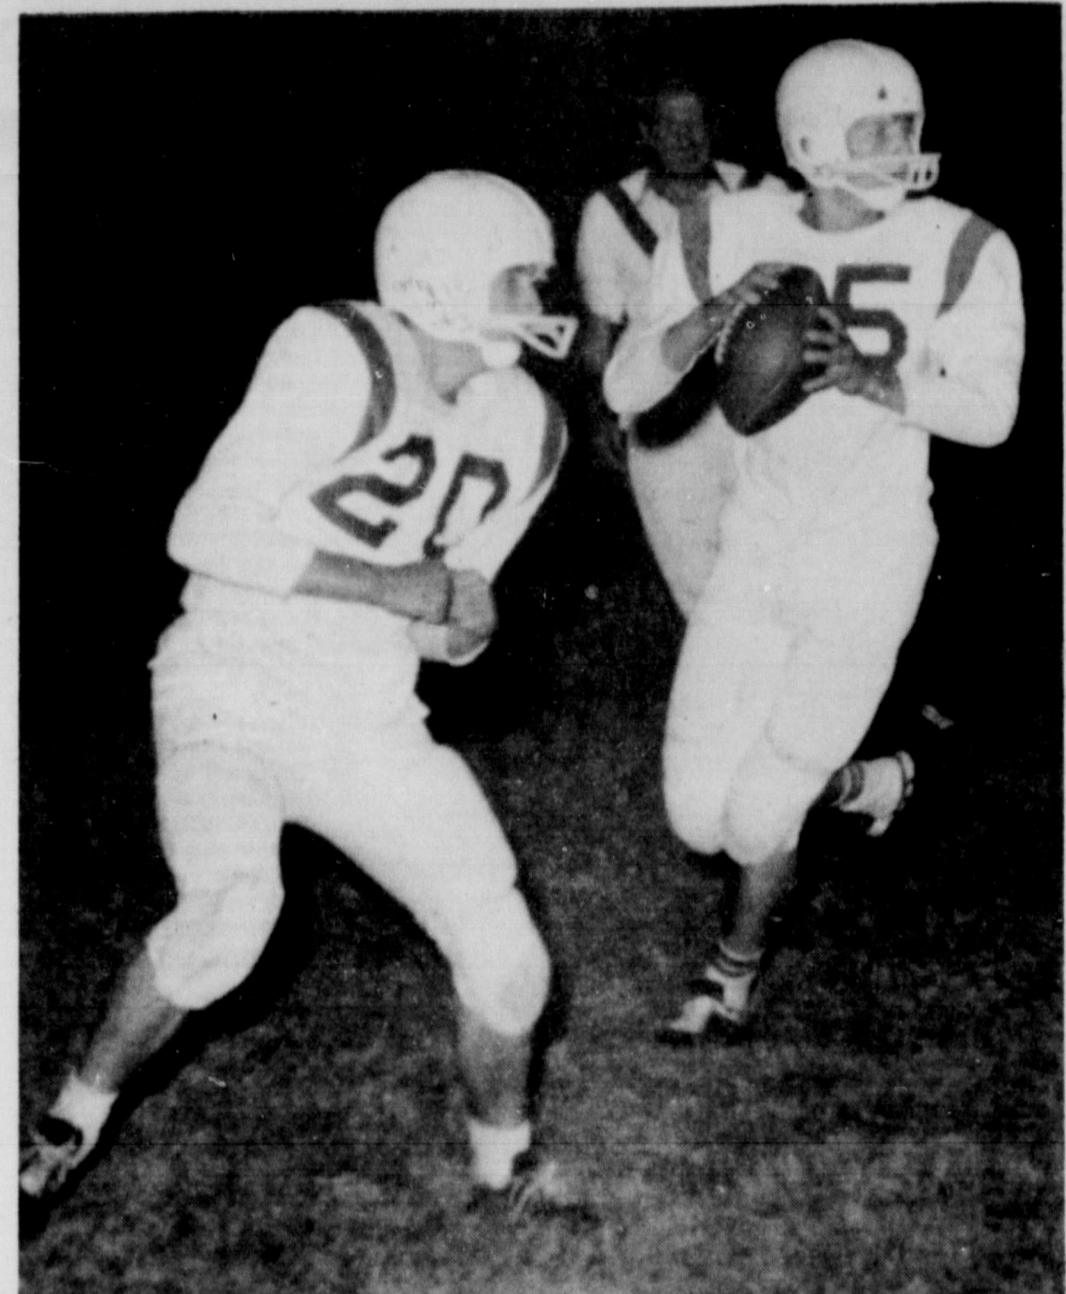

Howard Fleming Serves In Navy

Navy Ensign Howard L. Fleming, son of Mr. and Mrs. G. W. Fleming of Friona is serving with Patrol Squadron 19 at the Naval Air Station, Alameda, Calif.

This squadron is participating with 150 ships, submarines and aircraft from the United States and Canada in a joint anti-submarine warfare exercise off the west coast of the North American continent.

The exercise, named "Sea Shell," involves more than 10,000 men.

IN DEMAND: The mountain goat is a popular big game animal in Idaho. Although fewer than 2,000 of them have been taken by hunters in Idaho since 1927, the rugged animal with the ebony horns remains popular with trophy seekers in many parts of the world. Idaho shares native populations of this unique game animal with only three other states, Montana, Washington and Alaska. Others have imported a few specimens as "show pieces."

FLOYD REEVE . . . drops back to look for receivers. All the Chieftain receivers were covered by Dalhart Wolves and he had to run. Evert Gee stopped a Dalhart tackler and allowed Reeve to gain one yard on the play.

TOMMY BAXTIER . . . starts a ten yard plunge around left end in the Friday night battle with the Dalhart Wolves. Friona lost the game 62-6.

Our Own Reformation, 1961

Because many protestants hold dearly to their ideals established during the times of Luther, and because at the same time they wish to avoid abusing these ideals, I have written the following letter.

On All Saints Day, October 31, 1517, an Augustinian Monk named Martin Luther posted ninety-five theses on a church door in Wittenburg, Germany. It was a document compiled in haste and conceived in sincerity. It was written to point out and clarify a much needed concern over the dangers that threatened religious liberty. Although few protestants have ever read this document, they owe much to its existence. It is important not because it attacked a church, but because it attacked specific and quite serious abuses that existed within all of Christendom. It is certain, that if protestants are to enjoy any kind of continuing reformation, it is very necessary that they proceed to list and denounce these abuses in the same spirit as did the early reformers. But, Luther reacted against the abuses within his own vineyard. It is vital to this spirit that his spiritual descendants do the same on Reformation Sunday, October 29th, and on Reformation Day, October 31. If we courageously apply the ninety-five theses to our own denominations and sects we will find that: "Organization Men" in the name of God still go about hawking denominational indulgences to their religious constituents. Many still pay for these indulgences in the form of cash and good church attendance in order that personal success and well being may be secured. Self interested persons still obscure, corrupt, and misuse the scriptures to protect some questionable cause from extinction. The Bible still seeks to speak to men with its revelatory truths. It is a pity that few men will let themselves be spoken to. We would do well to realize that our reformation today is meant for ourselves. Only in so far as their reformation is allowed to reaffirm and re-establish the freedom of the Holy Spirit to work its change within us can Martin Luther's contribution promise any degree of hope.

Santa Fe hauls 2.3 million bales of western cotton to markets

King Cotton has moved west.

In 1945, only 36% of the nation's cotton was grown in the West. Today over 62% of it comes from states served by Santa Fe.

This year Santa Fe will haul over 2,300,000 bales of cotton to markets in 34,000 box cars—enough box cars to make up a train 284 miles long.

Hauling cotton and other important crops, materials and products from where they are grown or made to where they are needed is another example of how Santa Fe is meeting the transportation needs of a growing America.

Scout Troop 358 Meets Father Of Frionan Buried At Blair

Mary Smith and Linda McVey were hostesses for Girl Scout Troop 358 meeting Monday at 4 p.m. in the Methodist Church.

The troop was divided into patrols so that different badges could be worked on at the same time. A party was also planned for the younger troop. Patrols in troop 358 will be responsible for refreshments, entertainment and sending out invitations. Each patrol will have a specific responsibility.

Funeral services for J. T. Dennis, 88, long-time resident of Blair, Okla. were conducted there Oct. 14. Dennis, who moved to Oklahoma from Tennessee about 50 years ago, was the father of Fred Dennis of Friona.

Mr. and Mrs. Fred Dennis, Bill and Julia Jan attended the services. Burial was in the Byars Cemetery.

Other survivors include four sons, Bill Dennis, Lubbock, Elson Dennis San Diego, Jasper Dennis, Houston, and O. A. Dennis, Altus, Okla.; two daughters, Mrs. Ed Holcomb, Lubbock and Mrs. Jack Holcomb, Altus, Okla.

TAIL TWISTER . . . for the Lions Club at their twentieth celebration Sunday gathers the tie of Lion Kenneth Williams and threatens to cut it off if Williams does not pay his fine for a purported infraction of Lion Protocol. Williams paid the fine.

Lena Bracken Dismissed

Mrs. Lena Bracken was dismissed from Parmer County Hospital Tuesday and is convalescing at her home.

Members of her family report that her condition is good. She became ill while attending services at Sixth Street Church of Christ Sunday morning and was taken to the hospital by Claborn ambulance.

Phillip Bates Joins Knights

Phillip Bates, Abilene Christian College junior from Friona, has accepted an invitation to join the Knights, men's social club at ACC.

Bates, the son of Mr. and Mrs. R. L. Bates of Friona, was graduated from Sunray High School in 1959 and is a mathematics major at ACC.

ASKS CONGRESSMAN

Communists Changed Strategy?

The question is asked many times as to whether or not the Communists have changed their strategy or will change their strategy. Strategy is defined as the employment of artifice, intrigue, etc. In the light of this definition, the answer is a resounding NO! However, it is well to note that the Communists have changed their types of strategy or tactics, and can

be expected to change these from time to time as circumstances require.

Their end purpose, to wit, Communist domination of the world, will not change. However, all of the tricks that can be conceived in the mind of man will be employed or re-employed when they are needed to serve the Communist cause. If this requires a change of

position geographically, politically, or otherwise, such change will be made, but the making of the change must not be misconstrued by those under attack as an indication of repentance or weakness on the part of the Communists.

Those people who are presently emerging into the light of independence would do well to walk very carefully

and to weigh with great care each and every step they take. Many of these peoples who are former colonies look upon this country as the finest example that could ever be created of an ex-colony. They have looked upon us for leadership and will expect that leadership. However, many of the people in these areas are not familiar with the responsibilities, the

burdens, the sacrifices and the problems associated with independence and self-government. Hence, they are sitting ducks in many respects for the entreaties and false promises of the Communists.

The Communists realize this and are exploiting it for all it is worth. In fact, this is one of the circumstances that caused the USSR to make a major change in its tactics. Prior to the emergence of these new countries, the Communists had operated primarily on the premise that they must work outward from their home bastion. In other words, move into those countries adjacent to the Communist countries of the USSR and Red China. Korea was an excellent example of this tactic. Laos and Viet Nam have been other examples as has the satellites in Eastern Europe.

However, a marked change has been noted by students of the Communist strategy. They have begun to step up at great length their activities in the infiltration of countries and areas separate and apart from their homeland area, separated in most instances by areas of the Western free world allies of the Western free world. Cuba is an excellent example of this type of diplomacy as is the great changes that have been made in Indonesia in recent months by the Communists.

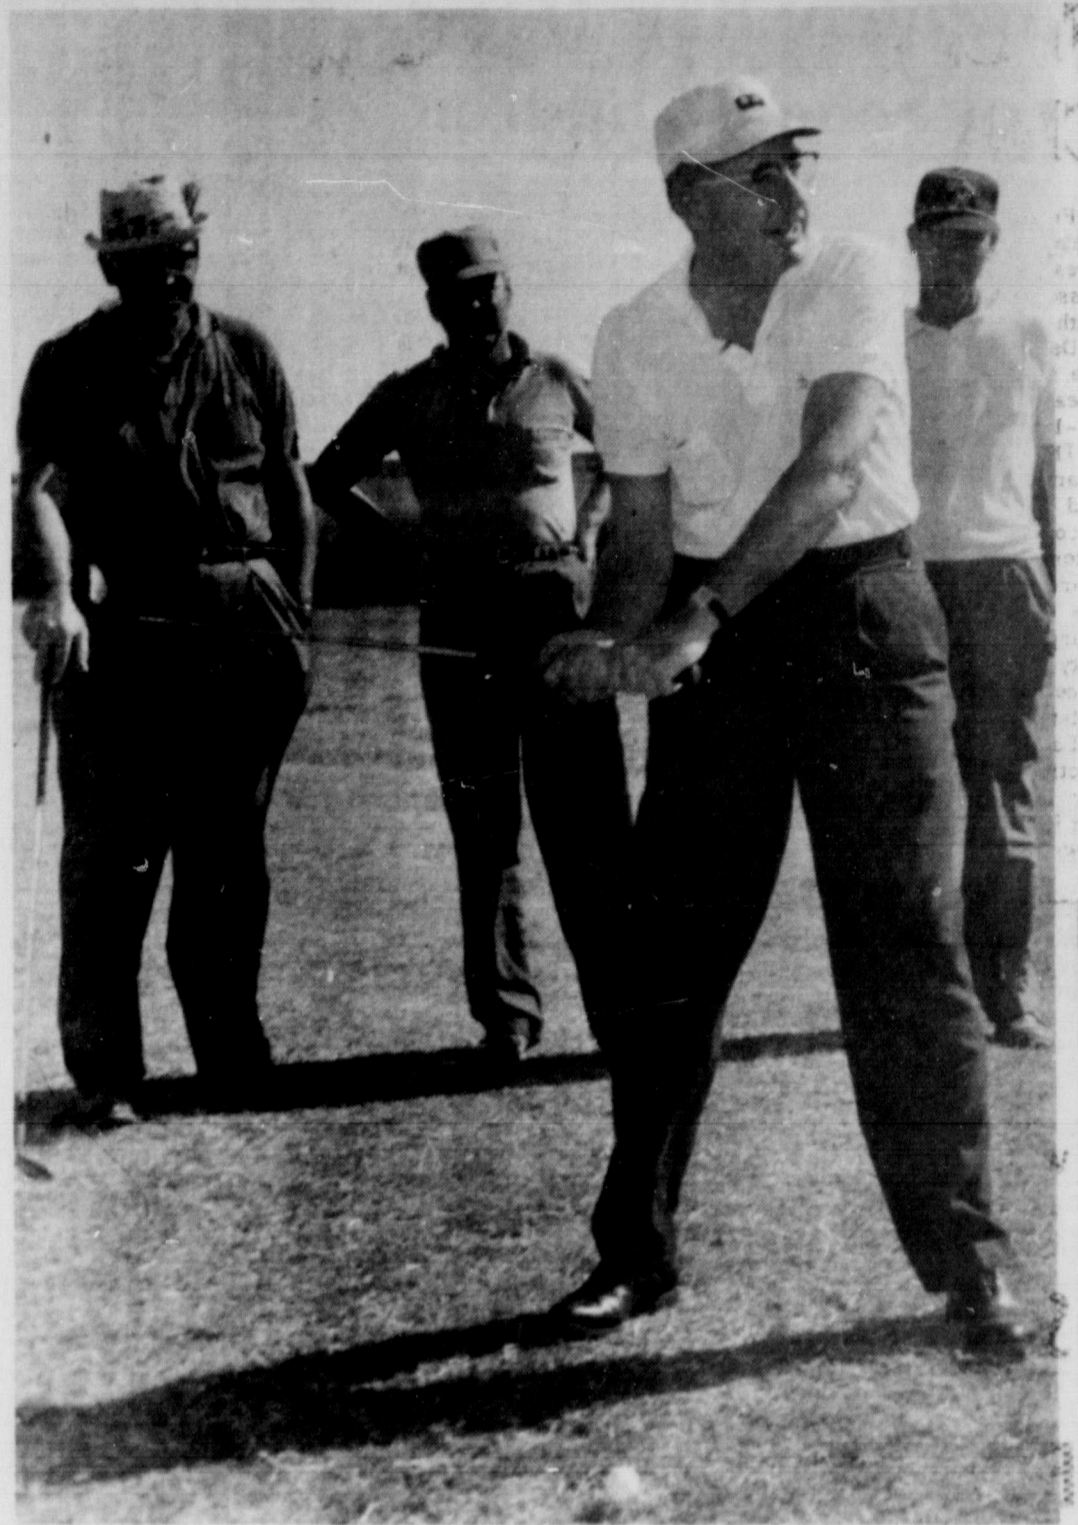

Other examples are many of the countries in Africa, as well as the stepped up efforts in South America. This does not mean that their efforts will be relaxed in the areas immediately surrounding the main Communist stronghold. The same brush fires will be continually maintained, such as Berlin, and the difficulties in the Near East countries--Laos, Viet Nam, Quemoy, Matsu, and Formosa.

The prime objective in the European area is to destroy the North Atlantic Treaty Organization, commonly called NATO, of which this country is a member. If the Soviets can mislead Western Germany into withdrawing from NATO, it will have accomplished a great proportion of its purpose. They obviously hope to do this by neutralizing Germany with any and all agreements or promises necessary to accomplish this result. Once neutrality has been accomplished, both East and West Germany will be taken into the Red orbit by force or otherwise.

It also hopes to so infiltrate Italy as to force withdrawal of that country from NATO and further weaken the organization and undermine world confidence in the power and leadership of the United States. England also will come in for internal attacks in the nature of disarmament demands on the part of Communists and Communist fellow travelers who have infiltrated the British Isles.

Much more could be said on this subject, but the main objective is to point up the continuing danger and the great need for constant alertness by all Americans and all those who look forward to freedom and a better way of life.

Big Enough To Accommodate - Small Enough To Appreciate

Accident Rate Down For School Children

Accidents took the lives of 81 school-age children in Texas during the 1960-1961 school year, 17 less than the 98 recorded during the 1959-60 school year, according to a report compiled by Lewis Spears, safety consultant, Texas Education Agency, Austin.

Forty-nine of the 81 deaths in 1960-61 are listed as "out-of-school" and are not related to the school accident record; 32 of the deaths resulted from accidents in school or on the way to and from school.

Statistically, the 32 in-school accidents are approximately .001563 of one per cent of the more than 2,046,000 children enrolled during that period in Texas elementary and secondary public schools.

During the same period, injuries (in or out of school) caused 60,733 students to miss 55,155 and one-half days of school attendance, less than two-tenths of one per cent of the approximately 332,625,000 days of aggregate daily attendance.

The statistics quoted do not include private and church-related schools.

Spears, in a recent annual safety report to school superintendents, suggested that accidents might be further reduced by placing more emphasis

on the correct use of playground equipment, and by spending more time on directed play in the first three grades of school.

In grades 1-6, one of every three "in-school" accidents occurred when children were "scuffling" and/or using playground equipment.

In grades 7-12, the greatest number of injuries occurred in athletic activities. According to the report, "This is understandable as athletic activities play a large role in secondary school training."

"The number of these accidents can be reduced, no doubt, by the development of an improved physical conditioning program, better equipment, and rigid enforcement of playing rules."

Spears complimented Texas teachers on "an excellent job in safety education and general attention to students' physical welfare. Thousands of them devote much of their leisure time to training in accident prevention, civil defense, and first aid. They are the front line of defense against accidents and disease. As they are in daily contact with every child in school, they are often the first to observe seeing and hearing difficulties, or that a child's physical appearance indicates impending illness."

Buddy Lloyd, Mgr.

Someone asked the farmer how it was that he could plow such a straight furrow. He replied "I just keep my eyes on that distant tree, and plow straight for it!" This introduces an essential ingredient of successful Christian living. Singleness of purpose is absolutely necessary if one would hold a straight course in the narrow way. This, one cannot do if he is trying to accommodate his course to the traditions and prejudices of men. "A double minded man is unstable in all his ways" the inspired writer, James, tells us. Man, groping through the darkness of this life, needs a leader. "It is not in man that walketh to direct his steps." (Jeremiah 10:23) All men make mistakes, even when we do the very best we can, but we invite mistakes when we take our eyes from the Great Shepherd who goes ahead, and try to blaze our own paths. On the day of Pentecost those who were guilty of the blood of Christ, cried out, "... what shall we do?" Peter simply gave them the Lord's remedy, "Repent and be baptized every one of you for the remission of sins." Now don't miss the lesson -- "These people had tried to walk in their own ways, and had miserably failed. Just a few days before they had cried, "Let him be crucified." Not until they heard the gospel of Christ did they realize that this was impossible. But they realized something else; one must focus his eyes on the Lord of glory, and follow him by faith, doing all of his commands, and trusting him for the reward of faithful obedience.

come to church Sunday

At midnight Paul and Silas prayed, and sang praises unto God; and the prisoners heard them. (Acts 16:25.)

Daniel was not only an able administrator, but also a man who so valued his close relationship with God that he continued to pray daily, even though it meant a death sentence. We read in the New Testament of two missionaries who found comfort in prayer after being beaten and imprisoned for their faith.

Our principal reason for praying is to keep in touch with God - to share with Him our problems, our joys. This was what Daniel was doing in his daily prayers. This was what gave him the strength to stand firm in the fact of death. The same kind of strength upheld Paul and Silas in their prison cell.

In our daily work each of us faces many problems and difficulties. These are not like the den of lions or the prison cell, but to us they are very real and serious. If we pray day by day, God will give us strength we need to meet our problems and difficulties.

Blackwater Draw Sandhills Yield Secrets Of Eons Ago

BY DUDLEY LYNCH
United Press International

PORTALES (UPI)—Designating an area of rolling sand hills and tall shade trees near here as a New Mexico State Park has saved for future generations a collection of ancient fossil beds dating back at least 13,000 years.

Oasis State Park, towering Cottonwoods nestled among undulating sand dunes, is located over an ice-age lake bed which has interested scientists since 1932.

During that year, a highway construction crew discovered the fossils beds which have since become one of the most important scientific finds in determining the length of time mankind has occupied the North American continent.

Seven miles northeast of Portales, the area has become a large supplier of gravel and road-building materials in recent years. Much of the important deposit of material on early man has been lost as huge dredges scooped the gravel from the earth.

For a time, it appeared the entire find might be lost.

But Dr. Fred Wendorf, research associate for the Museum of New Mexico, pressed for the preservation of a small three-acre section for future use.

Large Investment

A large investment in expensive dredging equipment discouraged the abandonment of any of the valuable gravel deposit and nothing was done until the state set the park earlier this year.

Outstanding among many finds in the area was the discovery in 1934 of a flint spear point imbedded in the leg bone of an ice age mammoth. This led to the claim that man lived in North America at the same time as the huge animals.

The find backed up for many years proof that man was in the New World as far back as 12,000 to 13,000 years ago.

To the patient scientists, some of whom have dug in the sand and clay for months, the desolate area has given up knives, stone projectiles and other valuable items of ancient man.

The latest find was the fossil of a large sea turtle, uncovered about a year ago 40 feet below the surface by a dredge operator.

Former Geologist

A former geologist and anthropologist at the University of Texas, Dr. Elias Howard Sellard, spent parts of 10 years digging at the site.

The finding of what are believed to be the oldest wells on the North American continent mark the high light of his activities. The wells show where primitive peoples dug clay and sand out until they reached the shallow water level which now irrigates farms in the Portales Valley.

The secrets of "Blackwater Draw"—a name arrowhead hunters have given the area—has become even more interesting with a breakthrough in a new area of science.

Scientists have become able to identify pollens preserved in earth strata for centuries. This is brought to Portales in 1956 the world's leading authority on ancient pollen.

He was Dr. Johannes Iverson, head of the Paleobotanical Laboratory of the Geological Survey of the University of Denmark.

By determining the type of plants, trees, and mosses that existed by identifying their pollens, Iverson and other pollen scientists can trace weather conditions back for 13,000 years in the "Blackwater Draw" strata.

Iverson confirmed the importance of the strata, which contain the only complete stratigraphic order on human culture found on the continent. This means evidence of man can be systematically found, strata by strata, for 13,000 years.

INTRODUCING FRIONA'S POWERHOUSE EIGHT GRADE FOOTBALL TEAM

First Row: Ricky Coon, Scott Cummings, Johnny Baxter, Tom Bill Shelton, Travis Graves, Benny Roulain, Jessie Shirley, Second Row: James Carol Wilson, Bobby Sims, Melvin Hassenpflug, Bobby Ray, Tim Herring, Tommy Sherley, Eugene Weatherly, Third Row: Ray Gene Braxton, Mike Fallwell, Joe Aleman, Paul Hargus, Larry Johnson, Hugh Latham, Fourth Row: Dwight Whitaker, Jay Turner, Dwayne Reed, Rex Wells, Roal Gibson, Bing Bingham, Fifth Row: Kenneth White, Lonnie Ellis, Bryon Evans, Eldon Long, Johnny Claborn, and Coach, Mr. Tom Jarboe, Managers, Gary Shackelford, Jimmy Kreig, and Jay Beene.

London Oil Test Passes 4,000 Ft.

Above the deafening roar of the giant engines, the hair-raising screech of the brake on the draw works could easily be distinguished on the location of the local oil test this week as the grinding bit pierced the subterranean formations at an almost astonishing rate.

The 128,000 pound string of drill pipe and drill collars (exceptionally heavy and thick pipe which places weight for the bit at the bottom of the hole) reached 4,300 feet into the earth beneath the London farm Tuesday.

Water is being used for a drilling fluid (used to lubricate, clean and cool the bit and to carry the cuttings out of the hole) but is allowed to mix

with the redbed to a viscosity of about 30.

Seven days ago, the hole was only 513 feet deep. The actual drilling time per foot was averaging one and one-half minutes as the rig pushed past the 4,000 mark.

The rig is equipped with an automatic driller which keeps the desired amount of weight on the bit at all times. It is connected with the weight indicator and the brake which controls the wire lines suspending the blocks and drill stem.

As the bit begins to bore its way into the formation and return some of the weight to the derrick, a switch is triggered. The switch activates an instrument which releases the brake

on the draw works slightly and allows the cable to begin unwinding and thus lowering the weight back on the bit. When the desired weight is reached, a switch is again thrown and the brake is clamped tight.

But a man must keep a sharp lookout for trouble. A small error or malfunction in any of the automatic equipment could result in many hours of days of

Weekend guests in the home of Mayor and Mrs. Raymond Fleming were Mr. and Mrs. M. E. Cone of Clovis, Mr. and Mrs. Eldon Cone and family of Brownfield and Mr. and Mrs. Don Reeve of Amarillo.

lost time and untold expense.

The second string of pipe will be cemented into the hole within the week. According to reports from the crews on the rig, the salt string will be set at about 5,000 feet.

Mr. and Mrs. Robert Collier, Darrell and Rita were Sunday afternoon guests in the home of Mr. and Mrs. C. B. Price of Olton.

A father called in his 6-year-old daughter and explained to her that the gardener had found a lovely little sister for her early that morning among the cabbages. The father then suggested, "you write to your brother Charlie (away at school) and tell him about it." The child wrote the letter and gave it to her father to be mailed. He peeked at the message, which read: "Dear Jack, you owe me a quarter. It's a girl."

A YOUTH'S PRAYER
God, who touchest earth with beauty,
Make me lovely too;
With Thy Spirit re-create me,
Make my heart anew.
Like Thy springs and running waters,
Make me crystal pure;
Like Thy rocks and towering grandeur,
Make me strong and sure.
Like thy dancing waves in sunlight,
Make me glad and free;
Like the straightness of the pine trees
Let me upright be
Like the arching of the heavens,
Lift my thoughts above;
Turn my dreams to noble action--
Ministries of life.
God, who touchest earth with beauty,
Make me lovely too;
Keep me ever, by Thy Spirit,
Pure and strong and true.
Copied--

For the first time in history, this year there are more Americans who own their own homes than those who do not.

CONTEST RULES

- There are 10 college and high school games in the ads on this page.
- Pick the winners you think will win and place the WINNER'S name beside the sponsor's name in the Contest Entry Blank at bottom right of this page.
- PICK THE SCORE OF THE GAME OF THE WEEK and place your guess in the appropriate blank on the entry. Bring or mail the entry blank to the Star office by 6 p. m., Friday following this issue of the paper.
- Winners will be chosen by a group of judges each Saturday.
- Weekly entry blanks will be kept all season and at the end of the Football Season the winner of the Grand Prize of 2 Free Tickets to the Cotton Bowl Game PLUS \$55.00 Expense Money will be presented to the lucky person who has picked the greatest number of correct games throughout the season. Ties will be determined by the judges.
- Only One Entry Per Person
- All employees of this paper and their families plus families of sponsors are not eligible in this contest.

Of Interest To THE WOMEN

Shower Courtesy To Miss Donna Guinn

Miss Donna Guinn, bride elect of Jerry Smith, Muleshoe, was guest of honor at a tea and pre-bridal shower at the Mule-shoe Country Club Tuesday afternoon, Oct. 24.

The bride's chosen colors, purple and white, were used on the display tables and throughout the decorating room.

Guests were registered by Glenna Guinn and Linda Gillis and Shirley Burlesmith presided at the serving table.

Hostesses were Mesdames Evelyn Autry, Robert Sanders, Ross Goodwin, John Farley, Ernest Kerr, C. B. Goucher, D. O. Burlesmith, Joe Shipman, David Wyr, Winnie Dunn, C. H. Gillis, Alvis Burge, Willie Strong and Alex Williams.

Miss Guinn is a former employee of Rushing Insurance Agency, Friona.

in and around FRIONA WITH JUNE

It has been said that some of the most wonderful experiences a person has are those which are unplanned and unhearsured. This thought came to me Tuesday evening after a very busy day. Two of the nicest things that happened to me that day were conversations with two young ladies whom I had never met before.

Visiting with Mary Jeff Guthrie of Lovington briefly left me with the feeling "If the future of America is to be directed by young people like this, we have nothing to worry about."

Miss Guthrie, a student at ENMU at Portales, visited the Star office and was most interested in observing some phases of newspaper production. During my chat with her

In spite of the fact that she wasn't very old, she was aware of what was going on around her and displayed very nice manners.

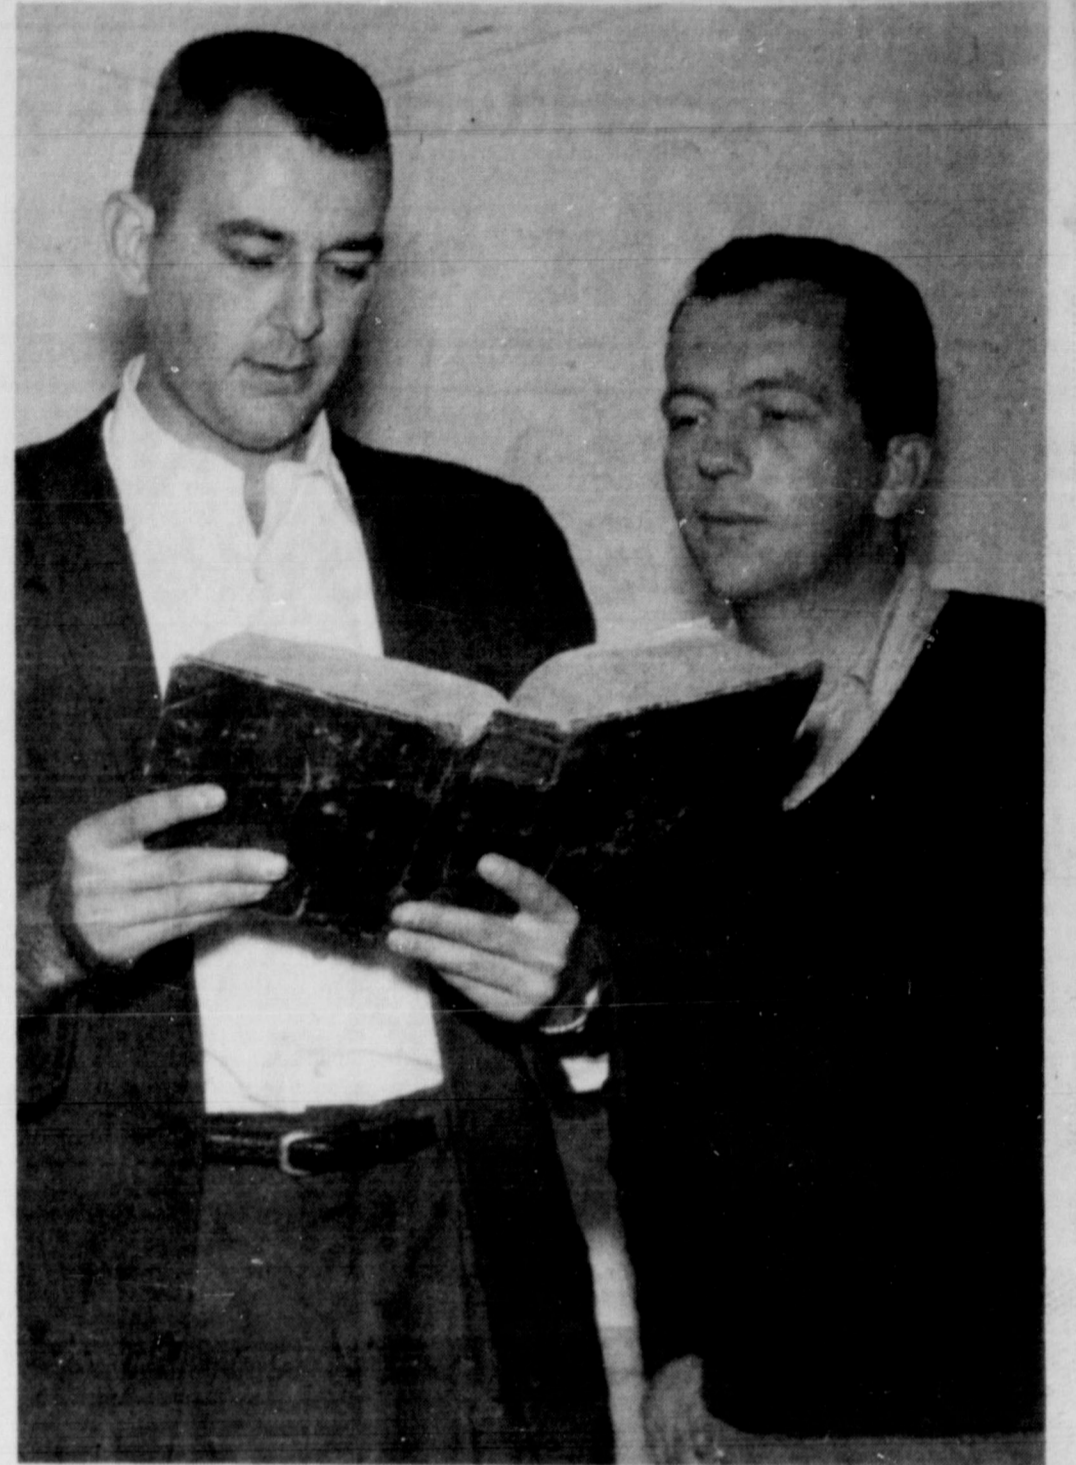

Mr. and Mrs. W. B. Norwood Sr. are very proud of their newest granddaughter, Becky Lynn Norwood. She was born one day last week on her uncle W. B. Jr.'s birthday, so now Grandmother Norwood will have two out when she decides the family should get together on October 19.

We are all familiar with Tall Texas Tales and take most of them with a grain of salt. A story being told by Lloyd Rector, who lives south of town has been placed in this category by some listeners. However, since I've known Lloyd quite a long time and have a great deal of respect for his integrity, I'm going to believe that he really saw a young deer near Bob Riethmayer's place recently.

Of course, I'm not prepared to answer such questions as "Where did it come from?", "What was it doing way off out there alone?" and a few others.

Location of a drilling rig on the P. L. London farm southeast of town has been cause for a lot of coffee cup conversation recently.

This reminds me of my favorite oil field joke. It's supposedly one Boyce House told at a banquet in one of our neighboring towns. "A well-known consulting geologist used to relate that many years ago a convention of geologists was being held in

BILL PHILLIPS, minister of Union Congregational Church and Ed Fallon, (R) lay worker of the St. St. Ann's Catholic Church in Bovina, look over a Swiss Bible reported to have been printed in 1773. The Bible is one of an exhibit of local family Bibles to be on display at the Congregational Church Sunday at 7 p.m. The exhibit will be featured during a Reformation Day Supper.

Farewell Supper For The Rhodes

The Jaycees were hosts to a buffet supper honoring Mr. and Mrs. Gaylon Rhodes recently at the home of Mr. and Mrs. Billy Sifford.

Guests of honor were presented gifts. Others attending were Mr. and Mrs. C. H. Veazey, Mr. and Mrs. Cotton Jenner, Mr. and Mrs. Glenn Reeve Jr., Mr. and Mrs. Billy Nazworth, Mr. and Mrs. Ronald Smiley, Mr. and Mrs. Virgil Phipps, Mr. and Mrs. Walter Haws, Hudson B. Phillips, Robert Zetzsche and Mr. and Mrs. Dwain Ridley.

Mrs. A. H. Jones and daughter, Julie Marie, of Portales were Wednesday afternoon visitors in the home of Mr. and Mrs. Gerald Wright. Mrs. Jones and Mrs. Wright are sisters.

Texas and a great college professor, an outstanding authority, from the East, was the chief speaker. In his address he declared, "We geologists can't tell an oil man where to drill with the assurance that he will strike oil; but we can tell him some places not to drill. For example, we know that it is useless to expect to hit oil in the red beds of West Texas."

But an oil operator who didn't know this did drill in the red beds. The college professor was right; the operator didn't strike oil in the red beds. However, he went on through and below that formation, he hit oil. The Pecanian Basin, one of the greatest oil-producing areas in the world was discovered. Modern Midland, Big Spring, Odessa and other cities owe to it much of their teeming growth and activity and the University of Texas has seen dozens upon dozens of millions of dollars added to its Permanent Fund.

MAKING PLANS for the local observance of the 11th annual National Catholic Youth Week, Oct. 29 through Nov. 5, are Rev. Declan F. Gilligan, pastor of St. Ann's Parish and St. Teresa of Jesus Church in Friona, Dixie Chitwood, (L), Danny Covarrubias and Felipe Covarrubias. The theme of the week is "Youth, Unity, Truth." Over eight million Catholic youth are joining in the observance throughout the country.

Daughter Born To Norwoods

Mr. and Mrs. Jimmy Norwood became parents of a baby girl at Parmer County Community Hospital at 12:40 p.m. Thursday. She weighed 6 lbs. 15 ozs. and was named Rebekah Lynn.

Grandparents are Mr. and Mrs. W. B. Norwood Sr. and Mr. and Mrs. Clifford Crow. Great-grandparents are Mr. and Mrs. V. M. Settle of Amarillo and L. M. Crow of Friona.

Mrs. J. Thurman Hosts Hub Club

Mrs. Flake Thurman was hostess to the Hub Home Demonstration Club at the Hub community center October 19 at 2 p.m.

Miss Ettie Musil presented an interesting program on "Child Development and Guidance". Plans were completed for a Halloween carnival to be at the community center October 31. Everyone is invited to attend and entertainment will be furnished for all.

Members present were Mes-

dames John Hand, T. I. Burleson, Gilbert Wenner, M. T. Hukill, G. W. Fleming, Buck Fallwell, Albert Cannon, W. E. Stringer, a new member, Mrs. Billy Thorne and three guests, Debra Fallwell, Vicki Cannon and Shirley Wenner.

THE HIGH PLAINS FARM AND HOME

ON FEBRUARY RATE INCREASE

Plains Group Releases Irrigation Gas Report

By TRAVIS HARRELL
(Editor's Note: This is the first in a series of two articles in connection with a report on the irrigation gas rate increases by Pioneer Natural Gas Company which was prepared by Dr. E. A. Steinberger, gas rate and valuation consultant, and submitted to the Plains Irrigation & Gas Users Assn. at their request.)

In February, 1961, Pioneer Natural Gas increased the rate charged for gas used by farmers for the purposes of operating irrigation wells.

Several Farmer County and area farmers immediately began to question the fairness of and necessity for the rate increase. The inquisitiveness spread quickly and on March 16, 1961, a group of farmers banded together and formed the Farmer County Irrigation and Gas Users Assn.

The professed purpose of the organization is to provide fuel for irrigation at the lowest possible price for the members of the association and to take all action necessary to promote the general welfare of irrigation farmers on the high plains of Texas—by means of legislation or any other action deemed necessary by the board of directors of the association. Interest in the organization:

grew until the Farmer County organization became one of 10 counties which form the Plains Irrigation and Gas Users Assn. Membership in the organization is based on the number of wells which a farmer is operating. Dues are set at \$2 per well per year.

The Farmer association lists dues paid on 725 wells. Ninety per cent of the dues paid to the county branches are forwarded to the plains headquarters and the remainder is retained by the local group. Several other counties are in the process of establishing additional branch organizations.

Bruce Parr was elected president of the Farmer County group at the March meeting. Gilbert Kaltwasser was named vice president Carl Schlenker, secretary.

Directors of the Farmer branch are: Vernon Syncox, Marion Carson, Hap Fairchild and Fred Burch. Each county organization is entitled to send one representative to the plains association as a member of the board of directors.

Following several conferences and considerable correspondence with C. I. Wall, president of Pioneer Natural Gas Company, representatives of the association retained Dr. E. A. Steinberger, Dallas, for the purpose of making a study of the "reasonableness" of the increase of 11.129 per cent in the irrigation gas rates. Steinberger is reputed to be one of the foremost authorities in the field of gas rate and valuation

consultants.

Steinberger and association members presented their proposal to representatives of the gas company and received access to the books of Pioneer Natural Gas for the purpose of making the study.

Steinberger has often been employed by the Railroad Commission as an independent consultant in gas rate controversies and has had broad experience in this field. He was chief valuator engineer for Lone Star Gas Company for 18 years before opening his own offices as a private consultant. He has been engaged in some phase of the gas business for over 35 years.

He was employed by the board of directors in August to make the study and report factual information to the board so that the board might determine for itself the fairness of the recent increase made by Pioneer Natural Gas to the irrigation farmers of the Panhandle and South Plains.

The contents of the report were released for public consumption Oct. 16.

The report, according to David Burgess, president of the board of directors of the association, reflects that Pioneer would receive a return of 12.292 per cent on their investment.

The figures are set on actual cost basis, minus accrued depreciation, plus allotted working capital.

These figures indicate an 18.852 per cent increase in the rate of return over that enjoyed under the 1960 rate.

Based upon figures submitted by Pioneer Natural Gas Company to the board of directors and used by Steinberger, if depreciated fair value were used, the 1960 rate would represent a return of 8.39 per cent to Pioneer of depreciated fair value. Under the February, 1961, rate, it would return to Pioneer 9.98 per cent as contrasted to a 6.50 per cent rate of return which is the maximum rate of return normally allowed to companies regulated by the Railroad Commission.

If sale of irrigation gas were regulated by the Railroad Commission, a decrease of approximately 25 per cent would be necessary instead of the 11.129 per cent increase brought about by the new rate, according to the association's report.

The term "fair value" refers to a somewhat complicated system of accounting. One method it is arrived at, is by taking 50 per cent of the original cost, less depreciation, plus a reasonable amount of working

capital and adding 50 per cent of the replacement cost.

Another finding reported by Steinberger is that the rate is directly adjusted to the consumption bracket. That is, with the rise from a low rate bracket of, say 301 m.c.f. of gas to 501 m.c.f., the gas rate also rises from a 14 per cent increase to a 16.666 increase over the old rate of 1960. An increase of 17.391 is shown for the bracket above 1,000 m.c.f.

This means that a higher rate will be paid for gas when a large amount is consumed than will be paid when a smaller amount is used.

What does this mean to the farmer in Farmer County? What does it mean to Pioneer Natural Gas? These questions will be dealt with next week.

vet: "Next time she gets up, why don't you sell her?"

J. B. Taylor inspects one of the many potatoes gathered in his field east of Friona. Taylor planted 60 acres in potatoes this year and has averaged about 280 sacks per acre. Harvesting of the final few acres was completed last week. They were

left in the field too long for best appearances, according to Taylor. The slick red coat of the potatoes was already turning a light brown in spots.

The HAPPY HOMEMAKER

BY JUNE FLOYD

Homemakers who haven't seen a copy of a cookbook recently published by Lubbock Christian College Associates have really missed a treat. Regardless of the number of cookbooks you have in your collection, you will want to add this one when you have an opportunity to see it.

Treasured Recipes is the title of the book and it contains menus along with recipes for appetizers, beverages, dips, candies, relishes, cakes, pies, cookies, candy, salads, meat dishes and vegetable dishes.

For the next few weeks I plan to borrow some of the recipes for our readers. Since pumpkins are in season at this time of year, the first one I have selected is for

NO-BAKE PUMPKIN PIE

1 cup pumpkin
1 package marshmallows
dash salt
1 cup heavy cream
1/4 teaspoon nutmeg
Melt pumpkin and marshmallows over hot water. Cool; add whipped cream, nutmeg and salt. Pour into cook baked pie shell. Chill 1 hour. This recipe was submitted by Mrs. Carroll Spelce of Lubbock.

flour and nutmeg, sprinkle over apples, and toss to coat. Spoon into unbaked pie shell, and sprinkle with lemon juice. Combine remaining sugar and flour, cut in butter, and sprinkle over apples to cover.

Slide pie into a heavy brown paper bag large enough to cover pie loosely. Fold over end twice, and fasten with paper clips. Place on large cookie sheet. Bake 1 hour at 425 degrees. Split bag open and remove pie.

Mrs. Sue Lott of Springlake submitted the following recipe

JEFF DAVIS PIE

2 cups sugar
1/4 stick butter
3 eggs, well beaten
1 1/2 cups milk
1/2 teaspoon each cinnamon, cloves, allspice
1 teaspoon each cocoa, flour, lemon extract

Add melted butter and milk to eggs. Add dry ingredients. Pour into 2 unbaked crusts and bake at 450 degrees ten minutes then at 350 degrees 30 minutes.

Homemakers, who enjoy sewing items of wearing apparel for members of their families or for gifts for friends and relatives, should try at least one hat. Patterns for simple hats are available and materials suitable can be bought at any department store.

Several of the home demonstration clubs in this area have had hat making demonstrations and members have been well pleased with the results of their hat making efforts. Making a simple hat doesn't require any special equipment or skill and may prove to be a rewarding experience.

The next pie recipe was recommended by Mrs. O. C. Collins of Midland and is very different. It is

PAPER BAG APPLE PIE

3-4 large baking apples
1 cup sugar
10 tablespoons flour
2 tablespoons lemon juice
1/2 cup butter
1/2 teaspoon nutmeg
Chunk pared apples. Combine 1/2 cup sugar, 2 tablespoonfuls

Solons Meet With Sugar Beet Group

Area and local farmers and businessmen interested in obtaining an increased allotment of the sugar beet crop will meet with several congressmen in Hereford Nov. 14.

Congressmen Walter Rogers, George Mahon and W. R. Poage will attend the meeting. Congressmen from New Mexico, Oklahoma and others from Texas are also expected to meet with the group. They will furnish the program following the barbecue.

Local growers hope to show beets being harvested to all who are interested.

The West Texas Chamber of Commerce has joined in the event and local clubs will hold their meetings jointly with the group that day. The meeting is intended to encourage the Congressmen and to show them ap-

preciation for what they have done in the furtherance of sugar beet legislation.

The 87th Congress recessed for the year 1961 in the latter part of September without any permanent sugar legislation as was promised by congressional spokesmen. The Senate and house conferees had agreed to hold hearings and enact a permanent sugar law to replace the 15 month compromise extension of March, 1961.

The hearings were held by the House Agricultural Committee for new areas interested in production May 18 and 19 and the matter was sidetracked the remainder part of the session. Action was said to be waiting on the Secretary of Agriculture to make recommendations.

The Secretary has not made

public his recommendations as of this date. His report is expected with the reconvening of Congress in January.

The news accounts of the statements of the Secretary indicate that he will probably recommend an increase in domestic production of approximately one million tons, which would be ten beet processing plants, and which would be equivalent of changing the ratio of domestic production, including Hawaii and Puerto Rico, of 55 per cent of domestic consumption to the ratio of 66.6666 per cent for domestic production and 33.3333 per cent for foreign imports.

Many of the western congressmen have worked toward enacting some satisfactory legislation to cover the sugar production question but have been unable as yet to find acceptance for any such bill.

HD Agent's Notes

BY MISS ETTIE MUSI

As you well know our job as County Extension Agents is to educate the people with the latest information in home economics, agriculture, and related subjects. This includes many and varied subjects in family living to help people help themselves. We are the educational arm of the United States Department of Agriculture.

Of course, we cannot make up your mind for you, but we can help you decide on the best solution or choice. As soon as our Extension Service Specialists receive information from research, we are informed to be ready to help you, the people. For instance, last week I received much good information on "Buying Wood Furniture" and "When You Buy Upholstered Furniture".

Before you shop for furniture of any kind let us know and we shall try to help you as best we can. It is wise to give careful thought to your needs and plan with these in mind.

Style and design is the first thing to attract the eye in creating the impression of the whole room setting. The style you choose should fit the type of house in which you live as well as the room in which it will be placed.

Size of the furniture is important, too. Pieces that are too large make a small room appear smaller. Too many small pieces make a room look cluttered. Before you buy, make a definite check for size. Comfort depends on the size and proportion of pieces. This deals with the height of table, pitch of seats and backs of chairs.

Remember that furniture looks smaller in the big furniture store than it will in your average size room. So a tape measure will save buying a chest or desk that won't fit your space at all.

Few people can recognize woods after the surfaces have been finished. Look for the label on furniture, but only

a few retail stores show this labeling on the tags. It pays to deal with reliable dealers whose salesmen know and can give you the correct information.

If you see the label on furniture that says "Solid", this means that all exposed surfaces are of the wood or woods named. If you see "Genuine" this means that the frame parts are of solid wood named, and the larger surface pieces are of veneer of the same wood.

Where we are misled many times is the appearance of the furniture. The label "Finish" refers only to the color of the finish. Inexperience buyers often see "mah" or "wal" and assume that the wood is mahogany or walnut. It really means only a mahogany or walnut stain has been put on another wood. There is a lot of difference.

A finish is put on wood to seal the surface, to make cleaning easier, bring out depth and luster, and sometimes to change the color or tone. A smooth, soft luster is an indication of quality. The best finish has a mellowness achieved by hand rubbing which is in contrast to the shiny new look of unrubbed

varnish or lacquer.

Always examine the finish in a good light and from every angle that catches the light. Avoid a muddy looking finish that doesn't permit the wood to show through. Test the finish by rubbing the surface with the finger until it is warm. If the coating becomes sticky, this shows a poor finish.

The belief that furniture made from solid woods is always superior to that made of veneer is rather common, but it is not true. Low, medium and high priced furniture is made in both veneered and solid wood. Much of the fine furniture available in stores today is made with veneered plywood construction. The plywood is used for flat surfaces. The solid wood is still used for legs, frames, stretches, rails, corner posts and for sections that are carved.

To check how well the furniture was put together, check to see if it stands squarely on the floor. This shows proper bracing, joining, and gluing. Inferior furniture is frequently made from poorly cured and seasoned woods, inaccurately machined and loaded with glue.

Sign-Ups Start Winter Program

Wheat farmers of Farmer County are advised that the sign-up period under the 1962 ASC wheat and barley programs will officially open Oct. 30 and will end on Dec. 1.

The wheat and barley stabilization program is designed to reduce national wheat acreage by at least 10 per cent. Wheat farmers are encouraged to make additional acreage reductions for which a higher rate of payment will be available.

In order to be eligible for price support and to earn a lay-out payment, the wheat and barley farmer must sign up by Dec. 1.

Prentice Mills, Farwell ASC officer manager, asks that each wheat or barley farmer contact his office for information which the farmer may need in relation to the program and how it affects his individual farm.

Some girls wear tight shoes 'cause it's the only chance they have to be squeezed.

Feed Grain Program Termed Successful

Today's harvest-time crop report was hailed a success sign on the 1961 feed grain program.

It is clear, that feed grain consumption during the coming year will exceed 1961 production, reversing a long-time trend, according to reports from the office of the Secretary of Agriculture.

The cost of the program is considerably below the earnings which will result for taxpayers.

Some of the benefits derived from the programs are:

A sharp rise, probably a billion dollars or more, in 1961 farm income over that of 1960 as a result of feed grain production adjustment and other price support action, as in the case of soybeans.

Supply and price stability for feed grain buyers and the consumers of livestock, dairy, poultry and products processed from these grains.

An impressive start has been made in the reduction of government owned feed grain stocks, leading to a cut in transportation, storage, and interest costs which have been dealing the Department much trouble.

The farm income jump is already being reflected in the economy of rural areas through an increase in sales of farm implements, cars and trucks, household furnishings and other such items.

It is expected that the industrial areas will soon feel some of the benefits from these improved conditions.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Glenn Martz, publisher of Washington News Beat, Washington, D. C. will speak in Amarillo Monday, November 6, at 1:00 P. M. The place of the meeting is the Crossroads Motel at 5th and Fillmore Street. The public is invited. District I Farm Bureau is paying Mr. Martz' expenses for this speech, and we believe it is a worthy project, as Mr. Martz has been in Washington many years in the news business, and is interested in the preservation of American Free Enterprise. Some of the subjects he will cover will be communist infiltration into agriculture, power industry, trend toward socialism, labor's design on agriculture, a farm labor coalition, the farm program and many others. We believe any farmer who has time to go will profit by hearing Glen Martz.

We have one fifty pound sack of Warfarin rat poison here in the office. If you need some, we'll sell it pretty cheap. This is fresh poison, some of which we purchase for distribution each year as an aftermath of the rat eradication program conducted a few years ago.

Parents of high school children in Bovina and Farwell may want to attend a safety program at those schools this Thursday. The one at Farwell at 9:30 A. M. and the one at Bovina at 12:50 P.M. Brake reaction and braking distances will be demonstrated with students driving the special safety car provided by Texas Farm Bureau Safety Department. Following the impressive street demonstrations a film on highway safety will be shown. The film is as interesting and impressive as any we have seen. Herman Gerles, retiring Farm Bureau President is responsible for making arrangements for this program with the cooperation of school officials and the sheriff's office and the Texas Department of Public Safety.

Donald Christian, last year's membership chairman, says he hopes about thirty five new people will pay Farm Bureau dues this week to bring the organization up to its quota of 555. If you haven't paid yours lately, why not pay them right away. Then we will be allowed one more, (a total of six delegates) to the state convention in Galveston next month. Harry Hamilton, President and all directors join Donald in this invitation.

CONSIDER THIS: A prudent man foreseeth the evil, and hideth himself: but the simple passeth on and are punished. Proverbs 22:3

Have a job which is creative and which you enjoy—and if you dislike your work, change positions. Unhappiness and fatigue walk hand in hand.

Dilger's CLEANERS
Farmer County, Texas

WITH THE COUNTY AGENT

DERYL COKER

The Dallas Fair is over, and everyone who went was about ready to come home. A fair is always something you look forward to and glad when its over. The 4-H members who attended were Eddie Wood, Kim Buske, and Bobby Tomlinson. Their exhibits were market steers. All three boys managed to get their steers in the auction sale. The market steers were placed in three categories. Blue ribbon, red ribbon or white ribbon. Steers in the blue ribbon and red ribbon group had to be prime or choice steers and be able to cut out a high percentage of choice cuts of beef, (such as round, loin, or rump.) The white ribbon group were steers that were not good enough to make the sale. Steers were docked for carrying to much finish.

The 4-H members not only learned some things about showing steers, but due to unwanted circumstances learned some other things as well. One boy was pick-pocketed and lost his billfold and another one got sick, which is all part of a fair.

A lot of cotton will be ginned in the next few weeks and a lot of burs are going to be burned or hauled back and put on the land.

Cotton burs application is a good way of adding humus which will improve the physical condition of the soil as well as improve the water holding capacity of the soil. The method of application is an easy one, and is fairly economical. Cotton

yields have been increased as the following table shows:

Rate tons/acre	Yield lint lbs./acre	Lbs. line per acre inch water
0	502	22.8
2	612	27.8
4	652	29.6
6	727	33.0

As the chart shows there are advantages to putting burs back on the land, also the addition of 30 pounds and 45 pounds of nitrogen to 4 tons increased lint yield average by 87 pounds and 211 pounds respectively.

One of the most practical methods of using burs to improve the soil is to apply 2 to 4 tons per acre per year. The above test was conducted at Lubbock, Texas.

There are also disadvantages to putting burs back on cotton land. They are that you could introduce diseases, or bring in diseases that could hurt you in the future, also, you could put weed seed on your farm that you don't want. Burs go on feed land to a great advantage also.

If you are not afraid of the disadvantages, burs could be a profitable way to add organic matter.

A sub-district meeting on Income Tax will be held at Canyon on November 2, in the Agriculture department of West Texas State College.

The school is for agents, farmers, ranchers and interested persons to help prepare agricultural income tax returns. The meeting will begin at 9:30 and continue until 3:30. Topics on the program are Income to be Reported, Farm Business Expenses, Deductions and Personal Exemptions, Depreciations and Depletions, Capital Gains and Losses, Soil and Water Conservation Expense, and Trades, Condemnations and Disease of Livestock.

An income tax management demonstration will be given by the Gray County 4-H management team, and a question and answer period on special problems will be conducted with Ray Rogers, Internal Revenue Service, Dallas, as moderator.

Party Planned For Rebekahs

A family night party is scheduled for the Rebekah Lodge Monday, October 30, at the

Lodge hall. Special guests will be the Arthur Drake family. They will show pictures and tell of their recent trip to Europe. Everyone is cordially invited to attend. The Hall will be open at 8:30 p.m.

Scout Troop Report

Girl Scout Troop 144 met Wednesday, Oct. 18 in the regular meeting place.

A business session was conducted and the secretary called the roll.

Glenda Mingus and Carolyn Kirby served refreshments to the Busy Scouts and Monarchs, followed by an airplane quiz. Kathy Jones gave a report on the United States flag.

Before dismissal the troop played games.

Present were Glenda Mingus, Shirley White, Sue Rodgers, Lou Cochran, Linda Fallwell, Cindy Ingram, Mary Messing, Kathy Jones, Becky Turner, Carolyn Kirby and Mrs. Bob Riethmayer and Mrs. Ralph Wilson, leaders.

Reported by Vicki Moorman

Mrs. Messenger Hosts LLL Class

Friday evening the LLL Class of the First Baptist Church met in the home of Mrs. Loyd Messenger for a regular and social meeting.

Mrs. M. C. Osborn gave the devotional "Second Mile". Angel Food cake, coffee and hot chocolate were served to Mesdames Billy Chester, James Stephens, Merriott Brooks, M. C. Osborn, Charles Allen, Claude Osborn, Ronny Ferguson, Dale Hart, Doyce Barnett and Charles Sanders.

Study Club To Have Bazaar And Coffee

A Christmas bazaar and coffee sponsored by the Progressive Study Club will be Wednesday, Nov. 1, at the club house from 10 a.m. until 6 p.m.

Gifts, made by club members, are to be priced from \$1.00 to \$3.00. There will also be a large assortment of cards to be sold. Money from the bazaar will go to the club's project to buy shrubbery for the cemetery plot for babies.

Coffee Honors Mrs. Thornton

Mrs. S. T. Thornton, who moved to Hereford about two weeks ago from Friona, was honored with a farewell coffee recently in the home of Mrs. Paul Fortenberry.

A gift certificate was presented to Mrs. Thornton.

Mrs. Fortenberry served coffee and cake to Mesdames O. J. Beene, Bill Burton, Earl Drake, Jay Sanders, Hop Lewis, Allen Stewart, Ray Landrum, and Luther Shelton and the guest of honor.

Birthday Luncheon For Janice Clark

Miss Janice Clark observed her eleventh birthday with a luncheon in the home of her parents, Mr. and Mrs. Jack Clark Sunday, October 15.

Following lunch, birthday cake and ice cream were served

to guests. The afternoon was spent playing games.

Guests were Linda Carson, Connie Whaley, Shirley Johnson, Brenda Blackburn and Martha Houston.

"SEE! HE WON'T BITE YOU," Billy Rushing explains to his sister, Jane, and Susan Floyd that Texas horned toads are really quite gentle and with proper treatment can be fun to play with. This little fellow came to the back door of

Plains Publishers apparently looking for adventure before being sighted by the trio. He was later turned loose and allowed to go on his way.
