

New Road Takes Shape

Parmer County's Commissioners Court is currently working with Deaf Smith County in an effort to acquire a Farm-to-Market road, which would link Friona and Hereford.

The road, which is almost a "sure thing," would link the "Harrison Highway" in Deaf Smith County to the Farm-to-Market Road now running from Friona north to with 2 1/2 miles of the county line.

Deaf Smith County has been working on the road for some time and is about ready to go on the nine mile stretch from the east-west Harrison Highway to the Parmer County line.

Parmer County is now cooperating by acquiring the right-of-way for the 2 1/2 mile stretch, which would be required to link the road to the

present farm road north of Friona.

The farm road running north from Friona, curves to the west at a point seven miles north of the city limits.

The proposed new road would extend north from the point of the curve for one mile, cut to the east for another mile, and then north again to where it would tie into the new Deaf Smith county road.

Parmer County's commissioners started to work on acquisition of the right-of-way after Ray Bradley, highway engineer from Littlefield, met with them at a meeting last Monday.

Tom Lewellen, commissioner of Precinct 1, Friona, reports that the six property owners who would be affected by the road, have already given their consent to sell the right-of-way.

Lewellen says, however, that it will probably be next spring or summer before construction will start on the road.

The Friona commissioner says that he doesn't think the acquisition of right-of-way will be too costly. There will be several telephone and REA lines, to move, and "we will have to try to avoid some gas lines and one or two wells," Lewellen says.

Also, the two curves in the road would each require about seven acres.

The new road, when completed, will be beneficial to both counties, especially to Friona and Hereford. It would provide a route more accessible to both cities for farmers in the region north of Friona and west of Hereford.

HOW TO FILL OUT A TICKET is the subject here, as Chief of Police Ben Moorman, center, talks over plans with Friona Boys Scouts who will be policing the town Wednesday. Scouts of Troop 56 will be stationed at various locations throughout the town and will issue citations for minor traffic violations. All fines will be in the form of a \$1.00 donation, with all money collected going to the Scouts. Moorman is discussing a specially-prepared citation with Jim Bob Jones, Jerry Stevens, and Jimmy Kreig. Looking on is Hayden Cason, scoutmaster.

Two Youths Admit Friona Motor Theft

Two young Denver City men were arraigned in Farwell Wednesday morning and charged with the theft of an irrigation motor from the R. W. Jones farm, two miles southeast of Friona.

The men, Jack Rash and Gary Buntin, allegedly stole the 1959 Chevrolet engine Sunday night and were in the process of installing it in an automobile Tuesday morning when they were arrested by Denver City authorities.

Denver City officers made the arrests on information received from the Parmer County Sheriff, who investigated the theft. Sheriff

Chas. Lovelace says, "We received a good tip and this led to the arrests."

Rash, 19, and Buntin, 17, were brought to Farwell Tuesday and they appeared before Justice of Peace J.R. Thornton, Wednesday. Bond was set \$1,000 and the case has been bound over for grand jury action.

The irrigation motor, valued at \$1,000, was running Sunday night when the two fellows drove up to it, shut it off and then took it loose and loaded it onto a pickup.

The motor was located near Jones house and on a paved Farm-to-Market road.

Womanless Baseball Games Set

The Friona Lions Club has accepted a challenge of the Dimmitt Lions Club, and as a result members of the two neighboring civic clubs will square off Friday and Saturday in a pair of womanless baseball games.

The first of the two games, which will feature the Lions dressed as Lionesses, is slated for Dimmitt at 8 p.m. Friday night, and the second game will be Saturday at 8 p.m. at Reeve Field in Friona.

A roster of Friona Lions has not yet been completed for the game, but officials of the local club say that come game time, some sort of a team will be fielded.

Experience as a baseball player is not required, but each player must be attired in the proper uniform, which for these two games will be any type of women's clothing.

The Dimmitt Lions challenged the local club to the games in an effort to raise money for various civic projects. Admission price at Dimmitt will be 50 cents for students and \$1.00 for adults.

Members of the local club say that admission will not be charged at the game here, but the hat will be passed for donations.

United Fund Meeting Set

An organizational meeting of the Friona United Fund is scheduled for Monday at 7:30 p.m. in the Community Room of Friona State Bank.

Purpose of the meeting will be to map out plans for the fall drive, which will probably get underway in November, and to elect officers for the coming year.

All members of the United Fund organization are asked to be on hand, and "we want to have a representative of the Boy Scouts, Salvation Army, and Red Cross present at the meeting," says Flake Barber, secretary of the United Fund committee.

Danny Mack Bainum is president of the group.

Barber asks that everyone attend the meeting, otherwise they will probably be elected to an office.

Drakes Leave Friday

Mr. and Mrs. Arthur Drake and family are scheduled to leave Friday on a tour which will take them to Austria.

Drake's trip is being sponsored by the Grain Sorghum Producers Association, and while in Austria he will serve as a feed grain consultant at two agricultural fairs.

Arrangements have been worked out so that Drake's family can travel with him. It was first thought that his family would be unable to go, because it was not known which flight Drake would be leaving New York from.

However, this was later worked out and the Drake family all made reservations on the same flight last Thursday.

The Drakes will leave from Amarillo Friday afternoon, arriving in Washington, D. C., Friday night where they will spend Saturday and part of Sunday. Drake will receive a briefing on his trip while in Washington.

The family will fly from Washington to New York Sunday and leave for Frankfurt, Germany, Sunday night at 9 o'clock.

READY FOR THE TRIP to Austria is the Arthur Drake family of Friona. From left to right are Arthur, Mrs. Drake, Erma Lou, Betty and Peggy. The Drakes will leave from Amarillo Friday night and will arrive in Austria Monday.

They are scheduled to arrive in Germany at 9:20 a.m. Monday and will then leave for Vienna, Austria at 11:50 the same morning. They are scheduled to arrive in Austria Monday at 1:30 p.m.

While in Austria, Drake will attend showings of a mobile feed grain exhibit of the U. S. Feed Grains Council and Foreign Agricultural Service. The exhibits are slated for Klagenfurth, Austria, August 10-20, and at Ried, Austria, August 26 to September 3.

Drake's mission will be to develop a better understanding of the U.S. grain trading system and also of U. S. grades and standards. He will be discussing these matters with Austrian officials, farmers and livestock feeders.

Drake is the 18th in a succession of "diplomats for grain sorghum," who have acted as consultants at International

(Continued on Page 8)

Quarter Horse Show Saturday

A quarter horse show, the first of its kind to ever be conducted in Parmer County, is slated for this Saturday at the Friona Jaycee Arena west of town.

Deadline for entering the show is Saturday morning, so it is not known just how many entries will be on hand for the show.

However, the Jaycees, who are sponsoring the event, expect entries from Texas, New Mexico and Oklahoma. They have received inquiries from as far away as Galveston.

The show will get under way at 9 a.m. and first on the agenda will be the judging of 14 different halter classes. Gene George of Amarillo will be the judge and Walter Haws of Friona will be the director of the event. Mrs. Haws will be the secretary. Besides the halter competition, there will be performance

contests, cutting horse contests, barrel racing and Western Pleasure competition, all regular events of quarter horse shows.

Trophies and ribbons will be presented to winners in every class of competition.

The show will continue throughout the day Saturday, and depending on the number of entries may last into Saturday night. The Jaycees are currently installing lights at the arena and plan to have this project completed prior to the show.

The public is invited to attend the show, and there will be no charge.

If the show is successful, the Jaycees plan to make it an annual event.

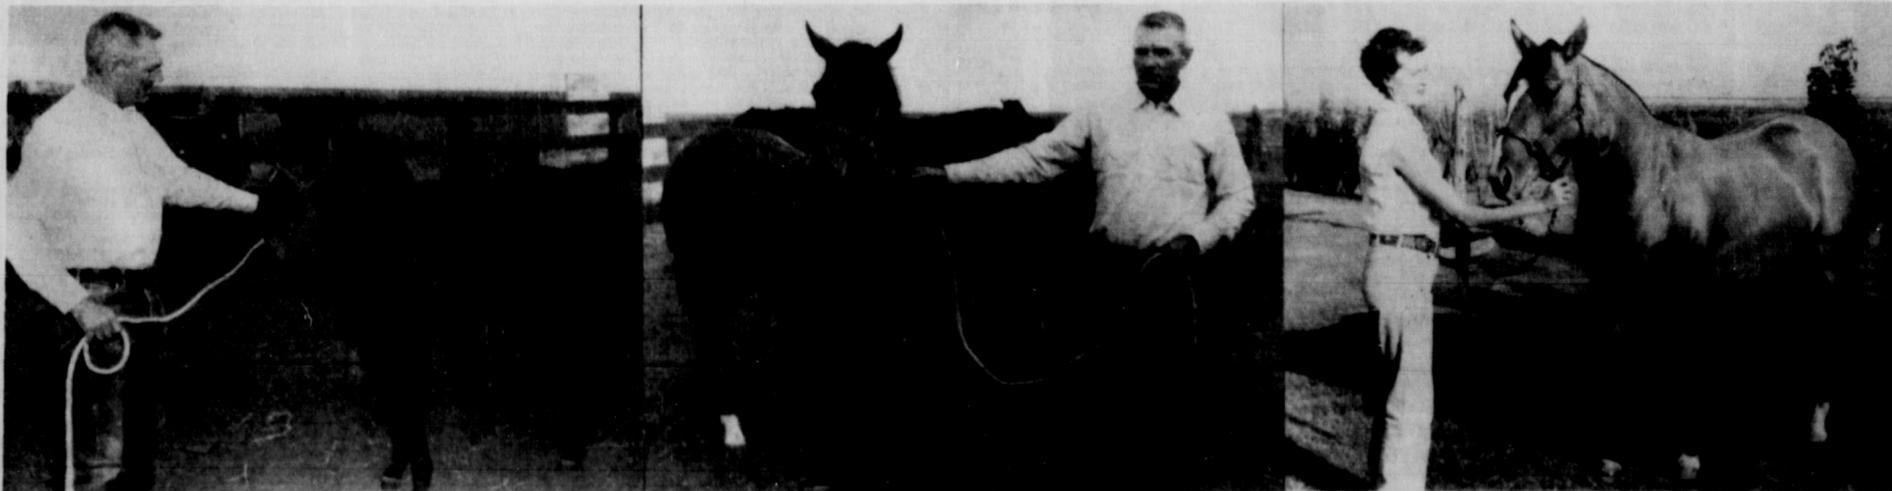

CORRECTION!

In last week's issue of the Star, the story on the Little League protest game erroneously stated that two lads collided on the base paths and one of them was knocked down. It should have read that the two lads collided, resulting in the fielder dropping the ball. He was not knocked down. The Star apologizes for the error and regrets having falsely reported this incident which was a subject of much controversy.

Monday Is
Dollar Day
In Friona

STOLEN IRRIGATION MOTOR, returned to Friona Wednesday afternoon from Denver City, is checked over by Parmer County Sheriff Chas. Lovelace. The motor was stolen from the R. W. Jones farm south of Friona Sunday night and the two Denver City youths charged with the theft were apprehended Tuesday.

Pictured here are three of the quarter horses to be entered in Friona's First annual Quarter Horse Show this Saturday at the Jaycee Arena. At left, Johnny Hand is shown with Follis Media, three-week-old colt to be entered in the show, and in the second

picture Hand shows off Kati Shaw, a yearling mare. Both of Hand's quarter horses are racing stock. In the picture at right, Nell Haws is shown getting Ginger Zane, a

two-year-old mare, ready for the show. Entries for the show, the first of its kind in Parmer County, are expected from Texas, Oklahoma and New Mexico.

School Clothes Being Featured, But School Money Not In Sight

By Vern Sanford
Texas Press Association

AUSTIN, Tex. --Store windows already are featuring school clothes, and mothers across Texas are budgeting money for new blue jeans and calico dresses.

But money with which to open the schools is not yet in sight. No one seriously doubts that new taxes will be voted and new appropriations made before current appropriations run out August 31.

Gov. Price Daniel has asked the Legislature to provide \$359,000,000 in new revenue to get the state out of the hole and cover future needs. Even in "good times," raising this much money is a staggering problem. It will mean passing taxes to which a good portion of the Legislature -- and possibly the governor -- are bitterly opposed.

It could not be done -- except that in a few weeks those blue jeans and calico-clad youngsters must go to school.

SENATE WORKS ON TAX -- Senate's unenthusiastic attitude toward the House-passed tax bill may foreshadow another end-of-the-session deadlock between the two houses.

Even if all senators heartily approved the House bill, they would still have to expand it. State Comptroller Robert Calvert, whose word is final on revenue forecasts, estimates the House bill will raise only \$254,000,000. This is over \$100,000,000 short of anticipated need. At the time it was passed, House sponsors thought it would bring in about \$328,000,000.

House measure would raise money from these sources:

1. A 2 per cent sales tax on all power-driven objects, construction materials, utility services and on other items costing more than \$5. (Bulk of expected revenue would be from this provision.)
2. A minimum levy of one cent per thousand cubic feet on natural gas. Holders of dedicated reserve contracts would be liable for paying the difference between present gas production taxes and this minimum requirement.
3. A one-third increase in drivers' license fees.
4. A revision in the corporation franchise tax formula to get more taxes from out-of-state corporations operating in Texas.
5. A one per cent transfer

(\$12,000,000) from the Permanent School Fund to the Available School fund.

6. A bookkeeping change to transfer to the schools in August the portion of gasoline tax money that is slated for school purposes.

BUDGET IN CONFERENCE -- House and Senate general appropriations bills, each calling for spending in the neighborhood of \$2,500,000,000, are in the hands of a joint conference committee.

House bill calls for \$16,000,000 more than the Senate version. In addition to what it already had passed, the House instructed its conference committee to hold fast on provisions for a 40-hour week for prison system and Department of Public Safety employees.

House conferees are Reps. James Cotten of Weatherford, B.H. Dewey of Bryan, J.W. Buchanan of Dumas, Malcolm McGregor of El Paso and Bill Hollowell of Grand Saline.

Senate committee members are Senators Ray Roberts of McKinney, A.M. Aikin Jr. of Paris, Crawford Martin of Hillsboro, Wardlow Lane of Center and Grady Hazlewood of Amarillo.

GOVERNOR OPENS GATES -- Just when legislators thought they were going into the stretch on the drive to solve fiscal problems, the governor opened up the session to bills on 21 additional subjects.

Only subjects listed by the governor may be considered in a special session.

Daniel opened the door to legislation on unemployment compensation, law enforcement and traffic safety, the election code, Sunday closing laws, municipal annexation and some 15 other subjects.

Not included in the list were three bone-in-the-throat issues left over from the regular session: small loan regulation, changes in the auto insurance plan and ceding part of Padre Island to the federal government for a park.

Some legislators protested that the avalanche of bills resulting from the governor's broadened call would make it

harder than ever to pass a tax program.

COST - CUTTING PLAN -- In view of the House's money-finding problems, Rep. Charles Ballman introduced a measure designed to lop \$97,000,000 off the state's revenue needs for the next two years.

Ballman is chairman of the House revenue and taxation committee. He termed his bill an "economy" measure. But many of its provisions, which are likely to arouse opposition, call for getting more money rather than spending less.

Among the bill's provisions: combine the Game and Fish Commission and the State Parks Board; raise tuition for state-supported colleges; pay county

superintendents from county, rather than state funds; finance

the Department of Public Safety from state highway funds and put DPS-collected funds into the general fund.

INSURANCE HIKE STUDIED -- Lawmakers, though they cannot legislate on insurance in this session, are giving the new, higher auto insurance rates a

(Cont. on Page 2, Sec. II)

Exchange Student To Arrive Today

Miss Anni Jensen, foreign exchange student from Esbjerg, Denmark, who will attend Friona High School next year, is scheduled to arrive in Friona today (Thursday).

She will first arrive in Amarillo and will be met by Mr. and Mrs. W.M. Massie, who she

will stay with during her stay in Friona.

Miss Jensen, who will be the first foreign exchange student to attend Friona Schools, has been corresponding with the Massie family and Superintendent Alton Farr, since her assignment to Friona became

definite.

She said in a recent letter that she was looking forward to her stay in Friona and would do her best to fulfill her obligations, both to the Massie family and to the school.

The student is 18 years old and she will be a senior this year.

Miss Jensen will be available for speaking engagements before groups and civic organizations after Christmas, says Superintendent Farr.

Her trip to Friona is being sponsored by the Friona High School Student Council.

Enlistment Quota Up For Navy

Due to the military manpower build-up slated for the immediate future, the U. S. Navy Recruiting Service has been informed that the restrictions of the past have been drastically reduced.

The Navy Recruiter from Clovis says that all young men and women who qualify may be enlisted immediately.

Those who are interested are asked to contact the Navy Recruiting Station in the Clovis Post Office Building, or write to Box 1033, Clovis.

MISS ANNI JENSEN

TOWNER-MELLEN Two-Way Self Adjusting Moldboard Plow

TOWNER MANUFACTURING COMPANY

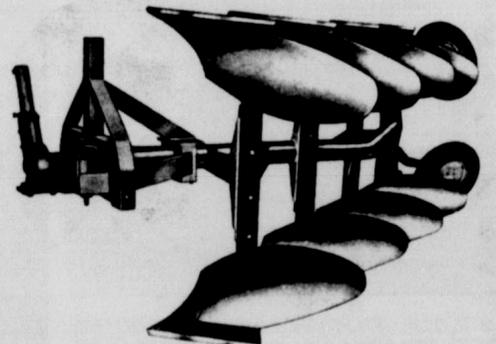

One, two, three and four furrow sizes available. The Towner automatic self-adjusting two-way rollover type moldboard plow fits all tractors having a three point hitch, including Fordson Major, I. H. Fast Hitches, or Case with Eagle Hitches.

Automatic self adjusting feature is controlled by the pressure of the soil on the plow bottoms as the plow moves through the ground. This automatic adjusting takes place whenever and as often as the density of the soil changes whether crowing alfalfa at three inches or heavy plowing at 14 inches depth. The plow maintains at all times a straight line of draft, cutting the correct full width of furrow regardless of the type of soil being plowed, leaving the land level and without ridges.

Main tube or beam of plow pivots at point just behind rollover mechanism (partially visible) and is free to align laterally within boxed frame. This is the exclusive patented feature of the plow which automatically adjusts to eliminate side draft yet insures each bottom cutting full width when traveling either direction in the furrow. NO SIDE DRAFT when plowing under the most severe conditions. As a result, the plow pulls much lighter -- due to straight line of draft at all times. No stabilizers are needed -- tractor stay chains run slack in all conditions.

This is the feature which must be demonstrated to be appreciated -- Ask your dealer for a demonstration. Contour terracing and strip farming -- Plow follows contour of the land, each bottom taking full cut leaving no ridges or furrows. Permits working land in both directions.

Hillside Plowing -- Plow turns furrows uphill which helps prevent soil erosion. No side draft, but takes full width of cut with no tractor wheel slippage, because load is equally distributed on each wheel.

New sturdy foolproof rollover mechanism with "built in" ram designed heavy enough to operate with "high pressure -- low volume" tractor hydraulic systems (for which 2 inch cylinder usually recommended). Also available with 2 1/2 inch cylinder, that is best suited for majority of tractors having lower pressure -- higher volume hydraulic systems and for 3 and 4 bottom plows. Specify model of tractor in ordering plows. Latch pads are quickly adjustable for leveling bottoms at desired plowing depth. Plow then operates at uniform depth and leaves field smooth with no further adjustment. Plowing depth 3 to 14 inches.

Warranty -- Towner Manufacturing Company extends its regular warranty on "RV" series Towner plows built at its factory at Santa Ana, California. Plows will be manufactured to the same high quality standards that have been built into Towner products for the past 45 years.

BRAD BEENE, son of Dr. and Mrs. Wm. Beene, waits patiently with his dog, Princess, for customers to arrive at his new Drive-in for refreshments. He is even making a special price if you buy two drinks. The enterprising young man's business is located in front of the Beene residence.

America The Obsolete!

With the sole exception of Canada, the United States has the largest percentage of residual or permanent unemployment in the world. Even if we reduce this unemployment to 4% of the working force, we will still hold a dubious distinction of leadership in having more willing workers than jobs—yielding place only to Italy.

Economists and industrial experts say that our failure to provide jobs for our ever-expanding work force is due largely to the burden of obsolete and antiquated machinery that hampers our industry. They say that two-thirds of our productive equipment pre-dates the Korean War.

Operating with costly and inefficient machinery, America's industry has lost its ability to compete with foreign producers in both foreign and domestic markets. The fact that America ranks last among the industrial nations of the world in rate of economic growth dramatically illustrates the effect of this growing obsolescence.

Why do we find ourselves in this dangerous predicament? A principal reason is the restrictive and unimaginative tax law which makes it nearly impossible for manufacturers to regain the cost of depreciated equipment for investment in new and modern machines. American depreciation rates are scarcely two-thirds those of the next lowest country of the Western world—England—and less than half those of the leader—France. Even the socialist states are far ahead of us in this.

Temporary shots-in-the-arm won't help us update an obsolete America; real reform of our depression-born tax laws will.

The time for action is now.

Shower Honors Janice Darling

Miss Janice Darling, bride-elect of Darrell Thompson, was honor guest at a miscellaneous shower in the home of Mrs. Billy John Thorn Tuesday, July 25, at 3 p. m.

Other hostesses were Mesdames J. W. Gammon, Raymond McGeehee, Everett McBroom, Scott Windham and Joe Briggs.

The honoree's chosen colors or orchid and white were featured in table decorations and refreshments. A lace cloth over orchid covered the serving table centered with a bouquet of orchid and white phlox. A novelty arrangement of cooking utensils and daisies decorated the gift display table.

Butter cookies, mints and punch were served to about thirty guests.

Sozy Secretary Soz

Keeping food cool on a picnic is easy. Just fill an empty milk container with water. Reseal and freeze. Just be sure to leave a couple of inches at the top as water expands as it freezes.

Sunday Dinner Honors Visitors

Captain and Mrs. Wm. W. Allen and children of Altus, Okla. visited in the home of Mrs. Allen's aunt, Mrs. A. H. Boatman, last week.

On Sunday Mr. and Mrs. Leo McLellan honored the visitors with a family dinner in their home. Those present besides the guests of honor and Mrs. Boatman were Mr. and Mrs. Lloyd Rector and children and Mr. and Mrs. Kenneth McLellan and sons.

JANICE MILLER, daughter of Mr. and Mrs. Roy V. Miller of Friona and a junior at Colorado State University, is participating in a summer undergraduate research program. She is shown conferring with Dr. Franklin Graybill, seated, professor of mathematics, and another student, Andrew Gibson of Fort Collins. Janice is a mathematic major and under the guidance of Dr. Graybill is working on research in statistics. The research program is sponsored by a grant from the National Science Foundation.

Mr. and Mrs. A. E. Redwine of Lazbuddie are announcing the engagement and forthcoming marriage of their daughter, Donna, to Jerry Don Glover, son of Mr. and Mrs. Charlie Glover of Friona. Vows will be read September 3, in the Lazbuddie Baptist Church at 3:30 p. m. The bride-elect is a graduate of Lazbuddie High School and attended WTSC at Canyon. The prospective bridegroom is also a Lazbuddie High School graduate and is now engaged in farming in Lazbuddie community. Invitations are not being sent locally but friends of the couple are invited to attend the wedding and reception.

Group Returns From Vacation

Returning to Friona last week from eleven days of vacationing in the state of Colorado were Mr. and Mrs. Sam Rule; Mr. and Mrs. Floyd Dutton and Mack; Mr. and Mrs. Owen Browles, Muleshoe; Mr. and Mrs. John Baca, Peggy and Terry, Hub; Patsy Rule; Willie Grace Grubbs; and Jackie Dodson, Amarillo.

They toured interesting points in Colo. and spent some time fishing. While in Grand Mesa they visited with Mr. and Mrs. Billy Wilkerson, relatives of the Sam Rules.

WMS Circle Met With Mrs. Anderson

Mrs. Thomas Anderson was hostess to Georgia Teel Circle of Calvary Baptist Church in her home Tuesday afternoon.

Mrs. Herbert Day, Circle chairman, called the calendar of prayer and Mrs. J.M. Bradley said opening prayer.

The Bible study was from the book of Revelation, directed by Mrs. Elmer Euler.

Mesdames Doug Connelly, Ray Castleberry, Bill Sheehan, O.C. Rhodes, Clarence Monroe, Day, Bradley, Euler and Anderson were present for the meeting.

Mary Spring of Amarillo visited recently with her mother, Mrs. F. L. Spring, and other relatives in Friona.

Frank L. Spring, son of Mr. and Mrs. Frank A. Spring, is in Austin this week for placement test prior to entrance into Texas University.

Mr. and Mrs. Rodney Hinkle and sons of Amarillo were weekend visitors in the home of Mrs. Hinkle's parents, Mr. and Mrs. Buddy Lloyd.

Mrs. A. H. Boatman and Mrs. Leo McLellan spent several days last week in Oklahoma City. They visited in the homes of the Clifford Boatmans and B.E. Todds.

The greatest of all human benefits is independence --Godwin

Ingrams Have Second Son

Mr. and Mrs. W.S. Ingram became parents of a baby boy at Farmer County Community Hospital Sunday, July 23. He weighed 8 lbs. 3 ozs. and was named John Louis.

John has three older sisters Joy, Cindy and Teresa, and a brother, Chris. 2. Grandparents

Anthony's Host Picnic Supper

Mr. and Mrs. J. K. Anthony were host for members of the Maggie Hamlin Circle and their families to a picnic supper in the Anthony's back yard Wednesday night, July 26.

The group played games of "42" and "Scrabble" following the meal.

Others attending were Mr. and Mrs. Ralph Shelton; Rev. and Mrs. Wallace Kirby, Pat, Jan and Carolyn; Mrs. Dorothy Hough and son, Larry; Mrs. Roy Slagle; Mr. and Mrs. I. T. Graves, Travis, Larry and Mark; Mr. and Mrs. George Jones and Darrel Anthony.

Mr. and Mrs. Ray Dean Fleming were guests of Mr. and Mrs. Don Reeve in Amarillo last weekend.

Rita Collier was in Canyon last week visiting with her cousin, Lowann Sparkman.

Bible School To Begin Monday

Daily Vacation Bible School will begin Monday, August 6 through Friday, August 11, at the Assembly of God Church.

Classes will be from 2 to 5 p. m. and there will be a class for everyone between the ages of 3 to 15.

Everyone is welcome to attend.

Mr. and Mrs. George Zetsche, Ann and Cay of Hereford were recent guests in the home of Mr. Zetsche's brother and family, Mr. and Mrs. Robert Zetsche, Bobby and Robin.

Coffey's Host Class Party

Mr. and Mrs. Leonard Coffey entertained members of the Junior Dept. class of the First Baptist Church with a party in the backyard of their home Friday evening, July 28, at 6 p. m.

Hamburgers and cold drinks were served to guests followed by a game session.

Attending were Eddie Wood, Gerald Reed, Terry Fields, Lynn Ray Cannon, Freddy Williams, Barbara Latham, Tresa Taylor, Glenda Latham, Paula Fortenberry, Phyllis Renner, Janie Lane, Kathy Cook, Debbie Baxter, Blayne Baxter, Carol Coffey, Mrs. Billy Dean Baxter, Mrs. A. E. Cannon, Mr. and Mrs. Granville England and Curtis Murphree.

The players were from Chester and Fleming Gin and Herring Implement.

HIGHLIGHTS--

(Cont. from Page 2, Sec. 1)

through going over. Conflict began when the State Board of Insurance instituted Insurance premiums based on driving records in January, 1960. Many legislators protested effects of the plan during the regular session. Then during the summer the Board ordered an across-the-board increase in auto insurance rates, averaging about 15 per cent. Both House and Senate set up special committees to investigate need for the increase. A rate expert representing the Insurance Board told the House committee that drivers, not the Board, actually determine rates. As proof, he said rates dropped 30 per cent during World War II when drivers knew that if they wrecked a car, they'd be walking for the duration.

SPEAKERSHIP CHANGE REJECTED--House voted down a proposal by Rep. W. T. Dungan of McKinney to elect a speaker "by gentlemen's agreement" in November, 1962. Dungan urged that newly-elected representatives meet two months before the session's opening and elect a speaker. This would give the winner time to select committees and be ready for business at the start of the session.

Objectors said that since this is not provided in the constitution, the results would not be binding. More likely, they said, that the two months interval would be spent in trying to change votes and get a different speaker elected when the House actually convened.

Long-range goal of the reform advocates is a constitutional amendment to allow advance election of the speaker. Senate doesn't have this problem since the people elect the Lieutenant Governor to preside over the Upper House. **SPATE OF BILLS**--Governor Daniel's broadening of the legislative call brought a hopper full of new proposals. Among them are measures that would:

1. Require public school children to take a standard state test in the basic subjects once every three years. (By Rep. Maco Stewart of Galveston and Rep. Dick Slack of Pecos.) Purpose is to focus more attention on academic quality.
2. Raise the present \$28 a week maximum on unemployment compensation to \$37 a week. (By Rep. John A. Huebner Sr. of Bay City.)
3. Allow school districts, on petition of 5 per cent of the voters, to hold a referendum on whether to establish free public school kindergartens. (By Rep. Travis Peeler of Corpus Christi.)
4. Require a run-off in special elections to fill seats in Congress and the State Legislature. (By Rep. Howard

John Robards Buried Sunday

Funeral services for John D. Robards, 79, former Friona resident, were conducted at the First Baptist Church at 2 p.m. Sunday, Paul Smith, Church of Christ minister, officiated. He was assisted by Rev. Bill Burton, pastor of the First Baptist Church.

Robards, a long-time Parmer County resident, died at 7:40 a.m. Friday at his home in Sherman. Survivors include two sons, Dennis of Sherman and Louis of Dallas; three brothers, L. D. of Grand Prairie, Jim of Clovis and Preston of Dallas; three sisters, Mrs. Jesse Garner of Sulphur Springs, Mrs. Rudella Cady of Mesquite and Mrs. Zora Bull of Paris and one granddaughter, Mrs. Tom Adair.

Pall bearers were Albert Rolan, Ross Terry, Buddy Lloyd, Johnny Brand, Fred Lloyd and Sam Williams. Burial was in Friona Cemetery under the direction of Claborn Funeral Home.

Football Dads Asked To Meet

The dads of all of Friona's high school football players for the coming season are asked to meet Friday night at 8 p.m. at the school. Purpose of the meeting will be to acquaint the dads with the school's football and athletic program.

Conference On Reading Scheduled

CANYON--The Ninth annual Reading Conference on the campus of West Texas State College has been scheduled for Aug. 8, 9 and 10. The three-day conference, sponsored by the Texas Association for the Improvement

of Reading, will feature three top authorities in that field. They are Dr. May Austin of Harvard University, president of the International Reading Association; Dr. Harold Drummond of U. of New Mexico's elementary education department; and Miss Gertrude Golladay, from Arlington State College's English Department.

Daily sessions will be conducted by the three speakers in the air-conditioned Fine Arts Building. Conference fee is \$7.50 and single day fee \$3. Students already enrolled in campus courses may attend the entire meet for \$3.

Certificates of attendance will be issued on the last day of the conference. No college credit is given.

Mrs. W. F. Walsh from Baytown was a guest in the home of Mrs. Lucy Welch Saturday and Sunday. Mrs. Walsh is the former Gwendolyn Cowgill and is a graduate of Friona High School.

Kay Struve returned to Friona Tuesday following a two weeks visit in Tulsa with Mr. and Mrs. Bill Brown and family. Mrs. Brown is Kay's aunt.

Green of Fort Worth.) Such an election is due this year to fill the post vacated by the death of State Rep. Marshall O. Bell of San Antonio. 5. Levy fines from \$100 to \$500 for selling certain types of merchandise on Sunday. (By Reps. Tommy Shannon and George Richardson of Fort Worth.)

SHORT SNORTS
Texas Highway Commission has authorized expenditure of \$8,000,000 for purchase of right-of-way needed for construction of three interstate highways. Affected are Interstate 10 and Interstate 37 in San Antonio and Interstate 20 in Midland and Ector Counties. State Selective Service Headquarters, feeling the first shock wave from the Berlin crisis, announced that 3,655 men would be called up for pre-induction exams in August. Last March the number called for exams was only 1,520. Aim is to increase the pool of potential draftees.

State Supreme Court announced that its docket was current and began its customary August-September recess.

FRIONA**

WITH JUNE

It will not be necessary for Frionans to drive very far for recreation this weekend. Two events that should provide a lot of enjoyment for everyone have been scheduled for Saturday and Saturday evening.

Our up and coming Jaycees are sponsoring a horse show at the arena southwest of town Saturday. Judging of events will begin at 9 a. m. and continue as long as is necessary to take care of all animals entered in the various contests. Anyone who enjoys good horses will be well rewarded by attending. There will be no admission charge.

Then those who enjoy baseball games will not want to miss seeing the Friona Lions play the Dimmitt Lions at 8 p. m. at Reeve Field. This will be the last of a two game contest between these two teams. The first one will be played at Dimmitt Friday night.

Unless programs are printed and distributed, it will probably be impossible for any of us to identify the Friona players since all of them will be wearing pinafores, skirts, dresses and ribbons in their hair.

Notes from Dave McReynolds, former Star editor and now editor of the Cotton Gin and Oil Mill Press, are few and far between, but one did get to my desk last week. Apparently McReynolds is enjoying his work in big D and is getting around. He attended a FFA convention at Houston and got around to visiting with Frionans who were there.

One item in Dave's note will probably be of interest to friends of Don and Mary Frances Watkins, former teachers in the local school. For the past year they have been at Post, but now Don is re-entering North Texas State College at Denton to study journalism.

Don worked on a part time basis for the Star when he lived here and had been interested in writing for a long time. We can expect to be hearing more from him in the next few years.

At least two young Frionans have decided to go into business for themselves at an early

age. Brad Beene, whose picture is in this week's Star, ventured into the cold drink business last week. Then early this week a sign appeared on the C. L. Lillard lawn that cold lemonade was available.

When I passed the Lillard home Tuesday afternoon, Scott wasn't in sight, but it was rather hot, so perhaps he was not so far away that he couldn't take care of customers when they appeared.

In the not too distant future members of Friona's Oddfellow and Rebekah lodges will have a good meeting place. Construction is just about completed on the building which is located across the street north of the water tower. It is a quonset type building with an attractive brick front.

With the beginning of school there will be a need for adults to work with Girl Scout and Boy Scout groups. There is always a shortage of leaders for these two fine programs, which need the support of all citizens of the community.

Interest in youth is the only requirement leaders need. Anyone interested in helping out in either of these organizations is invited to call me at the Star office for further information.

Frionans on the go this week include the C. W. Wright family. The Wrights have gone to Knoxville, Tenn. to attend the wedding of their son, Gordon, to Miss Janet Sue Conyer of that city.

In spite of a report in this column two weeks ago that Mrs. Arthur Drake had made plans to go to Austria with her husband then wouldn't get to go, the latest information is that she can accompany her husband. Perhaps her motto is "Always Be Prepared."

Mr. and Mrs. J.T. Gee and Tom were in Lubbock the past weekend visiting with Mr. and Mrs. T.F. Rodgers, parents of Mrs. Gee, and fishing and boating at Buffalo Springs Lake.

Several families have been vacationing at Tres Ritas recently. Among them are Dr. and Mrs. Lee Cranfill and family, Mr. and Mrs. Danny Mack Baum and family and Mr. and Mrs. J.G. McFarland and boys.

Luther J. Metcalf Continues Training

Marine Pfc. Luther J. Metcalf, son of Mr. and Mrs. L. P. Metcalf of Route 2, Friona, was graduated July 7, from the four-week Mechanical Fundamentals School at the Naval Air Technical Training Center, Memphis, Tenn., and is continuing training at the center's nine-week Aviation Machinist's Mate School.

Upon successful completion of training at Memphis, he will be qualified for duty with the aviation branch of the Marine Corps.

Before entering the service in November 1960, Metcalf was graduated from Friona High School.

LENNOX, S. DAK., INDEPENDENT: "As we take a good look at the whole social security program we can't help but feel that it has the characteristics of an over-decorated Christmas tree that is precariously weaving back and forth. With each new Congress, someone tries to hang some more 'junk' on this tree in the form of so-called additional benefits and amendments."

Critic: That's an impressive statue, but isn't that a rather unconventional pose for the general?

Sculptor: It's not my fault. I had the job half done when the committee said they couldn't afford a horse for him.

WILL CONDUCT 2 hour game and story session in my home August 7-25 from 3 until 5 for children between ages 5 through 7. Nominal fee. Interested parties contact Jimette McLean. Phone 3011. 44-1tp

Something To Think About
6th. Street Church of Christ
Box 515 -- Friona, Texas

she admitted always cutting off a few inches, she could give no reason except that her mother always did it that way. Finally they called Grandma as to why she always did it that way and she said, "Oh, I always did that because my pan was too small."

Unfortunately, this describes the religious background of a lot of people today who are what they are, religious! because... "that's the way I was brought up." They accept their religion, somewhat like Grandma's ham.

Isn't it strange that people will accept so many things in the realm of religion that they would reject as "foolishness" in any other area? We need to realize that our souls are the most precious thing we have, and that they should be dealt with as such. There are too many conflicting theories about Christianity for us to accept anything from anybody without proper investigation. The only dependable guide that we have in our effort to please God is the Bible. Thus we plead for men to be led by the gospel of Christ, rather than the traditions of men that have no more justification for their existence than the shallow excuse that "Grandma did it."

come to church sunday

The most famous of all the parables, the Prodigal Son, should be named the Parable of Parenthood. Jesus revealed in it, as could be done only by a heart-warming story, the dimensions of God's fatherhood and the qualities of His fatherliness. He does not forget our sins with a shrug, saying, "Never mind; it's nothing." He does not erase the hurt, or cancel out the injury, or blot out the guilt. Instead, He forgives, without taking away an ounce of the enormity of the sin.

He removes the power of sin over us -- loosens its hold upon us, releases us from the guilt complex -- so that we can find our way back to fellowship with Him.

We do not deserve it, and we cannot hope to understand it; but like the blessedly good parent He is, our heavenly Father assures us that, seeking forgiveness and fellowship, we belong to His household of faith. There we can be at home with Him.

District Governor To Visit Lions Club

Bill Didlake, Lions Club district governor, of Borger, will make his first visitation to the Friona Lions Club at the regular meeting next Thursday night, August 10.

All members of the club are asked to be on hand for the meeting, to meet and hear Didlake, who was elected recently to his first term as governor of District 271.

Didlake is personnel director for Phillips Petroleum Company.

He was elected to the governor's post at the same time Bill Nichols, of the Friona club, was appointed deputy district governor.

Nichols, who is starting his first term as deputy, is the first member of the Friona club to

ever hold such a high office in the Lions club.

Court Of Honor Is Monday Night

Friona Boy Scout Troop 56 will hold a Court of Honor at the Fellowship Hall of the Methodist Church at 7:30 p.m. Monday night.

Hayden Cason, scoutmaster of the troop, has announced that among the awards to be given out are tenderfoot and second class advancements, two merit badges, and three one mile swim cards earned at Camp Don Harrington.

Mothers of the Scouts will prepare the supper.

Howard L. Fleming In Patrol Squadron

Navy Ens. Howard L. Fleming, son of Mr. and Mrs. G.W. Fleming, is serving with Patrol Squadron 31 at the North Island Naval Air Station, San Diego, Calif. While attached to the squadron, he will receive training in the varied and highly technical procedures of patrol plane operations. Upon completion of this training, he will report to one of the many Navy Pacific Fleet patrol squadrons.

Mr. and Mrs. Gordon Massey were in Amarillo Sunday visiting with her parents, Mr. and Mrs. L.A. Clymore. Mr. Clymore is seriously ill in the Veteran's Hospital. He was slightly improved Sunday.

The Care and Feeding of Experts

You've heard it said that an Expert is just an ordinary workman who lives in another part of the country. Which may explain why some of us are inclined to favor doctors, hairdressers, mechanics, and other service people doing business in some other town.

Of course, it's hard to realize that a next-door neighbor, some fellow we've known for years and swapped arguments with at P.T.A. meetings, can be—and often is—more experienced, more competent to serve us than a stranger we must drive miles to see.

And these far-away experts can never offer us the real interest in, and familiarity with our particular problems that we get from the experts who live right here in our own community... just a few minutes from our front doors.

Let's remember, too, that the out-of-town expert does not trade with us, pay taxes to help support our schools, contribute to our churches, nor work for the improvement of this community in which we live and work.

Firemen Return From Convention

Three members of the Friona Volunteer Fire Department returned over the weekend from Texas A&M College where they attended the second annual Texas Fireman's Training School.

The three Friona firemen who were at the school all last week, are Edwin Bridges and Robert Zetsche, who attended a basic fire fighting course, and Clyde Fields, who attended a fire marshal's course.

Because the men did attend and successfully complete the courses, Friona will come in for a decrease in the key fire insurance rate, according to Henry B. Smith, chief of the fireman training at the school.

The school, sponsored by the State Firemen's and Fire Marshals' Association of Texas, was conducted by the

Engineering Extension Service. In all, there were 414 towns in Texas represented at the school, along with 26 towns from 15 other states. Also represented were 24 armed services base installations, 18 military stations in Texas, and 6 military stations from other states.

Dates for the school next year, to be at the same place, were set for July 22-27.

Bud Crump Improving

Bud Crump of Bovina, formerly of Friona, a medical patient in Parmer County Community hospital, is reported by members of his family to be improved.

Visiting with him and his family the past week were his mother, Mrs. Bess Crump, Mr. and Mrs. J. P. Godfrey and family of Memphis, Tex.; Mr. and Mrs. Jay Shepherd and family of Amarillo; Mr. and Mrs. Joe Crump and Wyley Crump of Lubbock; W. C. Crump from Southgate, Calif.; Burl Hays, Mr. and Mrs. Homer Burleson and Mrs. Estelle Duharry of Memphis.

Mr. and Mrs. Jim Cocannouer were in Pampa last weekend visiting with Mr. and Mrs. Floyd Crume. Mrs. Crume is the daughter of the Cocannouers.

Friona's Future Citizens

This is the first in a series of pictures of Friona's Future Citizens, which will appear in the Star. The pictures were taken recently by Winston B. Lucas, Photographer, during a baby contest sponsored jointly by the photographer and the Star.

These four smiling youngsters are John Claude White and Larry Gene White, children of Mr. and Mrs. Edward White Jr.;

Jeff Coffman, son of Mr. and Mrs. Cliff Coffman, and Cindy Cason, daughter of Mr. and Mrs. Hayden Cason.

All three of these youngsters are children of Mr. and Mrs. Flake Barber. From left to right are Tracy, Tom and Bud.

In this panel are Katie and Jody Lewellan, children of Mr. and Mrs. Joe Lewellen; and Donovan and Gary Ferguson,

sons of Mr. and Mrs. Ronny Ferguson.

At left are Pam and Donna Lewellen, daughters of Mr. and Mrs. Delton Lewellen, and right is Leanne Crozier, daughter of Mr. and Mrs. Bob Crozier.

These youngsters are, from left to right, Paula Jo and Vivian Williams, daughters of Mr. and Mrs. Paul Williams;

Jolene Porter, daughter of Mr. and Mrs. Claude Porter; and Cris Ingram, son of Mr. and Mrs. W. S. Ingram.

WE ARE PROUD OF OUR 1961 INTERMEDIATE LITTLE LEAGUE CO. CHAMPS

INTERMEDIATE LEAGUE CO-CHAMPS was the Associated Growers team. Front row, left to right, are Mike Smith, Bobby Jordan, Mike Wooley, Don Ready, Tim Rhodes, Charlie Bishop, and Jody Fallwell. Back row, Don Foster, Batboy, David Reeve, Billy Jack Slaughter, Joel Osborn, Joe Perez, Steve Buckley, Mike Wylly, Stevan Thornton, and S. T. "Pappy" Thornton, manager and sponsor. Absent from picture Ricky Lee Hurst and Mike Reithmayer.

THE HIGH PLAINS FARM AND HOME

Private Ownership Of Water Dependent Upon Conservation

Many irrigators in the southern High Plains are at present watering grain sorghum and vegetables. Some are even irrigating cotton. If the dry weather continues for the next few days, most others will be starting their wells.

When the irrigation of crops gets into full swing, it is almost certain that some waste of water will result.

It has been pointed out, that to allow irrigation "tailwater" to escape the land from which it is produced is not only a violation of the rules of the High Plains Underground Water Conservation District, but it is also a violation of all our basic concepts.

Aside from the economic and human relations aspects involved in wasting irrigation water, the High Plains District emphasizes the fact that in failing to keep water on our own land we jeopardize the doctrine of private ownership of underground water in Texas.

A District spokesman recently stated that, "Texas is the only state we know anything about that has private ownership of underground water—where the person who owns the land also owns the water beneath it. We should all be thankful for this fact; however, most people don't give it much thought, one way or the other—they just take private ownership for granted."

The spokesman continued, "In this day when we have occasion to observe first hand more and more of our individual rights slipping from our grasp we don't seem too disturbed about it -- not until its too late do we really get concerned."

"Well," according to the High Plains Water District spokesman, "it's not yet too late to do something to help insure continued private ownership of underground water in Texas. Each one of us can accept the responsibility that goes along with private ownership -- that of using water wisely and for beneficial purposes. Running water down a bar-ditch could hardly be considered beneficial by anyone."

The District official had this to say in conclusion, "The right to individually own underground water in Texas can be retained only if individuals use that water prudently and without waste."

"Wouldn't you think that every man who loves the free-enterprise system and the opportunity it affords to individually excel be happy to also accept the responsibilities that go along with such freedom?"

"Irrigate, sure, but do it without waste, doesn't that make sense?"

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

We are quoting from a news item originating in Austin: "If Texans have to pay higher auto insurance rates effective August 1, they have only themselves and higher costs of automobiles and accidents to blame, officials of the State Insurance Board told a special House investigating committee Friday."

We can hardly agree with this statement, because we know some companies are wanting to write at reduced, not increased rates. We also recall that the farm rate on automobiles two years ago, prior to the beginning of the "merit rating system," were about the same as they were in 1952, even though the price of the automobile was about a thousand dollars higher.

44.8 per cent of eligible farmers are participating in the feed grain program. The average base acreage of farms signed up (55.19 acres) is more than twice the average of non-signers (26.11 acres).

Nothing is politically right which is morally wrong--Abraham Lincoln.

"We pledge allegiance to the flag of the United States of America and to the Republic for which it stands, Spindale Mills, Inc." This was the plate ordered by the above mentioned firm to use in their stamp metering machine in May of this year.

Pitney-Bowes, manufacturer of the stamp metering machines, replied that such messages should be of a commercial nature, as the public might be misled into believing that the slogan was endorsed or authorized by the Federal Government.

However, after some correspondence and policy reviewing, the plate was delivered quoting the first clause of the Pledge of Allegiance. Strange things happen nowadays.

If you haven't filed for gas tax exemption recently, please do so soon. Then you can file again one year from now, at the same time you file again for your federal tax refund of 4¢ per gallon. The six months filing period has been eliminated.

Consider this: "Man's goings are of the Lord; how can a man then understand his own way?" Proverbs 20:24.

Plastic coated containers have been developed for packaging fluid milk and are now being used on a trial basis, reports A. M. Meekma, extension dairy specialist. The manufacturer says the new containers will eliminate loose wax particles in the milk, do away with leaky cartons and improve the appearance of the package.

Bacterial blight of cotton is the most damaging plant disease in Texas. Losses vary, according to Harlan Smith, extension plant pathologist, from 35 to 40 million dollars annually from decreased yields.

Live lamb prices in the fall are likely to average slightly below those for the same period a year ago and feeder prices are also expected to be forced down by the lower slaughter lamb prices, reports Ed Uvacek, extension livestock marketing specialist.

HD Agent's Notes

BY MISS ETTIE MUSIL

4-H Record Books Due August 15

Achievement awards 4-H record books are due August 15 in the offices of the County Home Demonstration Agent, Miss Ettie Musil, and County Agricultural Agent, Joe W. Jones. Their offices are located on the second floor of the Courthouse in Farwell.

Complete record books must be turned in before a 4-H club member is eligible to receive a year pin or awards medal. Record book covers and outlines are available in the Extension Service Agents' offices for a small fee. Record book trainings were conducted this month by Joe W. Jones for the boys' clubs. Trainings for the girls were conducted in February and March by Miss Musil.

4-H members should remember that the standard report form, the 4-H story of all their 4-H projects, and the special project story are the most important parts of the 4-H record book. Other parts of the record book are the table of contents, photograph of the member, picture story of the projects, news clippings, letters of awards and recognitions, and project record book results.

Record books are judged according to the size and the kinds of projects completed, new skills, methods and practices learned, and projects and activities exhibited. Participation in demonstrations, judging and showmanship are important.

Attendance at club meetings are judged, how many other boys and girls were taught, offices of committee work held by the member, and how many new members were secured.

Personal development is most important as well as leadership and skills learned. Personal development is judged by the service to others, standards and ideals practiced, healthful living, wholesome attitudes, and qualities and acts of good citizenship.

Yes, 4-H Record Books are very important to every 4-H Club member.

You can freeze your own French fried potatoes now. This is the answer to the question homemakers ask us each year, "How can I freeze Irish potatoes?" For years we could not recommend freezing potatoes successfully. Now they can be French fried.

Select potatoes that are suitable for French-frying. Wash, peel, and cut into strips for frying. Fry in deep fat to light golden brown. Be sure fat is hot so potatoes will not absorb the fat before the crust is formed. Do not brown too dark, so the potatoes may be browned before serving. Drain thoroughly on absorbent paper. Cool to room temperature before packaging.

To keep potatoes at best quality pack them in moisture-vapor proof frozen food containers. Polyethylene freezing bags or soft plastic cartons are good. Label containers with product and date. Quick freeze and store in freezer at sub zero degrees. To serve French-fried potatoes all you have to do is remove the potatoes from the container and place on a baking sheet. Reheat them in a hot oven at 400 degree F, for five minutes. Serve hot with a meat, vegetable salad, milk, and light dessert.

Listen to this. What do you pay for a pretty package? Of every \$20 you spend on groceries, \$1.50 to \$2 goes for packaging. Can't you think back how many times you bought a certain product just because the package was just a little more attractive than a competitor's product. Packaging helps to keep the food in good condition and to draw your attention to the product. Sometimes the package may cost as much as the food itself.

Another question to ask ourselves. Are your food bills unusually high? Part of the cost may be built-in maid service. Three "ready-to-serve" meals costs a family of four \$6.70. Prepared at home, these meals would cost only \$4.50. But they require 4 hours more work by the homemaker. Your decision would be which is more scarce time or money?

Home management specialists have made studies of whether food is as cheap or higher than it was years ago. They have found that regardless of what we decide to buy or not to buy, food costs remain in our spending plans. However, we pay about the same share of our incomes for food now as we did before World War I. And to top it all we're eating more and better foods.

Today, people buy a lot more than food at the grocery store. Next time you come home from the grocery store, really stop to check how much of the grocery basket was for actual food. How much shoe polish, tissues, napkins, plates or glasses, paring knife, socks or hose, thread goes on the grocery list and the total for grocery costs? About a fifth of the purchases in supermarkets are nonfood items. If your food bills seem unusually high, this may be the reason.

THE POTATOES ARE ALL RIGHT but the market isn't. At least that was the story Monday at Friona Growers and Shippers where this picture was taken. Sacks of potatoes like these were moving for \$2.00 and less.

District 4-H Picnic Held

Since the District 4-H Conservation Camp was cancelled for this year, a District 4-H Picnic was held instead in the Thompson Park in Amarillo, July 20, at 10:00 a.m. to 5:00 p.m. with 755 4-H members, leaders, and extension agents attending.

Attending from Farmer County were Cooper Young, District 4-H Council Secretary, Katie Blackstone, and Vlane Lesly. Accompanying the 4-H members were Mrs. U. L. Lesly, adult leader, and county home demonstration agent, Miss Ettie Musil.

Games were led by Deaf Smith County 4-H members. Farmer County was in charge of arranging the picnic lunches each member brought. Following the picnic lunch the District 4-H Council met in a called meeting at which time Cooper served as secretary. The next council meeting will be September 16 at 10:00 at the Fair Grounds in Amarillo.

Potato Harvest At Stand Still

A flooded market was the reason this week for operations being almost at a standstill at Farmer County's two potato packing sheds.

In Chicago there were carloads of potatoes on the tracks from various potato growing regions of the U.S. but there wasn't much of a demand for them, according to one Farmer County potato shipper.

Both sheds were still packing a few potatoes, but they were operating at a snail's pace. Since the potato harvest began in Farmer County about a month ago, both packing sheds have moved slowly and the harvest has never reached a peak.

Buck Gregory, of Gregory Produce at Lariat, reports that he has harvested and shipped only 100 of some 270 acres of spuds, and Kenneth Neill, of Friona Growers and Shippers reports that only half of the acreage has been harvested in that area.

The potato men are in hopes that the potato season will be over in Alabama shortly and that the market will open up in the south. At the moment, that appears to be the only hope, and the county potato growers are just hiding their time, hoping that the weather remains favorable for leaving the spuds in the field and that a market opens up.

"Naturally, leaving the potatoes in the field doesn't improve the quality any after they are ready," according to Neill, but it is possible to leave them there for a while.

Quality and yield of potatoes this year has been fair, generally, but there have been certain fields that haven't fared too well, Neill says.

However, the big thing wrong with potatoes this year has been the market. It started off at around \$2.50 to \$2.75 per sack, "a fair price" and then tapered off.

According to Gregory, this year is reminiscent of 1955, his first year in the potato business. A similar situation existed then, Gregory says, but eventually we did move all of the potatoes.

Never have Farmer County potato growers failed to sell their potatoes, and chances are that the market may soon open up where most of them can be sold this year.

But, if the price remains at less than \$2.00, it won't pay to do it, Neill points out.

Cantaloupe Harvest To Begin Monday

Harvest of what is expected to be a "whale of a cantaloupe crop" is scheduled to get underway in the Bovina area Monday.

Harvest crews and packing shed workers are moving into the area this week and the first melons of what looks like a quality crop will be picked and packed Monday.

Shed operations will probably move slowly during the first week, but by August 15 the packers will probably be turning out from 7,000 to 10,000 crates per day, according to Mario Trevino, office manager for Gateway Produce Company.

The market price was still holding good early this week, and every indication is that this year's harvest will be one of the best yet.

In all, there are 800 acres in the area, about 40 per cent more than Gateway handles last season. Facilities of the packing shed have been doubled for this year.

Fortunately, none of the 800 acres have yet been hit by hail, if all of the acreage is harvested, it will be the first time since Gateway has been in operation in Bovina that at least part of the acreage has not been lost to hail.

for several weeks to come. The 60 acres of cucumbers are a part of about 300 acres of mixed vegetables, which include small acreage of tomatoes, peppers and cabbage.

Already underway at Gateway is the harvest and packing of cucumbers, of which there are 60 acres in the Bovina area. The first cucumbers were packed last week and the shed will be packing more of this vegetable crop this week and

Lodging Important Grain Sorghum And Corn Disease

Show Value Of Phosphate

Charcoal rot or lodging is a common disease of grain sorghum and corn in most areas of Texas. The fungus root rot causes more damage than head smut in many areas. Close to 100 percent infection may occur in susceptible selections or varieties. Losses are apt to be heaviest during years of little rainfall with dryland farming. Although lodging is caused by other things in many cases it is charcoal rot disease.

Damage is noticed during June and July in South Texas. The disease appears in North Texas during August and September.

Damage is easiest to detect when the plants are approaching maturity. Charcoal rot damaged plants have poorly filled heads or ears with lightweight grain. Diseased stalks ripen and dry early.

Weakening of the stalks by the fungus, in many cases, causes them to lodge. Stalks are soft and discolored at the base with the pith disintegrated and shredded. Small pin-point, blackish, seed bodies (sclerotia) may be among the shredded pith.

Other crops affected by the disease are alfalfa, cotton, lespedeza, sugar beets, sweet potatoes, watermelons, sunflowers, peppers, cowpeas (southern peas), beans and peas. Crops that have their

seedling stages and those that mature in cool or rainy weather are not damaged seriously.

Abundant moisture from rain or irrigation water in the latter part of the growing season practically controls the stem rot form. Crops appear to resist the disease in their period of growth when they have high vigor. Work is under way in an effort to develop resistant hybrids.

Contact your extension agent for additional information. Ask for a copy of B-912, "Grain Sorghum Production in Texas," B-210, "Growing Grain Sorghum" or B-712, "Charcoal Rot of Plants in East Texas."

County 4-H Girls Have Cookout

Following the County 4-H Bake Show, July 25, approximately 45 4-H girls and mothers took part in a swimming party, cookout, and slumber party in Friona and Oklahoma Lane Community Center.

For the evening meal the girls prepared beef stew in foil according to directions in the bulletin, "Outdoor Cookery." Each girl assembled her own stew ingredients following a demonstration by Miss Ettie Musil. While the stew in foil was cooking over coals the girls had a sing song led by girls who had learned campout songs before.

After supper and clean-up Katie Blackstone and Viane Lesly who had attended the district picnic led several games. All girls slept in the Oklahoma Lane Community Center.

In the morning the girls cooked bacon and eggs on aluminum foil skillets made with forked saplings. After clean up of camp and a surprise birthday party for Sherri Tannahill, the camp was dismissed.

Attending camp were: Darla and Risa Howell, Katie Blackstone, Judy Koelzer, Linda Gleason, Reba, Viane, and Peggy Lesly, Carol and Janice Miller, Connie Dennis, Nedda Foster, Kandy Meeks, Becky Terrell, Crista Evans, Vicki and Connie Vaughn, Gall Bartlett, Marsha Schumann, Sheila Vaughn, Jan Shirley, Janis Billingsley, Pat and Sherri Tannahill, Karene Milner, Linda Ashford, and Kathryn Gober.

Adult leaders who attended were Mrs. U. L. Lesly, Mrs. Joe Jesko, Mrs. Leon Billingsley, Mrs. Nelson Foster, Mrs. Milner and Miss Ettie Musil. Carolyn James was a visitor.

Turkeys top the USDA's plentiful foods list for August. Marketings during the month will be as large as around Thanksgiving in yesteryears and prices make turkey a bargain meat. Eat them often. They are excellent barbecued, says the Texas Agricultural Extension Service poultry marketing specialists.

County Delegates To State HD Meeting

To represent Farmer County at the Texas Home Demonstration Association in San Angelo, August 9 and 10, will be Mrs. Fern Barnett and Mrs. Ellis Tatum of Black HD Club. Mrs. Price, Mrs. Gore, and Mrs. Symcox will participate in special workshops taught by authorities in each field. Workshops will include health and safety, civil defense, recreation, citizenship, 4-H, and family life. Following these workshop trainings the county delegation will file the information in the Extension Service Office files. This information will be available for special programs.

This year's theme for the state meeting is "Facing the Challenge of Today's Tasks." Approximately 800 home demonstration club delegates and members are expected to attend this annual meeting.

A luncheon is being planned by the Council Recreation Committee at which time interesting reports will be presented by the delegates, Mrs. Price, Mrs. Gore and Mrs. Symcox.

Another wheat experiment was conducted by A. L. Black, who farms six miles east of Hub. On two blocks of wheat, he applied 102 pounds of nitrogen. On one of them he applied phosphate and on the other one he didn't.

Here are the results:

Block	Net P205	Source of P205	Per Acre Yield
1	50#	0-46-0	63.6 bu.
2	0	0-20-0	64.4 bu.
3	40#	0-20-0	61.4 bu.
4	40#	11-48-0	65.1 bu.
5	50#	0-46-0	64.9 bu.
6	0	0	42.1 bu.

Black sums up the results this way, "For wheat production alone, the phosphate paid so little it was not profitable in 1961." "The increase grazing, however, probably made it profitable," he says.

The Hub farmer believes that it would be a good practice for a farmer to keep checking each year to make sure that he doesn't farm two or three years needing plant food he doesn't have.

County Agent Jones adds, "I certainly agree with A. L. on this point and suggest that all of you do some checking on your own every year so you will know when the day comes that phosphate is needed."

The county agent points out that it wasn't long ago that many farmers questioned the value of nitrogen, but that now they admit that without it they'd be out of business.

"In this changing agricultural picture, we must be ready to make the necessary adjustments in our farming programs when the need arises, and not five years later," Jones says.

Following is a test, similar to Black's, which was conducted on the Preston Cargile farm at Lariat (131 pounds of nitrogen was applied on each block):

Block	Net P205	Source of Net P205	Per Acre Yield
1	64#	0-20-0	42.6 bu.
2	0	0	30.0 bu.

Cost of phosphate per acre was \$5.28. With these figures, you can easily determine the value of phosphate.

Another test, conducted on the farm of Clarence Johnson, four miles east and three miles north of Oklahoma Lane, had the following results (90 pounds of nitrogen was applied on each block):

Block	Net P205	Source of P205	Per Acre Yield
1	45#	Liquid	63 2/3 bu.
2	0	0	57.6 bu.

Cost of phosphate per acre--\$5.10

Jones reminds farmers that it is a good practice to do some checking on the results of various fertilizer applications every year. "It is a little trouble, but you are the one who can get the results from these various practices," Jones says.

"Also," he adds, "Don't forget the soil test is a good guide

In an effort to determine how valuable the application of phosphate would be to Farmer County soils, four farmers undertook individual experiments on their wheat this year.

According to the results of the tests, the application of phosphate was especially beneficial on sandy lands.

Joe Jones, Farmer County Agent, says that these tests were taken to help get information for the farmers themselves, as well as others who are interested in knowing the value of phosphate when applied in combination with nitrogen.

"One should keep in mind that these tests were not research work," Jones says, "but they do have the practical aspect which most everyone is interested in."

Walter Kaltwasser, who farms seven miles east of Farwell, planted six different five-acre blocks of wheat. On each block he applied 99 pounds of nitrogen with different amounts of phosphate. Also, he experimented with different sources of application. Here are the results:

Block	Net P205	Source of P205	Per Acre Yield
1	50#	0-46-0	63.6 bu.
2	60#	0-20-0	64.4 bu.
3	40#	0-20-0	61.4 bu.
4	40#	11-48-0	65.1 bu.
5	50#	0-46-0	64.9 bu.
6	0	0	42.1 bu.

These plots were all five acre blocks with equal amounts harvested from each. To arrive at the increased income from phosphate, you can check Block 6 against the rest and figure the net phosphate at 10 cents per pound.

The Kaltwasser's costs came out, the wheat with phosphate netted him \$35 per acre more than it did with nitrogen only.

"Results of this test may be hard to believe," Jones says, "but in case you want to talk to Walter about it, he is ready to discuss it with you."

Another wheat experiment was conducted by A. L. Black, who farms six miles east of Hub. On two blocks of wheat, he applied 102 pounds of nitrogen. On one of them he applied phosphate and on the other one he didn't.

Here are the results:

Block	Net P205	Source of P205	Per Acre Yield
1	48#	13-39-0	64 bu.
2	0	0	59 bu.

Black sums up the results this way, "For wheat production alone, the phosphate paid so little it was not profitable in 1961." "The increase grazing, however, probably made it profitable," he says.

The Hub farmer believes that it would be a good practice for a farmer to keep checking each year to make sure that he doesn't farm two or three years needing plant food he doesn't have.

County Agent Jones adds, "I certainly agree with A. L. on this point and suggest that all of you do some checking on your own every year so you will know when the day comes that phosphate is needed."

The county agent points out that it wasn't long ago that many farmers questioned the value of nitrogen, but that now they admit that without it they'd be out of business.

"In this changing agricultural picture, we must be ready to make the necessary adjustments in our farming programs when the need arises, and not five years later," Jones says.

Following is a test, similar to Black's, which was conducted on the Preston Cargile farm at Lariat (131 pounds of nitrogen was applied on each block):

Block	Net P205	Source of Net P205	Per Acre Yield
1	64#	0-20-0	42.6 bu.
2	0	0	30.0 bu.

Cost of phosphate per acre was \$5.28. With these figures, you can easily determine the value of phosphate.

Another test, conducted on the farm of Clarence Johnson, four miles east and three miles north of Oklahoma Lane, had the following results (90 pounds of nitrogen was applied on each block):

Block	Net P205	Source of P205	Per Acre Yield
1	45#	Liquid	63 2/3 bu.
2	0	0	57.6 bu.

Cost of phosphate per acre--\$5.10

Jones reminds farmers that it is a good practice to do some checking on the results of various fertilizer applications every year. "It is a little trouble, but you are the one who can get the results from these various practices," Jones says.

"Also," he adds, "Don't forget the soil test is a good guide

to go by. Your most profitable program can be worked out beginning with the soil test."

Jones says that there are also several farmers over the county who are checking the value of phosphate on grain sorghum and cotton. There will be reports on these experiments this fall.

"I am always looking for farmers who are willing to set up fertilizer checks and follow up by harvesting and weighing separately, so the value can be established rather accurately and not guessed at," Jones says. "This is extremely important in the tight lands in order for you to determine the need as it arises," the county agent says.

Jones also points out that one should keep in mind that the fertility of land changes each year as does the production a farmer desires. "With this in mind, I think we can all agree that a fertilizer element might not have paid in 1961, but would in 1962," Jones says.

"You will also agree that an element that didn't pay under a 40 bushel wheat yield, would pay off big if all good farming practices, plus plenty of water for a 60 bushel crop, were included in your farming program," the county agent concludes.

WITH THE COUNTY AGENT

JOE JONES

If you are interested in a grass for grazing or waterway, or both, Midland bermuda could be your answer. I visited Charley Christians' 1960 planting the other day and it certainly is furnishing the grazing. Charley's grass is a mile north of Friona over in New Mexico.

I was also talking to W.H. Long, who reported that his is certainly furnishing the pasture. When considering bermuda you should remember it furnishes good grazing for only a short season. It will be June each year before it furnishes much grazing and will begin to slow up some as cool weather comes on in late September.

There are several good grasses we can use for hill sides and rolling land that you might prefer. You must remember it takes water and plant food to get a high production of forage through grasses just like it does on sweet grass-type crops such as other sorghums, grain sorghum or corn. If interested in a grass come by or stop in at the Soil Conservation Office and talk to Bob Crozier, Jay Sanders, or Bill Linton.

Be sure to read and analyze the fertilizer result demonstrations included in a separate report of this issue. These results on the value of phosphate will be of interest to all wheat farmers.

A. L. Black, Walter Kaltwasser, Preston Cargile, and Clarence Johnson are to be commended for their effort in getting information of this nature and making it available to anyone who is interested. It is always a pleasure to work with people who will go to a little trouble to help themselves and their neighbors.

We are going to have a lot of fallow land to put wheat on this fall, but do not get the idea you will not need to apply much plant food because it lay fallow this summer. Chances are you will need to apply just as much as if it wasn't left fallow. The plant food build up will be rather insignificant in relation to what it takes to produce 50 to 70 bushels of wheat.

The soil test will determine just how much of what to apply. I HAVE plenty of cartons for sending off samples as do all fertilizer dealers. Samples may be sent to The Extension Soil Testing Laboratory, Rt. 3, Lubbock, Texas. The laboratory is located on the Texas Agricultural Experiment Station at Lubbock. Last year it was operated from a laboratory in the edge of Lubbock.

HIGHEST OVERALL SCORES in Parmer County's 4-H Bake Show last Wednesday were won by Linda Gleason and Katie Blackstone. Linda will represent Parmer County in the District Bake Show in Amarillo, September 16, at the Tri-State Fair, and Katie is alternate. Both girls are members of the Lazbuddie Senior Girls 4-H Club.

Thirty Girls In Bake Show

Thirty 4-H Club girls took part in the Parmer County 4-H Bake Show held Tuesday afternoon, July 25, in the Community Room of the Friona State Bank at 1:30.

Each girl entered eight cinnamon rolls and eight muffins that were judged for appearance, moisture content, color, texture, lightness and flavor. According to the judges all the bakery products were of good quality. Record books were worth one-half of the score of each of the bakery goods.

Judging was made according to three age groups. A first and second place winner was announced in cinnamon rolls

and muffins of each age group. All products were made by the same recipes in Extension Service bulletins "Yeast Breads Made At Home" and "Quick Breads."

Linda Gleason made the highest over-all score of all three age groups. She scored 93 with the total being 100. Linda, daughter of Mr. and Mrs. Truman Gleason of Lazbuddie, will represent Parmer County in the District 4-H Bake Show, September 16, at the Tri-State Fair in Amarillo.

Alternate over-all score was made by Katie Blackstone with a score of 92 2/3. Katie is the daughter of Mr. and Mrs. Harvey Blackstone of Lazbuddie.

Scoring in the 9-10 year old group are: Cinnamon rolls--first place, Crista Evans of Friona Jr. 4-H Club Girls; and second place, Connie Dennis of Farwell 4-H Club Girls. Plain bread muffins--first place, Marsha Schumann of Lazbuddie Jr. 4-H Club Girls; and second place, Vicki Vaughn of Rhea 4-H Club Girls.

Other high scoring in the 9-10 year old group making cinnamon rolls and muffins are Nedda Foster, Risa Howell, Kandy Meeks, Becky Terrell, Gail Bartlett, Jan Shirley, Sheila Vaughn, and Janice Miller.

Scoring in the 11-12 year old group are: Cinnamon rolls, first place, Patricia Tannahill of Friona Jr. 4-H Club Girls, and second, Janis Billingsley, of Farwell 4-H Club Girls. Muffins -- first place, Karene Milner of Friona Jr. 4-H Club Girls, and second, Sherri Tannahill of Friona Jr. 4-H Club Girls.

Other high scoring in the 11-12 year old group making cinnamon rolls and muffins are Judy Koelzer, Greta Mears, Reba Lesly, and Carol Miller.

Blue, red, and white ribbons were presented to each girl for each entry by Miss Ette Musil, Parmer County Home Demonstration Agent. She commented, "The girls all did a fine job in the good quality of muffins and cinnamon rolls. We are proud of their effort and accomplishments."

Judges for the annual Bake Show were Mrs. Argen Draper, Deaf Smith County Home Demonstration Agent, and Mrs. Thomas, Foods Leader in Deaf Smith County.

The HAPPY HOMEMAKER

BY JUNE FLOYD

If cantaloupe producers would advertise the fact that half of a luscious cantaloupe has only 37 calories but has a lot of vitamins A and C, calorie counters would probably buy many more of these yellow melons.

In recent years several recipes have been developed for preserving cantaloupes, so this adds to the long list of jams, jellies, etc. a homemaker can preserve in the summer for use during winter months.

Try several of these recipes and add them to your collection for future use.

SPICED CANTALOUPE

3 cantaloupes
2 T pickling salt
1 qt. water
1 lb. brown sugar
1 1/2 cups cider vinegar
1/2 cup water
1 teaspoon cinnamon
1/4 teaspoon allspice
1/4 teaspoon ground cloves

Select slightly green cantaloupes. Pare, cut into 1-inch strips or cubes. Allow to soak in salt water solution for 2 or 3 hours. Weight down with plate. Drain.

Bring sugar, vinegar, water and spices to a boil, then add melon. Cook until transparent. Pour into hot sterilized jars and seal. Yields 3 pints.

CANTALOUPE BUTTER

4 cups cantaloupe pulp
1/4 cup vinegar
2 cups sugar
1 teaspoon cinnamon
1/4 teaspoon pumpkin pie spice mix

Combine ingredients and cook over low flame until thick, 1 1/2 to 2 hours. Stir frequently to prevent burning. Pour into sterilized jars and seal.

CANTALOUPE CONSERVE

8 cups diced cantaloupe (2 to 3 melons)
8 cups sugar
1 medium can (no. 2) crushed pineapple
2 lemons, juice
2 oranges, juice
1 bottle maraschino cherries
1/4 lb. blanched almonds (1 cup)

Combine all ingredients, except cherries and almonds. Cook over very low heat until sugar is melted. Then simmer for about 2 hours. When mixture has thickened, add diced cherries and slivered almonds. Pour into hot sterilized jars and seal. Yield: approximately 8 or 9 half pints.

IMPERIAL

CANTALOUPE PICKLES
3 quarts cantaloupe cubes
1 quart water
1/4 oz. powdered lime (this may be obtained from any drug store)
2 quarts white vinegar
5 lbs. sugar
3 Tablespoons whole cloves
9 three inch pieces of stick cinnamon
1 fresh lemon
1 fresh lime

Cut cantaloupes (about 4 medium-size melons) into quarters. Remove seeds. Pare and cut into about 2-inch cubes, wedges or fancy shapes with cookie cutters. Cover with water in which lime has been dissolved. Soak overnight.

Drain and cover with fresh water. Bring to boiling point. Drain again. Cook sugar and vinegar with spices (in a cheesecloth bag) for about 15 minutes. Remove spice bag. Cook melon in syrup until tender and rather transparent, about 1 hour.

Slice lemon and lime as thin as possible and drop into melon-syrup mixture. Boil for 1 minute. Pack in sterilized jars. Fill with syrup and seal according to manufacturer's directions. Store in cool dry place. Yield 7 pints. Save remaining syrup for glazing a baked ham.

The three following recipes can be used over and over again with slight variations.

CREAMY POTATO SALAD

5 cups cubed cooked potatoes
2 tablespoons minced onion
1 tablespoon parsley flakes
1/2 cup chopped celery
1/2 cup chopped dill pickles
2 tablespoons sugar
1 package garlic French salad dressing mix
1/2 cup vinegar
1 tablespoon butter or margarine
1 tablespoon flour

Toss together potatoes, minced onion, parsley flakes, celery and pickles in large bowl. In a small saucepan combine sugar, salad dressing mix, vinegar and butter; bring to a boil.

Remove from heat and stir in flour. Gradually add hot mixture to egg yolks, mixing well. Cool. Whip cream; add to cooled vinegar mixture. Add dressing to potatoes and toss until well blended. Serves 6-8.

Old Fashioned Potato Salad
2 quarts diced cooked potatoes (about 2 1/2 pounds)
4 hard boiled eggs, chopped
1 cup chopped celery
1/2 cup chopped green pepper
1/4 cup minced onion
1 1/4 cups mayonnaise
1 package old fashion French salad dressing mix

Place all ingredients in a large bowl. Toss until well blended. Serves 10-12.

HOT POTATO SALAD

4 slices bacon
1/2 cup vinegar
1/2 cup water
2 tablespoons sugar
1 package Italian salad dressing mix
5 cooked medium potatoes, steaming hot
1 tablespoon minced onion
1 teaspoon parsley flakes

Fry bacon until crisp; remove from pan and set aside. Add vinegar, water, sugar and salad dressing mix to bacon drippings; bring to a boil. Slice hot potatoes into a bowl. Add minced onion, parsley flakes, crumbled bacon and the hot dressing. Toss gently until blended. Serve hot. Makes 4-6 servings.

Two more potato recipes that you will probably want to try are for main dishes that are very tasty.

POTATOES IN SOUR CREAM

4 cooked potatoes, diced fine
1 small onion, diced
1 1/2 teaspoons salt
1/4 teaspoon pepper
1 cup sour cream

Combine potatoes with onion. Place 1/3 of mixture in greased casserole. Season with salt, pepper; dot with sour cream. Repeat layers twice; end with sour cream. Bake.

BAKED FILLED POTATOES

Wash and scrub with a vegetable brush 6 medium sized baking potatoes. Dry with absorbent paper. Rub potatoes well with about one tablespoon fat.

Place potatoes on oven rack; bake at 425 degrees 45 to 60 minutes, or until soft when pressed with the fingers. Remove potatoes from oven, gently roll each one on a flat surface. Cut large potatoes into halves lengthwise. Or cut a thin

Next time you start to replace a button and find that a piece of the material has been torn away, try ironing two layers of mending tape that match the garment. Then sew your button through the mending tape.

At this time of year potatoes are plentiful and ways to serve them need to be varied. Any noon or evening meal will be made more enjoyable by the addition of an attractive dish of potato salad.

Judy Billingsley Wins In District Dress Revue

Judy Billingsley, daughter of Mr. and Mrs. Leon Billingsley of Farwell, placed among the top five 4-H Club girls who modeled in the District 4-H Dress Revue, Friday morning, in the Pioneer Natural Gas Building in Amarillo.

SOIL CONSERVATION DISTRICT NEWS

Time is rapidly approaching when grain sorghum will be in its peak water use state. Proper management of irrigation water is very important during this time and especially to those who have a limited supply of irrigation water. Crop yields are directly affected by the way water is applied.

Crops usually produce the highest yields when they can easily obtain moisture from the soil throughout the entire growing season. An application of water before it is needed will result in extra irrigation costs, excessive leaching of plant food and in some cases harmful effects on the crops. On the other hand, allowing the soil to dry out until the crop suffers for lack of moisture will result in lower, low quality yields.

Some factors to be considered that will bring about more efficient use of irrigation water are, the storage capacity of the soil, the kind of crop that is being grown, the stage of growth of the crop and weather conditions. Good irrigation water management depends on the farmers knowledge of the factors which determine the amount of water and when it is to be applied.

The mounting human population is demanding more water for domestic, industrial agricultural, recreational, navigational, and power needs, at the same time when requirements for safe and adequate waste disposal are increasing. Since anticipated demands for water soon will equal available supplies, re-use (once or several times) of water for all beneficial purposes.

Adequate control of pollution will require readjustment of the national philosophy from one of lavish waste of water, as has happened to so many natural resources, to one of conservation or wise use.

---CONSERVATION NEWS, January 15, 1961

Conservation doesn't cost, it pays.

lengthwise slice from tops of smaller potatoes. With spoon scoop out inside without breaking skin.

Whip and season potatoes beating in one of the following combinations: (1) 1/3 cup deviled ham, and 3 tablespoons minced parsley or (2) 1/2 cup grated Cheddar cheese (reserve some of topping) and 8 to 10 stuffed olives, finely chopped.

Pile mixture lightly into potato skins, leaving surfaces uneven. If desired, top with 1/3 cup crushed buttered corn flakes or crumbs. Bake 8 to 10 minutes longer, or until potatoes are thoroughly heated and tops are lightly browned. Makes 6 servings.

These top five will represent District 1 in the State Dress Revue, October 7, in Dallas during the State Fair.

Seventeen county first place winners entered their garments on the girl, and grooming, poise, and attitude of the girl.

Record books and construction of the garments were judged Thursday. Approximately 125 parents, guests, and home demonstration agents saw the judging of the garment on the girl.

Judy modeled the basic sheath dress of lavender wool blend she made for the County 4-H Dress Revue. She complemented her outfit with lavender gloves, black velvet beret, and black suede shoes and clutch bag.

Other district winners are Lou Ann Witkowski of Castro

County, Linda Holt of Hansford County, Mary Ann Edling of Hartley County, and Sheila Donaldson of Sherman County. Alternate is Judy Caldwell of Carson County.

Attending the District Dress Revue from Parmer County were the first place and alternates of the County Dress Revue garment groups, parents, adult leaders, and other 4-H members.

They were Connie Schlenker, Reba Lesly, Judy Koelzer, Patricia Tannahill, Janis Billingsley, Viane Lesly, Sherri Tannahill, Vicki and Connie Vaughn, Greta Meers, Mrs. C. W. Tannahill, Mrs. Carl Schlenker, Mrs. U. L. Lesly, Mrs. Leon Billingsley, Mrs. Richard Vaughn, Miss Ette Musil, and Mr. and Mrs. Joe Jesko.

New Trailer Law Reduces License Fee

House and Senate agricultural leaders said this week that the new farm trailer law will save farmers and ranchers of Texas millions of dollars annually by reducing the license fee.

They said many farmers do not understand how the law benefits them and were protesting the payment of the annual license fee required under the new legislation.

HB 1082, the farm trailer law, was passed during the regular session of the Legislature and became effective May 29 with Governor Daniel's signature. It requires that farm trailers of from 4,000 to 10,000 pounds gross weight be registered with the county-tax assessor. It also provides that owners must se-

cure a special farm trailer license plate for a \$5 annual fee.

Farm trailers up to 4,000 pounds gross are not required to have license tags, and all farm trailers up to 10,000 pounds gross are exempt from brake requirements.

Senator A. J. (Andy) Rogers of Childress and Rep. Grainger McIlhenny of Wheeler, sponsors of the trailer bill, said many legislators have encountered

mass resentment on the part of farmers over the \$5 license fee.

In a statement to the Texas Farm Bureau legislative office here, the two lawmakers said they wanted farmers to understand that without passage of the trailer law this year, the cost of operating farm trailers would have been prohibitive.

They said, for example, that before the new law was passed, the license fee for a 10,000-pound trailer (gross weight) was \$55, or \$50 more than is required by the new law. They pointed out that the Department of Public Safety had warned that if a farm trailer bill was not passed this year, the department would begin strict enforcement of laws on trailer licensing and brake requirements.

Bob A. Lilly, legislative director for the Texas Farm Bureau, said HB 1082 was a compromise bill. He added that it was quite evident that some law was not passed, the DPS would enforce the old farm trailer law which exempted farm trailers only up to 4,000 pounds gross and which provided for brake requirements on all farm trailers of more than 3,000 pounds gross.

He said the elimination of brake requirements under the new law will save farmers "untold millions of dollars" annually. He estimated the minimum cost for adequate brakes at \$200 per trailer.

Senator Rogers estimated that the new law will save farmers in his 15-county district some \$25 million a year. He based this on an estimate of 100,000 farm trailers (used mostly for hauling cotton to the gin) in his High Plains district. He said a \$50 savings on license fee and a \$200 savings on brakes for 100,000 trailers adds up to \$25 million.

FOOTSAVING EDUCATION

by James E. Edwards

Are There Any Exercises Recommended To Strengthen Feet Of Babies Who Walk?

I have heard that in Scotland there has been quite a movement to encourage parents to regard the importance of early foot exercise. In America we devote all of our attention to babies' hands while we conceal the feet in shoes and under blankets as if the pinkies were indecent.

Foot exercise is the same simple grasping action which delights us when a baby grasps our little finger. Touching a baby's toes with your little finger will encourage toe function and if you keep the baby's feet uncovered the baby will continue the exercises with little or no encouragement.

It may cause eyebrows to flutter when a baby reaches for a toy with his toes but it is good foot health.
