James Patton Found Shot

12 PAGES

VOL. 39 NO. 3

SECTION 1

Coy James Patton, 41, was the kitchen of his home at discovered dead in a chair in 1:50 p.m. Monday by Ben Moor-

man, city police chief. He had been shot in the left side of the chest with a .45 caliber revolver.

His death was ruled as self inflicted at the inquest conducted by Justice of the Peace, Mrs. Thelma Jones, at the scene. Death was estimated to have occurred near 6 p.m. Sunday.

Patton was discovered after repeated failures of an insurance adjuster to receive an answer at the house. Both the pickup and car owned by Patton were parked by the house.

The adjuster was attempting to reach Patton to discuss action in connection with the loss of property resulting from the collapse of the building housing the laundry operated by Patton. For some yet undetermined reason, the building was destroyed Saturday morning.

The adjuster sought the assistance of Moorman who also received no answer at the door. When the latch was tried, the door was discovered to be open. Moorman then entered the house to discover Patton sitting at the breakfast bar with the pistol beside him.

None of the nearby residents recall hearing a shot Sunday evening.

Investigation of the premises revealed the presence of a last will and testament, signed by Patton, in the glove compartment of his car parked in the car port. The document was dated Oct. 15 and addressed to Mrs. Maudene Edelman, a neighbor.

Funeral services were conducted at 3 p.m. Wednesday at the Friona Methodist Church. Rev. Hugh Blaylock of Dimmitt officiated with the assistance of Rev. Wallace Kirby, pastor. Claborn Funeral Home directed the services.

pallbearers were Ira Bruce Parr, Johnny Miller, Claude Edelman, Worth Covington, Joe Lutz, Delton, Mike Koelzer and Fred Barker, Jr.

Survivors besides his wife, Janice, are a son, Jimmy of Denton; a daughter, Virginia of Amarillo; five brothers, Raymond, Johnny and R. C. of Seminole, Teddy Max of Lubbock and Yates of Carlisbad.

Also two sisters, Mrs. Robert Evert of Lubbock and Mrs. Wilber Ronsire of Sweetwater; and one grandchild, Charla Patton of Denton.

Attend Cancer Society Meet

Committee members for American Cancer Society of Parmer County attended a meeting for District 3 Thursday at Lockney.

Opening the session was a coffee at First Methodist Church after which unit reports and business was discussed. Dr. William W. Sullivan, orthopedic surgeon at University of Texas Medical Branch in Galveston, gave the main speech.

FALLING STONES . . . ceiling and walls of Patton's Coin Operated Laundry at the intersection of Highways 60 and 214 collapsed at 12:30 a. m. Saturday. Cause of the wreckage has not yet been definitely established but the report by the city

fire chief indicates structure failure as the cause. Other interested parties cite a freak explosion as the cause of the damage. The presence of intact window and door glass is pointed to as contradicting the explosion theory. The building is

owned by Nelson Welch and Loyd Shackelford. It was constructed in 1958 by Roy Wilson. An engineer was called in this week to attempt to determine the exact cause of the destruction.

Now we've got to admit, grandsons are great. We just don't have any choice in the matter--unless we want a major war on our hands.

Our society editor, Mrs. Ella Faye Holcomb, just returned from a week-long visit with her first--grandson, that is--and if you are not acquainted with his every feature, it's only because you have not dropped in at the office this week.

She brought back the usual snapshot of the little tike and in our studied opinion, it has passed from hand to hand faster and more often than one of our aged greenbacks.

But that's all right, it's great. We just can't find any objection at all to passing his picture around and shoving it at everyone who comes within hailing distance--we can't afford to. Who knows, he might even become so well known that he would rival Kennedy in a popularity poll. Shouldn't take more than a few million pictures.

There is one thing that we object to though--and this will probably set off more explosions than the Russians have in the past six months--. When we ask who was on the phone and get a murmured reply which sounds vaguely like, "The little stinker," something's gotta give!

It may be us????? Speaking as an outside observer, we would say, offhand, that she is more attached to the "moist, sticky little thing" than any normal mother could possibly be. Of course, not having had the experience of being a mother, (a fact for which we hold no remorse) we cannot speak from experience.

Maybe the fact that her sons turned out to be girls had something to do with her deep attraction to the grandson.

Anyway, we'll sure be glad when the new wears off and the daydreams stop cluttering up the air around the office.

We probably won't get around to checking all the society copy this week so we suggest that our readers watch out for those unhidden phrases such as, "little stinker," "Cute little thing," or "Mrs. J. D. Grandson," tucked away in the stories.

If the Russians feel the same way toward their grandsons, maybe the best fall-out protection we could get would be to abduct a few and bring them over here.

--TH--

In the latter part of last month, our esteemed publisher, W. H. Graham, assumed operation of the LOVINGTON LEADER, which is a daily paper. Since it was out of the question to print it anywhere other than in the plant here in Friona, and since all good dailies must have wire service, a couple of the machines were installed.

Now these machines don't speak the same language as the typesetters previously used in the plant. Consequently, another typesetter called an Intertype was brought in to translate the wire service jargon into English. And therein lies a tale.

This squat little monster has all the modern safety gadgets -- electric eyes, safety switches, valves, and even safety checks for the malfunction preventers.

The perforated tape from the wire machine is fed into a little black box and the machine starts clicking and clattering in fiendish glee. The little red light starts blinking, gears start whirring, keys start clicking, mats start dropping and levers start levering.

So long as someone keeps a cool eye on it and doesn't breathe too hard, it will produce nine lines of type such as appears in this column each minute. And the type is cast in metal.

But just let someone turn their back on it and all h---- breaks loose. The wrong lights blink, the right lights stop blinking, the gears stop gearing, the levers stop levering and it just grunts, moans, screeches, squats and squirts.

The only thing it doesn't do is produce nine lines of type per minute. In fact, it won't produce even one line of type at all.

(See Castin', Page 2)

Student Council Plans Halloween Candy Drive

Little ghosts and goblins will turn most their prizes over to the Friona High School Student Council for a worthy cause this year.

The council is sponsoring a trick-or-treat drive to collect candy for the less fortunate children in Abilene State Hospital as part of the Halloween activities Oct. 31.

This is the third time the council has sponsored such a program in Friona, according to Raymond Cook, high school principal.

Homeroom groups are being asked to collect the candy and bring it to the council Nov. 1. The homeroom which collects the largest amount of candy will receive prizes of \$7.50 for first, \$5 for second, and \$2.50 for third.

The Student Council will separate the candy according to kinds and place it in small bags

for shipment to the hospital. Candy must be wrapped to facilitate sanitation, handling and mailing procedures.

"We shipped 78 pounds of candy to the hospital in 1958 (the last time the drive was held)," Cook said. "We are looking to have between 75 and 100 pounds this year."

The "night of the goblins" has been on a weekend for the past two years and the drive was canceled.

Approximately 250 students of the first five grades are expected to participate in the activities.

"We cannot over stress the need for wrapped candy," Cook said. "We cannot ship fruit, nuts or candy that is not wrapped."

Candy such as that sold by the Volunteer Fire Department during their candy sales this week would be ideal for shipment to the hospital for epileptic children in Abilene.

The department completed their first door-to-door canvass of the city in an effort to raise funds to pay its share of the \$12,600 new fire truck for the Boy's Ranch at Amarillo.

THREE TIME WINNER . . . Jeffery Price, 9-year-old fourth grader, leaped into first place in the Cotton Bowl Contest to chalk up his third win in the last two years. He has proved that he can control a ball as well as he can predict the outcome of games too. He is wearing a jacket which he won in a Pass, Punt, and Kick contest recently.

Elementary Student Wins Weekly Contest

A nine-year-old fourth grader, Jeffery Price, submitted only entry with eight correct predictions to walk away with the weekly check of \$5.00 in the Cotton Bowl Contest.

Price was followed by Elizabeth McLellan in second place and Abel Covarrubias in third. Both managed to correctly choose seven winners.

The next highest score was six correct choices.

This is the third time young Price has walked off with the weekly prize money in the past two years. He won first place in two of the weekly guessing games last year.

In last week's predictions, Price picked Farwell and Baylor to win over Kress and Arkansas to drop two points. Both Mrs. McLellan and

Covarrubias picked Farwell and the Dallas Texans over Kress and the Buffalo Bills. Mrs. McLellan picked White Deer over Stinnett and Covarrubias chose West Texas State over Arizona State.

Frankie Allen and C. H. Veazey are both tied for first place and the trip to the Cotton Bowl this year. Mrs. Mildred Agee is very close behind with 47 correct points.

The five top winners at the close of the eighth week are as follows according to the total number of correct choices made during the season.

- Frankie Allen . . . . . 48
C. H. Veazey . . . . . 48
Mrs. Mildred Agee . . . 47
Mrs. W. R. Mabry . . . 45
Jackie Clark . . . . . 44

20 YEARS OLD

Lions Observe Birthday

Friona Lions will open the official observation of their twentieth anniversary with a luncheon in the school cafeteria at 1 p.m. Sunday.

District Governor W. W. Didlake will introduce the guest speaker, R. A. Lipscomb of Odessa, Lion Lipscomb, a native of Burns City, Texas, is a graduate of North Texas State College at Denton.

He was elected to the International Board of Directors at the annual Convention in July 1958. He has served as president of his club for two terms, Zone Chairman, Cabinet Secretary-Treasurer, Deputy Governor, District Governor and chairman of the Council of Governors. He has had 15 years perfect attendance and has earned the Extension Award and Senior Master Kay.

The district 2-T-1 activities in Friona that day will begin with a cabinet meeting in the Community Room of Friona State Bank. Members of the Friona club will be hosts at this meeting which is primarily for cabinet officers, but is open to any members who would like to attend.

Time for adjournment of this meeting has been set for 10:30 so that it will not interfere with plans of any Lions attending church.

Attendance at the luncheon is expected to be about 275. Out of town guests are expected to number between 70 and 80.

Following Lion Lipscomb's speech, 20 years certificates will be presented and all past

presidents and special guests will be recognized. Concluding item on the agenda will be a

social hour and reunion. The Friona Club was (See Lions, Page 2)

LION PLANNERS...Hollis Horton (left) and Bill Nichols work over final details for events in connection with the celebration of the Friona Lions Club's twentieth birthday, Sunday.

Highlighting the events will be a dinner in the school cafeteria at 1 p.m. All members and past members are asked to attend.

## Patrol Investigates 10 Parmer Mishaps

The Highway Patrol investigated 10 accidents on rural highways in Parmer County during the month of September, according to Sgt. R. W. Sosebee, Highway Patrol Supervisor of this area.

These wrecks accounted for 1 person killed, 6 persons injured, and a property damage of \$5,495.00.

The rural traffic accident summary for Parmer County

from January through September of 1961 shows a total of 65 crashes. As a result of these crashes there were 2 persons killed and 30 persons injured. The estimated property damage amounted to \$37,175.00.

"Shorter days and longer nights spell disaster on the streets and highways," Sgt. Sosebee said. "Next time you turn on your headlights, glance at your watch and see how much earlier you are using lights than you did only a week or two ago. And, as time moves on during the next three months, car-lights will be needed earlier day by day.

"No matter what anyone may tell you as to how good a driver he is after dark, you had better take it with a grain of salt, because no human sees as clearly or as well after dark as he does in the daylight.

"Some people may see better than others, and some may not be bothered too much by bright lights in traffic; but, if they will be honest with you, they will admit that they do not consistently employ the same driving tactics after dark as they do in the daylight."

The veteran Highway Patrol Supervisor added that night driving is different; therefore, it calls for a driving technique very different from that used during the daytime.

Visiting in the home of Mr. and Mrs. C. F. Loflin Sunday were Mr. and Mrs. Har... and Mr. and Mrs. Don... and Mrs. Don... and Janie...

Mrs. A. H. Boatman and Mr. and Mrs. Gib Boatman returned to Friona Sunday night from Oklahoma City. They attended the wedding of Linda Ann Boatman, granddaughter of Mrs. A. H. Boatman, Saturday evening.

## Letters To The Editor

Dear Editor:

I wonder if there is even one citizen in this part of the country who approves the training of Communist pilots and maintenance men at Perrin Air Force Base in Texas or anywhere else? I really don't believe there is. Information broadcast over radio station KWGH in Shreveport on Monday night of this week seems to give factual information that communists from Yugoslavia are training jet pilots in Cuba, and that Cuban jets have been making practice target flights to within thirty miles of Miami Beach, Florida. We have heard protests from congressmen and senators from Texas, with a few exceptions, and one of the exceptions to my knowledge is Congressman Walter Rogers. For this reason, a copy of this letter is being mailed to him. Any congressman who parades his efforts and accomplishments toward getting federal moneys spent in his district, but who remains silent on a subject dealing with American tax dollars going to train enemy communist soldiers within his own state needs a very thorough examination in my opinion, Congressman Rogers may have made a statement on this controversial subject, and I hope he has, but if he has, I have not yet heard of it. The National Indignation Convention, meeting in Dallas every night this week to protest training of Communist flyers in this country needs the support of every red blooded American, some who have made a study of this subversive element in this country say that the only way things like this can be stopped is by a thorough congressional investigation of the State Department which has been cited by many authorities as harboring subversive communist individuals who work under civil service, immune to the vote or approval of the cit-

izenship of the country. I am inclined to go along with this idea.

The excuse given by the State Department that the reason for helping Yugoslavian military pilots is to keep that country from becoming allied with Russia is stupid. The enemy of this and every other independent country in the world is Atheistic Communism, wherever it is found. Yugoslavia is admittedly Communist and the Department admits that the military men harbored and trained at the base near Sherman, Texas, are Communists. The fact that the retiring Republican President told the incoming Democratic President that "the planes shipped to Yugoslavia were obsolete and would never be a factor in a major war of the future" (along with the agreement to train Yugoslavian Pilots to fly them) would certainly not find logic in a child's mind that the deal should be consummated.

Talk about the oft - heard story that we should not outlaw the Communist Party in this country because they would then go underground--I wonder if the same logic holds on military training--that if we don't train them they might go underground for that, too.

I cannot help being concerned about this situation. I don't mind asking my country "what I can do for America" -- but I do object to asking my president, "What can I do to strengthen the enemy of America" and then tightening my belt to do it.

Sincerely Yours,  
Raymond Euler

## Burglars Hit Bovina Stores

Burglars gained entrance to two Bovina businesses Thursday night but failed for their apparent search for cash or similar valuables.

They first entered the Cicero Smith Lumber Co. and after an "extensive search there," broke into the Hartwell Machinery Company. Less than ten dollars were gained for all their efforts according to Charlie Lovelace, county sheriff.

Lovelace is confident that both acts were committed by the same party.

No arrests have been made in connection with the incident but county officers are checking possible leads.

## PTA Executive Committee Meets

Eight members of the PTA executive committee met Monday, October 9, in the hospital meeting room for a PTA procedure course conducted by Mrs. Elmer Patterson of Hereford.

This committee plans to have one project to raise money to purchase a Controlled Reader and film.

ST. JOHNS, ARIZ., INDEPENDENT-NEWS: "One of the most interesting angles of the effort of Arizona Public Service to save taxpayers money by using existing facilities to transport power generated at Glen Canyon Dam is the advertising program of the RIA companies who oppose Arizona Public Service's offer... The angle comes from wondering if the RIA people can charge the advertising they are doing, and have done, to expense. You'll remember that the U.S. Internal Revenue Service has ruled that free enterprise companies CANNOT charge advertising, defending their business integrity or field of operation, to expense."

## Editorial Comment:

### Will America Rise Or Fall?

America may be following in the footsteps of the Roman Empire--heading for a fall. And, where America goes, Texas and Parmer County and Friona residents go also.

It has come to our attention that Edward Gibbon listed five major reasons for the fall of the Roman Empire in his monumental work, "The Decline and Fall of The Roman Empire," which he completed in 1788:

1. The rapid increase of divorce. The undermining of the dignity and sanctity of home, which is the basis human society.
2. Higher and higher taxes and the spending of public money for free bread and circuses for the populace.
3. The mad craze for pleasure, sports becoming every year more exciting and more brutal.
4. The building of gigantic armaments when the real enemy was within, the decadence of the people.
5. The decay of religion--faith fading into mere form--losing touch with life and becoming impotent to guide the people.

The above statements are supposed to describe the Roman Empire on its way to oblivion but compare them with the present American trends.

In 1931, there were 1,060,914 marriages and 188,003 divorces, a divorce rate of 1.5 according to the World Almanac. This means that 1.5 out of every 100 marriages ended in divorce.

This rate increased in 1946 to an all time high of 4.3. Following the WWII upheaval, the rate dropped back to near normal for the times with 397,000 divorces.

In 1959, the divorce rate held at 2.3 per cent. This may not be called a rapid increase by some people but it is definitely an increase.

As for taxes, the state sales tax in Texas, the increasing 'Social Security' tax, and many other examples of rising taxes may be found which more than fill the requirements for Gibbon's second statement.

Few people can say that the craze for pleasure is not on the upswing. With the coming of additional leisure time due to the ever shortening work week, more and more people are attending fights, football games and other such sports. And we cannot believe they are not becoming more vicious. The recent record-setting appropriation for the military

stands as mute evidence of armament buildup. No informed person can deny that America and other countries are building gigantic armies and weapons.

On the subject of religion, Rev. Bill Burton, First Baptist Church, agrees with a recent publication stating that religion was tending toward becoming a "mere form" rather than the revered doctrine of the past.

We should stop and take a long look at our nation and ask ourselves if we have learned a lesson from the past.

## Lions--

(Continued from page 1)

chartered in 1941 with W. L. (Preach) Edelman as charter president. Chartering club was the Muleshoe Lions Club.

Since organization of the Lions Club here one of its major activities has been assisting with benevolent projects. Glasses have been provided for a number of persons each year.

\*\*\*\*\*  
Boss Lion Hollis Horton urges all past members of Friona Lions Club to attend the luncheon.

\*\*\*\*\*  
Benefit shows have been staged for Parmer County Community Hospital and other community service projects have been sponsored.

At the Thursday evening meeting of the organization membership certificates were presented to all members present. Remainder of the cer-

tificates will be given at the October 26 meeting.

Quartet selections were presented by Forrest Osborn, Frank Claborn, Herbert Day, and Wayland Ethridge.

During the business session it was voted to render financial assistance to the foreign exchange student program. Steve Messenger and Wesley Foster were appointed to locate and invite all past members possible to attend the luncheon.

## PTA Meets Thursday

Mrs. J. C. Claborn will have charge of the program for the PTA meeting Thursday evening at 7:30 p.m. in the high school auditorium. Musical selections will be presented by the High School choir under the direction of Lowell Bynum.

## Two Shots Fired In Local Affray

Two shots were fired in an affray involving four Spanish boys and four Caucasian boys in the roadside park east of Friona Sunday night, Ben Moorman, police chief, reports.

No one was injured although one of the bullets struck the front of the hood of the car belonging to one of the boys. The incident started with taunts being tossed back and forth in town, according to reports. The group finally met in the park and during the melee, one of the Spanish boys fired a pistol in the direction of the opposing group. Seven of the boys involved are reported to be under 18 years old.

According to the account given by one of the participants, the firing of the pistol ended hostilities. The Spanish boys drove off shortly before city police officials arrived at the scene. The other four boys were watching from behind the railroad embankment as the officers searched the area.

The participants were apprehended shortly thereafter and the Spanish boys were persuaded to disclose the hiding place of the pistol. A check revealed that the weapon was the 6-shot, single action, .22 caliber revolver reportedly taken from the pickup owned by Earl Drake, Friona, on Sept. 10, according to police reports.

In addition to the pistol, a

bread knife and baseball bat were discovered in the possession of the four Spanish boys.

The entire group appeared before county authorities in Farwell Tuesday.

(EDITOR'S NOTE: Names of the boys were withheld in consideration of their age and nature of the incident. Every name legally allowed will be published on all such events in the future.)

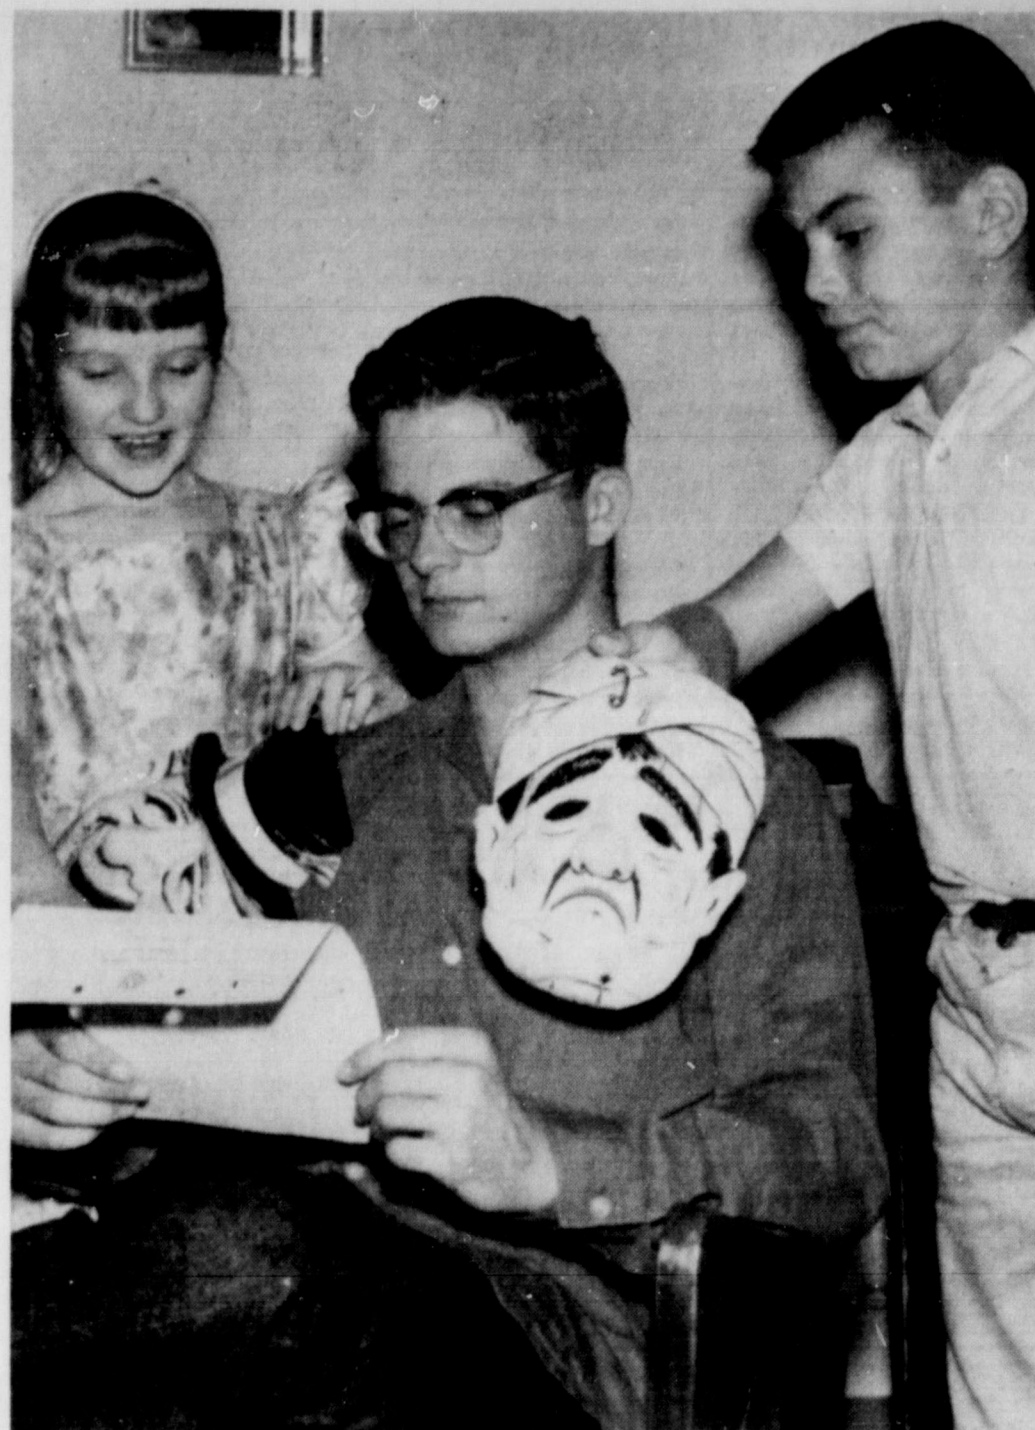

### Boosters--

so that they might attend the college game.

However, due to eligibility rules, each player must purchase his own ticket. They are available at the high school principal's office and at the counselor's office for 50 cents each.

Students and parents should obtain their tickets no later than noon Friday if they intend to attend the Student Day game in Canyon. Tickets will be so arranged as to allow all visitors from Friona to sit in the same section of the stands. The 50 cent price is given to students, teachers and adults accompanied by a student.

A Cuban detector, landing in Florida, is said to have demanded: "fake me to your barber."

CHARITABLE GOBLINS . . . Two fourth grade students, Charlene Greeson, daughter of Mr. and Mrs. Lester Dean, and Danny Kendrick, son of Mr. and Mrs. H. K. (Pudge) Kendrick, stand ready with Halloween masks as Max Reeve, Student Council vice president, reads a letter from the Abilene State Hospital. The Student Council is sponsoring a trick-or-treat drive to collect candy for the children in the hospital.

### IN AMARILLO

## Band Enters Contest

Approximately 100 Friona students will travel to Amarillo to participate in the annual region eleven band marching and twirling contest which will be in Dick Bivins Stadium Oct. 24.

A total of 45 bands from the Panhandle area are scheduled to participate in the competition. Only nine other bands will be in direct competition with

Friona, though.

The upcoming competitions are the first of three contests which the band must win in order to be eligible for a sweepstakes award. There will be sight-reading and concert contests later in the school year-- sometime in April.

The twirlers will begin their competition at 8 p.m. and the band will begin at 10 a.m. in the day-long affair.

The contest is one of the university interscholastic League activities. Bands and twirlers compete in different classes. Friona will be in competition with Tulla, Canyon, Dimmitt, Dalhart, Wellington, Spearman, Shamrock, Childress and Perryton schools.

The Friona band will perform the same drill which it has demonstrated at the last two football games.

Judges for the contest will be James Jacobsen, director of bands, TCU; Pete Long, supervisor of instrumental music, Ponca City; and Dean Killion, Music department head, Texas Tech College in Lubbock. Station KGNC will carry live

broadcasts of the activities from the field. The Friona band will be on the air between 3:05 and 3:30 according to a report from the station.

WAKE UP! . . . Rodney Dodd (Tom Gee) tries to awaken his housekeeper, Henrietta (Carrol Ray) from a deep faint where she has fallen during their rehearsal of the Junior play, "One Wild Night." Presentation of the play will be on Nov. 3 at 8 p.m. in the high school auditorium.

**FRIONA**

WITH JUNE

Old Man Weather seems to be cooperating with local farmers all the way this year. How long has it been since we've still had green tomato vines at this time of year?

Of course, cotton and vegetable farmers appreciate this as much as do the maize farmers. Every day the freeze stays away will mean money to most Farmer County farmers.

Sterling Graham and Hardy May are two vegetable farmers that are doing everything possible to save all their crops. They realize that what is left in the field will soon be gone. Think Sterling has been hauling some of the tomatoes to Oklahoma.

A lot of persons have picked

green tomatoes for making chow chow and relish. It always seems that we enjoy things most when they are about to run out. This is also true of fresh garden produce.

There's just nothing that tastes better than vine ripened tomatoes and all of us hate to think about waiting a long period of time before being able to enjoy this treat again.

Red geraniums are so pretty right now, too. Several plants are growing around Claborn Funeral Home and it seems that they are doing their best to bloom as long as possible.

Let's all take time to enjoy this fall beauty as much as possible before Jack Frost takes men.

... All I know about the situation is that it must be unique. The event will probably go down in Friona history as "the first building that collapsed mysteriously."

... Dorothy Vaughn will open the beauty shop on Main Street next door to Allen's Jewelry. I stopped and chatted with Dorothy a few minutes one morning this week.

I've not been to any "big city" beauty shops in recent years and really didn't know that chairs had been invented for use under driers that vibrated a person as the hair dryer was in operation. It really took a little bit of coaxing from Dorothy before I consented to sitting down in this strange looking chair.

It looks very much like a regulation upholstered and padded chair, but there's something different about it. After I was seated Dorothy turned on the gyrating power and there I sat feeling like someone about to shake to pieces.

I'm sure that they are fine and will leave a lot of persons completely relaxed, but for me, I'll just take a plain old chair.

I do agree with Dorothy, though, when she says, "What's good enough for beauty shops in larger cities is good enough for Friona shops."

Dorothy is a local girl and has been employed by Charm Beauty Shop for some time. She has every good wish of the Star staff in making a profitable operation from this her first venture into business on her own.

Think the most talked about subject up and down the street this week has been the collapse of Patton's Coin Operated Laundry. Wherever a group of men stood or sat discussing the matter, there were as many different opinions as there were

It is said that a certain king employed two servants to dip the water from a well that was on his premises. He placed a basket into which they should pour the water, and left them to perform the task. One of them reasoned this, "It will

be no use to pour the water into the basket, for it will run out and be lost. Therefore I will not do it," and he put down his bucket and went away.

The other servant said, "Though I see no reason for doing this except that the king has commanded it, he undoubtedly has a good reason for it." And so he continued dipping water until the last bucketful was poured into the basket, then he saw in the bottom of the basket a diamond of great value. The king was pleased with the faithfulness of this servant, and made him a chief officer of his kingdom. He had shown himself faithful in a little thing; he would be made ruler over many.

The lesson is quite evident - whether we can understand by human reason why God commands certain things or not, it is our duty to obey. Ours is not to reason why, ours is but to do and die. The true child of God does not walk by what he sees, but by what he believes. The very fact that this is so hard for many people to do is proof of the need for the lesson of the above parable. The Lord said, "He that followeth me shall not walk in darkness, but shall have the light of life." Think about it!

**SURFACE SET MONDAY**

**Oil Test Drilling Starts**

Drilling began on a wildcat test about five miles east of Friona on the London farm Sunday night.

By Monday night, the surface string of 13 3/8 inch pipe was set and cemented in the 513 foot hole. The surface string is the first and largest pipe cemented into an oil well. It is on this pipe that the crews

"flange up" and affix heavy valve gates called Blow - Out Preventers.

The pipe is usually set deep enough to reach well into firm rock. It also prevents the drilling fluid from washing out large caverns in the soft upper layers of earth and rock.

At 6 p.m. Tuesday, the plug was drilled and the search for granite and oil was begun. Granite is expected to be found somewhere close to 8,500 feet.

The large Lee C. Moore derrick stands above a Wilson Giant draw works which is powered by two 350 horsepower engines. The rig is owned by Woodward Drilling Company of Wichita Falls.

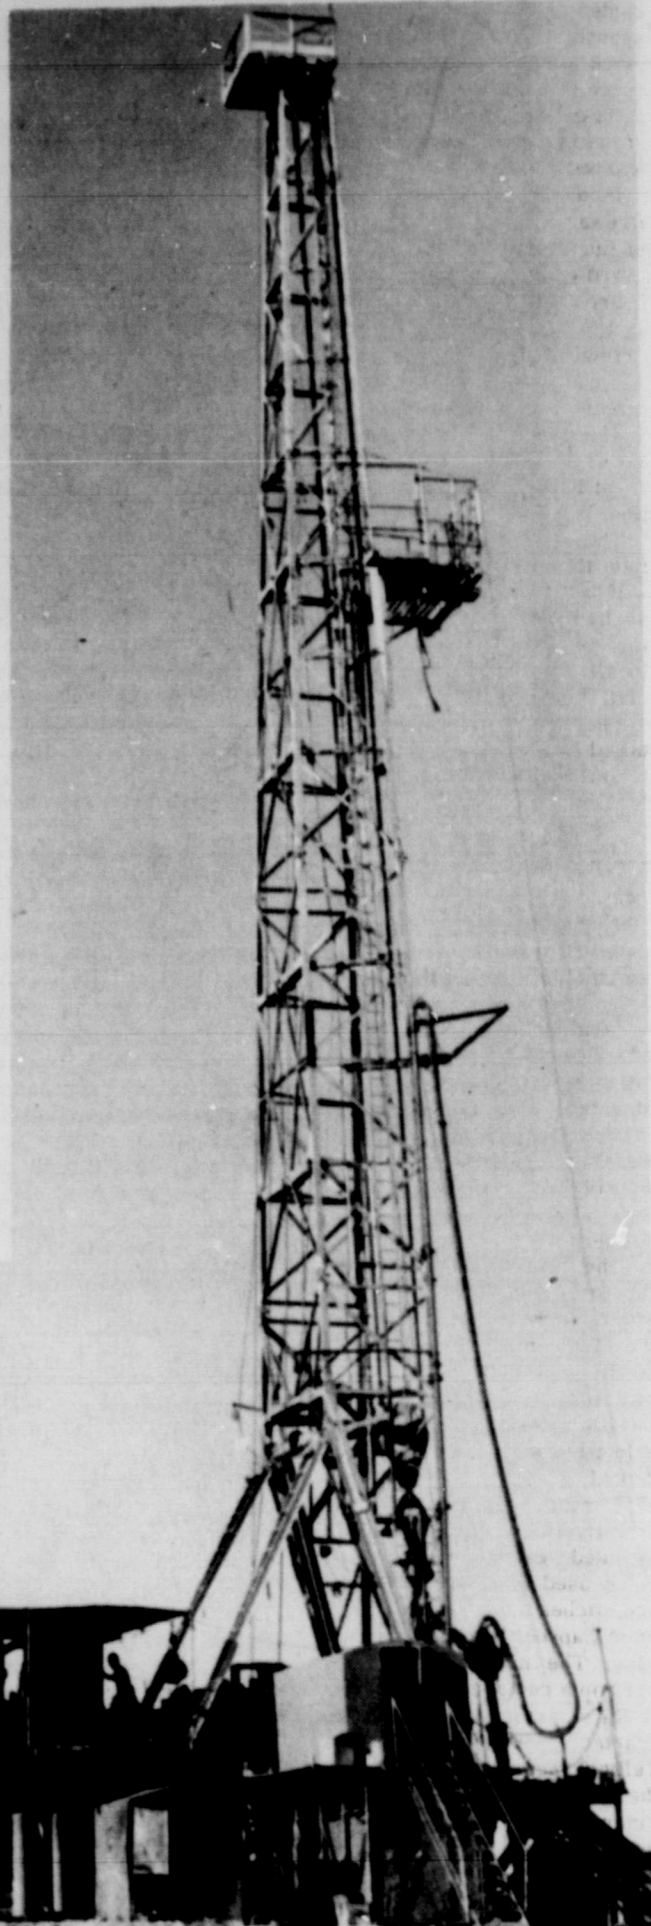

The contract to drill the well was awarded by Ashman and Hilliard who subleased the lease from Pan American Oil Co.

Three five - man crews will keep the rig in operation 24 hours each day, seven days per week, until the well is completed. The crews work eight hour shifts, changing at eight, four and midnight.

Two of the crews drive out of Tulla but the evening shift has moved to Friona.

H. W. (Chief) Colbert, Hereford, is presently assigned the overall supervision of the drilling operation.

The first bit used to begin drilling below the surface string is 12 1/4 inches in diameter. Succeeding bits will be 11 inches until after the next string of pipe (salt string) is set.

STANDING TALL ON THE HORIZON -- THE WILDCAT RIG

**Raiders Tackle Baylor**

Baylor University's explosive Bears, led by All-America Ronnie Bull, play the Improving Texas Tech Red Raiders in Jones Stadium in Lubbock at 7:30 p.m. Saturday.

Texas Tech's 10-0 triumph over TCU snapped a five-game losing streak extending back into 1960 and was the Raiders' first victory over the Horned Frogs in five meetings begun by a Tech win in 1956.

Baylor has won the past 11 engagements with Texas Tech. Texas Tech, thwarting itself frequently by fumbles, piled up 354 yards to 150 for TCU. The Red Raiders permitted the Horned Frogs only as far as the Texas Tech 43 in the first half and to the Raider 46 in the second.

**Gerald McDowell Enlists In Army**

Gerald McDowell, son of Mr. and Mrs. Jim McDowell, recently enlisted in the U.S. Army at Yuma, Ariz., and is taking his basic training at Fort Ord, Calif.

McDowell, a former student in Friona schools, spent several months during the summer visiting in the home of his brother, James McDowell at Yuma before his enlistment.

A visitor asked a starlet, "Did you buy that mink coat out of your earnings?" The starlet gave a chuckle and replied: "I owe it all to my Power of Positive Winking."

**Film Guide Available For Clubs**

More than 300 movies available on free loan to clubs and other adult groups are described in a new catalog, "The Pocket Guide to Free Films," just published by Modern Talking Picture Service.

The films range in content from travel and sports to guidance for the home craftsman, fashion reviews and an explanation of the stock market. Running times range from 10 to 30 minutes. All of the films are 16mm-sound and most are in color.

The movies are made available on loan by numerous industrial companies, professional societies and other organizations as part of their public information programs. Modern Talking Picture Service acts as film distributor for the various organizations.

Copies of the 32-page catalog may be obtained free from Modern Talking Picture Service, 1411 Slocum Street, Dallas 7, Texas.

**come to church Sunday**

Him that cometh to me I will in no wise cast out. (John 6:37.) Word came to a missionary that a woman had died. When he saw her, he persuaded her people not to bury her, for he said she was not but in a coma. After some hour, she regained consciousness. Her astonished relatives listened with great respect to her words.

What she told them confirmed what the missionaries had been telling the people. She told them that she had seen a beautiful place where there was no sickness or hunger. She said, "Jesus is so good, and I am so bad." But He was her Saviour. Gone was all her fear, and she eagerly awaited her call to return to that good place. It came within a few days.

In that village five men came to the mission, seeking the way of salvation. They opened their hearts to Christ. Thus was the church established in another dark corner of the world.

The church is surely at work in the world. Even now many persons are hearing of the one true God for the first time. The work is the Holy Spirit's-but He uses human messengers.

**Friona Assigned To New District**

Friona will begin play in a new district with the opening of the 1962-63 season, it was learned Tuesday.

Friona was changed from District 1-AA to District 3-AA following a re-evaluation of state schools by Interscholastic League. The classification of the school was not changed by the action. Only the school with which Friona will compete were changed.

Dimmitt was also moved to the 3-AA district and will remain on the list of conference foes. Tulla, Canyon and Dalhart were replaced by Morton, Muleshoe, and Olton.

The re-evaluation and rearranging of districts occurs every two years. The change removed about 60 miles from the distance which Friona residents and players must travel to attend the farthest conference game of the year. Under the new arrangement, Morton will be the farthest with 65 miles. Dalhart has been the farthest with 125 miles.

# Hornets Sting Chiefs In 34-0 Grid Battle

FLOYD REEVE LOOKS FOR A HOLE

BUT IT IS A TIGHT SQUEEZE

It was a weary, unhappy, Chieftain team which returned to the fieldhouse after their 34-0 loss to the Tullia Hornets Friday night.

"What in the h--- is wrong with us?" one player exclaimed as he hung his head in his hands before "hitting the showers." Booster Club members circulated through the crowded quarters slapping the boys on the shoulder with exclamations of "You boys sure hit them hard" and "really played a good game."

But the Chiefs couldn't click enough to push the ball across the goal line once during the game. Nor could they stop the Hornets from breaking through for five counts and adding four field goals.

Tullia's quarterback, P. Caraway rammed across for the first score of the game just seven plays after the Friona kickoff. Hooper then sent the ball pimwheeling between the uprights for the first of four extra points in the game.

Tommy Baxter took the Tullia kick on the eight yard line and moved it back to the thirty. Three plays later, Tullia recovered a fumble and repeated their touchdown march.

Floyd Reeve grabbed the next kickoff and weaved his way through the swarming Hornets to the Friona 41. After an exchange of 15 yard penalties, the Chiefs lost the ball on downs at the 48.

With 6:28 showing on the clock, the Hornets stung the Chiefs for their final touchdown in the first half.

Again, the Chiefs were unable to keep the ball moving after receiving the Tullia Kickoff which opened the second half. Gary Sneed slammed a 34 yard punt from the Chieftain 28 but it wasn't far enough to keep the Hornets from pushing back for another score.

Evert Gee grabbed the next Tullia kick and worked his way back to the 41. On the fourth down play, Gary Sneed set the Hornets down on their own eight yard line with a 62 yard punt.

But Tullia scored again, setting the score at 34-0. Here, the scoring ended. Neither team was able to reach the goal line during the fourth quarter. Fans were kept on the edges of their seats as the ball changed hands six times in the last quarter—once for each team on fumbles; three times on downs; and once with a fourth down punt.

The Chieftain's desperation drive was squashed on the fifty yard line when Reeve was brought down while trying to get off a pass before the final gun sounded. The final score was Friona--0; Tullia--34.

The Chiefs will meet the Dalhart eleven in Dalhart Friday for their eighth contest.

# Eight Sentenced In Dist. Court

Judgment was rendered in eight criminal cases and one civil case in District Court before Judge E. A. Bills Oct. 11.

N. R. Harding won his suit against R. J. Cross, Et. Al. for recovery of real property in Farwell in the only civil action.

All criminal cases acted upon were accepted on a plea of guilty by the defendants. They were:

Florence Gonzales sentenced two years in the state penitentiary and released under the terms of the adult probation law. She was charged with illegal removal of mortgaged property from the county.

R. J. Sandlin was sentenced two years and released on probation after pleading guilty to a charge of forgery and passing.

J. B. Ricketts received a sentence of two years in the state penitentiary for forgery and passing after pleading guilty. He was also released on probation.

Gary Buntin received a two

year sentence for theft and was released on probation after pleading guilty before District Court Judge E. A. Bills.

J.D. Rash received a two year sentence and was released on probation following a plea of guilty to a theft charge.

Harvey C. Rippetoe was sentenced two years in the state penitentiary and released on probation after pleading guilty to a charge of burglary.

Billy Wayne Machen pleaded guilty to a charge of burglary and received a sentence of two years in the state penitentiary and was also released on probation.

Johnie Lewis pleaded guilty to two charges of forgery and passing and was given a sentence of two years in the state penitentiary for each count to be served concurrently. He was charged with passing checks to Andy Hurst, Friona, and to W. E. Williams, Bovina. Judge will convene court in Farwell at the courthouse Oct. 25 for the next series of cases.

# Five Frionans Attend LCC

Five students from Friona are among the student body of 450 that enrolled for the fall semester at Lubbock Christian College, Lubbock, Texas, according to E. R. Higgins, director of admissions. LCC, a Christian liberal arts junior college in its fifth year of operation, last year had 383 students.

Sophomore students from Friona are Ira B. Parr, sophomore agriculture major, son of Bruce Parr, R.R.3, Box 105; Betty Jane Barnett, part-time student, daughter of F. W. Barnett, Rt. 3, and Geneva Glenn Floyd, education major, daughter of Mr. and Mrs. Glenn Floyd, Box 757.

Freshman students are Winette Parr, daughter of Estes Beaton, R. R. 3, and Odie Neal Bradshaw, son of C. W. Bradshaw, Rt. 1.

Lubbock Christian College registered its fifth consecutive record enrollment this fall as approximately 424 registered on the first day, with late enrollments expected to boost the number to 450, an increase of 67 over last year's high, reported Higgins.

Higgins said that this enrollment boom seemed to show

the confidence that the people in this area have in LCC, and that the full accreditation last spring by the Texas Association of Colleges was certain to have influenced the student increase.

LCC's student population shows a varied and wide-ranged background. Of the total 426 students, 70 are from Lubbock, 315 from Texas, and the remainder represent 5 foreign countries, 13 states, and 174 different towns and cities.

Freshmen dominate the registration rolls with 271 students over the sophomore class of 136. There are 213 freshmen men and women living on campus, 58 off; 97 sophomore men and women living on campus, 39 off; 16 part-time students; and one auditor.

"We are most grateful for the solid acceptance by our clientele that this record enrollment increase indicates," Dr. F. W. Mattox, president, stated. "It also points up our responsibility to provide facilities for growing enrollments," he added.

The number of students at the junior college has increased each year since 1957, when the school began in converted Army barracks with 110 students, 13 full-time employees, and two secretaries. One year later the enrollment more than doubled, with 272 freshmen and sophomores attending classes. The third year brought 354 students, and last year 383 attended. This year the college staff members total 72 full-time employees.

# Friona Teacher Attends State TSTA Convention

Mrs. L. B. McClain, Friona High School English and Spanish teacher, is representing Parmer County teachers at the state convention in Houston today.

She was elected as the county representative at the first general county convention in Lazzard School Cafeteria Monday at 6:30 p.m. Along with their husbands or wives, 55 teachers attended the county meeting.

Mrs. McClain, accompanied by her husband, departed for Houston Wednesday afternoon. She plans to return Sunday. Her trip is sponsored and financed

by the Parmer County Teachers Assn.

She has taught in Friona for the past seven years. Superintendent Alton Farr extended an invitation for the county association to meet in Friona on Dec. 4 and the group accepted. Program for the December meeting will include a discussion of the teacher retirement program by a representative from the State Teachers Association, Farr reports.

Theme of the state convention will be "Education--Freedom's Fortress."

All general sessions will be in Sam Houston Coliseum. Dr. D. Richard Bowles of Austin, state TSTA president, will preside at general sessions and at the House of Delegates, the business session Saturday morning which will end the convention. A total of 768 delegates are accredited to represent the 13 TSTA districts and 361 local units of TSTA's 78,000 members.

An estimated 8,000 teachers from throughout Texas are expected to attend. This is the second consecutive year the convention has not been held at Thanksgiving. Last year's meeting in Corpus Christi attracted the largest group in several years.

Teachers will browse through the broadest display of commercial exhibits in several years in the Coliseum's Exposition Hall.

Also on the program are a boat trip down the Houston ship channel Thursday afternoon and a reception for Dr. and Mrs. Bowles after the Friday evening session.

An election committee will report to the House of Delegates Saturday on results of local elections held earlier this month for TSTA president and vice-president.

Mrs. Fred B. Norris, Corpus Christi classroom teacher and now TSTA vice-president, was the only announced candidate to succeed Bowles as president.

Vice-presidential candidates were Forrest J. Binion, director of instruction for Ysleta public schools, and C. O. Chandler, superintendent of schools at Victoria.

# Outland Brings First Business Before Council

The newly appointed city manager, Arley L. Outland, brought his first items of business before the City Council Monday night.

An easement for the installation of two 35 foot electric poles on the east side of Grand Ave. between Fifth and Sixth streets was granted for the Deaf Smith County Electric Co-operation. The poles will be used jointly with General Telephone Company.

Approval was also given to a petition to install a street light at the corner of Fifth and Grand Ave. The petition was submitted by W. E. Smith, Deon Awtrey, Thomas Parson and Southwestern Public Service (Hank Outland). The only additional cost which the city will

incur by the installation of the pole will be the cost of the electricity consumed by the light.

The city manager was directed to obtain plans and specifications for the construction of a city maintenance building so that a contract for its erection might be awarded in the near future.

Outland was also authorized to invite Mrs. Nora O'Brian to appear before the council at its next regular meeting on Nov. 6 to present her appeal for assistance from the city in maintaining a girl scout building.

Considerable discussion was given to small changes in the operation of the police department which would keep the city manager better informed of the actions of the department.

### Linda Ann Boatman Weds Randall Lee Ratliff

Miss Linda Ann Boatman, daughter of Mr. and Mrs. C. W. Boatman of Oklahoma City became the bride of Randall Lee Ratliff, son of Mr. and Mrs. H. E. Ratliff also of Oklahoma City, Saturday at 7:30 p. m. in the Putnam City Christian Church with Rev. Garrell Dunn reading the wedding vows.

Given in marriage by her father, the bride wore a dress of Chantilly lace and tulle. Her veil was fastened to a Swedish crown of pearls and sequins and she carried a white Bible topped with a white orchid and stephanotis.

A reception honored the couple following the ceremony in the Fellowship Hall of the church.

Mr. and Mrs. Ratliff will live at 5717 NW 40 after returning from a trip to Arkansas and Missouri.

Attending the wedding ceremony from Friona were Mrs. A. H. Boatman and Mr. and Mrs. Gib Boatman, Mrs. Ratliff

is the granddaughter of Mrs. A. H. Boatman and a former student of the Friona schools.

### Party Honors

#### Ricky Johnson

Ricky Johnson, son of Mr. and Mrs. Truett Johnson, was guest of honor at a swimming party Friday evening at the Dive In swimming pool. He was observing his sixth birthday.

Cookies and cold drinks were served to the following guests: Darrell Buckley, James Ray Stevick, Brent Hall, David Renner, Billy Fallwell, Jason Grimsley and Johnny and Clay Bandy.

### Supper Honors Stevan Thornton

Nine members of the Maggie Hamlin Circle of the WSCS met October 11, in the home of Mrs. Roy Slagle.

Mrs. J. K. Anthony said the opening prayer and Mrs. I. T. Graves, circle chairman, conducted the program.

Mrs. Wilma Jones presented a study on "The Meaning of Suffering" assisted by Mrs. Dorothy Hough and Mrs. Vera Bainum.

A group discussion and scripture reading followed the lesson.

### Mrs. Slagle Hosts Circle

A farewell "get-together" honored Stevan Thornton Tuesday afternoon at the O. J. Beene home.

Guests included a group of boys that started to school together in Friona.

Following a session of table games, an outdoor supper was served to Bryon Brewer, Gary Shackelford, Tom Bill Shelton, Jay and Ramey Beene and the guest of honor.

### Hospital Notes

Patients Admitted To Parmer County Community Hospital Since October 3, 1961.

DISMISSALS  
Wendell L. Fuller, Bill S. Burnam, Lucy Shamblin, Sherri Grant, Lucille Collier, Bertha L. Rule, Ralph Shirley, Geo. Taylor, Texie Amburn, Ed Masie, Becky Lou Schueler, Frank A. Garcia, Sally Garsa and baby boy, Ernestina Lopez, Jaime Garcia, Mary Lou Reed, Mrs. M. A. Black, Jessie Stower, Mae Magness, L. D. Smith, VI Warren, Mary Mosley, Don Romas, Cindy Baxter, Wilma Wise, Mrs. Lucy Vestal, Ventura Perez, Gary Blain, Donnie McDonald, Anna Schueler, Frances Boling, Eureka Lesley and baby boy, Shirley Briscoe and baby girl, Celina Quintana, Ed Duke, Jackie Dwayne Estep, Virginia Estep, Joyce Elaine Harbison, Bruce Kimbell Buske, Janie May Beauchamp, Bertha Lookingbill, Margaret Zamora, Cruz Garcia, Eddie Kent Houston, Karen Treider, Dorothy Faye Ellis, and Ruben Perez.

### Club Members Honor Husbands With Dinner

The home of Mr. and Mrs. Charles Bainum was the scene of a turkey dinner Friday evening with husbands of members of the Kinsley Past Matrons Club as special guests. Assisting with hostess duties were club members.

A business session was conducted while guests of honor played 42. The next meeting will be the first Friday in November

### Shirley Johnson Observed Birthday

Shirley Johnson observed her eleventh birthday with a swimming party Tuesday, October 10, at the Dive In swimming pool.

Shirley's mother, Mrs. Truett Johnson, served refreshments to Linda Carson, Lark Jarrell, Janice Clark, Debbie Baxter, Pam Turner, Phyllis Renner, Brenda Blackburn, Vicki Renner, Pam Hardwick and Terri Sue Cummings.

in the home of Mrs. Mack Bainum. Secret pal names will be drawn at this time.

Attending were Mr. and Mrs. Ed Boggess, Mr. and Mrs. Claude Miller, Mr. and Mrs. Mack Bainum, Mr. and Mrs. Leonard Coffey, Mrs. Pearl Kinsley and Mrs. R. W. Ginsburg.

Weekend guests in the homes of Mr. and Mrs. Sam Jones Mr. and Mrs. C. F. Loflin were Mr. and Mrs. Eddie Mell and family of Stinnett and Mrs. and Mrs. Carol Loflin and Mrs. Zona McCracken of Tucson, Ariz.

### Kolwvvia Circle Meets In Home Of Mrs. Cass

The home of Mrs. Kenyth Cass was the scene of the meeting of Kolwvvia Circle of the Methodist Church Wednesday morning, Oct. 11.

Mrs. Eugene Ellis, circle chairman, opened the meeting by reading the prayer calendar and Mrs. Newt Gore gave the invocation.

"The Meaning of Suffering" was the theme for the program conducted by Mrs. Russel O'Brian. Participating in the program and their subjects were Mrs. Ellis, "Suffering due to individual guilt"; Mrs. Gore, "Suffering due to collective guilt"; Mrs. Bill Stewart, "Suffering caused by our enemies"

and Mrs. Clyde Fields, "Suffering due to mistakes." Closing prayer was given by Mrs. O'Brian.

Coffee, tea, and Swedish Thimbles were served to Mesdames Ernest Anthony, Bill Baxter, Cass, Ellis, Fields, Gore, Andy Hurst, Jerry London, J. G. McFarland, O'Brian, Dick Rocky, Ralph Shelton, Stewart, C. W. Weatherly, and one new member, Mrs. J. W. Baxter II.

"For God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life."

# HD Agent's Notes

BY MISS ETTIE MUSIL

Thinking of doing some painting, papering or refinishing before winter comes? If so, choose colors for a reason. That is to get the special effects you may want. At the same time you can have the comfortable, pleasant background for every day living that you want.

Decide how you want the room to look. Will it be light and gay, restful or formal? Do you want the rooms to seem warm or cool? Its' use, shape and exposure will determine colors that will be best suited.

A good color plan has few colors. Usually no more than two or three colors in different dullness or brightness are used. The best color schemes grow from a dark color, a light color and a bright color. Black, white and gray are not considered colors.

If you have a picture, upholstery, or draperies which you must keep, choose your color scheme from that. When you place the colors in a room, choose the color for the largest areas first. This could include floor covering, walls, and large upholstered pieces. In most cases, these should be your most livable colors.

Next choose colors for small upholstery and the window draperies or curtains. This may be a blend of the room colors, or match or contrast with the walls. Lastly, choose your colors for accessories and small areas, such as pillows, lamps, ash trays, etc. Usually, this accent color is the brightest color.

Remember, that good proportion of the different colors is important. This means that your color scheme will be definitely dark or light and that either warm or cool colors will predominate. Proportions of 60 percent of area for one color is good for the main color. For a second color as in upholstery, draperies, bed spreads, 30 percent could be used. Then for accent color 10 percent will insure good proportions.

There are so many tricks of color in the size and shape of a room. It can also suggest a sense of direction as well as space. To make rooms look larger use one color predominantly. A few colors in variations of light and dark, bright and dull tones will also make a room look larger.

A room will seem larger if you use the same solid color for walls, woodwork, and wall to wall carpeting. You can raise the apparent height of a ceiling by making it lighter than the wall color. A dark floor will also help give the appearance of greater up and down spaciousness. Of course, the opposite tricks of color will make a large room seem smaller.

While you are looking over your home to make every day living a little easier what about your utility closets? Make the most of limited wall space in your utility closet or cabinet, and in the closet where you store household cleaning equipment. Have you ever thought of using peg-board for wall construction in those places.

Peg-board, with its maze of small holes, is handy for attaching hooks or pegs. Mops, brushes, cloths, dust pans, brooms and other supplies can be hung with easy reach. This makes for a neater, more efficient closet. The peg board is washable, too.

# The HAPPY HOMEMAKER

BY JUNE FLOYD

Those of you who make suits, coats and tailored dresses will surely want to try some of the new pelon. It comes ready to iron onto other material and can be stitched without any stay stitching or basting. It is available at most department stores.

At this time of year many persons seem to be in a quandary about whether to take flu shots or not. The following paragraph was lifted from the October Texas Health Bulletin and may contain information which will help our readers decide on the issue.

"FLU SHOT TIME--A definite upswing in the influenza cycle is predicted for this fall and winter according to Dr. Luther L. Terry, Surgeon General of the Public Health Service. Especially vulnerable are persons in the three groups which accounted for most of the 86,000 flu triggered deaths between September 1957 and March 1960. These groups are: persons with heart disease; pulmonary disease; diabetes and other chronic illnesses;

persons over 65 and pregnant women."

Several readers have passed the word along that the pumpkin bread, for which we ran a recipe recently, is very good. Maybe the following recipe for cookies will be equally as popular with our reading audience.

**PUMPKIN COOKIES**  
 2 1/4 cups flour  
 1/2 teaspoon baking powder  
 1/2 teaspoon baking soda  
 1/2 teaspoon salt  
 1 teaspoon cinnamon  
 1 cup sugar  
 1/3 cup shortening  
 1 egg  
 1 teaspoon vanilla  
 1 cup cooked pumpkin  
 1/2 cup raisins  
 1/2 cup nuts, ground  
 Sift flour, salt, baking powder, soda and cinnamon. Cream sugar and shortening. Add egg, vanilla. Mix well. Add pumpkin and flour alternately, mix well. Add raisins and nuts. Drop by teaspoonfuls on greased cookie sheet. Bake 15 minutes in 350 degree oven.

When cutting cookies that you want sprinkled with nuts, sugar or other decorations, remove both ends from a small tin can and use it as a cutter. Sprinkle cookies before removing cutter from dough. This eliminates waste and spillage.

Celery tops are a tasty and attractive addition to any tossed green salad.

When making stuffed animals, use nylon hose or nylon ma-

# HD Agent Gives Ideas On Canning Freezing Pumpkin

Pumpkins, pumpkins, everywhere pumpkins! The little tots are looking forward to Halloween with a Jack-o-lantern made from a great big pumpkin. There are so many funny and spooky faces that can be made in a pumpkin.

"How about pumpkin pie now or for Thanksgiving? Have you thought of freezing or canning pumpkin for pie, pudding or soufflé later on?" asks Miss Ettie Musil, County Home Demonstration Agent.

To freeze pumpkin simply wash each one. Then cut into small pieces and remove seeds and peel. Cook the pieces in boiling water or pressure cooker until soft. Mash the pulp or put through a sieve. Cool by placing pan containing pumpkin over chopped ice. Stir pumpkin occasionally to cook quicker.

Package the pulp in freezer jars or soft plastic freezer containers and freeze immediately. For convenience, package only enough in each package for each pie or family serving.

For canning pumpkin wash, remove seed, and pare pumpkin. Cut into one inch cubes. Steam until tender about 25 minutes, mash or put through food mill or strainer. Simmer until heated through, stirring to keep from sticking to pan.

Pack hot to one-half inch from top of standard jar. Add no liquid or salt. Close jar with new lids and rings. Process at 10 pounds pressure for pint jars for 65 minutes and quart jars for 80 minutes.

Rings may be removed after jars are sealed. Older rings may be used if they will be removed. To insure good seal and well processed food, do not use jars that are larger than quart size. Standard jars and lids of the same brand as jar will insure good seals because they were made to fit the top of the same brand jar.

These directions are available in two free bulletins "Frozen Foods, How to Freeze, How to Cook" and "Home Canning Fruits and Vegetables". Call, write, or come by the office of the County Home Demonstration Agent in the courthouse in Farwell.

Bananas look so much prettier when fluted. Just run the tines of a fork down the side of the fruit and then slice across as usual. Cucumbers can be decorated this way, too.

To keep delicate white synthetics (nylon, dacron, orlon) fresh and white, follow these laundering tips. Always launder white nylons in an all white wash, and launder them often, each day after wearing if possible.

Use a heavy duty detergent and a chlorine bleach and rinse thoroughly. The clothes should be allowed to remain in the wash water 10 to 15 minutes to get the full bleaching action.

Scorching can be retarded by washing a new cotton ironing board cover before using to remove sizing. After washing and rinsing thoroughly, put the cover on the ironing board and allow it to dry there.

Try combining celery and cheese for a very tasty vegetable dish.

**CELERY AU GRATIN**  
 1 large bunch Pascal celery, cut into 6-inch lengths  
 1 chicken bouillon cube  
 1/4 cup butter  
 1/3 cup bread or cereal flake crumbs  
 1/2 cup chopped onion  
 3 tablespoons flour  
 1 1/2 cups celery stock and milk  
 1/4 teaspoon salt  
 1/8 teaspoon pepper  
 1/8 teaspoon garlic salt  
 2 tablespoons chopped green pepper  
 2 tablespoons chopped pimientos  
 2 cups coarsely shredded sharp cheddar cheese (about 1/2 pound)

Cover cleaned celery with boiling water. Add bouillon cube. Cover and simmer until barely tender. Drain and save stock. Melt butter in saucepan over low heat. Remove 1 tablespoon butter and mix with crumbs. Save crumbs. Saute onion in butter until tender. Blend in flour. Add celery stock and milk to butter-flour mixture, stirring constantly.

Cook over low heat, stirring until sauce is smooth and thickened. Stir in seasonings, green pepper, pimientos and cheese. Stir just until cheese melts.

Place celery in buttered shallow 1 1/2 quart baking dish (10x6x1 3/4 inches). Cover with sauce. Sprinkle top with buttered crumbs. Bake in 350 degree oven for 20 minutes. Serve 4 to 6.

# AGRICULTURAL BRIEFS

The Texas Agricultural Extension Service in recent weeks has released two publications which should be especially valuable to grain and forage producers. They are B-975, "Insects Attacking Forage Plants" and L-217, "Control of Insects in Farm-Stored Grain." Copies are available from the offices of local county agents or the Agricultural Information Office, College Station, Texas.

Due to recent weather conditions, many Texas farmers have had stored supplies of cottonseed damaged while others have been unable to harvest good quality seed from this year's crop. As a result, seed for next year's planting could be in short supply, advises Fred Elliott, extension cotton specialist. He suggests that farmers carry over good seed now on hand and save seed which has been harvested under favorable conditions.

The average American is eating more vegetables today than did his ancestors of 50 years ago, according to the U. S. Department of Agriculture. The report indicates there has been a shift away from fresh processed vegetables.

The Hunt County Agricultural Workers Association spearheaded a soil testing drive in the county which resulted in 500 soil samples being taken in a one week period.

# 4-H Council To Meet

Farmer County 4-H Council will meet Saturday morning, October 21, at 9:30 in the District Court Room in Farwell. All new 4-H Club presidents and council delegates are urged to attend this important council meeting. For clubs who have not elected new officers they should send president and council delegate elected for 1961 club year.

Election of officers will be main business. Plans will be made for the Annual 4-H Achievement Program to be held in November.

Dr. C. M. Patterson, extension veterinarian, reports there are indications that the drive in Texas against brucellosis is lagging. He cautions Texas livestock producers that the drive must go on with even more vigor if the costly disease is to be stopped. He recommends the area control plan.

Real progress is being made under the Rural Areas Development Program, says Dr. R. E. Patterson, dean of agriculture, Texas A&M College and chairman of the Texas Resource Development Committee. He believes local leaders in all Texas counties will find it profitable to study the economic, agricultural, business, population and other trends having a bearing upon economic development. And further that the long range plans developed under RAD could well become the blueprints for progress in rural Texas.

When cutting cookies that you want sprinkled with nuts, sugar or other decorations, remove both ends from a small tin can and use it as a cutter. Sprinkle cookies before removing cutter from dough. This eliminates waste and spillage.

Celery tops are a tasty and attractive addition to any tossed green salad.

**YOUR NEWSPAPER**

**A HERITAGE OF TRUTH... A FRONTIER OF FREEDOM... LIGHTING AMERICA'S WAY-- YOUR NEWSPAPER**

Ever think about what you get for your money in your daily paper? Of course you get the news and many other features, but your pennies purchase a great deal more. In a sense, you're investing in a heritage left by our founding fathers-- freedom to print the truth as we see it. You're also buying a stake in the future -- our obligation to advance the cause of freedom, wherever there's news.

**YOUR HOMETOWN NEWSPAPER**

Dear Mr. Farm Owner:

Here are a few good reasons for borrowing money. Do you want to build a new home? Perhaps you need underground irrigation tile to conserve water and increase your yield. Or maybe you would like to buy more property.

These are major projects and few of us have the capital to finance them without borrowing money.

We would like the opportunity to discuss a long term low interest rate farm loan with you. We will loan the maximum on your farm, you pay no brokerage or appraisal fees.

If I may be of help to you in arranging a loan or assisting you on your real estate to buy or to sell, please do not hesitate to call me.

Very truly yours,

**BOB SUDDERTH REAL ESTATE**

James Ray Stevick, son of Mr. and Mrs. Glen Stevick of Friona, helps his mother gather tomatoes in their field south of Friona. Cold weather during the past few weeks drove young and old alike to dig out their winter coats. Brilliant, early morning sunshine turned the cornfield in the background into a jewel-like backdrop.

# Wheat--Barley Programs Begin

Farm operators in Farmer County began signing up for participation in the 1962 ASC wheat and barley programs this week.

In order to earn a deviated acreage payment and be eligible for a price support, operators must file intentions with the ASC office before Dec. 1, 1961.

Persons who received a notice of wheat allotment or wheat marketing quota exemption, except new farms, are eligible to participate in the 1962 wheat stabilization program.

The farm allotment that operators received has already been reduced the 10 per cent. Farmers may be eligible for price support on the 1962 wheat crop by designating the acreage to be diverted in an amount as large as the 10 per cent already deducted from their allotment. Those who wish to divert only the 10 per cent may plant the acreage as shown on their notices.

But, they must sign up and treat the 10 per cent acres as

diverted acres.

The maximum amount that may be diverted on any farm is 40 per cent of the original wheat allotment for the farm--40 per cent of the highest planted acreage on the farm in 1959, 1960, 1961, or 10 acres, whichever is larger.

Grazing of the diverted acreage will be permitted until the spring sign-up date for both the barley and wheat programs. This date has not yet been set.

No harvesting of a 1962 crop will be permitted on diverted acreage after an operator has filed intention to participate.

Advance payments will be made upon request for 50 per cent of the proposed payment at the time the operator signs the intention to participate, according to ASC reports.

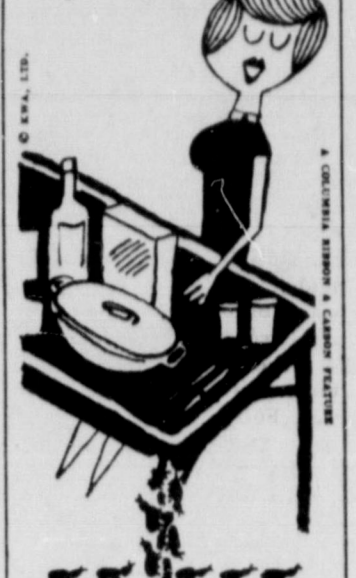

Barley bases were established from the information given by the farmers when the 1961 feed grain information was obtained earlier this year. The minimum amount that may be diverted on a farm is 20 per cent of the established farm

base.

The maximum amount that may be diverted is 40 per cent of the base or 20 acres plus 20 per cent of the base, whichever is larger.

For example, a farm with a 30 acre barley base could divert from barley production, 20 acres plus 20 per cent of the base, or 26 acres. If the barley base for a farm is 100 acres or more, the maximum diversion that could be made for payment would be 40 per cent of the base.

Ants will stay away from your picnic table if you draw a heavy line around the edge with white chalk.

## Winter Care Helps Summer Lawn

You won't crab about your grass next spring if you fertilize it this fall.

Without adequate plant food your grass will be unable to grow vigorously. And if the grass is cut too closely it is robbed of vigor and can't compete with weeds--particularly crabgrass.

Fall is the ideal time to fertilize because many annual weeds such as crabgrass and dandelions die out and the grass has a chance to fill in the bare spots. When spring arrives, the are covered by young grass and weeds don't have room to thrive.

Nitrogen is usually the fertilizer element lawns lack for healthy growth and a dark green color. Urea formaldehyde, a slow acting source of nitrogen, is one of the best nitrogen sources for lawns. Because it is non-burning and resistant to leaching it is used as the source of nitrogen in the better turf fertilizers.

After urea formaldehyde nitrogen is applied to the soil, the soil bacteria break it down slowly. It becomes available to the plants as needed. Heavy rains will not leach it out of the soil and turf will be fed evenly throughout the growing season.

Because all of the nitrogen is not available at once, there will be no heavy growth requiring frequent mowing, followed by poor growth and poor color as the turf runs out of nitrogen. With the even feeding provided by urea formaldehyde fertilizers lawns will be green all season.

Since grass plants consume

more nitrogen than any other element, it must be supplied to them in sufficient amounts. Otherwise, lawns may be scrubby. Be sure turf fertilizer contains more nitrogen than phosphate or potash. Analyses such as 10-6-4, 20-10-5, 15-5-10 etc., are all good turf fertilizers.

To develop the greenest, grassiest lawn take these steps:

1. In early fall apply 20 to 30 pounds per thousand square feet of a complete fertilizer containing nitrogen, phosphate and potash. The fertilizer should contain more nitrogen than phosphorus or potash. Early the following spring application of 10 pounds per thousand square feet should be made. Two or three additional applications at six week intervals may be made for lawns which need more plant food. The heaviest application should be made in late summer or early fall to avoid disease problems associated with tender, lush growth in late spring.

2. Make a soil test. Apply lime if needed.
3. Each time you water, soak the soil to 6 or 12 inches. Don't water lightly each evening. This only promotes crabgrass.

4. Set your lawn mower to cut 1 1/4" to 1 3/4" high. Blue grass cut closer than this is not vigorous and can't compete with weeds. Fertilizer applied to lawns cut too closely may promote weed growth rather than the growth of good turf grasses.

## Crop Insurance Expanded, Texas And New Mexico

Federal crop insurance in 1962 will offer an improved cotton insurance program to both dryland and irrigated growers in Texas and New Mexico, according to Secretary of Agriculture Orville L. Freeman.

For the first time a new irrigated grain sorghum insurance plan will be offered in Lubbock, Bailey, Castro, Crosby, Floyd, Hockley, Lamb and Swisher counties. Dryland grain sorghum will be added in Wilbarger, Williamson, Nueces and San Patricio counties, and cotton in Denton and Wilbarger counties, according to the Secretary's announcement.

The Federal Crop Insurance Corporation, already offering a new citrus and cotton program in Cameron, Hidalgo and Willacy counties, expects to improve its protection to rice farmers in the coastal counties of Ft. Bend and Wharton.

Under the Federal Crop Insurance Corporation, farmers in counties where the insurance is available pay premiums for

protection of designated crops against loss from causes beyond their control such as weather, insects and disease.

"This self-help plan of insurance protection against crop disaster will be expanded to more counties and crops as rapidly as possible and it should be more widely utilized by farmers where it is available," Secretary Freeman said. "Due to the high production costs necessary to produce a crop, it takes more years to recover from the effects of a crop loss than ever before in our history."

This year all-risk crop insurance provided Texas and New Mexico farmers with over \$11 million of protection on money spent to produce crops, and a sharp increase is expected in 1962," the Secretary said.

### SOIL CONSERVATION DISTRICT NEWS

What would you do if in the next few minutes the TV program that you are watching is interrupted? The interruption warns you of a possible nuclear attack. Will you have adequate shelter, food and water for two weeks for you and your family.

Survival is possible. There are three main hazards of a nuclear explosion. They are blast, heat and radiation. The latter is the one that we are concerned with in Farmer County. The blast and heat injuries will occur within a few minutes after the explosion, but the radiation injuries and deaths will occur for several days.

This is where the bomb shelter will mean the difference between life and death to you and your family. The best possible protection is an underground shelter with a top cover of three feet of dirt or two feet of cement or seven inches of steel.

Enough food should be available to last seven days. Seven gallons of water for each member of the family should be sufficient for two weeks. Empty containers that can be closed tightly for water should be in your shelter.

This is an excellent place to store your camping equipment such as lantern, stove and sleeping bags. These can be used in case of an emergency. One of the most important items is a small battery operated radio. Tune it to 1240 or 640, your Conelrad stations. These stations will give you information as to when you can get out and how long you can stay.

Local Soil Conservation personnel attended a Civil Defense radiological monitoring training session at Pampa last December. The Friona work unit is one of 9 Panhandle units that received this training.

This was given so that local SCS employees could monitor fallout in case of an atomic attack. Contact Bob Crozier, Bill Liston or J. D. Sanders for more information.

## Proper Ration Essential To Profitable Calf Feeding

Drylot feeding of calves weighing from 250 to 400 pounds requires a much better understanding of feeding principles than does the feeding of heavier ones. It takes a better ration to achieve the desired results in the lighter animals because they do not have their mother's milk to balance their diet.

In the first place, their stomachs will not hold as much as those of heavier calves so the small amount of feed they do consume must contain enough nutrients to satisfy their needs, explains U. D. Thompson, extension animal husbandman. Due to their small size, they have a small storage capacity for even those nutrients which they can hold in reserve in their bodies.

As an example of this storage capacity, consider vitamin A. If cattle have an ade-

quate supply of this vitamin, they store the excess in their body fat and livers. As long as they have access to green grazing they get their vitamin A. When no green grazing is available, they use their stored supply to satisfy their needs. Here is where a calf's needs are taken care of by milk. When this calf is weaned and placed on drylot, he must be supplied these nutrients in his ration. In 250-400 pound calves vitamin A deficiency can develop within 45 to 60 days unless the ration takes care of his needs.

Either leafy green alfalfa hay, alfalfa leaf meal or pellets are good sources of vitamin A, says Thompson. Calves nearly always do better on rations which contain alfalfa than on those which do not, he continues. Also, commercial syn-

thetic vitamin A preparations are now available for mixing in rations. These may be used if good alfalfa is unavailable or expensive.

Calves do not have the ability to utilize large quantities of roughage. Their digestive system requires feeds high in food values. Shelled corn, sorghum grain, oats, barley and high protein feeds like cottonseed meal are full of some of the nutrients required by calves. A small amount of roughage is essential, but their diet should consist mainly of these high protein feeds. A 300 pound calf on drylot, when on full feed, will need about 6 pounds of concentrates and 3 pounds of roughage daily, says Thompson.

For more detailed information on feeding young calves, contact your local county agent and ask for a copy of "Vitamins For Beef Cattle" and "Rations for Fattening Cattle."

### Lubbock Boy Shows Grand Prize Steer

KANSAS CITY...A summer yearling, "Champ", owned by Jimmie Thompson of Lubbock won the junior grand championship award of the American Royal Livestock Show last Saturday. The American Royal is one of the two biggest National shows on the circuit.

Jimmie is a 12 year old Lubbock 4-H Club boy, and a seventh grade pupil at Atkins Junior High in Lubbock.

Champ was selected from a herd of animals on the D. W. Lewter Ranch near Lubbock. He won the 4-H club championship earlier, and as the junior show champion he is eligible to compete for the grand championship of the show this week.

A Shorthorn steer from Hinton, Iowa, won the reserve champion honors.

High production per cow is one of the most important factors in profitable dairying. A recent study of 1959 Texas Dairy Herd Improvement records by Joel Hillin and Tom Prater, extension farm management specialists, shows that increasing the size of the dairy herd does not always mean an increase in profits but increased income does result when the per cow production is upped.

# Of Interest To THE WOMEN

## Bridal Shower Honors Mrs. Jimmy White

The reception room of the First Baptist Church was the scene of a bridal shower honoring Mrs. Jimmy White Wednesday, October 11, from 9 to 11 a.m.

Hostesses were Mesdames John Wright, Spencer Hough, Roy Miller, John Sanders, W. B. Carlton, Sam Williams, C. P. Fairchild, O. B. Moyer, Roscoe Ivie, Joe Talley, Leonard, J. T. Carroll, Earl Drake, W. F. Cogdill and Clyde Shrieber.

A lace cloth over blue covered the serving table decorated with an arrangement of blue and white gladioli and carnations. Crystal and silver appointments completed the setting.

Attending and sending gifts were Mesdames L. R. White and

## Mrs. Latta Presides At Circle Meeting

Mrs. Guy Latta, circle chairman, presided at the meeting of the Mekka Circle of the WSCS Wednesday morning in the home of Mrs. Billy Sides.

Mrs. Sides read the prayer calendar and said the opening prayer, followed by a report given by Mrs. Wes Long, secretary.

Mrs. Ross Ayers presented the study, "The Christian and Responsible Citizenship." Mrs. Howard Ford closed the meeting with a prayer.

Attending were Mesdames Ayers, Ford, Long, Floyd Rector, Latta, J. T. Gee, James Boyle, O. C. Jones and H. C. Kendrick.

Max, B. G. Moten, Virgil Nowell, Lenden Phillips, Virgil Hughlett, Homer Hyde, Loyd Stevens, Ralph Taylor, Clyde Scarborough, Ed White, C. A. Turner, Monroe White, E. E. Taylor, Ed Hicks, Dale Hart, Kate Brookfield, Rosa Anderson, Henry White and George Taylor.

Also Mesdames Elroy Wilson, Junior Renner, Lee Renner, A. A. Crow, Ralph Smith, C. W. Dixon, Lola Gammons, Johnny Mars, Jim Maynard, J. L. Witten, Dan Laceywell, V. W. Roberts, Curtis Murphree, Harry Hamilton, Billy Dean Baxter, Leonard Coffey, Raymond Euler, Pete Buske and Philip Weatherly.

Also Mesdames N. E. Wood, Wesley Hardesty, Claude Osborn, T. E. Wood, Sloan Osborn, Allen Stewart, Roy Clements, Joe B. Douglas, Frank Truitt, Ralph Roden, Lloyd Prewett, Winston Wilson, Grover Goggans, Ross Terry, Veldon Carroll and Miss Helen Hamilton.

Visiting in the home of Mr. and Mrs. Henry Lewis during the weekend were Mr. and Mrs. Charles Luna of Dallas. Mrs. Luna and Lewis are sister and brother.

Mrs. Ollie Wilson of Plainview visited with her granddaughters, Peggy and Phyllis Holcomb, last week.

## Woman's Club Observes Guest Day

Friona Woman's Club met October 11 in the club house for a special guest day. Honored guests were members joining this organization in 1936 or before.

Mrs. Pearl Kinsley was the only charter member present. Others honored and the year they became members are: Mrs. L. F. Lillard, 1914; Mrs. Floyd Schlenker, 1917; Mrs. F. W. Reeve, 1923; Mrs. Carl Maurer, 1925; Mrs. L. R. Dilger, 1927; Mrs. C. W. Dixon, 1929; Mrs. S. L. McLellan, 1930; Mrs. Roy Slagle and Mrs. Ed White, 1931; Mrs. Bert Shackelford, 1933; and Mrs. A. H. Boatman, 1935.

Mrs. Lem Miller gave the devotional from the 15th chapter of John and The Lord's Prayer was repeated in unison.

Mrs. Bill Baxter presented the program "Time Capsule." Each member was asked to recall a memory of a club experience.

Hostesses, Mesdames A. H. Boatman, Ed Bogges and M. B. Buchanan, served refreshments to members and special guests, Mesdames Rita Agee, Claude Osborn, Jim Maynard, Bert Chitwood, A. A. Crow, J. T. Gunn and Hudson Phillips Sr., an associate member.

Area residents are invited to a Dresden painting party at the club house in Black Oct. 24 from 9 to 5:30.

## Study Club Presents Civil Defense Study

Program presented by the Progressive Study Club October 10, in the Friona Club house was on Civil Defense. Mrs. Baker Duggins lectured on "Fallout Shelters" using illustrations of different types, sizes and prices, also equipment and supplies that would be needed.

Mrs. Tom Jarboe spoke on "Radiation," giving the meaning, harmful effects and why protection is needed, also how to prepare for such an event. Mrs. Flake Barber gave a devotional.

During the business session, the Federated Workshop held in Denver City October 14 was discussed, and Mrs. Newman Jarrell Jr. and Mrs. Bill Sheehan were representatives from the Progressive Study Club.

Mrs. Hollis Horton, finance chairman, announced the annual Christmas coffee and bazaar will be November 1. Cards will be had from outstanding companies and useful and unique items will be made by all club members to be sold.

Mrs. Barber reported on a speech, by Labor Columnist, Victor Riesel, heard in Dallas at a recent NAIA convention Mr. and Mrs. Barber attended. Mr. Riesel presented a view of the world labor situation—its power and importance. He said, "Organized labor in the United States faces a triple or trioka threat from communism, James Hoffa, and the underworld."

Hostesses Mrs. Marion Fite and Mrs. Robert Ginsburg served refreshments to members present and to guests, Mesdames Mack Ragsdale, John Fred White and Jimmy Briggs.

## Shower Honors Mrs. Briggs

Mrs. Jimmy Briggs was complimented with a coffee shower in the home of Mrs. O. J. Beene Thursday afternoon. Assisting with hospitalities were Miss Jo Phillips and Mrs. Aubrey Rhodes.

A white linen cloth covered the serving table decorated with a white crepe paper stork surrounded with an arrangement of Japonica berries.

Mrs. William Beene, accompanied by Mrs. J. L. Whitten, presented vocal selections from Gershwin's "Collection of Favorites" and "Blue Heaven." Mrs. Witten played a piano solo, "Star Dust."

A robe was presented to the guest of honor.

Attending were Mesdames John Benger, Wayne Stark, Guy Lemmond, Otho Whitefield, T. E. Lovett, George Trieder, Loyde Brewer, Sam Green, Baker Duggins, Alton Farr, Tom Carroll, David McVey, J. L. Witten, William Beene and Grady Dodd.

## Kathy Ginsburg Observes Birthday

Kathy Ginsburg, daughter of Mr. and Mrs. Robert Ginsburg, observed her fifth birthday with a party Friday afternoon from one to three p.m. at the Ginsburg home.

Guests presented gifts to the honoree which were opened and displayed.

Following a game session, lime sherbet, birthday cake and cold drinks were served. Plate favors were balloons and place cards featuring miniature footballs and yellow chrysanthemums.

Present were Pattison Talley, Cindy Cason, Beverly Bailey, Brad Beene, Charles Williams, Glenn Adkins and Linda Anderson and the guest of honor.

## Coffee - Shower For Mrs. W. Wilkins

Mrs. Waymon Wilkins was guest of honor at a coffee and lullaby shower in the home of Mrs. Ray Castleberry Friday morning at 9:30.

Gifts were presented as a surprise to Mrs. Wilkins. Refreshments were served by the hostess to about 25 guests.

**NOW, HERE'S A BEAUTY....** Dr. Chester M. Rowell, professor of Botany and Taxonomy at Texas Tech, illustrates a lecture presented at the Modern Study Club meeting Tuesday evening with slides of wildflowers and grasses of surrounding areas. Pictured with Rowell are Mrs. Mack Bainum, president of the club and Mrs. Sloan Osborn, secretary.

## Husbands Night At Modern Study Club

Special guests at the Tuesday evening meeting of the Modern Study Club were member's husbands and Chester M. Rowell, professor of Botany and Taxonomy at Texas Tech.

The program subject, "Texas", stressed "New Dimensions in our State's Beauty". Mr. Rowell was the speaker for the evening and his subject was on wildflowers and grasses of west Texas. Rowell illustrated with slides, plant life in the areas of Friona, Canadian, Palo Duro and sand dunes at Kermit.

Hostesses Mesdames Fay Reeve, Wright Williams, Henry Lewis and Wesley Foster served refreshments to twenty-two members and husbands and special guests, Mr. Rowell and Mr. and Mrs. G. E. Tannahill.

## Now CHEVROLET A New World of Worth from Chevrolet

## Lovers of good cars - what more could you want! '62 CHEVROLET

Step right in—and feel luxurious. Fine, comfortable car, isn't it? A car with Jet-smooth ride... with a new choice of V8 power... longer lived beauty (front fenders have steel undershirts to help fend off rust and stones). For '62, here's more than ever to like.

Hasn't this one got it, though! Fourteen lovely, lively models to choose from, with your pick of an economical 6 or your special favorite of five vigorous V8's (right up to a 409-hp powerhouse!). For putting that power to work just the way you want it, there are four transmissions.

More? Plenty. You've got Jet-smooth ride, Body by Fisher craftsmanship, and handy helpers like longer lived mufflers for all engines.

Still more? You bet. And your Chevrolet dealer's just itching to tick it off for you firsthand.

## NEW CHEVY II

Sensibility at its Sunday best in a totally new line of cars!

Here's sturdy simplicity to save money in service and maintenance. Uncompromising economy (your choice of a 4- or 6-cylinder engine in most models). Steadfast Chevrolet dependability. Body by Fisher craftsmanship. Engineering advances like the Mono-Plate rear springs to eliminate the squeaking and friction of multi-leaf springs. Nine new-size models in all (including the soon-to-be-available hardtop, convertible and wagons) with roominess to spare. More details? Your dealer's loaded with 'em.

See the '62 Chevrolet, the new Chevy II and '62 Corvair at your local authorized Chevrolet dealer's

# THE HIGH PLAINS FARM AND HOME

Heavy heads of grain almost hide the combine from view as it inches along. In this field near Hub, the grain was so thick and leaves were so interwoven that it was a struggle for a man on foot to move through it. Grain harvesting in the area reached the halfway point this week, according to informed sources.

## ASC Distributes Grain Sorghum Loan Notices

Farmer County farmers have received notices from The Agricultural Stabilization and

Conservation department in Farwell stating the number of pounds of grain which they are entitled to place in loan under the ASC programs.

"Farmers should keep in mind that the figure shown in the notice is the amount for the entire farm and not for the individual," Prentice Mills, office manager, said.

"The farmer is asked to inform the ASC office as to how much of the grain is credited to him and how much is to be credited to other persons or producers," he added.

Grain sorghum is generally divided between the landowner and the farmer on a one-third and two-thirds basis, according to Mills. If this is the case, the total loan allowable

should be multiplied by the four digit fraction .3333 to comply with Government regulations.

To compute the two-thirds portion, the total should be multiplied by .6666. Dividing by three is not accurate enough to comply with the set requirements.

Farm operators are advised to have their warehouse receipts issued jointly in the name of the landowner and operator or other interested parties. Mills further advises farm operators to obtain authority to act for the landowners in those cases where the owner is not available.

Obtaining joint receipts will facilitate and speed handling through the ASC office.

## NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

You can look for more, not less, government control in agriculture next year. This is the consensus of ever writers on the subject so far as we know. And if you don't want more controls, only one thing will help you prevent them: membership and active support of the organizations opposing them. Farm Bureau is the one specifically for farmers. There are others covering other phases of freedom for American businessmen and individuals.

Bill Wedemeyer, research and promotion director for Texas Farm Bureau, says "It is most interesting to note that the state deficit continues to increase during the month of September." The actual deficit increase in dollars is \$24,696,381.

The executive Secretary of Christian Crusade says in a report on his trip to London. "One of our guides in London reminded us that the first offense for DWI in England was 30 days in jail and 6 months suspension of drivers license. The second offense was 90 days in jail and the permanent cancellation of driver's privileges." Then he observes, "How does that fit in with the fact that we cannot even get a chemical test law in Texas?"

Let us suggest that you meet with your directors on November 6 at about eight o'clock in the office in Friona. Get acquainted with them and let them know what your ideas are concerning the farm situation and what you think should be done about it. Chances are that some of the things you would favor are already in the resolutions file locally, and you may help the directors in executing the ideas proposed.

We hope there was good attendance and interest in the self-help cotton meetings held over the county this week.

Consider this: "A good name is greater to be chosen than great riches, and loving favor rather than gold and silver." Proverbs 22:1.

W.D., A. L. Glasscock, D. A. McCutchan, Part Lot 2, Blk. 69, Bovina

Reports of greenbug infestations on small grains, varying from moderate to heavy, have been received from several areas of Texas. The extension entomologists suggest to grain producers that they make periodic checks of their fields for these and other insects.

If numbers reach the point where damage can be expected, they suggest a visit with the local county agent for the latest information on control measures.

The Macartney rose, a real pest on some 400,000 acres of fertile East Texas and Gulf Coast land, can be controlled by repeated yearly applications of chemicals. Early spring or fall, when the roses have enough soil moisture for active growth, is the best time to apply the control measures, says G. O. Hoffman and Bobby Ragsdale, extension range specialists. They suggest a visit with the local county agent for details on the control program.

Monthly club meetings shall be planned a year in advance that are of interest to all 4-H club members, parents, and leaders. Meetings shall consist of inspiration, business, program, and recreation. Each member shall have at least one active demonstration.

At least 90% of the members must complete demonstrations and submit records. Each member shall be active in method demonstrations, program and county-wide events as shows, fairs, camps, community improvement.

"Many of our clubs and members are so active in club work now that it would not take much more effort for the club to qualify for these seals" encouraged Miss Musil.

For more detailed information contact either of the Extension Agents in the County Courthouse.

# Parmer Harvest Gains Momentum

Combines, trucks, elevators and gins have been operating at an ever increasing pace for the past week as Parmer County harvesting continues to gain momentum.

Grain harvesting in the southern sections of the county is nearing the 60 per cent completion point, according to estimates of area elevator operators and farmers. Moisture content of grain taken from the southeast part of the county averaged 11.3 per cent according to elevator reports and is getting dryer with each day of fair weather.

As checks were made on grain deliveries further north, it was

discovered that harvesting from Friona north was only about 25 per cent completed and moisture content ranges from 9 to over 16 per cent. One elevator reported turning away a few loads of grain because of the high moisture content.

"A good, heavy frost and a week of sunshine and soft breezes is what I need more than anything else," one farmer near Friona commented.

Over 10 million bushels of grain sorghum were reported delivered to six county elevators by Monday evening.

A light frost which settled over parts of the county last week wasn't heavy enough to harm many of the late crops and did very little good for the farmers awaiting a light freeze to begin their cotton harvesting.

Several fields of cotton in the Bovina and Farwell areas are nearly ready for stripper operations but most farmers are waiting a few more days in hopes of a light freeze.

Two farmers near Bovina are reported to have started trial runs with a cotton stripper Tuesday. Small areas in the fields still have a few too many green bolls but they are expected to reach the stripper stage by the end of the week, if the dry weather holds.

Most gin operators indicate that cotton harvesting has al-

ready reached the stage equal to that at the end of October last year. It should be moving into full swing within the next two or three weeks, depending upon weather.

Cotton fields which have been sprayed with shed-a-leaf are showing as large expanses of white as the leaves fall away to

reveal the stalks laden with large fluffy bolls.

In the northern parts of the county, there is still a considerable number of immature grain and green cotton. A heavy freeze would do appreciable damage to these fields. Most of the crops however, are reaching the stage where a freeze would do more good than damage.

## 4-H Clubs Eligible For Certificates

Local 4-H Clubs are eligible for 4-H Club Certificates according to achievement requirements completed each year. A 4-H Club is entitled to one certificate and or seal per year.

According to information received from the State 4-H Club Office by Extension Service Agents, Ettie Musil and Deryl Coker, there are four levels of achievement. A club may meet the requirements for a 4-H Club certificate, a certificate with a red seal, a blue seal, or a purple seal.

It is not unusual for a club to qualify for the highest level of a purple seal the first year. If a 4-H club cannot reach the

purple seal requirements perhaps they can reach the requirements of one of the lower levels.

To qualify for a certificate for a 4-H Club the club shall be composed of boys and girls between the ages of 9 and 20. The club shall have a membership of at least 5 with at least one adult leader responsible for the club and club activities during the year. At least 50 per cent of the members must complete result demonstrations or projects and submit records.

Requirements for red seal and blue seal are harder than for the certificate. For the purple seal the 4-H club must have at least 10 boys and girls with two local adult organization leaders, a man and woman.

Subject matter leaders trained in each subject with club meetings planned a year in advance. Meetings shall be planned by subject matter leaders. 4-H members of subject matter group with the advice of the County Extension Agents.

Monthly club meetings shall be planned a year in advance that are of interest to all 4-H club members, parents, and leaders. Meetings shall consist of inspiration, business, program, and recreation. Each member shall have at least one active demonstration.

At least 90% of the members must complete demonstrations and submit records. Each member shall be active in method demonstrations, program and county-wide events as shows, fairs, camps, community improvement.

"Many of our clubs and members are so active in club work now that it would not take much more effort for the club to qualify for these seals" encouraged Miss Musil.

For more detailed information contact either of the Extension Agents in the County Courthouse.

## FOOTSAVING EDUCATION

by James E. Edwards

### Why Does My Baby Walk Like Charlie Chaplin?

Charlie Chaplin, for the benefit of the younger generation, was a comedian who walked and ran with his feet turned out. His humorous appearance did much to discourage the "ten minutes to go" walk and stance which were highly recommended in World War I days.

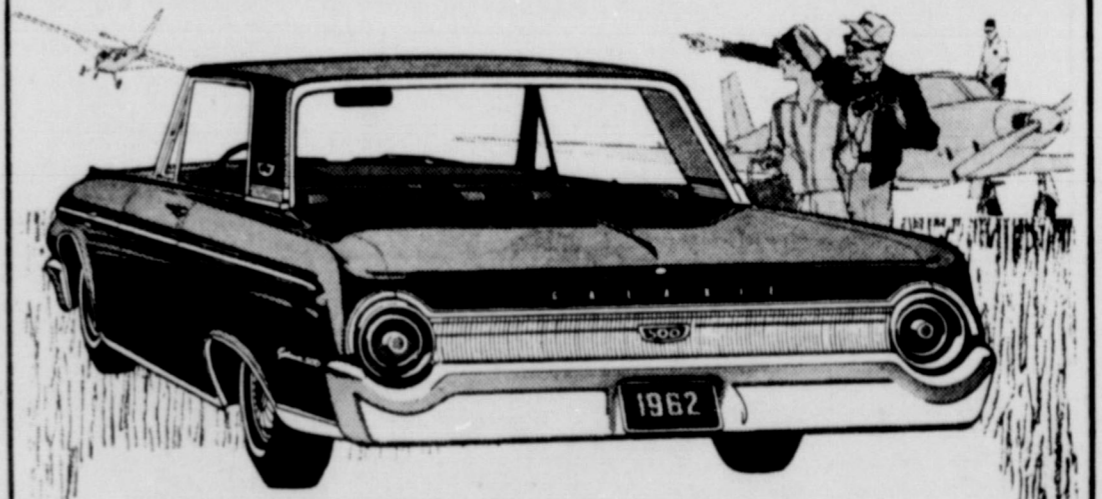

It is quite normal for babies to toe out until they learn to walk with confidence. Adults toe out, too, if we try walking on high scuffing. When practice overcomes the fear of falling the adult and the baby learn to tread straight.

If your child still toes out five or six months after learning to walk you should call it to the attention of your doctor.
