

55 Seniors Graduate At Services Tonight

Commencement - the magic word for the student - is set to begin tonight at 8 p.m. for the Friona High School Seniors and at the same time tomorrow for the eighth grade students.

Across the lighted stage, 55 seniors are expected to pass and receive their high school degrees. Parents and friends are expected to fill the auditorium to capacity for the solemn occasion.

Mrs. Eva Miller will play for the processional and Craig Tannahill will offer the invocation.

Brenda Collier will present her Salutatory which she has been working on for the past weeks, following announcements by Alton Farr, superintendent.

Linda Castleberry was given the privilege of setting forth the class history for the services.

James Perkins will step up to the podium and present his Valedictory following a musical presentation by the Trebellaires. The long-awaited moment will follow as D. C. Herring, president of the school board, will present the diplomas to the graduating seniors as they take the long walk across the stage and out of the school. The blue-robed figures will mark their graduation with the shifting of the tassel to the left side of the scholar's cap.

Tommy Jay Sanders will conclude the ceremonies with the benediction and Mrs. Miller will begin the Recessional.

An estimated 97 eighth grade students will receive their certificates of graduation from Junior High School in the Friday night services, according to school officials. The exact number of graduates will not be known until after the conclusion of final exams and the grades are recorded.

Karen Osborn, a Junior High graduate of last year, will provide the music for the Processional and Recessional.

The invocation will be given by Reverend Bill Phillips of the

Calvary Church Bible School Starts May 23 Monday Games Open Baseball Program

Vacation Bible School will begin at the Calvary Baptist Church May 23 and will continue through June 1 with commencement exercises Sunday at 8:00 p.m. June 3, Mrs. Eloy Wilson, principal of the school, states that preparations are complete and the church is ready for boys and girls ages 3 through 12 each day from 3:00 to 6:00 o'clock.

A parade at 3:00 p.m. Wednesday will open the school activities. A series of films on the "Life of Christ" is a special attraction this year. A film will be shown each day at 5:30.

Teen Time is planned for the Young People from 8:00 to 10:00 each night with Mrs. Harbert Day directing this phase of the program.

Opening games in the Summer Baseball Program will begin Monday afternoon. Teams sponsored by McCaslin and Brookfield will meet the Star-Hurst and Reeve teams to open the season.

Managers of the teams will meet in the High School Library Friday at 8 p.m. to go over the rules and make final agreements before the season opening.

Boys who have not been assigned to a team and who wish to participate in the program should contact Coach Vernon Scott. He had indicated that any boy who wishes to play will be assigned to a team.

The complete schedule for the season has been arranged and is as follows:

May 21, McCaslin at Star-Hurst and Brookfield at Reeve.

May 22, Co-op at Friona Motors and Herring at Hub Grain.

May 24, Ethridge Spring at Farmer Pump.

May 25, Bank at Friona Drill & Pump and McCaslin at Brookfield.

May 26, Chester Fleming at Farmer Imp.

May 28, Bank at Star-Hurst and Friona D. & P. at Reeve.

May 29, Aztec at Friona Motors and Herring at Chester-Fleming.

May 31, Co-op at Ethridge Spring.

June 1, Bank at McCaslin and Friona D. & Pump at Brookfield.

June 2, Hub at Farmer Imp.

June 4, Reeve at Star-Hurst and Friona D. & Pump at McCaslin.

June 5, Farmer Pump at Friona Motors and Farmer Imp. at Herring Imp.

June 7, Co-op at Aztec.

June 8, Reeve at Bank and Star-Hurst at Brookfield.

June 9, Hub Grain at Chester-Fleming.

June 11, McCaslin at Reeve and Star-Hurst at Friona D. & P.

June 12, Friona Motors at Ethridge Spring and Hub Grain at Herring.

June 14, Farmer Pump at Aztec.

June 15, Farmer Pump at Co-op and Brookfield at Bank.

June 16, Farmer Imp. at Chester-Fleming.

June 18, Aztec at Ethridge Spring.

June 19, Ethridge Spring at Aztec and Chester Fleming at Herring.

June 21, Open.

June 22, Friona D. & P. at Star-Hurst and Reeve at McCaslin.

June 23, Farmer Imp. at Hub Grain.

June 25, Reeve at Brookfield and Star-Hurst at McCaslin.

(Continued on page 2.)

Friona Hosts P-TA Council

Mrs. W. J. Danforth, first state vice-president of the Parent-Teacher Association, discussed the meaning and objectives of the organization at a tri-county council meeting in the Friona Methodist Church Tuesday morning.

Representatives from Farmer, Deaf Smith and Castro County units were present at the meeting.

A panel of PTA officials formed the program which was intended to educate the local leaders as to the objectives and purposes of the organization.

Following the conclusion of the meeting at 12:00 p.m., the group visited the school cafeteria where they were served dinner.

Those present were Robert Birchfield, Mrs. E. P. Roach and Mrs. Wiley Alexander, Amarillo; Mrs. Jack R. Miller, Mrs. Kenneth Shropshire and Mrs. W. Killingsworth, Dimmitt; Mrs. W. J. Danforth, Fort Worth; Mrs. Elmer Patterson and Mrs. Floyd Coker, Hereford.

Also Mrs. Roy M. Miller and Mrs. J. W. Gammon, Lazbuddie; Mrs. Kenneth Christie and Mrs. Thurman Atchley, Sumnerfield; Mrs. Bert Williams and Preston Martin, Farwell and Mrs. Doyle Cummings, Mrs. John Bingham, Mrs. Lee Renner, Mrs. Sterling Graham, Mrs. Grady Nelson and Mrs. Andy Hurst, Jr. of Friona.

Ex-Students Elect Two From County

Martell LeVeque, Friona, and Mrs. Ruby Nell Bruns, Lazbuddie, were elected president and secretary - treasurer of the Texas Tech Ex-Student Association, tri-county chapter at a meeting in Hereford last week.

The two Parmer County residents were elected to fill the officer in accordance with a practice of rotating the officers between the member counties of Castro, Deaf Smith and Parmer.

Dale Young also was named to represent the chapter as a council member at Texas Tech.

Mr. and Mrs. Donald Shipley were outgoing officers.

The chapter is an organization and any graduate of the college is eligible to join.

I. D. Grimsley Rites Monday

Services for I. D. Grimsley, father of David Grimsley of Friona, were conducted Monday at 2 p.m. in the Main Street Church of Christ in Olton.

W. L. White, minister, and G. Stanley, a former Olton minister from Grand Junction, officiated. Burial was in the Olton Cemetery under the direction of Parsons Funeral Home.

Teachers Given Service Awards

Awards were presented to teachers in Friona High School at town assembly programs this week in recognition of their service to the school.

Pins indicating five, ten, fifteen, twenty, and twenty-five years of teaching in the school were awarded to a total of 24 teachers before the student body Monday.

Teachers of the first through the sixth grades were recognized in an awards assembly for these grades Monday morning. The teachers of the seventh grade and up received their awards at the afternoon program.

J. T. Gee, grade school principal, was the only one to receive a 25 year pin. Mrs. Irma Stark also was the only teacher to receive a 20 year pin.

Recipients of the 15 year awards were Mrs. Ethel Benger, Mrs. Wana Brewer, and Mrs. W. L. Edelman.

Mrs. Mabel Jones, Miss Jo Phillips, Mrs. Virginia Jennings, Mrs. Carmaleet Truitt, Tom Jarboe and Raymond Cook

Little League Mothers Meet

A meeting is planned for all mothers interested in Little League activities at the community room of Friona State Bank at 2:30 p.m. Thursday.

Letters have been mailed to mothers of players, but the meeting is important according to Mrs. Ralph Shirley who urges all mothers interested in the future of Pee Wee Field and Little League players to attend.

INTO THE FUTURE...seniors will walk tonight. Here, three of the graduating class leave the building as the sun filters through the trees. They are Janet Smith, Janice Wright, and Phil Phipps. They will be among the 55 students to receive diplomas tonight.

School Program Cites Outstanding Students

Friona's outstanding students were recognized at awards assembly programs Monday.

Presentations were made to students with highest yearly average, grades of 90 and above, perfect attendance and individual achievement.

Students in grades one through six were recognized in a morning assembly and the higher grades gathered in the afternoon.

Special awards were made to high reading and math students in the third and fourth grades. Dale Schueler received the third grade reading award. He boasts a 95.6 average in the subject at a reading speed of 240 words per minute. He has read over 100 books during the year in addition to the regular assignments.

Danny Kendrick won the fourth grade award with a speed of 320 words per minute and an average of 95 on comprehension.

Cyndee Bailey won the third grade arithmetic award with an average of 95.6 for the year. On recent rating tests, she returned a score equal to a fifth grade level.

Susan Vestal won the fourth grade math award with a 95 average and is in the group which is doing fifth grade work. She has finished half of a fifth grade book.

All-round boy and girl were named for high school and junior high school at the evening program. Janet Buckley and Larry Anthony were named to the positions by the High School faculty and Frieda Floyd and Bobby Horton were picked for the all-round positions in the Junior High School.

The four students were chosen for their outstanding leadership, character, cooperation with students and faculty, personality and dependability.

Several departments in the high school presented awards to the outstanding students in the subject field.

At the conclusion of the evening program.

(Continued on page 3.)

Wild Ball Breaks Baseballer's Arm

Friona Irrigation League Team dropped two games last week.

The local nine were defeated in Plainview by a score of 8-5. Jimmy Collier was tagged as the losing pitcher.

The team also suffered one casualty in the game. Cotton Renner was struck by a pitched ball while at bat and suffered a broken right arm. He is expected to be out of action for the remainder of the season, or at least six weeks.

The second loss was to Springlake Sunday with a score of 26-23. Collier was again up as the losing pitcher. Sand was blowing across the diamond to the extent that any kind of a hit usually resulted in another runner on base.

According to the schedule, Amherst will visit here Thursday night. The local team will end the week with a contest between Nazareth Sunday there. The team is looking for their third win against the Nazareth team. The game with Amherst will be called because of the lack of Amherst players, according to Duane Balze, manager of the team.

Balze reported that he has been changing the players around in their positions to determine the best spot for each player and believes that he has a good team worked out now.

ALL-ROUND STUDENTS . . . Frieda Floyd and Bobby Horton (left) were named at the assembly program Monday afternoon for the junior high school and Larry Anthony and Janet Buckley were named for the high school positions.

With
T.avis

To the Seniors of Friona High School:
You who are about to walk across the stage and receive that long awaited diploma are most likely—and rightly so—very proud of your accomplishments.

For some of you, it will be the end of your formal education. For some it will be merely one step on the way to becoming a doctor, lawyer, chemist, teacher, engineer or member of some other profession. Your fathers, mothers, brothers, sisters and friends will watch you take the short walk which marks the end of 12 years of work and study. But, most likely, they will be proud not because you have reached the end of a struggle, but because you have prepared yourself for the next step in life. With each step you take across the platform, all of them will be there beside you just as they have been in the past—not just because the degree marks the end of a phase of your life, but because it signals the beginning of another.

You have reached a fork in the road. Upon most of you will fall the responsibility of choosing the road which you will travel into the future. Your parents may offer assistance in the form of advice and monetary aid, but the final decision is yours and yours alone. Most of you have accepted the responsibility of making many decisions in the past, but none will so greatly affect you and your future as the one you must make now.

The question is very simply stated.

Where do you go from here? Will you go to a job nearby or in some distant place? Will you join with your parents in their business of farming operation, or will you go on to enter a college or university? The choice is yours to make, but remember your future is being formed and therefore it is the future, not just tomorrow, which should be considered when the moment arrives. You will not have a chance ever to return to this day and take another path.

Although I know from experience that advice—even from a parent—has very little weight at this time, I sincerely hope that the majority of you will seek further education.

It was only a few years ago that I walked across the stage just as you will. After years of attending school, the thought of "wasting" four more years in the classroom seemed to be too much to take.

A job and a pay check seemed more important than more education at the time. I could not see the close relationship which exists between the size of the pay check and education.

That I would be handicapped in the future did not matter greatly to me at that time. To be out on my own, have money which was really my own and to be away from the drudgery of the classroom was most important.

It did matter that I could have gone to college. I have come to believe that if the desire for college is strong enough, any person capable of successfully completing high school requirements can also succeed in college, regardless of present financial condition.

Let me say from experience that it is much easier to stick to the books and grasp their contents if you do not let the habit grow stale with time.

Seven years, including four at oil field labor and three in the military, passed before I became convinced that I had made a very undesirable decision upon graduation from high school.

I was one of the lucky ones in that I was able to go back to the classroom and pick up the past. However, I soon learned that all I had gained in seven years was age. The study habit had grown stale and was very hard to revive. I could not call back the years, but I was able to turn aside and change paths.

Instead of wasting four years in college, I had discovered that I wasted seven before entering.

My decision to forego college at the time of graduation—in a manner of speaking—cost me

Editorial Comment:

MOST PRIZED RESOURCE

Seldom does a day pass but what we hear someone cry out in despair at the mismanagement of our natural resources such as oil, coal, water, forests or land.

But it is very infrequent that we hear a word concerning the conservation of our most valuable resource--our young people who are growing up and graduating and preparing to take their place in our society.

To any town, and especially to a town like Friona, the young people are the one greatest hope for the future. Businesses may open branches in town and import people to operate them, but the sense of pride in the community and the feeling of possession which is most important for the welfare of a town, must be acquired.

The young people who grow up in the community already have the sense of belonging (in most cases) and would be the most desirable persons to retain in a community. But, today, the trend is for the young high school graduate to move to the big city where opportunity is supposed to be more readily available.

The greatest hope for the small, rural community is to provide some incentive for the young people to go into business, marry and make their home in the com-

munity. The city may continue to exist and even to grow, but if it is to thrive, it must keep a good percentage of its young people.

Without the youth, a town or country will become old and stale in time. And, with the native youth, comes a sense of loyalty which cannot easily be imported or acquired. And loyalty is very important to the growth and welfare of any city.

The greatest conservation effort would be that which would provide a place for the young people--a place for them to return to after they finish college. To assure the education of the young people and provide them with a place and opportunity to return and enter a business should be the most important goal of any future minded community. With educated young people and the experience of the elders, we cannot help but prosper.

The old judge struck at the core of the problem facing small cities when he looked down at the street of his small community from his window and remarked to a visitor:

"I would give anything I own to see more pregnant women on that street. That would be a sure sign of growth." But the young people had moved to other locations to raise their families.

Seniors--

Union Congregational Church. Sandra Beene will give the Salutatory address and then will join Janet Stevick, Sarah Fallwell, and Darlene Wilson for musical numbers. The quartet will be accompanied by Barbara Baber.

Tommy Shirley will deliver the Valedictory address for the class.

The diplomas will be presented by Clyde Weatherly, School Board secretary, and Alton Farr, superintendent, as Tom Jarboe, principal, calls the name of each student.

Benediction will be given by Reverend Bill Burton, First Baptist Church pastor.

PRESENT! ON TIME! . . . Jerry Don Carlton, Monty Smith, David Smith, Bill Weatherly, Lonnie Ellis, Nolan Morris, Lupe Rodriguez, Dewayne Procter, Betty Slaughter, Brownie Cole, Lou Cochran, Martha Martin, Glenda Mingus and Pat Tannahill were junior high students with perfect attendance records.

CASTIN' --

seven years of progress along the professional path which I have chosen.

I will not attempt to give you advice, but I hope you will not make the mistake I have. Look around you and see what qualifications you will need for suc-

cess in the field of your choice, then ask yourself if you will not soon regret any decision not to attend (and study) a college or university.

I am sure that neither I nor anyone else will be able to change any of your desires. But, if you really want to succeed in this world, the place to start

is in the schools, I believe that most everyone will testify that in the present times, the height of success is closely related to the level of education.

As a last word on the subject: Wherever you go or whatever you do, don't ever stop trying to learn. Contrary to what many may believe, the world will not

welcome you with open arms. You must extend your arms and mind and work for your possessions and position. It will not be given to you without effort on your part.

Good luck to each of you.

PTA STATE VICE-PRESIDENT . . . Mrs. W. J. Danforth of Fort Worth discusses the purpose of the organization with Mrs. Doyle Cummings, Friona, and Preston Martin, Farwell, at the council meeting Tuesday.

Livestock Survey Cards Delivered

Postmaster Martha Clements reminds rural patrons of the Friona Post Office to be on the lookout for June Livestock Survey cards. Next week, mail carriers will leave survey cards in a sample of boxes along their routes.

Seventh - Fidel Barraza, Billy Burton, Lydia Buske, Susan Carmichael, Jerry Coker, Lou Cochran, Brownie Cole, Sherry Cole, Linda Fallwell, Randy Farr, Diann Gibson, Don Hoover, Darla Howell, Jim Bob Jones, Bobby Jordan, Sharon Martensen, Martha Martin, Manuel Pacheco, David Smith, Becky Turner, Shirley White, Terri Wilson and Mike Wooley.

Eighth - Jay Beene, Sandra Beene, Bing Bingham, Ray Braxton, Rita Collier, Lonnie Ellis, Brian Evans, Terry Fite, Freida Floyd, Janis Goggans, Tim Herring, Bobby Horton, Barbara Keener, Eldon Long, Gail McGlothlin, Roger Nelson, Mary Ann Roberts, Connie Schlenker, Tommy Sherley, Marie Short, Janet Stevick, Paula Stout, Monte Sue Welch and Gay Wily.

"USDA bases livestock and poultry estimates on replies to this survey, Cary D. Palmer explains. "It's important for everyone who gets a card to fill it out and return it to the carrier. This way, USDA gets a representative sample of the area's livestock and poultry holdings."

Carriers assisting with the survey are: Vera Day, Rt. 1; Josephine Blackburn, Rt. 2; Lewis D. Gore, Rt. 3.

Survey cards will be forwarded to Cary D. Palmer, State Agricultural Statistician in Austin. After adding and analyzing these cards, USDA statisticians are able to estimate the State's milk production, calf and pig crops, lamb and wool crops, and the number of hens and pullets.

Information from this survey will guide livestock and poultry producers in making important business decisions," Palmer concludes.

Edward White, Jr. moved from 1312 Washington to 607 Summitt here in Friona.

The American Medical Association points out that the main causes of blindness in the United States are glaucoma, cataracts and accidents. Most of the accidents could be prevented by the exercise of simple precautions on the part of children and their parents. Most cases of cataracts can be dealt with by surgery. Glaucoma, if recognized in its early stages, and if adequate and sustained treatment is given, can be checked and stabilized. One reliable estimate says that half the blindness in this country could be prevented or cured.

Church Begins Bible School

A parade Saturday at 4:30 p.m. will announce the beginning of Vacation Bible School at the First Baptist Church, it was announced this week.

The school begins with preparation day Saturday at 3 p.m. The program will include registration for the eight day school and the parade. Refreshments will be served at the church after the parade. The daily program for the school will feature such items as Bible study, singing, activities, and a series of films on the life of Christ. Boys and girls from 3 to 16 years of age may attend the school.

Classes will be conducted from 3 p.m. until 6 p.m. Monday through May 30. The "teen Time" program for ages 13-16 will be from 7 to 9:30 p.m. The school will close May 30 with the commencement program.

School Program--

ing program, Lowell Bynum, band director, led the group in singing "Auld Lang Syne," as the seniors gave their places over to the junior class.

Twelve students in the first four grades of the Friona schools received perfect attendance awards. They are Dean Agee, Randy Campbell, Earl Love, Michael Martin, Vickie Mingus, Mickey Morris, Billy Ross Procter, Kay Riethmayer, Deanne Schueler, Nita Slaughter, Renee Taylor and Nemesio Valasco.

Pupils with highest average in each room are: First grade-Benita McAllister, Niki Nichols, Eugene Awtry, Carolyn Mur-

phree, Florestela Ruiz, Second grade - Deanne Schueler, Andrea Sue Hurst, Kathleen McLean and Sally Kendrick, Third grade - Cyndee Bailey, Darrel Schueler, Kay Cole, Debra Wily, Fourth grade - Kay Riethmayer, Janet Mingus, Susan Vestal and Wayne Schueler.

Scholastic awards given to students with grades that average 90 or above for the entire year are Debbie Bengt, Patty Kirby, Benita McAllister, Patricia Phipps, Betty Ann Sachs, Mike Hugh, Michael Martin, Gerall Wily, Niki Nichols, Cynthia Barnett, David Sanders, John Lee Rule, Daniel Huereca and Gary Mingus.

Also William Bailey, Barry Bynum, Donna Lewellen, Eugene Awtry, Carol D. Morgan, Carol A. Reeve, Tanya Chester, Becky Broyles, Thomas Huereca, Byron Lemmond, Chuck Rector, Frank Saiz, Gary White, Tracy Barber, Nancy Martinez, Carolyn Murphree, Vandra Nichols, Mary Ellen Mareno, Mikala Renner and Holly Welch.

Also Vicki Mingus, Alecia Ragsdale, David Sides, Deanne Schueler, Dirk Garth, Bill Bailey, Leslie Perkins, Sarah Connelly, Brenda Hall, Andrea Sue Hurst, Steve Baxter, Kathy Horton, Diane Day, Denise Fraz-

er, Vickie Schueler, Jill Riethmayer, Troy White, Rhonda Bauer, Eddie Balmun, Joni Cannon, Deann Dickson, Tommy Long, Carolyn Martin, Kathleen McLean, Melissa Pruett, Larry Sanders, and Louise Whaley.

Also Dave Buske, Jab Garcia, Brian Hall, Fran Dodd, Sally Kendrick, Janice Milner, Carleen Schlenker, Sheila Struve, Christine Grant, Cyndee Bailey, Debbie Mollindo, Lana Morris, David Bynum, Kathy Schueler, Dale Schueler, Gloria Brown, Janetta Cole, Bruce Fite, John Hoover, Jayn Massie, Patsy McVey, Darrel Schueler and James Weatherly.

Also Kay Cole, Esther Smith, Don Fortenberry, Lana Renner, Amy Sue Renner, Mike Mills, Cayce Lee Dunn, Donnie Lewellen, Debbie Burton, Gay Welch, Connie Fallwell, Zane McVey, Debra Wily, Michael Buchanan, Gary Fallwell, Sheila Awtry, Glenda Deaton, Susan Floyd, Kathy Latham, Susan Spring, Debra Kay Mears and Douglas Kay.

Also Kay Riethmayer, Vicki Knight, David McFarland, Dean Agee, Kathy Anderson, Bill Ruzicka, Mike Schwab, Janet Mingus, Danny Kendrick, Kenneth Watkins, Jerry Shelton, Risa Howell, Mitch Terry, Rhonda Ragsdale, Susan Vestal, Connie Huereca, Robert Thomas, Carlene Greeson, Sherry Walker, Miles Lillard, Jane Rushing, David Williams, Joe Bill Jones, Wayne Schueler and Jennie Fallwell.

Students with perfect attendance, neither tardy nor absent, in junior high school are: fifth grade - Carolyn Camp, Betty Scales, Billy Slaughter, Scott Wooley, Vickie Payne, Bobby Drinkard, Larry Martin, Sixth - John Baxter, Charles Bishop, Hilda Perez, Seventh - Jerry Don Carlton, Lou Cochran, Brownie Cole, Martha Martin, Glenda Mingus, De-wayne Procter, Betty Slaughter, David Smith, Monty Smith, Patricia Tannahill, Bill Weatherly, Karen Agee, Eight - Lonnie Ellis, Nolan Morris, Lupe Rodriguez, Margaret Wilson and Gay Wily.

Junior high students receiving scholastic honor awards, a maintained average of 90 or above the school year, are: Fifth - Johnny Barker, Danny Carthel, Rhonda Awtry, Brenda Blackburn, Michael Huereca, Joel Osborn, Darla Perkins, James Schlenker, Connie Stone, Connie Whaley, Andy Cole, Doris Ferguson, Vickie Payne, and Janice Clark.

Sixth - Randy Ellis, Crista Evans, Rickey Hurst, Debbie Jarecki, Pat Ragsdale, Sammy Bailey, Galen Brewer, Joan Gail Brookfield, Veronica Deaton, Mike Garth, Belinda Mabry, Verly Morris, David Reeve, Rhonda Ruzicka, Mary Smith, Larry Truitt, Celia Vestal, Jan Welch, Eddie Wood, Terri Sue Cummings, Peggy Drake, Karene Milner, Kathy Renner, Mike Reznik, Kara Beth Sides, Linda Stone, Ronnie Williams, Sharen Awtry, Becky Coffey, Judy Edelman, John Bill McFarland, Edith Schumann and Rodger Schooley.

Mr. and Mrs. Wesley Hardesty returned home Saturday following a two weeks vacation visiting points in Arizona, California and Nevada. They were also guests in the home of Mrs. Hardesty's son and family, the Gene Johnsons, of Salt Lake City, Utah.

"Thank You, fellow Texans, for the wonderful support you gave my candidacy for ATTORNEY GENERAL in the first primary." - Waggoner Carr

WAGGONER CARR

Election returns tell the story of public confidence in Waggoner Carr's qualifications and his stand for clean, progressive government:

- 43.7% voted for Carr in a field of six candidates.
- Twice as many voted for Carr as for his opponent in the runoff.
- 212 out of 254 counties were carried by Carr on May 5.

YOUR vote is needed to crown the victory and make WAGGONER CARR your next Attorney General.

Democratic runoff primary June 2 (PAID POL. ADV.)

TOP STUDENTS . . . These students posted highest averages in reading and arithmetic in the third and fourth grades. Top readers were Dale Schueler, third, and Danny Kendrick, fourth; Susan Vestal, fourth, and Cydnee Bailey, third, attained highest averages in arithmetic.

Local Hurler Paces Tech Baseballers

David Tarter of Friona was one of the two pace-setting pitchers for the Texas Tech freshman baseball squad. He and Joe Fox of Gainesville each have a 2-0 record.

Travis Thompson of Lovington also had two wins but was tagged with Picadors' only loss, 9-8 to Amarillo College in the final game of the nine-game season.

Catcher Steve Reed captured most of the hitting honors, Coach Bill Dean's statistics showed today.

Reed, a Dallas Thomas Jefferson product, had the best batting average, .440 with 11 hits in 25 trips, led in home runs, 3; runs batted in, 17; and slugging percentage, .812. In total hits, his mark of 11 was shared with second baseman Foy Williams of Lubbock.

Other departmental leaders: runs -- Williams and shortstop

Billy Monk of Abilene, 12; two-base hits -- first baseman Bob Fielder of Abilene, 4; triples -- Monk, 1; stolen bases -- Williams and Monk, 6.

The appropriately named Fielder led the Picadors afield, handling 55 chances without error. He was second in batting, with .384.

Fox, who spent the winter playing freshman basketball, had a perfect earned run average of zero. He faced 81 batters and permitted only seven hits. Thompson's 14 strikeouts in 13 innings topped that category.

Texas Tech, as a team, batted .336 in compiling an 8-1 mark against strictly junior college competition. Scores were: South Plains College, 16-1; 13-0; 11-3; and 14-2; Odessa College, 5-1; and Amarillo College, 2-0; 9-2; 3-2; and 8-9.

Young Rep. Club Starts In County

Republicans are really moving into Parmer County. A group will meet in the Oklahoma Lane Community Building Monday at 8 p.m. to organize a Young Republicans Club.

Ron Still, area Young Republicans director, will show a film on "Why We Need To Get Into Politics."

The three republican candidates from this area will be present to address the group, according to L. F. Bruns, county party chairman.

The party is inviting residents between the ages of 15 and 40 from Parmer and surrounding counties to attend the meeting and join the organization.

Mother's Day holiday guests in the home of Mr. and Mrs. Karl Bender Sunday were Vidian Weis and Bonnie from Perryton and Mr. and Mrs. Alex Stevens and family of Amarillo.

THEN FINALLY NIKITA S. KHRUSHCHEV CAME TO THE FRONT AND HAS REMAINED TO THIS DAY. AGAIN LET ME REMIND YOU THAT THE PEOPLE OF RUSSIA HAD NOTHING TO DO OR SAY ABOUT KHRUSHCHEV BEING THEIR LEADER. HE WAS IN A POSITION TO TAKE OVER AND DID.

NOW ALL THE REASONS FOR SOMETHING HAPPENING AFTER KHRUSHCHEV TOOK OVER ARE NOT TOO CLEAR NOW. ANYHOW HE STARTED RUNNING DOWN OLD STALIN REAL BAD. ONE REASON COULD BE THAT THE PEOPLE OF RUSSIA WERE WANTING A HIGHER STANDARD OF LIVING AND SOMEONE HAD TO BE THE GOAT FOR NOT GIVING IT TO THEM.

ANOTHER REASON POSSIBLY IS THAT THE NEW LEADERS SAW INITIATIVE WITHIN THE PARTY WAS BEING CRUSHED BY FEAR UNDER THE OLD STALIN RULE. ANYWAY STALIN WAS ACCUSED OF DOING ABOUT AS MANY BAD THINGS AS HE HAD DONE GOOD BEFORE.

THIS SORT OF SHOOK UP COMMUNIST EVERYWHERE. HERE THEIR HERO WAS BEING CALLED A BAD GUY. NEVER THE LESS THE PORTIONS OF STALIN'S RULE OF BRUTALITY RUTHLESSNESS AND ILLEGALNESS STILL REMAIN WITH KHRUSHCHEV.

This Continuing Illustrated Series Is Intended To Tell The History And The Purposes Of The Communist Party, Both Abroad And In The U.S.A. By Saving These Weekly Series A Family Will Accumulate Valuable Information For Future Knowledge By Both Child And Adult.

Big Enough To Accommodate - Small Enough To Appreciate

Of Interest To ★ THE WOMEN ★

Mr. and Mrs. Loyd Lee Bagwell of Portales, N. Mex., are announcing the engagement and approaching marriage of their daughter, Sylvia Jaunett to John Ross Hamilton, son of Mr. and Mrs. Harry P. Hamilton Jr., Friona. Wedding vows will be exchanged June 9 at 7:30 p.m. in the First Presbyterian Church in Portales. Friends of the couple are invited to attend. Miss Bagwell is a 1957 graduate of Floydada High School, Floyd, N. Mex. and is a senior at Kansas State University where she will receive a Bachelor of Science degree in General Home Economics in June. She is a member of the Professional Foods Club and was selected as the 1962 Agronomy Club Sweetheart at Texas A. & M. College. Hamilton is a 1957 graduate of Friona High School and is a senior at Texas A. & M. College. He will receive the Bachelor of Science degree in Agronomy in May. He is a member of the Agronomy Society, Soil Conservation Society and Soil Judging team and was a member of the Marching Aggie Band for four years.

Study Club Presents Program Of Music

"Music Through the Century" was the program theme presented to members of the Friona Woman's Club May 9. Mrs. L. R. Dilger conducted the group in repeating the Club Collect and each answered roll call by naming the type of music they like best. Mrs. Roy Slagle presided at the business meeting. Reports were given by club delegates, Mrs. Edgar Carney and Mrs. Ed White, of the second annual Caprock Convention held in Plainview April 9 and 10. "Music at the Dawn of the Century" was the program topic presented by Mrs. Joe Moyer. She demonstrated a music box, a concert roller organ that was made in the early 1900's, and played several hymns written

by Fannie J. Crosby; "Over There" written during World War I and "Tipperary", one of America's first popular songs. Mrs. Ed White spoke on "Music of the Twenties" re-

The Clyde Tims Have First Son

A son, Charles Coleman, was born to Mr. and Mrs. Clyde Tims May 13 at 3:35 a.m. in the Parmer County Community Hospital, weighing seven pounds and four ounces.

He has two sisters, Sally Ruth and Evelyn, and his grandparents are Mr. and Mrs. Roy Miller of Friona and Mr. and Mrs. C. L. Tims, Claude, Tex.

Great grandmothers are Mrs. J. F. Miller, Friona and Mrs. L. W. Roysden, Ninnekah, Okla. Dan Roysden of Ninnekah is a great great grandparent.

NOTICE
A Dresden painting party will be at the Black Community House May 22 for an all day affair. Everyone is invited to attend.

T.E.L. Class Has Social

Mrs. Glen Williams and Mrs. Sam Williams were hostesses for the monthly social of the T.E.L. Sunday School Class members May 7 at 8 p.m. A visitation hour followed the brief business session. Mrs. Frank Truitt presented the devotional.

Cookies, coffee and cold drinks were served to Mrs. Ray Landrum, president; Mrs. Ross Terry, vice-president; Mrs. T. A. Williams, secretary-treasurer. Mrs. Roy Miller, teacher; Mrs. Ralph Smith, Mrs. Ralph Taylor, Mrs. Joe Douglas and Mrs. Winston Wilson.

Party Honors Senior Girls

Miss Kay Johnson honored several senior girls and their mothers with an informal party in her home May 8. School colors, red and white, were used in decorations.

Attending were Jo Ann Altman, Adabeth Akens, Donna Fields, Anni Jensen, Jere Buske, Debbie Hawkins, Mary Ann Boggess, Betty Drake, Suzan Harper, Jere Cochran, Karen O'Brian, Jimette McLean, also Mesdames Hop Lewis, Clyde Fields, Meryle Nassie, Earl Hawkins, Jack Mosley, Arthur Drake, Newell Harper, U. S. Akens, Russell O'Brian, Jim McLean and David Moseley.

MOTHER'S DAY SURPRISE. Mrs. Arthur Stokes received an airmail package from Hawaii containing beautiful tropical flowers from her son, Jerry L. Zachary, Saturday. Mrs. Stokes is holding small wild orchids and the vase holds Birds of Paradise, Red Ginger, Anthurium and Torch Ginger. Stems of the flowers were sealed in a balloon of water. Jerry, who is aboard the USS Midway, mailed the flowers from Mountainview, Hawaii, on May 8 and his mother received them on the 11th.

Modern Study Club Has Final Meeting

Modern Study Club members met Tuesday at 8 p.m. in the club house for their final meeting of the year. The program theme was "New Dimensions in Conclusion" emphasized by the quotation, "Until we meet again, may you be glad of heart and tranquil of soul."

Mrs. Sloan Osborn said the opening prayer followed by a buffet salad supper served by the social committee to 29 members and a guest, Mrs. Bill Burton.

Serving tables were decorated with spring flowers and candles, and tiny May flower baskets were used for place cards.

During a brief business session committee reports were submitted and Mrs. Ralph Wilson presented Mrs. Mack Bainum the press book compiled during her term as club president.

Mrs. Bainum used the quotation, "New Dimensions", and the club collect for the installation of new officers, the highlight of the evening program.

New officers are Mrs. Sloan Osborn, president; Mrs. J. G. McFarland, vice - president;

Mrs. Frank Spring, secretary; Mrs. George Taylor, treasurer; Mrs. Loyde Brewer, reporter and Mrs. Mae Magness, parliamentarian. Mrs. Osborn incoming president, read the new committees and chairmen for 1962-63.

Circle Meeting In Baxter Home

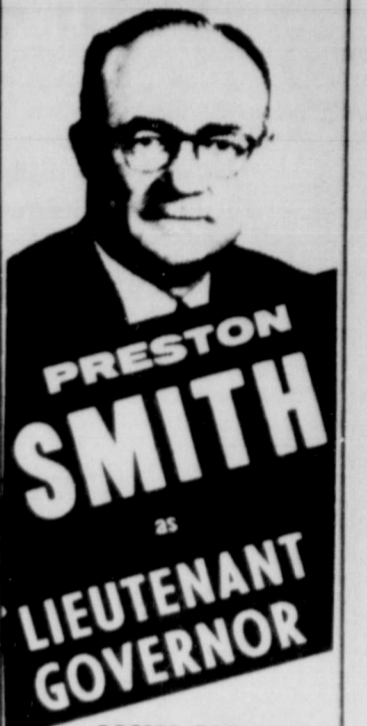

Members of Kolvviva Circle met May 9 in the home of Mrs. J. W. Baxter II.

At the beginning of the program Mrs. Eugene Ellis read the prayer calendar and Mrs. Bill Stewart said opening prayer. Roll call was answered by members naming sick visits made.

Mrs. Ernest Anthony completed the lesson, "Latin American Countries" with the assistance of Mesdames Russel O'Brian, Ralph Shelton, Bill Baxter and Howard Love.

The hostess served coffee breads and coffee to Mesdames Jerry London, Ellis, Clyde Fields, Anthony, Clyde Weatherly, Shelton, Love, O'Brian, Stewart, Howard Ford, Bill Baxter and one guest, Mrs. Lloyd Chesser.

Working For Texas

Will Work:

- To simplify the sales tax.
- To correct the auto insurance merit plan.
- To provide schools, roads and hospitals worthy of Texas.
- To strengthen and maintain Democratic Party leadership in Texas.

Party Honors Susie Spring

Susie Spring, daughter of Dr. and Mrs. Paul Spring, observed her ninth birthday with party Friday night.

Following a swimming session guests were served hamburgers and the trimmings in the backyard of the Spring home.

Attending were Sally Kendrick, Esther Smith, Patsy McVey, Sue Gay Vestal and the honoree.

Lena Edwards Speaks Sunday

Dr. Lena F. Edwards, Hereford, will be guest speaker at the Methodist Church at 7 p.m. Sunday. She does mission work at the Labor Camp in Hereford, and will tell of her experiences and work in this field.

A social hour will follow the program. The community is invited to attend.

LOCAL

Mr. and Mrs. Maurice Spear from Onstead, Mich., visited with Mr. and Mrs. Vernon Roberts and family Sunday. Mrs. Spear is the sister of Roberts.

Mrs. Linda Gaye Houston, 1958 graduate of Friona High School, is receiving her B.A. degree in Elementary Education May 20 from West Texas State College. She will teach in Amarillo Public Schools this fall. Mrs. Houston is the daughter of Mr. and Mrs. J. T. Gee.

VOICE OF EXPERIENCE

"You must realize, my boy," the father said to his son who was about to be married. "You will have not only another mouth to feed, but a great big one to listen to!"

... Santa Fe Magazine

A credit union is a group of people who pool their savings and lend to each other at low interest.

In 'Top 50' Noel Welch

Noel Welch, son of Mr. and Mrs. France N. Welch, Abilene, and grandson of Mrs. Lucy Welch of Friona, was one of the 50 highest ranking Abilene high school seniors honored at the Top 50 banquet last week.

Fourteen seniors from Cooper High School's graduating class and 36 seniors from Abilene High School were honored for academic achievements.

Guest speaker for the occasion was Dr. Von Braun, director of the George C. Marshall Space Flight Center of the NASA in Huntsville, Ala.

Ross Millers Are Parents Of Girl

Mr. and Mrs. Ross Miller became parents of a daughter May 8 in the Parmer County Community Hospital. She arrived at 10:30 p.m.

The baby weighed 8 lbs. and 6 1/2 ozs. and was named Dana May. Her two brothers are Kent and Curt.

Grandparents are Mr. and Mrs. Hardy May and Mr. and Mrs. Roy Miller of Friona. She has two great grandmothers, Mrs. J. F. Miller of Friona, and Mrs. L. W. Roysden, Ninnekah, Okla.

NEW OFFICERS. . . The following members of the Modern Study Club were appointed to serve for the year of 1962-63: (L to R) Mrs. Sloan Osborn, president; Mrs. Frank Spring, secretary; Mrs. George Taylor, treasurer; Mrs. Mae Magness, parliamentarian and Mrs. Loyde Brewer, reporter. Mrs. J. C. McFarland, vice-president, was absent for the picture.

Blaylock Speaks At Study Club Meet

Progressive Study Club members met May 8 in the Friona club house with Rev. Hugh Blaylock, pastor of the Dimmitt Methodist Church, as the guest speaker. His topic was "The Church in World Leadership". A saying by George Herbert, "He who cannot forgive others breaks the bridge

over which he must pass himself," was given as "Words to live by."

The program theme was "The Church in World Affairs" with a quotation, "the way to preserve peace of the church is to preserve its purity" used as an accent.

Mrs. Bob Riethmayer opened

the meeting with a prayer followed by a business meeting. Mrs. Danny Mac Bainum presented ideas of how the excess money of the past year might be used and Mrs. Wm. Beene proposed several projects for the coming club year. Mrs. Lowell Bynum gave suggestions for raising funds to be voted on by members at the next meeting.

Hostesses, Mrs. Homer Lindeman and Mrs. Stanley Benge, served refreshments to guests. Blaylock, Mrs. J. T. Gee and Mrs. Deon Awtrey, and the club members.

FHA Installs New Officers

Future Homemakers of America met May 10 at 7 p.m. in the High School auditorium for the installation of officers for 1962 and 1963.

Appreciation gifts were presented to Mrs. Dalton Caffey, Mrs. Earnest Osborn and Mrs. U. S. Akens, chapter sponsors; Adabeth Akens, outgoing president and Marca Lynn Massie, FHA representative in R.E.A. contest.

Officers elected were Sharon Reeve, president; Gayle White, vice-president; Sharon Dean, secretary; Kay Johnson, treasurer; Lynn Wilson, reporter; Pat Floyd, parliamentarian; Carolyn Guinn, sergeant at arms; Dianna Taylor, historian; Mary Ethel Wilson, song leader and Karen Osborn, pianist.

Receiving junior degrees

were Rebecca Bails, Betty Bass, Janice Cunningham, Janelle Daniel, Sharon Dean, Julia Dennis, Donna Fuls, Colleen Harper, Shirley Hertson, Nan Lillard, Sheryl Long, Merylene Massie, Kay McBroom, Glenda McClellen, Portia McGee, Pam Moorman, Karen Osborn, Shirley Phipps, Linda Rector, Carol Struve, Jeanne Taylor, Jan Wells, Lynn Wilson, Kay Lynn Williams and Jonelle Woods.

Chapter degrees were presented to Cathy Bailey, Rose Ann Greeson, Carolin Guinn, Wesslie Hand, Marca Lynn Massie, Lois Moyer and Paula Phillips.

Recognition was given to the three receiving State Degrees. They were Adabeth Akens, Mikie Welch and Brenda Deaton.

Miss Dixon Has Party

Mr. and Mrs. Jim Dixon honored their daughter, Melodi Jane, with a birthday party Sunday afternoon in their home.

The decorated cake was served with ice cream to Mr. and Mrs. Vernon Collier, Janice, Carla and Marla of Canyon; Mr. and Mrs. Joel Landrum and Brian; Mr. and Mrs. Ray Landrum and Mr. and Mrs. C. W. Dixon.

PERFECT ATTENDANCE . . . Six high school students received awards for being neither tardy nor absent during the school year. They were Darrell Schwab, Chris Tannahill, Ronnie Reed, Kay McBroom, Linda Rector and Willene Baxter.

ATTENDANCE AWARDS . . . Fifth and sixth grade students receiving perfect attendance awards were Betty Scales, Carolyn Camp, Vickie Payne, Scotty Wooley, Hilda Perez, Larry Martin, Billy Slaughter, Bobby Drinkard, John Baxter and Charles Bishop.

SPECIAL RECOGNITION . . . given by school departments went to Gary Snead, athletic; Patsy Bender, journalism; Tommy Roberts, science; Su-Zan Harper, homemaking; Debbie Hawkins, English; Dewain Phipps, agriculture; Ellis Parson (scholarship); and Pam Roden, girl's basketball and band.

"DeKalb's Replant Offer Helps Out A Heck Of A Lot!"

Deon Awtrey of Friona says "I like DeKalb because it is a good hearty seed that gets up and grows right off when you plant it. I also get good results out of the water that I have available. My top yield this year was around 8,000 pounds per acre with DeKalb F - 63A

You, too, will be proud when you plant DeKalb. Get your DeKalb seed from

CUMMINGS FARM STORE

Friona, Texas

I'm not sure who does the display advertising at Piggly-Wiggly, but one card type ad was very attractive, Monday a sign on the entrance advised customers that fresh cat fish was available.

The word "Fresh" was spelled out in large letters. Then there was a picture of a cat and under that a picture of a fish. Looks like Um Akens wanted to get the message across and someone once said that one picture told more than a large number of words.

With the closing of school there will be a lot of changes. Those of us who drive in the residential areas of Friona must be extra cautious to watch for children who may be playing in or near the streets.

To a small child playing ball the playground is boundary-less when a ball rolls into the street. Recovering the ball is the only important thing at the time. The same holds true for any type of play, so drivers of vehicles need to be very careful at all times.

Then, a lot of mothers will need to check their supply of first aid items. It takes a lot of antiseptics, insect repellants, and other "cures" to take care of the multiplicity of bumps, bites and bruises small children receive while at play.

Seniors with caps and gowns always add to the enjoyment of the closing of school. This year is no exception. Within the next few days a large number of young men and women will be joining the ranks of ex-

students of Friona High School. Seems that it has almost become traditional for seniors to go to Colorado on their trip. The class of 1962 will depart after graduation Thursday evening for the Rockies and will tour a number of places of interest before returning home next week.

Congratulations and best wishes go to every member of the class from every member of the Star staff.

Albert C. Smith gave the following bit of advice to a group to which he was speaking several years ago and it is just as good today as it was then.

"A room that has no windows to let in the light and air is a pretty unpleasant place. It is stuffy and unhealthy.

When you stop to think of it, your mind is like a room, and your eyes and ears are its windows. If you don't keep alert, using your eyes and ears to let in mental air and sunshine, that room of yours is bound to get hot and stuffy and unhealthy.

But, there's another side to the question. When the weather gets bad, and it snows or rains, we close the windows of our houses. If we didn't, the wind would come in and knock things down.

It's necessary sometimes to close the windows of your mind, too. There are some things that we don't want to come in through the windows of our minds any more than we want snow and rain to come through our real windows. For these unworthy visitors will knock our good thoughts about and get every-

thing messy inside. Fortunately, you can close your mental windows when the weather is bad outside. You don't need to look at or to listen to things that will mess up that mental room of yours, if you don't want to."

Haven't seen Roy and Eva Miller this week. Am wondering if they are too busy welcoming new grandchildren to get out in circulation much.

One day last week Ross and Nelda Miller became parents of their third child, a baby girl. Then Sunday Clyde and Linda Miller Tims added a baby boy to their family of two girls. Seems that the Tims babies are making a habit of being born on the birthday of a grandparent.

Roy Evelyn, second daughter of Clyde and Linda, was born on her Granddad Miller's birthday, then the little boy was born on Mother's Day, which was also the birthday of his Grandmother Tims.

Think it can be truthfully said that "Friona's loss is Spearman's gain." Recently the Douglas Connelly family moved from here to the capitol city of Hansford County and now the Bud Williamson family is planning to move up there as soon as school is out.

Other Friona residents that are in the process of moving to the North Plains are Mr. and Mrs. Thomas Gibson and young son, Ronnie Gene.

This move will probably be harder on Grandmother Leatrice Gibson and Grandmother Lenna Mae Scales than it will be on Ronnie, since he is really too young to be greatly concerned about where his home is.

It seems that there must be a gradual migration northward and we certainly wish all of these ex-Frionans much success in their new locations.

Mr. and Mrs. Leon Coffey spent the weekend in Fluvanna, Tex, visiting Mr. and Mrs. James Smith and family. Mrs. Smith and Mrs. Coffey are sisters.

Highway Department Declares Open House

How does the Texas Highway Department use tiny glass beads to make your driving safer? Why do highway engineers cut circular holes in brand-new highways?

These are only two of the many fascinating aspects of highway engineering and maintenance that local citizens may explore on Friday, May 25. On that day the Highway Department will hold "Open House" at the District Office, as part of National Highway Week (May 20-26), announced District Engineer Oscar Crain.

Any interested resident of the area may visit the District Office at 601 Slaton Road, Lubbock, during the hours 8 a.m. to 5 p.m. and observe the daily functions of the public agency which is responsible for the care of a complex highway network of 4,000 miles in this District.

District Engineer Oscar Crain said the Open House will show the public how the Highway Department operates on

a normal working day. "I would like to extend a most cordial invitation to the citizens of this area to visit our Open House," he said. "Your neighbors who work for the Highway Department would like to show you through our facilities and demonstrate a few of the many tests and operations we conduct daily to care for the highways."

Visitors to the Open House will see examples of two-way radio communications; shops where new highway signs are made and old signs repaired; and the various machinery and laboratory testing apparatus used to determine the quality of new highways being constructed and to maintain existing roads in smooth riding condition.

Picnic Honors Miss McLean

An annual custom of one neighborhood in town is to honor the graduating seniors of that "block" with a picnic. Jimette McLean was the honoree Friday night in the backyards of Mr. and Mrs. Cayce Dunn and Mr. and Mrs. O. J. Beene.

Fried chicken, salads, ice cream, cookies and cake were served to Jimette, Debbie Hawkins, who is also a graduating senior; Mr. and Mrs. Marvin Lawson of Amarillo; Mr. and Mrs. Bud Crump, Tommy, Cindy and Cathy of Bovina; Linda Johnson, Lonnie Ellis and Scott Cummings.

Also Carol Stokes; Mrs. Dorothy Hough and Larry; Mr. and Mrs. Dalton Coffey; Mrs. Pearl Hand; Mr. and Mrs. Jake Lamb; Mr. and Mrs. Jim McLean and Kathy; Tinker Dunn and Jay and Ramey Beene.

Utilities Group Meets In City

Members of the Panhandle Water and Sewage Association were served dinner by the Rehoboths at their meeting Thursday at 7:30 p.m.

Thirty-one members from Hereford, Vega, Dumas, Masterson, Amarillo, Canyon and Friona were present at the affair.

A film supporting the use of cement-asbestos pipe was shown by representatives of the K & M Pipe Company and another film discussing the processes of chlorinating water was shown by State Chemical Company. The latter film also considered algae control and chlorination of swimming pools.

Mrs. Bob Riethmayer opened

the meeting with a prayer followed by a business meeting. Mrs. Danny Mac Bainum presented ideas of how the excess money of the past year might be used and Mrs. Wm. Beene proposed several projects for the coming club year. Mrs. Lowell Bynum gave suggestions for raising funds to be voted on by members at the next meeting.

Hostesses, Mrs. Homer Lindeman and Mrs. Stanley Bengel, served refreshments to guests, Blaylock, Mrs. J. T. Gee and Mrs. Deon Awtray, and the club members.

FHA Installs New Officers

Future Homemakers of America met May 10 at 7 p.m. in the High School auditorium for the installation of officers for 1962 and 1963.

Appreciation gifts were presented to Mrs. Dalton Caffey, Mrs. Earnest Osborn and Mrs. U. S. Akens, chapter sponsors; Adabeth Akens, outgoing president and Marca Lynn Massie, FHA representative in R.E.A. contest.

Officers elected were Sharon Reeve, president; Gayle White, vice-president; Sharon Dean, secretary; Kay Johnson, treasurer; Lynn Wilson, reporter; Pat Floyd, parliamentarian; Carolyn Guinn, sergeant at arms; Dianna Taylor, historian; Mary Ethel Wilson, song leader and Karen Osborn, pianist.

Receiving junior degrees

were Rebecca Bails, Betty Bass, Janice Cunningham, Janelle Daniel, Sharon Dean, Julia Dennis, Donna Fuiks, Colleen Harper, Shirley Hertson, Nan Lillard, Sheryl Long, Merylene Massie, Kay McBroom, Glenda McClellen, Portia McGee, Pam Moorman, Karen Osborn, Shirley Phipps, Linda Rector, Carol Struve, Jeanne Taylor, Jan Wells, Lynn Wilson, Kay Lynn Williams and Jonelle Woods.

Chapter degrees were presented to Cathy Bailey, Rose Ann Greeson, Carolin Guinn, Wesslie Hand, Marca Lynn Massie, Lois Moyer and Paula Phillips.

Recognition was given to the three receiving State Degrees. They were Adabeth Akens, Mikie Welch and Brenda Deaton.

Miss Dixon Has Party

Mr. and Mrs. Jim Dixon honored their daughter, Melodi Jane, with a birthday party Sunday afternoon in their home.

The decorated cake was served with ice cream to Mr. and Mrs. Vernon Collier, Janice, Carla and Marla of Canyon; Mr. and Mrs. Joel Landrum and Brian; Mr. and Mrs. Ray Landrum and Mr. and Mrs. C. W. Dixon.

PERFECT ATTENDANCE . . . Six high school students received awards for being neither tardy nor absent during the school year. They were Darrell Schwab, Chris Tannahill, Ronnie Reed, Kay McBroom, Linda Rector and Willene Baxter.

ATTENDANCE AWARDS . . . Fifth and sixth grade students receiving perfect attendance awards were Betty Scales, Carolyn Camp, Vickie Payne, Scotty Wooley, Hilda Perez, Larry Martin, Billy Slaughter, Bobby Drinkard, John Baxter and Charles Bishop.

SPECIAL RECOGNITION . . . given by school departments went to Gary Sneed, athletic; Patsy Bender, Journalism; Tommy Roberts, science; Su-Zan Harper, homemaking; Debbie Hawkins, English; Dewain Phipps, agriculture; Ellis Parson (scholarship); and Pam Roden, girl's basketball and band.

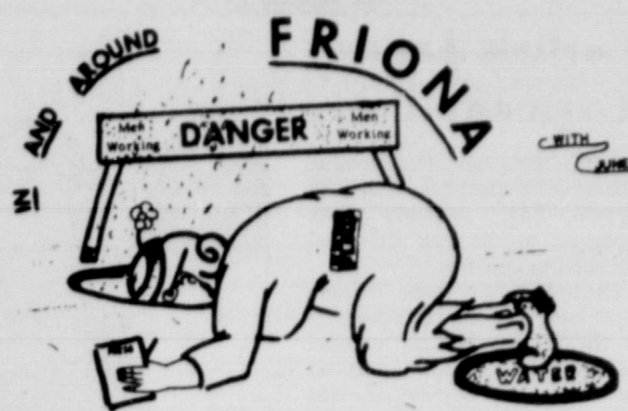

"DeKalb's Replant Offer Helps Out A Heck Of A Lot!"

Deon Awtrey of Friona says "I like DeKalb because it is a good hearty seed that gets up and grows right off when you plant it. I also get good results out of the water that I have available. My top yield this year was around 8,000 pounds per acre with DeKalb F - 63A

You, too, will be proud when you plant DeKalb. Get your DeKalb seed from

CUMMINGS FARM STORE
Friona, Texas

I'm not sure who does the display advertising at Piggly-Wiggly, but one card type ad was very attractive. Monday a sign on the entrance advised customers that fresh cat fish was available.

The word "Fresh" was spelled out in large letters. Then there was a picture of a cat and under that a picture of a fish. Looks like Um Akens wanted to get the message across and someone once said that one picture told more than a large number of words.

With the closing of school there will be a lot of changes. Those of us who drive in the residential areas of Friona must be extra cautious to watch for children who may be playing in or near the streets.

To a small child playing ball the playground is boundary-less when a ball rolls into the street. Recovering the ball is the only important thing at the time. The same holds true for any type of play, so drivers of vehicles need to be very careful at all times.

Then, a lot of mothers will need to check their supply of first aid items. It takes a lot of antiseptics, insect repellants, and other "cures" to take care of the multiplicity of bumps, bites and bruises small children receive while at play.

Seniors with caps and gowns always add to the enjoyment of the closing of school. This year is no exception. Within the next few days a large number of young men and women will be joining the ranks of ex-

students of Friona High School. Seems that it has almost become traditional for seniors to go to Colorado on their trip. The class of 1962 will depart after graduation Thursday evening for the Rockies and will tour a number of places of interest before returning home next week.

Congratulations and best wishes go to every member of the class from every member of the Star staff.

Albert C. Smith gave the following bit of advice to a group to which he was speaking several years ago and it is just as good today as it was then.

"A room that has no windows to let in the light and air is a pretty unpleasant place. It is stuffy and unhealthy.

When you stop to think of it, your mind is like a room, and your eyes and ears are its windows. If you don't keep alert, using your eyes and ears to let in mental air and sunshine, that room of yours is bound to get hot and stuffy and unhealthy.

But, there's another side to the question. When the weather gets bad, and it snows or rains, we close the windows of our houses. If we didn't, the wind would come in and knock things down.

It's necessary sometimes to close the windows of your mind, too. There are some things that we don't want to come in through the windows of our minds any more than we want snow and rain to come through our real windows. For these unworthy visitors will knock our good thoughts about and get every-

thing messy inside. Fortunately, you can close your mental windows when the weather is bad outside. You don't need to look at or to listen to things that will mess up that mental room of yours, if you don't want to.

Haven't seen Roy and Eva Miller this week. Am wondering if they are too busy welcoming new grandchildren to get out in circulation much.

One day last week Ross and Nelda Miller became parents of their third child, a baby girl. Then Sunday Clyde and Linda Miller Tims added a baby boy to their family of two girls. Seems that the Tims babies are making a habit of being born on the birthday of a grandparent.

Roy Evelyn, second daughter of Clyde and Linda, was born on her Granddad Miller's birthday, then the little boy was born on Mother's Day, which was also the birthday of his Grandmother Tims.

Think it can be truthfully said that "Friona's loss is Spearman's gain." Recently the Douglas Connelly family moved from here to the capitol city of Hansford County and now the Bud Williamson family is planning to move up there as soon as school is out.

Other Friona residents that are in the process of moving to the North Plains are Mr. and Mrs. Thomas Gibson and young son, Ronnie Gene.

This move will probably be harder on Grandmother Leatrice Gibson and Grandmother Lenna Mae Scales than it will be on Ronnie, since he is really too young to be greatly concerned about where his home is.

It seems that there must be a gradual migration northward and we certainly wish all of these ex-Frionians much success in their new locations.

Mr. and Mrs. Leon Coffey spent the weekend in Fluvanna, Tex. visiting Mr. and Mrs. James Smith and family. Mrs. Smith and Mrs. Coffey are sisters.

Highway Department Declares Open House

How does the Texas Highway Department use tiny glass beads to make your driving safer? Why do highway engineers cut circular holes in brand-new highways?

These are only two of the many fascinating aspects of highway engineering and maintenance that local citizens may explore on Friday, May 25.

On that day the Highway Department will hold "Open House" at the District Office, as part of National Highway Week (May 20-26), announced District Engineer Oscar Crain. Any interested resident of the area may visit the District Office at 601 Slaton Road, Lubbock, during the hours 8 a.m. to 5 p.m., and observe the daily functions of the public agency which is responsible for the care of a complex highway network of 4,000 miles in this District.

District Engineer Oscar Crain said the Open House will show the public how the Highway Department operates on

a normal working day. "I would like to extend a most cordial invitation to the citizens of this area to visit our Open House," he said. "Your neighbors who work for the Highway Department would like to show you through our facilities and demonstrate a few of the many tests and operations we conduct daily to care for the highways."

Visitors to the Open House will see examples of two-way radio communications; shops where new highway signs are made and old signs repaired; and the various machinery and laboratory testing apparatus used to determine the quality of new highways being constructed and to maintain existing roads in smooth riding condition.

Picnic Honors Miss McLean

An annual custom of one neighborhood in town is to honor the graduating seniors of that "block" with a picnic. Jimette McLean was the honoree Friday night in the backyards of Mr. and Mrs. Cayce Dunn and Mr. and Mrs. O. J. Beene.

Fried chicken, salads, ice cream, cookies and cake were served to Jimette, Debbie Hawkins, who is also a graduating senior; Mr. and Mrs. Marvin Lawson of Amarillo; Mr. and Mrs. Bud Crump, Tommy, Cindy and Cathy of Bovina; Linda Johnson, Lonnie Ellis and Scott Cummings.

Also Carol Stokes; Mrs. Dorothy Hough and Larry; Mr. and Mrs. Dalton Coffey; Mrs. Pearl Hand; Mr. and Mrs. Jake Lamb; Mr. and Mrs. Jim McLean and Kathy; Tinker Dunn and Jay and Ramey Beene.

Utilities Group Meets In City

Members of the Panhandle Water and Sewage Association were served dinner by the Rebekahs at their meeting Thursday at 7:30 p.m.

Thirty-one members from Hereford, Vega, Dumas, Masterson, Amarillo, Canyon and Friona were present at the affair.

A film supporting the use of cement-asbestos pipe was shown by representatives of the K & M Pipe Company and another film discussing the processes of chlorinating water was shown by State Chemical Company. The latter film also considered alga control and chlorination of swimming pools.

Texans Will Drive 64 Billion Miles In 1970

What is the answer to the 64-billion-mile question?

That problem is perplexing highway leaders as the State of Texas observes the second annual National Highway Week, May 20-26.

Sixty-four billion is the astronomical amount of miles Texas motorists will drive in 1970, according to current estimates by the Texas Highway Department.

Taking a long look down the road ahead, highway officials are concerned about what will happen to Texas highways--and to the accident rate--with that many miles being driven each year.

Texans today drive about 43 billion miles annually; in 1950 they drove only 27 billion miles.

This coming deluge of traffic has State Highway Engineer D. C. Greer worried about the capacity of Texas highways to handle it.

"Up to this point, we have made encouraging progress in developing a highway system that will serve the needs of our economy and at the same time be safe to use," Greer said.

"We have made heartening advances in highway safety during the past several years, during which time our highways have been subjected to a concentrated rebuilding, modernization, and improvement program--notably on our portion of the Interstate System, where we lead the nation in miles built," he said.

Fatal accidents can be cut in half, Greer said, when highways are modernized and improved to standards adequate for today's traffic. Such results were actually obtained on some 1,500 miles of Texas highways which were the object of an intensive research study.

The study took place over a two-year period. The accident rates of these highways were studied for a full year before improvement, and for a full year after improvement.

The net result was an overall reduction of approximately 50 percent in the fatal accident rate after the highways were modernized.

"We believe that no more compelling reason could exist for the continued upgrading and

improvement of our highway system than the evidence that such improvement will save human lives that would otherwise be lost," he said.

"We are making progress in the field of highway safety now, but we are concerned about the road ahead. Texas traffic is overtaking the capacity of our highways very quickly."

Greer pointed out the significant indications of traffic growth:

--During the decade from 1950 to 1960, the population of Texas increased by one-fourth.

--During the same decade, the total number of motor vehicles in Texas increased 56 percent.

There are now more than five million motor vehicles registered in the state (not counting 3 1/2 million tourist vehicles which enter Texas each year) and Texas is adding them at the rate of one million every three years.

--The number of miles tra-

veled by these vehicles is skyrocketing. It stands at about 43 billion miles annually today, and is expected to reach 64 billion by 1970.

"These figures are unfortunately a question of fact rather than fancy," Greer said. "We are already feeling the pinch where it hurts most--on our U. S. and State-numbered highways (the Primary System) which carry the most traffic."

"In spite of the improvements that have been made, the Primary System is fast becoming almost totally obsolete. Traffic is growing so fast that now--almost ten years before those 64 billion vehicle miles will be driven--some 22,000 miles out of our 25,000-mile Primary System are already obsolete by today's traffic standards," he said.

"We cannot expect the roads of 1950, or 1960, to serve the needs of 1970 and beyond."

Carlisle Lands Germany Post

Army Pvt. Joe D. Carlisle, whose wife, Carolyn, lives in Friona, Tex., recently was assigned to the 3rd Armored Division in Germany.

Carlisle, a radio-telephone operator in Company B of the division's 45th Medical Battalion in Frankfurt, entered the Army in September 1961 and received basic combat training at Fort Carson, Colo.

A 1957 graduate of Friona High School, the 23-year-old soldier attended Ranger Junior College. His parents, Mr. and Mrs. Irby Carlisle, live in O'Brien.

The United States is not the only country interested in preserving its wildlife. According to the Izaak Walton League of America, the Canadian government has established six new wildlife refuges in the Western Arctic to protect nesting grounds of continental significance. Canada now has 108 migratory bird refuges covering more than 39,000 square miles.

ALWAYS THERE . . . Every time teachers in the first four grades called their rolls, these students answered. They are Dean Agee, Randy Campbell, Earl Love, Michael Martin,

Nemesis Valasco, Vickie Mingus, Mickey Morris, Billy Ross Procter, Kay Riethmayer, Deanne Schueler, Nita Slaughter and Renee Taylor.

- Highspeed Set-up & firing operation featuring a 4.2 inch mortar
- Flame-Thrower Demonstration

"Why didn't you marry?" inquired the young man of the old bachelor.

"Well, you see," replied the single one, "when I was quite young I resolved that I wouldn't marry until I found the ideal woman. After many years I found her -- but she was looking for the ideal man."

A young bride of three months complained to her mother about her husband's continued drinking habits.

"If you knew he drinks, why did you marry him?" she was asked.

"I didn't know he drinks," the girl replied, "until one night he came home sober!"

Rejoice with me; for I have found the peace which I had lost. (Luke 15:9)

PRAYER: Our Father, help us find our lost potentials. We ask forgiveness for every lost opportunity. We thank Thee that lost souls can be redeemed by love, and lost phases of purposeful living found; through Jesus Christ our Lord, Amen.

Something To Think About

6th. Street Church of Christ
Box 515 -- Friona, Texas

One of the best ways to improve the world is to improve ourselves. A common error of mankind is to be so busy overcoming the faults of others that he neglects to do anything about his own. We can correct this inconsistency if we will just make a list of our own faults, get them out in the open where we can see them, and then concentrate on their correction. Try some self-analysis--what are your worst faults? Could it be gossip, wasting time, envy, neglect, prejudice, inconsistency, indifference, jealousy, conformity? Whatever they are, bringing them out in the open and striving to overcome them can make your life more satisfactory and your service to God more acceptable. Another very great accomplishment will be noted when we employ this process; when one learns to acknowledge his own faults, he will be much more tolerant of the faults of others, and much less inclined to criticize and condemn. Someone put it like this, "It is better to think a good thought about a bad man than to think an evil thought about a good man." The inspired writer put it like this, "Charity (love) suffereth long, and is kind; charity (love) envieth not . . . is not puffed up . . . thinketh no evil." (1 Cor. 13:4-5) The conclusion is quite evident - if we would improve the world the best place to start is with self.

CITIZENSHIP AWARDS . . . were given to Sharon Reeve, Junior, and Tommy Jay Sanders, senior.

Needed . . . An Advocate

"We have an Advocate with the Father, Jesus Christ the righteous." 1 John 2:1. Let the trial begin. Many have been arraigned, Sentence has been passed upon multitudes. Oaths have been taken, but appeal is never granted. First is the indictment. It is an indictment of ten counts, for thou has directly or indirectly broken all the ten commandments. Are you guilty or not guilty? Before you hasten to reply, remember the words "all have sinned and come short of the glory of God. There is none that doeth good; no, not one. Whosoever shall keep the whole law, yet offend in one point, he is guilty of all." To the Christian the charge comes of breaking a solemn contract. How many times did we promise to be the Lord's? Have you stood up to the contract? Again, the suit claims damages at your hands. The greatest slander on the Christian religion is an inconsistent professor. The witnesses are called, and the world is first to testify. They see with critical eyes and are glad to bring sharp words. The next witness is conscience. "I have lived with him, I have instructed him, I have warned him . . . but he would not heed me." The trial begins to look dark, but up steps One whose Presence fills the room with wonder, I see his countenance suffused with tears and covered with blood, and all the galleries of heaven are thrilled with the spectacle. Thanks be unto God! "We have an Advocate with the Father, Jesus Christ the righteous."

"To as many as received Him, to them gave He power to become the sons of God, even to as many as believe on His name."

Do you have an Advocate?

FRIONA FFA Chapter won Third Place in Livestock Judging at the State FFA Judging Contest, May 5, 1962. L to R Dr. O. D. Butler, Head of Animal Husbandry Department at A & M College, J. C. Lane, Vo-Ag Teacher, Maynard Greeson, Larry Potts, and Craig Coon.

Candidates Focus On June 2 Target

By—Vern Sanford
AUSTIN, TEX.,— Eight weary candidates who fought their ways into the finals of the democratic primaries now have June 2 as their next immediate target, John Connally and Don Yarborough, two men who never have held an elective office, battled their way into the runoff for governor.

Gov. Price Daniel ran third and Atty. Gen. Will Wilson fourth. Marshall Formby, former chairman of the Highway Commission, was next and ex-Gen. Edwin A. Walker came in last.

It was clear that Texas democrats were ready for a change, and that they felt experience in state government was not the most important factor.

Jack Cox won the Republican primary and will take on the Democratic nominee on Nov-

ember 6.

Speaker Jimmy Turman of the Texas House of Representatives led five candidates in the race for lieutenant governor. State Senator Preston Smith of Lubbock faces Turman in the runoff.

Bill Hayes of Temple won the republican nomination for this important office.

The GOP will have no runoff for state office on June 2.

County Judge Woodrow Bean of El Paso and former Rep. Joe Pool of Dallas went into the runoff for congressman-at-large on the democratic ticket.

Former Speaker Waggoner Carr of Lubbock and Tom Reavley of Austin are in the runoff for attorney general.

No matter how the four top races come out -- Texas will have an entirely new set of top state officials starting next January.

Some 114,000 Texans felt it was time to change parties and cast their ballots in the republican primary. State republican officials were "amazed and delighted" at the vote, and felt it will grow to many times that by November 6.

Milland in "Survival"
HOLLYWOOD (UPI)— Ray Milland will direct and star in a new film, "Survival," the story of a family who find their vacation interrupted by news that their home, community and their way of life have been wiped out in an atomic attack. Co-stars are Jean Hagen and Frankie Avalon.

USAF Donates Church Bells

LAMA, Italy (UPI)—Bells are ringing in this southern Italian village for the first time in history. A set of four bells has been

donated to the village church by U. S. Air Force families living in the area. The church in this farming community of 700 people had been silent for 13 years. The villagers had built the church themselves but never had the money to buy bells.

A Roman Catholic chaplain, Father Joseph F. Hayes, heard of the villagers' plight and asked for contributions. In less than a year, the Americans living in the Taranto and Bari areas gave more than \$2,300 to the "Bells for Lama" campaign.

RHEA NEWS

By Mrs. Franklin Bauer

LADIES AID MEETS

Rhea Lutheran Ladies Aid met May 10 at the Parish Hall for their regular business session and topic discussion.

At the business meeting members decided to make a quilt to be sent to the gift shop at the "Good Shepherd Home." Betty Crocker coupons and Gold Bond Stamps will also be collected for the Bethesda Home. Mrs. Ray Martensen led the topic "The Forgiving Woman." Refreshments were served to the group by Mrs. Franklin Bauer.

May 21st, through the 25th has been set for Vacation Bible School at Rhea Lutheran Church. Classes will be held from 9 a.m. until 12 noon. Transportation will be furnished for all the children.

Approx. 65 children are already enrolled. Anyone wishing to send their child may contact Norbert Schueler, Sunday School Supt., or any member of the congregation.

Closing program will be held Friday night.

Teachers are: Mesdames: Walter Schueler, Franklin Bauer, Chris Drager, Melvin Sachs, Herbert Schueler, Carl Schlenker, Floyd Schueler, Raymond Schueler, Ray Martensen.

Helpers are: Mrs. Bill Sifford, Trudy Lambert, Gary Goetz, and Connie Schlenker. Pastor Bergman of Clovis will be in charge of the Bible School and Mrs. Fred Townsend of Clovis will furnish music.

Experience

LONDON (UPI) — Anthony Mann has signed for directing Samuel Bronston's production "The Fall of the Roman Empire," which will star Charlton Heston.

Mann's latest assignment was directing Bronston's Academy Award contender "El Cid."

THE CLEANUP CREW . . . after the FFA banquet Friday night line up with their chores. They are employees of Parmer County Implement, sponsor of the banquet. They are Medlin

Walker, John Payne, John Frazier, Earnie Neff, Aubrey Rhodes, Johnny Pace, and W. A. "Shorty" Cochran. They also served the over 200 FFA members fathers and guests at the affair.

Tijuana: a Short Step Into Another World

By MYRAM BORDERS
United Press International

TIJUANA, Mexico (UPI)—The southern terminus of U. S. 101 in California opens into a different world—that of Tijuana, Mexico. Tijuana is a city of bright lights, gaudy colors, exotic food and drink, rich men, destitute men and sin in many guises. It is a place to escape reality. The border city is located on the northern extremity of the Mexican peninsula state of Baja California (Lower California). Its

economy is almost totally dependent on the United States. A potpourri of people make up Tijuana's 150,000 population. They are friendly, but not the gay people of mainland Mexico. Tijuans are somber and serious—intent upon existing. A tourist must dodge careening taxicabs, sidestep shoe shine boys and cope with dirty-faced children selling American chewing gum. Couples are stopped on every block with offers to arrange a marriage — or divorce, whichever is most appropriate. Quien Cuidados! Children offer to wash cars with a dirty cloth for a quarter or watch it all day for another. Enchiladas and tacos are sold on most corners by foot cart vendors. And, in lush mirrored dining rooms, visitors can partake of quail under glass. Tourists may enjoy the thrill of a taxi ride—down the wrong side of the road — to the race track. On Sunday, thousands throng to the bullfights. The main attraction may not be in the ring but in the stands where shapely women wear pants a little too tight and each hat is a little bigger and more brightly festooned than the last.

THESE ARE GREAT: . . . Junior High Principal, Tom Jarboe, Coach Baker Duggins and Coach Kenneth Miller admire service pins which were awarded to teachers in the awards assemblies Monday.

Opera Blossoms in Hills of New Mexico

By FRANK MORGAN
United Press International

SANTA FE, N.M. (UPI) — A gas station attendant financing classical opera would seem unlikely anywhere, particularly in the dusty, sun-bleached hills of northern New Mexico. But opera has come to the nation's last frontier, mainly because of such financial backers as lumber companies, liquor stores, car dealers, gas station attendants and a uranium company. The incongruity of the six-year-old Santa Fe Opera Company is one reason for its renown. It is second only to the august Metropolitan Opera in America for repertory work, quality of production and length

Scott 500
Here is a short-stalked, red grain hybrid with great yield potential and wonderful stand ability. Stalk height is about 12 inches shorter than RS 610. Red Grain (darker than RS 610 grain) on very large medium-dry heads. About same maturity as TX 600 and outstanding in ability to stand and to yield. Adapted to dryland or irrigation. 110 days to mature.

Scott 450
An early grain hybrid of about the same maturity as RS 590. It is very similar to Scott 500 (above) but earliness makes this an outstanding hybrid for areas needing this factor. Red grain, large heads, high yield and shorter stalks make Scott 450 a highly desirable early grain hybrid. 95 days to mature (12 to 18 shorter than 610)

P-A-G HYBRID SORGHUMS

*stand up in the field...
stand out in yield!*

The combination of standability and yields rates high with sorghum producers. Strong stalks, healthy roots, and bred-in resistance to lodging have earned P-A-G sorghums the reputation for being "up" when harvest time arrives. The large semi-compact heads dry quickly in the field for easy combining. High yields of plump grain will bring you top sorghum profits. I have a good supply of adapted seed and would appreciate the opportunity to serve you. Plant P-A-G hybrid sorghum.

HI-FI

By PRESTON McGRAW
United Press International

The "ping-pong effect" in disc recording dates back to the first stereo high fidelity records. It was named after a recording of a ping-pong game, where the sound of the paddle hitting the ball was heard in first one speaker and then the other.

The sound dramatically illustrated the potentialities of stereo recording. It sold a lot of stereo equipment.

The ping-pong effect became passé and the sophisticated stereo listener wanted nothing but the "wall of sound" recording. Stereo records sounded remarkably like monophonic records played on two speakers.

About three years ago, Enoch Light of Award and Command records went back to what amounted to the ping-pong effect in a record called "Persuasive Percussion."

Light sold a lot of records. Audio Fidelity brought out a series of wide separation "Super Stereo" records. Lest anybody miss the point, Audio Fidelity put a picture of a big hypodermic syringe and needle on the jacket of each "Super Stereo" record.

London Records joined the parade with a series featuring high-pitched, unusual sounds of wide separation.

Warm Weather Boosts Spring Planting

THE HIGH PLAINS FARM AND HOME

Bill Gives Sesame Growers 50 Per Cent Diverted Credit

A Special Bill allowing farmers to collect Part Payment for retired Feed Grain or Wheat land planted to Sesame and several non-surplus crops in 1962 has been approved without objection by the House of Representatives and Senate of the United States.

This information was received by Texas Sesame Growers, Inc. from Congressman Graham Purcell of Wichita Falls who sponsored the original bill. The approved bill is House Resolution No. 11413, and it includes the minor oilseed crops Sesame, Guar, Safflower, Castorbeans, Sunflower and also Flax.

LATE NOTICE - President signed Bill Tuesday afternoon;

Part payment rate is to be set on individual crops by the Secretary of Agriculture. The indicated rate for Sesame is 50% rate for Sesame, a farmer whose total Milo conservation payment for example is \$40, per acre can collect \$20, per acre, and harvest a Sesame crop too. He also remains eligible for price support for his planted Milo crop.

Congressman Graham Purcell of Wichita Falls, representing Texas Thirteenth Congressional District commented, "This is a bill apparently beneficial to everyone, and especially to the United States Treasury. It will save the government half the cost of retiring any feed grain or wheat land planted to these non-surplus, non-price supported

crops. The legislation met with favor in Congress and the Department of Agriculture. They realize last years increased price supports and attractive acreage retirement payments for feed grains and wheat create unfair competition for the minor oilseed crops, whose price is set in the World Market."

Congressman Purcell listed these advantages, in addition to reducing the cost to taxpayers for retiring diverted acreage: First, better land will be retired if it is going to be planted to these crops, thereby helping reduce surplus stocks of wheat and feed grain.

Second, in every community where the crops are grown, farmers income will be increased, and farmers can continue to farm using supplies, fuel, fertilizer, machinery and all the other items supplied by local businessmen.

Third, these new crops can continue to expand under this program, helping to utilize idle acres resulting from any future acreage or production controls.

"It is a good program for everyone concerned," concluded Congressman Purcell, "and I am pleased to have sponsored the original bill."

County ASCS offices will be advised concerning the details of this new program just as soon as word is received from Washington, according to the State ASCS Director Lewis Da-

vid of College Station.

"We know it is planting time," said David, "and we will rush any information we receive to the counties, so farmers can take advantage of the program."

Interested farmers should contact their local Sesame seed dealer for additional details. In Parmer County, the Sesame seed dealer is Cummings Farm Store in Friona.

San Antonio Hosts FU Meet

The full board of directors of Texas Farmers Union at its recent meeting in Abilene designated San Antonio as the convention city for the 1962 state convention in December.

President Jay Naman, Waco, announced that the decision to hold the 1962 convention in San Antonio was in response to the growth of Texas Farmers Union in the central and southern regions of Texas.

"We are looking forward," Naman said, "to our largest and most interesting convention for this first Texas Farmers Union meeting to be in the unique and gracious atmosphere of the Alamo city. It is significant that a farm organization with its history and tradition so strongly rooted in Texas is to have its convention in the colorful background of Texas' most historic city."

The hot, dry winds sweeping across Parmer County during the past few weeks have given cotton and grain sorghum farmers the biggest planting boost in several years.

But these same winds which brought warm planting weather have sapped the moisture from the ground with an alarming rapidity and made it difficult for some farmers to obtain a good, even stand. With the aid of irrigation wells, many of the fields are sporting long, green rows of cotton and grain as much as four weeks earlier than in recent years.

A good portion of the cotton is already unfurling its second set of leaves. If a sudden or severe storm does not destroy the young crops, Parmer County farmers can look forward to an additional two to four weeks of growing season this year. The result could easily be more and better cotton and a better price.

But, the dry, hot weather which has allowed farmers to plant early has brought frowns to the brows of wheat farmers. The continued heat is drawing the moisture from the wheat plants and will tend to shrivel the young grain before it has a chance to mature. The lack of cool weather and rain will undoubtedly result in a lower yield and quality in most of the county.

The cool front which moved into the county Monday night raised the hopes for relieving rain. Without the irrigation wells the county would be sitting "high and dry" without any prospects of a fair wheat crop and with very little grain or cotton planted.

Generally, pre-irrigation is enough to obtain a good stand but many area farmers have had to crank up the wells and turn water into the fields in order to keep the seeds moist enough to germinate as they should. Even the irrigation water does not supply the young plants for long with suffocating winds of around 90 degrees whipping across the fields at a speed of from 15 to 50 MPH.

In a manner of speaking, the hot weather has served the farmer by helping to reduce the amount of seedling diseases. But according to a number of farmers, nothing can replace a good rain at this time.

Some dryland farmers are ready to "stand barefooted in the middle of their field in their Sunday suit, without an umbrella," if it would cause a rain.

Roughly half of the grain sorghum fields appear to be planted with the double-row system where two rows are drilled into the top of the bed.

Twin lines of young plants are springing up on these beds and showing promise of a good year where irrigation is available. Some fields have milo standing as much as six and eight inches tall.

A light rain caused a crust to form over freshly planted grain in parts of the east side of the county and rotary hoes were used to break the surface for the emerging plants last week.

Carrots, potatoes and onions are also off to a running start but the drain on the underground water supply has been exceptionally heavy and there appears to be little chance for an immediate relief. The long range weather prediction is for below average rainfall during the month of May in this area.

The most noticeable crop is the corn which is already waving with rows of plants standing eight to 10 inches high. A few of the corn fields have received their first cultivation and side-dressing.

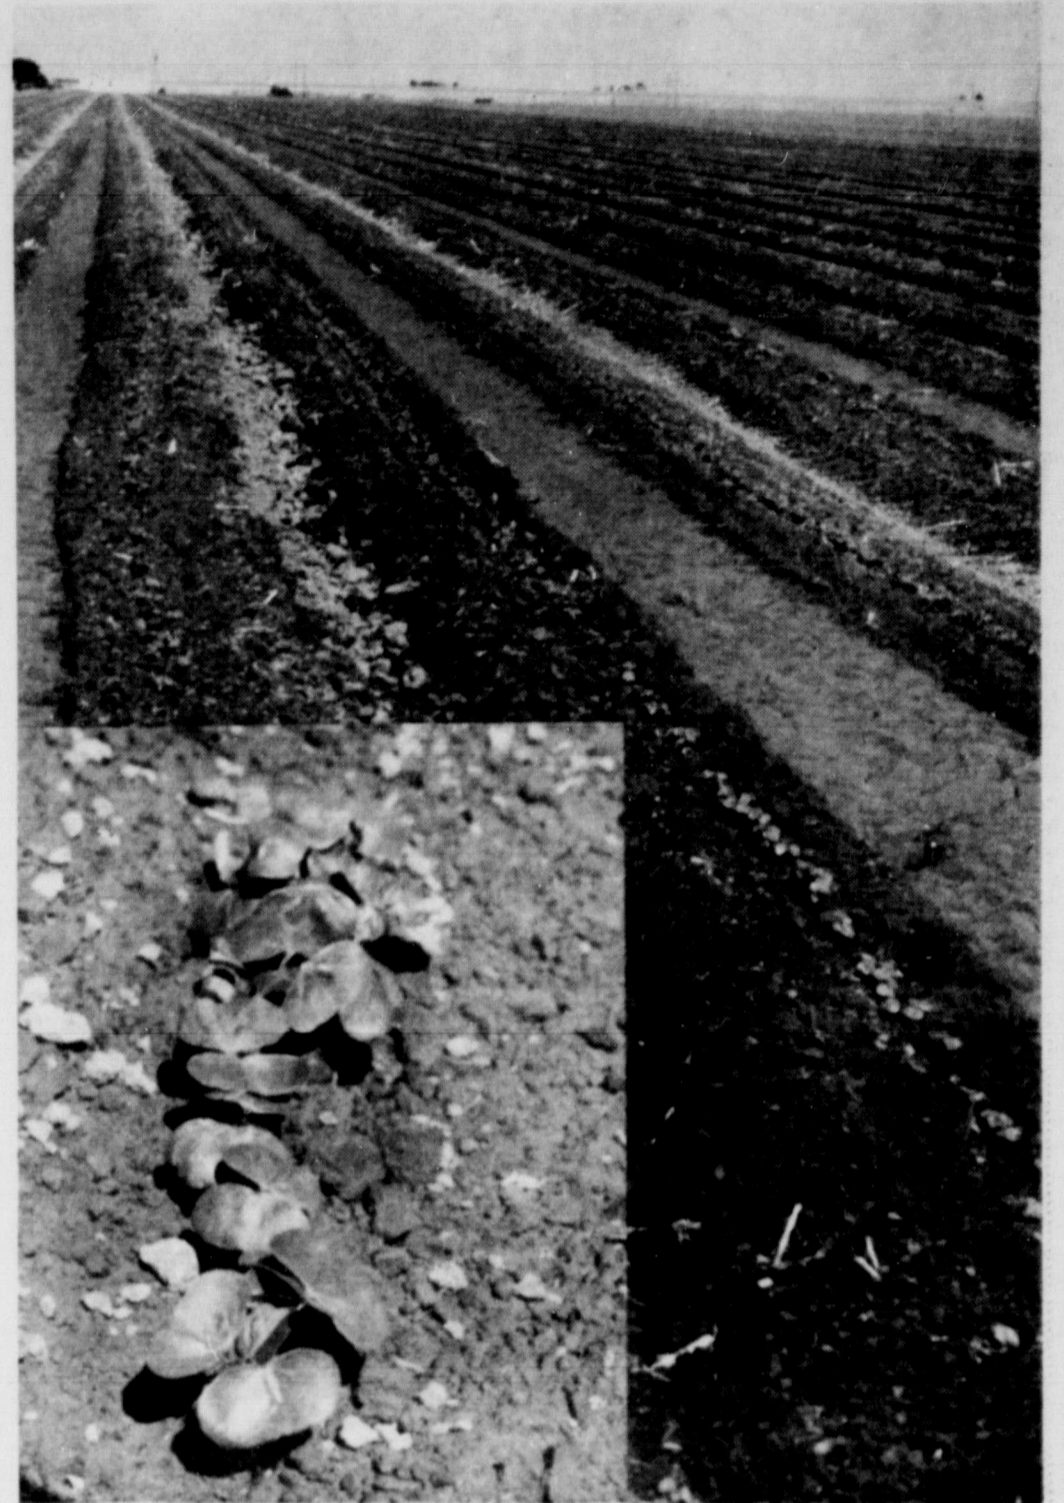

Five Accidents Reported Here

The Highway Patrol investigated 5 rural accidents in Parmer County during the month of April according to Sergeant W. E. Wells, Patrol Supervisor of this area.

These wrecks accounted for two persons injured and an estimated property damage of \$1,830.00

The rural traffic accident summary for Parmer County from January through April of 1962 shows a total of 29 crashes. As a result of these crashes there were 2 persons killed and 14 persons injured. The estimated property damage amounted to \$15,120.00.

Memorial Day weekend during this month of May will mark the beginning of the vacation season. Also, many schools will be out for summer prior to Memorial Day weekend or shortly thereafter. Residential neighborhoods which were quiet between 9:00 A.M. and 3:30 P.M. will now be alive with children. Streets and highways which lead to and from recreation areas and parks will have children and vacationers going to and fro. The patrol supervisor pointed out that with the beginning of the vacation season it presents all of us with a stern challenge to be more alert and take special precautions to watch out for children afoot and motoring vacationers.

EARLY COTTON... is beginning to unfurl its second set of leaves even though the weather has been very dry and the infant plants need water.

4-H Land Judgers Enter International Contest

Wesley Dorsett, a member of the Bexar County 4-H Land Judging team, tied for high individual Daingerfield, Texas. FFA honors in the 11th International Land Judging Contest held near Oklahoma City on May 4. His team placed third.

According to Lynn Pittard, extension soil and water conservation specialist and chaperon for the Midland County 4-H team, the Texas teams, this marked the first time for a perfect score by the high individual and this year four 4-H members and the

test. Larry Jones from the FFA Chapter, all posted perfect scores. Jones' team placed fourth. George Jurica, Schulerberg FFA, ranked 7th as an individual.

Russell Jones, a member of the Midland County 4-H team, was sixth ranking individual with first time for a perfect score of 236 -- just 4 points from perfect. His team placed year four 4-H members and the 14th. The Somervell County 4-H

team ranked fifth and teams from Reeves and Stonewall counties also participated.

Pittard said the third place, won by the Bexar county team, was the highest a Texas 4-H team had ever placed in the land judging contest. Other FFA teams from Texas were from Brenham, Hughes Springs and Petty. Participants came from 26 states and 10 foreign countries.

Land judging, Pittard said, is just one of the many educational tools used in the training of 4-H members. It has been popular in Texas for many years and each year thousands of members start their training back in the local clubs. Their first competition and the two district winning teams become eligible to participate in the contest held on a statewide basis during the annual Texas 4-H Roundup. State winners then become eligible to participate in the International contest.

Coaches are either county agents, local 4-H adult leaders or local soil conservation district or Soil Conservation Service personnel. The soil conservation districts sponsor many of the land judging activities, Pittard said.

Cotton: Number One Cash Crop

Cotton -- the most widely used fiber of our time -- has come to be the number one cash crop for the Texas farmer. It consistently gives the farmer more money return per acre than any other crop in the state.

Cotton is far from being a newcomer to the High Plains, but it has been only recently that it has become so popular with the irrigated farmer of this area.

The fluffy, white fiber was first introduced to the country when the land was broke out around the turn of the century. The pioneer farmers found that the short-staple cotton would do as good as most crops and better than some of them.

But cotton gained a smudge on its reputation which has only recently been overcome. The prices began to fall and it was referred to as the "depression crop." It was blamed for de-

pleting the soil and oppressing farm laborers of the South. The South Plains has always had a large amount of cotton but planting in the western part almost stopped in the 1930's. It was not until the beginning of the war and the high prices offered for the cotton that the crop began to rise in demand in the area. The influx irrigation was another reason for the growth of the crop.

Area farmers found that with

irrigation, they could considerably increase their income over that of wheat and grain sorghum per acre farmed. Prior to irrigation, one-half to three-quarters bale to the acre was considered a very good crop. It was not uncommon to have even less than one-half bale per acre.

Irrigation changed the picture considerably. With the addition of the large capacity wells, it is not uncommon to produce as

much as two or more bales per acre. If yield falls below a bale to the acre, it is considered a very poor crop.

Undoubtedly, the majority of the land in Parmer County would be covered with cotton if it were not for the allotment system and if the farmer could have any assurance of a price comparative to the present scale.

Even with the limited acreage as a result of the 1954 allotment program, which cut the

Parmer County acreage from 98,000 to 28,000 acres but was increased, Parmer County received an estimated \$8,764,250 in return for its cotton last year.

Although the rise of synthetic fibers has captured a part of the market formerly dominated by cotton, it still retains the title of the most widely used fiber of today. It is most versatile in its use. It will hold warmth in the win-

ter and remain cool in the summer. It is as durable as most of the other clothing fibers and can be cleaned with a minimum of care. It is used for almost every job imaginable in the household and business.

Because of its excellent absorbent characteristics, it is very important to the medical industry as well as many other professions. It was one of the first materials used in the making of paper and is still pre-

ferred for many of the high grade materials.

The loss of cotton to the world would greatly affect the lives of ever individual regardless of race, color or country. But today, it is taken for granted much as the air which we breathe.

To remind the people of its importance, May 13 through 19 has been set aside as cotton week on both national and state level by proclamation.

Weed Committee Searches County

The Parmer County Weed Committee is beginning their drive to eliminate bindweed earlier than in previous years because the weed is believed to be easier to spot at present.

The committee met in the Bovina Restaurant with representatives of the Texas Highway Department other officials and worked out details for the spring drive. The Highway department and railroad officials have expressed a desire

to cooperate with the weed committee in the bindweed control program again this year. Plans have been made for plotting bindweed patches on a map. Some sections of the highways are completely clean of the weed as a result of the past years' of work in eradication. But there are several spots that have been treated but scatterings of plants are appearing around the edges.

Residents have been designated to check specific areas

for any indication of bindweed. The committee has suggested that checks be made between 8 and 11 a.m. because the weed is full of blooms at that time and is easily seen. Also, because of the dry weather, tall weeds do not hide the weed. Findings from the checks are

to be reported to the Farm Bureau office not later than May 28. The committee will formulate the information and submit it to the highway and railroad personnel.

The individuals assigned for inspection and their areas are as follows: E. C. Schilling and Gus Schlabs--Frona east to Castro County line on Highway 60.

Keith Brock -- from Frona to Bovina on Highway 60.

Lester Norton -- Bovina to Farwell on Highway 60.

Harold Lillard and T. E. Lovett -- Frona north to Deaf Smith on FM 214.

Charles and Spencer Hough -- Frona south to Hub on FM 214.

Joe Jesko -- Hub to Bailey County on FM 214.

Jack Patterson -- Bovina north to 10 mile corner on FM 1731.

J. T. Jones -- Oklahoma Lane to Bovina on FM 1731.

R. D. Dale -- Oklahoma Lane south to Bailey County on 1731.

Raymond Schueler -- Frona west to 10 mile corner and north to Rhea School on 2013.

J. B. Young -- Clay Corner to Castro County on State 690.

(Continued on next page.)

Demonstrators Map HD Program

Demonstrators in the home, as on the farm, are important in the teachings of the Texas Extension Service. This year thirty-four homemakers are working as demonstrators with the leadership of Miss Ettie Musil, County Home Demonstration Agent of the Extension Service.

First visits were made by Miss Musil to each of the demonstrators to assist them with their plans for the year. Plans were made to meet the needs of the family in home improvement, year improvement, foods and nutrition, clothing, and family economics.

Each demonstrator accepts the obligation of sharing experiences and information with her neighbors. She not only teaches others, but develops herself as an individual, a homemaker and citizen.

Clothing demonstrators visited by the agent are Mrs. R. L. Shirley, Mrs. A. L. Black, Mrs. John Renner, Mrs. A. E. Redwine, Mrs. Edmund Kitten, Mrs. Leland Gustin, and Mrs. Chris Drager.

Home improvement demonstrators making plans are Mrs. Glenn Reeve, Jr., Mrs. L. D. Taylor, Mrs. W. E. Stringer, Mrs. Flake Thurman, Mrs. Davis Gulley, Mrs. Lora Brown and Mrs. Walter Schueler.

Foods and Nutrition demonstrators are Mrs. Bill C. Bethel, Mrs. Glenn Reeve, Jr., Mrs. Walter Cunningham, Mrs. C. B. Watkins, Mrs. Davis Gulley, and Mrs. Herbert Schueler.

Making plans as family economics demonstrators are Mrs. Roscoe Ivie, Mrs. J. D. Sanders, Mrs. Earl Drake, Mrs. Dee Chitwood, Mrs. Carl Schlenker and Mrs. Jack Patterson.

Yard Improvement demonstrators are Mrs. J. B. Williams, Mrs. A. H. Boatman, Mrs. John Hand, Mrs. Dee Brown, Mrs. Luella White, Mrs. Vernon Symcox, Mrs. Chris Drager, and Mrs. Shirley Smith.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Potato growers have apparently made some progress in their struggle to keep the potato industry from a supply management program, at least temporarily, according to Bill Wedemeyer, research and promotion director for Texas Farm Bureau.

The National Potato Advisory Committee has been asked to reconsider its recommendation on the order by the Department of Agriculture. Presumably this request resulted from the recently completed hearings held on the subject throughout the potato producing areas. We are glad that the producers apparently want to take their own chances for success or failure without the direction of USDA.

Regarding the milk price support program, Wedemeyer says in part, "Some 30 years of experience with government price supports have demonstrated beyond any doubt that a guaranteed minimum price on a multiple price basis will always trend the average price received by the farmer downward.

No support program can stop this trend, but a program can pay a subsidy to the producers. This is explained by the fact that the same quality of milk being sold in the same market at two different set prices will always encourage the use of the cheaper milk in various forms and reduce the use of the higher priced milk." This price change will vary from area to area. It is pointed out, and it is hard to determine the reasons for the variations, which, of course, contribute to disagreement among producers from time to time on the advisability of such programs.

Herman Geries presided at the director's meeting last Monday night in the absence of President Hamilton, who was in Amarillo. Remember that you are welcome to attend any of these meetings held on the first Monday night of each month.

The Weed Committee is to meet Monday night of this week in the Bovina Restaurant for action planning on spotting and poisoning bindweed. We realize it is hard to appreciate the importance of the work of this committee since it has been working for several years. Notice the difference when you cross county lines, though, and we believe it will please you that work is not just beginning in Parmer County. J. T. Jones of Bovina is present chairman.

CONSIDER THIS: A wrathful man stirreth up strife; but he that is slow to anger appeaseth strife. Proverbs 15:18.

Chitwood Elected District Delegate For State Meeting

District 4-H Council elected Richard Chitwood as district delegate to the State 4-H Council in an all-day meeting Saturday, May 12 in the YMCA in Amarillo. Twenty-seven county voting delegates represented 22 counties of District 1. A luncheon was served to the council members.

Representing Parmer County 4-H Council were Linda Gleason, delegate, and Johnny Mabry, alternate delegate. Miss Ettie Musil, County Home Demonstration Agent, accompanied the delegates to the council meeting. Richard Chitwood attended as District 4-H Council secretary-treasurer.

During the business meeting plans were made for the Gold Star Banquet to be held November 17 at 6:00 p.m. in the YMCA in Amarillo. Richard Chitwood is to introduce the guest speaker and give the invocation at the banquet. Linda Gleason will introduce the guests.

Other business included plans for Rural Youth Day on September 22 during the Tri State Fair. District Method Demonstration and Camp Committees discussed plans. Each county delegate will compile outstanding 4-H news in the counties for a district newsletter.

On the program District Extension Agents, Miss Edith L. Wilson and W. W. Grisham, Jr. discussed functions of County, District and State 4-H Councils. Dick Plank, District 4-H Council chairman of Deaf Smith County, led a discussion on the meaning of 4-H club work.

The definition used was "4-H is the youth phase of the Agriculture Extension Service program on both the national, state, and county level. It is supported by national, state and county donors. It is for girls and boys between the ages of 9 and 21 years, and is the largest voluntary youth organization in the world".

IRRIGATED WHEAT. . . has grown tall but dry winds had begun to hinder the development of the young grain before the cool front moved across the county Monday night.

HD Agent's Notes

BY MISS ETTIE MUSIL

With all the gardens showing a good stand of beans, peas, corn, beets, and okra, we should be getting our pressure canners in good working condition.

In one of the home demonstration clubs last week we found one pressure canner that had a rubber gasket that needed replacement.

What a tragedy it would be to have beans or beets ready for canning, only to find a hard or stretched rubber gasket that would not hold any pressure within the canner. It truly would be a "stitch in time" to check and clean your canner. If it needs replacements that were not available locally and had to be ordered, this may mean the difference between getting the food crop canned or losing it.

When was the last time you had your pressure gauge checked? Does it measure the accurate pounds of pressure for the particular vegetable? So far we have checked eleven pressure canners in the communities. Luckily they have been accurate or measuring not more than two pounds over the reading of the master gauge I have used in the reading comparisons.

While speaking of checking pressure canners I would appreciate it if you checked your canning equipment to see if you have an extra master gauge. The county does own a master gauge but we cannot find it in the office. We had to borrow a master gauge from an adjoining county for use in the home demonstration clubs this month.

We plan to have a special program in each of the precincts to bring you up to date in one-step, cold pack canning and checking pressure canner gauges. If you are interested in this special program, do let us know, while we have this borrowed gauge. If we find the master gauge, more canners could be checked throughout the year. Otherwise, do take advantage of this special program in the county, as it may be the only time we can check your canner. Check the paper for the time and location later.

What about electric blankets . . . Can they be washed or should they be dry cleaned? That's a question many homemakers are asking now. Here's the latest information on the subject from extension home management specialists of Texas & M College System.

Wash -- do not dry clean elec-

tric blankets. Dry cleaning fluids may injure the wiring system. Try this non-gitated or soak method which has been developed to minimize shrinkage of wash ble woolens:

(1) Plan to wash only one full-sized blanket at one time. Use your usual detergent. (When soap is used in hard water, be sure wash and rinse water are softened.) Pre-treat soiled blanket bindings by dampening and rubbing in thick mixture made from water and the same detergent to be used in washing the blanket. Cellulose sponge or soft brush is convenient for this.

(2) Fill the washer with warm water at proper temperature--between 90 degrees and 100 degrees (lukewarm). Add one cup of soap or detergent. Run washer for a minute or two to make suds. Stop washer and remove agitator.

(3) Place blanket in the tub. Allow to soak for 10 minutes and spin out water for 2 minutes. Fill for rinse. Rinse water should be the same temperature as the wash water. Agitate for one minute. Spin out water for 2 minutes. Blankets may be dried in either of the following ways:

(4) In the dryer. Preheat dryer for 5 minutes with 5 or 6 large bath towels. Mix hot towels into blanket, place in dryer, and dry for 15 to 18 minutes at high heat. Remove blanket while still damp--never allow to dry completely. Stretch and pull blanket vigorously while still damp. Brush well with nylon hair brush or a pet brush (steel bristles set in rubber). If the blanket does not feel completely dry after brushing, hang over rack or "cross" lint to complete drying. Press bindings with warm iron.

(5) On the line. Cover lines with a folded sheet to reduce line mark on blanket. Hang the blanket over two parallel clothesline. When partially dry, treat same as blanket just taken from the dryer, above.

Cotton-- (new designation for former FM 145).

Walter Kaltwasser and John West -- Underpass to Oklahoma Lane on State 690.

Dee Chitwood -- Oklahoma Lane to Clay Corner on State 690.

Herman Gerles -- Bovina to

4-H Plans Dress Revue

Plans are being made for the annual County 4-H Dress Revue to be held Tuesday, July 24. Girls will make skirts, blouses, simple dresses, or advanced dresses depending upon their sewing experience.

To enter the Dress Revue

each 4-H club girl will make her garment with guidance of an adult leader, model her garment for the judges, and complete a clothing record book. Judging will be made for each garment group. Winner of the senior division will represent the county in the District Dress Revue August 1 in Amarillo. Special training will be conducted by the County Home Demonstration Agent, Miss Ettie Musil, for all volunteer adult leaders in each of the garment groups. Send names to Miss Musil of volunteer leaders who would like to assist a group of three to five girls. Leaders may be mothers of the 4-H girls or anyone interested in helping the enthusiastic girls.

Political Parties Conduct Orderly Conventions Here

Republican and Democrat county conventions were conducted in the courthouse at Farwell Saturday afternoon with very little dissension at either meeting.

Mrs. Wylie Bullock, T. O. Lesly, Bob Wilson, Freeman Davis, Frank Spring, Bill Sheehan and Durwood Bell were named as delegates to the state Democratic Convention in September. Mary Tom Spring, Mr. and Mrs. G. D. Anderson, Jr., Mrs. Bob Wilson, Mrs. T. O. Lesly, Mrs. Bill Sheehan, Howard Carpenter and Wylie Bullock were chosen as alternates.

Republican delegates to their state convention also in September will be Frank Hinkson and L. F. Bruns with Dr. T. J. Glenn and Harold Wilson serving as alternates.

At the Democratic meeting, Nelson Welch, permanent chairman, reminded delegates that the number of representatives to the state convention is determined by the number of votes cast for the party's candidate for governor in the last election. A light vote in November means less representation at the Democratic conventions from the precinct to state level.

Delegates were instructed to support the Democratic party nominees at the state convention and to go under the unit rule. They were also instructed to elect a committee man and committee woman from this district who will work for and support the Democratic nominees and party.

Several resolutions were adopted at the Republican meet-

ing including one favoring the broadening of anti-trust laws to include the labor unions. The convention members felt that such laws would tend to help break the monopoly of the commodity of labor and, in effect, help the individual laborer by keeping the unions competing for membership without any one being able to control an entire field of work and thereby gain the position of a monopoly.

The group also resolved to support the abolishment of the pledge at the top of the ballot pledging allegiance to the candidates chosen by the Republican party.

A part of the proposals approved at the Republican convention are:

A constitutional amendment requiring the Congress to adopt a specific plan for retirement of all future extension of the credit of the U.S.A., exceeding 100 billion dollars, in a period not to exceed thirty years.

Revision of internal revenue laws, especially to limit income tax rates to 50% in any tax bracket as higher rates are more confiscatory in nature than they are revenue producing, and to revise depreciation rates to encourage private enterprise to use modern plants and equipment.

To enlarge the state and local tax base by requiring a systematic sale of all state and federally owned property operating in competition to private

enterprise.

For the state and federal governments to encourage by precept and example, a policy of abundance by private enterprise at competitive world prices which will do more than anything else to solve the unemployment problem; instead of using the assumed power of government to threaten and coerce private enterprise which can only be called federal price fixing by man and not by law.

To use the good offices of government to promote good will and cooperation among all groups of people instead of following the accepted communistic practice of inciting strife and dissensions between various groups.

Abolish a host of government offices that have sent thither swarms of officers to harass our people and eat out their substance.

Laws that will not take away from the individual his right to join or not join a union.

Return to local control the responsibility of welfare and relief cases.

State and local responsibility for the education of your youth. There are recent examples of federal control over schools of impacted areas by threatening to withhold payments already obligated.

Declare it a national policy that the present abundance of food and fiber is not a serious problem but one of our nation's

greatest blessings, and let the situation be taken care of by the following proposal: Set up a new agency directly responsible to the congress to assume the assets and liabilities of the Commodity Credit Corp.

To keep about the present carryover of non-perishable farm products for use in extreme emergencies.

To stabilize the market price: Buy on the open market at harvest time sufficient supplies to keep the above mentioned stocks from deteriorating because of age and selling on open market later in the crop year the quantities replaced by earlier purchases.

A loan program to be set up based on a percentage below 100% of average market price of past three years, loan to be repaid on or before ten months from local harvest time at interest rates set to encourage local lending agencies to advance loan money.

Repeal all laws of acreage allotment and control.

Attending the Republican convention were John Zahn, John Getz, Mr. and Mrs. L. F. Bruns, Frank Hinkson, Harold Wilson, Glenn Reeve, T. J. Glenn, Kenneth Precure, John Gammmon, Albert Johnson, Mr. and Mrs. Elmer Langford, W. G. Harlan, Mrs. Mary Kate Seman, Mrs. E. S. White and C. F. Bieler.

At the Democratic convention were John T. Blackburn, J. C. Claborn, Bill Stewart, Steve Messenger, Mr. and Mrs. Sioar Osborn, Mr. and Mrs. Oscar Baxter, Mr. and Mrs. Don Ethridge, Mr. and Mrs. Mack Bainum, Mr. and Mrs. H. W. Carpenter, Mrs. Olen Ivy, Mr. and Mrs. Freeman Davies, Mr. and Mrs. Junior Matthew, Mr. and Mrs. Wylie Bullock; W. M. Bradley, A. D. Smith, Mr. and Mrs. R. W. Anderson, Mrs. Leroy Berggren, Mrs. Albert Smith, Marilyn Edward, Mrs. W. H. Graham, Jr., J. W. Bell, Warren Embree, Mr. and Mrs. Dean McCallum, T. O. Lesly and T. M. Caldwell; L. L. Grissom, J. C. Redwine, A. L. Black, Mr. and Mrs. G. D. Anderson, Mr. and Mrs. Durwood Bell, Mr. and Mrs. Robert E. Wilson, Wendol Christensen, and Dolph Moten.

WITH THE COUNTY AGENT

DERYL COKER

Some wheat fields look real good this year while others are fairly sorry. As a whole the weather wasn't as favorable for this crop as for the 1961 crop. A great number of fields had some winter kill which thinned the stand some, and because it has been very dry, it has been hard to keep enough water on the wheat.

A good stand of wheat will use about one third of water per day and with these hot winds from the southwest there could be more water than that used. Thus four inches of irrigation water would last 10 to 12 days.

It is very important that the moisture level be maintained from the time the wheat plant starts its development of the head up until the seed is mature. The need for a little moisture could be costly at this time of the growing season.

Doctor Kenneth Porter, from the Southwestern Great Plains Field Station, was in the county last week and we looked at several wheat fields. Nearly all the fields have a lot of dead foliage at the bottom of the plants. This was probably caused by Greenbugs and mites earlier in the year. Also, some wheat fields have spots that are shorter and where the leaves have a yellowish brown color. These small spots are caused by the Western wheat aphid, which is a slender, pale-green, wax-secreting species. When looking at them in the field, they look gray in color. In these spots the wheat head will be small and club shaped. This aphid makes wheat look like it has virus disease of some kind.

The Western wheat aphid will not only spot fields but there are fields of wheat that do have a virus disease of some kind. The Western wheat aphid will only spot fields, but there are fields of wheat that do have virus disease of some kind. These fields will be affected

all over. Two weeks ago, I sent off a sample to our plant pathologist. He said it was wheat streak mosaic or some other unknown virus disease. Streak mosaic will cause the leaves to turn a yellow, brown color and narrow intermittent stripes will occur between the leaf veins. Entire leaves frequently show a check of green color followed by dying of the tissue.

Plants are frequently stunted and size of head and yield of grain are reduced. The virus is spread by the bulb mite from certain wild grasses. The mite causes leaves to roll tightly, giving them the appearance of "onion leaves."

The only cure for this disease is to keep all volunteer wheat and grasses plowed under in the vicinity of the field two weeks before planting, and wait until September 25 to plant. This may not be practical if you need to graze the wheat during the winter.

FOOTSAVING EDUCATION

by James E. Edwards

Do Strap Shoes Provide Adequate Support For Children's Feet?

We should not look to the uppers of shoes for support. There is grave danger of assuming that lace shoes hold up the arch simply because arch support shoes are usually oxfords. Does lacing hold the arch up or down? Arch type shoes, lovingly referred to by shoeman as "old ladies running shoes" are comfortable on weak adult feet because they tend to keep a flexible foot from sliding forward. The same result could be accomplished by eliminating the heel but, when a woman has worn nothing but high heels, a shortened Tendon of Achilles may cause a lot of trouble in flat shoes.

Children do not have this problem so whether the shoe be a strap, pump or oxford is not nearly as important as how the shoe fits.
