

Yearbook Honorees Are Told

Frona High School students honored in the 1963 Chieftain, FHS yearbook, were announced in a special assembly Monday afternoon, at which time the new yearbooks were distributed.

Max Reeve and Sandra Hoover, senior students, were named Mr. and Miss FHS, Cary Jackson and Eve Braunschweiger are Prince and Princess of Friendship.

Also presented were the awards for "best all-around" and citizenship. Diana Taylor and Dewain Phipps announced by high school principal Raymond Cook as "best all-around." This award is based on courage, leadership, honor, service and scholarship, he pointed out. Gayle White and David Talley received the citizenship awards.

Other members of the FHS "Hall of Fame" included Bobby Hodges (most handsome) and Kay Burleson (most beautiful); Carol Ray and Billy DonThomas (most versatile).

Students selected to the "Who's Who" section of the yearbook were also announced. Sharon Reeve and Earl Crow were named most talented; Karen Osborn and Angel Aleman were picked as most admirable; Merylene Massie and Larry Potts were chosen most dependable; Rose Ann Greeson

(Continued on Page 6)

FFA Teams Place Well

The judging teams from Friona High School's vocational agriculture chapter placed in the upper one-half in both contests at Texas A&M, according to Benny Fryor, sponsor who accompanied the teams.

The dairy judging team was 18th, and the livestock judging team 41st. There were 89 teams in each division, representing some 800 teams in the entire state, so Friona's placing was gratifying.

"The boys did a fine job. We were very proud of them," Fryor said. He pointed out that the only schools to place higher than Friona from this part of the state were Nazareth and Canyon.

Members of the dairy judging team are Larry Potts, Max Reeve, Don Collier and Jerry Cass. The livestock team is composed of Dewain Phipps, Tex Phipps and Dennis Howell.

Revival Starts Here Monday

A revival meeting will begin Monday evening at the Assembly of God Church.

Evangelist and Mrs. Ervin Asiatlaco of Plainview will conduct the services. In addition, there will be special singing by the evangelists.

Services will begin each evening at 8 p.m., except Sunday evening when the service will begin at 7:15. There will be no Saturday evening services.

Location of the Assembly of God Church is at the corner of Tenth and Ashland Streets. The congregation joins its pastor, M. Alvin Askins, in inviting everyone in the area to attend these services.

HINKLE HEADS PROGRAM

Little League Slates Organizational Dates

A meeting is scheduled Monday night at 8 p.m. in the lobby of Friona State Bank, for directors and managers of Friona's Little League program. Anyone interested in working with a Little League team this summer is requested to be present.

Jerry Hinkle is to be director of the summer baseball program this year. It is expected that the alignment will be the same as last year, with five pee wee teams, six intermediate and four Pony League teams.

A meeting is scheduled Thursday, May 16 at the Community Room of the bank for parents and others interested in the summer baseball program.

POPULAR STUDENTS . . . These four Friona High School students were featured in the 1963 Chieftain, FHS yearbook, which was delivered this week. From left to right are Max Reeve and Sandra Hoover, Mr. and Miss FHS, and Eve Braunschweiger and Cary Jackson, Princess and Prince of Friendship.

POPULATION FIGURES SHOW

Parmer County Among State's Growing-est

Parmer County is among the fastest growing counties in the state of Texas, according to figures contained in the latest issue of the "Texas Business Review," a publication of the Bureau of Business Research, University of Texas.

According to the 1962 estimate for Parmer County, the population stands at 10,508. This is the first time in the county's history that the population has climbed over the 10,000 mark -- a significant plateau in the county's growth.

The 10,508 population estimate represented an increase of 553 over the 1961 estimate of 9,955. This is an increase of 5.4 per cent for the one-year period.

The 1961 estimate was an increase of 372 over the 1960 federal census, which showed 9,583 persons in Parmer County. The increase from 1960 to 1961 figured out to 3.8 per cent. In the past two years, Parmer County's population has jumped 925 since the census count, an increase of 9.2 per cent for the two years combined, or an increase of 4.6 per cent each year.

Only 13 counties of the other 253 counties in the state showed an average increase better than Parmer County since 1960, regardless of size. Of these, six counties were smaller in population, and only seven counties which had average increases better than Parmer County were

larger than Parmer to begin with.

Compared to adjoining counties, Parmer County's population gain was gratifying. Bailey County, to the south, gained from 9,090 in 1960 to 9,499 in 1962, an average gain of 2.2 per cent. Castro County, to the east, gained from 8,923 in 1960

Consumers Hold Annual Meeting

The annual stockholders meeting of Friona Consumers Company will be held Saturday beginning at 2 p.m. at the school cafeteria.

Two directors are to be elected. Terms of George A. Jones and T. E. Lovett are expiring. Patrons will receive their dividend checks. Entertainment will be provided by students of Mrs. Roy Miller.

Door prizes of \$25, \$15 and \$10 will be given. Coffee and doughnuts will be served.

Speakers for the afternoon will be Jack Parks of the High Plains Research Station at Halfway, and Jack Cane of Southern Farm Supply.

Parks will speak on flame cultivation. Cane will discuss fertilizer.

to 9,405 in 1962, an increase of 2.6 per cent annually.

Only Deaf Smith County, of those immediately joining, out-gained Parmer County percentage-wise. That county gained from 13,187 in the 1960 census to 14,799 in 1962, an average gain of 5.8 per cent each year.

The fastest-growing county in Texas since the 1960 census has been Coryell County in Central Texas, according to the estimates. Coryell, of which Gatesville is the county seat, has had an average annual growth of 12 per cent, and has jumped from 23,961 in 1960 to 30,466 in 1962.

Second - fastest growing county by percentage is Hartley County in the Texas Panhandle, which grew from 2,171 to 2,738 in the two-year period, a gain of 11.6 per cent each year. Third-fastest growing county is another Panhandle county, Randall, which gained from 33,913 in 1960 to 41,430 in 1962, an average of 10 per cent per year.

Of the top 10 counties in the state, six of them are located on the High Plains. After Randall comes Ochiltree, Oldham, Loving, Armstrong, Denton, Kerr and Deaf Smith. After those comes Callahan, Bell, Culberson and Parmer counties in that order.

The estimates are made annually by Godfrey Baldwin and Betty Maynard, research associates for the population research center, sociology department, University of Texas.

The 1962 estimates were based on a formula which is considered a substantial improvement over that formerly used. Briefly, it is a variation of a formula used by the U. S. Bureau of the Census, in which

(Continued on Page 2)

Frona Protects League Lead In Friday Contest

Frona will be out to protect first place in the Irrigation League baseball race Friday night at Reeve Field, when the local nine hosts Silvertown. It will be a meeting of the only two remaining unbeaten teams in the league.

Frona pushed its league record to three wins and no losses Sunday on a two-hit pitching performance by S. D. Baize, besting Nazareth, 2-0. Muleshoe was beaten, 13-8, in a game here last Friday.

Silvertown stands at 2-0 in league play, having beaten Tulsa and Umberger.

Muleshoe actually out-hit Friona, 14-13, in the game last Friday, but the visitors left 16 men on base. Friona got timely hitting from Jimmy Collier, John Renner, Darrell Read, S. D. Baize, Cotton Renner and Neal Floyd, all of whom had two hits and at least one run batted in.

Frona scored five more runs in the fifth on two singles, a double, a fielder's choice and an error by the Muleshoe catcher. Gary Renner went all the way for the win, although giving up the 14 hits. Baize hit two doubles in the game.

Sunday's game at Nazareth was a pitcher's duel in contrast. Friona protected a 1-0 lead until the ninth, scoring again for a 2-0 lead which made the final score. Baize struck out 14 men and walked only one.

Collier singled, stole second and went to third on a passed ball in the top of the first inning. Baize then singled him home, and Friona settled for one run, leaving the bases loaded. That proved to be all Baize needed, giving up only two singles.

Frona scored again in the ninth when Collier led off with a triple, and was squeezed home on a bunt by John Renner.

Only twice did Nazareth have a runner as far as second base against Baize, in the first and ninth. He bore down to end both innings with strikeouts.

BAND, CHOIR

Spring Concert Tonight At FHS

The annual spring concert by the Friona High School band and choir will be presented tonight at the high school auditorium. The program will begin at 8 p.m. Admission of 50 cents for students and \$1 for adults will be charged.

Seven groups will be on the program, according to director Lowell Bynum and Bill Spencer, assistant director. The concert closes out the band and choir activities for the year.

Groups to be heard will include the high school band, the junior high band, sixth grade band, fifth grade band, high school choir, junior high choir, and high school stage band. The junior high school choir and the stage band are new additions to the program this year. Both are under the direction of Spencer.

Among the numbers to be heard by the high school band include highlights from the movie and Broadway hit, "Gypsy." The stage band will feature popular music, including items ranging from Glenn Miller's "Little Brown

Jug" to recent numbers such as "Tonight," from "West Side Story."

Membership in the stage band is on a trial basis, and the band is completely separate from the regular curriculum, Bynum pointed out. It is for students who enjoy popular music.

The choir is mixed this year for the first time, formerly being an all-girls choir. The groups to be heard represent approximately 400 students enrolled in band and choir, about 300 of which take band.

Some 18 seniors are in the band this year. Those performing for the last time tonight include Pat Barker, Willene Baxter, LaVoyce Burrow, Brenda Deaton, Mary Knight, Martha Knight, Sharon Reeve, Kay Johnson, Iva Farr, Royce Douglas, Tom Gee David Talley, Dwight Bates, Max Reeve, Larry Hough, Earl Crow, Danny Carmichael and Wayne Cason.

Senior members of the choir are Andrea Milligan, LaVoyce Burrow, Kay Johnson, Willene Baxter and Eugene Binger.

Routine Business For City Council

The Friona City Council approved payment for the recent sealcoating of 20 city blocks in a routine council meeting Monday night.

The final amount for the sealcoating was \$5,997.09, some \$128 less than the bid of \$6,125. Pioneer Pavers of Lubbock was the contractor.

Councilmen also passed an authorization to purchase a new electric typewriter for the city office, at a special price of \$240 plus the old machine, from Conell Stationers of Amarillo.

Authorization for expenditures of \$174 for coverage on the contents of the city maintenance barn was approved.

In other business, the council noted a petition from residents of the eastern portion of town concerning a bracero labor camp. Council heard progress reports from the citizen's committee and Chamber of Commerce representative on pro-

posed sites for the bracero association.

In other business, the council tabled a request from A. O. Drake for the city's financial participation in the paving of six blocks in the Drake Addition. It also tabled a consideration of purchasing a water meter control for the new water tower.

A report was heard concerning progress on the purchase of a new trash truck for the city. City Manager Arley L. (Jake) Outland requested permission to attend the annual convention of State City Managers in Corpus Christi June 16-18. This was approved, the city to help with his expenses.

Included on the city manager's monthly summary of activities were the following items:

Administrative--the annual (Continued on Page 2)

ALL SET FOR A DIP . . . These Friona High School girls get ready to inaugurate the swimming season in Friona, with the opening of the indoor five-lane swimming pool in Friona. On the diving board are Pat Burton, Sheryl Long and Jeanne Taylor. Truett Johnson, owner of the pool, emphasizes that the roof on the county's only indoor pool has been repaired, and is completely safe.

Routine Business--

(Continued from Page 1)
city election was held on April 2 and a special council meeting was held the same evening to declare the results. Aldermen J. E. Hicks, Glen C. Stevick and Joe Talley were elected to

replace Bill E. Nichols, Kenneth Williams and Wright Williams whose terms of service expired.

Coordination with the City Attorney's office continued during the month and limited success was made in the collection

of delinquent taxes. There were eight transfers of City property reported by the County Clerk's office during the month. There were 9 purchase and 82 work orders processed during the month.

Water Department--records

show that 19,032,600 gallons of water were pumped and 17,758,000 gallons accounted for in sales to indicate an efficiency of 92 per cent in the system. This high percentage offsets the low figure of last month because of the relative short usage period

caused by 28 days in February. Daily usage amounted to 634,420 gallons which is a notable increase from the previous month. Rainfall during April amounted to only .15 inch on three different days.

There were two new services installed, one old one reactivated to bring the total to 890 active services at the end of April.

Sewer Department--records show that approximately 3,998,145 gallons of sewage were pumped to the Imhoff tanks during the month to make an average of 133,272 gallons per day. There were 287 kilowatt

hours of electricity used for a cost of \$16.54.

Bobby Lee Traylor's finger did not respond to adhesion and the tip end joint had to be removed on April 12. Twenty days time was lost due to the accident and recuperation.

Fire Department--there were ten fire calls made. Eight of these outside the City limits for an estimated loss of \$4,225 and the two inside at \$200.

Several runs were made to grass fires along the Santa Fe Railway with no loss involved.

Police Department--there were 24 arrests made during the month; 22 for traffic violations; one for drunkenness and one for driving while intoxicated. There were six man-nights of jail occupancy with food costs amounting to \$4.43. There were no reports of theft or vandalism. Two accidents were investigated, however, there was no injury nor hospitalization.

Four dealers' bids were solicited for new tires for the patrol car and Panciera Tire & Supply received the low bid of \$64.28 for four new 3-T nylon tires which were installed on April 10.

Park - Cemetery Department--only one adult interment, that of James D. King on the 16th was made at the cemetery during the month. Mr. W. J. Nazworth was employed by the Cemetery Association as the summer caretaker. He began work on April 15 at a monthly salary of \$150.00. The City pays half his salary to the As-

sociation.

The new irrigation system for the Park arrived and was put into service on April 8.

Street Department--two days were utilized in grading and sweeping on April 9-10. Street hole patching continued where outcropped. Much time was spent in assisting the Water department in laying main and Sanitation department in gathering trash.

Sanitation Department--clean-up Week was observed during the week 15-20 April and was considered to be a success. There were 14 loads made by the dump truck in addition to the daily runs of the packer truck. There were 13 calls for special pickups during the month to indicate that cleaning went on throughout the period.

Castin--

(Continued from Page 1)

or is one answer -- and the only apparent one at the moment.

The exact location of the controversial headquarters is to be threshed out between the association and affected citizens, but I firmly believe that it is needed in or at Friona.

This I want to make clear. I do not say, nor do I believe it is my position to say, exactly where it should be located or where it could be located. I do believe it is needed here at Friona, not there at Hereford.

This I say.

--TH--

Parmer County--

(Continued from Page 1)

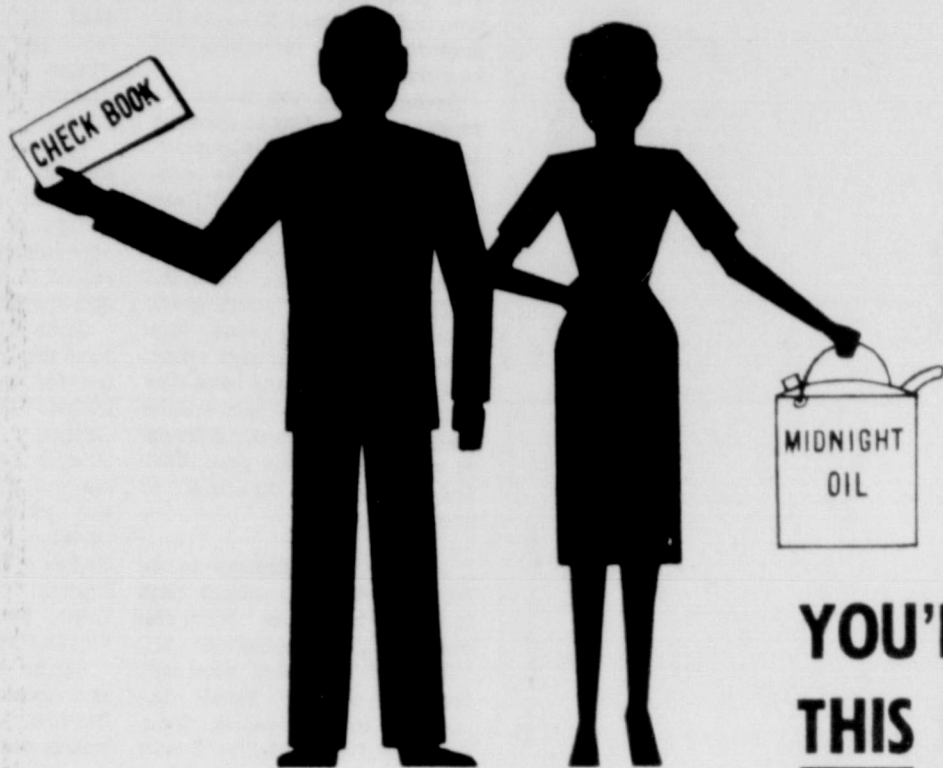

natural increase (excess of births over deaths) between the last census and the estimate date is added to an estimate of net migration to obtain a total growth figure.

The population experts point out that there is a trend toward a large number of counties gaining population and a smaller number losing during the past 12 years. The state's population was estimated at 9,978,146 in 1962. This was 210,008 more people than the 1961 estimate of 9,768,138, and 398,469 more than the 1960 census figure of 9,579,677, an average annual growth of 2.0 per cent.

It was pointed out that the 62 counties that gained population in each of three periods (1950-60, 1960-61 and 1961-62) are widely scattered, but tend to concentrate in three areas. Eighteen of the 62 are located on the High Plains, stretching from Midland and Howard counties on the southern edge to Hartley, Hansford and Ochiltree counties in the Panhandle, with a cluster of 11 counties between Hartley and Lubbock counties.

Of the 29 counties that lost population in each period, over half (18) are located in two areas of the state -- Central and East Texas. The largest concentration is located in Central Texas, centered around Milam, Lee and Burleson counties.

A NEW SHIPMENT OF REDWOOD FENCING MATERIAL

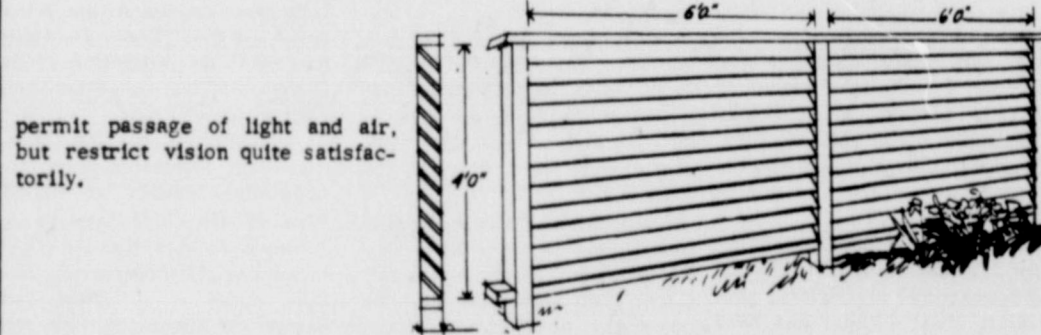

basketweave fences

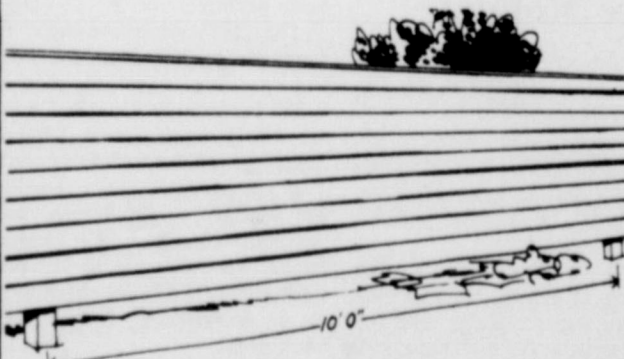

These fence designs give a most unusual flair to any garden or lawn. They can be varied in height to suit privacy requirements and have the added advantage of looking the same on both sides. Design 1 requires no bending, so it can use wider boards than Design 2.

louvered fences

permit passage of light and air, but restrict vision quite satisfactorily.

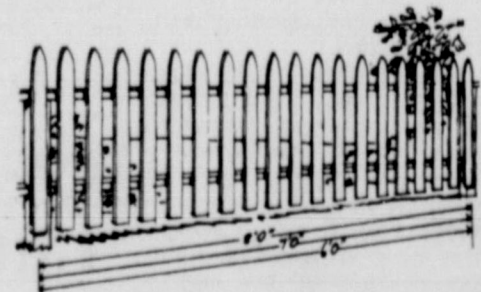

bevel siding fences

Fences of this style are best used with houses having bevel siding or trimmed with such siding. Using the same width and thickness on the fence will tie the house and fence together in harmony.

picket fences

The classic, easily constructed gothic picket fence has been a standard favorite for generations of home owners. Can be built in a variety of heights and post spacings to suit your needs.

NATIONAL HOSPITAL WEEK MAY 12-18

● Some of the largest hospitals may have up to 200 job classifications, many with several employees in each.

● The total number of personnel employed by hospitals has more than doubled since 1946. This reflects the growing number of services provided by hospitals.

● Two-thirds of a hospital's operating expense goes for payroll, which is returned to the community in the form of expenditures by the hospital's employees.

SU
EX

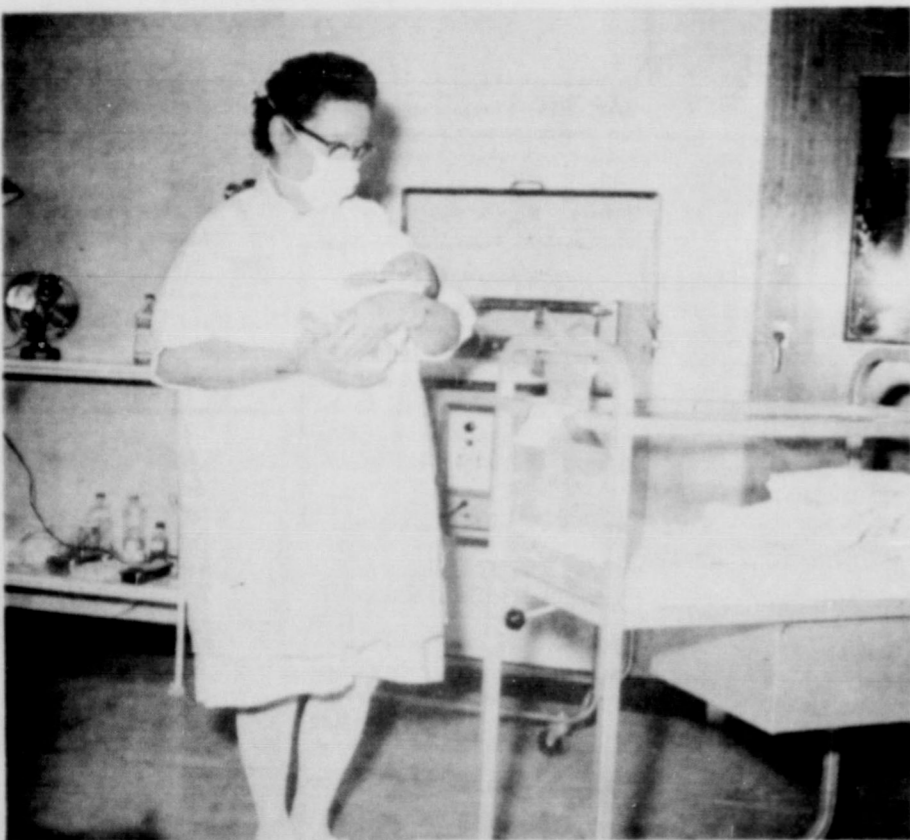

This is the waiting room of Parmer County Community Hospital.

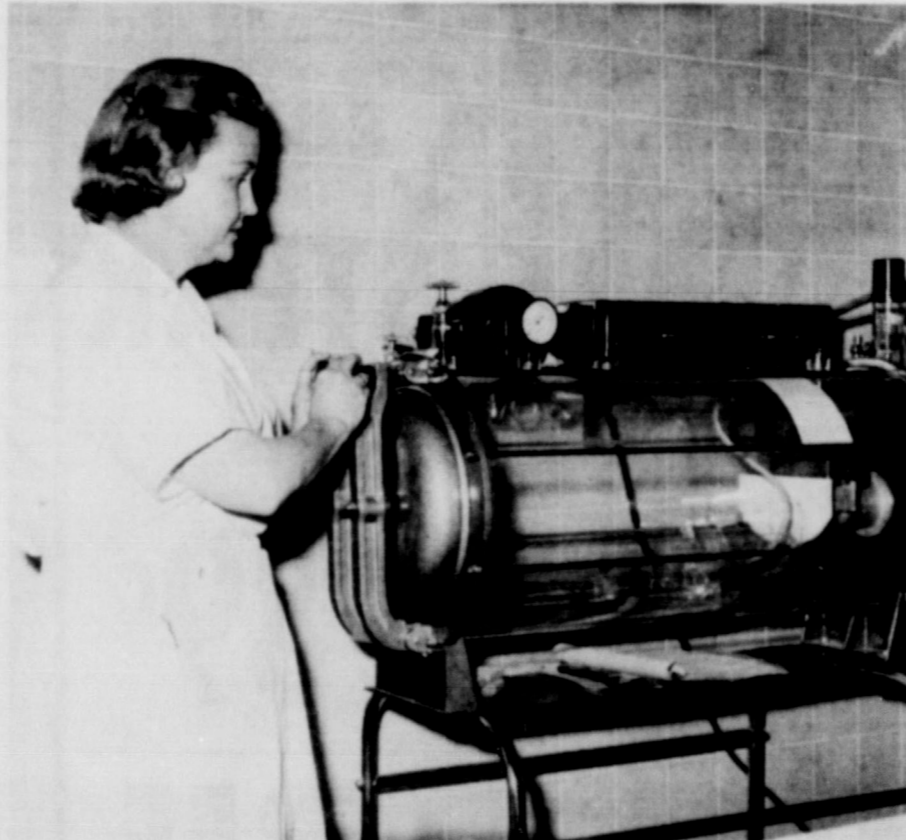

The kitchen staff prepare food three times a day for patients at the hospital.

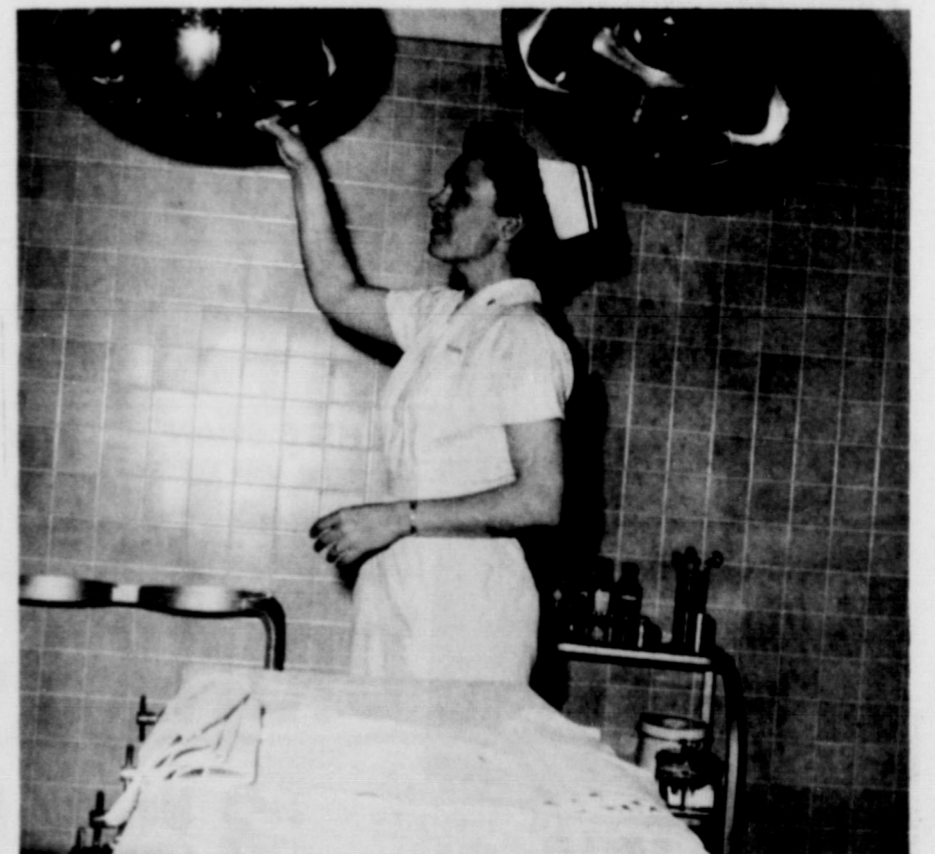

Marty Martinez checks his medicine supply in Parmer County Community Hospital's pharmacy.

Nurse Edith Houston holds little Mary Jane Chaves, a four-pound baby which is currently a resident of the nursery in Parmer County Community Hospital.

Nettle Collier fastens the door to the isolette, a machine in the OB room of Parmer County Community Hospital.

Dorothy Blankenship demonstrates surgical lights in the surgery room of Parmer County Community Hospital. The lights, like much of the hospital's equipment, were donated by a Friona club.

Drought Broken By Showers

Friona's drought was temporarily broken last Wednesday night, when .66 inches of rain fell, almost matching the amount which had been measured for the entire year previously. Another .01 inches fell late Sunday night, for a total of .67 inches during the week.

The mercury hit the 90-degree mark for the first time this season on Saturday. Friday's high was 89, as the area had an early dose of summer.

and Mickey Wilson are most likely to succeed, and Donna Fulks and Dwight Bates are most valuable.

Each class selects nominees for the various honors, and an all-school election determines the eventual winners. Robert Cummings, screen and television star, chose the most beautiful and most handsome.

The yearbook was dedicated to the citizens of Friona. Mrs. John D. Sanders designed the yearbook cover. Gayle White and Brenda Deaton were editors.

Other staff members included Earl Crow, Larry Hough, Wayne Cason and Russell Scales, photographers; Mary Knight and Carol Ray, typists; Sharon Reeve, treasurer; Clare Savage, layout manager. Wayland Ethridge is faculty sponsor for the yearbook.

The husband said contentedly to his wife, "You know dear, our son is really a very nice little boy."

"Oh?" asked the wife.

"Uh-huh," said the husband, adding: "Why just tonight he stopped watching television in order to help me with his homework."

Every resident of Parmer County who have not seen a copy of the newest issue of Cross Section, a monthly publication of the High Plains Underground Water Conservation District No. 1, should secure one and read it from cover to cover.

This issue is practically filled with pictures and information concerning Parmer County irrigation farmers. Nine of ten pictures used in the first three pages are of local farmers and projects being carried out on their farms.

These pictures show some of the things Parmer County farmers are doing to make the best

possible use of all irrigation water.

Indication of Friona's growth is evidenced by a string of water pipe joints about three quarters of a mile long on the south side of Farm to Market Road 1731 west of town. Maybe this is going to be Friona's first urban development or then again, it may prove to be laying the groundwork for extension of the city limits.

If that is the case, we will live closer to town without having to move.

Presence of rattle snakes has always been a symbol of the

wild and woolly west. Using this rule as a guide, the Floyds were "way out" Saturday. About middle of the afternoon Susan called my attention to a snake crawling about ten feet from the back door.

My first thought was that it was probably harmless, but upon investigation I found out that it was a prairie rattler. He was about 30" long and had six rattles and a button.

It isn't unusual to run across a rattler in the field or on the draw, but we've killed only two near the house in the fifteen years we have been living here.

Think there's supposed to be some kind of magic connected with "A rule of three." I'm not really superstitious, I hope, but am thoroughly convinced that if all of us would follow the advice in this little item, the improvement would be surprising.

RULE OF THREE
 Three things to GOVERN; temper, tongue, conduct.
 Three things to CULTIVATE; willingness, industry and promptness.
 Three things to DESPISE;

(Continued on page 7)

Something To Think About

6th. Street Church of Christ
 Box 515 -- Friona, Texas

No doubt you would question his reasoning ability if he tried to weigh the credentials of Christ by an appeal to some such method. We agree, but non-the-less there are some who do just that. They "reason" like this; Christians admit that there has been a multitude of false prophets and counterfeit Christs. If, for example, one hundred made claim to be the Christ, and Christians admit that all of them but one was making a false claim, their conclusion is that if ninety-nine are wrong the odds are ninety-nine to one that the one hundredth is also false. Or, concerning the resurrection of Christ their argument is; You will admit that of all the billions who have died that Christ is the only one for whom you make claim that he arose from the dead to die no more! Since you admit that billions have not been raised the odds are overwhelmingly against the resurrection of Christ. Questionable reasoning isn't it? Consider one more example; Most religionists believe that baptism is not a condition of salvation. Christ said that it was. (Mk. 16:15-16) Shall we apply the theory of probability, or respect the authority of Christ??

HOW'S YOUR AXE?

How short-sighted many people are in not taking time for the strengthening of their spiritual life is illustrated by this little gem from Now: "A sweating wood chopper who wasn't doing well was urged to stop and sharpen his axe. He snorted: "It's tough enough now getting this job done without taking time out to grind an axe."

TOURNEY WINNERS . . . Winning team in the Friona pro-am golf tournament Monday was the foursome of W. B. Stark, Wright Williams, Os Lange and Fluff Myers of Muleshoe. They won over 24 other teams.

Local Golfers Among Tournament Winners

Three local golfers joined a Muleshoe amateur to win the team championship in the pro-am golf tournament at Friona Country Club Monday.

Members of the winning team were Wright Williams, W. B. Stark, O. F. Lange and Fluff Myers, Muleshoe, who was team captain. The team's best ball score was 57. Myers also won low amateur honors with a 68.

Another Friona golfer, G. L. Mingus, was on a team that tied for second place. With Mingus was Bobby Westfall of Floydada (captain), Max Dyess and Bill Walker of Floydada.

Elwyn Stobough of Amarillo was low pro with 67. Ray Hardy of Muleshoe was runner-up with a 68.

Exactly 100 golfers took part in the tournament, which called successful by host pro Joe Coronado. The golfers were divided into 25 teams. There were 15 professional golfers, and 85 amateurs.

"It was an excellent turnout for a town our size," Coronado said. "Of course, many people

are seeing our young course for the first time, and some came back for their second try," he added.

The next major tournament at the club will be the City Tournament in June. The Friona Invitational will be next August, and a club tourney will be held in September.

P-TA Opposes Federal Funds

In the last regular meeting of the Friona Parent-Teachers Association, the local unit ballot was discussed and voted upon. Results of the voting were made known this week.

Of the total membership of 381, 76 were present, and 59 voted. Fifty-two indicated they were opposed to any further extension of federal aid to education, with seven saying they favored some federal aid.

The ballot was discussed by the executive committee, and questions were presented prior to the voting.

In And Around--

Farm Bureau Meeting Friday At Lazbuddie

The Parmer County Farm Bureau is sponsoring a meeting dealing with the wheat referendum Friday night at the Lazbuddie High School Auditorium beginning at 8 p.m.

Bill Wedemeyer, director of research and education for the Texas Farm Bureau will give his views on the May 21 referendum.

A question and answer period will be held at the conclusion of the address. Everyone interested in the referendum is urged to attend, according to Frank Hinkson, chairman of the Parmer County Farm Bureau's wheat referendum committee.

Children Urged To Attend Shrine Clinic

The Oasis Shrine Club, which is sharing donations with the Rainbow Girls on the barrel-painting project recently completed, reminded area residents on the Shrine Club's annual children's clinic in Hereford May 25.

All children in the area whose parents cannot normally afford specialized treatment are urged to attend the clinic. Specialists will be available in 12 fields, including neurology, ear, nose and throat, eye, cardiology, audio-speech, orthopedics, plastic surgery, radiology, oral surgery (dental), laboratory, internal medicine (heart) and pediatric-nutrition. It is recommended that all

families sending children to the clinic have physical examination made by the family doctor before sending in applications to the clinic, in order to have the children placed in the proper fields.

Friona doctors have copies of the clinic entry blank, it was pointed out. Applications are to be sent to Box 187, Hereford.

Lions To Hear Heather Gordon

Heather Gordon, Hereford High School's exchange student from Johannesburg, South Africa, will be the featured speaker for the regular meeting of the Friona Lions Club tonight.

Miss Gordon will be accompanied to the meeting by Deputy District Governor Ed Skypala and his wife, also of Hereford.

The regular Lions meeting set for Thursday, May 23 has been rescheduled for Tuesday, May 21, due to high school graduation falling on the 23rd.

At a recent meeting of the Lions Board of Directors, Flake Barber, president-elect of the club, named Wes Long and Danny Mac Bainum to manage the club's Little League team this summer. The club also designated \$150 toward support of the team.

Jon Mack Roden To Receive Degree

Jon Mack Roden, son of Mr. and Mrs. Ralph Roden, will graduate from Southwestern State College at Weatherford, Okla., May 24. Governor Henry Bellmon of Oklahoma will be the convocation speaker.

Roden, who is a 1959 graduate of Friona High School, will receive a bachelor of science degree in pharmacy. Announcement was made at a Phi

Delta Chi banquet Saturday evening of his having been selected "Most Outstanding Senior" and was presented a medical dictionary with his name engraved in gold in recognition of the honor.

He and his wife, the former Nancy Outland, plan to spend the summer in Friona. This fall he will enroll in the dental branch of the University of Texas at Houston.

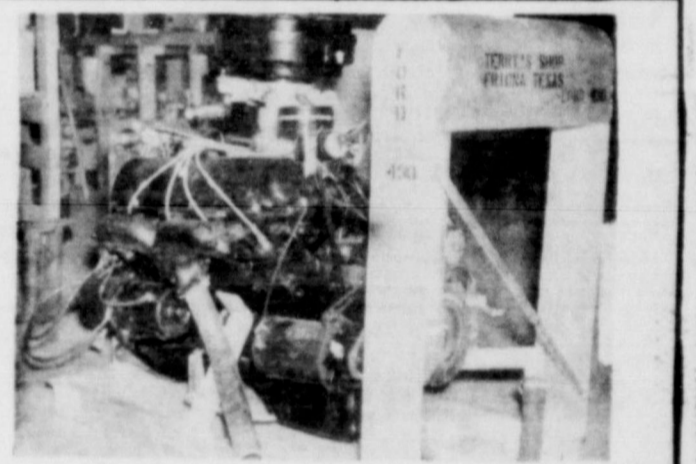

Band To Play At State Fair

The Friona High School Band has been invited to participate in the State Fair of Texas next fall, according to band director Lowell Bynum.

"As far as I know, this would be the first time for a Friona band to participate in the fair," Bynum said.

The band is to give a concert on the State Fairground Monday, October 14. At 6:45 that date, the FHS musicians are to march in the traditional "torchlight" parade, which will have around 18 floats.

The only man who never makes a mistake is one who never does anything.

Dimmitt Hosts Junior Rodeo This Weekend

The Dimmitt Rodeo Association will sponsor a Junior Rodeo May 9, 10, and 11, at the Dimmitt rodeo arena.

Contestants are eligible through 19 years of age.

Events will be barrel racing, ribbon roping, tie-down calf roping, bareback bronc riding, and bull riding. The entry fees will be \$5 each event, and the number of contestants will determine the number of grounds. There will be a calf scramble each night. Trophies will be awarded to the first, second and third place winners in each event except the calf scramble which will have only one award. There will be an all-around trophy awarded to the cowboy who gains the most points in the show.

Each contestant must have a notarized statement signed by one of his parents or guardian relieving the Dimmitt Rodeo Association of all liability. The contestant must bring the

notarized statement with his entry fee before an entry will be accepted.

The Ratjen Brothers of Happy will furnish the stock, and the show will be produced by the Dimmitt Rodeo Association.

There will be a western dance with music by Don Allen on Friday night only.

Information regarding the rodeo and entries in the events may be made by contacting Ted Strange at Rodeo Headquarters in the Hunter Gin office in north-east Dimmitt. The headquarters will be open between the hours of 8 a.m. and 5 p.m. during the week only. The telephone number is 647-3939.

Rodgers Girl Is Hospitalized

Sue Rodgers, 14-year old daughter of Mrs. Charles Rodgers of Friona, is in fair condition in Parmer County Community Hospital, recovering from a gunshot wound.

The Friona youngster apparently accidentally shot herself in the left shoulder Tuesday with a .38 calibre pistol belonging to a brother.

The Rodgers girl was at home alone at the time of the accident, and walked next door to the residence of Dr. Paul Spring. Mrs. Spring heard her call out "Help me; I've been shot," and got to the door in time to catch the collapsing girl.

There was considerable loss of blood, but the bullet luckily missed the left lung, doctors said, going through the left scapula.

Annual Tour On Tap Friday

The annual tour of facilities conducted by the City of Friona will be held Friday afternoon beginning at 1 p.m., according to City Manager Arley L. (Jake) Orland.

The tour is instigated especially for new city councilmen, to give them a broader perspective on the city, but anyone who is interested is invited to make the tour.

Assembly point will be the City Hall. Installations to be visited include the Fire Department, Police Department, maintenance barn, east water plant, west water plant, sanitary fill, north water, cemetery and sewage disposal plant.

Frionans Attend District Workshop

Fourteen local women attended an all day workshop designed for workers in vacation church schools at Buchanan Street Methodist Church in Amarillo Thursday of last week.

Lucille Latta and Eve Lou Rector, who will direct Vacation Church School activities at Friona Methodist Church beginning June 2, were accompanied to the Amarillo meeting by the following:

Frances Hamilton, Dorothy Ellis, Lorene Outland, Edith Johnson, Winifred Hurst, Waneen Ragsdale, Margaret Duggins, Peggy London, Frances Milner, Olive Massie, Jo Clark and Mary Kate Zeman.

Spring Elected To Foundation

Frank A. Spring was re-elected as a director of the Texas Law Enforcement Foundation, a statewide citizens' group that encourages good law enforcement.

John E. Lyle of Houston, who was re-elected president of the group, has called a meeting of the TLEF officers and executive committee for May 10 in Austin. Attorney General Waggoner Carr will attend the session.

Rhea Club Members Study First Aid

A program on First Aid was presented at the Monday evening meeting of Rhea Home Demonstration Club in the home of Mrs. Shirley Smith. Guest speaker was R. B. Rodgers of the Texas Highway Department.

He demonstrated treatment of burns, broken arms and snake bites. A demonstration of principles of artificial respiration was also given.

Plans are being made for a First Aid course for all residents of the community this fall.

Following the business meeting refreshments were served by the hostess to Mesdames Franklin Bauer, Bill Brandt, Elmo Dean, Chris Drager, Jack Patterson, Cordie Potts, Charles Sanders, Malinda Schlenker, Carl Schlenker, Floyd Schueler, Walter Schueler, Norbert Schueler, Norman Taylor and Clyde Tims.

Mrs. Malinda Schlenker will present a program on "Early American History and the concepts of our basic American freedoms at the May 13 meeting. This meeting will begin at 8 p.m. in the home of Mrs. Bill Brandt.

Black Residents To Meet Tonight

Residents of the Black community will meet at the Community House at 8 p.m. tonight (Thursday) for a regular monthly meeting.

Special numbers will be presented by the Friona Quartet and a 42 party will follow the business session.

Host couples will be Mr. and Mrs. Byrl Fish, Mr. and Mrs. Teddy Fangman and Mr. and Mrs. George Frye.

Lewie Don Martin, 5 lb. 1 oz. boy, born to Mr. and Mrs. Ernest Eune Martin, Route 2, Friona, 5-1-63.

Shannon Roy Pellham, 6 lb. 12 oz. boy, born to Mr. and Mrs. Johnny Roy Pellham, Earth, 4-26-63.

Ladies Conduct Tourney Today

The Friona Ladies Golf Association is holding a ladies tournament today at Friona Country Club.

The tournament is an all-day affair. Lunch is to be served at noon.

Church Group Elects Officers

The Wednesday meeting of Congregational Women's Fellowship began with a covered dish luncheon. Mrs. Fred White and Lola Goodwine were hostesses.

During the business session Sarah Dean was elected president for the coming year. Other elected officers include Kitty Loveless, vice - president; Genevieve Anderson, secretary, Rose Lange, treasurer, and Marie McKee, reporter. About 25 persons were present.

Club Members See Film

Highlight of the Friday afternoon meeting of the Lazbuddie 4-H Club was an illustrated lecture by Mr. Evans, a representative of the Muleshoe Game Reserve.

President Cheryl Ramage called the business meeting to order. Katie Blackstone read the minutes of the previous meeting and called the roll. Larry Davis, program chairman, introduced the guest speaker. It was noted to change the meeting time to 8 p.m.

Twenty-four members were present.

Class Meets In Magness Home

Members of Faith Sunday School class of Calvary Baptist Church met at the home of Mrs. Mae Magness Friday evening for their regular monthly business and social sessions.

Billie Worley presented the devotional based on faith.

During the social hour refreshments of punch, nuts and cookies were served from a table centered with an arrangement of lilies by Mrs. Magness

Joan: "Jack if you don't stop playing that saxophone, I'll go crazy."

Jack: "I guess it's too late. I stopped playing an hour ago."

and Joyce Veazey, co-hostess. Others present included Frankie Patterson, Lorene Rexroad, Latha Parson, Virginia Parson, Junita Buth and Bessie Holt.

Singers To Meet

Persons interested in gospel singing are invited by Rev. Alvin Askins, chairman of the Community Singers, to attend the Sunday afternoon session, which will begin at 2:30 p.m. at the Assembly of God Church. This is the regular second Sunday meeting of the group.

WELCOME TO FRIONA

"We've never lived anywhere where people were more friendly," was one of the comments the Francis Gable family agreed upon when a Star photographer visited with them recently. The Gables moved to Friona from Muleshoe several months ago and live in Joe Brummett's house in the Drake addition and attend First Baptist Church. Family members pictured here are Mr. and Mrs. Gable and their children, James, Dewayne, Gayetta, Cynthia and Curtis Gable, who farms northwest of town was co-owner of Gable Cattle Company of Muleshoe before moving here.

GRAIN SORGHUM

CHECK these "plus" values — they're all part of your crop investment, when you plant Asgrow hybrids

- 1** Genetically pure parent stocks, many of them developed by Asgrow and all of them reproduced by Asgrow under strictest isolation.
- 2** Careful selection of seed-production fields, to ensure maximum isolation from undesirable pollen sources.
- 3** Careful choice of top farmer-growers for Asgrow seed crops, with continuous inspection and supervision from Asgrow agronomists.
- 4** Timely harvest of seed to ensure maximum germination and vigor.
- 5** Test plantings of each seed crop before release for distribution and sale.

Production Begins For Cotton Bagging

Commercial production is already underway at one mill and another is rapidly setting up to produce all-cotton bale bagging for use on the 1963 crop, according to Plains Cotton Growers Association, Inc. of Lubbock. The producer organization has been the moving force behind this program and now uses the language of the space age to report that all systems are on a "go" basis.

The Cotton Processing Company of Texas, located at Gonzalez, is now turning out bagging patterns. West Cotton Mills, at West, Texas, plans to be in production in the near future. Both mills have been approved by the U. S. Department of Agriculture to make the bagging under its agreement to furnish \$1 per pattern of the manufacturing cost up to 100,000 patterns. This payment will be made directly to the manufacturer, and the bagging will be handled through normal channels rather than through PCC as was the case last year.

In order to qualify for this payment, the bagging is required to meet rigid specifications set up by the USDA regarding weight, size and strength of material. The all-cotton bagging has attracted wide attention in the cotton industry as it will make a much

improved package of the U. S. cotton bale as well as furnish a potential market for some 300,000 bales of U. S. grown cotton.

Minimum weight specification for the new type bagging is only eight pounds per pattern compared to twelve pounds for the traditional jute. Both the Commodity Credit Corporation and Southern Mills have adopted rules which will make tare-weight allowance for the lighter weight to protect the producer from loss as a result of the cotton being sold, or bought, on the basis of gross weight.

While the cost to the user will still be above that of jute bagging, the cost will be below that of last year, and it is anticipated that volume production, plus the fact that used cotton bagging can be resold for more than double the price of jute, will eventually bring the cost into line.

PCG advises that bagging suppliers can get additional information by contacting either of the two mills listed. Ginners are urged to place orders as soon as possible with suppliers, and PCG stands ready to be of assistance in any way that it can.

FOUR "STRIP CITIES" will emerge in the U. S. within 20 years, predicts the Urban Land Institute: Atlantic Seaboard (Portland, Maine, to Washington, D. C.) -- 51 million people; Great Lakes region (Green Bay, Wis., to Rochester, N. Y.) -- 37 million; California (Mexican border to San Francisco) -- 27 million; and Florida (Miami to Tampa-St. Petersburg) -- 10 million.

IS IRRIGATION "TAILWATER" WORTH SALVAGING?

"It sure is," says Gilbert Wenner of the Hub Community in Parmer County. The picture at right above was made on Wenner's farm. It shows a large quantity of water emptying into a ditch through aluminum pipe from a lake pump installed on the farm. The irrigation well in the background was not operated during part of the pre-plant irrigation season. Wenner shut it down and irrigated with only "tailwater" that had collected in his lake from

surrounding farmland. The weir shown in the photo at left is a measuring device installed in a Parmer County road ditch by the High Plains Underground Water Conservation District to demonstrate the quantity of irrigation "tailwater" allowed to flow unused from cropland. Many farmers from throughout the High Plains Water District are recognizing the value of "tailwater" and are installing systems on their farms to salvage and put it to use.

Water District Publication Features County Farmers

Parmer County farmers, who have been featured from time to time in "The Cross Section," monthly publication of the High Plains Underground Water Conservation District, were the "whole show" in the issue which was mailed out last week.

Features and pictures about Parmer County farmers took up three of the four pages of the publication, which is mailed to every farmer in every county of the district: Lubbock, Lynn, Cochran, Hockley, Lamb, Bailey, Castro, Parmer, Armstrong, Deaf Smith, Potter, Randall and Floyd counties.

In a two-page center spread the publication featured nine Parmer County farms and their efforts in salvaging irrigation "tailwater" through land management, and lake and pit re-

PECATONICA, ILL., NEWS: "If every individual would attempt to give something to life, instead of trying to take something, there wouldn't be any need to debate the virtues of capitalism and Communism."

circulating systems. County farms featured were those of Dwain Menefee, Porter McGee, Kenyth Cass, J. D. Kirkpatrick, Gilbert Wenner, Walt Mabry, Luther Hall, W. S. Ingram and Curtis Murphree.

In addition to the two-page spread, the front page of the issue showed two pictures, one

showing a full pipe of water emptying into a ditch from a lake pump on the Gilbert Wenner farm. Another picture shows one of the weir demonstrations which was installed in the county to show the amount of tailwater running from cropland.

Allan White, editor of "The Cross Section," paid an editorial tribute to Parmer County farmers on the front page. He said county farmers were "Recognizing knotty problems which are peculiar to Parmer County, and are becoming aware of the declining water table and the folly of allowing water to pour from their land."

"As a result of this recognition, in Parmer County, many farmers are doing what yesterday most had termed impossible," White said. "Although much remains to be accomplished, residents of

Parmer County who are meeting and finding solutions to these problems which threaten their economy are to be congratulated for the progress they have made toward the ultimate goal of complete water utility," he concluded.

The Water District also mailed out four-column reproductions of two pictures it used to all newspapers in the area. (See Picture Above)

Hart Animals Are Classified

According to Ray Schooley, Secretary of the American Milking Shorthorn Society, some registered Milking Shorthorns in the herd of Dale Hart, Friona, have recently been classified for breed type. The animals were scored by V.M. Peterman, Amherst, an official classifier for the Society.

Eleven head were classified as follows: three Very Good; five Good Plus; and three Good. To be classified Excellent, an animal must be scored at least 90 points out of a possible 100; Very Good, 85 to 90; Good Plus, 80 to 85; Good, 70 to 80.

Can Cotton Be Produced By Much Less Irrigation?

Can cotton be produced on the High Plains with one fourth of the irrigation water now used? That is the question that Dr. Arthur Gohlke, Soil Scientists at the High Plains Research Foundation is in the process of investigating.

Cotton plants treated with the hormone with one of several methods produce plants with shorter, thicker stems and thicker dark green leaves. Even.

(Continued on page C)

Laboratory and greenhouse experiments currently underway may disclose the possibility of securing the same yield and a better quality of cotton and barley by Dr. Gohlke in a greenhouse at Michigan State University in 1962. He was then engaged in post Doctorate research there. A continuation of this experiment is currently underway at the High Plains Research Foundation at Halfway.

Holly Sugar Corporation Announces Promotions

Promotion of Guy Rorabaugh, 51, to the position of General Superintendent of Holly Sugar Corporation, effective immediately, was announced in Colorado Springs this week by Holly President Dennis O'Rourke.

In his new post, Rorabaugh will be in charge of all factory operations at Holly's 10 existing plants, and construction of the company's new processing facility at Hereford. He will also continue as Director of Research.

A graduate of the University of Colorado, where he received a B. S. degree in Chemistry in 1935, Rorabaugh has been with Holly in various capacities since shortly after graduation.

when he was employed as a Special Chemist at the company's Sidney, Montana, plant. In 1942, Rorabaugh was promoted to Chief Chemist at Hardin, Montana, and later served in a similar capacity at Worland, Wyoming.

The widely-known sugar expert was transferred to Holly's Main Office in Colorado Springs in 1949 as Manager of the Research Laboratory, and was named General Chemist and Director of Research in 1956.

Currently, Rorabaugh is President of the American Society of Sugar Beet Technologists, largest organization of its kind in the world with members in several foreign countries. He is a member of sev-

eral national professional and sugar industry organizations, holding office in a number. He also is active in the Colorado Springs Downtown Rotary Club.

Mr. and Mrs. Rorabaugh live at 20 East Del Norte, Colorado Springs.

O'Rourke also announced that Lloyd W. Norman, formerly manager of the company's Research Laboratory in Colorado Springs, has been named to succeed Rorabaugh as General Chemist. Norman has been with Holly since Sept. 1, 1948, when he joined the research staff.

He is a graduate of the University of Colorado, where he received a Bachelor's degree in Chemical Engineering in 1943 and a Master's degree in 1948. The new General Chemist is a member of the American Institute of Chemical Engineers, American Chemical Society, and the American Society of Sugar Beet Technologists.

Mr. and Mrs. Norman and their four sons live at 1110 East San Miguel, Colorado Springs.

Cotton Classing Course Scheduled At Texas Tech

Texas Tech's Textile Engineering Department will sponsor its annual cotton classing shortcourse June 3 to 14.

This course is open to ginners, merchants, farmers, students, and others interested in grading, stapling, and cotton quality evaluation by laboratory methods.

Demonstrations will be given in the Tech Fiber and Spinning Laboratory to those who are interested, along with other side trips to local or area points of special interest to the class.

The shortcourse is given through Tech's Extension Division and the U.S.D.A. Agricultural Marketing Service with most sessions at the Service's Classing Offices, 610 23 St. Tuition for the two weeks course is \$25.

This year's program will include use of newly revised standards, and because of this, the enrollment is expected to be

heavy. Interested persons should contact Prof. L. E. Parsons, Department of Textile Engineering, at Tech to insure a place in case enrollment has to be limited. Classes will be arranged for beginners as well as advanced classes. Registration will be held between 8 a.m. and 9 a.m. June 3 at the classing office. Tuition checks should be made payable to the Extension Division, Texas Tech.

USDA Scientists Find New Way To Fight Cattle Lice

Cattle lice have been eradicated on a herd basis by scientists of the U. S. Department of Agriculture.

Success of the new eradication method, proved over a five year period in an experimental herd at the Beltsville Research Center, depends on the proper timing of insecticide applications to break the life cycle of the lice, plus quarantining and treating all cattle added to the herd.

Before the study began, the herd was infested with three species of cattle lice -- short-nosed, long-nosed and biting lice. To eradicate these lice, the herd was thoroughly sprayed twice, 14 days apart, with malathion. Cattle to be added to the herd were placed in quarantine and given the same 2-spray treatment.

Most-lice-control chemicals that are safe for use on livestock will kill the crawling lice, but they may not be completely effective against lice eggs, especially under pasture conditions. Some lice usually hatch after the first malathion spraying but the properly timed second spraying kills the newly hatched lice before they can mature and produce eggs.

The Beltsville herd was first treated in October 1957. No lice were found on the animals during the following months but in April 1958 they were treated again. Regular checks of the herd showed no lice until October 1959 when a yearling heifer became infested. Although other

cattle in the same pasture and a group in an adjoining one were not infested, both groups were given two sprayings. No lice have been found on the herd since, though about 90 animals have been added each year.

A part of the herd in 1961 was shipped to the National Animal Disease Laboratory at Ames, Iowa. Scientists there are using the Beltsville method to keep the cattle free of lice.

The scientists say the method offers cattle producers a practical procedure for completely freeing their herds of these pests and then keeping them free.

Soil Needs Are Determined Through Labs

Today many cropping and fertilization recommendations are based on soil testing information. And many farmers and ranchmen are making use of the three soil testing laboratories in Texas to obtain this information.

A new bulletin of the Texas Agricultural Extension Service explains just what soil testing is and how it can be used by the producer. "Test your Soil for Profits" says that soil testing is a scientific method to determine the fertility needs of a particular field. It explains that chemical means are used to determine soil reaction (pH), organic matter, available phosphorus, available potassium, available calcium, and soluble salts. Soil salinity can also be determined by special testing techniques.

Soil tests can be used as a basis for fertilization and liming of soils, according to the bulletin. Also, a soil test can help the producer determine what crop is best suited to his land, how much that crop should yield, and if the soil is infested with nematodes, insects or diseases.

"Test your Soil for Profits," contact your county agricultural agent or write the Agricultural Information Office, College Station, Texas, for a copy.

Cattlemen Set Victoria Meeting

Cattlemen from areas throughout the Southwest will meet in Victoria, June 21-22 for the quarterly directors' meeting of the Texas and Southwestern Cattle Raisers Association. The general session is open to the public.

Joe Fletcher, TSCRA secretary-general manager, said the meeting will be highlighted by discussions on current developments in the cattle industry.

Cattle Prices Steady During April

The number of fed cattle moving to market in April was up, but the month closed with prices about steady with the previous month's close. The exception was on fed calves under 600 pounds which looked steady to 50 cents higher.

The latest summary published by the Cattle Feeders Division of the Texas and Southwestern Cattle Raisers Association pointed out that prices were stronger early in the month, but the expected improvement after Easter failed

to materialize and prices again were depressed the last part of April.

The USDA Cattle on Feed report which was released about mid-month indicated an increase of 11 per cent in numbers on feed. Lloyd Bergsma, director of the TSCRA Cattle Feeders Division, said even though this had been expected, the news had a depressing effect on the market.

Marketings during the first quarter were up three percent compared to last year. "This along with some increase in slaughter weights of animals pushed total U. S. production of beef upward," Bergsma explained.

Wholesale beef prices declined during April with part of the loss recovered late in the month. Compared to the previous month, prices at most markets looked 50 cents to \$1

lower. In New York, prime beef sold at \$42.50, down \$5.25 per hundred weight from last year.

In Houston, carcass calf was selling steady to strong with standard showing the best demand and price improvement. Standard calf closed the month at \$39.50 to \$42. Choice steer beef at Houston sold at \$39 to \$40.50 which was about 50 cents below the previous month's close.

"With slaughter cattle prices three to five dollars below the previous year's levels, you would expect the feeder cattle to follow a downward trend," Bergsma said. "However this is not the situation. Feeder cattle prices are about steady with last year."

Editorial Comment :

The Referendum.. Farmers Can Show What They Are Made Of

Next Tuesday, the wheat farmers of Parmer County and the nation will be faced with a decision. For the sake of their own personal pride, their particular agricultural industry, and for the future of America, we strongly urge them to turn "thumbs down" on the government's 1964 wheat proposal.

The program, as best as we can tell, is another step by the U.S. Department of Agriculture in gaining "just a little more" control of America's farms, and we think it's time our farmers stood up on their "hind legs" and said "Nope" for once.

They had better say no while they still have the chance. With the continuing trend toward Socialism by the New Frontier, the day may come when they won't even have the chance to express their opinion.

There has been a lot of pressure out of Washington and the USDA for passage of the referendum. Never before has the Secretary of Agriculture had to get the publicity agents working toward passage of one of his programs as he has in this referendum.

If this controversial program is approved, there's no telling what might be crammed down farmers' throats in the future. Even people close to the program admit that it is complicated, and that it has many bad points.

Why then should farmers approve such a program? Have our farmers given in to the socialistic trend? Are they willing to give up the management of their own farms for a few pieces of silver? We think not.

Surely, even in the new generation of farmers, there burns that spark of free enterprise that would make him want to make his own choice, and labor for a good profit, rather than just sit back, turn it over to "government managers," and take what someone in Washington dictates he should have.

Farmers got into the government-aid merry-go-round back in the depression days of the 1930s, when it was generally agreed that something needed to be done. But they forgot that with government aid comes government control, and they've been getting in deeper all the time.

We believe Congress will offer wheat farmers an alternative should they vote "no" on Tuesday. The Democrats control Congress, and with 1964 being an election year, they can't afford to turn their backs on people who are going to be begging for votes come next year.

If the farmers will vote "no" next Tuesday, perhaps the next program will be a little less restrictive, rather than continually taking away from their freedom.

Mrs. Mayfield--

the cafeteria for the past eight years.

Bob Harbison, math instructor, who began teaching at Friona High School at mid-term, resigned so that he and his wife may accept teaching positions

at Sanford-Fritch High School.

Dan Ethridge, school tax-assessor-collector, submitted his monthly report, indicating a total of \$684.82 in delinquent taxes collected during April.

The board agreed to offer for sale a 1955 model school bus (see advertisement on the classified page) at the end of the year, which it plans to replace by the time school starts. April bills were approved for payment.

Superintendent of Schools Alton Farr gave his monthly reports on the cafeteria, activity and transportation funds, along with the school budget.

HD Agent Hired For County

Parmer County hired a new home demonstration agent in a special meeting of the county commissioners' court last Monday. The new agent is Mrs. Cricket B. Taylor, presently home demonstration agent in Mitchell County. She will assume duties in Parmer County June 15.

Mrs. Taylor has been in Mitchell County (Colorado City) for the past several years, according to County Judge Loyde Brewer. Prior to her employment there, she was home economist with the Curry County Rural Electrification Association in Clovis, N.M.

The new agent also has taught home economics in public schools. The county has been without a home demonstration agent the past six months. The former HD agent, Ettie Musil Jesko, resigned last December 1.

Don't bother mixing your own dough for carp bait.

Just open a can of biscuit dough and mix with cotton balls. Easiest bait you ever made -- and it will catch catfish, too.

Lites--

(Continued from Page 1)

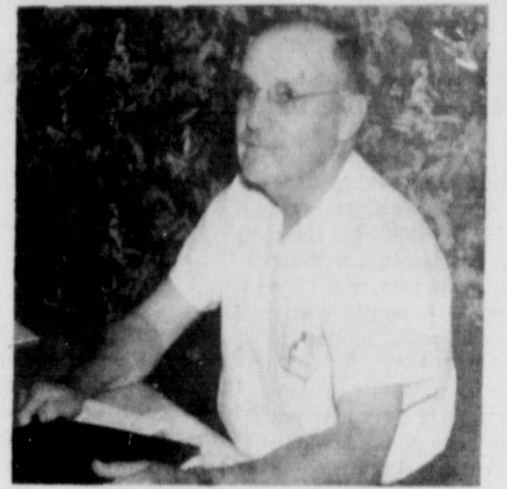

matter how small it may appear to others, is the most important in his eyes. And, for normal people, that is entirely as it should be, I suppose.

Let us alienate everyone, and discourage residents from ever calling with a news item, we're going to quit right here, and frankly admit that we're

glad to get your news, -- we wouldn't be a local newspaper without it. (But some of it just HAS to go on the inside pages).

"Togetherness" as subversive and each rejoices that male is different from female. Each affirms that this apartness creates a delicious biological attraction, which does and will forever, amen, make marriage as challenging and as threatening as a ten-gallon Martini.

We Would Like To Introduce To You A Partner In Our Agency

BILL STEWART

Bill has been a resident of Friona since 1948 after spending several years in a bank in Texas. He devotes his entire efforts to agency activities. Bill is attending the Texas Association of Insurance Agents Convention in San Antonio this week.

Summer's coming, get going!

If this isn't a great time to get yourself a new Chevrolet--well, we just don't know when is. Why, you'd almost have to be anti-summer not to let one of these four convertibles get to you. Or any of Chevrolet's sedans, wagons, sport coupes and sport sedans, for that matter.

And there are a lot of other buy-now reasons besides the season. Like the care-free feeling you get on

a long vacation trip in a brand-new car. And it's a smart time to trade, what with your Chevrolet dealer all stocked up for a busy summer. Chances are, he has just the model and color you want -- be it Chevrolet, Chevy II, Corvair or Corvette--ready to go right now.

So maybe now you're all wound up? Then spring into summer at your Chevrolet dealer's.

NEW PARSONAGE . . . Rev. and Mrs. Russell McAnally stand in front of the new Methodist parsonage, which will be shown to the public Sunday as part of the open house for the Methodists' new buildings.

TOMMY SANDERS

Tommy Sanders Named Outstanding Freshman

In ceremonies at Wayland Baptist College at Plainview recently, Tommy Jay Sanders was presented a plaque in recognition of his selection as most outstanding freshman for the 1962-63 school term.

He is the son of Mr. and Mrs. John D. Sanders of Friona and is a 1962 graduate of Friona High School. Mrs. Sanders, Mrs. Aubrey Carlton and Mrs. Wesley Hardesty, all of Friona attended the Recognition Day chapel program.

Sanders was also presented a Handbook of Chemistry and Physics, given by the Chemical

Brenda Mason, daughter of Mr. and Mrs. Lee Mason, and Jerry Engelking, son of Mr. and Mrs. E. E. Engelking, are

the top students of Lazbuddie High School's graduating class, it was announced this week.

Miss Mason is valedictorian, with a four-year average of 90.73. Engelking is salutatorian, posting an average of 85.58 for his four years in high

Brenda Mason Jerry Engelking

Both students were very active in school activities. Miss

Lazbuddie Announces '63 Honor Graduates

Mason was secretary-treasurer of her senior class, treasurer of her junior class, head majorette her junior year and a pep squad member three years.

The valedictorian played basketball three years, was an FHA member four years, holding an office three times. Miss Mason has been in class plays three years, has been on the annual staff, and participated in the Interscholastic League Contests three years.

Engelking was president of the senior class, an FFA member three years, and served as co-editor of the annual. He was voted "Prince Charming" by his classmates, was in both the junior and senior plays, participated in football, baseball and volleyball four years, and was on the track and FFA judging teams two years.

Graduation exercises at Lazbuddie High School were conducted Tuesday of this week.

Scouts Hold Family Night

Boy Scout Troop 56 will have a family night program Friday beginning at 7 p.m. at the American Legion Hall.

A Court of Honor will be held, according to Scoutmaster Pete Hollis, and badges and awards will be presented.

Cake and ice cream will be served.

This year the average U.S. consumer will use only 19 percent of his earnings to buy food, a record low.

One acre in five on U.S. farms produces for export.

ASK ME ABOUT MY BUSINESS

Livestock Survey Cards Put In Mail

Postmaster Martha A. Clements reminds rural patrons of the Friona Post Office to be on the lookout for June Livestock Survey cards. Next week, mail carriers will leave

survey cards in a sample of boxes along their routes.

"USDA bases livestock and poultry estimates on replies to this survey," Mrs. Clements explains. "It is important for everyone who gets a card to fill it out and return it to the carrier. This way, USDA gets a representative sample of the area's livestock and poultry holdings."

Carriers assisting with the survey are: Noyle E. Wood, Route 1; Mrs. Claude Blackburn, Route 2; and Lewis Gore, Route 3.

Survey cards will be forwarded to Cary D. Palmer, State Agricultural Statistician in Austin. After adding and analyzing these cards, USDA statisticians are able to estimate the State's milk production, calf and pig crops, lamb and wool crops, and the number of hens and pullets.

Information from this survey will guide livestock and poultry producers in making important business decisions," Mrs. Clements concludes.

WELCOME TO FRIONA

The Jerry Powell family are recent newcomers to Friona. He is employed by Hurst Department and Variety stores. Jerry is a native of Happy, but his wife, Rosemarie, is a native of Germany, and finds West Texas quite different from her home. The children are Tommy and Ralph.

asgrow GRAIN SORGHUM

CHECK these "plus" values - they're all part of your crop investment, when you plant Asgrow hybrids

- 1 Genetically pure parent stocks, many of them developed by Asgrow and all of them reproduced by Asgrow under strictest isolation.
- 2 Careful selection of seed-production fields, to ensure maximum isolation from undesirable pollen sources.
- 3 Careful choice of top farmer-growers for Asgrow seed crops, with continuous inspection and supervision from Asgrow agronomists.
- 4 Timely harvest of seed to ensure maximum germination and vigor.
- 5 Test plantings of each seed crop before release for distribution and sale.

Mrs. Worley To Present Pupils

Piano pupils of Mrs. Ladson Worley will be presented in a recital beginning at 3 p.m. Sunday, May 19, in the auditorium of Calvary Baptist Church.

A varied program of piano solos and duets will be presented. Included on the program will be numbers by Strauss, Haydn, Beethoven, Massenet and several contemporary composers.

Pupils participating will be Sally Kendrick, Debbie Benge, Nancy Martinez, Vicki Payne, Ronnie Wiley, Kathleen Sheehan, Sheryl Worley and Mary Margaret Sheehan.

Mrs. Worley and her pupils invite all friends interested in the program to attend.

Mr. and Mrs. Frank Spencer of Cross Plains, Texas, and David Spencer of Abilene were weekend guests in the home of Mr. and Mrs. Bill Spencer. The Frank Spencers are parents of Bill Spencer and David is his nephew.

Pastor Directs Topic Discussion

The Immanuel Lutheran Church of Rhea met Wednesday at 8 p.m. at the Parish Hall for the regular monthly meeting.

Plans were made for serving refreshments during Vacation Bible School. It was also decided to use the closing Vacation Bible School program for the May family night.

Pastor E. A. Binger directed the topic discussion following the business session.

Mrs. Walter Schueler, hostess, served refreshments.

Young Family To Puerto Rico

M/Sgt. and Mrs. Bill Young and children, Valli, Vikki, Mark and Venieta left Wednesday for a three year stay in Puerto Rico.

Mrs. Young, the former Doris Taylor, is a 1950 graduate of Friona High School. Her parents are Mr. and Mrs. Slim Taylor.

Friona HD Club Enjoys Tea

A tea was given the Friona Home Demonstration Club, in honor of Home Demonstration Club Week by Mrs. T. A. Shirley last Friday.

Tea and homemade cookies were served to Mmes. M. C. Morgan, A. H. Boatman, L. D. Taylor, Earl Drake, and two visitors, Mrs. John Allen, and Mrs. Ozella Shirley.

Hospital Notes

ADMISSIONS TO PARMER COUNTY COMMUNITY HOSPITAL SINCE MAY 8, 1963.

Mrs. Albert Rolan, Brenda Blackburn, Harriette Glasscock, Phillip Brock, Mrs. Joe McLellan, Mrs. Frank Reed, Mary St. Clair, P. D. Barron, Druella Wilkerson, Buddy Fallwell, Carl Schlenker, Verda Osborn, Feema Sue Rodgers, Linda Patterson, Mrs. Eune Martin, Bessie Caldwell, Julia Vasquez, Sara Jo Spencer, Holly Ella Moore.

Party Fetes Kay Johnson

Mrs. C. W. Weatherly honored Linda Kay Johnson, a member of the 1963 graduating class, with a Coke party in her home northeast of town Thursday afternoon.

Refreshments of Cokes and cookies were served to Willene Baxter, June Phillips, Brenda Deaton, Kay Johnson, Kay Burlison, Janet Buckley, Sharon Reeve, LaVoyce Burrow, Mary Knight, Sandra Hoover and Martha Knight.

The British sang "Yankee Doodle" to poke fun at American colonists. But the Americans adopted the song and made it popular throughout the colonies, reports World Book Encyclopedia . . . and played it as the British left after the surrender at Yorktown.

BAPTISTS ABROAD . . . Mr. and Mrs. Charles Allen and Rev. and Mrs. W. C. (Bill) Burton of Friona are shown as they prepared to leave Tokyo recently. The Friona foursome is due to return home this week.

Westbrooks Have Sunday Visitors

Sunday visitors in the home of Mr. and Mrs. Bee Westbrook were Mrs. Katie Bevel, Anton and Mrs. Earl Wampler, Crosbyton, Mrs.

Bevel is Mrs. Westbrook's mother and Mrs. Wampler is her sister.

Also Mr. and Mrs. Hop Lewis and Ronnie Altman and Mr. and Mrs. Dale Westbrook and Diane.

Mr. and Mrs. Howard Mayfield returned from Chickasha, Okla. late Monday after attending funeral services for Jim Coleman there Monday afternoon. Coleman was a cousin of Mrs. Mayfield.

Mr. and Mrs. Aubrey Rhodes and son, Tim, spent last weekend visiting relatives and friends at Duncan, Okla. They returned to Friona late Sunday.

FHA Officers Installed In Formal Ceremony

The Friona chapter of Future Homemakers of America formally installed officers for the 1963-64 school term in the auditorium at 7:30 p.m. Monday.

Officers, who had been elected earlier, were Diana Taylor, president; Carolin Guinn, vice-president; Karen Osborn, secretary; Donna Fulks, treasurer; Janet Stevick, parliamentarian; Janet Rushing, historian; Frieda Floyd, sergeant-at-arms; Gay Wily, reporter; Linda Outland, song leader; and Sandra Beene, pianist.

During the recognition service, Mrs. Ernest Osborn, sponsor, was awarded an honorary membership. Mrs. Fay Reeve was recognized as the chapter mother, Mrs. Dalton Caffey, sponsor and Davey Thompson, sweetheart, were also given special recognition.

Candidates receiving chapter degrees were Rebecca Bails, Sharon Dean, Julia Dennis, Donna Fulks, Nan Lillard, Merylene Massie, Kay McBroom, Karen Osborn, Diana Taylor and Lynn Wilson.

Chapter members receiving junior degrees were Sandra

Beene, Madalyn Binger, Janet Bishop, Rita Collier, Sarah Fallwell, Frieda Floyd, Janis Goggans, Willie Grace Grubbs, Carolyn Hamilton and Charla Harper.

Also Lorene Jackson, Cecilia Jones, Myrtle Latham, Gail McGlothlin, Arieta McClellan, Sherri Tannahill, Linda Outland, Judy Phipps, Patsy Rule, Janet Rushing, Sandra Schilling, Connie Schlenker, Mary Short and Janet Stevick.

Also Marie Short, Sylvia Stokes, Jackie Washburn, Monte Sue Welch, Darlene Wilson, Margaret Wilson and Gay Wily.

Sharon Reeve received her state degree. Following the installation service, Diana Taylor presented a devotional on love. She was assisted by Frieda Floyd, Janet Rushing, Karen Osborn, Janet Stevick, Gay Wily and Sandra Beene.

Retiring officers assisting with the installation service were Sharon Reeve, Gayle White, Sharon Dean, Kay Johnson, Pat Floyd, Diana Taylor, Carolin Guinn, Marca Lynn Massie, Lynn Wilson and Karen Osborn.

About 100 guests signed the register.

SCOTT SEEDS

Scott 500	Scott 450
Here is a short-stalked, red grain hybrid with great yield potential and wonderful stand ability. Stalk height is about 12 inches shorter than RS 610. Red Grain (darker than RS 610 grain) on very large medium-dry heads. About same maturity as TX 660 and outstanding in ability to stand and to yield. Adopted to dryland or irrigation 110 days to mature.	An early grain hybrid of about the same maturity as RS 590. It is very similar to Scott 500 (above) but earliness makes this an outstanding hybrid for areas needing this factor. Red grain, large heads, high yield and shorter stalks make Scott 450 a highly desirable early grain hybrid. 95 days to mature (12 to 18 shorter an 610).
