Pfc. Lawrence Holcomb Reported Wounded in Action in France

Mrs. C. J. Holcomb received official notice from the War Department Wednesday morning that her son, Pfc. Lawrence Holcomb, was seriously wounded in action on June 14th, in France.

Lawrence left the States from Fort Dix, N. J., in the middle of March and was with the Army overseas when the invasion began. Mrs. Holcomb had just received a letter from him dated June 10th, telling her that he was somewhere in France.

A twin brother, Cpl. Clarence Holcomb, is also overseas serving somewhere in England and Pvt. Winston Holcomb is at Fort Smith, Ark.

No further word had been received by Mrs. Holcomb and her daughter, Mrs. Claude Clark who with small daughter, Janet, of Houston joined her mother here as soon as word was received.

Mr. and Mrs. Jack Walcher and Prissy left Wednesday for Dallas where Mr. Walcher will report for further orders as an Ensign in the U. S. Navy. Mrs. Walcher will visit relatives there and in Cleburne before returning to Rankin. The Walchers had as their guests here before leaving, his parents, Mr. and Mrs. N. E. Walcher of Houston and Sgt. and Mrs. W. K. Ramsey of Burk Burnett were also here Tuesday evening.

Mrs. Charlene Hunt of Alpine and her son Joe Earl who is staying with her mother, Mrs. C. O. Lowery in Rockport, were guests of Mr. and Mrs. Dunn Lowery last week.

Mrs. R. Waits from Junction spent the past week visiting her son, Bob Waits, at his ranch home.

Upton County Short In Series E Bond Sales

According to announcement by County War Bond Chairman, Wm. R. Edwards, Thursday morning the county still lacked \$16,300 in Series E Bonds of meeting its quota in the Fifth War Loan Drive which closes Saturday.

Judge Edwards is confident that the quota will be met. He says that while that is a large sum, the original figure of \$70,000 which is the quota in Series E bonds, is even larger. On Thursday \$52,700 had been sold in this series. The remainder of the county quota of \$250,000.00 had already been met, the judge stated and over.

Mr. and Mrs. Boyd Cox were in Pecos Monday.

V. C. Atkinson of Fillmore, Calif., spent the week here as the guest of relatives, Mr. and Mrs. J. M. Baxter.

Melvin Puckett, Zackie Monroe, and Clemon and Dick Wilkinson spent the Fourth in Pecos.

Misses Norma Jean Wheeler and Daphne Snell and Mrs. M. J. Edwards accompanied Miss Mary Jo Warren to Alpine Tuesday where Miss Warren will attend summer courses at Sul Ross.

Lt. Harry Swafford from Camp Campbell, Ky., is here visiting Mr. and Mrs. Walton Harrell while on furlough.

Among those attending the rodeo in Pecos over the Fourth were Will Nix, Guila Bettis, Alan Holder, Gordon Holder, Japson Pettit, Clayton Dameron, Mr. and Mrs. Walton Poage and children, Mr. Myers, Tommy Hall and Buddy Neal.

Paper Drive Announced

Announcement has been made that an active drive for waste paper is to be made in Rankin under the sponsorship of the Girl Scouts. The paper will either be picked up from your front door step or you may take it to the garage of Mrs. J. D. Starnes where it is being stored.

Jimmy Workman is visiting the W. H. Holcombe family in Pecos.

Mrs. H. Wheeler and daughters, Norma Jean and Kathleen left Wednesday for Goldthwaite.

Mrs. A. F. Eades and daughter, Mrs. Rudolph Jackson left Saturday for Amarillo where Mrs. Jackson and baby will make their home while her husband is stationed there. Mrs. Eades returned Tuesday.

Mr. and Mrs. C. G. Taylor and Shorty left Saturday for Pecos where they met their daughters, Charlene and Neva Rae, who are attending summer school at Lubbock.

With Democratic primaries only a day or so more than two weeks off county politics are still only warm and that in the face of the fact that there are plenty of names for the discriminating voter to choose from in casting his vote in county and precinct offices. Elizabeth L. Rains, for county treasurer is unopposed, Burley McCollum for Commissioner of Precinct 4 and two Justice of the Peace offices. All other places have at least two names on the ballot. The fact is, that the candidates feel that present conditions make too active campaigning look out of place.

No one really wants a reason for buying a bond—if you do there are plenty—or any other of the small things we can do. Last week the News carried stories of two McCamey boys, one killed in France, the other missing in action. This week, in Rankin, Mrs. C. J. Holcomb received word that her son, Lawrence, was seriously wounded in France. Mrs. Holcomb has three boys in the service, two overseas and her youngest still in the States. Continuing her work here her courage has been an inspiration to the rest of us. There are others in the county, too many to mention. The invasion is reaching some to us. It really touches our lives.

Maybe you read the following when it appeared in magazines in an advertisement of Nash-Kelvinator, but for those of you who may not have reprinted another of the beautiful thoughts about the things in life that really matter.

"CHURCH IN THE JUNGLE"

Dear God:
I'm going up front now.
And if you don't mind, before I go, I'd like to talk with you.
I won't ask you to intercede for me on the battlefield. I won't ask you to make things soft for me when the going gets tough.
I won't ask you to carry me. I'll take the bitter and the rough along with the rest.
I ask only this...
If we must die, let us be worthy to die...
If we must fall, let our fall be not unnoticed and alone.
We know you understand...
And we know Joe's father and Pete's wife and Jack's brother and Bill's kids and Fred's girl and my mother understand...
But help the others back home to understand, too...
Help them to understand how much devotion to their jobs means to us...
Help them to understand that here in this green hell the enemy is not a man but a devil... that if you sleep you sleep with your

finger on the filed-down trigger of a tommy gun... that sudden silence is drowned by sudden sound and the earth quakes and forests topple and hills fall and all of us live and walk in the fear of death.

Help them to understand that in a world where all we see and touch and hear is strange, a man must cling to changeless things... his home... his country... and his God...

Help them to understand we will never change our hearts and souls and minds about the things we're fighting for.

No. Out here we fight for the right to come back to our homes, our America, our way of life, for the right of all men to live and grow in a world where every man may keep forever free from hatred, greed and tyranny—his home... his country... and his God.

Amen.

County Kitchens Become Tin Mines for War Items

Women of Upton county can "mine" tin sufficient for 139 1 1-2 ton Army trucks this year.

These figures were compiled by J. A. Stewart, vice-president of the American Can Company, on a basis of canned foods consumed by civilians in the county during 1943. On the basis of last year's consumption, civilians will open approximately 348,048 cans of food this year, he said. According to a table recently issued by Washington, 2,500 cans provide tin sufficient for one 1 1-2 ton Army truck.

Meanwhile, the armed forces consumed approximately three billion cans of food during 1943 and needs for the current year are expected to rise to three and a quarter billion cans, Mr. Stewart said.

Mrs. Laura Salman visited with her son, Lt. Richard Salman and wife in San Angelo Tuesday. They had been here while Lt. Salman was on a furlough from his base in Africa and as they were returning to Miami where he was to receive further instructions, his ear became infected, bursting the ear drum according to reports. Richard is temporarily grounded in San Angelo. Late reports were that he was considerably improved.

Mr. and Mrs. Maurice Black and Mr. and Mrs. C. B. Black were in San Angelo Tuesday.

Mrs. Maude Gray of Belton is visiting with Mr. and Mrs. E. D. Y. before proceeding to the Mountains to paint landscape.

Miss Betty Jean Rhodes of eye, Ariz., arrived here Wednesday for a visit with Mr. and Mrs. Taylor and other friends.

WEEKLY NEWS ANALYSIS

U. S. Navy Blasts Japan's Fleet But Enemy Refuses Showdown; Allies Push Forward in Europe

Released by Western Newspaper Union
EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

Pacific—Circle indicates scene of big naval battle in which U. S. fleet clashed with strong Jap forces.

EUROPE: Last Stand

As U. S. Doughboys closed on the big French port of Cherbourg at the tip of the Cotentin peninsula about 75 miles from Britain, desperate German defenders acting on Field Marshal von Rundstedt's orders to resist to the last man, put up a bloody last-ditch fight, demolishing the harbor facilities to prevent their immediate use when the town fell.

As the Yanks pressed in on Cherbourg, other Allied forces along the 100-mile-wide beachhead continued to probe deeper inland, meeting up with stiff Nazi counterattacks designed to curtail their advances.

Fleets of Allied bombers roared over the battle area, hitting at Nazi strong points and aiming at enemy reinforcements moving up to the front. Ramps in the Calais region from which the Germans were launching their rocket bombs for attacks against southern England and London, remained under heavy fire of Allied aircraft.

Other Fronts

On other European fronts, the Russians reportedly launched a large-scale offensive against the Germans' big bulge on the north end of the 1,200-mile eastern battle line, while Allied troops chased the Nazis up the Italian peninsula to prepared positions guarding the northern plains.

Using strong tank and infantry forces, the Reds reportedly struck at German forces massed to retain the Nazis' last great foothold on Russian territory, even while they were continuing their drive through tiny, tottering Finland from the southwest and east. Not only would the direction of the new big offensive point Red armies toward Warsaw and Berlin, but it would also serve to whittle down a potential Nazi springboard for an encirclement attack against Russian forces to the south.

In Italy, Allied forces moved ahead after eliminating pockets of stubborn German rear-guard, putting up a desperate delaying action to permit the bulk of the Nazi forces to retire behind the new defense line.

BILL OF RIGHTS: For GIs

Estimated to cost from 3 to 6 billion dollars, congress passed and the President signed the so-called "bill of rights" for vets of World War II, designed to avoid the hardships suffered by soldiers of World War I upon their demobilization.

Under the "bill of rights," vets will be entitled to an unemployment compensation of \$20 a week for 52 weeks during the first two years after the war, if unable to find suitable work. Also available will be at least one year of schooling for vets whose education was interrupted by the war, with the government providing \$500 for tuition and \$50 monthly for subsistence, plus \$25 for dependents.

For vets seeking to buy or repair farms or homes or establish small businesses, the government will guarantee 50 per cent of the loan up to a maximum of \$2,000, with interest at 4 per cent and the amount repayable in 20 years. The veterans' administration also is authorized to spend one-half billion to provide hospital facilities for the care of returning servicemen.

PACIFIC: Japs Run Out

Venturing forth from its home waters, Japan's boasted imperial fleet sailed within proximity of the U. S.'s mighty Fifth naval force but dodged a showdown fight after U. S. planes sent one enemy aircraft carrier and three of his tankers to the bottom of the sea between the Marianas and Philippine islands.

Adm. Spruance

Plowing boldly into the foe's home waters to support U. S. marine and ground troops in their assault on Saipan island in the inner ring of the Japs' defense system, the Fifth naval force under command of Adm. Raymond Spruance offered a brave challenge to the enemy fleet close to its major bases, but the Nips broke off the engagement after suffering loss of 373 planes besides the four ships in two days of continuing action.

Meanwhile, U. S. ground forces met bitter opposition on Saipan, about 1,500 miles from the Japanese homeland, as they fought to extend their hold on the central sector of the island.

OPA: Vote Extension

By agreeing to allow revisions in ceilings of major textile items to reflect parity prices on cotton, senate and house conferences paved the way for extension of OPA to June, 1945. The nation's farm bloc scored another victory in the act's provision that the President take all lawful action to assure parity on cotton, corn, wheat, rice and tobacco.

Whittling down a maze of amendments to the act, the conferees did provide for some changes in OPA, including:
1. Filing of protests against OPA regulations;
2. Adjustment of rent ceilings where they are higher or lower than the prevailing standards, or if landlords' costs or taxes have increased substantially;
3. Permission for retailers to carry higher priced goods in certain lines than they did in the prewar period.

FOOD: Postwar Stocks

In order to avoid the glut of 1919, the government's surplus stocks of foods will be released through normal trade channels after the war, M. Lee Marshall, War Food administration director of distribution, revealed.

Although original vendors would be given the opportunity to repurchase food stocks, WFA will only accept fair bids and sell in areas where particular types of commodities are scarce, Marshall said.

With the termination of the war in Europe and the shipments of food overseas, there will be no need for the stockpiling of commodities, Marshall said. Coupled with military reserves, present food stocks should provide a large part of the needs of liberated people, who will have to eat while being rehabilitated.

CONGRESS: Spends Less

For the first time since the war broke out, congressional appropriations will fall below the 100 billion dollar mark for the fiscal year starting July 1.

Because of the completion of capital outlays and the large stockpile of war materials, Chairman Cannon (Mo.) of the house appropriations committee estimated provision of 66 billion dollars for the impending 12 months, including approximately 5 1/2 billion dollars for such items as financing the national debt.

Following Pearl Harbor, congress appropriated 147 billion dollars, and then supplied 114 billion dollars for the next year. Declaring congressional appropriations "definitely have passed the hump," Chairman Cannon said they would continue on the down-grade, regardless of war developments.

AGRICULTURE: Release Trucks

To help in the harvest of this year's big wheat crop, surplus used army trucks will be made available to farmers and haulers through the medium of county AAA offices.

Because of the limited supply of trucks, however, only a small percentage in proportion to actual demand will be available, and the vehicles will be allotted only on the basis of the most critical need.

After certification of an application by the AAA, dealers will then purchase the trucks from the U. S. treasury's regional procurement office at an appraised price, and sell to the farmer or hauler at or below OPA ceilings.

SURPLUS GOODS: Overseas Disposal

Treated as a valuable national asset, U. S. surplus goods overseas should be disposed of in foreign countries with the aim of realizing the highest possible profit, a business advisory committee established by the government said.

Although keeping one eye cocked on postwar trade, the committee advocated the disposal of surplus industrial equipment, observing that the sooner the devastated countries can be restored to production, the sooner they will cease to be candidates for relief.

In cases of low bids for surplus materials, sales might be made on the condition that the foreign purchasers will buy other new equipment from this country, the committee counseled.

RECONVERSION: Conflicting Plans

The question of whether policy on the reconversion of industry from a war to a peacetime basis should allow certain manufacturers to resume civilian output while competitors are still engaged in war work, reportedly has divided the War Production board into two camps, with W P B Chairman Donald Nelson favoring the procedure and W P B Vice-Chairman Charles Wilson opposing it.

In recently relaxing restrictions on use of materials for civilian production in areas with labor surpluses, Nelson declared that the withholding of civilian production until all companies might return to such work would result in regimentation of industry for a prolonged period.

On the other hand, Wilson reportedly contends that manufacturers allowed to resume civilian production before others would enjoy a jump in the market on war contractors, who would virtually be penalized for their efficiency in fulfilling government orders.

WHISKY: May Ban Corn
Although distillers' facilities have been released from the production of industrial alcohol for war purposes during August, the prospect arose that they would be unable to use corn in the manufacture of whisky during the month because of the War Food administration's opposition in view of the tight feed situation.

Because of this opposition, distillers may be compelled to use wheat, rye and possibly Caribbean molasses, it was reported, with restrictions even on wheat.

With farmers already having turned in close to 65,000,000 bushels of corn to the government for processing uses despite the tight feed situation existing, the WFA promised that none of the grain would be diverted to alcohol.

PATENTS
"Distinct patent rights should not be granted for the sole purpose of handicapping future inventors whose discoveries would not otherwise infringe the complete patent," ruled the U. S. Court of Appeals for the District of Columbia in a case involving a canning company.

A concurring judge stated that the decision will "require considerable reexamination—if not readjustment—of patent office practices and procedures, especially with respect to subcombination claims."

Flags on Capitol Fly Day, Night Since World War I

The office of the architect of the Capitol says that the custom of flying a United States flag night and day at all times from the east and west porticoes of the United States Capitol originated during World War I. It was felt for patriotic reasons that there should be one building over which the flag never ceased to fly.

The Capitol was selected as being typical of the United States, and as being outside of military regulations, which, of course, demand the furling of the flag at sunset.

HIGHLIGHTS . . . in the week's news

P.O.W. STRIKE: German war prisoners have refused to work in beet fields near Scotts Bluff, Neb., because their pay basis has been changed. Formerly they received 90 cents a day flat rate. This has been changed to a piece work rate of 30 cents for each quarter acre thinned. Lieut. Col. Clyde Dempster said disciplinary action would be taken if the men continued on strike.

EMPLOYMENT: A decline of 100,000 workers per month in war plants has been the trend since the beginning of the year, the department of commerce reports. While in sections shortages of manpower exist, the overall picture of the nation is a downward movement in factory employment, the report went on. In nonwar jobs, employment will remain the same.

Keep Cool With Frosty Ice Box Pudding
(See Recipes Below)

Summer Favorites

If appetites are dwindling, a real job confronts the cook. Summer or winter, the body needs nourishment, and the basic seven foods must be included in the diet.

What, then, must be done? Well, for one thing, the appetite must be coaxed with new and different combinations of food. Even in summer there should be one hot food in the meal, but the cold ones should be very cool and tempting. Attractive serving can help consumption, too. If there are cool, crisp looking tablecloths, napkins and dishes, the appetite will naturally perk up. Add to this, green, crisp garnishes, pleasing color combinations and well prepared foods, and there need be no difficulty in having the food eaten even on the warmest day.

Save Used Fats!

Today's round-up of recipes will help in planning palate-pleasing menus for hot summer days:

***Veal-Cheese Sandwich. (Makes 6 sandwiches)**
1 1/2 pound prepared veal loaf
1/2 cup cottage cheese
6 stuffed olives
1 teaspoon grated onion
1 tablespoon mayonnaise
Butter
12 slices bread

Chill veal loaf and slice thinly. Mix cottage cheese, chopped stuffed olives, onion and mayonnaise. Place veal slices on buttered bread. Top with bread spread with cottage cheese mixture. A leaf of lettuce may be placed in between. Serve with pickles and potato chips for lunch.

Jellied Chicken and Vegetables. (Serves 6)
1 tablespoon unflavored gelatin
1/4 cup cold water or stock
1 1/2 cups hot chicken stock
1/2 teaspoon salt
1 cup chicken, chopped
1 cup cooked vegetables (peas, string beans, beets, asparagus, carrots)
1/2 pimiento or green pepper

Soften gelatin in cold water. Add to hot stock and stir until dissolved. Rinse a square mold in cold water, pour a thin layer of liquid jelly. Let stiffen slightly and decorate with pepper and other vegetables. Arrange the thickening jelly, chicken and vegetables in layers and chill. Unmold on lettuce.

Lynn Says
The Score Card: Potatoes and onions are coming into the markets. They are very much usable in summertime menus.

Plan to use plenty of peaches, apricots and melons this year. Crop supplies look plentiful.

Ice cream consumption has increased from eight pounds per person in 1924 to sixteen pounds in 1942.

Homemakers are urged to can as many fruits and vegetables this season to give themselves point-insurance for the winter.

Last year, more lard was produced than at any time during the nation's history.

Egg supplies are still plentiful. Use at least one a day to fortify your diet.

Sugar stamps 30 and 31 (book 4) are each good for 5 pounds of sugar. Sugar stamp, number 40, will give you 5 pounds of sugar for canning. An extra 20 pounds of canning sugar is available with stamp 37, upon application to your local board. This will give you 10 pounds now and 10 pounds later.

Victorian Quilts For Modern Bed

ON THE center table in most Victorian parlors there was a kaleidoscope. Guests gazed into this after they tired of looking at the family album. Bits of colored glass were reflected in an endless number of intricate patterns in this ingenious device. Very much the same effect was obtained by the method of putting together the simple six-inch quilt block shown here and that is why the pattern was called the kaleidoscope.

This quilt has just the right flavor for today's decorating trends.

SIMPLE BLOCK IN STRAIGHT ROWS GIVES INTRICATE EFFECT

It will make a stunning spread for your bed either in the colors suggested here or in any other combination that suits your room. The blocks are so easy to piece and are such a convenient size to carry around that they make ideal summer pick-up work.

Barbecued Frankfurters. (Serves 6)
1 medium-sized onion, sliced
3 tablespoons salad oil
1 tablespoon sugar
1 teaspoon dry mustard
Salt and pepper
1/2 cup catsup
1/2 cup vinegar
1 tablespoon Worcestershire sauce
Drop of tabasco sauce
12 frankfurters

Lightly brown onion in salad oil. Add combined remaining ingredients, except frankfurters. Simmer 15 minutes. Split frankfurters and place in shallow baking dish. Pour over barbecue sauce and bake in moderate oven (375 degrees) 30 minutes, basting several times.

From main dishes and salads we go to desserts. These are designed to be perfect foil, light endings to meals. You'll find them flavor-perfect and easy to make:

Red Currant and Raspberry Ice Cream. (Makes 2 1/2 cups)
2 pounds red currants, stemmed
1 pint red raspberries
1 cup granulated sugar
1 pint cream or evaporated milk, whipped
1/4 teaspoon salt
1/2 teaspoon vanilla

Stem currants, wash and drain. Wash, pick over, hull raspberries. Combine both fruits, crushing coarsely. Sprinkle sugar on fruit, then let stand 1 hour. Then turn, mix in enamel saucepan, cover and cook over low flame 10 minutes, stirring occasionally to prevent scorching. Remove, squeeze through double cheesecloth. To this add the following syrup:

1/2 cup granulated sugar
1/4 cup cold water

Stir sugar and water, bring to boiling point and boil 5 minutes.

Remove, stir into first mixture, then strain again through cheesecloth. Chill, fold in whipped cream, salt and vanilla and freeze in hand freezer. Use three parts ice to one part rock salt. Freeze until solid, then pack in four parts ice and one part rock salt and let mellow for two hours.

***Fig Ice Box Pudding. (Serves 10)**
2 cups dried white figs
1 1/2 cups water
1 cup granulated sugar
1 teaspoon cinnamon
Few grains salt
1 tablespoon plain gelatin
1/4 cup cold water
1 tablespoon lemon juice
1 1/2 cups cream or evaporated milk, whipped
Lady fingers
Cornstarch custard

Cover figs with boiling water, let stand about 10 minutes. Drain, clip stems and grind or chop figs fine. Add 1 1/2 cups cold water, bring to a boil and cook about 5 minutes or until water is evaporated. Remove from heat, add gelatin moistened in 1/4 cup cold water. Stir to dissolve. Cool, add 1 mon juice and blend. Whip cream and beat into fig mixture. Line sides of a 1 1/4 quart ring mold with lady fingers. Pour fig-cream mixture into mold. Chill until firm. Unmold onto serving plate and fill center with cornstarch custard or serve plain.

SNAPPY FACTS ABOUT RUBBER

B. F. Goodrich has created and is now beginning to produce an improved general-purpose synthetic rubber, the details of which must remain confidential until after the war. Introduction of a certain abundant natural material has developed a synthetic rubber that approaches natural rubber in characteristics during processing and has proven superior in large truck tires.

State Legislators' Salaries Are From \$150 to \$2,500

For regular sessions, some 7,600 members of the 48 state legislatures receive annual salaries totaling no more than \$4,900,000, says Collier's, which is 8 per cent less than the \$5,310,000 paid to the 531 members of the Congress of the United States.

While the average compensation for all state legislators throughout the Union is about \$645 a year, their salaries range from \$2,500 in New York to \$150 in Connecticut and Kansas.

ATHLETE'S FOOT NEWS

"80.6% of sufferers showed CLINICAL IMPROVEMENT after only 10-day treatment with SORETONE"

Foster D. Snell, Inc., well-known consulting chemists, have just completed a test with a group of men and women suffering from Athlete's Foot. These people were told to use Soretone. At the end of only a ten-day test period, their feet were examined in two ways: 1. Scrapings were taken from the feet and examined by the bacteriologist; 2. Each subject was examined by a physician. We quote from the report:

"After the use of Soretone according to the directions on the label for a period of only ten days, 80.6% of the cases showed clinical improvement of an infection which is most stubborn to control."

Improvements were shown in the symptoms of Athlete's Foot—the itching, burning, redness, etc. The report says:

"In our opinion Soretone is of very definite benefit in the treatment of this disease, which is commonly known as 'Athlete's Foot.'"

So if Athlete's Foot troubles you, don't temporize with this nasty, devilish, stubborn infection. Get SOROTONE! McKesson & Robbins, Inc., Bridgeport, Connecticut.

THE OLD JUDGE SAYS...

"The men overseas don't mince any words
about the way they want to find this
country when they come marching home...
do they, Judge?"

"They certainly don't, Herb...and they
shouldn't. They're doing a masterful job
fighting over there to protect our rights and
they have good license to expect us to pro-
tect their back here at home. One thing
they're mighty clear on is their stand on
prohibition."

"Their position on that subject was stated
very emphatically in a poll taken recently

among American service men in England by
the British Institute of Public Opinion.
When hundreds of men were asked point
blank how they would vote on prohibition,
85% of them stated, in unmistakable terms,
that they would vote against it. There's no
doubt about it, Herb... the men overseas
don't want any action taken on that subject
while they're away."

"And they're 100% right, Judge, because
I know how I felt when I came home after
the last war—only to learn that we had
been over there fighting for so impractical a
thing as Prohibition."

Swing low
Sweet Kilowatt!

The cost of living has gone up like this —

But the price of electricity has come down like this!

Nobody needs to tell you that the cost of liv-
ing has been soaring toward high C.

But maybe you do need a reminder that the
cost of electricity has been sliding down.

If yours is an average household, you're
getting about twice as much electricity for
your money today as you did 15 years ago.
And 1944 government figures show that the
average price has continued to ease off a little
—even since war began. That fact ought to be
music to your ears!

Getting prices down and keeping them down
is one of the electric industry's greatest
achievements.

It took a lot of planning, perspiration and
practical business management to do this job
in wartime. All our people helped.

I'm not losing face.

I guess you've seen pictures of those real ancient cars
that are quite a fad with some prominent people. I'm
no big shot, but folks envy me, even at that, for keeping
this car like an heirloom. Oh, some say that any good
motor oil would largely do the trick, and they're welcome
to believe it. I simply say this: Keeping my engine
OIL-PLATED ever since I switched to Conoco Nth motor
oil, has helped me beat the curse of engine acids. I got
wise that acids from combustion always try to corrode
an engine's inside finish, but OIL-PLATING furnishes special
protection. A synthetic in Conoco Nth oil, I've learned,
behaves almost like magnetism. This makes the working
parts attract OIL-PLATING, and hold on to it. It's fastened
as closely as chrome plating to keep metal under cover
from acids. That would certainly be a check on corrosion,
from the minute you switch to an OIL-PLATED engine.
So just get Conoco Nth motor oil.
