

Plains Publishers, Friona's central printing plant for newspapers, did some extra late work last week so that the citizens of Hale Center would receive their weekly newspapers.

Like most of the downtown businesses, the office of the Hale Center "American" was ravaged by the destructive tornado last Wednesday, and it caught the newspaper "right in the middle" of completing its weekly printing.

Hale Center was struck by the tornado about 9:30 last Wednesday night, which caused millions of dollars of damage in the South Plains city, and killed three persons.

Tom Rambo, publisher of the Hale Center newspaper, had already run off a section of the newspaper, and was preparing to run the paper's front section when the Civil Defense sirens began to blow.

"We looked out the door and the tornado was less than 100 yards away," Rambo said while in Friona Thursday. Rambo and his employees ran across the street to a storm shelter where some 30 or 40 people had gathered. "We barely made it," he said.

The tornado blew the side out of the Hale Center American office, slammed two heavy Linotype machines together, and covered the press with debris.

A neighboring newsman, Bob Hamilton of Plainview, joined Plains Publishers owner W. H. Graham in Hale Center, and the two worked through the night Wednesday helping Rambo "re-assemble" the front section of the week's edition.

Finally, late Thursday the paper was brought to Friona and the front section was printed. Hamilton, who edits two weekly publications, "The Plains Farmer" and "The Kress News," both of which are printed in Friona, took several pictures of the tornado's aftermath, and put them together in an eight-page tabloid, which was circulated along with the Hale Center paper.

Plains Publishers printed 2,200 copies of the special section, which is the regular "run" for the Hale Center American. However, publisher Rambo called over the weekend to say that the papers had all been sold by Friday, and ordered another 1,000 copies.

Because of the damage to the newspaper's equipment, Rambo plans to continue having the paper printed in Friona, at least on a temporary basis.

Also being currently printed at Plains Publishers is the Abernathy "Review," published by Buford Devport. The Abernathy newspaper is ordinarily printed at Hale Center each week.

Word in the papers this week says that the irrigation water depletion "test case" of Peterburg farmer Marvin Shurbet has passed the 5th Circuit Court of Appeals, and may be headed toward a reality. The case, which seeks to classify irrigation water as a depletable mineral, would mean millions of dollars in tax savings to High Plains farmers.

P.C. Implement Changes Owners

A change in the ownership setup at Parmer County Implement Company was announced this week.

Newman Jarrell, Jr. and Rene Sneed, formerly partners with Andy Hurst, have sold their interest in the company to Hurst and Ronnie George, who is moving to Friona from Turkey, Tex.

A graduate with a degree in agriculture at West Texas State University in 1963, George has worked for the International - Harvester Company the past year and one-half.

IN 1965 PROGRAM

New F-M Road Approved From Black To US 86

The Texas Highway Commission has approved expenditure of \$312,000 for construction of a new 12.5-mile Farm to Market road in Parmer County as part of the state's 1965 FM Road program.

The new road will go south from U. S. Highway 60 at Black. It will intersect FM 2397, which runs eastward from Friona, and will continue across that road until it intersects state highway 86 at the point where present FM 1172 intersects the road.

Announced this week by District Engineer Oscar Crain of Lubbock, the 1965 Farm to Market program gives Parmer County 20 per cent of the new road mileage in its seven-county district. The mileage announced for Parmer County was the most in the entire district.

The estimated cost of the Parmer County project (\$312,000) is 25.8 per cent of the total proposed expenditure for the entire district.

Other counties in the state's highway district number five,

along with the proposed number of miles of new roads, are as follows: Bailey (7.5); Castro (6.7); Lamb (10.2); Lubbock (10.4); Lynn (10.0) and Swisher (4.8).

The Parmer County work will be under the supervision of Rhea Bradley of Littlefield, resident engineer for the State Highway Department.

A total of 62.1 miles will be paved in the entire district, costing an estimated \$1,210,000.

Work authorized for Parmer county is part of a 911.2-mile state-wide farm-to-market road-building program for 1965 as approved today by the Texas Highway Commission. The program will include 207 individual projects in 153 counties to cost an estimated \$23.5 million.

The action brings the total designated FM system to 37,779 miles, of which 35,026 had been built by April 30. Another 773 miles were under construction on that date.

The farm-to-market road program is an annual road-

building undertaking of the Texas Highway Department as provided by State law. Total cost of the 1965 program is approximately one-half million dollars in excess of the basic statutory requirement of \$23 million.

With addition of the new miles authorized for construction by the Commission today, the designated Texas Highway System now totals 66,518 miles. Of this designated mileage, 3,027 miles represent the Texas portion of the Interstate and Defense Highway system and 25,712 miles are a part of the primary system (U. S. - and State - numbered highways). Remaining mileage is farm-to-market roads.

The Texas farm to market road system is the most sophisticated and highly-developed rural highway network in the nation. So extensive is the Texas FM-RM system that it is equivalent to 1-1/2 times the total combined mileage of the entire State-maintained highway systems of the six New England States --

Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut.

More than 8,000 busses carry nearly 456,000 Texas youngsters to classes over more than one-half million miles of streets and highways each school day. The Texas Education Agency estimates that most of these young people travel over FM roads for a part of all of their daily trip to and from classes.

And nearly 50,000 miles of farm to market roads are traversed each day by rural mail carriers.

Approximately 71 per cent of the new farm to market roads approved today by the Commission presently are in use as school bus routes, and 68 per cent are used by rural mail carriers.

It has been estimated that a school bus can operate at least two cents a mile cheaper on a paved FM road than on a dusty or muddy county-maintained road. Through the use of these state rural paved roads mail service is improved and children are transported to school more safely and over greater distances at lower cost.

Traffic on the state's FM roads ranges from a low of 25 vehicles a day to 15,000 to 20,000 vehicles a day. The average is 330 vehicles a day.

Use of the modern FM system has taken an odd turn since it originally was conceived and initiated with passage of Senate Bill 287 (the Colson-Briscoe Act) in 1949. The aid at that time was to "get the farmers out of the mud," and enable them to get their produce and livestock to market.

Conversely, as the population movement has been into urban areas in the last decade and a half, city residents now have made "market to farm" roads of the FM routes as they seek week-end pleasure on the lake, in the hill country or at the seashore.

The farm-to-market road system in Texas now represents approximately 56.7 per cent of the designated 56,518-mile state-maintained highway system. Present projections call for an ultimate 50,000-mile FM road system in Texas.

Increasing maintenance cost of the farm-to-market system has become a major budget item of the Texas Highway Department -- some \$21 million a year.

Total cost of the present farm-to-market system -- including initial cost, improvement and betterment -- amounts to about \$830 million. Much of the increased cost of construction and maintenance of the FM roads has resulted from the higher-type construction and

BY COUNCIL

Final Plats Approved For Two Friona Subdivisions

Approval of the final plats for Welch Acres and Western Addition, the two subdivisions which have been approved for annexation, highlighted the monthly meeting of the Friona City Council Monday night.

In connection with the subdivisions, the petition and official city ordinances were passed which made the two additions a part of the city.

The council heard a request from both Nelson Welch, developer of Welch Acres, and Bill Sheehan, developer of Western Acres, to have an es-

crow security commitment made with L. A. Purcell of Lubbock, to take care of paving in the new additions, in lieu of the cash escrow which would be due the developers.

In other business, the council approved ordinance number 476, which was a rate adjustment for Southwestern Public Service Company's electrical franchise. The new ordinance will allow the company to figure their rates on the basis of two basic rates, rather than the six or seven as are in the old setup.

H. L. (Hank) Outland, local Southwestern Public Service Company manager, stated that the average electrical customer's bill would change very little. Residential bills will receive an automatic 12-cent reduction per month, as the charge for the use on the first 40 kilowatt hours is set up 12 cents below the former rate.

Large businesses which use a lot of electricity will benefit from the new rate structure, which will allow them a saving. On small and medium-sized businesses, some will show a small decrease; others a small increase in their monthly bill.

City Manager A. L. (Jake) Outland discussed the budget for the fiscal year 1966 with the council members.

Outland reported in his monthly summary of city business that only four building permits were issued during the month, totalling \$24,750.

Included in the building permit figures were permits for a new residence costing \$7,500; an addition costing \$14,000; an addition to an office building estimated at \$3,000 and a location of a trailer house at \$250.

The water department records showed that 21,229,100 gallons of water were pumped during the billing month, averaging 684,809 gallons per month, slightly lower than the previous month. A total of 2,31 inches of moisture fell during

(Continued on page 2)

Wilson Heads Board For Wheat Growers

Ralph Wilson was elected president of the board of directors at the annual meeting of Friona Wheat Growers, Inc. Tuesday, following the 31st annual meeting of the organization.

Wilson was re-elected to the board of directors at the election by the corporation's membership, and Curtis Murphree was elected to fill the spot vacated by A. W. Anthony, Sr., who did not seek re-election.

It was explained that Anthony has disposed of his land, and since it is required that a director be a landowner and producer, he was obliged to step down

from the board of directors. E. L. (Hap) Fairchild was elected vice president and Clyde Goodwine was named secretary-treasurer. W. M. Massie is a holdover director along with Fairchild.

The corporation's annual audit was given by Bernice Gowens of Glover, Graham and Brown. The audit showed that Friona Wheat Growers would pay out a cash distribution to its membership of \$293,161.99.

Friona Wheat Growers have paid out \$2,122,759.11 in cash distributions in the past five years and \$4,358,909.58 in its history.

BOTH USED BUILDING . . . Glenn Reeve, who was a student in the "Old Red" building for practically his entire time in public school at Friona, points to the room where he started to school to Carol Morgan, daughter of Mr. and Mrs. Bill Morgan. Reeve was among the first students to attend school in the building when it was completed in 1923. Carol was among the last group of students who attended school there this spring. She was a fourth-grade student in Mrs. Tom Bandy's room.

"Old Red" School House Comes A' Tumblin' Down

"They just don't build buildings like that anymore," stated Myer Spector, of Spector Demolition and Salvage Company, which is tearing down Friona's "Old Red" school building to make way for construction of new classrooms.

Spector's company has made a lot of progress toward tearing down the old building, which was completed in 1923. "Old Red," as it has been known for the past several years, has served Friona School District for 41 years.

For the first eight years or so of its "life" the building

housed all 12 grades for the Friona school system. Then when a high school building was built in 1931, the "Old Red" building became the grade school facility.

It has served to house various parts of grade school in the intervening 34 years, being used for the fourth, fifth and sixth grades in recent years, since completion of facilities to the south of the building and across the street.

The building was completed in 1923. It was built just behind the place where the original Friona school building had

stood. That building was destroyed by fire in 1922.

Two men who were members of the school board when the building was built are still living in Friona. They are J. W. (Uncle John) White and T. J. Crawford. The architect for the job, E. R. Rittenberry, still lives in Amarillo, and the firm he established is still doing business through his two sons.

The building was remodelled around 1940, and then when the present gymnasium and auditorium were completed in 1951, it was again remodelled, with additional classrooms added where the old auditorium had been in the upstairs area.

Six classrooms were added, so that for the last 14 years the building has had 13 classrooms and a large basement which has been used for music and art classes. The basement originally was the school's gymnasium.

Also during the latter remodelling periods, restrooms were added to the upstairs for the first time.

Spector, while supervising the demolishing of the building which has been "school" for so many Friona residents, pointed out that the lumber used in the building is virgin long-leaf yellow pine.

"It's of a fabulous quality. You can't even find lumber like that anymore," the contractor said.

Gas Users' Meeting Is At Hub Tonight

A meeting of Parmer County Irrigation Gas Users Association will be held tonight at the Hub Community Center.

The meeting will begin at 8 p.m.

The organization, which has had as its principal aim the securing of better and less expensive gas service for irrigation, will hear a report of farmers in the Black area who are to begin purchasing gas from Transwestern Gas Company.

The group, which formed a cooperative under the name of Plains Gas Farmers Cooperative, owns a total of 87 wells, and have requested that Pioneer Natural Gas Company, the present gas supplier for the entire area, cut off the service to their

farms on June 15.

Also on the program, a report will be heard from the Tri-County Gas Co., Inc., a group of farmers from the southern portion of Parmer County, as well as parts of Bailey and Lamb counties, who are attempting to buy gas from El Paso Natural Gas Company, which has a line traversing their area.

Directors of Plains Irrigation Gas Users Association will also attend the meeting.

All irrigation farmers are invited to attend.

JUNE 18-20

Invitational Golf Tourney Is Slated

The fourth annual Friona Invitational golf tournament is scheduled June 18-19-20.

The tournament will consist of 16-player flights. Invitations have been mailed to 93 area clubs, in West Texas and Eastern New Mexico.

Qualifying round will be played June 17. Those unable to play on that date are asked to call in their handicap. Tournament chairman is H. K. (Pudge) Kendrick. He can be reached at 247-3134.

Entry fee is \$15 per person. Wayne Wash is host pro. He may be reached at 247-3125 or 247-2471. First place in each flight will get a set of Walter Hagen irons. Second-place in each flight will get Hagen woods. Consolation winners will receive a Wilson golf bag.

Defending champion is Max Hickey of Pampa. Eighteen holes of match play will be featured on Friday and Saturday. On Sunday, the championship flight only will be medal play. Other flights will continue in match play.

LIBRARY SERVES COMMUNITY. . . Young readers of three different nationalities availed themselves of the opportunity of checking out books from the Friona Public Library Tuesday morning. Pictured here are Carmen Aguirre, 8; Sherri Grant, 5; Tanya Smith, 8, and Christine Grant, 11. To date 68 persons have registered for the library sponsored reading program with 49 new readers being registered this week. Last week 150 readers checked out more than 200 books.

ART DISPLAY . . . Visitors to the hospital's open house on Sunday were able to admire the art display by Friona artists. The display was moved to Friona State Bank, and will be there for another week.

"OLD RED" . . . Friona School District's oldest building, which is currently being torn down, is shown in these two views. The upper picture was taken in the 1920's when the building was fairly new, and the bottom picture was taken shortly before the "tearing down" process began.

O. D. Fleming's Services Set

Mr. and Mrs. Raymond Fleming received word of the death of his father, O. D. Fleming, Alamosa, Colo., about noon Tuesday.

Fleming was a long time resident of the Melrose, New Mexico area but had lived in Colorado about 25 years.

Funeral services are today at 10 a. m. (MST) at Alamosa, Colo. The body will be brought to Melrose, N. M., for burial. Graveside services will be held

Friday at Melrose at 2 p. m. MST.

Fleming formerly lived in Friona, and in the Lazbuddie community.

He is survived by five sons: Lawrence of South Fork, Colo.; Raymond, Friona; Nathan, Monte Vista, Colo.; Fred, Peru, Ill.; O. D., Jr., Raton, N. M., and three daughters, Mrs. Bennie (Valma Lee) Bedenbaugh and Mrs. Dave Holzman of Tampa, Fla. and Mrs. J. E. Mumm of Alamosa.

J.B. Westbrook Passes Away

J. B. Westbrook passed away yesterday in Lubbock. Funeral services are scheduled Friday at 2 p. m. at the Arnett-Benson Baptist Church there.

Survivors are his mother and father Mrs. and Mrs. Bee Westbrook, a brother, Dale and a sister, Mrs. Hop Lewis, all of Friona.

Travis Graves Attending Annual Boys State Meet

The American Legion Boys State commenced today as 750 high school boys from throughout the state began registration. Lewis W. Emerich, State Commander of The American Legion, has announced.

Among those registering from Friona were Doyle Lynn Johnson and Travis Eugene Graves, who were sponsored by local American Legion Posts, Johnson is a student at Farwell High School.

Upon arrival at the University of Texas Campus, each citizen was assigned to one of two political parties - the Longhorn or Pioneer. Each citizen then functions as a member of his party; he attends its conventions, caucuses and votes in its primary.

In Boys State, The American Legion provides the type of program where the young citizen has the opportunity to learn for himself that his government is just what he makes it. The boy "learns to do by doing."

Highlight of Boys State will be a trip to the Capitol on Friday morning where each elected Boys State Official will be given an opportunity to serve in his respective office for a day, followed by the Governor's Ball Friday evening.

Outstanding speakers scheduled to appear are Department Commander Lewis W. Emerich, Houston; Bill Ellington, Assistant Football Coach, The University of Texas; G. Ward Moody, Past Department Adjutant, Austin; American Legion Auxiliary President, Mrs. Joe L. Matthews, Fort Worth; Zolie Steakley, Associate Justice, Supreme Court of Texas; H. Roe Bartle, Kansas City, Missouri; Homer Garrison, Jr., Director, Department of Public Safety; Robert W. Calvert, Chief Justice, Supreme Court of Texas; Tom Creighton, President Pro Tempore, Texas Senate; and Waggoner Carr, Attorney General of Texas.

Boys State enrollment this year brings the total to 11,156 junior high school boys who have attended since 1940, when Boys State was first inaugurated in Texas.

Council . . .

(Continued from page 1)

the period, however, which was very beneficial to vegetation and cut down considerably on the watering of lawns and gardens.

Only one new service tap was made during the month, to bring the total number of active services at the end of the month to 998.

Two stoppages were corrected and seven new sewer taps were made to bring the total active sewer taps as of the end of the month to 929.

The sewer main line from Staley, Lakeside, McMillan-Fergus and Drake additions became clogged on the afternoon of May 7. All personnel worked for about two hours to correct the flow. Several pairs of ladies' undergarments and a plastic bag were recovered as the cause of the stoppage.

Fire department records show that four fire calls were made during the month. Three of these were outside the city limits for an estimated loss of \$6,700. The one inside the city was an automobile, for an estimated loss of \$50.

Regularly - scheduled drills were held May 6 and 20. A check in the amount of \$750 was received from the Farmer County Clerk May 12, as the county's contribution for the city's participation in the control of rural fires.

Spring Is Named To Bankers Committee

A local resident has been named to the Agriculture-Rural America Committee of the Independent Bankers Association of America, an organization of 6,300 banks in 40 states.

The announcement was made by Ralph L. Zuan, IBA president and executive vice president, Grafton State Bank, Grafton, Wisconsin. Committee members will serve through the IBA's 32nd annual convention at the Dunes Hotel in Las Vegas, Nevada, April 26, 27 and 28, 1966.

Members of the committee are:

Chairman, Russell Hanson, vice president, Swift County Bank, Benson, Minnesota; O. K. Anderson, president, State Bank of Lakota, North Dakota, Stephen Garst, vice president, Iowa Savings Bank, Coon Rapids, Iowa; H. L. Gerhart, Jr., vice president and cashier, The First National Bank, Thayer, Kansas; W. T. Richards, president, The First National Bank

Farm Road . . .

(Continued from page 1)

traffic service demanded by modern-day traffic. Some of the FM roads are four-lane, divided with paved shoulders and other refined features undreamed of 15 years ago.

The minimum construction requirements for an FM road are two lanes of 10 feet each with 24 feet for bridge width and a minimum bridge load limit of 15 tons. This is sufficient to satisfy demands of FM roads serving local traffic only, but not sufficient to meet the needs of many through routes which link Texas farms and ranches with distant markets.

Police department records revealed a total of 26 arrests during the month. Nineteen of these were for traffic violations. Three were for drunkenness; three were minors with alcoholic beverages in their possession and one was held for county officials.

W. A. Hatfield was employed as night patrolman and began work the first of the month, replacing Gary Durrage who left Friona to begin work as a deputy at Hereford.

The 10-foot gravel spreader with agitator arrived May 13. An attachment bar is being made to fit the city's dump truck, and it will be placed into service soon. The new International-Harvester model 404 tractor with five-foot mower-shredder was received and put into service May 26.

Hearts and Hunting

Tell your doctor your hunting plans before you go. Let him know the altitude and kind of country. Follow his advice on rest and work.

A SERVICE OF YOUR HEART ASSOCIATION

Elderly people, if they live in rural areas, need not give up the idea of building, buying or repairing their homes on credit.

This word comes from Billy R. Boling, Farmers Home Administration county supervisor, serving Parmer County.

Boling said citizens who are 62 years and over, living in a rural community of 2,500 or less, may be eligible for a 33-year loan bearing 4 per cent interest to buy an older home or build a new one.

The FHA supervisor said elderly residents may also be eligible for smaller loans for home repairs.

He pointed out the increasing demand in small towns for rental units designed to meet the housing needs of older folks.

The Farmers Home Administration can loan direct funds to non-profit organization for construction of senior citizen rental housing units designed for independent living.

Funds for construction of senior citizen rental housing units may also be provided by private investors with FHA guaranteeing repayment.

This fiscal year through April 30, Farmers Home Administration has advanced \$5,586,876, to senior citizens for construction, buying and repairing of individual homes. The total loaned is up 17 per cent over a similar period last fiscal year.

Over 1,200 elderly people in the 30 states, Puerto Rico and the Virgin Islands were able to get loans for new or improved housing through the senior citizen rural housing program of Farmers Home Administration.

Another \$1,248,510, was advanced by the U. S. Department of Agriculture agency for the construction of rental housing units for senior citizens during the same period, July 1, 1964 through April 30, 1965. "Farmers Home Administration's senior citizen housing loan program offers citizens, 62-years and older, an opportunity to have housing suited to their needs in the community in which they have spent their working years," Boling said. "This program also stimulates the local economy by providing jobs for workers engaged in the construction industry and customers for local trades and services."

In 1962 Congress authorized Farmers Home Administration to make direct loans and insured loans to individuals and corporations to finance rental housing for the elderly.

FHA direct loans for senior citizen rental housing in rural communities bear 3.75 per cent interest, with up to 50 years for repayment.

But loans insured by the agency for rental housing currently bear 5.75 per cent in-

terest. Borrowers have up to 40 years to repay.

Additional information about the senior citizen rural housing loan program is available at the Farmers Home Administration office, Room 17, County Court House, Farwell, Texas.

Friona Star Friona, Texas

Dear Sirs, Enclosed find five dollars. Please extend my subscription to the Star.

It was very kind of you to send me the Star - tho by rights my subscription had expired.

Here in Las Vegas, Nev. our weather is fabulously beautiful. Now is the perfect time of the year for visitors as it gets pretty hot in the summer. Our annual Helderado parade is being held this weekend and among the many other interesting things to see in Las Vegas, it is one of the most exciting.

May I say once again how very much my husband and I enjoy the Star - especially the many pictures, which are a good reminder of the many wonderful people who make Friona their home.

Our "Thanks" to you and your staff and keep up the good work.

Very Truly Yours, Alice Palmateer Baker

GERMAN TWISTS
3 1/2 cups sifted flour
1 tsp. salt
1 cup shortening (part butter)
1 pkg. dry yeast
1/4 cup warm water
3/4 cup thick sour cream
1 whole egg and 2 egg yolks well beaten
1 tsp. vanilla
1 cup sugar

Sift flour, salt into mixing bowl, cut in shortening. Dissolve yeast in water. Stir into flour mixture with sour cream, eggs, vanilla. Mix well with hand. Cover with damp cloth and refrigerate 2 hours. Roll half of dough on sugared board into an oblong 8 x 16. Fold ends toward center, ends overlapping. Sprinkle with sugar, roll again to the same size. Repeat a third time. Roll about 1/4 inch thick. Cut into strips 1 x 4". Twist ends in opposite direction--stretching dough slightly. Put in shape of horseshoe on ungreased baking sheet--pressing ends to keep shape. Repeat with rest of dough. Heat oven to 375 degrees. Bake about 15 minutes or until delicately brown. Take from baking sheet immediately. Makes about 5 dozen.

According to the Public Health Service Surgeon General effective vaccines, drugs and other control measures give ground for hope that diphtheria, whooping cough, polio, tetanus, rabies, measles, typhoid fever, syphilis and gonorrhea can be eliminated in

the United States well before 1985. He added that the next two decades may bring a vaccine against leukemia, other progress against cancer and development of artificial hearts.

In the view of President Carey of the Chamber of Commerce of the United States, a step-

in automation is essential of this country is to eliminate poverty and unemployment, compete in world markets, and raise its living standards. He says: "There just isn't any way that we can attain all these objectives without a tremendous increase in productivity, and there just isn't any way to get that productivity without turning more and more to automation in our business processes." In the next 10 years, it is forecast we will have to create 15 million new jobs to provide for the new persons entering the labor force, at a cost of between \$225 and \$330 billion in investments.

Women's Wear Daily says: "An industrial 'spy school' has been opened in Tokyo to train personnel of Japanese big business in (the) art of industrial espionage and counterespionage. Curriculum deals with how to steal a competitor's sales promotion program, how to protect your own company's program from being lifted by a rival firm. Advanced student work deals with use of special cameras and how to sift useful information from trade publications."

The American Petroleum Institute reports that U.S. reliance on oil as a primary source of energy resulted in total domestic consumption of more than 4 billion barrels of petroleum products during 1964. This is the equivalent of almost 900 gallons for every American man, woman and child.

ANNOUNCING A CHANGE OF OWNERSHIP

**NEW PARTNERS
ANDY HURST - RONNIE GEORGE**

We invite you to get acquainted with Ronnie.

He is an IH trained graduate from West Texas State at Canyon. Ronnie has attended all the schools International Harvester has and is a recent employee of International Harvester. We know you will find him personable fellow and one with a lot of knowledge in the IH line.

Rene Sneed will remain as in the past.

Business will be as usual. We invite your continued patronage. We will continue with our same personnel and same quality service.

Looking forward to seeing you

START SAVING NOW WITH PHILGAS TRACTOR FUEL

Compare the cost of Philgas against the cost of operating your tractor with other types of fuel. Figure out the saving yourself. Then remember that with Philgas there's less oil contamination and less engine deposits on rings and valves... which means lower maintenance costs.

The sooner you convert your tractor to Philgas, the sooner you begin to enjoy the savings this clean, high octane fuel makes possible. Your present tractor can be converted to Philgas easily, at no great cost. Or, if you plan to buy a new tractor, investigate the ones factory-made for Philgas.

Philgas is the Phillips Petroleum Company trademark for its high quality propane, butane or LP-Gas.

GALLOWAY IMPLEMENT

Engagements Announced

AUGUST WEDDING PLANNED . . . Mr. and Mrs. R.B. Seaton, Route 1, Muleshoe, have announced the engagement and approaching marriage of their daughter, Gayla Roxann, to Donald Wayne Roberts, son of Mrs. O. R. Roberts, 3306 Baylor, Lubbock, — and the late Mr. Roberts. Miss Seaton is a graduate of Lazbuddie High School and a sophomore home economics major at Texas Tech. Her fiancé, an Abilene High School graduate, is a civil engineering major at Tech. Vows will be exchanged August 28 at Muleshoe Assembly of God Church. Friends and relatives are invited to attend.

WEDDING PLANS ANNOUNCED . . . Mr. and Mrs. Troy Hutson have announced the engagement and approaching marriage of their daughter, Shirley, to Fred Ferguson, son of Mr. and Mrs. V. M. Ferguson. Wedding vows will be exchanged at 5 p. m., July 14 at Calvary Baptist Church. Wedding invitations are not being mailed locally, but all friends of the couple are invited to attend.

BETTY DRAKE PLANS WEDDING --- Mr. and Mrs. Arthur Drake have announced the engagement and approaching marriage of their daughter, Betty, to Floyd Reeve, son of Mrs. Fay Reeve and the late Hadley Reeve. Wedding vows for the couple will be read at Friona Methodist Church, July 24 at 7 p.m. Miss Drake is a graduate of Friona High School and Northwest Texas Hospital School of Nursing, Amarillo. Reeve, also a graduate of Friona High School, attends West Texas State University, Canyon. Wedding invitations are not being mailed locally, but friends of the couple are invited to attend.

W.S.C.S. Circles Conclude Year's Work

The Mekka Circle of Woman's Society of Christian Service of Friona Methodist Church met Wednesday at 9 a. m. in Fellowship Hall of the church for the concluding meeting of this year's program of work.

Highlight of the meeting was presentation of a life membership pin to Mrs. Ralph Shelton. The presentation was made by Mrs. Ernest Osborn. Following a brief business meeting, directed by Mrs. H. R. Coconougher, circle leader, a gift was presented to her.

Mrs. Eugene Ellis directed a discussion on Spanish Americans. She also presented a report from Dr. Frank Lauback,

who is observing his 80th birthday. "Guidelines For The Future" was the title of a presentation by Mrs. George A. Jones. She outlined ways to better serve the needs of Spanish Americans.

Following a report by Mrs. U. S. Akens on findings of the study and actions committee, plans were made for the society to sponsor a class for Spanish American women in the

Friona area. The women will be taught sewing, child care, health and hygiene and other things of special interest.

Mrs. Ernest Anthony presented a devotional on prayer and gifts were presented to Mrs. Eugene Ellis and Mrs. George A. Jones.

Others present were Mesdames Howard Love, J. L. Shaffer, E. S. White, A. L. Cutland, I. T. Graves and Floyd Rector.

Of Interest To ★ THE WOMEN ★

Double Ring Ceremony Unites Shirley Price, Teddy Osborn

Shirley Sue Price, daughter of Mr. and Mrs. A. C. Price, Friona, became the bride of Teddy F. Osborn at 7 p. m. Thursday, June 3, Mr. and Mrs. Forrest Osborn are parents of the groom.

The double ring ceremony was read by Rev. Russell McAnally in the Friona Methodist parsonage.

Mrs. Frank Matlock, aunt of the groom, was matron of honor. Frank Matlock was his nephew's best man.

The bride wore a street length

dress of robin's egg blue taffeta designed with a fitted lace covered bodice with scooped neckline and long fitted sleeves. The bouffant skirt was of taffeta and nylon chiffon. Her corsage was a white orchid.

A reception at Federated Clubhouse followed the ceremony. The serving table was covered with a white net cloth

over satin and centered with a tiered wedding cake topped with a bride and groom standing under a heart shaped arch. Mrs. Osborn, mother of the groom, baked the wedding cake. Blue carnations interspersed with silver bells completed the decorations.

Guests were registered by Wanda Price, sister of the bride.

Cake and punch were served by Mrs. Carl Osborn, Sally Wilkerson, Audrey Kelley, Chloe Ann Ford, Karen Osborn, Mrs. Joe Lewellen and Ann Kelley.

Following a wedding trip to Lake Texoma, Mr. and Mrs. Osborn will be at home here.

Churchwomen Meet Friday

Plans have been completed for the June 25 meeting of Interdenominational Church women of Friona at 2:30 p.m. at Friona Methodist Church.

A speaker will be provided by First Baptist Church. Mrs. R.B. McKee, president, urges all women to attend the meeting.

Mr. and Mrs. Jim Kohler and daughter of Hooker, Okla. were weekend guests in the home of Mrs. Dorothy Hough.

Mrs. Kohler is the former Sally Hough.

Hydes Have Houseguests

Houseguests in the home of Mr. and Mrs. H.A. Hyde last week were Rev. Omer Hyde, Olympia, Washington, Rev. Cecil Sims, pastor of Lakewood Baptist Church, Tacoma, Washington, and Mr. and Mrs. Cecil Sims, Sr., Hawking, Texas.

Rev. Hyde, son of the couple, and Rev. Sims attended the Baptist General Convention at Dallas and were accompanied back to Washington by the parents of Rev. Sims.

Rita Underdown Weds Charles Douglas Frye

Wedding vows were exchanged between Rita Sharon Underdown, daughter of Mr. and Mrs. Walter Underdown, and Charles Douglas Frye in an afternoon ceremony at Friona Methodist Church Sunday.

The double ring vows were read by Rev. Calvin Beach, pastor of First Baptist Church, Lazbuddie, before an archway of greenery centered with white wedding bells and flanked by urns of white chrysanthemums.

Traditional wedding selections were presented by Darrell Gene Anthony, pianist. He also accompanied Mrs. Dale Smith soloist, as she sang, "I love You Truly," and "I'll Walk Beside You."

Bette Bass was maid of honor. Bridesmaids were Nancy Webb, Sheryl Frye, sister of the groom and Elaine Phipps, niece of the bride. Robbie Martin was flower girl.

Bridal attendants wore street length dresses of romance mint taffeta veiled with mint chiffon. They were designed with fitted bodices, bell skirts and scooped necklines. Their headpieces were mint green illusion shirred to matching taffeta bands. Each attendant carried a long

stemmed red satin rose. Lawrence Jackson, Hereford, was best man. Groomsmen were Darrell Mason and Joe Tarter. Gale Morris was junior groomsman. Terry Phipps, nephew of the bride was ring bearer and Bing Bingham and Bobby Sims served as ushers.

The bride, escorted to the altar and given in marriage by her father, wore a formal wedding gown of white satin. It was designed with a fitted bodice of lace over satin, long fitted sleeves which terminated in points over her hands.

She wore a shoulder length veil of silk illusion secured by a lace pill box and carried an arrangement of red and white carnations atop a white Bible.

Guests were registered by Kay McBroom. Out-of-town wedding guests were from Tulsa, Farwell, Muleshoe, Odessa, Hereford and Lazbuddie.

Following a brief wedding trip Mr. and Mrs. Frye are at home on a farm southeast of Friona.

Mr. and Mrs. Lloyd Rector and children, Ricky, Larry, Roy Don and Sherri spent the weekend visiting in the home of Mr. and Mrs. W.H. Awrey Jr. and children at Ulysses, Kans. The Awreys are former Friona residents.

Lois Moyer and Patsy Hough, students at Hardin-Simmons University, Abilene, spent the weekend visiting their parents, Mr. and Mrs. O. B. Moyer and Mr. and Mrs. Spencer Hough. They returned to Abilene for the summer session at Hardin-Simmons.

Black HD Club Has Final Meet

The final meeting of Black Home Demonstration Club for this year was held Thursday afternoon in the home of Mrs. Rosco Ivie. Special guests were Mrs. Teddy Fangman, Mrs. David Eddington and Mrs. Tommy Tatum.

Mrs. Bill Carthel demonstrated a new method of ironing. The new method is designed to reduce time required time to

iron dresses, shirts, blouses and similar garments.

During the social hour refreshments of cake, coffee and tea were served by the hostess.

Club members present were Mrs. Carthel, Mrs. Ellis Tatum, Mrs. Harry Lookingbill, Mrs. Burl Fish, Mrs. Dick Rockey, Mrs. Helen Fangman and the hostess.

**In And Around
Friona
with June Floyd**

A few months ago we ran a picture of Houston's new Astrodome in the Star and I'm hoping Mayor Louie Welch and other influential citizens of that city realize the effect of such publicity.

Several Friona residents have already attended baseball games in this colossal new structure. Mr. and Mrs. Ed White and their son-in-law and daughter, Larry and Lois Milligan, were in Houston and attended several baseball games. Later Mr. and Mrs. Bert

Son Born To Morris Deatons

Mr. and Mrs. Morris Deaton became the parents of a baby boy at 2:55 p.m. Thursday, June 3, at Farmer County Community Hospital. He weighed 8 lbs. 6 ozs. and was named Michael Dell.

Mrs. Deaton and Michael Dell were dismissed from the hospital Sunday.

Grandparents are Mr. and Mrs. E.E. Deaton, Friona, and Mr. and Mrs. Gordie Asher, Bagwell, Texas. Mrs. Asher has been a guest in the Morris Deaton home several weeks and returned to her home early this week.

Get Acquainted Dinner Honors Connie Zurovec

Mr. and Mrs. Bob Knight of Muleshoe were hosts at a get-acquainted dinner in their home Saturday evening honoring Connie Zurovec, bride-elect of their son AIC Quentin A. Knight of Lackland Air Force Base, San Antonio.

Miss Zurovec is a 1960 graduate of San Antonio High School and is currently employed by Bell Telephone Company there.

A July 3 wedding is being planned by the couple.

Broiled barbecue steak, baked potatoes, beans, salad and cake were served to Miss Zurovec, Quentin Knight, Mr. and Mrs. Arlo Farrell, San Antonio, Mr. and Mrs. Cleatus Rhodes, Friona, and Mr. and Mrs. Perch Parsons and children, Olton.

Also Mr. and Mrs. J.O. Ady, Mr. and Mrs. R.Q. Whately, George and Tommy, Mr. and Mrs. Clyde Knight and children, Mr. and Mrs. Billy Bob Whately.

Mr. and Mrs. Knight former Friona residents, are parents of Mrs. Cletus Rhodes.

Quentin Knight is a 1960 graduate of Muleshoe High School and entered the United States Air Force soon after his graduation. He has served 20 months in Okinawa and 18 months in Germany and is currently stationed at Lackland AFB.

In And Around--

(Continued from page 7)

so I saw Janet Rushing. I've known for a long time that it was almost impossible to get far enough away from home that you wouldn't bump into someone from Friona, but I certainly didn't expect to see another Frionan in that mob."

Many of us have learned to depend upon the time and temperature register at Friona State Bank at all hours of the day, but few of us make use of it in the same manner Tom Barber chose in the wee hours of the morning recently.

It seems that Flake and Sarah granted permission to their children to sleep outside in a tent with one restriction. That was that they were not to awaken the parents before six the next morning.

Tom had been awake for sometime and kept thinking it must be time for his parents to get up, but failed to see a light come on in the house. After thinking the situation over for awhile he felt it imperative that he find out the correct time.

There wasn't a watch in the tent and taking a chance on sneaking inside to see a clock without waking his parents was out of the question, so he walked down to the bank, found out the time then returned to his bunk in the tent to sleep the hour or two that must pass before he could enter the house.

Growing crops in the area are usually beautiful for this time of year. Maybe maize farmers are trying to get a jump ahead of the midge insects by planting earlier than usual. A lot of maize is past "shoe mouth" deep and almost no fields have been left unplanted.

Cotton is very pretty too. Think sugar beet farmers are having some difficulty securing enough laborers to weed their fields and the beets are growing good.

Irrigated wheat is beginning to turn golden and harvest isn't too far away. Farmers who own combines and custom combine operators are getting machines ready to run.

Wind and hail damage to young crops has been comparatively small this spring and farmers are grateful for the moisture they received in May.

One story in last week's Star was correct as far as it went, but it just didn't go quite far enough. Our apologies go to all girls whose names were left out of the story concerning the Future Homemakers of America Installation and award program.

The following two paragraphs should have been included in the story.

Madalyn Binger was in charge of the degree candidates at the installation.

State degree candidates for the 1965-66 school year will be Madalyn Binger, Judy Phipps, Carolyn Hamilton, Myrtle Latham, Darlene Wilson, Gay Wylly, Terri Lynn Wilson, Susie Carmichael, Glenda Mingsus and Janet Rushing.

Several persons have asked about the trees in front of the Star office. All of us agreed that they were some kind of locust, but no one knew for sure what kind.

Members of the staff have been most anxious to keep them growing and were quite concerned when we first noticed that some leaves were turning pale green then turning a deep yellow.

Early this week we discovered that the deep yellow leaves were turning rust color and immediately decided we hadn't watered the trees enough and that they were dying.

A little research on the locust family revealed several things to us. Now they have been identified as sunburst locusts and we know the leaves are supposed to be several shades of yellow-orange-rust.

If there are other sunburst locust trees in town, I haven't noticed them. And, anyone who hasn't seen ours is invited to come by at any time. They are beautiful.

A wise man profits by his own experience. A wiser man profits just as much by the experiences of others.

WALTHERS LEAGUE OFFICERS... Curtis Drager, Raymond Drager, Shirley Schueler and Madalyn Binger have been elected officers of the Walthers League of Immanuel Lutheran Church in the Rhea Community. They will serve as secretary, president, treasurer and secretary during the coming year.

Rhea Walthers League Elects New Officers

The young people's society, known as the Walthers League, of Immanuel Lutheran Church, Rhea Community, elected officers at their regular meeting held Sunday, June 6th.

New officers are: Raymond Drager, president; Curtis Drager, vice-president; Madalyn Binger, secretary; and Shirley Schueler, treasurer.

Out-going officers were Madalyn Binger, president; Bernhard Binger, secretary; and Shirley Schueler, treasurer.

The topic discussion at this meeting was on prayer, led by Pastor E.A. Binger. Seven guests were in attendance: Miss Dian Teinert from Zion Lutheran, Pasadena, Texas; Richard, Earl and Betty Drager from Immanuel Lutheran, Hereford; and John, Aaron and Samuel Drager from Redeemer Lutheran, Friona.

The regular monthly luncheon and business meeting of Friona Women's Country Club Association is being held today (Thursday) at the Country Club.

Tee off for the golf session begin at 9 to 10 a. m. Afternoon bridge and golf sessions began at 1:30 following a salad luncheon at noon.

John Loehr was elected president of Methodist Men's Club at a recent supper meeting held in Fellowship Hall. Other officers elected were Jack Roubinek, vice-president; Bill Raybon, secretary; Danny Smith, treasurer; Wesley Foster, program chairman and Harvey Garrison, foods chairman.

Featured speaker of the evening was Dr. Lena Edwards of Hereford.

Next meeting of this group will be June 23. All Methodist men are invited by Loehr to attend the meetings, which are held each fourth Wednesday.

Hospital Notes

ADMISSIONS JUNE 1 thru 7 Lenard Runnels, Friona; Mrs. Larry Williams, Friona; Emily Jo Barnett, Friona; Terry Barnett, Bovina; Charlie Rauh, Friona; Hugh Moseley, Farwell, Joe Mabry, Friona; Joyce Haseloff, Farwell; F.S. Pounds, Bovina, Don B. Sides, Bovina; Joe Beatty, Friona; Gall Word, Hereford; Velma Zoch, Clovis; Rose McCain, Farwell; Mrs. Morris Deaton, Friona; Juanita Roubinek, Friona; Francis Willard, Bovina; Larry Broyles, Friona; Vernon Roberts, Friona; Eugene Hester, Clovis; Herbert Hall-sell, Texico, Beth Cranfill, Friona, A.B. Wilkinson, Bovina; Robert Williams, Bovina; Maggie Tims, Claude, Mrs. Don Kimbrell, Friona.

DISMISSALS: Jim Huffsticker, Pedro Coronado, Carmen Rojas, Terry Barnett, Pat Hawkins, Ann Ayers, Emily Jo Barnett, Gall Word, Lenard Runnels, Charlie Rauh, Hugh Moseley, Joe Beatty, F.S. Pounds, Vannie Vinson, Joyce Haseloff, Mrs. Larry Williams and Baby Girl, Larry Broyles, Vernon Roberts, Frances Willard and Baby Boy, Mrs. Morris Deaton and Baby Boy, Joe Mabry, Robert Williams.

Murl May Graduates

Murl May, son of Mrs. Robert H. Trowbridge, 841 Irving, Hereford, was one of seventeen students who graduated from Texas School for the Deaf at Austin May 21.

Murl, a former student of Friona schools and a grandson of Mr. and Mrs. Folster Rector, Friona, has been trained in the various phases of printing and plans to secure employment in Lubbock.

MURL MAY

Mr. and Mrs. R. L. Lyles and daughter of Fort Worth and Mr. and Mrs. Ben Grote of Mason were recent guests in the home of Mr. and Mrs. Bill Lyles and children. The visitors attended graduation exercises here. Neel Lyles was a member of the graduation class.

Pat Foster Graduates From Arizona State University

Pat Foster, daughter of Mr. and Mrs. Wesley Foster, received her Bachelor of Arts degree in Education from Arizona State University in commencement exercises at Tempe June 1.

Miss Foster, a 1960 graduate of Friona High School, taught music in the local schools one year and is a former student of West Texas State University, Canyon.

She has accepted a position as a second grade teacher in Saugus, California, this fall and will spend the summer in Friona. She is employed by Plains Publishers.

Mr. and Mrs. Wesley Foster, Friona; Marilyn Lovick, Memphis Tennessee, and Mrs. W.N. Fuque, Hamilton, Texas, attended the graduation ceremonies at Tempe.

PAT FOSTER

Mrs. Ben Koutis of New York City is expected to arrive in Friona Friday to spend the rest of this month with her parents, Mr. and Mrs. Ray Landrum, and grandparents, Mr. and Mrs. C. W. Dixon.

Thought for today - "Better face danger once than be always in fear."

Woman's Group Has Meeting

The regular monthly luncheon and business meeting of Friona Women's Country Club Association is being held today (Thursday) at the Country Club.

Loehr Heads Men's Club

John Loehr was elected president of Methodist Men's Club at a recent supper meeting held in Fellowship Hall. Other officers elected were Jack Roubinek, vice-president; Bill Raybon, secretary; Danny Smith, treasurer; Wesley Foster, program chairman and Harvey Garrison, foods chairman.

Featured speaker of the evening was Dr. Lena Edwards of Hereford.

Next meeting of this group will be June 23. All Methodist men are invited by Loehr to attend the meetings, which are held each fourth Wednesday.

He maketh the storm a calm. —(Psalms 107:29)

We can remain in charge of our emotions if we pray daily for the calm spirit and the poised manner that is becoming to a child of God. When we give conscious thought to maintaining this calm and this poise, we are never challenged to lose them. Spiritual growth brings us the faith that under God we can remain in charge of our emotions.

FUTURE TOURIST ATTRACTION — Preliminary model of HemisFair 1968 shows how the 90-acre site in downtown San Antonio would look for the first major international exposition in the history of the Southwest. Located two blocks from the Alamo, the proposed scale model is dominated by a 70-story tower and a civic center complex that would include an arena and fine arts theater. Theme of the fair, scheduled for 184 days in mid-1968, will be a centuries-deep probe into the varying cultures of the family of Americas.

FINISHED BOOK . . . Friona Star society editor June Floyd and Robbie Osborn of Graphic Arts printing admire one of the Farm and Ranch Directories which the two firms sponsored. They are standing in front of some 2500' books which are to be mailed free to landowners in Parmer, Castro and Curry counties.

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

"While there are others who voice approval, cotton merchants are the only ones really advocating a direct compensatory payment plan in cotton legislation."

So reports Donald A. Johnson, Executive Vice President of Plains Cotton Growers, Inc. He continued that: "If they are successful in getting payments made directly to farmers and a low loan level -- or no loan at all as their testimony clearly shows they would prefer -- most producers believe they will have cut their own throats along with that of the commercial cotton farmer."

In his further analysis of the producer consensus, Johnson said: "Producers feel that direct payments and reduced acreage would be the beginning of the end for commercial cotton production on a profitable basis, and they are unwavering in their opposition to such features in any cotton bill." Producer groups contend that no law Congress could pass which involved direct payments to farmers would be adequate to prevent severe limitations being placed on the amount of payment any one farmer could receive. This sooner or later would be done from the floor of Congress through the agricultural appropriations bill. Such limitations, they say, would stifle incentive, encourage the inefficient and ruin cotton's chances for lower production costs and greater markets.

facts to support this claim. It is based purely on an assumption, although that assumption is often stated as fact when shippers seek support for direct payments."

Merchants state that the producer's income would be the same under the low loan, direct payments plan they propose; that more cotton would be sold; that less cotton would go into the loan, and therefore the government's cost would be less. Johnson says producers find fault with this statement in two places. First, they state that limitations would be inevitable under a direct payment program, therefore the producer's income would not be the same. Second, producers cannot see how a low loan, or a high loan for that matter, would affect the amount of cotton going into the loan or being sold to mills. Johnson says: "A loan of 23 cents plus a direct payment of 6 cents brings a farmer the same per-pound price for a bale of cotton as a 29 cent loan. And by the same old-style arithmetic a 29 cent loan minus 6 cents makes cotton available to the mill at the same per-pound price as a 23 cent loan with the 6 cent difference being paid to the producer."

"Without a chance to regain markets lost to foreign grown cotton and manmade fibers," Johnson stated, "United States cotton as a textile fiber would be a dead issue."

The philosophy of the Cooley Bill apparently is toward production below consumption. Carried to its logical conclusion this philosophy would snowball cotton down the hill to the bottom of the fiber market. Producer philosophy, on the other hand, calls for a cotton bill designed to increase consumption above production, leading to greater markets and eventually to increased acreage and better profits. "This was what producers had in mind when they supported the Agricultural Act of 1964 which made cotton available to our domestic mills at a more competitive price," Johnson says. And he pointed out that estimates of the increase in domestic cotton consumption during the 1964-65 marketing year range from 900,000 bales to 1.1 million, with the bill only in effect 10 months.

Asked about merchants and their attitude, Johnson quoted Gerald L. Dearing, well known columnist on cotton. "The cotton shippers and the futures brokers have been won into an alliance with the Freeman forces in the hope that such a program (direct payments) will bring greater marketing opportunities," Dearing wrote. Johnson went on to say that merchants claim a low loan level with direct payments would move cotton into the market instead of into the loan. "But," Johnson said, "there are no

"It's the dollar-and-cents price, along with other factors, that determines whether cotton is sold or goes into the loan," he states, adding, "There is no particular magic in a direct payment to the producer which would necessarily move cotton into the trade. The trade will not be buying cotton under any system unless that cotton can be sold to consuming mills. And that's why Plains Cotton Growers and other producer groups aren't buying the story that a direct payments program will keep cotton out of the loan."

According to Johnson, neither the House Agriculture Committee nor the Department of Agriculture is totally committed to the Cooley proposal and both remain open to suggestions. With this in mind, the Cotton Producers Legislative Committee, composed of representatives of producer organizations in seven of the top cotton producing states, are continuing to work with the Department. It is hoped that a proposal can be developed which would be satisfactory to growers and at the same time accomplish the Administration's stated objectives of reducing cost and cotton carry-over.

The first forest fire observation posts used by the Texas Forest Service were tall pine trees on the highest hills. Over 50 were maintained. Each tree was spliced with telephone steps to reach the "crow's nests" constructed in the tops of the trees.

PUBLIC NOTICE

Proposed CONSTITUTIONAL AMENDMENT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON SEPTEMBER 7, 1965.

SENATE JOINT RESOLUTION NO. 44 proposing an Amendment to Sections 2 and 25 of Article III of the Constitution of the State of Texas so as to provide for an increase in the membership of the State Senate from 31 to 39 members; to fix the membership in the House of Representatives at 150 members; to require apportionment of the Senate according to population; and to delete the limitation that no single county is entitled to more than one Senator.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

come effective upon its adoption."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on the 7th day of September, 1965, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment increasing the membership of the State Senate from 31 to 39 members, retaining the present membership of the House of Representatives, requiring apportionment of the Senate according to population, and deleting the limitation that no single county is entitled to more than one Senator."

"AGAINST the Constitutional Amendment increasing the membership of the State Senate from 31 to 39 members, retaining the present membership of the House of Representatives, requiring apportionment of the Senate according to population, and deleting the limitation that no single county is entitled to more than one Senator."

Section 1. That Sections 2 and 25 of Article III of the Constitution of the State of Texas be amended to read respectively as follows:

"Section 2. The Senate shall consist of 39 members. The House of Representatives shall consist of 150 members.

"Section 25. The state shall be divided into Senatorial Districts of contiguous territory according to population, as nearly as possible.

"Should the Legislature enact any enabling legislation in anticipation of this Amendment, no such law shall be void by reason of its anticipatory nature.

"This Amendment shall be-

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time as required by the Constitution and laws of this state.

On The Farm In Parmen County

By JOE VANZANDT
County Agent

During the past week we have noticed several cotton fields that showed thrip damage. To get the most benefit from thrip control measures, insecticides should be applied at the first sign of thrip damage. Thrip damage on newly emerged cotton is characterized by wilted, wrinkled, blackened leaves and terminal growth. Silvering of the lower leaf is also a common sign. Heavy thrip infestations can delay plant maturity from a few days to a few weeks.

Insecticides recommended for thrip and fleahopper control are as follows: 1. Dieldrin + DDT, 2. Guthion, 3. Strobane-DDT (2-1 mixture), 4. Sevin, 5. Toxaphene - DDT (2-1 mixture), 6. Heptachlor + DDT, 7. Endrin + DDT and 8. Bidrin. For more information on cotton insect control, come by the County Agent's office.

WEEDS IN SORGHUM
Chemicals recommended for weed control in emerged sorghum are Atrazine and 2,4-D. Atrazine must be applied before weeds are 2 inches tall at the rate of 1 pound per treated acre plus a surfactant.

2,4-D can be used at the rate of 1/2 pound per acre to control broadleaf weeds once the sorghum is 6 inches tall but before flowering. Hybrids containing Wheatland parentage should not be treated with 2,4-D, because serious yield reductions and lodging may occur. Best and most profitable results will be obtained if weeds are treated before they are 6 inches tall.

All 2,4-D formulations may drift from the intended weed target. Movement of spray mist by wind during spray application can cause serious damage to sensitive crops such as cotton. Spray drift is minimized by using high gallonage (10-20 gpa) and low pressure (15-20 psi). Volatilization is vaporization of 2,4-D from weeds or soil where it was applied. Once 2,4-D has volatilized, it may be blown to sensitive crops. Amine formulations are least volatile, followed by acid, low volatile ester and high volatile ester formulations. Because of the possibility of drift and volatility, it is not advisable to use 2,4-D near cotton if other methods of weed control are available.

CLEAN GRAIN STORAGE BINS
With wheat harvest just around the corner, farmers who plan to store part of the crop themselves should get ready by cleaning up. Grain should be stored only in bins that have been cleaned thoroughly. Old grain, trash, feed sacks and other debris that furnish living quarters for insects should be removed. Sometimes it is necessary to "sweep down" the ceiling and walls and clean the floor to remove hidden waste. Cracks should be covered with builders mending or other suitable material to prevent grain from collecting. Grain and other material beneath and near the bins should be destroyed.

After the bin has been cleaned thoroughly, spray the inside surface with either methoxychlor or malathion (premium grade) in a 2 1/2 percent mixture at the rate of about 2 gallons per 1,000 square feet of surface area. Larger volumes of the spray mixture will be needed for spraying external areas.

Methoxychlor is available both as a wettable powder and an emulsifiable concentrate. To obtain a 2 1/2 percent mixture of this material, add 2 pounds of 50 percent wettable powder to 5 gallons of water or 1/2 gallon of 25 percent emulsifiable concentrate to 5 gallons of water. If malathion is used, mix 1.6 pints of 57 percent premium grade malathion emulsifiable concentrate to 5 gallons of water or 1 gallon of the concentrate to 25 gallons of water to obtain a 2 1/2 percent mixture.

For more information on control of insects in stored grain see your County Agent.

WHEAT DISEASE
We have heard of about 15 farmers who have had some foot-rot show up in their wheat since about May 20.

If you have spots in your field that are stunted or shorter than normal and these places are dead now before the rest of your field is ripe, we suspect you have some foot-rot.

We would like for you to call the County Agent's office in Farwell, 481-3619 so we can determine just how wide spread this disease has hit this year.

On affected fields we recommend you turn your wheat stubble under as soon as possible leave it as lay-out ground for one or more seasons and do not plant wheat on it for 2 or 3 years. If you can plant a crop rotation system to allow this. If you can, plant cotton or soybeans as the next crop on affected fields.

WHY PLANTS ACCUMULATE NITRATES
Most investigators have associated nitrate poisoning with plants that are grown in soils with a high nitrogen content; such as in areas that once were livestock pens, where the soil is rich, or where the soil has been fertilized. High nitrate in the soil will increase the amount of nitrate in growing plants. Also, when nitrogen alone is applied to soil the nitrogen in plants is higher than when nitrogen is applied in conjunction with phosphorus. Trace minerals in the soil may also have an effect on the accumulation of nitrate in plants. There has been no attempt to blame nitrate poisoning on the use of commercial fertilizer. Plants usually accumulate nitrate when there has been some stress on the plant, such as growing in the shade or on certain soil types, suffering from lack of moisture, or suffering from physical damage, such as being trampled or blown down during a storm. Nitrates are used to build proteins in the plant. The enzyme nitrate reductase is important in this building process and requires light to function. This may explain why nitrates accumulate more rapidly in shade or reduced light.

There were only 17,000 Spanish American War veterans surviving on January 1, 1965. The average age of Spanish American War veterans is 86.6 years, according to the Veterans Administration.

The Texas Forest Service launched an extensive program in tree improvement research in 1951. It was the first state forestry agency to undertake this type of research.

INSPECT WHEAT . . . County Agent Joe VanZandt, right, and Wade Wright of Friona's Production Credit Association office, are shown inspecting a wheat field with possible foot rot damage. The county agent said there were several fields of wheat with the root disease, mostly in the Farwell area.

Irrigation Leaguers Lose 11-7 To Pampa

Friona's Irrigation League baseball team lost an 11-7 decision to Pampa Sunday, in a game which wound up the first "round" of play in league action. Teams play each other three times during the season, and Sunday's game was the last team which Friona had not previously played.

Pampa broke a 4-4 tie in the fifth inning with a four-run outburst against starting Friona pitcher S. D. Balze, and added three more off reliever Darrell Read.

Friona scored a run in the first inning on a hit batsman, and an error. Pampa had a 4-1 lead when the local team came to bat in the fourth. Balze socked a home run, Read doubled and Jackie Clark homered to tie the score at 4-4.

However, Pampa sent seven men to the plate in the fifth, and four of them scored.

Read came on to strike out 11 men in the last four innings, giving up a two-run homer in the eighth and a single run in the ninth.

The team goes to Umbarger for a game Sunday. In the season opener here, Friona beat Umbarger, 5-4.

Receives Degree

Kenneth Ray Cox, a grandson of T. J. Crawford of Friona, received his B. S. degree in mechanical engineering at Texas Tech in commencement exercises recently.

Cox is the son of Mrs. N. R. Cox, the former Helen Crawford.

May Aboard USS Sioux

Electronic Technician Radar Third Class Kenneth H. May, USN, son of Mr. and Mrs. Robert H. Trowbridge, Hereford, is aboard the USS Sioux, a tug, on the way to Guam, Japan and the Philippines for six months with the Seventh Fleet.

May, a 1961 graduate of Hereford High School, formerly attended local schools. He is the son of Mrs. Robert H. Trowbridge, 841 Irving, Hereford, and the grandson of Mr. and Mrs. Folster Rector, His mother is the former Clara Rector.

Aboard "Mason"

Seaman Apprentice Marlon Martinez Jr., USN, son of Mrs. Nora Martinez of Friona is serving aboard the destroyer USS Lenard F. Mason, which operates out of Yokosuka, Japan.

In February of this year his ship received a certificate of excellence in anti-submarine warfare operations; the detection and destruction of enemy submarines.

Mason serves as an operational unit of the U. S. Seventh Fleet.

AT BOVINA

County 4-H Horse Show Scheduled For Saturday

The First Parmen County 4-H Horse Show will be held Saturday, June 12 in the Bovina Roping Arena. All entries are due in by 9:45 a.m., and the show is scheduled to start at 10:00 a.m.

"We expect around 40 members to participate in the show," states Joe VanZandt, County Agricultural Agent.

There are presently about 50 members enrolled with a Horse project and 9 adult leaders have devoted a lot of time and energy to getting this 4-H Horse Program started.

This County Show will climax 5 months work by the leaders who have been responsible for this local Horse program are Jack Templar in Lazbuddie; Pete Meason and Homer Linderman in Friona; Delbert Garner, Pike Jordan and Mitz Walling in Farwell; C. E. Trimble, Robert Read and Wendol Christian in Bovina.

The judge for the show is Herb Howell. Although there are no special requirements for a 4-H Horse judge, Herb is an AQHA approved judge.

Entries in the 4-H Horse Show are limited to Parmen County 4-H members who have been participating in their local horse project group activities.

Ribbons and rosettes will be

awarded to the winners. In addition two free stud services will be given to the overall high point winner in the Junior and Senior division by Jess Walling, Bovina Quarter Horse breeder. Also members will be competing for the right to represent their County in the District Horse Show in Dumas on July 9, 10. Contestants in the District Show compete to earn the right to go to the State 4-H Horse Show.

4-H Horse Shows are one phase of an overall educational program to help teach youngsters Horsemanship. Members learn about breeding, feeding, training, management, use and judging horses as well as keeping records.

The public is invited out Saturday to the Bovina Arena to see these boys and girls put their best efforts forward in a climax for several months hard work.

Winners Given In "Scotch" Tournament

Ten teams entered the "Scotch foursome" tournament at Friona Country Club last Sunday.

Five teams, ironically, tied for first place with scores of 65. A sudden-death playoff was held, and the team composed of H. K. (Pudge) Kendrick, Danny Kendrick, Marty Martinez and Paul Hall were winners.

Second-place team was composed of Mick Mings, Mildred Mings, Wayne Stark and O. J. Beene. Third place was won by J. E. Knight, Jim Greeson, A. L. (Jake) Outland and Mrs. Jack Carrothers.

The other two teams who originally tied for first place

were Wright Williams, Mel Williams, Mr. and Mrs. Dean Blingham Inone and Dwight Whitaker, Ralph Roden, Judge Barker and John Morrow in the other.

It is against the law to carelessly allow a woods fire to escape to the lands of another, the Texas Forest Service reports.

Texas' four state forests, operated by the Texas Forest Service, are managed to demonstrate cultural practices for continuous timber production, water conservation and as a habitat for wildlife.

After sorghum has emerged, spray Atrazine to control weeds and grasses.

The idea is to spray Atrazine 80W herbicide right after sorghum has emerged, but before weeds are 1 1/2 inches high. This one application, moved to the weed root zone by rainfall, will control most annual broadleaf weeds and grasses in sorghum for the entire season.

Control of weeds and grasses in sorghum with Atrazine can greatly reduce the need for cultivating. And so your crop goes through the entire season without weed competition for moisture and soil nutrients.

The results of weed control in sorghum are higher yields and lower production costs. And you can now graze or feed forage to livestock from treated sorghum fields 60 days after Atrazine application.

Contact your local supplier now for Atrazine 80W herbicide.

NEW FERTILIZER

In a recent issue of Western Farm Life Magazine, an article appeared entitled "P205 Holds Micronutrients." This article was prepared by Dr. Lewis Nelson, Head: Agricultural and Chemical Development, Tennessee Valley Authority where superphosphoric acid was developed. For this weeks column, I would like to

District headquarters of the Texas Forest Service are located at Linden, Henderson, Lufkin, Woodville, Kirbyville, Conroe and College Station.

quote some excerpts from this article.

"Superphosphoric Acid may sound like something to be avoided like the plague. Or, just plain jawbreaking jargon. But to the man who makes your fertilizers, it is much more."

"Phosphoric acid is a basic ingredient in fertilizer manufacture. As commonly used, it contains 50 to 55 per cent more P2O5. "Super" acid is much more concentrated - with 68 to 83 per cent P2O5 - hence its name."

"The advantages of super acid in making high-analysis

liquid mixed fertilizers are well established. These are made by adding to phosphoric acid ammonia, potash and other materials. A major problem has been the low limit on nutrient concentration without formation of crystals, which settle out and plug application equipment. With super acid, much higher grades are practical - for example, 5-15-10 instead of 4-12-8, or 11-37-0 instead of 8-24-0."

"Super acid also has a special ability for solubilizing micronutrient materials. Chemicals containing zinc, iron, copper and manganese won't dissolve in clear liquid fertilizers made with ordinary phosphoric acid. Made with super acid, however, these materials will dissolve satisfactorily. As micronutrient additions become necessary over wider areas, this will become a factor of major importance."

"Now, scattered field tests also are showing that fertilizers derived from super acid give superior crop responses under various conditions. One solid fertilizer made from super acid - we call it a polyphosphate fertilizer - is proving to be a superior carrier of zinc."

"Seldom has a new fertilizer intermediate so intrigued the fertilizer industry and agriculturists. Actually, agronomists are hard pressed to find out all the potentials of fertilizers made from super acid and the conditions under which they can be best used."

"In any event, you may as well start getting used to such long technical terms as superphosphoric acid and polyphosphates. They likely will be everyday jargon in a few years."

At Home In Parmer County

By CRICKET B. TAYLOR
County HD Agent

The tornado disaster in Hale Center should be a reminder to all of us of the need for more trained people in every County and community capable of rendering first-aid.

A County Committee, headed by Mrs. J.D. Sanders of Friona, has made some contacts with the Doctors in Parmer County and discussed the possibility of teaching classes on self-help medical care. As yet nothing definite has been done. This has to have more support and concern of the people in Parmer County if it materializes. Counties all around us have carried on programs of "self-help and first-aid" in case of disasters. These people have the knowledge and information in case of need. If such a program is provided for people in Parmer County more interest must be shown, and People's willingness to spend some time organizing the program and taking training. When disaster strikes its too late. Mrs. Sanders and their Committee will welcome your help and interest.

It has been said that "more people would be successful, if they were not so busy making a living," perhaps that's why interest in "survival in case of a disaster," is lagging behind - we are too busy making a living.

FOOD IN THE NEWS

So many fresh vegetables are showing up in plentiful supplies now, that diets should be high in those vitamins and minerals so needed for vim and vitality. Really we may well "take our medicine," the enjoyable way by eating a wide variety of the green and yellow type of vegetables. Some times it may take a "change in attitude toward food in order to add some new foods to our diets that we are not accustomed to eating. In other words we must cultivate the taste for new foods."

In early civilizations, celery, for instance was credited with high medicinal value. Some use it as a blood purifier. The

Greeks cited celery's sedative effects. Today, celery seed oil is still used in sedatives. But most of us enjoy celery because it's so flavorful, so "eating good."

The good supply of celery from Florida is in all markets now and there are so many varieties of uses for this, other than as an appetizer, that you may want to get out of a rut and try new dishes using this vegetable and others too. For Louisiana's famous creole cookery, especially in seafood sauces celery is a natural ingredient.

4-H NEWS

Groups in clothing project work are really getting off to a good start. Most groups have finished lessons on pattern selection, color harmony, and fabric selection and are now getting into construction of garments. Wardrobe Planning for Unit 2, 3 & 4 was discussed and demonstrated to 20 girls in Clothing projects and nine leaders and mothers in Oklahoma Lane Community Center last week.

The County Dress Revue, the big event climaxing the project work of 4-H clothing members will be held July 13th. County Home Demonstration Council will assist the 4-H work by planning for the Dress Revue.

Mrs. Wendell Garner, Clothing Leader of Bovina had six members in her home recently for a lesson in their clothing Unit. Mrs. Milt Pitts showed the girls how to care for their hair, face & hands. Good grooming is a part of the Clothing project. Two other adult leaders were present also.

BAKE SHOW TRAINING

The training for leaders and members for the County Bake Show, another big event for 4-H will be given June 16th for Lazbuddie, Oklahoma Lane and Farwell. Leaders may need to do some shifting of plans in order to attend this with those girls who plan to enter. Girls must have been enrolled in a food group in order to enter Bake Show.

"The deepest disappointment comes to those who get what is coming to them."

Tower Proposes Labor Be State's Responsibility

A move to bypass the Labor Department in recruitment of Bracero workers has been launched in the Senate by Senator John G. Tower, who has outlined plans to place recruitment responsibility in the hands of state authorities.

Senator Tower, who served for three years on the Senate's Labor Committee, introduced legislation today which says the state officer principally responsible for agriculture will make the final determination as to the number of workers needed to harvest crops.

In the case of Texas, that power would be vested in the Commissioner of Agriculture. Presently, federal immigration law holds the U. S. Attorney General responsible for permitting importation of foreign workers; but the Secretary of Labor must first certify that a labor shortage exists.

Senator Tower noted that throughout this year's citrus and vegetable season in California and Florida Secretary of Labor Wirtz has flatly denied that serious labor shortages existed, in spite of severe crop losses due to insufficient labor. Eventually, and after long congressional and farm industry pressure, the Secretary did allow some limited, temporary admission of foreign workers for California and Florida.

Senator Tower said the Labor Secretary has pledged, in correspondence with the Senator, to work closely with the Texas Employment Commission to "meet the labor needs of Texas growers." Towers placed in the Congressional Record today TEC labor forecasts which predict spring harvest labor shortages, saying, "In light of the Secretary's pledge, there is real reason to hope that Bracero workers will soon be admitted to Texas. However, time continues to drift by, and farmers and ranchers cannot conjure workers overnight. I hope the Secretary will act quickly enough to permit the necessary advance planning by Texans involved."

Senator Tower's legislation would give the state sole jurisdiction over the "finding of a need" for additional workers. The U. S. Attorney General then would supervise immigration. "Certainly this would be far more equitable," Senator Tower said, "than allowing federal control from Washington. Who is better able to determine the needs of agriculture than those closest to the situation. "It has proved impossible in this heavily-agricultural nation of 190 million people for one federal official to make an almost day-to-day labor need determination in each of 50 states. The labor problems of industry alone are enough to keep the Labor Secretary and his depart-

ment busy around the clock. "I believe my bill would relieve the present impossible situation while preserving exactly the same goal the Labor Secretary says he is seeking: The use of as many unemployed American workers as possible."

"Certainly my state and all others can be depended upon to give first choice to its own residents and citizens who need and want this work. But, when there is an insufficient number of local farm workers, as there is and has been all this season, the states would have, under my bill, authority to import additional workers to avoid serious crop losses."

Other details of Senator Tower's Bracero bill would require the Attorney General to provide recruitment and reception centers for the workers. The Jus-

tice Department would be required to establish and operate reception centers at or near places of entry of workers into the U. S., for the purpose of housing and receiving such workers while final arrangements are being made for their employment in, or departure from, the United States.

The Attorney General also would be required to provide transportation for Bracero workers from these recruitment centers outside the U. S. to such reception centers established in this country. The same procedure would apply when Braceros returned to Mexico. Senator Tower said also that a safeguard has been written into the bill to guard against infiltration of subversive elements into the normal flow of Bracero workers.

REC TOUR

T. Sherley In Visit To Kennedy's Grave

Witnessing a solemn wreath-laying ceremony at the gravesite of the late President Kennedy on Wednesday, Tommy Sherley of Friona, winner of a tour to Washington, D.C., sponsored by Deaf Smith County Electric Cooperative.

Also sponsored on the tour is Maurea McAndrews of Hereford.

Perhaps the highlight of the 10 day trip, the simple tribute to President Kennedy was also observed by more than 60 young Texans and Chaperones representing 29 other rural electric systems on the tour.

Maurea and Tommy arrived in Washington, Monday, June 7 and the next morning at a special Congressional breakfast they met members of the Texas Congressional delegation. Later in the day they visited the Capitol building, Library of Congress, Supreme Court, National Archives, headquarters for the National Rural Electric Cooperative Association, U. S. Department of Agriculture building and several Washington monuments.

Winners of an oratorical contest on the subject of the contributions of rural electrification to this area, Maurea and Tommy learned about rural electric systems in other states when they visited NRCA headquarters and the Department of Agriculture, of which the Rural Electrification Administration is an agency.

Many more thrilling sights and scenes are in store for them during the remaining five days of their tour.

Paines Open Rhea Store

Newest business in Rhea Community opened this week.

It is Rhea Grocery and Station which is operated by Mr. and Mrs. Tom Paine, who formerly lived in Bovina.

The business will feature a complete line of brand-name groceries and Phillips 66 products announces Paine.

An advertisement in this issue announces the opening of the new business. It is the first of its kind in Rhea Community.

Mike McKee Is Transferred

Mike McKee, who has been hospitalized at Fort Benning, Georgia for the past eight months, has been transferred to Brooke Army Hospital at Fort Sam Houston in San Antonio.

Mr. and Mrs. R.B. McKee and Mr. and Mrs. Bill Nazworth visited Mike during the Memorial Day weekend and report he will have more surgery next month.

His address is Brooke Army Hospital and he would appreciate having visitors or getting mail from Frionans.

Larry Hollis Plans To Attend A.C.C.

Larry Hollis, son of Mr. and Mrs. Buddy Squyres, former Friona residents who now live in Amarillo, was recently graduated from Tascosa High School there.

While attending Tascosa High School, Larry has been a member of National Honor Society, was a member of the Spanish Club and was a teacher's aide.

He was a member of the Tascosa Rebel track team three years and captain during his senior year. The Rebel track team won first in the state when Larry was a sophomore and second when he was a junior. The mile relay team, of which he was a member, won first place this year.

Hollis has signed a letter of intent with Abilene Christian College and will enroll there

Barker Hurls Dandy In Pony League Contest

Johnny Barker's one-hitter for Hub Grain against Friona Motors highlighted the opening round of games in the Pony League last week.

Barker set the "Motormen" down on only one hit and one run as Hub Grain took an 11-1 win. In other games in the league, Herring Implement Co. took a 10-6 win over Parmer County Implement Company, and also scored a 12-6 win over Charles Oil Company of Bovina.

In Intermediate League action, Paul Samaniego has a no-hitter for three innings on Monday, and went on to pitch a three-hitter as J. D.'s Gas Service topped Brookfield Drilling, 7-3. Both J. D.'s and Friona State Bank have won their first two games to stand 2-0 in league standings. Coy Jameson pitched a no-hitter for Country Club Gin against Ethridge-Spring on

Monday, although his team had to score six runs in the fourth inning for a 13-12 win. The losers scored their 12 runs with the help of 14 walks and two hit batters.

Lazbuddie FFA Boys Attend Workshop

More than 100 Future Farmer of America members and vocational agriculture teachers will attend the third annual FFA Electric Workshop, sponsored by Southwestern Public Service Company, at the Episcopal Church Conference Center in Amarillo, on June 14th, 15th and 16th.

Parmer County representatives at the workshop will be Dan Miller and Jimmy Foster, of Lazbuddie.

There will be five courses of instruction offered at the workshop, and the student selected as outstanding in each course will be awarded a trip to the National FFA Convention at Kansas City. Each boy who successfully completes the conference will receive a farm electrification medal from the Southwestern Public Service Company.

The courses of instruction to be offered are electric controls, farm motors, farm wiring, lighting and heating.

Included in the instructors will be W. E. McCune, director, Texas Farm Electrification Committee; Bob Jaska, supervisor, adult education program, Texas Education Agency; and Foy Page, farm electrification specialist, T-E-A, all of whom will come to the workshop from College Station, Kenneth Owen of Amarillo, Jamie Gage of Guyton, Oklahoma, and Tom Fields of Plainview are Southwestern Public Service Company specialists who will be on the staff of instructors.

On June 14, the boys will see the Albuquerque-Amarillo Texas League baseball game, and on June 15 they will tour Nichols Station, the electric company's modern generating station, northeast of Amarillo.

A fellow who says it cannot be done is likely to be interrupted by somebody doing it.

LAZBUDDIE HIT

The Lazbuddie community was hit by high winds during Wednesday's thunderstorm. Preliminary reports said that roofs of some buildings were damaged. Full extent of damage was not known at press time.

Mike Dukes Is Honored

Mike Dukes, son of Mr. and Mrs. C. W. Dukes, former Friona residents, received the outstanding athlete award at his school in Baton Rouge, La. recently.

The award was given for the boy considered the most outstanding in the junior high school system. Dukes attended Friona schools last year, when his father was varsity boys' basketball coach.
