## "MISS WEST TEXAS"

Photogenic Janie Holcomb has nothing to fear from the bugaboo of a candid camera. Hers is a pleasant chore.

Miss Holcomb, winner of the "Miss West Texas" crown in Odessa July 4th at the Junior Chamber of Commerce fourth annual Independence Day Festival, led her field with poise, experience and sparkling brown eyes that the searching eyes of five prominent judges could not overlook.

"Like all little girls," admits Miss Holcomb, "I wanted to be an actress." That childhood ambition has kept pace with the brown-eyed beauty throughout her years. At 18, she is still applying the psychology that probably will be her life's ambition. At least she is well on the way toward attaining her goal.

Her training began at four when she was "introduced" to her first expression class. Since, her education has pointed toward dramatics, centered largely around her own for acting.

As Priscilla in the "Courtship of Miles Standish" in the fifth grade, she proved to be something of a small-fry sensation. In high school she received coaching from Bill Adams, a prominent dramatics major, whose interest in Miss Holcomb was maintained until her graduation.

In 1946, she appeared as Corliss in "Kiss and Tell," as Claudia in "Claudia" she won the award for the best district actress in 1947. A year later she was Ruth in "Dear Ruth" and Laura in "The Glass Menagerie." The latter won her

a reappearance on her coveted title as district winner in 1949.

Outstanding in Permian Playhouse, Odessa Little Theatre, Miss Holcomb participated in "Little Foxes," "Blithe Spirit" and "Arden and Old Lace."

Finding time to spark her school days with extra-curriculum activities, the youthful actress was the cheer leader in her junior year and a member of the Shakespeare club. Her high scholastics attained for her a membership in National Honor Society.

Entering her first beauty pageant in Odessa, she was crowned as "Miss Talent" in 1949, following her appearance in a personality skit and swim togs.

In Odessa College, Janie received special training in radio and higher dramatics under Martha Cook, faculty member. She was a member of the junior college honorary society, Phi Theta Kappa.

As a sophomore in the University of Texas, Janie's laboratory scenes gave her a chance to experiment in heavy dramatic roles such as "Electra" by Sophocles, Abbie in O'Neill's "Desire Under the Elms." She also appeared in "Dear Brutus," directed by B. Iden Payne. On the lighter side she was blues singer in the Cowboy Minstrels.

She is a member of Zeta Alpha Sorority and the Curtain Club.

"The Miss West Texas contest," declared the vivacious brownette, "gave me an interesting opportunity to use my past training and experience." She added that the "Miss Texas" beauty pageant, soon to be held in New Braunfels is definitely a challenge.

## M. L. Benedum, Oil Man, Still Busy At 82

M. L. Benedum, whose companies have figured prominently in the oil development of West Texas, was 82 years old Monday.

Although 20 years beyond the age when most men retire, the highly successful wildcatter is looking to the future rather than living in the past, confident that hard work and determination will see this country through the troublous times ahead.

Mr. Benedum still takes an active part in the direction of the many companies which he has founded. These companies include the Big Lake Oil Co., which developed most of the Big Lake field in Reagan County, West Texas; first major pool; the Transcontinental Oil Co. (now dissolved), which shared the discovery of the fabulous Yates field in Pecos County, and Hiawatha Oil & Gas Co., which early this year opened the North Huldale field in Schleicher County. A field in Upton County bears his name.

The celebration of Mr. Benedum's birthday this year was on a small scale, with a luncheon at the Duquesne Club in Pittsburgh, Penn., as the highlight. But no amount of determination can keep the world from beating a path to the door of the great wildcatter to wish him well on his birthday.

Nearly 150,000 prisoners of war from the Chinese and North Korean Communist armies are held by the United Nations forces in huge tent compounds like the one shown at left above. The camps are kept clean and in order by the prisoners themselves. At right, a U. S. Army nurse, Captain Virginia Gillespie, of Mentone, Cal., aided by a captured Korean physician, treats a young prisoner who suffered a leg wound. Prisoners who are ill are treated in the world's largest hospital, which has 10,000 beds. The United Command reports that the prisoners range in age from 15 to 60 years.

## BETTER CHICKENS

Proof of what can be accomplished when industry, science and agriculture work together to improve a food-producing animal is found in the National Chicken-Of-Tomorrow contests. The winner of this year's contest, which was held recently on the University of Arkansas campus, received a prize of \$5,000.

Back in 1945 the poultry research director of a food chain suggested to poultrymen that something be done to develop in chickens the same outstanding meat qualities that had been bred into broad-breasted turkeys. A meeting was called of every major poultry organization and the Department of Agriculture. A committee was formed and rules and procedures set up.

The idea was to develop chickens that would grow faster on less feed and, at the same time, put more meat on breasts, drum sticks, thighs and the over-all skeletal frame. When the program started, the accepted national feed-conversion ratio was four pounds of feed to one pound of chicken. Now the standard ratio is three pounds of feed for each pound of chicken—a reduction of 25 per cent in feed costs alone. Moreover, the fowl reaches the desired marketing weight at an earlier age.

The advantages of this to the producer are evident. And the consumer gains, too—most of the chickens we buy are more tender than they were a few years ago. It is estimated that 425,000,000 of the 625,000,000 chickens produced for commercial meat purposes last year were descendants of Chicken-Of-Tomorrow stock. In sum, the Chicken-of-Tomorrow is here today!

## A "WITLESS PROCEDURE"

One of the best editorials yet written on the much discussed, much misunderstood meat situation can be found in the June issue of Country Gentleman.

Here, in part, is what that magazine had to say: "The rollback of beef prices recently announced by the Office of Price Stabilization is indefensible. . . There can be only one result—less beef and a poorer quality for consumers. Cattle feeders simply won't risk the losses that the OPS move assures."

"The action is certain to defeat itself for it ignores the three forces responsible for beef prices. These are: the amount of money people have available to spend; the proportion of it they will spend for beef; and the amount of beef available for them to buy. The first two forces are still free to operate; in fact, the consumer incomes are rising. But less beef to meet the demand is rendered inevitable."

"When people have more money to spend and want more beef, there is only one logical way to meet the situation. That is by increasing the supply, and cattle producers were increasing production. This is now thrown into reverse. The course taken by the OPS renders its usefulness open to question. It was just such a witless procedure that blew the OPS out of existence in 1946."

There you have it. Whatever else the OPS may or may not do in the future, the points and principles so clearly enunciated in Country Gentleman's editorial will remain 100 per cent valid. In the fight against soaring prices—for beef or anything else—increased production is absolutely essential. The very existence of OPS regulation tends to feed the fires of inflation, and work against the interests of consumers, producers and all concerned.

## NO BONANZA

Do you think that high prices are a bonanza for retailers? If so, a recent factual report on the experience of American department stores for the first quarter of this year will be enlightening.

In this period, the stores' dollar sales were six per cent better than during the same months last year. But net operating profit—the money the retailer has left after the bills are paid—declined. This was due to a very heavy increase in expenses, including payrolls. Net profits from merchandising operations amounted to only 1.9 per cent of sales.

Other types of retailing have had a similar experience. Inflation has hit retailing all along the line. In many instances it has been impossible to raise prices sufficiently to offset the higher costs. So retailing's profits per dollar of sales, which are very modest in the best of years, have gone down.

Moreover, inflation has resulted in tougher competition among retailers. High prices naturally produce consumer resistance, and an increase in "price consciousness" on the part of customers. People tend to "shop around" more and more before they buy, in search of the best deal. So the retailer must keep his prices at the lowest possible level if he is to hold his trade.

No, retailing did not create high prices and it does not like them. It is hurt by inflation, just like all the rest of us.

## What Is Thrift?

In its broad sense, it is handling money wisely.

It is getting the most out of every dollar of the income.

It is the power of making one's dollars bring more dollars after he has earned them.

True thrift does not curtail buying power, it increases it.

## Midland Live Stock Auction Sale Report

The market at the Midland Live Stock Auction Co. Sale Thursday was steady on better grade butcher cattle and good and choice stockers but weaker on other classes of cattle. Plain and common stocker cattle were \$1 to \$2 a hundred lower than the week before. The run of 740 head was the heaviest since price rollbacks were announced.

Fat calves and yearlings sold for \$31 to \$35, mediums \$25 to \$31, commons and culls \$18 to \$25. Fat cows drew \$22 to \$27.50, mediums \$19 to \$22, canners and cutters \$14 to \$19. Bulls, none extra good, cleared at \$23 to \$27.

Stocker steer calves auctioned for \$32 to \$36.50 and heifer calves for slightly less. Cow and calf pairs cashed for \$257 downward. Consignors included Nancy Spicler and Charlie Putty of McCamey, and J. W. Lankford and Floyd Harper of Rankin.

## 26 Projects Aided By Cancer Crusade Funds

HOUSTON.—Twenty-six cancer control projects—12 tumor clinics, 11 information centers, and three special projects—have just received appropriations totaling \$125,590.90 from funds raised in the 1951 Texas Cancer Crusade.

Following recommendations of the Committee on Divisional Projects and Activities, the State Executive Committee of the American Cancer Society, Texas Division, on July 11 approved the budgets needed by the 26 projects at its regular monthly meeting.

The proration of Crusade funds to the Texas projects followed three days of study by various state wide committees of the American Cancer Society.

"The Society's biggest problem has been to figure out how to make \$469,206 raised so far in the 1951 Texas Cancer Crusade line up with budget needs amounting to \$500,000," Dr. G. V. Brindley of Temple, executive committee chairman said. "One-fourth of all Cancer Society funds goes for research into causes and all possible cures of the disease. Money is constantly needed, too, for various services to cancer patients. In addition, our educational program is continually expanding. All together, our committees have been hard-pressed to make the necessary cuts."

Dr. Brindley expressed the hope that the State Crusade goal of \$500,000 would be reached before the close of the Society's fiscal year Aug. 31.

## Dairy Industry To Present Stars During State Fair Of Texas

The dairy industry of Texas, with a 200-million-dollar annual income, will present its proudest stars during dairy cattle shows at the 1951 State Fair of Texas on Oct. 6 to 21.

Purebred Jerseys, Holstein-Friesians, Guernseys, and Milking Shorthorns will compete for \$19,655 in premiums Oct. 12-19, Ray W. Wilson, livestock manager of the Fair, has announced.

The dairy cattle exhibits will form an important part of the fair's mammoth livestock exhibition this year.

The livestock premiums for the 1951 State Fair add up to a record-breaking \$83,074. Twenty-six breeds of dairy and beef cattle, horses, swine, sheep and Angora Goats and Junior Livestock will be shown during the 16 days of the Fair.

The oil industry produced almost four billion gallons of gasoline in December, 1950—more than it did during the entire year of 1948.

In 1950, oil marketers collected more than \$2,000,000,000 in gasoline taxes for Uncle Sam and the states.

A jet engine developing 4,000 horsepower at 735 miles an hour burns a gallon and one-half of fuel in nine seconds.

## "One For The Book"

Miss Reynolds, our town librarian, really put a smart-aleck motorist in his place last week—right in center of town, corner of Main and Walnut.

Her car stalled, tying up traffic. Most drivers just waited quietly—realizing she couldn't help it—but one fellow kept blaring away on his horn.

So Miss Reynolds gets out of her car, walks over and says sweetly, "I'm afraid I can't start my engine. If you'd like to try I'll stay here and lean on that horn for you." That stopped him!

From where I sit, a lot of us are sometimes a little overzealous to "sound off" before we really understand what it's all about. Let's try to see the other fellow's side in whatever he does—how he votes, what he thinks, whether his preference is for a glass of beer or buttermilk—rather than simply blast out anyone who "gets in the way" of our ideas in these matters.

A dozen of New Mexico's 18 Pu-  
eblo tribes from Taos on the north  
to Zuni on the south will take part  
with the Hopis, Navajos, Apaches,  
and several Plains tribes including  
the Kiowas, Cheyennes and Caddos  
of Oklahoma and Sioux of South  
Dakota.

### 1951 POLIO POINTERS

RECOMMENDED BY THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

These are precautions recommended by the National Founda-  
tion for Infantile Paralysis when polio is around. Also, wash  
hands before eating and be on the alert for such symptoms as  
feverishness, sore throat, headache, upset stomach or sore muscles.  
They may—or may not—mean polio. If the disease does strike,  
call your doctor promptly, follow his advice. Your local National  
Foundation chapter will provide needed assistance.

Drop by our store this weekend, and every day to save on your food bill.

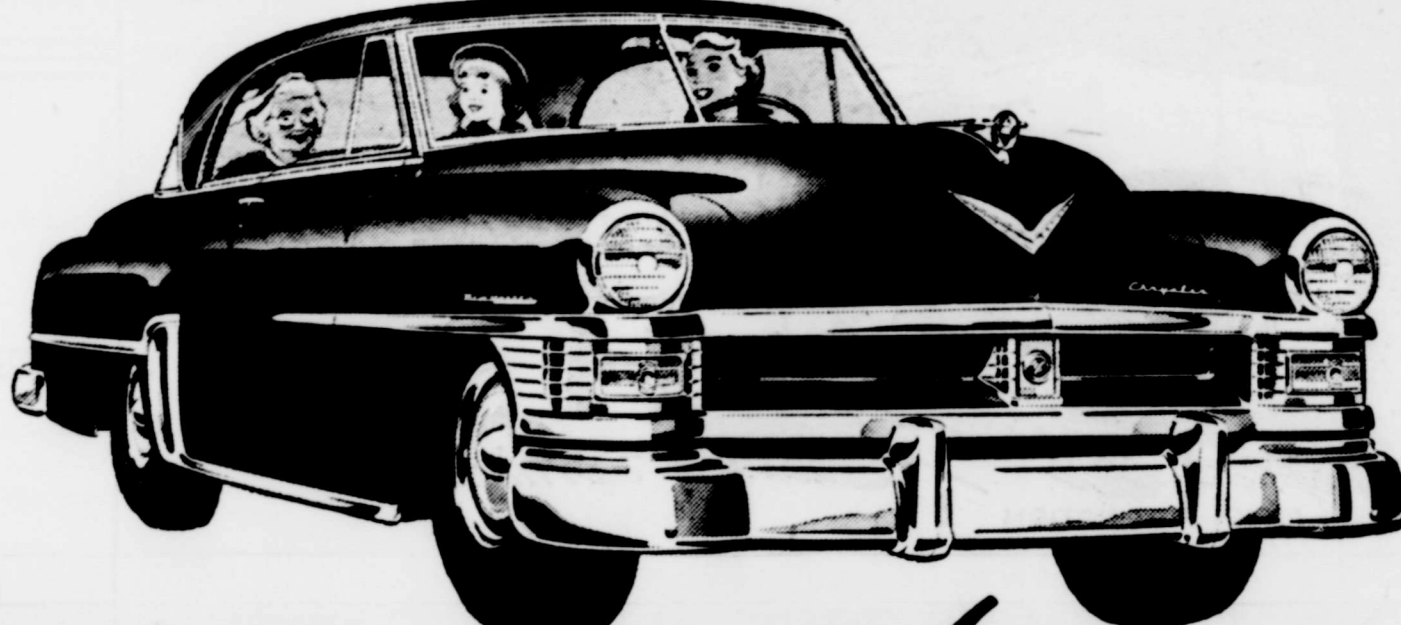

Also, at this time we wish to extend a hearty welcome to Mr. H. S. FitzGerald, new superintendent of schools, to McCamey, and wish him the greatest success during the coming school year.

We assure him and all the school faculty that they will have our hearty cooperation and support in their school program.

**CHRYSLER BRINGS YOU NOW!**

- FIREPOWER PERFORMANCE...**  
180 Horsepower no other American passenger car can match! Even on non-premium grade gas, FirePower's new, designed-in "mechanical octanes" make it the most efficient and most powerful engine on the road.
- HYDRAGUIDE POWER STEERING...**  
here for the first time in any American passenger car! Hydraulic power gives steering ease, control and safety such as you have never experienced before.

- POWER BRAKING...**  
not "in the laboratory stage" but under your toe right now! On all Chrysler New Yorker, Imperial, and long-wheelbase Windsor models. Another Chrysler engineering first that gives you smoother, safer stops.

**HEMISPHERICAL COMBUSTION CHAMBERS...** Illustrated at left you see the engineering reason why no engine in any other American passenger car can match FirePower's 180 horsepower performance. Stop in at your nearby Chrysler Dealer, feel and experience these new motoring wonders for yourself... drive it for the thrill of a lifetime!
