In Monday Session --

Hospitals are Main Court Topics

Hospitals were still the prime consideration for the Upton County Commissioners' Court when they met last Monday.

According to the minutes of the meeting, the Court, members of the Rankin Hospital Board, their architects and the low bidders on the Rankin remodeling proposal will meet Monday, Aug 15 in Rankin to have another go at reaching agreement on the price for these repairs. At the original opening of bids some 30 days ago, all bids were well over the amount of money available for the Rankin work. Since that time, the architects have been revamping the plans in an effort to scale down the costs.

In action concerning the Mc-Camey hospital which is presently under construction, the Court approved an additional \$1,237.50 expenditure on that facility. Of this amount, \$240.00 is to go for added costs for brick and \$997.50 is to be used for the purchase of an additional 21 vanity cabinets for use in the hospital rooms.

With this addition, the total proposed cost of the McCamey

work now stands at \$158,479.50. Columbine Corporation is the contractors for the building.

In other matters, the Court voted to increase the salary of the caretaker at the McCaney Little League and Pony League baseball parks by \$25 per month. effective August 1, 1966.

The remainder of the meeting was taken up with routine matters such as approval of reports from various county officials.

Rankin School Has all Positions Filled

Supt. Bill J. Hood of Rankin Schools announced this week that all positions at Rankin Schools have been filled. Last to be hired was a social studies teacher for Rankin Junior High.

School opens Thursday, Sep-

At a later date, a special series. of features introducing the new personnel at the school will be published in the News.

Next Monday. August 15, a familiar sound will be heard in the area of the football field as

the Rankin Red Devils draw their equipment and begin training for the 1966 season. Coach Wayne Mitchell has indicated that he expects a large number of boys to report for practice.

Buck McVay Dies at Home Tuesday

Although arrangements were not complete at press time, funeral services for Buck McVay were tentatively scheduled for Thursday afternoon at the First Baptist Church in Rankin. The 65year-old McVay died in his sleep sometime Tuesday night. Prior to that he had been feeling well and despite a prior heart condition, had been in generally good health for the past several years.

McVay had worked on ranches in this area for a number of years prior to moving into Rankin some three years, ago, Mrs. McVav is employed at Rankin Hospital.

Other survivors include a son and daughter of the home, two married sons and a married dau-

And there has been many more. But the old time rodeo performer must shake his head a bit in wonderment when he looks back and compares the early rodeo with the present day affair for today's rodeo has about gone over to the younger setespecially in the semi-professional tour. Not only are most of the riders, ropers and competitors in general of younger years, many of them-top winners-are girls. Attend any junior rodeo today and at least half the contestants will want to powder their noses before running the barrels or setting another record in poles.

This bit of feminity, however, takes nothing from the zest and determination with which "new breed" enters into rodeo competition. It is as rough and ready a sport as ever and the girls compete with the best of them and in their specialties, are, perhaps, better performers than would be the boys.

With its early day background, one might suppose that it would be natural for Rankin to continue its love affair with the horse, the rodeo and all things western. In Rankin today, many people park their horses where

They can be found in back yards and in front yards. They have special quarters and ride from one rodeo to another in very special equipment. Some are even used for ranch work. Most, however, are performing horses and still others sport trophies ribbons won in the show rings.

rally found-along with the family-at the rodeo watching his offspring perform.

And the history of top hands, established in early years by the Holders, Poages, Nixes, and all the others, is being carried well by today's youthful riders. At the present time, Rankin has some four or five qualified to compete in the American Junior Rodeo Association's National Fina's Rodeo, to be held Aug. 26, 27 and 28 in Odessa. These are youngsters now in the top five in the national standings. In addition a number of others will be entitled to ride "slack" or fill-in performances.

Last week-end in the Lamesa Rodeo-an event that had over

300 entries before the show began-Tommy Sheffield won the senior boys bull riding. The week before in Big Lake, Audrey Mc-Fadden set some record times in events for girls 8-12.

(Continued to Center Sect.)

RODEOING is not all pretty clothes and fancy trappings as Audrey and Patty McFadden, daughters of Mr. and Mrs. Leslie McFadden of Rankin, prove as they work on their riding under the watchful eye of their father shown with their mounts in the background. Audrey, 11, has been a rodeo performer for five years. Eight-year-old Pat is a three year veteran of competition.

LINE UP-

"Awright here now you people. Let's line up. We're gonna register all these dangerous weapons. You folk there with the rifles, in line over here, pistol line forms to the right. Everyone carrying baseball bats, lead pipes, two by fours, switchblades, bow and arrows, etc., let's get a move on and get lined up."

"You there. You with that sling shot. Unload that thing. Don't you know that little ole David did in big ole Goliath with one of those things. They're dangerous."

And so it will go on the day they decide to have everyone register his weapon. It's not that I can get very excited about the current debate one way or another, not being an avid gun fan; but one does get some thoughts operating them than ever began on the subject.

In the first place, when the Federal people set out to register anything, there always seems to grow thereoutof a tax. So far there has been no mention of a tax but we should all know by now that Washington never passes up a chance to add on a new tax.

Then let's suppose all the firearms have been register. Then

let's suppose A shoots B, dead. They investigate and find that A never owned a gun-that he had stolen the one he used to kill B from a chap named C.

S.

I'll bet ole B will get a large charge out of learning that wherever he is.

And let's take another situation. The automobile. There's no piece of nuts and bolts more registered than the automobile. You can trace the entire history of a car from the time it is made until it is melted down-even most of the parts. The poeple who operate these autos are inspected, tested, licensed and fumigated.

And yet, the automobile is the most deadly killer in the land today. There are more pure nuts to own guns. These same simple idiots can-legally in most cases, operate these cars any time they get good and ready and-if they want to do in someone and themselves, they simply run over them.

It has been done. Very probably far more than we realize.

Register the guns if you like. Even take away all dangerous weapons-including the automo-

And on they go. The faces of today's rodeo performers may not be as wind blown as the range cowboy of the old days but their winning ways continue in much the same vein and in the tradition of Rankin just naturally rearing some of the best rodeo hands to be found.

Dove Season Opens Locally on Sept. 1

Itching to go dove hunting? The time is near at hand, according to area game warden Bill Rice of Big Lake.

There are, however, a few rules of the game that must be observed, Rice has pointed out. Ignore one of these and Zap! Right in the old pocketbook.

To begin with, the Morning Dove season will be from September 1 through October 30 in the North Zone, which includes all of Upton County. Shooting is to be permitted from 12 noon until sunset each day.

Limit is twelve birds daily and twenty-four in possession, after the first day. A Federal law requires one full feathered wing be left on the bird where they are field dressed.

As long as the hunter is a resident of Upton County and hunts within the county, he does not need a license. If, however, he goes outside his home county to shoot, he must have a state hunting license.

Only shotguns may be used in hunting dove and these must not be larger than 10-gauge. If of the pump or automatic variety they must be permanently plugged to a capacity of not more than three shells, including the one in the chamber.

Dove prospects in the area are not exceedingly bright at this point due to the dry weather that has prevailed generally. However, as the colder weather up North drives the birds South, the local nimrod will get a few chances to test his skill-on the wing, naturally,

CHEMICALS DANGEROUS-

Don't relax your guard when using agricultural chemicals. They can enter the body by ingestion, through the respiratory system and in many cases, through the

A person would not knowingly eat a chemical such as a pesticide; however, failure to remove contaminated clothing and to wash thoroughly prior to eating can result in the ingestion of the chemical on food handled by the individual.

Absorption of the chemical through the respiratory tract can occur by smoking cigarettes that have contacted the chemical via hands of the individual. Absorption through the respiratory tract can also occur when one is exposed to chemica's in the form of dusts, sprays, vapors. Adequate ventillation will serve to reduce the degree of exposure and the use of a respiratory protection device is a must.

Protective clothing should be worn at all times when chemicals are being used.

Upton Cattlemen Urged to Tag Stock

All livestock people in the county are urged to get their cattle back tagged if they are shipped to marked, unless they are under three years of age or are steers, according to a release this week from the office of the county agent. Dub Day.

This is a new method to get the county recertified for the Brucellosis program, Day pointed out. This method will take the place of physical recertification.

The back tagging will be done at market if requested by the owner. This will be an easy way

To prevent accidential poisoning, understand and follow the container instructions. If chemical is spilled on the skin or clothing, remove the clothing and wash the affected area thoroughly with soap and water; remove contaminated clothing upon the completion of the job and scrub with soap and water; place contaminated clothing in an area inaccessible to humans and animals and disposed of unused chemicals and "empty" containers immediately and in the prescribed man-

And always remember, the safe use of agricultural chemicals is largely in the hands of the person who uses them.

Watch Those Trees; They Are Deductible

The value of shade or ornamental trees damaged by high winds, tornadoes or other acts of nature is deductible from income taxes. This, according to Bill Smith, Texas A and M University Extension Forester.

The value, Smith says, can be determined by the decrease in assessed value of the real estate or by a formula based on tree size. The formula applies to many trees grown in Texas. The list includes redbud, black walnut, American and Chinese elm, cottonwood, red and white oaks, maples and others.

"A \$5 per square inch of trunk at breast height has been the value determined by the National Shade Tree Conference Committee on shade tree evaluation. Based on diameter at breast height or measurement at 41/2 feet above the ground, the basic value of a 4-inch diameter tree would be about \$62. A 20-inch diameter tree at breast height is valued at over \$1500," Smith

Small trees, under 4 inches in diameter, are valued at replacement cost, plus expense of plant ing with the same size tree. He goes on to say property owners should measure the trunk of a damaged tree before removal and keep this measurement for tax records.

Medicare--

filed an application, should get in touch with the social security office in the three months before he is 65. In this way you become entitled to the health insurance benefits, even though, because of your work, you may not receive a monthly benefit.. Don't worry about your additional earnings: these will be automatically included in refiguring your benefit rate.
