

The Flu Bug is not just on its way any more. It is here and has been for some time. After reading all the stories about people in the northern part of the country dying as a result of the Flu, I wonder if we are really making great advances in the field of medicine -- particularly with a number of vaccines.

What I wonder most is if in the effort to locate and perfect a vaccine, we are not forming a mutant germ or virus which is more deadly and stronger than the original. Such a germ could really raise Cain when it grows to epidemic proportions in an area -- and we have plenty of Cain being raised in a number of areas in this nation despite all our wonder (wonderful) drugs.

According to all the current reports which I have received, it is too late for the Flu Shot to do much good this year if you haven't been inoculated already. The report is that the Asian Flu -- which seems to be the one giving the most trouble -- usually dies out during the last of February and March. In fact, one report claimed that a shot at this time would possibly make the individual more susceptible to the disease.

But I am NOT trying to keep anyone from taking the shot. From my experience with the vaccination, I would say that the decision to take the shot depends upon the individual and his reaction to it.

The doctors here tell me that the serum has been improved considerably since the one given to me. While I was in the service, an order was issued that all men must receive the Flu shot. Along with the rest of the company, I gritted my teeth and allowed the Corpsman to jam the needle into my arm. Never have I regretted any shot so much. For the next three days, I wasn't afraid I was going to die -- I was afraid I wouldn't die. Never again," I said, and to date, I haven't -- despite a number of similar orders which followed before I escaped the military.

For those of us interested in statistics -- more man hours are lost from the job as a result of the common cold than any other single sickness.

I would suggest consulting a doctor and following his advice in regards to the shot unless -- like me -- some past experience has turned you into a raving coward at the thought of going through the rigors of another flu shot. In the latter case, a psychiatrist is the most probable answer.

MORE FOR MARCH . . . Max Reeve, left, president of the Student-Faculty Congress at Friona High School, and Bill Ellis, editor of the Star, talk about the successful March of Dimes drive just ended as Max presents a check for the school's part in the drive. Ellis is local drive chairman.

WINDS UP

MOD Drive Hits \$500 In City

The Friona March of Dimes drive for 1963 topped \$500, according to community drive chairman, Bill Ellis. A report from the Friona school system Tuesday accounted for more than half of the total drive for the city. The schools raised a total of \$273.05 for the March of Dimes, which included coin envelopes for elementary and junior high

students, and a cake auction by the high school Student-Faculty Congress. Last Thursday's Mothers' March by the Jaycee Wives brought in \$100. The march was re-instated this year after a lapse of a couple of years, and proved very successful. The coffee day for the March of Dimes raised \$88.24 for the drive on February 7. The Lions

Club donated its club fines on February 14, which amounted to \$9.10. Coin containers in Friona collected \$23.11 toward the drive. Ellis expressed his thanks to everyone for their assistance during the drive. "We have had splendid cooperation from everyone in the community, and are very grateful," he said. The drive this year was held (Continued on Page 2)

MARCH 3

Residents Reminded Of Third Polio Shot

Dr. Paul Spring, county health officer, reminds Farmer County residents that Sunday, March 3 is the date for the third and final round of mass immunization clinics against polio in the county.

The Type III Sabin Oral Vaccine will be administered. Clinics will be held at the same three locations as in the past -- at Friona, Farwell and Lazbuddie, at the school cafeterias at each place.

Type III dosages were originally held up in many places, when it was believed that a case of polio had resulted from taking that vaccine. However, it has been cleared, and thousands have taken the vaccine in the West Texas area by now, with no reactions reported.

Dr. Spring said that clinics had administered Type III vaccine at Amarillo, Lubbock and other West Texas points. "Some are recommending it for people under 40 only, but we feel it is safe for everyone, and will of-

fer it to any who want to take it," Spring said. The only reservation that the county health officer makes is that at least six weeks have elapsed since the person had his last vaccine shot.

Lazbuddie Show On Tap Monday

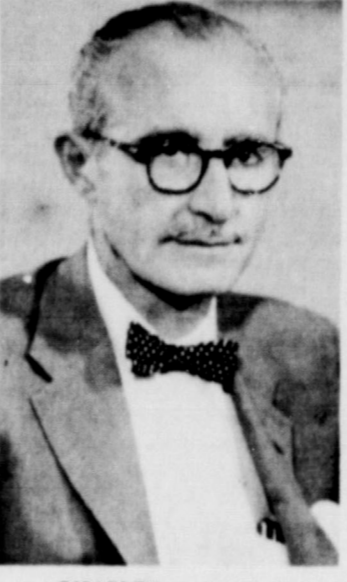

Lazbuddie Junior Livestock Show will be held Monday, February 25, at the Vocational Agriculture Building at Lazbuddie High School.

Judging will start at 1 p.m., according to Scotty Windham, vocational agriculture instructor at Lazbuddie. Lannie Tucker, agriculture instructor at Hart, will be the judge.

Most of the animals to be shown Monday will be entered in the Farmer County Junior Livestock Show March 7-9. About 100 entries are expected for the annual show.

CHARLES A. LAVIS

AT CHAMBER BANQUET

Holly Sugar Official Speaks Here Tuesday

New officers and directors will be installed at the annual Chamber of Commerce and Agriculture banquet Tuesday night at the Friona Schools Cafeteria. Also to be presented will be the Chamber's "Man of the Year," "Woman of the Year," "Teacher of the Year," and "Most Courteous Employee of the Year." Engraved plaques

will be given to the winners. Principal speaker for the banquet will be Charles A. Lavis, Director of Agriculture Development for Holly Sugar Corporation, Colorado Springs, Colorado. Five new directors, recently elected to two-year terms, will be installed. They are O. J. Beene, Hoyt Smith, John Birmingham, Elvie Jennings, and C. B. Short.

sugar beets even before his graduation from Michigan State University. He was then in a part-time position with the United States Department of Agriculture at the University. He was transferred to Colorado State College in 1928 where he spent four years. He was later sent on to the University of California at Davis. In 1933, Lavis resigned from U.S.D.A. and began his career with Holly Sugar, as the company's California Agricultural Research and Development.

Also to be recognized at the banquet is Porter Roberts, recently hired as manager of the Chamber of Commerce and Agriculture, effective March 1.

The presentation of the special awards is a highlight of the Chamber banquet each year. Last year's honorees were George Jones, "Man of the Year;" Mrs. Rose Lange, "Woman of the Year;" Mrs. Granville England, "Most Courteous Employee of the Year;" and Miss Jo Phillips, Friona "Teacher of the Year."

Tickets for the banquet, at \$3 per plate, may be obtained from any member of the board of directors. It was reported at a special board meeting Tuesday that tickets are going fast, and a sell-out is in the making.

NEXT WEEK

Cast Announced For Senior Play

Tickets for the annual senior play at Friona High School are on sale this week by members of the class.

The play, "Gangway for Ghosts," will be presented on two nights, Thursday, February 28 and Friday, March 1, at 8 p.m. both nights.

Characters for the three-act comedy-drama include: Janet Buckley, who plays Sally King, a 17-year old girl who

wants to be a detective and tries to find out the mystery of Storm Heights.

Tom Gee plays Sally's shadow, String Beane, who doesn't seem to be quite as brave as Sally. Hester Storm, the owner of Storm Heights, is played by Brenda Deaton. She is a sweet old lady active in charity work. Gayla Grande, an actress, is portrayed by Kay Burleson. On the verge of a nervous breakdown, she comes to Storm Heights seeking rest. Posy May Purdy, Miss Grande's faithful colored maid, is played by Carol Ray.

Earl Crow plays the part of Hal Charteris, a playwright and Sally's brother as well as Gayla's ex-fiance. Billy Don Thomas plays Eli Gandy, the sheriff who is as "smart as a tree full of owls."

Wanda Ready portrays Crazy Nell, a batty old woman who thinks she's dead. Ned Jordan, Gayla's father, is played by Wayne Cason.

Andrea Milligan plays the part of Minnie Brill, the housekeeper at Storm Heights. Danny Carmichael is Peters, the butler.

FRIDAY

Squaws To Host Cotton Center

The Friona Squaws will be out to re-discover the winning combination Friday when they host the Cotton Center girls in a warmup game. The Squaws dropped their eighth game of the season Tuesday at Happy, a 41-31 decision.

Tentative plans call for a "B" girls game along with the varsity game Friday. The preliminary game if played, would start at 6:30 p.m. Next Monday, the Happy girls come here for a rematch, also tentatively scheduled for two games, and

the following Saturday the Squaws will go to Plainview to battle the Wayland College Queen Bees in a preliminary game to the Flying Queens' game.

Friona just wasn't its old self in Tuesday's game. The Squaws fell behind early in the game and just never were in the game.

"Happy just outplayed us. They wouldn't let us do anything. They actually outclassed us (Continued on Page 3)

Eve, Carlos To Speak To P-TA

Friona High School's two exchange students, Carlos Azofeifa and Eve Braunschweiger, will be guests of the Friona Parent-Teachers Association in its regular meeting tonight.

Mrs. Curtis Murphree, who is in charge of the program, says that the students will present "glimpses of their individual countries."

All members of the P-TA are encouraged to attend.

BAKER BROTHERS . . . Dick and Bo Baker are the revival team which begins a meeting at the First Baptist Church Sunday.

STARTS SUNDAY

Baker Brothers Lead First Baptist Revival

The First Baptist Church begins its annual spring revival Sunday, February 24. Dick and Bo Baker, one of the most sought-after evangelistic teams in the Southern Baptist Conference, will be in charge of the series of services.

Twice-daily services will run through Sunday, March 3. The worship services on weekdays begin at 10 a.m. and 7:30 p.m. Sunday services are at the regular time, 11 a.m. and 7 p.m. "We are indeed fortunate to have such an outstanding team

as the Baker Brothers to lead us in our revival, and we extend an invitation to the entire community to join us in hearing this fine Christian team," says Rev. W. G. (Bill) Burton, pastor.

The Baker Brothers have travelled extensively, and have a world vision and concern for today's time of crisis. Their work has led them throughout the United States, portions of Europe, the Near East, Bahama

(Continued on Page 2)

NO CANDIDATES

Interest Is Lagging In Two City Elections

With filing deadlines approaching for two elections in Friona, no candidates have filed in either election.

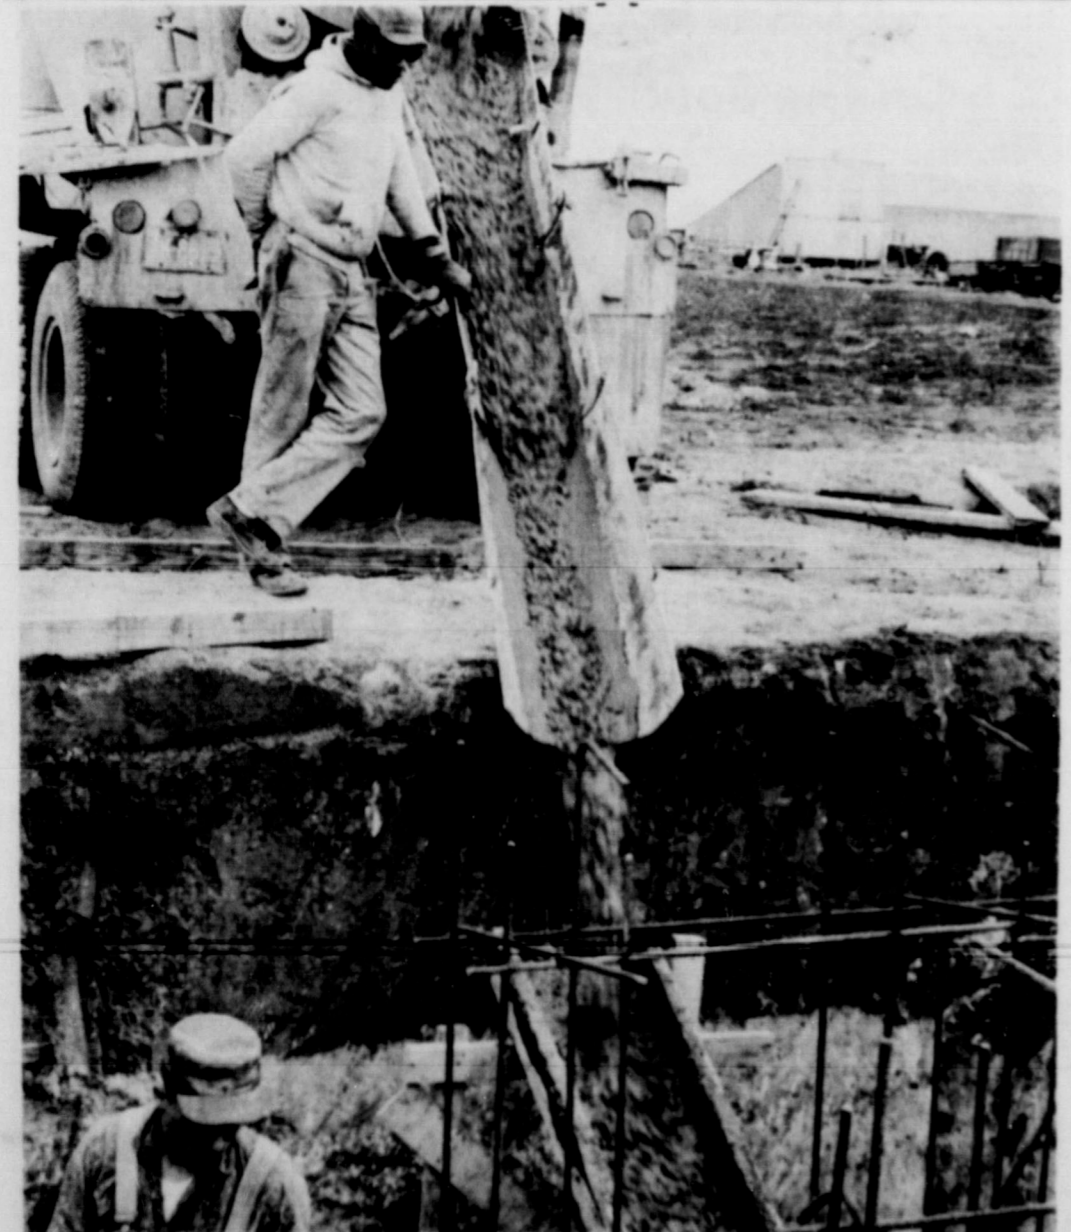

Deadline for filing for a seat on the city commission is about a week away -- March 2 -- and no one has announced, although three aldermen's terms are expiring.

The Friona Independent School Board election, which will elect two trustees, has a March 6 deadline, and no one has announced for this election either. Terms of aldermen Bill Nich-

ols, Wright Williams and Kenneth Williams are expiring on the city council. None have announced for re-election as yet, according to City Manager Jake Outland.

School Board president D. C. Herring and board member W. M. Masie's terms are expiring this year, and neither have indicated whether they would run again or not.

The city election is set for the first Tuesday in April, April 2, while the school election is scheduled on Saturday, April 6.

START TOWER WORK . . . Concrete was poured this week on the foundation for Friona's new overhead water storage plant, being constructed in the northern section of town.

NEW OFFICERS . . . Scanning the returns of Wednesday's student body election at Friona High School are next year's president and vice president of the Student-Faculty Congress, respectively, Mickey Wilson and Danny Murphree.

Editorial:

Reporting The Truth.. Our Heritage As A Newspaper

In returning to our policy of reporting all court happenings in Friona's Corporation Court and Justice of the Peace Court, the Star will no doubt receive criticism from some quarters.

Some people maintain that some things are better if they are not published. We of the newspaper world have never subscribed to that theory. Of course, there are limits to what is privileged news, and we are glad to keep within those bounds.

But to leave something out of print merely because it might offend a person -- this is no excuse. Sometimes a person may have committed a sizeable crime, and people in authority, yes, even law officials, would refrain from giving his name -- which might allow him to slip back into society unnoticed, and commit the same crime against his unwary neighbors.

Newspapers are vested with the responsibility of publishing official records. Often this can be very helpful, although often all too few take advantage of this service.

Only recently did a group of Friona residents discover that failure to pay attention to one of these "official notices" caused them much personal grief, which could have been avoided had they read and heeded the newspaper's legal notice column.

Naturally, since newspapers report about human beings, they must report the good along with the bad, because there just aren't any perfect people around. (If you know of one, please call us -- we'll be glad to write a feature story about same.)

So, read your weekly and/or daily newspaper thoroughly. You don't have to agree with everything you read. You don't even have to like what you see in print. But you might remember to be thankful that you live in a land where newspapers can exercise their freedom, and print whatever they choose, and not be just mouthpieces for the state.

WT Telephone Gets \$450,000 REA Loan

A \$450,000 loan request by West Texas Rural Telephone Cooperative was approved last week by the Rural Electrification Administration.

Funds will enable the cooperative to finance new service to 199 subscribers, build 135 miles of new line, improve office equipment, and provide

a higher grade of service for its customers in general, according to the area's representatives in Washington.

Parmer County exchanges which would benefit from the announcement include Hub, Parmer, Tharp and Oklahoma Lane.

It was stated that studies were being made to determine whether or not to install new equipment at Dawn, Westway, Frío and Hub exchanges.

Equipment currently in use at those places could be put to use in the Parmer, Tharp and Oklahoma Lane exchanges.

The application for the loan was made by the West Texas Rural Telephone Company after a meeting of the membership in November of 1962, which discussed an expansion plan.

The members voted for a five-party system to be installed as soon as possible.

New lines to be installed will be buried cable in most cases. This will be installed rather than aerial wires because the latter is damaged and service interrupted during electrical and ice storms.

Present lines in the cooperative are cramped with 10 and 12 customers to the line in many cases.

Baker Brothers--

(Continued from Page 1)

Islands, Cuba, Hawaii and recently to Japan.

Bo Baker, the preacher, has quite a background as a pastor and an evangelist. Dick Baker, the singer, is widely known as a composer as well as a gifted vocalist and pianist. Both are graduates of Baylor University.

While still a student in Baylor, Bo sang and preached his way across the Southland as an original member of the Youth Revival Movement. After gaining his degree from the seminary, Bo pastored Texas churches for 16 years.

The two brothers have composed more than 20 gospel songs and choruses. Dick's most famous song, "Longing For Jesus," has been translated into five languages. He has recorded several albums for Word Recordings of Waco.

Bo has frequently been invited to speak on college and university campuses, where students respond eagerly to his presentation of the message of Christ. In 1960 he was selected to represent Southern Baptists at the Baptist World Alliance in Cleveland.

Dick, a member of the Billy Graham team during the New York City Crusade, has served as guest director for scores of assemblies, conventions and other meetings. Among his responsibilities, Dick Baker is soloist on the WBAP-TV production "Christian Questions."

The brothers often treat their audiences with trumpet duets and other musical features, which their remarkable versatility allows.

Billy Graham has said of the team: "Bo and Dick Baker, both of whom I regard as close friends, are a great credit to a field of evangelism. Both are talented, sincere men of God. Their work is church-centered, which is where it should be; and all the honor will go to the Lord. My confident prayer is that God will wonderfully bless the efforts of these dedicated brothers."

Squaws--

(Continued from Page 1)

more than the 10 points indicates," said Coach Baker Duggins.

The Squaws were able to score only one field goal during the first quarter, as Happy took a 12-6 lead. Things picked up somewhat during the second period, although Friona never could take the advantage. Score at halftime was 22-15, Happy.

The Cowgirls, winners of District 3-B, continued their mastery in the third and fourth quarters. Friona managed just eight points in the third quarter. The Jennings scored four of Friona's points in the third quarter, but Happy poured in 12, for a lead of 34-23 at the end of the quarter.

The Squaws finally outscored their opponents in the final quarter, 8-7, but it was too little and too late, with Happy holding a 10-point margin, 41-31.

The total was the lowest of the season for Friona. Jennings led the Squaws with 13 points, one of her lowest totals all year.

MOD Drive--

(Continued from Page 1)

off until February because of adverse weather. Jack Patterson of the Rhea community is the county March of Dimes chairman.

The Jaycee Wives volunteered to take up the Mothers' March, which previously had been another club's project, but was dropped. "We enjoyed the drive, and would like to have it as an annual project," said club president, Mrs. Billy Nazworth.

Other members of the Jaycee Wives who participated in the event included Mrs. D. E. Renner, Mrs. Glenn E. Reeve, Jr., Mrs. Virgil Phipps, Mrs. C. H. Veazey, Mrs. Dale Williams, Mrs. Robert Zetzsche and Mrs. Ronald Smiley.

The total amount collected in Parmer County for the March of Dimes will be announced in the near future. Bovina's drive netted \$234.63. Farwell's total

was unavailable. Every establishment or group which assisted with the drive will receive a certificate of appreciation from the MOD, Ellis said.

In The Courts

CORPORATION COURT

The following case was tried before Judge Thelma Jones in the City of Friona Corporation Court for the week ending February 18:

Barbara Kay Baber, negligent collision.

JP COURT

The following cases were tried before Judge Walter Lovelless in Friona's Justice of the Peace Court for the week ending February 18:

Daryl Wayne Tidrick, passing on the right side.
 Jim Roy Wells, speeding.

It is fitting that we observe National FFA Week during the week of George Washington's birthday. Not only was George Washington the "Father of our Country", but he was also a thrifty farmer. He planned his estate well, and it produced abundantly.

SUNDAY

Calvary Baptist To Dedicate New Unit

NEW ADDITION . . . The new educational unit of the Calvary Baptist Church, which will be opened Sunday, is shown at left, with the main building in the background.

The Calvary Baptist Church will formally open its new educational unit Sunday. The church plans for the classes to meet in their new rooms for Sunday School, which begins at 9:45. Preparation is also being made for a new Sunday School attendance record. Record attendance for the young church now stands at 254. Special dedication services are planned for the morning worship hour beginning at 10:50.

This is the third major building program for the church since its organization less than three years ago. The building, which provides 4,000 square feet of floor space, will care for a new Beginner department, three Primary departments, a Junior department, Youth department, church office, and pastor's study.

"Open House" is planned for Sunday afternoon beginning at 2:30 and the church has invited everyone to come by and go through the new unit.

Johnny Brand and J. W. Bradshaw were employed to do the carpenter work, but much of the labor was volunteered by the members. The ladies did the textoning and painting while the men did much of the carpenter work, laid the floor tile, etc.

Rev. Audye Wiley, pastor, states that although he is glad to see the building finished, it will be lonely around the church with no one there working on the building.

The building committee which directed the new addition is composed of: Elroy Wilson, chairman, V. M. Ferguson, Sam Bailey, H. A. Hyde, Ray Castleberry, Marvin Jordan, and Ruben Taylor.

"You are given a cordial invitation to the services at Calvary Church," states Rev. Wiley.

Teachers Hold Friona Meeting

Parmer County Teachers Association held its third meeting of the year in Friona Monday night. The group had dinner in the school cafeteria, then broke up into discussion groups for meetings in classrooms throughout the school building.

Amos Tatum, high school principal at Farwell, is president of the group, and presided at the meeting.

The four school superintendents in the county were appointed as a nominating committee to nominate officers for the coming year. They are Alton Farr, Friona; W. M. Roberts, Farwell; Warren Morton, Bovina and James Ward, Lazbuddie.

Also, delegates were appointed to the district convention. The final meeting of the year will be held at Lazbuddie, the date to be announced.

Services Held For Cassady In Farwell

Funeral services were held in Farwell last week for R. A. Cassady, 33, who died following recent heart surgery in Dallas. Cassady was born January 31, 1930 in Quitaque. Survivors include his wife, Marcella, four children, Bruce, 6, Carry, 4, Teresa, 2, and Ray Don, infant baby, his parents, Mr. and Mrs. C. A. Cassady of Texico, a brother, Phil of Bovina, and three sisters, Mrs. Johnny Pruitt of Del Rio, Mrs. Doyle Cummings of Friona and Beverly

erly Cassady of Texico. Pallbearers were Truman Kittrell, Don Williams, Gorman Byrd, E. J. Hodges, Tony Johanke and Robert Armstrong. Honorary pallbearers were Ted Magness, John Burrow, Robert Hale, John Porter, Glenn Phillips, Charles Phillips, John Armstrong, Joe Magness, Thurman Utsman, Ray Ford and Glen Singleterry. Burial was in Sunset Terrace Memorial Cemetery in Farwell under the direction of Claborn Funeral Home of Friona.

1870 Pay Poll Tax In County

An estimated 1,870 persons paid poll taxes in Parmer County for 1963 voting, according to county tax assessor-collector Lee Thompson.

This figure compares to a total of 2,432 who bought poll taxes last year, which was a gubernatorial election year in the state.

"We always fall down somewhat on the 'off years,' so I suppose that's a pretty good figure," Thompson said.

Mr. and Mrs. Ross Goodwin of Muleshoe have announced the engagement and approaching marriage of their daughter, Jana, to Gerald Floyd, son of Mr. and Mrs. Glenn Floyd. Wedding vows for the couple will be read at Muleshoe Church of Christ at 6 p.m., Saturday, April 6. She is a 1961 graduate of Muleshoe High School and is a junior student at Methodist Hospital School of Nursing in Lubbock. He is a graduate of Friona High School and received his Bachelor of Science degree in Range Management from Texas Tech. Invitations are not being mailed locally, but friends of the couple are invited to attend.

Sheryl Worley To Present Recital

Sheryl Kay Worley, will present her first year piano recital Saturday, February 23 at 7 p.m. in Recital Hall of Musical Arts Conservatory at 1710 Tyler Street, Amarillo.

Sheryl is the nine year old daughter of Mr. and Mrs. Ladson Worley, Friona, and is a fourth grade pupil of Mrs. Lois Miller in the local school. She is a piano pupil of Imogene Bramblett, who is a member of the faculty of Musical Arts Conservatory.

She will play nine numbers from memory, including classical numbers, contemporary numbers and some hymns. The public is invited to attend.

Rebekahs Meet

Mrs. Floyd Brookfield presented a report on the life of Abraham Lincoln at the Monday, February 11, meeting of Friona's Rebekah Lodge. Six persons were present. Reports were made of 23 sick visits and 3 cards being sent. Mrs. Charlie Wise was the hostess.

Club Members Study Children's Heritage

"Our Children's Literary Heritage" was the topic of study at the Tuesday evening meeting of Progressive Study Club at Federated Club House. Roll call was answered with favorite quotations.

Gay Cranfill presented Constitutional Comments pertaining to Article II and Amendment 12 "The President and the Electors."

Drama reading of "The Nut Farm" by John C. Brownell and "Anna Christi" by Eugene O'Neill was directed by Lunell Horton. Other readers were Mary Sheehan, Joy Lindeman and Waneen Ragsdale. "A Merry Life" by Luigi Denza was sung by the group.

During the business session the resignations of Glenna Balnum and Ruthie Fite were accepted. Phila May Weatherly was elected treasurer. The February 26 meeting was cancelled due to a conflict with the Chamber of Commerce banquet.

Refreshments of cherry tarts, coffee and tea were served. Hostesses were Winifred and Mary Sheehan. Mrs. Jim Johnston was a guest.

MR. AND MRS. RAYMOND CURTIS BEARD JR.

Jo Ann Altman Weds Raymond C. Beard Jr.

In a double ring ceremony at Palms Baptist Church at Twenty-Nine Palms, California at 5 p.m., Friday, February 8, Jo Ann Altman, daughter of Mr. and Mrs. Hop Lewis Jr. of Friona, became the bride of Raymond Curtis Beard Jr. Beard, who is the son of Mr. and Mrs. R. C. Beard Sr. of

Amarillo is currently stationed at the Marine Base at Twenty-Nine Palms.

Rev. William Pettey read the wedding vows.

The bride wore a bone colored sheath dress of slub weave cotton. Her corsage was a cascade arrangement of Tallman roses.

Those attending the ceremony were Mrs. Lewis, mother of the bride; Mr. and Mrs. Beard, parents of the groom; Mr. and Mrs. Bee Westbrook, Friona, maternal grandparents of the bride.

The couple will be at home at Twenty-Nine Palms.

Mrs. Danny Smith Feted With Shower

A bridal shower in the home of Mrs. Herschel Johnson from 3 to 5 p.m., Saturday, February 9, honored Mrs. Danny Smith. Hostesses with Mrs. Johnson were Mesdames H. L. Outland, Russel O'Brian, Dale Smith, Jim McLean, Dalton Caffey, Bill Baxter, Dorothy Hough, Bill Nunn, Mack Balnum, Leonard Coffey, Ross Terry, H. C. Kendrick and Arthur Drake.

Refreshments of hot spiced punch, cookies, and mints were served by Betty Drake and Mrs. Dale Smith from a serving table, which was covered with a white lace cloth over blue satin. The centerpiece was a floral arrangement. Tall white candles completed the table decorations.

Guests were registered by Karen O'Brian. Piano selections were presented by Janet Smith, Mrs. Dale Smith and Kay Johnson.

Corsages were presented to the honoree, her mother, Mrs. U. S. Akens, and mother-in-law Mrs. Hoyt Smith.

Stork Shower Honors Mrs. Valton Howard

Mrs. Valton Howard was honored with a stork shower in Fellowship Hall of Calvary Baptist Church recently. Hostesses were Mesdames W. S. Crow, V. M. Ferguson, Eune Martin, Max Self and Ira Holt.

A large stork surrounded by miniature baby buggies, which were used as favors, centered the serving table. A corsage of white, pink and blue baby socks tied with white satin ribbon was presented to the honoree. Refreshments of pink, blue and white cakes, red hot spiced apple punch, nuts and mints were served.

Those attending and sending gifts were Mesdames A. M. Wiley, Larry Taylor and Kim, Jerry Loflin, Phillip Weatherly, James Anthony and Mark, Dale Williams, Glen Williams, Robbie Osborn, Ruben Taylor, Dee Taylor, L. D. Taylor and Jimmy Castleberry.

Also Mesdames Ethel Adams, Lola Gilmer, Wesley Foster, J. L. Brooks, Lee Campbell, James Taylor, John Benger, W. H. Jones, Jerry London, Jack Nelson, James Cunningham, Jim Greeson, Bill Kent, Mike Ellis, Ralph Smith and

Girl Born To Jarrell Wrights

Mr. and Mrs. Jarrell Wright became parents of a baby girl at 3:30 a.m., February 18. She weighed 7 lbs. 4 ozs. and was named Diana Kay. She is the first child for the couple.

Grandparents are Mr. and Mrs. John Wright, Friona, and Mr. and Mrs. Loyd Stephens, Muleshoe. Great-grandparents are Mrs. W. P. Hicks, Mena, Ark. and Mr. and Mrs. H. E. White, Childress. Mrs. Nettie Freeman, Wichita Falls is Diana Kay's great-great-grandmother.

M. L. Howard.

Also Mesdames Wright Williams, W. M. White, C. S. Crow, Roy M. Miller, Elmer Euler, Paul Strickland, J. A. Wilson, Tom O'Brian, Tom B. Mason Jr., Joe Tongate, Lewis Smith, C. S. Scarborough, O. L. McMurtrey, J. R. Coker and Cayson Jones.

Also Mesdames Bill Turner, J. L. Taylor, Jack Moseley, James McLean, A. A. Crow, Raymond Jones, Orville Houser, Larry Fairchild and Charles Allen and Misses Jo Phillips and Lola Goodwine.

Boy Born To Earl Boyds

Mr. and Mrs. Earl J. Boyd Jr. of Savannah, Ga., became parents of a baby boy January 17. He weighed 5 lbs. 13 ozs. and was named Earl Jay. Mrs. Janice Patton, maternal grandmother, returned from Georgia recently after visiting in the Boyd home a week.

Mrs. Boyd is the former Virginia Patton.

Ladies Aid Society Has Regular Meet

Immanuel Ladies Aid Society of Rhea met February 14 at 7:30 p.m. at the Parish Hall for the February topic study and business session. They decided to sponsor a family mission night, which will begin at 7:30 p.m., March 15 at the Parish Hall. A movie, "To The Ends of the Earth" will be shown.

Mrs. E. A. Binger was elected chairman of the Christian Growth committee and Mrs. Roy Ziechang was elected chairman of the Good Shepherd committee. Money was sent for the World Relief Program.

Mrs. Walter Schueler, Mrs. Franklin Bauer and Mrs. Raymond Schueler gave the topic study on "Your New Guinea Mission" and played a record of New Guinea songs and prayers.

Mrs. Raymond Schueler served refreshments to the eight members and one visitor present.

Thinking Day Observed Monday

Leaders of Brownie Troop 268 surprised members of the troop with a party in observance of Thinking Day, which is February 22. On this day all Girl Scouts think of all other girls in the world.

After a brief business session, presided over by Susan Spring, troop president, refreshments of cookies and punch were served from a gaily decorated table.

Valentines and world pins were presented to troop members. Mrs. Hudson Phillips Sr. lectured on the manners

and customs of youth of European countries. The Girl Scout Law that each member is a friend to all and sister to every other Girl Scout was stressed.

Mrs. Phillips also taught the girls a new Girl Scout song. There are eighteen girls in this troop who have passed ten-foot requirements and are ready to fly up from Brownie Scouts into Girl Scouts.

The fly up program has been planned for Monday evening, February 25.

ORIENTAL THEME . . . Mrs. W. G. Burton, left, was honored with a tea in the home of Mrs. Charles Allen (center) on Sunday, to raise funds to enable Mrs. Burton to accompany her husband on the forthcoming Japanese Crusade. Serving the women is Mrs. Phillip Weatherly, one of the hostesses for the tea.

George Washington Program Presented

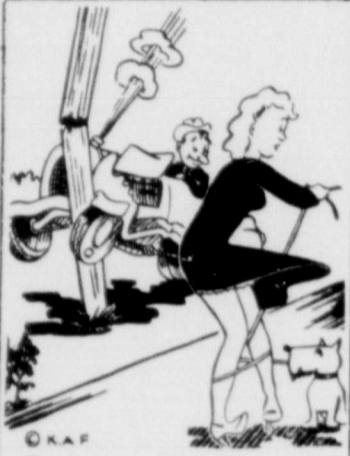

Mrs. I. V. Day gave a program featuring the life of George Washington at the Monday evening meeting of Friona Rebekahs.

During the business session amendments which will be voted on at Grand Lodge were read. Grand Lodge will be held in

Houston next month. Local delegate is Juanita Reed, Geneva Williams is alternate.

Reports were made of 57 sick visits and 39 convalescent cards being sent.

Mrs. Day was also the hostess. She served hot cherry cobbler, cold drinks and coffee.

Don't be up a tree because you've run out of gas or the battery is dry. Get the habit of letting us check it for you. Have those tires checked next time you're down our way.

Oriental Silver Tea Honors Mrs. Burton

Mrs. Bill Burton was honored with an oriental silver tea Sunday afternoon at the home of Mrs. Charles Allen. The women of the Young Married Department of First Baptist Church were hostesses for the event.

Decorations were carried out in an oriental theme to set the mood for the Burton's coming trip to Japan. Rev. and Mrs. Burton and Mr. and Mrs. Allen will leave for Japan on April 21 as missionaries in the Japan Crusade sponsored by Texas Southern Baptists. Purpose of the tea was to help raise money for the trip by love offerings donated by those attending.

The serving table was centered with a ming tree adorned with silver coins. Donations were placed at the base of the tree. The table was laid with a white linen cloth decorated with black Japanese characters expressing good wishes. Table appointments were of silver. Rice paper napkins and cake squares with oriental designs completed the table arrangements. Japanese proverbs in small capsules were hidden in the center of each cake.

Other oriental decorations throughout the house were contributed by interested townspeople. Geisha dolls, fans and a colorful kimono were loaned by a Japanese woman from Clovis.

Guests signed an original guest book designed by Ann Osborn. The guest book table was decorated with an arrangement of black and white flowers in a Japanese vase.

The honoree wore a sheath dress of pastel blue knit with a corsage of white carnations.

Hostesses for the first hour of the tea were Mesdames Fern Sanders, Barbara Maynard, Carol Ellis and Martha Allen. Mrs. Jacqueta White furnished piano music.

Hostesses for the second hour were Mesdames Luann Hough, Cherry Ann Mingus, Mary Joy-

ce Barnett, and Jean Kelly. Miss Lois Moyer furnished the piano music during that hour.

Hostesses for the last hour were Mesdames Ruth Reeves, Ann Osborn, Donna Mears, Phila May Weatherly and Laura Lee Hart. Mrs. Jere Smith played the piano. Also assisting throughout the tea were Mrs. Glynn Don Hughes and Mrs. Claude Osborn.

Friona Students In Hymn Festival

Vicky Payne, Mary Margaret Sheehan and Kathleen Sheehan played in the District Nine Hymn Festival at First Baptist Church in Plainview Friday. Accompanying the group to Friona was their piano teacher, Mrs. Ladson Worley, and her daughter, Sheryl.

Mary Margaret participated in planned activities for a group whose members have had more than four years of private study. Her assignments consisted of

one hymn from memory, one suitable for congregational singing and one suitable for an offertory.

Vicky Payne and Kathleen Sheehan, whose assignments were for a group with less than four years private study, played the same assignments except the hymn suitable for an offertory. Each player in the festival will receive adjudication sheets from Dallas.

Vicky is the daughter of Mr. and Mrs. John Payne and Mary Margaret's and Kathleen's parents are Mr. and Mrs. Bill Sheehan.

Lawanna Towry Queen Candidate

Following selection of Carol Young, 18-year-old freshman student from Amherst as homecoming queen of South Plains Junior College at Levelland Feb. 8, announcement was made of the thirteen candidates sponsored by various college organizations.

Lawanna Towry, sophomore student and daughter of Mr. and Mrs. Eldon Towry of Falls, was one of the queen candidates. Lawanna is a 1961 graduate of Friona High School and was employed at Plains Publishers during the summer of 1962.

LAWANNA TOWRY

Ricky Lee Tims Born Sunday

Mr. and Mrs. Donn Tims became parents of a baby boy at 1:45 a.m. Sunday, February 17, at Farmer County Community Hospital. He was named Ricky Lee and weighed 5 lbs. 13 1/2 ozs.

Ricky Lee has an older brother, Larry Don. His grandparents are Mr. and Mrs. Leo Bails, Friona, and G. E. Tims, Farwell. Mr. and Mrs. A. H. Hadley are maternal grandparents and F. H. Hadley, also of Friona, is the maternal great-great-grandfather.

Rhea Residents Attend Tourney

Curtis Ziechang, Franklin Bauer, Leland Gustin, Walter Schueler and Chris Drager attended a bowling tournament in Amarillo Sunday. The tournament was sponsored by Lutheran Laymen's League.

Members of a team from Canyon received the walking trophy.

Mrs. Bill Ellis Hosts Class Meet

The regular meeting of the L.L. Sunday School Class of the First Baptist Church was held Friday night at the home of Mrs. Bill Ellis. Eight members and two guests were present.

Mrs. Charles Allen, class teacher, led a study of the Book of Revelation following the regular business session. Refreshments of cookies and hot chocolate were served.

Class members present were: Mrs. Dave Allen, Mrs. Dale Hart, Mrs. Fred Kelly, Mrs. Joe Cox, Mrs. Charles Allen, Mrs. M. C. Osborn, and the hostess Mrs. Ellis. Guests present were Mrs. Carlton Newell and Mrs. Harold Blough.

Mrs. Lloyd Messenger assisted with preparations but was unable to attend.

Something To Think About

6th. Street Church of Christ
Box 515 -- Friona, Texas

Antiquity, respectability, and the number of adherents is not a dependable guide in determining the validity of a religious doctrine. Even so, much of the religious division of our day is a result of this very thing. Traditions of men, which are the precepts of men, usually set aside, or violate in some way, divine truth, and every person concerned about the salvation of his soul should ask this question: What is the source of any particular tradition, teaching, or commandment? Is it from God or man? Jesus exposed the traditions of the Scribes and Pharisees (Mark 7:1-13) He did not condemn washing of hands as such, but he did condemn it as a religious rite that had as its authority man's tradition rather than God's Word. He declared that their worship was vain because they laid aside the commandments of God that they might hold to their traditions. Too many people are content to let someone else do their Bible study for them. Consequently multitudes of sincere people think that traditions are now hallowed and acceptable because their antiquity has made them respectable, and consider it improper for anyone to oppose these traditions. This brings us back to our question - Is it from God or man? There is only one way to get the right answer, study your Bible!

WHAT IS TRUTH? Many people still have found no satisfactory answer to the age-old question: "What is Truth?" To some men the absolute truth in matters of religion is just about a toss-up. Flip of a coin. Heads I'm wrong, tails I'm not right.

We are in danger of drifting into the lazy mood of indifference and saying that truth in matters of religion is a very relative thing—a matter of ancestry. If you are "born in one religion," that religion is true for you.

By no means! Truth will always be true, and error will always be false! Jesus says: "If ye continue in my word . . . ye shall know the truth" (John 8:31-32); "I am the Way, the Truth, and Life" (John 14:6); "To this end was I born . . . that I should bear witness to the truth" (John 18:37.)

The truth about man, according to the Bible, is that he is by nature exceedingly corrupt and in need of salvation (Rom. 3:23). The truth about Christ is that He gave Himself a ransom to redeem the human family (Matt. 20:28).

The truth about the way of salvation is that every man who repents of his sin and trusts in Christ for his redemption is restored to sonship with the Father and assured of eternal life in Heaven (John 1:12; Pet. 1:18-19).

Those truths are eternal. Of those truths Christ says: "Heaven and earth shall pass away, but my words shall never pass away." (Matt. 24:35)

What is truth? ". . . Thy word is truth . . ." (John 17:17)

FUTURE LOOKS BRIGHT

Sophomores Pace Chiefs, Final Statistics Show

Three different players were individual department leaders for the basketball season recently completed, according to final season statistics released this week by Coach Vernon Scott at Friona High School.

All three are sophomores, giving promise of good things to come in boys basketball at FHS. Larry Buckley, 6-2 center, led the team in scoring. Danny Murphree was the leading field goal shooter and Jim Sneed had the top free throw average.

Buckley was the only player

with an average in double figures for the entire season. He scored 278 points in 25 games, an average of 11.1 points per game. Senior Billy Thomas had the next best average at 7.4 points per game. However, Murphree, the only player to see action in all 26 games played by the team, was second in number of points scored, with 176.

Murphree surpassed Buckley and Max Reeve, field goal leaders for the first half of the season, to grab the title for the season with a 46.9 per cent

average, hitting 60 of 128 shots from the field. He finished strong, averaging 10 points per game the last part of the season, after having just a 4.4 points-per-game average at the halfway mark of the year.

Sneed, playing in reserve most of the year, had his biggest game against Tulla here, a 61-58 win which was one of the team's proudest wins of the season. He scored 11 free throws in that game (14 attempts) to shoot himself into the team lead. For the season,

Sneed hit 28 of 39, a 71.8 per cent average.

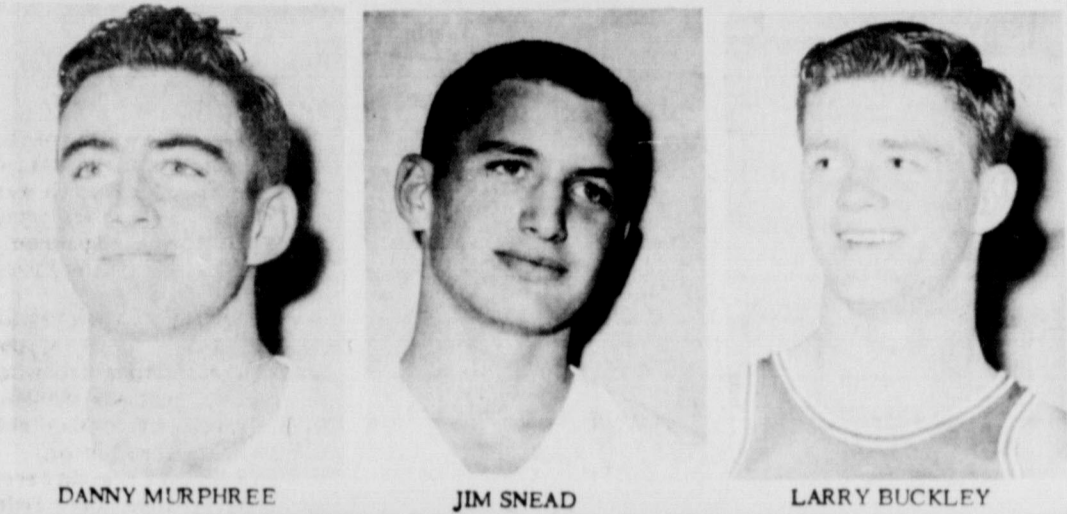

Junior S. D. Batze was run-

nerup both in the field goal and free throw departments, with a 41.1 per cent average from the field and a 67.9 per cent figure at the free throw line. Batze was the free throw leader at the season midpoint, but slipped slightly.

The Chiefs, with a deceiving final record of 9-17, scored 1078 points for the season, averaging 41.5 points per game. The young Chiefs who had trouble scoring early in the season, averaged 50 points per game the latter part of the year. At the season midpoint, they were averaging only 34.7 points per game.

Opponents scored 1152 points an average of 44.3, or a difference of 2.8 points per game over the Chiefs' average. In

Mrs. Guy Latta Directs Program

A program based on prayer was directed by Mrs. Guy Latta at the recent meeting of the Mekka Circle of Women's Society of Christian Service of Friona Methodist Church in the home of Mrs. W. M. Steward. Others having parts on the program were Mrs. Kenyth Cass, Mrs. Jake Lamb, Mrs. Dorothy Hough and Mrs. J. T. Gee. The prayer calendar was read by Mrs. J. W. Baxter II. Refreshments were served by the hostesses. Others present were Mesdames Andy Hurst Jr., Roy Slagle, Howard Ford and J. T. Gee.

One Injured In County Accidents In January

The High Patrol investigated 15 rural accidents in Farmer County during the month of January according to Sergeant W. E. Wells, Patrol Supervisor of this area. These wrecks accounted for one person injured and an estimated property damage of \$5,025. The Highway Patrol Supervisor pointed out that rural motor vehicle traffic deaths, injuries and accidents slightly decreased in the 31-county Panhandle district during January, 1963, as compared with the same month for 1962. Five deaths were tallied last month as compared to seven in January, 1962. Injuries as compared to 81 for January, 1962. A total of 132 rural traffic accidents were investigated as compared to 162 for January, 1962. "This slight overall decrease of deaths, injuries and accidents is encouraging, but these figures must be greatly reduced for each of the following months of 1963 if we are to have a safe year in motor vehicle travel," the Sergeant stated. The Veteran Patrol Supervisor reminded motorists that the law requires all Texas registered motor vehicles to have valid inspection stickers displayed by midnight April 15. The best way to avoid the long line expected in the last minute rush is to have your vehicle inspected now.

Scales Finishes Navy Course

Thomas C. Scales, airman apprentice, USN, son of Mr. and Mrs. Charles C. Scales of Friona, was graduated February 1, from the Aviation Machinist's Mate School at the Naval Air Technical Training Center, Memphis, Tenn., after completing a course in jet engines. The eight-week course covers instruction in jet fundamentals, jet power plants and jet operation. Prior to entering this school, students complete two weeks of aviation familiarization.

NEW YORK (UPI)—The ski industry is looking for a record season this year. The New Hampshire ski industry expects to ring up \$15 million in the state, or \$3 million more than a year ago. In Colorado, the industry anticipates grossing \$50 million, against \$40 million last season.

NEW SIGN . . . This attractive four-color sign was installed at the parking lot in downtown Friona this week.

Linda Johnson Wins High School Contest

Linda K. Johnson is the Friona High School winner in the 1963 "Betty Crocker Search for the American Homemaker of Tomorrow." She thus becomes eligible for one of 102 scholarships with a total value of \$110,000.

Having scored first in her school in the knowledge and attitude test on homemaking given senior girls Dec. 4, the winner's paper has been entered in competition with those of other state high school winners for state-wide honors.

The State Homemaker of Tomorrow will be named in the spring. She will receive a \$1,500 scholarship from General Mills, sponsor of the program. A \$500 award will be made to the second highest ranking Homemaker of Tomorrow in the state. The school of each state winner will receive a set of Encyclopedia Britannica.

Later, State Homemakers of Tomorrow with their advisors will enjoy an expense-paid educational tour of New York City, Washington, D. C., and Colonial Williamsburg, Va., which will culminate with the naming of the 1963 All-American Homemaker of Tomorrow.

The national winner's scholarship will be raised to \$5,000, with second, third and fourth place winners being granted \$4,000, \$3,000 and \$2,000 scholarships, respectively.

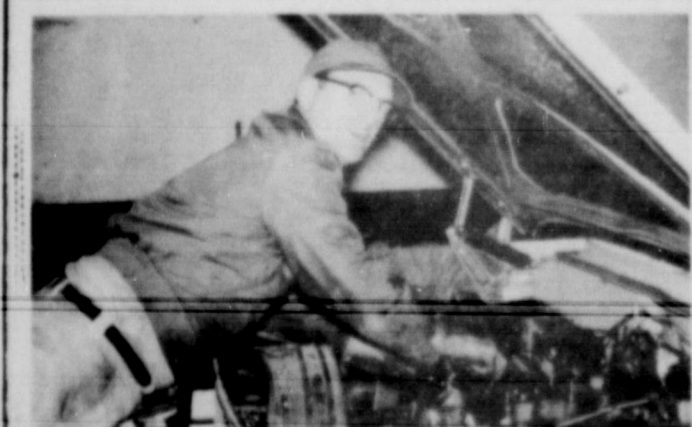

Prepared and scored by Science Research Associates, Chicago, the knowledge and attitude test is the basis for naming of local and state Homemakers of Tomorrow. Personal observation and interviews are factors in the national judging. The 1963 Betty Crocker Search reached another all-

Commissioners Attend Meeting

County Judge Loyde Brewer and three of the four county commissioners attended a judges and commissioners conference this week at Texas A&M.

Those attending besides Judge Brewer included Commissioners Guy Cox, G. W. Crain and Tom Lewellen. The conference was Monday and Tuesday.

DURHAM, N. C. (UPI)—Duke won the Atlantic Coast Conference football championship in 1962 for an unprecedented third straight year.

AGRICULTURE

- Vital to America

And to the cause of FREEDOM - - Throughout the entire world. This week we SALUTE the FUTURE FARMERS of AMERICA and to the contribution of skill and knowledge they bring to our FREE ENTERPRISE AGRICULTURAL SYSTEM.

National FFA Week Feb. 16th-23rd.

FRIONA WHEAT GROWERS INC.

Arthur Drake Mgr.

Ph. 2061

FUTURE FARMERS OF AMERICA This Is FFA Week

In terms of gross annual income, number of persons employed, or vital need to the nation, agriculture still is and likely will remain our most important single industry. Farming today represents a triumph of technology over serfdom — of education over ignorance. An important part in this triumph has been contributed by the nationwide program of vocational agricultural education in the public high schools, with its accompanying organization, the Future Farmers of America.

As you wait for the meal to come, you may be assured that it will be delicious, nutritious, plentiful, and served at a very economical cost. The food will have come from the farm, protected there and throughout the processing to bring it to you in wholesome goodness.

Think! How many millions of people in the world today would sit down to the relatively simple and commonplace meal you are about to receive, and think it fit for kings?

This is the contribution that people working in the field of agriculture have made to the American way of life. The thousands of boys studying vocational agriculture today, who will become successful farmers, agricultural workers, and scientists in the future, provide assurance that adequate food, a major concern over most of the world, will not be a serious problem here.

Triple-Header At Tech Saturday

A triple-header of sports action is in store for fans visiting the Texas Tech campus Saturday.

Swimmers tangle with University of Wyoming at 4 p.m., freshman basketballers engage San Angelo College at 6 p.m., and the varsity cagers are hosts to the Rice University Owls at 8 p.m. In competition the night before, the swimmers meet Air Force Academy at 7:30 p.m.

Next Tuesday (Feb. 26) night the Hardin-Simmons Junior Varsity challenges the Picador basketball team at 6 p.m., followed by the Tech-TCU game.

***** SQUAWS, POST TO PLAY MARCH 5 AT ABERNATHY

The date and place for the Friona-Post girls basketball playoff was settled Wednesday in a meeting between officials of the two schools.

The game will be played at Abernathy Tuesday, March 5, at 8 p.m. The neutral site was chosen, with neither team having played there this season.

"We felt we were fortunate in finding a good neutral site," said Baker Duggins, coach of the Squaws.

NOW SEE WHAT'S NEW AT YOUR CHEVROLET DEALER'S

Four kinds of sport—all super

Want to make spring come in a hurry? Just pick a new car with whatever you hanker for in performance and sporty trimmings—like bucket seats, 4-speed shift*, lots of horses—and start driving it now. Chevy's got a lot of sport in four entirely different kinds of cars.

First, the Jet-smooth Impala Super Sport with your choice of 7 different engines that range up to 425 hp and that include the popular Turbo-Fire 409* with 340 hp for the ultimate in smooth, responsive driving in modern traffic. Optional equipment, including Comfortilt steering wheel* that adjusts to your convenience, makes it as super a sport as you'd like.

There's the Chevy II Nova, also available in an SS version. Special instrument cluster. Front buckets. All-vinyl trim. Distinctive SS identification. Fourteen-inch wheels and tires* with full wheel disks. Three-speed shift or Powerglide* with floor-mounted shift console.

Or the Corvair Monza Spyder with complete instrumentation, special identification, and an air-cooled Turbocharged Six.

And for a real wallop, see the stunning Corvette Sting Ray, winner of the "Car Life" 1963 Award for Engineering Excellence.

All told, four beautiful convertibles, four handsome coupes. You'll get a four-barrel kick just looking them over—and a whole lot more fun out of driving one!

*Optional at extra cost.

Top—Corvette Sting Ray Sport Coupe and Corvair Monza Spyder Club Coupe. Below—left, Chevrolet Impala SS Convertible; right, Chevy II Nova 400 SS Convertible. (All four available in both convertible and coupe models. Super Sport and Spyder equipment optional at extra cost.)

PRACTICE FOR PLAY . . . Danny Carmichael, who plays Peters the butler, tells his interested group about the ghosts which haunt Storm Heights. Seated are Kay Burleson, Tom

Gee and Janet Buckley. In the back are Carol Ray and Andrea Milligan. The play, "Gangway for Ghosts," will be presented next Thursday and Friday nights.

Motorists Asked To Pursue Safe Habits

Whether the perennial prognosticator has forecast good or bad weather in your area for the next six weeks, now is no time to let up on safe driving habits, the Texas Safety Association advises.

"Even if the ground hog has predicted that 'spring is just around the corner,' Texas drivers shouldn't forget that the hazards of winter driving may be with us for some time," J. O. Musick, TSA General Manager, said.

He explained the three great hazards of winter driving are poor visibility, inadequate traction and temperature change.

"What you can't see can get you killed," he warned. "Seeing danger soon enough, and being seen by other drivers in plenty of time to avoid a crash is basic to survival on the roadways in any weather, but especially during bad weather."

He urged drivers to keep windshields, back windows, out-

side rear-view mirrors and all lights clear of dirt, frost, mud, sleet and snow.

"Even up to 'bluebonnettime' in Texas, there's a chance of sleet and snow," he said. "So, be prepared to pull off the roadway and use a snow brush and scraper if conditions are bad enough to block the view ahead."

Musick added that good windshield wipers can handle most conditions, but the rubber in the blades must be "alive," not "dead."

"The arm pressure on the blades against the glass should be strong enough to clear without smear and without riding over snow. One ounce of arm pressure for each inch of blade length is recommended by most safety engineers."

To prevent fogging of windows, he advised motorists to keep air circulating through the car and to carry a clean cloth for cleaning the windshield and side windows.

"The smartest thing a driver can do on rain-slick or snow and ice covered roadways is to slow down and adjust driving to existing conditions," he said. "No matter how good your tires or snow tires, you just don't have the same control as on dry pavement."

He warned drivers to avoid sudden starts and stops and to make stops by properly "pumping" the brakes to maintain steering control.

Musick also urged motorists to pay close attention to temperature because it has a lot to do with accidents.

"Ice near the melting stage is much more slippery than when kept 'dry' at lower temperatures," the safety director noted.

He reminded motorists that one of the first places a wet roadway freezes is on a bridge. Ice should be expected on sheltered portions of the roadway, under viaducts, at the foot of some hills because of thawing and draining, and on the inside of some curves.

"Motorists throughout the state also should be prepared for driving under foggy conditions for some weeks to come," he concluded.

"I feel like I'd like to punch the boss in the jaw again."

"Gosh! Did you say AGAIN?"

"Yeah, I felt like doing it once before today."

David McVey, Bennie Pryor and members of the farm skill team which won first place at the state contest at Huntsville last fall helped put Friona on the map with a television appearance during the weekend. A demonstration was taped at Sunset Shopping Center in Amarillo Saturday morning then in the evening part of it was shown on KGNC-TV.

Sunday morning the showing was completed. I've not learned why the showing came out in two parts, but some viewers who were not able to see the first part of it were able to come in for the last act.

Our congratulations go to the ag teachers and members of the team. Seeing you perform your skill was a rare treat and the Floyd family thoroughly enjoyed your performance.

One of the most attractive signs in town has recently been erected near the alley between Johnson's Corner Grocery and the all weather parking lot. This parking lot is really convenient for local shoppers and has been provided through the courtesy of Corner Grocery, Ethridge-Spring Agency and the Pastime Club.

Employees of Friona Star and Plains Publishers, as well as some of our neighbors, make good use of the parking lot when walking anywhere east.

If there were prouder parents of a brand new baby at Farmer County Community Hospital this week than Jarrell and Karen Wright, I didn't see them. Their daughter, Diana Kay, was born early Monday and if they were disappointed that the February trend for boys ran out, they didn't show it.

In addition to being the first child in the Jarrell Wright family, she is the first grandchild in the John Wright and Loyd Stephens families.

It seems that more than ever people anywhere you go are "TOO BUSY!" Maybe it is just an overworked excuse all of us use when we do not want to do a particular task.

Next time you are tempted to all but out of something, keep the following article in mind: "Nature keeps a one-piece store. She lets you take what you want, but you pay the price, and often leave that which is infinitely more valuable than what you take."

"There are men who spend

Boys' Regional Is March 2

Northwest Texas' leading basketball teams in Conference 1A and 2A high schools converge on Texas Tech for the annual regional tournament in the Coliseum Saturday, Mar. 2.

Probably Conference 3A schools will also stage a tournament here that week-end, and a 4A playoff is also possible.

Pairings depend upon the results of district and bi-district play. In Conf. 1A, the Dist. 5-6 playoff winner will face the Dist. 7-8 winner at 8 a.m. Mar. 2. The Dist. 1-2 winner meets the Dist. 3-4 winner at 9:30 a.m. and the two survivors will clash in the finals at 7:30 p.m.

Conference 2A pairings pit the 5-6 winner against the 7-8 winner at 11 a.m., and the 1-2 winner against the 3-4 winner at 12:30 p.m. Finals will be played at 9 p.m.

Chiefs--

(Continued from page 3) district play, where Friona was third with a 4-4 record, the Chiefs outscored their opponents, 401-370, an average of 50.1 to 46.3.

The Chiefs' highest point total was achieved in district play against Olton, a 75-point output. Their lowest total was at Canyon early in the season. In a 36-18 loss to the District 2-AA champion Eagles,

Highest point total by an opponent was by Tulsa in a game there, 69 points, while the 20 points scored by Nazareth in the Happy tournament represented the lowest total against Friona for the year.

The Chiefs will have returning four of their top five scorers next season, barring any grade casualties or loss by moving.

the greater part of their lives in accumulating money, intending some day to settle down and enjoy life. To their great disappointment, they find they have lost their ability to enjoy many things which appealed to them when they were young.

"They are past learning to enjoy travel, books, music, or art, because their sense of beauty was dulled from lack of use. Friends are lost in the same way. The faculty of making friends has been expanded in the making of money.

"The way to enjoy life is to live as we go along. Being "too busy" to cultivate friendships -- even by such simple acts as the writing of a cheery note to a sick friend, will most surely result in everlasting regret.

"Men think they are making a great success of life because they are getting ahead faster than their neighbors. But they are losing something far more precious than they are gaining."

Be not content with doing your duty. Do more. It is the horse that finishes a neck ahead that wins the race.

News From LAZBUDDIE

BY MRS. C. A. WATSON

Mr. and Mrs. T. O. Lesly, Linda, Hazel and David were honorees for a farewell party, Friday night when friends gathered at the community building at Hub bearing gifts for the family, who are moving to Spearman to make their home. Mr. Lesly was presented with a gift for his fine work with the Farmers Union in this area. Approximately 60 persons attended the affair.

Several Lazbuddie people are among the Farmer County Pe- tite Jurors who met at the courthouse in Farwell, Monday. They are Mesdames Dee Brown, Davis Gullett, J. H. Clay, Glen Ivy and Lee Mason, J. D. Mabry, Claud Blackburn, and C. A. Watson.

FHA girls of the Lazbuddie School entertained their mothers with a Valentine Day party at the homemaking building. Mrs. Walton, home economics instructor, assisted the girls with entertainment.

Among those receiving door prizes at the district REA meeting in Morton Friday were Mrs. C. D. Gustin, Mrs. Leon Lewis, Mrs. Subanks and Mrs. Donald Jenko.

Mrs. L. R. Hall received word that her brother in Oakland, Calif. had suffered a severe heart attack.

Birthday greetings to James Gullett, Jimmy Noland, Jesse Mendoza, Mitchell Mayfield, James Miller and Eusebio Villarrel.

Mr. and Mrs. Tom Byrd were in Amarillo on business last week.

Bobbie Blackburn was in Lubbock last week on business.

Ted Smith 1959 graduate of Lazbuddie High School and son of Mrs. Dave Alsworth of Mile-shoe, is with the 16th Engineer Battalion at Fort Hood. Smith has recently taken part in the 1st Armored Division's Strategic Army Corps mobility exercise during the Cuban Crisis.

Smith entered the army in 1961 and received his basic training at Fort Carson, Colo.

FU Meets Tonight

Farmer County Farmers Union will meet Thursday night at 7:30 at Oklahoma Lane Community Building.

Entertainment and refreshments will be provided, a spokesman for the organization announces, and the public is invited.

All members of the family are invited to attend the session.

Boosters Meet

The Friona Boosters Club will meet Monday night at the School cafeteria, according to John Renner, President.

Plans will be made to assist the Squaws financially in their playoff competition, and the group will discuss seeding the football practice field.

"We especially invite school board members and officials to attend," Renner said.

MARCH 7, 8, 9

Judge Announced For Junior Livestock Show

Charles M. Smallwood, professor and head of the Agriculture Department at West Texas State College, will return to judge the annual Farmer County Junior Livestock Show March 7, 8 and 9. It was announced this week.

Bill Nichols, Friona, show superintendent, made the announcement.

Smallwood, who judged the show last year, received his B.S. degree in Animal Husbandry from Oklahoma State University (then Oklahoma A&M)

In 1949, and his M.S. from Texas A&M College in 1950. Currently he is completing work toward a Ph.D. at Texas A&M.

Formerly head of the Animal Husbandry Department at Murray State Agricultural College, Tishomingo, Oklahoma, Smallwood there helped establish the first Double Registered Bull Test in the United States.

Professor Smallwood coaches the West Texas State College livestock judging teams. His teams have won state, regional, and national contests in recent years. He advocates lean meat animals.

Youngsters throughout the county are urged to register their stock with County Agent Deryl Coker or vocational agriculture instructors in the county.

Early estimates show that a new record is likely for the number of barrows entered in the show. It is estimated that approximately 170 barrows will be entered, compared to 130 last year.

The steer division will likely

be smaller. Preliminary estimates place the figure at 36 in that division, compared to 69 a year ago. The lamb division will probably be about the same, with 40 entries expected.

Entry fees of \$1 for swine and sheep and \$2 for steers are to accompany each entry. Exhibitors cannot show more than one steer, two sheep or two barrows, not to exceed a total of three animals.

Because of the smaller number of steers than in the past, show officials have declared that entrants may wait until Saturday morning to bring their

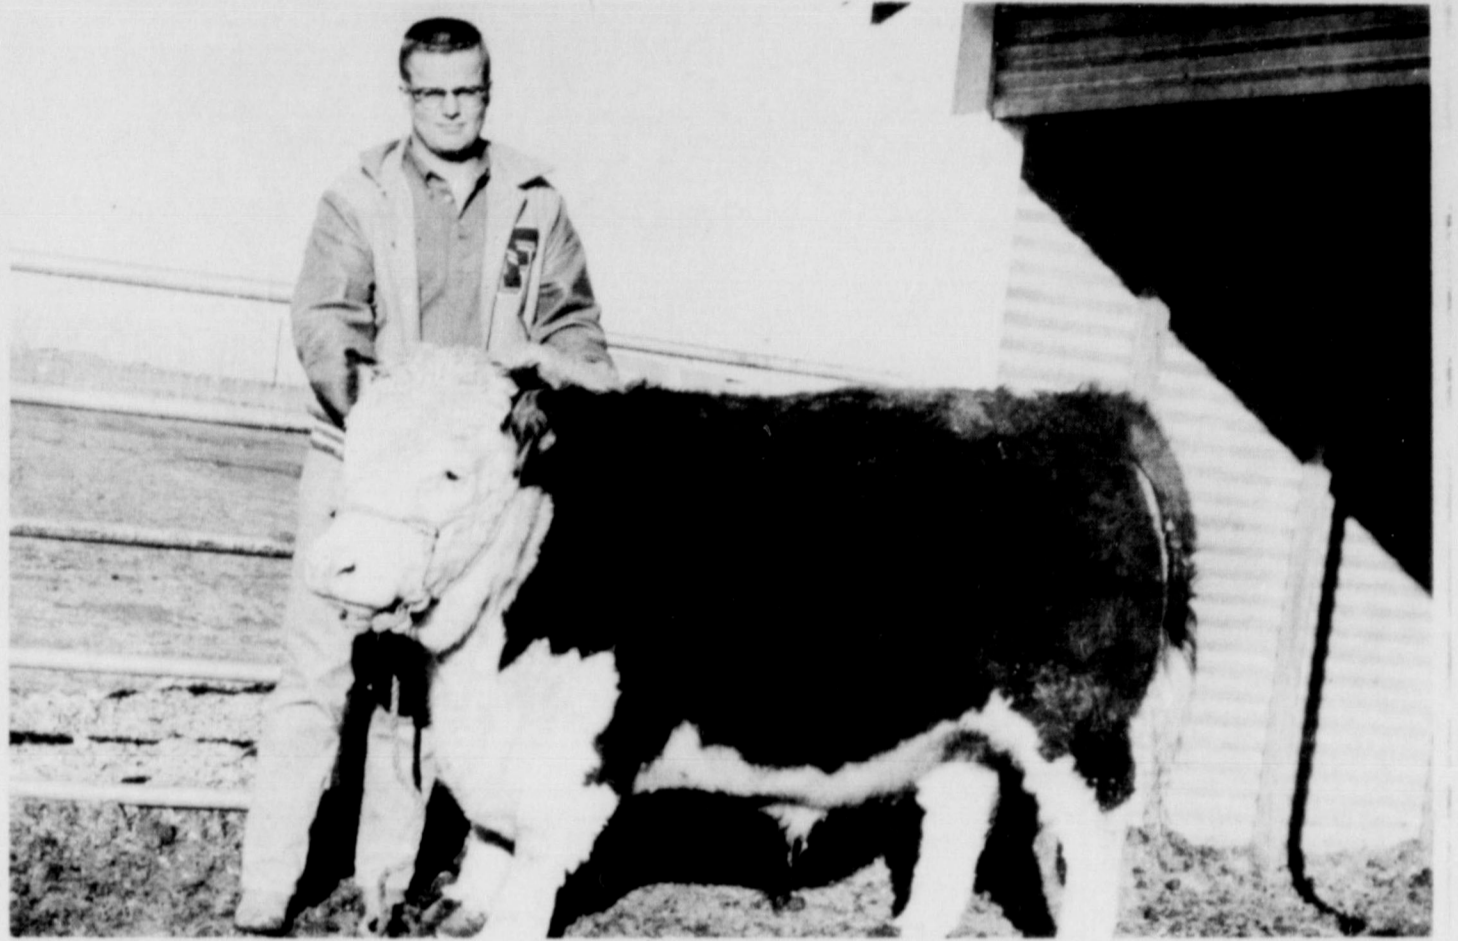

steers to the showbarn if they wish.

Showmanship awards, donated by the Friona Star, will be presented to the best showman in each of the three divisions, and ribbons will be awarded according to placement. No cash prizes will be awarded.

Plans call for the selling of the top ten steers in each of four divisions as placed by the judge. Sixth barrows will be sold, and 30 lambs.

The show will coincide with Public Schools Week, as it has in the past.

THE HIGH PLAINS FARM AND HOME

GETTING HIS Hereford steer ready for the Farmer County Junior Livestock Show is Keith Black of Friona High School.

The show will be held in Friona March 7, 8 and 9, and is expected to draw a smaller list of calves this year.

FOOTSAVING EDUCATION

by James E. Edwards

Some Shoemen Say That Young Feet Should Be Supported; Others Say That Support Will Weaken Foot Muscles. Can Both Be Right?

Both can be right and both can be wrong.

There is a subtle difference in thinking about support type shoes. I do not believe that support will strengthen weak muscles of the foot or ankle. The only way, in my opinion, that a support type shoe is helpful is when the shoe causes a child to walk healthfully. The exercise of correct walking does strengthen weak muscles.

The end result is the same so why argue? There can be no argument about the advantage of support when the weakfooted child walks poorly but there are thousands upon thousands of children whose feet seem to be weak and yet they walk and run quite normally. If you support such feet you might ruin the healthful walking habit.

Gifford-Hill Will Expand Operations

A. C. (Buck) Clark, manager of Gifford-Hill Western, concrete pipe manufacturers in Farwell, announces that his company will increase the size of its operations in the near future.

"We have purchased land just east of our present location, and will move our present buildings and also increase our capacity," said Clark.

The Gifford-Hill Western manager said that the company would also install new machinery and equipment, and would begin the manufacture of lock-seals.

Plans are being completed at the company's main office in Dallas, Clark said.

Cotton Program Has Big Role In Economy Of State

The 7-Step Cotton Program, initiated 17 years ago by the Texas Agricultural Extension Service, continues to play an important role in the agricultural economy of the state. The program brings together on the county and state levels committees representing every segment of the cotton industry and all have worked together for needed improvements, says Fred C. Elliott, extension cotton specialist.

A summary of Elliott's annual report points out a few of the outstanding results of the 1962 educational program. More than 44,000 growers were assisted in fitting cotton into a balanced farming program. A 7-Step or similar program building committee was used by 139 counties to carry cotton information to growers. More than 1,650 meetings attended by over 36,000 producers were held by county agents, committeemen and extension specialists at which latest information on production, harvesting and processing were discussed and field tours numbered well over 500 and were attended by almost 11,500 persons.

Elliott estimates that about three-fourths of the cotton acreage was harvested in 1962 by machines. He said 6,777 spindle-type pickers were used in 103 counties and 37,540 stripper-type machines were used in 156 counties. The use of spindle pickers was up considerably from 1961.

A very noticeable jump in lateral oiling for grass and weed control from about 86,000 acres in 1961 to 283,388 acres in 1962 was listed as a major achievement. Other practices which aided in cutting production costs were listed by Elliott as 65,710 rotary-hoe equipped tractors; spotilling on a quarter of a million acres for Johnsongrass control; dalapon was used on 122,000 acres to spot treat the same grass and defoliant or desiccants were used on more than 82,000 farms in 164 counties as an aid to mechanical harvesting.

Moisture meters were used in 37 counties as an aid to improve harvesting and ginning. The use of flame cultivators increased and more than 3,300 were used in 77 counties to control weeds and grass and pre-emergence chemicals were used on more than 46,800 acres in 68 counties.

Calf Sold

Dean Newberry, Tulla, has purchased Hartsdale Texas Joan P299630, a heifer calf, from Dale and Laura Hart of Friona.

The new animal is a registered Milking Shorthorn and the record of the transfer of ownership has been made by the American Milking Shorthorn Society at Springfield, Missouri.

WITH THE COUNTY AGENT DERYL COKER

Time moves on and before you know it, planting season will be here. Each year it seems we get into a tighter cost-squeeze predicament, and thus we have to lower the cost of our various farm operations or increase the yield.

Melvin Sachs has found that phosphorus will raise his yield enough to pay him good dividends. Melvin planted three acres without phosphorus and three acres with phosphorus side by side, and weighted the grain from each plot. With phosphorus the three acres made 18,580 of sorghum. Without the phosphorus the three acres made 16,200 lbs.

When you put the pencil to these figures you come up with a 793 lbs. difference.

Roughly speaking the phosphate made him nine or 10 dollars per acre.

The Experiment Station ran a test on the Wendell Christian farm using several different fertilizer rates and also adding

sulfuric acid to plots 12 and 13. As the results show there was no increase in yields where the acid was used.

The yield on this test are a little low, because of a water failure, but this test does prove that phosphorus did increase yields more than enough to pay for the phosphate.

A third grade teacher asked her pupils to draw a picture of what they wanted to be when they grew up. The pictures were of nurses, space cadets, firemen -- but one little girl handed in a blank sheet of paper. "Don't you know what you want to be when you grow up?" inquired the teacher.

"Sure I know," retorted the little girl. "I want to be married, but I don't know how to draw it!"

Nearly Half Of County's Farms Under Program

Just under half of the Farmer County farms have been signed up for the 1963 Feed Grain Program according to Prentice Mills, Office Manager of Farmer County ASCS.

As of Monday, 524 farms had signed up under the program. There are about 1292 farms in the county. Farms signing up represented a total acreage of 115,830.

Farmers have agreed to di-

vert 27,846 acres out of this total, according to Mills. "This averages out to about 24 percent of the feed grain acreage for the average farm," Mills said.

The big rush is over, he said, and although farmers have until March 22 to sign up, he urged them to come into the Farwell office, where he promised prompt attention to the individual farmer.

A 'Sculptura' Waltz gown. Shaped, tricot-lined lace bodice, straps underlined with elastic, and elasticized lace back.

College Officials Compile Survey Of State Plants

A survey of Texas vegetation and varying growing conditions throughout the state has been compiled by Dr. Frank Gould, Texas A and M College and Dr. Gerald Thomas, dean of agriculture at Texas Tech.

The study, titled "Texas Plants -- A Checklist and Ecological Summary," is expected to be a valuable reference in the field of range management. It is printed and distributed through the Texas Agricultural Experiment Station at College Station as Miscellaneous Publication No. 585. Included in the summary are a total of 166 families, 1,146 genera, 4,591 species and 449 sub-species and varieties of vegetation found in Texas.

Purpose of the publication was to bring together a complete checklist of all vascular plants of the state. Taxonomic assistance was provided by personnel from the University of California, Texas Research Foundation, Harvard University, U. S. Soil Conservation Service, Texas A and M and Texas Tech. Dr. Gould served as editor for the checklist. The Ecological summary entitled "Environment and Texas

Plants" was prepared by Dean Gerald Thomas of Texas Tech. Dr. Thomas has reviewed the environmental factors affecting range vegetation in the 10 vegetational areas of the state and listed the major range plants in each.

"Texas, due to its size and extreme variation in environmental conditions, provides a habitat for nearly 4600 species of vascular plants," Dr. Thomas

states. "The number and type of plants found in each area depends upon Climatic, Edaphic (soil), Topographic or Biotic factors."

"The highest rainfall occurs in extreme East Texas with annual averages of more than 55 inches and records of more than 80 inches," Dr. Thomas states in the summary.

"Precipitation decreases progressively from east to west," the summary continues. "The average at El Paso (in the Trans-Pecos region) is less than eight inches."

The average annual frost-free period, sometimes referred to as the growing season, ranges from about 179 days in the northwestern Panhandle to

more than 330 days in the Lower Rio Grande Valley. "But no part of the state is entirely safe from damage by frost or winter freezes," Dr. Thomas pointed out.

The annual mean temperature ranges from 54 degrees in the Panhandle to 74 in the Valley. "Geologically, Texas soils have been influenced generally

by relatively recent clay and sand sediments in the eastern and western thirds of the state," according to the summary. "The central region has been affected by the intermediate limestones, marls, sands and clay of earlier eras."

Variations in soils range from the highly-leached infertile sandy soils of the humid Piney Woods to the highly calcareous fertile Black-Land Prairies of Central Texas to the unleached desert types of the Trans-Pecos.

"On a broad basis, there are three major topographic conditions in Texas," Dr. Thomas said. "These are the mountains and basins of the Trans-Pecos, the fairly level plains of the High Plains and Gulf Coast Prairies and rolling and irregular topography typical of the Rolling Plains and Edwards Plateau."

Dr. Thomas cited various studies of plant "communities" in Texas forests. However, he said that since such treatments are rather broad and somewhat theoretical, "the present system of Range Site and Condition Classification" is the best approach to the plant community complex from the ranch management standpoint.

"With this system," Dr. Thomas explained, "vegetation classification in space is determined primarily by soil, topographic and climatic conditions forming 'Range Sites.' Classification in time is called 'Range Condition.'"

Range condition classes represent departures from the so-called "climax" plant community, the summary states. These departures are based on grazing pressure. Individual plants are classified into one of three categories depending on their response to continued heavy grazing pressures. These are "decreasers," "increasers" or "invaders."

"A sound understanding of Texas plants and their relation to environmental conditions (including grazing animals) is essential to proper management of more than 100 million acres of Texas Range Lands. This publication will serve as a valuable reference on Texas Plants," Dr. Thomas said.

FFA Praised By Preston Smith

Agriculture has always been, and will remain, a basic factor in the Texas economy. It is also a vital part of the Texas tradition. Even though our towns and cities are rapidly running up a big population lead over our rural areas, Texans will always be thought of as people of the farm, the ranch, the great outdoors.

Change and challenge are the order of the day for Texas agriculture. To conquer our new problems and temper our old ones, Texas agriculture needs now -- as never before -- people who are equipped, trained and dedicated to a role of modern farm leadership.

I know of no better training ground for this vital leadership than the Future Farmers of America program. Having grown up on the farm myself, I have always had more than a casual interest in FFA work. Past accomplishments have been most praise-worthy. In my opinion, the responsibility and the opportunity for service are greater today than ever.

Intelligent, progressive, aggressive solutions of the "farm problem", in all of its modern connotations, are necessary -- not merely for a healthy agricultural industry, but for the general health of our state and national economies. The Future Farmers of America will be in the forefront of our march toward a better tomorrow for Texas agriculture.

Custom-Blended Fertilizer Becoming Popular On Farm

Custom-blended fertilizer is growing in popularity all over the country but, so far, it has made its greatest strides in the Corn Belt. In some localities it has become the principal method of fertilizer application.

Once, it was considered up-to-the-minute for a farmer to order 12/12/12 or 5/20/20, or whatever grade of fertilizer happened to be available. Today, a Farm Quarterly article reports, the man who expects the most for his dollars orders such blends as 60/60/20, 60/40/0, or perhaps even 100/100/100.

He prescribes the mix according to the condition of his land and the crop he intends to raise. This is fertilization by prescription.

Where the old grade designations, like 12/12/12, stand for the percentage of nutrients per 100 pounds of fertilizer, the newer blend numbers indicate the actual pounds of plant food per acre. If a man applies 60/40/10 he is actually putting on 60 pounds of nitrogen, 40 pounds of phosphate and 10 pounds of potash per acre. Compared with the conventional grades, he gets much more per pounds of material used.

The exact fitting of fertilizer to soil and crop requirements presupposes a soil test, of course, and this is the way most blending plants sell their product. The soil test is the basis of the whole program.

Maintaining a record of crop history is another essential consideration in effective prescription fertilizers.

There are legal requirements relative to guaranteed analysis which prohibit blending in some states. In Kansas, Mississippi

and North Carolina, for example, fertilizer can be blended only to registered grades.

In at least one state it also used to be a requirement that the farmer who was to use the (Continued on Page C)

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

When we have a State Department with enough confidence in the execution of a plan to release a publication called "Freedom From War" (Department of State Publication 7277, Disarmament Series 5), it is not only hard, but impossible for a congressman, no matter how loyal an American, to soothe us with such statements as we have received personally, and read in publications to the effect that, quote, "this country is not going to disarm and our sovereignty is not going to be surrendered to any international or foreign organization. No department or agency of this government has the authority or power to disarm the nation in whole or in part nor to surrender our sovereignty. This could only be done by affirmative action of the Congress of the United States, something which the Congress of the United States would never do."

Even though these words sound very good and reassuring, they are not nearly so strong as those in the State Department Publication which says just the opposite. Also, the Arms Control Agency has repeal of the Connally Amendment very high on its agenda.

Linda Rector, Farmer County Farm Bureau's representative for attendance at the Citizenship Seminar this summer, will, we believe, be an outstanding representative. We are looking forward to hearing some of her reports when she goes and returns. It is really heartening to hear some of our high school students express themselves on the freedoms and opportunities of our American Heritage with all the confusing ideologies floating around. We hope all schools are producing students like these.

Your office secretary, Nell Davis, was out of the office several days last week, due to the death of her mother, Mrs. Senter, of Dimmitt. We extend our sympathy to her and her family, and know that you join us in that.

Your local Farm Bureau will be in a position in a short while to conduct some meetings about the up-coming wheat referendum. As soon as the rulings regarding this proposal are made available, every effort will be made to get the information to every wheat farmer in the nation. The job right here, is to get the information to local farmers.

CONSIDER THIS: The way of life is above to the wise, that he may depart from hell beneath, Proverbs 15:24.

RONALD AWTRY of Friona High School works with his commercial calf, a Hereford steer. The steer is a project for Ronald in vocational agriculture.

New Method May Be Advance In Efficient Cotton Production

What could prove to be a major break through in more efficient cotton production has been demonstrated at the Lubbock Station of the Texas Agricultural Experiment Station.

The new production technique is narrow-row planting and the use of chemicals for weed control.

Elmer Hudspeth, Jr., of USDA's Agricultural Research Service, stationed at the Lubbock Station planted cotton, under irrigation, in nine-inch rows and applied a pre-emergence herbicide for weed control. He harvested more than two bales from the one-acre plot without a single cultivation. A check planted in the usual 40-inch rows produced from one and a half to one and three-quarter bales an acre.

Further tests will determine whether narrow-row planting of irrigated cotton can help farmers cut production cost by increasing yields and eliminating cultivation.

Hudspeth said weeds didn't have a chance in the narrow-row plots. The herbicide controlled their early growth and the plant shading took care of later growth.

The narrow-row planting was done with a grain drill. Hudspeth grew more than 200,000 plants on the acre compared with about 30,000 in 40-inch rows. Each plant produced only three or four bolls, but the dense plant-

ing helped raise the total yield. The closely spaced plants were short with few branches and thin stems, and were more ideally adapted to stripper harvesting than normal space plantings.

Both the narrow and wide-row plots were sprinkler irrigated three times with three inches of water. The water activated the herbicide and aided seed germination. Both received the same fertilizer

treatment -- 80 pounds of nitrogen and 40 pounds of phosphorus per acre applied before planting. A stripper harvester was used on both plots.

Hudspeth said close plantings may not work in humid areas of the cotton belt where boll rot is a problem. Quality tests, he added, are being made on the cotton harvested from the narrow-row planting and will be announced later.

Peace Corps Lists Need For Men With Farm Skill

"I wish I knew more about agriculture so I could be of more help here," writes Peace Corps Volunteer William Weinhold from Kuala Lumpur, Malaya. Weinhold, whose home is in Kobler, Wisconsin is a graduate of DeVry Technical Institute in Chicago. He is assisting a BBC expert from England design new studios and stations for Radio Malaya.

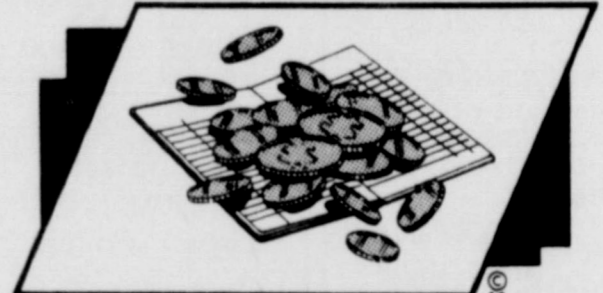

"Malaya is one of the fastest developing countries in all of Asia, but," says Weinhold, "it needs trained agronomists to conduct a soil survey of the country."

Peace Corps because of the great need in many countries. "Some countries need people who can operate tractors and get up dairy farms. Some need skilled veterinarians. I believe there are wonderful opportunities for young agriculture graduates in the Peace Corps."

Deryl Coker, County Agent of Farmer County, says the requests for Volunteers with farm backgrounds and training in agriculture, forestry and home-making are increasing with every new Peace Corps project.

In a letter to Mr. Evan Hursch of Sheboygan Fall, Wisconsin, he asks his friend to do what he can to get 'ag' people to volunteer for the

JOHNSON GRASS CONTROL IN COTTON WITH WEEDER GESE

In Tests conducted at University of Tennessee agriculture experiment station for Johnson grass control in cotton. Average yields were highest with geese 737 pounds of lint per A, compare with 697 with the hoe and 668 with the herbicide (dalapon). The soil was somewhat sandy and the herbicide caused some injury to, and delay in maturity of, the cotton.

Net returns were \$143, \$107, and \$106, respectively, for the three treatments. No charge was made for management and care of the geese. The fields weeded by geese and herbicide were essentially free of Johnsongrass at harvest, but not the hoed field. Cotton in the hoed field was hand-picked; it is presumed that yield and grade would have been lower had picking been done mechanically because of reduced efficiency where grass is present.

TOMMY BAXTER, Friona FFA member, feeds his two Hampshire barrows which he will enter in the Farmer County Junior Livestock Show March 7-9.

Tests Show Skip-Row Cotton Increases Yields One-Fourth

Dr. Earl H. Collister, Director of the High Plains Research Foundation said today that "a major breakthrough in the Skip-Row system of planting cotton under irrigation had been achieved by scientists at the Foundation after five years of research. A skip-row system of two rows of cotton and four rows of soybeans has resulted in a cotton increase of 244 pounds of lint per acre as compared to solid cotton, which represents a yield increase of 23.3 per cent.

The skip-row system has long been a practice in low rainfall dryland areas. The Foundation pioneered in experimenting with various crop combinations in the skip-row system under irrigation on the High Plains and found that it paid off.

Delbert Langford, Associate Agronomist at the Foundation, in charge of the Skip-Row research for five years stated that "the use of the skip-row system in planting cotton under irrigation during 1963 could increase the cotton yield by 500,000 bales over solid planted cotton in the High and South Plains. This would give a possible increase of fifty million dollars income in one year if the practice were adopted throughout the area. If the skip-row system were used throughout the entire Cotton Belt in 1963, it would result in several million dollars added income to the farmer and cotton industry."

This statement was made following a review of five years of research results of the skip-row system that had been conducted by Mr. Langford at the Foundation.

Five-year results at the Foundation have shown a top cotton yield increase of 91 per cent by using a skip-row system of two rows of cotton and four rows fallow as compared to a solid planting of cotton. The 1962 results varied from 10 to 60 per cent increase due to use of the skip-row system over solid planting,

despite the hail on May 16 which required replanting on May 23. The skip-row system results were compared with solid planting in each crop.

Eleven different systems are compared in Research Report Number 61 which will be issued by the Foundation next week.

The cotton was interplanted with soybeans, grain sorghum, and castorbeans in 1962. The soybean interplanted with the cotton system has been conducted for five years. The cotton-soybean system has proved more profitable than the solid planting of each crop every year. The two row cotton - four row soybean testing has been the best for five years. The soybean yield was not reduced in the skip-row system compared with solid during this period.

Cotton yield benefited from the skip-row system whether the rows "skipped" were planted to other cash crops or left fallow. Due to the various dates of harvest of the crops in the skip-row system, there was no trash residue problem that could have affected the grade of the cotton. The cotton was harvested after all of the other crops.

In 1962, the highest income from cotton interplanted with grain sorghum gave an increase of \$32.42 per acre over solid planting of each.

The cotton interplanted with castorbeans produced a profit of \$35.27 per acre over solid planting of each crop.

The top income from the best cotton soybean interplanted system was \$19.14 over solid planting of each cash crop in 1962.

Mr. Langford said "the proper use of the data in this report requires much careful planning in the adaptation to the individual farm operations."

Molly Pitcher took her husband's place in the Battle of Monmouth in 1780, as he lay dying beside his cannon.

EVERETT GEE, a member of Friona High School FFA, grooms his Berkshire barrow, which will be entered at the Farmer County Junior Livestock Show March 7-9. Competition in the barrow division is expected to be the best in the show's history.

Custom-Blended--

fertilizer had to be present while the mix was blended. Laws such as these, though they were passed to protect the farmer against the unscrupulous manufacturer or dealer, are in many areas of the country a very real obstacle to the blending of in-

dividually prescribed mixes. Consumer demand, however, may soon bring about revisions which will enable farmers in every state to avail themselves of this type of fertilizer program.

It should be remembered that the analysis of the blend can be guaranteed and controlled.

It was a dark alley in one of the worst parts of town. Three men were waiting. One of them pulled a slouch hat down over his eyes and said, "D'ya see him?"

Another took a quick peek around the corner. "Yes, here he comes," he hissed!

The man in the slouch hat picked up a short thick section of pipe. Another took a heavy wrench, and the third grabbed a smaller wrench that was none the less effective in close quarters. "All right, fellers, let's go," one whispered.

And thus, when the boss got around the corner, he found his three plumbers at work.

SOIL CONSERVATION DISTRICT NEWS

Grassed Waterways are natural or manmade water courses protected against erosion by a grass cover. They are an important part of a Soil Conservation program. They are important to all of us whether we live on the farm or reside in a town.

To you, the farmer, Grassed Waterways are important because they serve as safe outlets for terraces and diversions. In addition, they may provide a safe passageway for water that enters your farm from adjoining land.

Good Grassed Waterways are a must in controlling water erosion on many farms. If you do not have a grassed waterway or you have one that does not function properly, all other parts of the water control system for your farm or field may fail too.

The next time you have a heavy rain on your farm, take a look at the natural drainage ways and low areas in your field. Are there finger gullies on the field and silt bars in the low areas? If so, you should consider the need for a Grassed Waterway.

Properly established Grassed Waterways can be a profitable area. Besides serving as a water outlet for the

field, it can be used for hay, grass seed production or limited grazing.

To you the town people, Grassed Waterways are important in controlling erosion. Water coming from a washing field carries many tons of silt. If protection is not provided, this silt eventually makes its way to reservoirs and recreational areas causing untold damage. The next time you are on your favorite lake, walk up to the place where the water enters. See if there is a silt bar. This will tell you if the land is being protected from water erosion.

Grassed Waterways are like a foundation that supports a house. The Grassed Waterway may be supporting all of the water conservation measures on the farm. Make sure your water conservation foundation is strong.

The army psychiatrist wished to be sure that the newly enlisted rookie was normal in all respects. Suspiciously he said: "What do you do for social life?"

"Oh," the man blushed. "Just sit around mostly."

"Hm-m-m, never go out with girls?"

"Don't you even want to?" The man squirmed. "Well, yes, sort of."

"Then, why don't you?"

"My wife won't let me sir."

Screwworm Program Is An Aid To Deer Hunters

Did you kill a deer during the 1962 season? If you were among the elite group of nimrod's who felled more than 225,000 white tail and mule deer last year, you probably felt that hunting was pretty good. And you may have the Southwest Screwworm Eradication Program to thank for it. Although no official statistics are available, it would not be amiss to say that many thousands of the 2.5 million deer which roam the Texas woods die annually because of infestation by the incidious pest that feeds on live tissue of animals and even man. Screwworm infestation ranks second only to starvation as the main killer of deer. During 1962, however, many reports were received from hunters that the wildlife population has not been so plentiful for many years. An increased number of fawns, and especially twin fawns, was readily apparent. The Screwworm Eradication Program involves the aerial release of millions of sexually sterile screwworm flies over more than 90,000 square miles of the Southwest. The sterile males mate with native females and the resulting eggs do not hatch. As sterile fly dispersal is continued, the chances of a fertile mating being achieved becomes more and more remote and complete eradication is the final result. Approximately 75 million flies per week are being reared in a plant near Mission, Texas, and made sexually sterile by exposure to gamma irradiation. The program is presently in jeopardy because non-federal funds which must be available to bear at least half of the \$12 million costs will soon be exhausted. One million dollars must be raised from private sources by March 1 or the program may have to be stopped. The losers would be the livestock producers and sportsmen who face an annual loss of nearly \$100 million. The livestock industry has supported the eradication effort most admirably and many sportsmen have also done their share. One group, the Sportsmen Club in the Rio Grande Valley, is sponsoring a Dollars for Deer drive and is encouraging all hunters to contribute one dollar for every deer they killed during 1962. Spokesmen say if all sportsmen would join in the drive, a significant share of the required money would be raised. Hunters who wish to contribute should contact their chairman of the county animal health committee or mail their contribution to the Southwest Screwworm Eradication Program, Box 969, Mission, Texas. The three-year eradication program was begun February 14, 1962, and has enjoyed considerable success during its initial year. Only four counties outside of the Southwest reported infestations during 1962 as compared to 17 states experiencing screwworms in 1962. The eradication area consists of Texas, New Mexico, Oklahoma, Arkansas and Louisiana.

NOTICE

Notice is hereby given that the Farmer County Commissioner's will, on February 25, 1963, select a depository for County and County School Funds for the next two years period, and all banking institutions located in Farmer County are hereby invited to submit bids to act as County depository for the above term, if they so desire. Bids should be submitted in writing to the office of County Judge at or before 10:00 o'clock A.M. on the above date, in conformity with Article 2545, Vernon's Texas Statutes. Issued this 4th day of February, A. D. 1963. Loyde A. Brewer County Judge Farmer County

USDA Ready To Help Develop Watershed Recreation Areas

Secretary of Agriculture Orville L. Freeman said today the U. S. Department of Agriculture was "ready to go ahead" with public recreational developments in watershed projects as authorized by the Food and Agriculture Act of 1962. USDA was authorized to help create, enlarge, or improve bodies of water within watershed projects to provide for a full range of water-based sports, and to assist in developing recreational areas bordering the water. "These developments will help meet the growing demand for new outdoor recreational facilities, and at the same time broaden the scope and local benefits of watershed projects," Secretary Freeman said. The recreational facilities would lure outsiders to the area, and would provide the type recreation that industrialists seek for their employees in searching for new plant sites. Soil Conservation Service officials explained. On nearby land, private landowners could develop supporting recreational facilities, such as weekend or summer guest cottages, hunting preserves, and ski slopes. The development would bring town and country interests closer together, and thereby promote soil and water conservation activities which protect and improve farm and ranch lands, according to SCS. This, in turn, would contribute to an improved agricultural economy. "The Department is ready to help local watershed sponsors develop these recreational areas," Secretary Freeman pointed out. Funds are available under USDA's regular \$60.6 million watershed appropriation for fiscal year 1963. Construction could begin on the first of these projects early in 1963. USDA was authorized to bear up to 50 percent of the cost of (1) land, easements and rights-of-way, (2) construction, and (3) minimum basic facilities needed for public access to and use of the recreational area. This cost-sharing and technical help would be provided through the Soil Conservation Service, which has leadership for USDA's watershed program. Land bordering the water could be developed for picnicking, camping, hunting, or other outdoor uses. SCS would provide local sponsors with funds to cover up to half the land costs, and also would help local sponsors pay for the land inundated for recreational purposes. Minimum basic facilities which could be cost-shared include: (1) boat docks and ramps, (2) beach development, (3) picnic tables and fireplaces, (4) parking lots, (5) public water supply, (6) sanitary facilities, including toilets and garbage disposal, (7) power facilities, (8) plantings and other shoreline or area improvements, (9) roads and trails, and (10) other similar or related facilities needed for public health, safety, access, to, and use of the recreational area. Local sponsors could charge an admission fee to meet their annual operating and maintenance costs. Watershed residents also would derive other benefits from the development. "There has been a dramatic increase in the Nation's need for additional recreation areas during the past decade," Secretary Freeman said. "City dwellers and suburbanites are seeking the outdoors as never before." "At present, some 62 million acres of privately-owned land are being used for recreation. Estimates are that by 1980 we will need 85 million acres for this purpose. Watershed projects can go a long way in helping fulfill this need."

FCIC Has New Insurance Program Registered Calves Sold By Kepley

A new program for insuring either cotton or grain sorghum, or both, is being offered farmers of Farmer County this spring, according to Joe L. Matthews, district director for the Federal Crop Insurance Corp. Matthews said FCIC representatives are visiting farms in Farmer County now and will continue for a few weeks, and that information also may be obtained from the district FCIC office in Room 110, 1219 13th Street, Lubbock. Matthews urged farmers not to delay because time is limited. "Federal All-Risk Crop Insurance is a non-profit government program offered farmers to help protect their crop-production investment against disastrous loss," Matthews said. "It protects all during the growing period against all natural hazards such as wind, hail, excessive moisture, insects, heat, freeze and many others." Ira Levins of Farwell is local field representative in Farmer County. John and Wesley McIntosh, Clovis, five Mexico, have purchased five helpers up to one-year-old, from F. E. Kepley, Farwell. The new animals are registered Milking Shorthorns and the record of the transfers of ownership has been made by the American Milking Shorthorn Society at Springfield, Missouri. In Paraguay there is a firefly called the railway beetle, which flashes a red light at the ends of its body and a green light along the sides. I Get 5% Dividends On My Money At..... FIDELITY SAVINGS & LOAN 416 Mitchell St., PO 2-2917 Clovis, N. Mex.

Release Cotton By March 4 Deadline

March 4 is the deadline for applying for released cotton acres, and also the final day for farmers who don't plan to plant all of their allotment to release it to the county committee, reminds Prentice Mills, office manager of Farmer ASCS. "It is very important that farmers sign a release on acres they don't intend to plant. The farm and the county would both lose the allotment history on the acreage if it is not released," Mills said. Mills indicated that the county should be able to secure more additional acres from outside the area this year, due to the recent re-division of the state by ASCS districts.
