FOR 1964 CLASS

Lois Moyer, Rex Nelson Are FHS Honor Students

Lois Moyer and Rex Nelson were named honor students for the 1964 graduating class at Friona High School this week. In what proved to be a "photo finish" among the top five students.

LOIS MOYER

REX NELSON

Miss Moyer was named class valedictorian, based on grade averages of the four high school years, through the fifth six weeks period. She had an four-year scholastic average of 92.62.

Nelson was the salutatorian, compiling a 92.53 average for four years at FHS.

Three other students were in the running all the way. They were Diana Taylor, who finished with a 92.45 average; Myrna Bennett, who had a 92.38 average, and Rose Ann Greeson, at 92.34. Only .28 of a point separated the top five students in the class.

"This is the closest race for class honors that I can remember in all of my years as an administrator," stated Friona High School Principal Raymond Cook.

Nor were the top five students the only ones with something of which to be proud, Cheryl Neill, who attended FHS the past two years, compiled a 93.18 high school average, but could not be considered since the entire four years were not spent at Friona.

Miss Neill transferred from Hereford between her sophomore and junior years.

Miss Moyer, daughter of Mr. and Mrs. O. B. Moyer, has been quite active at Friona High School. She has been a member of the National Honor Society the past three years, has participated in basketball four years, and has been active in church and community activities.

Lois has been a member of FHA for four years, and was in the honor group in Betty Crocker competition. Her hobbies are sewing, cooking and music.

Nelson, son of Mr. and Mrs. Jack Nelson, has also been a National Honor Society member for the past three years. He also has been active in FFA work. As a freshman, Nelson was a member of the district champion FFA Quiz team.

Rex has also participated on the land judging team, and will represent FHS in the state livestock judging contests this weekend at College Station. He has been a member of the Science Club the past two years.

Five other students in the senior class finished with averages of 90 and above. They included Joyce Rodgers, 91.55; Mary Ethel Wilson, 91.00; Tex Phipps, 90.49; Mickey Wilson, 90.32 and Lynn Phipps, 90.17.

(Continued on Page 2)

YEARBOOK HONOREE... Bob Welch, member of the Chieftain annual staff, is shown presenting a copy of the yearbook to Mrs. Frank Truitt, to whom the 1964 book was dedicated, at a school assembly Tuesday.

HONORS TOLD

1964 "Chieftain" Is Distributed

The 1964 "Chieftain," Friona High School yearbook, was distributed Tuesday. Mrs. Frank Truitt, English teacher at Friona High School and faculty member for several years, was honored on the yearbook's dedication page.

Students honored in the yearbook include Doug Dodd and Charlotte Nettles (citizenship awards); Lois Moyer and Mickey Wilson (best all-around); Travis Graves and Merylene Massie, prince and princess of friendship; Mickey Wilson and Mary Ethel Wilson, Mr. and Miss Friona High School; Mike Baronowski and Karen Osborn, most courteous;

Russell Scales and Monte Welch, nicest smile; Mickey Wilson and Mary Ethel Wilson, most likely to succeed; Carol Struve, Danny Murphree and Charlotte Nettles, most dependable, and Mike Baronowski and Diana Taylor, most talented.

The most handsome and most beautiful choices were done for the yearbook by Mrs. John Connolly, wife of the state's governor, Mrs. Connolly's choices were David Carson and Shirley Phipps.

Diana Taylor and Myrna Bennett served as editor of the 1964 "Chieftain." Other staff members included Bob Welch, Russell Scales, Travis Eubanks, Mary Ann Roberts and Donna Fulk.

Faculty sponsor of the yearbook is Wayland Ethridge. A high school journalism class also helps with the yearbook production.

Lazbuddie In Volleyball Wins

Lazbuddie teams walked away with the top places in the invitational volleyball tournament held at Friona High School last weekend.

Clay's Corner Store won the men's division, and Sherley-Anderson Elevator of Lazbuddie won the women's crown. Others winners in the men's tournament included the "Rebels," Lazbuddie, second; and Friona Consumers, consolation winner. Hurst's Department Store was second in the women's bracket, and Big T Pump was third.

Jimmy Maynard, chairman of the tourney, which was sponsored by the Friona Booster Club, declared it a success, and expressed his gratitude to all who helped in any way.

ECONOMY BRIGHT

Quarterly Figure Is All-Time High

Deposits at Friona State Bank topped the \$7 million mark for the first time on a regularly quarterly statement, according to a report issued this week by the bank.

Total deposits at the close of business on April 15 stood at \$7,136,435.96, which was an increase of \$296,971.08 over the total on deposit at the bank at the last quarterly statement issued in December. That figure of \$6,839,464.88 represented an all-time record deposit total for a bank "call" date.

Frank Spring, bank president, credited a couple of things with possibly accounting for the good deposit figure. "A number of farmers have received and deposited government payments on crop layouts; also there have been a lot of cattle sales re-

cently -- many farmers had cattle on wheat during the winter," Spring said.

The bank president stated that he was very proud of the quarterly statement. "Now if we can get a good wheat crop, we'll be in good financial shape," he said.

The deposit figure marked an increase of \$589,255.03 over deposits on a similar statement for the first quarter of 1963.

Total assets listed by Friona State Bank on its statement amounted to \$7,656,346.38, an increase of \$264,976.38 over the December statement, and a rise of \$667,828.43 over last year's statement at this time.

Loans also showed a healthy hike. They stood at \$4,256,097 on April 15, compared to \$2,808,683.47 a year ago. Government bonds increased from \$634,015.38 to \$683,920.48.

GETS CAR

Duggins Honored

Baker Duggins, who retired this season after coaching the Friona High School Squaws to a first-place finish in the state class AA girls basketball tournament, was surprised at a meeting of the Friona Booster Club last Friday by the presentation of a new 1964 Oldsmobile.

Duggins, who coached the Squaws nine years, and led the team to a perfect 33-0 mark the past year, was presented the keys to the new car prior to showing of the state tournament game films to the Boosters.

(Continued on Page 2)

Visitation Day Underway Today

Today is "visitation day" for pre-school children who will be first-graders next year in the Friona School system. Children are to be brought to the elementary building between 8:30 and 8:45 a.m. They will remain at school until 2 p.m. today.

Purpose of the special day is to better acquaint the prospective students with the teachers and the school buildings, states J. T. Gee, elementary principal.

A special meeting of parents is scheduled for 9 a.m. at the high school auditorium. A booklet has been prepared for each parent, and a short discussion will be held.

HAPPY DUGGINS... Baker Duggins is all smiles as he inspects the new 1964 Oldsmobile which was presented to him last Friday during a meeting of the Friona Booster Club.

Ready or not, here the political season comes. As a matter of fact, it is here already. Personally, we'll have to admit that Saturday's primary election has all but slipped up on us.

We in Friona have already had what most people probably consider the most important election which we will face in 1964. Because the school bond election came between the regular school board election and the primary, we (personally) have not really had (or taken) sufficient time to study the candidates in the primary election.

But whether we try to ignore it or not, the primary date is upon us, so here's hoping that Friona area voters will choose themselves some candidates they think will get the job done, and turn out in big numbers Saturday.

Here's also hoping that they won't choose their candidates in the manner which my wife has been threatening. Referring to all that political advertising that has been on television lately, Carol says "I'm sure not going to vote for anyone who interrupted any of my favorite programs."

We'll agree with her that there was too much political advertising on television. It should have all been in the newspapers (ahem).

For only the second time in history, local voters will have the choice of voting in a Democratic or Republican primary. However, the fledgling Republican primary still lacks the local interest (contested races) to appeal to many local voters.

We're definitely for the two-party system, but it is generally conceded that only the die-hard Republicans will vote in that primary Saturday.

There is just one race where Friona area voters will be enticed to vote in the GOP primary. That is the U.S. Representative race between Lazbuddie's Frank Hinkson and Bob Price of Pampa.

Just one person who filed on the Republican ticket in Friona -- Thomas Parson, for the commissioner's position in Precinct 1, but he is uncontested.

On the other side of the ledger, three county offices are contested in the Democratic primary. These include the offices of county tax assessor-collector; county commissioner for Precinct 1 and chairman of the county Democratic executive committee.

This latter race apparently has generated more than passing interest, at least in the southern part of the county, where backers of Bovina's Dolph Moten went so far as to purchase an ad in an out-of-county newspaper.

Kinda reminds you of the old boy who dropped a dime on one street corner, but went down the block to another corner to look for it because the light was better there.

Who are you going to vote for (if you vote in the Democratic primary) in the U. S. Senator's race? Many people (Republicans and Democrats alike) resent Ralph Yarborough, who is up for re-election.

Yet, his opponent, Gordon McLendon, doesn't appear to be much of an improvement. Their campaign to date has been mostly a contest as to which candidate can out-slander the other. (And it's a standoff, from where I sit.)

That's a minor problem facing voters. It shouldn't hinder anyone from voting. Remember, you may scratch all candidates if you don't like any of them. You don't have to vote for a

Pioneer Frionan Dies Following Long Illness

Lawrence Franklin Lillard, 76, a resident of Friona since 1907, died at his home Friday morning following a long illness. He had been ill several years and was dismissed from Parmer County Community about a week before his death.

He was born August 25, 1887 near Orrick, Ray County, Mo. His parents were the late Mr. and Mrs. John F. Lillard. He grew up in Missouri and moved

to Friona in 1907.

For several years he was associated with a mercantile business and did carpenter work. He assisted with the construction of the first church building in the town, the first Congregational Church building, which later burned.

Later he bought a farm north of town and began farming and ranching. On May 6, 1914, he was married to Edith Maurer, a pioneer teacher, and they continued to live on the farm until 1944.

Following his retirement, about 20 years ago, he and his wife moved to Friona and he operated a real estate business several years.

Funeral services were conducted from the Congregational Church Saturday afternoon with Rev. Paul Mohr, pastor, as officiating minister. He was assisted by C. J. Horton, minister of Sixth Street Church of Christ. Active pallbearers were Otho Whitefield, Ralph Wilson, John Blackburn, Nelson Welch, Charles Russell and Clyde Goodwin.

Honorary pallbearers were Ed Boggess, T. J. Crawford, Roy Slagle, Walter Loveless, Bert Shackelford, O. F. Lange, G. D. Anderson and Scott Weir.

Survivors, besides his wife, include one son, Harold Lillard, three grandchildren, Jim Carl, Nan and Miles Lillard, all of Friona, and one brother Earl

(Continued on Page 2)

Consumers Hold Annual Meeting

The annual stockholders meeting of Friona Consumers will be held Saturday at 2 p.m. at the American Legion Hall.

Two new directors will be elected during the business meeting. Terms of directors Homer Lindeman and Bruce Parr are expiring. Holdover directors are George A. Jones, I. T. Graves and Roy V. Miller.

Speakers for the affair will be Johnny (Uncle Jay) Linn, manager of Radio Station KDHN in Dimmitt, and Jack Cane of Southern Farm Supply's fertilizer division.

Door prizes of \$25, \$15 and \$10 will be awarded. Also, patronage dividend checks will be distributed.

Entertainment for the meeting will be provided by Mrs. Roy V. Miller. Coffee and doughnuts will be served.

Democratic, Republican Primaries Saturday

Democrats and Republicans hold their primary elections Saturday, with the Democrats offering a few choices, and the Republicans having little more than the "two-party system" to offer.

Voting will be from 8 a.m. until 7 p.m. at all polling places. There are eight precinct boxes in Parmer County for the Democrats, and four for the Republicans.

Three races are contested on

the county level in the Democratic primary, while only two races of interest are on the entire Republican ballot.

Holding most of the local political interest will be the County Commissioner's race,

which features a race between brothers-in-law Thomas Lewellen and Forrest Osborn. Lewellen is the incumbent, while Osborn is a former commissioner.

Another local name is con-

testing for the commissioner's seat--Thomas Parson, but he is on the Republican ballot, and is uncontested for the nomination.

Other races of interest to the local and county voters include the County Tax Assessor-Collector's race, where Leona Moss and Hugh Moseley are opponents. Moseley, former county clerk, is seeking a full term after being appointed to fill out the unexpired term of Lee Thompson last year. Mrs. Moss is a former deputy in the office.

Then there is the race between Friona's Nelson Welch and Bovina's Dolph Moten for the chairmanship of the county Democratic Executive Committee. Welch is the incumbent, and Moten, editor of the Bovina Blade, is seeking to unseat him.

The only race on the Republican ballot involving county residents (besides Parson, who is unopposed) is the race for the U.S. Representative for the 18th Congressional District, where Lazbuddie's Frank Hinkson is opposed by Bob Price of Pampa. It is generally conceded that

most of the county voters who will participate in the Republican primary will do so in order to vote for Hinkson. Winner of this primary will face Democrat Walter Rogers in November.

About the only other race on the Republican ticket is for the U.S. Senate seat. This features four candidates, Jack Cox, George Bush, Dr. Milton V. Davis and Robert Morris.

One other race on the Democrat's ballot is for voters of the district. This is for the associate justice of the Seventh Supreme Judicial District. Here, Herbert C. Martin of Potter County seeks to unseat Ernest O. Northcutt of Randall County.

Eight offices on the state level are contested in the Democratic primary. These include the offices of governor, lieutenant governor, commissioner of agriculture, railroad commissioner and land commissioner.

Candidates for governor are John Connally, Don Yarborough, M.T. Banks and Johnnie Mae Hackworth. Preston Smith's opponent for lieutenant gover-

nor is Albert Fuentes of San Antonio.

Standing in the way of Agriculture Commissioner John C. White to re-election is Millard Shivers, Jerry Sadler and Fred H. Williams square off for the land commissioner office, and Jim Langdon is battling Jesse Owens for the railroad commissioner's job.

County officers unopposed include Sheriff Charles Lovelace, County Attorney Hershel Harding, and Guy Cox, candidate for commissioner of Precinct 3. Unopposed for re-election as state representative for the 91st District is Bill Clayton of Springle, Jack Young of Muleshoe is uncontested for re-election as District Attorney for the 15th Judicial District.

Seeking precinct chairmanships, all unopposed, in the Democratic primary, are O. J. Beene in Precinct 2; John Armstrong in 4; Wylie Bullock in 5; Wendol Christian in 6; Raymond Schueler in 7 and Otho Whitefield in 8. (Precincts 1 (Black) and 3 (Bovina) will have to name precinct chairmen by write-in voting.)

POLLING PLACES SET

Polling Places Are Announced

Polling places and precinct conventions were announced for Parmer County this week by the respective county chairman.

Voting places for the Democratic primary will be basically the same as for the 1962 election. One minor change will be in Friona, where voting will be in the hallway between the high school auditorium and gymnasium, since school will be in session on Saturday.

Otherwise, polling places will be the same as before, with voters casting ballots at the

Black Community House in Precinct 1; at the American Legion Hall in Bovina for Precinct 2; the Court House for Precinct 4; Lazbuddie High School for Precinct 5; the Oklahoma Lane Methodist Church for Precinct 6; Parish Hall for Precinct 7, and Otho Whitefield's residence for Precinct 8.

Polling places for the Republican primary will be as follows: the American Legion Hall for Friona, Black and Lakeview; the Jim Dixon residence for Bovina and Rhea; the Far-

well City Hall for Farwell and Oklahoma Lane, and the Lazbuddie Cafeteria for Lazbuddie.

Precinct conventions will also be held on Saturday. In all cases, conventions will be held at the same location as the voting, both in the Democratic and Republican voting.

County leaders urged voters to attend the precinct convention of their choice, and take part in government where they have the best opportunity to do

so.

The precinct 2 convention will be held at 3 p.m. at the high school auditorium.

Main requirement for attending the convention is that those attending must have voted, and must have their poll tax stamped, or secure an affidavit from the election judge showing that they have voted.

The precinct conventions will discuss policies the precinct wishes to support at the county conventions the following week.

STOCK JUDGERS . . . The Friona High School livestock judging team is participating in the state contests this weekend. In the back are Rex Nelson and Lynn Phipps. Kneeling are Dennis Howell and Tex Phipps. They are holding banners won last weekend at the contests at Texas Tech.

Team Participates In State Contests

Friona High School Future Farmers will be competing in the state judging contests at Texas A&M University this week.

The school's livestock judging team will seek further honors as it competes with the top 100 teams in the state at College Station.

Comprising the livestock judging team are Rex Nelson, Tex Phipps, Lynn Phipps and Dennis Howell. The team placed third in over-all standings for Area I in contests at Texas Tech last weekend, and thus earned the right to compete in the state contests. Top ten teams in each area advance to the state finals.

The FHS youths placed first in the beef cattle grading division, winning this honor for the second - straight year. They were competing against 150 teams in this particular division.

The dairy cattle judging team, composed of Edon Long, Larry Johnson and Don Collier, also

competed, but their placing was not known at press time. This team placed 10th in a contest recently at Nazareth, in a field of 46 teams.

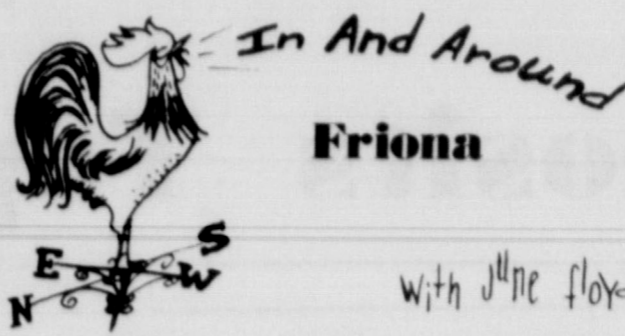

Judging in the state contests will be Saturday. Accompanying the team to College Station will be Benny Pryor, vocational agriculture sponsor.

Star Lites--

(Continued from Page 1) person just because he (or they) are the only names on the ballot.

Don't forget the Precinct conventions Saturday. Stick around (or come back later) for the conventions after you vote Saturday, and take part in democracy at the "grass roots" level.

Anyone with a resolution, suggestion or program he cares to set forth should bring it to this convention, as this is the first step in our representative form of government.

Farmers in our area are having quite a time trying to decide upon a planting date for maize and cotton. Some have already planted and it seems that even though it is a little bit early and cool for either crop, neither the time nor temperature is keeping volunteer maize and weeds from growing.

Wheat fields in the area are looking real good. Most of the wheat in our neighborhood is irrigated and has just been watered. For the first time in several years many fields are infested with a winter weed generally called "pepper weed." Hand labor has been employed to pull out some of these weeds and in some fields farmers have chosen to select the badly infested areas for plow up and in cases of overplanting.

In some fields tiny little sugar beet plants can be seen poking up through the ground. The growing season is beginning and for the next few months the entire countryside will be busy dressing up in green of various shades.

Last weekend was M-Day for several Friona residents. Editor Bill Ellis and his family moved from Bob Rule's rent house on Grand Street to the house vacated some time ago by Mayor and Mrs. Raymond Fleming on Fifth Street.

The Neil Pounds family moved to Earth. These two families had been next door neighbors for the past year or so. Neil, who has been a pharmacist at Farmer County Community Hospital, is going into business for himself at Earth. Neil, Carol, Beth and Chris will be missed from our community, but we wish them well in their new undertaking. Claude and Jo Blackburn are going to have to drive farther to see the grandchildren.

Earlier in the week, or possibly late the week before, the Deon Awtreys moved around the corner and down the street a couple of houses. I've always

thought moving wouldn't be such a chore if the distance was short and might even be fun if one could have a new home in the same neighborhood.

The only drawback I can think of to such an arrangement would be missing the pleasure of meeting the new neighbors. And, in this case, Deon, Fern, Ronnie and Sharen will also have new across the street neighbors to meet. The Jake Outland family moved into a new home on Pierce Street and Mrs. Trell Dorrell and children are in the process of moving into the house the Outlands moved out of.

Mr. and Mrs. Benny Pryor purchased the Awtreys home on Fifth Street and have moved into it.

Jack and Letha London and their children have moved into their new home on Elm Avenue in the northwest part of town. Looks like the Bill Lyles home, just across the street from the Londons is about ready for occupancy and when it is, the Lyles family, Joe and Wanda Reeve and Mr. and Mrs. J. C. Beck will all be moving.

New annuals arrived at school Tuesday. The Chieftain is a real fine annual and the students have every right to be proud of this year's issue. Congratulations to the editors, reporters, photographers and sponsors.

A few years ago when the Star and Southwestern Public Service were next door neighbors on Seventh Street, I always enjoyed getting acquainted with the home service advisors of the utility company and found them to be fine young ladies.

More recently I've had no occasion to meet the advisors and so attending a meeting of Black Home Demonstration Club Thursday afternoon was the first opportunity I had had to meet Mrs. Marilyn Prickett, who is currently serving our area.

charming young lady and presented her demonstration on broiler meals very thoroughly. Homemakers of this area are very fortunate to have such capable persons available for teaching new methods of preparing meals and proper use of electrical appliances.

Getz Resigns Star Position

John Getz, advertising manager of the Star, has resigned his position effective this week. A successor is to be named in the near future, according to Bill Ellis, editor and manager.

ter Club.
"This couldn't make me love (all of) you any more—I guess I'll just love you in a "higher style,"" Duggins commented. The good-natured red-head, who usually has a comment for every occasion, for once was caught speechless by the presentation.

His first reaction was disbelief. "No . . . you can't do that . . . I couldn't accept this . . ." he managed, as Booster president Jay Claborn handed him the keys. Later on, as the shock subsided, he decided that maybe he could.

Duggins and the Squaw team had been feted to a steak dinner by the club to start the evening. Then, as the "second half" of the evening's festivities began, surprises began to pop.

First, the Squaws had a couple of presentations to make. They gave beautifully engraved plaques to both Duggins and to Mrs. Pug (Nettie) Collier, the team's sponsor for the past two years.

Duggins' plaque had a gold-plated front, with the following engraved: "To Coach B. E. Duggins, in appreciation of your outstanding coaching and friendship. We love you -- The Squaws."

Names of all the girls on the state tourney travelling squad were engraved, followed by the words "State Champions, Class AA, 1964."

Tea, Open House At Library Sunday

A "silver tea" is being held at an open house for the new Texas State Library headquarters building in Muleshoe Sunday. Friends of the Library have invited everyone interested in the library and bookmobile program to attend.

The tea will be from 2 to 5 p.m. The library headquarters is the old Hunke Music building at 113 East Ash, north of the railroad and east of the Plainview-Friona Highway in Muleshoe.

Library officials urge everyone to attend, and meet the bookmobile librarian, Georgia Pena, the driver, Larry Hartzell, and Charles Gholz, field consultant, who will also be on hand.

A report this week from

Muleshoe stated that stops in Friona and Farwell were among the "best yet" in terms of reception, that the bookmobile has had.

Battery Drive Slated Here

A "used battery" drive is planned in Friona this weekend, with proceeds going to benefit Friona's American Legion baseball team.

Sims Texaco Station will serve as a collecting agency. Any persons having used batteries are requested to drop them off at Sims', or call the station and someone will pick them up.

Thomas Ketchum Finishes Phase Of AF Training

Airman Thomas W. Ketchum, son of Mr. and Mrs. Edward C. Ketchum of Lazbuddie, has completed the first phase of his Air Force basic military training at Lackland AFB, Tex.

Airman Ketchum has been selected for technical training as a missile maintenance specialist at the Air Training Command (ATC) school at Lowry AFB, Colo. His new unit is part of the vast ATC system which trains airmen and officers in the diverse skills required by the nation's aerospace force.

The airman, a graduate of Lazbuddie High School, attended West Texas State University, Canyon.

CONVENTION-BOUND . . . These students have been chosen delegates to the Girl's State and Boy's State conventions at Austin. On the left is Jeanne Taylor, with Chris Tannahill on the right.

W. A. Fulks Rites Saturday

Funeral services for W. A. Fulks were conducted at 10 a.m. Saturday in Coley Memorial Chapel at Hollis, Okla., with Rev. Robert Cargill, pastor of First Baptist Church, Hollis, and Rev. James C. Weston, Carnegie, Okla., officiating.

Graveside rites were conducted at 4:30 p.m. the same day in the Carnegie cemetery. Fulks, who was born April 25, 1880, in Pleasant Grove, Ark., died at 11:50 a.m. Thursday in Harmon Memorial Hospital at Hollis.

Survivors include his wife, Ethel of Carnegie, three sons, Hubert of Hollis and J. V. (Smiley) and Neal, both of Friona, three daughters, Mrs. Charlie Pettit, Carnegie, Mrs. Floyd Gault, Eloy, Ariz. and Mrs. Paul Render, Redlands, Calif.; one brother, Baxter of Pleasant Grove, Arkansas; one sister, Mrs. Maggie Younger of Sacramento, Calif.

Also 26 grandchildren, 43 great-grandchildren and four great-great-grandchildren.

GIRLS, BOYS STATE

FHS Students Named Delegates

Jeanne Taylor and Chris Tannahill have been named to represent Friona High school at the Girl's State and Boy's State conventions in Austin in June.

The two students were chosen by the Friona American Legion Post and the American Legion Auxiliary, who will sponsor the students at their respective conventions.

Alternates were Linda Rector for the girl's state convention, and Larry Buckley for Boy's State.

Miss Taylor, daughter of Mr. and Mrs. Ralph Taylor, has been active in band during her three years in Friona High School. She has also been a member of the Debate Club the past two years, and was half of the girls debate entry in the Inter-scholastic League contests. She also has been a member of the Thespians Club.

Tannahill, the son of Mr. and Mrs. C. W. Tannahill, also has been active in band. In FFA, he has participated on the chap-

ter conducting and meat judging teams in contests.

Chris has been a member of the Thespians club this year, and also has been interested in Science and Spanish work. He served as stage manager for the FHS Junior play this year.

The Girl's State convention is held annually on the campus of the Texas School for the Blind, while the Boy's convention is at the University of Texas. Purpose of the conventions is to educate young people in the duties, privileges, responsibilities and rights of American citizenship.

Mythical political parties are formed during the convention, campaigns are conducted, and officers are elected on the same manner in which state and national affairs are conducted.

The local Legion Auxiliary will also sponsor a 16-year old Farwell Junior, Donna Dunn, at the Girl's State convention. Donna is the granddaughter of Mrs. C. D. Carter of Friona.

Students Take Medals In History Contests

Mike Wooley and Julia Dennis won medals in history contests under the sponsorship of West Texas State University Thursday, April 23.

Mike entered in the World History Division. There were 123 entries in the division. His medal was class II or second five per cent of the group. Julia had the same award in the United States History division. She was competing in a group of 155.

The students were competing

against schools of all sizes and classifications, ranging from the largest to smallest.

Other entries in the contests were (American) Dennis Howell and Nan Lillard; (world) Terri Lynn Wilson, David Smith, Linda Outland, Mary Sheehan and Tommy Sherley.

Each school was allowed nine entries. Sponsor of the students was Mal Manchee, history instructor at FHS, Friona won two of the four awards won by schools in AA classification.

HISTORY WINNERS . . . Two Friona students returning home with medals from History Contests at West Texas State University last week were Mike Wooley and Julia Dennis.

Let's Stop The Transfer Of Cases From The Amarillo Court Of Civil Appeals To The Austin And Waco Courts.

Herbert C. Martin

Elect HERBERT C. MARTIN Associate Justice

BECAUSE MARTIN:
... is an experienced trial lawyer;
... is of proven judicial temperament;
... is of sound and impartial judgment;
... is diligent and dependable;
... will cooperate fully with the present Chief Justice and Junior Associate Justice in disposing of cases promptly. (Two of the three Justices cannot promptly adjudicate all cases.)

Retire HIS OPPONENT

BECAUSE HE:

... will be 79 years old before the end of the third term he is now seeking;
... is now drawing maximum Social Security of \$127.00 per month!
... is now eligible for full payment of judicial retirement;
... consistently renders Court opinions not based on sufficient legal authority;
... spends a large portion of his office hours in outside diversions while the Court docket suffers.

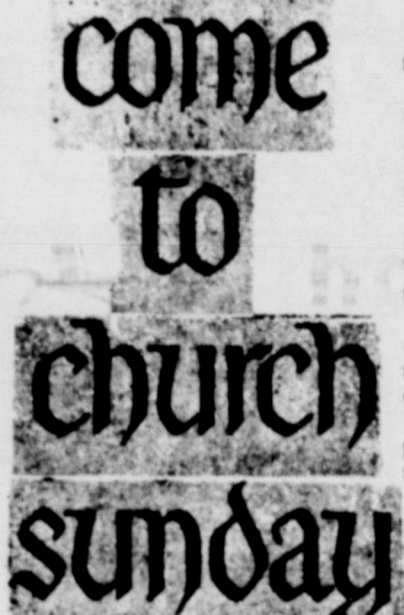

FOR THE FIRST TIME IN THE HISTORY OF THE COURT, on June 4, 1957, 10 cases were transferred to the Austin Court. Again, on January 11, 1964, 13 cases were transferred to the Waco Court, to-wit:

AMARILLO GLOBE-TIMES
Tuesday, April 21, 1964

WACO JUDGES
HELP APPEALS
COURT HERE

The Texas Supreme Court, apparently feeling that the docket of the Seventh Court of Civil Appeals in Amarillo is overloaded, has directed the 10th Court of Civil Appeals in Waco to lend a helping hand. Two members of the Waco court are in Amarillo today hearing oral arguments in the cases allotted them. The two judges are Chief Justice Frank G. McDonald and Associate Justice Frank M. Wilson. The Texas Supreme Court in equalizing the dockets of the civil appeals courts in the state has assigned 13 of the appeals filed in Amarillo to the Waco court. Under statute the cases must be heard in the court in which they are filed. For this reason the Waco judges are hearing arguments in Amarillo. Elmo Payne, clerk of the Amarillo court, says the Amarillo judges heard oral arguments in nine cases on April 6-7 and currently are working on their decisions in those cases. The Seventh Court of Civil Appeals in Amarillo encompasses the largest Supreme Judicial District in the State of Texas -- with 46 counties, Payne explained.

VOTE FOR HERBERT C. MARTIN FOR ASSOCIATE JUSTICE OF THE COURT OF CIVIL APPEALS (Pd, Pol, Adv.)

"Draw Near to God"
We have a promise from God's Word that if we will draw near to God, He will draw near to us. "Draw nigh to God, and He will draw nigh to You". (James 4:8).
To draw near to God these must be a personal commitment to God. Jesus said "Whoever therefore shall confess me before men, him will I confess before my Father which is in heaven. But whosoever shall deny me before men, him will I also deny before my Father which is in heaven. (Matthew 10:32-33). Thus it stands to reason if we are to draw near to God there must be a commitment of our life to Him.
Secondly, to draw near to God there must be personal prayer. Jesus gave to His disciples and to us the model prayer not to be quoted and forgotten but to teach us how to pray. Therefore it is important that we learn how to pray and then pray often for in doing so we will draw nearer to God.
And, how do we expect to draw near to God without reading His Word and meditating upon the things which will stimulate our spiritual growth. As we read His Word we are made conscious of our sin and by the strength received in meditating upon the Word of God we are able to overcome the temptation to sin.
Last, we would mention that to draw near to God there must be personal worship and public worship. The Psalmist said "I was glad when they said unto me, Let us go into the house of the Lord". (Ps. 122:1)
Thus through personal commitment to God, personal prayer, personal Bible study and personal worship we draw nigh to God. "Draw nigh to God, and He will draw nigh to You".

Audye M. Wiley, pastor
Calvary Baptist Church

COATESVILLE, PA., RECORD: "Space stations and moon landings -- hard or soft, manned or unmanned -- can wait, we think, while our top-flight scientists and engineers investigate the earth shudders that menace our Pacific Coast and tell us -- if and when they can -- what we can do about them. There are those who see in the Good Friday cataclysm in Alaska a warning of the error of our ways. Perhaps they are right."

Bovina Art Exhibit Is Sunday Afternoon

Bovina artists will present an art exhibit Sunday in school

cafeteria from 2 to 5 p.m. Bovina Band Parents will sponsor the show with a silver tea. Donations will go to Band Parents organization. Mediums to be shown are oils, watercolors, and charcoal and pencil drawings.

Work shown by students will be realistic, expressionistic and abstract. There will be examples of still life, landscape, portraits and studies in color harmony and flowers.

Following the show a continuous exhibit will be presented at Bovina's First National Bank. Bob Estes, bank president, announces that paintings will be kept on display in cooperation with local painting class.

Exhibitors in Sunday show will be Mr. and Mrs. J. T. Hammonds, Mrs. J. P. Macon, Mrs. Paul Holcomb, Mrs. Erith Hawkins, Mrs. Dolph Moten, Mrs. Tom Caldwell, Mrs. Marlin Ferguson, Mrs. Joe Pinner, Mrs. Art Mast, Mrs. Jesse Walling, Mrs. Charles Hawkins, Mrs. Reagan Looney, Mrs. Pearl Hastings, Mrs. Billy Johnson, Mr. and Mrs. Dean McCallum, Mrs. R. E. Wilson, Billy Whitcotton, Cecil Sisk and Carroll Powell.

Dean Merritt of Clovis, painting class instructor here, will also display several paintings, some of which will be scenes of Bovina.

Tour Of City Facilities Tuesday

The annual "tour of facilities" conducted by the City of Friona will be held at 1 p.m. Tuesday, May 5. It was announced this week by City Manager Arley (Jake) Outland.

The tour was originated in order to give newly-elected city councilmen a better concept of how their city operates, but Outland emphasizes that the public is invited to attend the tour.

Included on the itinerary will be visits to the city hall, fire department, police department, maintenance barn, East water plant, West water plant, sanitary fill, North water tower, cemetery and sewage disposal plant.

City officials in charge of the tour include Outland, Ralph Shirley, Bill Morgan, P. C. Aragon, Clyde Fields, "Dutch" Sparkman, Howard Love and Pete Hollis.

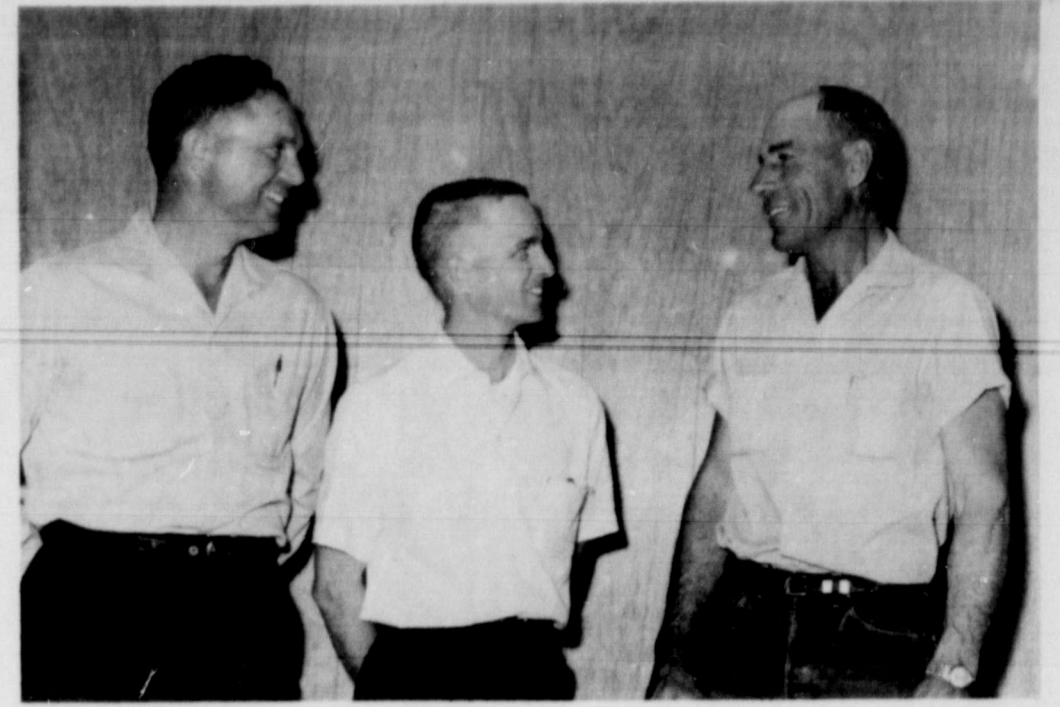

The tour will be approximately two hours in duration.

6800 Tags Are Sold

A total of 6800 vehicle tags have been sold in Farmer County for use in 1964.

Passenger car tags made up more than half of the total with 3570 of these sold.

Others include commercial trucks and pickups, 878; farm trucks and pickups, 1690; farm trailer tags, 313; truck-tractor tags, 45; farm truck-tractor tags, six; boat trailer tags, 211; semi-trailer tags, 51; house trailer tags, six;

NEW BRASS . . . New officers elected last week by the Friona Booster Club included (left to right) Deon Awtry, vice president; Denny Mac Bainum, secretary and George W. Jones, president.

Boosters Name New Slate Of Officers

Officers for the 1964-65 school year were elected by the Friona Booster Club at its meeting last Friday night.

George W. Jones was elected president, Deon Awtry vice president and Denny Mac Bainum secretary of the organization. J. C. Claborn, retiring president of the boosters, thanked the club members for their support during the 1963-64 school year.

Game films of the (state champion) Friona Squaws' state tournament games were shown, and home-made ice cream was enjoyed by boosters and members of the Squaw team.

Earlier in the evening, the Squaws had been feted to a steak dinner by the boosters.

FOOD sterilizing on a large scale is possible with Holland-made equipment now being marketed in the U.S. As many as 1,500 containers a minute can be processed in the hydrostatic units, reports Votator, Louisville. The containers are carried by endless conveyor chains through preheating, sterilizing, cooling and drying stages housed in steel towers.

MAY WEDDING PLANNED -- Mr. and Mrs. Dally Howell of Muleshoe have announced the engagement and approaching marriage of their daughter, Peggy, to Tom White, son of Mr. and Mrs. R. T. White, Lafayette, La. The bride-elect is a 1962 graduate of Friona High School and former student of West Texas State University at Canyon. The prospective bridegroom is a graduate of Canyon High School and a candidate for graduation from Texas A&M in May. Wedding vows for the couple will be read at 4 p.m. May 30 at Richland Hills Baptist Church in Muleshoe.

Plastic Articles Shown At Rhea Club Meeting

Highlight of the Monday evening meeting of Rhea Home Demonstration Club was a demonstration on making articles from plastic resin. Articles made from this liquid plastic were made and displayed by Mrs. Walter Schueler and Mrs. Norbert Schueler.

Opening exercise of the program was a quiz on parliamentary procedure. Following the business session Mrs. Norman Taylor modeled the dress she wore at the recent style show at Hub Community Center.

Mrs. Joe Allen, hostess, served refreshments to the following members: Mesdames Floyd Schueler, Cordie Potts, Franklin Bauer, Walter Schueler, Floyd Schlenker, Elmo Dean, Dwayne Ridley, Clyde Tims, Leland Gustin, Norbert Schueler and Norman Taylor.

Mrs. C. W. Wright and Mrs. Gene Wright and son, Kirk, visited in the home of Rev. and Mrs. Gordon Wright and Janna in Lubbock Sunday.

The first school of architecture in Texas was founded in 1904 at A&M College by F. E. Giesecke.

Of Interest To THE WOMEN

Broiler Meals Featured On Black Club Program

Highlight of the Thursday afternoon meeting of Black Home Demonstration Club meeting in the home of Mrs. Roscoe Ivie was a broiler meal demonstration by Marilyn Prickett, home service advisor for Southwestern Public Service Company from Amarillo.

Mrs. Prickett prepared chicken in a rotisserie, two ground beef dishes, peach cobbler, baked beans, tossed salad and garlic bread and served samples to guests.

The meeting was opened with a game directed by Mrs. Helen Fangman. Mrs. Gene Welch, president, had charge of the business session. Roll call was answered with rules for good manners in various situations.

Special guests were Mrs. Hugh Reid of Hereford, Mrs. Glenn Floyd, Friona, and Mrs. Teddy Fangman.

Members present were Mesdames Ivie, Fangman, Welch, Ellis Tatum, T. J. Presley, J. B. Snead, Johnny Mars, John Bengner, Beryl Fish, Bill Carthel and Travis Stone.

Mrs. Marilyn Prickett

Donna Fulks Elected Future Teacher Head

Following a steak supper at Raney's Restaurant in Hereford Tuesday evening, Donna Fulks was installed president of Ethel Bengner chapter of Future Teachers of America for the coming year.

Theme of the meeting was "Education Bridges Nations." Guest speaker was Mrs. O. J. Beene, first grade teacher in the local school. Colors of red and white were used in decorations.

Other officers installed to serve with Miss Fulks were Mary Ann Roberts, vice-president; Carol Struve, secretary; Sandra Shilling, treasurer and Shirley Phipps, historian.

Outgoing officers were Kay Neel, president; Donna Fulks, vice-president; Cheryl Neill, secretary; Mary Ann Roberts, treasurer and Jan Wells, historian.

Special guests at the meeting were Mr. and Mrs. Lionel Young, Mr. and Mrs. John R. Cook, Mr. and Mrs. Alton Farr, Mr. and Mrs. John Bengner and O. J. Beene.

Future teachers attending the supper and installation ceremony were: Lydia Buske, Sandra Schilling, Donna Fulks, Shirley Phipps, Carol Struve, Mary Ethel Wilson, Carolyn Herring, Cheryl Neill, Kay

Karla Ann Fleming Born In Amarillo

Mr. and Mrs. Ray Dean Fleming of Friona became parents of a baby girl at Northwest Texas Hospital in Amarillo at 9:20 p. m. Sunday. She was named Karla Ann and weighed 5 lbs. 6 ozs.

Grandparents are Mayor and Mrs. Raymond Fleming, Friona, and Mrs. and Mrs. Loyd Widener, Lockney. Great-grandparents are Mr. and Mrs. Louis Richards, Memphis, O. D. Fleming, Alamosa, Colo. and Mr. and Mrs. D. T. Petree, Abilene.

Karla, who is the second child for the couple, has a sister, Kipl, 15 months.

Samme Adkins Born Friday

Samme Joan is the name Mr. and Mrs. Richard Adkins chose for the baby girl born to them at 4:14 p.m. Friday at Parmer County Community Hospital. She weighed 7 lbs. 5 ozs.

She is the first daughter for the couple. Older children are Glenn and Danny.

Grandparents are Mr. and Mrs. Ivan Adkins, Amarillo, and Mr. and Mrs. James Temple, Plainview. Mrs. Nannie Gilmer, formerly of Friona, is the maternal great-grandmother.

DONNA FULKS

Neel, Diana Taylor, Frieda Floyd, Janet Rushing and Myrtle Latham.

Legal Notice

Notice To Bidders

Sealed Proposals addressed to the Honorable Mayor and City Council of Friona, Texas, will be received at the office of Arley L. Outland, City Manager, until 1:30 p. m., May 4, 1964, for furnishing all necessary superintendence, labor, materials, tools, and equipment for constructing one (1) water well for the City of Friona, Texas and furnishing and installing a turbine type deep well pump, complete, with vertical hollow shaft motor and electric control equipment. Any bid received after the time and date stated above will be returned unopened.

Each Proposal must be accompanied by a Certified Check, Cashier's Check or Proposal Bond, acceptable to the Owner in an amount equal to at least five per cent (5%) of the total amount of the bid submitted, made payable without condition to the City of Friona, Texas, as a guarantee that the bidder, if awarded the contract will promptly execute such contract and bonds in the forms provided. Bids without the required bid security will not be considered.

The Successful Bidder must furnish performance and payment bonds on the forms provided in the amount of 100% of the total contract price from a Surety Company holding a permit from the State of Texas to act as Surety, or other Surety or Sureties acceptable to the Owner.

Proposals must be submitted on the form provided and, in case of ambiguity or lack of clearness in stating the prices in the bids, the Owner reserves the right to consider the most advantageous construction thereof, or to reject the bid. The Owner reserves the right to reject any or all bids, to waive any formalities, and to accept the bid which seems most advantageous to the interest of the Owner.

Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions.

Attention is called to the provisions of the Acts of the Legislature of the State of Texas concerning the wage scale and payment of prevailing wage established by the Owner. The scale of prevailing minimum wages is set forth in the specifications.

Information for bidders, proposal forms and specifications are on file in the office of Arley L. Outland, City Manager, Friona, Texas, and Parkhill, Smith & Cooper, Inc., Consulting Engineers, 201 Avenue R, Lubbock, Texas. Copies of such documents may be secured from either the City Manager or Parkhill, Smith & Cooper, Inc.

IT'S TRADE 'N' TRAVEL TIME AT YOUR CHEVROLET DEALER'S

5 different ways to make a big splash!
without going overboard on price

It's get-the-cottage-ready time. Put-the-boat-in-the-water time. Baseball time. Trade 'N' Travel Time at your Chevrolet dealer's. Time to get out of that wintertime rut, into one of Chevrolet's five great highway performers.

Now it's easy to go on vacation first class--without paying a first-class price. In a luxury Jet-smooth Chevrolet, for example. This beauty rivals just about any car in styling, performance and comfort. Or try a totally new type of travel in the youthfully styled Chevelle. Lots of room inside--yet nicely sized for easy handling.

Now thrifty Chevy II has hill-flattening power. Unique Corvair offers extra power that accents its road-hugging rear engine traction. And the exciting Corvette speaks for itself.

Yes, right now is new car time. T-N-T Time. Time to get the most fun from a new car. To get a great trade on your old one. To get a big choice at your Chevrolet dealer's. Come on in!

Women Bowlers Attend Awards Banquet Thursday Club Members Plan Mothers Day Tea

Twenty-nine members of the 9 O'Clock Scholars League and 13 sponsors attended the end of the season awards banquet at Raney's Restaurant in Hereford Thursday evening.

Mrs. Lee Renner directed the invocation. A spokesman for each team introduced the team sponsor and expressed appreciation for support during the year.

Mrs. Steve Messenger, president, introduced other officers and complimented them for doing a good job throughout the year. They were Mrs. Jack Carrothers, vice-president; Mrs. Leonard Coffey, secretary; Mrs. Elvin Wilson, treasurer and Mrs. Bob Riethmayer, sergeant-at-arms.

The following awards were given following the banquet: Perfect attendance, Mrs. Eugene Bandy, Mrs. Bob Riethmayer, Mrs. J. R. Varner, Mrs. Kenneth McLellan and Mrs. Jack Carrothers.

High games of 175 or above went to Mesdames D. T. King, Steve Messenger, Bob Riethmayer, Jimmy Buckley, T. A. Sherley, J. R. Varner, Robert Ivy, Glen Mings, Bill Carthel, Weldon Dickson, Leonard Coffey, Lee Renner, Gene Welch and R. J. Renner Jr.

Awards for high games of 200 above went to Mesdames James Procter, Jack Carrothers and Lloyd Rector.

Mesdames J. R. Varner, Leonard Coffey, Lloyd Rector, Gene Welch and Jack Carrothers. Other awards presented were: high game trophy, Mrs. Lloyd Rector with a 235 game;

Mr. and Mrs. Harvey Shapley and Haskell of Amarillo were weekend guests in the home of Mr. and Mrs. Delton Lewellen and daughters.

high series trophy, Mrs. R. J. Renner Jr. with a 517 series; high average trophy, Mrs. Jack Carrothers with a 156 average; high WIBC series pin, Mrs. Jack Carrothers with a 563 average; most improved player plaque, Mrs. W. D. Buske.

First place team was Piggly-Wiggly. Team members are Mrs. Charles Rector, Mrs. Eugene Bandy, Mrs. Leonard Coffey and Mrs. Bob Riethmayer. Second place team, Rockwell's with Mrs. James Procter, Mrs. Elvin Wilson, Mrs. Glen Mings and Mrs. Lee Renner.

Hurst's team was third place. Mrs. W. D. Buske, Mrs. Bill Carthel, Mrs. R. J. Renner and Mrs. Gene Welch are members of this team. The high scratch series team was Birmingham Land Company with 1840.

The Lazbuddie Home Demonstration Club met for its regular meeting Monday, April 27 in the home of Mrs. Glenn Lust.

There were fourteen members present. The Club voted to have a tea on May 14, honoring the members' mothers in recognition of Mothers' Day.

The club conducted a mock style show, to raise money for the club treasury. Mrs. Everett McBroom won first for the "most original" creation, Mrs. Marshall Caldwell had first place in the "most outlandish" creation. The hostess served coffee and cake.

REBEKAHS WIN TROPHY-This team competed against a team from Claude in a funeral ceremony and won the trophy at a recent lodge meeting in Amarillo. Team members are Wilma Wise, Pearl Patterson, Pat Fallwell, Nola Adams, Juanita Reed, Fern White, Lou LaFavers, Geneva Williams and Inez Sherley. Others attending the meeting were Addie Moyer, Pat Patterson and W. J. LaFavers.

GORDON McLENDON

Your candidate for the Democratic nomination for U. S. Senator

BELIEVES . . .

FOREIGN AID—Foreign aid should be withheld from all communist-dominated countries. Foreign aid should be maintained in those countries in which we have military bases. In other countries where any aid might be prudent, it should be mainly in the form of surplus agricultural products.

NATIONAL DEBT—Government expenditures should be made only from current income in peacetime. An orderly program for retirement of the public debt should be initiated.

FOREIGN AFFAIRS—The Monroe Doctrine should be firmly restated and upheld.

GORDON McLENDON
Democratic Candidate
For U. S. Senator

Vote for Gordon McLendon in the May 2 Primary and you'll be proud of your choice

Mrs. Claude Osborn Presents Book Review

A review of "Whom The Lord Loveth" by James Huff was featured on the Wednesday afternoon meeting of Friona Woman's Club at Federated Club House. Guest reviewer was Mrs. Claude Osborn.

Mrs. A. H. Boatman presented the devotional. Roll call was answered with the title of a recently read book.

Guests present were Mesdames T. J. Presley, Dick Rocky, Guy Latta, O. B. Moyer, Claude Osborn and Leila Williams, all of Friona, and

Mrs. Joe Wilson, Lubbock. Refreshments were served by the hostesses, Mrs. John Benger and Mrs. Wesley Hardesty, to the guests and 15 club members.

School Menu

MAY 4-8, 1964

Monday - pork chops, rice, green beans, tossed salad, chocolate pudding, hot rolls and butter, milk.

Tuesday - hot dogs, potato salad, cookies, milk.

Wednesday - pinto beans, cheese, greens, onions, cherry cobbler, corn bread, bread and butter, chocolate milk.

Thursday - fried chicken, potatoes and gravy, buttered beets, vegetable salad, chocolate cake, hot rolls and butter, milk.

Friday - fish, potatoes, English peas, tartar sauce, applesauce cake, hot rolls and butter, milk.

Women's Golf Tourney Scheduled For May 21

The second annual Friona Women's City Golf tournament will be held Thursday, May 21, under the sponsorship of the Friona Women's Country Club association.

The one-day tournament will feature both nine and 18-hole flights. All Friona area women golfers are encouraged to enter.

It is suggested by the association that all who wish to enter the tourney play at least 27 holes of golf between now and May 21, so a more accurate handicap can be given the individual for tournament competition.

Those who play the course between now and the tourney date are requested to leave their score cards with Mrs. Wayne Wash at the Friona Country Club pro shop.

Girl Scouts Visit Home At Portales

Members of Girl Scout Troop 93 visited the Children's Home at Portales Monday afternoon.

They were accompanied by Mrs. Charles Rector, Mrs. W. R. Riethmayer and Mrs. Lloyd Mings.

At the home the group was conducted on a tour of the cottages. Songs were then sung for children living in the home. Nergis Yazgan, an honorary member of the troop, presented a dance popular in her native country, Turkey, and answered questions asked by the children.

On the return trip home the group stopped in Farwell for supper.

Members of this troop have completed requirements for the toy maker's badge. Each girl made bath salts to present to girls living in the Children's Home.

FFA ROYALTY . . . These students participated in the FFA Father and Son Banquet last Thursday. In the back are Rose Ann Greeson, FFA Sweetheart, Wessie Hand, and Merylene Massie, Plowgirl, Seated is Tex Phipps, FFA President.

INSTALLING TEAM . . . The above team served as installing team for the Panhandle Association of IOOF Lodges last weekend at Amarillo. In the back are Charlie Wise, Luther Scales, Sam Williams and Bud Reed. Seated are Mrs. Charlie Wise, Pat Fallwell, Mrs. O. T. Patterson, Mrs. Sam Williams and Mrs. Floyd Brookfield.

Granite Mountain, an 866-foot dome of pink granite covering 180 acres near Marble Falls, has the largest quarry of its kind in the U. S.

Mrs. W.C. Osborn Buried Thursday

During the Civil War the Alamo in San Antonio was used by the Confederacy as a Quartermaster depot.

Final rites for Mrs. W. C. Osborn, a resident of Friona since 1927, were conducted from Friona Methodist Church Thursday afternoon, Rev. Russell McAnally, pastor, and Rev. Herschel Thurston, pastor of First Methodist Church in Hereford, were officiating ministers.

Active pallbearers were Sam William, Henry N. White, Frank Truitt, Eric Rushing, George A. Jones and Loyde Brewer.

Honorary pallbearers were members of the Sunshine Bible Class and Men's Bible Class of Friona Methodist Church.

Verda Lee Norwood was born December 26, 1886, at Malvern, Ark. and later moved to Swearingen, Texas, with her parents. She was married Nov. 27, 1910 to W. C. Osborn, who survives.

Mr. and Mrs. Osborn moved to Friona from Lubbock County in 1927 and have lived here since that time.

She was an active member of Friona Methodist Church and participated in activities of the Woman's Society of Christian Service.

Survivors, besides her husband, include one daughter, Mrs. Howard Ford; two sons, Forrest Osborn and Ernest Osborn, all of Friona; three brothers, T. P. Norwood, Fort Worth, Carra Norwood, Lubbock and W. D. Norwood, Friona; and seven grandchildren. Burial was in Friona cemetery under direction of Claborn Funeral Home.

Gas lighting was installed in the White House in 1848.

Lodge Members Install Slate

Members of the Friona IOOF Lodge served as an installing team for new officers for the Panhandle Association of IOOF Lodges at the organization's annual convention in Amarillo.

Serving as deputy presidents were Mr. and Mrs. Sam Williams, Mr. and Mrs. Charlie Wise were deputy vice presidents; Bud Reed and Mrs. Floyd Brookfield served as deputy marshals. Pat Fallwell and Luther Scales served as chaplains.

The meeting was Friday, Saturday and Sunday at the IOOF Hall in Amarillo, with installation ceremonies on Sunday.

Some 20 members of the local IOOF and Rebekah lodges attended the convention.

Members of the First Legislature of the State of Texas were paid three dollars per diem for attendance and three dollars for each 25 miles traveled to and from the capital.

Lester Dean Represents Western Ammonia Corp.

It was recently announced that Lester Dean will serve the

Friona area as service representative for the Western Ammonia Corporation of Dimmitt.

Dean's eight years of experience as a fertilizer salesman and years as a farmer prior to that should prove valuable in Western Ammonia's rapidly expanding service program.

A native Texan, he has been a resident of Friona for 13 years and is thoroughly familiar with the agricultural problems and needs of this area, and he represents an organization capable of providing complete service facilities.

Western Ammonia will back Dean with the latest in all-new equipment, a complete line of fertilizers, and service through a radio dispatch system. Western is employing new and time-saving service methods to let Friona farmers enjoy fast, dependable service for their fertilizer needs.

Dean will work closely with Western's chief agronomist, Bill Bennett, to provide farmers with complete and accurate fertility programs. Western's complete fertility records will be kept up-to-date to give farmers a working history of their fertility program for future reference. This record program is designed to save farmers not only time, but also the unnecessary expense of trial and error testing.

GETS PLAQUE . . . Nettie Collier admires plaque presented to her by the Squaws at the banquet last Friday night. Mrs. Collier has been sponsor for the team the past two years.

Reeve Awarded GM Institute Appointment

Max Reeve, 1963 graduate of Friona High School, has received a General Motors Institute appointment, and will be eligible for the special course of study and employment at General Motors' Arlington plant.

Reeve, presently a student at West Texas State University, was an outstanding student at

Friona High School. He maintained a scholastic grade average of 93.64 for four years, which placed him third in his graduating class.

He participated in athletics and lettered four years. He was captain of the football team his junior and senior years.

Reeve was class favorite as a freshman, was selected "most studious" as a sophomore and was president of his class. As a junior, he was selected "most valuable class member." He was a member of the National Honor Society three years, as well as the Student-Faculty Congress.

His senior year, Max was president of the student body, and was selected "Mr. F. S. H." He was also a member of the Science Club.

Reeve participated in FFA work. He was on a district champion judging team as a freshman, and a member of the state championship farm skills team as a junior.

He is the son of Mr. and Mrs. Glenn E. Reeve, Sr. of Friona.

Sharon Reeve To Be On Band Tour

Sharon Reeve, a member of the McMurry College Indian Band in Abilene, will be with the group on a 10-day tour, May 1-10, when they take a 2500 mile trip to Mexico where they will perform in Monterrey, Ciudad Valles, Mexico City, San Luis Potosi and Saltillo.

Miss Reeve, a 1963 graduate of Friona High School where she was a member of the Chieftain Band, is an elementary education major. She is a freshman on McMurry Campus and is pledging Theta Chi Lambda social club. She is the daughter of Mrs. Fay Reeve, Friona.

The musicians will hit the road Friday, May 1, and will make their first concert stop Saturday night at the Monterrey Fountain Park in the heart of Monterrey. They will remain in that city for a performance Sunday at the Trinity Methodist Church and will leave Monterrey after an evening concert at the Plaza Zaragoza.

Monday, May 4, they will present a concert in Valles under the auspices of the Red Cross. Wednesday and Thursday evenings the traveling collegians will perform in Mexico City.

Plans have been made for band members to see some of

CHOSEN . . . David Lee Carson and Shirley Phipps were chosen "most handsome" and "most beautiful" and honored in the Chieftain yearbook which has been distributed.

Mexico City's attractions such as the University of Mexico, the world's largest university with an enrollment of about 80,000 students; the National Museum, government buildings; and the National Cathedral, the largest church on the continent.

Utilities Plan To Pass Savings Along

Utilities plan to reduce rates by the amount of tax reduction they experience as a result of the new tax law. A recent survey by The Wall Street Journal said that "scores" of companies are reducing gas and electric rates "to reflect the federal corporate tax cut."

This will not be universal -- some utility companies are in a different financial position than others and will need to retain the tax cut to assure them a fair return on their investment. And reductions will not be heavy -- the corporate tax cut is small -- 52 to 48 per cent. But it is worth noting the thinking of utility executives tends toward the lowering of rates where possible. And the reason is that it puts investor-owned utilities in a stronger position in competing with tax-exempt and tax-subsidized government projects.

Actually, in the long inflationary period we have been experiencing, private utility service has always been a bargain. The cost has remained relatively constant, and in many instances gone down, despite soaring prices for most other commodities and services. That speaks volumes for the industry's technological advance. And it provides unassailable evidence of the rigorous standards of efficiency and economy that are imposed all along the line.

GOOD CITIZENS . . . Charlotte Nettles and Doug Dodd were chosen "best citizens" by the Friona High School faculty, and have been honored in the school yearbook.

HONORED . . . Students honored by the Friona High School faculty as "best all-around" were Lois Moyer and Mickey Wilson. They were presented in the school yearbook.

ABRAHAM LINCOLN'S unusual body build was probably the result of an inherited disorder, Marfan syndrome, a disease of the connective tissue that affects skeletal development, vision and the cardiovascular system, says Dr. Harold Schwartz, Huntington Park, Calif. The syndrome, first identified in 1896, is marked by excessive long-bone growth which produces disproportionately elongated arms, legs, fingers and toes, with a long head and "long" facial features. The Lincoln-esque face, his severe farsightedness and very long arms and legs "strongly" suggest this syndrome, according to Dr. Schwartz.

Wheat Signups To Start Friday

The layout and payment provisions of the feed grain program will be popularized in the 1964 wheat and cotton programs, apparently.

At least, this will probably be the case in Farmer County following a turnout of around

500 farmers at an information meeting at Bovina Thursday night, when the new features were explained.

Actually, there was a layout program in effect for wheat in both 1962 and 1963, but participation was light due to late-

ness in introducing the program, and also the fact that it was not so appealing from a monetary standpoint.

Boiled down, the 1964 wheat program offers to wheat farmers who choose to participate four main features:

- 1 -- Price support through loans and purchases.
- 2 -- Payments for diverting wheat to conservation uses.
- 3 -- Cashable certificates for domestic wheat.
- 4 -- Cashable certificates for export wheat.

With an allotment of 94,403 acres for wheat, Farmer County farmers find in most cases they have planted within or near to their individual allotments, and compliance with the program will not mean destroying much acreage. As a result, many are expected to participate.

The method of payment for acreage diverted from wheat is rather involved. In most cases a total of 95 cents a bushel (70 cents for domestic and 25 cents for export) will be added to the county loan rate of \$1.27 per bushel.

How many bushels this will be paid on is calculated by a formula that considers the average yield ("normal" yield in Farmer County is 34.3 bushels), times 90%.

The program will amount to "insurance" for some farmers who may find themselves being paid for crops that were destroyed or damaged by adverse weather.

The 1964 wheat program, together with the cotton program, became law April 9. As a result there is a lot that is not well understood about the details of the law.

Cotton farmers will also have a layout and payment program, but they'll have a good while yet to decide whether to participate. Wheat farmers will have to make up their minds in a hurry, since the signups will close May 15.

"Two weeks is sure not much time to sign up a thousand farmers in a new program," says Prentice Mills of the ASCS office in Farwell, but that is the chore that faces the group.

The deadline for cotton farmers has not yet been decided

Plants Sometimes Eat Better Through Leaves

Fertilizer applied to the leaves of plants is sometimes more effective than spread in the root zone in the conventional manner.

Though it is possible to supply

only a small portion of the total nutrition needed by the plant in this manner, he adds, if a foliar fertilizer spray is applied at precisely the correct time, outstanding results can be obtained.

Research conducted to correct specific nutrient deficiencies and to provide nutrients at critical growth periods have proven beneficial. Almost all crops respond to a foliar spray of nitrogen, and show a slight response to phosphorus and potassium. He also says that crops in many areas of the state respond to foliar application of certain micronutrients, like iron and zinc.

He continues that probably the greatest value of foliar feeding plants would be with crops where certain deficiencies can be corrected easily by spray treatments, where spraying is already an established practice, where total leaf areas are large, and where there is a great demand for nutrients at a certain time; such as during flowering and fruiting.

Precautions for foliar applications include limiting the fertilizer salt content to two percent, because leaves can be damaged by high salt concentrations.

Crops, Soils, Fallout

By Tommy Hollmig and Bobye Riney

Should there ever be a massive nuclear attack against our country, only a small proportion of our land would be seriously contaminated after fresh fallout decayed.

For several years, Civil Defense officials have conducted annual test exercises from which extensive computations have been made. Data from Operation Alert 1961 were typical of that received from other tests.

Operation Alert 1961 considered effects of 260 weapons totaling 1,425 megatons, with assumed targets spread throughout the nation. Based on wind and weather conditions that actually prevailed at the time of the exercise, fallout estimates indicated that in such an attack about 4 1/2 percent of our total land area (5 percent of our cropland) would receive fallout which exceeded 300 roentgens per hour, one hour after the explosion (H-1). About 1/2 of 1 percent of our land would suffer from really heavy radiation (over 1,000 r/h at H-1). And about 75 percent of our total land area would

April Brings Shower Of Plentiful Foods

April brings a shower of foods, along with traditional rain showers, as seven foods are especially plentiful, reports the Texas Agricultural Extension Service.

Such items as beef, cottage cheese, eggs, rice, canned ripe olives, dried beans and canned corn are expected to be abundant, according to the Agricultural Marketing Service, the U. S. Department of Agriculture agency that compiles the monthly list of plentiful.

Egg prices paid to farmers dropped more than 10 percent between mid-January and late February. April supplies are expected to be above those of a

year ago, with prices below last year's attractive retail level. As of January 1, canned corn stocks were at a record high, and heavy supplies also should be much in evidence during April.

Substantial January - to - March increases in the number of fed beef cattle have resulted in a much larger meat supply.

Creamed cottage cheese production is expected to exceed last year's 787 million pound record. Dry bean production netted a record 12 percent above average. A record rice crop and the possibility of a record canned ripe olive supply make these big items for April.

Anaplasmosis, which is spread by small amounts of blood carried on dehorning instruments, is often transmitted from one animal to another at dehorning time. This danger can be avoided by washing the dehorning instruments after each animal is dehorned.

Pullets will lay about five dozen more eggs than old hens, according to most poultrymen and it is therefore a better practice not to keep laying hens for a second year of production. The egg quality from pullets is undoubtedly better than from older birds.

Owning your own home is a good investment

...and when you finance your home with us, the dollars you pay each month are "growth dollars." Each payment you make increases your equity until you own your home debt-free. And in the meantime you enjoy it. Why not let some of these "growth dollars" work for you? Let us arrange a home loan for you tailored to your needs.

Midge Cuts Grain Sorghum Production

Lubbock (Special) . . . Grain sorghum yields have been drastically cut due to sorghum midge damage on many Plains farms for four straight years. Estimates of yield reduction on late-planted grain sorghum the past season ranged from 0 to 100%, reports Don Rummel, Area Extension Entomologist.

The greatest losses consistently occur in sorghum which blooms late in the summer. Planting or sorghum at the earliest possible date is the best insurance against midge damage. Previous work has shown spray applications of midge control chemicals before August usually do not result in significantly higher yields.

Two approaches to chemical control in late-planted sorghum may be followed.

1. Automatic or insurance method: Apply a recommended insecticide after 90% of the heads have emerged from the boot. A second, and possibly a third, application may be necessary at 3 to 4 day intervals if the field doesn't head uniformly.

2. As-required method: Carefully check for midge in wild host plants and early sorghum in field. If midge are present in these early heads, control should begin when 90% of the heads are out of the boot. A second application should follow 3 to 5 days later if midge activity continues. Additional applications may be needed if the field does not head uniformly.

Chemical control is based upon destruction of the adult midge before egg laying begins. Therefore, timing of insecticide applications is a critical factor. Careful attention should be paid to restrictions on use of insecticides to avoid unlawful residues on the grain.

Recommended chemicals for the 1964 season include:

Endrin (1.6 lbs/gal) 1 1/4 pt/acre. Do not apply within 35 days of harvest. Apply only once each season.

Toxaphene (6 lbs/gal) 1/3 to 1/2 gal/acre. Apply only once after heads are formed. Don't apply over 1/3 gal/acre within 28 days of harvest or over 1/2 gallon within 40 days of harvest. Don't pasture dairy or animals being finished for slaughter in toxaphene-treated fields. Don't ensile treated forage.

Sevin (80% WP) 1 1/4 to 2 1/2 lbs/acre. Can be applied to forage sorghum without limitation. Allow 21 days between last application and harvest of sorghum grain.

Carbophenothion (Trithion) 1/2 pound per acre. Apply only once each season. Don't apply within 21 days of harvest.

Parathion (2 lbs/gal) 1 qt/acre. Don't apply within 12 days of harvest or grazing.

Research is now underway to find better, faster methods of controlling the midge. At the South Plains Research and Extension Center, Lubbock, entomologist James Harding is hard at work on several midge control projects. Among them; attempting to raise the midge artificially in the lab in order to closely study its life cycle and habits; preparing for host plant relationship studies; and several other important projects.

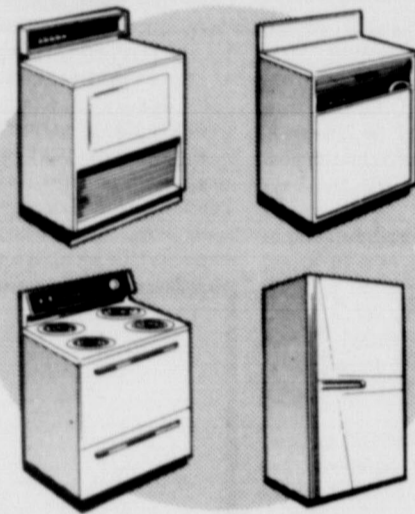

Harding and Rummel will be working with several new ideas and methods of midge control in the field this summer. Both entomologists plan also to work closely with Texas Tech College and the High Plains Research Foundation in evaluating and comparing research notes and planning new research programs.

Establishing High-Producing Pastures

Pasture grasses are rapidly becoming of major importance in both the High Plains and Rolling Plains.

Midland Bermuda grass, which has proven its adaptability over the past few years, along with Indiangrass and Switchgrass, which have long ago proven their adaptability, are the principal grasses being established.

High-producing pastures do not "just happen." They are planned and managed for. There are no "short-cuts" in establishing high-producing pastures. There are some ten "musts" to consider in establishing high-yielding, improved pastures:

1. Soil must be highly productive. A shallow, eroded soil can store only limited moisture and fertility. If the soil produces low yields from cultivated crops, it likewise may be expected to produce relatively low yields in grass.

2. Must select adapted species of grasses. There are many grasses adapted to the Texas Panhandle. However,

many of these do not respond favorably to fertilization and/or irrigation.

3. Must have proper seedbed. Many failures to get grass established can be traced to improper seedbed preparation. If the seedbed is considered adequate for the planting of grain sorghum, then it is adequate for grass planting.

4. Must have good planting material. High-quality seeds may cost more in the beginning, but in the long run, they have proven less expensive. There is little loss in livability of Bermuda grass sprigs when they are planted immediately after digging. If the sprigs are to be transported any distance, dampen and cover and get them in the ground as soon as possible.

5. Material must be planted at the proper time. Failures to obtain stands after July 1 are quite common since the grass has insufficient time to establish an adequate root system and, in many instances, winter-kills.

6. Must control weeds. Any plant that competes with improved pasture grass is a weed. Effective methods of control may be herbicidal sprays, cultivation, or even controlled grazing, depending upon the species of weed competition.

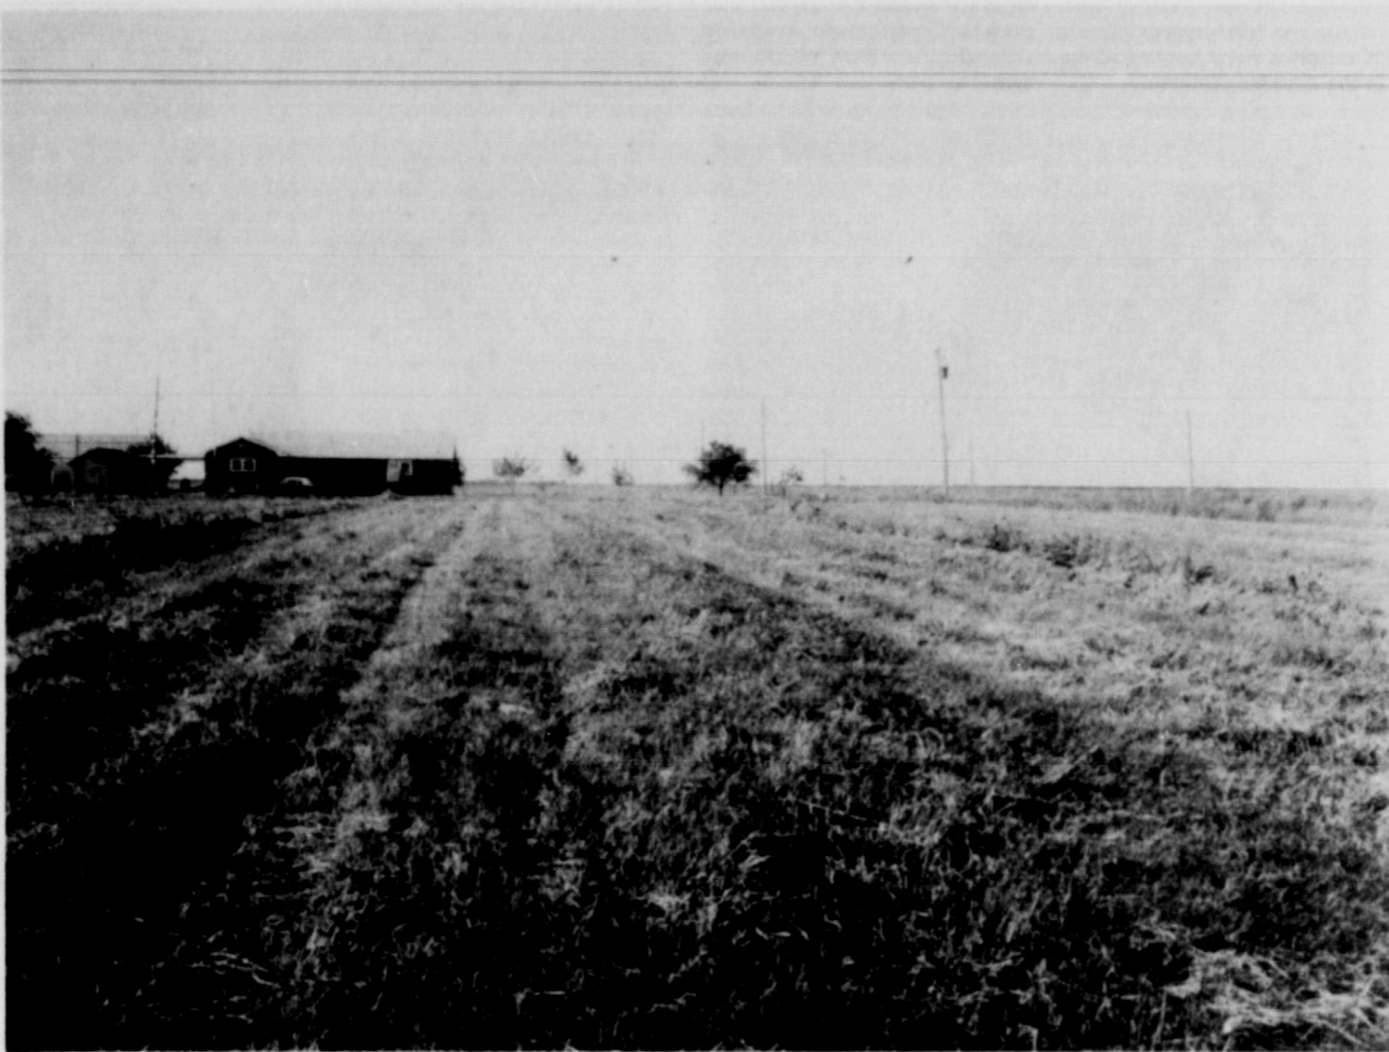

7. Must fertilize properly. Vigorous growing grasses such as Midland Bermuda grass, Switchgrass, and Indiangrass respond to fertilizers in many ways. The water requirement per ton of forage produced will be reduced about one-third on well-fertilized pastures as compared to non-fertilized. The tonnage will be much higher and the feed value will be almost doubled.

8. Must allow plants to establish before grazing. Since grass plants receive approximately 95 percent of the elements for growth taken from the air through the leaves and the elements are transported to the roots as "stored food," it is all important that the grass be allowed to keep its leaves until established in order to carry on the manufacturing process.

9. Must follow a timely and proper irrigation plan that will provide about one-third inch of water each day.

10. Must properly use the grass after it is established.

Research and experience have shown that Midland Bermuda grass should be grazed no closer than five inches, and tall

This picture was made on the Eugene Boggess farm near Friona, and shows Midland bermudagrass sprigged on May 20, 1963, in rows in 50-foot borders. Under irrigation every

10 to 14 days and with excellent weed control this pasture had a complete stand established in two months.

grasses such as Indiangrass and Switchgrass no closer than 12 inches during the growing season. Since over 80 percent of the total feed value of a grass is above the proper-use height, one only risks the disappointment in reduced yield if it is not properly used.

At Home In Parmer County

By CRICKET B. TAYLOR
County HD Agent

With Spring in the air, thoughts of the homemaker turn to something new to tempt the appetites of the family. Many have what is commonly called "spring fever," with a tired lazy, motion that needs something to put pep into that body. How about exploring new ideas for using more of those vitamin rich foods to do the job rather than taking vitamin pills? Its really much more pleasant to eat one's vitamins than take pills.

On the market now we find all kinds of greens, as spinach, mustard, kale and others that are loaded with vitamins needed for that tired feeling. Fresh strawberry yields are expected to be better than average this year and these should tempt the appetites of anyone.

I ran across this tempting recipe enclosed with recipes from the USDA Food & Home Patr. Mrs. Lyndon B. Johnson's recipe for spinach called:

Spinach Parmesan
3 lbs. of fresh spinach or thawed frozen spinach
6 T. Parmesan Cheese, (grated)
6 T. onion-minced
6 T. heavy cream
5 T. Butter melted
1/2 cup cracker crumbs

Cook spinach until tender, drain thoroughly and chop coarsely. Add cheese, onion, cream, and 4 Tablespoon of the butter. Pour into a shallow greased baking dish. Sprinkle with crumbs mixed with remaining butter. Bake 10 - 15 minutes.

A question that is often asked: Can beet sugar be used the same in cooking? There's really no chemical difference between beet and cane sugar. The two kinds of sugar may be used interchangeably in cooking.

Drugs and machines touted to cure everything from hangnail to terminal cancer keep popping up on the market and people keep buying them. False and misleading claims for vitamins, minerals, and other food supplements have led millions of Americans dosing themselves with nutritional nostrums of every description, reports the U. S. Food and Drug Administration. It is estimated this racket is costing Americans over \$500 million each year, FDA says.

One hour of farm labor today produces more than five times as much food and other crops as it did in the period from 1919-21. Crop production per acre is 70 percent higher and the output per breeding animal is 90 percent greater. Putting it another way, one farm worker now produces food, fiber and other farm commodities for himself and 28 other people.

Millinery Research Shows Need For Larger Hats

More Texas millinery buyers are purchasing larger head sizes in youthful hats for women this season.

This report comes from Rhea Merle Boyles, Extension Service clothing specialist at Texas A&M University.

Millinery industry representatives took the action after studying some recent research which emphasized the need for larger hat sizes for women customers in certain areas of the nation.

The survey showed that head sizes shape up like this:

In areas of the northern Middle West, including Wisconsin and Minnesota, the larger sizes of 22 1/2 and 23 averaged as high as 46.5 percent, while in the West, they averaged only 37 percent.

In Texas, some 24.4 percent of the women wear headsize 22 1/2, compared with the national average of 22.4 percent--and another 19.6 percent of the

Texas headsizes are 23. This compares with the national average of 16.2 percent.

Statistics on consumer head sizes were compiled by the National Millinery Planning Board, which made a survey of millinery stores throughout the United States. The research indicated that hat sizes run 40 percent in size 22--which is considered average size; another 40 percent in size 22 1/2 and 23--the larger sizes; and 20 percent in sizes 21 and 21 1/2.

After studying the research, the Millinery Planning Board followed up by mailing a message to 1,700 store presidents throughout the United States early this spring requesting their support of the current larger head size campaign. Educational programs were planned in conjunction with the campaign.

"If We Don't Have It We'll Order It"

Let's Help Keep A Texas President

For the first time in history, the President of the United States is a Texan. Party leadership in his home state will affect his own future.

President Lyndon B. Johnson must be returned to the White House in national elections this November. To carry other states, he must have unquestionable support from Democrats in Texas.

The eyes of the United States are upon Texas in its nomination of a Democratic candidate for governor. The gubernatorial nominee will most likely be called by the National Democratic Party to go into other states to campaign in behalf of the national ticket.

This means the Democratic nominee must be a man who supports President Johnson and his program--a man who would be recognized throughout the nation as an asset to the Democratic Party -- a man who is 100 per cent Democrat.

That man is Don Yarborough.

Texas needs the aggressive leadership of Don Yarborough to take the state government away from the lobbyists and return it to the people. And Lyndon Johnson needs Don Yarborough's leadership to win the confidence of the nation.

Don Yarborough is on record as a Lyndon Johnson Democrat. He has always been a Democrat. Don Yarborough has always supported the National Democratic Party and its nominees. He has endorsed President Johnson's administration.

This is not the case with John Connally. Connally would contribute toward a possible defeat for President Johnson.

Although Connally has mouthed support for President Johnson, he has deserted the Democratic Party before and who knows when he may do so again? Democrats in the other 49 states know he is antagonistic to the President's program. They know he led Democrats into the Republican Party in past national elections. They know about Connally's conspiracy with Allan Shivers this year to recruit a former Republican to try to defeat Texas' only Democratic U.S. Senator, Ralph Yarborough, in the Democratic primary.

Democrat Don Yarborough is the only candidate for governor of Texas who would help carry the nation for Lyndon Johnson's election this fall.

Political Advertisement Paid For By Parmer County Friends Of Don Yarborough

Parmer County Has District Winners In 4-H Contests

Parmer County had three district winners in the district 4-H contests held the past Saturday in Canyon. Janis Billingsley and Kathryn Gober of Farwell Country 4-H Club, won first on their "Nutritional Value of Milk" demonstration as did Gary Foster in the "Tractor Operator Contest."

The winners will be in competition at State Roundup at Texas A&M University June 2-3. All seniors from Parmer County scored either first or second in their division.

Second place winners were Dale Blackstone, Lazbuddie 4-H member, with a demonstration on "Teenage Nutrition," Judy Koelzer, also from the

Lazbuddie club, on an exhibit in the fruit and vegetable group in the Favorite Food contest and Katie Blackstone, Lazbuddie 4-H with an exhibit in the meat group of the same show.

In the junior division Melody Roberts, Farwell 4-H, won third place in the Favorite Food Show on her exhibit in the meat division. She made and exhibited a tuna salad, junior contestants are not eligible for state competition.

Others competing in the district contests Saturday were Kevin Kaltwasser and Randy Gregory, Farwell 4-H, with a demonstration on electricity, James Gulley and Randy Bush competed with their demonstra-

tion on "Soil and Water Conservation."

Winners from approximately 20 counties were in competition in the district contests.

Adult leaders in the county trained these boys and girls in their respective fields. The material was made available through the office of the extension agent.

Melody Roberts entered a tuna salad in the meats division of the Favorite Food Show to cop first place in the county 4-H Achievement Day contests and third place in the district.

Kathryn Gober, seated, and Janis Billingsley of Farwell Country 4-H Club, were named district winners in the "Nutritional Value of Milk" demonstration held in Canyon Saturday. They will represent Parmer County and the district at the State Roundup to be held at Texas A&M June 2-3.

Marketing researchers with the U. S. Department of Agriculture are trying to find out how well atomic age "pasteurization" will work in keeping fresh fruits and vegetables in better condition until they reach the dinner table. Tests are underway, using gamma rays which do not result in radioactivity in the foods.

FOOTSAVING EDUCATION

by James E. Edwards

Is It Likely That A Shoeman Would Tell Me That My Children's Shoes Still Fit?

It is good for the shoeman's business as well as for your budget and the child's foot health to keep the child in shoes that are not outgrown.

It is good foot health because shoes fit best just before they are too short.

It is good for your budget because periods of slow growth help keep shoe spending down so the money will be there when rapid growth knocks most budgets reeling.

It is good for the shoeman's business because word of mouth advertising is the best kind there is and the best word of mouth advertisers are parents who come for shoes and learn that the child's present shoes are good for another month or six weeks.

Soil Tests For Nitrogen

By W. F. Bennett
Because of the large economic importance of nitrogen in this area, it would be highly desirable to have a more specific soil test to determine nitrogen needs. A large amount of research work has been done on developing a better nitrogen test.
Several types of nitrogen tests have been used to de-

termine nitrogen needs of soils. The test that has been used for the longest period of time is the determination of organic matter. It measures the easily decomposable portion of the organic matter. This gives an indication of the nitrogen supplying power of the soil. To properly predict nitrogen needs, this test has to be related to past cropping history, past fertilizer use, soil type and yield potential. Such a test will not measure recent applications of ammonium or nitrates nitrogen.

Tests have been developed which determine the nitrification rate of soils under ideal conditions. Such tests appear to work very well under some conditions, but are of less value in areas where decomposition takes place rapidly. Our state university laboratories have found that nitrification rate tests do not predict nitrogen needs in our soils any better than the organic matter test.

The determination of nitrate nitrogen at monthly intervals at different depths would be one way to determine nitrogen needs. You can quickly see, however, that labor insampling and in laboratory work means that this method is not feasible. A single test on nitrates on a surface sample can be misleading since nitrates fluctuate in the soil. During a dry period, nitrates may accumulate to 20 to 30 pounds in the surface. Following a rain or snow, nitrates will move downward, leaving only 2 or 3 pounds or less in the surface.

Since there is no "perfect" nitrogen test, how is the best way to determine nitrogen needs? My suggestion is to rely on a laboratory with a good reputation and good background. Nitrogen recommendations based on research in the area, organic matter level, previous cropping history, etc., and made by a competent agronomist should give you best results. Give the laboratory and the agronomist all of the information you can and he can give you sounder nitrogen recommendations.

Health & Safety Tips

Diphtheria, once one of the great killers of children, is no longer a major threat in the United States. Widespread, routine immunization has greatly reduced a highly contagious epidemic disease that once killed thousands of children each winter.

But diphtheria isn't entirely gone. There still are a few hundred cases and some deaths each year, largely in the winter. These cases almost invariably occur among those who aren't properly immunized.

The first sign of diphtheria usually is a sore throat, with patches of grayish membrane formed in the throat. There usually is a slight fever. The throat swells and swallowing may be difficult. The swelling sometimes blocks air passages and causes suffocation.

The very fact that there are relatively few diphtheria cases today makes the disease even more insidious. There are fewer "carriers" spreading the germs, and thus children have less opportunity to build immunity through repeated small doses of natural exposure.

Immunization against diphtheria should start at a very early age, possibly two to three months. Physicians today routinely give the "DPT" shots to babies, immunizing against diphtheria, pertussis (whooping cough), and tetanus (lockjaw) at the same time. Another injection several months later is recommended for full protection, plus boosters every few years as the child grows.

Immunization can prevent diphtheria. Even though the disease is almost gone, enough cases still occur to make diphtheria a threat to the unimmunized, or to those whose shots are too far in the past to be effective.

Halfway Station Launches Campaign

The High Plains Research Foundation, its scope now more than doubled with the acquisition of 504 more acres, has launched a massive fund raising campaign March 1 designed to put \$2 million behind its research program for the next five years.

Foundation trustees in seven Texas counties on the High Plains will direct the month-long fund raising effort. Staff members from the Foundation's headquarters at Halfway will assist them in dozens of meetings and conferences designed to bring the Foundation success story to the people of the High Plains.

A successful drive will undergird the research program which in the past seven years has contributed much to the agricultural prosperity of the High Plains. The funds will be used to further the Foundation's fourfold purpose:

1. Increase the efficiency of production of existing crops through variety and strain testing, fertilizer usage, and cultural practices.
2. Evaluate and develop new crops that can be used to strengthen the agricultural and industrial economy of the High Plains and West Texas.
3. Conserve soil and water through the recharging of surface water and development of sound conservation practices.
4. Determine more efficient methods of soil and water management.

A list of accomplishments chalked up by the Foundation in these areas is already extensive. Acquisition of the new acreage 10 miles southwest of Halfway will enable the program to be broadened with new emphasis on cattle, grasses, and large scale demonstrations of proven laboratory methods.

The farm was purchased from J. Frank Triplett of Amarillo, Harold Hinn, Chairman of the board of trustees of the Foundation, announced the significant event at the regular semi-annual meeting of the trustees last Saturday.

With the new acreage, the Foundation will have a total of 814 acres with which to work

to put dollars into the pockets of High Plains farmers and agri-businessmen.

Dr. Earl Collister, Foundation Director, said following Hinn's announcement of the purchase. "The addition of the Triplett farm will enable us to demonstrate on a large scale many research programs which have been proven in the laboratory, small field and test plots."

"We will be able to put into operation new research in soils, crops, and cultural practices," he added. "The lake on the property will be used to further the work in lake water recharge, and research will be conducted in the area surrounding the lake to demonstrate the advantages of soil and water conservation through bench leveling and terracing."

"The Triplett farm will be set up as the best example of well-rounded diversified agriculture on the High Plains," Dr. Collister said.

Soils on the farm will enable research in land representative of that found as far south as Midland. Previous research at the Halfway farm has been limited to Pullman clay loam and Amarillo clay loam found in much of the area of the High Plains north to the Oklahoma Panhandle.

It is significant to note that the Triplett farm has already played an important part in High Plains agriculture. J. Frank Triplett said his father, L. H. Triplett, grew the first crop of grain sorghum in Texas on the farm in the early 1890's and cut the first crop of wheat on the High Plains there in 1898.

Mr. and Mrs. Triplett donated \$25,000 toward the purchase of the land by lowering the purchase price \$50,000 per acre from its estimated value. Both voiced their approval of the fact that in the future the farm will continue to play a vital role in improving the agricultural economy of the High Plains.

First pictorial representation of a wheeled cart dates from 3500 B. C. It was found in a Mesopotamian temple.

Recommendations Review For Lawns

For an attractive lawn this summer, homeowners should review and plan lawn care, reports J. Neal Pratt, area Extension agronomist with Texas A&M University.

Proper fertilization, watering and mowing are important, he says.

Fertilization should continue through the growing season, Pratt said. Start when grass begins to grow using a complete fertilizer. Pratt suggests one having equal amounts of nitrogen, phosphate and potassium for this first application. Apply at the rate of two pounds of actual nitrogen per 1,000 square feet.

During the growing season, apply nitrogen every eight to 10 weeks at the rate of one

to two pounds of nitrogen per 1,000 square feet. Pratt points out that nitrogen is the key element in turf growth. It produces the deep green color homeowners desire.

When watering the lawn, Pratt believes you should soak to a depth of six inches.

"This encourages a deep root system that will utilize plant nutrients more efficiently and be more resistant to diseases," Pratt said. "Light sprinkling produces shallow, weak root systems that encourage weed infestation and disease."

Mowing should be frequent with a small amount of plant growth removed with each cutting. Pratt recommends mowing only one inch off St. (Continued on next page)

Boll Weevil Trash Examinations Prove Weevil Survival

Final ground trash examinations to determine winter survival of the boll weevil have been completed and sufficient weevils are still alive to cause serious damage to the 1964 cotton crop according to W. L. Owen, Entomologist at the Texas Research and Extension Center, Lubbock.

weevil appeared in greatest numbers during the 1963 growing season. The study is a part of boll weevil research made possible by financial support from area compresses and oil mills and from Plains Cotton Growers, Inc. It is preparatory to a planned all-out fall spraying program to eradicate weevils from the High Plains before they become a major production hazard, as they now are in many areas of the cotton belt.

A total of 29 live weevils were discovered from examination of 182 square yards of various kinds of trash, with most being found in shiny oak which harbored 24 of the pests. Johnsongrass along a fence row yielded three weevils, and one each was found in willow leaf cover along a river bank and in other tree leaf cover.

While none of the live weevils were discovered above the Caprock, Owen explained that looking for weevils on the thousands of acres covered is like "looking for the proverbial needle," and does not necessarily mean that weevils are not living above the Cap.

Additional information relevant to weevil overwintering will be yielded soon when inspection of 148 weevil "cages" begins. The cages were placed in likely locations above and below the Caprock last fall to test the weevils' ability to withstand High Plains winters. Some 200 locally collected weevils are being studied in each cage. In early April "trap" crops of cotton will be planted to attract the first weevils to come out of hibernation and give a further indication of where he spent the winter, all of which will be valuable information in the boll weevil eradication program.

The program was decided upon by representatives from every county on the High Plains after leading entomologists who have studied weevils all over the cotton belt advised that the weevil is an ominous and very definite threat to cotton pro-

duction on the High Plains. These specialists in boll weevil migration and wintering habits have said that this threat will continue to hang over farmers' heads regardless of weevil activity in any given year unless strenuous measures are taken to stop him.

The High Plains has committed itself to taking such measures in the form of fall "diapause" control, which consists of killing the weevil with repeated sprays immediately prior to the time he goes into hibernation. While Plains Cotton Growers is spearheading and working for the project, actual control and direction is in the hands of various committees organized late in 1963 for that purpose.

Lawns--

Augustine lawns at each mowing. St. Augustine should be cut at a height of two inches and Bermuda at 1 1/2 inches.

"Lawn mowers should be sharp," he said. "The blade should cut the leaves, not shredding or crushing tips. The machine should be in good running condition and have adequate safety devices. Stones, sticks and other objects should be removed so they won't dull the blade or be thrown dangerously by power mowers."

BAG TRICKS

BARBECUE MITT—Make pattern by outlining hand on paper allowing 1 1/2" extra all the way. Cut four pieces from small cotton bags, reversing pattern for two. Use cotton batting for padding palm and back pieces. Finish wrist edges with bias tape. Place palm and back together, edges even, and bind, leaving 3" of tape at back for a loop.

Today's Fats And Oils Are The Greatest

On what basis do you select the fats and oils you use in your kitchen? Chances are that flavor, or lack of it, shortening power, and physical form were deciding factors. In other words, you bought butter or margarine for a spread, so form and flavor were important factors. Oils are used as an ingredient in salad dressings and for deep fat frying, making form and flavor important, again. Shortening and lard are used for pastries and for frying -- shortening power and form are important factors. Price, though important, may have trailed these other factors as you made your selections.

How many pounds of fats and oils do you use, per member of the family, over a year's time? The national average in 1963 was about 46 pounds per person. This included about 7

pounds of butter, 9 pounds of margarine, 6 pounds of lard, as well as shortenings, and oils. It also included foods containing fats and oils, such as mayonnaise, breads, heat-and-serve frozen french fried potatoes, and other convenient foods in which fats or oils are tucked away, largely out of sight. With all the talk of dieting, Americans continue to consume increasing amounts of fats and oils in their several forms, though the annual increases are small.

What are fats and oils? They're much alike, are made up of combinations of fatty acids and glycerine. Oils have more unsaturated fatty acids than have fats -- the reason butter is solid and cottonseed oil is liquid.

Conversations these days have a way of including un-

saturated fats. How do the various fats and oils compare in content of unsaturated fatty acids? Approximately 50 per cent of butter is of this group of fatty acids, lard, 60 to 65 per cent; cottonseed oil, 75 per cent; peanut oil, 75 to 80 per cent; corn oil, 85 per cent; soybean oil, 81 per cent; and safflower oil, 92 per cent.

What is shortening power? The ability of a fat or oil to make a food, such as pastry, breads, or cake, more tender.

Modern processing methods and know-how change the natural physical characteristic of fats and oils, making them more usable for certain uses and increasing the number of possible selections for shoppers. The shelf-life of most fats and oils has been greatly lengthened through new technology.
