Music Festival Success

Despite the weather and other conflicting events, Saturday night, the Sudan Music Festival was another big success with some 300 persons attending. Several towns were represented including Clovis, New Mexico, Littlefield, Lubbock, Pampa, Anton, Earth, Muleshoe, Guthrie and Meadow.

Bo Boyles and Philip Gordon were M.C.'s for the festival and the evening of music began with a group of young boys of Sudan playing guitars. Their instructor, Jack Dodd, accompanied them. This group included Brad Byerly, Jamie Ingle, Joe Martin and Gordon Martin.

"Last of a Kind" of Sudan, accompanied Micky Austin of Littlefield as he played the piano and sang several selections. The Sudan group, Darren Provenge, Rick Hill, Mike Hill and Scott Churchman, also sang and played several selections.

The Espanosa family of Sudan was next on the program and was accompanied by John Free of Muleshoe and also by Jim Lewis of Sudan.

Kenneth Richards on the guitar, Rey Don Stanford on the piano and Mike DeLoach on the guitar was the next group. Following this group was the High Plains Drifters of Guthrie and Mary Beth and the West Texas Travelers of Meadow.

The next Sudan festival has tentatively been set for March 25.

Press Release From George Mahon

Congressman George Mahon, having learned that his picture is being distributed throughout the district in a political advertisement issued by one of the candidates for Congress, made the following statement:

"I was shocked to learn that one of the candidates for Congress in our District had, without my knowledge or consent, placed a picture of him and me in a political advertisement. The picture implies my endorsement of his candidacy. I emphatically disavow this implication. I have not endorsed his candidacy.

"I had thought that citizens generally, and candidates in particular, knew of my often repeated statement that I would not seek to influence the people of our District in the selection of my successor. I deplore the unauthorized use of my picture and the implication which it suggests."

Notice

During the Gospel meeting this week, the Sudan Church of Christ will be holding services one hour earlier Thursday evening (tonight) at 6:30 p.m. Time Friday will be 7:30 as usual.

Arts & Crafts Asso. Meets

The Sudan Arts and Crafts Association will hold a meeting, March 7 at the Community Center, at 2:00 p.m.

An art demonstration will be given by Cara John Schuster of Muleshoe.

Hostesses will be Quinelle Pickrell, Melba Bowling and Martha Markham. Guests are welcome.

Can You Go It Alone?

More and more young people are going it alone, but still need a place to call home when the day ends. If someone were to ask you to define "homemaker" you'd probably use a phrase like, "the person who raises the kid, cleans the floors, and cooks the meals." But, did you know that a homemaker also manages the pocketbook, provides adequate nutrition, and deals with relationships? Many provide a second income, become involved in issues dealing with drug abuse, child abuse, energy conservation, home decorating and small house repairs.

Alone or not—being a homemaker is being an adult. Learning how to manage your life. Learning to give of yourself to the people you love.

So, you see, everyone is a homemaker. Get involved in your local homemaking department. It has a big roll in developing students to become responsible and well trained people in life.

For more information contact the Sudan Homemaking Department, Joan Nix, Homemaking teacher and Future Homemakers of America advisor. This message about homemaking is brought to you as a public service by Future Homemakers of America.

Farmers Union Meeting

Bailey County farmers union will hold a meeting in Muleshoe at the Courthouse in the Courtroom, March 9th, 1978, at 7:00 p.m. Terry Hill from the Bailey county ASCS Office will be speaking on the farm bill and ASCS in general.

There will be a question and answer period. Everyone is welcome to attend.

New covered garbage containers have been distributed throughout Sudan this past week. This has been a definite improvement for the community.

The city will not pick up garbage on a weekly basis after this week, February 27-March 3. The old garbage barrels that have been in use will not be emptied by the city and it was reported that the barrels will be picked up unless the residents wish to keep them. If you do wish to keep the barrel it must be within your

property line, otherwise the city will be collecting them beginning next week.

A city spokesman stated they will pick up bulky things such as tree limbs, old hot water heaters and etc. as in the past.

The dumpsters will be emptied once a week.

The city hopes to be able to begin in the near future on repairing the streets that were so badly damaged by the extreme cold weather that has been experienced

Hornettes Overpowered

The Sudan Hornettes, District 6B Champions, lost the Bi-District game Tuesday, February 28 in the Texan Dome in Levelland when Nazareth's No. 44, alone scored more than the Sudan girls in the entire game with 30.

The Hornettes fought a good fight but was just overpowered by the mighty Nazareth feds. When in the opening period of play, even the first few moments, Nazareth hit the nets for several points and at the end of that period led by 9 points.

Tracey Hill hit 2 field goals for 4; Deanna Flowers hit one field goal for 2 and 5 out of 5 free throws for a total of 8; Kelli Hargrove hit one out of 2 free shots.

Nazareth hit 10 field goals and 2 out of 3 free throws for a total of 22-Sudan, 13.

Lori Harper, Becky Byerley and Jodi Vernon had a tough job trying to do their jobs as guards but did manage to get some rebounds and steals.

Kelli Hargrove hit 1 field goal for 2 points and Deanna Flowers added 1 out of 2 free ones for a total of 3 for the Hornettes while Nazareth piled up 17 more during the 2nd quarter. They went to the dressing room at half time trailing 39-16.

Third period of play was more of the same with Nazareth stacking up 12 more points to the Hornettes 0. The local feds continued their fight to no avail but did make 9 more points when Marilyn May hit three field goals and Kelli Hargrove hit one field goal and 1 out of 2 frees, while their opponents sacked up 11 more big ones for the final win 62-25.

Deanna Flowers led in scoring for Sudan with 9; Marilyn May and Kelli Hargrove each 6 and Tracey Hill had four before she received an injury that took her out of the game.

Other team members are Ruth Withrow who saw action Tuesday night and Skokie King and Diane Gardner.

Sudan hit 9 out of 18 free shots while Nazareth hit 12 out of 15.

Coach Stephens' comment at the end of the game was "They have a fantastic team."

Fiesta '78

The Senior Class of '78 of Sudan High School was honored Thursday night in an elaborate setting at the First Baptist Church with a Mexican supper.

The fellowship hall was decorated with lanterns, brightly colored streamers and flowers and Mexican hats: a "Mexican Hombre" centered in the room taking a "Siesta" under hanging greenery. Programs were in the form of a Mexican sombrero and favors were miniature sombreros.

The meal consisted of Takeetas, enchiladas, tacos, salad, tostados, picante sauce, tea and lemon sherbert prepared by the women of the church.

Ray Don Dudgeon, gave the invocation. Rev. Truman Johnson, pastor, gave the welcome with the response by Bert Byerley. Johnson then introduced Lonnie Chaffin of Wayland University, Plainview who brought entertainment for the evening. He sang several selections accompanying himself on the piano.

Kelli Hargrove gave the Benediction.
Mrs. Biliye Doty was chairperson of the Banquet Committee.

The Triangle C.B. Club will be sponsoring the publication of a C.B. Radio directory. To be published in the directory will be your name, call letters, channels most frequently used and your handle. Plus part 95 of the 1978 FCC rules and regulations, the 10-code, the C.B. radio slang and other valuable information. This will be a local and area C.B. directory. Persons wishing to have their name printed in the directory can call Norma Burnett at 277-2024 or Carl Burnett at 227-2230.

A Night With The Dallas Cowboys

Always want to send the World Champion Dallas Cowboys a fan letter?

Why send it...deliver it in Plainview March 4.

Tickets went on sale this week for "A Night With the Dallas Cowboys," namely wide receiver Golden Richards and linebacker D.D. Lewis, who will appear at Hutchinson Physical Education Center on the Wayland Baptist College campus in a benefit for the Llano Estacado Museum.

The tickets are on sale at a variety of Plainview merchants and by mail: Llano Estacado Museum, 1901 Box 51, Plainview, Texas 79072.

Richards is that golden-haired graduate who taught a Super Bowl XII game.

Lewis, a Mississippi State graduate, is the veteran Cowboy linebacker who was a party to a couple of quarterback sacks in the 1977 Super Bowl won over the Denver Broncos.

The duo will spend the March 4 evening talking about the Cowboys world championship season, about the Super Bowl and having their pictures made with members of the audience.

They are also providing 12 autographed NFL footballs for the evening. The auction will be conducted by a well-known local auctioneer.

Raymond Akin and six will be given away as door prizes.

The evening will start with a 6:30 p.m. dinner. Tickets for this portion of the benefit will be \$8.50 for members of the sponsoring Llano Estacado Museum Association and \$10 for non-members.

At 7:30 p.m. the Hutchinson Center doors will be open for general admission ticket holders.

These general admission bleacher tickets will be \$5 for adults and \$3 for children under 12.

Following the program, Plainview master photographer Bill Weeks will be taking pictures of the audience. The cost of the photos will be \$5.

The ceremonies for the evening will be Norman Wright, vice president of the Museum Association.

Aside from being available by mail, tickets are on hand in Plainview at City National Bank, First National Bank, Hale County State Bank, Cleveland Athletics, Frontier Savings Association, Gabriel's, Mars and Son, True Value Hardware, Llano Estacado Museum, and Briercroft Savings and Loan in Lubbock.

All proceeds of the evening-ticket sales, photo sales and the auction will go to the museum, a non-profit organization.

America, an organization which both legislators helped form in 1974.

The first phase of the FOR program will be a 6 month survey of a cross section of the American public to try to determine areas of government regulation which are most in need of improvement. The FOR program is being financed through contributions from private organizations throughout the nation.

"There has to be government regulation," Mahon said. "But too much regulation results in chaos," he added. "There is really no sense of direction as to what must be done to correct the overall system. This will be the purpose of FOR," he said.

The Texas State Teachers Association is joining with other education related organizations and local Masonic bodies throughout the state in urging teachers, students, and the general public to participate together in the 28th annual observance of Texas Public Schools Week, March 6 through 10.

TSTA President Carolyn Harrell of Gonzales is calling on local associations and members to participate in the statewide observance in this 124th year of free public school education in Texas.

Gov. Dolph Briscoe recently signed a proclamation designating March 6-10 as Texas Public Schools Week and urging citizens to participate in local observances of the special week. The State Board of Education issued a similar resolution at its January meeting.

In most of the approximately 1,100 public school districts in the state the first full calendar week in March is set aside each year to give Texas citizens a special invitation to visit their schools.

Many school buildings will participate with open houses, classroom displays and special exhibits of student's work.

The first woman to fly solo from England to Australia was Amy Johnson in 1930.

Program Launched

Representative George Mahon and several Congressional colleagues on January 25th launched a two year program established for the purpose of cutting down on federal regulation and improving the federal regulatory program. At a press conference in the Senate, Mahon and Senator Carl Curtis of Nebraska introduced the program entitled Forum On Regulation (FOR). GA's Attend Banquet

The Sudan GA's attended the Associational Girls in Action Banquet, February 23, 1978. The banquet was held in the Dimmitt First Baptist Church Fellowship Hall. Mrs. Sydney Chadwick of Farwell presented the program. The Dimmitt GA's assisted Mrs. Chadwick with a Spring Dress Revue, giving some ideas on new fashions for camp.

Our menu consisted of Bar-B-Que on a Bun, chips, pickles, tea, brownies and ice cream.

Those attending were Kimberly Powell, Sherrie Powell, Cathy Powell, Machele Burns, Stephanie Bickett, Monica Bond, Sharla Harrison, Danette Provence and Shawni DeLoach. Providing transportation was Mrs. Lynette Burns and Patty Miller. A good time was enjoyed by all.

Public School Week

"We want parents and other interested citizens to see first-hand the problems, challenges, and accomplishments of Texas schools, students, and teachers," Mrs. Harrell said. "We want them to know Texas educators care about their children and need parental support in the vital work of teaching young people."

Stay Slim Meals

Restaurants offer "stay slim" meals when their menus follow a "no-fat" rule-of-thumb and eat according to the Daily Food Guide, advises Frances Reasonover, a food and nutrition specialist.

The guide recommends eating foods from the four Food Groups every day. Groups are milk, meat, fruit-vegetables, and bread-

grains. Reasonover is with the Texas Agricultural Extension Service, the Texas A&M University System.

include these, the secret is to eat only the recommended amounts of each and focus on low-calorie items.

As a general guide for amounts, adults should drink two or more cups of milk and eat two servings of meat, four servings of fruits and vegetables, and four or five servings of breads and cereals every day.

A "no-fat" rule-of-thumb includes several "stay slim" ideas:

*Ask that vegetables be trimmed from chops, steaks, chicken of turkey and request that meat be

Alton Wimberley and Verna Bass were united in marriage Wednesday, February 15th 1978. The double ring ceremony performed by Art Lynch was held in the Lynch's home. Others attending were the groom's mother, Mrs. H.O. Wimberley, Verna's two children, Fred and Vera Bass, and Judy Lynch.

The Wimberley's spent two days in Lubbock and then went to Roswell, N.M. to visit Verna's mother, Mrs. Lydia Montgomery. They will make their home in Anton until school is out.

ASU Takes Win

Four students from A.S.U. and their coach attended the 72nd National Western Stock Show in Denver, Colorado. They returned with reserve champion honors in the wool judging division. Other wins by various team members was a fifth high individual in the grading of fleeces and a fifth and tenth high individual in the overall contest.

Brian May, son of Mr. and Mrs. Harold May of Sudan and a sophomore won both the fifth high individual and the fifth place in the fleece grading. Ronald Gill a junior of Ft. Huachuca received the tenth high placing. The other two members of the team were Dean Eckert, a sophomore from Mason and Jim Skehan a junior from Comstock. The team's coach is Dr. Gil Engdahl, Animal Science instructor at A.S.U. This is Angelo State's second year to have a wool judging team and it is also the second time that the team has won a reserve champion placing at the National Western. The team had a total score of 1,876 points. The score was just three points out of the Grand Champion slot.

Grand Champion of the contest went to two universities: Texas A&M and Kansas State captured top honors in the contest; as a result of a tie.

Make The Switch!

Mr. Farmer:

- Wouldn't you switch from dry to liquid fertilizer if:
1. The cost per acre were the same
 2. Your chemical could be added and applied at no extra cost
 3. You could have your fertilizer/chemical applied with much more precision
 4. The liquid you applied was already ready for the plant to use and not waiting to be dissolved

The season is short and this is the year to save expenses wherever possible. Let us save you your money and time by applying both liquid fertilizer and chemical in one trip over the field. Call or come see Ricky Burk at:

Most models have locking mechanisms that prevent removing the cover when the motor is running. But Consumer Reports magazine says this safety feature easily could be disengaged with a pencil or a fork on some types. Then the food processor could be run with the sharp blades exposed.

---Microwave ovens: These conveniences have generated their own share of modern legends. The tale of the children who accidentally roasted their pet cat probably is fictitious. But it makes a good point. Putting anything in a microwave oven that is not supposed to go in there can have serious consequences. The manufacturer's instructions do not cover cats but they do mention many kinds of dishes and other objects that could cause damage to the objects or oven. A damaged microwave oven can leak

excessive radiation and should be checked at a qualified repair facility. Controversy is continuing about the safety of radiation emitted even by microwave ovens that are working properly. Since some people are worried about the amount of radiation any microwave oven leaks, it is more important than ever to make sure doors, seals, locks and other protective features are in good shape and maintained according to manufacturers' instructions.

Just because hard objects in garbage disposals, wet floors, electrical shocks from appliances and other common problems are not detailed in this list, it does not mean they do not happen. Even though the kitchen is a familiar area, people need to use common sense at all times and avoid potential dangers.

Members of the choir spent the night in the homes of Mr. and Mrs. C.G. Damron, Mr. and Mrs. B.A. Beauchamp, Jr., Mr. and Mrs. O.E. Duncan, Mr. and Mrs. Hugh Gore, Mr. and Mrs. Raymond Gage, Rev. and Mrs. Doug Gardner and Mr. and Mrs. Marvin Bowling.

Air Force Graduation

The Community College of the Air Force (CCAF) awarded 535 Associate in Applied Science (AAS) degrees to enlisted personnel in its Winter 1978 Class. Graduation ceremonies were held worldwide, January 24, 1978.

Colonel Lyle D. Kaapke, CCAF president, was the guest speaker at graduation ceremonies at Offutt AFB, Nebraska, and Sheppard AFB, Texas. Historically, these two bases lead their commands in number of CCAF graduates.

The students who have completed their CCAF programs received their AAS degrees in 74 job-related programs. They represent 23 major commands and separate operating agencies and are stationed at 125 different duty locations.

Air Force instructors capitalized on their teaching experience and training to earn 43 AAS degrees in the Instructor in Technology program. The next four programs with the largest number of graduates are Resource Management Technology, 38; Radio Communications Technology, 31; Aircraft General Flight Line Maintenance, 26; and Work Center Management, 25.

CCAF has awarded 1,902 degrees since April 1977.

Conveniences Cause Kitchen Crises

As a rule of thumb, watch your fingers when you are in the kitchen. But you need to watch out for a lot more than the gadgets that can grind or chop finers, the Texas Medical Association says. The kitchen can be one of the most dangerous places in the house.

Many people contend that you may die of boredom doing kitchen chores. But the following safety checklist shows that many things pose more real and serious hazards than dull work.

---Knives: The story is becoming almost legendary about the Texas woman who put knives points up in her front-loading dishwasher and then accidentally fell onto them. There are lots of other ways knives can cut more than cabbage in the kitchen. Gesturing with a knife in close quarters, dropping it on your foot or finding the wrong end of a knife while fishing for it in a cluttered drawer makes good a point for the need for knife safety.

---Food processors: People still are discovering uses for these multi-purpose appliances that were one of the hottest selling items at Christmas. Hopefully they will not discover that injuries may occur if the cover on many models is removed while the blades are still whirling after the motor has been cut off.

built to save

The key to saving IS INSIDE . . .

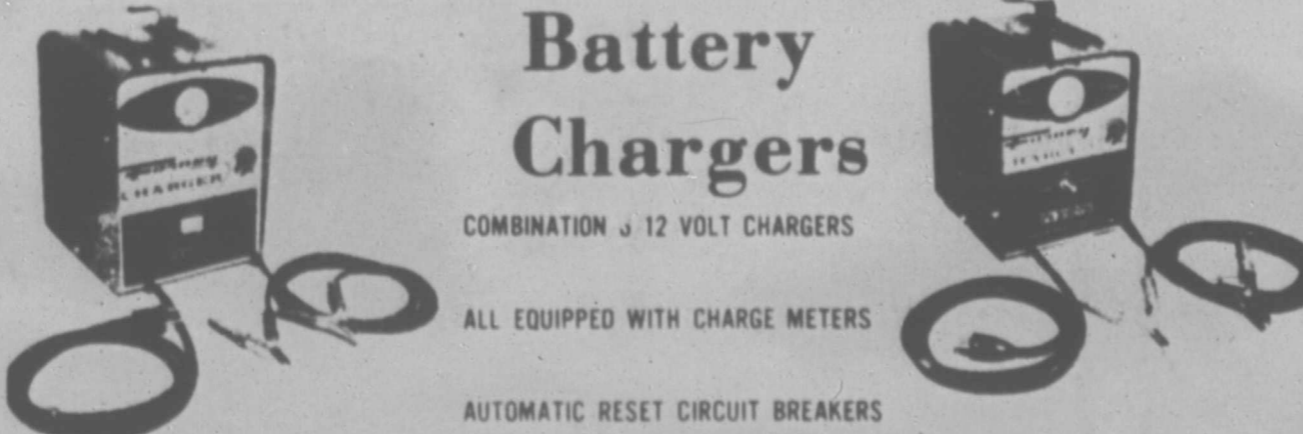

- THE WALLS AND CEILINGS**
The outside walls of the ENERGY EFFICIENT HOME meet standards according to three options. The first option uses 6 inch studs with 6 inch batt-type R-19 insulation. Other options have 4 inch studs and 3 inch insulation R-11 with 3/4 inch foam sheathing. The third option uses R-15 mineral wool insulation with any other method. All options include a vapor barrier and polyethylene or foil backed sheetrock. Sealing of caulking between the bottom plate and the floor joists is required. The ceiling is insulated with R-30.
- THE DOORS AND WINDOWS**
Outside doors and all windows of the ENERGY EFFICIENT HOME are weather striped and caulked. The ENERGY EFFICIENT HOME has storm windows and insulated core doors. They are vital contributors to the dollar value built to save ENERGY EFFICIENT HOME. A recommendation is 40% multi-pane glass area comprise 8% or less of floor space.
- THE FLOORS**
The very foundation of the ENERGY EFFICIENT HOME floor is an important factor in saving energy. The floor joists contain vermiculite in the cavity between joists and up to the top of the floor. An alternate is a layer of rigid polystyrene or styrofoam (minimum of 3/4 inch thickness) from joist to joist along the outside edge of the slab down to the top edge. Wood floors (per and beam) must be insulated with R-19.

When you're planning to buy or build a new home, you start by taking a really good look inside. Because the key to comfort and saving is INSIDE. INSIDE the walls, in the doors and windows, under the floor and in the ceiling. SO PEAK INSIDE THE ENERGY EFFICIENT HOME — really INSIDE. You can see that it's BUILT TO SAVE — Energy and Money.

SPECIAL ACTIVITIES HIGHLIGHT ANIMAL AG CONFERENCE-The annual Texas Animal Agriculture Conference will be held at the Rudder Center on the Texas A&M University campus, April 3-4, and several additional features have been added this year.

The conference attracts large numbers of livestock industry groups to A&M for its short courses dealing with beef cattle, dairy cattle, horses and swine, as well as programs on range, pastures and forage production.

The various short courses will be keyed to increasing producer profits with a variety of subjects included in the individual short courses. Held in conjunction with the conference will be the dedication of the new Robert J. Kleberg Animal and Food Sciences Center at 4 p.m. April 3 at A&M's West Campus.

Details on each of the short courses to be conducted during the conference are available at the county Extension office. FASTER SOIL TESTING SERVICE-Lamb County farmers, ranchers and homeowners can now expect faster service in having soil, water and plant samples tested.

The Soil, Water and Plant Testing Laboratory operated by the Texas Agricultural Extension Service at Texas A&M University is now set up to provide more efficient service due to recently expanded facilities.

Since fertilizer supplies are currently good and prices are reasonable, producers need to determine their fertilizer needs by soil testing. Then they should arrange for the amount of fertilizer needed.

Setting up the demonstration ponds first involved removing undesirable fish with ether anhydrous ammonia or rotenone. After stocking ponds, a commercial catfish feed was supplied on a daily basis. Floating feed allows the farm pond owner to actually observe his fish and to better control the amount of feed consumed.

Information on submitting soil, water or plant tissue samples for testing is available at any county Extension office. CASHING IN ON CATFISH-Texas farmers and ranchers have been raising catfish for a long time, but now there's an opportunity to grow them for profit.

An intensive demonstration program by the Texas Agricultural Extension Service is helping small producers to learn how they can better use small farm ponds to cash in on catfish.

Most farm ponds are vastly underused when it comes to fish production for food and recreation. Under natural or unmanaged conditions most ponds will produce 35 to 100 pounds of fish per acre. However, with proper management, these ponds can produce 300 to 1,000 demonstration ponds.

Proper management has been the major emphasis in this demonstration program, and field days have been held in a number of locations to stimulate additional interest. To date, the demonstration ponds that have been harvested have averaged 2 surface acres in size. These were stocked with 116 fish that produced 121 pounds of fish at a cost of 45 cents per pond. And the average value of Sudan Texas live fish ponds is \$1.09. So producers have been able to double their money.

A benefit for the Llano Estacado Museum will bring a little 'Cowboymania' to Plainview Saturday, March 4, when Dallas standouts D.D. Lewis and Golden Richards will be the featured attraction for the event at the Hutchinson Physical Education Center.

Museum officials are hoping for a full house of some 3,500 persons including those who attend the dinner which starts at 8:30 p.m. Cost for the dinner and program is \$8.50 for Museum Association members and \$10 for nonmembers.

Those not attending the dinner will be admitted at 7:30 p.m. for the program. Tickets will be \$5 for adults and \$3 for children under 12. Also, the two players will be available to have their pictures made with any fan at a cost of \$5 for a 5 by 7 color photo.

All area high school athletes have been invited to attend with letters about the benefit sent to the head football coach at each school. Poster contests among younger students has spurred further interest in the program which will benefit one of the state's finest museums, located on the campus of Wayland Baptist College.

Q. I feel that what's mine is my husband's and what's his is mine and I live in a community property state as well. How would this affect death proceeds on life insurance? A. In the eight community property states, generally what's his is half yours and vice-versa, from a legal standpoint. For example, insurance policies on the life of a husband or wife are generally considered to be community property. This means that only half of the proceeds will be subject to the estate tax upon the death of the insured. In all other states, however, all the proceeds will be in the insured owner's estate for estate tax purposes.

Though only 6-1, 215, Lewis is one of the toughest linebackers in the game. The 83 year old graduate of Mississippi State has completed nine years with the Cowboys and has played in three Super Bowls. He recovered a fumble in Dallas' 27-10 world championship victory over Denver in New Orleans. He's a key leader in the Cowboys' Domsday II defense.

Richards caught a 27 yard touchdown pass from Robert Newhouse for the final Dallas TD. He's a 27 year old native of Salt Lake City who played for the University of Hawaii and has completed five years with Dallas. In regular season, he caught 17 passes for 225 yards and three touchdowns.

Tickets may be purchased in advance by writing to the Llano Estacado Museum at Wayland Baptist College and they also will be available at the door the night of the benefit.

The first bird known to have flown across the Atlantic was a common tern that was marked in Maine and found dead at the mouth of the Niger River in Africa.
