Agent Finds Insect Damage Still Light Here

The first three weeks of July, County Agent Homer Thompson visitied 171 cotton fields checking insect damage. He drove 1132 miles n this same period. The agent has had many requests for cotton field checks for insects made by the farmers. The Agent has not been able to get to all the farmers who have made requests, but 90 percent of the requests have been complied

The insect situation has not becan erious since early thrips damage began. Fourteen fields have light fleahopper damage. Six fields showed heavy damage on older cotton. Especially where recently irrigated and where very few older squares had developed. Bollworms are ap-pearing in nearly all fields but had not reached even the light dam age stage.. Only 6 fields checked or boll worm were in the light lamage stage, that is, four to six mall boll worms per 100 cotton talks and here treatment was reommended

The most serious damage obsered generally in all fields was baerial blight.. There is no practial control for this disease except ant cotton varieties which are hly tolerant to this disease. Most fields show about 5 to 10

Only one field showed as much 50 percent damage ..

both Chevrolets!

To the eye, the new Corvette and the new Chevrolet are far different. But these two champions have one superb quality in common-both were born to cling to the road as though they were part of it!

Chevrolet's astonishing roadability is a big reason why it's America's short track stock car racing champion. It can and does out-run and out-handle cars with 100 more horsepower. When you wed rocksolid stability to superb engines such as the 225-h.p. V8 that flashed the Corvette to a new American sports car record-then you get a real championship combination. JUDGE ALTON B. CHAPMAN

FLOYD COUNTY FOR ASSOCIATE JUSTICE **COURT OF CIVIL APPEALS**

"We can do nothing but predict a victory for Judge Chapman in his race for Associate Justice. Judge Chapman is as able and deserving a Christian man as we have ever known. With the Courts of our land in hands as devoted and capable as the hands of Judge Chapman, American Justice in both criminal and civil courts will continue to be a lighthouse throughout the world."

The above quote was taken from the July 16th issue of the Texas Spur, a newspaper in the town where Judge Chapman finished high school, where he served as County and District Attorney and for the last 19 years as District Judge.

His record on appeals, when the cases he has tried and disposed of are compared to the cases reversed, is better than 98 percent perfect.

one of the leaders of the House of Representatives and is a member of all top Committees of the House. He knows

He is not the candidate of any person, group or organization, but constantly works for the overall good of the people of his district and the State of Texas.

He is a life-long Democrate and has always supported the Democratic party, sincerely believing that the Democratic party is best for the people of Texas.

LET'S TAKE A LOOK AT THE RECORD

EDUCATION: He has been a real friend of education. He was co-author of Teachers Pay raise bill in special session in 1954; helped to pass the teachers' pension constitutional resolution and is advocating its approval by the people this fall; author of bill which created Commission on Higher Education; sponsored committee amendment to general appropriations bill which placed our Junior Colleges on sound financial base; voted for increased appropriations for our Senior Colleges and Universities which has enabled them to meet constantly increasing enrollments; voted for increased appropriations for our penal system which has made it one of the best penal systems in the country and which has made it 75 per cent self-sustaining.

BUSINESS AND GENERAL LEGISLATION: Author of Committee bill which regulates retail sales at below cost, which has been of great help to small independent merchants. Co-author of Small Claims Court Law which has been very helpful to business men on the collection of small accounts; co-author of new probate code; co-author of Parks Improvement law; co-author of new partnership law; co-author of law giving equal treatment to Korean War Veterans; voted for increased funds for Highways and farm-to-market roads

CLEAN GOVERNMENT: Mr. Gillham was the co-author of the House resolution which created the House Investigating Committee which has made a through investigation of the Veterans Land Scandals and the Insurance Scandals. He also sponsored a bill which completely reorganized the Veterans' Land Board. He also voted to submit to the people a constitutional amendment this fall which will give the Veterans' Land Board an additional sum to lend to veterans. He believes that the many thousands of veterans who have not yet had the opportunity to participate in the program should have that opportunity, for he believes the program is sound if properly administered. He was the co-author also of HB240 which passed in the House but was killed by the Senate. This bill would have saved U. S. Trust & Guaranty Co. investors more than one million dollars.

WATER AND CONSERVATION: Mr. Gillham has been a member of the Conservation and Reclamation Committee of the House which handles all water legislation. He has actively supported water conservation legislation, but has been constantly alert to the protection of the rights of his people on the high plains. He killed in the house the constitutional amendment resolution which would have imposed an ad valorem tax of 3c per \$100.00 valuation, on all the real estate and personal property of every Texas citizen. Mr. Gillham argued that it was unfair to place a tax upon those who would never benefit from dams on our rivers, from which we could never get a drop of water. After a hard fight, the House turned down the proposition by a three-to-one vote.

TAXES: Believing in a balanced budget, Mr. Gillham insisted on appropriations being met by sufficient taxes. He also believes in fair and equal taxes, therefore voted to raise beer taxes from 37%c per barrel to \$3.35 per barrel; voted against 2c gasoline tax; voted for two increases in corporation franchise taxes even though these directly affected him. Voted twice against a general sales tax and a state in-
