And the other day, when de-bating a proposal to establish im-port quotas, in order to protect e vital American industries and their employees from total destruction, several Congressmen had very pointed remarks to make on the subject.

The State Dept. sent a letter to the House Ways and Means

State Dept. made this statement, "the bills would permit the imposition of quotas notwithstanding any international agree-ment relating to tariffs or frade entered into by the United States, or to be entered into hereafter.
