

Bob Jamieson Is Lucky Winner of Five Prescriptions

Bob Jamieson was the lucky winner of five prescriptions pulled from the box at Morton Drug Store.

ceive free all new prescriptions he has filled at the Morton Drug Store for the balance of 1956. Charles Jones, druggist, has been placing the names of all persons having new prescriptions filled at the drug store in a box for the April 1 drawing. And Jamieson, who is associated with the Citrus Service plant south of here, turned up the winner.

A Bit of Industry Magic - 6500% Increase in Sales

Cullman did it in cigarette field. Men Who Make America Great. Youngest president in his industry.

JOSEPH E. CULLMAN, 3rd

The business of tobacco is one of the toughest, most competitive in the world. From the moment the auctioneer begins his chant until you light up, the men who sell tobacco never get off their toes. In this free-for-all, with millions spent in advertising and promotion, any surge upward on a sales chart is hailed with loud bombasts.

So what happens when into this maelstrom of competition a man suddenly appears who in a single year increases sales of one of his cigarette brands over 65 times—and captures 30% of the cigarette box market?

To tobacco men this is akin to Moses splitting the river Jordan in two. This is magic.

Born into tobacco

This marketing magic was performed by 46-year-old Joe Cullman, 3rd, the youngest president in the tobacco industry. He heads the Philip Morris Company, makers of Marlboro, Parliament, Spud and Benson & Hedges, smokes as well as other tobaccos.

He is an athletic, wiry man whose love of outdoor sports, hunting and fishing, has influenced his firm's advertising and made tattoos popular once more.

Cullman didn't "get" into tobacco; he was born into it. The third generation of a tobacco family, he likes to be known as "The 3rd" because there are two other Joes in the Cullman entourage. His uncle, Howard, heads the Port of New York Authority and the American Exhibition at the Brussels Fair.

At Yale (Class of '35) Cullman wrestled and played football. During the last war, he spent four years as gunnery officer aboard the cruiser Montpelier, emerging at war's end with the braid of a commander.

It is no accident therefore that a tattooed anchor on a muscular arm is a Cullman "trademark".

When he first went to work in the family trade he scorned a white collar job in favor of a laborer's stint in a Havana cigar factory.

Was a travelling salesman

Later, he hit the road as a "cigar salesman" traveling across the country, talking to jobbers and tobacco retailers. Cullman, therefore, knows the business—the bottom to the top

profit, it is very important to take every step to make living conditions in the brooder as ideal as possible, advises Ben Wermell, extension poultry husbandman.

"The first step is to buy high-quality chicks from a reputable hatchery," Wermell said. "Store the brooder set up and regulated when they arrive and you're off to a good start."

The brooder, all watering and feeding utensils, and the inside walls of the house should have been cleaned and scrubbed with a solution that will kill external parasites, he explained. The brooder thermostat should be cleaned and adjusted so it will operate within a three-to-five degree range. About 10 square inches of floor space per chick should be allowed under the brooder and the temperature should be set according to the brooder manufacturer's recommendations.

Wermell pointed out that food and water should be easily available to the chicks. One inch of feeder space per chick and a broad-based fountain of water for 100 chicks is sufficient. The lip of the feeder should be no more than two inches above the floor and for the first week or so they should be kept full so the chicks can eat easily.

FFA & 4-H Tractor School This Week

April 9th and 10th—that's next Thursday and Friday, the County Barn at the County Park will be the scene of a Tractor Care and Safety School that will be considerably more interesting for area 4-H and FFA boys and their dads, than some of the tractor schools held recently.

The reason for that is more planning has gone into this one—it's not just a county-wide school. It will feature, in addition to locally donated tractors from the County's

implement firms, an engineer from Humble Oil and Refining Co., and also an engineer from the Extension Service office.

All adult leaders as well as the 4-H boys themselves are invited to the two day confab. The County Agent advises that considerable expense is going into the program and he hopes the results will be well worth it.

Four county's are being invited to send leaders to the school hosted by Cochran County. It is not usually a mechanic's school, but a Tractor Care and Safety School. The Thursday session will be at 9:30 a.m. next Thursday, April 9, and will conclude at 2:30 p.m. on Friday April 10.

"We sincerely hope all of those who are in need of such training—and most farmers are—will attend this school," the County Agent said. He did not know what engineers would be here to guide the school.

4-H DAIRY FOODS CONTEST

The annual 4-H Dairy Foods Contest demonstration contests will be Saturday, April 18, beginning at 9:30 a.m. The girls will compete according to age and they may have individual or team demonstrations.

The vegetable team and poultry team demonstrators will also be given on the 18th. Girls having garden or poultry as their club projects should be interested in these contests.

Mrs. Lady Clare Phillips, Lamb County Home Demonstration Agent will help judge the contests.

Winners in the Senior division, age 14 and over, will compete in the district contest at Lubbock, on May 1.

GOOD BROODER MANAGEMENT ESSENTIAL, AUTHORITY SAYS

The first week after hatching is the most critical time in a chick's life. Since dead chicks return no profit, it is very important to take every step to make living conditions in the brooder as ideal as possible, advises Ben Wermell, extension poultry husbandman.

"The first step is to buy high-quality chicks from a reputable hatchery," Wermell said. "Store the brooder set up and regulated when they arrive and you're off to a good start."

The brooder, all watering and feeding utensils, and the inside walls of the house should have been cleaned and scrubbed with a solution that will kill external parasites, he explained. The brooder thermostat should be cleaned and adjusted so it will operate within a three-to-five degree range. About 10 square inches of floor space per chick should be allowed under the brooder and the temperature should be set according to the brooder manufacturer's recommendations.

Wermell pointed out that food and water should be easily available to the chicks. One inch of feeder space per chick and a broad-based fountain of water for 100 chicks is sufficient. The lip of the feeder should be no more than two inches above the floor and for the first week or so they should be kept full so the chicks can eat easily.

4-H Riflemen Set Monday, Friday Apr. 6, 10 Meetings

A 4-H Rifle meeting will be held tomorrow afternoon (Monday, Apr. 6) at the school, it was announced by County Agent Homer Thompson.

The rifle sessions are just now getting started for another year in Cochran County and the 4-H Rifle Safety program has been one of the most successful 4-H programs carried on in this county in the past several years. Ken Coffman and Ralph Cadlow will again be adult leaders and will be assisted by Charles Compton.

The shooting will take place at a different caliche pit, it was pointed out — this one located about 25 miles from Morton. Here are the Agent's instructions for getting to it:

Go the Morton - Plains Highway and follow it to the point where it intersects with what is known as the Sundown cutoff. That is approximately 18 miles south of Morton, or about 4 or 5 miles below the gasoline plant. The caliche pit to be used is 3 miles east on the cutoff, just off the road a short ways.

Another Rifle Session will follow on Friday, April 10th.

NEW MANAGER FOR MORTON OFFICE OF WOOD CHEMICAL CO.

Wood Chemical Company has a new manager of its Morton office, it was announced this past week. Bill Hipp has taken over as local representative of the company.

Don Korney, who has been manager for the past two seasons, has been transferred to Littlefield.

YOU'RE INVITED TO SEE OUR NEW COLLECTION OF Hallmark Cards FOR EVERY OCCASION

29 again? BIRTHDAYS
For everyone you know Hallmark Birthday Cards in beautiful, humorous, or modern designs for every age, every taste.

WEDDINGS
Our Hallmark Cards to congratulate the bride and groom say "you care enough to send the very best." We also have special cards for engaged couples.

ANNIVERSARIES
Whether it's their first anniversary or their fiftieth, you'll find a Hallmark Anniversary Card that's just right! Choose yours today from our wide selection.

CONGRATULATIONS
In our new collection you'll find special Hallmark Cards to say "Congratulations" for a new baby, a new job—or any special occasion.

GET-WELL
Hallmark Get-Well Cards are the perfect way to send a smile to someone "sick." Come in and select yours today!

FRIENDSHIP
Keep friendships bright with a Hallmark Card "just to say hello." Your friends will appreciate your thoughtfulness.

And throughout the year, see our displays of Hallmark Cards for special occasions such as Christmas, Valentine's, St. Patrick's Day, Easter, Mother's Day, Father's Day, Graduation, Halloween, Thanksgiving, and New Year's.

You'll enjoy shopping for your Hallmark Greeting Cards in the pleasant atmosphere of our new card department, where there are always friendly people, ready to help you. And you'll like the convenient, easy-to-see displays of lovely Hallmark Cards—the cards that tell your friends "you care enough to send the very best." We're looking forward to your visit.

The Traffic Safety Committee reported that winners in safety driving for the months of January, February, and March had been notified, and their names would be revealed later.

Mrs. Doss appointed Mrs. Jerry Barton to complete the press book for the year. Club members voted to set another date to tour the Tech Museum with their husbands. Due to conflicting activities, the tour, which was originally scheduled for March 5, was called off.

The president reminded members that they are to be honored at an informal coffee given by the Young Matron's Junior Study Club on April 9, in the home of Mrs. Ray Turner, Jr.

The club was very pleased to have as their guests a group of Morton Junior and Senior High School girls from the Future Nurses Club. Mrs. Tom Rowden was in charge of the program for the night, titled "Need for More Nurses". She introduced Mrs. Jean Brooks, a student nurse teacher, and Miss Ivera Hale, a student nurse. Both ladies were from Lubbock and connected with the Methodist Memorial Hospital. Mrs. Brooks pointed out that their wasn't a great preference for nursing as a career due to the pay, but there was a great personal satisfaction received from the job. Miss Hale, who gave a short history on "Where, When and How to Become a Nurse", stated that it costs approximately \$700 to go through school. The average pay is \$300 a month and you are expected to work 44 hours a week. The program, and also the question and answer session which followed, proved to be most interesting and was enjoyed by all.

Refreshments were served to the following guests: Mrs. Brown, and Misses Doris Ann Hefflin, Patricia Davenport, Brenda Brotherton, Peggy Patterson, Barbara Elliott, Paula Burnett, Darla Brotherton, Peggy Willoughby, Bernice Fincher, and Sherry Grantham. Members attending were Messdames John Barnes, Jerry Barton, Doss, Drennan, T. A. Rowland, Van Greene, Tommy Hans, Eddie Irwin, C. D. Knott, Tom Rowden, B. Vanlandingham, Williamson, E. O. Willingham and James McClure.

Hoffman Welding Changes Hands

Mike Walden, a resident here since 1931, announced this week the purchase of Hoffman's Welding Shop on North Main, Morton.

In making the announcement, Walden said he would continue to offer area residents the best in welding and repairs. The name of the plant will be changed to Morton Welding and Repair.

Hoffman sold the plant on the advice of his physician, and plans to move to his farm as quickly as possible.

He cordially invites his customers to continue to look to the shop for their welding and repair needs. Walden has been associated with the county, in its repair shop as shop manager and repairman since 1946. Prior to that he was with the U. S. Army for three years, serving in World War II.

He and Mrs. Walden have two daughters, Patsy Ann, and Reva Carol. They are members of the Church of Christ.

His mother, Mrs. Sallie Walden, resides here in Morton.

Walden invites area folks to bring their welding needs to his shop.

Deadline for Registration at Camp Fire Camp

Camp date for Morton Camp Fire girls will be the week of June 22, it was announced here last week.

Eligible for the camp are Camp Fire Girls, Horizon Girls, and Blue Birds who will be in the fourth grade next year.

Approximate cost to each girl will be \$12.00. The camp will be at Scott Able at Cloudercroft, N. M. Applications must be in by the time school is completed this term. Entry blanks will be available through leaders.

To Speak Here Twice Today

Evangelist Weed of Lubbock will conduct the morning and evening services Sunday at the Morton Assembly of God Church, Rev. H. T. Clarke, pastor, announced this week.

Special music has been scheduled. The public is invited to attend either or both services.

Corner on Cotton

BY BOB COLLINS

Like to have some more cotton acreage free? Maybe you can get it, even if you select Choice "A" in the new farm bill and there are no strings attached. It depends upon what's happening in your county to the acreage reserve of the soil bank. Unless there are some changes next year, there won't be a reserve and some cotton acreage that was in the reserve may be abandoned. . . . the acreage should be released to the county Agriculture Stabilization & Conservation (ASC) committee for reallocation but chances are this isn't being done. . . . check now with your ASC committee and try to track down acreage that is being abandoned - it could mean lots more cotton acreage for your county, acreage that will be lost to cotton otherwise.

Production Meet

A belt-wide cotton production meeting is slated for December 17-18 at Houston, Texas. . . . sponsored by the National Cotton Council, the meeting will concern itself with "growing cotton for profit and markets" could prove profitable to anybody who attends.

Cotton Untasty?

Research is underway to find out what the boll weevil likes in a cotton plant. . . . hopes are that a plant can be developed that the pest will find untasty. . . . think what it would mean if suddenly there were no boll weevil problem!!! You could save up to 10 cents a pound by not having to fight them.

More About Farm Bill

The U. S. Department of Agriculture gives you until March 16, 1959, to make up your mind as to which way you'll go on Choice "A" or "B" cotton. . . . of course many of you will have to make up your mind very soon because of tenant-owner agreements. . . . the legislation continues to be misunderstood in the cotton belt. . . . be certain to talk it over with some well-informed folks before leaning either way. . . . especially talk about price possibilities. . . . of course, nobody knows for sure, but there are several hidden angles that could change your whole picture.

Mills stretchout

Some textile mills are giving longer holidays and stretching out the cotton operations as much as possible. . . . reason is they feel that the '59 crop is going to be available at prices more competitive with man-made fibers. . . . seems reasonable for them to take steps to enter the '59 season with as low an inventory as possible. . . . this combination of a more competitive price and low inventories should lead to a healthier and freer market.

Mystery Force Rips Path Through Blanco Trees

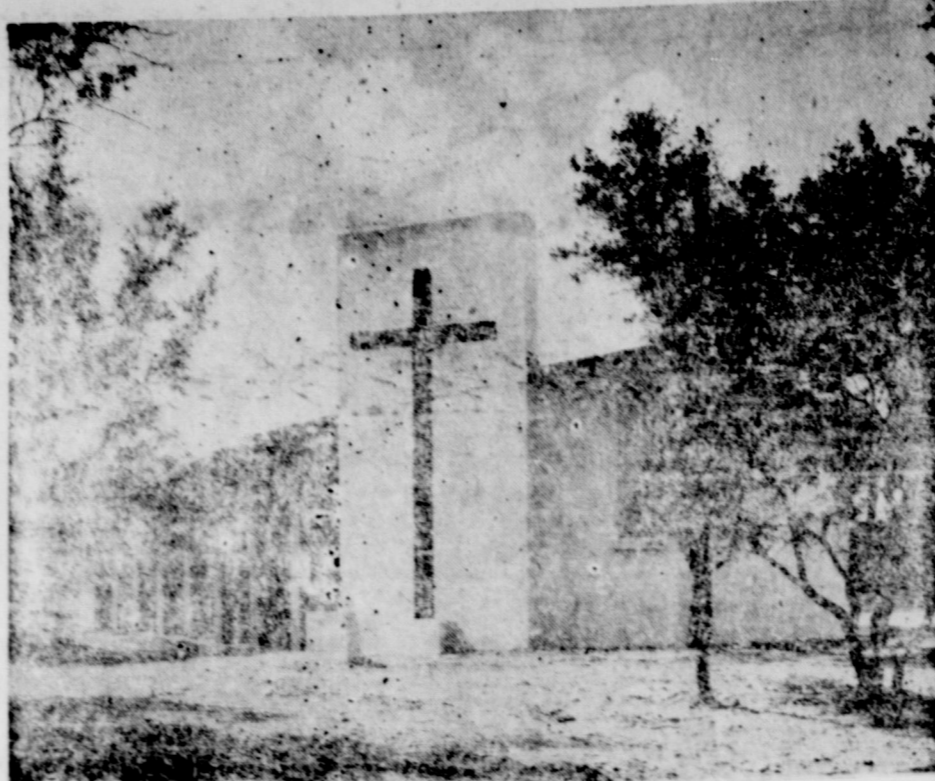

(Editor's Note—the following is from the Floyd County Reporter and was accompanied by photos reported taken of the site described herein.)

The reports of the strange lights that played around the rim of Blanco Canyon at the TM Bar Ranch on the morning of November 21, and the weird object that sailed swiftly and silently over the J. S. Hale place on the south side of the canyon in the same early morning hours, still have local people by the ears.

Speculation on what "it" was, how "it" got there, and by what power "it" may have been propelled, is still going the rounds.

The Hesperian got into the "spirit of the thing" a week ago, and reporter-photographer Kenneth Rimmer spent a couple of hours prowling around in the canyon between the TM Bar headquarters where Q. D. Williams family live and the J. S. Hale place across from them. The "shots" above are added evidence that something strange occurred. At least they are evidence that some mighty force was at work sometime recently in Blanco Canyon.

That Reese Air Force base made an investigation of the phenomenon following the report is an established fact. Q. D. Williams

CHAPEL IN THE HILLS — Here is an open-air chapel poised on a hill near Kerrville, handicapped children of the Texas Lions Camp kneel in prayer and hold worship services together each Sunday during the summer. The chapel has an electric organ, comfortable bench-pews and a simple altar. The worship services are planned by the children and their counselors.

who was a brush pilot on one of the big ranches in the vicinity of Vernon before he took over the management of the TM Bar Ranch and moved his family there. . . . he had a crew of investigators at the ranch Saturday after the strange occurrence in the early morning hours of Friday. (It was Thursday night about 3 o'clock in the morning.)

The "visit" was really more than just an "investigating crew" it was an official maneuver with a guard thrown around the place. Williams was quizzed about what he saw. He said he told the Air Force officers that the "light" or whatever it was, traveled at an estimated rate of 2,000 miles per hour from the "hill" where it was first sighted past a check point to the southwest.

The Williams' awakened the Roy Fawver family and the J. S. Hale family the morning of the strange occurrence.

Fawver got in his pickup and "made a run" for the point where the strange object was seen. When Fawver got there, "it" took off west at rapid speed, just as though the object knew someone was coming too close.

J. S. Hale, who "prodded around" in the canyon with the Hesperian's reporter on his visit in January gave an angle the newsmen had not heard before.

Not only did the "lights" or "spaceship" or whatever it was play around toward his place, it actually sailed over him as he lay on the ground under the fence near his irrigation well.

(The balance of this report will be published at a later date in the Morton Tribune.)

County Levelling Court House Lawn

For those who have been wondering "what gives" on the Court House lawn, County Judge Glenn Thompson explained it this way:

The county decided it was time to level off the lawn. Every four or five years the spring's blowing sand has gathered in sufficient quantities to necessitate cutting the lawn down to the level of the sidewalks.

The county also decided to remove the sprinkler heads located throughout the lawn, because they had only succeeded in making it difficult to trim the lawn.

For those skeptics who may have noted the the county was in

poor financial shape and thought this was a waste of money, the Judge noted that county hands did all the work, no extra help was hired.

Plowin' Under the "Sorry Land"

This is the "sorry land." As rancher Dolph Briscoe says, "We'll either turn this country into a desert or we can make it the most productive grass land in the world."

This is the giant root plow, specially designed and mounted on Allis-Chalmers tractors. It cuts deep into the earth to uproot the brush.

Today rich, new grass has replaced the brush that covered the 100,000-acre Briscoe Ranch.

All in one operation the tractor's dozers knock down the brush, root plows sever the brush roots and new grass seed is planted.

Today rich, new grass has replaced the brush that covered the 100,000-acre Briscoe Ranch. Tall, cattle-producing grass is growing again in South Texas.

The reason? A pioneering soil conservation and reclamation project called root plowing and rangeland seeding is plowing under and seeding hundreds of thousands of acres of South Texas.

It could mean that an area in Texas as large as the State of Tennessee will be plowed and seeded. An area, much of which has never before been broken by a plow.

Years of drought, decades of overgrazing and the resulting jungle-like infestation of brush brought 25 to 30-million acres of South Texas the title of "sorry land."

But today in areas where ambitious cattlemen and construction machinery contractors have gone to work with new ideas to lick the long-standing problem of the brush, they have succeeded. The brush is gone and cattle stand thigh-high in a sea of tall, rich grass.

Experiments began several years ago when cattlemen realized the drought and resulting brush infestation had nearly eliminated the growth of native grasses and turned the soil into a baked, eroded rangeland that would support only one steer for every fifty acres.

Many remedies were tried. Heavy cable chains were attached to teams of crawler tractors to chain the brush down in huge swaths. Big rotating steel-bladed implements six-feet in height were drawn by tractors to chop the brush down. Deep disking

was tried. So was burning. They all failed. Then, after a number of modifications, construction machinery contractors and an Allis-Chalmers dealer, working with cattlemen and conservationists, developed a wide-angle root plow.

They proved this plow, pulled by powerful tractors, could bite through the baked earth to the depth necessary to completely uproot and kill the mesquite and cactus.

On the Briscoe and Gates ranches near Catarina, Texas in the heart of the "sorry land" this plow, together with a new combination of grass seeds, has brought about a dramatic transformation in the landscape of South Texas.

Almost a year ago on these two sprawling ranches, big Allis-Chalmers crawler tractors equipped with dozers, 12-foot wide root plows and unique grass seeders went to work on the first large scale job of this immense soil conservation project.

On the 100,000-acre Briscoe Ranch, 70,000-acres have now been root-plowed and seeded. To do this giant plowing job Southwest Construction Company used six crawler tractors and two crews of tractor operators working around the clock, six days a week over a period of several months. Likewise on the adjoining 83,000-acre Gates Ranch, four more crawler tractors and eight operators plowed under and seeded a 15,000-acre test plot.

WATER BOARD — Pictured are the men recently elected to the Board of Directors of the High Plains Underground Water Conservation District. The members are, standing, left to right, T. L. Sparkman, Jr., Hereford; J. R. Belt, Jr., Lockney; John Gannon, Lubbock; and seated, left to right, Roy McQuatters, Sr., Littlefield; and Elmer Blankenship, Wilton. Blankenship was elected to serve as President of the Board for 1959. McQuatters was named vice-president and Belt will serve as Secretary - Treasurer.

SAFETY

(continued from page one)

was organized at the request of Governor Price Daniel.

Monday afternoon six Morton High School students will appear on a safety program to be broadcast over radio station KLVT, Levelland, from 4 to 4:15 pm.

Taking part in the broadcast will be a trio of girls, Misses Denise Rose, Patsy Svbert, and Myrlan Cox, who will sing a "safe driving" song composed by themselves and other members of the Journalism class.

Miss Margaret Hodges, current editor of the War Whoop, will introduce the program. Other speakers will be Miss Mary Ruth Henry and Wendell Holloman.

Miss Henry will speak on "Drivers' Obligations" and Holloman will be speaking on "Pedestrians' Obligations."

The program will be broadcast "live" from the studio of the station in Levelland.

Ministers to Meet Next Tuesday

The Ministers of the Morton and Cochran County area will meet next Tuesday morning, April 7th at 10 am. at the First Missionary Ba-

ptist Church of Morton. Pastor of the host church, Rev. Austin Steadman, will conduct the devotional. All ministers of Morton and this area are invited and urged to attend.

Canada's Tulip Capital

During the Ottawa Tulip Festival the springtime floral display in Canada's Capital City, is among the finest to be seen on the North American Continent. A burst of color heralds the arrival of spring, as crocuses, daffodils and tulips paint the city's lawns, parks, driveways and such points of interest as the National War Memorial. The Canadian Government Travel Bureau, Ottawa, Canada, can help plan your trip to Canada's scenic places.

SPONSORED BY BESEDA GRAIN CO.
Meeting Called Monday April 13th
To Interest Farmers in '59 Sesame Crop

A week from tomorrow, on Monday, April 13th, a meeting will be held in the Cochran County Activity Building to help farmers plan their 1959 sesame crop.

The meeting is sponsored by the Texas Sesame Growers, Inc. and was announced by the executive vice-president of the group, Robert L. Parker, Homer Thompson, County Agent will be in charge of the meeting and the local sponsor is Beseda Grain Co., local sesame dealer here. The meeting is set for 8 o'clock.

Texas Sesame Growers, Inc., will hold a special meeting Monday, April 13, in the Cochran County Activities building, Morton, to help farmers plan their 1959 sesame crop. Robert L. Parker, executive vice-president of the group announced this week.

The meeting, sponsored by Joe Beseda Grain Co., Texas Sesame dealer here, will be at 8 pm with Homer Thompson, county agent, in charge.

Arao growers are invited to attend.

"Good farmers in Texas have made sesame a dependable money crop," Parker said, "and last year they produced more than ten million pounds of seed which brought them a gross income of nearly one million dollars."

He emphasized the need for caution against over-production of the crop, and stated "sesame prices are lower than previous years, in sympathy with lower oilseed and grain prices all over the world. The competitive position of sesame is probably better than ever," he commented, "because of lower price supports for other crops."

The 1958 sesame harvest was the biggest in the six-year history of commercial production of the crop in the United States.

Average price to all growers for number 1 quality white sesame seed was 9.99c per pound; price for number 1 tan was 9.87c per pound, number 2 quality seed average 8.09c per pound.

All farmers interested are invited to attend the special meeting Monday. A short color film showing how the crop is produced harvested, and marketed will be shown and refreshments will be served.

St. Clair Remodels Two Stores Here

Other Morton stores continued to blossom out in spring-time, paint-up, clean-up, and fix-up style.

The latest are St. Clair's Department Store and St. Clair's Variety Store on the westside of the square here.

Already installed in the variety store is a new acoustical ceiling with a new lighting system. The same is going up in the department store and should be ready by the weekend.

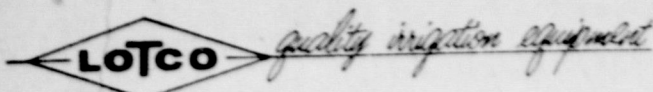

Along with the new ceilings will go new paint jobs and some general repairs.

Lloyd Hiner is manager of the department store and H. M. Christian heads the variety store.

TO NACOGDOCHES TO VISIT

Mr. and Mrs. R. T. Tarver, Sr. and J. L. Winder, left Thursday for Nacogdoches to visit friends & relatives. The Tarver family and Mr. Winder came to this area from Nacogdoches many years ago.

Texas Girl Wins 4-H Dairy Scholarship

LIFE IS JUST A BOWL OF—MILK IN THIS CASE. Six dairy food demonstration scholarship winners demonstrate their liking for dairy products by sharing a bowl of milk with S. A. Halgren of Los Angeles, Carnation Company vice president. The girls won \$400.00 scholarships presented at the 37th National 4-H Club Congress at the Hilton hotel, Chicago, by the sponsor, Carnation, for excellence in demonstrating dairy foods and recipes before local, county and state groups. The 4-H club program is conducted by the Cooperative Extension Service. National winners left to right: Marilyn Moore, 17, of Sutherland, Nebraska; Joyce Key Smith, 18, of Dalswon, North Carolina; Ruth Niemann, 17, of Kingfisher, Oklahoma; Halgren; Rosa Jane Moxley, 16, of West Friendship, Maryland; Betty Stroh, 16, Denver, Colorado; and Ellen Latia, 17, of Groom, Texas.

The problem of inflation rates comes not only to the issue of national survival. It arises in the work of this Congress at every turn, and is a factor in almost every decision we make.

Inflation has imposed a cruel burden on the people, particularly those who depend for their livelihood on fixed incomes.

It has struck at the small businessman and the small town. Some have felt it more than others. But there are few persons who have avoided the impact of inflation on their daily living.

We are moving through a period of strange contrasts. We have -

at the same time - inflation and recession. Some prices continue to rise. And at the same time, more than 4,500,000 people cannot find jobs.

This week the Senate provided the tools to take apart and study this strange situation. It made available \$200,000 to finance this work by the Joint Economic Committee. This group is now engaged in the most searching study of its type undertaken in 20 years. And I believe the results will offer fruitful returns to the American people.

Some have blamed inflation on so-called deficit spending. But the

history of our Nation over the last 40 years casts grave doubts on this theory. And that report, I earnestly hope, will serve as a springboard. Senate.

For instance, in the late 50's, we have both Federal surpluses and Federal deficits - accompanied by rising prices.

I do not suggest there is no relationship between the Federal budget and the price level. But I do believe we must understand that relationship better if we are to act intelligently.

The scope of the Committee study embraces all current aspects of the economic policy of our government. It includes interest rate policies, money supply and the financing activities of the government.

When this able Committee has completed its work, it will then report its conclusions to the Congress.

MONUMENTS SAMMY LEVERETT Singleton Funeral Home Morton, Texas

Sunday Will Be "Guest Day" at Country Club

The Morton Country Club, which on an ordinary Sunday evening, is usually well stocked with golfers and onlookers, may have twice as many or more this afternoon, if members do as they have been asked to do - invite guests.

For This afternoon, (Sunday) is to be "guest day" at the Morton Country Club it was announced this week by members of the club who have been inviting guests to play golf.

Just exactly what the program will be has not been explained - but it will include golfing, and for those guests who are new to the game, special handicaps will be allowed.

Members are requested to take part in this and bring out a family that might be interested in belonging to the club. For those who don't care to play golf there'll be ample opportunity to visit with other non golfers.

Tom McAlister, tournament chairman said "we will have plenty of fun - unless there's a sand storm."

VISITING IN SHERMAN

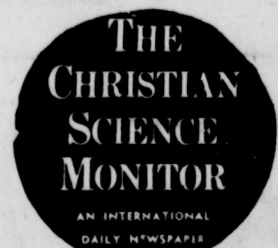

Mr. and Mrs. Walter Taylor left Thursday afternoon for about a week's visit to Sherman.

Cosmetic Tips

By ROSE THOMPSON
IRREGULAR SKINS
 The most and biggest problem with which we will deal is the irregularity of growing up — teenage skin.
 It is a problem of glandular changes which causes excessive oiliness on the skin and hair. This overactivity of the sebaceous or oil glands of the skin leads to black-

heads, enlarged pores, pimples & in extreme cases — acne.

To help cure acne and keep this type of skin under control, doctors recommend frequent washings to rid the skin of that excess oiliness. So we recommend that young men and young women with this problem scrub their face thoroughly at least three times a day and preferably four or five times a day. Because the more that excess oil is removed from the skin the less chance it has to plug the pores, attract infection and cause yet

more distressing blackheads and pimples.

Then after thorough cleansing we would recommend a soothing, drying lotion or medicated cream be used on the face. Never use any medication or lotion which is greasy, and never pick at bumps or wash bumps on the face as this introduces infection in many cases, and may cause bad scarring of the tissues.

For the young women we would also recommend an appropriate lipstick and make-up to cover bl-

ishes and add to their beauty. Only hair and dandruff also have been found to cause problem skins, so I would recommend frequent shampooing with a good dan-

druff removing shampoo followed with brisk brushing to distribute the excess oil of the hair to the hair ends instead of upon the forehead.

Paula Griffith Wedding Date Is Announced

Mr. and Mrs. Frank Griffith of Three Way announce the engagement and approaching marriage of their daughter, Paula Florene, to William Kenneth Paul of Albuquerque, N. Mexico.

The prospective bridegroom is the son of Mr. and Mrs. John Paul 1236 Vassar Dr. N. E. Albuquerque, N. Mexico.

The wedding date has been set for Sunday, May 31, at 2 p.m. in the First Presbyterian Church of Portales, the Rev. Omar Pittman of Fort Sumner, officiating.

Miss Griffith, a student at Eastern New Mexico University in Portales, attended high school at Three Way. She is a member of Kappa Delta Alpha social sorority, the Press Club, Board of Publications, Student Council, Silver Key, Honorary Scholastic Society, and Baptist Student Union. The

bride elect is a member of the ENMU newspaper staff and secretary of the University's pre-school.

Mr. Paul is employed by Sautia Corp. He attended ENMU and is a graduate of New Mexico Military Institute, Roswell. At the Institute, he was class vice-president, editor of the "Bronco" year book and president of the First Sergeant Club.

All friends and relatives of the couple who wish to attend are invited to the wedding and reception that follows in the Church patio.

at PIGGLY WIGGLY, Morton

Attend Reunion At San Saba

Mr. and Mrs. Campbell Smelser and two daughters, Joan and Twyla Jane, of Morton recently attended the annual Smelser reunion at San Saba.

Also attending were some fifty descendants of the original Herman Smelser family who moved to that county in 1854.

Honored guest was J. R. Smelser, who had just celebrated his 88th birthday, and father of Campbell Smelser.

Ten of his eleven children are living, and all were present for the celebration. They came from Arizona, California, Minnesota, Oklahoma, and many parts of Texas.

Mr. J. R. Smelser, a retired Methodist preacher, preached to the group at the community building on Sunday from the 13th Chapter of First Corinthians.

Dinner was served to 40 following the service.
