

REVERSS HOME

One year old Stevie Polvado, son of Mr. and Mrs. Bob Polvado of Morton, was returned to Morton early this week after spending four days in the Taylor Clinic in Lubbock. The infant, who will be a year old this Friday, was suffering from dysentery.

IN HOSPITAL

Tammye Hans was hospitalized last week at the Methodist Hospital in Lubbock. An assistant in the ERMA office here, she is the daughter of Mr. and Mrs. Tom McAlister.

SIX YOUNG TEXANS ARE AMONG NATIONAL WINNERS AT RECENT 38TH NATIONAL 4-H CLUB CONGRESS

Six Texas young people were among the national award winners honored at the 38th National 4-H Club Congress. Each has been outstanding in project work supervised by the Cooperative Extension Service.

Rev. Dee Gregg, 17, of Hale County, was winner in the Boy's Agricultural awards program, receiving a \$400 scholarship from the International Harvester Co. He has successfully completed

six major types of 4-H projects: steer, sheep, lambs, calves, grain, garden and cotton.

Gregg now has five lambs, a steer and two calves and this year has raised 10 acres each of grain and cotton and a quarter acre of garden produce.

An active 4-H'er since he was nine, he has earned a profit of nearly \$7,000 since 1951, in addition he has won numerous awards and ribbons for a variety of activities including grand championship prizes for three animals in nine different fairs during 1954. This spring he rated high individual of the first place livestock judging team at the El Paso Fat Stock show.

Another youth who has been a prize winner in many projects was named a winner of the national Tractor awards program. Anthony Dresser, 17, who has consistently received ribbons for swine, cattle and poultry projects was awarded a \$400 scholarship by the Humble Oil and Refining Co. for his work in tractor maintenance and operation.

Dresser, who became interested in the project two years ago has devoted many hours to keeping the farm's machinery in top condition. Since 1957 he painted 10 pieces of equipment, a tractor and farm pickup truck.

He was called upon to instruct others in driving and maintenance techniques and was asked to give a demonstration at the district tractor leadership school. He has been a runner-up in the district operators contest and participated in the state contest.

A Corpus Christi miss was one of the two Texas Girls to win national awards. Ada Lou Hartman, 18, received a \$400 scholarship donated by Betty Crocker of General Mills for her outstanding work in Food Preparation Projects.

Miss Hartman has prepared 2,229 main dishes, 619 of which were made from dairy projects. She also has made 1,447 complete meals, 632 salads, 547 desserts and 31,314 dairy drinks. In addition, she also helped her mother in the freezing of vegetables and fruits.

A practical use for her skills came this year when her mother was ill for three months and Ada Lou did the shopping, cooking and all of the housekeeping.

For the last two years, Herky Killingsworth, National Entomology Awards program winner, has been a member of the 4-H entomology team that won the district award. Killingsworth, the leader of his local entomology club, received a \$400 scholarship from the Hercules Powder Company for his efforts toward insect identification and control.

Killingsworth directed group study of insect life in Cottle county and during a recent increase of bugs in the region, members of the group made talks on the radio and before organizations concerning the infestation. They also suggested methods to correct the situation.

An active participant in 4-H projects, the 17 year old high school student purchased a 30 acre farm with his savings two years ago. After raising cotton, sorghum and some animals, he has sold the farm, staggering the payments so they will finance his way through college.

ing chores. Now a college freshman, she is majoring in home economics with special emphasis on foods and nutrition.

The second young lady to receive national recognition was Judy Aandert who won a \$400 scholarship from Coats and Clark Inc. for her accomplishments in clothing.

Miss Aandert, whose present goal is to become a dress designer, has made 76 garments in her 4-H projects. Last year she bought an electric console sewing machine with prize money and since then has made a variety of garments.

These include three pair of pajamas, two housecoats, three pairs of Bermuda shorts, three blouses, four skirts, four dresses, one suit dress, a man's sport shirt, an evening cape and an evening bag.

She has learned to make new clothes that best fit in with the rest of her wardrobe and has found that her best colors are shades of brown, beige, gold, navy, and red.

A national Beautification of Home Grounds award winner was Jerry Ewell Barta, 21 year old resident of Sequin. Barta, who for financial reasons left Texas Lutheran College, is now the assistant manager of a Sequin variety store nursery department.

Here his 4-H background in home grounds beautification stands him in good stead. He is responsible for visiting wholesale nurseries, purchasing large quantities of nursery stock for the store, marking the selling price and helping customers with landscape consultant service.

In addition, he has currently undertaken a project to restore a historical park in the center of town. He has given color slide talks to civic groups to revive interest in improving the site for the benefit of the community.

Jerry completed 60 projects in various fields since starting 4-H club work in 1949. Jerry received an expense paid trip to the National 4-H Club Congress from Mrs. Charles R. Walgreen, Chicago.

For the last two years, Herky Killingsworth, National Entomology Awards program winner, has been a member of the 4-H entomology team that won the district award. Killingsworth, the leader of his local entomology club, received a \$400 scholarship from the Hercules Powder Company for his efforts toward insect identification and control.

Killingsworth directed group study of insect life in Cottle county and during a recent increase of bugs in the region, members of the group made talks on the radio and before organizations concerning the infestation. They also suggested methods to correct the situation.

An active participant in 4-H projects, the 17 year old high school student purchased a 30 acre farm with his savings two years ago. After raising cotton, sorghum and some animals, he has sold the farm, staggering the payments so they will finance his way through college.

SOIL TESTING - GAGE THAT REVEALS SOIL FERTILITY

Don't guess - Soil Test, is the slogan for this year's soil fertility campaign. This campaign is sponsored by the Texas Agricultural Extension Service, County Agricultural Agents, and the Texas Plant Food Educational Committee. It is designed to stress the importance of soil testing for the maintenance of optimum farm production.

The proper soil fertility balance must be maintained in order to obtain maximum efficiency from irrigation water and rainfall.

This is a good time of the year to take soil samples from your farm and have them checked. From the soil sample analysis, recommendations can be made explaining the proper fertilizer to apply for best results.

HOW TO TAKE SAMPLES

A soil test is as accurate as the sample sent to the Soil Testing Laboratory. Therefore, it is very important that a representative soil sample be made.

1. Take 10-15 samplings scattered over the field being tested.

2. Take the sample - each sampling should be about plow depth (5 to 7 inches deep) and place into a clean bucket or some other clean container. All of the samplings of the field being tested should be thoroughly mixed and a portion placed into a soil bag, which can be obtained at the County Agent's office.

3. Tools to use - any tool that will take a thin vertical slice of soil will do the job.

4. Information sheet - fill out the information sheet giving past cropping history, fertilization and type of crops to be grown on the fields tested, as well as other information requested. The soil testing laboratories must have this information to determine fertilizer recommendations.

WHERE DO I SEND IT? The soil sample and the information sheet filled out may be brought to the County Agent's office. The County Agent will furnish mailing instructions.

SOIL TEST BAGS AND INFORMATION SHEETS These may be obtained at the County Agent's office at no cost.

HOW MUCH DOES IT COST? Cost of testing is \$1.00 per sample - the best investment you can make in a fertilizer program.

WHEN SHOULD SAMPLES BE TAKEN? A soil sample can be taken any time of the year. The soil sample should be sent to the soil testing laboratories at least one month in advance of planting time of the crop to be grown. This will allow sufficient time to obtain the results of the soil test and to purchase any necessary fertilizer before planting time.

For spring plants, take samples in October, November, December, and January. For fall plantings, take samples in June, July, and August.

There are other factors affecting conditions, as soil types, temperature, moisture, insects, irrigation, etc., which effects yields not considering soil fertility too.

ORGANIC FERTILIZERS INCREASE YIELDS H. C. Lane and H. L. Walker, staff members at the Lubbock Experiment Station, have stated that in 1958 the following results were obtained from applications of cotton burs, sorghum residues and barnyard manure.

Cotton burs and barnyard manure are organic fertilizers available in this area for use on cotton. Rates of 2, 4, and 6 tons of cotton burs per acre have produced lint yield increase of 105, 160, and 216 pounds of

lint respectively. Thirty to sixty pounds of nitrogen per acre should be used in the first and second season of bar application on the same land. The amount of nitrogen applied annually with 6 tons of burs for six years has not increased more than .05 percent. This fact indicates that the amount of nutrients added by the burs is responsible for the increase yields. Barnyard manure at 6, 11 and 15 tons per acre has produced lint increases of 72, 103, and 108 pounds respectively. Profit with the use of manure should be compared closely with that from inorganic fertilizers before deciding which one to use.

Sorghum residue or stalks applied on cotton land at rates of 2, 4, and 6 tons per acre have lowered lint yields. An application of 60 pounds of nitrogen with sorghum residue maintained yields where two tons of residue was applied. Four and six ton rates of sorghum residue require more than 60 pounds of nitrogen to maintain yields. When it is considered that an average sorghum crop will produce one and one half to three tons of residue, it is immediately evident that 60 pounds of nitrogen, or more, will be necessary to get maximum lint yields.

WEST VIRGINIA DECLARED MODIFIED CERTIFIED BRUCELLA LUSINA AREA - TEXAS IS STILL LAGGING West Virginia is the seventh state this year to qualify as a modified-certified bruceellosis area. A total of twenty-two states have now achieved certification. Other states that achieved certification during 1959 are Tennessee, Oregon, Arizona, Maryland, Nevada, and Massachusetts. Achieving certification prior to 1959 were Puerto Rico, and the Virgin Islands and the states of Connecticut, Delaware, Maine, Michigan, Rhode Island, Utah, Vermont, Washington, and Wisconsin.

Other progress reports in the national fight to control and eradicate Bruceellosis show that, to date, 1,732 counties out of the total of 3,152 in the United States, Puerto Rico, and the Virgin Islands have achieved certification. Three (3) Texas communities (Brewster, Jeff Davis, and Presidio) are among those counties achieving this status.

HAPPENINGS OF INTEREST... FROM THE ENOCHS AREA

By Mrs. Jerome Cash

SUNDAY GUESTS
Guests in the home of Mr. and Mrs. Earl Elliott, Sunday were Mr. and Mrs. W. A. Arent, Mrs. L. B. Saunders, Mr. and Mrs. J. B. Johnston, Mr. and Mrs. A. C. Wages, Mrs. R. H. Bill, Mr. and Mrs. K. A. Saunders, Mr. and Mrs. A. D. Arent, and Mr. and Mrs. Byron Johnston.

VISIT CROSBYTON
Mr. and Mrs. J. W. Layton visited in Crosbyton last week with their daughters and families, Mrs. Ernest Ellison and Mrs. Elred Mize.

ON SICK LIST
Eddie Wallace was in Medical Arts Clinic in Littlefield, over the weekend with virus flu.

WMU MEETS
Enochs WMU held their week of prayer program on the afternoons of Wednesday, Thursday and Friday of last week. Ladies in charge of the separate program were Mesdames J. J. Terry, C. R. Seagler, W. M. Bryant, D. Grusendorf and Guy Sanders. Theme for the program was "Oh God We Pray For All Mankind."

ATTEND FUNERAL
Mrs. Flora Nichols and her son Dale, attended the funeral of Mrs. C. C. Stephens, in Muleshoe, Saturday. Mrs. Stephens had been a friend of the Nichols in Arkansas before both families moved to Texas.

STUDY COMPLETED
The Training Union Study Course at the Baptist Church was completed on Thursday night. The book studied by adults was "These Things We Believed," by J. Clyde Turner.

COLLECT OFFERING ALL DECEMBER
The Baptist Church is using the entire month of December in collecting an offering for foreign missionaries, which they call the Lottie Moon Offering. Miss Moon was the first Baptist Missionary in China to be successful in getting Americans interested in the work.

VISIT IN CASH HOME
The guests in the Dutch Cash home Sunday were his sister, Mr. and Mrs. P. L. Wade and

Three Way News...

By Mrs. Frank Griffith

TREATED TO SUPPER
Because of the thorough job that the Three Way Eagles did defeating Nazareth at the homecoming football game, they were treated to a steak supper Thursday evening at the Chat and Chew dining room in Levelland. Hosts were D. L. Tucker, Doss Terrell, Bud Warren, and Frank Griffith.

The girls of the pep squad and the football boys, Mr. and Mrs. Bill Wood, and Mr. and Mrs. Elbert Adams were guests.

ON SICK LIST
Debbie Battaes was on the sick list last week.

FAVORITES ELECTED
Kenny Sims and Elaine Kenley were elected by the high school faculty as best all around boy and girl in high school.

Kenny, a junior, is the son of Mr. and Mrs. Archie Sims. Elaine, a sophomore, is the daughter of Mr. and Mrs. Thurl Lemons. Ruth Tucker was voted most handsome. He is a senior and the son of Mr. and Mrs. D. L. Tucker. Mr. and Mrs. T.H.S. are Barbara Masten and Charles Latimer. Barbara is a sophomore and is the daughter of Mr. and Mrs. Rayford Masten. Charles, a senior, is the son of Mr. and Mrs. Ed Latimer. Calendar girl is Dorothy Tucker, a soph., daughter of Mr. and Mrs. D. L. Tucker.

Mailers Urged To Help Avoid Postal 'Pile-up'

"The time has passed to talk about 'Mailing Early for Christmas,'" Postmaster Crone said this week, "but our patrons can still help the Postal Service avoid a tremendous last-minute pile-up of Christmas mail by sending all packages and cards right now.

To the inevitable last-minute mailers he suggests that Air Mail postage be used on all gifts and cards going to distant cities.

The Postmaster said that Regional Postal officials were expecting the Christmas mail volume this year to break all previous records. And this mail load is expected to hit its peak next week.

He cautioned local post office patrons to make sure that all packages are addressed carefully and that zone numbers are included on mail going to large cities with zoned delivery.

"There is still time to mail cards for local delivery," Mr. Crone said, "but they should all be in the mail by the end of next week."

He recommended that cards going out of town be sent by first class mail (4c postage) in order that they may be returned or forwarded in case the addressee has moved. And he pointed out that it is quite proper to affix your return address on Christmas cards.

The Morton, Texas Post Office offers window service from 9:00 a.m. until 5:30 p.m. Monday through Friday; 9:00 a.m. to 12:00 a.m. on Saturdays.

VISITED IN LAMESA
Mr. and Mrs. L. L. Mings' and son, Jerry Wayne, visited over the weekend at Lamesa with Mr. Mings' sisters.

VISITED HERE
Mr. and Mrs. Guy Matthews of Denver City spent the week end in Morton visiting their son, Marion Matthews and family.

UNDERWENT SURGERY
Mrs. D. E. Benham had minor surgery Sat. Dec. 5, at the Methodist Hospital in Lubbock and is now home and doing fine.

his niece, Mr. and Mrs. Don Williams and girls, Donna Cathy, Mr. and Mrs. Donald Chesshir all of Lubbock and Mr. and Mrs. Ronnie Etheridge of Muleshoe.

CELEBRATES 66th BIRTHDAY
Donna Autry celebrated her 66 birthday last week with a party. Several of her friends called to help her celebrate.

Students at Oklahoma State Tech, Okmulgee, joined their families for traditional Thanksgiving dinners and an extra day's vacation during the annual Thanksgiving holidays, November 26, 27, 28 and 29.

During the vacation Reber W. Pledger of Morton a student in shoe repair visited in Okmulgee.

Governor Names Sunday, Dec. 13, "Safety Sunday"

Sunday, December 13, has been designated by Governor Price Daniel as "Safety Sunday" in Texas to signal the opening of the Christmas - New Year's holiday traffic safety campaign throughout the state.

The Governor's proclamation said efforts to "end death and destruction on the streets and highways of Texas will not fully succeed until each driver comes to realize that traffic safety is a spiritual concern." The Governor urged each citizen to help awaken in the conscience and mind of every driver the realization that negligence at the wheel of an automobile is a transgression of God's Own Command, "Thou Shalt Not Kill." He also asked the assistance of every pastor in Texas by reminding each church member of his moral responsibility in obeying the traffic laws.

Numerous organizations have already pledged their support of the annual campaign to reduce the holiday highway slaughter. In anticipation of the Department of Public Safety's annual prediction of holiday deaths, a state wide program is now getting underway through the coordination of the Texas Traffic Safety Council, the state's official unit, the Governor's Highway Safety Commission and the Texas Safety Association.

Members of the Outdoor Advertising Association of Texas and other outdoor poster firms have contributed space for about 800 highway signs which will carry the Governor's holiday safety message, "Don't Let A Collision Spoil your holiday." The posters were contributed by organizations and individuals interested in the Texas traffic safety movement.

IN HOSPITAL
M. I. Fine is at the Littlefield Hospital.

INURED IN PICKUP CRASH
Frank Griffith is in the West Plains Hospital, due to injuries received in a pickup wreck Sunday.

KINDLES HAVE GUESTS
Mr. and Mrs. Jerry Dameron of Circle Back visited with the Bob Kindles last week.

Whiteface Boys Win Own Tournament; Morton Maids 2nd In Girls Division

The Morton Indians and Indian Maids nailed down third and second place trophies in the Whiteface tournament which ended Saturday, as the hot shooting host boys won their meet.

The Indian Maids found Sudan's Carla Humphreys too tough a scorer as she tossed in 31 points to lead the Hornets to a 52 to 37 win over Morton in the final girls' game.

Meanwhile, Whiteface lost the bid to win third place in the girls' bracket as Sundown beat them, 44 to 34.

In the girls' consolation game Frenship licked Bledsoe 42 - 29, despite Twila Birey's 16 point endeavor for Bledsoe.

Whiteface, which had exhibited fine shooting in the tourney, up-ended Frenship, 47 - 38 in the final Frenship, 47 to 38 in the final low scoring game in the boys' bracket as Jimmy Collins' 18 points paced the win.

Steve Middleton was Morton's big gun, tossing in 18 points as Coach Travis' Cagers licked Rospeville 47 to 44 in a real close game.

Consolation winner in the boys' bracket was Sudan with a 50 to 34 triumph over Whitharral.

Whiteface, who has been host-

HAPPY HOUR CLUB HAS GIFT LUNCHEON

SENATOR ☆☆☆ Yarborough's Report

In a nation striving for medical scientific advancement, it is a strange twist of fate that in some respects we have failed to keep pace with the progress already made.

For example, we have greatly increased man's life expectancy yet thousands of our needy elderly people spend those added years of life in hunger, sickness and privation.

"It is for society not only to add years to life, but more important to add life to the years."

Texas recognized that some 200,000 senior citizens need help. More than a year ago, we approved a medical care amendment giving the legislature constitutional authority to match federal medical funds.

Despite this voter mandate, the legislature has not yet acted and has thereby denied our aged over \$19,000,000 of federal funds this year for medical expenses, hospitalization and nursing home care.

Why are additional funds necessary for the aged?

The cost of living has increased 24 per cent in the past few years. Medical costs have risen 49 per cent during the same time. Hospital room charges have risen 165 per cent.

Yet, at the present time the average payment to old folks is \$52.06 per month in Texas, an amount scarcely adequate to provide food alone. Texas ranks 25th in comparison with the other states in the average monthly assistance paid to its needed senior citizens.

We can do better than that. We must do better for the number of Americans 65 years of age and older now stands at 15.4 million and is expected to reach 20 million by 1975. Elderly Texans need and deserve better treatment than they have had in the past. The time to show them that we care is now. The time has come to grant them the respect which they have earned as useful citizens.

There has been talk of a special session of the legislature in January to raise teacher pay in

Texas. I favor higher teacher pay, but I believe it is also important that we move quickly to secure medical care funds for our needy aged. The federal funds are waiting for the taking.

To ignore it would be a grave injustice to the aged Texans, and it would simply divert these funds to the needy in other states. The responsibility for providing a better life for our senior

citizens rests with all of us. Our goals for our growing number of aged people must be decent food, comfortable shelter, adequate clothing, proper medical care and a dignified place

in society. No greater challenge faces us today than in learning how to cash in fully on the precious new years of living that modern medical science has won for us.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Underground irrigation pipe is rapidly becoming one of the most widely used practices in Soil and Water Conservation in this area. Many farmers are taking advantage of the Great Plains and the ASC programs, to aid them in the cost of installation. There has been approximately 7 miles installed in the Cochran Soil Conservation District since January of this year.

Some of the cooperators who have made application through the various programs are: Roy Allsup, Raymond Hoffman, Ja-

mes Dewbre and R. W. Blakney. Detailed preparation is needed to install underground irrigation pipe line properly.

The first and most important job in securing a good underground irrigation pipe line system is to plan the system with the aid of one of the personnel of the Soil Conservation Service and find out what assistance is available and which program is best suited.

Loan Shark Cases Are Set for Trial By Att'y General

Attorney General Will Wilson's crusade against loan sharks in Texas marked its first anniversary last week with the setting of trial dates for 25 cases involving San Antonio loan companies charged with violating the state's anti-usury laws.

This group of cases includes suits against the Term Finance Company and Credit Discount Company. The Credit Discount Company is owned by Bexar County District Attorney Charles J. Lieck, Jr.

The Attorney General's loan company investigation began in February, 1938, and was climaxed December 10 when a mass operation opened against loan companies in every major city in Texas. Wilson directed the drive from headquarters in a San Antonio Hotel.

Before the day was over 272 permanent injunctions had been asked against 350 companies.

The current total stands at 365 suits filed for permanent injunction against 465 loan companies. Forty permanent injunctions have been granted against 42 companies.

This was Wilson's third big move in his crusade for law enforcement.

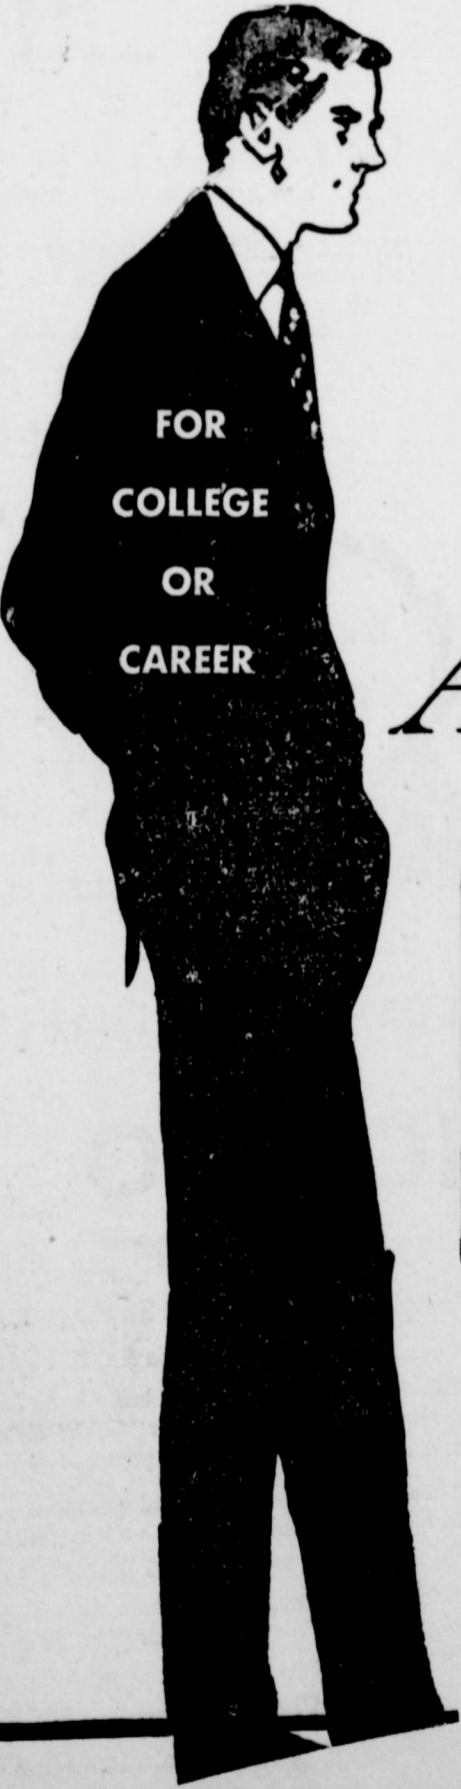

He shut down Galveston gambling in July, 1937, and cut operations of 400 quack doctors that winter.

Wilson estimates that the small loan demand in the State is approximately four hundred million dollars a year, with sixty million of it sharked by loan companies.

"These companies have been charging more than 100 per cent interest annually and some as much as 300 per cent," Wilson said. "Our investigations of hundreds of these companies have convinced us that a great proportion of the borrowers are actually eligible for bank credit. They would be far better off doing business with a bank."

Grateful and informative letters continue to pour into the Attorney General's Office.

"The cooperation of the public, particularly the loan shark victims, has been invaluable to us," Wilson said.
