To Launch Big Week

Bicentennial Week Starts Today

'Old Fashioned Values' Week Begins Monday

A full week of "Old Fashioned Values" and a \$250.00 cash prize for some lucky customer will be offered by 33 Floydada merchants from May 17-22.

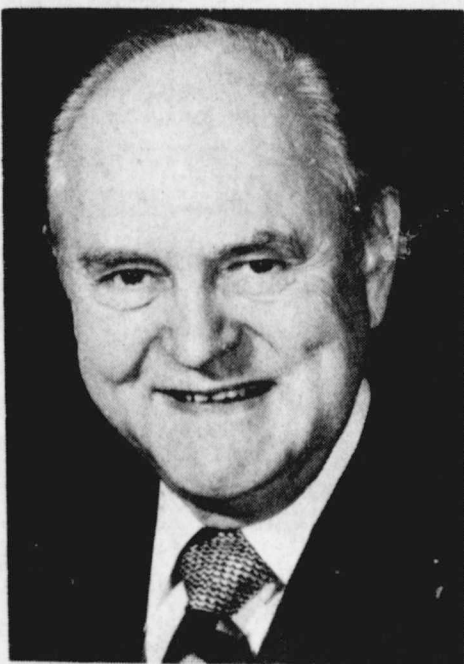

Beginning this Monday, you can register at any participating Floydada business for \$250.00 to be awarded on

Old Settler's Day.

Each participating business is also featuring price cutting, "Old Fashioned Values" on selected merchandise. Sale items offered by these stores are featured in a special supplement in today's Hesperian.

Everyone is invited to drop in any participating store to register for the \$250.00 prize and shop for "Old Fashioned Values."

Thirty-three business firms offer Old Fashioned Bargain Days specials and have registration boxes ready for opening day Monday. They are: Sears Roebuck and Company Catalog Sales Merchant, Thompson Pharmacy, Oden Chevrolet-Olds, Hale's Department Store, Beall's Department Store, Bishop's Appliance, Perry Brothers Variety, Solomon Jewelry, Mize TV, City Auto Inc., Dyson's Shoe Shop, Kirk & Sons Hardware, Parker Furniture, Caprock Motor Parts & Hardware, Montgomery Ward Catalog Sales Agency, Hagood's Department Store, White Auto Store, Mr. Burger, C & J Floral, Betty's Place, Buddy's Food, Dairy Queen, Reed Ford Sales, The Loft, King's Restaurant, Travel Center Restaurant, and Don's Thrifty Supermarket, Hesperian Office Supply, McDonald Implements, Gilbreath, Exxon Service Center.

DR. DUDLEY STRAIN will be guest minister for the city-wide worship service which kicks off Bicentennial Week in Floydada. The special church service starts at 7:30 p.m. Sunday, May 16 in the First Baptist Church. Dr. Strain was minister of the First Christian Church in Lubbock for 22 years before retiring last January. He has a television series, "Living Your Religion," for several years and authored the book "22 Years On Broadway." He is now employed as a public relations man for Lubbock National Bank.

Thursday Musical Program Added To Bicentennial Events

Floydada Radio Station KFLP has added another event to the Bicentennial Week. On Thursday, May 20, KFLP will sponsor a special program of gospel and patriotic music at the Floydada High School Auditorium featuring Garry Page, Plainview, Richard Campbell, Floydada, and Wayland's Freedom Singers. The program also includes H. T. Stanaland (God's Round Clown), Jim Fullingim, Petersburg, and Jeremiah's Commission from Lubbock.

Bo Johnson, KFLP manager, announced that the two hour program will be filled with favorite gospel and patriotic songs presented by six of the best known gospel and music groups in West Texas. Johnson also announced that a free copy of John Wayne's record album, "I Love America" will be given to the first two hundred "pair" of adult tickets sold.

Tickets for the eight o'clock program are \$1.50 for adults and 50 cents for students. They may be purchased at the High School Auditorium door on Thursday night.

New Pastor For Floydada Methodists

The Pastor-Parrish committee of the First United Methodist Church in Floydada received confirmation by phone Thursday night that Reverend Jim Smith of the Hamlin Methodist

church will be the new pastor here, to succeed Reverend Jimmy Tidwell, who is moving to San Antonio.

Rev. Smith will be moving to Floydada about June 3 and will be in

the pulpit June 6. The Smiths have three small children.

His picture and biographical sketch will appear in the Hesperian next week.

Artists To Gather Here For Lions Arts & Crafts Show Saturday

Fifty West Texas artists and craftsmen will be in Floydada on May 22 to open the Floydada Lions Club Sidewalk Arts and Crafts Show. All space in the Lions Lemondrop Saloon crafts building has been sold according to O. M. Watson Jr, show chairman. Other artists will be on downtown sidewalks with additional displays of their art and craft items.

"There is unlimited free sidewalk space available", Watson said. "We encourage every artist in West Texas to bring their arts and crafts to the show and enjoy the day with us."

Lions officials said that registration early this week indicated that the 1976 show was going to be the highest quality show the Lions had sponsored.

The sidewalk show is part of the Floydada Bicentennial Week and annual Floyd County Pioneer Reunion. Other events during the day include the Pioneer Day guest speaker, Old timers barbecue at noon, the Pioneer Bicentennial Parade at 2:30 p.m., dedication of the Floyd County Museum at 3:30 p.m. and an old timers dance at 8:00 p.m.

Floyd County artists and craftsmen include Vel Simpson, Lisa Mosley, Kay Finley, Mildred Cates, Ray Carthel, Ted Bell, Nery Montandon, Eva Tackett, Nell Pritchett, Ruth Walker, Elsie Sherman, Henry Willis, Mary Tom Tooley, and Beth Pratt.

Artists from out of the county are J. W. Leffer, Plainview; Melba and Jim Mabry, Lubbock; Mrs. Bob Stephens, Lubbock; Brenda Ballew, Sudan; Doods Picture Frames, Sudan; Wynell Williams, Sudan; Stinson R. Behlen, Slaton; Janie Mills, Lubbock; Michael McCullough, Amarillo; Ronnie Lee Waide, Canyon; Theresa Steiert, Hart; Riley Carver, Amarillo; R. Russell Brown, Canyon; Carl Faringer, Canyon; Judy Barnwell, Lubbock; Mrs. Edward Fisher, Sudan; Dwayne Grimes, Plainview; LaRue Edwards, Sudan; Joann Chester, Sudan; Gary Johnson, Midland; Barbara Womble, Lubbock; Mrs. Gene Cayton, Womble; Bob Martindale, Lubbock.

Alpha Mu Delta will sponsor a Country Mercantile in the Lemondrop Saloon. The Lubbock Christian College Associates of City Park Church of

Christ will feature home baked foods and hobby items. The Floydada Day

Care Center is planning a bake sale. The Young Home Makers of America

will sell ice cream and cokes through the day.

HANGING JUDGE Richard Campbell appears miffed about improper courtroom procedure during the Floydada Lions' trial Thursday. Lions Bill Hendrix, Bob Alldredge, and Boone Adams, unconcerned about the courtroom procedure, peer from behind the jury—Lee Ann Neely, Julie Cathey, Sharon Kinard, Vickie Rainer, and Beth Pratt.

Lions Found Guilty, Sentenced To Hard Labor

The Floydada Lions Club meeting was disrupted Thursday when a "kangaroo court" complete with judge, jury, and prosecuting and defense attorney stormed into Massie Activity Center, "tried" the local service club, and found the entire membership guilty of stealing from the 1956 Junior Study Club.

"Hanging Judge" Richard Campbell, wearing a red robe signifying the casualties of his court, immediately held Lion Boss Boone Adams in contempt of court. Prosecuting attorney Randy Hollums introduced evidence that the Lions Club had "...wrongfully and deliberately appropriated the name 'Lemon Drop Saloon'

from the 1956 Junior Study Club..." (The evidence, a recent edition of the local newspaper, was thought by some Lions to be unreliable.)

The prosecution claimed the Lions illegally took the name "Lemon Drop Saloon" for their Old-Settlers-Day arts and crafts show headquarters. The study club had used the name and building located on the south side of the square for a refreshment stand at the pioneer reunion two years ago. Defense Attorney Randy Hollums had little to say for the Lions.

The jury (an unbiased quintet of 1956 Junior Study Club members—Lee Ann Neely, Julie Cathey, Vicki Rainer, Beth Pratt and Sharon Kinard) deliberated for approximately five

seconds before returning a verdict of guilty.

The Lions were sentenced to one day of hard labor, preparing the "Gaslight Theatre" for the old fashioned melodrama which the study club is presenting there on Old Settlers Day this year. Lion Boss Adams agreed to the terms of the sentence, and promised the Lions would have the building in shape in time for the performances at 4 p.m. and 5 p.m. Saturday, May 22. The "Gaslight Theatre and Popcorn Parlor" is located downtown, east of the courthouse.

"Hanging Judge" Campbell, incidentally, is cast as the villain in the melodrama, entitled "Hearts and Flowers."

New Night Depository

At FNB, Floydada

The First National Bank of Floydada is pleased to announce that its new Mosler Night Depository is now in service and ready for customer use. Designed for customer convenience, this new installation, located in the new FNB Motorbank, may be operated from the comfort of your car.

A spokesman for First National expressed appreciation for customers' patience and understanding during the time the banks has been without a night depository. Customers are invited to see the convenient new night depository located north of Parker Furniture in the new FNB Motorbank.

\$50 Cash For Talent Winners

The Old Settler's organization will pay \$25.00 and the Hesperian will pay \$25.00 prize money for the top three talent winners in the Hootenay talent show Saturday night.

The show will begin at 8 p.m. on the slab south side of the courthouse. Piano and sound system will be furnished for the program.

Anyone wanting to enter the show should call Wendell Tooley at the Hesperian 983-3737, or come by the Hesperian and sign up.

Last year's show drew a big crowd and this year's talent show is expected to be much larger.

Thursday's Hesperian and Beacon will carry the names of the performers entered and their talent for the show.

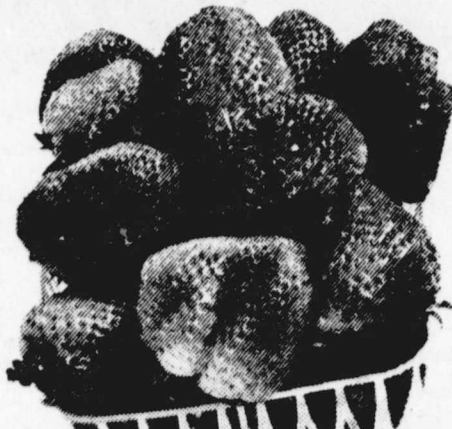

CHEERLEADER INCORRECTLY IDENTIFIED

The Floydada High School cheerleader identified as Judi Bean in the page-one picture in Thursday's Hesperian is actually Jill Poage. Miss Bean is a junior varsity cheerleader pictured on page 10 of Thursday's paper. The FHS cheerleaders are pictured correctly identified, on page 8 of this edition. We apologize to Miss Poage and to Miss Bean for the mixup.

The Floyd Philosopher
Claims CIA Weather Report For
The Next 40 Years Is
Not Very Astonishing

The Floyd Philosopher on the CIA weather report is astonished at a letter this

when Russian buyers quietly bought up the crop at below-market prices, because we didn't know of the drought over there, I don't know of the CIA simply hadn't been able to look out a Russian eye if it was raining, apparently stung the

CIA, because it has now gone into the weather business, including the prediction end of it.

According to it, there is going to be "a global political and economic upheaval almost beyond comprehension because of climatic changes that already have occurred. The world has entered a period of adverse weather that will reduce crop production and trigger widespread famine and starvation."

Not stopping there, the CIA report added: "The unfavorable weather is likely to last for at least 40 years and possibly centuries."

Well, I'll tell you, the CIA still hasn't got the hang of the weather business. Doesn't it know that, except occasionally, I've had

unfavorable weather ever since I can remember? And I'm not alone. Ask any farmer or rancher at any given moment if the weather suits him.

For example, the weather suits people if they get a rain after a long drouth, but if it keeps on raining and the weeds are about to take their crop and if they don't the crop may drown out anyway, see what they say. I have never seen a farmer or orchard owner who could find anything favorable about a hay storm, a drouth, a late freeze, or rain on a hay crop ready to be baled.

The CIA folks are right, we're going to have unfavorable weather for the next 40 years, but somebody ought to tell them we've had it ever since the memory of man runneth not to the contrary, but still we've managed to make a crop most of the time.

Yours faithfully,
 J.A.

New Officers Installed For 1950 Jr. Study Club

Members of the 1950 Jr. Study Club met in the home of Mrs. Pedro Ochoa Tuesday night for the installation of new officers. The theme, "Remember When There Wasn't a Baskin Robins" was carried out through a narrative on the history of ice cream, presented by Mrs. John Dunlap. Also in keeping with the theme, hostesses, Mrs. Ochoa, Mrs. Steve

Herber and Mrs. James McNeill served homemade ice cream and cake for an ice cream tasting bee. Club members answered roll call by telling their favorite ice cream flavor.

Business included discussing plans for the pioneer float and the Melodrama to be presented Old Settlers Day. It was also announced the club received two first place awards at the State Convention in Lubbock recently. The program, "Remember When Grandmother Won A Blue Ribbon" presented by Mrs. Edward Smith, and consisting of "crafts fair" won first in state. Mrs. Roy Kinard received first place for her district report.

On behalf of all club members, Mrs. Edward Smith presented a special gift to outgoing president, Mrs. John Dunlap, for all her dedication and leadership during her term. The gift was a silver charm bracelet with four charms representing the many things and ways she has contributed to the club.

The installation service for 1976-78 club officers was conducted by Mrs. Allen Bingham. Installed were Mrs. Gordon Hambright, president; Mrs. Vernie Moore, first vice-president; Mrs. Mark Wideman, second vice-president; Mrs. Tommy

Cathey, secretary; Mrs. Tom Farris, treasurer; Mrs. Don Rainer, reporter-historian; Mrs. Craig Edwards, parliamentarian; Mrs. Johnny Harris, custodian; and Mrs. John Dunlap, Federation counselor.

Special music for the installation was provided by Mrs. Roy Kinard who sang, "These Hands" and "Sunshine." She was accompanied on the guitar by Mrs. Tom Farris.

As her first duty as new president, Mrs. Hambright assigned new committees and chairmen and also discussed projects for the 1976-77 year with club members.

Those present were Mrs. Larry Schneider, a guest of Mrs. Craig Edwards, Mrs. Bingham and club members, Mmes. Frank Barrow, Tommy Cathey, Charles Christian, John Dunlap, Tom Farris, Gordon Hambright, Steve Herber, Raymond Jones, Roy Kinard, Dale Lawson, James McNeill, Vernie Moore, Jerry Neeley, Pedro Ochoa, Joe Paty, A. C. Pratt, Don Rainer, Eddie Smith, Choise Smith, Jerry Thompson, Jakey Younger and Misses Barbara Brewer and Jo Ann Stelter.

TED BELL, Floydada artist, will show his West Texas scenes in water colors at the Lions Lemondrop Saloon Crafts Building on May 22 in Floydada.

MARY MONTANDON and Elfie Sherman, Lockney artists, will be in Floydada on May 22 for the Lions 1976 Sidewalk Arts and Crafts Show and Sale.

CRAFTS by Vel Simpson of Floydada will be featured at the Lions Sidewalk Arts and Crafts Show in Floydada on May 22.

203 Register At Area WMU Day

Two hundred and three women registered Tuesday at the Area WMU Day held at the Plains Baptist Assembly. Theme of the day long session was "Freedom In Christ. Four Associations were represented from this area as well as the Lubbock Association.

Mrs. O. G. Mayfield, Caprock WMU Director, was in charge of registration; Mrs. Don Murphy, Llanos Altos Director, was in charge of the program; Mrs. William Jones, Lub-

bock Director, was in charge of refreshments; Mrs. Earl Palbado, South Plains Director, was in charge of program covers.

Mrs. Al Cummins, State Promotional Vice-president, from Georgetown, was guest speaker. The meeting was presided over by Juanda Murphy. Marilyn Carrell was song leader and Elaine Glascock, Pianist.

Mrs. Gladys Kaltwasser, a Japanese war bride, gave her testimony telling of her life in Japan before and after her marriage.

Guests were represented from churches in Floydada, Lubbock, Bovina, South Plains, Sunnyside, Ropesville, Petersburg, Morton, O'Donnell, Lockney, Spade, Littlefield, Quitaque, Wolf-orth, Friona, Tulia, Aiken, Bula, Kress, Crosbyton, Dimmitt, Dallas, Smyer, Pansy, Silverton, Cone, Cotton Center, Farwell, Plainview, Carlisle, Ralls, Shallowater, Ralls, Flomot, Levelland, Lorenzo, Woodrow, Muleshoe, Spur, Georgetown, and Slaton.

Miss Burk Gives Program For Homebuilders

Homebuilders Home Demonstration Club met May 11 in the home of Mrs. Bill Smith, with the president, Mrs. Ruth Trapp presiding. Roll call was answered with "a talent I have."

Miss Kathy Burke of Lighthouse Electric presented the program on Widow-

hood. Miss Burk gave a very informative talk, stating "Death is as much of life as living." In the event of the death of a spouse a refusal to discuss it openly can result in financial problems. Or if a couple knows the husband is terminally ill and refuses to face it, it may very well prevent making the most satisfactory disposition of personal and business affairs.

Learning to deal with loneliness is a very trying thing, Miss Burke said first thing is to stay busy. Helping someone else might help to give purpose. Second, developing new relationships or friends. Take advantage of contacts with people to form new friendships. As one older

widow said, "I think one should not be afraid to be useful, even if one has to give themselves a little push."

Third, focus life on one social role. If a widow gives up the role of wife, she may take on the role of mother or grandmother. Or she may go to work for the first time in her life, and fill a completely new and different role."

The historian, Arnold Toynebee says "From the middle of life onward, only he remains vitally alive who is ready to die with life. The negation of life's fulfillment is synonymous with the refusal to accept its ending, both mean not wanting to live; not wanting to live is identical with not wanting to die."

Miss Burke closed by saying "To live fully means to be able to deal openly with death."

The meeting adjourned to meet May 25 in the home of Ruth Trapp to make fabric flowers.

Refreshments were served by the hostess to Mmes. Gordon Mayfield, Elmer Norrell, Lee Rushing, Ruth Trapp, John Walker, Ernie Widener, and Raymond Evans.

Wesley Anns Honor Mrs. James Tidwell

Mrs. Kyle Glover was hostess to the Wesley Ann Circle to her home Monday night with a salad supper and a surprise party honoring Mrs. James (Connie) Tidwell.

Prayer was voiced by Mrs. Lorin Leibfried. Mrs. Ray Smith, recording secretary, read the minutes of the last meeting.

Mrs. Tidwell, who with her husband, Rev. James Floydada, was presented a beautiful cut glass bowl following a game played in which the letters in her name were used. Each member described something of Mrs. Tidwell.

Mrs. Glover was also presented a gift from the class, in appreciation for her

dedication in the study of Southeast Asia.

Jep Timwathan, Floydada American Field student, from Bangkok, Thailand, was a special guest of the class, and told the group of her family and also showed pictures of her native land. Miss Timwathan presented a traditional dance of her homeland and also showed her stamp collection which is one of her hobbies.

Attending the social were Mmes. Milton Ashton, G. M. Armstrong, G. L. Bryant, Pete Clark, Mack Fowler, Lula Greob, Jack Jordan, Lorin Leibfried, Jewel Martin, J. J. McKinney, Jerry Neeley, Ella Reue, Cora Lee Shipley, Ray Smith, Helen Solomon, Margaret Springer, James Tidwell, Dennis Teasdale, Kyle Glover, and guests, Mrs. M. J. McNeill and Miss Timwathan.

Next meeting will be July 12, a joint meeting of the Martha Ann and Wesley Ann Circles.

Sandhill Club Members Meet In Becker Home

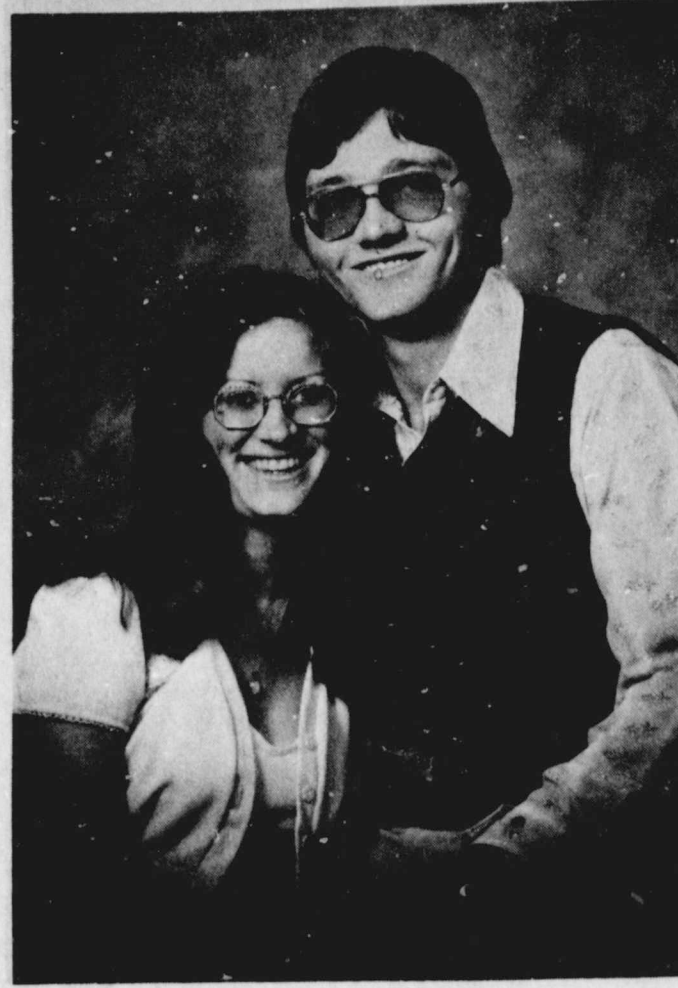

Sandhill Hobby Club met in the J. W. Becker home Thursday for an all day meeting and luncheon. Mrs. Walter Hanna assisted Mrs. Becker in hostess duties. Members answered roll call by telling something they would never forget.

was born March 1, 1941 to Paul and Mildred Chisholm. I have lived in Sudan all of my life, graduating from the local public school in 1959. On August 9, 1961 I married Jo Len Ballew and we have two children, Michelle Roxanne and Joseph Scott. I have always had a deep interest in Art, but did not take it seriously until 1973. At which time I began my studies exclusively under Elizabeth Black of Muleshoe, Texas. Morning and evening have always been the most beautiful times of the day to me. Having a powerful imagination and a true love of nature, here and there I see a tree and I imagine a vast and beautiful forest. Nature seems to have her favorite children whom she endows with a strange sensitiveness. It enables them to see and feel strange and wonderful things of which their fellow mortals are unconscious. I feel that I am one of these fortunate individuals.

I try to create a dreamy, misty atmosphere that leads you into the canvas right on into a feeling of endless return. My paintings are like a memory or a dream of how you wish things to be. I am a nostalgic person, having always, even as a very young child, had a deep love of the past. I am a romanticist, a dreamer, an artist who paints from the heart, trying to create any scene, giving one the impulse to be quiet and listen and then to join into the music and dance with that which seems to be taking place. There is music in my heart as I paint. I try to catch nature alive, on the wing, in the midst of the eternal movement of things. I am no imitator. I imitate no copy anything. When I work from nature, I am inventing, not facts, of nature; to suggest light, air, sunshine and wind, by a skillful blending of values in color and mass, so that the totality, the ensemble, breathes a harmony in which every note plays a part.

Oils will be exhibited during this Old Settlers Day at the Lemondrop Saloon. I exhibited my paintings at the Lions Club Bazaar last fall.

Over two and a half centuries ago, the first pianos were created by artists like Bartolomeo Cristofori of Italy, who became known as the Father of the Modern Piano. These pianos were given the name "pianoforte," meaning "soft-loud," because of their ability to produce either a loud or a soft musical tone, unlike earlier keyboard instruments which could produce only one volume level.

IN LIKE A LION, OUT LIKE A LAMB

Electric precipitators in power house stacks can scrub pollutants from dirty coal and capture much of the objectionable matter. These devices are expensive, however, and add to the cost of generating power. When unreasonable goals are set by environmentalists the cost of meeting such standards can be prohibitive. Striking a balance between the excesses of pollution and the extremes of their prevention is a problem we all must help solve.

Natural Gas Recommendations

AUSTIN--A Texas Farm Bureau spokesman told a legislative hearing Tuesday that irrigation farmers face a major and immediate problem with the supply and price of natural gas to fuel their irrigation pumps.

TFB State Affairs Director Pat Smith testified before a joint hearing of subcommittees of the Ways and Means and State Affairs committees of the Texas House. The May 11-13 hearing received testimony from a number of groups on energy resources.

The Texas Farm Bureau offered recommendations for both short-range and long-range solutions to the natural gas situation.

"The long-range solution for adequate supplies of energy at fair and reasonable prices is immediate return to the market system with a minimum of government intervention," Smith said.

"Many of our energy problems are a direct result of impractical, inefficient interference by government regulations, particularly the federal regulations," the Farm Bureau spokesman said.

"These interventions have created shortages, unfair and unequal prices, and must be dismantled."

The TFB legislative representative said that agriculture has major short-range problems that require immediate solution.

"The plight of the irrigation farmer is most severe and immediate," he said. "More than three-fourths of all irrigation pumps in Texas are powered by natural gas. Change to other fuels such as diesel and electricity is impractical because of cost of conversion and shortages of these sources of power," he said.

Smith said that Texas users of natural gas for irrigation are paying a much higher price for gas at the well-head than out-of-state users. He said prices have increased in many instances from 300 to 500 percent in one year.

Other long-range solutions, Smith said, include research programs, relief from unrealistic environmental standards, and preservation of natural gas supplies for making fertilizer.

One short-range solution, he said, would be state legislation "to correct inequities" of taxes between intra-state and inter-state gas.

"We believe natural gas should be taxed at the well-head on a unit basis rather than a dollar basis," he said.

Other short-range recommendations included possibility of relief through courts of inequities between Texas prices and inter-state prices, and maintenance of agriculture priorities in any allocation programs.

Smith said the increased prices for natural gas are particularly bad for agriculture because farmers cannot pass along the higher costs to consumers.

"Unless some solutions are found, there will be a large number of irrigation farmers that will discontinue or significantly alter their operations," he said.

Caution Urged In Purchase of Pesticides

AUSTIN--Beware of high-pressure telephone salesmen peddling pesticides, cautions Agriculture Commissioner John C. White.

Although no complaints have been received of such deceptive practices in Texas, it's a good idea to be on the alert, White said. "In eleven states, farmers have been duped by salesmen who claim, over the telephone, that the pesticide could be used with crops and would provide three to six years of weed control, and the salesmen failed to indicate that the product was in diluted strength," White explained.

Upon delivery, most farmers found that the label specifically read "for non-crop use."

Wheat Harvest Underway... Grain Stocks Show Increase... Dairy Production About the Same, But Incomes Lower.

The state's wheat harvest is now underway, and production will be about half of the 1975 record crop. The Texas wheat crop is estimated this year at about 66,000,000 bushels; last year, it was twice that amount.

The drought in the winter was primarily responsible for the downturn in the Texas crop.

The first load of wheat was cut recently in Frio County, and harvest is expected to pick up momentum as fields dry.

The first cutting was about a week to 10 days later than normal because of wet fields. Recent rains over the wheat area came too late to help the crop.

STOCKS OF THE FOUR FEED GRAINS, corn, oats, barley and sorghum, are estimated to be 34 per cent above a month ago for the state. Stocks of all commodities except rye are above last year.

Wheat stocks in the state stored in all positions are estimated at 51,400,000 bushels, which is 94 per cent above a year ago.

Sorghum stocks in all positions are estimated at 93,800,000 bushels. This is 33 per cent above a year ago. Corn stocks are estimated at 44,700,000 bushels; this is up 30 per cent from 1975.

Oat stocks are estimated at 5,200,000 bushels, nearly double a year ago.

Rye stocks estimated at 27,000 bushels are down 37 per cent from last year.

Barley stocks are estimated at 270,000 bushels, up 43 per cent from a year ago.

Soybean stocks are estimated at 6,000,000 bushels, up 47 per cent from a year ago.

Nationwide, stocks of the four feed grains are 25 per cent above a year ago. Soybean stocks are 31 per cent above a year ago.

FOR THE DAIRYMAN, it's an all too familiar story. Production is steady, income is down.

Milk production in Texas during 1975 was about the same as the two prior years. Texas farmers received a gross income from dairy production of \$304,000,000 last year, down two per cent from 1975. Farm value of the milk was two per cent below the previous year.

The annual average number of milk cows was 335,000; this is down four per cent from a year ago. Production per cow was only about one per cent below year-ago levels.

large stockpile of wool on the market at one time, LOOK BRIGHT The wool and mohair market appears strong due to a decrease in sheep numbers, an increase in mill use of raw wool, and increased buying of wool products by consumers. However, wool prices could suffer if Australia dumps its another 9 percent this year.

TDA Seed Lab Personnel Help Assure Bountiful Crops

AUSTIN--There was a time when farmers couldn't count on the seeds they planted to produce a bountiful harvest. Seeds were of poor quality, with low germination rates and an abundance of weeds and unidentifiable grains.

But in 1927, all that changed. That year, the Texas Seed Law was enacted. Administered by the Texas Department of Agriculture (TDA), the law covers all agricultural seed-lawn grasses, commercial vegetables and grains.

According to Agriculture Commissioner John C. White, the law requires that all agricultural seed sold in the state be labeled according to kind and variety, percent purity and name and address of the person or firm labeling the seed.

The TDA's seed labs in Giddings, Stephenville and Lubbock test samples of seed collected by departmental inspectors or sent in by private individuals.

Percentages of variety and kinds of seed, weight of weed seed and weight of inert matter are determined and compared with the labeled amounts.

A portion of the seed from the test sample is germinated, and the percent germination for the seed is determined. In addition, grow-out tests for most grain and pasture grasses are performed under field conditions.

The seed labs typically do not test vegetable and flower

SHEEP OUTLOOK NOT BAAAAAAAAD

A decrease in sheep numbers has boosted the market outlook, says a livestock marketing specialist for the Texas Agricultural Extension Service. Choice slaughter lambs should average from \$52 to \$57 per hundredweight through June and then hit the mid-\$40's during the summer before rising some again during the last quarter of the year. Sheep numbers on January 1 were 8 percent below the January 1, 1975 level, with breeding ewes down 7 percent and sheep and lambs on feed for slaughter down 9 percent in the major sheep feeding states. The average sheep is worth about \$7 more this year than last.

Chances now look good for High Plains cotton. Criswell of Idalou, President of Plains Cotton Association.

"And after two bad years in 1974 and 1975 with decent prices this year for many of us," he adds.

April rains have put overall High Plains cotton in better shape than is normal for the first half of the season. An estimated 75 percent of the non-irrigated acreage slated for cotton has received moisture for seed germination, and observations there is still time for the remainder to get into a desirable planting season.

"Price-wise, almost every indicator points to an increase in this country, export sales are up substantially from 1975, and I see very little that the U.S. or foreign producing countries can do to prevent a surplus supply."

The carryover of cotton in the U.S. for the 1976-77 marketing year is now expected to be in the area of 3.5 million acres and assuming normal abandonment and production, based on the indicated planting schedule, may come to about 10.5 million bales, giving in itself the lowest supply since 1923-24.

Median figures from USDA's latest projections export consumption ranges point to a disappointing 1976 supply of at least 12 million bales. "I don't prove correct," Criswell calculates, "the carryover on August 1, 1977, will be down to the extent of about two million bales. And it's hard to see the conditions how cotton prices could go down."

Many in the industry are concerned that the supply may be too short and cotton prices too high and, or two, causing cotton to lose markets to other countries.

"This is a very real and legitimate concern," farmer admits, "and it's something we hope to see But on the other hand, to the farmer with notes at the bank to pay in 1976, some of the cotton from 1974 and 1975, the overall situation is mighty good."

Health Status Of Floyd Residents

disability days per year per person, 7.5 of them confined to bed, as against 16.9 disability days in 1966, including 6.7 bed days. By way of comparison, the average for the nation as a whole is 17.2 disability days, 6.7 of them in bed. School children are losing 5.6 days a year for health reasons. The figures show, also, that women are more likely to become incapacitated than men. They have 18.7 days of disability a year as against 15.6 for men. The loss in Floyd County, based upon the disability rate in its area, adds up to a total of 128,000 days for the year. Least likely to have their activities curtailed by illness or injury, according to the findings, are people living on farms, away from metropolitan areas.

(Editor's note: A new beautification program has begun in the Della Plains area of Floydada. Details of the new program are explained as follows by LaVada Garrett.)

"Hurrah! The northeast section of Floydada, in the Della Plains Community, has been blessed, blessed, blessed, with eleven blocks of pavement.

"The feelings of pride and worth have spread like wild fire and people are cleaning off rubbish, planting gardens, digging and leveling front yards, planting grass and painting their houses.

"The Community Action Board was so happy to see such enthusiasm that we decided to present a flower to the most improved home in this area. Mr. and Mrs. T. R. Toney of 603 East Ross St. have been chosen for the month of May and are pictured receiving our first presentation from Mrs. Kathy Green, director of Multi-Purpose Service Center, Community Action.

"This project of the Community Action Board does not interfere with the previous plans for yard beautification awards, given each year from other sources in our city.

"We wish to thank the clubs that donated the money for this project and we hope our community will continue to be as enthusiastic as the summer months unfold into fall.

"Our deepest appreciation goes to our city officers, the Hesperian staff, and interested citizens who have labored hard for the past two years and given gratuitous services for the improvements in the Della Plains Community. Realizing, "the chain is no greater than its weakest link" and this area is also a part of this city. We thank you.

"Who will get the June presentation? We will see! We will see!"

LaVada Garrett
President of the Community Action Board

Michael McCullough, Amarillo artist, will return to Floydada on May 22 for his third Lions Club Arts and Crafts Show. McCullough will bring an outstanding collection of bronze castings, oils and water colors for display and sale in the Lion's Lemondrop Saloon Crafts building.

Born in the Texas Panhandle and reared in southern Oklahoma, Michael McCullough has a first hand knowledge of the people and the land of the Southwest. Since early childhood art has been an intriguing force in Michael's life. He painted his first watercolor at the age of seven, and took advantage of every opportunity to develop his interest in art throughout his public school education. After receiving his bachelor's degree from West Texas State University, he taught for two years as a graduate assistant while acquiring his master's degree.

Following graduation in 1973, Michael began to devote full time to his painting and bronze castings. He has held watercolor workshops throughout the area, as well as several one man shows. During the past three years his work has been exhibited in galleries in Colorado, New Mexico, and Texas, and has become a part of many distinguished private collections.

Michael finds watercolor to be his favorite painting media because it is the most difficult to master. The realistic portrayal of the land of the Southwest contained in his watercolors has greatly enhanced his profession. The limited edition bronze castings of Mr. McCullough have a rustic quality that easily appeals to any viewer. Michael enjoys painting the land and sculpting the people and views his work as belonging to no particular era but as depicting the general nostalgia of our times.

Cub Scouts Hold Relays

Pack 357 of the Cub Scouts held their annual relay events Wednesday afternoon at the City Park. Each cub participated in nine different events. Events included hop, skip & jump, stiff-legged race, 50 yard dash, puddle jumpers, sack race, shoe race, ball relay and paper relay.

First, second and third place ribbons were awarded in each event.

Caprock Hosts Disaster Planning Conference

A disaster planning conference sponsored by Caprock Hospital in conjunction with the Red Cross was held Wednesday at the Hospital. Representatives from three other area hospitals, Crosbyton, Hi-Plains (Hale Center) and Lockney, attended.

Purpose of the conference was to learn how to plan and care for victims of a disaster, and to become familiar with various organizations, both local and federal, which give assistance.

Public officials explained the city's disaster plan and their roles in coordinating

services during the disaster. Bill Feuerbacher, Floydada city manager; Bud Rainey, Floyd County sheriff; Keith Gross, Texas Department of Public Safety; Billy Gilbert, Texas High Patrol; and Stewart Dixon, law enforcement coordinator for Texas A&M West Texas Regional Training Center spoke at the conference.

Mrs. Odell Woody, R. N., presented the seminar. Mrs. Woody, an American Red Cross disaster reserve nurse, is the nurse coordinator for the West Texas division of the Red Cross.

The division includes over 100 counties. She plans and organizes these seminars as a public service to communities free of charge.

Mrs. Woody has participated in caring for victims of disasters in the Lubbock tornado, Gulf coast hurricanes, Celia and Fern, the Kentucky windstorms, the Tulsa tornadoes and flood, Camp Pendleton Vietnamese refugees, and the Brownwood, Texas tornadoes.

The conference was attended by 25 people.

WHEAT MARKET BECOMING CLOUDY

The U.S. wheat market is losing some of its strength due to a better than expected crop in the making, a sagging export market and good world crops. This points to larger wheat stocks which could put a damper on prices for the 1976 crop. Despite this increase in wheat supplies, a grain marketing specialist for the Texas Agricultural Extension Service foresees a wheat price averaging from \$3.25 to \$3.50 per bushel for the last half of the year although harvest-time prices could dip below this level. Carryover for the market year ending June 30 could be as high as 550 million bushels.

500,000 More Walleye Pike Deposited In White River

Another 500,000 walleye pike "fries" — even smaller fish than fingerlings — were added to White River Lake during April, according to Ted Karr. The young pike were transplanted from Lake Meredith, in the Texas Panhandle.

The same number of walleyes were placed in the southeast Crosby County lake last year and plans call for another half million to be deposited in 1977. Texas Game and Fish Commission personnel say the fish placed in White River Lake last year will be large enough to spawn

by 1978. Walleyes, according to experts, reproduce at the age of three.

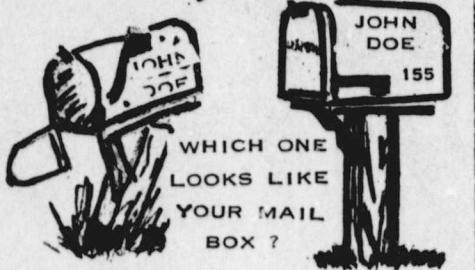

Officials determined that the pike "planted" in the lake last year on an experimental basis are now approximately three-quarters of a pound in size. They are expected to weigh three pounds each by the end of this summer, Karr was informed. They reach 12 to 15 pounds at maturity.

Eight thousand redfish fingerlings were added to White River Lake earlier this year.

during the same period of 1975.

In making the announcement of the income, K. B. Watson, company president said that first quarter income was up notably over the previous year due to

Mail Box Improvement Week May 17-22

several factors. He pointed out that Pioneer Nuclear made a sale of stockpiled uranium concentrate to Philadelphia Electric Company from the company's inventory and generated revenues in excess of \$4.6 million. He said that there was a significant increase in the net income of the production companies in the first quarter of 1976, due to marketing of increased production including the increase in the Jennings Townsite Field, in Louisiana.

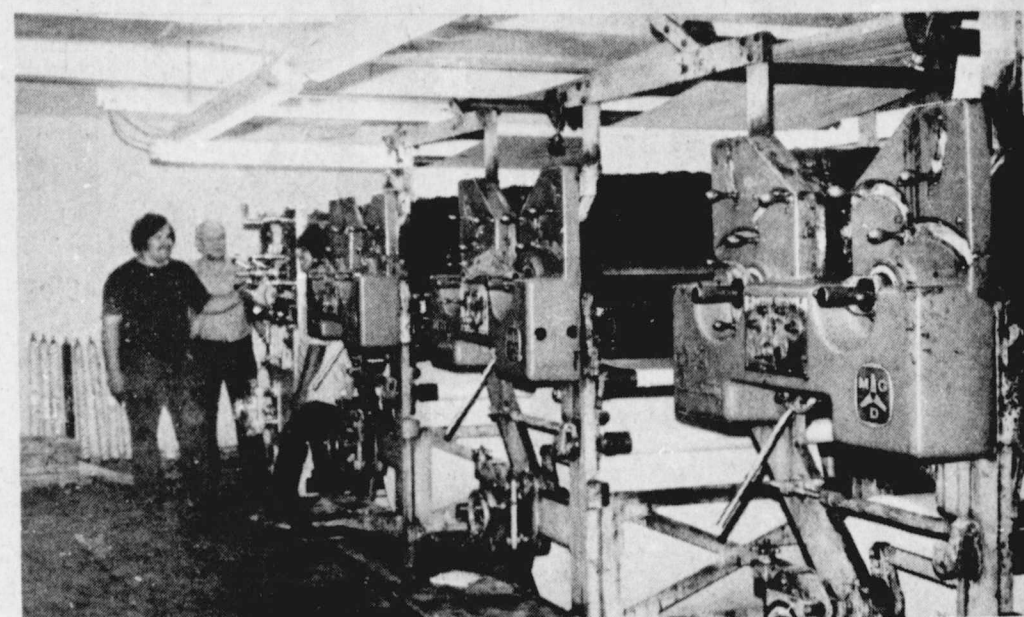

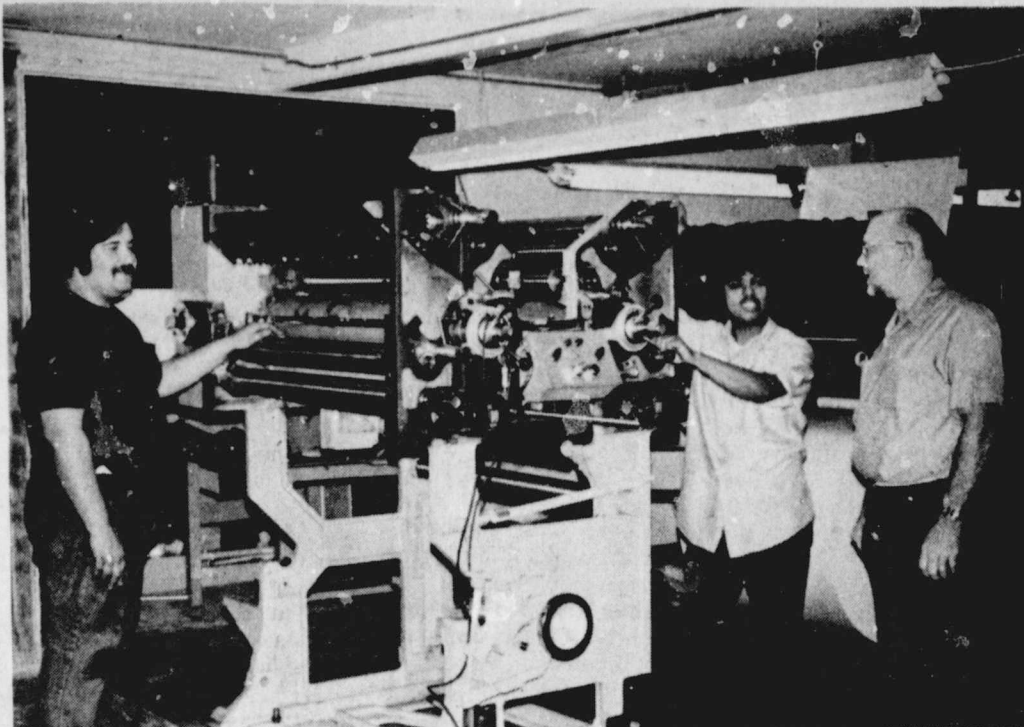

Watson went on to say, "The acquisition of International Tool and Supply Company, Inc. (ITS) was finalized on April 1, 1976, with an effective date of January 1, 1976. ITS is included in the consolidated figures for the first time." Watson said, "Sale of gas for pumping irrigation engines was up because of an unusually dry period. Additionally, a change in meter reading and billing dates for a large number of irrigation accounts resulted in accelerating more than a million dollars of gas sales from the

second quarter of the year into the first quarter with the related gas purchase costs being already recorded. This will benefit both the customer and Pioneer as volumes will be more closely related to the fiscal month." The quarterly report for Pioneer Corporation will be mailed to stockholders about the 17th of May.

What One Person Can Do

When Anthony Giacobbe, a life insurance agent, retired, he was ill. But he wasn't "through." He turned an ending into a beginning. A game that absorbed him in his convalescence became the key to a new life.

An 88-year-old policyholder-turned-friend had given the game to Mr. Giacobbe after he helped her find a place in a nursing home. The game had been given to her mother over 100 years before — a version of an early 18th century English

BLANCO OFFSET PRINTING INC. received another Goss press unit for its press Tuesday morning. The new unit brings the press capacity to 16 pages per section full size page or 32 pages tabloid size. It will also allow color runs on 12 page sections. The unit was ordered after Blanco's business increased to printing 19 newspapers per week. Pictured left to right: Goss machinist Roger Flegle from Denmark, Wisconsin, Blanco pressman Oscar Enriquez, Blanco manager Art (beardless) Ratzlaff.

pastime. It had been a lifesaver to him during his recuperation, so Mr. Giacobbe decided to share the experience.

He made a few sets of the simple game for relatives, then some for nursing homes. He called it "Tranquility." One home ordered 36; other orders started to come in. Soon he was in business — but with a twist.

His board of directors is composed entirely of children. He contacted local schools. "I asked for children of good character," says Mr.

Giacobbe, "who were willing to learn." He would teach them business procedures. "I combined my greatest loves," he says, "children and business."

Ranging from mid-elementary to high school age, they're all volunteers. Half the company proceeds goes to charities, the rest is put back into making and selling more games. "I like to keep the business small," says the chairman. So does his board. When a supermarket chain wanted to market some sets on a regular basis, the board

felt the demand would be too great and voted down the idea.

Now the tiny organization is involved in getting the name copyrighted. Says the boss, "I'm trying to teach leadership."

One person who cares and thinks creatively can make a difference.

News & Reviews

First Baptist Church Library

Sue Parson, Thelma Crawford and Foy Gooch put in a long day of work Wednesday at the Church Library. Sue is preparing a list of books, filmstrips, recordings and other media that will be recommended for Vacation Bible School workers. Now is the time to find out what resources are available for Bible School workers. There are two listening centers available as well as the usual projectors, auto-harp, record players and the Show and Tell projector. Our materials to prepare visual aids. For more information see or call Beth Pratt or inquire at the church office.

DRAMA FOR FUN by Cecil McGee is a collection of the author's favorite skits and stunts. There are "quickie" stunts that require no rehearsals and other skits that require one or more rehearsals. Melodramas, musical skits, humorous poems for choral speaking, humorous monologues, and impromptu, audience-participation skits are also included. All the activities have been used with both large and small audiences and were enthusiastically received.

An older book, but still a favorite, is **THE COKEBURY STUNT BOOK** by Arthur Depew. It contains a variety of material including stage stunts, banquet stunts, a chapter on introducing the speaker, attendance and initiation stunts. There are stunts for leaders, musical stunts, stunts for Scouts and camps and brain twisters. Just as the old games and rhymes children play at school resurface with each generation, so these stunts will enjoy a revival to a new generation.

How often do you find out at the last minute you are in charge of a party or fellowship and need something in a hurry? Lorrell Coffman Burns' **INSTANT FUN FOR ALL KINDS OF GROUPS** is the book you will need. It is prepared for use with a minimum of preparation. Each game is presented in four steps: Materials, Formation, Directions, Variations, and is designed for the many inexperienced hostesses and leaders who need games and material that can be easily and quickly understood and used.

These are just a sample of books in our entertainment section. The verticle file also contains pamphlets on recreational activities.

PERIWINKLES FOR SUMMER COLOR-Periwinkles love hot Texas summers. They bloom and flourish in hot, dry weather and can be a great addition to summer landscapes. points out a landscape horticulturist for the Texas Agricultural Extension Service. Periwinkles, also called vinea rosea, produce phlox-like flowers ranging from white to deep rose in color. The plants have glossy, dark-green leaves. Common varieties grow 18 to 30 inches tall while dwarfs reach a height of 8 to 10 inches. Dwarf types work well for edgings or borders while trailing or spreading types look good in hanging baskets or window boxes.

State To Close Lockney Satellite School

The Lockney Satellite School is closing, but not due to any problem it might be having. In fact, the necessary community interest and support was, and still is this outreach school's greatest asset. In times past, there

has been some difficulty keeping the minimum enrollment, but that is no problem now.

The following letter from the officials of Lubbock State School explains. It is printed to dispel any misguided information concerning the purpose of its closure:

Dear Lockney Community: The Lockney Satellite School which has been operating through the auspices of the Lubbock State School Outreach Department for the past seven years has endeavored to meet the educational needs of trainable mentally retarded children and youth in the community of Lockney. The real purpose of the satellite program was to

prevent or to delay the institutionalization of these children as well as to provide educational programs and services for them. Seemingly, this unique program has proven to be worthwhile and successful.

Due to the increasing responsibility of the public schools to provide programs and services for all exceptional children and youth in their communities, and the growth of Plan A in the State of Texas, the Lockney Satellite School will close on August 31, 1976. There is a strong possibility that the satellite school could close as early as August 13, 1976.

The administrators of the Special Education Co-op in the Lockney, Florida, and

Petersburg Public School districts have agreed to enroll the students of the Lockney Satellite School on the first day of classes beginning in the fall semester of 1976.

The administrators of the Special Education Co-op in the Lockney area are appreciated tremendously for your cooperation and concerns in this matter. Also, the Lubbock State School Outreach Department appreciates every board member, volunteer and Joy Hardy for your interest, concern, work and time in the satellite program.

Thank you for all your efforts and energies in regard to serving the needs of these children and their

parents. If you should have any comments or questions, please contact me. Sincerely, /s/ Tommy G. Tidwell, Ed. D. Director of Outreach & Admissions
APPROVED BY: /s/ John W. Gladden, Ph.D. Superintendent

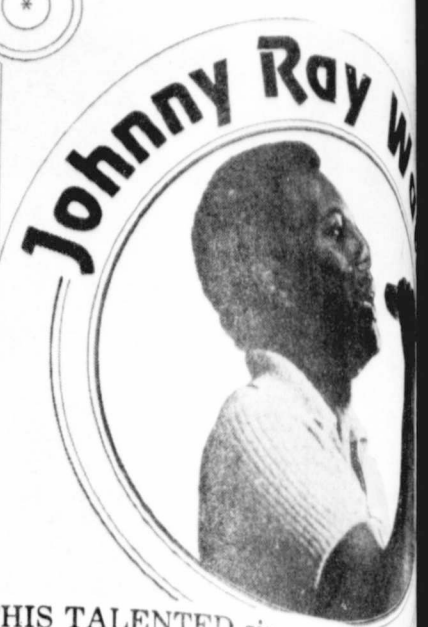

volunteers, parents, and past and present board members. The coffee/tea will be held May 25, 10 a.m. at Main St. Church of Christ. Persons attending the affair should use the church's west entrance.

LOCKNEY LOCAL

Joe Reay, son of Mr. and Mrs. Boyd Reay won 1st in 125 A-Class Shorttrack motorcycle races at Lubbock Speedbowl Saturday night, May 8. He rode a Yamaha sponsored by the Cycle Shack of Lubbock. This was his 2nd time to ever run in the A-Class. Next races will be Shorttrack and TT May 15, then motorcross and 1/2 mile oval May 16 at an all new race track south of Idalou near Lubbock Dragway.

The satellite school is also seeking applications from high school girls who would like to volunteer as school aides this summer at the satellite school. The volunteer work would continue until the end of the summer or until school closes, whichever comes first.

Also, the satellite school will give a coffee and tea honoring past and present

THIS TALENTED singer and pianist will perform at the Floydada First Baptist Church at 7:30.
