## City's July 4th Taking Shape

Plans are well along for an activity-packed fun day in Friona at the annual July 4th observation.

The 4th of July tennis tournament will begin activities, with juniors playing July 3, and adults on July 4. The tournament will be played on the Friona High School courts.

Entry fees of \$3 for singles and \$5 for doubles will be required. Entry forms are available at the Chamber of Commerce office.

The Friona Noon Lions Club will once again host their famous barbecue beginning at 11:30 a.m.

Activities at the Community Center following the barbecue lunch will include a dunking board, ping-pong tournament, horseshoe pitching contest, sack race, potato race, turtle races, softball throw, remote control airplane show, water polo and a volleyball tournament.

At the present time this week, efforts are being made to organize a gospel singing competition. More information will be presented on this activity next week.

Many other organizations will be participating in activities. The Friona Young Homemakers will sponsor an ice cream sale during the lunch. The Methodist Youth are planning some special treats also, and the Women's Division of the Chamber of Commerce will hold a bake sale starting at 11:30 a.m.

The Friona Volunteer Fire Department is selling tickets for a new pickup, to be given away on July 4th. These are available from any of the firemen.

The grand finale, as usual, will be the giant fireworks display. Once again, the 1985 display was made possible by the Friona Star volleyball team and the Friona 4-H Club. Another great display is planned, beginning at dark at Reeve Lake.

"Don't miss it. Get out and support your community. If you'd like to help, call the chamber at 247-3491. If you have extra turtles, call the office," says Kathy Beard, Chamber of Commerce manager.

Co-chairmen of the 1985 July 4th celebration are Harry Hutcheson, Leroy Cox and Ken Langley.

**A FATHER'S DAY** gift this year which was of interest was the Rand McNally *Places Rated Almanac*, which is advertised as "Your guide to finding the best places to live in America."

The guide rates 329 metropolitan areas in the country, on such factors as climate and terrain, housing, health care and environment, crime, transportation, education, the arts, recreation, and the cost of living.

It has been fun to look through the book, and see how our "chosen area" rates, according to the various studies.

One of the areas in which it apparently rates the highest is in climate and terrain. The chapter points out that Americans have an enormous variety of climates from which to choose.

The nation's climates vary from northern maritime climates, southerly mountain climates, lowland desert types, tropical "paradise" climates, subtropical climates, and extremely mild Mediterranean-type climates.

Many people have found that the weather profoundly affects our moods and emotions. Long, snowy winters which keep you confined indoors can have adverse emotional effects. Some people get irritable when the weather gets hot and they are unable to sleep well at night.

Due to the high cost of energy in regard to heating and cooling, industries which are planning to relocate may base their decision more on the climate of a given area than on its proximity to major transportation facilities.

Six criteria were used in the study on climate mildness: (1) very hot and very cold months; (2) season temperature variation; (3) heating and cooling-degree days; (4) freezing days; (5) zero-degree days and (6) ninety-degree days.

California cities completely dominated the top ten cities in the study, in fact, the state swept the first 11 rankings. Washington and Oregon sites captured seven of the next eight rankings.

The only Texas location to be ranked in the top 20 was the Galveston-Texas City area, which was 20th.

However, we thought it encouraging that out of the 329 metropolitan areas which were rated, the Amarillo area was ranked 67th, and Lubbock was close behind at 70th.

The only Texas location to rank ahead of Amarillo and Lubbock on the climate study was the Galveston-Texas City area, already mentioned. Albuquerque, New Mexico is located (according to an accompanying map) in one of the nation's mildest areas, and in the statistical study, the metropolitan area ranked 30th.

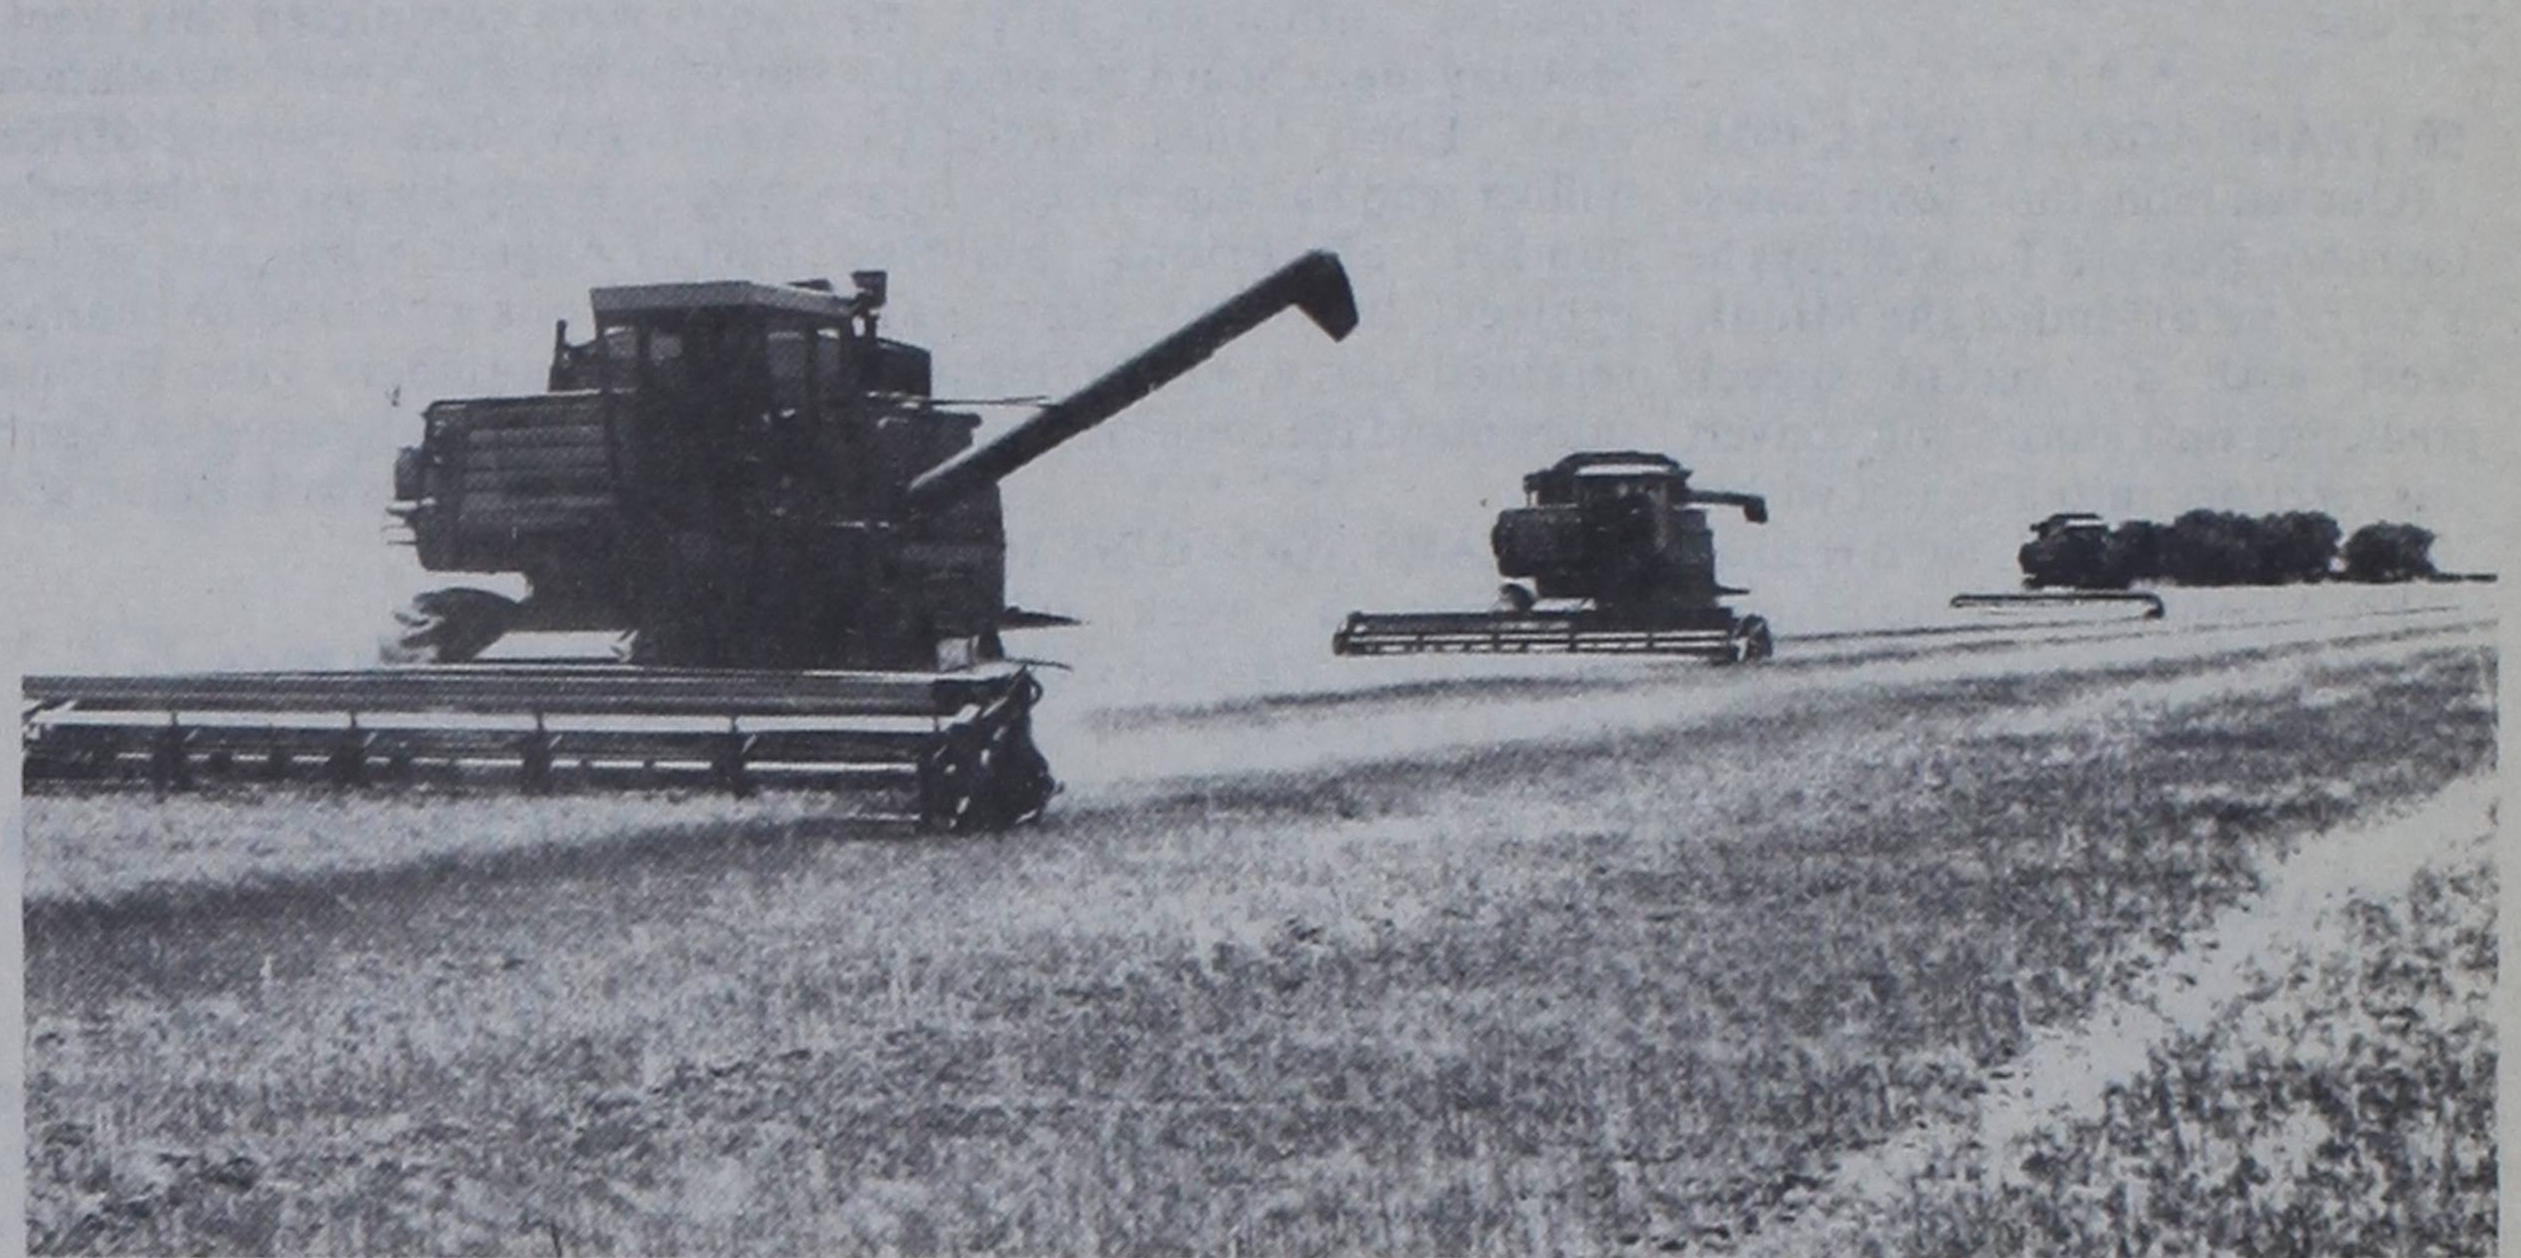

The only other Texas places which made the study's "top 100" were Midland and Odessa which tied for 71st on the list, and El Paso, ranked 82nd.

Giving the study's validity a boost (from ye editor's point of view) was the fact that our state's larger metropolitan areas were ranked like this: Dallas and Fort Worth, tied for 186th; Houston, 287th, and San Antonio, 299th.

These weren't the lowest ranking Texas cities in the climate study. Killeen-Temple ranked 308th, Corpus Christi was number 309; Victoria was 313th, and the McAllen-Edinburg-Mission triangle came in 323rd, beating out Anchorage, Alaska by one place.

Two Minnesota spots, St. Cloud and Duluth, were at 324 and 325. The "bottom of the barrel," according to the study, were Bismark, N.D., 327; Fargo-Moorhead, N.D., 328, and Grand Forks, N.D., 329.

**QUESTION OF THE WEEK:** Why should the president HAVE to ask U.S. citizens to curtail travel to Greece? Whatever happened to common sense?

**HARVEST IN FULL SWING...** The wheat harvest is in full swing in the area, and this year's crop is making banner yields, especially in the dryland fields. Most farmers are reporting better than average yields, and are hoping for a few more pretty days, so they can get the harvest over with.

## FI Merger Approved Here Tues. Wheat Harvest Hits Peak Here

At a special meeting of shareholders held Tuesday, June 18, the shareholders of Friona Industries, Inc. ("Friona") approved an agreement of merger pursuant to which Friona will merge with CHS Acquisitions, Inc. Under the terms of the merger, Friona will become a wholly-owned subsidiary of CHS Holding, Inc., effective Wednesday, June 19, 1985.

The American Stock Exchange will halt trading in Friona common stock, and Friona's stock transfer books will be closed by Friona's transfer agent upon the filing of articles of merger prior to the opening of trading on Wednesday.

At the effective time of the merger, each share of common stock of Friona Industries owned at the close of business June 18 will automatically be converted into the right to receive a cash payment of \$19.00 per share upon surrender of certificates representing common stock to Citibank, N.A., the disbursing agent.

Shareholders will receive a letter of transmittal and instructions explaining how to surrender their shares for cash. "Shareholders should follow the instructions carefully in order to receive prompt payment for their shares," said a spokesman for Friona Industries.

Wheat harvest reached its peak in the Friona area this week, according to elevator officials. Harvest of the 1985 wheat crop was aided by several days of hot, dry weather, and not even a threat of rain.

Friona Wheat Growers' manager Ron Smiley said that the elevator had its biggest day of the season on Thursday, and that receipts had already passed the elevator's total for 1984. Smiley said it was hard to guess what percentage of the crop had been harvested. "The dryland is probably 75 per cent harvested, and the irrigated may be between 50 and 60 per cent complete," Smiley said.

This has been one of the best harvest seasons the area has seen in quite some time, both from a weather and a yield standpoint. The only drawback has been that the price of wheat was not higher.

Farmers did get a little price boost this week, when Santa Fe Railway lowered its freight rate somewhat, and that difference was added to their price by most receiving points. The market price at Friona Wheat Growers on Friday was \$3.00 per bushel.

There have been scattered reports of farmers who thought the rust problem hurt their yields--mostly in the irrigated fields. But on the other side of the coin, the

areas, have continued to be great. Some fields of 1,000 acres have shown yields of 35 to 40 bushels, it was noted.

"If we can get another week of pretty weather, there won't be much wheat left to harvest," Smiley said.

**Tax Check Shows Gain**  
The City of Friona's sales tax check for the month of June amounted to \$6,790.73, according to Comptroller of Public Accounts Bob Bullock. This was up from a total of \$6,492.75 for the same period in 1984.

The total payments for 1985 to date for the city amounts to \$57,976.12. This was an increase of \$7,580.64 over the same time period in 1984, or a gain of 15.04 per cent.

The two other municipalities in Farmer County did not do quite as well as Friona on the current check. Farwell's sales tax payment of \$6,790.73 was slightly above that of the previous year, \$6,492.75; and Bovina received \$1,261.73, up by \$108 from their check of \$1,153.44 at the same time a year ago.

**ENTERTAIN....** A group of young musicians entertained last Thursday night at the Lions' Ladies Night banquet. Singers, from the left, are Allison Johnston, Sara Gerles, Randy Gerles and Bryan Johnston. They were accompanied by Clint Mears, shown in the background.

**RIBBON-CUTTING....** The Friona Chamber of Commerce held a ribbon-cutting at Big Wheels Truck Wash during the company's grand opening this week. From the left are Larry Knowles, Mike Hanes, Kathy Beard, Diane Tatum, Patty Corbell, Bianca Burkett, Hack Corbell, Dave Hutson, David Barnett and John Mars.

## Classes In English Slated To Begin

On Monday, June 24, summer classes will begin in the Friona Schools for youngsters who will be in kindergarten or in the first grade for the 1985-86 school year and who are limited English proficient.

Pre-registration was done prior to the end of the last school term, but students can still enroll in this program. To be eligible, a child must be given a language proficiency test and qualify as limited English proficient. Children will be tested on Monday by the school to determine eligibility.

There is no charge for this program, however parents must provide transportation to and from school. All students who are pre-registered and all who desire to participate if they are eligible should report to the north end of the primary building at 9 a.m. on Monday, June 24. Classes will be held from 9 a.m. until 12 noon daily and will continue for eight weeks.

"This program should be strongly considered by all parents

who have eligible children as it will definitely give the child an advantage when school begins and assist them in being able to function more effectively in their kindergarten or first grade class next year," said Superintendent of Schools Tom Jarboe.

Trudy Browning, kindergarten teacher, will be the teacher of these classes and provided the numbers of youngsters participating justify, will be assisted by a teacher's aide.

This program is being offered as one of the new requirements of the recently passed school reform bill in Texas.

# Friona Flashbacks

....from the files of The Friona Star

## 55 YEARS AGO--JUNE 20, 1930

Friona is to have its first real talking picture in the Marvellette Theatre Saturday night and it is expected that a large number of Friona people will take advantage of the opportunity to see a real talking movie. Manager H.P. Eberling has gone to a large expense and a large amount of labor to install this up-to-date and first class photophone apparatus so that Friona might boast of as good as the best in tone moving pictures.

## 50 YEARS AGO--JUNE 14, 1935

(Quoted from the Clovis News-Journal): Rexford Tugwell says he is sorry he offended the Middle West with his recent speech predicting dust storms will convert this territory into a desert within 300 years, and that if we'd read all of his Albany speech, no offense would have been taken. But then, there are those who prefer the offense to a headache.

## 45 YEARS AGO--JUNE 14, 1940

The Friona Chamber of Commerce is sponsoring a community softball program on Tuesdays and Thursday nights of each week, the games being played on the school athletic field under the lights. Men from Rhea, Black, Bovina, Lazbuddie, Lakeview, Midway, Oklahoma Lane, Farwell and any and all other communities are being invited to participate.

## 40 YEARS AGO--JUNE 15, 1945

According to the geologists, vast underground rivers circulate under the flat plains of the Panhandle, and last week Ernie Neff, working at an irrigation well on the Gugenheim place 12 miles northeast of Hereford, found some evidence to back up the theory. For in the irrigation ditch Neff found a live, freshwater clam—a specimen two inches wide and three and a quarter inches long. The well on the Gugenheim place has been in operation only four or five months.

## 35 YEARS AGO--JUNE 16, 1950

'Friona's growing water systems, now boasting of 445

services is a far reach from the modest beginning when in 1929 the city system was inaugurated with approximately 50 services," stated City Manager Roy Wilson of the Panhandle Water Works Association at its Friona meeting last week.

## 30 YEARS AGO--JUNE 17, 1955

Construction of a new Parmer County Community Hospital will be underway within 30 days. That was the disclosure made public by hospital authorities after the Monday night board meeting this week. Elmo Jones, Littlefield builder who has supervised a large number of Friona building projects in recent years, was retained on a salary basis to superintend the construction job.

## 25 YEARS AGO--JUNE 16, 1960

During a week of hard downpours, Parmer County received an average of from six to eight inches of moisture, according to reports from farmers in different sections of the county. Concensus of the area farmers seems to be that the crops were not damaged to any great degree, and that if the sunny weather continues, crop prospects are good.

## 20 YEARS AGO--JUNE 17, 1965

Slow-falling soaking rains have area farmers smiling this week. The City of Friona has measured 3.7 inches for a three-day period last Wednesday through Friday. The moisture fell just right for such young crops as cotton and maize. The fall was heavier in the Lazbuddie Community, which also received some hail damage.

## 15 YEARS AGO--JUNE 18, 1970

Postmaster Wright Williams announced this week that beginning on Saturday, June 20, and every Saturday thereafter, the windows will be closed with the exception of a 30-minute period from 9-9:30 a.m. when they will open for handing out of parcel post mail.

## 10 YEARS AGO--JUNE 15, 1975

The contract for purchase of 7.81 acres of land for the location

of the Friona Nursing Home was signed this week, with the City of Friona purchasing the land from Tommy Jones. The property is located just north of the present city limits, bounded by Main Street on the west and Welch Acres on the east. The council was also shown the architect's drawing for a 60-bed facility. The drawings included the floor plan and a front elevation.

Work on the new post office building is progressing nicely. The walls were completed this week and the building's roof installation was begun. The new post office may be ready for use by the early part of August. Some post office box patrons will need to change their box numbers when Friona moves to its new location, as there will be no numbers larger than 958 at the new office.

## Pressure Canners To Be Tested

Pressure canner testing will be conducted by Janette Pierce, Parmer County Extension Agent, Thursday, June 27 at the Community Room of Friona State Bank.

The testing will be done from 11 a.m. to 2 p.m. Canners with dial gauges will be tested free of charge. Bring only the lid.

## Consultant To Aid Industrial Growth

Vicki M. Jacobs, the new consultant in the Southwestern Public Service Company (SPS) Area Development Department, recently completed a two-day Joint Venture Financing workshop that increased her ability to advise companies requiring external financing for expansion.

Financing is becoming especially important in today's business world, Ms. Jacobs explained, because few companies today can raise independent capital to finance expansion.

"Ms. Jacobs is a member of the department that helps the 52,000-square-mile SPS service area attract business and industry. Teamwork among the communities, industries, and SPS is essential to generate growth," said Jon Krebs, SPS' manager of area development.

The department provides economic statistics, plant-site information, and other data vital to potential new employers for the area, Krebs said.

Ms. Jacobs joined SPS on April 1, 1985. She formerly was the director of economic development of the Panhandle Regional Planning Commission (PRPC).

She holds a master's degree in economics, with an emphasis in labor-market analysis, from North Texas State University in Denton.

She held various positions with the PRPC—an association of Texas Panhandle local governments—since 1977. In her last position, her responsibilities

included small-business loans, agricultural related bonds, and assistance with plant locations.

Ms. Jacobs is on the board of directors of the Amarillo Guidance and Counseling Center.

SPS primarily provides electricity service to a population of more than one million in the Panhandle and South Plains of Texas, eastern and southeastern New Mexico, the Oklahoma Panhandle, and southwestern Kansas.

VICKI M. JACOBS

## An Independent View On The Purchase Of Insurance

Wendell Gresham Says . . .

**Commercial Auto** Commercial Automobile Insurance—which includes trucks, fleets of cars and other vehicles used for industry and commerce—is a highly specialized type of protection, and the premium from company to company can vary greatly. Here are some tips.

- 1) You'll do well to see an agent who represents a number of companies so you can be given some options.
- 2) When it comes to the premium, driver's records count. So does the location of your business, the type of goods you carry, where you transport them, and whether you operate day or night.
- 3) If you operate in high risk areas, or transport "target items" such as alcohol, tobacco, furs, etc., you will probably be required to utilize some type of alarm system. Even if it is not required, it's usually worth it to you in terms of fending off would-be thieves and hijackers. A system that is out of your driver's control is by far the best type to have.
- 4) Safety rules and constant reminders reduce accidents; reduced accidents reduce premiums. What you pay is in direct relationship to loss experience and potential loss—and much of it is within your control.

## REMEMBER WHEN?

Twenty years ago this week, work started on tearing down the old red brick school building, to make ready for construction of new classrooms for the school. Glenn E. Reeve, Sr., one of the earliest students to use the building in 1923, and Carol Morgan, who was among the last class of students to attend classes in the building, posed in front of the landmark. Friona State Bank is happy to have presented this glimpse from the past in Friona.

Each depositor insured to \$40,000

FRIONA STATE BANK

# Special Auction Nets \$188,021 Cash

State Treasurer Ann Richards has announced that the state collected \$188,021 during the first Treasury auction of unclaimed safe deposit boxes the weekend of May 11-12.

"The auction far exceeded my prediction of what it would bring in," Richards said. "I said before the auction that I would be happy if we collected \$150,000. I am ecstatic that we did as well as we did, I think the bidders got some real bargains—but the real winners are the school children of Texas, who will receive the proceeds of the sale."

The State Treasury auctioned more than 11,000 items that it had collected from unclaimed safe deposit boxes. The most expensive item sold during the two days was a 3.25 carat diamond tie pin that sold for \$9,250 to an Austin couple.

The most unusual happening occurred during the Friday preview—an Austin woman discovered items belonging to a relative of a sorority sister, including the gold locket used by Treasurer Richards in the widely distributed television announcements of the auction.

The items belonged to a woman

who had died in 1899 and were pulled from the auction. They will be returned to the woman's heirs who did not know that the items even existed.

Under state law, the owners or heirs of any items sold during the auction can claim the sale price of the items at any time. But until or unless such claims are made, the money is used by the State of Texas. In this case, the proceeds of the auction will be turned over to the Foundation School Fund.

"During a time of severe financial strain for the state, I am extremely pleased that the State Treasury can add a little bit of non-tax revenue to help our taxpayers—and our public schools," Richards said.

An additional bonus, Richards said, is the sales tax collected from the sale, which came to \$8,929.

## Cheese You Can Freeze

Recent tests on freezing cheese should be good news for those who would like the convenience of having a stock of their favorite cheeses on hand.

Ten different varieties of cheese proved successful for home freezing in tests reported by the Minnesota Experiment Station, says nutritionist, Dr. Dymple Cooksey.

But the success depends on rapid freezing as well as the composition of the cheese, explains Cooksey, a specialist with the Texas A&M University Agricultural Extension Service.

"The temperature in the freezer should be zero degrees F or lower, and the pieces or packages of cheese should weigh no more than one pound," she advises.

The varieties of cheese that were successfully frozen and kept in freezer storage for six months in the Minnesota tests were: Cheddar, Brick, Port du Salut, Swiss, Provoloni, Mozzarella, Liederkrantz, Camembert, Parmesan and Romano.

"The three brands of Blue cheese tested all became crumbly and mealy after freezing," notes the specialist. "But if Blue cheese is to be used for salad or dressings, this would not be a disadvantage and might make the cheese handier to use."

Since the cream cheese in the tests became watery and mealy, it is not recommended for freezing, Cooksey says.

To freeze cheese, the specialist advises cutting it in pieces no larger than one-pound size or using packaged cheese weighing no more than a pound. Small-size cheese like Camembert and Liederkrantz may be left in their original package or you can use an overwrap for extra protection.

Any cut cheese, such as wedges of Cheddar, should be closely wrapped in freezer-foil. Press the foil tight with the hands to keep out air. Freeze at zero F or lower, and thaw in the refrigerator.

**MARY'S LAMB?...** When the Dale Schuelers brought a lamb to the Story Hour program recently at Friona Public Library, it made a big hit with the youngsters. Every child had to take their turn at petting the animal.

## Sorghum Farmers Call For Program

Farmers throughout Texas have decided the key to their economic recovery is in their own hands.

They have called for a referendum on a statewide checkoff on grain sorghum to provide funding for development and expansion of markets for their grain. A survey conducted by Texas A&M University Extension Service confirmed that a majority of farmers who responded favored a grain sorghum checkoff for this purpose. In calling for the referendum, dozens of farmers expressed the opinion that it is up to farmers, themselves, to do something about slumping demand and depressed prices.

"Farmers must continue to work for a favorable farm program," said J.B. Cooper, a cotton and grain farmer who lives at Roscoe. "It is only right that farmers who are providing the good life for the rest of the nation should share in that prosperity. But it is clear that farmers can't wait for solutions from the government. The only way we can muster enough resources to implement an effective market development program is through a uniform checkoff."

"I am a firm believer that farmers need to help themselves," said Mark Lamon, a twenty-three year old farmer at La Coste in Medina County, "because no one else is going to do it for them."

That statement was repeated by J.L. Massey of Robstown, who has been farming for more than forty years. "We need to promote our own product because no one else will do it for us," Massey said. "The price of grain sorghum today is far below the cost of production, therefore, I am strongly in favor of a grain sorghum checkoff to support a program to increase sales and for research to seek ways to reduce production costs."

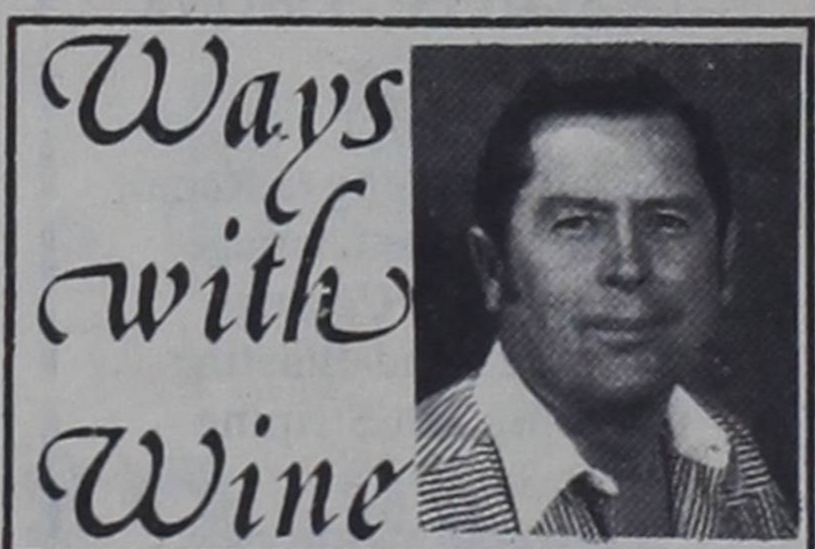

Ben Scholz, a grain sorghum farmer in the Wylie community of Collin County, said, "I believe in a self-help program for producers. Markets don't just happen. Unless we, the farmers, work on building markets, we cannot expect sales to

expand or prices to improve."

U.S. grain sorghum, as a commodity, has some unique marketing problems. Its quality and value are not universally accepted. Most of the world's sorghum production is of a high tannin type which is poor in nutritional value. To overcome prejudice toward sorghum in general, it is necessary to demonstrate that U.S. sorghum is different. Every grain importer in the world is a potential customer for U.S. sorghum but the producers must prove that it is better than the poor quality sorghum most of the world knows. This proof must be demonstrated in feeding trials and projects throughout the world.

Texas already has a grain sorghum checkoff in a twenty-nine county area of the High Plains. It was established in a 1969 referendum and is called Texas Grain Sorghum Producers Board (TGSPB). TGSPB collects an assessment on sorghum at the time of its first sales transaction. Producers who do not wish to participate, simply request and promptly receive a refund. Last year, more than 95 per cent of the farmers in the TGSPB area supported the checkoff.

The referendum which established TGSPB provided that the program would remain under the control of farmers who produce within the referendum area. Producers elect a board of directors who set the rate of the assessment within limits approved by the farmers. The board administers collection procedures and projects.

by David Hutchins

Whether you know exactly which bottle of wine you want or would like our advice THE STORE wants you to know that we carry a fantastic selection of domestic and imported wines. Wines from Germany and France as well as some from California and New York can be found right on our shelves. We have wines to suit every palate and priced to suit every pocketbook. Come by and see us at 400 N. 25 Mile, 364-7802. Open: Mon.-Sat., 10-9, use our drive up door until midnight for beer and wine, on Sun. only beer and wine are available from 12-12.

It is exasperating to attempt to purchase another bottle of a superb bordeaux only to find that you have forgotten its name. Why not keep a wine log? It does not have to be fancy. A notebook will do. Simply jot down the name of a wine, its vintage, the date and your impressions of it. This way, you will not have to rely upon memory when it comes time to select a wine to go with a special dinner. With even a modest wine cellar, a systematic wine log can be very useful. For the particularly ambitious, it also makes sense to remove the wine label from the empty bottle with warm water. Then, mount it in the log.

JUNE 26

# Bailey County Field Day Is Scheduled

An "Irrigation Demonstration Day" highlighting the latest in irrigation water management techniques and equipment has been scheduled for Wednesday, June 26, from 8:30 a.m. to 3:30 p.m. on land owned by Sam Harlan located three miles west of Muleshoe on Highway 84, then three miles north on FM 2079, and one-half mile west on the county road.

Featured attractions during this hands-on demonstration day will include individual discussions and demonstrations of soil moisture monitoring equipment and techniques, pump plant energy efficiency testing, a display of a drip irrigation system, irrigation application efficiency testing on both a center pivot and surge irrigation system, and soil infiltration testing.

Mike Risinger, Soil Scientist for the USDA-Soil Conservation Service in Lubbock, will demonstrate soil moisture monitoring tools including tensiometers, gypsum blocks used with resistance meters and the neutron soil moisture probe, as well as discuss the benefits of monitoring the moisture content within your crop root zone area. Ken Carver, Assistant Manager for the High Plains Water District, will have equipment set up and will explain the benefits of having an irrigation pumping plant energy efficiency test performed on your well. Additionally, Jerry Funck, Agricultural Engineer with the Water District, will demonstrate a

surge irrigation system which is used to increase the efficiency of furrow irrigation.

Obie Kelley, Soil Conservationist, and Warren Givens, Soil Conservation Technician, for the Bailey County Soil Conservation Service, will check the irrigation application efficiency of a center pivot sprinkler system. Dan Blackstock, Soil Scientist with the SCS, will demonstrate and discuss the use of infiltration rings to determine the water infiltration rates of the soil on the farm, and Tim Dybala, Area Irrigation Specialist, will have on-hand a mobile display of a drip irrigation system and will discuss and demonstrate drip irrigation.

Personnel from the Soil Conservation Service and the Water District will be on hand throughout the day to provide individual discussions of any or all of the techniques and equipment featured during this field day. District Conservationist Jim Lutz invites area producers to "come at your convenience and as you are anytime during the field day for a one-on-one discussion of any of the new techniques available to help producers manage their irrigation water to its greatest advantage."

This hands-on demonstration day is sponsored by the Black Water Valley Soil and Water Conservation District, the Soil Conservation Service, and the High Plains Underground Water Conservation District and its Bailey County Committee.

**INVITATION FOR BIDS**

Sealed proposals addressed to the Honorable Mayor and City Council of the City of Friona, Texas, will be received at the office of the City Manager until 2:00 P.M., Monday, August 5, 1985, for expansion and up-grading of the existing wastewater treatment plant and related improvements for the City of Friona, Texas.

Immediately following the closing time for receipt of bids, proposals will be publicly opened and read aloud in the Council Room. Any bid received after closing time will be returned unopened.

Bidders must submit a Cashier's or Certified Check issued by a bank satisfactory to the Owner, or a Proposal Bond from a reliable Surety Company, payable without recourse to the order of the City of Friona, in an amount not less than five percent (5 percent) of the bid submitted as a guaranty that the Bidder will enter into a contract and execute bonds and guaranty in the forms provided within ten (10) days after notice of award of contract to him. Bids without the required check or Proposal Bond will not be considered.

**NOTICE OF REQUIREMENT**

Each bidder must fully comply with the requirements, terms, and conditions of the U.S. Environmental Protection Agency, Region 6 Small, Minority, and Women's Business Enterprise (SMWBE) requirements, as administered by the Texas Department of Water Resources, including the goals for small, minority, and women's business participation during the performance of this contract. The bidder commits itself to the goals for small, minority, and women's business participation contained herein and all other requirements, terms and conditions of these bid conditions by submitting a properly signed bid. Requirements are contained in 40 CFR Part 33; Federal Register March 28, 1983, and Vol. 46, No. 12, (Federal Register January 19, 1981); and EPA, Region 6 Policy Statement, February 1, 1979 and Executive Order 12432, July 14, 1983.

The successful Bidder will be required to furnish a Performance Bond and a Payment Bond, each in the amount of the contract, written by a responsible Surety Company, authorized to do business in the State of Texas, and satisfactory to the Owner, as required by Article 5160, V.A.T.C.S., as amended by H.B. 344, passed by the 56th Legislature, Regular Session 1959.

Bidders are expected to inspect the site of the work and to inform themselves regarding all local conditions.

Information for bidders, proposal forms, specifications and plans are on file in the office of the City Manager, City Hall, City of Friona, Texas, and at the office of Parkhill, Smith & Cooper, Inc., Consulting Engineers, 4010 Avenue R, Lubbock, Texas.

Copies of the plans, specifications and contract documents may be secured at the office of Parkhill, Smith & Cooper, Inc., Consulting Engineers, 4010 Avenue R, Lubbock, Texas 79412 (Phone (806) 747-0161) upon a deposit of Fifty Dollars (\$50.00) for each set of plans and specifications. Upon return, in good condition, and within 10 days from the time for receiving bids, of each set of documents, one-half (\$25.00) of

## Ex-Resident's Services Are Held Locally

Graveside services for Lillian Pope Collins, 81, were held Wednesday, June 19, at 10:30 a.m. in the Friona Cemetery with Leon Talley, minister of the Sixth Street Church of Christ officiating.

Arrangements were by Ellis-Blackwell Funeral Home of Friona.

Born August 15, 1904 in Tennessee, she married Lloyd L. Pope. He preceded her in death in 1941. She married D.C. Collins. He preceded her in death in 1967.

Mrs. Collins was a former resident of Friona and was a member of the Church of Christ. She died June 17 at the Dallas County Hospital in Carthage, Arkansas.

Survivors include two sons, Bill R. Pope of Carthage, Arkansas and Malcolm Collins of Oklahoma City, Oklahoma; three sisters, Lera White and Louise Dotson, both of Harlingen, and Katherine Coffman of Portales, New Mexico; two brothers, Vernon Hale of Tulsa, Oklahoma and Buford Hale of Lyford; six grandchildren and four great-grandchildren.

## Rites Are Held For E. Jones

Funeral services for Emma Jones, 76, of Friona, were held Wednesday, June 19, at 3 p.m. at Hudman Funeral Home Chapel with Paul Jones, minister of the Church of Christ, and Dr. Charles McCook, officiating.

Burial was in Dickens Cemetery under the direction of Hudman Funeral Home.

Born December 17, 1908 in Stephens County, Texas, she married Loyd Jones on August 26, 1924 in Throckmorton. He preceded her in death in 1983. She was a member of the Church of Christ. Mrs. Jones lived in Dickens County 20 years and lived in Post more than two years before moving to Friona in 1983. She died Monday, June 17, in Prairie Acres Nursing Home in Friona.

Survivors include one son, Ralph Jones of Lubbock; three daughters, Jerry Spencer of Friona, Patsy Croy of Fort Mead, Florida, and Virginia Grigsby of Lubbock; one sister, Pearl Brumfield of Ralls; 19 grandchildren, 26 great-grandchildren and two great-great-grandchildren.

TOMMIE PARKER

## Rites Held Friday For T. Parker

Funeral services for Mrs. Tommie Lee Parker, 75, were held Friday, June 21, at 2:30 p.m. in the First United Methodist Church of Friona with Rev. Danny Parker of Houston, officiating.

Burial was in the Friona Cemetery under the direction of Ellis-Blackwell Funeral Home of Friona.

Born December 3, 1909 in Fannin County, she was a long-time resident of Parmer County. She married Willis Parker August 4, 1930 in Clovis, New Mexico. He preceded her in death March 17, 1951.

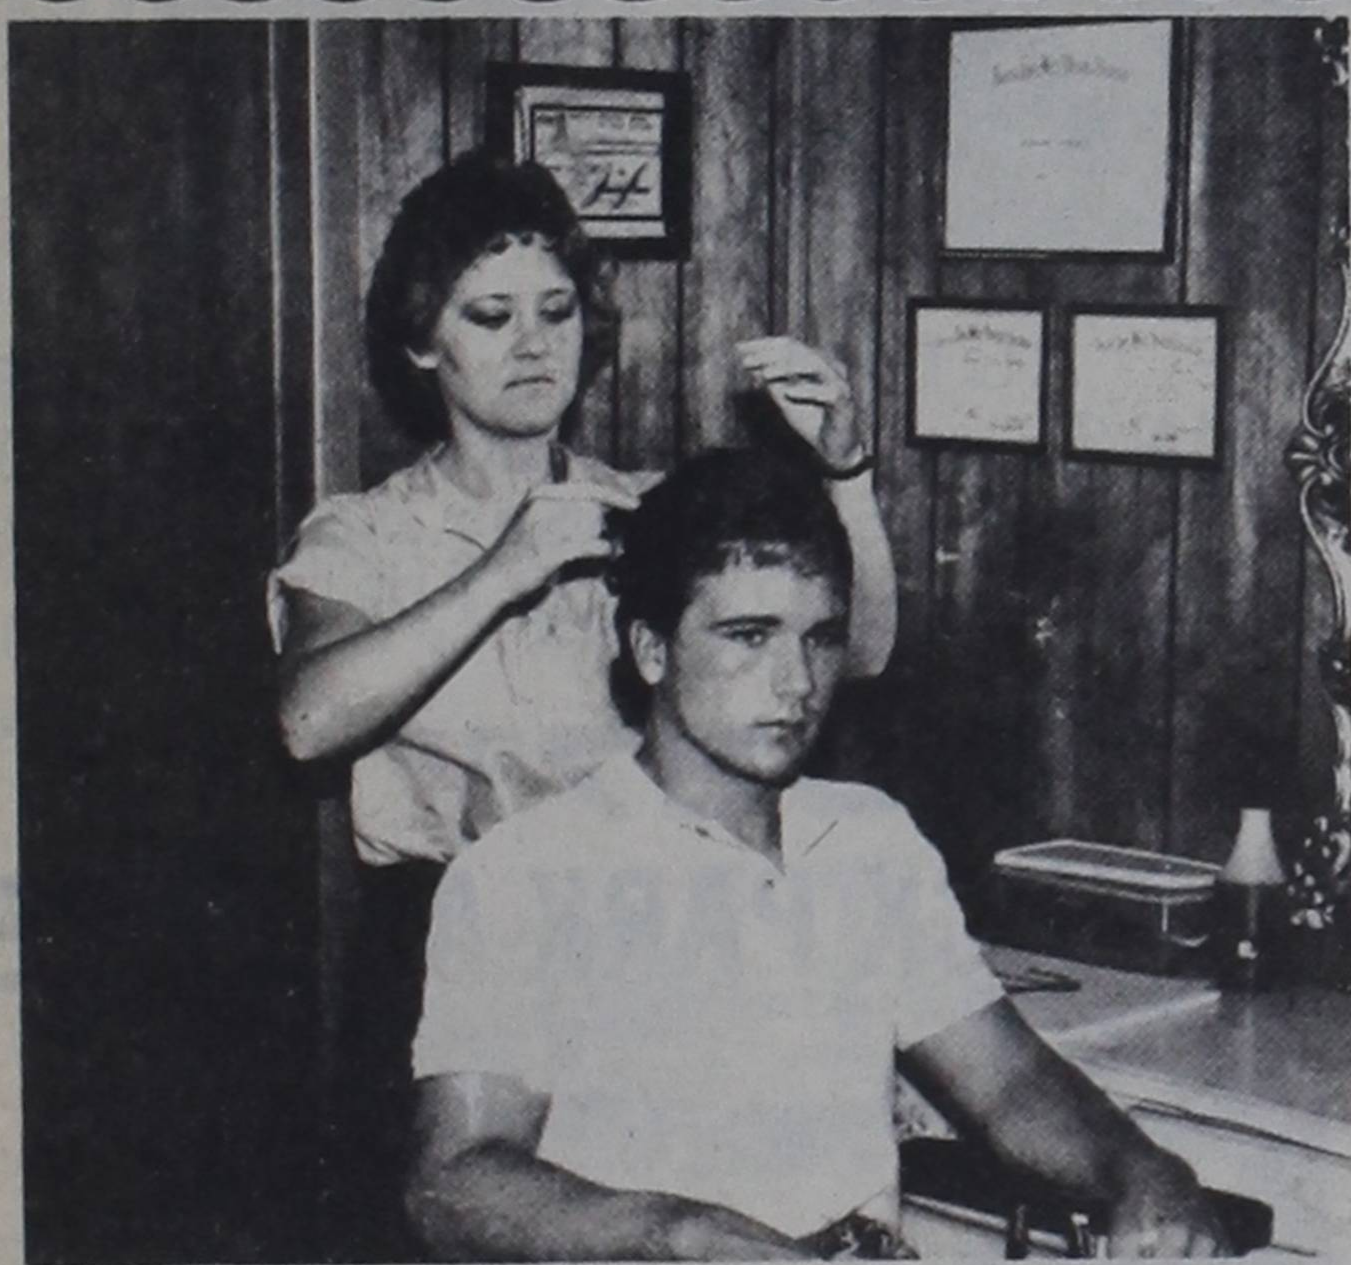

Mrs. Parker was a member of the First United Methodist Church of Friona. She died Tuesday, June 18, in St. David's Community Hospital in Austin. She had lived in Austin for the past three years, moving there from Friona.

She was preceded in death by one son, Arthur Thomas Parker in 1943; one grandson, Donnie Woods, in 1964; two brothers, Noel Berry and Emmett Berry; and one sister, Jewel Ashcraft.

Survivors include one son, Johnnie Parker of Worland, Wyoming; three daughters, Mrs. Louise Woods of San Rafael, California, Mrs. Janie Langford of Austin and Mrs. Carolyn Carlisle of Anton; one brother, Neal Berry of Leonard; eight grandchildren, and one great-grandchild.

Pallbearers were Clyde Woodard, Gib Boatman, George Reed, Irby Carlisle, Leon Langford and Weldon Fairchild.

JUNE 18

## Mrs. Hall's Rites Held In Muleshoe

Funeral services for Essie L. Hall, 76, of Muleshoe, were held Tuesday, June 18, at 11 a.m. in the Muleshoe Church of Christ with Royce M. Clay of the Church of Christ in Big Spring, and David Alessandro of Muleshoe Church of Christ, officiating.

Burial was in the Bailey County Memorial Park under the direction of Ellis Funeral Home of Muleshoe.

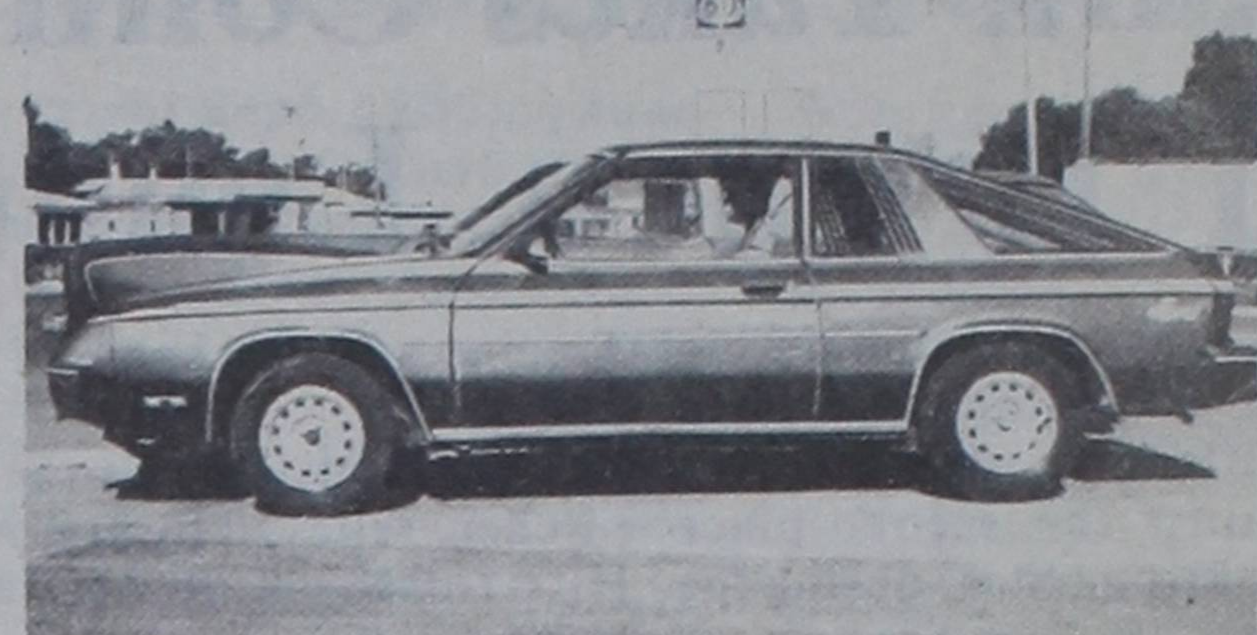

Born March 30, 1909 in Lingleville, she married Luther R. Hall February 26, 1926 in Charlie. She had been a resident of Muleshoe for the past nine years, moving there from Lazbuddie. Mrs. Hall was a member of the Muleshoe Church of Christ. She

died Saturday, June 15, in St. Mary's Hospital in Lubbock.

Survivors include her husband, Luther Hall of Muleshoe; three sons, James T. Hall of Fort Worth, Eddie J. Hall and Kenneth W. Hall, both of Friona; three daughters, Mrs. James (Mary) Beavers of Kress, Mrs. Gary (Glenda) Dale of Muleshoe, and Mrs. Troy (Mona) Sharrock of Portales, New Mexico; one sister, Mrs. Opal Townsend of Fresno, California; one brother, Calvin Wilcoxon of San Jose, California; 13 grandchildren and 14 great-grandchildren.

Pallbearers were grandsons, Britt Hall, Alan Hall, Brent Hall, Kelly Beavers, Kevin Hall, Mike Dale, Terry Sharrock and Jeff Sharrock.

# Bank Takes Control In Bronco League

Friona State Bank took a big step toward winning the Bronco League title by scoring a pair of wins against the second-place team, the Friona Star, during the past week.

Last Friday, June 14, the Bank walloped the Star, 20-0, as Daniel Saiz pitched a five-hit shutout. Saiz struck out five batters, and walked only four. He preserved his shutout by striking out the game's final batter as Friona Star had loaded the bases on a pair of walks and an error.

Friona State Bank was out of the starting blocks like Spend-A-Buck, scoring 12 runs in a big first inning that saw 17 batters parade to the plate. Hits by Louis Abeyta, Steven Dickson, Bryce McMurtrey, Gary Stowers, Junior

# Sr. Babe Ruthers Win Two

Friona's 16-18 year old Senior Babe Ruth Leaguers have won both of the games they have played this season.

The team scored an 8-2 win over Muleshoe in a game played at Muleshoe, and this Tuesday took an 11-3 win over Plainview in a game played at Plainview.

Jeff Dickson and Leroy Mercado each scored a pair of runs for Friona, as did Brad Moyer, who rapped out three straight doubles in the team's win at Muleshoe.

Friona scored two runs in the first inning, with Mercado and Dickson coming around after one man was out. Moyer led off the second with his first double. Frankie Perez singled and Gilbert Davila walked. All scored before the inning was over, for a 5-2 Friona lead.

Dickson and Mercado each got hits and scored in the fourth, as Friona upped its lead to 7-2. Moyer led off the fifth inning with his third double, and came around to score the final run for Friona in the 8-2 win.

At Plainview on Tuesday, the score was tied, 3-3 after four innings, before Friona came up with a four-run fifth inning. Jaime Sanchez, Danny Perez and Chuck Ellis all got on base, and Brent Gatlin's bases-loaded double gave Friona the lead to stay.

Friona added three insurance runs in the seventh. Ellis, Perez and Gilbert Davila did the scoring.

Trevino and Saiz sparked the big inning.

Scott Houston was the losing pitcher, relieved by Jim Ancira. Hits for the Star were by Pat Upton, Jason Jass, Chad Hamilton, Ancira and Russell White.

On Monday, Friona Star got back into the win column, with a 33-2 smashing of Reeve Chevrolet-Olds.

The fourth inning proved to be a bad one as far as Reeve was concerned as 26 Friona Star batters paraded to the plate. The first 15 batters up in the inning all scored, before Reeve C-O ever registered an out.

Chad Hamilton and Greg Salyer each scored five runs for Friona Star. Jim Ancira and Julian Colunga scored four apiece. Alex Mendoza swung a mean bat for Friona Star, banging out three triples and scoring three times.

Reeve Chevy-Olds scored twice in the fifth to avoid the shutout.

Pat Upton threw a one-hitter, as Bobby Tagle got the only hit for his team.

In the rematch on Tuesday between Friona Star and Friona State Bank, Friona Star had a six-run third inning, and led, 13-11 after four innings.

But the Bankers scored five in the fifth to take a 16-13 lead, and then put the game on ice when they sent 15 batters to the plate in the six and scored ten more runs.

**BEGIN TRIP....**Ray and Nancy Jackson left Friona Thursday via motorcycle, their final destination slated to be Kendra, Canada, 1417 miles to the north. The Jacksons were slated to meet up with relatives in Kansas City. Some camping and fishing were included in their travel plans.

# BJ Falls From Unbeaten List

A pair of one-run losses knocked Parmer County Pump's B-J Bees out of the unbeaten ranks in the Mustang League, and tightened up the league standings somewhat.

On Thursday, June 13, the Bees lost their first game of the season, 14-13 to Ethridge-Spring. The winners sent 15 men to the plate in the first inning, scoring ten runs, including the first six batters.

B-J Bees came back for a ten-run second inning, to make it a 13-12 game. However, after the big beginning, each team was able to score only one more run. Lee Rios scored three runs, with a triple; and pitcher Tony Cuevas homered, went three for three and scored twice for Ethridge-Spring.

Ethridge-Spring outhit their opponents, 14-3, as the B-J Bees relied on walks. They received 22 bases on balls during the game.

On Friday, June 14, Friona Ford held on for a 12-11 win over Hi-Pro Feeds. The winners came up with an eight-run third inning to offset a five-run second inning by Hi-Pro.

Shane Branson, Blair Burney, Josh Abeyta and Joe Tagle each scored a pair of runs for the

winners. Harvey Martinez scored three runs for Hi-Pro, which suffered its third loss while Friona Ford won its second game.

Friona Ford won again on Monday, June 17, over Ethridge-Spring, 23-13. Scorebooks were not available for details for the game.

On Tuesday, June 18, the B-J Bees suffered their second loss in a row after starting the season with six wins, in a 13-12 contest won by Hi-Pro.

B-J scored seven runs in the second inning to take a 7-4 lead. But Hi-Pro came up with eight runs in the third to take the lead for good.

Harvey Martinez homered and was on base four times for Hi-Pro. Freida Lafuente had a double and scored twice. Cody Simmons had a homer and a double for the B-J Bees. Adam Raymond had a triple and scored twice.

Standings, as of June 18, were as follows:

Team	W-L
B-J Bees	6-2
Hi-Pro	4-3
Friona Ford	3-3
Ethridge-Spring	2-6

# Tasty Cream Rallies For Their Sixth Win

Parmer County Implement Co., the only T-Ball League to beat Tasty Cream this year, looked as though they were going to do it again on Thursday, June 13, scoring six runs in the first inning and two in the second. At the end of two innings, they held an 8-3 lead.

But Tasty Cream came to life in the third inning, scoring six runs, and came back for eight more runs in the fourth inning to win the game, 17-10.

Michael Mendoza hit two home runs and Kit Preston socked one for Tasty Cream. Roy Hendley had a homer for Parmer County Implement.

On Friday, the Implement men bounced back for a 16-15 win over Hub Grain, for their second win of the season.

Good hitting by Roy Hendley, Lorenzo Tagle and Jack Wilson sparked the winners. Jason Rector, Cory Hamilton and Josh Snead scored runs for Hub Grain.

Tasty Cream downed Hub Grain, 18-15 in a game Tuesday night, June 18. It was a close game all the way, with Bowie Hand hitting a three-run home run in the last inning for the difference in the game.

Eight home runs were hit in the game, three by Drew Baize. Others

were by Charley Pope, Michael Mendoza, Bowie Hand, Josh Snead and Jason Rector.

Standings as of June 18 are as follows:

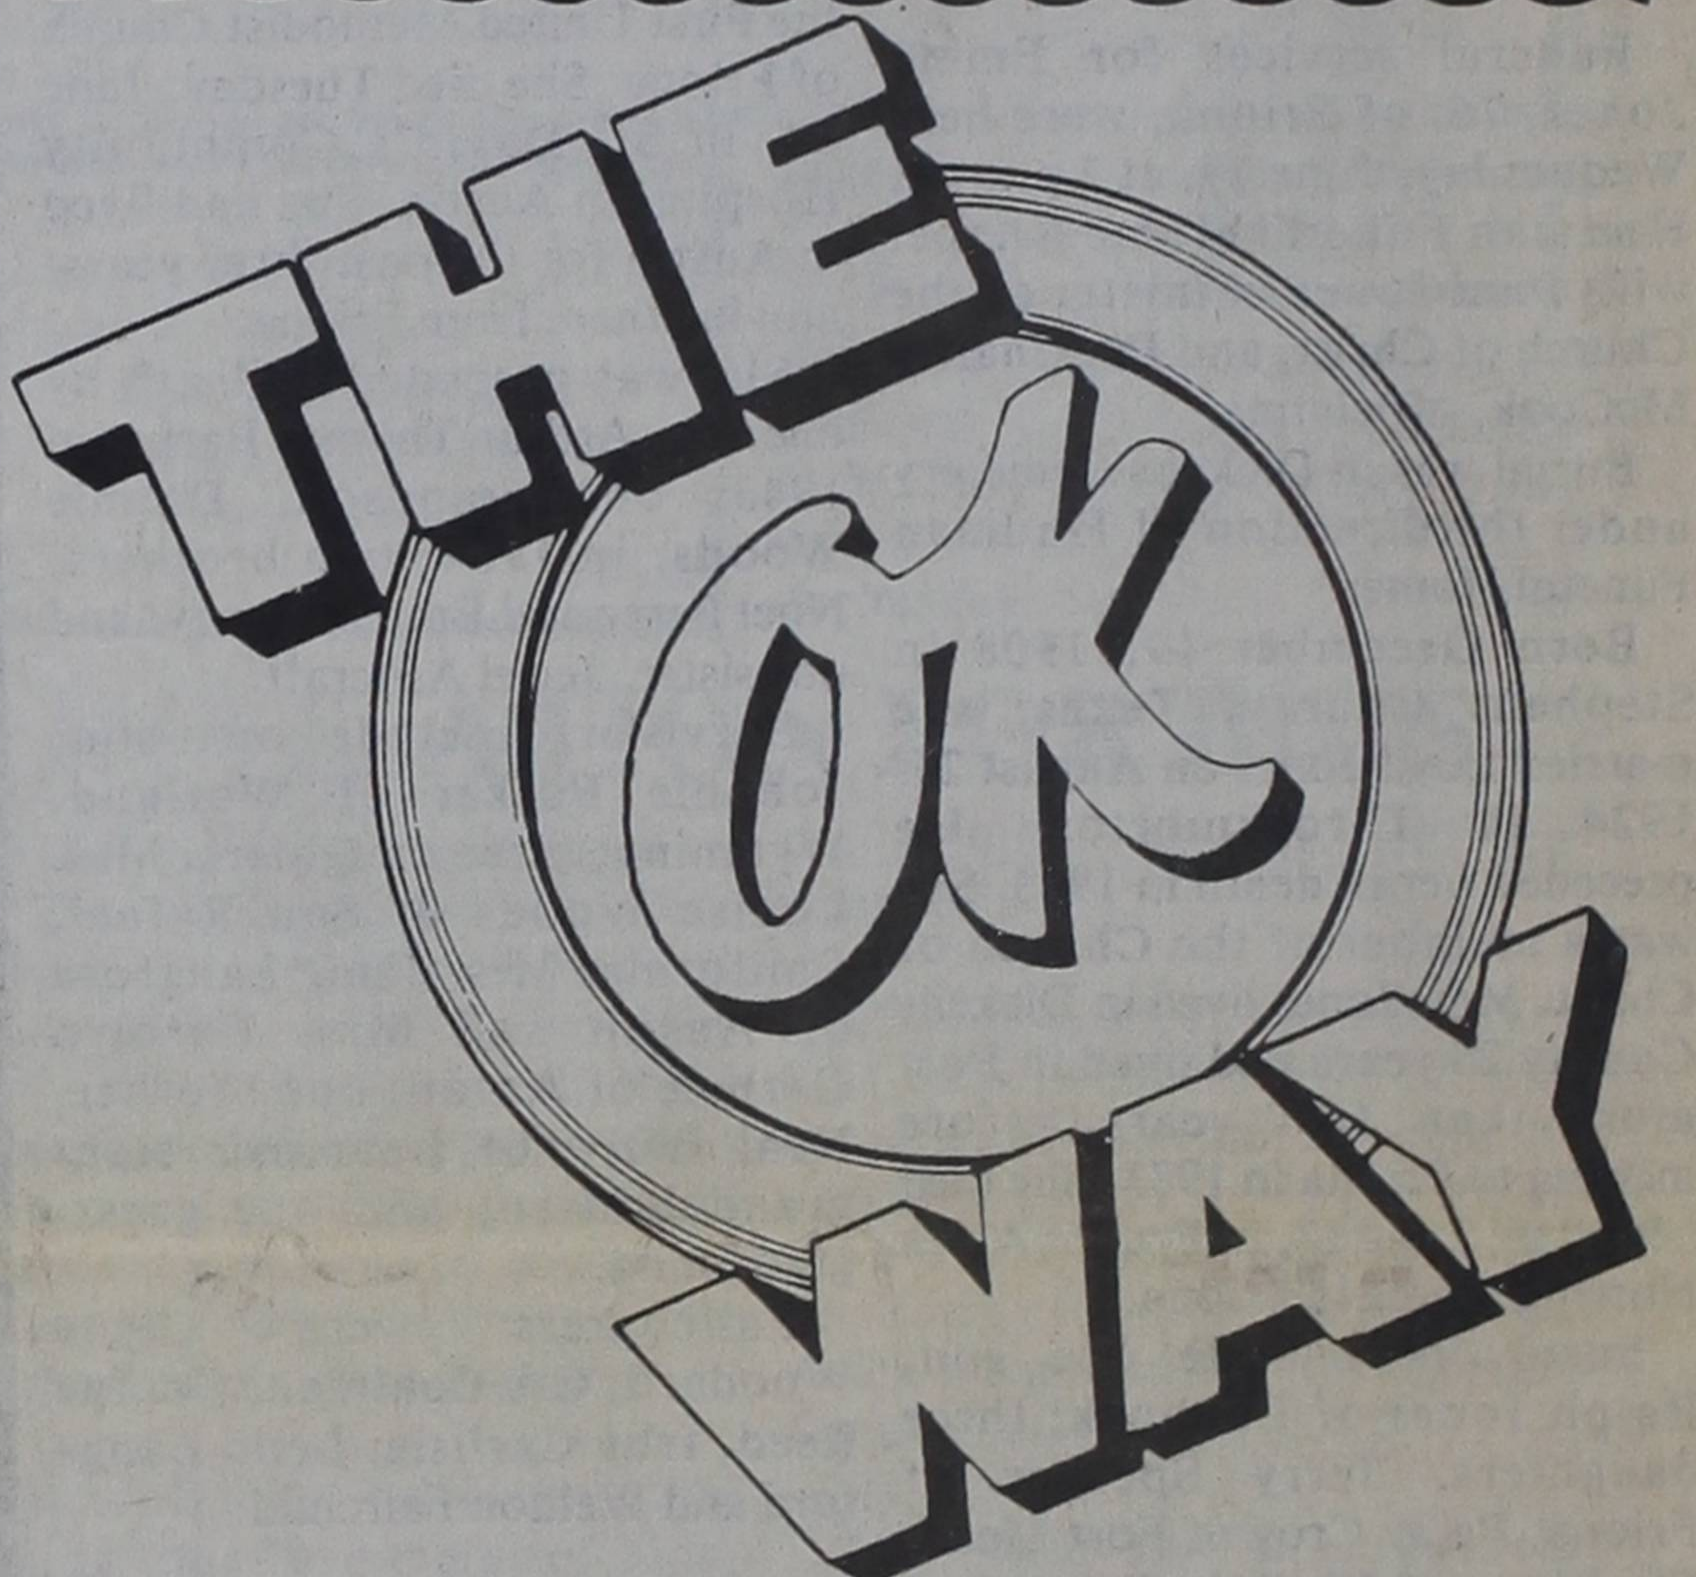

Team	W-L
Tasty Cream	6-1
D.L.'s	3-2
Hub Grain	3-4
Parmer Co. Imp.	2-3
Credit Union	1-5

# Tips Given For Lawn Management

When the weather turns dry, don't just turn on your lawn sprinkler and then gripe about your high water bill.

By watering, fertilizing and mowing your lawn properly, you can reduce your water bill as much as 40 per cent, says a turfgrass specialist.

"Conservation by the homeowner provides the only solution to high water bills and excessive water demands during our hot and usually dry Texas summers," says Dr. Richard Doble with the Texas Agricultural Extension Service, The Texas A&M University System.

In small cities where industrial demand for water is low, lawn watering may account for as much as half of all the water used during summer months. Even in larger cities, lawns get 30 to 40 percent of all the water supplied by municipalities.

"Most Texas lawns use about

two inches of water per week during the summer and most of this usually comes from irrigation," Doble says. "However, as little as one inch of water per week can keep lawns alive and green."

Exactly what can a homeowner do to reduce the summer water bill?

"First, water your lawn only when grass starts to show signs of drought stress," explains Doble. "Look for discoloration and wilting. If leaves roll up in the late afternoon and footprints remain after walking across the lawn, then water within 24 hours.

"Once you've decided that your lawn needs watering, do it right," he emphasizes. "Most homeowners don't water their lawns properly. They either water too often, causing grass to develop shallow roots and making it a prime target for insects, diseases and temperature extremes, or they water too infrequently and apply too much water at one time, resulting in a lot of runoff.

"When watering, soak the soil to a depth of 4 to 6 inches," recommends the specialist. In heavy clay soils, watering it for 15-20 minute periods may be necessary to prevent excessive runoff.

"Cutting back on lawn fertilization can also reduce watering," says Doble. Applying fertilizer in the spring and fall will generally keep your lawn healthy. Fertilizing during the summer, especially with nitrogen fertilizer, will green up your lawn, but it will also increase grass growth and water use.

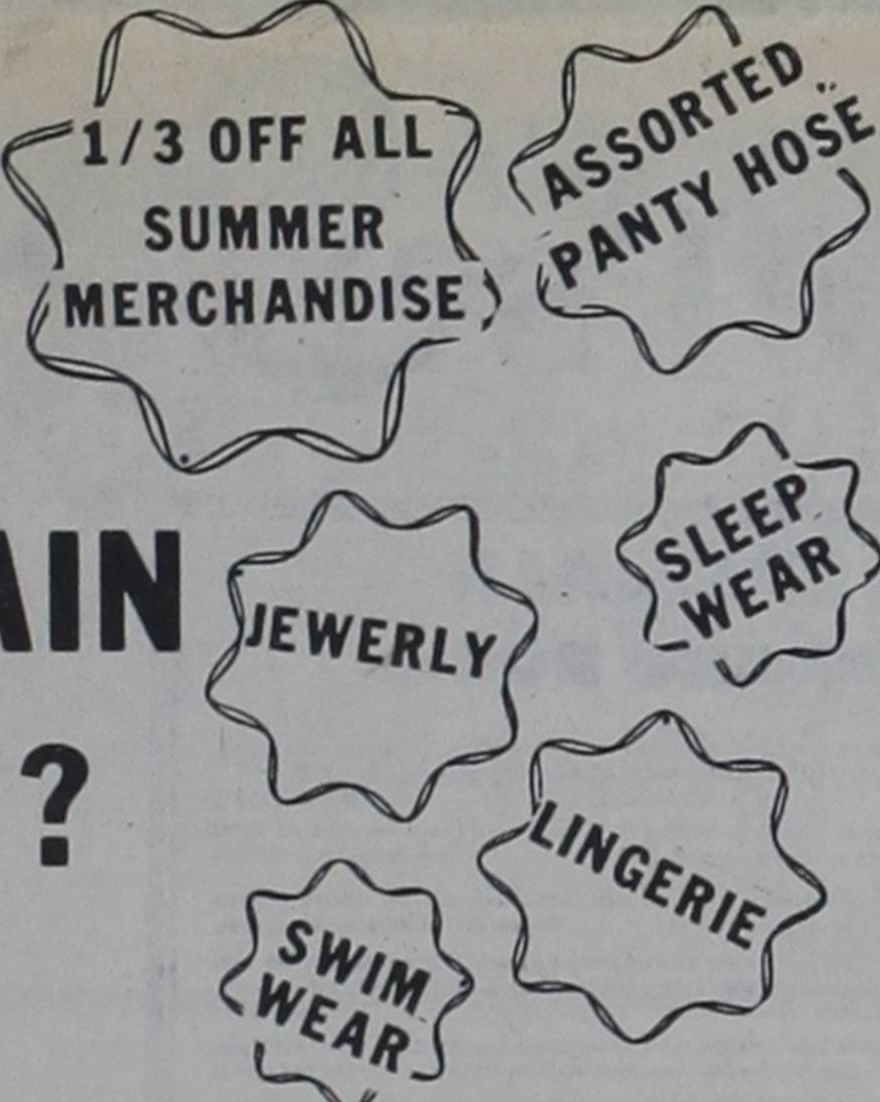

"Mowing less often and cutting your grass at taller heights also will help keep your lawn in better shape during hot, dry weather," adds Doble. "St. Augustinegrass lawns do well when mowed at three-inch height, and bermudagrass lawns can be cut at a two-inch height."

**YOUR DECISION IS EASIER NOW...**

...because Texans have new laws which made the intoxicated driver more responsible for his or her actions. The back doors in the criminal justice system which allowed repeat offenders to escape meaningful punishment have been closed.

Spring can make extra demands on the body's energy. As the weather turns balmy, we tend to become more active and the season always brings a flurry of activities. Pasta contains carbohydrates, energy for the body, and is naturally low in saturated fat. Serve this pasta creation at lunch or with lean meat or fish at dinner.

### Margarita's Pasta Primavera

- |                              |                                      |
|------------------------------|--------------------------------------|
| 1 Cup Low-Fat Cottage Cheese | Freshly Ground Black Pepper          |
| 1 Tablespoon Lemon Juice     | 2 Cups Mushrooms, Sliced             |
| 8 Ounces Thin Spaghetti      | 1 Cup Green Pepper, Sliced           |
| 1 Tablespoon Oil             | 1 1/2 Cups Carrots, Sliced           |
| 1/4 Cup Scallions, Chopped   | 1 10-Ounce Package Broccoli, Steamed |
| 1/2 Cup Onions, Chopped      |                                      |
| 1 Clove Garlic               |                                      |

Mix cottage cheese and lemon juice. Set aside. Prepare spaghetti according to package directions. Meanwhile, heat oil in skillet and saute scallions, onions, garlic and season with black pepper for 1 minute. Add mushrooms and stir 1 minute. Then add green pepper, carrots and broccoli and stir for another 3-4 minutes. Set aside. Toss hot spaghetti with cottage cheese mixture and top with sauteed vegetables.

Yield: 4 Servings  
Approx. Cal/Serv.: 340

**Recipe Tip:** Good quality pasta is made from semolina flour milled from durum wheat, a type of wheat that is low in starch. Egg noodles have egg yolks added and are not recommended for use as often as other pasta.

## Burning Stubble Is A Costly Practice

Burning wheat stubble is bad business. For an average wheat crop, burning stubble sends about \$10 worth of nitrogen fertilizer an acre up in smoke. All nitrogen is lost by burning.

Using conservation tillage, however, you can plant in wheat stubble and use the nitrogen that is tied up in the residue, said William Donham, district conservationist for USDA's Soil Conservation Service at Friona.

"The use of wheat residue is especially important in the Parmer County Soil and Water Conservation District, where more than 96,000 acres of wheat are planted annually," Donham continued. "Less than 3500 acres are planted by conservation tillage. This practice, depending upon equipment used, leaves from 90 to 30 per cent residue on the ground after planting.

"When residue decomposes in the soil surface, the nitrogen is made available for the next crop. In addition to the nitrogen, decomposing stubble adds organic matter to the soil, helps control erosion, reduces soil moisture loss, and improves soil aeration, tilth and permeability. The stubble also helps provide a habitat for such wildlife as pheasants, rabbits, and quail."

Donham said to make the nitrogen in the residue available requires the activity of numerous soil organisms. They flourish in a soil rich in organic matter.

"One important organism is the earthworm," Donham said. "Research has shown that earthworms increase when a dependable supply of crop residue is available."

"They digest the organic matter and pass nutrient-enriched soil through their bodies. This recycles nutrients and makes the soil richer. In addition, their tunnels allow air and water to penetrate soil more rapidly. Burning stubble takes away possible organic matter."

"Don't pollute the air by burning money--that is, wheat stubble. Use conservation tillage to keep your nitrogen, protect against erosion, and improve the soil."

For more information on conservation tillage practices to use on your land, contact the local office of the USDA's Soil Conservation Service. Come by 1306 West Ninth Street in Friona or call 806-247-2220.

If you or someone in your family has a birthday coming up soon, call the Friona Star at 247-2211 by Thursday noon and report it.

## Nutrition Is Topic Thursday

Do you worry that your child is not eating enough? Is he eating too much? Which foods does she really need?

A nutrition program will be presented Thursday, June 27 from 1:30 to 3:30 p.m. at 508 Cleveland in Friona.

Sponsored jointly by Central Plains Counseling Center and the South Plains Health Provider, the program will feature Jean Burton, a licensed dietician and Director of Nutritional Services for SPHPO.

She will present information on nutritional needs and planning foods to meet those needs. Ms. Burton will focus on proper nutrition for young children beginning with infancy. She will be available to answer related questions. For more information, call 247-3522.

## Local 4-H's Competed In Fashion Show

The results of combining sewing skills with fashions of today were displayed Saturday, June 15 in Friona. Parmer County 4-H youth competed in an annual fashion show.

Each contestant entered in one of four clothing categories and age divisions. Clothing categories were: Daytime Tailored, Daytime Non-Tailored, Active Sportswear, and Evening and Specialty Wear. Age divisions included, Peewee-below third grade; Junior 1-third grade through ten years of age; Junior 2-11 to 13 years of age; and Senior-14 to 19 years of age.

First place winners were Bea Foster, Jacque Sides and Amy Foster of Oklahoma Lane; Brandy Ray and Shelly Salyer of Friona; Darla Stormes of Bovina; Jennifer Cass of Rhea and Maureen Jesko of Lazbuddie.

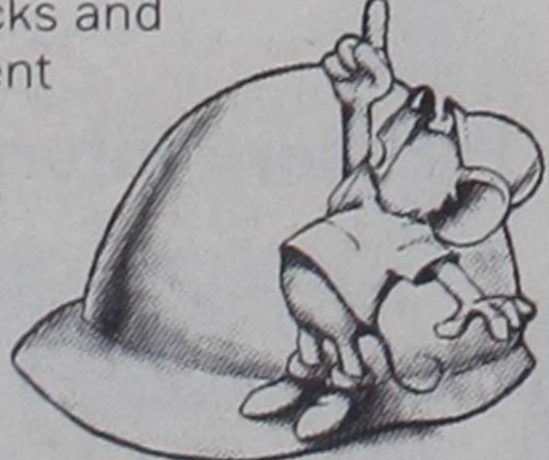

The second place winner was Nicole Potts of Rhea. The third place winner was Elaine White of Friona.

All first place winners will enter their creations in South Plains 4-H Fashion Show, Friday, June 28 in Lubbock. Visitors are invited to attend a public fashion show involving competitors from twenty counties in the Texas Tech Center Theater at 2:30 p.m.

# Out on the JOB WATCH UP FOR POWER LINES

Out on the job, power lines bring needed electricity to the site. But they can be dangerous... if you don't watch up! You need to be especially careful when you are handling re-bar, pipes, scaffolding, or tools that are long enough to contact overhead lines. Contact with power lines is also a potential danger to operators of front-end loaders, dump trucks and any other equipment of unusual height.

Keep an eye up for power lines. Watch up, for safety's sake.

## T. Tinnin Competes In Show

TONYA JON TINNIN

Tonya Jon Tinnin, 17-year-old daughter of Mr. and Mrs. Rusty Tinnin of Amarillo and granddaughter of Mr. and Mrs. A.S. Grubbs of Friona, will be competing at the fourteenth annual American Junior Quarter Horse Association World Championship Show and Convention in Tulsa, Oklahoma, August 4-10.

Tonya Jon will be among the 1,300 young people, 18 and under, from the United States, Canada and Australia, selected to participate in the show. She will compete with her registered American Quarter Horse, Aztecs Indian, a 1976 sorrel gelding, in the halter, hunt seat, equitation and reining, at the show.

The high yields on wheat farms throughout the area must surely be a record yield for dryland farming. No doubt, some of the highest yields were the result of summer fallowing, but 1985 has been a bumper year for most wheat farmers.

Driving from here to Wichita Falls last week made me acutely aware of how blessed we have been by the lack of hail, downpours of rain and violent weather during the past several weeks.

Sue Proctor and I drove through the country by way of Hart, Olton, Plainview, Floydada, Matador, Paducah and Vernon on Tuesday then returned home on Friday by way of Childress, Estelline, Turkey, Quitaque, Tulia and Dimmitt and all the way we saw field after field of cotton and wheat that had been damaged by weather.

In Wichita Falls, we visited in the homes of Matt and Betty Brown and Matt's mother, Flossie Brown, all former Friona residents.

Brandon Dickson, my number four grandson, who lives at Garland, Texas, arrived in Amarillo by plane Wednesday afternoon and plans to be here a couple of weeks or so. Then, his parents, Richard and Frieda Dickson, plan to come after him.

Other out-of-town visitors in the Floyd home recently have been Rodney Smith of Happy, Mr. and Mrs. W.H. Clements of Dalhart, and Ben and Brandi Clements of Odessa.

Incidentally, Odessa, which has been one of the driest spots in West Texas this spring and summer, finally got some moisture in the form of nice gentle rain.

Recent visitors in the home of Mr. and Mrs. Nelson Welch have been Monte Sue Bailey and children, Shawn and Heather, who live in San Antonio.

Sue Rector, a City Hall employee, was on vacation last week. She flew down to Panama City, Florida, by way of Dallas-Fort Worth and Atlanta, where she visited in the home of her brother, Jack Armstrong and family.

Sue reports a fun vacation and says the beach is one of her favorite spots.

Several ex-Frionans were here last weekend for the Golden Wedding Anniversary reception of Mr. and Mrs. C.W. Bradley at Friendship House Sunday afternoon.

I especially enjoyed visiting with Gary Bradley, a 1960 graduate of Friona High School. He and his wife and children have lived in Lubbock several years.

Other members of the 1960 graduating class will soon be returning to Friona for a class reunion, which is scheduled for the first weekend in July.

Mr. and Mrs. Chris Powell of Amarillo and Mr. and Mrs. Jay Jarboe of Lubbock were Father's Day guests in the home of Tom and Betty Jarboe. Mrs. Powell, a teacher in the Amarillo Public School system, is the former Jeanine Jarboe.

Frank and Carmaleet Truitt are home after spending several weeks in Houston with their son, Larry, and his wife, the former Shirley White.

While the Truitts were in Houston, they drove over to San Antonio one day and saw many interesting places. Frank had never been to the Alamo before, so seeing it was a real treat for him. They also took a River Walk tour, which includes a boat ride, and did some other fun things.

Shirley, Frank and Carmaleet Truitt came home on Friday then on Tuesday Larry came up. He and Shirley also visited in the

homes of Ray and Wanda White and Troy and Veca White and daughters, before returning home.

Weekend guests in the home of Mr. and Mrs. Rosco Ivie were Susie Williamson and daughter, Sharla, of Canadian, Texas; Cozetta Wymer of Fairview, Oklahoma; and Marie and Carrie Lea Gateley of Wheeler, Texas.

Mrs. Williamson and Mrs. Wymer are Mrs. Ivie's daughters and Sharla, Marie and Carrie Lea are her granddaughters.

Grady and Pauline Nelson and family are in the process of getting back among us. Since their youngest daughter, Tommie, was involved in a car accident a couple of years or so ago, they've been kind of commuting from Friona to Abilene or Lubbock.

Tommie's condition is somewhat improved and she has been tentatively scheduled for therapy once a week instead of five times.

Betty Wilcox, who had surgery at St. Anthony's Hospital in Amarillo on Monday has been dismissed and is recuperating at home.

Rene, Jinx and Gary Snead were three of the nearly 100 members of the family of Simpson Gray and his wife, Jennie Moreland Gray, who homesteaded a reunion of the descendants of this pioneer Mena, Arkansas family there last week.

The Grays, who moved to Mena in the late 1800's, had eight children. The youngest one of them, Ivan, and his wife, the former Fern Kaylor, both deceased were also blessed with eight children. This couple later moved to New Mexico and were at one time residents of the Hub Community. They are both deceased.

All six of their living children

were present for the reunion. They are Howard Gray of Neptune, New Jersey; Jennie Fern (that's our Jinx) Snead of Friona; Ruth Redwine and Merl Stokes, both of Groves, Texas; and Joan Waites of Port Arthur, Texas.

I'm wondering how many of the former Rhnea White's friends saw her picture on the front page of Section C of Friday's Amarillo Daily News.

She was one of the Amarillo College students who were interviewed by Kari Fluegel and asked to express an opinion about the recent tuition hike at Amarillo College.

Incidentally, her married name, which is Berggren, was under the picture.

Friona's beauty spot this week must be the planter on the east side of Jane and Dale Houlette's house. If you haven't seen this splash of vibrant color, just drive west on Sixth Street to the jog or from Fifth to Grand.

Seeing all the pretty flower and vegetable gardens, which are in abundance at this time of year reminds me of a poem I read long ago. It goes like this:

"He who has a garden  
Has treasures to behold...."

A workshop for his conscience,  
A place to dog for gold.

A pleasure and a profit  
And happiness combined.

A garden is the rarest gift  
That anyone can find.

## Drama Workshop Set July 21-Aug. 3

Dates for the Friona Fine Arts Council Summer Drama Workshop have been set for July 21-August 3.

July 21 will be the day for paying fees and/or auditioning. Everyone may pay fees that day

beginning at 2 p.m. in the high school auditorium. "Grown-up kids" will begin auditions. Registration blanks may be picked up at 1615 West Tenth (Joy Tannahill) or 213 West Eighth (Joy Morton). These forms need to be returned by July 15.

There will be two age groups, 10-13 and 14-older. The younger group will meet from nine to noon while the older ones will have both afternoon and evening sessions. Anyone of any age who would like to participate or help in any way is encouraged to call Gaye at 247-3144 or Joy at 247-3797. Fees are \$25.00 for one or \$40.00 for a family--two or more. Individuals, who are interested in supporting the Fine Arts program may do so by making donations.

## Reception To Fete Mrs. Jesko

Mrs. Joe Jesko of Hereford, formerly of the Lazbuddie Community, will be honored with a "surprise" reception in honor of her 80th birthday, on Sunday, June 23, from 3-5 p.m.

The reception will be held in the home of Mr. and Mrs. Herman Hund, two and one-half miles north from Big Daddy's Truck Stop on Progressive Road and one mile east, Hereford.

Your presence will be the most treasured gift and no other gift is requested. All family and friends are invited to attend this reception for Mrs. Jesko.

## Wilkersons Have Boy

David and Dena Wilkerson of Friona are the parents of a baby boy born Monday, May 27 at Deaf Smith General Hospital, Hereford.

The new arrival weighed eight pounds, three ounces and was named Gerald Alexander.

The child has one older sister, Lee Ann, five years old.

Grandparents are Ella Mae Wilkerson of Friona and Mr. and Mrs. Morris Powell of Dimmitt.

Wanda Torres of Dodge City, Kansas is the child's great-grandmother.

Phillip Duggins and Lou-Ida Marsh are returning to direct this year. Lou-Ida will be doing "Shenandoah" and Phillip is still searching. Everyone young and older is invited to attend the workshop for two weeks of fun, fellowship and yep-even "larnin'."

## Hospital Report

Pete Prieto, Friona; Cindy Simmons, Friona; Juanelle Jordan, Friona; and Lillis Garner, Farwell.

**DISMISSALS--**  
Wendy Tatum, Joe Menefee, Mabelle Hartwell, Pete Prieto, Cindy Simmons and Patsy Goettsch.

**PATIENTS IN HOSPITAL--**  
Minnie Waldo, Juanelle Jordan, Lillis Garner and Elmer Northcutt.

**ATTENDS SCHOOL....** Wyona Clark completed the Benz School of Floral Design at Texas A&M University recently. Mrs. Clark is shown with a casket piece she designed. She is owner of Wyona's Flowers & Gifts in the Hub community.

## W. Clark Attends Benz Floral School

Wyona Clark of Friona has returned from the Benz School of Floral Design at Texas A&M University.

Students in the two-week course were instructed in all aspects of government design, the mechanics of floral arranging, and flower shop management.

The Benz School of Floral Design was founded by Buddy Benz who was one of the most influential innovators in the floral industry, said Jim Johnson, professor of Floriculture and Director of the Benz School. Benz

died in June 1980, but his contributions are being carried on through the Benz School of Floral Design at Texas A&M University. Benz left his entire estate including the Benz School and the copyrights and publishing rights to his world renown floral design books to his alma mater.

The Benz School of Floral Design, is taught four times per year, in College Station.

The Department of Horticulture offers the program for the professional development of established and new florists through the Texas A&M Office of Continuing Education.

Mrs. Clark of the Hub Community is owner of Wyona's Flowers & Gifts.

## Frionans' Grandson Is All-American

The National Secondary Education Council has announced that Keith Bell has been named an Academic All-American.

The NSEC has established the Academic All-American Scholar Award Program in order to offer deserved recognition to superior students who excel in the Academic disciplines. The Academic All-American Scholars must earn a 3.3 or better grade point average. Only scholars selected by a secondary school instructor, counselor, or other qualified sponsor are accepted. These scholars are also eligible for other awards given by the NSEC. These are awards few students can ever hope to attain.

Scholar Directory, which is published nationally.

"Recognizing and supporting our youth is more important than ever before in American history. Certainly, winners of the Academic All-American Awards should be congratulated and appreciated for their dedication to excellence and achievement," said Dr. George Stevens, Executive Director of the National Secondary Education Council.

The Council selects Academic All-American Scholars upon the exclusive recommendations of teachers, coaches, counselors, and other qualified sponsors. Once awarded, the students may be recognized by the NSEC for other honors.

Keith Bell is the son of Mr. and Mrs. Earnest Bell of Plainview. Plainview High, was nominated for this National Award by B. Cunningham. Keith will appear in the Academic All-American

Rucker of Friona. His grandparents are Mr. and Mrs. Seth Hatfield of Burkburnett, Texas and Mr. and Mrs. Hollis Rucker of Friona.

## Should You Consider Investing In Tax-Free Municipal Bonds?

Maybe the following comparison can help you decide.

<p>\$10,000 Invested at 9.0% Tax-Free (Insured-AAA Rated)</p> <p>\$10,000 x 9.0% = \$900 Per Year No Tax</p>	<p>\$10,000 Invested at 10% (Taxable) Assuming a 40% Tax-Bracket</p> <p>\$10,000 x 10% = 1000 - 400 Income Tax = \$600 per year after tax</p>
--	---

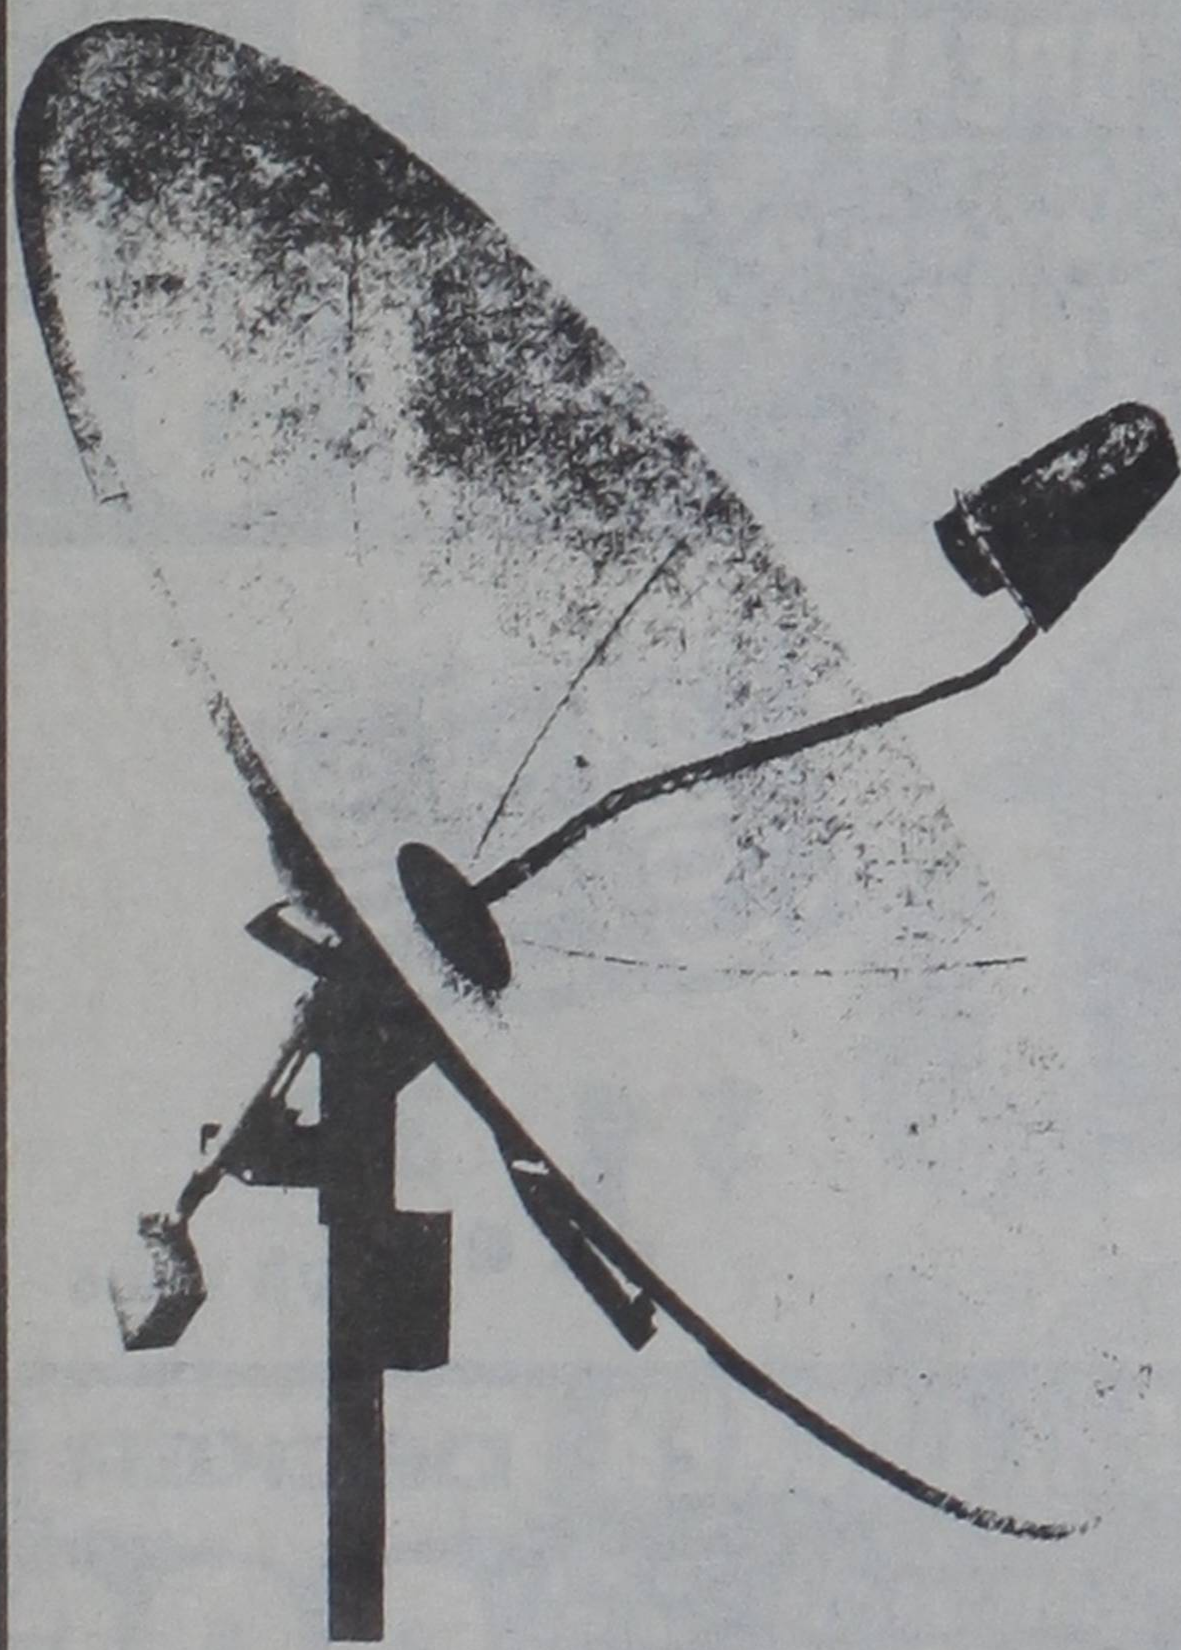

**Remember: It's not what you MAKE that counts; It's what you KEEP, after tax.**
