VOLUME 23

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY, MARCH 9, 1928

NUMBER 29

Chamber of Commerce

By the Secretary

The office of the chamber of commerce is now located in the basement at Northwest corner of the court house and the secretary would be very glad for our farmer and other friends call and visit us.

The Department of Agriculture has two men in our county undertaking to discover whether we are infested with Pink Boll Worm. The territory has been covered earlier in the year, but infestations found in one of the adjoining counties has caused the officials of the commission to decide that they will have another look. Let us hope that they don't find one of the worms.

Attendance at the Farmers Short Course will probably be cut to a large extent by reason of the fact of the report that there is a large number of cases of diphtheria in the county and several in Brownfield. As a matter of fact the County Health Officer, says that he does not know of a single case. When these reports get in circulation, they are pretty hard to overcome. Every person should arrange to be present the opening day.

The first monthly luncheon of the Directors of the chamber of commerce, will be next Tuesday, March 13th. At that time a program for the year will be decided upon, but at the same time suggestions as to activities that should be sponsored by the organization, will be appreciated from any source, whether the person is a member or not.

In making the trip to Sweetwater for the Pink Boll Worm meeting, it was noted by the members of our party that Terry county, was very far in the lead in the matter of having our land broken and ready for planting. People certainly have profited by their experience of 1927. More than twice as much land was in condition in our county than any other through which we passed.

The American Railway Association (car service division) reports that the world consumption of cotton is more than 700,000 bales greater than last year with a crop of 5,000,000 bales less, which would indicate that the price will advance within the next few weeks.

GUESS WHO?
Yes you are right!

Dr. Chisholm Teaches Class in S. S. Institute

Dr. J. W. Chisholm spent the major portion of last week in Lubbock where he instructed a class in advanced Sunday School work, which was being conducted for the benefit of S. S. teachers of the Lubbock District of the M. E. Church.

Rev. Chisholm left Monday of this week for Harrell, Texas, near Vernon, where he will conduct a ten day revival for the church there. The services of Dr. Chisholm is in great demand in this section of the state.

SHOULD BE BOYCOTTED FOR IT

Two very pretty girls met on the street and kissed each other rapturously. Two young men watched the meeting. "There's another of those things that are so unfair," said one. "What is that?" said his friend. He pointed to the scene "Women doing men's work."—Fays Lightning Line.

Carter Chevrolet Co. Have 100 Percent Plant

While up to the Carter Chevrolet Co. garage and sales rooms recently, Mr. Ralph Carter showed us through, and explained to us what they were doing to make their plant the best possible service to Chevrolet buyers in this territory, but the job of re-planting just what he is going to install and has already installed is too big for yours truly.

But a wrap at it anyway, we will just say that a certain amount of tools and supplies are required by the Chevrolet Motor Co., to make a 100 percent agency repair plant. Not only this, but their workmen must have a certificate or diploma from the Chevrolet Mechanical School at Oklahoma City, and they must also return at stated periods for post-graduate work the same as physicians who practice in Texas. The tools include reboring dies and machinery, and lathes that will not only make the crank-shaft bearing smooth, but also true to a thousandths part of an inch, valve machinery and numerous other tools we cannot think of now.

When a car goes through their plant it is truly rebuilt as every piece and part is minutely examined after removal, and resented and refitted to a gnat's bristle, and they are then able to put a "Used Car Guarantee" tag on the car, and goes out for duty in apparently and for all purposes in about the same condition it was when bran new.

Mr. Carter and his force are to be both congratulated and commended for making it possible for their customers to get the same service here that they get in the great cities.

A. & M. Publication Praises Reception Here

Jack Head had a letter this week from his son, Virgil, a student at the A. & M. College of Texas, inclosing a clipping from Battalion, official publication of the college, praising the reception accorded the Santa Fe A. & M. Demonstration Train here on February 15th. Virgil wrote his parents that it was the only town that got a write up in the publication during the entire schedule.

Of course it made Virgil feel kindly "sweeet" to know that the old home town got the big and only end of publicity in the official college paper, and knowing as it does the gracious receptions always accorded visitors in Brownfield, he knows that the people of Brownfield are due all praise given in Battalion.

On the other hand, this fine piece of publicity will do us nothing but good as there are students at the A. & M. from the four corners of the earth, and sometime these fine young men are going to seek out homes, and Brownfield will come back to their memories. People always want to go among courteous, refined people to make their homes.

TO THE VOTERS OF PRE. NO. 4, TERRY COUNTY

After carefully considering I have decided to make the race for Commissioner of the above precinct. I have had quite a big of experience in road building. I am qualified to fill the office.

I lived in Fisher county near McCaulley, 20 years; moved from there to Terry county in 1923 have here since. I live on my farm near Wellman, Texas.

Now friends I will ask each and everyone of you to vote on July 28, and if I should be your choice for commissioner vote for me. I assure you your vote will be highly appreciated. If my opponent is your choice vote for him; if he should be elected he will make me just as good a commissioner as he will you.

I will try to meet and talk with each and everyone in the precinct; if I should fail to see any one don't feel like I did it intentionally for it is my desire to talk with each voter in the precinct.

Thanking you in advance for your influence and support,
Sincerely yours,
W. J. Moss.

R. M. Goodpasture tickled our account with a renewal this week.

Brownfield Oil Well Down to 4,003 Feet

We were reliably informed Tuesday that the oil well in the Brownfield pasture 13 miles southeast of town was down 4,003 feet, which is the present contract depth, and unless further arrangements are made, all drilling will be stopped at the present depth.

The public spirited people of this city put up four thousand dollars and put the well from 3500 feet to the present depth, gambling that oil or gas would be found in the extra 500 feet against the same amount put up by the present owners, the citizens taking acreage for the money they put up. Just what further move will be made is a mooted question, but it will likely be some time until anything is gotten under way again.

We have been reliably informed, however, that the drill was left in the clay formation and that no lime formation has been touched as yet, but the drillers on the job say that much of the Oklahoma oil fields are developed without finding any lime formation, that the oil sands are frequently found just under the clay. It is true however, that in most Texas fields a lime formation from 50 to 500 generally have to be penetrated before reaching the oil sands. All indications so far have been favorable according to drillers and geologists, and it may not be but a few hundred feet at most below where the present drilling stopped to where oil is laying ready to gush forth.

But if oil or gas are never found, we have a continual asset in the lands of Terry for agricultural purposes, and let it be further said that a dry hole no longer condemns 160 acres of land, and new acreage and new locations may be found, and will when the big companies get good and ready for new fields.

Several of these big companies have spent what conservative people believe between one hundred and two hundred thousand dollars here in the past two years, keeping a large company of geologists and helpers giving the county the once over. They believe our under grounds abound with oil and some day they will go after it.

WEST TEXAS TO BE REPRESENTED IN CITY NEW YORK

ABILENE, Tex.—West Texas will be represented on Broadway this summer.

The Cowboy Band of Simmons University, the original and only cowboy band in the world, has been booked by Gilbert Sandefer, manager, to appear at the leading theatres of Manhattan from July 1 to September 20th.

Previous to the New York engagements, the band will play along the road on the way, being booked by Frank T. Kintzing, nationally known agent who handles engagements for Creator's and other large bands. They leave Abilene June 1 in new 34 passenger parlor busses to arrive in time for the New York dates.

Sandefer had no difficulty in interesting the theatrical men of the great city in the band. That "cowboy idea" was something new to them and they told the Simmons representative that his band could stay on Broadway as long as it liked.

While in New York, Sandefer also signed a contract bringing Galli-Curci, world's greatest soprano, to Abilene. She will sing at the University auditorium on the evening of April 2.

FIRE DESTROYS AUTO-MOBILE THURSDAY

J. A. Morrow had the misfortune of losing by fire his Chrysler sedan Thursday morning while enroute to his ranch southwest of town. It is not known just how the fire originated but when discovered the whole rear end of car was in flames. The loss was partially covered by insurance.—Seminole Sentinel.

Dee Elliott is fast recovering from an injury received recently, and will soon be back at his chair in the City Barber Shop, of which he is proprietor.

Mrs. Randal's Sunday School class are putting on their play, "Mammy's Lil' Wild Rose" at Levelland this week, which was so well received here the past week.

Collins Gets 5 Year Penitentiary Sentence

The jury brought in a verdict of guilty in the Collins murder case about ten o'clock Thursday morning and assessed the punishment at confinement in the state penitentiary for a period of five years. Issues of self defense and manslaughter were injected in the case but the jury rejected these pleas and found defendant guilty of murder. The case has been on trial since the opening of court Monday morning.

District Attorney T. L. Price was assisted in the prosecution by W. H. Murchison of Haskell while the defendant was represented by Charles Crenshaw of the firm of Bledsoe and Crenshaw of Lubbock and by W. D. Justice of Athens. Defendant has filed a motion for a new trial, and if this is refused it is understood that he will appeal.

This case was transferred to this county from Terry county. The defendant Ben H. Collins, is charged with the murder of Frank Howard in March 1926. The fatal difficulty is said to have arisen over a horse trade, the homicide taking place a few miles north of Brownfield. The case was tried at Brownfield in January 1927, and defendant was convicted and given fifteen years in the penitentiary. He appealed the case and it was reversed and remanded, whereupon it was transferred to this county for trial.—Tahoka News.

Whippet Car Agency Selling Out Rapidly

Marion Craig of the firm of Craig & McClish informed us this week that only three of the two cars of Whippets received here in the past 30 days remain unsold, and he has prospective buyers for them.

He is making a supreme effort to get lined up for some advertising in the Herald as he says they realize that home paper advertising is the best advertising to be had, but it seems that the Overland people like some others have let the magazines make them believe they are the best advertising mediums and fully cover the field. This is a huge joke, and local dealers all know it.

Chevrolet has fully tried out the local newspaper field in advertising, and always come back for more. As a consequence, their sale have astounded the automobile world.

Others are going to wake up that the magazines have hoodwinked them some of these days. There is not more than two dozen of any of the big national magazines that come to Brownfield, many less of most of them.

PRISONER IN COUNTY JAIL SETS FIRE TO BEDDING

The "dope fiend" who was arrested and confined in the county jail the first of the week, went wild Wednesday afternoon and set fire to the bedding in his cell.

For a time things looked pretty serious for him, and it appeared that if his purpose was to commit suicide, he might have succeeded in his efforts.

The whole room was filled with smoke when the fire was discovered and it required heroic work on the part of his rescuers to extinguish the fire and rescue him in time to prevent his suffocation.

The fire was finally extinguished and the prisoner was carried into the open air where water was poured over him until he resembled a drowned rat. He appears not much the worse for his thrilling experience and his narrow escape; and is dressed in new clothing, his former rags being totally unfit for wear.

We may expect quite a number of this class to drift in from the oil fields and the county must make preparation to care for them.—Lovington Leader.

Officers of Winkler county recently made a raid on the dives of their oil field communities and scattered them out. The Lovington Leader is claiming that they got their share of these migratory birds.

A small oil and gas showing was found in a well in the Nadine community in Lea county New Mexico.

Rotary Tree Planting Committee Reports

Brownfield, March 2, 1928
To the Directors of the Brownfield Rotary Club—
Gentlemen:

We your committee appointed for the purpose of directing a Tree Planting Campaign, for Brownfield, that is being sponsored by our organization, hereby submit the following as being our idea of plans that should govern the activity and request that they be adopted by your body.

First: That all property owners of Brownfield, be requested to plant trees, flowers and shrubbery upon their lots and that they should be especially urged to plant trees along outside of property lines, which are adjacent to streets.

Second: That to further encourage tree planting upon both vacant and improved property, we suggest that one free tree be delivered to each owner, where trees are planted at outside property lines.

Third: That all members of the club, set an example by promptly setting trees and other ornaments upon their own premises and to encourage and urge their neighbors to continue the activity, to the end that our city may be made more attractive to ourselves and be the cause of favorable comment by our visitors.

Fourth: That immediate steps should be taken for launching the movement, as the spring planting season will soon be at an end and further delay should be eliminated.

Respectfully submitted
Earl G. Alexander,
J. D. Miller,
Glenn Harris.

ANNOUNCES FOR COUNTY ATT'Y OF THROCKMORTON

"To the voters of Throckmorton County: Having been strongly solicited by my wife, I hereby announce my candidacy for the office of County Attorney. I shall be opposed in this race by two of your best known citizens, B. F. Reynolds and James F. Wright. Concerning them I shall have nothing to say except that they are honorable and upright men, deserving of your confidence and support.

"Reynolds came to Throckmorton County before most of us were born, when it represented the last outpost of civilization and lay far out on the edge of the wild frontier. But for such men as he, who came here when every step was attended with danger, and existence meant a battle and a march, there would be no Throckmorton County and no County Attorney's office to fill. For this labor and sacrifice we are all grateful. A life of noble deeds and great achievements recommend him to the voters. He is my friend and I love him. I have served for the past year, and am at present, his assistant.

"Wright is a native son and was born in the county he seeks to serve. He is capable and qualified to fill the office and is deserving of the trust he asks you to bestow. He also is my friend and should you elect him as your servant I am sure your confidence would not be misplaced.

"As for myself, I am an Arkansas hill-billy, born and raised in the Ozark Mountains. Outran the dogs on Sunday morning to keep from having my face washed—did my sparring bare-footed—never saw a train until I was 15 and was almost grown when I learned that Republicans walked on their hind feet like people.

"Have farmed with a bull-tongued plow, taught school, practiced law and am a first-class mechanic, having worked a right smart around a molasses mill. Came to Texas two years ago and married the finest little girl in Throckmorton county. I want the office because I think I can make a living out of it, and will promise if elected, to make thieves and boot-leggers thing hell ain't 40 feet from the courthouse.

"So, I expect to spend the time between now and election, kissing babies, complimenting the ladies' cooking and bragging on the old man's crop.

"Your vote and influence will be appreciated.
JEFF FOWLER."

Dr. G. S. Webber of the Palace Drug Store, is a business visitor to Dallas this week.

Report Oil Struck in Yoakum County

REPORT OF OIL STRUCK
IN YOAKUM COUNTY

Several citizens of the Tokio community in this and Yoakum counties were in Saturday and informed the writer that while Lester McPherson was drilling a water well on the old McMillan ranch in Yoakum county one day last week, they struck a showing of oil which created no little excitement with the drillers, but inasmuch as several showings have been found in the neighborhood, it failed to create much excitement with the farmers of that section, as they think their land worth the money for agricultural purposes.

The well is said to be about two miles north of the Kelly well which created so much excitement about two years ago. As we did not see the drillers of this latest well we had no way to confirm the report except hearsay, but inasmuch as oil has been found in a number of water wells in that section, little doubt is held that the report is now true.

Brownfield Children Render Good Program

The local Rotary Club recently enjoyed a fine program given by the offspring of Mr. M. V. Brownfield, for whom the town was named. Ray, son of Mr. and Mrs. A. R. gave several violin selections accompanied on the piano by his instructor, Miss Fogle. Miss Francis, daughter of Mr. and Mrs. M. V., and Miss Lenore, daughter of Mr. and Mrs. A. M. Brownfield, gave some very fine readings. The program was varied, spicy and appropriate, and the young people displayed rare talent.

At the luncheon last Friday there was no set program, and after a short address and explanations why no program by Judge Winston, a business session was held and much waiting business cleaned up. Several visitors were present.

TO THE VOTERS OF PRECINCT NO. 4

I have decided to make the race for county commissioner, subject to the Democratic primaries in July, and if I am elected I will do my best to serve the people to the best of my ability. I do not believe in high taxes but you all know that the county is growing fast and we can't reduce taxes very much till the county settles up more. I believe in good roads and will try to cooperate with the Highway Department in getting all highways I can, and if am elected I will take up my duty without fear or favor and will work with the people for the betterment of the county.

I will try to see each voter before the primary in July so thanking you all in advance for your support.
Respectfully,
W. M. Goldston

TO THE CITIZENS OF COMMISSIONERS PRE. NO. 4

I take this means of announcing for the office of County Commissioner Precinct No. 4 subject to the action of the Democratic Primary.

I have lived in the county for eleven years, ten of which have been spent in Precinct No. 4.

I have had a great deal of road work in Haskell county, and believe that I can handle the road situation in Terry provided I had money enough.

I think that I am qualified for the office and if elected your commissioner will do my best to give you an economical and constructive administration. Your vote and influence will certainly be appreciated by me.
Yours very truly,
W. H. Hight.

FAREWELL

About the best one we have seen lately is when Ikey and Jakey were preparing to leave each other. Ikey says to Jakey, "Aurevoir."
"Vat's dat," says Jakey.
"It is goodbye in French," says Ikey.

"Carbolic Acid," says Jakey.
"Vat's dat," says Ikey.
"Dat's goodbye in any language," says Jakey.

They Came-They Saw- THEY WERE CONVINCED

Hundreds of people are being convinced each week of the advantages they get when they buy groceries at the M System Store, and it is TRULY no wonder. With over ONE MILLION Dollars worth of merchandise being distributed through one system of stores, you can hardly think of the power behind this buying system. Just get your pencil and try to compare these figures with the small town merchant, who buys independent—WELL IT JUST CAN'T BE DONE!

SATURDAY, MARCH 10TH

Will be our RED TAG DAY. Each special (and there will be lots of them) will have a big Red Special Tag attached. It will be easy to do your shopping here Saturday. Don't fail to come and see us.

JUST A FEW RED TAG SPECIALS

CHEVROLET ENGINEER EXPLAINS NEW PISTON

DETROIT, Mich.—Nearly 10,000 automobile showrooms throughout the country have echoed the question, "What is an invar strut piston?"—the new type introduced in the Bigger and Better Chevrolet on January 1st. O. E. Hunt, chief engineer of the Chevrolet Motor Company, attempted here today to answer this question for the thousands of people who have seen the new car and asked about this outstanding feature.

Invar, according to Mr. Hunt, is a contraction of the word invariable. It is the named coined to describe the metal used in making the piston "strut," which is cast as an integral part of the piston just above the pin hole and has its ends firmly embedded in the metal forming the pis-

ton face.

"Invar," Mr. Hunt explained, "is less responsive to heat or cold than any other metal known. It is a special nickel steel alloy of extreme toughness and rigidity, and is practically the same metal as that used by the United States Bureau of Standards to construct its gauges, and in the manufacture of precision instruments.

"A light alloy piston expands when heated, which means that unless this expansion is properly controlled, excessive clearance must be allowed between the piston and cylinder walls to prevent sticking and scoring, resulting in piston "slaps" and oil "pumping." This control is effected in the Chevrolet piston by use of the strut, which permits a clearance of only .0025 inches between the piston and the cylinder wall as com-

pared to .004 and .005 in clearance with a piston that has no controlled expansion.

TOKIO SCHOOL NOTES

We are getting along just fine with our exams this week. We are going to try to fill the paper this next week with names who are on the honor roll.

Tokio and Welman Senior girls played basket ball at Wellman, Thursday afternoon. The scores were eleven and twelve in favor of Wellman. Wellman is going to come to Tokio Thursday and we are going to beat them if there is any chance for them to be beat.

Everybody is invited to the singing school. Almost all the school children are attending.

We have made a survey in our community and up to now there has been about 13,542 bushel of corn shelled, and that is not all of the corn there is to be shelled. Believe me, we are sure enough going to have plenty of cornbread and buttermilk to eat if we don't get anything else. If anybody gets hungry for cornbread and buttermilk, just come to T-O-K-I-O.

Our school is still growing. We have already filled up all the desks long ago, so this morning we put some of the big boys out to digging for desks and slats instead of gold and diamonds.

We got our new black boards last week and they sure do eat up the chalk.

The School Board has ordered us a Universal Planetarium. It consists of one hundred and fifty geography lessons. It contains the sun, moon, Venus and the world.

Cora Hye was on the honor roll last month and was over looked.

In the primary room Winna Gene Proctor, Helen Box and Gene Bridge were on the honor roll this month.

Miss Maggie Jowers and Mr. Earl McNier were married Saturday afternoon and left Monday for Young county where they will make their home.

—Eunice Norris.

INTERSCHOLASTIC LEAGUE

The Interscholastic League will meet with the Brownfield Schools, March 16th and 17th, 1928.

At nine thirty o'clock the Brownfield High School Band will give a thirty minutes program. This program will be good.

Promptly at ten o'clock the League program begins with the Declamation contests. This program will last until noon.

Afternoon program will consist of the remainder of the League literary events.

Saturday morning at ten o'clock the athletic program will start and will last all day. All events that are provided for in the League program will be provided for, but provision for additional events will not be offered.

Every school in Terry county, except one, is a member of this League. We hope that you will find time to attend, for this will be the best school meet that has ever been held in the county. More than twice as many schools will take part than ever before.

There will be no charges for this program as the Merchants and teachers of Brownfield have gladly taken care of the expense of this meet.

Remember the date, March 16-17. Remember the place, Brownfield School.

Respectfully,
J. B. Jackson, Director
for Terry County.

W. F. Snitker says his wife found an egg this week almost identically the same size of the one reported by Gus Ratcliff in these columns last week, their's being only a half inch smaller the short way and the same circumference the long way. When Mrs. Snitker went out to gather up eggs to make even dozens when he got ready to bring them to town, she discovered the egg, but did not bring it to town. Some here believe he will find a natural sized egg inside this one, and he is going to experiment a bit on it.

REDUCES COST OF RAISING CORN

Two-row cultivators, and larger teams, plows, harrows, discs, and listers top the list from a standpoint of cost and labor saving in a survey of corn growing methods conducted in Iowa last year by the State Agricultural College, reports the research department of the National Association of Farm Equipment Manufacturers. This test was made in five representative counties in Iowa, each county representing a different type of agriculture. Six-horse teams on 2-bottom 14 inch gang plows required the smallest amount of labor of the various sizes of horse-drawn plows, while with a tractor the number of man-hours per acre was re-

duced still further. Two-row cultivators saved 20 cents per acre per cultivation, the survey showed.

Add Cox of the Tokio community, but whose farm lays over in Yoakum county was here Saturday purchasing some building material. Add informed us that during the summer he offered a couple of neighbors a cotton patch for a bale of cotton or \$100 but they refused his offer. He has already gathered 19 bales out of the field and is not done yet. He was already full cropped was the reason he wanted to sell the field.

Cities and towns which have electric light and power service from transmission lines or local plants in Texas now number about 975.

S. A. Lauderdale.
T. W. Moss.
S. F. (Sig.) Lane.
Marion E. Stone.

For Weigher, Pre. No. 4:
E. A. (Richard) Crews.

One of our local merchants has become so enthused with his advertising campaign that he has ordered a 25¢ set of books written on the Art of Advertising. The Herald likes to see local merchants take pride in their advertising.

The State of New Mexico is buying nail finders for the highways of that State. Texas, as well as the towns of the State could well follow suit, save lots of tire patching money and keep the car drivers in better affiliation with their churches.

The Coahoma Citizen has changed hands and is now printed by Whitaker Brothers of Midland and Coahoma. The general make-up and appearance of that journal has been enhanced greatly. Emmet of the above firm

will be recognized as our State Representative.

Editor Jess Mitchell of the Littlefield Leader has recently been appointed Mayor to fill out the term of the mayor who recently moved away. Now Jess can see how it feels to be cussed about something over which he has no control, and for which Jess has probably secretly if not openly cussed his predecessor.

When a fellow comes into your town and puts his undesired property on people already located and thereby ruins their property; when he ships in all material and the workmen who put it together, you may mark it down that this bird belongs to no organization, terrestrial or divine that teaches service above self. Such a fellow cannot add greatly to the peace and friendliness of a town.

It was recently reported here by a tourist that the filling station men in a neighboring town told him that he could not get through here on his way to Roswell, and directed him around another way. He came on anyway, and reported that he was very much surprised to find the best and smoothest dirt roads he had seen in this section of the state. Such jolts as this can only be through spite or ignorance, and we rather suspect the latter. Our local chamber of commerce has taken the matter up with the chamber of the offending town. This business has been reported more than once.

A jury at Eastland has decreed that Henry Helms, Cisco bank robber and murderer, should die. It was a just verdict. Terrible it is that a man must pay the death penalty but when a man starts out on a career of robbery and murder, we believe he forfeits his right to live. Hearing the verdict seemingly without emotion, walking back to his cell in silence, his only comment was "They poured it on me." Locked up, he began pacing his cell, evidently suffering from the terrors of death. "Whatever a man does, that shall he also reap." Crime does not pay. —Tahoka News.

CITATION BY PUBLICATION

The State of Texas,
To the Sheriff or any Constable of Terry County, Greeting:
You are hereby commanded to summon, W. S. Maddux, and E. W. Maddux by making publication of this Citation, once in each week for four successive weeks, previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the Justice's Court of Precinct No. 1, in Terry county, to be holden at the Courthouse, in the town of Brownfield, in Terry county, Texas, on the 28th day of April 1928, then and there to answer a petition, filed in said Court on the 24th day of December 1927, in a suit numbered on docket of said Court, No. 500, wherein T. M. Flippin, is plaintiff and E. W. Maddux, W. S. Maddux, Mrs. S. C. Maddux and Mrs. E. O. Tanner are defendants, and said petition alleging execution of a note for \$84.55, dated May 3rd, 1925 due May 1st, 1927, payable to Drs. W. N. and J. E. Lemmon, at Brownfield, Texas with ten per cent interest from date, and 10% attorneys fees, which note was for value assigned to T. M. Flippin, who is now owner and holder, that the note is signed by E. W. Maddux, and S. C. Maddux, that the note is unpaid and is past due. Petition prays for judgment for \$136.55 for principal interest and attorneys fees, and for cost of suit.
Herein fail not, but have you before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.
Witness, M. S. Dumas, Justice of the Peace, Pre. No. 1 Terry County, Given under my official signature, at office in Brownfield, Texas this 25th day of February, 1928.
M. S. DUMAS
Justice of the Peace, Pre. No. 1 Terry County, Texas.

WHAT OF YOUR DEPRECIATION?

A MACHINE IS NEW ONLY ONCE—

Constant use brings depreciation and its owner must make provision for the time when it needs repair or quits functioning altogether.

SAME GOES FOR MAN—

In his youth he has strength, stamina, an alert mind. He's at his greatest earning power. But age brings "depreciation" for which he should provide.

The moral is SAVE. Open an account with the—

ANNOUNCEMENT

We are opening our shop this week in charge of an A-1 mechanic, who has had a number of years experience in the automobile repair shop.

Bring us your repair work—Satisfaction guaranteed. Do it now and save time, trouble and expense.

HARDIN-BURNETT CO.

OFFERS RICH PRIZE FOR SAFETY IN AIR

Guggenheim Acts to Take Peril From Flying.

New York.—Man's mastery of the air has reached a point, the Daniel Guggenheim Foundation for Promotion of Aeronautics believes, at which the factor of safety must be given greater attention if the possibilities of aircraft are to be adapted to transportation.

To hasten the day when a reliable plane in the hands of any good pilot will be as safe as a railroad train or a motor car, directors of the Guggenheim fund have set aside \$150,000 in prizes, to be awarded to planes which meet most satisfactorily nine requirements for airplane safety.

The competition is to be concluded by October 31, 1929. Five British and two American manufacturers of aircraft already have entered the race.

Nine Tests Submitted.

These are the nine tests with which aircraft must comply:

The plane must maintain level and controlled flight at a speed not greater than 35 miles an hour and must be able to glide for three minutes with all power switched off, during which the speed must not exceed 38 miles an hour.

The plane must come to a complete stop within 100 feet of the spot where it first touches the ground in landing.

A steady glide must be made over an obstruction 35 feet high and the plane must come to a complete stop within 300 feet of the base of the obstruction. This is to test the ship's ability to make a forced landing in a small space surrounded by wires, houses or trees.

The plane must clear a 35-foot-high obstruction from a starting point 500 feet away.

With all power switched off, the plane must glide at an angle of not more than eight and not less than sixteen degrees and at a speed not greater than 45 miles an hour, to test its ability to approach an uncertain landing place in event of engine failure.

In normal flight, at a speed of 45 to 100 miles an hour, the pilot must take both hands off the controls for at least five minutes, to demonstrate the ability of his craft to right itself after disturbances from wind gusts or from the application of controls.

The plane must show that if its engine fails it will assume a gently gliding position and make an easy landing. The pilot must pull his elevator control to a maximum extent at the moment the power is switched off and the ship must descend on a steep glide at a speed of not more than 40 miles an hour.

Three independent controls must be placed on perfect control if the others are switched off.

The plane must show its ability to take off and to land on a plot 500 feet square surrounded by a 25-foot obstruction, and it must taxi under its own power along the ground against a strong wind.

Schedule of Awards.

Of the prize money, \$100,000 will go to the competitor whose entry wins the highest number of points in four of the nine safety tests. Ten thousand dollars will go to each of the first five entries to satisfy all the requirements.

Judges are Orville Wright, R. Trubee Davison, assistant secretary of war for aeronautics; Edward P. Warner, assistant navy secretary for aeronautics; William P. MacCracken, Jr., assistant secretary of commerce for aeronautics; Commander Richard E. Byrd and Dr. George W. Lewis. Three technical advisers—Prof. Alexander Klemm of New York university, Maj. R. F. Mayo and Lieut. E. E. Aldrin of Massachusetts Institute of Technology will assist the judges.

"Any effort to make air traffic an integral part of our national commerce life," says Harry Guggenheim, president of the fund, "must first reduce and as nearly as possible overcome the popular skepticism of air transportation."

"The average man likes to send his mail by air but he lets somebody else do the flying. If present air hazards are reduced, air traffic will come into its own as a common method of transportation."

War on Corn-Borer is Possible With Wormwood

Paris.—The corn-borer, which threatens disaster to the corn belt of the Middle West, can be fought successfully, think French scientists, by introducing wormwood into the United States.

This was given definitely as a fairly certain solution by Dr. E. Roubaud of the Pasteur Institute, in a paper read before the Academy of Sciences by Doctor Bouvier. Doctor Roubaud is chief of the Pasteur Institute's entomological laboratory.

The devastating corn-borer, called here "pyrale," is prevalent in France and is said to have been taken to America by way of Canada. Here, however, it prefers life in the weed-like plant wormwood, says Doctor Roubaud, and therefore is not a menace to agriculture or horticulture.

Wormwood, fairly rare in the United States, is prolific here, where it was used in the manufacture of absinthe, the liquor now prohibited.

Unbelievable

Aberdeen, Scotland.—A Scotchman made a journey costing 30 shillings in order to collect a government pension of 10 shillings.

TEXAS HAS LONGEST PRESS WIRE IN WORLD

The longest press wire in the world is in Texas. It is a wire operated from Dallas by the Associated Press and serves 18 daily papers including Texarkana on the northeast, Amarillo on the northwest, El Paso in the far west, and Brownsville in the south. Many other cities are on the wire. It is 2,714 miles long, longer than the distance from Chicago to San Francisco. Recent changes have added to its length.

These facts indicate a little known service of the Southwestern Bell Telephone Company, says the Texas Public Service Information Bureau. The wires making up this long press communication, over which Texas cities receive news of the world, are leased from the telephone company. The press service is a by-product of the telephone business, since the same wires are used for long distance telephone messages at the same instant that the news of the press association is going over them.

One of the recent great services the telephone rendered the newspapers was in making possible rapid reports on Col. Charles Lindbergh's flight to Mexico City. Much of the news of his arrival in Mexico was brought to Dallas from Mexico City by telephone. The Associated Press and the United Press each held the long distance wires to Mexico City for several hours in order to receive instantaneous reports. The Associated Press held a wire three hours and 12 minutes, the longest telephone call ever recorded in the Southwest. The cost for this period was about \$480.

The Associated Press now operates 154,000 miles of wire throughout the country and spends about \$2,000,000 a year in wire costs. It operates 24 hours a day every day in the year except between 4 A. M. and 4 P. M. Sunday, and its wires deliver upwards of 100,000 words a day to the largest papers.

Texas has a priceless water supply in her underground waters, and the development of these is said to be the outstanding fact in the state's development in the last 35 years.

One of the noteworthy spring water areas of the United States lies in Southwest Texas.

NEWS—COMEDY

A government entomologist is here this week looking for pink boll worms but had found none when we last talked with him.

PINK BOLL WORM

We don't understand all we know about all this disturbance about this Mr. Worm.

Here are a few we have incidentally picked up by the way however. We have our oldest son, now in California where he is in the employ of Anderson Clayton Cotton Co., and who up to last year had lived three years at Clint and Ysleta, Texas and operated two gins for two years at Clint for Mr. W. A. Dykes and the third year for Hendricks-McDonald Co.

The Ysleta country joins Old Mexico. Much ado was made in that irrigated district about the pink boll worm. They are disinfecting the cotton and yet in a restricted district.

Save It

Don't discard that ice-box—it's good for another year—all you have to do is get a good brush and a can of

PEE GEE
Re-Nu-Lac

to transform its appearance and add to its usefulness. Pee Gee Re-Nu-Lac renews the color and gloss finish at one operation—any color you want—no skill required. Costs very little.

CICERO SMITH LBR. CO
Brownfield, Texas

This cotton is a long staple and they make 2 to 2 1-2 bales per acre and no harm has come to the cotton. So far so good. Now if the process they use protects the cotton from damage from this worm and they are adjoining Old Mexico, then where is the damage to cause so much fuss? Again they raise a better staple with the pink worm than we do without him. Their cotton will bring as a whole a better price than ours.

Now then mind you they have gone on for several years under this worm and still no perceptible damage has been done. We want to quarantine against them and all east of us want to quarantine against us.

Now then no remedy has yet been found for the boll weevil. He is gradually moving west but nothing is said about placing that country in a non-cotton zone to protect us against something that no means have yet been found to destroy.

Millions of acres of cotton are destroyed every year. But we are told the Pink Worm runs a circle and cuts the lint in two. Alright show us if he has ever destroyed whole crops of cotton at any place as has the boll weevil. Now don't tell us a lot about

through these very cotton fields and you waste your time telling us something that we have seen with our own eyes and broken open boll after boll to learn first handed about all this business. Last but not least, the only two worms they tell us that were found in this county were dead.

Is it or is it not a fact that there is something besides boll worms in this matter?

We would like to be shown but not told. If we see a thing it makes a big difference. We are simply being worked somewhere. Just where the writer does not know but if we are right we will never let up till we find out where and for what.

If the worms we did find are dead then this country seems unhealthy for them so why worry? If they can and will live here and the El Paso country have controlled so that the damage done in five years is not noticeable then why worry? Better stop these easterners from hatching boll weavils. Put them in a non-cotton zone for their own good. They keep bucking the cotton crop and continue to have whole crops eaten up and it would be a favor to them to stop them.

We are opposed to paying any attention to this matter unless we are forced to by the government and we are against any move to change the matter from where it is now.—Lamesa Reporter.

KITE TIME IS DANGER TIME WITH WIRES NEAR

Kite time is danger time for children and electric power and light companies. Officials of the companies point out that it is very dangerous to fly kites near electric wires. In addition to very great danger of grave personal injury there is the further hazard of damage caused by cross circuiting wires.

Special warning is being given against the flying of kites with metal frames that are now being sold. Some cities have ordinances prohibiting the flying of metal kites in the corporate limits of cities. Dallas has such an ordinance.

The company officials do not mean to discourage or prohibit the pleasure that comes to a boy from flying his kite, but they do advise that an open space and not the crowded city should be used for the purpose.

Texas produces commercial well waters to the value of from \$18,000,000 to \$20,000,000 a year.

"SHORTY" WINS POT OF GOLD AFTER THIRTY YEARS' HUNT

Locates Rich Mining Claims in Northern Manitoba on Hudson Bay Railway.

Winnipeg, Man.—Thirty years ago "Shorty" Peterson, prospector of northern Manitoba, graduated from the University of Chicago as a mining engineer. Since that time he has spent years in the north country in the bush with hardship, grub staking and rainbow chasing his portion.

But at last he has found his pot of gold and he is through, he states. He "blew" into Winnipeg recently on the tail of a blizzard and at the mining recorder's office started to complete a deal to sell ten full claims and four fractional claims for \$300,000. The buyers were a Toronto and New York mining syndicate and the location is in northern Manitoba beside the Hudson Bay railway.

Provided with maps, mining records, rich gold bearing quartz, reports on government assays, and blueprints disclosing a vein 200 feet wide by 3,000 feet long, he started negotiations, turning down one after another of small cash offers.

The claims are located on Elbow lake on property owned by Tom Hanna, who is Peterson's partner. It is about forty miles east of Flin Flon and twenty-five miles from the Hudson Bay railway right-of-way.

Peterson started his career as a miner when he took a course in mining engineering in the University of Chicago in 1897. He first went to the Colorado silver mines and there lost \$3,000 of his capital. After ten years in the United States he came north into Manitoba and has spent one-third of his life in the bush in the north. He had many years of disappointments and then came the big find. Now Peterson intends to make up for the hundreds of cold nights, poor food, and other discomforts a prospector has to put up with.

Criminals Are Popular According to Novelist

Budapest.—In an article in the Nemzetl Ujsag on popular favorites, Miklos Sztranyl, the well-known novelist, makes an interesting scale of the degrees in which various professions and stations in life arouse popular interest. On the lowest rung of the ladder of popular interest and world renown stand the great scholars—scientists, thinkers, geniuses and benefactors of humanity. Slightly above them come the great statesmen. Next come the authors, artists, creators, planners and inventors.

Higher still come the virtuosos, orators, dictators and generalissimos. Above them are the millionaires. But the fame of the millionaires, outshone by that of winners of world contests, boxing champions, film actresses, exponents of physical beauty, famous courtesans and race horses.

And the topmost rung of the ladder of popular favor is reserved for the great criminals. In a word, virtue and brain are today the most despised and worst-paid qualities. Samuel Johnson, he points out, who wrote the great English dictionary, is known only to students and intellectuals, while John Bull, the negro boxer, is as well known in the smallest Hungarian village as in Paris or on an American ranch.

Turkish Coffee

In order to make coffee as served in Turkey only the darker grades of coffee, such as pure mocha, should be used. The coffee is made much stronger than in the United States, about one large cupful of coffee to three cupfuls of water being the formula. The coffee is placed directly in the water and the whole brought to a boil. It is then sweetened to the consistency of sirup, but no cream is put in it.

Famous Relic of Past

The Circus of Romulus of Maxentius, built in 311 A. D., is the most perfect circus surviving. It is 1,580 feet long and 200 feet wide. The outer wall remains almost complete, and the central spina, 892 feet long, can be traced throughout. At the west end, between two towers, are the chief entrance and 12 pens (carceres) for competing chariots; the east end is semicircular.

DO YOU KNOW THAT—

—you can get more miles to the gallon by having your car filled with Magnolia gas and oils. And as for those tires and tubes, there's no better made than "United States," and we handle 'em. Let us fix your flats for you?

SOCIETY and Club

MRS. R. L. BOWERS, Editor
Phone 1-8-2

MRS. COLLINS I-DEAL CLUB HOSTESS.

Mrs. W. H. Collins was hostess to the I-Deal Club Wednesday afternoon at four o'clock. In bridge Mrs. McSpadden scored high and received a baking pyrex dish; table cuts which were dainty hand painted handkerchiefs went to Mrs. Cruce, Mrs. Knight and Mrs. Sawyer. The guests were Mesdames Michie, Flem McSpadden, Bailey, Sawyer, May, Dallas, McGowan, Self, Knight, Cruce, R. L. Hariss and Bowers.

Bread and butter sandwiches, pressed chicken, potato chips, olives, iced tea and caramel pudding with whipped cream were served.

MRS. DUNN ENTERTAINS FRIENDS.

Mrs. Dunn entertained some friends Wednesday afternoon with a shower in honor of Mrs. Lawrence Green from three to five o'clock. The many gifts were brought in a little wagon drawn by little Misses Sallie Truman Stricklin and Wilma Frank Dunn. Then fortunes were told in peanuts, after which sandwiches, Angel Food Cake and iced tea were served to Mesdames Lawrence Green, Clements, Sears, Coe, G. W. Hicks, Walter Gracey, Howard Swan, Frank Balard, Clyde Bond, E. L. Redford, K. W. Howell, Gaylon Price, Word Price, L. R. Pounds, Burlson, Hoover, J. C. Green, R. L. Bandy, Chapman, Griffin and Misses Casen and VicaMae Sears. A pretty gold W. M. S. pin was presented to Mrs. Dunn from all the circles.

CHRISTIAN ENDEAVOR PARTY

The Christian Endeavor Society was entertained Friday night, February 24th with a party at the Presbyterian church with Mrs. Dallas and Miss Perkins as chaperons. Indoor games were enjoyed during the evening after which sandwiches brought by the girls and soda pop brought by the boys, were served. Those present were Misses Alma Brown, Eileen Ellington, Kathrine Holgate, Mary Handley Endersen, Lataine Eiche, Martha McClish, Marion Hill, Lenore Brownfield, Kathaleen Hardin and Messrs R. L. Lewis, Sawyer Graham, Don King and Dell Smith.

IDLE WIVES CLUB ENTERTAINED BY MRS. COPELAND

The Idle Wives Club was entertained Thursday afternoon at three thirty o'clock by Mrs. Morgan Copeland. In bridge Mrs. Bailey scored high and Mrs. W. C. Smith next to high, both receiving pretty pieces of the Forestry Pottery. Sandwiches, fruit salad and coffee were served. The guests were Mesdames A. M. Brownfield, McGowan, Fred Smith, Ray Brownfield, Tom May, Miller, Dallas, Endersen, Wingerd, Shelton, Bowers, Bailey, Arthur Sawyer, Michie, Collins, Dalton Lewis and W. C. Smith.

Mrs. O. W. Fagala and children left Saturday for Hugo, Okla., to visit her mother and grandmother.

Mr. and Mrs. W. G. Harris made a business trip to Childress the first of the week.

Mr. and Mrs. Ray Brownfield and Ray Jr. accompanied by Mr. and Mrs. Will Edd Harris of Carrizozo, New Mexico left Monday for different points in Florida to spend the remaining cold weather months.

METHODIST WOMEN'S MISSIONARY SOCIAL.

The Methodist Women's Missionary Social was held Monday afternoon, February 27th at the home of Mrs. Jno. S. Powell. The hostess had provided a number of clever contests for the afternoon after which sandwiches, hot tea and cookies were served to the following: Mesdames Downing, Webber, Coleman, Thompson, Woolridge, Adcock, Cleve Williams, Welch, Harry Longbrake, Youree, Mangum, Linville, Barret, Hunter, Chisholm and Baldwin.

ATTENDS METHODIST JUBILEE TEA AT LUBBOCK.

Mrs. W. B. Downing attended the Lubbock Methodist Jubilee tea Friday, February 24, which was given at the home of Rev. and Mrs. E. E. White, 1419 Broadway. This program depicted the history of Wo-

man's Society activities in the First Methodist church since organization twenty-six years ago, a pageant, in four cycles, each covering seven years of the society activities. The charter and pioneer W. M. S. members were particularly honored and were presented bouquets of sweet peas in remembrance of their services. The past presidents were also lined up and introduced, among these being Mrs. Downing, a former president of the W. M. S. and who is now zone leader of this district.

At the close of the pageant, tea was poured at a table laid with an exquisite banquet cloth and silver services, and served with sandwiches and mints. The large birthday cake with twenty-six candles and embossed in gold, centered the table.

Mrs. B. D. DuBois who has been in the Lubbock Sanitarium is at home again and is welcomed by her friends.

LEAP YEAR CLUB

A number of girls met at the home of Blanche Williamson Friday night and organized a club, which it was decided to call the Leap Year Club. Vivian Eubank was elected president, and Francis Carpenter, reporter.

Sandwiches and hot chocolate were served to Misses Lucille Jones, Kordie Mae Shepherd, Doris Bandy, Vivian Eubank, Blanche Williamson and Francis Carpenter. The club meets with Miss Jones next.

BAPTIST W. M. U. CELEBRATES

All of the Circles of the Baptist Women's Missionary Union united last Friday in celebrating the Ruby Anniversary of the organization. An interesting program was given in which the main idea was that of enlisting more workers in the auxiliaries. Tea and cake were served to about fifty or sixty guests, among whom were visitors from Union, Wellman, Meadow and Gomez. All of the guests registered in a book in charge of Mrs. Clyde Bond.

BLANCHE ROSE WALKER CIRCLE MEET.

The Blanche Rose Walker Circle met Monday afternoon at the home of Mrs. Joe Davis, eight miles west of town. The Bible study was "The Christian Joy" taught by Mrs. Auburg, followed by a short business session. Those present were Mesdames J. C. Green, Dunn, Pounds, English, Markham, Allen and Auburg.

The Methodist Women's Missionary Society met Monday afternoon at the church with a lesson on "Life as a Stewardship," followed by a business meeting. Fourteen members were present.

CHRISTIAN ENDEAVOR PICNIC

Camp fires and picnic suppers seem very alluring as spring days come. Friday evening the Senior Christian Endeavor sponsored by Miss Perkins enjoyed a weiner roast. With the usual good supper and games played, all thoroughly enjoyed themselves, after which they went to the home of Mr. and Mrs. Dallas to practice new songs.

MAIDS AND MATRONS MEETING

The Maids and Matrons Club met Tuesday afternoon at four o'clock at the home of Mrs. Roy Wingerd. After a business session, the following interesting program was rendered: Administration of Texas as a State—Miss Margaret Bell. The Railroad in Texas—Mrs. Adams John H. Reagan—Mrs. Sawyer. Present Day Texas Statistics—Mrs. Bell. Texas in World War; Present Function of American Legion—Miss E. Dumas. Illiteracy in Texas—Mrs. Dallas. The hostess served delicious fruit cocktail and coconut macarons. Present were Mesdames Bell, Bowers, Dallas, Ellington, Harris, McSpadden, Miller, Sawyer, Stricklin and Misses Nancy and Elizabeth Dumas and Margaret Bell, with Mrs. Ike Bailey and Mrs. McDuffie as guests.

Mr. and Mrs. Arthur Sawyer and little daughter, Queenelle are spending the week end at Midland.

Dee Brownfield and Will Ed Harris of New Mexico, were here last week visiting relatives.

HOW THE USEFUL PLANTS CAME TO MANKIND

—Spinach—

In contrast with such vegetables of ancient use as the cabbage, turnip and bean, spinach was introduced into Europe as recently as the sixteenth century, at which time there was controversy whether the name should be spanacha, a vegetable from Spain, or spinacio, a vegetable with prickly pods. Eventually it was shown that spinach was a Persian plant, almost certainly coming from the ancient empires of the Medes and Persians, whose hordes used continually to menace the Greek civilization from the East. The Persian name is ispanaj or ispanaj, and the Hindu, isfany or pinnis. That it has no Sanskrit name indicates that even in those regions its cultivation does not reach back into remote antiquity.

Further evidence of its Persian origin is found in its Chinese name, characters which are translated "herb of Persia."

Cultivation of spinach probably originated about the time of the Greek and Roman civilization, when the Persian empire was also flourishing. Its spread was slow, both to the east and to the west. No mention of it in Chinese records is found until between 600 and 900 A. D. Ebn Baither, a resident of Malaga and a great traveler, reported evidence that it was raised extensively in ancient Nineveh and Babylon, which he ob-

tained from Arabian writings.

Spinach has frequently been identified as wild, but the facts are not wholly beyond question. A variety, spinacia tetrandra, is found to the south of the Caucasus in Turkestan and in Persia, and the modern spinach may be a derivation through cultivation from this plant. Tetrandra has been brought under cultivation in India and some botanists, after a careful examination of the resulting plant, claim that it is identical with the garden spinach of the modern world.

In this respect it differs markedly from lettuce, which has been positively identified in the wild state in a great variety of places, ranging from the Canary island and Algeria to temperate and southern Europe, Persia, Abyssinia and China. It does especially well in Europe. Two thousand years ago botanists described three varieties, while latterly this number has grown to more than fifty, many of the kinds having been developed in the gardens of temperate Europe.

MARRIED

Mr. Earl McAmear of Jacksboro, Texas, and Miss Mayme Jowers of Tokio drove in last Saturday afternoon about 2:30, and repaired to the Methodist parsonage, where Dr. J. W. Chisholm said the words that united them in the holy bonds of wedlock. We understand the happy young couple will make their home at Jacksboro.

Just Name Your "Bob"

Quite varied, indeed, are the styles of hair "bobs" now in vogue and as every woman has her own ideas as to which would look most becoming to her, we are adapt at the art of providing the exact "bob" she insists upon. And in our beauty parlor she can get the exact curl she wants.

Texas Sunshine and W. O. W. Hospital Save 2,000 Lives

The Honorable W. A. Fraser, a native Texan, now Sovereign Commander of the Woodmen of the World

TEXAS sunshine and the War Memorial Hospital of the Woodmen of the World located at San Antonio, have saved the lives of 2,000 men, women and children, according to figures compiled by W. A. Fraser, Sovereign Commander of the Woodmen of the World.

The report prepared by Mr. Fraser, which was presented to the Executive Council of the order, shows that during the four and one-half years' existence of the hospital, more than 2,000 patients have been returned to their homes, and saved from the ravages of tubercular disease.

"The hospital is an outgrowth of a life dream of mine," said Commander Fraser. "Being a native

Above—Woodmen of the World Hospital at San Antonio

Below—Part of herd of Jersey cows at W. O. W. Hospital, used exclusively for hospital patients

Texas, I have always appreciated the Texas climate and sunshine, and when we decided to build a big hospital I chose the site of San Antonio. I appreciated the fact that the hospital would do a great deal in saving the lives of Woodmen of the World members afflicted with tuberculosis, but I also knew that more important than all in the saving of life would be the Texas sunshine.

The Woodmen of the World hospital represents an investment of more than one million dollars. The hospital consists of 210 acres of land, completely equipped hospital, nurses' home, supervisor's building, barns and outhouses. It is a free sanatorium for tubercular members of the Society and has 225 beds. It is managed by Dr. H. Phil Hill, a man of unusual executive and professional ability.

Every cent of its operation and maintenance cost comes out of a special hospital endowment, therefore, without cost to membership.

The hospital equipment was furnished without cost to the Society and the original grounds with the original building was also secured by Sovereign Commander without assessing the cost to members.

In connection with the hospital a registered Jersey dairy for the benefit of patients is maintained, also a hog and poultry yard, vegetable gardens and farm, all for the benefit of patients.

Treatment, food, housing, surroundings and equipment are scientifically combined in this institution.

Hunter School Notes

Quite a number of the school children were absent the past week on account of colds.

If Tokio doesn't stop bragging about her ball team, we are going to run over some Friday evening and show them some real tricks in ball playing.

Mr. and Mrs. W. J. Baldwin of the Forrester district spent Sunday with Mr. and Mrs. O. M. Minnix.

Mr. and Mrs. Lee Lyon visited in the home of O. M. Edwards, Sunday.

Mrs. O. M. Minnix is reported as being improved.

Mr. and Mrs. G. E. Zahary and children spent Sunday with Mr. and Mrs. W. G. Zahary.

Lonnie Reatherford visited Elmer Edwards, Sunday.

W. H. Hight is now among the proud owners of a new Whippet.

Miss Jewel Kemy visited Miss Thelma Offill, Sunday.

Mr. and Mrs. R. C. Hall were also among those present at Mr. O. M. Edwards, Sunday.

O. M. Edwards accompanied by his son, Narvel and daughter, Creo, left Thursday for points in East Texas and Oklahoma.

E. H. Machen had the misfortune last week of losing two of his best work mules through cause of sickness.

Deward Williams spent Saturday night with his friend L. O. Reatherford.

O. M. Minnix was a business visitor to Lubbock, Saturday.

Our teachers, Mr. and Mrs. Lee Fulton visited relatives at Lubbock and Brownfield Saturday and Sunday returning in time to assume their duties Monday morning.

L. P. Adair of Wellman was recently in to see what was becoming of his Herald each week, and we discovered in making up the new mailing list recently that his name was put in the Lahey list. He said he liked the Herald too well to be missing issues.

Jim Burnett says for us to tell the folks that he renewed for his Herald this week. We did Jim, and thank you awfully, furthermore.

CARD OF THANKS

Brownfield, Texas

March 5, 1928

We wish to take this means of thanking our many friends and neighbors who came last Wednesday and listed our land. The world is really worth living in when you have neighbors like we have at Pleasant Valley.

Thanking you again we remain Sincerely,
Mrs. J. M. Wells and children.

Dr. G. W. Graves was called to Oklahoma on important business this week but had not gotten off at the time this was written. His wife and daughter, Miss Jewell, will accompany him.

E. D. Avirett of South route is a recent new reader of the Herald.

Pappy John Powell had his Rhode Island Red flock culled by an expert recently who pronounced them the best he had culled. Note his ad elsewhere in this paper.

O. M. Edwards got tired of being bothered every year with his Herald subscription and came in this week and gave us a check for \$5.00 which puts his up to Jan. 1933.

Mr. and Mrs. Ed S. Smith of Vernon were up last week looking after their Yoakum county ranch. They brought up some more cattle to put on it.

There are three new announcements this week, all being for Commissioner of Pre. No. 4.

L. E. Bryant has changed his mail to the south route, which becomes a daily on the 16th.

RHEUMALAX RELIEVES RHEUMATISM

Mr. Chas. May, Wheeler, Texas writes, that "for 15 years I had rheumatism so badly that could hardly dress myself. One bottle cured me sound and well and I highly recommend it to any one suffering from this dreadful disease." RHEUMALAX sold and guaranteed by Alexander Drug Store.

Change 2 Gallon Cows to 3 Gallon Cows!

Purina Cow Chow makes milk—lots of milk—when you feed Bulky-Las to take care of the body maintenance.

Bulky-Las is made to go with Cow Chow. If you are feeding hulls, add Bulky-Las to keep the cow's body healthy, and where hay is scarce Bulky-Las will supply the needed bulk cheaper.

Feed Cow Chow and Bulky-Las together and make more milk at less cost per gallon.

HOTEL PROPOSITION PROGRESSING NICELY

Quite a bit of interest is being manifest in the proposed new hotel building for Seminole, and although the idea was only started about a week or ten days ago, the entire citizenship has joined in on boosting and hoping that this proposition so vitally connected with the future growth of our town can be put over.

There necessarily will be some delay, or in other words it takes time to work out the details on any worthwhile undertaking, and this is no exception. Everything is going ahead with but one view in mind for all, and that is to build a hotel for Seminole.

Some plans and specifications have already been submitted, and it is thought that before many days pass a definite location and other details can be announced.—Seminole Sentinel.

WHAT'S DOING IN WEST TEXAS

Coleman—Leon Shield is again offering \$100 in gold to the first place winner in the Annual 'My Home Town' Contest of the WTCC.

Westbrook—Westbrook has just completed construction of a 20 room modern high school recently.

Snyder—Snyder won the 1929 West Central district convention of the West Texas Chamber of Commerce through its 'Mockingbirds,' eloquent plea of superintendent C. Wedgeworth, and a large delegation.

Friona—The local chamber of commerce has provided a public dumping ground for the town.

Fort Worth—Saturday, March 10, is Texas Newspaper Men's day at the Fat Stock Show.

Sonora—Range conditions are reported good over the section. Goat shearing will begin at an early date.

Guymon, Okla.—Guymon, Oklahoma, is the first "Sooner" State town to affiliate with the West Texas Chamber of Commerce.

Woodson—The first run of the Cisco & Northeastern railroad was celebrated in elaborate fashion here March 1.

Santa Anna—Dedication services for Santa Anna's new high school building have been held.

Huntsville—Manager Homer D. Wade will speak before an East Texas Chamber of Commerce regional meeting here March 23, inaugurating a policy of exchanging "pulpits" with officials of that body.

Blackwell—Practically all land in the Blackwell farming territory has been turned under and is ready for arrival of planting time.

Lometa. Lometa is one among 79 Texas towns entitled to good fire records credits effective March 1.

We wish to thank J. W. Oliver for his renewal to the Herald.

Don't forget the salt in the breakfast cereal. Very often a lasting dislike for cereals is due to lack of proper salting. A teaspoonful to a quart of water is the usual amount needed.

When you want to make a meat loaf, have the butcher cut off a fresh piece of meat and grind it while you look on, or take the meat home and grind it yourself. Use the ground meat the day it was bought if possible.

Early spring is the time to get ahead with hot weather clothing. Stores are full of attractive cotton fabrics. Invest in a few dress lengths and make them up at odd moments so you will be prepared when the first warm days arrive.

Liver that has been fried with bacon and a little onion may be scalloped with rice in a baking dish. Salt pork may be used instead of bacon and raw potatoes, thinly sliced, instead of rice.

Happy—A twenty-five room hotel building with space for four business houses, lobby, and coffee shop on the ground floor has been planned by local capital.

Breckenridge—A branch house, known as the Oil Belt Flag & Decorating Company, has been opened in this city by the Amarillo Flag and Decorating Company.

Olney—A complete tree survey of Young county has been made under auspices of the local chamber of commerce and county agents.

Jam or jelly tarts, made of left-over pie dough and left-over preserves, will solve the question what to have for dessert, with very little trouble. Pie trimmings can also be cut into cookie shapes, brushed with egg-yolk, sugar and cinnamon, and used for cookies.

Holding the Democratic convention in the greatest cotton state does not augur so well for the Woolen boom.

Possibly a chess player is merely a flag-pole sitter with a college education.

AVERY PLAINSMAN LISTER

THERE IS NO SUBSTITUTE FOR EXPERIENCE.

PERFECT BALANCE An AVERY PLUS Feature

For 100 years Avery implements have expressed an ideal. It has been handed down from generation to generation. Now it is voiced in Avery Plus Features.

Thus, in the Avery Plainsman Lister you have in addition to exceptional quality, an outstanding Plus Feature. It is the perfect balance of the implement—a product of the creative ability, sincere effort, experience and skill of

Avery designers, inventors and craftsmen.

Whether at work or in transport, this celebrated lister is in perfect poise. The front wheels do not fly up in the air when the bottoms are raised. Weight of operator, weight of plows, position, size, have all been scientifically considered to produce this perfect balance. Result? A better lister and better work.

Avery Plus Features Make Money for You

In every case a Plus Feature saves time, saves labor, improves results. Thereby it makes money for you. Do you want this extra profit? Call upon us for further facts and a demonstration.

HUDGENS & KNIGHT
BROWNFIELD, TEXAS

90TH DIVISION TO HOLD RE-UNION AT SAN ANTONIO

SAN ANTONIO, Texas, March 5.—Members of the famous Ninetieth Division, made up of Texas and Oklahoma men, will hold a reunion at San Antonio during the national convention of the American Legion here October 8 to 12.

Preliminary arrangements for holding the reunion were made here recently by Arthur J. Reinhart, street commissioner of Dallas, president of the Ninetieth Division Association, and W. C. Menton, also of Dallas, secretary, with the Legion convention bureau here.

The reunion will be in the nature of a visit to the old division's training camp, as the Ninetieth was trained at Camp Travis at San Antonio.

Major Sylvan Lang, of San Antonio, was appointed general chairman of the arrangements committee for the reunion. Joe Sheldon, also of San Antonio, is vice chairman.

Major General Henry T. Allen, of Louisville, war-time commander of the division, will be present at the reunion, according to Secretary Menton. Gen. Patsy O'Neil, of Okla.; General McAlexander and other high ranking officers of the division will also be present.

One entire floor of the Lanier Hotel has been reserved for the division. Headquarters for the convention will be in this hotel.

The annual banquet will be held at the Gunter Hotel on the night of October 8, the opening day of the Legion convention.

Members of the division are asked to write to W. C. Menton, 1128 Kirby Building, Dallas, Texas, for information concerning arrangements for the reunion. They are especially urged to write in and make their room reservations early.

Dad Tudor says he is now out of the hog business and is looking for a cook. Please give height, weight, color and other description in first letter. No charges are being made for this ad.

-LISTEN FOLKS-

We give you service with a smile. Also you will receive a dial with each dollar you spend with us. And that gives you a chance at our \$200 Radio, but if you did not hold the lucky dial, each dial is worth 50c on a Radio. Why not take a chance to get this beautiful Radio set without cost to you. And your groceries do not cost you any more at White & Murphey's than elsewhere.

EGGS CULLED BY EXPERT

A Purina Feed Representative recently culled my flock of Rhode Island Red Chickens and pronounced them the best flock he had culled. I can furnish a few settings of eggs from this flock Block North Shambur-ger yard.

Brownfield JNO. S. POWELL Texas

MEADOW BRIEFS

By Aesculapias.

The past week was rather quiet in our Berg, didn't even have a fight to break the monotony of the usual village life.

A few of our boys who left a week or so ago to make their fortunes in the Southern Oil Fields returned on regular schedule time, and are now eating at the old mans table much to the chagrin and discomfort of the family and the annoyance of the community.

The Sheriff was among us Sunday and the street corners and out houses were vacated in short order. There is a reason for these activities but I have never been put wise and presume it is just habit on the part of the youngsters.

The Methodists began a revival meeting Sunday and I presume it will continue during the week. The Rev. J. W. Cole is doing the preaching. If he could get these youngsters out to hear him there might be some chance of reaching their better natures—if they have any—but games are much more interesting to the average youngster. If they hear him he will have to look out the highways and hedges and as of old, compel them to

come in. The flame isn't worth the candle.

The season of snakes is getting near. They will soon be crawling about looking for food after a six months hibernation. People should know that a very effective serum has been perfected for use and is or should be available at all drug stores both for stock and humans. It is also reasonable in price and no one should take the risk of loosing a valuable animal without using it. It has been found life saving with stock forty-eight hours after being bitten.

One dose is usually sufficient both for human beings and stock. If you or any member of the family get bitten tie a cord tightly above the bite get a doctor and the serum as quickly as possible.

No charge for this advice.

Atheists and the Supreme Kingdom

The press of the state are telling us from their front page that one Edward Young Clark, founder of the Supreme Kingdom, is to have a tangle up with Chas. Lee Smith of the four A's. I trust they will meet and each ought to have little trouble in proving that both they and their organizations are a nuisance.

I don't know anything about the Supreme Kingdom but from some not very ancient history, a Gentleman by

that cognomen once conducted a K. K. K. Mill down in Georgia at ten dollars and trimmings per candidate, and I kinder have a sneaking hunch that they are possibly acquainted with each other. If so don't you know that the Supreme Kingdom bunch are daises.

Smith says Clark's warriors are "shady" and Clark alleges that Smith's crowd are anarchists and should be deported. Everyone knows the atheist creed. It has been here for ages and ages past, has never done any serious harm—just ask inconvenient questions and finally wind up by going to preaching or quit talking when no one will give them further attention.

If this is the same old Edward Young Clark he will never meet Smith. If any one meets Smith it will be a proxy. Clark will be indisposed.

There is unquestionably a Supreme Kingdom but I am confident that Clark hasn't much to do with it. Straton had a wool pulling with Smith last season, and I presume he got wise to Clark and his bunch.

Straton can return to his brethren Norris and Riley and help them in getting rid of the evolutionists, or he might go on the lecture platform and entertain the crowds talking about women and short skirts. I doubt seriously that either of them have ever seen the face of a woman on the streets, and when they reach home their wives are so disgusted with them that she doesn't look at them.

Our women are all related, distant-ly, to that other woman who rambled

around in the first apple orchard and ate what she pleased regardless of Prohibition Laws and has kept her independence in spite of snakes and garden regulations. When she got ready she donned the fig leaf fashions of the times. As time progressed she kept adding garments of one kind and another until she even covered up her face—as her sisters of the Holy Land continue to do—but for many years past she has been discarding them. Travel has taught her that more men congregate about a Venus De Milo than they do around a sister of charity with a veil, and now she is going back to the style of the Garden. Men who have reached the Climacteric get disgruntled, the other kind look, admire and smile. The woman of the present is the most magnificent of all time, and just as good. "And thy desire shall be to thy husband and he shall rule over thee" doesn't frighten her any more. If he don't like her way of doing he can hunt greener pastures.

The male of the species will continue to follow.

We are glad to see Roy Collier on the job again after quite a serious seige of illness. He found out one thing while sick. He says the people of Brownfield wont let you starve and an ever ready help in the time of trouble. From what the writer could gather from his conversation, his family fared better while he was down sick than when he himself was doing the providing. Great people we have here.

Mrs. Will Moore pleased the Herald with a renewal recently.

J. B. Huckabee was in from the farm Saturday milling around with the crowd and informed us that he and the boys were batching, the good wife being off visiting. Asked how they were fairing, he answered: Oh! fine; we cut into a fine country cured ham, and believe me ham and streaked gravey goes fine. Gosh! how he made our mouths water. If there had been any possible show of driving out his way and running out of gas about noon Sunday, we'd been tempted to try it.

Joe Bailey and wife are moving to Lubbock this week where he is installing his Intertype and will do commercial composition.

We understand that Lee Allmon, formerly of this place, and three of whose children reside here now, is making the race for commissioner of his home precinct in Floyd county.

D. F. Murphy handed us a One Dollar William this week to extend his "sub" another year.

PURE BRED ENGLISH WHITE LEGHORN CHICKS

Get them at the Brownfield Hatchery. Mr. Holgate personally inspected our flock before selecting them for his customers.
