TEN CENTS

THURSDAY, AUGUST 22, 1957

We notice that the Rhea Men's Club is already making plans to enter a float in Friona's Maize Days, which will be here before we know it. So far as we know, this is the first group to undertake a project this far in advance.

It is always wonderful to see the communities around our own join in on the fun.

There are a lot of houses going up in Friona, most of them in the west part of town along Fifth Street or "The Loop." In spite of tight money, in spite of other roadblocks to getting a new house, quite a few people are finding their way through the woods, it appears.

In addition, there are some mutterings from here and there about coming additions to the business district. However, most of the stories we have been able to pick up are warmed over from earlier reports, and to get even these rumors, a fellow has to keep his ear mighty close to the ground.

Mention of Fifth Street reminds us: Wasn't it to have been widened to the curb this summer? Here it is past the middle of August and we haven't seen any suspicious looking paving equipment hereabouts.

No official word has been handed down on the project, so far as we know, but a county stationed maintenance man said off-the-cuff that he does believe that the state will go ahead with the improvements before freezing weather sets in.

Leland Boyd, who has had more than his share of the ribbing since we "exposed" him and his oversleeping habit last week, is resorting to desperate measures to solve his problem.

Leland stays pretty busy on Monday nights, and Tuesday is an extra-busy day in the weekly newspaper business, so he decided that maybe the best thing to do was to skip going to bed at all Monday night. He tried it out last week and it worked out fine. In fact, he claims he didn't even feel "wobbly" on Tuesday, and didn't have any more trouble than usual waking up Wednesday morning.

But the thing finally caught up with him over the weekend, he tells us. Boyd went to sleep Saturday night and slept 19 hours straight before he ever opened his eyes.

He says that he's slept through the morning church service before, but this is the first time he's ever slept through both morning and evening services.

Once there was a man who wished he had a million dollars (and who hasn't wished, at one time or another, that he had all the money he needed). That million-dollar wish was, however, a real preoccupation with this man, and he daydreamed about what he would do if someday he should awaken to the fortune.

One night he had a very vivid dream, and was told that the next morning if he would look on his doorstep, he would find the answer to his wishes. Sure enough, when he hopped from bed to see if it could be true, there was a sack there with a million dollars in it.

Filled with jubilation, he snatched up the telephone to tell his neighbor of his good fortune. The telephone was dead. He rushed across the street to deliver the message in person, and found, to his great surprise, that his neighbor was also counting out a million dollars that had been left him.

The two decided to go down town and start spending some of their wonderful gains. They pulled up to a service station for gas, but found no one around. They walked to a new car dealer's showroom to buy a new car, and found that place abandoned, also.

Then they began to notice: The electricity was shut off, the buses were not running, the trains were standing still, there was no one to wait on them in the stores, and the great city in which they lived was motionless. Everybody had received a million dollars! No one wanted to work any more!

If you don't know the moral to this story, it wouldn't do any good to point it out.

Summer won't be with us too much longer, though it's hard to realize just now, and the worst part of the mosquito season is behind us—or at least supposed to be.

We have noticed a decided improvement in the mosquito worry in Friona this year. That is, comparing it to the swarms that were around last summer. We have had plenty of the critters, to be sure, but not nearly so many as just 12 months ago.

Roy Wilson tells us that by time the city gets through with its program this year, it will have spent about \$2500 to keep mosquitoes under control in the city limits. He believes that control measures have been a lot more effective this year.

Rev. Fred Dean

Dean Is Pastor for Congregationalists

Rev. Fred Dean is the new pastor for the Friona Congregationalist Church. His first sermon as pastor was last Sunday morning, and he and Mrs. Dean have been busy this week moving into the church parsonage.

Prior to coming to Friona, Rev. Dean served as assistant pastor of the Binger Congregationalist Church at Binger, Okla.

Having entered the ministry six months ago, Rev. Dean, 45, has had 20 years of experience as business engineer in Chicago, Ill.

A native of Binger, he attended school there and at Aradarko, Okla. He attended college at Southwestern State College at Weatherford, and is now doing post graduate study at Yankton University in the school of Theology, Yankton, S. D.

Of Friona the Deans say, "We had heard a lot of Texas hospitality, and expected to find friendly people in Texas, but undoubtedly, Texas hospitality must have originated in Friona. We have been warmly received in Friona, and we are very grateful for this."

Rev. Dean adds: "I want to offer my time to anyone who may be in need of counsel or anything which may be on their heart. I particularly want to invite those of the community who do not have a preferred denomination to visit our services."

Prices Called To Funeral

Mr. and Mrs. Ralph Price attended funeral services for Karen Sue Shackelford in Liberal, Kans., this week.

Karen Sue, daughter of Mrs. Jan Shackelford, died from injuries received when struck by a car while playing in the street near her home. She was a niece of Mrs. Price.

Funeral services for Claude Tatum, businessman and farmer of Lubbock, were conducted at 3 p.m. Sunday at the Broadway Church of Christ in that city. John T. Smith, director of Lubbock Children's Home, and Horace Coffman, music director of the Broadway Church of Christ, conducted the final rites.

Survivors include three children, eight step-children, and 31 grandchildren, step-grandchildren and step-great-grandchildren. Mrs. Ennis Cummings of Friona is one of the step-children. The Tatum had visited here many times and were well-known to a number of Friona residents.

Mr. and Mrs. Ennis Cummings, Mr. and Mrs. Doyle Cummings and children and Mr. and Mrs. Keith Blackburn of Friona attended the funeral. Burial was in the City of Lubbock Cemetery under the direction of Sanders Funeral Home.

Only about 20 percent of the eligible voters of the Lazbuddie School District turned out to mark ballots in the tax rate election of July 27, and the election (which failed at that time) is being returned for another vote.

Forty voters found their way to the polls last month, and the election failed by a 24-16 majority.

Up for consideration again is Public Law 116, which would allow the school trustees to increase the tax rate needed for

local maintenance purposes. Tax receipts for interest and sinking (which go to retire bonded indebtedness) are sufficient.

After defeat of the proposal, which the school board had requested the taxpayers approve, a public meeting was held August 9, at which time answers to the school's financial plight were sought.

The result of the discussion was a decision to have the election again, and the board was petitioned to do so.

Football practice for about 50 Friona High School Chiefs will officially open Monday, announces head coach Colie Huffman. A meeting is called for 7 p.m. Monday for equipment issuing.

Prospects for a successful season are good—"At least we should do better than last year," Huffman says. "I expect to have some changes in both offense and defense," Huffman adds.

Matters which prospective players should attend to before starting practice include a physical examination, personal equipment, and insurance and

permits from parents for medical treatment if the need arises, Huffman says.

At the beginning of the season of previous years, physical exams have been given to the players as a group. This year, players will be required to have an examination from their family doctor, and forms for this may be obtained at the school.

Along with the examination, players must submit permits from parents that will allow the school officials to secure medical treatment at school official's discretion, in case the player receives an injury while away from home. The permit

New Savings and Loan Association Opens for Business

The formal opening of the Hi-Plains Savings & Loan Association will be held from 1 to 5 p.m. Saturday, August 24, in the Association's home office at 128 East Third Street in Hereford. The open house will officially open the firm for business.

The Association, which will operate under a state charter with a capital stock and surplus of \$125,000, will serve Hereford, Friona, Farwell, Bovina, Dimmitt, Muleshoe, and the surrounding areas. All deposits will be insured by Federal Savings & Loan Insurance Corporation.

The firm is chartered to serve this area with home and commercial building loans, according to Sloan Osborn, Friona,

vice-president and director. The savings department is designed to encourage savings and economy, which is being stressed all over the nation. Savings accounts for children will also be promoted among the children of the Association's patrons.

The Hi-Plains Savings and Loan Association is a locally-owned, locally-operated firm and its services are designed to meet the needs of residents of the area. There are about 80 stockholders in the Association and they are residents of Farwell, Friona, Bovina, Hereford, Dimmitt, and Muleshoe.

The officers are Jimmy Allred, Hereford, president; Sloan K. Osborn, Friona, vice-president; James Headstream, Hereford, vice-president and manager; Ray Cowsett, Hereford, secretary-treasurer; and Bob McLean, Dimmitt, chairman of the board.

Directors in addition to Allred, Osborn, Cowsett, and McLean, are G. B. Buske of Friona, Steve Taylor of Dimmitt, W. M. Decker of Hereford, Jesse M. Osborn of Muleshoe, and B. E. Roberson of Hereford.

Eric Rushing of Rushing Insurance Agency will be the local representative.

Director Buske invites everyone in the trade territory to attend the open house Saturday afternoon in the Hereford office. Refreshments will be served by the directors and their wives, who will be hosts.

TWO DOGS A DAY IS AVERAGE

About two dogs a day is the average on which the city has been paying \$2.50 bounties, according to City Clerk Roy Wilson.

The city adopted the dog bounty plan August 1.

Dogs are kept in the pound two days and then disposed of. Only one of the dogs that landed in the pound had an owner to bail it out.

A gradual trickle of dog license fees has been paid, Wilson says.

Final Rites Held For Claude Tatum

Funeral services for Claude Tatum, businessman and farmer of Lubbock, were conducted at 3 p.m. Sunday at the Broadway Church of Christ in that city. John T. Smith, director of Lubbock Children's Home, and Horace Coffman, music director of the Broadway Church of Christ, conducted the final rites.

Survivors include three children, eight step-children, and 31 grandchildren, step-grandchildren and step-great-grandchildren. Mrs. Ennis Cummings of Friona is one of the step-children. The Tatum had visited here many times and were well-known to a number of Friona residents.

Mr. and Mrs. Ennis Cummings, Mr. and Mrs. Doyle Cummings and children and Mr. and Mrs. Keith Blackburn of Friona attended the funeral. Burial was in the City of Lubbock Cemetery under the direction of Sanders Funeral Home.

Lazbuddie Tries PL 116 Again

Only about 20 percent of the eligible voters of the Lazbuddie School District turned out to mark ballots in the tax rate election of July 27, and the election (which failed at that time) is being returned for another vote.

Forty voters found their way to the polls last month, and the election failed by a 24-16 majority.

Up for consideration again is Public Law 116, which would allow the school trustees to increase the tax rate needed for

Sees Better Phones

Fred Mathis, district manager of General Telephone Company of the Southwest with offices in Littlefield, reports that local telephone service should be "much better in the near future." The current difficulty experienced in reaching the operator is due to the preparation for conversion to dial operation in Hereford, he says.

When this conversion is completed, local telephones will be connected with inner toll network cut-in date for this phase of the operation is tentatively set for December 15.

At the present time 270 lines are being constructed in Friona. "When this construction is completed, more numbers will be available and much of the local difficulty now being experienced will be eliminated," he reports.

SMILES FOR ALL — Arranging registration details in preparation for attending school in Friona this year are Madeline and Catherine Chang, from Hong Kong, China. They are to live with Mrs. Floyd Schlenker of the Rhea Community. In the left foreground is Dillie Kelley, superintendent.

Chinese Students In Schlenker Home

Mrs. F. T. Schlenker returned from Claremont, Calif., this week with her "new family." The "family" is from Hong Kong, China — Madeline and Catherine Chang. They got together through the efforts of George Lerrigo of Claremont,

who knew Thomas T. K. Chang, father of the girls, when he and Mrs. Lerrigo were missionaries in China.

Hearing from Mrs. James A. Rankin Jr., also of Claremont, that her mother, Mrs. Schlenker, was looking for companions, and hearing from Chang by letter his desire for his four young-

est children to be educated in the United States, Lerrigo started the work which brought the Chang brothers and sisters to Claremont.

The boys remained in Claremont where they will attend Chaffy College, while Madeline and Catherine came back to Texas with Mrs. Schlenker to attend Friona High School.

The girls' ages are 16 and 18. They were both senior students at the British schools they attended.

Mr. and Mrs. Chang started the girls on a program of "American do-it-yourself" in housekeeping and cooking when word was definite they would be coming here. They speak excellent English with less British accent than one would expect. They are eager to learn American customs and get acquainted with everyone.

The girls think Texas is everything they thought it would be and are planning to enjoy many new experiences during the year.

Former Minister To Conduct Series Of Gospel Meetings

Plans are complete for a series of gospel meetings which will begin Sunday, September 1, at the Sixth Street Church of Christ in Friona. Guest speaker will be Stanley Lockhart of San Angelo, former minister of the church.

Weekday services will be held twice daily from September 2 through September 8. The time has been set tentatively at 8:45 a.m. and 8 p.m. weekdays and 10:30 a.m. and 6 p.m. on Sundays.

The sermon topics for the evening services have been announced as follows: Sunday, "Personal Evangelism"; Monday, "The Ghost of Self"; Tuesday, "The Stringent Note of Christianity"; Wednesday, "How To Find Your Life"; Thursday, "Poor Exchange"; Friday, "Thou Shalt Love the Lord Thy God"; Saturday, "Teach Them To Observe All Things"; Sunday, "Where Is Our God?"

S. A. Freeman, local minister, invites everyone in the community to attend these services.

Report From Frio Draw

Dear Editor, Experts in the Department of Agriculture has suggested that part time farming is the answer to the over production of goods. EFN that is the answer, farmers around Friona are contributing their part toward getting the problem solved.

If you are in doubt, just check by the pool hall once in a while. Yessir, part time farming is popular around Friona.

SURE 'NUFF HE HAD HEARD OF IT

About two weeks ago Mrs. Lucy Welch and Mrs. Nelson Welch went to Austin to take Brent and Kim Miller to their home. They spent one night with the Jack Millers then started their trip home. Before reaching Burnett, they had car trouble and had to leave the car.

Their first thought was that soon someone would come by and offer assistance. Then they began to recount all the bad things they had ever heard or read about women traveling alone. The first man that stopped to help them seemed friendly and helpful, so they got into the car with him.

After driving a few miles, he asked them what part of the state they were from. Thinking he probably had never heard of Friona, they told him they lived southwest of Amarillo. "I have two sisters that live near Friona," was his reply.

"Friona! That is where we live," they answered almost together. His name was Paul Krueger and his home was in Austin. He had a cabin near Buchanan Lake and was on his way up to do some work on it. After learning that his sisters were Mrs. Melvin Sachs and Mrs. Chris Goetz of the Rhea community, the local ladies felt that he was not a complete stranger.

They will long remember his assistance to them. It was necessary for them to have the car towed into town and to make the rest of the trip home by bus.

Cubs Get Awards

Four Cub Scouts received arrow awards at the award ceremony which followed an outdoor supper at the Truett Johnson home southwest of town Friday evening of last week.

Byron Brewer and Lonnie Ellis received gold arrows. Larry Johnson received four silver arrows and Roscoe Parr Jr. and Lonnie Ellis each received one silver arrow.

Those present for the chicken fry were Mr. and Mrs. T. A. Sherley and Tommie, Mr. and Mrs. Buddy Squires and sons, Mr. and Mrs. Loyde Brewer and sons, Mrs. Coy Patton and Jimmy, Mr. and Mrs. Leo Reed and sons, Mr. and Mrs. Roscoe Parr and children, Mr. and Mrs. O. J. Beene and sons;

Also, Mr. and Mrs. Truett Johnson and children, Mrs. Allen Stewart and children, and Mrs. Eugene Ellis and sons.

WHO WOULD DARE FEED THE ELEPHANT? — "We aren't afraid to feed him" demonstrates Jay and Ramey Beene to the small elephant with Tidwell Shows, sponsored in Friona by the American Legion. Ramey reaches for another handful of forage while Jay keeps the animal's attention with a morsel of hay.

Football Practice To Begin Aug. 26

Football practice for about 50 Friona High School Chiefs will officially open Monday, announces head coach Colie Huffman. A meeting is called for 7 p.m. Monday for equipment issuing.

Prospects for a successful season are good—"At least we should do better than last year," Huffman says. "I expect to have some changes in both offense and defense," Huffman adds.

Matters which prospective players should attend to before starting practice include a physical examination, personal equipment, and insurance and

permits from parents for medical treatment if the need arises, Huffman says.

At the beginning of the season of previous years, physical exams have been given to the players as a group. This year, players will be required to have an examination from their family doctor, and forms for this may be obtained at the school.

Along with the examination, players must submit permits from parents that will allow the school officials to secure medical treatment at school official's discretion, in case the player receives an injury while away from home. The permit

and examination are required before a player will be allowed to start practice.

Players should also contact Huffman to arrange for insurance. The school will assume half the insurance cost, and players will be required to be responsible for the remainder.

Regular drills before school starts will be held from 8 a.m. to 10 a.m. and 4 to 6 p.m., Huffman announces. Players are requested to have their shoes and other personal equipment before practice starts.

The team this year is again expected to be lightweight. An average of 160 lbs. is possible, Huffman says.

THE STAR'S EDITORIAL COMMENT

It's The Little Things That Mean A Lot

While there are several towns around Friona that have coffee priced at 10 cents a cup, this item only costs a nickel in Friona. This may not mean much to non-coffee drinkers, and means less income for the Friona businesses but we think this shows something about Friona businesses which is a credit to the town.

We think this shows the desire of Friona merchants to give better service in encouraging people to trade in Friona, not for coffee especially, but other items as well.

Cafe owners would have a little more than a nickel a cup profit on coffee if prices were 10 cents a cup, but as it is now, a cup of good coffee is served and returns slightly less than a penny a cup profit, it is estimated.

A cup of good coffee, cafe owners say, is their way of attracting customers into the business, and possibly the customers will partake of other items on the menu. Again, if they did not offer a cup of good coffee to those who want coffee, the appeal of any meal which they offer would be discounted since coffee—good coffee—adds something to a meal which nothing else will replace.

If cafe owners so agreed and wanted to, the price of coffee could well be a dime anytime they wanted to sell it for that price. Most say they could sell as many cups of coffee at that price as they sell for a nickel.

We are glad they take the attitude

that coffee is a leader. To put it in the words of one, "If I were depending on coffee sales to keep me in business, I would quit tomorrow."

The same thing can be said for other merchants and other services offered in Friona. Customers like to do business where they receive the "little things that mean so much" whether they realize it or not. Any time Friona merchants take the attitude that they can attract business to Friona without offering some services which do not return much profit, it is harmful.

Friona needs to keep these things that attract people to trade in Friona. It is good for merchants, and customers are better served. And Friona will continue to be known as the best place in the area to trade.

POTENTIAL DANGEROUS CORNER—This view from a car window at the intersection near the Friona State Bank shows what a guessing game trying to enter Main Street can be. Is there another vehicle behind the pickup? Had the pickup been about 12 feet farther back, you would have been unable to see it. If you guess wrong about what is behind the van, better hope the driver of an approaching vehicle is wide awake. If he isn't, you've had it.

Cummings Family Returns

Mr. and Mrs. Doyle Cummings, Scott, Terri, and Kirk returned home late Sunday after spending a week camping out near Tres Ritos. They were joined there for a few days by Mr. and Mrs. Wayne G. Stark, Nate, Ken, and Connie of Hereford.

Mr. and Mrs. Earl Blish and Ricky of Chickasha, Okla., are visiting Mr. and Mrs. Claude Blackburn and other friends here. The Blish family formerly lived here.

Pep Cub To Have First Meeting

The first meeting of the Friona High School pep club has been planned for Monday afternoon, Aug. 26, at 2 in the agriculture department, according to an announcement made by Linda Gee, secretary.

The purpose of the meeting is to make posters for the football games this fall. All members, honorary and active, are urged to attend the meeting.

The Tatum's just want it to rain so that they can have a vacation.

Braxton Shows His Persistence

"Never say die," can very aptly be applied to the Tri-County Little League sponsor, Pete Braxton. Pete took his team to Amarillo to see the Gold Sox and Topeka play Wednesday night. They saw the preliminary show, and then the flood came so they did not get to see the game.

Thursday night Braxton took the boys back to Amarillo to

see the doubleheader and they saw these games. DeWayne Neel and Braxton were presented gifts in appreciation of their assistance with the team this year. With Braxton's gift went the boys vote that "Braxton is really the best."

Those making the trip were Randy Price, Roger Wilcox, Larry Buckley, Danny Carmichael, Billy Edelman, Terry Stringfellow, Fred Ferguson, Ray Gene Braxton, Keith Blackburn, Dwight Loanman, Jim Braxton, Dean Nazworth, Mr. and Mrs. Ralph Price, Claude Edelman, V. M. Ferguson, Mr. and Mrs. Loy Loanman, Mr. and Mrs. Claude Blackburn and Mr. and Mrs. Pete Braxton.

It would be wonderful if this part of the country could get some of the wonderful slow falling rain the Edelmans saw at Red River. The mountains with all their green trees and lush undergrowth are really beautiful and show what rain can bring to plant life.

Roller Received, Kettle Due Soon

The city now has a street roller and expects to have a new asphalt kettle for street patching work soon, according to Roy Wilson, city clerk.

When the kettle is received and T. C. Aragon, street maintenance employee, returns from vacation, some chug-hole patching is in store, Wilson says.

The city has on order 20,400 pounds of asphalt, and is to secure a shipment before long. Considerable patching is planned and the city is likely to hire another employee, Wilson says.

Black Residents On Camping Trip

As September and the opening of school nears, many of the people of the Black community are vacationing at various places. Mr. and Mrs. Tom Levellen, Tommie Lou, and Winette Beaton; Mr. and Mrs. Delton Levellen and children left Sunday morning for San Louis Valley, Colo.

They are really going camping up in the mountains. When their destination is reached, they will have made part of the trip by jeep and on horseback. The Bruce Parr family plans to join the Levellen family late this week.

WITH JUNE

Feel sure that we have heard everything now. Friday afternoon, Paul Fortenberry of the Black Grain Company at Black called to report an unusual incident in that community. Paul has lived here several years and has the reputation of being a reliable citizen; however, the story he told was hard to believe.

After talking with him a few minutes, we began to wonder what kind of gag he was trying to get us to fall for. His report was to the effect that the mosquitoes had got so bad in the Black community that they had stopped an irrigation motor from running.

From the questions we were asking, Paul must have sensed that we were in doubt as to the veracity of the story he was telling, so he asked Tom Lewellen to back him up. Lewellen, who is also known as a reputable citizen, told the same story Paul had been telling.

The story follows: Last weekend Lewellen had to have a new motor for one of his irrigation wells. After getting the motor installed, filling the radiator with water, and doing all the other things that need to be done to insure satisfactory performance of the motor, he went to another part of the field to check on some other work that needed to be done.

The motor ran for a while, then died. Upon investigating, Lewellen found that the breather was covered with mosquitoes to such an extent that no air could enter. Of course, with all the air cut off, the motor died. After prying hordes of mosquitoes off the breather with a screw driver, the motor was started again.

The story sounds almost too fantastic to be true, but Fortenberry and Lewellen both gave the same report, so it must have happened just that way. If it didn't, we'd sure like to know who thought up the story. Now the residents of the Black community have one first to their credit. Second place is the best they have been able to win in the Rural Neighborhood Progress contest, but surely they have the first irrigation motor in the state that has been stopped by mosquitoes.

If anyone learns of a contest for the biggest and most destructive mosquitoes in the state, be sure to contact us and we will submit an entry.

Read in Wes Izzard's column that a person could learn to water ski in 20 minutes. Know several Frionans who would surely like his instructions. A lot of residents of our town and the surrounding area are ski enthusiasts, but most of those with whom we are acquainted took more than 20 minutes to learn.

Mr. and Mrs. Sam Green are new residents of our town and new subscribers to the Friona Star. Mrs. Green stopped by the office for a brief chat one afternoon. She will teach sixth grade English and Green will teach science in the upper grades of grade school. Do wish someone would straighten us out on the designations of our schools.

We know, of course, that we have a high school, a primary school, and one more. What we don't know is whether it is a junior high, a grade school, or an elementary school.

Mrs. Green has a very unusual given name and one that we think is quite pretty. It is Juanez. When we asked her about the pronunciation, she replied, "So many people fail to pronounce it right, but it is pronounced just like it is spelled—just like Juarez, except with an N."

Another visitor and new subscriber Friday was Mrs. W. D. Cooper. That is also pronounced just like it is spelled. We have known Kupers who pronounced their name exactly the same. Both of them have the "U" sound. The Coopers moved here recently from Washington State and live out on Route 2 north of town.

Having a boy and a dog one week, then not having either sure makes a difference in the amount of noise at Orville and Oleta Houser's home. Leon Hartman, who is Oleta's nephew and has made his home with the Housers most of his life, has gone to Ontario, Oregon, to spend the winter with his mother.

Leon, who has attended school here the past three years, and his dog were almost inseparable. The dog was killed by a car a few days before he left. Orville says it is just too quiet at the house now. Guess he can always go to the chicken house and catch up on the noise. It is doubtful though that he will enjoy the noise the hens

make nearly as much as he enjoyed Leon and his dog.

We've always heard the expression, "When you have a good horse, use him." That advice could be applied to all of us who are neighbors to the Bi-Wize Drug. Ralph Roden, owner, has a "jam-up" good trash container at the rear of his drug store. He has invited all the neighbors to make use of it.

All of us should make use of it and it is large enough to hold all the accumulation of boxes, wrappings, papers, and other waste that we have to put out. The smaller containers are sometimes turned over by pranksters or dogs, but the trash that gets into Ralph's container is pretty sure to stay there. Let's all make use of it.

Everytime we see a list of names or row of pictures in any paper, we automatically look for someone from Friona. In looking over the Littlefield paper last week, we noticed a number of pictures of business men of that town. After looking for a few minutes, we spotted Jimmy Baxter. It almost never fails.

Saw Mavis Burnham in the drug store one day this week. Mavis, who lives at Bovina now, attended Dimmitt High School at the same time we did. To save her any possible embarrassment, we will add that she was one of the lower classmen.

Mr. and Mrs. Rudolph Renner just recently received word that their son, Delmer, who is better known as "Cotton," recently was cited for making the best grade in a class of about 40 in an electrical class at the naval base where he is stationed at Jacksonville, Fla. It is always good to hear that a local boy is making good in his chosen work.

Weekend Guests

Weekend guests in the homes of Mr. and Mrs. Granville England and Mr. and Mrs. Ernest England were Mr. and Mrs. Otis Bivins of Santa Anna, Texas. Mrs. Bivins is Mrs. Granville England's aunt. They also visited relatives at Bovina.

Maynard-Hock Wedding Date Set

Mr. and Mrs. Ernest Hock of Edinburg have announced the engagement and approaching marriage of their daughter, Barbara, to Jimmy Maynard, son of Mr. and Mrs. Jim Maynard of Friona.

The wedding ceremony will be read at the First Baptist Church in Friona at 7:30 p.m., Thursday, September 5, by Rev. L. A. Sartain. Friends of the couple are invited to attend.

Gees Combine Business, Pleasure

Mr. and Mrs. J. T. Gee and Tom returned home Sunday night from Houston where Gee attended the sixteenth annual convention of the Texas Vocational Association which was held at the Rice Hotel in Houston August 12 through 16.

The Gees also visited Mr. and Mrs. Charles Holmes of Vanderbilt and Mr. and Mrs. Charlie McLean of Houston. The McLearns and Holmeses are former Friona residents.

Linda, daughter of the Gees, remained in Lubbock for a visit with her grandparents, Mr. and Mrs. T. F. Rodgers. She expects to return home later this week.

Mrs. Nora Welch and Mrs. Lucy Welch were in Amarillo last week on a business trip and for a visit with Mr. and Mrs. Boyce Shackelford.

Local Church Well Represented

The United Pentecostal Church of Friona was well represented at the Texico District Camp Meeting, which was held in Amarillo last week. Several families attended the daily sessions and others were present for the final meetings, which were held Sunday.

Those attending were Rev. and Mrs. Arthur Lutz, Etta, Drusilla, Ruth, and Paul Wayne; Mr. and Mrs. Joe Johnson, Mr. and Mrs. Sam Rule and Patsy, Mr. and Mrs. W. P. Hughes and Karen; Mrs. J. B. Buske, Mrs. W. O. Thompson, Mrs. Ed Massey and Delene, Mr. and Mrs. S. S. Pritchard, Sterling and Lanette; Mr. and Mrs. Lloyd Speir and sons, and Zaydene Deaton.

General speaker of the sessions was Rev. Oscar Vogue, who is assistant general superintendent of the convention. Representatives were present from churches in California, Arkansas, Louisiana, Texas, Oklahoma, Arizona, and Alabama.

Rebecca Class Meets Thursday

The Rebecca class of the First Baptist Church held its regular business and social meeting in the home of Mrs. Charlie Rauh Thursday afternoon. The study, which was directed by Mrs. L. R. Dilger, was taken from the book of Numbers.

During the social hour, which followed the business meeting and lesson, the hostess served tuna fish sandwiches, angel food cake, and lemonade to Mesdames J. M. Bradley, L. R. Dilger, Ethel Chitwood, Bill Cogdill, and E. E. Taylor.

The dismissal prayer was led by Mrs. J. M. Bradley.

Mr. and Mrs. Don Hunt and daughters, Lynn and Lea, of Sunray, visited relatives in Friona Sunday. Nan Lillard returned home with the Hunts for a visit with them and the R. L. Bates family.

Housers Visit In Colorado

Mr. and Mrs. Orville Houser and Leon Hartman visited in the home of Mrs. Houser's father, G. C. Hartman, at Dove Creek, Colorado, last week. They were met there by Leon's mother, Mrs. Rex Terrell, of Ontario, Ore.

Leon, who has made his home with the Housers the past several years, went to spend the winter with his mother and the Housers returned home late Tuesday.

On Vacation

Mr. and Mrs. Elmer Euler, Mr. and Mrs. Elroy Wilson and Terry Lynn and Mrs. Pearl Mol of Hydro, Okla., are vacationing in Colorado this week. The men planned to do some fishing and the rest of the party planned to go sight-seeing.

Moved

Mr. and Mrs. W. J. LaFavers have moved from the Charlie Jones house to the C. A. Turner house across the street from the First Baptist Church. Mr. and Mrs. Walter Cunningham moved into the house vacated by the LaFavers family.

The Billie Joe Mercers have moved into their new home in the east part of town. Mr. and Mrs. Joe Parson moved from one of Roscoe Parr's rent houses in the west part of town into the Wimberly house on Fifth Street.

Mrs. Jennings Duke and Bryant have moved from Borger into Dan Luttrell's rent house on Seventh Street. Mr. and Mrs. Boyd Martin have moved from Edinburg into Mrs. Jennings Dukes' house on north Main Street.

Dinner Honors Mrs. V. Lindsey

A birthday dinner for Mrs. Virgil Lindsey of Porterville, Calif., was given in the home of Mrs. Ethel Adams and Mrs. Lela Gilmer Sunday. Those present were the honoree and her husband; Mrs. Mattie Adams, Mike and Ray Adams, and Mrs. Gladys Weidner all of Five Points, Calif.;

Also, Mr. and Mrs. Casey Adams of Amarillo, Mr. and Mrs. Waymon Wilkins and children, Mr. and Mrs. Raymond Adams, Mr. and Mrs. Rodney Hinkle and Delwin, and Jerry Hinkle.

Afternoon callers were Mr. and Mrs. Gene Leach of Borger and Mr. and Mrs. Dub Mayhew of Bovina.

Mr. and Mrs. Rene Snead, Janet, Gary, and Jimmy spent Sunday visiting in the home of Snead's parents, Mr. and Mrs. J. B. Snead Sr., of Littlefield.

Returns From Convention

Mrs. Harry Ratliff, home economics instructor in Friona High School, returned Saturday after spending a week attending the sixteenth annual convention of the Texas Vocational Association. The convention was held at the Rice Hotel in Houston August 12-16.

In addition to attending all the sessions, Mrs. Ratliff attended a luncheon, a style show, and a banquet. The state in service education workshop for home-making teachers, which Mrs. Ratliff took, was built around the theme, "Broadening Horizons for Homemaking Education."

Although Mrs. Ratliff has had 33 years experience teaching homemaking, this is the first Texas convention she has ever attended. All of her teaching has been in Oklahoma. She came to Friona from Roosevelt, Okla.

T. E. L. Class Has Picnic

A family picnic in the City Park was the highlight of the regular meeting of the T.E.L. Sunday school class of the First Baptist Church Monday evening. All members of the families of the class members were invited.

Those present for the covered dish supper were Lucy Jones, Marie Roberson, Mr. and Mrs. Spencer Hough and Patsy, Mrs. Harry Hamilton and Helen, Mr. and Mrs. B. R. Averett, Paul and Pauline, Mr. and Mrs. Jim Maynard and Karen.

Dixons Return

Mr. and Mrs. C. W. Dixon returned Saturday from Texhoma, Okla., where they had been visiting Mr. and Mrs. Ray Landrum and children. Margaret Rose Landrum returned with her grandparents for a visit. The Landrums lived here before moving to Texhoma.

News From LAZBUDDIE

By MRS. CLYDE MONK

Patrons Reminded Of Election

Lazbuddie School patrons are reminded to be sure to vote in the school tax election next Wednesday, August 28.

Everyone is also reminded that school will begin here on Monday, September 2, and registration of all grades will be held on Friday, August 30.

Coach Washington has returned home and says that football practice will begin Monday, August 26, at 8 a.m. He reminds the prospective players that they must have their physical examinations by that time.

Ivy Home Scene Of Shower

The home of Mrs. Shanks Ivy was the setting for a bridal shower honoring Mrs. Jimmy Norton, nee Sharon Thorn, Thursday afternoon, August 15.

Assisting Mrs. Ivy with hostess duties were Mesdames Neil Bradshaw, Jack Smith, Andrew Brown, Calvin Clark, Euel Hall, John McGehee, Dalton Mimms and Pete Mimms and Misses Jan Clark and Catherine Smith.

The gifts were piled high around the mantel of the spacious living room, giving it a look of Christmas time. Fresh cut flowers were used for the decorations. Johnnie Nowell and Catherine Smith registered the guests as they arrived. The honoree was assisted with the opening of gifts by Jean Gammon and Wilma Norton while Catherine Smith and Janice Oliver registered and numbered the gifts.

A refreshment plate of punch, nuts, mints and white cake squares covered with white icing and decorated with miniature wedding bells, was served to the following: Mesdames N. M. McCurdy, Carrol Hunton, D. B. Ivy, Garvin Thorn, John Gammon, L. L. Norton, D. W. Carpenter, C. L. Mercer, Buster Jones, H. L. Ivy, David White, Lloyd Vaughan, Claude Heath, J. G. Mr. and Mrs. Bob Triggue from Abilene spent the weekend in the home of her sister

Jenningses Home From Trip Through West

Mr. and Mrs. Finis Jennings and daughter Mina, and Miss Barbara Lillich returned home last week from a two week visit in the west. Some of the high points of their trip were visits to the Grand Canyon, Las Vegas, Nev., and on to California up through the San Joaquin Valley. They also visited both Sequoia and Yosemite National Parks. They stayed in San Francisco two days where they took a tour of the city which included Fisherman's Wharf where they had dinner one evening, and China Town.

They strolled out on the Golden Gate Bridge and said the weather was wonderful. Mrs. Jennings wanted to see some of the "ever talked about" fog and the weather man obliged by letting this happen before they left. The summer months are usually the foggiest times for the coastal regions, but for some reason it was clear when the Jenningses first arrived in San Francisco.

The Jenningses then returned by Sacramento, Lake Tahoe, Carson City and Salt Lake City where they toured the Mormon Temple and visited the lakes through Colorado before returning home.

They say every minute of the trip was wonderful. They accompanied Miss Lillich to Lubbock on Thursday where she caught the plane for her home at Houston.

The Jenningses visited with Roy Jacobs in Bakersfield while on their trip. Jacobs is a brother of Mrs. O. M. Jennings.

Mrs. Wreathel Hendrix and son Nathan from House, N. M., were overnight guests Thursday in the home of her daughter and family, the John McGehees.

Mr. and Mrs. Harold Wilson and children, Cathy, Becky, Tommy and Carol, have returned from a weeks vacation to Colorado, Salt Lake City, Yellowstone National Park, and other points of interest along the way.

Mrs. Frank Hunt returned last week from Dallas where she has been for the past three weeks at the bedside of her brother Leo Beasley who has recently undergone surgery. Beasley had been moved to his home.

Mr. and Mrs. Ed Thompson from Plainview were dinner guests Sunday in the C. D. Gustin home, and Mr. and Mrs. G. T. Jones from Lubbock were overnight guests Sunday with the Gustins. They were all here visiting and to attend the Gustin-Bartlett wedding.

At Tulia

Last Tuesday a group of youngsters from the Baptist Church went to Tulia for a "Christmas Tree" party. They took gifts which were to be sent to Albuquerque, N. M., to be distributed to needy children at Christmas time.

Those attending were Doyle Reed, Bobby Redwine, David Wimberley, Hillos and Kent Hargrove, Carolyn Jean and Gale Morris. Adults attending were Mesdames Wesley Barnes, Alton Morris, Carrie Withrow, Raymond Houston and Miss Marie Houston.

WHY NOT BE HONEST ABOUT YOUR SOUL?

Jesus said, "For what is a man profited, if he shall gain the whole world, and lose his own soul? or what shall a man give in exchange for his soul?" (Matt. 16:26). He further said, "Enter ye in at the strait gate: for wide is the gate, and broad is the way that leadeth to destruction, and many there be that go in thereat: Because strait is the gate, and narrow is the way that leadeth unto life, and few there be that find it" (Matt. 7:13-14).

Many are careless about their souls and about being prepared to meet God in the great judgment day. Many religious teachers tell their listeners that it makes no difference what they believe, teach and practice. This causes millions of honest, sincere people to neglect searching the scriptures for themselves to be sure they are right and pleasing to God. This is a cunning way Satan has of winning people for his cause and thereby keeping them out of heaven. BEWARE OF SUCH TEACHING AND SEARCH THE BIBLE TO BE SURE YOU ARE RELIGIOUSLY RIGHT IN ALL THINGS YOU TEACH AND PRACTICE!

NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 5, 1957.

HOUSE JOINT RESOLUTION NO. 3 proposing an amendment to the Constitution of Texas adding a section to be known as Section 49-c of Article III, providing for the issuance and sale of bonds of the State of Texas to create the Texas Water Development Fund to provide financial assistance to certain political subdivisions or bodies politic and corporate of the State of Texas in the conservation and development of the water resources of the State; providing for the payment of such bonds; creating an agency to administer said Fund and to perform other duties prescribed by law; limiting the period during which financial assistance may be granted; and providing for the calling of an election and the publication and issuance of the proclamation therefor.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of Texas be amended by adding a new section thereto to be known as Section 49-c as follows:

"Section 49-c. There is hereby created as an agency of the State of Texas the Texas Water Development Board to exercise such powers as may be prescribed by law. The qualifications, compensation, and number of members of said Board shall be determined by law. They shall be appointed by the Governor with the advice and consent of the Senate in the manner and for such terms as may be prescribed by law.

"The Texas Water Development Board shall have the authority to provide for, issue and sell general obligation bonds of the State of Texas in an amount not to exceed One Hundred Million Dollars (\$100,000,000). The Legislature of Texas, upon two-thirds (2/3) vote of the elected members of each House, may authorize the Board to issue additional bonds in an amount not exceeding One Hundred Million Dollars (\$100,000,000). The Legislature authorized herein or permitted to be authorized by the Legislature shall be authorized to prescribe the terms, conditions and interest upon such bonds, and the manner in which they shall be repaid, provided, however, that the bonds shall not bear more than four per cent (4%) interest per annum; they may be issued in such installments as the Board finds feasible and practical in accomplishing the purpose set forth herein.

All moneys received from the sale of State bonds shall be deposited in a fund hereby created in the State Treasury to be known as the Texas Water Development Fund to be administered (without further appropriation) by the Texas Water Development Board in such manner as prescribed by law.

"Such fund shall be used only for the purpose of aiding or making funds available upon such terms and conditions as the Legislature may prescribe, to the various political subdivisions or bodies politic and corporate of the State of Texas including river authorities, conservation and reclamation districts and districts created or organized or authorized to be created or organized under Article XVI, Section 52, of this Constitution; interstate compact commissions to which the State of Texas is a party and municipal corporations, in the conservation and development of the water resources of this State, including the control, storage and preservation of its storm and flood waters and the waters of its rivers and streams, for all useful and lawful purposes by the acquisition, improvement, extension, or construction of dams, reservoirs and other water storage projects, including any system necessary for the transportation of water from storage to points of treatment and/or distribution, including facilities for transporting water therefrom to wholesale purchasers, or for any one or more of such purposes or methods.

"Any or all financial assistance provided herein shall be repaid with interest upon such terms, conditions and manner of repayment as may be provided by law.

"While any of the bonds authorized by this provision or while any of the bonds that may be authorized by the Legislature under this provision, or any interest on any of such bonds is outstanding and unpaid, there is hereby appropriated out of the first moneys coming into the Treasury in each fiscal year, not otherwise appropriated by this Constitution, an amount which is sufficient to pay the principal and interest on such bonds that mature or become due during such fiscal year, less the amount in the sinking fund at the close of the prior fiscal year.

"The Legislature may provide for the investment of moneys available in the Texas Water Development Fund and the interest and sinking funds established for the payment of bonds issued by the Texas Water Development Board. Income from such investment shall be used for the purposes prescribed by the Legislature. The Legislature may also make appropriations from the General Revenue Fund for paying administrative expenses of the Board.

"From the moneys received by the Texas Water Development Board as repayment of principal for financial assistance or interest thereon, there shall be deposited in the interest and sinking fund for the bonds authorized by this Section sufficient moneys to pay the interest and principal to be come due during the ensuing year and sufficient to establish and maintain a reserve in said fund equal to the average annual principal and interest requirements on all outstanding bonds issued under this Section. If any year prior to December 31, 1952 moneys are received in excess of the foregoing requirements then such excess shall be deposited to the Texas Water Development Fund, and may be used for administrative expenses of the Board and for the same purposes as provided for in this Section. No grant of financial assistance shall be made under the provisions of this Section after December 31, 1952, and all moneys thereafter received as repayment of principal for financial assistance or as interest thereon shall be deposited in the interest and sinking fund for the State bonds, except that such amount as may be required to meet the administrative expenses of the Board may be annually set aside and provided, that after all State bonds have been fully paid with interest, or after there are on deposit in the interest and sinking fund sufficient moneys to pay all future maturities of principal and interest, additional moneys so received shall be deposited to the General Revenue Fund.

"All bonds issued hereunder shall after approval by the Attorney General, registration by the Comptroller of Public Accounts of the State of Texas, and delivery to the purchasers, be non-transferable and shall constitute general obligations of the State of Texas under the Constitution of Texas.

"Should the Legislature enact enabling laws in anticipation of the adoption of this amendment, such acts shall not be void by reason of their anticipatory nature.

Sec. 2. The foregoing amendment to the Constitution shall be submitted to a vote of the qualified electors of this State at an election to be held on the 5th day of November, 1957, same being the 1st Tuesday after the 1st Monday in said November, 1957, at which election each ballot shall have printed thereon, the following words:

"FOR the amendment to the Constitution of Texas adding a new section to be known as Section 49-c of Article III, authorizing the issuance and sale of Two Hundred Million Dollars (\$200,000,000) in bonds by the State of Texas to create the Texas Water Development Fund to provide financial assistance to certain political subdivisions or bodies politic and corporate of the State of Texas in the conservation and development of the water resources of the State."

"AGAINST the amendment to the Constitution of Texas adding a new section to be known as Section 49-c of Article III, authorizing the issuance and sale of Two Hundred Million Dollars (\$200,000,000) in bonds by the State of Texas to create the Texas Water Development Fund to provide financial assistance to certain political subdivisions or bodies politic and corporate of the State of Texas in the conservation and development of the water resources of the State."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State. The expense of publication and election for such bonding shall be paid out of the proper appropriation made by law.

Fifty Years Of Marriage Noted By John Stagners

On a Sunday 50 years ago in a home ceremony in Cone, Texas, Miss Cordie Chapman and John Stagner were married. Sunday, a half century after their vows were read, they celebrated their Golden Wedding anniversary, with 175 friends calling in the afternoon to commemorate the occasion.

Special guests for the Sunday celebration were two people who were present back in 1907 at the wedding. They were the best man, Roy Terrell, who now lives at Lorenzo; and the maid of honor, who is now Mrs. Eula Parrish of Lubbock.

Hosts and hostesses for the reception Sunday were Mrs. H. L. Tidenberg, J. L. Stagner, Jack M. Stagner and Mrs. Carroll McCleskey, all of Clovis.

Grandaughters-in-law presided at the serving table. They are Mrs. Linda Stagner and Mrs. Peggy Tidenberg. Miss Phyllis Kay Stagner, granddaughter, presided at the guest book; and Janus McCleskey, a granddaughter, and Pamie Russell, a friend, assisted in the hospitalities.

A crocheted cloth over gold satin was over the serving table, with a centerpiece of bronze mums and miniature golden lilies highlighted by the gold letters, "50", protruding from the arrangement. Triple crystal candleholders were emphasized by gold tapers, and crystal appointments were used. The white napkins were inscribed with the letters "1907 - John and Cordie - 1957."

The anniversary cake was three-tiered and iced in white, with a miniature bride and bridegroom atop the cake. Gold punch was served.

On the registration desk was a unique music box which played "Here Comes the Bride." Bouquets from well-wishers were used throughout the entertaining rooms. Mrs. Howard Martin was featured in two vocals during the calling hours. She sang "When Your Hair Has Turned To Silver" and "I Love You Truly."

Mrs. Stagner was born at Cone in Crosby County, and lived there during her early years. Her father owned a general store and established the first post office in the little community.

Her husband was born in Eastland County and moved to Cone in 1904. Asked how they became acquainted, Mrs. Stagner remarked, "in a small town like that, everyone knows everyone else." Before their marriage, they attended parties and singings together.

The young couple repeated their marriage vows at her parents' home. She wore a wedding dress of white organdy. After their marriage, they lived on a farm about three miles east of Cone. Then in 1918, they moved to Parmer County, making the trip in a new Ford car. They made the drive in one day, coming through Plainview and Lubbock. There weren't too many towns or houses either, they report. They shipped their belongings by train.

Their new farm was located two miles south of Bovina and they lived there until 1921 when they moved to Bovina. They resided in town until 1940, and they moved to Clovis, where they have lived since that time. He has been in the building business in Clovis.

Asked for advice for any young couple's beginning their married life, Mrs. Stagner commented "it's just an experience you have to live yourself."

Among the out-of-town guests attending the reception were Mr. and Mrs. E. Frank Grayson, Mr. and Mrs. Tom Bail

and son, Mr. and Mrs. M. H. Day and Mrs. Eula Parrish, all of Lubbock; Ray Terrell of Lorenzo, Mr. and Mrs. E. M. Chapman of Ralls, Mr. and Mrs. Bertram Gunn, Sandra, Douglas and Billy Lee of Big Bend, Kan.; and Sharon Small, Mr. and Mrs. Frank Hastings, Mr. and Mrs. Bill Bradshaw, Mr. and Mrs. J. R. Glover, Mr. and Mrs. J. Sam Gaines, Mr. and Mrs. Louis Pesch, all of Bovina;

Also, Mrs. Troy Armstrong, Mr. and Mrs. Bill Parker, Mrs. J. R. Caldwell, Mrs. Amos Steelman, Miss Evelyn Steelman, Charley Gray, Lawrence Gray, also of Bovina; Mrs. Johnny Morgan, Kay, Bob and Sandra, and Mr. and Mrs. Marty Ezell of Portales, Mr. and Mrs. M. D. Cleskey of Floyd;

Also, Mr. and Mrs. J. Mitchell and baby of Pampa, Mr. and Mrs. Francis Hiburn of Dalhart, Mr. and Mrs. M. H. Martin, Mr. and Mrs. Claud Chambers, Mrs. Mattie Smith and Mr. and Mrs. L. D. Parker, all of Amarillo; Mr. and Mrs. Henry Come of Canyon, Mr. and Mrs. Maples Bickley of Plainview, Mr. and Mrs. Earl Stagner of Stamford;

And, Mrs. Nina Hooker of Abilene, Mr. and Mrs. Mel Gunn, Mrs. Della M. Ezell, Mr. and Mrs. Bob Williford, Mr. and Mrs. Bill Venable, Mr. and Mrs. Charlie Ross, Mr. and Mrs. H. D. Ellison, Mr. and Mrs. Wilbur Charles, Mr. and Mrs. Willie Williams, Mauri and Mrs. W. H. Graham Jr., and Mr. and Mrs. Lee Thompson of Farwell, Lady Roberta Bryant of Colorado Springs, Mr. and Mrs. J. A. Laird of Albuquerque and Irene Nuckols of Elida.

Raye Jene Jones, Lila Gay Buske, and Eva Woolbright returned Thursday from Santa Cruz, N. M., where they had been assisting Rev. John Abbott of Espanola, N. M., in a Bible school.

O. M. Jennings of Muleshoe visited Mr. and Mrs. Elvie Jennings of Friona the past week.

Mr. and Mrs. C. W. Dixon attended the old Settler's reunion at Dimmitt Thursday of last week.

Mr. and Mrs. Tom Lewellen and family are in the mountains of Colorado this week for a vacation.

To Abernathy

Mr. and Mrs. A. O. Drake and granddaughter, Erma Drake, left Tuesday morning for Lubbock to visit Mrs. Frances Howard, who is hospitalized at Plains Hospital, following surgery. Mrs. Howard, whose home is at Abernathy, is a daughter of the Drakes.

To Mississippi

A3c and Mrs. Wm. Leroy Blaylock and daughter, Lygia Ann, left Wednesday morning for Greenville, Miss. Blaylock, who has recently finished his tour of overseas duty, will be a jet aircraft mechanic at an air base there.

Men's Club Meets, Plans For Float

The Men's Club met at the Parish Hall for their regular business session. During the session it was decided to start work on a float to enter in the "Maize Days" parade.

Melvin Sachs and Raymond Schueler were appointed delegates to the Lutheran Layman's Convention at Vernon to be Aug. 21 thru Sept. 3. Herman Schueler, Robert Schueler, and Franklin Bauer were appointed as members to attend.

After the business session the group enjoyed a game of darts.

The group recently won a trophy at the dart ball tournament held at Pampa.

"Teaching" Topic At Ladies Aid

The Lutheran Ladies Aid met Thursday night for a topic study and business session. The topic on "Teaching our Children in the Homes" was led by Pastor Stroebel with the group taking part in the discussion.

"The child should receive his first teaching in the home rather than in the schools," was the point stressed in the discussion.

After the business session, refreshments of cake and punch were served to the group by the hostess, Mrs. Raymond Schueler.

Skating Party Held

Approximately 47 people enjoyed the skating party held at the roller rink in Friona Wednesday night. The party was sponsored by the Rhea Farm Bureau for the community.

TO OBSERVE FESTIVAL

August 25th is Mission Day at Rhea Lutheran Church. Services will be at 10:30 a.m. and at 3 p.m. Pastor Szedegid of Hereford is the guest speaker. Meals will be served after both services. Mission Day is an annual event observed by all Lutheran churches to remember Missions in our country, in Texas, and in foreign fields.

Vacations

Mr. and Mrs. Carl Schlenker and children are vacationing in the mountains this week.

Mr. and Mrs. Cordie Potts and children left Thursday for Yellowstone Park.

The Walter Schueler family recently returned from a week's vacation at a ranch in the mountains.

Steve Wagner, son of Mr. and Mrs. Melvin Sachs, has been attending "Children's Camp" the past week at Ceta Glen. Pastor Stroebel also spent the week helping at the camp.

Mr. and Mrs. Jack Patterson are still vacationing in Georgia.

Also returning recently were Mr. and Mrs. Elmo Dean from Colorado and Mrs. F. T. Schlenker from California.

Irene and Edmund Drager attended Walther League camp at Ceta Glen.

Visiting

Mr. and Mrs. Frank Scheiman and family from Decatur, Ind., spent the week visiting with friends and relatives in the community. Mrs. Scheiman is a niece of Robert and Herman Schueler.

Miss Peggy Sifford has been visiting the past week with her brother and family, Mr. and Mrs. Billy Sifford.

Visitors from the Amarillo Air Force Base in the Ray Martensen home were Raymond Loske and Jerry Grunke of Nebraska. Raymond Loske is a cousin of Mrs. Martensen.

Dear Sir:

I would like to express my appreciation and thanks to you for your interest in the growth of our community and especially for some kind of a community-wide celebration.

Since we are one of the richest farming communities in the United States I would like to suggest that we have a Harvest Festival. There are other communities that have Rose Festivals, Cotton Festivals, etc. Perhaps this could be planned for the middle of September and I believe we could make it an annual affair.

Some of the events we could have might include a Harvest Queen. This could be open for entries for young women from sixteen through twenty-three. Her costume, naturally, would be of cotton. Her bouquet could be made up of heads of maize, bolls of cotton, okra pods and

other things from the farm. Her crown could be fashioned from cotton or some other farm product.

We could have a parade, this could include a pet show for the younger people of our community. Since there are so many pretty fall flowers we would need to have a flower show. For something to bring in some money we could sponsor a cake walk two or three times during the day. Some of the classes from school may want to present a talent show in the park. It may be possible to get the Tejas Indians from Pampa to give one or two performances. Since everyone enjoyed the pony express races during the anniversary so much it may be that we could have another one.

I certainly believe we should have some kind of a community celebration this year and in the years to come since we do not have a fair any more.

Sincerely yours,
Mrs. Wilburn Carlton

or possibly two years they will spend with Mrs. Schlenker.

In Hong Kong, Madeline and Catherine attended a school conducted by the British government. Both have taken about the same courses, though they are of different ages.

While arranging for their registration at Friona High School, Superintendent Dillie Kelley said they have already taken many courses which seniors at Friona have not taken, and that they would probably be enrolled as seniors.

Though their plans after finishing Friona School are not definite they hope to enter college or nursing school, they say.

On September 3 when Madeline and Catherine start to school in Friona, they will be experiencing many firsts in their lives. In addition to attending school for the first time in the United States, they will be attending classes where boys and girls are both enrolled. This will be very different for the two sisters, since in their native Hong Kong they attended a government school for girls.

Neither of them had ever lived on a farm until they arrived here to make their home with Mrs. Schlenker last week. They will miss the rain to which they are accustomed. The annual rainfall in Hong Kong is approximately 80 inches. One of the things which impresses Madeline and Catherine more than any other is the vast amount of space.

In their homeland there are so many people that there is not space for even small gardens even though the climatic conditions are ideal for growing fruits and vegetables.

Another new experience for the two sisters will be riding on a school bus. Heretofore they have always been taken to school in the family car. When asked what they thought would

than previously.

Roy also says that varying weather and other conditions make it almost impossible to guess when another hatch of the varmints is ready to come out. "I've about decided the best thing to do is to start spraying when they start bitin'," he says.

Even so, the city has followed through on a time-table with its mosquito control program. A recent break-down in equipment has interrupted the schedule, but by the season's end, the city will have averaged a complete spraying of the town once every 10 days.

Roy says that ideal conditions would require probably a spraying every four days.

Bob Ginsburg has agreed to take the bull by the horns to get something done on the Friona celebration business. Good for Bob. We know that he's due for more than his share of worries—perhaps even disappointments—in the near future, but it's great to see someone interested enough to get in the saddle.

Our appeal for ideas to boost a community celebration brought only one letter, that one from Mrs. W. B. Carlton. Her suggestions appear in the "Letters to the Editor" column elsewhere in the paper.

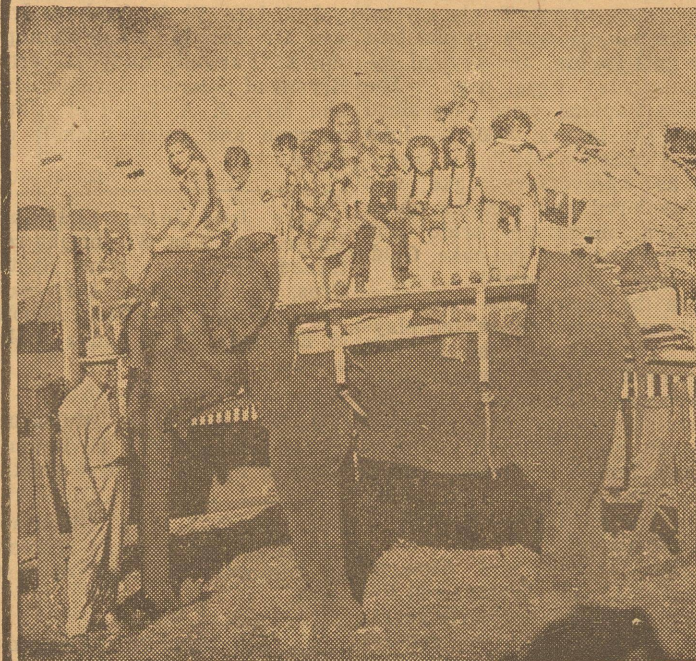

We certainly thank Mrs. Carlton for her interest, although we must admit that we had hoped there would be more response.

Extra Good Yield Of Sesame in 1957

Sesame's place in the agricultural pattern of the Parmer County area is not yet established, but it appears that 1957 will be the best year so far for this "borderline" crop, which is making some headway into grain sorghum acreage.

On the whole, this is the third year for growing sesame in the area, although some farmers are raising their fourth crop, some their first. Sesame got most of its publicity three years ago, and results ranged all the way from poor to excellent.

Approximately 3,000 acres in Parmer County is devoted to the "new" oilseed crop, which at this writing, is looking wonderful according to most farmers. Although getting a good stand of sesame is hazardous,

most "repeat" farmers seem to have mastered the trick this year, and the crop is looking excellent nearly everywhere.

Most farmers are tending toward heavier planting rates, since they have the plant food and water required to make good use of heavy stands. Sesame is fruiting now, and most farmers agree that this looks like a very good year for the crop.

Yields usually run all the way from 400 to 1,500 pounds per acre, with 800 to 900 being regarded as a good average to shoot for. If you like to count the chickens before they are hatched, it wouldn't be too unreasonable to expect over half of this year's crop to beat 1,000 pounds, though, the way things are looking now.

Cool Skies Help

The hot, dry spell of summer was cracked down the middle by moisture-laden clouds over the weekend, and although moisture was generally light and widely scattered, overcast skies and a cool front offered welcome relief from crop-withering heat.

Grain sorghum and corn were showing the effects of continued low-humidity, high-temperature afternoons, and the change in weather was a welcome one. The showers also give hint that cool fall weather may not be too far away, and farmers are again reminded of the recommended August 20-25 "shut-off" date for irrigated cotton.

Agricultural advisors strongly recommend against watering the cotton after this time of the year, because anything other than a late, dry fall could seriously affect both yield and quality of the lint.

Merridith to Speak At SCD Banquet

Austin Merridith of Borger, secretary of the Canadian River Municipal Water Authority, is slated as speaker for the Parmer County Soil Conservation District banquet, to be in Bovina Sept. 5.

Secretary of the Parmer SCD Steve Messenger reports that Merridith uses illustrated topics and plans to have films of the irrigated area to offer with his talk.

Bovina School cafeteria is to be the site of this year's banquet, with preparations being taken care of by the operators of the cafeteria.

Besides Merridith's speech, winner of the Soil Conservation Essay Contest is to read his paper, and the outstanding farmer for 1957 is to be named for Parmer County.

Plans are that a plaque signifying this award will be presented to the one chosen.

Wool and mohair processing plants, like many other industries, can expect more economic production if located in Texas.

THE PARMER FARMER

By LELAND BOYD

Another farm plan has been advanced by a major commodity group. At least, it's major to our area. The Grain Sorghum Producers Association is pushing what they call the "surplus reduction farm plan" which would substantially alter net loan prices for several crops, including grain sorghum.

In a nutshell, GSPA wants treatment of our feed grains on a basis that reflects the relative value of any given grain sorghum to corn. Under their plan, milo would go to \$2.10 price support, compared with \$1.57 now.

Here is the way it would work:

1. No farm will be permitted to plant more than approximately 85% of total cultivated acres in price supported crops, leaving approximately 15% in non-revenue layout acreage.

A. No payment will be received by a farmer for non-revenue layout acreage.

B. No grazing or cash crop will be permitted on non-revenue layout acreage (fallow or soil building crops permitted).

C. Non-revenue layout acreage must be rotated yearly.

D. Non-revenue layout percentage can be increased or decreased yearly by the Secretary of Agriculture within limits set for by law, according to supply of non-basic crops (feed grains, soybeans, cotton seed, non-commercial corn, etc.)

2. Cross-compliance will be in effect.

3. Farmers will be permitted to plant price supported non-basic crops in case of drought, hail, or flood on basic crop acreage.

4. Marketing and acreage allotments will not be used on price supported non-basic crops as non-revenue layout automatically reduces acreage.

5. Program voluntary (in that it must be approved by a national referendum each year, and then is mandatory).

A. Penalty of 50% of parity for non-compliance.

6. In exchange for no pay on non-revenue layout land, farmers will receive 75% of old parity for presently price supported crops (basic and non-basic).

7. All crops now supported will be supported on the same parity formula.

Here are the benefits they claim would result from such a plan:

1. The layout land could be increased or decreased yearly by the Secretary of Agriculture to meet supply and demand within limits established by Congress.

2. No payment on the layout land would be received by the farmer, as this is his offer in return for a minimum floor for presently price supported basic and non-basic crops.

3. Farmers in many instances would take their layout acres out of their basic crop allotment. This would help reduce the surplus of these commodities.

4. This plan is flexible and takes care of hardship cases (hail, flood, drought).

5. This plan would not penalize the farmer who is already summer fallowing his land.

6. Compulsory rotation would prevent the farmer from permanently laying out his least productive land.

7. With no payment to the farmer for layout land, this plan would help balance the budget and cause less resentment by taxpayers, as a farmer

Friona Farmer Grows Vegetables In Big Variety

Hardy May, a farmer east of Friona, is growing seven different vegetable crops this year, and may be regarded as a forerunner of farming patterns to come. He has diversified his vegetable base, and while he may have some "misses" on some crops, he is almost sure to have "hits" on others.

Vegetable farming is much more hazardous than growing so-called "basic" crops with government support prices, because a vegetable farmer usually has very little idea what he will get for his produce. It could be all the way from nothing to a small fortune.

Right now, May is digging on 75 acres of his 125-acre carrot crop, and the early carrots are being processed at the Valshing house in Hereford. Harvesting started only Saturday, and May, who is busy with many chores around the farm, says he hasn't really had a chance to figure how his early carrots are making out.

However, harvest crews report that they are making from eight to ten tons per acre, and May says the current price is \$65 a ton. Since May has invested about \$75 an acre in the crop for seed, oil, fertilizer, water, and farming, he is doing all right at that figure.

"We are looking for the market to go down some pretty soon," he says, "but we don't think it will go below \$30 a ton." And, he adds, \$30 a ton isn't a bad price for carrots. May raised carrots and sold them for around that price last year and did all right.

May is a stockholder in the Friona Growers and Shippers packing shed, which processes potatoes and carrots. The reason the first 75 acres of his carrots are going to Hereford is that he had made an agreement with Valshing for that acreage prior to the time he went in on the Friona deal.

May believes the carrot acreage in the Friona area will continue to grow. "Carrots are a pretty stable crop," he pointed

would not be receiving payment for not producing crops.

8. This plan could be effective immediately upon referendum and give strength to farm credit, both in the banks and through FHA.

9. Easy to administer under present set-up.

10. Each basic crop problem subject to government change in future without affecting this program.

11. This program would eliminate the problem of diverted acres increasing surpluses.

12. Adoption of this plan would eventually eliminate allotments.

If we had to guess, we'd say this plan runs a poor chance of ever becoming law, but with the agricultural program in such a state of flux, there's no telling what the laws will be by next year. In fact, with a big grain sorghum crop coming off this year, the secretary of agriculture could set the price support of milo at zero!

One thing is plain, and that is that the acreage reserve phase of the soil bank program is a big flop. Abuses brought forth under the program have raised the hair on the back of a lot of congressmen's necks, and since the surpluses haven't been cut either (the idea of the whole thing, remember), there are going to be some drastic changes made.

out, and not subject to the extreme price fluctuations that some other vegetables are. Also, competition for carrot growing isn't as keen as for some other crops. The only carrots now being harvested to compete with the Plains crop are coming from Arizona and California.

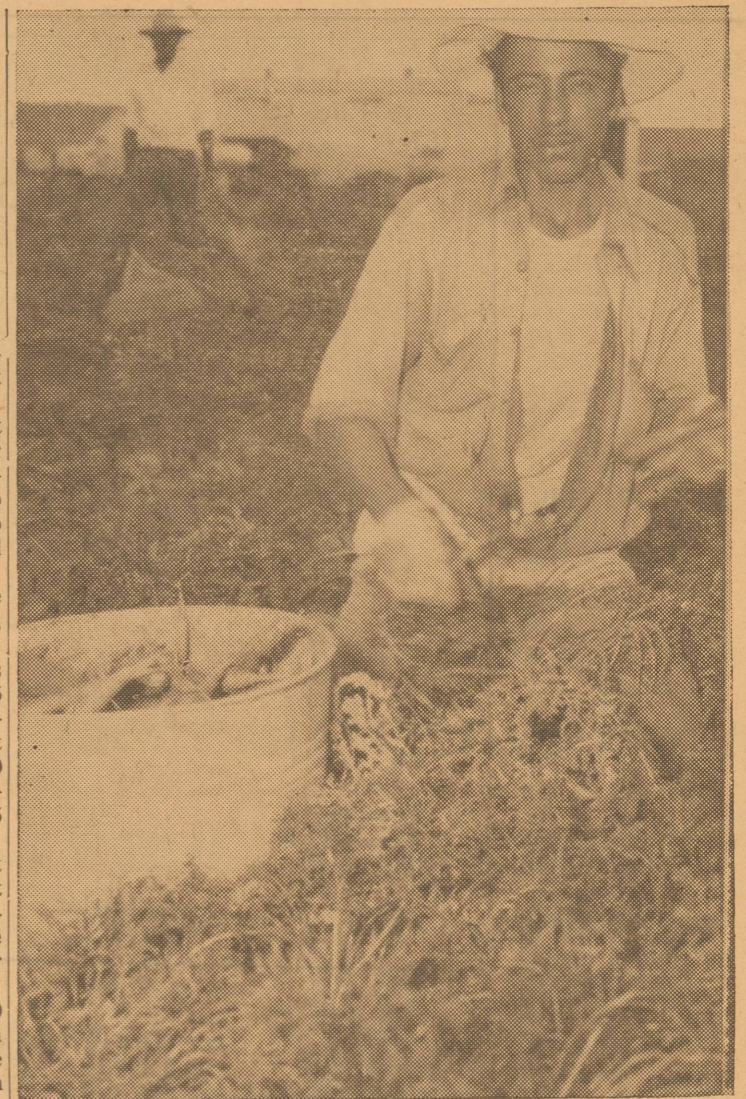

Potatoes, by contrast, are grown from California to Maine, and from Florida to Idaho.

The other crops that May is growing this year: Lettuce, 35 acres; potatoes, 100 acres (already harvested — he about "broke even"); onions, 10 acres; parsnips, 25 acres; peppers, 7 acres; and tomatoes, 15 acres.

May is pretty excited about parsnip prospects. The current price is \$250 a ton, and he figures that his parsnips will make between eight and 10 tons per acre.

The Friona farmer has 640 acres of land he rents from Elmer Euler. With a 170-acre cotton base and 100 acres in maize, May doesn't have much land left for additional vegetable ventures.

Texas' constitution is 43,000 words long.

Gathering in the "rabbit food" is a big job and requires lots of hand labor. A tractor plows the carrots loose and laborers such as the fellow above come into top the greens from the carrots and toss them into a bucket.

After being sacked, the carrots are hoisted into a large truck which is driven into the field. These carrots from the Hardy May farm are on their way to Hereford for processing.

Judy Billingsley Is 4-H State Alternate

Miss Judy Billingsley, Farwell 4-H club member, is alternate to the state-wide 4-H Club dress revue to be held soon as a result of placing among the top contestants in the district dress revue held recently in Amarillo.

Two delegates were named to the state meet, and Judy will

be alternate for either of these two girls if they cannot attend. Judy had previously been named first place winner of the county-wide dress revue which was held about a month ago in Bovina.

Highest temperature ever recorded at any Texas weather station was 120 degrees F. at Seymour on August 12, 1936.

Recent rains have diminished the dangers of grass and wood-land fires in some areas, but the Texas Farm and Ranch Safety Council warns that grass fires pose a real threat for livestock producers. Motorists and rural residents are urged by the Council to observe fire safety rules. Community and county organizations are suggested as effective means of fighting grass fires.

One clever idea is to make them of plain colored denim then with bright colored nail polish draw designs on each side. To make them personal and make a hit with the child who is to receive them, too, print the child's name on one side.

We have never seen it tried, but the idea of making the bags, then filling them with grains of wheat or maize or even de-linted cotton seed should work out very nicely.

When is an apple pie not an apple pie? That question can be answered at least two different ways. One is that it might be a Mock Apple Pie which is made of crackers, sugar, cinnamon, and butter. The other is that it might be a Squash Pie.

Now, don't say, "Who ever heard of a squash pie?" That is exactly what most everyone says. Frankly, we had never heard of one until recently. Mrs. W. R. Reithmeyer, who lives south of Friona, gave us the recipe and several who have eaten her squash pies say they are delicious.

For squash pie, you use the round white variety. "Yellow squash doesn't work," says Mrs. Reithmeyer. The recipe was given to her by her mother-in-law, Mrs. Otto Reithmeyer of Lamesa. Squash for pies can be

frozen. For freezing cut slices slightly thicker than you slice apples for pies, blanch three minutes, then put in containers and freeze.

THE HAPPY HOMEMAKER
BY JUNE FLOYD

For something unusual that will please just about everyone, the next time you make fudge, spread about one half of the mixture in the platter, add a layer of pint sized marshmallows, then spread the remaining fudge on top.

We have had several recipes for Apple Crisp and every one of them was very good; however, Cherry-Pecan Crisp is something entirely new to us. It is simple to make and makes a wonderful addition to a company meal or a family meal either.

Cherry-Pecan Crisp

½ cup sifted all purpose flour
½ cup quick-cooking rolled oats
½ cup firmly packed brown sugar
¼ cup butter
Cherry Filling
¼ cup coarsely broken pecans
Combine sifted flour, rolled oats, and brown sugar. Cut in butter with pastry blender. Pat one half of the mixture into bottom and on sides of well greased 9 inch deep pie pan. Spread with Cherry Filling, which has been cooled.

Add nuts to remaining crumb mixture. Sprinkle evenly around outer rim of pie. Bake in moderate oven for 25 to 30 minutes. Serve with whipped cream or ice cream.

Cherry Filling

1 can (20 oz.) frozen, sweetened cherries
1/3 cup sugar
2 tablespoons quick-cooking

tapioca
½ teaspoon almond extract
3 or 4 drops red food coloring
Drain juice from defrosted cherries. Reserve cherries. Combine 2/3 cup cherry juice

with sugar and tapioca and bring to rolling boil. Remove from heat. Add flavoring, coloring, and reserved cherries. Cool, then use as directed.

It isn't too early to start plan-

This is Charles Seale of near Farwell, who has the unique distinction of being a farmer who isn't growing any grain for the cash market. All of his is contracted for seed. He is shown with his Atlas sargo, of which he has 100 acres. Seale also has 40 acres of Mexican June corn, 100 acres of sesame, and 30 acres of cotton. Contracting for seed production is a phase of farming that is seeing increasing popularity in the area.

POTENT PORKERS FOR MAKING MONEY — Doyle Cummings of Friona is starting two other bunches of feeder pigs on a pig parlor feeding program after the first group marketed for \$20.75 cwt., and cost only \$9.03 cwt. to feed to 200 pounds.

Pig Parlor Pushes Porkers To Top Pronto

From 60 pound feeder pigs to 200 pound butcher hogs in 81 days—this is what records of a pig parlor feeding experiment demonstrate near Friona.

Conducting the enterprise was Doyle Cummings of Friona, who wants to show farmers that hog feeding can be profitable, especially when home grown feed is used along with necessary supplement feed.

Records prove this point. Cummings sold the porkers July 15 for \$20.75 cwt. Cost to him, not counting labor and medication costs, was \$9.03 per 100 pounds of gain.

The records were started April

25 when Cummings put 19 60-pound feeders in his pig parlor. After the porkers gained an average 140 pounds each, at 1.69 pounds per day, they were sent to market, the records tabulated, and the figures interpreted.

Amount of feed for one pound of gain was 3.7 pounds. Components of the feed were maize, figured at \$2 cwt. For 100 pounds of gain, the hogs consumed 326 pounds of milo and 54.3 pounds of supplement. Cost of the ration was \$2.44 cwt.

Milo was fed without grinding, Cummings says. "More efficient gain could be obtained from feeding ground milo, but since facilities were not available, this shows that fairly good efficiency is possible from whole maize."

"The ration was fed free choice. Some experiments have shown that it is best to mix the supplement with the grain. But I am well pleased with the results," he says.

"Another way to look at the records," Cummings points out, "is to figure that the maize was sold for \$5.44 cwt. instead of \$2 cwt. This means a profit of \$3.44 cwt., excluding costs of labor, building depreciation, and medication."

The latter part of the test came during warmer summer days, and to keep the porkers cool, a sprinkler was installed in the pig parlor. No loss of rate of gain was detected. The price would have been \$1.50 higher if the hogs had been held about one week longer. This was about the time of

the jump in hog prices—to a record for the past several years.

Cummings believes that other farmers can do the same thing, with their grain and a complete supplement. Several farmers in the county have maintained a hog feeding enterprise every year, but records of performance are lacking.

Even if the hog price had not risen, Cummings believes his profits would still have been considerable since the feeding cost was only \$9.03, leaving about a \$10.70 margin.

Two other groups of pigs are present occupants of the pig parlor.

THE STATE OF TEXAS, COUNTIES OF FARMER AND CASTRO, LAZBUDDIE INDEPENDENT SCHOOL DISTRICT

TO THE RESIDENT QUALIFIED PROPERTY TAXPAYING VOTERS OF LAZBUDDIE INDEPENDENT SCHOOL DISTRICT:

TAKE NOTICE that an election will be held on the 28th day of August, 1957, in the Lazbuddie Independent School District, at the place, in the manner, and on the proposition set forth in the attached copy of an order for tax election, duly entered by the BOARD OF TRUSTEES OF SAID SCHOOL DISTRICT on the 9th day of August, 1957, said attached order for tax election being made a part of this notice for all intents and purposes.

(SEAL)

Robert L. Jones Secretary, Board of Trustees

ORDER FOR TAX ELECTION

THE STATE OF TEXAS COUNTIES OF FARMER AND CASTRO LAZBUDDIE INDEPENDENT

SCHOOL DISTRICT

On this the 9th day of August, 1957, the Board of Trustees of the LAZBUDDIE INDEPENDENT SCHOOL DISTRICT convened in regular session, with the following members present, to-wit:

Frank Hinkson, president; E. T. Ford, John Gammon, DeWitt Precure, Robert L. Jones, and J. T. Mayfield, members, and with the following absent: Harold Wilson, constituting a quorum and among other proceedings had by said Board of Trustees was the following:

There came on to be considered a petition signed by 31 persons asking that an election be ordered upon the proposition hereinafter set forth, and

It appearing to the satisfaction of the Board of Trustees that said petition is signed by at least twenty resident, qualified, property taxpaying voters of said School District, who own taxable property in said District, and who have duly rendered the same for taxation, and is otherwise in conformity with law, the Board is of the opinion that said petition should be granted, and said election as prayed for should be ordered:

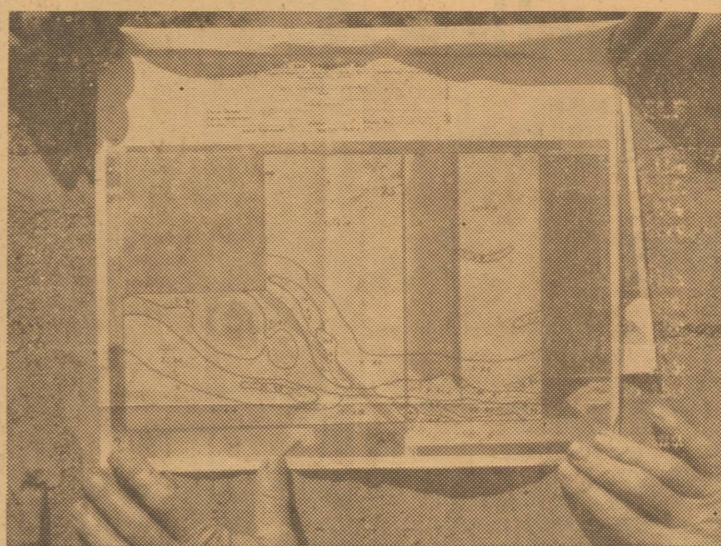

THEREFORE, BE IT ORDERED BY THE BOARD OF TRUSTEES OF THE LAZBUDDIE INDEPENDENT SCHOOL DISTRICT:

THAT an election be held in said School District on the 28th day of August, 1957, which said date is sufficient to allow posting notice of said election for 10 days prior thereto, and which date is also within thirty days from the date of this order, at which election, in accordance with said petition, the following proposition shall be submitted to the resident qualified property taxpaying voters of said School District for their action thereupon:

PROPOSITION

SHALL THE PROVISIONS OF SENATE BILL NO. 116, CHAPTER 528, ACTS OF THE LEGISLATURE AT ITS REGULAR SESSION, 1955, BE ADOPTED BY THE LAZBUDDIE INDEPENDENT SCHOOL DISTRICT OF FARMER AND CASTRO COUNTIES, TEXAS, SO THAT IT MAY HAVE THE AUTHORITY AND POWER TO LEVY AND CAUSE TO BE COLLECTED ANNUAL TAXES AND TO ISSUE BONDS AS THEREIN PROVIDED:

That said election shall be held at the following place in said School District, and the following named persons are

These are the basic parts of the cooperative District Agreement between landowners and the Farmer County Soil Conservation District as a means of solving the various soil and water conservation problems for a particular farm or ranch.

hereby appointed officers for said election:

(a) At the School Auditorium Building in Lazbuddie, Texas, in said School District, with George Crain as Presiding Judge, and Roy Daniel and Wesley Barnes, Clerks.

The ballots for said election shall have written or printed thereon the following:

FOR THE ADOPTION OF SENATE BILL NO. 116, CHAPTER 528, ACTS OF 54th LEGISLATURE AT ITS REGULAR SESSION, 1955.

AGAINST THE ADOPTION OF SENATE BILL NO. 116, CHAPTER 528, ACTS OF 54th LEGISLATURE AT ITS REGULAR SESSION, 1955.

Each voter shall mark out with black ink or black pencil one of the above expressions, thus leaving the other as indicating his vote.

None but resident qualified property taxpaying voters of said School District who own taxable property in said School District and who have duly rendered the same for taxation shall be allowed to vote at said election.

The Secretary of this Board of Trustees shall forthwith issue a notice of said election stating in substance the contents of this election order and the time and place of said election, and said Secretary shall post a copy of such notice at three different places within the boundaries of said School District, which posting shall be done not less than ten days prior to the date fixed for said election.

Immediately after said election has been held the officers

holding the said shall make returns of the result thereof to the Board of Trustees of said School District, and return the ballot box to the Secretary of said Board for safekeeping.

The manner of holding said election shall be governed, as near as may be, by the Texas Election Code, except as modified by Articles 2785, 2786, 2788, and 2955a, Revised Civil Statutes, 1925, and this Board of Trustees will furnish all necessary ballots and other election supplies requisite to said election.

The above order being read, it was moved and seconded that same do pass. Thereupon the question being called for, the following members of the Board Voted AYE:

Frank Hinkson, E. T. Ford, John Gammon, DeWitt Precure, Robert L. Jones, J. T. Mayfield, and none voted NO.

Frank Hinkson, President, Board of Trustees

Attest Robert L. Jones, Secretary.

Agency, Friona

Do You Know How Your SCD Works?

Texas has 172 Soil Conservation Districts which cover 97 percent of the land in the state. A board of five supervisors governs each district. There are 180,796 farmers and ranchers who are cooperators of Soil Conservation Districts and these cooperators operate 92,486,823 acres of farm and ranch land in Texas.

The supervisors of the Soil Conservation Districts are elected by the landowners within the district. They serve five year terms and receive no pay for their services.

The headquarters for the Farmer County Soil Conservation District No. 146 is located in the American Legion Building in Friona. The district board of supervisors are A. L. Black, chairman; Joe Blair, Lloyd Prewett, G. W. Crain, and Carl Schlenker, members.

The policy procedures for carrying out the district program are established by the supervisors within the framework of the Texas State Soil Conservation District Law. The supervisors direct, plan, and manage their own soil and water conservation programs and affairs with the help of local people and the Soil Conservation Service.

The programs are based on the resources and needs of the landowners within the district. Districts are concerned with making the best use of land and water resources through

voluntary application of sound conservation farming practices. In general, districts are authorized to do everything that needs to be done to achieve the prevention and control of soil and water.

Landowners of the district are encouraged to apply a complete conservation program on their farms and make the best use of the facilities and assistance through the district.

Technical assistance from the Soil Conservation Service is made available to the landowners at their request. Their cooperation in the district is voluntary. Since Soil Conservation Districts have no power to tax, make assessments, or issue bonds under a Texas Law, a landowner has no financial responsibility other than pay for the conservation practices which he has decided are desirable for his farm program.

Weed Committee Checks Certified Seed Status

Parmer County Farm Bureau's weed committee met last Thursday night and had several topics under discussion, including seed quality.

Farmers who have what is believed to be an excess of tall or wild "bastard" stalks in their fields that can be traced to the planting seed have been asked to contact the weed committee chairman, Raymond Schueler, or any of the directors.

At the meeting, Joe Jones, county agent, gave his report on contacts with railroad officials about bindweed along the railroad right of way.

Farmers who make complaints are asked to have their certified seed tags available also. Without these tags nothing can be done by either the committee or state inspectors.

MELTON STUDIO 1010 Main Clovis, New Mexico Portrait Photography Telephone 6624

appointed to contact custom operators to see what they would charge the railroad for the job. Gus Schlabs, Archie McCutchan, Oscar Hubbell and Jack Black are to contact all FFA instructors in the county in regard to having bindweed classes as part of their regular work and help complete county maps as to location of bindweed plots.

A discussion on the possibility of a school with farmers next spring on what to expect from certified seed was held. Some farmers believe seed laws are not strict enough, but certified seed growers believe the laws are too strict.

Attending Thursday night's meeting were Raymond Schueler, Oscar Hubbell, Archie McCutchan, Gus Schlabs, Vernon Symcox, Joe Jesko, Bruce Parr, Joe Jones, Jack Black, Bill Nichols, Prentice Mills, and Gilbert Kaltwasser.

Sesame is an unusual crop, and produces seed up and down the plant body. Notice in the picture that the plant is blooming at the top, and less distinct are seed pods that have already formed their fruit and are now maturing.

MIDLAND, Tex. — A 55-year-old man who has been in and out of the city jail 35 times in the past three years didn't forget the boys he left behind. Discharged after completing another sentence for drunkenness, he was picked up two days later when officers found him drunk and attempting to steal a case of canned beef stew from a local grocer.

"I figured I'd be going back to jail," he grinned at officers, "so I thought I'd take the other boys something good to eat."
