Congratulations, Friona, Open Letter to all
On a Job Well Done Maize Days Committees

We have received a letter of thanks from Maize Days co-chairmen Bill Sheehan and Charles Allen directed toward all the folks that worked toward making this year's Maize Days celebration "one for the books."

We of The star would like to put a word in here, and say that we also think the town owes a debt of gratitude to all those hundreds of our number who worked so hard and diligently to make last weekend a success.

To single out any one person for credit would be an impossible task, but the success may be attributed to just everyone pitching in when the chips were down and coming through in fine style.

We are proud our area has this ability to "come through when the going gets tough" and is populated by the kind of people who enjoy having a good time.

This trait is true of our entire area--- if you depend upon them for a job they are the kind that take pride in doing a job well to the best of their ability.

We are indeed proud to be a part of such a community.

We, as chairmen of the Maize Days Celebration for 1958, wish to extend our appreciation to all of the committees and people who worked to make this year's celebration our very best.

Maize Days could not have been the success that it was without the hard work and cooperation of hundreds of people.

Since it will be impossible to thank each one individually, we wish to take this means of telling each of you that it was a privilege to work together with you for our Maize Days of 1958, and we trust that we will be able to count on your cooperation next year to make Maize Days of 1959 even better.

Gratefully yours,
Bill Sheehan and Charles Allen,
Co-Chairmen of Maize Days,
1958.

discovered the hoop, and it's creating quite a rage across the country. We have now, in the space of a generation, come full circle . . . or full hoop, if you prefer.

Of course, there's a slight difference. Today's hoops cost today's parents \$1.98 per hoop. These same parents used to roll their own from a barrel or hoghead in the nearest alley, and the cost was just the trouble of pulling the darned thing loose.

Of course, there's a difference in the hoops, too. The \$1.98 jobs are of plastic and in pretty colors. . . but we doubt if they're any more fun than the plain old barrel hoops which provided a lot of inexpensive entertainment for countless generations before barrels went out of style . . . and so did the fashion for youngsters to find or make their own entertainment.

We're tempted to teach our own kids the joys of rolling a hoop at the end of a wooden "tee" . . . but these plastic jobs wouldn't make as much noise as the old wooden and tin hoops did, so maybe the flavor's gone out of the game. Rummaging just for the sheer joy of rummaging seems to have gone out of style, too. Kids nowadays want to run with wheels under 'em . . . not in front of them.

One thing is sure, tho. If toy promoters keep dredging up these old stand-bys and selling 'em at \$1.98 a-piece, the barrel is going to come back in style . . . for wearing . . . by parents who have to buy these gimmicks for their under-privileged youngsters.

An automotive invention that is greatly needed is brakes that automatically get tight when the driver does.

SMITHS HONORED ON 64th ANNIVERSARY--A very enjoyable social affair occurred Tuesday night at the home of Mr. and Mrs. Smith in the east part of town, when a large number of their friends gathered there to help them celebrate their sixty-fourth wedding anniversary.

The wedding ceremony was performed by Rev. O. B. Amis pastor of the Methodist Church and when the groom was asked if he would take that girl as his wife for another 64 years he promptly answered--NO!
Dr. A. P. McElroy served as groomsmen and Mrs. Brooks

as bridesmaid with Mrs. L. H. Routh as flower girl.

REVIVAL SERVICES AT METHODIST CHURCH--Rev. G. M. Gattis of Clarendon is preaching at a revival held at the Methodist Church in Friona.

A club day exhibit of clothing and home canned goods is being sponsored by the Farmer County HD Council in the M. A. Crum building in Friona on Thursday.

IT SEEMS ONLY YESTERDAY

Sept. 25, 1925

A NEAR CASUALTY--While the editor of the Star was returning from Clovis early Saturday night, when a few miles east of Parmer-ton the lights on the car suddenly went out and in less time than it takes to think, the car rolled into the ditch at the side of the road.

He was accompanied by his daughter, Miss Orma White, Mrs. Vay Hart and baby son, Mrs. Fred White and Miss Constance Gischler. Fortunately no one was hurt, but the front wheel of the car collided with the bank of the ditch with sufficient force to break the axle off. Mr. Beasley, a neighbor, whose home was near, took the occupants of the car home. Early next morning when we returned to bring the car home we found that yeggs had relieved us of the battery, mud chains and jack.

ENTERTAINMENT HONORS TEACHERS--The ladies of the Friona Woman's Club entertained the patrons of the school at a reception for the teachers of our school on the lawn at the home of Mrs. Goodwine last Friday night. The reception was given in order that the people of our town and vicinity should have an opportunity of becoming acquainted with our new teachers and vice versa.

Miss Lipton, a teacher in the Ray school, spent the weekend in Friona visiting Miss Marie Coneway.

Will L. Jones, who has purchased a quarter section of land near Homeland, expects to move his family here in the near future. He was in town Monday making arrangements for the purchase of material for the building of his home here. Mr. E. E. Peacock of Wellington was with Mr. Jones and has the contract for building the house.

FRIONA MARKET--Wheat, \$1.60/bu; Oats, 50¢/bu; Maize, \$1.65/ cwt; Coal/ton \$13; Eggs, 25¢/doz; Butterfat, 35¢/lb.

A LACK OF FAIR WEATHER MAKES LACK OF A FAIR--For the first time since its organization the Parmer County Fair was drowned out by the continued heavy rain. The heavy rains of last week which were followed by more and continued heavy rains this week, which began on Saturday night and repeated each day since, made it practically impossible for the committees to work and for the people to gather and bring their exhibits.

PERSONALS
Mr. and Mrs. Elmer Euler were business visitors in Clovis Tuesday.

Mrs. Ashcraft of Seymour, is visiting her sons Elbert and Slim Ashcraft in Friona.

Jimmy Gilentine in the HEREFORD BRAND snatched this and we in turn have snatched it for our readers:

Speaking of trying to impress people, brings to mind the story of the Georgian who went north, went into business made a lot of money, then entered politics and was elected United States Senator.

Thinking that the home folks should have an opportunity of seeing an important, self-made man, he decided to visit the old home town he hadn't seen for years. Getting off the train during early evening, he was met by the colored man who had been driving the

hack for many years.

"Hello, George," he greeted the Negro. "Hello, Mistah Brown," was the reply.

"You remember me?" "O, yes, I remember you."

"Do the folks around town remember me?"

"Do they know I have been elected United States Senator?" "Yes, they knows that."

"Well, what do they say?" "They don't say nuthin.' They just laffs."--Sleepy Eye (Minn.) Herald-Dispatch.

NEWS FROM BLACK
MRS. DICK ROCKEY

We would like to make a correction. In last week's news we reported that C. R. Smith had moved a building to Black to use as a real estate office. This was an error. Roy Smith moved the building in and has now opened his office.

Some of the people from Black who attended the Tri-State Fair in Amarillo last week were Mr. and Mrs. Jerry Bell, Mr. and Mrs. Bill Carthel, Mr. and Mrs. Gene Welch, Mr. and Mrs. Clyde Hays, Mrs. Ellis Tatum, Mrs. T. J. Presley, Mrs. Lester Dean, Mr. and Mrs. Woodrow Whitaker and Dwight, and Ray Braxton.

Mr. and Mrs. Calvin Ivie of Lubbock spent the weekend visiting in the home of Mr. and Mrs. Rosco Ivie. Visitors in the home of Mr. and Mrs. J. R. Braxton and sons Sunday were her parents, Mr. and Mrs. P. O. Southall.

Jeanne Taylor of Friona spent Sunday and Sunday night with Ann Prewett. Mr. and Mrs. Weldon Tatum and daughter, Pamela, from Canyon spent the weekend visiting their parents, Mr. and Mrs. Ellis Tatum and Mr. and Mrs. Lester Dean.

Darrell Thompson of Level-land spent the weekend with his parents, Mr. and Mrs. John S. Thompson. He is a student at South Plains Junior College.

Mrs. Helen Fangman and Charles visited in the Joe

Marnell home in the Progressive Community Sunday. Mr. and Mrs. Loyd Bengert of Fargo, Okla., spent the weekend visiting his brother, John Bengert, and his family. Johnnie Bengert accompanied Dr. Paul Spring to Albuquerque to attend the New Mexico State Fair last weekend. Mrs. Bengert spent the weekend with Mrs. Spring and Susie.

Most everyone from Black attended the Maize Days celebration at Friona. It was a big success. Our home demonstration club placed first in the window display; the Black Elevator float took third prize; and our community float placed second. Saturday evening visitors

in the home of Mr. and Mrs. John Bengert were Mr. and Mrs. Loyd Bengert of Fargo, Okla., Mr. and Mrs. Guy Latta and Mr. and Mrs. Loyde A. Brewer and sons, all of Friona.

Jimmy Patton, who is attending Amarillo Junior College, spent the weekend visiting his parents, Mr. and Mrs. Coy Patton.

Mrs. O. J. Beene of Friona spent Tuesday afternoon visiting Mrs. Johnnie Bengert.

\$1250 Damages In Wrecks Here

Damages to autos totaled an estimated \$1,250 in two collisions Thursday in Friona.

There were no injuries. The first wreck took place at the corner of Summit and Ninth Streets at noon Thursday.

Mrs. Lois Strickland, driving a '58 Ford was headed north on Summit and collided with a '54 Ford driven by Mrs. Sarah Ramos and in turn Mrs. Ramos' auto was thrown into a '53 Chevrolet driven by Travis Light.

Mrs. Strickland was charged with failure to yield right of way. Damages were estimated at \$1,000 total.

The second wreck of the day occurred about 7:30 p.m. at the corner of Washington and Eighth Streets.

Donald Rule of Friona, driving a 1956 Ford pickup, was going west on Eight and George Sterling Jr., driving a '52 Pontiac was headed south on Washington when the accident happened.

The two autos collided in the middle of the intersection and Rule was charged with failure to yield right of way. Damages were light and are estimated about \$250 total to both autos.

The resolution of the Continental Congress in 1775, which authorized the original two battalions of Marines, further specified that the personnel selected be "good seamen or so acquainted with maritime affairs as to be able to serve to advantage at sea."

Over 300 Visit Star's Open House

Saturday's damp weather didn't dampen the enthusiasm of the more than 350 visitors who attended the open house staged jointly by the Friona Star and Plains Publishers. W. H. Graham Jr. and Joe Osborn, owners, were well pleased that so many visitors from this community and others came to see the new building and equipment.

Included in the program for the day was the publishing of an extra edition, which came off the press about five in the afternoon. During the day visitors were conducted through the building. Many of them had never seen a print shop before and others, who were acquainted with the operation of such a shop, were amazed at the new method of printing a newspaper.

Graham, who is manager of Plains Publishers and publisher of The Star, and his wife, Jeanne, were hosts. Refreshments of coffee and doughnuts were served throughout the day. Favors were bubble gum and candy for the children and "doodle pads" for the adults.

Assisting with hospitalities were Mr. and Mrs. Dave McReynolds, George DeVoll, Laurie Cooper, Audrey Hapke, Mrs. Forrest Osborn, and Mrs. Glenn Floyd. Guests were registered by Marilyn Potts and Geneva Floyd. Corsages were given to every fiftieth person who registered. Question of the week: What are the Chieftain fans going to talk about over their coffee cups Saturday morning? Maybe they will be gathering momentum to support the local boys in their game with the Muleshoe Mules the following Friday night. Four wins and no losses is really something for all of us to be proud of. We wish them the best of luck the rest of the season.

Time for 1959 Auto Sticker

September 1 was the first day for Texas motorists to have vehicles safety inspected for the 1959 inspection period, according to an announcement from Texas Department of Public Safety.

Parmer County has 5,200 vehicles registered. They must be inspected, approved and bear the new inspection sticker prior to midnight, April 15, 1959.

There are five inspection stations in the county.

Passenger cars are inspected for brakes, lights, reflectors, horn and windshield wipers; while commercial vehicles are checked for those things plus additional items required by law.

The safety department urges that owners have their vehicles inspected now while inspection stations are not rushed.

MACK'S TRACKS--was really excited with Maize Days--Mrs. Mildred Adams of Friona. As you have probably heard Mrs. Adams had the lucky ticket Saturday afternoon and was presented with a new 1958 Chevrolet automobile.

About all she could say as she was led up on the platform to receive the keys to the auto was--"Wow!" Finally we got her settled down enough to tell us where she lives and as she started off the platform we asked if she had a drivers' license.---

"No sub, she said, "But I'm gonna buy one before I go home."

Lots of luck Mrs. Adams, we hope you get your driver's license and enjoy the auto.

We noticed a lot of strangers in town Sunday afternoon. After closer investigation we found that these "strangers" were so "strange" as they were "unusual."

They had just shaved off their beards. So, the flags are down, the park is being cleaned up, everyone's exhausted and Maize Days is over for another year. Now, what we need is a couple of weeks at least of good sunny weather and let the farmers have their Maize Days.

Ugh---it is Monday morning and the boss sort of frowned when we suggested that we just skip a week of publishing a paper, or run last week's over again. So, back to the grindstone and come see us again won't you?

"Monsoon Season" Breaks But Norther Quelches Sun

A week or ten days ago mention of the return of the "monsoon season" would bring a smile or a chuckle from Parmer County area farmers. They felt that surely the wet spell would break most any day and let them get into their fields for harvest.

However, this week the weather is anything but a laughing matter and most farmers are taking their weather problems with utmost seriousness. They will remember last fall and aren't enjoying the prospects of another one just like it.

Soggy weather which closed in two weeks ago Sunday finally passed over and the sun came out Monday, which, combined with a tidy breeze from the dry southwest, started to improve things in a hurry.

The temperature rose in to the high 70's and the humidity decreased considerably. Clouds disappeared and farmers slapped their hands in anticipation of the hard work that appeared to be only a day or two ahead.

A full harvest moon came out Monday night but before the dawn broke one of the earliest true "northers" in High Plains' history blew in from the Rocky Mountain area and quelched all hopes for sunshine and dry weather.

Moisture content of nearly all of the grain is excessive, and, besides that, fields are in such a condition that it would be impossible to get combines through many of them. The harvest is stalled in its tracks.

Monday's clear weather only whetted the appetites of farmers for combine work. Probably not a load of grain was cut that day. There just wasn't enough warmth--enough time--to get the job done.

Parmer County area farmers appear to have an excellent grain crop, in spite of some middle and late-season damage from insects, especially chinch bugs.

Some losses are sure to come from lodging of grain that is in the field and should be cut but cannot be because of the weather.

The heads are big, the stalks are mature and drying out, and excessive moisture, icing, sudden winds, or other hazards could result in considerable falling.

Conditions were at their very worst last year, however, and nearly all of the crop was salvaged, so perhaps things are still not too perilous.

The county's corn crop is very susceptible to this streak of bad weather. Agent Jones reports that corn borer infestation is very general and that the stalks are in poor condition to stand under such conditions as those the crop is now experiencing.

Fallen corn is a lot bigger problem than laid-over grain sorghum, farmers have discovered. It must be picked by hand if there is a lot on the ground. Usually, falling must be heavy to justify this hand labor, however.

FLYING IS MORE THAN JUST FUN

THIS IS WHAT THEY'RE AFTER--The rank, sappy cotton on Parmer County area farms isn't opening up and maturing out like farmers would like to have it. Note the leafy, bush-like growth above, which would produce a large amount of cotton if the crop would only mature. Note also the ominous power line poles which constitute a great hazard to crop-spraying pilots.

HERE THEY COME--Showering defoliant down on this cotton is a team of two spray planes from Benger Air Park. They were at work in the Hub-Lazbuddie area Monday. Behind this low-flying Piper can be dimly seen his bi-wing companion making the turn just over the trees around the farmstead.

Defoliation Big Thing for Cotton

Defoliation--forced shedding of leaves induced by chemicals applied to a cot-

ton crop--is, strictly speaking, nothing "new" to Parmer County area cotton farmers.

But never before have such large numbers swung over to that practice so suddenly as they have this year when farmers are literally lined up with custom crop dusters to get their fields sprayed.

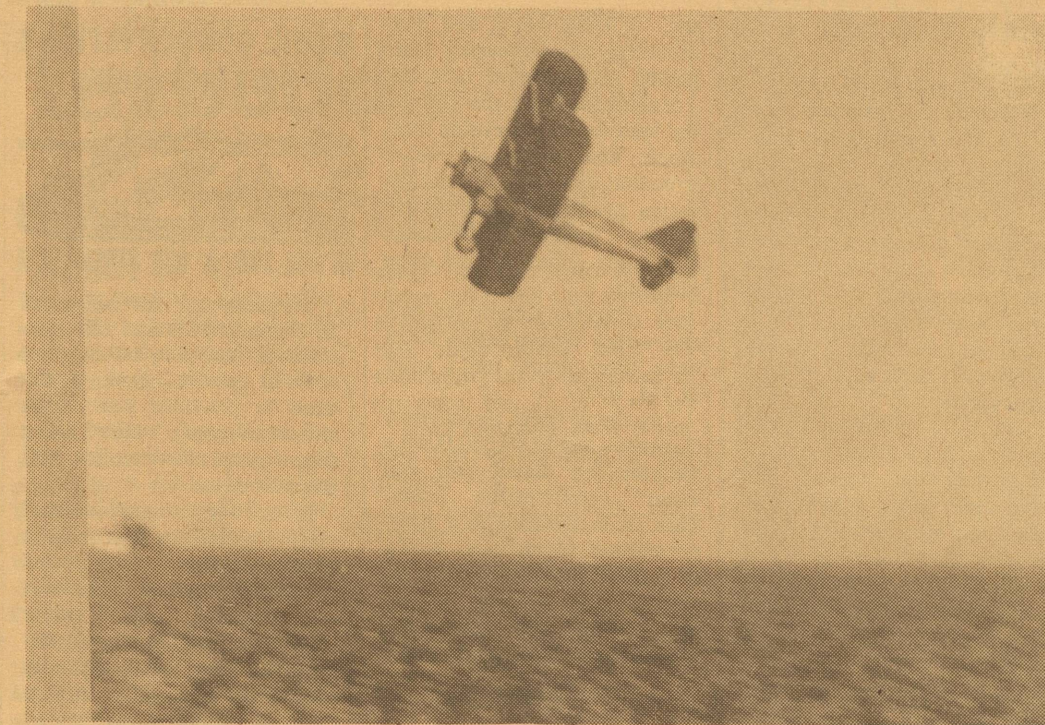

The reason is all too obvious. The farmers have a good, but juicy and immature, cotton crop and they want to stunt or halt its growth and get a little sunshine down into the plant to mature out the maximum cotton obtainable.

In 1957 area farmers had a very good crop of cotton "set" and ready to make, but a large portion of it just never finished. The cold, damp weather and the freezes got it. This year, to speed things up, the idea is to stun the plant with toxic chemicals and make it shed its leaves.

This desire has been greatly stimulated by the hanging-on of poor harvest weather. The poor weather is also hard on the spray planes, which find it difficult to operate satisfactorily under such conditions.

The need for good weather for the cotton harvest is real, but County Agent Joe Jones emphasizes that 1958 is almost sure to not be another 1957. "Already we're ahead of what we were last year," he says.

Late season infestation of a

UP AND OVER zooms the bi-plane as it strains to clear the wires at the left. Such exacting and dangerous flying is hair-raising to watch from near at hand on the ground, but it is strictly routine for the men who lay the spray down on High Plains crops.

"bacterial blight"--angular leaf spot--has further distressed cotton men. This disease, which usually accompanies wet weather and usually leaves the high, dry Plains pretty much alone, is widespread over the area and will reduce the quality of the cotton. What its effects are exactly won't be known until harvest, though.

Many farmers are still studying the merits and demerits of defoliation, says the agent. He says, "If I could defoliate just six days before a freeze, I would." Jones is convinced that just a little bit of sunshine can be mighty important at this stage.

"Farmers can well consider defoliation this year," he says, "but I believe they should stay away from the desiccants."

Desiccants kill the plant outright but defoliants only "knock it," and it usually revives and starts to grow again. With the moisture that is available for growth, this might mean two defoliations to get a good job this year, but that still could be worth it, says Jones.

Also, Jones believes that farmers who harvest their cotton might be better off to strip it and leave it piled on the turnrows awaiting a chance to gin than to defer stripping until the gins get caught up, thus exposing the crop in the field to possibly adverse weather conditions.

"In weather like we are having now cotton loses a lot of its grade in a hurry," points out the agent.

At any rate, when the weather does clear off, there will be plenty of activity in Parmer County area cotton fields because farmers are most anxious to get back to work on their No. 1 money-maker.

Farm Bureau Weed Committee Meets

Johnson grass--not bindweed--was the main topic of conversation at a Monday night meeting of the Parmer County Farm Bureau weed committee.

Meeting in Friona, the group decided to visit with the county commissioners court and see what action, if any, might be taken to pool Johnson grass control efforts in the county. Such efforts resulted in a comprehensive bindweed control effort three years ago which is still continuing.

Present were Raymond Schueler, R. D. Dale, A. R. McCutchan, Gus Schlabb, and Vernon Symcox.

THE HAPPY HOMEMAKER BY JUNE FLOYD

Since we have so many time and labor saving devices it is estimated that today's homemakers spend less time in their kitchens than any generation. This does not necessarily mean that they spend less time on meal preparation. Much more time is spent studying nutrition and good eating habits.

A question that each of us should consider is, "Are you a good example?" All the words we may speak to our

Mrs. Lillie Taylor suggested that we print the following recipes since cantaloupes are plentiful in this area at the present time. She says that each recipe may be varied by using different kinds of fruit and all of them have a delightful taste.

Cantaloupe Butter
Cut up several cantaloupes then boil with one cup of water until chunks of cantaloupe are soft. Run through collander before measuring. Then measure 6 cups of pulp, 3 cups of sugar, and add to cantaloupe. Then add juice and rind of one lemon. Boil until mixture becomes thick. Then add 1 teaspoon cinnamon, 1/2 teaspoon allspice, and 1/4 teaspoon cloves. Boil several minutes then seal in hot sterilized jars.

Carrot Cake
Another recipe which calls for a Parmer County grown vegetable comes to us from Mrs. David Moseley. It was sent to her by her sister-in-law, Mrs. Henry Moseley of Ringling, Okla., and she was kind enough to share it with our readers.

Carrot Cake
1 cup sugar
1/2 cup cooking oil
1 1/2 cups sifted all-purpose flour
2 teaspoons baking powder
1/2 teaspoon soda
1/4 teaspoon salt
1 teaspoon cinnamon
1 cup grated carrots
2 eggs
1 cup chopped nuts

Heat oven to 350 degrees. Mix sugar and salad oil then add sifted dry ingredients. Mix well then add carrots. Beat in eggs one at a time, beating well after each addition. Bake in oiled loaf pan 8 1/2 x 2 1/2 x 2 1/2 55 to 60 minutes. Cover cake with foil first 20 minutes of baking time to reduce cracking on top.

This idea of covering loaf cakes with foil is good any time a loaf cake is being baked. Most of us have difficulty with the tops of the cakes cracking and the paper will eliminate this.

Are you planning to send Christmas cards with pictures of one or more members of the family on them? If so, you should order them in the near future. This year you can send color film and have colored pictures on your cards for a reasonable cost.

When so many homemakers constantly run out of time, there must be an indication that perhaps we are not using our time wisely. Next time you start off a sentence with "I would, if I had time," stop and consider.

If it is just an excuse, don't say it. It is really a reason, give some study to those you are making of your time. Of course, everyone is busy and to keep busy is to keep interested, but no homemaker should have such a full schedule everyday that she really doesn't have any time left over for enjoying her family.
