

Andy Hurst is in need!

Stragely enough Andy is in need of one of the basketball schedules that you might have seen hanging around town with the schedule of this year's games which are to be played by all the Friona teams.

You see, Andy is the person who paid for the printing of the programs and when they were ready they were taken to the high school for distribution.

in the long run, Andy didn't even have one for himself, although it was he who had made them possible.

So--if you know someone who has an extra schedule hanging around drop it by Hurst's in Friona so Andy will know when to gr to the games. * * * *

6 How to get a goose--the easy

wayl Not too long ago we were fortunate enough to bag a goose, and since that time have had our "leg pulled" in many ways. But the other day, Ben Moor-

man really outdid himself. And, we must admit there for a while we fell for his joke hook, line and sinker. Ben sidled up to us on the street one day last week and

whispered in our ear--"I got me a goose!"

Immediately we grew inquisitive and at the same time proud that Ben had managed to bag one of the critters.--"Where'd you get him Ben?" "Oh," Ben said in a myster-

io is way -- "I got him out on Highway 60." "Well," we asked again,

"Where 'bouts on Highway 60?" Ben's reply was rather strange--

"Down by Sherman's Cafe," he retorted.

we noticed a humources quick in the way he said it and then remembered that Glynn Don Hughes had bagged four of the critters up at Buffalo Lake the same day. Immediately I asked Ben if 12 PAGES

Glynn hadn't given him the goose.

"Yeah," he replied, laughing at the way I had jumped at the bait. Well, we will have to admit,

Ben sure got his goose the -no crawling, no fusseasy ing, no freezing and not even a shot fired! That's hard to beat. * * * *

One Dead; 2 Safe As Bomber Crashes

A pilot died as the result west of Bootleg Corner about 2 p.m. Tuesday afternoon.

Two other crew members parachuted to safety.

Smith of Fort Worth, died when his parachute failed to function. His body was found near a windmill still in the ejection seat.

The other two crew members who parachuted to safety were Lt. Col. George A. Gradel and Capt. Daniel J. Holland, both of Fort Worth. One of the above was found

by ranchowners Bob and Lloyd They were both later trans-

ported to Cannon AFB by helicopter,

The big bomber, described by Air Force officials as the "world's fastest" went down with a roar which jarred houses as far away as Bootleg. Mrs. S. N. Thweatt, who lives

at Bootleg says she was sitting in the living room sewing when the house shook. She looked outside to see a mushroom of black oily smoke ris- officials Tuesday. ing in the northwest.

"I didn't know what had happened at first, but thought perhaps it was a plane," she told Forty Neighbors reporters.

Her husband, who was cut- Attend ting weeds in a field nearby said he thought the plane had hit a lot closer from the way it shook the area around them. 'I drove the tractor up on

VOLUME 35, NUMBER 11

Talking about nail-biters! Last Saturday night we had chewed all our fingernails off watching the Friona Squaws play for the finals in the basketball tourney, then when the Chills played for the finals in the boy's division we didn't have any nails left to chew on. If you notice us stumbling around with bandaged hands it's because we tried biting our nails off up to the elbows. Yep, both the games were thrillers, with the Chiefs coming to on top by two skinny points over their Parmer Count. Steers. rivals--the Farwell

The girls beat Sudan a little more than that, but for three and a half quarters you never knew for sure who was going to win.

Congratulations to both teams for some swell basketball!

Ch Incidentally, what did hap-

pen Saturday was rather un-usual we thought.

Not only did the Chiefs and Squaws win top honors in their respective divisions, but the them Chiefs, but perhaps after what they pulled Saturday we could call them "Reservation Jumpers"--pulled one out of the beg and won the Boy's Consolation top trophy.

THE BULWARK OF A COMMUNITY IS ITS CHURCHES

A THOUGHT FOR THE WEEK

WHAT DOES CHRIST MEAN TO YOU AT THIS CHRISTMAS SEASON?

Christmas, the day we set aside to commemorate the birth of our Savior, is being commercialized more and more each year. Never before have we gazed upon such beauty as we behold the glorious array of bulbs, tinsel, rope, ribbon, and twinkling lights. On every street we see visible signs that Christmas will soon be here.

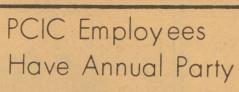

Should you attend a Christmas play this year, you will probably see the portrayal of the virgin Mary, the manger, and the babe Jesus. Also, the shepherds and wise men will be close by adoring the Christ child.

Your heart will be thrilled at the simplicity of the scene and rightly so. But let us go a little farther and ask ourselves "what does Christmas mean to me?" We would have to conclude that it is not Christ in a manger that we need but Christ in our hearts.

And as we rush to and fro preparing for that Day, do we take out time to count our blessings and to humbly give thanks to our Lord? As we give gifts, do we remember that he was God's gift to mankind? We have freely received of Christ's blessings, so let us freely give thanks to Him.

Don't Attempt a Joke in print or on the rostrum that is not harmless, germ-free, pasteurized. The dignity of race has stolen the punch line from the Jew joke and the same is true of the incomparable humor of the Negro. The colored boy himself doesn't care but the NAACP will tag you quickly. Likewise most of the professions are taboo as butts of jokes. About the only person one can tell a joke on and get a laugh from him as well as others is the cowboy. A joke on the cowboy for the sake of laughter is funny to him, too. A cowboy is his own so and so. The others seem to be

scared of something. Gal's Eye View of duck-hunting by SHIRLEY BAKER in The HEARLD-COASTER (Rosenberg). -----

Dot, dot, dash Great news for you gals that worry with that waistline that needs trimming down and are constantly going on a diet (without very much success) and can't afford the new thingamagigs that are supposed to take it off in the right places. Know of a gal, not mentioning any names, that has found a way without any diet and special reducing table. Believe it or not it is DUCK HUNTING. Laugh if you may, but picture yourself, walking a country mile, stooping down very low and finally getting close to the pond and crawling on your hands and knees or doing the "duck walk" for several feet. You think that's not exercise, especially if your regular exercise is limited to sitting all day and occasionally walking or chasing that little one at home. Let me tell you, you use muscles you didn't know existed. This type of reducing isn't recommended for just everyone. You have to have someone, preferably a male, to take you and guide you, By the way carrying a 20 gauge shotgun isn't too easy either. Be sure to wear plenty of warm clothing, it does get cold early in the morning. After going to all the trouble don't be dis-

ducks, REMEMBER THE EX-ERCISE YOU GET | | | ** "What's the difference be-

couraged if you don't get any

tween vision and sight?" "Do you see those two girls sitting in the center, there?"

'Yes." Well, the pretty one I should call a vision of loveliness, but the other one--she's a sight."

which near this splendid city bears that name, and it gracefully bends and curves around the townsite of Canadian, seeking its outlet to the sea. "Canadian is as large as Chicago but not so densely populated; it is bounded on the North by the Aurora Borealis, on the East by the morning star, on the South by the Gulf of Mexico; on the West by the Golden Gate. It must be the greatest city in all the world because this fact has never been disputed.

"I sincerely hope," the orator concludes, "that none of you will entertain the thought of dying without first visiting this magnificent city; because if you have never been there, you and I together know everything in the world: you know everything except that Canadian is the greatest place in the world, and I know that." Now there, my friends, was a Chamber of Commerce oration to end all orations. They just don't build them like that any more.

> * * * * WEATHER

The weather for the past week has been bright and mild with no moisture in any form, either rain, hail, or snow. This condition continued until Tuesday morning when the wind changed to the north and blew rather furiously throughout the day, a dry, cold wind. * * * *

HAROLD HUDSON, in The Ochiltree County Herald--

We had an interesting visit with a fellow the other day who is lining up jackrabbit buyers in Perryton and says he plans to haul dead jackrabbits out of here by the truck load in another few weeks. We didn't know there were that many jackrabbits in the country, but this man says there are gobs of them, and he has already started hauling carcasses out of Spearman.

His company pays 15 cents per carcass, which is enough to pay for the ammunition and provides some sport for the hunters. Also provides some assistance to farmers and ranchers who would like to have the rabbit population thin-

ned down. What does the company do with these truckloads of jackrabbits? They haul them to processing plants where they are skinned, cleaned, cooled and hauled north to mink farms to provide mink food. This clipped from The Prairie, stu- tle insignificant worm!"

cotton quality report for the 1958 cotton crop, representing total ginnings of more than one million bales, still indicated that this year's crop may be

executive vice president of the PCG, says statistics on the report which covers ginnings of 1,250,000 bales as of November 30, indicate that white cotton accounted for 78.9% of the crop with 24.7% being mid-

tors could have a world to do with whether growing 40 percent more cotton for less money is smart--or whether it was

spotted cotton was only 20% and of that, 15% was middling light spot and better. Full spotted cotton was only 0.1%. Pfeiffenberger says ginnings are running much faster the past two weeks and many observers feel the crop will be 95% harvested by Christmas. Estimated total production is

around two million bales. Statistics show in the fifth quality report that the average staple length is still holding close to an inch, being 31.2 thirty-seconds of an inch. There is 32.8% of the staple that measures one inch and longer and only 4.6% measures be-

low 15/16 inch. The micronaire average is 4.1 with 90.5% of the crop above the tenderable micronaire limit of 3.5. The majority of the crop, or 59.7% falls between 4.0 and 5.0.

In fiber strength the data show the average is 75,100 pounds per square inch with 47.1% between 75,000 and 90, 000 pounds.

Pfeiffenberger called attention to the uniformity of the new crop in grade, staple and micronaire and pointed out that this perhaps is one of the most uniform crops ever harvested

THE PARMER FARMER by W. H. Graham Jr.

January 12 is supposed to be the day that farmers will find out what the price support of their grain sorghum will be next year. Nearly everybody we talk with is betting on an increase, and there is an overwhelming amount of evidence on the national scene to support this contention.

The date we mention which is shortly after the first of the year is the day on which Secretary of Agriculture Benson is supposed to make public his findings "as of January 1." He will figure parity for corn for the first of the year, and reveal grain support prices on the 12th.

That's a day we all will watch with great anxiety. Everyone is keeping his fingers crossed for about a 10-cent increase. Here's hoping it jells.

One of the fellows we were talking with about this during the past few days was Bill Dollar of Lone Star Elevator. Although indications are so favorable for a price increase for next year's crop, Bill says as a warehouseman he can't notice much effect on the market at the present time.

We were under the impression that if grain buyers believed that prices were due for an increase in the not-too-distant future, they would lay in a store before the jump takes place.

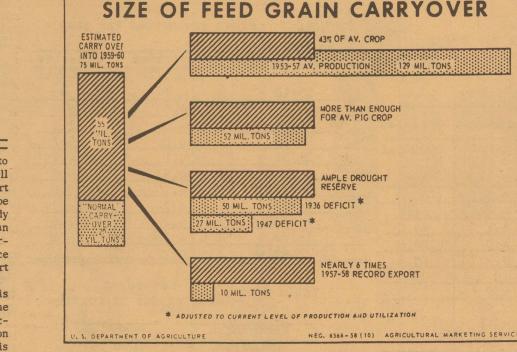

That's not the case with milo this winter, according to Bill. The price is pretty stable. He

says that most buyers are still maize" was and how it had been making purchases on a day-to- discovered that it could day basis.

Glenn Phillips of Farwell feels right down-trodden this week. His favorite brown mule has strayed off the place and can't be located. Glenn bought this and another mule from a Fort Sumner farm last fall to help get in his corn.

The corn borers have really been rough on the corn boys this year and Glenn says that with his two mules and a couple of braceros he can get in his crop cheaper than with a mechanical picker.

The team, a wagon, and a couple of hands can harvest the corn for about six dollars an acre, he says. Picker work usually runs about seven dollars an acre, and then there's a lot of corn left on the ground that the mules and hands have to gather up anyway, so the oldfashioned method may be the best, Glenn figures.

Incidentally, the farmer told us last year that the mules don't understand anything except Spanish. Might remember that if you run onto Glenn's stray. * * * *

While listening to NBC's 'News of the World" broadcast featuring Morgan Beatty the other evening, we were somewhat surprised that a special feature of the program was on "milo maize" supposedly grown and processed under scientific conditions in some Midwestern state. We think it was Indiana.

Anyway, the newscaster was going on no end about what a wonderful new product "milo

do everything corn could and so much more. Special note was made of industrial applications such as plastics and other non-farm

uses. Now, was it a mix-up in nomenclature we were listening to, or have the scientists really found out that our old favorite "milo maize" is slightly

terrific? We don't know the answer. but figure on reading the farm journals a little more closely to see if we can discover any clue connecting us with this interesting coincidence.

people today--both those who honestly and Mud Hog Pump Out Unit sincerely inquire into Farm Bureau's program for the betterment of agriculture, and L. L. Warren those who would seek to damage and tear 336 Ave. A EM4-1673 down the principles that Farm Bureau has Hereford, Texas always stood for.

As we end a farming year here in Parmer County, and look forward to what the future may have in store, we think that it is an especially good time to take stock of Farm Bureau and what it means to LOCAL farmers. This week the nation and Parmer County too, endorsed marketing quotas in the cotton referendum, which will mean at least one step toward a return to sanity in agriculture where the farmer has some choice in how he wants to run his business. Cotton farmers will have a choice of price protection and reduced acreage next year. The individual can decide for himself. That is the first real choice offered cotton farmers since 1953.

At the time of this writing, it appears very likely that the price of grain sorghum, Parmer County's biggest crop, is due to increase next year, due to the new farm program that places our milo in a support position comparable to its feeding value of corn. The amount of increase cannot be accurately forecast, but it should fall somewhere around 10 cents per hundredweight. This alone could mean upwards of an additional \$1 million to the farmers of this county.

BUREAU? This question is being asked by a lot of Farm Bureau does not get everything it seeks. Not all of our recommendations become a part of the farm program. But the fact remains that as the nation's most influential farm organization, Farm Bureau can and does do more to shape the destinies of its member farmers than any other group. Farm Bureau, because it represents such a wide cross-section of agriculture in all of the 48 states, seeks a farm program

but farming as a whole. Your Parmer County Farm Bureau, though sometimes the object of criticism by those who misunderstand or distort our objectives, is working for the betterment of local farming interests by means of programs based on sound economic and moral principles. We do not believe that a "pie in the sky" philosophy can long endure, and that any financial gains attained under such pretenses will be shortlived.

that will benefit not just isolated segments,

The coming year has every indication of being an improved one for Parmer County. farmers--at least so far as our main commodities are concerned. Your Parmer County Farm Bureau points out that this is the result of much thought, time and effort on the part of dedicated individuals working cooperatively and giving a unified voice through our farm organization.

We think it would be well to remember these things the next time someone asks you, or you ask yourself, "Why join Farm Bureau?"

PARMER COUNTY FARM BUREAU

Pinkston concludes.

watering for your land.

The value of wintertime watering has long been known. Evaporation is only about 15% compared to a summertime loss of as much as 70%. But, most important, wintertime watering eliminates the dangers that can come from early freezes

A case in point is the experience of J. T Pinkston of Slaton, Texas. Mr. Pinkston practices wintertime pre-watering on his cotton land. Many grimly recall the early freeze of 1957 which lowered cotton quality to a price averaging 17c per pound. That year, Mr. Pinkston's cotton brought an average of 32c per pound.

Says Mr. Pinkston, "In that 1957 season, I did my last watering back in the month of

sored recreation school, which was held at the Black Community House all day Tuesday, was well attended. It was under the direction of Mrs. Joe White of Oklahoma Lane, Mrs. John D. Sanders and Mrs. Joe Douglas of Friona.

'It's Fun To Be A Leader' was the theme of the school. Games, stunts, songs, and skits were taught to the group. Ideas were given for games, toys, and amusement for temporary or permanent shut-ins.

Each person attending took a sack lunch and members of the Black Home Demonstration Service employees. The farmer Club served coffee. Five clubs were represented.

"Agribusiness," Income Tax

Two recently released Extension Service publications, L-408, "An Inside Look At Texas' Agricultural Industry" and L-409, "Farm and Ranch Income Tax Management" should be of interest to many Texans.

In L-408, Extension Economist A. B. Wooten points out that agriculture contributes about one-third of the total in-

fought for a great principle-omist and C. H. Bates, extension the principle that free men farm management specialist, can govern themselves successfully. We believe in personal liberty and the dignity

of the individual. We are determined that our families shall have the opportunity to live in peace and safety, without fear or compulsion.

Our government is founded on the principle that we--all of us together--have the spirit and the ability to decide for ourselves the actions we want to take together in our joint interests and common welfare. This is a representative selfgovernment, the best government and the best society that men and women have ever enjoyed on earth. This is the kind of government and society that offers the greatest advantages in personal liberty and the greatest opportunities for

accomplishment. This is the form, the spirit, and the practice of the Soil Conservation District. We are people, working together in our communities and in our counties and in our watersheds to protect and improve this nation's most vital resources--soil and water.

We stand for local leadership in doing this job--a job that becomes more urgent every day.

A complete conservation plan on your farm will conserve your soil and water and at the proving soil fertility.

Mr. Farmer

Since Cotton Prices are now very close to the loan price, we feel that this is the time to put your cotton ino the Pool Sales. Most cotton in the grades SLIM' and lower has a good chance of selling on actual samples, and all of your light spotted cotton has a very good chance of selling. When we sell the cotton, the producer receives back all of the over the loan net profit that his individual bale brings.

For cotton that is already in the loan, either Form A or Form G loan, all that is necessary is to bring or send us the equities along with \$1.00 per bale.

Your local ginners can get in touch with us for you and get the full details if they do not already have them.

We are organized to help the producers realize more money from West Texas Cotton.

a year 'round GIFT!

Give Your Home

Gifts for the home mean gifts for the family ... something everyone - Mom, Dad, sis and brother - can enjoy and benefit by . . . an electric dishwasher, electric yard lights, a new stereo hi-fi, a colored TV set. There's a host of electrical gifts, too, more on the personal side: electric razors, electric hair dryers, electric trains, electric griddles, waffle irons, toasters, coffeemakers — the list is endless. Electric gifts last for years, are always in good taste with never a worry about sizes or colors.
