\$1.50 PER YEAR

TEXAS

By WILL H. MAYES, Austin.

PANHANDLE PROSPERITY — The best evidence of the prosperity of a people is their improved living conditions. That is why President F. M. Butler of the Panhandle Bankers' association, in calling attention to the development of that section of Texas, placed emphasis on the railway mileage recently built, natural gas extensions throughout the territory, improved roads, new towns, sprucing up new churches, new school buildings everywhere, better houses in both town and country, improved hospital facilities, and other things for which poverty-stricken people do not spend money. He spoke of the dairy industry as a comparatively new branch of farming for that section that is adding to the wealth of the country. "What has all this to do with a bankers' convention?" he stated by Mr. Butler, when the people prosper, the banks also prosper, and consequently the banks in a healthy condition.

POWER COMPANY EXPANDED — The Texas-Louisiana Power and Light Company has purchased from the North Texas Coach company, with the approval of the railroad commission, the Fort Worth-Wichita Falls Suburline. The public is beginning to wonder just where a halt may be called in the rights of power and light corporations to acquire and control transportation on the state highways.

DIVERSIFIED SHIPMENTS — That Texas is extensively diversifying its farming is shown in the earliest shipments for almost any day. The latest daily report shows the following: 138 cars tomatoes, 49 potatoes, 4 water melons, 3 onions, 5 cucumbers, 2 carrots, 4 cabbage, 2 cantaloupe, 2 mixed shipments. Texas is just out of the berry shipping season; the cabbage and onion crops are about marketed. Tomato shipments will soon be over; but melons, cantaloupe and peach shipments will follow quickly and rapidly. Every day is a big marketing day in Texas.

SCHOOL ARCHITECTURE — State Superintendent Marrs has announced that with the opening of the next scholastic year, the state department of education will have a division of school architecture to render free service to the smaller school districts. He says that this service has been made possible for three years through the generosity of the general education board of New York City, and at the end of that time he hopes to so prove its worth that the legislature will take over the division.

COTILLA CANTELOUPES — Cotilla is proud of its cantaloupes and sends them out in nice paper wrappers to show where they are grown. The wrappers seldom reach the consumers, but are torn away by the dealer. Most shippers of such products are now using rubber stamps or branding iron to put the name or trade mark directly on the rind of the melons.

TEXAS BUILDING GROWTH — Last year was regarded as a banner building year in Texas, but the first five months of 1928 was 9 per cent above that of 1927. The total new construction in June 1928 was \$102,078,000. More interesting than the totals is the fact that 32 per cent was for residences and 21 per cent for industrial projects, while only 15 per cent was for commercial buildings. The people are building good homes. Building in 1928 was 43 per cent above that of April last year and May construction work was 24 per cent above that of May 1927.

JUNIOR COLLEGES. — Occasionally some one gets into the news with the statement that the small college is about a thing of the past and is being absorbed by the large schools. A study of small colleges does not substantiate this statement. The small colleges that are failing are those that are trying to give university courses and are not satisfied to do small college work. University instruction comes high and can not be given to advantage in small schools. These small schools are going to have to limit their efforts to junior college work and leave higher instruction to those better equipped to give it. The Lutheran College at Seguin announces that it has started on a \$150,000 building program. Buildings are being constructed for the Littlefield College. Other junior colleges throughout the state are showing growth and stability.

INVESTMENT BUILDS TOWNS — At Waco, Jesse Jones told the chamber of commerce that the way to build a town is to make investments in it—investments of your money and your time in such ways as will help others while it is helping yourself.

FARM BLOC OVERWHELMED 3 TO 1

Cream Route to Have Ice Truck

Two or Three Trips Weekly to Be Made to Supply Farmer Patrons; Change to Effect City Delivery

L. M. Browning, of Moran, who will be charged for the ice, but it is our expectation to keep the price practically the same as in Cisco. "One of the trucks used in the city service will be put on this route. A new truck will be placed in the city service on D avenue. Since the adoption of the new parking regulations the city has requested that a truck be used to deliver ice in the business district, Moran. "I believe will be more satisfactory. O. J. Tunnell, manager of the ice plant, will leave this evening for Dallas for the new truck, which will take the place of the mule-drawn ice wagon now operated on D avenue. "The action of the West Texas Utilities Co. in putting on this ice truck will be a cooperation that will be greatly appreciated by the patrons on the cream route and the chamber of commerce. The installation of a motor truck for delivery of ice on D avenue also is expected to prove more satisfactory.

Telephone Lines Out of Cisco Are Being Rerouted to Afford Better Service to Near Towns

EYES OF TWO MEN INJURED IN ACCIDENTS

Two crews of about 30 men are now at work building and rerouting the telephone lines out of Cisco. These crews have been making headquarters here for the past ten days and will probably finish the work out of Cisco in the next two weeks, when they will move headquarters further west, according to Phillip Pettit, district manager of the Southwestern Bell Telephone Co. "One crew has just completed the work of installing the new two-number circuit between Cisco and Breckenridge, and this circuit is coming into general use. Many are calling Breckenridge by number now about the same as local calls," Pettit said. "Cisco people are finding the two-number circuit a great convenience and a money saver, as the service is much cheaper when used than the former method of calling long distance. "Another crew is rerouting the American Telephone & Telegraph line west on the Scranton highway, which will intercept the line at Fort Worth, serving all intermediate towns. This line formerly connected with the Southwestern lines at the cemetery, and rerouting along the Scranton road is to relieve the congestion of the Southwestern in Cisco. It is my belief that it will not be a great while before Cisco is provided with a toll cable into Fort Worth, serving all intermediate towns. We may not get it this year but it will have to come sooner or later. "The company is rerouting and rebuilding the line from Fort Worth to El Paso, will build new lines to serve new territory, and in doing so are avoiding the highways unless permanently designated. Poles set too close to the right-of-way will have to be moved should widening of the roads continue. Many of the Postal company's poles on the Bankhead highway will have to be reset when work begins increasing the width of that road. "We are now finishing the installation of additional cables in Cisco, which has relieved, or will shortly relieve all congested portions of the city."

CONSUMPTION OF COTTON IN MAY DROPPED

WASHINGTON, June 14. — The census bureau's report today showed that 577,710 bales of cotton were consumed during May, compared with 629,948 in May a year ago.

MARINE FLIER HONORED

His country's highest tribute was paid to Lieutenant C. Frank Schmidt, U. S. M. C., when President Coolidge pinned upon his breast the Congressional Medal of Honor. The courageous pilot evacuated eighteen wounded marines from a narrow street in Quibah, Nicaragua, landing and taking off under a withering fire from Sandine's insurgents.

Contract for Cisco Hotel Is Let; Work Starts Next Week

"Contract for constructing Cisco hotel has been let to Bellow-Maclay Construction Co. Work will start middle of next week." The above is the message received from William C. Witt, president of the Cisco Hotel Co., by Guy Dabney Thursday morning. A few minutes previous to the arrival of this telegram Dabney held a phone conversation with Witt, who stated that he had not been informed just when the contractors would begin work, but that it would be by the middle of the week, as the telegram stated. Witt said that he would arrive in Cisco Wednesday.

CISCO TOLD TO SHOW INTEREST IN AIR MAIL

If Cisco is really interested in the air mail service and hopes to be made a stopping point on some future route, it must show an interest in the present air mail service. That was the message of Charles B. Braun, Dallas, division traffic manager of the National Air Transport, Inc., in reply to a letter from J. E. T. Peters, secretary of the chamber of commerce, lodging a complaint against unsatisfactory air mail connections at Fort Worth. Braun called attention to the fact that the eastbound T. & P. train leaving Cisco at 2:40 p. m. makes direct connection with the mail plane leaving Fort Worth for Chicago and connecting with planes to other parts of the country. The train schedule was changed last Sunday. Braun also politely reprimanded Cisco for its failure to observe air mail week recently. His letter in part was as follows: "If you are really ambitious of getting Cisco as a stopping point on any future air mail line your city will have to show an interest in the present air mail service. This is concrete and tangible. Promises to do something for a direct line are intangible. A neighboring city of Cisco staged a program in its luncheon club during air mail week, and featured a full page advertisement in the local paper urging the citizens to support the air mail service. I leave it to you which will receive the first attention and stands the best chance."

WEATHER — West Texas: Tonight and Friday generally fair.

HOOVER WANTS WESTERN DRY RUNNING MATE

KANSAS CITY, June 14.—Tentative decision by Herbert Hoover's high command to name a dry from west of the Alleghenies as his running mate and a sudden boom for Senator Simeon D. Fess, Ohio, were outstanding developments this morning of the Republican national convention. The field apparently has narrowed to Fess, Illinois, and Vice President Dawes, Ohio. The latter is believed less likely acceptable since opposition to him has developed in both Hoover and anti-Hoover camps.

CONVENTION CITY HOLDUP NETS \$20,000

KANSAS CITY, June 14.—While visitors and delegates were en route to the convention hall today, bandits staged a holdup of the Hour Trust Co. in the downtown section, shot and seriously wounded Policeman Durrell Capshaw, a girl and two others, including a traffic policeman, and secured between \$20,000 and \$30,000 and escaped.

LARGE CROWD EXPECTED TO HEAR BLANTON

A large crowd is expected to hear Congressman Thomas L. Blanton on the occasion of his speech here Saturday night to address the people of the Cisco Country in the interest of his candidacy for United States senate. He will speak in the city hall at 8:30 o'clock. Congressman Blanton has many friends in Eastland county, who will be glad to know of his date to speak in Cisco.

PAUL DENISON LOSES APPEAL OF SENTENCE

The case of Paul Denison, convicted of a statutory crime alleged a proprietor of a filling station at Gorman, was affirmed Wednesday by the court of criminal appeals. The case of Terry Johnson, convicted for a statutory crime alleged to have been committed on a girl living near Cisco, was reversed and remanded. Denison escaped after his alleged offense and was captured by Constable C. S. Looney, of Cisco. On conviction he was given a term of 15 years in the Texas penitentiary.

STUDENT IS DROWNED IN FERRY ACCIDENT ON GULF

PORT ARTHUR, June 14.—J. W. Hess, Jr., Elmira, N. Y., student at the Texas Co.'s school here, was drowned in a ferry accident here today.

Minority Report Rejected Over Warnings of Midwesterners and Brilliant Plea of Lafollette, Jr.

KANSAS CITY, June 14.—The fourth session of the Republican national convention recessed at 2:45 this afternoon until 7 o'clock tonight after overwhelmingly rejecting the farm bloc minority report on the party platform. The vote was 817 to 267 against adoption. Before adjournment Senator George H. Moses announced that nomination of candidates for the presidency would be made tonight. "Fighting Bob, Jr." Stirs Fire. KANSAS CITY, June 14.—The young cub of an old lion came back today to plague a Republican national convention and provided the most colorful incident in the rather drab ensemble to date. The youthful Senator Bob LaFollette, handsome, boyish but with the flair for fire oratory that reminded older delegates of the days when Bob's father used to raise Cain at these gatherings, presented the LaFollette platform and made a most vigorous speech supporting it. When he ended they cutted him good naturedly and voted his platform down in an avalanche of noes. Despite this they applauded his audacity, oratorical ability and sincerity so much that he held them in rapt attention, such as no other previous speaker could command. Even such redoubtable opponents Mellon and William M. Butler joined in the storm of applause that beat against the young senator's ears as he made his way back to the Wisconsin delegation. LaFollette reminded the delegates that while they laughed at the original "Wisconsin program" of 1908, 32 of its 35 planks were since fought out in congress and enacted into law. Following LaFollette, Earl C. Smith, president of the Illinois Agricultural association, took the platform to move a substitute plank for that read by Senator Smoot, chairman of the resolutions committee, and agreed upon by the majority. Smith declared the corn belt couldn't accept the platform farm plank because "it is silent on the effective control of surpluses." Smith added: "The minority report is an endorsement of the Republican majority in house and senate." He painted the farmers' condition as "chaotic" and declared "We demand equality and we must have it." Frank Murphy, Minnesota farmer and lawyer, followed Smith with another impassioned appeal for farm relief. He said: "Folks, the McNary-Haugen bill is the issue within the party and you had better take it seriously. You cannot hold the farmers any more by platform pledges. The pledge presented here by the majority is a weak repetition of the pledge made in Cleveland in 1924." Murphy closed with the ominous warning "If the Republican party, the party of protection, cannot protect the farmer, it doesn't deserve to live."

FORMER CISCOAN READS AMERICAN EACH WEEK

Otto S. Kinsey, formerly of Cisco, but now living in Houston, keeps informed of the happenings in his former home by reading the American and Roundup each week. In remitting for past due subscription Kinsey says: "I haven't missed an issue of the American and Roundup and enjoy every issue of the paper, which is getting better every week."

COL. STEWART IS ACQUITTED OF CONTEMPT

WASHINGTON, June 14.—Col. Robert W. Stewart, chairman of the board of directors of the Standard Oil Co. of Indiana, today was found not guilty of contempt of the senate by a jury in the District of Columbia supreme court.

NOTED ENGLISH SUFFRAGIST OF PRE-WAR DEAD

LONDON, June 14.—Mrs. Emmeline Parkhurst, noted English suffragist who secured world prominence by her militant activities in the days preceding the World War, died here today from an internal disorder.

BORAH HOPES DEMOS WILL CHOOSE REED

KANSAS CITY, June 14.—Senator James A. Reed is the choice of Senator William Borah, Idaho Republican, for the Democratic nomination for president. Discussing the Democratic race, Borah said: "I'm sorry to see it's going to be Al Smith because I'd like to see Jim Reed get it."

Her Toque in Ring

Here is a smiling miss from West Virginia, Marie Louise Montague, who has thrown her smart, close-fitting toque right out in the ring with Governor Smith's famous brown derby. She's seeking the Democratic nomination for the presidency, with the separation of church and state as her main platform plank.

CHAUTAQUA GUARANTORS MEET SATURDAY MORNING

A meeting is called for Saturday morning at 10 o'clock at the chamber of commerce of all chautauqua guarantors and those having tickets for sale who are expected to make a report of the tickets sold for the chautauqua, beginning here June 23.

CHILD'S TONSILS REMOVED

Mr. and Mrs. S. M. Eubanks, of Putnam, brought their little daughter to Cisco this morning where she underwent an operation for the removal of her tonsils. The little girl was doing fine when the parents left for home. James McKelvain is reported on the sick list.

Ramon Hines of Tulsa, Okla., was a visitor in the city the first of the week.

\$1.50 PER YEAR

DAIRYING INTEREST HERE IS GROWING STEADILY

Daily Haul on Sweet Cream Route Reaches 300 Pounds; Separators Bought by Prospective Patrons

Interest in dairying around Cisco continues to grow, this fact being well evidenced by the constant increase in the number of patrons and the amount of sweet cream being brought in by the sweet cream truck being operated daily by Paul Weiser. The average daily haul of sweet cream of last week was approximately 260 pounds, while the average for the present week will run around 300 pounds, the highest day's production being 322 pounds. The marked increase in production is due in part to a recent change when Shady Grove, Pleasant Hill and Awell communities were placed on the route.

New patrons of the route are U. G. Kinard, N. S. Kinard, F. Hill, B. F. Trott, H. H. Black, G. Lanier. Several others are purchasing separators in the near future with a view to patronizing the route.

Despite the prevalent hot weather, cream is coming in to the creamery in fine shape, with but few exceptions, according to T. F. Preston, owner and manager of the local concern. There are a few around the route who should take better care of their cream, he said.

Cream is coming in sour in a few cases due to mixing the night and morning cream before the morning cream is properly cooled. Souring is also caused in a few cases by the use of milk utensils, or a separator, that are not quite clean. A small amount of soured cream or milk left in utensils or separator from one day to the next furnishes a bacterial starter and causes souring. Extreme care should be exercised to see that all milking utensils and separators are very carefully cleaned with cold water and soap and then scalded daily.

A Cisco dairyman recently fired one of his helpers for milking with wet hands. While this may seem insignificant to the casual reader, attention to such details means a great deal toward success with cows. Many dairymen require that surplus dirt and hair be brushed from the cow's udder and hind-quarters, before milking and that the hands be dry in milking.

MORAN FOLKS IN FAVOR OF MILK PLANT

L. M. Browning, of Moran, was shopping in Cisco Tuesday. He incidentally mentioned the fact that Moran people were highly in favor of a milk plant at Cisco or some central point. His section, he says, would lend itself admirably to the dairying industry. They have good pasture land and their soil grows feed well. They have good roads all over the country between here and Moran.

Cotton is being chopped and is looking fine. Corn and maize are making good growth. Early grain was injured by cold and dry weather, but late grain will show a much better yield. Cattle are all fat from the grass resulting from the late spring rains.

Tunney thinks that pugilism should be classed as one of the major arts, but we are disposed to regard it merely as one of the major industries.—Charlotte News.

Pleasant Hill, Word, Shady Grove to Hold Joint Community Fair on Sept. 13; Committees Are Chosen

A community fair meeting was held at the Shady Grove community council Saturday night. The council was well attended by people from Pleasant Hill, Word and Shady Grove communities. President O. P. Weiser presided. It was decided to hold the community fair at Pleasant Hill school house Thursday, September 13. Exhibitors were requested to have all material in place by 10 a. m., and to leave it there until after the night performance except in case of necessity.

Much interest was manifested in the second community fair. Mention was made of the great success of the fair held last year and Henry Stroebel urged that right now was a good time to begin saving material for exhibition. Among other things he will have an exhibit of sweet clover which he is growing success-

fully on his farm. W. J. Poe stated that he was selecting his Irish potatoes which were grown from certified seed for the exhibit. Attention was called to the necessity of making selections of bundle wheat and oats at this time, owing to possible damage in the shock.

It was unanimously agreed to again take a community exhibit to the county fair. The community exhibit last year won second place at the Eastland show. Other groups are warned that these people will be strong contenders for first money in the same class this year.

County Agent Patterson was present, assisted with the plans and explained the status of Eastland county in the state fair \$10,000 development contest. As explained the state fair at Dallas is giving \$10,000 to the counties making the highest

total score on exhibits over a period of five years. Boys' club exhibits count 25 per cent, girls' club exhibit 50 per cent in the scoring. Eastland county now stands sixth in this contest and the premium money for sixth place is \$500, but \$1,000 for fifth place and Eastland county workers are determined to get into the \$1,000 money with the 1928 exhibit. The expense of the county exhibit at Dallas is borne equally by the various chambers of commerce of the county. This is to be the third year of this contest.

Officials and committees for the community fair were chosen as follows:

W. J. Poe, superintendent; Miss Willie Word, superintendent women's work; John McKinney, secretary.

Clinic Committee—Miss Alice Bacon, chairman; Miss Dora Wende, Miss Velma Hill.

Thurman, Went Word, Edgar Altom.

Poultry—Charlie Wende, Ike Ramsey, John McKinney.

Livestock—U. G. Kinard, Floyd Thurman, A. C. Poe, Lee Lieskie.

Livestock Products—Mrs. Henry Stroebel, Mrs. B. F. Trott, Mrs. John McKinney, Mrs. Minnie Burson.

Plain Sewing—Mrs. Edgar Altom, Mrs. Charlie Wende, Mrs. Lee Lieskie, Mrs. I. E. Ramsey.

Cooking—Mrs. Henry Hines, Mrs. Oscar Reich, Miss Martha Stroebel, Mrs. J. T. Graves.

Arrangements—W. J. Poe, O. P. Weiser, Frank Trott, E. H. Benson.

Entertainment—E. H. Varnell, Floyd Thurman, A. C. Poe.

Concessions and Miscellaneous—Wayne Thurman, Glenn Kinard, Paul Wiser.

Educational—E. H. Varnell, Miss Ruth Ramey, J. C. Patterson.

Old Relics—Henry Stroebel, N.

S. Kinard, Mrs. J. C. Thurman, Mrs. Oscar Weiser.

Fancy Sewing—Miss Lila Hill, Miss Freda Stroebel, Miss Luda Wende, Miss Madeline Hooker, Miss Mattie Burson.

Canning—Mrs. W. J. Poe, Mrs. U. G. Kinard, Mrs. Charlie Wende, Mrs. L. W. Tucker.

First named on each committee is chairman.

At a meeting of the Scranton

community council Friday night it was decided to hold the Scranton-East Horn community fair at Scranton Friday, September 14. Announcement will be made soon of the committee selected to direct this community fair.

Few Subscriptions May Be Margin to Win Big Prizes

Workers in Circulation Drive Are So Evenly Bunched in Points That Any One May Still Win Best Prizes

A few subscriptions secured this week are going to run up many points for the workers who secure them in the race for the most points in the Cisco Daily News and the Weekly American and Roundup country wide subscription drive that will win the Chevrolet cars, and all of the other valuable prizes that are to be awarded at the close of the drive.

It is almost unbelievable that the standings of the workers can be so nearly even as they are at this time. There is only a small margin in the difference of points of the leaders. Every subscription to the Weekly American and Roundup for one year, this week at the low subscription price of \$1.50 will net the worker 1,275,000 points.

Subscriptions to the Daily News with the Weekly American for one year, \$5, will net the worker 1,475,000 points and the amount will count on next week's offer. There will be another prize ballot offer next week.

There has never been offered such a wonderful opportunity to workers, to win a car or some other valuable prize, for the most points secured with subscriptions and the free coupons that go in the mail edition every day. The workers who can realize the excellent chance they have will make the greatest effort this week to secure subscriptions and secure every coupon possible. The offer for points for subscriptions this week closes at eleven o'clock Saturday night.

The workers who will wage a fight Saturday for subscriptions will no doubt be the most successful. Subscriptions secured late Saturday night can be mailed or brought to the News office Monday and they will count on the high points offered this week.

by James Flournoy, owner, that will improve the footing on that side of the 600 block on D avenue. This building is now occupied by the B. & J. Sales Co., but was originally used as a garage, and a driveway connected the building with the street, and a sag in the walk permitted water to stand after rains. The driveway and the remainder of the walk is being builded even with the connecting sections of the concrete, and will afford perfectly dry footing at all times.

Father Forgive Them

"Father, forgive them, for they know not what they do."

The wonder of it! Love so marvelous that the moment when His flesh was torn and His body broken, He could pray for forgiveness for those who were crucifying Him!

When man has sinned, and after his sin has gone beyond his reach and he has awakened to the realization that he has sent out into the world an evil force whose damnable power he can never call back, what courage it gives him to hear that matchless expression of love, the Son of Man praying for those who have nailed him to the cross! "Father, forgive them, for they know not what they do."

Look back at Calvary in the light of Easter's dawn. Those who crucified Him did not know what they were doing. The cross was built for His shame and death. It has become his throne. Hope springs eternal for sinning men when they hear Him say, "Father, forgive them."

God is ready to forgive your sin. Bring to the cross your humble and contrite heart. Let this season mean newness of life for you.

NOTICE, VISITORS!

Don't think that because you are away from home you are away from friends--there are many friendly churches in Cisco and Eastland county, all denominations. They extend to you a cordial invitation to attend their services.

News and Doings of Communities Surrounding Cisco

NIMROD

Mr. and Mrs. Oscar Harrel of Abilene were week end guests of Mr. and Mrs. Dan Fleming.

Miss May Miller was a visitor in Scranton Sunday.

Frigidaire household cabinets are artistically beautiful

Frigidaire's mechanical superiority is matched by the design of its cabinets. Beauty of line, proportion, finish and coloring combine to make Frigidaires strikingly beautiful. The fact that in household models all mechanical parts are completely enclosed, that the smooth, gleaming exterior surface is as easily cleaned as a china plate, that there is nothing to catch dust, grease or dirt, is thoroughly appreciated by any woman. Frigidaire's beauty and clean appearance is one of the great factors in making it the choice of home owners. Today Frigidaire is offered in Tu-Tone porcelain-enameled models, fitted with beautifully etched, satin-finish hardware of new design. Other models are offered in Duco. All fit perfectly into the decorative scheme of the modern kitchen.

The combination of many factors have made Frigidaire the choice of more buyers than all other electric refrigerators combined

- Frigidaire food shelves are at a convenient, comfortable height
- Frigidaire is the powerful automatic refrigerator
- Frigidaire is economical in the use of current
- Frigidaire is quiet
- Frigidaire is adaptable to every home and commercial use
- Frigidaire is a Product of General Motors
- Frigidaire is low in price

Mrs. J. H. Erwin, who is spending the summer with her daughter at Long Beach, Cal., writes the American and Roundup that she is having a most delightful visit on the West coast, visiting the several beach resorts and other places of interest, including Los Angeles, Hollywood and the motion picture studios.

Varied Program Arranged for Big Leuders Baptist Encampment July 11 to 22; Everything in Readiness

DRINK BILL OF GREAT BRITAIN SHOWS SLUMP

LONDON, June 14. — Great Britain's drink bill gets less and less every year. Money expended on alcoholic beverages during 1927 totalled \$1,494,000,000, a decrease of \$12,500,000, according to statistics issued by the United Kingdom Alliance, the country's chief prohibition organization.

George M. Wilson, political secretary of the Alliance, declares in presenting the statistics that, in view of the fact that wages on the average were higher than during 1926, it would have been correct to assume that beer consumption would have been correspondingly greater.

Experts are divided on the question whether the decrease in beer consumption means that the British worker is tending toward a mild form of self-prohibition, or whether the present high price of this beverage places it partly out of the reach of many wage earners.

Train Schedule

RAILROAD TIME TABLE M.-K.-T. 8:38, Southbound ... 9:00 a. m. 9:36, Southbound ... 12:05 a. m. 9:25, Northbound ... 2:25 a. m. 9:37, Northbound ... 2:35 p. m.

nificent theaters. Then there are the beautiful parks, Pershing square across from the Biltmore hotel, with the huge fountain in the center, where can be seen a bunch of hard luck sights. But on the whole Los Angeles is a beautiful city, and one can appreciate the claim of these people to that place being a 'city of dreams.'

Movies Form Topic For Church Circle

The South Circle of the Methodist Missionary society met Tuesday with Mrs. W. H. Hurd on Twelfth street. The meeting was opened by singing "Savior Pilot Me" and prayer by Mrs. J. M. Lane. The scripture lesson was taken from the First Psalm, and the following program was given: "Mention some of the things that may be seen in motion pictures in your town," read by Mrs. G. P. Rainbolt.

Last year the Leuders Baptist encampment was the largest attended of any encampment in the South. It is better equipped than most encampments. The grounds are well watered and lighted. The North Fork of the Brazos affords ample opportunity for fishing and swimming.

LAKE CISCO TO HAVE 'FATHER, SON' PROGRAM

J. S. Law, swimming director of Lake Cisco Amusement Co., announces a Father and Son program for Sunday, between the hours of 1 and 2 o'clock p. m. All fathers, when accompanied by a son's paid admission, will be admitted to the swimming pool free.

Experts are divided on the question whether the decrease in beer consumption means that the British worker is tending toward a mild form of self-prohibition, or whether the present high price of this beverage places it partly out of the reach of many wage earners.

In recent years many attempts have been made to launch big prohibition drives in this country, with mediocre success. In Scotland many districts have a sort of semi-prohibition and restriction of alcoholic consumption, but this restriction is said to be not moving the boom it was hoped it would.

STYLE HINTS

By ALICE LANGEIER International News Service Staff Correspondent.

GLITTERING TRIMMING MAKES PARIS SHINE

PARIS, June 14.—Paris is all aglitter at present. Everywhere there is the gleam and sheen of jewels, precious or otherwise. To be fashionable, one must be as brilliant as the sunshine, which every fair woman is hoping to see one of these spring days.

There are rings of enormous size, bracelets of massive and animal design and necklaces twisted into unusual shapes. Even Madame's heels come in for a bit of glitter. The newest fashion is to have the heel of the silk stocking picked out in tiny diamond or pearl beads.

W. T. C. C. PLANS FOR BIG MEET NEARLY MADE

PORT WORTH, June 14.—Arrangements are about complete for the annual meeting of the West Texas chamber of commerce convention here June 18, 19 and 20. Indications point to the greatest gathering in the history of the organization.

Well Gauging 2,750,000 Feet of Gas and Another of 1,750,000 Forecast New Big Pool Near Cross Plains

CROSS PLAINS, June 14.—With one well having been completed gauging 2,750,000 feet of gas and spraying 29 barrels of oil daily before being drilled into salt water, and with a second one located one mile northeast gauging 1,500,000 feet of gas, the finding of a new pool seven miles northeast of Cross Plains is apparent within the near future.

While shut down awaiting orders the J. Stubbiefield No. 1 being drilled by O. V. Goldrick, Fisher Oil company, and H. E. Clark blew itself in unexpectedly. Sand was touched at 1370 feet and drilled seven feet before being shut down. It is located on the J. Stubbiefield tract, Section 16, E. T. R. R. Company survey No. 4.

One mile southwest of this gaser the same parties completed a well on the Cade tract which actually gauged 2 and 3-4 million feet of gas and sprayed quite a bit of oil before going into salt water. Bennett & Smith are drilling at 600 feet offsetting the Cade well to the east. It is located 2440 feet from the north line and 2540 feet from the east line of S. C. Cade land.

On Scratches or Skin Abrasions

—an antiseptic should be used to prevent infection, insure quick healing. Therefore, remember to Use BOROZONE at Once! Borozone Liquid, a powerful antiseptic, cleanses cuts and wounds and kills germs. Borozone Powder applied after the liquid, hastens healing. Keep both handy.

Alameda and Staff Farmers Paid Well for Their Milk

New Route in Two Communities Pays Patrons \$600 Weekly; Has Grown to Ten Times Size When It Was Started

BANNER, June 14.—Six hundred dollars a week for 2,000 gallons, or approximately 16,000 pounds of milk. That is what the milk and cream route established a few months ago in the Alameda and Staff communities means to farmers and dairymen in those two communities, according to C. E. Shields, manager of the Banner Ice Cream company.

Today the route has grown to a volume that is 10 times what it was when it was started.

Where six or seven dairymen sold their products to the cream company when the route started, there are now 30 who each day put sweet cream or whole milk on the truck that makes the route each day.

Shields said the establishment of the route in the rural communities had meant more financially than any other thing that could have been done for the farmers.

Each week a check of approximately \$40 is paid to one dairyman in the Alameda section. The lowest check that is given to the farmers each week is \$5, which more than pays the grocery bill of the farmer.

An increase has been noted each

week since the route was established. A number of farmers have culled their stock, have sold the non-productive animals and have added purebred stock in their place.

In addition to handling the cream and whole milk from those two communities, the company is taking products from a number of farmers who bring their cream to the plant.

All of the products are being used in the Ranger plant, with the exception of sour cream, which is shipped to other points.

"I believe," Shields said, "that the establishment of the cream route in those two communities is the best thing that has occurred in the Ranger territory. It has brought a week going into a community, which had not experienced such a thing before. All of the farmers are enthusiastic. They are taking dairying and are planning to get thoroughbred stock and keep culling their animals."

Shields said that a number of residents of the Crossroads community has requested a route but that the road was in such poor condition in that section it would be impossible for one to be established at this time.

Taking of Dairy Cattle Census Begun by Chamber of Commerce; Borden Seeking Milk Plant Site

LIFE SENTENCE IS METED OUT TO LEE SMITH

BAIRD, June 14.—Lee Smith, West Texas cowpuncher and former deputy sheriff, was given a sentence of life imprisonment by a jury in the district court here Wednesday for his alleged complicity in connection with the shooting of two Mexicans at Stanton on December 31, last. It took the jury only a few hours to decide his fate.

Court attaches declared the jurors had stood ten to two for the death sentence but had agreed on the life term to break the deadlock.

Defense attorneys immediately gave notice of appeal. Three exceptions were filed. They asked that the verdict be set aside, especially on the ground that the court had erred in its failure to instruct the jury regarding the law of circumstantial evidence. It was also claimed that the jury was prejudiced.

Smith was indicted and charged with murder after alleged evidence had been offered that he had conspired to frame two Mexicans at Stanton to receive reward money offered by the Texas Bankers' association for dead bodies. He was tried first in Abilene, but the jury could not agree and was discharged. The case was transferred to Baird for the second hearing early in May.

WARDLAW NOT TO QUIT RACE, MANAGER SAYS

FORT WORTH, June 14.—Startled as malicious propaganda with the intention of injuring his chances in the governor's race a rumor to the effect that Louis J. Wardlaw would withdraw as a candidate has been given wide circulation, W. N. Waddell, Wardlaw's campaign manager, announced today.

"The rumor is absolutely without the slightest foundation and was started as an underhanded political trick," he said. "It is ridiculous on its face. Moody's incompetency had lost him a great portion of his strength before the Beaumont convention and his action at Beaumont alienated a vast majority of his remaining supporters who believe in honesty and straight dealing.

"This strength has been going to Wardlaw, who has been making an active campaign and winning friends by the thousands through his speeches. He has had excellent crowds and they are constantly growing.

"Hundreds of letters are pouring into his headquarters every week, signed by former Moody supporters who are utterly disgusted with his double dealing.

"Wardlaw is in this race to the end and expects to win without resorting to such underhand tactics as this."

Following up the motion of the directors of the chamber of commerce Tuesday night for expediting the taking of the census of the dairy cows in the Cisco Country, a meeting of the dairy committee was held Wednesday when it was definitely decided to get in the field at once and complete the census. Thursday morning volunteers were in the field, and for a radius of 15 miles in the Cisco Country, these enumerators at work with blanks, visiting the farms, and all cows available for dairy purposes are being listed.

The committee believes the work will be practically complete by tonight or Friday. Letters had been previously sent out to the school trustees in the rural districts, but it was decided not to await these replies, but to get in the field and complete the work in the shortest time possible, and later continue the work outside of the radius prescribed.

R. Reece, agricultural agent of the Katy railroad, told the chamber directors of the development of the milk plant industry. He said he was in Cisco for the purpose of getting the accurate dairy resources of the Cisco Country at the instance of Katy officials, who have been working out plans for dairy development in the country along the Katy line, but was not aware of the progress already made by Cisco to this end.

"The Borden people contemplate building another milk plant in Texas in the near future, and the officials desire that this plant be located on the Katy road, and I have already made preliminary surveys of other towns on the line," Reece said. "It is necessary that this survey be completed at the earliest possible date. While I would not arouse any glowing anticipation of Cisco by saying that this town has a better chance than others of securing this plant, yet plants have been located at places where dairy prospects were not as good as you have here. When the cheese plant was located in Round Rock there were very few dairy cows to be seen, the manager of the plant told me, and the first day's receipts of milk were only 500 pounds of whole milk. Now that plant is getting all the milk its capacity can consume, 14,000 pounds daily. The Wichita Falls plant started with 20,000 pounds, and is now taking 30,000 pounds. If the people are really interested, the shortage of dairy cattle can be easily overcome. But the information the Borden people want is what Cisco has at this time, and the sooner this information is secured the better Cisco's chances will be to secure a milk plant."

Fifteen-Year Goitre Removed, Texas Woman Wants Others To Know Her Experience With Home Treatment.

Mrs. N. A. Holman, Honeygrove, Tex., says in her own home paper, the Honeygrove Signal, "My goitre bothered me terribly. Had such pains in my head and eyes. Had dizzy and choking spells. Two different treatments did no good. Then commenced to use Sorbol. Quadruple the colorless liquid. I found my joy when in about a week the goitre began to disappear. Now after two months the goitre with its disagreeable symptoms is gone. I will be glad to tell or write my full experience to anyone.

It is not expensive and is easy to use. Sold by all drug stores. For more information write Sorbol Company, Mechanicsburg, Ohio. Sold by all druggists.

locally at Dean Drug Co.

UTILITY FIRMS MAKE FRIENDS BY BANQUETS

WASHINGTON, June 14.—William C. Grant, director of the Texas Public Service Information Bureau, revealed before the federal trade commission's investigation of the "power trust" that he used his friendship among newspaper men of Texas to disseminate propaganda.

Under cross examination Grant said that he had written to the Texas utilities corporations pointing out his effectiveness in "getting information into the newspapers." His bureau is supported by a \$16,000,000 annual contribution from the utilities of Texas.

Grant said his bureau often entertained newspaper men at banquets. He asserted that he considered his methods legitimate when the information given out was accurate.

Grant wrote some editorials in a weekly news bulletin he issued and prepared several editorials, which were published, at the request of a Dallas editor.

A letter was introduced to show that Grant submitted copies of editorials he was writing for a Dallas newspaper to the Dallas Gas Company for inspection before they were published.

From May to September, 1926, Texas newspapers carried 1,670 columns of public utilities information.

Television Demonstration Being Arranged by Southwestern Bell for Silver Screen for Ciscoans

Phillip Pettit, district manager of the Southwestern Bell Telephone Co., is arranging to give the people of Cisco a demonstration on the silver screen of the workings and operation of the new invention, television.

"I am planning to show the operations of television at the Palace theatre at an early date," Pettit said. "We have several reels that will be shown, notice of which will be given as soon as we are in readiness to show this picture. I believe this invention will eventually come into general use. Its practicability has already been proven, and in the near future it will not be rare to call up the party with whom you wish to converse and look them in the face while you are carrying on the conversation. Television and the radio are two of the greatest inventions of modern times, and each is destined to grow in popularity.

"The picturizing of this invention, its workings, showing all the mechanism for its operation, will be thrown on the screen and explanations given in short, simple descriptions. When this picture is shown it will be a revelation to the people of Cisco.

"Another forward step in modern inventions is the telephone typewriter, which typewrites all messages sent by this process just as does the telegraph printer. The message is typewritten just as sent at the other end of the wire, and will eliminate all possibility of misunderstanding which so often occurs in telephone messages. There are now 2,000 telephone typewriters in use in the United States, and as no far distant day this number will be largely increased to perhaps general use."

ALL VISITORS MAY WITNESS HOUSTON MEET

HOUSTON, June 14.—Houston is prepared to properly house and feed all visitors who attend the Democratic National convention, beginning June 26, and everyone will be given an opportunity to see the convention in action during official sessions.

This is the message that executives of the local arrangements committee are broadcasting to the country, giving definite assurance that no efforts will be spared to make the visit of all pleasant as well as educational.

"The hotel and housing committees have the situation well in hand with respect to housing the maximum number of visitors anticipated," declared Jesse H. Jones, chairman of the arrangements committee.

"It is our desire that all visitors be given an opportunity to witness the convention in session. With that purpose in mind we have constructed a huge promenade extending the entire breadth of the rear of the coliseum interior, elevated so that a clear view may be had of the entire arena, including the speaker's stand.

"Admission to the convention will be by ticket, but all tickets are free and will be distributed in Houston shortly before and during the convention. We wish we could give a seat ticket to all of our visitors—but that is impossible. However, our guests may rest assured that Houston is concerned about their welfare and that they will witness, if only for a short period, the official proceedings of the convention.

Irish Potatoes Are Found Banner Crop by Newcomer

Information of Club by Farmers and Planting of Five or Ten Acres Each to Attract Buyers, Idea of Meade

John N. Meade says Irish potatoes are making a banner crop in a year and farmers who have planted a good acreage are sitting on top of the world. Good prices and steady demand make it a banner crop.

Mr. Meade has not been in this part of the state very long, having come from East Texas where Irish potatoes are grown as a money crop and where the potato season is as live as the cotton marketing season is in good cotton sections.

Here, he says, every farmer plants five to fifteen acres of Irish potatoes each year. Since the soil is rather thin in most places, it is necessary to use commercial fertilizer, but the increased yield makes it entirely profitable. Farmers use regular potato diggers plow and children and other cheap labor are given employment in turning the potatoes in piles, ready to be loaded into wagons or trucks and carried to markets. Buyers come each season to see and ship in carload lots to other parts of the state. As the marketing season comes just after the close of schools, it does not interfere with child education as the raising of cotton and the other crops.

He thinks that if farmers here had formed a club and agreed to plant five or ten acres each, buyers would be attracted and they would get the crop at the railroad, bank or some other central point, saving cash on the spot. This would release many thousands of

D'LEON FARMER FINDS PEACHES PAY HIM WELL

Tom Vinson, of the DeLeon country, disposed of a truck load of early June peaches in Cisco Tuesday at rather fancy prices. These peaches were grown on his farm, south of DeLeon, where he has an orchard, consisting of peaches, apples, apricots, plums and berries of all kinds.

Mr. Vinson says that his part of Texas quit growing cotton many years ago and placed its faith in peanuts, hogs, fruit, water melons and other truck crops. Dairying is fast coming into favor and products of that nature are being stressed more and more each year. MILK IS BEING SHIPPED TO CREAMERIES AND MUCH PROSPERITY IS MANIFEST FROM THIS INDUSTRY.

DeLeon, he says, is becoming widely known as a melon center. Many carloads of extra high quality melons are shipped from there each year, in addition to the truck loads that are carried and sold to nearby towns, either in truck lots or retailed to consumers.

He thinks this kind of farming tends to build up the richness of the soil and from this standpoint is much superior to cotton farming, which impoverishes the soil, even if the crop could be grown despite the weevil.

Worth of Eastland Co. for Truck Garden Shown in Cabbage Grown on Farm of W. L. McCorcle, Nimrod

No section of Texas has anything on Eastland county as a truck growing country. Those who are wont to praise the products of the magic valley should look over some of the produce raised in the Cisco country. The adaptability of the Cisco country to growing truck of all kinds was demonstrated Wednesday when W. L. McCorcle, living in the Nimrod community, brought in a batch of products from his farm. He had chickens, butter, plums and cabbage. That which was most impressive was the cabbage. There were about 100 pounds, and it and other produce were sold soon after arriving in Cisco. The load brought McCorcle about \$10, not a large sum, but those who have noticed such matters observe that the farmer who brings in something to sell is the farmer who gets by.

The cabbage weighed three and four pounds to the head, and was sold for four cents per pound. But the quality of the cabbage was what attracted most attention, for it was all large, of a uniform size, and as firm and crisp as any brought to the Cisco markets. McCorcle said he had 1,000 cabbage plants, and while all were not yet mature, yet they would average of the same quality as those brought in.

Asked if the bugs injured his cabbage plants to any appreciable extent McCorcle said he was bothered very little with insects. "I always spray my plants early in the spring," he said, "and am not usually bothered after that."

He said he has only been in Eastland county about three years, coming here from Dardanelle, Ark., and buying the L. D. Stanford farm, one-half mile from Nimrod, containing 110 acres.

"I am planting a variety of crops, in fact I make it a point to plant most everything adapted to my land which I can market profitably or use to advantage," he said. "Yes, I will cultivate some cotton. I have 30 acres of cotton that is now being chopped and is looking fine. Am growing corn, peas, maize, sorghum and other forage crops, besides Irish and sweet potatoes. And I want

to say we are growing a fine crop of Irish potatoes. The yield promises to be fine this year, and they are about ready to harvest. No, I did not fertilize my Irish potatoes. I have only one-half acre in sweet potatoes, but expect to gather about 200 bushels. It is the fall rains that we have to depend upon for the big crop of sweet potatoes."

McCorcle was accompanied to town by three of his young sons, all bright and healthy youngsters. He said this was only half of the McCorcle boys, as he left three more, with one sister, at home to look after the mother and the things there.

SPARK PLUG TO ATTEND HOUSTON CONVENTION

HOUSTON, June 14.—Red Sublett, widely known cowboy clown and his peevish mule, Spark Plug, will be on hand during the con-

vention rodeo, June 26-30, according to a telegram received here.

Spark Plug has crossed the Atlantic on a tour and helped entertain in London, Paris and Dublin. Sublett is one of the best

known cowboy clowns and in addition is rated one of the best wild steer riders in the country.

News and Doings in Cisco Trade Territory

DOTHAN

Mr. and Mrs. Clifton Harris and children visited in Baird Sunday afternoon.

Mr. Oliver Kirk, of Benjamin, and his sister, Mrs. May Clark, were here.

Mrs. W. E. Crawford and children, of Cisco, visited Mr. and Mrs. F. Jones Sunday.

Earl Jeffries has returned home in Waco, where he has been attending Baylor university.

Miss Annie Jo Crumble, of Island, has been visiting Miss Belle Birt.

Miss Ona Brown, of Cisco, spent a week end with Miss Rozelle Egan.

Mr. and Mrs. Chester Allen and children visited Mr. and Mrs. B. J. Sims Sunday.

The party Friday night at the home of Mr. and Mrs. W. R. Hart was enjoyed by the young people.

Mr. Roy Farley spent a few days in the past week in Wink.

The Primitive Baptists had church here Saturday and Sunday. Revs. Charlie Richards and Peter preached.

ADMIRAL

Mr. and Mrs. O. L. Black and children visited in Baird Sunday afternoon.

Olin Jones, of Baird, was in Admiral Sunday.

Mr. and Mrs. Willis Frazier and son, Raymond, of Abilene, were here visiting relatives and friends Sunday.

Mr. and Mrs. John Shelton, of Putnam, were here Sunday.

Mr. and Mrs. D. L. Pearce, of Baird, visited Mrs. Pearce's parents, Mr. and Mrs. Clark Smith, Saturday night and Sunday.

Mac Bennett, of Abilene, has been visiting Jackie Street.

Clark Smith, who has been on the sick list for some time, is improving.

Louise Crutchfield, of Clyde, was in Admiral Sunday.

Walter Purvis, of Cisco, is visiting his sister, Mrs. Edgar Smith.

Mrs. Ruby Heslep, of Cross Plains, visited her parents, Mr. and Mrs. Joe Crutchfield, the first of the week.

Mr. Inez West of Harlingen, has been visiting her parents, Mr. and Mrs. Joe Crutchfield.

BEDFORD

The regular showers of the past month have put crops and gardens in splendid condition.

The ice cream supper Saturday night was not attended by as many as was anticipated.

Every one present enjoyed getting together community affair.

C. Carter, candidate for county school superintendent, was present, meeting old friends and making new ones.

Homer Smith has gone to Amarillo to assist in the singing of series of meetings being conducted by Rev. Ellis.

Earl Daniel says he has some fine cats which are making \$100 bushels per acre, which is good considering the dry crop.

Walter West visited his parents, Mr. and Mrs. T. T. Matthews the first of the week.

Mr. and Mrs. C. E. Spruile were here guests Sunday in Cisco of Mr. and Mrs. Keeter.

FRIENDSHIP

The farmers are busy cutting grain this week.

Miss Effie and Clifford Smith are on the sick list this week.

Mr. Marshall Fincher, of Kress, has been visiting his uncle, Mr. W. E. Harris, returned home Monday.

Mr. and Mrs. W. A. Thames, Mrs. Hitchens and grandsons, Wesley Latham and O. C. Allen, were visiting Mr. W. E. Harris and family Sunday afternoon.

Miss Delores and Bill Brandon spent Saturday night with Miss Besse and Hurshall Penn.

Mr. J. L. Smith and family attended the speaking at Cisco Friday night.

Mr. William Elam is reported on the sick list.

Misses Effie Smith, Leon and Eula, and Beula Harris attended the ball game at Dothan Sunday afternoon.

Mr. and Mrs. A. Fincher and little sons, of Cross Plains, were the guests of Mr. W. E. Harris and family Sunday.

Miss Dora Hammett was called to the bedside of her sister-in-law Monday who has a case of slow fever.

Miss Leon Harris has entered the circulation drive for the Cisco Daily. We wish her very much success.

Mrs. Mallie Brandon, Putnam, and Miss Susie Penn, were the guests of Mrs. Velzie Penn Saturday night.

Miss Abbie Jessup was visiting the Misses Harris's Sunday evening.

REICH

Little Euna Fay Callerman has been very sick for the past few days but is some better.

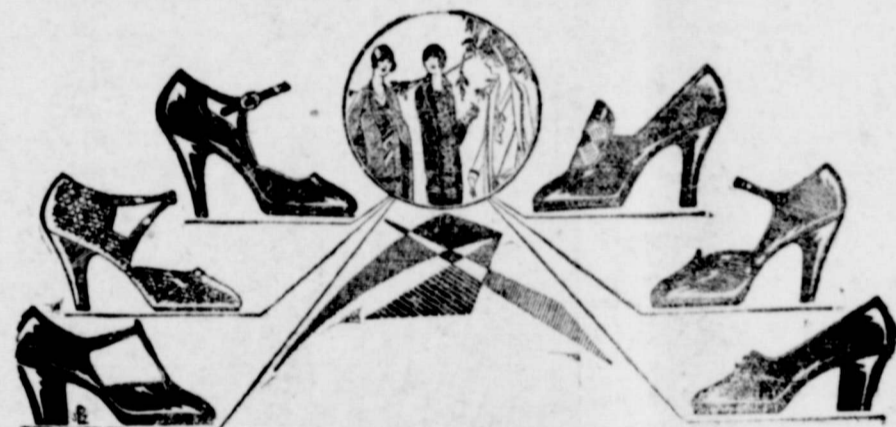

Robert Fannin, from Wink, has been visiting his wife and family.

Clarence Callerman's for a few days.

P. O. Schaefer has been very sick the last few days but is some better.

J. B. McConnell has a slight case of measles but is improving very nicely.

John Potter and family, from Cisco, visited his grandparent, Mr. Alvey, who has been sick with rheumatism, last Sunday evening.

RIGHT TO WED TO BE SOUGHT FOR TEACHERS

CHICAGO, June 14—If teachers marry, it's nobody's business but their own.

The American Federation of Teachers is going to support that contention, because in a dozen states wedding bells are interpreted by boards of education as a signal for resignation of a teacher.

Why the federation wants to know should orange blossoms be the end of a teacher's usefulness? Mer teachers, it points out, are permitted to marry, and it is considered their own business, but when women teachers marry, they are thrown into the discard in many states, and many individual cities and communities.

Mrs. Alice Hansen, president of the federation, has laid plans to fight test cases in several cities, to establish the right of the women teachers to marry and retain their positions.

At Coming Convention

Mrs. Helen Taft Manning, daughter of the former president, and dean of Bryn Mawr college, is one of the leading advocates of the women teachers in their fight to hold their jobs after marriage, according to Mrs. Hansen, and the two women will wage the battle together.

"The matter will be taken up vigorously at the coming convention of the national federation in Chicago," Mrs. Hansen said. "Protests against discharge of teachers who marry has come from all sections of the country."

"Men teachers may marry, and no one thinks anything about it. But when a woman teacher marries it seems to become a matter of public concern. This discrimination should be eliminated."

In other branches in which women workers are engaged it is pointed out, marriage has nothing to do with their jobs, or their advancement. Stenographers, bookkeepers, or women in a number of other vocations marry without suffering any financial loss, through losing their jobs.

Experienced Teachers

Experience in teaching increases the value to the public of a feminine teacher, Mrs. Manning maintains, and those teachers are married only after several years of service. Consequently, when a woman teacher marries the public loses an experienced ser-

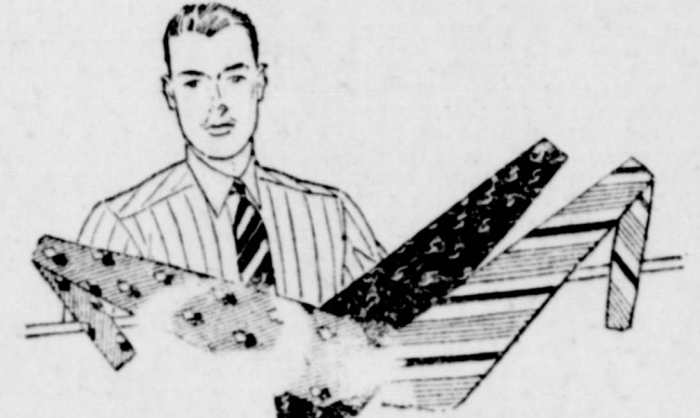

vant in cities where marriage is considered a bar.

A fight against the rule is being waged by Mrs. Manning in Newport, R. I., and other eastern cities now. More contests against the rule are planned in midwestern and Pacific coast states.

Sir Charles Hobbhouse says the United States senate functions with a minimum of friction, which makes it almost certain he regards the world war as a mere unpleasantness.—Nashville Banner.
