IT'S A MILK PLANT WE'RE AFTER BUT WE THANK YOU THE SAME, ALBANY; WE FEEL LIKE YOU DO

(From the Albany News.) We have been informed that the city of Cisco is now agitating the matter of building a one hundred thousand dollar creamery, and he it said, that we are never jealous of the progress of our sister cities. We hope that they will put this project over, as it will mean the encouragement of the dairy business all over this country it will furnish a market for cream. Not only will it benefit the city of Cisco, but all the towns around about, and we hope that they will put it over, as we have often said, it's our dream to see this part of the country, but more especially Shackelford county, one of the leading dairy counties of West Texas. We want to profit by the example of the state of Minnesota. Somewhere we have read that the dairy products of this state alone are over \$50,000,000. Why not Texas duplicate this? Why not make West Texas the greatest dairy country in America, we have the climatic conditions, we have the best wild grass in the world, we can raise all kinds of feed—Here's our hand Cisco, hope you will put it over.

Flagpole to Be Raised and Hall Dedicated by American Legion in All Day Ceremony Here July 25

With the objective of making it one of the biggest events of the year in West Texas, members of John William Butts post No. 123, American Legion, will stage their flagpole raising and dedication of Legion hall here July 25. This celebration will be held on the Legion grounds, former tourist park, north of the T. & P. tracks, and will be an all-day event, according to C. E. Yates, adjutant of the local post. These grounds will prove an ideal place for the celebration, being removed from the business part of town, yet within easy walking distance. Plenty of ice water will be supplied all day, and other refreshments will be provided.

CISCO MINISTER TO HOLD REVIVAL MEET AT BRONTE

Rev. Acker C. Miller, pastor of the First Baptist church, will leave this afternoon for Bronte, Texas, where he will conduct a series of meetings for the next two weeks. He will conduct the services this morning and others will preach at the church the ensuing two Sundays while he is absent.

LAMB ABLE TO BE OUT

I. J. Lamb, caretaker at the city hall, who has been convalescing at his home, 711 West Fourth street, since his operation for appendicitis was able to be down town a few hours Saturday. This is the first time he has been down in the business district in the past two months. However, it will be some time before he can resume his duties at the city hall.

HELEN WILLS AGAIN ENGLISH TENNIS CHAMP

WIMBLEDON, England, July 7.—Playing before a distinguished gallery, including the king and queen of England, Helen Wills, American girl, again won the women's championship in the British lawn tennis tournament this afternoon. She defeated the Spaniard, Senorita Ella de Alvarez, 6-2, 6-3.

SMITH'S FOES CALL MEETING TO FIGHT HIM

DALLAS, July 7.—Sounding a call to arms for "every Democrat who loves his state and wants to uphold the constitution," a number of prominent Texans issued a statement here today asking those opposed to the election of Al Smith of New York, Democratic presidential nominee, to meet in a mass meeting here July 17. A program looking toward a statewide campaign against Smith will be formulated.

GERMANS STAY IN AIR OVER 65 HOURS - RECORD

DESSAU, Germany, July 7.—After smashing the world's endurance flight record, held by Captain Arturo Ferrati and Major Carlo Del Prete, the German fliers Ristow and Zimmermann, landed tonight at 9:30 o'clock after having been in the air 65 hours and 20 minutes.

ROCKWELL PATTERSON IS WELL PLEASED WITH OUTLOOK

Judge Burette W. Patterson, candidate for associate justice of the eleventh court of civil appeals, at Eastland, came in last night from a busy week spent in the interest of his candidacy. Monday and Tuesday he was in Haskell county, Wednesday and Thursday he made a canvass of Jones county, and Friday and Saturday were spent meeting the voters of Stonefall county. On this tour, he made several speeches to good crowds and was given a most enthusiastic reception at each of his appointments. On his return home Judge Patterson stated that so far as he was able to determine the campaign was proceeding satisfactorily, and the outlook was most favorable in every part of the district he had visited.

SHALLOW FIELD MAY BE BROUGHT IN BY A. E. FREE

It is reported that A. E. Free, formerly operating in the Cisco fields is spudding in a 1700 foot test on the Lauderdale farm, one-half mile east of Curtis school house. The geologists' reports indicate the possibility that a good shallow field may be in that vicinity. The nearest production to this location is the Pioneer and Hillbush fields, five or six miles distant.

SILLY MERCY.

We are facing a strange condition in the United States. We are in an era of unequalled criminality, and along with it goes an attitude of unparalleled consideration for the criminal.

This is a period of weeping over the dilemmas of the devilish with scant sympathy for their victims. This is an age of protection instead of protection breaker. A scowling scow woman and five babies to his cell with flowers, candy and good money telegraphing him.

We seem to have got mercy. We somehow or ground and twisted about someone's wick being that must win as it is this soft, silly mercy law breaker snicker in his eyes as wolves like lambs, and to and thanks you kindly.

But what does that do to the folks who need protection? What does it do to the scot free where long term twelve months where twelve loose confirmed criminals.

No wonder we have murders as England. No wide reputation for being nations; we have earned it. Mercy is a beautiful thing else can be misapplied from sense. Every that does not mean that me discriminately. One can not to every merciful impulse.

To love mercy, to yield mercy where mercy commendable than to be miserably merciful. The mercy but it does not commendable. We are plainly told to love mercy and do justice where punishment is needed, no matter how sorry we may feel about it.

We are in a national state of mind where we do not need to worry about getting justice tempered with mercy. Our problem now is to get mercy tempered with justice.

THE MEXICAN ELECTION.

General Obregon is elected president of Mexico amid a chorus of "vivas." And by a remarkable majority, if you can call it that. The actual vote is said to have been about 100,000, which is not more than one in 15 of that country's voters. But one vote would have been a majority. He had no opposition. Wherefore this happy state of affairs? Is Mexico unanimous, as the United States was when it chose George Washington for the first president? Not exactly. There were two other candidates, General Serrano and General Gomez. But they grew impatient and started plotting a revolt last fall, and were removed from the contest by the summary process of execution. Disinterested bystanders could wish that there were real electoral contests in Mexico, peacefully and honestly conducted. That will come in time. For the present there seems to be a sort of benevolent see-saw dictatorship exercised under form of law by Obregon and Calles. Re-election was forbidden, by the constitution; but a constitutional afterthought adopted last year permits it after an interim. Obregon serves a term, and turns the presidency over to Calles, who serves a term and now turns it over to Obregon again, probably in hope of a similar good turn for himself next time. The two statesmen are right and left hand, and one hand washes the other. Let us not be over-critical. These are good men, who on the whole are serving their country better than usual and doing pretty well by other countries. This kind of arrangement may be as good as can be expected for the present. It may be a useful step in the evolution of a real Mexican democracy.

AIR FARES BY WEIGHT.

A passenger's weight is now limited to 175 pounds on the Brazilian air lines. Not that heavier people will be barred from aircraft, or subjected to any such treatment as that of Procrustes in the old Greek tale. But all flesh over the limit mentioned will be regarded as "excess baggage" and charged for accordingly. It is fair enough, too, when you

think it over. Weight is the big factor in air transportation. Here is fine propaganda for the slenderness already approved by fashion. But such a rule adopted in this country would give new impetus to dieting, cut down food consumption and make the farmer's lot harder.

A WOMAN PILOT.

Mrs. Phoebe F. Omie is the only woman piloting a plane in the 6,000-mile air tour for the Edsel Ford reliability trophy. She drives a diminutive "monocoupe," and made perfect scores in the first two flights of the test, those from Detroit to Indianapolis and from Indianapolis to St. Louis. One cannot help wishing Mrs. Omie continued success. If she comes through the long tour with a good record she will do as much to advance women's interest in aviation as any of the young women who have taken dangerous flights as passengers while skilled men piloted their planes.

THE CORPORATION AGE.

The Pennsylvania News, a railroad publication, commenting on the new plan of the Pennsylvania system to sell 350,000 shares of common stock at a favorable price to 125,000 employees, says: "The future of America is its corporation future. It is not a bond future nor a real estate future. The corporations will develop the real estate and build new cities. The corporation stockholders will draw the real dividends. America has definitely entered the corporation age. It is a product of America turning dominantly industrial." In a general way this is true enough. Yet the idea needn't be carried too far. Important as industrial corporations are, and profitable as it may be to hold stock in wisely managed corporations, there will remain other sound investment possibilities. Federal, state and municipal bonds, issued to pay for great public works, will always be good. And as for real estate—well, there was real estate before there were corporations, and there would still be real estate if a great political and economic catastrophe wiped every corporation out of existence. Civilization and wealth started from land and are inseparable from it. As Henry George used to quote with such gusto: "White parasols and elephants mad with pride are the fruit of a grant of land." So are corporations.

A GRACIOUS PROPOSAL.

The Deutsche Allgemeine Zeitung of Berlin, one of the most influential German newspapers, suggests that the German government give a pension to the widow of Floyd Bennett. He was the American aviator who lost his life by pneumonia while trying to rescue the German flyers from Greenland Island after their flight across the Atlantic. "Thanks would be on the lips of everyone in America," says the Zeitung, "and it would strengthen sympathy for Germany." That is true. It would be a gracious deed, and appreciated accordingly.

ADS AND ROAD MARKERS.

The Boston Post urges that something be done to check the nuisance of advertising signs along highways in imitation of road markers. Many advertisers have been copying the shape and lettering of the legitimate guide signs, often warning the automobilists to "Stop" for a hot dog or gas or some other commercial product. Not only are these signs ugly. They are dangerous because they lessen the efficiency of the authorized signs. A motorist who has been tricked by a couple of advertising signs may ignore a real warning. One of the things that attract the attention and arouse the approval of a person motoring in Ontario for the first time is the absence of ugly billboards and domineering ads along provincial highways. A very few have appeared, but they are likely to be held in check in Canada as they have not been generally in this country.

Indian in France who said: "Too much foolery and no shootery." Are we playing the game intelligently and fairly?

This, of course, has reference only to the upbuilding of Cisco and her natural advantages. Yes, we feel sure of our big hotel, but how long, Oh Lord, have we suffered? Three days should have been sufficient instead of six months.

Then there are many other possibilities. Some have been talked of and forgotten; others about ready to pass into forgotten dreams without an effort to awaken the public. By looking back we find chickens were about the first upon the program of recent years, which reminds me of a true saying of my daddy: "A fellow raising banty chickens, fice dogs and popcorn is in small business." I know a kicker or a knocker is an unwelcome "it," but in all good conscience, don't we profit, at times, by having our shortcomings called to our attention? Otherwise, with all reverence, Christ's coming to the world was unnecessary.

Now I have no personal axe to grind nor ill feeling for anyone. I only mention the high spots. Notwithstanding a few costly mistakes in the management of our public affairs, Cisco is destined, and will be, a city that we all will be proud to claim as our home, so let's have friendly discussions without personalities. Remember, we might have done worse if in their places. So, with charity to all and malice to none, let's go forward in the upbuilding of this, our home town, where providence has been so lavish in providing so many attractions and advantages.

FEDERAL RESERVE FIGHT TO GO ON, SAYS R. Q. LEE

Efforts to Force Dallas Bank to Quit Discrimination Against Farm Loans for Industry Will Continue

West Texas has just begun its fight to restore the Federal Reserve bank to the principles which it was created for, said R. Q. Lee, in discussing the failure of Senator Glass to hold the Federal Reserve bank hearing in Texas. Lee is not discouraged by the action of Senator Carter of Virginia, who left the hearing without holding the hearing on the Federal Reserve bank which he declared would be held immediately after the Democratic convention adjourned in Houston. Lee does not accept the statement of Senator Glass that he has no interest in the bank, which Senator Glass gave in the newspapers when he went to Virginia. In this state, Lee said, that any hearing held should be attended by the entire committee, or at least by a majority, and did not care to prejudice their minds for future hearing, by letting one man judge the case. Lee said that the West Texas bankers did not feel that Mr. Lee was being but one of the committee, could hold the meeting in Dallas. merce directorate. Some members of the committee opposed the resolution touching the Federal Reserve and Mr. Lee actively fought to secure passage of the resolution. He has been a consistent supporter of the resolution since. He believes that the proper relief lies in changing the policies of the bank, and is basing his fight on the bank's policies as formulated by its directorate. Officers of the bank can only carry out the policies of the board, hence he believes in changing these policies, by congressional action if necessary. Unless some other organized effort is launched before the West Texas chamber of commerce executive board meets in Coleman July 16, Mr. Lee plans to call upon the body to immediately get in behind this proposition with all the influence which the organization can bring to bear, and plans to ask the directorate to use the same energy and initiative which the chamber has used with such good effect in the past fights for the welfare of West Texas.

and a short term too, only four years. He is seeking a second term at the hands of the Democratic voters in the July primaries. It has been Democratic custom in Texas for years to give faithful

Democrats a second term and there is no reason that this rule should not hold true at this date, so far as Smith's friends know.

Lon Smith has been holding public position for a number of years, back in the old home county, as state senator, comptroller, and railroad commissioner. He has ever championed the rights of labor, and his votes in the state senate will bear this out. He is still the friend of labor. He bases his candidacy for re-election on the record he has made.

WILD HOG SERIOUSLY INJURES AGED MAN

BURNET, July 7.—William Watson, 76, farmer living near here, Friday was in a critical condition as the result of being attacked by a wild hog.

The farmer was attempting to chase a herd of wild boars from his field when one turned upon him, caught him in the leg and hurled the aged man to the ground. Arrival of neighbors probably prevented him from being torn to pieces by the animal.

Frigidaire is the powerful automatic refrigerator

Every Frigidaire, of whatever size, is equipped with a cooling unit powerful enough, sturdy enough, and big enough to keep food cold and fresh and to freeze ice quickly, at all times, and under all conditions. This means dependability, especially when outside temperatures are excessively high and you need refrigeration most.

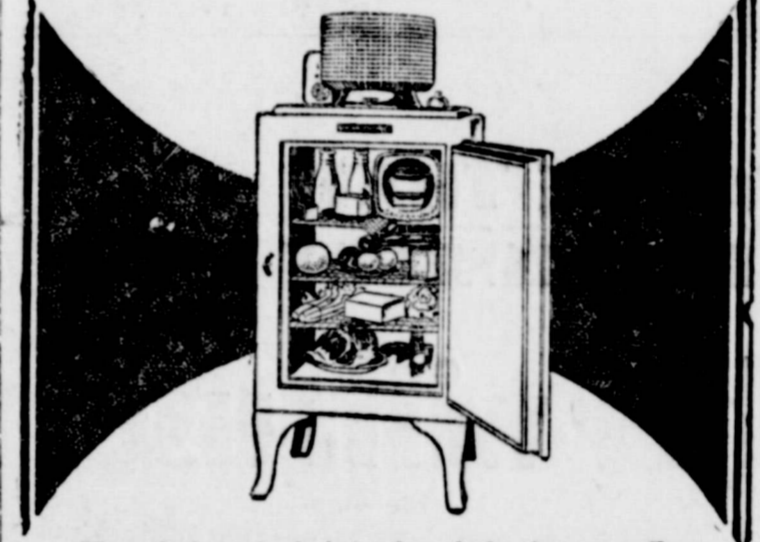

The combination of many factors have made Frigidaire the choice of more buyers than all other electric refrigerators combined.

- Frigidaire is economical in the use of current
- Frigidaire is adaptable to every home and commercial use
- Frigidaire household cabinets are artistically beautiful
- Frigidaire is quiet
- Frigidaire food shelves are at a convenient, comfortable height
- Frigidaire is a Product of General Motors
- Frigidaire is low in price

DEVIL'S RIVER SECTION OF TEXAS IS SPORTSMAN'S PARADISE

Ciscoan and Chicago Associate Are Loud in Praise of Resort Section to Be Opened Up in Del Rio Country

A. A. Belding, Ciscoan, accompanied by W. S. Thayer, of Chicago, former business associate, arrived here on a brief business visit this week from the Devil's river country, near Del Rio. He was joined down there a few weeks ago by Mrs. Belding, their son, Curtis, and Mrs. Hatlie R. Gage, mother of Mrs. Belding, who are spending the summer in that section. Belding stated that he had practically completed his plans and arrangements to establish a winter resort in that country which he said could not be excelled in climate as a retreat for those of the frozen north who could afford to spend their winters in comfort and ease.

"I have secured a large body of land right on the river, which has a frontage of 4 1/2 miles on the beautiful stream in what is known as Slaughter's Bend," Belding said. "We are now clearing off the underbrush preparatory to commencing the erection of a 40 or 50 room club house, which will have the appointments of a modern hotel. It is proposed that this resort will be a retreat for the members, where they can spend their winters in hunting, fishing and other sports for which that section is famous. Hunting concessions have been secured in Old Mexico, where there is plenty of big game, affording a sportsman's paradise. Then, Devil's river abounds in all kinds of game fish that would delight even Isaac Walton, himself, were he to return to earth.

50,000 Gallons a Minute

"Slaughter's Bend is ideally located in a curve of Devil's river, a beautiful grassy plateau, above high water mark, where there are innumerable springs whose crystal waters flow into the river at the rate of 50,000 gallons per minute. The land is covered with thousands of pecan, liveoak and other native trees, some of which have a circumference of 15 feet. These are

being preserved for future shade and shelter to those who will spend their winters in this delightful climate.

"Devil's river is but 37 miles in length. Its source is near Juno, in Val Verde county, and the river empties into the Rio Grande a few miles below Del Rio. But Devil's river is supplied with countless thousands of springs of the purest water on earth, and would never run dry if it never rained again. Some of the springs are in the bottom of the river, while others are similar to those on the land in Slaughter's Bend—all tributaries of the river.

"Some of the most prominent business men, bankers and ranchmen of Ozona are associated with me in this enterprise, among whom are S. E. Couch, Paul Farmer, Joe Pierce, Plas Childress, Charles Schauers, Arthur Phillips, Lee Henderson and Scott Peters. Childress is president of the Ozona National bank. Couch is vice president, and Peters is cashier. We hope to have much of the work completed by fall.

Mrs. Belding and Mrs. Gage are perfectly delighted with the country and climate. They will remain there till the latter part of July, and perhaps longer."

Also Praised by Chicagoan

Thayer, who was with Belding on his trip home, and who will accompany him back to the Devil's river country, stated that Belding was exceedingly modest in his description of that part of Texas in general, and Slaughter's Bend in particular.

"I have known Belding for many years," Thayer said, "and having heard he had some kind of proposition for a winter resort in Texas, I got in communication with him, and later came to Texas, representing a number of friends and acquaintances in Chicago, Boston, Philadelphia and other northern and eastern cities, who have long been wanting

IN THE ROLE HE LIKES BEST

Senator Charles Curtis, the Republican nominee for the vice-presidency, likes nothing better than to pass his vacation at the Providence, R. I., home of his daughter, Mrs. Webster Curtis Knight where he is a prime favorite of his little granddaughter, Constance, shown with him in the above picture.

to find just what I found on Devil's river. My associates have been considering a resort similar to this proposition near Brownsville, but there is nothing in that part of the state that will compare with the location at Slaughter's Bend. We have everything the Brownsville country has except the Gulf, but there is plenty of water in Devil's river to satisfy anyone. Then those huge springs, immense shade trees, and delightful climate caught my fancy, and right there I found the ideal spot, and have taken an interest in the proposition for myself and associates, and shall go back East and report that I have found the place they long have sought. When I come back to Texas again I expect to bring 25 or 30 of those associated with me to look the proposition over, and I am sure they will say that the description I shall carry back does not tell half that nature has done for that wonderful section of Texas."

EXPENDITURES OF CANDIDATES TO DATE FILED

Expense accounts of candidates for election were filed with County Clerk R. L. Jones prior to midnight last Monday. Each candidate living in Eastland county showed just how much expended to date to obtain nomination for the office he or she seeks.

CHIROPRACTIC IS RIGHT

Coincidental with the condition of "broken neck" or "broken back" is demonstrated proof final, against all disputation, that when bones of the spine are in position to impinge nerve tissue (spinal-cord or spinal-nerve) they then CAUSE an obstruction (stopping) to the normal flow of the LIFE-FORCE, and is dangerous to the life and health of the person.

Chiropactic is ABSOLUTELY RIGHT when it teaches that bones of the spine impinging the spinal-cord or spinal-nerve CAUSES sickness and "disease." And that these bones must be properly adjusted before this CAUSE for "disease" to be corrected.

STANDARD SIX COACH reduced to \$995

2,000,000 WILLYS-OVERLAND CARS AND GOING STRONG!

Superiorities of patented double sleeve-valve engine now enjoyed by new thousands

Lightning pick-up—a smooth, unflinching flow of power, effortlessly delivered mile after mile, year after year—an engine that is always at its best, as fresh at the end of a hard day's run as at the start—simplicity of design that insures remarkable freedom from repairs and carbon troubles—these are some of the many advantages enjoyed by more than 325,000 enthusiastic drivers of Willys-Knights.

Now, at a record low price, the new Standard Six brings you the quality supremacy for which Willys-Knight is famous. Mounting sales and greatly increased facilities enable us to offer this beautiful Six at a price never before possible.

HIGH COMPRESSION WITH ANY GAS

In this patented engine, two metal sleeves in each cylinder combine with the spherical cylinder head to form a perfectly sealed combustion chamber. This head directs the full force of the explosion straight downward, making the most efficient use of the highly compressed gas. As a result, the Willys-Knight engine gives high uniform compression at all speeds and with any gas.

TWO OTHER FINE SIXES

SPECIAL SIX
Now still further improved by such advanced features as full crown fenders, window reveals, steel-rimmed roof and optional new color harmonies of richness and charm. Prices range from the Coach at \$1295 to the Sedan at \$1495.

GREAT SIX
Distinguished by finer bodies, a wider selection of beautiful color combinations, and a larger, more powerful engine, insuring even higher and smoother speed and even livelier acceleration. Prices range from \$1850 to \$2695; the Sedan . . . \$1995.

"In 1927," he said, "the year before arbitration began in approximately its present form, the industry had nearly 4,000 lawsuits over contracts. "In the four years of arbitration, the boards have disposed of 50,000 con- tractual disputes, involving \$11,200,- 298.94. "The most interesting technical de- velopment of the year has been the perfecting of talking pictures to a merchandising point," declared Mr. Hays. "This will not negate any progress already made; any more than radio abolished newspapers, phono- graphs ended symphony concerts, or

automobiles wiped out railroads. This industry will use this new contribu- tion of science without disturbance to promote its forward stride."

Instead of a "foreign invasion," Mr. Hays said the large market for Ameri- can motion pictures is rather a matter of "foreign invitation."

"The people of the world want them," he added, "despite the ac- tivities of foreign governments to lessen the effectiveness of the American film industry by practically subsidizing indigenous film production."

After the meeting Mr. Hays ex- pressed his personal views on both talking films and foreign markets. "We only want for American films abroad just that consideration which their quality merits," he said. "In every country in Europe the govern- ment has recognized motion pictures and properly so, as a great national asset and the national industry is fostered and encouraged by the govern- ment. Our only effort abroad is that a government encouragement does not develop situations unfair to American films, or that would prevent their circulation in foreign countries."

"The public has been quick to reward the industry for its continuous supply of good entertainment at a price within the means of all," he declared. "It has been particularly quick to reward the voluntary decision of the producers to avoid unpalatable themes in a day when there is a tendency to kick over the traces of good taste and the conventions. There has been such a decided improvement in the artistic and other qualities of the product that twenty-eight organized groups since the first of January this year reviewing pictures have made recommendations and endorsements of 647 pictures."

PROGRESSES ON HIGHWAY IN TAYLOR

July 7.—The paving on State Highway No. 7, toward Highway, which led to the Womack Con- company of Sherman, is on way. Twelve miles west of the workers have reached paving at Merkel, com- four miles of their con- ch extends seven miles

WEST OF MERKEL TO THE LINE OF TAYLOR AND NOLAN COUNTIES, MAKING A TOTAL OF ELEVEN MILES TO BE PAVED.

With favorable weather conditions and no material handicap, the company expects to complete its contract within thirty or forty days. One of the survivors in a recent dance marathon in Chicago was in Mr. Fyle's race, too. Probably he was just spending his vacation in Chicago.—Funt Daily Journal.

PORKER-BEAR ELEVENS TO MEET AT TEXARKANA

WACO, July 7.—The football game between Baylor university and the University of Arkansas will be played in Texarkana, October 13. It was to have been played on the Arkansas state fair grounds, Little Rock, but both teams objected because the gridiron was not suitable. The game in Texarkana will be the first Southwest conference contest ever played there.

BURGLARS LAY 'GATS' ASIDE IN PROFESSION

SACRAMENTO, Cal., July 7.—He may be "a thief in the night" ransacking your home, "jimmying" your doors and purloining your valu- ables, but the modern burglar is not a "two-gun-man!"

In fact, he's seldom armed at all, according to the latest custom of the underworld.

The burglar, it was disclosed to- day by State Criminologist Clarence Morrill, has a fixed superstition that "they who live by the gun shall die by the gun." As a result says Mor- rill, the 1928 "second-story worker" prefers to live by his wits and die peacefully in his bed.

Parked Their Guns
The "theater burglar," the "matinee burglar," the "party burglar"

and the "odd job burglar" have all parked their sidearms in the gar- ret, asserts the state expert. If they find a weapon in your home, they'll "borrow" it, Morrill admits, but that is done merely in the interest of self preservation.

"Early morning workers," who enter a house knowing that it is oc- cupied, are the only members of the outlaw craft who still rely on a "gat" to any great extent, de- clares Morrill, and they represent less than one per cent of the "pro- fession." The prowler who visits your home while you sleep, depend- ing on the soundness of your slum- ber between midnight and dawn to escape detection, is a passing type, according to his investigations. The few who remain are known to the police as "barefoot burglars" due to their habit of parking their shoes outside.

Most burglaries today are com- mitted while the lady of the house is attending a matinee, while the family is attending the theater in the evening, or off on a week end trip. Then, too, there is the "party burglar," who enters a bedroom and steals the valuables of guests while

a party is in progress in some other part of the house.

Pleads Guilty

If caught, the "party burglar" does not shoot it out with the po- lice. He pleads guilty to being a "Peeping Tom" and escapes with a short county jail sentence.

One of the big factors in contrib- uting to the "gat"-less age among burglars, says the state criminolo-

gist, is that many of the criminals are ex-convicts. And merely being found with a weapon in his posses- sion means conviction of a felony for the former prisoner.

But more important than all else in bringing the change is super- stition. Burglars no longer care to die with their boots on and tradi- tion decrees that they shall if they live by the pistol.

FIRST BALE OF COTTON AT SAN ANTONIO SOLD

SAN ANTONIO, July 7.—The first bale of the new cotton crop to reach San Antonio brought 23 1/2 c a pound, the purchaser announced Friday. It weighed 363 pounds and was grown in Frio county by Frank Kclaf, who received a bonus of \$100.

DOWN GOES PRICES!

Having decided that prices for barber work must go down, I have decided on the policy of making a uniform price for every item of service in my shop.

- Hair Cuts 25 Cents
- Hair Singe 25 Cents
- Hair Shampoo 25 Cents
- Shave 25 Cents
- Massage 25 Cents
- Tonic (any kind) 25 Cents
- Oil 25 Cents

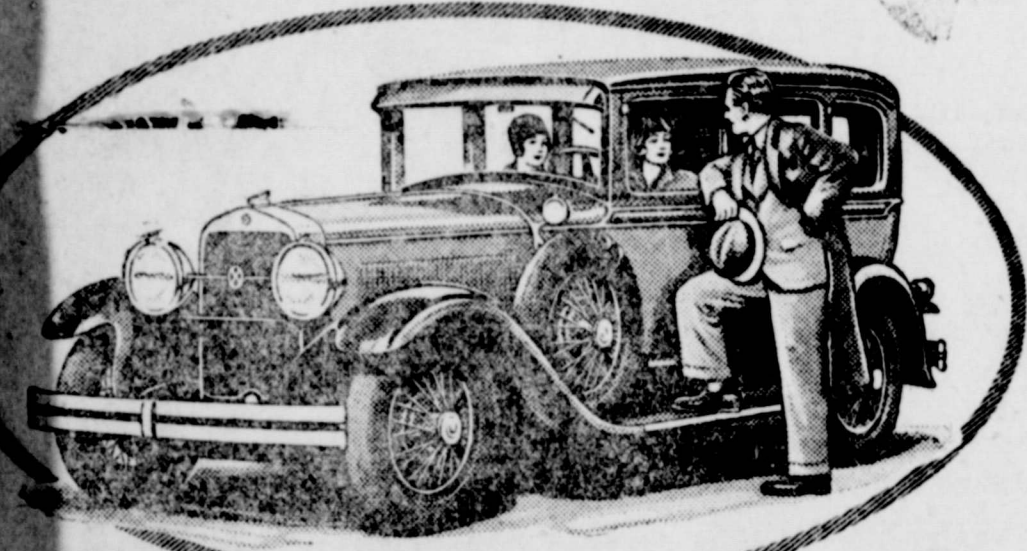

You can get the same 50 cent hair cut that you have always gotten. The price is cut, but the quality remains the same.

ONE DAY LEFT IN WHICH TO DOUBLE SUBSCRIPTION COUNT

Circulation Workers Who Obtain Full Quota Monday Will Pile Up Points to Place Among Leaders

Workers in the Cisco Daily News and Weekly American and Roundup country wide subscription drive who did not complete their quota for new subscribers by Saturday night are asked to finish same, if possible, by Monday night and send or bring the subscriptions to the Daily News office Monday evening or they can be sent in Tuesday. The time is extended so that every worker will have the opportunity to double her points and have the same chance to win the valuable prizes that will be awarded at the close of the drive.

The time is short and there are only a few more days and the campaign will close. A few subscriptions secured at this time will mean more to the workers in building up higher points than subscriptions that are turned in at the close of the drive. The points will be for less amount and the opportunity to win one of the Chevrolet cars or any of the other valuable prizes are offered to workers at this time.

The standing of the workers in number of points that have been secured both in the list as published in this issue and the points that have been held in reserve are somewhere near the same amount and there is quite a number who have enough points at this time that a few more subscriptions would gain a lead and win some of the best prizes.

The automobiles and all of the other prizes will no doubt be awarded for the smallest amount of subscriptions ever before known in a subscription drive for a newspaper. While the total amount of subscriptions secured by all the workers has made a very satisfactory volume of subscriptions, the amounts secured by individuals have been comparatively small.

The workers who have made their quotas can secure more subscriptions Monday and get them in by Tuesday and they will be given 600,000 points doubled for each year to the Daily News or the Weekly. These are the highest points that will be given for subscriptions before the drive closes.

IMMENSE FIRE SCENE FEATURE OF 'RAMONA'

A Hollywood fire recently razed over 100 Indian homes to the ground and provided the film city with one of the biggest thrills of the year.

In a short space of time, over \$100,000 went up in smoke, attracting thousands of motorists from the highways to the scene of the blaze, several miles from the center of Hollywood.

Fire engines from the film city were on the ground, their hoses stretching over a half mile to the nearest water connection.

The fact that the giant blaze was staged for an episode in "Ramona" now being released in motion picture form, did not matter a particle! Even the oldest old-timer, hardened with all the thrills the movie city offers daily, stood with the crowd and agreed it was a real, not "reel" conflagration.

Carew and a corps of assistants made all precautions against accidents. The fire apparatus was needed only after the cameras stopped clicking to sprinkle the smoldering buildings and to put out any hidden flames. No casualties were reported. The fire, truly recorded by the Inspiration Pictures-Edwin Carew cameras, will form a brilliant part of "Ramona." At the Palace today and tomorrow.

THREE BOLTERS' NAMES OFF VAL VERDE BALLOTS

DEL RIO, July 7.—Dr. F. M. Rose, Democratic county chairman of Val Verde county, ordered the names of William E. Hawkins, Thomas B. Love and Edith E. Williams emitted from the official ballot when the printing of the ballots was started here Friday.

"We are running a Democratic primary in Val Verde county," Dr. Rose said, "and if the candidates want to run in our primary they must not be bolters."

"Who was that fellow Pan?" "He was just half man and half goat."

"Just another husband, then!"

FIRST SHOWING OF FOUR LINES OF NEW CARS

Irresistible feminine appeal has been added to masculine power in The President, The Commander, The Dictator and The Erskine.

Beauty—Here are delightful new colors from which to choose—Duskblue, Deauville Sand, Sable, Fawn, Antelope Tan and Dolphin Red—with just a dash of antique cunning in the finish of interior door panels and exterior body belt. Smartest of upholstery fabrics—broadcloth, mohair, whipcord and plush—in harmonizing shades.

Charm—Here are alluring new features to increase your pride of possession—handsome winged headlamps—flat radiator cap with the same wing motif—slender, graceful radiator design—all in glistening tarnish-proof chromium—jaunty "polo cap"

visor—gleaming silvered hardware—colorful onyx top for gear lever and horn button.

Comfort—Seats of new design—full cushioned, form fitting lounges—steering wheel (adjustable to your particular needs) responds to your will rather than your muscles—ball-bearing spring shackles give riding ease hitherto unapproached in the most expensive cars—hydraulic shock absorbers—super-brakes which stop the car smoothly, gently in half the distance prescribed as standard.

These are the cars women have been hoping for—spirited, beautiful, safe, comfortable. Worthy to hold every official stamina and speed record for fully equipped stock cars. Luxury and good taste at One-Price prices.

SYNOPSIS
A girl containing \$200,000 has stolen from the Mercer National Bank. The police suspect the girl, leader of a gang of boys, of being involved. His headquarters, an antique shop, is being watched. The Professor has a lovely Rose Shannon, a girl dancer, whose where the girl is hidden. He assigns Chuck to one of his gangsters to take her to the country to visit her supposed aunt. He hopes she will give herself away during the trip. Chuck finds himself more attracted to the lovely Rose Shannon. He has made no progress, so he visits Rose himself.

Betty Mae Davis Honored With Birthday Party
On Thursday afternoon little Miss Betty Mae Davis, daughter of Mr. and Mrs. H. H. Davis, celebrated her third birthday with a party from 5 to 6 o'clock. After various games and other amusements the candles on the birthday cake were lighted. Refreshments of ice cream and angel food cake with punch were served to 20 children and 13 mothers.

Birthday Party Given Thursday Afternoon
Mrs. J. V. Heysler entertained Thursday afternoon at her home honoring her little daughter, Mary Beth, in celebration of her third birthday. The color scheme of pink and blue was carried out most effectively in the decorations. The dining room table was lovely with a maderia spread with three tiered birthday cake forming the center piece. On top of the cake was a dainty little fairy dressed in the pink and blue. The afternoon was devoted to playing various games and taking Kodak pictures. The guests came into the house and lighted the candles on the cake after which they adjourned to the lawn where ice cream and cake were served. For favors the girls received miniature dolls dressed in the prevailing color with little candy baskets in the pink and blue. The boys were given horns and the candy baskets. The porch was decorated with a profusion of sunflowers. The following guests were present: Louise Stephenson, Brenda Louise Warwick, Lucy Perkins Williams, Norman Ghormley, Raymond Wil-

son, Mardon Miller, Alister Miller, Alice Louise Slicker, Betty Slicker, Walter Leach, Jr., Maxine Preston, Juleene Preston, Alice Estelle Spencer, Betty Shepherd, Corrine Ann Esger, Glenn Mortimer, Rose Ann Woods, Betty Lee Paschall, Mary Louise Poe, Billy Morrison, A. Farmer, Billy Brechen, Bobby Herron, Dorothy Herron. The hostess was assisted by Mesdames S. E. Hittson, Walter Leach, Paul Woods, G. M. Stephenson, Roy Morrison, Glenn Mortimer and James Flournoy.

STUDENT FROM MORAN ON A-M. ROLL OF HONOR

MORAN July 7.—Mrs. J. W. Bankston has received a letter of congratulation from A. & M. college on the fact that her son, Clarence Gay, was one of the honor students of that college this year. He finished his degree at A. & M. in June. Following is the letter from E. J. Kyle, dean of the school of agriculture:

"I want to take this opportunity to congratulate you on the fact that your son was an honor student this year and an announcement of this fact was made during our commencement exercises. You can possibly appreciate the honor that goes with this when you realize that out of approximately 650 agricultural students only 28 were honor men. I feel that this state needs, more than anything else, high class agricultural leaders and it seems quite evident that your son gives promise of making the state one of our most useful citizens as a high type agricultural leader."

\$25 SENT BY CATHOLIC TO HEFLIN FUND

WASHINGTON July 7.—A check for \$25 sent to Senator Heflin of Alabama by Peter J. Maloney, broker and president of the Holy Name Society of the archdiocese of New York in "appreciation" of the senator's anti-Catholic speeches, has been turned over by Heflin to the Fellowship Forum published here.
In his letter Maloney said Heflin's speeches were of "great service to the Catholic church," adding that he knew of "no one who had done more to make bigotry appear unlovely and mendacity sound absurd."
Heflin replied that Maloney's attitude was "different from that of Catholic priests and certain Knights of Columbus, who have tried at nearly every place I have spoken to prevent Protestants and Jews from having a hall in which to hear me discuss the un-American activities of the Roman Catholic political machine."
In announcing that he had given the check to the paper, Heflin said the act would give Maloney "another occasion to appreciate and feel grateful for my efforts to protect and preserve American ideals and institutions."

CONTRACT LET FOR NEW BAIRD H. S. BUILDING

BAIRD July 7.—The board of trustees of Baird independent school district has let the contract for the erection of a new high school building. The new building will be erected across the street west of the present building on a four acre block of land recently purchased from Ace Hickman. The residence which was formerly the C. A. Neubauer property will be torn down to make way for the new building. The building will be built of brick and will be 170 feet long, with a hallway the entire length of the building. There will be two entrances on the south side, or front. The ground floor will contain eight class rooms 21x29; a study hall 50x42 and library, superintendent's office, store room for text books, first aid room, lavatories, shower baths, etc. The auditorium will be on the upper floor and will be 48x80 with a seating capacity of 750 people. In fact the building will be modern in every detail. There will be six exits to the building.
The general contract was let to Morgan & Simmons of Sherman for \$32,715.29. The plumbing contract to Forrester Plumbing Co. of Abilene, for \$1,350, and the electrical

contract to W. C. McHorse of Coleman, for \$600.
Work will be pushed as rapidly as possible so as to have the building completed by the time school opens.

IMPROVEMENT SHOWN IN EASTLAND COUNTY RURAL SCHOOLS

Term Average Longer, Per Capita Cost Less, Teachers Paid More, Better Equipment, More Property

PRESBYTERIAN MEN PLANNING MELON FEAST

The August meeting of the Presbyterian Men of the church will be in the form of a watermelon feast at Lake Cisco. It was decided Friday night at the monthly get-together of the organization in the church basement. A proposal that messages be dispensed with during the remainder of the supper was rejected. The men also voted to accept an invitation of the women's organizations of the church to meet with them in a social evening in the near future.

Fried chicken was served to 25 members and visitors Friday night by the women of Circle Two of the church. An entertainment program consisting of a vocal solo by Rev. B. C. Boney, piano solos by Miss Hazel Orr, of Putnam and Prof. G. C. Morris and a reading and a song by little Miss Ross Lee Williams was presented.

Your choice of my entire summer stock at \$1.95, Monday only. Mrs. Charley Curry, at residence, 654 H Avenue.

Steady improvement of the rural school system of Eastland county is reflected in longer terms in practically all rural schools, more money paid teachers in salary, less money spent per capita for instruction, more school property and better libraries as revealed in the annual report of County Supt. Beulah Speer, which was completed last week.

The figures show an increase over last year in all instances but show the teachers are still underpaid. The teachers' certificates range from two-degree teachers to "old perm." "perm." "elementary perm." high school and elementary certificates.

CHURCHES

FIRST PRESBYTERIAN.

Sixth street at H. B. C. Boney, minister. The minister, by request, will repeat the sermon preached on his initial visit to Cisco. "The Master Is Here," at 8:15 p. m. Bryan Rieger, baritone, will sing "Open the Gates of the Temple," and the choir will sing "Let the Savior In," and Dr. G. C. Morris will play as pipe organ selections at the same hour "Cavatina" by Raffi, and Paderewski's "Minuet," and if you like good singing by the congregation, Mr. Boney will lead a fifteen minute popular hymn sing-song at the beginning of the hour. Sunday school has a profitable hour for you, beginning at 9:45 this morning, and it will be brought by the minister, a special choir selection will be sung, and Dr. Morris will play Lamotte's "Prelude in E," Vincent's "Song of the Angels," and Wachs' "Hosanna." This church with a warm heart, but as cool auditorium can be found in town, invites you to enjoy its privileges.

FIRST CHRISTIAN.

The Bible school of the First Christian church will meet at 9:30 at the church. Devotional period and study of the lesson, followed immediately by the communion service. Dismissing in time to reach the encampment grounds by 11 o'clock. President Waits, of Mrs. Maurice Hoffman.

What will the future of America be under their leadership? Are the young people bad? If so, why?

Are they good? If so, why? These and other questions will answer. Mrs. W. W. Wallace and Mrs. Jameson will sing a duet accompanied by Mrs. Ernest Hittson. 8 p. m. Evening service. Theme—"America at the Crossroads." Which way shall we take? This will be a great patriotic service. A parallel from the Old Testament will be given. Challenging messages, soul stirring gospel music and congregational singing will characterize the services of the day. What about attending Sunday school in July? Every teacher, officer, and pupil present, on time, are praying for church today. The Leaguers will meet at the usual hours. Strangers and visitors have a most cordial invitation to worship with us. Members will be received at the 11 o'clock service. We offer you a cool, comfortable church; a cordial, friendly greeting; comfort for the sad, inspiration for the depressed, sins forgiven through the blood of Jesus.

Are Wives More Efficient Than Husbands?

Husbands are inclined to boast a little about the efficient methods they use in their shops and offices and forget that it takes even more brains to evolve a comfortable home and a well dressed family out of a small pay envelope.

Women who are naturally "good managers" don't simply spend money. They invest it, and they insist that every dollar must pay them liberal dividends in Service and Satisfaction.

Many of these women are our customers because they know that our extensive buying resources enable us to offer them merchandise of excellent Quality at a rock-bottom price. They have learned the lesson that Cash always secures a lower price than Credit, and they prefer to carry their purchases home and save money.

Co-operative Buying! Dividends on Investments! Cash Purchasing! Husbands like to talk about these business principles but their wives apply them every time they go shopping in a J. C. Penney Company store.

AT WHOLESALE COST!

We are in a contest with other Good Year Tire Dealers in the district. We are out to win! We sold 68 tires the first five days of July, but we must beat this if we are to win the contest, because Good Years are selling as never before—their well known quality is increasing the demand for them all over the country.

This contest continues through July. If you are going to need tires, now is the time to buy them at dealers wholesale cost. You will save several dollars on one tire. Investigate prices on YOUR SIZE AND SEE HOW MUCH YOU SAVE and at the same time you get the best value ever put into a tire. Help us win.

very noticeably increased and we are as busy as bees keeping up with our orders."

P. M. Herron, of the Heiron- Owen Slipper Shop—"The first four days of July were the best, four days of any month since we have been in business. Trade seems to be getting better."

Baker Glenn, of the J. C. Penney Co.—"Our business is showing a steady increase so far this month. I feel confident that business will be good on through the summer. I expect a fine business for the fall months."

Nick Miller, of Miller-Lauderdale—"Business seems to be increasing. We are expecting a business to equal the fall of 1926. I really believe confidence is being restored rapidly."

Robert Joyner, of the Acorn Store—"Our business is showing up well. June was an increase over the same month of last year. I believe it will be better now through- out the summer."

L. C. Moore, of Moore-Shepard Drugs—"Our business is very nice now. It has shown steady increase during the last ten days."

E. O. Elliott, of the Elliott Drug Store—"Our business is showing much improvement. June was a

good month with us, but July seems like it may be much better. July 4 was a dandy day and it looks like good business will continue through the summer."

H. S. Drumwright, of John H. Garner's—"Our big sale is going over fine. We are showing our confidence in Cisco by spending several thousand dollars on our new men's store. We are getting ready for a record breaking fall trade."

Morris Kleinman, of Kleinman's Store—"Our business is showing renewed activity. The past week has been much better than the week before. I think business will show steady improvement now."

Frank Blankenbecker, of the B. & H. Motor Co.—"Our business is very satisfactory. We have just in- stalled some very modern machin- ery which will aid us in giving in- creased service to our patrons. We feel like business will warrant the expenditure."

Fleet Shepard, of the Cisco Fur- niture Co.—"Our business has been much better during the past ten days. I feel like July is ushering in a period of increased activity for business."

Alex Spears, of the First National Bank—"The statements of local deal more money in Cisco than there was a few months ago. If this money was wisely invested and spent in a judicious manner, much good would result to our commu- nity. Money wasted does not give prosperity but money wisely cir- culated will do much to give a tone of confidence to business ac- tivity."

BLUE BONNET PROGRAM HELPS GIRLS AT NIMROD

The Blue Bonnet Trio presented a very interesting program at the ice cream supper at the Nimrod school house Friday evening when the club girls of that place gave an enter- tainment to raise funds for club equipment. It was reported that the proceeds of this entertainment would be used to defray the ex- penses of the club girls to the A. & M. short course, but instead will be used to purchase a steam cooker for

the club. A neat sum was realized from the sale of ice cream, and a large crowd was present and enjoyed the program of the Blue Bonnet Trio.

TWO FINED \$10 AND COSTS FOR EARLY MORN FIGHT

J. W. Robinson and Doyle Hard- ing, two of the quartet who staged a free-for-all fight at Broadway and D avenue during the early morning hours of July 5, following the celebration of the glorious Fourth, were assessed fines of \$10 and costs in the city court Friday. The two other belligerents have not been arrested.

does this mean? It means there is enough money in the banks to conclusively show that the reason for a complaining business, it also shows that one of the facts that for the months we have been con- tending hard times and say- ing there was no use in trying to do sales because there was no money in the country and that the were dead broke yet our say that they have \$100,000 more now than they had a year ago. It is safe to say that this \$100,000 were to be put into circulation here in would bring much prosper- ity to every community. If confidence to put every un- der man at some kind of a pace. If the different busi- nesses had confidence that they would come in a period of more active times, more clerks would be installed in old jobs. Then these new would become active and business would result in an in- creased prosperity. Hoarded money in stagnant business, money invested and constantly cir- culates increased wealth and activity to every community. If the contemplated improve- ment have the money to do it, tomorrow. The wages paid to workers will get back to you and neighbors in a few days and a circulation of money will be not all. Not only is there more money in Cisco which is circulating, but it seems ready at work. A number of us have noticed a healthy in their sales during the days of the new month.

Owsley Says Hoover Issued Order Which Put Negroes and Whites in Commerce Department on Equality

DALLAS, July 7.—In a speech at Granbury Friday afternoon Alvin Owsley, candidate for congress, predicted the election of Smith and Robinson, Democratic nominees for president and vice president, and paid his respects to Herbert Hoover, Republican candidate, in the following language: "Right after Herbert Hoover announced as a candidate for president he received a group of negro political bosses. At their suggestion, he issued an order establishing equality between the negroes and the whites in the Department of Commerce, and by that order sought to put the negroes on an equality with our white women, working in the department. I denounce any white man who tries to put negroes on an equality with our white women. (Applause). We Texans shall never forget that the only stain that blotches the Lone Star Flag of Texas was under the Republican carpet bagger administration of E. J. Davis and Texas will never go Republican (Applause)." Your choice of my entire summer stock at \$1.95, Monday only. Mrs. Charles Curry, at residence, 604 H avenue. 102

HUMBLE TEAM TO CLASH WITH BRECKENRIDGE

The Humble baseball team will play the last Breckenridge Dynamo team at Humble park, at 3:30 p. m. today. The Dynamo team is undefeated this season and is one of the fastest amateur teams in this part of the state. The Humble team has been playing winning baseball, having won nine games out of the last ten. This should be a hotly contested game throughout as both teams are evenly matched. The Dynamo team is made up of former league and college stars, while the Humble team consists of former Texas League players and amateur stars.

PLEASANT GROVE

A large crowd attended the picnic and ball game on the Fourth. Everyone seemed to have a big time. The morning was devoted to candidate speaking, while the afternoon was taken up with a ball game between teams from Eastland and Morton Valley. GRAFTERS PUT OUT OF JOBS, BLANTON SAYS GALVESTON, July 7. — "During my twelve years in congress I have put out more grafters than all the rest of the 425 members put together," declared Congressman Thomas L. Blanton, candidate for the United States senate, in a campaign talk at the Galveston court house Friday. Only a handful of people turned out to hear the speaker. "I was the first man to investigate Secretary Fall," he declared, and went on to say that he also investigated Col. Charles R. Forbes, Commissioner Fenning and many other government officials charged with misappropriating public funds. He had been instrumental in saving untold millions of dollars for the people. Blanton denied that he was anything but a staunch friend of organized labor. "I am the best friend organized labor has when it is in the right," he said, and declared he had several bills passed which improved working conditions and helped the firemen and policemen in Washington.
