### Editorial : (Continued from Page 1)

ground water storage. Sealcoating 55 blocks of paving . . . this is a "must." The city stands to lose the value of 55 blocks of paving if it doesn't get seal-coated before this winter. As a matter of fact this one item was so important in itself that the council has gambled and let the contract for this operation and will pay for it out of transfer of funds if the bond issue doesn't pass. So it will be a "rob Peter to pay Paul" situation if you don't approve this item.

An estimated 40 blocks of paving . . . many property owners have asked for a new paving project for their property. This part of the bond election will go to pay the city's part of the paving which is the intersections. Certainly we are all proud of our town when we travel not many miles and in wet weather slip and slide through the muddy streets.

One issue of controversy in the bond election is the elevated storage tank.

Well, in the first place, this is the last item to be considered by the council, and it will be the last thing to be done with this money if you decide to ask for it.

The council is of the opinion that we will probably need the elevated tank within the next five years, and with the cost of holding elections and interest rates soaring each year they figured the wisest move was to go ahead and include this item now, and when the need arises, the money will be there.

So, we ask you to think seriously about these four proposals weigh them and we believe that you will agree that these will merit your vote.

### Juries (Continued from Page 1)

Donald Watkins, Robert Calaway, H. W. Hardage, Gordon Duncan, Sam Russell, Vernon Billingsley, Hoyt Smith, Harold Lillard, Mrs. Raymond Euler, Flake Barber, Steve Bavoisset, E. W. Sheets, Wesley Barnes, Deon Awrey, Mrs. C. R. Brandon, Ed Hardage, C. L.

Dunn, Eugene Boggess, John Fred White, Ed Steinbock; Frank Lee Brown, David Carson, Mrs. Dee Brown, Archie Tarter, Mrs. Garvin Thorn, Mrs. Roy P. Daniel, Dalton Mimms, E. W. Kennedy, W. T. Meeks, Wyle Bullock, Mrs. H. D. Bradshaw, Douglas Frye, J. W. Gammon, L. B. Blake, E. T. Ford, Paul Wurster, Weldon Stringer, Alvin Gaines, Claude Miller, and Ed Blain.

### Voters (Continued from Page 1)

new mains necessary to make this addition a part of the present water system.

Also included in this \$85,000 is money for the construction of an elevated water storage tank. Council members are quick to point out that this tank is not slated for immediate construction, but if and when the tank is needed the city will have funds available and won't have to go to the expense of voting another bond issue but can then pay for the tank with funds on hand.

Proposition No. 4 concerns \$35,000 which is earmarked for the paving of 40 blocks of paving which property owners have indicated that they would have to have paved and sealcoating 55 blocks of present paved streets.

The total of \$20,000 would be used to pay the city's part of the paving program which is the intersections of the streets. The bulk of the paving cost rests on the property owners who pay for the paving from intersection to intersection.

The election will be held at the city hall in Friona Saturday from 8 a. m. until 7 p. m. Nelson Welch and George Baker are the election officials and will be assisted by Eufaula Ethridge and Rose Lange as clerks.

A smile will add to your face value.

TOP PLAYERS OF THE WEEK--Luther Metcalf, left, and Gary Bradley, right, were named players of the week by coaches following the Friona-Stratford game Friday night. Metcalf was recognized as a Player of the Week also by sports staff of the Lubbock Avalanche Journal.

### Chiefs (Continued from Page 1)

man of the week by the Lubbock-Avalanche Journal.

Smith went on to say that the A team is looking better but that they still have a long way to go. The boys still have the want to and the coaches are pleased with the progress they have made thus far. They are getting smarter and are hitting harder and lower, Smith said.

The next game on the schedule for the Chiefs is Gruver to be played this Friday night at the Gruver High School stadium.

CORKY DIXON SHOWS CHAMPS  
Corky Dixon, son of Mr. and Mrs. Bucky Dixon of Mosca, Colo., showed a 500 pound Landrace boar which received first place in the junior champion yearling boar class, the senior champion boar and the grand champion boar in the miscellaneous swine class at the Colorado State Fair recently.

Young Dixon is the grandson of Mr. and Mrs. C. W. Dixon of Friona.

### RETAIL MERCHANTS TO PLAN HOLIDAY PROMOTION

A meeting has been planned for 10 a. m. Friday that will vitally affect every retail merchant in town. Newman Jarrell Jr., chairman of the retail merchants committee of the Chamber of Commerce and Agriculture has announced that plans will be made for the Christmas promotion.

Jarrell urges all merchants to make plans to be at the Community Room of the Friona State Bank promptly at 10, in order that the business can be taken care of promptly.

### Personals

Mr. and Mrs. Harry Hamilton Jr. returned from College Station Monday after taking their son, John, to Texas A & M College where he is a junior.

Mr. and Mrs. C. W. Dixon are visiting in the home of Mr. and Mrs. Ray Landrum in Amarillo.

Mr. and Mrs. Alan Burkett and sons of Dora, N. M., spent Sunday visiting Mrs. Burkett's mother, Mrs. J. F. Miller, and other relatives and friends.

### HD Club Elects New Officers

At the Wednesday afternoon meeting of the Friona Home Demonstration Club in the home of Stella Shirley, officers for the coming year were elected. They were Carol Hardesty, president; Stella Shirley, vice president; Anna Lee Sims, secretary; Joyce Wilkins, reporter; and Janice Taylor, parliamentarian.

Roll call was answered with interesting places members had been. Marlene Drake was chosen to represent this club in the "Woman of The Year" contest.

Vegetable cooking demonstrations were given by Marlene Drake, who prepared a cheese-onion bake; and Anna Lee Sims, who demonstrated Swiss style green beans.

Refreshments of German chocolate cake, coffee and cold drinks were served by the hostess. Others present were Christine Williams, Stella Varner, Jo Nell Sims, Anna Lee Sims, Elwanda Campbell, Marlene Drake, Carol Hardesty, Joyce Wilkins, Juanita Drennan and Velma Jones.

Miss Jimmie Lou Wainscott will give a bread demonstration at the next meeting in the home of Elwanda Campbell October 7.

## Why we built two cars for 1960 . . . as different as night and day

On October 2—for the first time in Chevrolet's 49-year history—you will be able to walk into your dealer's showroom and see two totally different kinds of cars. ■ One is the conventional 1960 Chevrolet, brand new in appearance and more beautifully refined and luxurious than you can imagine. ■ The other is unlike any car we or anybody else ever built—the revolutionary Corvair, with the engine in the rear where it belongs in a compact car. ■ We'd like to tell you why we built two such different cars, how we built them—and for whom we built them.

Why two kinds of cars? Because America itself has been going through some big changes in the past few years. Our cities have been straining at their seams. Traffic is jam-packed. Parking space is at a premium.

And our suburbs have spread like wildfire. People are living farther from their work, driving more miles on crowded streets. There is new leisure time—but more things to do. There's a new standard of living—and more need for two cars in the family garage.

In short, America's automobile needs have become so complex that no one kind of car can satisfy them completely. That is why we at Chevrolet, keeping tab on these trends, have had a revolutionary compact car in the planning stages for more than nine years.

Thus, when we decided three years ago to prepare for production of such a car we were ready to build it the way it should be built. There was no need for a hasty "crash" program that would create only a sawed-off version of a conventional car.

That is why the two cars you will see in your dealer's showroom October 2 will be two entirely different kinds of cars. One is the conventional '60 Chevrolet—brand new in beauty, with new space inside, new spirit under the hood, a new

feeling of sumptuousness and luxury never before attained by any car in its field. There is great V8 power linked with new thrift, plus Chevrolet's superb 6-cylinder engine. It is a traditional car that comes even closer to perfection—in silence, in room, in ease of control, in velvety ride—than any other car we have ever made.

The other is the Corvair, a compact car that is astonishingly different from anything ever built in this country. It has to be—because this is a *six-passenger* compact car, with a really remarkable performance . . . a car designed specifically to American standards of comfort, to American traffic needs.

The engine is in the rear. Among the basic advantages resulting from this engine location are better traction on a compact 108-inch wheelbase and a practically flat floor. But to be placed in the rear, the engine had to be ultra light and ultra short. So Corvair's engine is totally new—mostly aluminum and air cooled; it weighs about 40 per cent less than conventional engines. It is a "flat" horizontally opposed six—so it is only three cylinders long . . . and that leaves a lot more room for passengers.

Another weight saving: like modern airplanes, the Corvair has no frame; the body-shell supplies it great struc-

tural strength . . . it's a welded unit that is virtually rattle-free.

The ride is fantastic. But to get it we had to design *independent suspension* at every wheel; conventional springing would give a compact car a choppy ride. Right now we'll make one prediction: no other U.S. compact car will ride so comfortably, hold the road so firmly and handle so beautifully.

Now there are two kinds of cars from Chevrolet—because it takes two kinds of cars to serve America's needs today. If you love luxury—the utmost in luxury—and if you want generous interior space, breath-taking performance, automatic drives and power assists—then the conventional '60 Chevrolet may be your choice.

If easy parking, traffic agility and utmost economy are high on your list—then you should seriously consider the Corvair. But the best thing to do is to look these two new cars over at your Chevrolet dealer's . . . take them out for a drive. It may be that the only logical choice for your family between two cars like this is—both. They make a perfect pair.

## It Pays To Keep "Paid Up"

Good credit is a marvelous asset. It shines like a precious gem in the world of business and brings prestige and respect to the owner. Once lost, it returns slowly, and with difficulty.

You can keep your credit good by buying only what you can afford and then making the payments promptly. It's well worth the effort.

NOT ALL TEENAGERS ARE DELINQUENT—

# Youngsters Should Realize Responsibilities

BY DON WATKINS  
During the summer months, opinions concerning young people as I do, I have written Friona Star and its editor, who, incidentally, shares the same numerous of articles and hund-

reds of lines extolling the wonderful virtues of our local teenage population.

We have attempted, in our meager fashion, to answer criticism aimed at the youthful gentry of our country; to show, as it were, that Not All Teenagers Are Delinquent.

As school has once again opened its doors for another term, and as space is limited, the series shall end with this article.

This series was begun with a male. We shall end with females.

Jimette McLean, 15 year old daughter of Mr. and Mrs. James C. McLean of Friona is one of the good youngsters around here. She has been a member of the band for three years, won a letter in basketball during the eighth and ninth grades, a member of the 1958-59 Student Faculty Congress and is a member of the Trebelaires. She is Worthy Associate Advisor in the Friona Assembly of the Order of the Rainbow for Girls, has been awarded a five-year pen for perfect attendance in Sunday School, and achieved the Jr. Homemaker degree in the Future Homemakers of America and is the song leader in that club.

These are a few of the items that Jimette can claim. I believe it would be safe in stating she would not be of the caliber to spoil the barrel of apples, so to speak.

Another fine young person in our community is Linda Castleberry, 15 year old daughter of Mr. and Mrs. Ray Castleberry of Friona. Linda is a sophomore this year and plays the clarinet and oboe in the high school band.

She has participated in sports since she was in the sixth grade and has earned letters for both the eighth grade and ninth grade teams.

She has also played tennis, volleyball and track.

She is an officer in the Future Homemakers of America and has been a member of that organization for two years. She has taken piano lessons for eight years and was pianist for the junior choir and plays frequently for the First Baptist Church.

Linda is another teenager

JIMETTE McLEAN

LINDA CASTLEBERRY

MARY ANN BOGCESS

of whom the community can look to with pride and another who will not create bad thoughts for the younger set.

Still another good example of fine young people is Mary Ann Boggess, 15 year old daughter

of Ranza Boggess and Mrs. Mary Mosely of Friona.

Mary Ann is also a sophomore this year. She has participated in the girl's basketball program since the seventh grade and has earned a letter each year. She

was a co-captain of the eighth grade basketball team, the vice-president of the eighth grade class and a member of the pep club and the band.

In high school, she has belonged to Future Homemakers

of America, Student Faculty Congress, Science Club, band and Thespians. She played volleyball and track in school and last year during the girl's track meet, she won five first place ribbons.

Also as a freshman, she was elected favorite of the Freshman class and most school spirited of the same group.

She is a member of the Order of the Rainbow for Girls and the M. Y. F.

She makes her own clothes

at times and says "When I'm not busy I enjoy reading." Riding horses, swimming, water skiing and shooting her bud's 22 rifle is also on this girl's list of FEW activities.

Mary Ann is another that the community can feel glad to have around, because, with this type of young people, we can be certain that the barrel of apples will continue to be rosy red rather than a stained brown.

Modern traffic is more deadly than war.

ONE OF THE VEHICLES--This pickup, driven by Elmer Euler of Friona was involved in a head-on collision atop the dike at the Santa Fe crossing south of Friona Friday night. Euler is now in Amarillo being treated for injuries received in the crash. The other vehicle, driven by Perry Jo Fischer of Lovington, N. M., was also termed a total loss. She received only a broken nose in the accident.

Mason, secretary; Mrs. J. B. Young, treasurer. New teachers were introduced to the group by the school superintendent, James Ward. Mrs. Boyd's third grade room won the prize of \$2.00 for having the most parents present.

SENIOR RINGS ARRIVE

Senior class rings arrived recently at the school. They are gold rings with sapphire stones. An interscholastic emblem and a Longhorn adorn the sides of the rings.

SERVICES ARE IN NEW BUILDING

The First Baptist Church had church services Sunday in the new building. The building is built along modern lines. An invitation is extended to the public to attend special services at the church Sunday.

Rev. Swanner, district missionary, will be guest speaker and dinner will be served at the church.

John Neil Agee who is in a wheel chair recovering from a broken leg has not missed a day of school since registering. Y. B. Mayfield was dismissed from the Friona Community Hospital Thursday.

Visiting in the Olen Ivy home Sunday were their son, Chunky and wife, Ginger from Lubbock and Mr. and Mrs. J. Mathews and children.

Mr. and Mrs. J. McDonald were host and hostess for a supper Friday evening. Those present were Mr. and Mrs. Bob Anderson, Derby, Kan.; Mr. and Mrs. J. H. McDonald and Mr. and Mrs. Leroy McDonald from Farwell and Mr. and Mrs. Don McDonald and children from Lazbuddie.

The Green Thumb club will meet Friday in the home of Mrs. J. A. Young. The group will go on a field trip to inspect flower gardens in various community homes.

S. T. Tipton, accident patient, was dismissed from the West Plains hospital Tuesday. He is able to be up in a wheel chair part of the time.

Weekend guest in the W. S. Menefee home was their grandson, Keith, from Texas Tech.

Mr. and Mrs. Dan Cargile visited last week in Dickens and Roaring Springs with relatives.

Mr. and Mrs. Truman Gleason, Linda and Bobby were guests in the home of his brother and family, Mr. and Mrs. Paul Gleason of Odessa.

Mr. and Mrs. L. F. Gleason from Anson are visiting this week with the Truman Gleasons. They are his parents.

News From LAZBUDDIE

Services held in the Lazbuddie Methodist Church for three nights recently were conducted by Rev. Bill Hardwick from the Hamlin Memorial Methodist Church. "Church Loyalty" was the theme of the special meetings.

Mr. and Mrs. Jody Shipping visited in the home of Mr. and Mrs. T. D. Vaughn and Mrs. Annie Vaughn Sunday.

Rex Steinbock, T. D. Vaughn, Raymond McGeehee, Demp Foster, R. Steinbock and Kick Steinbock were weekend fishermen at Conchas Lake.

Mr. and Mrs. Sam Long, Beckie and Rickie were Saturday guests in the W. S. Menefee home. Sunday the group attended the funeral of Mr. O. G. Hill at Hereford.

Rain, wind and hail did severe damage to several crops in the area Friday.

Visiting in the I. B. Wimberley home Saturday night were Mrs. Wimberley's parents, Mr. and Mrs. W. F. Wimberley from Portales.

Mrs. Roney Smith and Terri from Earth are spending the week with Mrs. Smith's mother and father, Mr. and Mrs. Jimmy Ivy.

Jimmy D. Ivy returned to Austin with Roney Smith where he will enter law school.

The WMU of the First Baptist Church met Tuesday morning, Wednesday evening and Thursday morning at the church for the week of prayer programs. Attending the services were Mesdames, Bert Gordon, T. D. Reed, F. W. Green, W. S. Menefee, Jack Black, Ira Wimberley, Wesley Barnes, Jewel Treider, R. C. Treider, J. H. Withrow, Raymond Joustin, A. E. Redwine and Thomas Jarrell.

Longhorns won their first two games.

SOPHOMORES ELECT CLASS OFFICERS Officers elected in the sophomore class recently were president, Wanda Bean; vice president, Janice Darling; secretary-treasurer, Kay Burreson; reporters, Eva Dean and Don Watson. Class sponsor is Jack Black.

FRESHMAN OFFICERS ARE CHOSEN President of the Freshman class for the 1959-60 year is Jerry Engelking; vice president, Gerald Foster; secretary, Leroy Cox; reporter, Elaine Vanlandingham; treasurer, Glendale King; sergeant of arms, Carroll Redwine and class sponsor is Scotty Windham.

FARMERS UNION HAS MEETING The Farmers Union met in the school lunchroom Monday evening to elect new officers. President for the 1959-60 year will be Freeman Davis; vice president, J. R. Harris; secretary-treasurer, Mrs. J. C.

Redwine. A report on youth camp was given by Debra Bullock and Linda Lesley. Refreshments of pop, coffee and cookies were served.

LAZBUDDIE BIRTHDAYS FOR THIS WEEK Happy Birthdays this week goes to Don McDonald, Sept. 24; Leatrice Gallman, Sept. 23; Danny Miller, Sept. 21; Robert Alton, Morris, Sept. 24; Linda Lesley, Sept. 21; Helen Walker, Sept. 24; Coach Albert Clark, Sept. 21; Charlie Garza, Sept. 21; Ann Miller, Sept. 21; Linda Ashford, Sept. 24; Glenda Robinson, Sept. 23; and Earl Ryden, Sept. 20.

HD CLUB HAS MEET The Home Demonstration club met with Mrs. W. G. Harlin on Tuesday afternoon. Elected as secretary-treasurer of the club was Mrs. Dee Chitwood. Eleven members were present for the meeting.

PTA MEETS The PTA has the first meeting of the year Tuesday. New officers elected were Mrs. Joe Jesko, president; Mrs. Buck Crim, vice president; Mrs. Lee

Henry Drummond wrote a sermon on love which is still world famous and he entitled it, "The Greatest Thing in the World." This title is no exaggeration. To live a life in which every thought, word, and deed is energized and prompted by divine love is the duty and privilege of every child of God. Jesus said, "Whoso shall offend one of these little ones which believe in me, it were better for him that a millstone were hanged about his neck, and that he were drowned in the depth of the sea." According to Jesus, then, "it is better not to live than not to love." In our homes, our hearts, our churches, there is nothing more necessary today than a mighty resurging revival of divine love!

# Of Interest To THE WOMEN

## Showers Honors Janiece Bock

Janiece Bock, who will become the bride of J. W. Baxter Sunday, was guest of honor at two showers recently. Tuesday of last week Mesdames H. K. Kendrick, J. T. Gee, Frank A. Spring, S. T. Thornton, Deon Awtrey, George Jones, W. H. Ford, Dorothy Hough, Clyde

Sherrie, E. S. White, J. G. McFarland and Ralph Roden were hostesses at a miscellaneous shower in the McFarland home.

The serving table was covered with a medallion cloth of lace and linen and centered with an arrangement of white glads and

asters in a silver epergne. Those in the receiving line were the honoree, her mother, Mrs. Hugh Blaylock, and the prospective bridegroom's mother, Mrs. Bill Baxter.

Attending and sending gifts were Mesdames Jerry London, Jim McLean, Foister Rector, Jim Baxter, Jesse Sinclair, Dick Rocky, George Taylor and SuZanne, A. A. Crow, Dwaine Key, Kenyth Cass and Charles Allen;

Also Mesdames Dan Ethridge, Hugh Blaylock, Lloyd Rector, Bill Baxter, Oscar Baxter, Louis Baxter, Eugene Nidey, Calvin Martin, Clarence Martin, Larry Martin, O. J. Beene, H. K. Kendrick, H. C. Kendrick, J. T. Gee, Frank A. Spring, S. T. Thornton, Deon Awtrey, George Jones, W. H. Ford and Dorothy Hough;

Also Mesdames Clyde Sherrie, E. S. White, J. G. McFarland, Ralph Roden, Herschel Johnson, Roy Simmons, Guy Latta, Newman Jarrell Jr., Andy Hurst Jr., Ella Sulser, Billy Sides, I. T. Graves, Cecil Bass, Jack Moseley, Jake Lamb, Wesley Foster and Charlie Baxter;

## Local Girls Pledge Sororities

Two Friona students at Texas Tech, Doris McFarland and Patsy Anthony, have pledged social sororities on the campus. According to an announcement made by Dr. Florence Phillips, dean of women, 272 coeds pledged 11 national sororities.

Miss Anthony, daughter of Mr. and Mrs. A. W. Anthony Sr., pledged Phi Mu and Miss McFarland, whose parents are the J. G. McFarlands, pledged Sigma Kappa.

Both are 1957 graduates of Friona High School and junior students at Tech.

Bainum. Others attending and sending gifts were Mrs. Hugh Blaylock, Mrs. Bill Baxter, Phyllis Bainum, Adelle Smith, Pat Foster, Jacquelyn Magness, Sue and Ann Baxter and Charlotte and Judy Bock.

Safety is always in season.

# NOW... '60 CHEVROLET TRUCKS

WITH REVOLUTIONARY  
TORSION-SPRING  
SUSPENSION  
THAT GIVES ASTONISHING NEW  
SHOCKPROOF  
ACTION !!!!!

Chevy's done the next best thing to paving every road in America!

First they threw out the front axle and put in torsion-spring independent suspension. Then they built wide-base coil rear springs into most light-duty models, variable-rate leaf springs into heavies. That made it—a ride you have to feel to believe. A ride that lets you move faster to get more work done in a day's time.

**Brawnier bulldozer build!**

Frames are stronger, cabs 67% more rigid. Front wheels and tires are precision-balanced. And that new suspension cushions jars and road shock that used to spell slow death for the truck's body and sheet metal.

**More comfortable cabs!**

Easier to hop in and out of too. Many models are a whole 7 inches lower outside. Yet there's more head room inside, plus more width for shoulders and hips. More real comfort!

**Big in the power department!**

With the industry's most advanced gas-saving 6's. With high-torque Workmaster V8 performance in heavyweights. With new 6-cylinder or V8 power available in L.C.F.'s.

**More models than ever!**

New 4-wheel-drive models and tan-dems and high-styled Suburban Carryalls. It's the handsomest, hardest working Chevy fleet ever to report for duty. See your dealer soon for a ride!

Anything less is an old-fashioned truck!

## Seventh District Texas Federation Of Women's Clubs Conducts Fall Workshop Here

A large number of club women from 49 West Texas counties registered Thursday for the all-day fall workshop at the First Baptist Church here. The Seventh District Texas Federation of Women's Clubs, which has been one of the leading districts in the state for a number of years, will soon be divided into two districts.

Registration began at 8:30 and closed at 9:30. An executive meeting followed registration.

Assembly opened in the church auditorium at 9:30. Mrs. A. T. Cocanougher, Lubbock, district president, presided. The devotional was presented by Mrs. Charles Allen of Friona. Mrs. Hollis Horton, also of Friona, gave the welcome and the response was given by Mrs. A. E. Boyd of Plainview.

Reports were given by Mrs. Dan Ethridge of Friona, year-book chairman; Mrs. George Poulson of Lorenzo, club report chairman; Mrs. L. H.

Lookingbill of Hereford, chairman of conservation of natural resources; and Mrs. Roy McQuarters of Littlefield, Texas heritage chairman.

Mrs. McQuarters reported that plans have been made for the entire district to cooperate in a proposed project to provide and erect markers for the trail followed by Coronado when he made his expedition through this area.

All clubs in the district will have a part in this project and much groundwork has already been done on it. Several markers will be in the immediate area and are to be installed within the next few months.

Mrs. L. E. Dudley of Abilene, Texas Federation of Women's Clubs past president, gave a report to the group. Mrs. L. E. Dunlap of Littlefield, district program chairman, introduced the guest speaker, Miss Esther Sorenson, Lubbock Regional Director of Homemaking, State Department of Educa-

tion. Miss Sorenson used as her topic, "Wanted! Key Women." She pointed out that every woman who does her job well is in reality a key woman. She further explained that the most important phase in the life of any wife and mother is making a home and properly rearing her children.

When asked for a suggestion on the best way to improve world conditions, Miss Sorenson replied, "If you wish to improve world conditions, begin with yourself."

During the noon hour a buffet luncheon was served. Special music was presented by the Trebelaires directed by Mrs. Roy V. Miller Sr.

Mrs. Pearl Kinsley, a charter member of the Friona Women's Club, was presented a corsage in recognition of fifty years continuous service in the club.

Following adjournment, members of the Friona Women's Clubs entertained with a tea at the club house.

## Girl Scout Notes

Girl Scout Troop 144 met at the home of Mrs. Jim McLean Monday of last week for their investiture service.

The ceremony was held outdoors. The girls stood in a horseshoe formation behind a table. A brown vase decorated with a gold brownie trefoil was filled with yellow marigolds.

An empty green vase decorated with a gold Girl Scout trefoil was on the table. As each girl approached the table, she took a flower from the brownie vase, recited the Girl Scout law and placed the flower in the Girl Scout vase to signify her promotion.

Each girl was then presented a pin and the Girl Scout promise was repeated in unison. Each pin was placed upside down until a good deed was done then it was turned upright.

Girls invested were Brownie Cole, Linda Fallwell, Terri Sue Mabry, Martha Ann Martin, Becky Turner, Shirley White and Terri Lynn Wilson.

Others present were Mrs. Claudia Cole, Janeta and Johnnie; Margie Stewart, and the two leaders, Mrs. Elroy Wilson and Mrs. Jim McLean. Refreshments were served by Brownie Cole.

## Second Son Born To Ronny Fergusons

Mr. and Mrs. Ronny Ferguson became parents of a baby boy at Parmer County Community Hospital Tuesday. He weighed 7 lbs. 5 ozs. and was named Donovan Eugene.

The Fergusons have an older son, Gary, 2. Ferguson is employed by Plains Publishers. Grandparents are Mr. and Mrs. E. F. Ferguson of Route 1, Tecumseh, Okla., and Mr. and Mrs. C. L. McDaniel of Route 1, Texico.

## Modern Study Club Has Regular Meet

The Modern Study Club met in regular session Tuesday evening at the club house. The program entitled "The Foundation-Love" was presented by Willard Stewart, Odie Claborn, Decima Beene and Billie Dodd.

The opening prayer was directed by Mary Kate Zeman. Refreshments were served to 17 members and one guest, Mrs. R. N. Couch of Pecos, by the hostesses, Louisa Wilson and Grace Whitefield.

## Girl's Auxiliary Has Regular Meet

At the Tuesday afternoon meeting of the Ann McKenzie Girl's Auxiliary of the First Baptist Church, the meeting was called to order by Judy England, president.

Terri Lynn Wilson read from the 17th chapter of John after the group sang "Give of Your Best To The Master." Then Mary Margaret Sheehan led a prayer and Lyndia Chandler played "Just Like Jesus" on the piano.

After the singing of "We've A Story To Tell To The Nations," the meeting was closed.

Viddian Weis of Lubbock spent the weekend with his parents, Mr. and Mrs. Karl Bender. Sunday the Benders and Weis visited with Mr. and Mrs. Alex Stevens and children and Mr. and Mrs. Vialo Weis and children in Amarillo.

## Koelzer Takes Cleric Vows

Friar Louis Koelzer, S. Z., son of Mr. and Mrs. Bernard Koelzer of Route 1, Friona,

professed his final vows as a Cleric of the Graymoor Friars on September 8, in our Lady of the Atonement Chapel at Graymoor, Garrison, New York. Friar Louis attended Lazbudie elementary and high

schools. Further studies were made by the Friona man at St. John's Atonement Seminary, Montour Falls, N. Y., and St. Pius X Seminary, Saranac Lake, N. Y.

## Leading Southwestern Farmers Say— Plow Down Ammonia in the Fall

One High Plains farmer said: "I prefer to plow down Phillips 66 Ammonia in the fall on my maize land. The ammonia helps rot down residues, makes the soil easier to work. And I get high, profitable yields."

Other successful Southwestern farmers prefer to apply Phillips 66 Ammonia early on crop residues. Its 82% nitrogen stimulates soil bacteria, the bacteria rot down the residue, and return extra plant food to the soil.

Phillips 66 Ammonia resists leaching... any unused nitrogen remains in the soil to

boost yields and profits for your oncoming crops. Another benefit of fall plow down of ammonia is getting this important task out of the way ahead of the big spring work load.

If you haven't plowed down ammonia before in the fall, talk to your Phillips 66 Ammonia distributor. He can give you names of farmers in your area who have profited through fall application of Phillips 66 Ammonia. And he'll be glad to work out the right amounts and the best time to apply the ammonia.

Order Your Supply of Phillips 66 Agricultural Ammonia Today!

## Baby Girl For Lee Springs

Dr. and Mrs. Lee Spring became parents of a baby girl Thursday, Sept. 10, at Parmer County Community Hospital. She weighed 7 lbs. 8 ozs. and was named Sylvia Anne.

Grandparents of Sylvia Anne are Mrs. F. L. Spring of Friona and Mr. and Mrs. H. H. Moore of Burnley, Lancashire, England.

**HOW WOULD YOU PAY \$155,000?**

The other day, not far from here, a jury awarded \$155,000 to a pedestrian seriously injured in an automobile accident.

Chances are the motorist was only PARTLY covered by insurance, and much of the \$155,000 came OUT OF HIS OWN POCKET—somehow.

This could happen to you, unless you have ENOUGH automobile insurance. And if you already have some, then the added insurance protection you need costs only a few dollars more.

Let me check your protection for you. Call me today at 8811

## New Members Welcomed

New members of the Future Nurses Club were welcomed at a Tuesday afternoon meeting at the high school building. During the business new members were elected, the by-laws and constitution of the club were explained and objectives for the coming year outlined.

Officers elected were Jolynda Stokes, president; Jerri Cochran, vice-president; Brenda Collier, secretary; Sally Hough, treasurer; and Carol Coffey, chaplain.

Others present were Brenda Deaton, Judy Taylor, Gayle Knight, Mary Ann Boggess, Darla Bingham, Joella Taylor, Mary Knight, Susan Perry, Gloria Patterson and Mary Hadley; and sponsors, June Spring and Marie Carroll.

## GUIDE FOR USE OF DEFOLIANTS

Chemical name	Name of defoliant	Percent active ingredient(s)	Rate per acre	Dilution Information
-- DUSTS --				
Calcium cyanamide	AERO cyanamid	57	30-40 lb.	None
Sodium chlorate	Shed-A-Leaf "D"	50	20-25 lb.	None
Sodium metaborate				
-- SPRAYS --				
Amino triazole	Amino Triazole Defoliant and Growth Inhibitor	90	1-2 lb. alone or ¼-1 lb. in mixture	Apply in 5-10 gal. water by air, 15 or more gal. water by ground sprayer. Mix with ½ the recommended rate of other water soluble defoliant and apply at above rate or follow instructions on label.
	Meeno	90	1-2 lb. alone or ¼-1 lb. in mixture	Same as above.
Endothal	Penco Endothal Harvest Aid	6.3	4-5 qt.	5-10 gal. water per acre by air, 10-25 gal. by ground applicator.
	Magron	40	2-3 ½ qt.	5-10 gal. water per acre by air, 20-30 gal. by ground applicator.
Magnesium chlorate (hexahydrate)	General Chemical E-Z Off Liquid Defoliant	18.15	1 ½-2 gal.	5-7 gal. water per acre by air, 15-20 by ground.
	Niagara M-C Defoliant	58	7-10 lb.	5-10 gal. water per acre by air, 15-25 by ground.
	Penco De-fol-ate	60	7-10 lb.	5-10 gal. water per acre by air, 10-30 gal. by ground.
Merphos	Ortho M-C	58	7-10 lb.	10 gal. water per acre by air, 10-20 gal. by ground.
	Folex	72	1 ½-2 lb.	7-10 gal. water per acre by air, 20-30 gal. by ground.
3,3,3-Tributyl Phosphorothriothioate	DEF Defoliant	88	1 ½-2 lb.	Dilute with enough water to wet plants or follow instructions on labels.
Sodium ethyl canthate	S.E.X.	90	4-8 lb.	Use enough water to wet plants, or follow instructions on label.
Sodium chlorate	Shed-A-Leaf 'L'	18	6-8 qt.	7-10 gal. water per acre by air, 20-30 gal. by ground.
Sodium pentaborate	Chlorate-Borate Liquid Defoliant	40-52	1 ½-2 gal.	Same as above or follow label instructions.
Sodium chlorate-sodium pentaborate-sodium tetraborate	Ortho C-1 Defoliant	40-45-11	5-10 lb.	5-10 gal. water per acre by air, 10-15 gal. by ground.
Sodium chlorate-sodium metaborate	Fall	18.5	1 ½-2 gal.	Mix with water to give good coverage or follow instructions on label.
	Drop-Leaf	18.5-12	1 ½-2 gal.	Same as above.
-- DESICCANTS FOR STRIPPER HARVEST* --				
Pentachlorophenol	Leaf-Kil	38-2.0-30-30	2 qt.	Add to 4 ½ gal. diesel fuel or kerosene. Apply this 5 gal. with 3 nozzles per row at 40 p.s.i. at tractor speed of 4 mi. per hour.
	Golden Harvest Crop Dryer	44	2-3 qt.	Dilute with enough colorless fuel oil No. 2 to give uniform coverage or follow label instructions.
Pentachlorophenol	Permaguard Defoliant Concentrate	40	2 qt.	3-6 gal. diluted solution per acre using distillate, fuel oil, diesel oil or kerosene.
	Stauffer Penta Concentrate	40	2 qt.	Dilute with enough colorless fuel oil or kerosene to give uniform coverage or follow label instructions.

\*Pentachlorophenol and arsenic acid both are primarily desiccants rather than true defoliants. Because of their severe action on plant tissues they should not be used on immature cotton. Use only when all bolls are fully mature and cotton is over 60 percent open.

# Count Bolls Before Applying Defoliants

Cotton farmers in the Parmer County area need to take special pains to count their open cotton bolls this year before they rush in with chemical defoliants, advises County Agent Joe Jones this week.

At this point, very little of the 1959 cotton crop is open, although some picking is already started on early-planted fields. On the whole, the cotton is still "making" and won't be ready for chemical defoliation for some time yet.

It is recommended that at least 50 per cent of the cotton be open before "true defoliants" are applied to the crop. True defoliants (as distinguished from desiccants) do not kill

the plant, but "knock it" hard enough to cause it to shed its leaves.

The purpose of this artificial stimulation of leaf-shedding is to allow sunshine and warm air in to mature and help the bolls open and make cotton.

On the whole, this will be a poor year for defoliation, because the biggest part of the crop is so young that it will probably not be ready for defoliation until after a frost comes anyway.

Just the same, the weather could continue warm and favorable for making cotton, so it's wise for farmers to be prepared to defoliate if it becomes advantageous to do so, says the agent.

Plains Cotton Growers recommends: "Defoliants and desiccants are recommended if the crop reaches maturity before frost. Applications before 60 per cent of the bolls are open usually lower the micronaire

(fiber fineness)." \* \* \* \*

Desiccants amount to cotton plant poisons, and kill the plant outright. This stops all growth and deterioration of the plant immediately sets in. Since this is the case, desiccants should not be considered unless the cotton is fully mature, and that means 90 per cent of the bolls open.

For this part of the Plains, desiccants are seldom used because of the need for the cotton to be fully matured. This is especially true this year when it is not likely that any of the Parmer County area cotton will be completely through with growth by time frost does come.

A farmer who uses desiccants runs the risk of stripping bark and perhaps the whole plant along with the cotton if he doesn't know what he's doing, warns Jones. "You can sure get into trouble if you don't know what you're doing."

## Parmer Included In Farm Survey

This month the USDA, in cooperation with the Post Office Department, is conducting an annual acreage survey. Rural mail carriers are delivering 30,000 cards to Texas farmers and ranchers. The cards list questions on crop acreages and livestock. Carriers pick up the completed cards and forward them to Cary Palmer, Agricultural Statistician for Texas in Austin.

Palmer urges farmers to answer and return cards to mail carriers. "This survey," he points out, "serves as a basis for estimating the state's farm production. Every report helps to make accurate estimates."

## MORE EFFICIENT LOCOMOTIVES

Railroad locomotives today pull great loads in proportion to their weight because of the tough, strong, long-lasting nickel alloy steels used in their construction.

## COSTLY HAIRSPRING ALLOY

A nickel-chromium-iron alloy, in the form of hairsprings of watches, costs about \$50,000 a pound -- 100 times the cost of gold.

## Max Eubanks Wins First In Show

Max Eubanks won the Parmer County Sears Pig Show last week. For having the leading gilt he received a cash prize of \$7, which will be used to buy lumber, wire, or other equipment for his swine operation.

Taking second place for \$6 was Larry Flowers. Third place and \$5 went to Larry Gregory, and Danny Miller got \$4 for fourth place.

The Sears gilt program has operated through 4-H Club members in Parmer County for many years.

If all the glaciers and ice caps in the world melted, the level of the seas would rise by 500 to 600 feet, covering 85 to 90 per cent of the earth's surface.

sites where it cures out early it is fourth choice.

It is important for a rancher to find out just how much of each of these grasses he has in each pasture and stock for the best grasses during the summer. He can then plan on grazing the rest of the grasses during the winter time, but always leaving adequate amounts on the land to protect the soil and build up litter.

Ranchers who are cooperating with local Soil Conservation Districts might plan to check with the technicians of the Soil Conservation Service assigned to the district for an up-to-date survey which will serve as a basis for range management.

The milkfish (chanos chanos) is known by various names such as bandeng, white mullet, salmon herring and others. The fish is a vegetarian and bread is recommended for bait.

A 15- to 20-pound line is not too heavy for really large bass when they must be kept from tangling in unclear water.

## SOIL CONSERVATION DISTRICT NEWS

Rangelands have improved greatly during the past three years. Most areas have received above average precipitation which has usually come at the right time. The sunflower stage of 1957 has passed which was followed by the winter weeds stage. This too has passed and almost everywhere the perennial grasses are covering the ground.

Now is the time for ranchers to start thinking seriously about long range management plans. How about the need for cross fences to divide pastures that are too large? Water facilities should be checked to see if they are adequate for the proper distribution of cattle. A properly-located pond might stop gully erosion as well as supply needed water for livestock. If there are bare or nearly bare areas around watering locations or near the headquarters maybe rotary pitting along with range seeding would be the answer. Grasses are much easier to establish during the wet cycles than during a drought. Brush control should be planned.

Not to be forgotten is grazing management. Too many ranchers do not base their grazing on the preferred plants, that is on those eaten first by cattle. It is these plants that produce the highest tonnage per acre if managed properly and because of their extremely high protein content cattle will gain faster than on less desirable grasses.

What grasses do cattle like? During the spring cattle prefer Western wheatgrass. Later in the spring and throughout the summer cattle prefer the blue-stems, Indiangrass and switchgrass. If these are not available they then prefer sideots grama. Blue grama is taken on a third choice basis. Buffalo grass is desired about like blue grama, but on droughty

COMING FOR 1960...

## Your First Complete Automobile Dealer!

Beginning October 8, you'll see America's greatest show of cars at America's greatest range of prices... all under one roof... at your Ford Dealer's! Here's our great lineup for 1960:

**THE NEW 1960 FORDS.** On October 8, we'll show you new kinds of cars: economy-minded Fairlanes, big-value Fairlane 500's, elegant new Galaxies and station wagons... and the flashing, new, trend-setting Starliner.

**THE NEW FORD FALCON.** On October 8, you'll see the exciting New-size Ford—the Falcon. It seats six, delivers up to 30 miles per

gallon of regular and is now climaxing 3 years and 3 million miles of development in a spectacular Experience Run over every mile of numbered U. S. highway.

**THE 1960 THUNDERBIRD.** The world's most wanted car goes finer than ever in luxurious styling, dramatic performance and exquisite elegance!

In addition, we offer a whole new line of 1960 Ford Trucks, a choice selection of A-1 Used Cars and Trucks, Genuine Ford Parts and Service. Whatever your automotive needs, you'll find the finest at your Ford Dealer's—America's first complete automobile dealer!

## THE PARMER COUNTY IMPLEMENT CO.

# -- NEWS --

"The Place Where Most People Trade" Friona, Texas Wednesday, September 23, 1959

The all new 1960 Oldsmobile will be on display at the Parmer County Implement Company October 1 and 2. Make a date to visit us then.

**PCICN**  
Little Miss Kitty Mullins and her grandmother, Mrs. J. A. Mullins, of Lubbock were at the Friona Methodist Church Sunday morning where Kitty accepted a gift of a Braille New Testament from members of the Junior II Sunday School class. After church all the members of the class and their families were hosts at a covered dish luncheon in Fellowship Hall for Kitty.

This New Testament consists of four huge books that are rather cumbersome to carry about, but Kitty was so very happy to have a real Bible of her very own that she could read.

Mrs. Andy Hurst Jr. and Mrs. Joe Moyer are teachers of this Sunday School class.

**PCICN**  
Mr. and Mrs. H. K. Kendrick and children returned to Friona Saturday from Tyler where they had been to attend the funeral of Mrs. Kendrick's grandfather.

**PCICN**  
Russia says that Adam and Eve were loyal children of Mother Russia. Guess that's right. They had no shelter, only fig leaves for clothing; lived on apples and thought they were in Paradise--just like the rest of the Russians.

**PCICN**  
The cannibal who got hold of a Lions Club inspirational booklet put it with his cookbooks. After all the title was "How to Serve Your Fellow

Man."

**PCICN**  
Let's talk farm equipment! Got troubles? Call Bill Edelson, shop foreman at the Parmer County Implement Company. He will soon have your farm equipment running smoothly again.

Need some parts? See our parts man, Bill Holcomb, for quick service. New equipment is what you need? We'll all be glad to see that you get an on the farm demonstration of any kind of new farm equipment.

**PCICN**  
Carl Schlenker, who won the boat given away by the Friona Fire Department during Maize Days, says he just has to buy or win a big motor somewhere. Carl, who lives at Rhea, has kept his children satisfied so far by loading them in the boat and pulling boat and trailer down the road.

First, the children were happy at 30 miles per hour. Then, they wanted to go 40, and then 50, and Carl says for his own and the children's safety, he's got to get a motor and put that boat in the water.

**PCICN**  
The young man, leaving for college, announced that he was going to study medicine. "I've decided to be an obstetrician," he said.

"Well, I'd think twice about that," counselled his grandfather.

"You spend all that time learning to treat just one ailment and bang--six months later some fool comes along with a cure."

**PCICN**  
David came home very sor-

rowfully and said to his mother, "Today I made a little boy cry."

"What made you do that?" asked our mother.

"Well, I was playing like I kicked him and he backed up," said David.

**PCICN**  
The Gordon Shackelfords visited his mother and father, Mr. and Mrs. Bert Shackelford last week. Gordon and his family live in Perryton, where he is the Texaco agent.

**PCICN**  
The best way to save face is to keep the lower part of it closed.

**PCICN**  
Said David, with a sly grin, "I know a boy who is in the third grade and he's only three years old."

"I don't believe it," said John Bill.

"Yes, he is," replied David, "his birthday is leaping around. He was born on leap year day."

**PCICN**  
You'll have to hurry if you kill all the Johnson grass on your farm before frost. The best time to apply sodium chlorate for sure kill is right now. We have plenty of sodium chlorate for sale.

**PCICN**  
Charles Baldwin, educational director of the First Baptist Church directed the singing for a revival at the Slaton Baptist Church. Rev. Fields, formerly of Friona, is pastor of the Slaton church. While Baldwin was away, Charles Allen directed music for the local church.

PCICN

WORKING ON HIS 4-H RECORD BOOK, Richard Chitwood of Lazbuddie put in a lot of hours to win the district-wide contest. He is the son of Mr. and Mrs. Dee Chitwood.

## Lazbuddie Boy Wins State Fair Award

A Lazbuddie boy, Richard Chitwood, has won the State Fair Award Honor for his work in 4-H Club. The announcement was made this week.

Richard, who is the 14-year-old son of Mr. and Mrs. Dee Chitwood of Route 3, Muleshoe, will represent District I at the State Fair of Texas October 16 and 17. He will be a special guest of the fair.

The Parmer County 4-H Clubber won his award on the record book he submitted, covering his activities in clubwork. He has been in 4-H work six years, and has had beef calves and cotton and grain sorghum crops as projects.

The Lazbuddie High School

sophomore has assumed much responsibility in county club work, and has served on many committees and working teams. He has assisted with the tractor maintenance school, the county March of Dimes drive, recreation school, and other activities.

He will be chairman of the Parmer County 4-H Council in 1960.

There are 23 counties in District I. The only other time a Parmer County youth has ever won the honor was in 1955 when Leon Langford was winner.

No matter whose payroll you're on, you are working for yourself.

## THE PARMER FARMER

by W. H. Graham Jr.

This is the first week of fall, insofar as the calendar is concerned, since fall does not officially start until September 22. However, the "feel" of fall has been unmistakably in the air for several weeks now, especially in the mornings just at sunrise.

Fall always brings the traditional county fairs, and a few years back we could remember when county fairs were really big events for people of the High Plains. Today it is another story, and folks are pretty indifferent about such country exhibitions.

There are still a number of county fairs around the country that are holding together pretty well, but for the most part, fairs -- like the old time circuses -- are on the way out.

Parmer County's last fair was in 1955. That year was one of several in which interest had declined in all exhibits, and so it was finally decided to abandon the project. Nobody ever mentioned having a fair in 1956, at least not to us, and so far as we have been able to tell, there weren't any tears shed over the fair's passing.

County fairs are folding, or are in very unstable conditions, all around us. Even in a county so proud of its agriculture as is Hale (the leading county in Texas in farm income), and its county fair is practically past going. This year's exhibition drew only 3500 lookers -- a paltry turnout in an area such as Hale County.

Bob Hamilton of the Plains Farmer in Plainview tells us that fair boosters are about ready to give up the ghost, and that about the only thing that can save their show would be public approval of a bond issue to build a new pavilion, and he is skeptical that this issue will pass.

What is the reason for the decline in small fairs?

Several factors stand out and are immediately recognizable. Others are less distinct. Probably the foremost one in the case of the irrigated Plains, where cotton, grain sorghum, and wheat produce three-fourths of the total farm income, has been the specialization of agriculture here to a "cash crop" basis in the past 20 years.

The old-time county fairs, which were showplaces of agricultural diversification, don't make much sense in an area where the cow, sow, and hen philosophy has long gone by the boards.

Parmer County, for example, is down to just one or two

Grade A dairy herds. We had 40 just 15 years ago. Beef cattle production here is largely a matter of stockers, feeders, and finishing them out. We aren't interested so much in breeding and maintaining a top herd.

How many farmers do you know who have a top flock of chickens? We can't think of a one. Now name the farmers who take a real interest in swine. In most of the cases you'll be able to think of, it will be found that the 4-H and FFA boys have pigs for projects, and that's about the size of it. There is an increasing amount of interest in feeding hogs of course, but programs such as these don't have much to offer in the way of prize stock for exhibitionary purposes.

Now, let's look at the home department. It happens that we are fortunate to have a very active county home demonstration agent and the HD groups over the county are always busy. However, no one will argue that the women's interest in canning, cooking, sewing, and other fine arts of the home is on the wane.

If we could call this trend "bad", then we can say that farm wives are as "bad" as their friends in town when it comes to buying their pancakes, biscuits, cakes, frostings, and even whipped potatoes ready-mixed and ready to go with a minimum of effort. The modern farm kitchen looks every bit like its big-city counterpart these days, which is good for the gals, since it gives them more time for other things, but is rough on county fairs. So, all in all, there just aren't enough entries worthy of the name in either the farm and home line to make up a decent fair any more.

Secondly, county fairs are traditionally underfinanced, and can't offer nice prize lists. This being the case, it isn't worth it, from a standpoint of economics, for an exhibitor to load up a trailerful of calves, groom and prepare them, take them to the barns, take care of feed and bedding, for two or three days -- even if he should win.

And since he's not competing against really first-line stock in all probability, there's no prestige when he does win. To the boast, "This was the grand champion male at the county fair last year," has come the disdainful reply, "So what?" County Agent Joe Jones tells us that the high cost of show-

### NOTICE OF HEARING

The Parmer County Commissioner's Court will conduct a public hearing on the proposed 1960 county budget at 2:00 p. m. on Monday, September 28, 1959, in the County Court Room in the Court House in Farwell, Texas.

All interested parties are invited to be present.

Loyde A. Brewer  
County Judge  
Parmer County, Texas 50-2tc

ing has past the county fair stage and is knocking on the door of such shows at the Tri-State in Amarillo and the South Plains in Lubbock.

Those are a couple of things that we can put our finger on. One that's harder to pick out is the attitude of the people themselves. In spite of the way that we like to think of ourselves, we've changed a lot in the last generation.

The people who live on the Plains today don't do -- or at least don't enjoy doing -- the same things their parents did. That isn't so much that there are other things to do, either, although we'll admit that diversions are part of the reason. We've had a change in outlook on what is and is not a social occasion.

Time was when the county fair was as much a time to get

together with all the neighbors and enjoy the association as it was anything else. Perhaps people would see friends they hadn't seen in months. Everyone enjoyed this association and made the most of it.

Today our idea of fraternization has changed completely. We shy away from big crowds. The way to entertain, and be entertained, is to have the Joneses over for a barbecue in the back-

yard some evening. Or, invite them out to dinner and take in a show. Or, spend an afternoon water skiing.

We don't congregate as we once did. We don't have that feeling of oneness that runs through many, many families as it did just a generation ago.

Again, this is not necessarily bad, although we do moan the passing of community and county-wide get-togethers. It does definitely represent a change and is a part of the reason that county fairs are declining.

A curious fact which we don't want to overlook is that the smaller fairs of New Mexico seem much healthier than do the ones of their neighbors to the east. Clovis' Curry County fair is doing fine from all we can tell. At least, people are interested in it, and that is the main thing.

Roswell, we believe it is, has the Eastern New Mexico fair and we understand it is doing well, and we've been told that Lovington has a fair that is in solid.

We're at a loss to explain just why this is, but the New Mexico small fairs seem to be holding up much better than the Texas fairs are.

Of course, the large "hip-podromes" such as the Texas and New Mexico State Fairs are doing well and will continue to do so for a long time. We want to emphasize very heavily, however, that while these big shows still claim to be show-places for agriculture, they are turning out to be giant amusement arcades for the public.

Football games, horse races, girlee-girlee shows, big name TV and movie stars, and other such crowd-pulling gimmicks are taking more prominence each year. The more glitter, the more people.

But all that glitters is not gold.

The Cargill crop bulletin reports that grain sorghum production for the nation was forecast at 566 million bushels September 1 -- up 11 per cent from the August estimate mainly due to improved prospects in Kansas, Nebraska, and several minor producing states.

Yield per acre was forecast at 35.4 bushels -- 1.3 bushels below last year's record.

## NOTICE TO BIDDERS

On or before September 28, 1959, the Parmer County Commissioners Court will receive bids on one Motor Grader with not less than 115 horsepower diesel engine and tandem drive. The grader to be equipped with 13:00 x 25 tandems and 9:00 x 25 front tires, 14-foot moldboard with two foot extensions, steering booster, cab, cab heater, and rain traps, and equipped with lights.

The County will offer in trade one Warco (Ser. No. 4D G-106633) Grader, located in Precinct No. 1 of Parmer County.

The Court reserves the right to accept or reject any or all bids.

### H. D. AGENT'S CORNER

Jimmie Lou Waincott

Judy Billingsley, Farwell 4-H member, sent her record in to the District Contests to be entered in the Home Economics contest. I have just received word that Judy was the District I winner and her record has been sent to College Station to be judged on the state level.

College Station, Sept., --If you are an average homemaker, you spend about a third of your time in planning, preparing and serving meals. Of course, some homemakers spend more time on food preparation than others. Size of the family, elaborateness of meals and the convenience and use of kitchen equipment influence the time spent on meals.

You can have colorful, appetizing meals in minimum time and with less energy if you plan and manage them properly, according to extension foods and nutrition specialists. To help homemakers with the job of meal planning and management, specialists have writ-

ten a new bulletin entitled, "Quick Meals." The specialists give four pointers as to what makes a good meal. They are: use foods that vary in flavor, color, texture, size and shape; they should be of good quality, appetizing and prepared so as to save food value; foods should be served attractively; and a pleasant atmosphere should be present to help the family enjoy meal time.

Better use of time by menu planning is discussed. Some suggestions are: serve fewer and well-prepared foods in generous amounts, use foods that can be cooked together, such as pot roasts and vegetables, and plan dishes which require few ingredients.

The bulletin contains many menu plans for quick meals, such as oven meals, one-dish meals, broiler meals, top-of-the-range meals, and meals from the freezer. All these recipes have easy to follow directions.

Contact your local home demonstration agent for a copy of the bulletin. Or write the Agricultural Information Office, College Station. Ask for B-927.

High on the list of versatile foods for summer eating is the miraculous boiler-fryer... It can be roasted, broiled, barbecued, fried or rotisseried. The supply of broiler-fryers

IT'S WHEAT PLANTING TIME and more and more farmers are making use of phosphate dry fertilizer in connection with this important fall activity. R. D. Rule of Oklahoma Lane has a drill with special fertilizer boxes behind the seed boxes. He has increased the capacity by adding to the box so that it will hold 900 pounds of fertilizer. He thus is able to apply his phosphate at the time of seeding, in bands, which is the most successful method tried in this area. Fertilizer-planter combinations are not new in many parts of the country, and within a few years they may be commonplace on the irrigated Plains.

at present is the largest in many years and prices are low in most markets.

This is a good time to restock home freezers. For freezing or home use, select broilers with thick, meaty breasts and thighs and free of bruises and pin feathers. A well distributed layer of fat under the skin will insure good flavor and juiciness.

Good buys in fresh fruits are bananas, Italian prunes, lemons, Tokay and seedless grapes. Several varieties of plums are available at moderate to high prices... New crop Delicious apples are now appearing in many stores.

Although it's getting toward

the end of summer, there is still a good variety of vegetables to choose from... Tomatoes are selling at low prices for this time of year. Eggplant, yellow squash, Purple Hull peas, green peppers, yellow onions and carrots are economically priced in many markets. Some stores are featuring the new packs of canned tomatoes, tomato products and cling peaches.

Flies carry disease germs that endanger health... Don't give them a chance to live and multiply.

Sanitation is the first step in controlling this pest, according to extension entomologists... Make sure all windows and doors are tightly screened. Keep garbage and other refuse tightly covered and dispose of it frequently by burning or burying. Keep compost piles covered and clean up after dogs, cats and chickens.

Killing is the second step against this pest. Kill flies by spraying in and around the house. Use both the space and surface-type spray. The law bait preparations are good for use outside where flies gather.

For information on type of spray to use, and how to apply, see your county agricultural extension office.

The presence of nickel has been identified in the spectrum of the sun and many stars. It is usually a constituent of meteorites.

### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Keep Thursday night of October 8 in mind for attendance at the Annual County Farm Bureau Convention in the Bovina School Auditorium.

The real reason you are urged to be there is to tell your Resolutions Committee what you believe should be done to improve your economic and social future in American--whether you wish to place freedom at the top of the list or down a little, whether you want to handle your own personal future security planning, or whether you believe some government employee who doesn't know you can do a better job with your money; whether you want a government employee to decide how much an employee of yours will be paid, or whether you know as much about that as he does. Say whether you want to decide which doctor and when you see him, or whether you want a government body to decide that for you.

In short, your organization wants to know what you want your fellow citizen members to stand for, for your mutual benefit. Plan to speak at this meeting where decisions for the future year's activities are made.

About 225 students at Friona attended the Texas Farm Bureau Safety Demonstration last Monday afternoon, under the supervision of High School Principal J. R. Cook. About 100 Lazbuddie students attended the same demonstration, under the supervision of Principal Jack Black, on Friday morning. President Roy V. Miller and your Service Agent attended both demonstrations.

CONSIDER THIS: "A man's pride shall bring him low; but honor shall uphold the humble in spirit". Proverbs 29:23

### PCG Has Scholarship In Textile Engineering

The Plains Cotton Growers, Inc. has established a series of four-year scholarships, valued at \$1000 each, in textile engineering at Texas Tech College starting this 1959-60 academic year. President W. O. Fortenberry announced.

"These scholarships are available to students interested in textile engineering and are being made available to students from any of the 23 member counties of the Plains Cotton Growers, Inc.," Fortenberry says.

Dr. John R. Bradford, dean of engineering at Tech, helped work out the scholarship details with Roy Mack, chairman of the PCG scholarship committee.

The scholarship is payable in four installments of \$250 annually, beginning with the freshman year. Continuation of the award will be automatic if justified.

MOTHER NATURE'S DEFOLIATION, and it wasn't frost either. Late-fall hail is really rough on cotton, and it's heartbreaking to carry a crop through the year and then see it done this way by hailstones. This is Frec Redwine's cotton on the Jesse Osborn place in Lazbuddie, which was hit by a storm Friday evening. County Agent Joe Jones looks at the stalks, stripped except for bolls.

T. McReynolds, Lot 3, Blk. 4, 1st Add., West Loop Drive, Friona

## Farm Capital Should Give A Fair Return

How is your farm and ranch business doing? Here are some ideas from Tom E. Prater, extension farm management specialist, which may help you determine where you stand. Recent research indicates that one item often overlooked by farmers and ranchers is the allocation of a charge for the money tied up in capital investment. Prater says you should consider the fact that money

United States savings bonds, stocks, other bonds or other business opportunities. Consideration should also be given the risk factor.

Another way to figure interest in land investments is to charge a fair rental price to yourself for using your land.

Prater adds that these charges will give you a guide for determining whether or not you are getting the most for your money.

**PALLADIUM CONTACTS**  
The precious metal palladium is used extensively for contacts in communications and electrical apparatus.

Recent studies in Central Texas show that when a farmer does not have to make a considerable investment in feeding facilities (water system, pens, etc.) a \$30 per head profit might be expected when yearling steers are fed 120 to 130 days. C. H. Bates, extension farm management specialist, says that the steers used in the tests were fed silage, cottonseed meal and ground milo. The cost of the steers was 26¢ and the selling price was 27¢. Figuring the profit to labor, capital and management, it averaged over \$3 per 100 for the milo fed.

## BOVINA TIRE SERVICE
