VOL. LXV

HICO, TEXAS, FRIDAY, JUNE 23, 1950.

NUMBER 4.

How anyone can take off for two weeks and then resume work with any degree of effectiveness after that long a vacation is more than appears possible to the editor.

As forecast last week, the editor was taken by his wife and daughter to Fort Worth for Friday and Saturday sessions of the Texas Press Association's 71st annual meeting.

Where else but Fort Worth could the Texas Press Association members have found such a cordial welcome?

The first day the visitors were guests of Swift & Company at a luncheon featuring (naturally) a juicy steak as the piece de resistance.

A tour through the immense packing plant followed and the procession's orderly inspection of every phase of processing and packaging was an opportunity no one would want to miss.

After Friday afternoon's business session chartered buses took press representatives to Station WBAP-TV, where they were allowed to witness an actual telecast.

Directly from the TV station the same buses, with police escort and open sirens, transported the party through heavy traffic to Shady Oaks Farm where Mr. and Mrs. Anon Carter and their son, Anon Jr., dispensed their usual brand of Texas hospitality—except for the traditional Shady Oaks hats.

Awards were announced Saturday morning but since the NR wasn't competing, the local paper won none.

After an afternoon roundtable session of the weekly newspaper group a dinner in the Crystal ballroom wound up the successful convention which had a record attendance of around 500.

At the close of one of the meetings the local editor remarked to Charley Hall of McGregor that fifty per cent of those coming out the door had some connection with Hico.

Duffau Tops League After Double Win

Duffau won both games of a double header from Iredell last Sunday to strengthen their hold on first place in the league standings.

Gibson was the winning pitcher in the first game and Boardner Anderson, doing a nice job of relief pitching, was the winning pitcher in the night cap.

Stasey got a pinch single in the first game to break a tie game and bring the first game to a close.

Duffau got off to a poor start in the second game with Iredell leading 3-0. It looked at this stage as if the two games would be split but Duffau came from behind after two were out to tie the score.

Shiloh won their game from Johnsonville 13 to 8 to keep a firm hold on second place.

The battle for fourth place is getting hotter. Alexander and Hico were tied for that spot up until last Sunday.

League Standing: Duffau 10 W, 1 L, 1 BH; Shiloh 8 W, 3 L, 2 BH; Iredell 6 W, 5 L, 4 BH; Hico 3 W, 7 L, 6 BH; Alexander 3 W, 7 L, 6 BH; Johnsonville 2 W, 9 L, 8 BH.

Schedule for next Sunday: Hico at Iredell; Duffau at Shiloh; Alexander at Johnsonville.

Important Notice to Hamilton County Raisers Of Cotton and Wheat

Here's important news to all cotton buyers in Hamilton County. Benn A. Gleason, Chairman, Hamilton County PMA Committee.

Mr. Gleason says there will be certain requirements in connection with the marketing quota program that each cotton buyer will need to know.

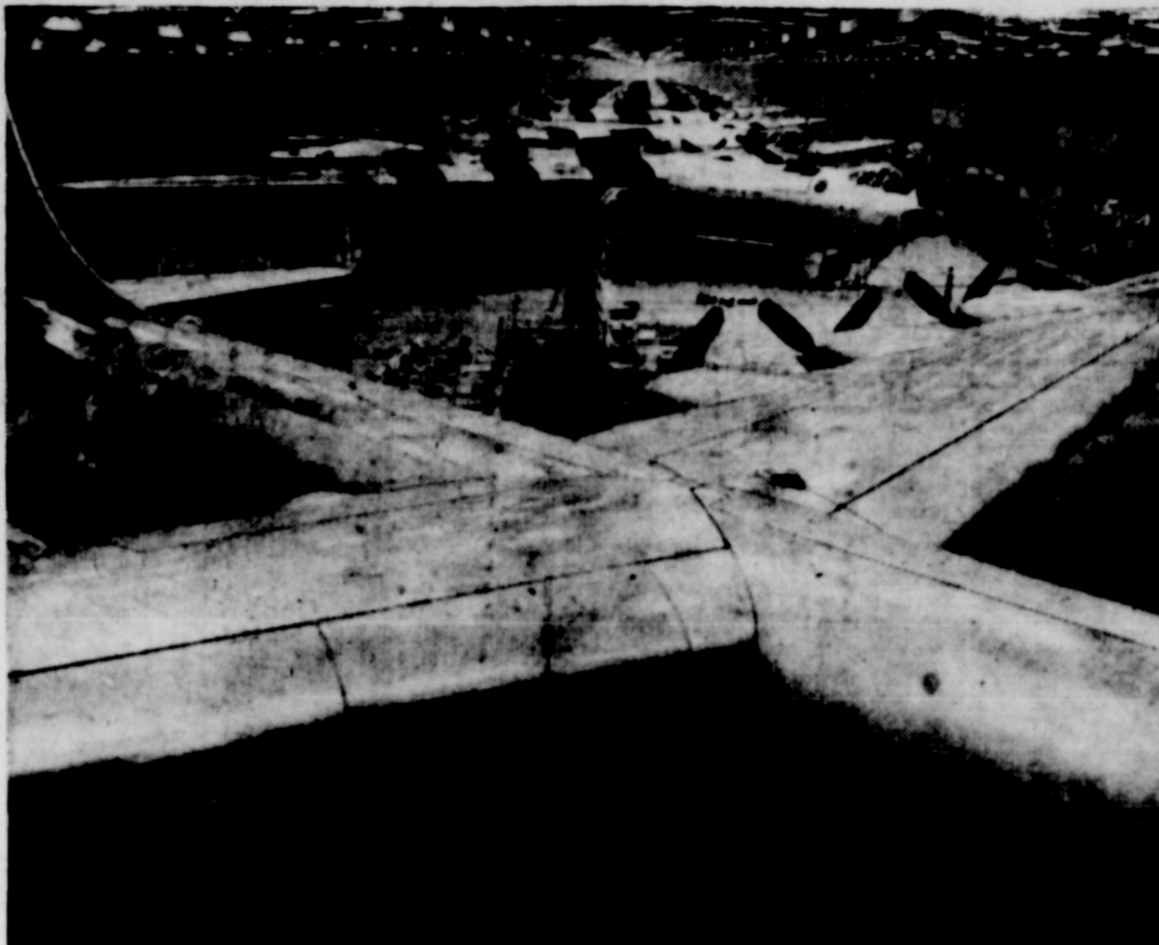

Farms on which no wheat was needed for harvest in any of the years, 1948, 1949, or 1950, may apply for a 1951 wheat acreage allotment, according to Benn A. Gleason, Chairman of the Hamilton County Production and Marketing Administration Committee.

Former Hico Woman Buried In Anson Sunday Afternoon

Mrs. J. E. Cooper, 67, of Anson, formerly of Hico, died Friday, June 16, in Hendrick Memorial Hospital in Abilene.

Services were held Sunday afternoon at the First Methodist Church in Anson with burial in Mount Hope Cemetery.

Survivors include her husband of Anson; three daughters, Mrs. Jim Bowen, Anson, Mrs. Tom Boone, Fort Worth and Mrs. Marvin Miller, Waco; five sons, Ernest Cooper, Gordon, Fletcher Cooper, Iredell, Ollie Cooper, Brownfield, Oscar Cooper, Weatherford and J. E. Cooper of Fort Worth; two brothers, John Farmer Killean and Earl Farmer of McGregor and one sister, Mrs. Lizzie Jamerson of San Angelo.

B-36, world's largest bombers, roll down assembly line at Fort Worth division of Consolidated Vultee Aircraft Corporation. Latest models of the B-36 are being equipped with four jet engines in addition to six 3,500-horsepower piston engines.

Newsmen See B-36 At Huge Convair Plant

(EDITOR'S NOTE: During the 71st annual meeting of the Texas Press Association held at Fort Worth last week end, the attendants were treated to a luncheon in the dining room of Convair's huge plant.

The B-36 in production at the Fort Worth division of Consolidated Vultee Aircraft Corporation is the world's largest bomber.

The central portion of the 230-foot wing, which is mounted slightly forward of the midpoint of the fuselage, is seven and half feet thick—high enough to permit installation of a catwalk so that crewmembers can climb into the wing for access to the nacelles during flight.

The Air Force has disclosed that a B-36 has exceeded its design range of 10,000 miles, dropping a 10,000-pound bomb load midway in the flight.

A B-36 has dropped two 42,000-pound bombs, or a total of 84,000 pounds, on a California bombing range. This is the heaviest load of bombs ever carried by one airplane.

The B-36s have flown the longest high-altitude (40,000 feet and above) missions thus far recorded. Four-Wheel Main Landing Gears.

Ingenuous Control System. This new global bomber, in spite of its size, is controlled through physical efforts of the pilot.

Externally, the B-36 reconnaissance airplane closely resembles the B-36 bomber; but internally, instead of bombs, the RB-36 carries the large cameras and other special equipment needed in long-range high-altitude reconnaissance.

Bomb bay fuel tanks enable the B-36 to stretch its normal range if certain missions should require it. The all-metal cargo carriers enable the B-36 bomber to operate as a transport, with a capacity of 80,000 pounds of cargo.

An experimental transport version of the B-36 designated XC-99, was recently delivered to the Air Force. It will haul 600 troops or 100,000 pounds of cargo.

Development History. Convair made preliminary studies for the 10,000 mile B-36 bomber early in 1941, and a few months later received a contract to develop and build two experimental models.

Believe-It-Or-Not Facts. Translating B-36 facts into commonly known comparisons: its ten engines develop as much horsepower as nine locomotives; its wing tanks hold enough fuel to drive an automobile around the world 16 times.

Other Convair Plants. During the last war Convair produced over 33,000 military aircraft. Current Convair planes, in addition to B-36s in production at Fort Worth, include the following aircraft built at the company's San Diego division: Convair-Liner commercial transports, T-29 navigation trainers, L-13 liaison planes, XP-57 turboprop-powered flying boats, XP-92 jet-powered research plane, and guided missiles.

FUNERAL SERVICES HELD FOR INFANT. Funeral services were held at 4:00 p. m. Friday, June 9, in Carlton for little Linda Lois Adams, infant daughter of Mr. and Mrs. Leonard Adams, Rev. E. E. Dawson of Hico officiated.

DOCTOR RECOVERING FROM FINGER INJURY. Dr. W. F. Hafer, physician in the Hico Hospital, who has been on vacation with his family for the past several weeks, recently injured two fingers on his left hand when they were badly cut by a rotary lawnmower in Austin.

After disposing of this business the committee heard Carson, member of the Brazos River Conservation and Reclamation District, and voted support of the board's position that it should be permitted to operate the three proposed new dams on the Brazos, lying between the Whitney dam, now about 80 per cent complete, and the Morris Sheppard dam in Palo Pinto county, without a license from the Federal Power Commission.

A hearing on the issue is scheduled for June 28 and the county organization will approve the resolutions which outline the district board's position, and draw up a letter of transmittal which will be turned over to the district board for its file at the proposed hearing.

Carson pointed out the position of Board Chairman George G. Chance of Bryan and other board members in public rather than private power. He took the position that the area of the Brazos in which the new dams will be built is not a navigable stream since nothing that floats on the water or moves beneath it can get past the Whitney dam in the upper reaches. This is a "fixed" dam. If the section of the river were to be held navigable it would be subject to Federal control.

Carson explained that the three dams would cost about \$26,000,000 and would produce revenue of approximately \$1,250,000 annually and that the cost of the dams would be recovered in 30 years. After that time, he said, the revenues would go to the state, if the licensing of the operation could be avoided. If the operation were licensed, he said, an escape clause might make it possible for the Federal government to take over after the 30-year period. In this period, or at least for the life of a contract that is being negotiated, power will be sold to the Texas Power & Light Company.

Carson stated Wednesday that similar approvals of resolutions on this matter were being received from various local bodies, including the Hico Lions Club.

Interment was in the Carlton Cemetery.

Initial Meeting For Summer Band School To Be Monday Night

Announcement of a summer band school to start Monday, June 26, was made this week by William M. Bradley Jr., band director. Both children and parents are requested to come to the first meeting Monday night at 8 p. m. in the band hall of the high school gymnasium.

The students will sign up for a summer class of six weeks at this time and the Band Parents Club will hold a meeting to elect officers. Later in the summer the band will play at the annual Old Settlers Reunion. All new students interested in beginning are invited to attend and bring their parents.

Licensing of Brazos Power Is Condemned

W. W. Carson Jr., past president of the Hico Chamber of Commerce, now a resident of Olin and Democratic precinct chairman at that place, attended a meeting of the Democratic county executive committee Monday at Hamilton.

Business before the meeting was to refresh precinct chairmen on election law and to draw names for candidates' places on the ballot for the first primary, which is now being prepared for printing.

After disposing of this business the committee heard Carson, member of the Brazos River Conservation and Reclamation District, and voted support of the board's position that it should be permitted to operate the three proposed new dams on the Brazos, lying between the Whitney dam, now about 80 per cent complete, and the Morris Sheppard dam in Palo Pinto county, without a license from the Federal Power Commission.

A hearing on the issue is scheduled for June 28 and the county organization will approve the resolutions which outline the district board's position, and draw up a letter of transmittal which will be turned over to the district board for its file at the proposed hearing.

Carson pointed out the position of Board Chairman George G. Chance of Bryan and other board members in public rather than private power. He took the position that the area of the Brazos in which the new dams will be built is not a navigable stream since nothing that floats on the water or moves beneath it can get past the Whitney dam in the upper reaches. This is a "fixed" dam. If the section of the river were to be held navigable it would be subject to Federal control.

Carson explained that the three dams would cost about \$26,000,000 and would produce revenue of approximately \$1,250,000 annually and that the cost of the dams would be recovered in 30 years. After that time, he said, the revenues would go to the state, if the licensing of the operation could be avoided. If the operation were licensed, he said, an escape clause might make it possible for the Federal government to take over after the 30-year period. In this period, or at least for the life of a contract that is being negotiated, power will be sold to the Texas Power & Light Company.

Carson stated Wednesday that similar approvals of resolutions on this matter were being received from various local bodies, including the Hico Lions Club.

Interment was in the Carlton Cemetery.

Lions Told Soil Erosion Concerns All

Harold Hitt of Hamilton, soil scientist for the Hamilton-Coryell Soil Conservation District, told members of the Hico Lions Club and guests assembled at their regular weekly luncheon Wednesday that soil conservation was one of the vital problems that now face farmers and businessmen alike.

In explaining that business was directly dependent upon the amount of rainfall and its conservation and use, the speaker used charts and diagrams to emphasize his point. "Business men's income is directly proportional to farmer's income," he said, "and farmer yields are directly proportional to the amount of water the land is able to utilize." He declared that yearly rainfall now is about the same as it was in Grandfather's time, but that it must be remembered that Granddaddy was tilling virgin soil, and that in this day and time about half of the annual fall of moisture is being wasted through improper methods of cultivation.

Of the 30 1/2 inches of annual rainfall, his diagram showed that 11 1/2 inches run off and is wasted. Of the remaining 19 1/2 inches, 9 1/2 inches is lost by evaporation, leaving only 9 1/2 to be utilized. Water, he said, is the greatest deficiency in our soil, and it will continue to be so long as it is not stored right. Startling figures regarding amounts that run off each acre were set out for the listeners.

Three phases of erosion were dramatically described as the villains in the set-up: detachment, agitation, and transportation. Each plays a leading part, according to his analysis, but new techniques in coordinating conservation measures were explained. Up to now, our concern has centered around transportation, which has been controlled in great measure by terracing. Cover crops have come in for attention, which are being found effective in controlling detachment and agitation. A chart disclosed the story of how erosion varies on land covered by tall grasses, clover, and short grasses, and on cultivated land. In the latter, the power to store moisture is reduced to practically nothing.

"The business man's part in this battle is not philanthropic," Mr. Hitt declared, "but on the other hand every citizen has a selfish interest to protect if we are going to continue prosperous."

Preceding the guest speaker on the program was announcement by Lion Paul Neel regarding closing agreements by merchants during the Reunion and on certain holidays.

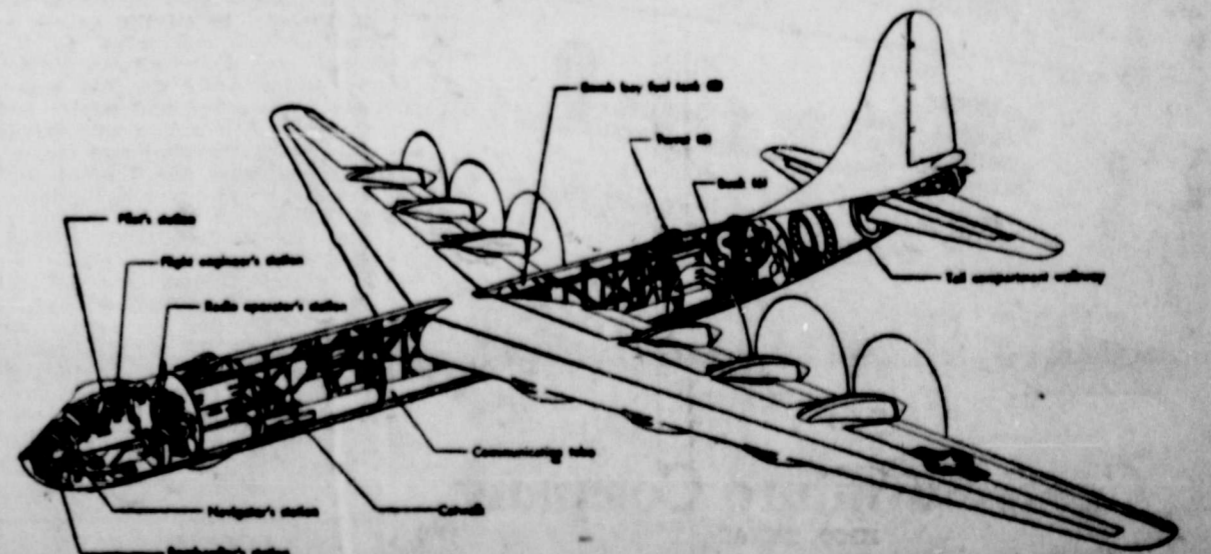

After reading of minutes of the previous meeting by Lion Secretary Truman Roberts, Lion Morgan Moon read an amended report in voluminous detail, which although more colorful and explanatory was considered too personal to replace the official minutes.

About two dozen members were present at the meeting, along with the following guests: E. M. Hartsfield of McGregor, E. R. DuBose of Waco, J. E. Burleson of Coleman, Vance Wadlington of Clair-etto, George Powledge, R. B. Armstrong, Daymond Weaver, Edgar Elliott, and R. E. Goodloe.

DOCTOR RECOVERING FROM FINGER INJURY

Dr. W. F. Hafer, physician in the Hico Hospital, who has been on vacation with his family for the past several weeks, recently injured two fingers on his left hand when they were badly cut by a rotary lawnmower in Austin.

Although painfully inconvenienced, the doctor is recovering from his injuries and expects to be back to work at the hospital the week beginning Monday, July 3. Dr. and Mrs. Hafer and Claudia went to Clifton Thursday to visit his parents Mr. and Mrs. W. C. Hafer.

"Catenway" drawing of B-36 bomber in production at Fort Worth division of Consolidated Vultee Aircraft Corporation. Sketch shows general arrangement of plane's 162-foot-long fuselage, with bomb bays capable of carrying up to 84,000 pounds of bombs. The Air Force has disclosed that a B-36 has flown more than 10,000 miles nonstop, carrying a 10,000-pound bomb load halfway.

FLYING SAUCERS

Clairette

By Mrs. Henry Mayfield

Mrs. Bill Dunagan of Waco visited her sister, Mrs. W. E. Alexander and friends recently.

Mr. and Mrs. Carl Burns of Okra and Mr. and Mrs. Rosser and children of San Angelo visited their sister and aunt, Mr. and Mrs. Lee Havens Wednesday.

The Busy Bee Club members met Thursday afternoon with Mrs. Grady Wolfe.

The Clairette Home Demonstration Club met in the Rob Sherrard home Friday evening. Several visitors attended.

Mr. and Mrs. John Goughly gave a farewell party for Rev. and Mrs. Ervin Holt last Tuesday night at their home. Several were present for the occasion. At the beginning of the party, after all the guests had arrived, Mrs. Goughly presented Mrs. Holt with a beautiful gardenia corsage she grew in her own yard. Later Rev. and Mrs. Holt were presented some nice luggage by their many friends. Rev. and Mrs. Holt both made a short talk expressing their thanks and how they had enjoyed their work here the past four years and how they had learned to love the people at Clairette and hated to leave. The Hols have been very good citizens of this community and Mrs. Holt has been an active partner in all her husband's duties as well as participating in the Home Demonstration Club. Under the leadership of Rev. Holt and the stewards, the church has undergone a great deal of repairing inside, installing a butane system and many other things that the community should be proud of. Their many friends wish them luck and happiness at Bunyan and will be expecting the Hols back to visit. Some games were played. Those that did not play, visited. Mrs. Goughly served cold drinks. On Wednesday morning the Hols loaded their belongings on the Goughly truck and moved to Bunyan and Wednesday afternoon Rev. Connell of New Castle moved into the parsonage to take up his years of work in the Clairette Circuit.

Bill Head went to Odessa Saturday on business.

Mr. and Mrs. M. L. Gage and daughter of Fort Worth visited relatives here Sunday.

Mr. and Mrs. Alton Partain and family are here on their vacation visiting Mr. and Mrs. A. E. Harvey and other relatives.

Mrs. Mollie Trammell visited from Thursday until Sunday in Hamilton with relatives.

Mr. and Mrs. Wesley Roberson and Buster Roberson of Fort Worth spent the week end at home.

There were several out of town visitors at singing Sunday evening.

Mrs. Ara Denman was a dinner guest Sunday in the home of Mr. and Mrs. Henry Mayfield.

Miss Charlene Sherrard of Midland visited Mr. and Mrs. R. W. Sherrard and Mary last week.

Several met at the Methodist Church Friday night to welcome and pound Rev. and Mrs. Connell into our community.

Mr. and Mrs. Truman Loden and Mr. and Mrs. Ralph Loden of Waco spent the week in the Charlie Dowdy home.

Mr. and Mrs. Charlie Dowdy, Mrs. Nora Dowdy and John Salmon attended the wedding of Jerry Dowdy to Miss Jeanie Bauereis at 10 a. m. Saturday at the Saint Johns Episcopal Church in Fort Worth. Jerry, better known as Corky, is the youngest son of Mr. and Mrs. Charlie Dowdy. His wife is a daughter of Mr. and Mrs. Paul Bauereis of Fort Worth. Corky was born and reared here and is a graduate of Hico High School. After the reception the couple left for San Antonio to spend a short honeymoon and will return to Fort Worth to make their home where they both are employed. This writer and all of Corky's friends wish him a very happy, successful life with his bride.

Mr. and Mrs. Tom Farrar of Bowman Ridge have bought the Finley place in town and moved recently.

Mrs. Nora Dowdy purchased the late George Salmon rock home in Clairette and moved to it a few days ago and Mr. and Mrs. Neg Christian moved into the house vacated by Mrs. Dowdy.

Mrs. Don Smith, Mrs. Motto Castevena, Mrs. Eugene Ferguson and baby of Stephenville visited Sunday in the Hub Alexander home.

NOTE OF APPRECIATION

We wish to thank all our neighbors and friends for their help and the interest shown in our welfare during the recent illness and hospitalization of Mrs. Price. We are grateful and also to Dr. Hedges for doing all we believe any doctor could do. We appreciate his services and advice and the hospitality shown our family while at the hospital and too, we will not forget the flowers sent to our home and also to the hospital. Thanks to all our friends at Hico, Unity, Iredell, Glen Rose, Lingville and other places for the pretty flowers and all the get-well cards received and to those who came to render aid through the night, we are grateful to all and if trouble or sickness ever overtakes any of you, may we be able to assist in some way.
MR. & MRS. SAM C. PRICE
AND FAMILY. 6-1tc.

ANNUAL REUNION FOR BOATWRIGHT FAMILY HELD RECENTLY

The annual reunion of the Boatwright family was held here at the City Park on Sunday, June 11. The first ones to arrive went on to Carlton to visit the cemetery and to place flowers on the graves of loved ones buried there. They arrived back at the park to join the others for lunch.

Prayer was offered by Manly Branch, after which a bountiful feast was enjoyed by all. The afternoon was spent in conversation and making pictures.

Relatives present for the occasion were Mr. and Mrs. Melvin Boatwright and Thelma Joe, Mr. and Mrs. Finch Boatwright and Joyce, Mr. and Mrs. Troy Boatwright and Dorothy and Florence Blansit, Hamilton; Mrs. Virginia Thompson, Hico; Mr. and Mrs. Millard Boatwright and Herschel, Sudan; Mr. and Mrs. J. C. Jackson, Paul Wayne and Dean, Stephenville; Mr. and Mrs. Manly Branch, Milford;

Mr. and Mrs. J. T. Stephenson, Phillip and Susan and Mrs. Hattie Carter, Seagoville; Mrs. Lee Jenkins, Rochester; Mr. and Mrs. Ben Taylor Sr., Mr. and Mrs. O. K. Barrow and children, Mr. and Mrs. Cecil Boatwright, Mr. and Mrs. Fred Held and Freddie, Mr. and Mrs. Ross Brittain and Jay, all of Dallas; Mr. and Mrs. Bert Boyd and Joe, Harlan, Kentucky; Mrs. J. C. Stringer, Enid, Oklahoma; Mr. and Mrs. Botch Bursen and children, Mr. and Mrs. Sam Parks, Haskell.

Visitors in the afternoon were Mr. and Mrs. John M. Pederson of Hamilton, Mr. and Mrs. Neil Kelly and children, Mr. and Mrs. Paul Neel of Hico, all friends and schoolmates of the Boatwright family.

Hicoans Attend Soil Conservation Meeting Held at Carlton June 9

The World War II Veteran farmers and other local farmers of the Carlton group met Friday evening, June 9, at the school to review the technical principles to be observed in a sound solution of the soil and water conservation program. Mr. Gilbert Davis, the local veteran teacher, was chairman of the meeting.

After a discussion of the phases of erosion; the depletion of plant nutrients from cropping and the change of soil structure from cropping by Soil Scientist Harold Hitt; and the necessity of a complete program to meet the needs of the land by J. N. Gerreald; slides were shown by J. E. Kuykendall showing some of the plants that fit into a coordinated program on Grand Prairie Soil.

Mr. Butts, third year veteran teacher, then showed a moving picture, "The River."

For the information of those who had not previously had opportunity to see dodder, a parasitic crop pest, samples were exhibited.

In addition to approximately 25 veterans, the following District Cooperators were present: E. R. Coneley, Avery Coffman, W. M. Williamson, Lonnie Gray and Willard Williamson.

Hico business and professional men who attended were: Mr. Odie Petrick, banker of Hico; Mr. J. B. Woodard, business man of Hico; and J. D. Love, Vocational Agriculture teacher in Hico High School.

The West Olin group met in the home of Mr. and Mrs. Cyrus King Wednesday night, June 7, for the purpose of studying the place of deep rooted grasses and deep rooted legumes in a soil and water conservation program for "Grand Prairie Soils."

After a round table discussion in which all took part they saw Hamilton County Chamber of Commerce slides of District Conservation practices.

Then Mrs. King, with the assistance of Mrs. L. V. Cooper and Mrs. Tado Fabianke, served refreshments to George F. Terry, Jodie B. Jaggars, Dan Kunkle Jr., James Youngblood, W. L. Zeiss, L. V. Cooper, Tado Fabianke, Larous John Cooper, David Cooper, Joe Wiley, J. E. Kuykendall, J. N. Gerreald and the host, Cyrus King.

TEXAN CAFE

Fairy

By Mrs. Eunice Massengale

We have had mostly fair weather for the past week and farmers have been busy working out their row crops. The small grain harvest is about over.

Materials and equipment begin rolling in the first of the week for the completion of the Fairy and Hico Farm to Market highway. We are all very glad to see them back on the job after a delay of several weeks. This road was a badly needed project and will be highly appreciated by all who travel this route.

Mr. Truitt of Hamilton, manager of the Gulf States Telephone Co. in this section was in our midst last week in the interest of a telephone system from Hico to Fairy. E. M. Hoover accompanied him on an inspection tour of the community and received several subscribers. We understand the work on the line was to begin Monday of this week and expected to be completed in about a month. At this time it is not known just who will be able to secure a telephone in the rural section, but we hope that in the near future all who wish a telephone will have their desires granted.

We are sorry to report Bill Lackey ill at this writing with a badly strained back and is able to walk only by aid of crutches. He was carried to the Hico Hospital Saturday, but we didn't learn whether or not he remained. We wish for him a speedy recovery.

Mr. and Mrs. Bolding Cole of Providence and Mr. and Mrs. Jess Fulton were in Fort Worth last Sunday to visit Mrs. Arthur Lauderback, who is ill in a Fort Worth Hospital. She is the former Miss Myrtle Cole of Providence, sister of Mrs. Fulton and Mr. Cole.

Mr. and Mrs. Edwin Sellheimer and family of near Hamilton, Mr. and Mrs. George Stringer and Cathy Ann of Hico and Mr. and Mrs. D. E. Allison, Ruby Jean and Darrel of Dublin visited Sunday in the home of their parents, Mr. and Mrs. Edd Allison and Texie.

They expected to meet their sister, Mrs. Pat Patterson and children of Dallas who had planned to come down with the former Miss Essie May Duncan, but the visit had to be postponed as Essie May's sister, Mrs. Myrtle Luskie had to undergo an emergency appendix operation and she remained to be with her and take care of her children. Mr. and Mrs. Luskie and children had visited here recently with her parents, Mr. and Mrs. Algie Duncan and family.

Mrs. Ralph Spencer of Lubbock and Miss Daphne Hoover of Stephenville spent the week end with their parents, Mr. and Mrs. E. M. Hoover.

Mr. and Mrs. D. E. Allison of Dublin and Mr. and Mrs. Carl Ray Sellar and children were dinner guests Sunday of the ladies mother, Mrs. Eunice Massengale.

Mr. and Mrs. Guy Lockhart and Barbara of Pidgeoke visited Sunday in the home of her parents, Mr. and Mrs. V. H. Heyroth and other relatives.

Billie D. Massingill, who is working in Lubbock, returned home Sunday after a few days visit with his parents, Mr. and Mrs. Dewey Massingill.

Mrs. Eunice Massengale attended singing at Clairette Sunday afternoon and was accompanied from Hico by Mrs. Dora Houston.

Mrs. Brittle Little visited several days recently in the home of her brother, Mr. and Mrs. Sid Dickerson of near Hico.

Mr. and Mrs. Wilford Pitts and Eva Nell of Hamilton visited here Sunday with their parents, Mr. and Mrs. B. J. Cunningham and Mr. and Mrs. H. S. Pitts and Miss Ima.

Mr. and Mrs. Jess Fulton were in Clifton and Womack Saturday where they visited in the home of his parents. His step mother is a patient at the Goodall and Witcher Hospital in Clifton.

Uncle Bob Parks and his children and families met in Glen Rose last Sunday for their annual Father's Day reunion. Present were Mr. and Mrs. M. E. Parks and son Audie, Mr. and Mrs. C. C. Parks and Alton, Mr. and Mrs. T. R. Parks and Weldon, Mr. and Mrs. B. J. Parks all of Fairy, Mr. and Mrs. Willis McAdams of near Cranfills Gap, Mr. and Mrs. Otto Jordan and family of Cleburne and the honoree, Uncle Bob, also of Fairy.

Mrs. Oran Willford, Audie Clark and Arnold Gleason were joint hostesses for a pink and blue shower honoring Mrs. Roy Rollin of Fort Worth last Monday afternoon at the home of Mrs. Willford. Delicious refreshments were served to a large number present. She received a nice assortment of gifts. Rev. Rollin filled an appointment at the Baptist Church Sunday morning and evening and they spent Sunday night in the home of Mr. and Mrs. A. W. Rachaug, returning home Monday afternoon.

Mr. and Mrs. Tommy Pitts and Eva Nell of Hamilton, Mr. and Mrs. Curtis Wright and Glenn of Hico, Mr. and Mrs. Hall Morrison, Carol and Glenn and Mr. and Mrs. Mont Young all of Stephenville visited Sunday in the home of Mr. and Mrs. H. S. Pitts and Miss Ima.

CARD OF THANKS
We wish to express our sincere thanks to each and everyone, who were so thoughtful and kind during our recent illness and bereavement. May Gods richest blessings be upon each of you.
MR. & MRS. LEONARD ADAMS.

4-H Girls Vie For Honors In Dairy Foods Demonstration

June is dairy month. Milk production hits its annual high, and according to the U. S. Department of Agriculture, this month may set an all-time record.

Trying for a record, too, are some 4200 Texas 4-H girls who are thinking up new ways to use the abundant supply of milk. They are participating in the 1939 National 4-H Dairy Foods Demonstration program, and will vie for top honors in county as well as in state and national competition.

Under guidance of local club leaders and Extension agents, the 4-Hers work individually and in teams to show club members and other groups the latest methods of preparing tasty, nutritious dairy foods. Favorites in the summer-time menus for Texas 4-H Club families are ice cream, milk drinks, frozen desserts and cottage cheese dishes.

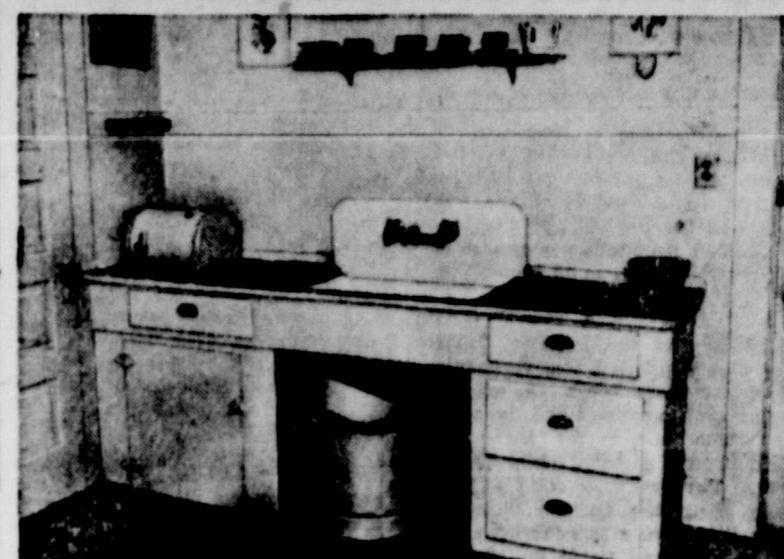

While a demonstration looks easy, it is by no means easy to achieve, reports a national champion. Many hours of study and practice go into perfecting a demonstration before the girls are ready to step on the stage in their crisp white uniforms—poised, confident and sure of their subject. They also must be ready to answer questions from the audience afterwards.

Awards for outstanding performance are provided by the Carnation Company. Gold medals are presented to county winners, while each state winner is given a handsome watch. A trip to the National 4-H Club Congress in Chicago next November is in store for eight national champions.

Last year national and state honors were won by Alice Faye Davis of Leming. Gold watches also were presented to Geroleen and Grace Elaine Giesler of Victoria. They also were awarded county medals, along with 26 other 4-H Club members.

The program is arranged by the National Committee on Boys and Girls Club Work and supervised by the Cooperative Extension Service.

Grandma Wouldn't Have Believed It

Shades of great-grandma's day! Pity the poor homemaker who had to work in this dull and backbreaking kitchen. Imagine the steps wasted in moving dishes from the old-fashioned sink to storage shelves in another part of the room. And look at the exposed waste basket and the space consuming dishpan and drainer under the sink.

No need to pity the homemaker now. Her modern kitchen saves many hours of hard work. The cost was low because installation of standard steel cabinets and cabinet sink was done quickly without expensive room alterations. Not even the plumbing was changed. Wall tile and a light above the sink are helpful features. There is a lot of work surface on the porcelain enameled top of the steel cabinet sink and on the adjoining base cabinet top. There's lots of storage space inside, too. Dishes are washed in the sink bowl and the dishpan has been consigned to the trash pile.

THIS WEEK IN Washington

WITH MOST of the legislation in the senate suspended in favor of FEPC and other civil rights legislation as proposed by the President, the federal government adjourned to Chicago where, for the first time in the nation's history, the people were able to view and hear an official open meeting of President's cabinet sitting in Chicago's civic opera house.

There on Sunday May 16, the cabinet with full membership, with the exception of Secretary of State Dean Acheson who is in London, presided over by Vice-President Alben Barkley and finished on the stage by all the party stalwarts and by prominent business, labor and agricultural officials, gave the people of the country a ring-side seat at the deliberations of this body, plus a report of congressional action by Speaker of the House Sam Rayburn. Not only was an audience of more than 5,000 people given a chance personally to see the cabinet in action, but millions more watched the proceedings through the medium of television, and other millions heard the action through radio.

Under Secretary of State James Webb, pinch hitting for the absent Acheson, gave the people a report on the nation's position in world leadership. He pointed out the necessity of carrying on the Marshall plan, of implementing the Atlantic pact, not only as a prime security measure for our own nation, but as a means of remaining strong here at home.

Secretary of Commerce Charles Sawyer made a brief summation of the world trade situation, of our domestic commerce and also of the necessity for economic strength on the domestic front.

Secretary of Agriculture Charles Brannan outlined the continued necessity for a strong agricultural policy to maintain agriculture at a high level of production and to insure continued high agricultural income. Of course, Brannan gave a plug for his own and the administration's agricultural program. Secretary of Labor Maurice Tobin gave a report on how a productive and peaceful industrial life is es-

sential to the well-being of the nation, and he pointed out that the nation's industrial machinery is geared to the highest point in history, as to productive capacity of commodities, man hour production and employment.

Secretary of the Interior Oscar Chapman explained the vital role his department plays in developing natural resources and protecting water power for increased hydro-electric energy, while Secretary of the Treasury John Snyder spoke about the current independence bond drive and the development of a sound fiscal policy.

Postmaster General James Donaldson spoke concerning the reorganization and revitalization of the post office department and the general subject of communications, while Attorney General Howard McGrath gave an analysis of the administration policy of protection of our free system of jurisprudence, the protection of the citizen and the bill of rights.

Secretary of Defense Louis Johnson gave a frank discussion of the nation's national defense program, pointing up to a continued program to deter aggressors while we continue a program of economic strength.

Speaker Sam Rayburn discussed the legislative position of the party in congress. The overall subject of this historic cabinet meeting was "A Report to the American People."

Following the cabinet session, an open civil rights panel was held on "Protecting Human Rights," with Attorney General McGrath, Sen. Theodore Francis Green of Rhode Island and Congressman William Dawson of Chicago playing the leading roles.

Prior to the cabinet meeting, the Democratic national committee held a session at the Sherman hotel in connection with the Jefferson jubilee conference and the three-day session wound up with the address of President Harry S. Truman in Chicago stadium Monday night, following his grass roots trip across the country. The President spoke to more than 20,000

Increasing Number of Cars on Highways Creates More Hazards

Chicago, June 19.—Don't make your steering wheel a wheel of chance—because you bet your life!

That advice came from the National Safety Council as the nation approached the Fourth of July holiday, one of the most dangerous periods of the year.

With traffic fatalities on the increase this year—up 9 per cent so far—the Council is coordinating a nationwide campaign to hold down the usual surge in Independence Day accidental deaths. One hundred and sixty-three national organizations, as well as state and city public officials, are cooperating in the effort.

Last Fourth of July 700 persons were killed by accidents of all kinds during the three-day holiday. Many more died later as the result of injuries received during the celebration. Traffic accidents were the chief killer, alone accounting for about 300 deaths.

The Council expects more pleasure-seeking motorists to pile into more cars and roll up more miles on this holiday and the week-end preceding it than ever before in the country's history. For many it will be a four day vacation. More than 36 million motor vehicles will be on the move.

The increasing number of new cars on the road and the substantial rise in gasoline consumption this year indicate a heavy death toll—unless everyone is fully aware of the holiday hazards and makes a real effort to avoid them.

"Holidays are hazard days," said Ned H. Dearborn, president of the Council. "When you take a chance on the highway you are gambling—and the stakes are human lives. You can't afford to lose in this game."

"Police and those who have authoritative control over public safety will be especially alert and vigorous in their enforcement of same rules of public behavior. But they can't police every mile of every highway. The individual must police himself."

"If everyone would keep in mind the words 'Take It Easy on the Fourth—Be Alive on the Fifth,' this Fourth of July would bring much less tragedy and much more pleasure."

"I REMEMBER" BY THE OLD TIMERS

From Mrs. C. B. McCarragher of Spring City, Pa.: "I remember when I was a child, we would get an invitation to a surprise party as follows: 'You are invited to a birthday party for (name). P.S. Guests please furnish refreshments.' The 'P.S.' was at the bottom. And it wasn't a bad idea, as the mothers did not have half as much trouble getting ready as they do nowadays. It was the custom for children and grownups alike."

From Bert Powell of Chicago: "Who remembers the very peculiar combination of a dill pickle and peppermint stick which children

used to enjoy? The very thought of it now is enough to make one want to turn a hand-spring."

From Frank J. Oswald of Chicago: "Here are the names of some more old-time cars for the old timers to add to their list of old time cars: Auburn, Columbus, Continental, Cord, Cunningham, Davis, Erskine, Elcar, Flint, Franklin, Graham and Gray."

From C. S. Cooper of Xenia, O.: "I remember when granulated sugar first appeared on the market . . . and when men wore vests and had a comb and tooth brush sticking out of the upper left-hand pocket."

From H. Maude Ravenscroft of Cincinnati: "I remember Mamma sending me to the grocery for eight cents worth of home-boiled ham (delicious, too) which was then eight cents a quarter of a pound."

Sportsman's Wife Ribs "He Men" About Avocation's Follies

Austin, June 21.—The hunting widow's dilemma is adroitly presented by Marian M. Goodrum formerly of Denton and now of Atlanta, Ga., in a satirical article "Look Before You Leap" in the June issue of Texas Game and Fish. She described the futility of wives accompanying husbands on field trips.

Mrs. Goodrum relates how she participated in "the wonders of harvesting the wild." Then, after listing the torture of climbing fences and struggling through woods, Mrs. Goodrum writes:

"Finally toward the end of the day one poor creature is felled and the dogs bring you a poor limp thing still warm with life, whose feathers are ruffled somewhat by the shot but whose beauty is still apparent to your tired eyes. You think of its mother and father and brothers. Maybe it had some little ones or even a wife. You think of the joy it must have known in the freedom of the wild. Then and there you decide that harvesting such a thing is definitely in the world of the outdoorsman and not in yours."

The next step of preparing the game for cooking is described: "I am sure that girls brought up in the country are well aware of the fact that even chickens in their natural state come equipped with feathers and insides, and that they have had enough experience with such things to be able to cope with them. On the other hand to less fortunate girls whose poultry comes from the market, craws and gizzards come as more or less a shock . . . Do not be discouraged. If you do a thoroughly bad job of it, your outdoorsman will soon learn the necessity of doing it himself."

Stay Healthy by Not Trying to Be A 'Jack of All Trades'

Austin, June 20.—There's a lot of punch corked up in that little bottle of cleaning solvent out on the back porch. State Health Officer Geo. W. Cox called them "hazardous, when special precautions are not used."

It seems that solvent vapors are heavier than air, which, means according to Dr. Cox, that they will collect at floor levels. The danger of using solvent for such household chores as staking spots off the linoleum or cleaning dirt or grease off the back steps, is that you have to get on your knees to do the job.

And when you're on your knees, you're closer to the accumulation of solvent vapor.

The state health officer proved his whole point with this story: A man attempted to remove the grease from the underside of his car by spraying it with a spray gun he had brought home from his construction job. He was found dead under the car, suffocated by the vapor of the cleaning agent.

Proper use of cleaning solvent, says the doctor, call for opening all the doors and windows when cleaning floors, the underside of household furniture or clothing. The idea is to get as much ventilation as possible. A fan blowing on the working area is helpful.

Five ways you can... Cut Food Costs with a HOME FREEZER

An electric home freezer will quickly pay for itself in savings and at the same time provide a treasure chest of good eating for you and your family. Personals

Mrs. Bill Newsom of Stephenville spent Tuesday night with her sister, Mrs. Lawrence Lane.

Bud Teague and John Ryan are spending this week at Glen Lake Methodist Camp in Glen Rose.

Mr. and Mrs. Truman Roberts are in Dallas Sunday to visit with friends and attend the Starlight concert.

Week-end visitors in the home of Mr. and Mrs. H. D. Knight were Marcia Youngblood, Dell Beam and Betty Knight, all of Dallas.

Mrs. Dora Watson of Fort Worth was a guest Friday night and Saturday in the home of Mrs. W. E. Burrow.

Mrs. Ardis Cole and daughter, Millie of Waco visited Sunday with her mother, Mrs. M. A. Cole. Sallie remained for a longer visit with her grandmother.

Mr. and Mrs. Boyd McClure accompanied Mrs. Constance Allen to Denton Tuesday to attend the funeral of Mrs. Nora Key, wife of the late Judge Key of Denton.

Mr. and Mrs. Will Johnson and children and Mr. and Mrs. J. A. Hendricks returned Tuesday from Hale Center, Lubbock and Tahosa, where they spent several days visiting relatives.

Dr. and Mrs. Willard Sellman, Jr. and son, Willard III, and Tom Collin Sellman of Dallas spent Sunday with their parents, Mr. and Mrs. W. C. Sellman.

Mr. and Mrs. J. W. Richbourg left Thursday morning on a 10-day vacation. They will visit San Angelo, Spur, Quanah, and other points in West Texas.

Mr. and Mrs. Geary Cheek and family arrived from Pensacola, Fla. Saturday to visit with their parents, Mr. and Mrs. S. J. Cheek and Mr. and Mrs. Jim D. Wright.

Mr. and Mrs. Ray Sumrall and Mr. and Mrs. H. L. Talley and daughter of Lake Charles, La., former residents of Hico, were here a short time Thursday morning with friends.

Mr. and Mrs. W. M. Grant and son Don of Dublin, S. Sgt. and Mrs. Clovis F. Grant and daughter Donna Carolyn of Bergstrom Air Force Base, Austin, and Mr. and Mrs. Charles W. Grant of Port Worth were visiting friends in Fairy and Hico Sunday.

Mr. and Mrs. Roy French were in San Saba Thursday for the opening day of the rodeo there. They also visited their daughter and husband, Mr. and Mrs. Jess Askey, and their granddaughter, Ann Askey returned home with them to visit.

Visitors in the home of Mr. and Mrs. Guy O. Eakins are their grandchildren, Guyleen and Larry Eakins of San Juan, who are spending the summer, and their son, Cpl. Don Eakins, who is spending a 30-day furlough here. Having just returned from Okinawa, Cpl. Eakins will be stationed at Lowery Field in Denver, Colorado, upon his return. Other visitors were Mr. and Mrs. Kenneth Thomas and children, who came in Friday from McAllen. Mrs. Thomas, Sandra, Sherry and Bruce remained for a longer visit.

Mr. and Mrs. R. B. McClure and children were in Houston Thursday to be with his sister who was seriously ill. They returned home Sunday.

Mr. and Mrs. Troy Boatwright are the parents of a son born early Monday morning, June 19, at Hico Hospital.

Mr. and Mrs. J. E. Bureson of Coleman spent Tuesday and Wednesday here with their daughter and family, Mr. and Mrs. Ellis Randsall and children, James Hord and Barbara.

Mrs. Ida Brown of Dallas came in Saturday for a visit with her mother, Mrs. Lula Crouch. Mr. and Mrs. A. W. Crouch, who have been staying with Mrs. Crouch, returned to their home in Dallas.

Norman Bales of Clyde, Texas attended the 4-H Club Round-Up at A & M College June 11-14. He was a member of the Callahan Co. Dairy Judging Team. Norman is the son of Mr. and Mrs. Burl Bales of Clyde and the grandson of Mr. and Mrs. J. W. Lane of Hico.

90TH BIRTHDAY CELEBRATED AT SUNDAY DINNER

Sunday presented a happy occasion for Mrs. W. B. Rucker on her 90th birthday. Her daughter-in-law, Mrs. H. B. Rucker, gave a birthday dinner in her honor.

On entering the living room of her son's home, she was very surprised to be greeted with a birthday song sung by all of her children except two, Mrs. Charlie Trantham of Skilletown and Rex Rucker of San Diego, California, who were unable to be present.

The dinner was beautiful and ice cream was made later in the afternoon. Mrs. Rucker received some lovely gifts.

Those present for the celebration were Mr. and Mrs. Bill Rucker and three children, Levern, Dwane and Billie, of Rising Star; Mrs. Minnie Connally and son, H. C., his wife and two children, Stan and Kay, Mr. and Mrs. George Keenum and two daughters, Margie Ann and Connie Jo, all of Dallas.

Vacation Period for School Children Adds Responsibilities for All

With the end of the Month of May, approximately 2,375,000 school children finished another year of their education, and eagerly began the three months annual vacation period.

Vacation to a school child can mean many things, an all day period of play with the neighbor children, a trip to the big city, a summer of work and play on Uncle's farm in the country, or just three months of leisure time to do as they please and not worrying about the three R's.

Regardless of which path these children follow, they will present us with an enormous problem. The fact that they will not be in school will mean that our streets and highways will carry an additional burden of nearly two and one half million persons. These children will use the streets and highways more this summer than ever before. Whether they are driving automobiles, bicycles or other vehicles, or simply using them as pedestrians, they will be exposed to the ever present danger of death or injury by accidents of all types, but particularly through accidents concerning motor vehicles.

Your Texas Safety Association wishes to remind you that each year scores of children meet their death under the wheels of oncoming automobiles whose drivers are negligent, many more are killed in car wrecks of all kinds. The addition of this group of youngsters provides an added burden to our already crowded street and highway systems, and it presents us, as adult citizens of our communities with a challenge. These youngsters are entitled to the right to life, liberty, the pursuit of happiness and safety. These are our future leaders of tomorrow who will, if we give them the chance, grow, learn, and mature and take their place in society.

This is our debt to them, and by being more careful and cautious as we drive this summer, we can insure their being safely back in school next fall.

"Be cautious, the child's life you save, may be your own."

WEATHER REPORT

The following weather report is submitted by L. L. Hudson, local observer:

"Let's Talk Live Stock"

By TED GOULDY

Fort Worth, June 20—It is a tradition as old as the cattle business that cattle prices always suffer the "June Break." Now and then conditions have been such that the "June Break" was earlier or later than the traditional second week in June, and on occasion where war or political manipulation upset normal laws of supply and demand, the "June Break" has not panned out.

This week at Fort Worth we have seen the beginning of the lower market for grassfat cattle and calves which is the traditional "June Break." However, the first days of this week, despite the heaviest cattle run since last October, there seemed to be surprising strength on the buying side.

Prices have been higher in recent weeks on all cattle and calves than in any normal peace time year before. Some call them dangerously high. When 13,944 cattle and calves crowded in to market Monday and Tuesday, it appeared the groundwork was laid for a sharp break in prices but orders from all parts of the country came in and in at least one instance a commission firm sold 480 cattle for its shippers and bought 490 cattle for out of town orders.

That sort of demand accounts for present high prices and looks very encouraging to all interests in the trade during the coming weeks and months. R. A. Brown of Throckmorton sold 12 cows at \$22.50 Tuesday; John Halsell sold two loads at \$21.50 from his Jack County ranch. W. D. Durfee, Childress, had 30 steers at \$30.25; Mrs. Mary Sauer, Dallas County, got \$31 for some yearlings. On the whole, grassy cows, yearlings, and calves were weak to 50 cents lower for the two days and lots of them steady.

Talking to a packer hog buyer today and he said, "We just don't get enough hogs. It looks like they'll be higher this summer." We asked, "How much does it take to ship Corn Belt hogs to Texas?" He told us it required in freight, feed, death loss, etc., etc., about \$1.50 to \$2 per hundred for Texas packers to ship Corn Belt hogs here for slaughter.

This probably accounts for the fact the Fort Worth hog top frequently exceeds the Northern market top. For instance, today (Tuesday) at Kansas City the top was \$19.60, while at Fort Worth it was \$19.75 to \$20.

Sometimes hogs are slaughtered at Northern points, shipped to Texas to be cut up and cured here. Sometimes hogs are "rough cut" at these points and shipped here for further processing. High freight rates make this operation expensive.

American Meat Institute has these guesses, June hog slaughter is to 10 per cent above a year ago; early indications of a whopping spring pig crop are being toned down, looks like a moderate increase over a year ago now.

Substantially fewer heifers were slaughtered in the first five months this year, indicating restocking is proceeding and feeders are stressing steer calves and yearlings in their operations. Calf slaughter running five per cent behind a year ago strengthens this view.

National Live Stock and Meat Board says: Five million animals in the infected zones in Mexico have now lost their vaccine immunity to the disease. This is the quiverty period in which we wait and hope we don't hear of any new outbreaks in that section. General H. H. Johnson and his associates on the Mexico-U. S. commission are very apprehensive. Since July 1, 1948, thirty-five million dollars have been spent in the fight against foot and mouth disease. This year nearly 21 million dollars will be spent. General Johnson says, "We have investigated nearly 300 reports of sick animals since January but none has proved to be foot and mouth disease."

That's good news, neighbors! USDA says: Texas has four per cent more hens than a year ago. In the United States there are five per cent more hens. Commercial broiler production is rising, farm production is declining. High prices of red meat are putting a prop under poultry prices.

THE MIDDLES

By Bob Carp

IREDELL ITEMS

by Miss Stella Jones, Local Correspondent

Miss Roberta James returned to her home in Bangs Tuesday after spending a week with Miss Loretta Jenkins. Miss Jenkins accompanied her home.

Mrs. W. D. Oldham accompanied her daughter, Mrs. Baker, and children to their home Tuesday.

Mr. and Mrs. T. M. Tidwell were in Fort Worth the past Sunday. Her grandson, Jackie Adkison, who spent the week with them, returned home.

Mrs. Plummer has returned from a visit to Crane.

The Baptist church members have set the date for their summer revival for July 21 through July 30. Rev. L. D. White of Phoenix, Arizona, will do the preaching.

Mr. and Mrs. Jim Hensley have returned from a visit to their daughter, Mrs. Foster Plummer, and family at Crane.

Mr. W. C. Pruett left Tuesday night for West Texas to visit his granddaughter, Mrs. J. A. Davis, and family.

Mrs. Dillard of Midland came in Saturday for a visit with her daughter, Mrs. Landis, and family.

Mr. and Mrs. Roy Mitchell and son have returned to their home in Chillicothe after a visit here and at Dallas. They were on their vacation.

Mr. and Mrs. J. D. Tidwell are on their vacation.

Ada Airheart of Glen Rose was here this week.

Mrs. Lena Beavers and her sister and baby of Arizona are visiting their mother, Mrs. Helm, and other relatives.

Mrs. Jim Lynch of Odessa is visiting her father, Mr. Phlemon Hudson, and other relatives.

Mrs. Bessie Lee Tusten of Hot Springs, New Mexico, is visiting her parents, Mr. and Mrs. "Bud" Mitchell.

Miss Jo Ellen Hudson has returned from Smithville where she visited her cousin, Mildred Gregory.

Mrs. Florence Terfittler of San Angelo came in Monday for a visit with her grandmother, Mrs. Squires.

Mr. and Mrs. Harold Self of Waco spent the week end here.

Mrs. Bessie Lee Tusten of Hot Springs, New Mexico, is visiting her parents, Mr. and Mrs. "Bud" Mitchell. They live in Meridian.

Mr. and Mrs. Bruce Chaney and baby of Waco spent the week end with his parents.

Mrs. Richard Williamson and children of Dallas visited his parents this week. One of her daughters remained for a longer visit.

Mr. and Mrs. Otto Bowman and son have returned to their home in Arkansas after a visit with his parents and other relatives.

Mr. and Mrs. John L. Tidwell accompanied his daughter, Mrs. Bryan Smith, to her home in Adicks.

Mr. and Mrs. Stephens and children of Clifton spent Saturday night in the home of Miss Ila Locker. Their daughter remained for the week to attend the Bible school.

Charles Holton of California is visiting his mother and other relatives. He is on his vacation.

Mrs. Swindall visited in Granbury last week. She returned home Sunday.

Mrs. R. O. Burns and sons, Jimmie and Larry, went to Cleburne Friday. They were met in Dallas by her son, Dick Jr., and they all spent the week end in Shreveport, La.

Mrs. Albert Pike and son returned Saturday night from San Antonio and Corpus Christi. She was accompanied by her mother, Mrs. Jack L. Martin, and also by one of her sisters.

Mr. C. L. Tidwell has returned after a visit of two weeks with his daughter and family. Mr. and Mrs. Coleman Newman of Florida. He made the trip with his daughter and husband, Mr. and Mrs. Leon Roberts of Hamilton.

An open social will be held on the Methodist church lawn Monday night, June 26. All Methodists are invited.

Mrs. Della Phillips and Mrs. Skeet Phillips and two girl friends of Cement, Oklahoma, spent the week end with her sister, Mrs. E. A. Jackson.

Mrs. Marie Hanshaw and son are visiting her sister, Mrs. Eber McDowell, and family in Fort Worth. They came after them Saturday.

H. T. Airheart of California is here this week.

Received a letter Monday from my niece, Mrs. Bowen, saying that the weather in Reno, Nevada, was very cold. They have snow while we here in Texas are having hot summer weather. The day she wrote, which was June 14, was a winter day there and all were shut up in the house.

Carlton By Mrs. Fred Geye

Marion McDougale of Sweetwater, a former Carlton boy, was a Carlton visitor Saturday meeting old friends.

There is only two weeks now until the Carlton 4th Homecoming. Everyone plan to attend and enjoy the day and make it the best Homecoming this community has ever had.

Mr. and Mrs. Toye Shaddy and son, Toby of La Joya, New Mexico, S-Sgt. and Mrs. Carl Moss and children of Fort Worth, Mr. and Mrs. Beryl Cozby and children and Mr. and Mrs. Cecil Byrd and son of Stephenville were visitors the past week with their mother and brother, Mrs. Lilla Byrd and Billy.

Mr. and Mrs. Henry Ellison, Sandra and Kathy of Purves visited Sunday afternoon with their parents, Mr. and Mrs. Mack Ellison.

Commencement services were held Friday night at the Baptist Church, bringing to a close a two-weeks vacation Bible School. Seventy five children were enrolled during the school.

James McCarty and family of Amarillo and his sister, Mrs. Gene Looney and children of Oklahoma City visited Monday morning with Mr. and Mrs. J. N. Clark.

Emmett Stockham is visiting his sister and husband, Mr. and Mrs. Charley Bain.

Mr. and Mrs. Hubert Stuckey and Helen Jean of Waco and Mrs. Velma Ford and children of Fort Hood visited Sunday with their parents, Mr. and Mrs. W. L. Fisher and Mrs. M. B. Stuckey.

Buddy Ford of Cameron visited his grandparents, Mr. and Mrs. W. L. Fisher Sunday and Monday.

Mr. and Mrs. Charley Proffitt and Melba Jean visited Sunday in Comanche with their son, Adolph Proffitt and family.

Mrs. James L. South, James and Nancy visited Saturday in Brownwood with her brother, Alfred Routh and family James remained there for a longer visit.

Jerry Max Proffitt returned Sunday to his home in Fort Worth after a visit with his grandparents, Mr. and Mrs. Charley Proffitt.

Mr. and Mrs. Leo Finley and Jean of Walnut Springs visited Sunday with their parents, Mrs. Jessie Finley and Mr. and Mrs. Lee Turney.

Jordan McCaleb of Indian Gap visited Sunday with Mr. and Mrs. Sterling Price.

Mr. and Mrs. C. C. Dyer are on their vacation in Colorado.

Mr. and Mrs. Charley Williams of Snyder and Eldo Johnson of Temple were Sunday and Monday visitors with Mr. and Mrs. Jess Reeves.

Mrs. Eva Laws of Cisco was a week end visitor with her mother-in-law Mrs. G. E. Laws. She accompanied her daughter-in-law to Cisco Sunday for a visit.

Mr. and Mrs. Brooklyn Baird and Erlene of San Angelo spent the week end with his mother, Mrs. Bertha Baird.

Mr. and Mrs. Wave Walton of Midland returned Sunday to their home after a visit with her mother and sister, Mrs. J. H. Tull and Mrs. Lillie Anderson and other relatives.

Mr. and Mrs. Frank Stidham of Stephenville were visitors Sunday with his mother, Mrs. Lorena Stidham.

Mr. and Mrs. Grady Littleton and Annette of Fort Worth spent the

week end here. They have rented their home to Mr. and Mrs. Jess Reeves.

Mr. and Mrs. J. A. Wisdom and children of Atchison, Kansas are visiting her mother, Mrs. J. N. Clark and Mr. Clark.

Mr. and Mrs. Witt Lacewell of Olton visited the past week with her father, S. S. Vaughn and Mrs. Vaughn. They spent Wednesday and Thursday at Marble Falls on a fishing trip.

Don and Sherie Thompson of Abilene spent the week end with their parents, Mr. and Mrs. Hobdy Thompson.

Mr. and Mrs. Walter Lee Bush and Joan of Arlington visited Sunday with his father, Joe Bush and wife.

Mr. and Mrs. Nolan Geye of Stephenville and Mr. and Mrs. Paul Warren and La Jauna Kaye of Dublin visited Sunday with their parents, Mr. and Mrs. Fred Geye and their sister, Mrs. Dow Self and family.

Mr. and Mrs. Will Bates and children, Weldon and Gladys visited Sunday at Evant with their son, Orville Bates and family.

Mrs. Ophelia Upham returned home Saturday from Waco where she visited with her daughter, Mrs. Stuart Partin and Mrs. L. C. Vaughan and family. They accompanied their mother home for the week end.

Dow Self spent Sunday at Clairette with his uncle and wife, Mr. and Mrs. Les Dowdy. Connie Mack remained for a weeks visit with his grandparents, Mr. and Mrs. H. K. Self.

Mrs. J. O. Pollard is visiting in Dallas with her daughter, Mrs. Roy Huffhines and husband.

Mrs. W. H. Vick visited in Stephenville Saturday with her brother and wife, Mr. and Mrs. W. J. Wisdom.

Mrs. Cora Mitchell of Iredell was a visitor Saturday with Mrs. Lillie Anderson and Mrs. J. H. Tull.

Mr. and Mrs. Fern Jordan accompanied Mrs. Beale Proctor to Dallas Monday for medical treatment.

Mrs. W. H. Vick and Mr. and Mrs. L. W. Fine were Pottsville visitors Sunday afternoon.

Charles Stephens and family of Dublin were week end visitors with his parents, Mr. and Mrs. Charley Stephens.

Mrs. E. A. Blanchard of Stephenville and her husband's sisters, Mmes. Haffman and Berger of Fredricksburg spent Monday with Mrs. Blanchard's mother and grandmother, Mrs. Lillie Anderson and Mrs. J. H. Tull.

COURTESY IS NOT RATIONED HERE

FARM AND RANCH CHATTER
By LAYNE BEATY

WBAP, Fort Worth

This deathless prose is being hammered out in Washington, D. C., where there is a Congress in session and a milk drivers strike on.

Milk is hard to get in this town, but copies of the Congressional Record are still available.

We have listened to a lot of international experts talk this week, and we have heard nothing to indicate that the outlook for democracy in southeastern Asia or China is anything but bad. At least for a long time.

Probably the goods and money made available to the government of Europe through the Marshall Plan have done the people of those countries a lot of good, but for the most part the citizens of those countries don't know it.

The materials we send over are pump-priming gifts to the governments of those countries, not to the businessmen nor the people directly. The dealers buy the tractors, grain, etc., from their government. Consumers buy from dealers, just as here. The money their government collects for this material then is used on public works, to help create a demand for products and a buying power for consumers.

The National Association of Radio Farm Directors has a get-together in Washington last week for the purpose of studying some of these overseas programs, and also brush up on current activities of our own U. S. Department of Agriculture.

The department did us a favor of asking for suggestions as to how they could operate more efficiently.

At the request of officials of the Bureau of Animal Industry, we brought along the moving picture we took in South America last February, had as those first movie-taking efforts of ours were and showed them to a group of officials. They liked the livestock in the pictures.

We also had a talk by Secretary of Agriculture Charles F. Brannan, who spent most of the half hour in a defensive position on the subject of the so-called Brannan Plan and some other legislation subjects. Later, we heard Congressman Stephen Pace of Georgia, a consistent critic of the Brannan Plan, say that Mr. Brannan has always played fair and square with congress.

Our group paid a pop call on President Truman in his office at the White House, as we have done before. He was chipper than ever, perhaps a little more steeped in world affairs than when Ralph James of Austin and a few others of us presented him with a couple of Texas turkeys one Christmas. This time, the president came out for a picture with us under a tree. The White House, by the way, is just a shell now, in this stage of its face-lifting job.

Diabetes Death Rates Three Times Higher If Treatment Is Delayed

Austin, June 20.—Death rates from diabetes is three times as high in diabetics whose condition was not discovered until after complications developed than for patients whose illness was recognized and brought under treatment before advanced symptoms appeared.

Based on recently completed national studies, this was revealed Thursday by State Health Officer Geo. W. Cox.

"Diabetes has not always been a public health problem," the health officer declared. "It became one when we found that the death rate is much greater when the condition is discovered late."

"Public education makes for lower diabetes death rates, and public education in such matters is a health department job."

Dr. Cox told this story about diabetes:

It used to be that many diabetic patients sought treatment only after having developed serious complications. A considerable number of all diabetics examined at autopsy showed active pulmonary tuberculosis.

The discovery of insulin gave physicians a specific treatment for prolonging patients' lives, even before it was entirely clear what the disease was and what its effects were. Thus, event after event took place with insulin therapy, eventually leading to the realization that early discovery means longer life.

"Diabetes mellitus"—called sugar diabetes by some people—is a condition in which the body cannot properly process the sugar it needs. The result is chronic thirst, hunger, and weakness. Eventually, without insulin, the patient will literally starve to death. Insulin injections will correct the faulty body processes.

"In 1940, there were 739 diabetes deaths in Texas," Dr. Cox said. "By comparison, that same year there were only 189 polio deaths."

"It's the family physician who is in the best position to discover diabetes or a pre-diabetic condition. That's just one more point in favor of regular medical check-ups," the doctor concluded.

Heavy Rains Hit Game Bird Nests In Low Areas

Austin, June 20.—Possible loss to young quail particularly in coastal prairie areas of southeastern Texas has been reported to the Game, Fish and Oyster Commission following recent heavy rains.

The Executive Secretary said the region west and southwest of Houston apparently suffered some damage to the newly hatched birds. Game Warden Tom Waddell of Eagle Lake said a series of torrential rains, including one ranging up to ten inches, flooded large parts of his district, particularly in Colorado County. Waddell said he saw many quail sitting on fence posts, calling plaintively after their nests or their young broods had been destroyed by the high water.

The rains occurred at a crucial period in the nesting routine, according to the Executive Secretary. In the main, however, the game birds over the state apparently have been faring well. Scattered loss to young doves from hail has been reported but indications are that wild turkey, prairie chicken and other species have fared well this year.

The Executive Secretary said wet periods occurring when quail are young sometimes are destructive particularly in the low areas where the soil is heavy.

He explained that the soggy loam balls upon the baby quail's feet and oftentimes continues to accumulate so that the young birds are unable to travel and either starve or are seized by predators. Quail which lose their nests or lose their young, will nest again and frequently try a third time if the first two efforts are lost. Quail build their nests haphazardly and lay their eggs in low areas as much as on higher ground. Thus their re-nesting tendencies are indispensable to the annual bob white crop.

U. S. Air Force Needs Reserve Personnel In 1950 Training Program

The U. S. Air Force needs reserve personnel in its 1950 Training Program.

There are several hundred thousand reservists in the United States now who have been transferred to the inactive Air Reserve because of their failure to participate in training.

Few inactive reservists stop to consider that as they grow older the infirmities of age becomes more certain.

Reservists can actively participate in the Air Reserve Program and draw pay for their few hours of training each month through the years. In addition, they build toward retirement that applies at the age of 60 at approximately \$75 to \$175 per month for the rest of their life. Insurance comparable to benefits which thus accrue would cost from \$400 to \$800 per annum over a period of 30 years.

The Air Force Reserve has five types of training available to reservists interested in participating. The five types are designed so one or the other will apply to the circumstances and locale of each individual reservist.

Inactive Air Reservists living in Texas, Louisiana, Arkansas, Oklahoma and New Mexico who wish to convert their inactive status are urged to apply for information and assignment at the nearest Regular Air Force Base, Air Force Reserve Training Center, local Volunteer Air Reserve Liaison Officer if known, or by writing to Headquarters Twelfth Air Force, Brooks Air Base, Texas.

University Bureau of Business Research Is Compiling New Directory

Austin, June 19.—What company in Texas manufactures bath paint? In what Texas cities are children's clothing factories located? What is made in Texas, and how can we find out just where it is manufactured? So that an accurate and up-to-date listing of Texas manufacturers will be available, the University of Texas Bureau of Business Research is compiling a new edition of its Directory of Texas Manufacturers.

The 1950 Directory, the seventh edition since 1933, is expected to be compiled during this fall. It will chart the many changes and expansions in Texas manufacturing that have taken place since the publication of the 1947 Directory.

The new Directory will include manufacturers only. It will classify by the factories by cities and by products. The name of the executive officer of each firm, the date of establishment, street address, products manufactured including trade names, territory served, and the number of employees will be shown.

Questionnaires to be used in obtaining the information have been mailed to individual manufacturing plants, to chambers of commerce, and to postmasters in towns listed in the 1947 Directory. Texas manufacturers seeking new outlets for their products are urged to return their completed questionnaires to the Bureau or to the local chamber of commerce so that the name of their firm will appear in the new buyers' guide for Texas.

JIM KNIGHT VISITS HICO

James Knight, Central Texas reporter for the Waco News-Tribune and Times-Herald, was in Hico Thursday visiting the natives and preparing his column which appears in each Sunday issue.

Under the heading, "Jim Knight Goes Visiting," this popular feature mentions names of people he meets up and down the street. He was accompanied on some of his visits by the local correspondent for the Waco papers, Mrs. Emma Dee Hedges.

DALLAS NEWSMEN VISIT

Rex Fisher, country circulation manager for The Dallas News, and Detta Vandyke of Waxahachie, traveling representative for the same publication, were in Hico Wednesday on business with Leonard Howard, local circulator. They also dropped in on the News Review force for a fraternal visit. Mr. Vandyke is successor in this area to T. R. Gladdings of Breckenridge, whose territory has been rearranged.

Mrs. Erna Marchant of Garland came in Friday to spend several days with her niece, Mrs. G. T. Layman, while en route to New Mexico to spend the summer.

Advantages of Chrysler's Fluid Drive

Chrysler's Advantages in Comfort and Safety

Waterproof Ignition—prevents stalling in rain or high water! Lubricated Cylinder Walls—chemical protection for increased life. Floating Power—helps eliminate vibrations. Superbalanced Parts—reduce friction, last longer. Exhaust Valve Seat Inlets—reduce need for valve grinding! Full Flow Oil Filter—keeps oil clean!

Automatic Gear Shifting—with full control of your car! Better traction—color to slippery roads. Convenience of clutch for easier parking. Slower Engine Speed—reduced noise, wear. Saves gasoline! Drive in high while others drive in low in traffic!

Functional Design—full room for your head, legs, shoulders. Easy to enter and leave! Safe Guard Hydraulic Brakes—smooth stops, less pedal pressure. Cyclobonded Springs for double the wear. Electrically Operated Windshield Wipers—constant speed all the time! Chair Height Seats—no crumpling, you sit naturally! Safety Rim Wheels—won't throw tires after blowouts at normal speeds.
