## UNION THANKSGIVING SERVICES ANNOUNCED

### NEXT WEEK'S PAPER TO BE EARLY

Due to the fact that next Thursday, Nov. 23, is Thanksgiving Day, the News Review will be printed on Tuesday instead of the regular publication day.

There are two reasons for this; one, of course, is to allow the force to take the holiday along with the rest of the citizens, and the other is that we can better serve merchants and readers this way.

Cooperation in the way of early advertising copy and news items will be duly appreciated. It is not too early now, but after Tuesday morning it might be too late. Correspondents will take notice, please, and mail their letters in by Monday.

Advertisers are invited to call on us for cut and copy suggestions on timely advertising.

## HICO SCHOOLS TO CLOSE FIRST THANKSGIVING

Hico Public Schools will be dismissed Thursday and Friday, November 23 and 24 for Thanksgiving, according to an announcement from O. C. Cook, high school principal. On Wednesday, November 22, the school will observe Thanksgiving with a devotional assembly program.

The community service is an annual occasion on Thanksgiving, offering an opportunity for all Christians to gather together and offer praise and to give thanks for the many gifts of the Lord.

The general public is invited to attend these services, regardless of church affiliation. An honest effort will be put forth to make everybody feel at home and all will receive a cordial welcome.

## "OLE SARGE"

Another week in the rapidly changing pattern of world events saw further clarification by the Army and Air Force of involuntarily called reservists' status.

Army enlisted reservists having four or more dependents and Air Force Officers and airmen with three or more dependents may now be released from active duty upon application. Even Army enlisted reservists serving overseas may be returned for discharge, the announcement stated.

The rapidly expanding Air Force is also looking after the welfare of career airmen. Authorization has been given for the promotion of 22,937 to the top four airman grades. This raises to approximately 60,000 the number of promotions to the top grades authorized in the last four months. You just don't stand still in the service these days.

Physicians, dentists and veterinarians registered in priority One (Former ASTP students with no active duty service) were reminded that they will be offered appointments as reserve officers in the service of their choice only if they apply for commissions prior to their pre-induction physical examination, and are ordered to active duty at the time of their appointment.

If you're looking for some top flight radio entertainment along with late information on the Army and Air Force, listen in on "Stars On Parade" and "Proudly We Hall" the next time they appear on your local schedule. Stan Kenton, Kate Smith, the Andrews Sisters and Van Heflin are included among the November talent for "Stars On Parade." Lee Tracy appears in a series of fine dramas on "Proudly We Hall."

Some 18,000 new jobs are offered in the U. S. Air Force this month according to a Washington announcement. Men and women filling these airman vacancies should be in line for responsible positions in the newly authorized Air Groups, for under Air Force organization, promotions go with responsibility and the "early birds get the worms."

Did you hear the one about the soldier from Brooklyn who during a tour in a Texas camp sought to influence his buddies with these words: "Take away the beautiful women, oil wells, cattle and point-to-point football teams, and what have you?" Then the reply, Brooklyn.

In the same vein, take away the security, spirit and determination of America's fighting youth and what do you have? Well, some artists sketch it in red.

So long for now.  
OLE SARGE.

## Dry Weather Brings Frequent Fires, Four Victims Are Homeless

Evidence of dry weather was seen Friday afternoon late, when the J. M. Starley home on the Glen Rose highway caught fire and was completely demolished within a few minutes.

Mr. Starley, the only occupant of the house, discovered it and summoned the fire department, with whose help most of the household goods were carried to safety. He said that he believed the fire to have been caused from a defective stove pipe.

## RENRO HOME DESTROYED BY FIRE EARLY MONDAY

The five-room home of Mr. and Mrs. O. E. Renfro in Cox-Weaver Addition, was completely destroyed by fire Monday morning. When the fire was discovered, about 8 o'clock, members of the family attempted to put it out with what water was handy before summoning the fire department.

Firemen were unable to extinguish the blaze, but succeeded in salvaging some of the personal belongings.

The fire is believed to have originated from a defective kitchen flue, as it started shortly after breakfast time.

Mr. and Mrs. Renfro occupied the house with her mother.

## GRASS FIRE GETS OUT OF CONTROL AT DUZAN STATION

The volunteer fire department was called upon for the third time in less than a week Wednesday afternoon, when a grass fire got out of control near Aubrey Duzan's Magnolia Station.

Less serious than the other two, the grass fire caused no damage to property and was extinguished within a few minutes after the firemen arrived.

## Hico 34, Iredell 0 Is Score of Final Game This Season

The Hico Tigers closed the football season with a 34-0 win over Iredell last Friday night at that thriving populace of Bosque county ten miles down the river.

Due to weather conditions the first two quarters were cut from 12 minutes to 10 minutes each, and the last two quarters were cut to 8 minutes each.

Hico was just too heavy and the ground attack too powerful for the smaller Iredell boys to stop, reported Coach Willie Sirman.

Boys scoring for Hico were Kennedy, Loden, Lively and Ables. Practically all the last half was played with boys who will be back next year.

## Shorty's Gone A Long Way In Three Decades of Safe Transportation

# Driver of Big Bus Came Up With the Business

Hardly a person in this area, especially if he rides the buses, is not acquainted with J. E. (Shorty) Warren, who now drives a Continental Trailways bus between Dallas and Hamilton. Shorty has had approximately the same route for 30 years, and during this time has been operator for three bus companies, Roberson Brothers, Bowen, and Continental, during the time when they had a franchise over this route. For 16 years of the 30, he drove his own car, operating a lease line.

Along with Roberson Brothers, whose buses were the first to enter Fort Worth, Shorty is a pioneer. Yes, and a true pioneer, having driven even before the buses were manufactured and he hauled passengers in a 7-passenger Studebaker. He has seen the whole transformation of this mode of transportation, through the period when roads were unpaved and unimproved and bus schedules were very dependable. For this reason, Shorty is proud of the dependable service the buses can now offer. Especially, since he can recall the time when it took 12 hours to go from Stephenville to Hamilton.

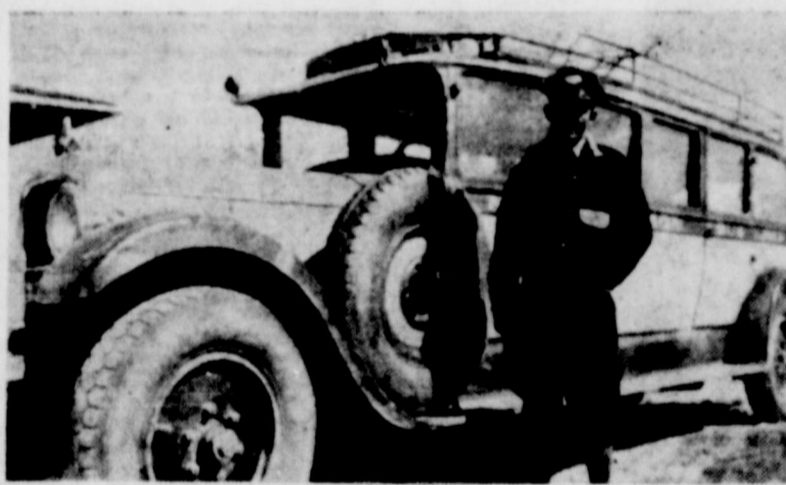

Long before the regular buses were heard of, Shorty was driving an improvised 15-passenger Studebaker, which was really an ordinary car cut apart in the middle and extended to make more seating room. The old 15-passenger car which he drove in 1927 is shown in the accompanying picture, where he stands beside it in the type of uniform the drivers wore then.

Shorty recently observed his 30th anniversary as a bus driver. On November 6, 1920 he began operating for Roberson Brothers, and has been driver continuously since that time. For a few months last year he was ill, and it looked for a while that he might not be able to drive again. But now he is handling the buses just as efficiently and regularly as ever.

His first route was between Stephenville and Hamilton; later he drove from Stephenville to Lampasas, but he has been traveling over the same territory during the whole time.

Master Operator

On October 10 of this year, Continental Bus System, Inc., awarded Shorty a certificate in appreciation of 10 years of driving without a chargeable accident. At a banquet in Dallas that night, the company officials appointed him Master Operator, gave him an engraved billfold and cigarette lighter, and a gold badge and gold band for

A FAR CRY from the modern buses we now ride is the 15-passenger Studebaker operated in 1927 by J. E. (Shorty) Warren, shown beside the bus garbed in the driver's uniform of that day. Shorty began driving with Roberson Brothers in 1920.

his cap, which he is entitled to wear with his uniform. Records of this bus system, which include only 10 years of his 30 years of driving, show that he has operated a total of 632,430 miles and handled approximately 363,528 passengers. He estimates that during the whole period, he has averaged 135,000 miles a year. The title of Master Operator is tribute to his fine operating record with the company.

But this record doesn't reveal all of Shorty's commendable history as a bus driver. Actually he has never had a major accident during the entire thirty years. A lot of this is based on his careful driving, but he has to hand some of it to luck; for instance, the time when he was driving a Bowen bus between Hico and Hamilton. Just as he passed Carter Creek, the approaches to the bridge caved in to leave the back bumper resting on the bridge with the front bumper barely reaching the ground on the other side. There had just been a heavy rain, and a large truck which had passed over the bridge just before the bus arrived had weakened the approaches so that it was ready to drop when the bus went over. Admitting that it was quite frightening, still Shorty declares he calmly got out of the bus and walked over to solid ground, taking his one passenger out the same way. But he says he is glad that Bowen didn't build

that bus a few inches shorter. Not to be stopped by anything so trivial, he drove it on to Hamilton and that evening came back along the same bridge.

## Is Mechanic Too

Shorty is also familiar with the maintenance of vehicles, having worked as a mechanic for several years previous to driving buses. He began farming in Erath county in 1902, at which time he sold watermelons for a dime apiece. Later he moved to the old Culbreath ranch, where he lived until 1911. On June 30, 1912, he was married to an Erath county girl, Maudie Lynch, daughter of Mr. and Mrs. Jim Lynch. He worked for Pitt Barnes and Walter Stewart until 1914, when he moved to Stephenville to work as mechanic.

Mr. and Mrs. Warren are the parents of nine children and have 11 grandchildren. They have five sons living away from here: Mr. and Mrs. J. R. Warren and children, Bobby Jo, Ronnie and Barbara, of Dublin; Mr. and Mrs. James Warren, Glenda Dale and Johnny Wink; Mr. and Mrs. Emmett Warren and Joan of San Angelo; Mr. and Mrs. Ben Warren and Judith Ann of Wink, and Cecil Warren of Big Spring. Two daughters and their families away from home are Mr. and Mrs. T. J. Roberson and Robbie (she is the former Lukie Warren) of Pleasanton, California, and Mr. and

Mrs. D. C. Swisher, Shirley Lee and James Dorsey (Mrs. Swisher was formerly Bessie Warren) of London, Pennsylvania. Mrs. Ethel Gilley and son Benny and Donald Ray Warren are living at home, as well as Shorty's father, F. E. Warren.

Looking to the Future

In this day of atomic energy and thoughts of trips to the moon, Shorty remains conservative in his estimate of the future. He thinks the bus lines have improved a great deal, but he can't foresee any radical changes within the next few years.

Buses are comfortable now and are equipped with air conditioning and heating; they are dependable, so what more could a customer want?

He says the Continental System is using the double-deck buses in California, but he doesn't expect to see them in Texas soon, as they require an additional permit. However, they will shortly run the new Silver Streak, operated by Butane gas, on the route through Hico, he reported. In case of another war, the buses will not be hampered by gasoline rationing.

## Never Had Trouble

One would think that a man who had driven the bus so long, and who had had to deal with so many different types of people, would have many exciting tales to relate. Perhaps some of them do, but Shorty, fortunately, has never had an accident, has never endangered, or has never endangered the lives of any of his passengers.

He once came close to being robbed, however, when driving to Fort Worth. A suspicious character got on the bus, sat near the front seat and rode along a few miles. Being a pretty good judge of human nature, Shorty didn't want to take any chances, so he handed his gun to the woman passenger on the bus, who was seated behind him, and asked her to keep it handy for him. He says it wasn't long until the strange man asked to be let off the bus.

When asked how he dealt with drunks, Shorty said that was simple; he just doesn't allow them to ride.

The company is in agreement with this policy, as they don't want drivers to have unnecessary trouble.

In dealing with other passengers, though, Shorty is always congenial and courteous. He knows many of them well, and they frequently ask about his family.

And—most important—they always feel safe riding with Shorty.

### FARM AND RANCH CHATTER

By LAYNE BEATY

If you saw that story in some of the papers recently about how it had been discovered that turkeys can be carriers of parrot fever, don't get jumpy about turkeys.

They're no more likely to be diseased than they ever were. And parrot fever (psittacosis) is pretty rare.

The disease itself is a form of virus pneumonia and the newer drugs like aureomycin and penicillin are reported to be effective in its treatment.

Doctors have known all along that chickens and ducks can carry this disease, just like lots of livestock and meats can carry diseases that affect humans.

There are around eighty diseases which livestock have which can be transmitted to humans.

But we still go on eating meat. So the new disclosure that turkeys can carry some disease or other doesn't mean that it is necessarily going to.

And we have heard of no outbreak of parrot fever in a long time. There was a case several months ago in Texas of a person who raises parrots coming down with the disease, but that person got well.

It was unfortunate that the routine announcement by a scientist at a meeting of public health officials was made into a news story that sounded sensational.

Most all sections of Texas are more or less dry and the fire hazard is very real and very dangerous.

We'd like to take a moment here to ask all hunters and others who get out in the country to be careful of matches and smoking.

We'd like to urge all farmers

and ranchers to delay not a minute longer the plowing of fire guards along fences exposed to the roads.

Feed will be high and everyone expects feed prices to be higher as the winter progresses.

Save that pasture and woodland and your grass and trees will be money in the bank to you!

More and more success stories of cotton farmers who follow the insect control practice, crop rotation, winter legumes, stalk plow under and other recommendations included in the famous Seven-Step Cotton Program for Texas, indicate that these recommendations are the real McCoy.

Have you noticed how, in the cotton country, you can stand on a rise and see cotton in several kinds of health?

Back in the twenties all cotton was about the same for miles around. Most of our soil was still productive then, and either the boll weevil had ruined the crop or he hadn't, and one could expect uniform conditions of cotton for a whole area.

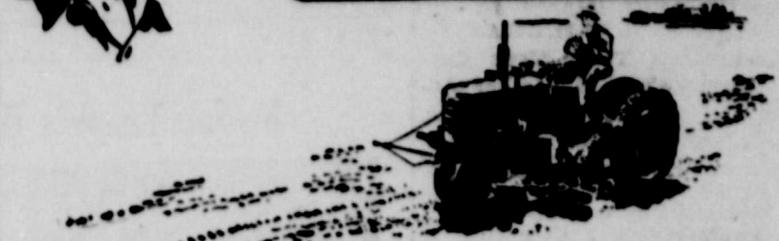

But now, with individual growers following different methods of rebuilding their soil, or not doing anything about it, and with different growers poisoning correctly, haphazardly, or not at all, the cotton land is becoming a patchwork.

A very satisfying batch of letters has come to us from folks who attended the First Annual Texas Livestock Roundup at Fort Worth on November 2 and 3. They are all complimentary and say that they want the one next year to be just as good.

We intend to make it that way. Also, next year we'll extend the ladies a special invitation to attend the session on meat grading and classing.

INTERNATIONAL HARVESTER FARM EQUIPMENT HEADQUARTERS

# 200,000 freshmen can't be wrong!

We believe that something has happened in 1950 that you should take to heart.

Ever since this year's Buicks were introduced, their big bulge in sales has come from people who traded other makes of cars for this bounteous beauty.

The total is more than 200,000.

That's 200,000 "freshmen" added to the roll call of Buick owners—200,000 people who must have sized up the current version of the cars they owned, and decided that Buick offered more thrill, more comfort, more satisfaction for the money.

Beyond that, of course, there were other hundreds of thousands who already owned a Buick and bought a new one

this year. But we're speaking here of new owners only.

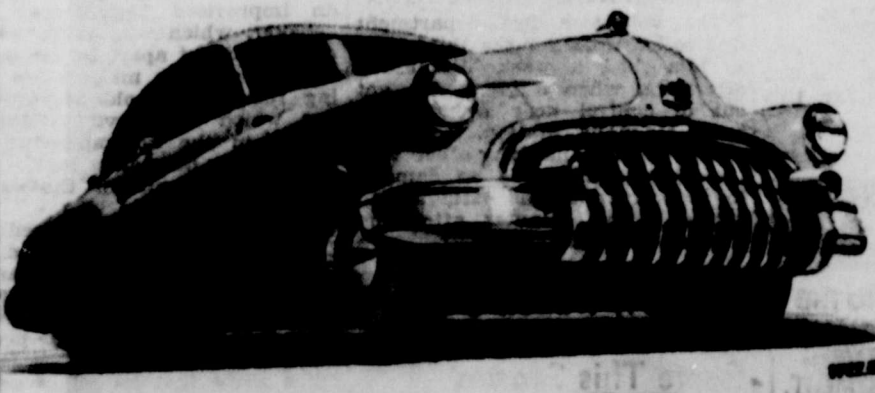

We can name many reasons for this landslide — including Fireball power — an incomparable ride — and Dynaflow Drive.\*

We can remind you that the Buick SPECIAL, SUPER and ROADMASTER just about blanket the range of a car-owner's aspirations—matching prices with many sixes in the lower brackets—matching distinction with the finest in the fine-car field.

We might add that Buick prices are doubly attractive—since their list prices include many features customarily on the "extra" list.

But why try to spell out all the reasons Buick wins in a showdown? The proof of the pudding is in this great car itself. Better come in—look it over—and find out what an unbeatable buy it is.

### O. M. Sawyer

Orville Minese Sawyer was born February 25, 1884, to Mr. and Mrs. J. E. Sawyer, and died at his home near Iredell November 4, 1940.

He was born and raised two and a half miles north of Iredell. He was married to Miss Zollie May Ivey on February 2, 1901. To this union were born seven children, two sons and five daughters. One son, Maurice Clark, preceded him in death. The six survivors are Mrs. Oscar Woody of Lubbock, Mrs. S. A. Dunlap and Mrs. L. L. Flannery of Iredell, Mrs. Jessie Schooles of Lamesa, Mrs. Aubrey Pruett of Knoxville, Tenn., and Lynn Sawyer of Waco.

He united with the Methodist church at an early age and was a faithful member until his death. He was sick for some time, but was very patient through it all. He stayed out of bed just as long as he could. He suffered a great deal, but now he is at rest for ever more. He was a devoted husband and his going has left his wife very lonely. He was a devoted father and loving brother. He was a good neighbor and had many friends. He was well known and until his health got bad he had been a prosperous farmer. He came to town most every day. He is missed by all. He was a good Christian man. All was done for him that human hands could do, but God called him home for his life work was done.

Besides his wife and children he is survived by two sisters and a brother: Mrs. W. P. Hatler of Glen Rose, Mrs. J. C. Bowman of Iredell, and Harve Sawyer, also of Iredell. There are 15 grandchildren and three great-grandchildren.

The funeral was held Sunday afternoon, Nov. 5, at 3 o'clock in the Iredell Methodist Church, with services conducted by Rev. R. T. Wallace and Rev. Greenon, a former pastor. They paid loving tributes to his memory.

The floral offerings were large and beautiful. The following were pallbearers: Allen Dawson, Homer Gosdin, Euell Thompson, W. E. Boyd Sr., Phlemon Hudson, and Wick Simpson. A very large crowd of relatives and friends attended the funeral. Some could not get seats.

He is gone from his loved ones, but he is not forgotten. The remains were laid to rest in the Iredell Cemetery.

Among out-of-town relatives and friends who attended the funeral were: Mr. and Mrs. Talmadge Hatler of Brady, Mr. and Mrs. T. J. Ivey, Mr. and Mrs. Lynn Sawyer, Tom Ivey and Sam Ivey, Waco; Leman Arnold, Frank Coker, and Mrs. Ada Davis, Paint Rock; Mr. and Mrs. E. L. Smith, Mrs. Ozra Smith, Mr. and Mrs. Ed Hillburn, and Mrs. F. R. Daves.

Walnut Springs; Mrs. Jessie Schooler, Lamesa; Mr. and Mrs. O. L. Woody, Lubbock; Mrs. Ella Mae Pruett, Knoxville, Tenn.; Mr. and Mrs. Lewis Sawyer and Mrs. Ruth Dunn, Fort Worth; Mr. and Mrs. Ray Richardson, Roy and Ramon, Dunlap, Dallas; Mr. and Mrs. Hunter Newman and family, Lone Oak; Mr. and Mrs. Henry Davis and daughter, Vera Lee, and Mr. and Mrs. D. E. Bullock, Hico; Mr. and Mrs. Ray Younger and Mrs. Oda Bowman, Meridian; Mrs. Eunice Thrash, Mr. and Mrs. Riddle, Mr. and Mrs. George Riley, and Mrs. Lola Gosdin, Glen Rose.

### Infant Passes Away

Richie Mack Echols was born October 31 in the Clifton Hospital and passed away November 7, having lived eight days. No doubt but Ralph and Ina had made big plans for their baby, but God saw best to take him. Everything was done for him that could be done to prolong his life. The short time he lived he gained the love of his parents and grandparents, the nurses and doctors in the hospital. It is very hard to give up a sweet baby, but it was God's will. He is missed by his parents and other relatives. Everyone in Iredell was certainly interested in him, and would inquire about him daily.

The funeral for this sweet little baby was held Wednesday afternoon at the Iredell Methodist Church, with Rev. R. T. Wallace bringing the message in the presence of a large crowd of relatives and friends. The casket was opened and all took the last sad look. He sure looked very sweet. The floral offerings were large and beautiful. The remains were laid to rest in the Iredell Cemetery.

Besides his parents and grandparents, Mr. and Mrs. R. S. Echols and Mr. and Mrs. A. J. McElroy, survivors include two uncles, Billy Echols and J. D. McElroy, and one aunt, Mrs. Velma Cooper.

The out-of-town relatives who attended the funeral were Mr. and Mrs. Billy Echols of San Antonio, Mr. and Mrs. J. D. McElroy of Fort Worth, Mr. and Mrs. Kenneth Cooper of Meridian, and Mr. and Mrs. Roy Lawrence of Dufau.

### Christian Scientists to Observe Thanksgiving With Special Services

Thanksgiving Day services are  
held each year by The Mother  
Church, The First Church of  
Christ, Scientist, in Boston, Mas-  
sachusetts, and its branches  
throughout the world. The order  
of services includes the reading of  
a Lesson-Sermon on the topic of  
"Thanksgiving" and opportu-  
nity is afforded for testimonials  
of gratitude to be expressed ap-  
propriate to the occasion. The  
public is cordially invited to at-  
tend these services.

The Golden Text is: "Oh that  
men would praise the Lord for  
His goodness, and for His wonder-  
ful works to the children of  
men! And let them sacrifice the  
sacrifices of thanksgiving, and de-  
clare His works with rejoicing."  
—Psalms 107:21,22.

Among the citations which com-  
prise the Lesson-Sermon is the fol-  
lowing from the Bible: "Bring ye  
all the tithes into the storehouse,  
that there may be meat in mine  
house, and prove me now here-  
with, saith the Lord of hosts, if  
I will not open you the windows  
of heaven, and pour you out a  
blessing, that there shall not be  
room enough to receive it"—Malachi  
3:10.

The Lesson-Sermon also in-  
cludes the following passage from  
the Christian Science textbook,  
"Science and Health with Key to  
the Scriptures" by Mary Baker  
Eddy: "To those leaning on the  
sustaining infinite, today is big  
with blessings"—(Preface VIII).

### "KUKLA, FRAN AND OLLIE"

recently celebrated its third  
anniversary in television along with  
the 33rd birthday of their genius  
creator, Burr Tillstrom. . . . Being  
a veteran in an infant industry is  
certainly unique, but the fact re-  
mains that Burr  
and his lovable Ku-  
klapolitan players  
were in TV long  
before the medium  
caught the nation  
in its visor grip. . .  
They'll be here for  
many moons to  
come — the only  
show of its kind we  
can honestly say  
this about. . . . And  
all the credit goes  
to Mr. Tillstrom who has made  
such endearing personalities out of  
his creations. . . . Incidentally, the  
gang has made its first record  
album and it's a honey for the  
kiddies. . . . On RCA Victor (what  
else?), it's entitled "Happy Mother  
Goose" and we take this oppor-  
tunity to nominate Ollie the singer  
of the year for his stirring baritone  
rendition of "Sing a Song of Six-  
pence."

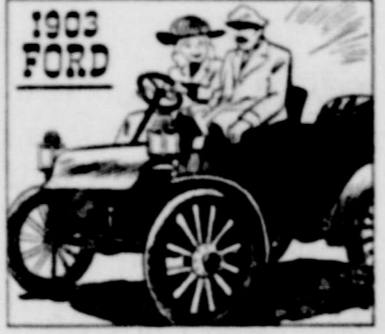

**TILLSTROM**  
COLUMBIA: Edith Piaf has re-  
corded "La Vie En Rose," which  
she popularized, and it fits her like  
a glove. . . . The other side has  
"Three Bells" . . . Dick Jurgens  
has a lovely number in "Just a  
Baby's Prayer at Twilight" on the flip  
. . . "Autumn Leaves" is given an  
excellent send-off by Mitch Miller  
. . . "Song of Dellah" backs it  
. . . Jimmy Dorsey revives two old-  
ies which were popular once and  
threaten to repeat. . . . "Let a Smile  
Be Your Umbrella" and "In a  
Little Spanish Town" . . . New,  
pert Rosemary Clooney has two  
winners in "I'm the One Who Loves  
You" backed by "Where Do I Go  
From You" and "Wobblin' Gobb-  
lin" backed by "Punky Punkin'."

**PLATTER CHATTER**  
CAPITOL: Stan Kenton returns  
with a sizzler, "Be Easy, Be Ten-  
der" with "Love for Sale" on the  
reverse. . . . Peggy Lee's latest  
is "Life Is So Peculiar" with "Once  
in a Lifetime" on the flip. . . . Jan  
Garber does a fine job on "Rainy  
Day Refrain" and the bright new  
"So Long, Sally."

### "I REMEMBER" BY THE OLDTIMERS

From E. L. of Chicago: I remem-  
ber when father used to pile the  
family into the automobile and  
take "long" drives out into the  
country to sights of interest each  
Sunday.

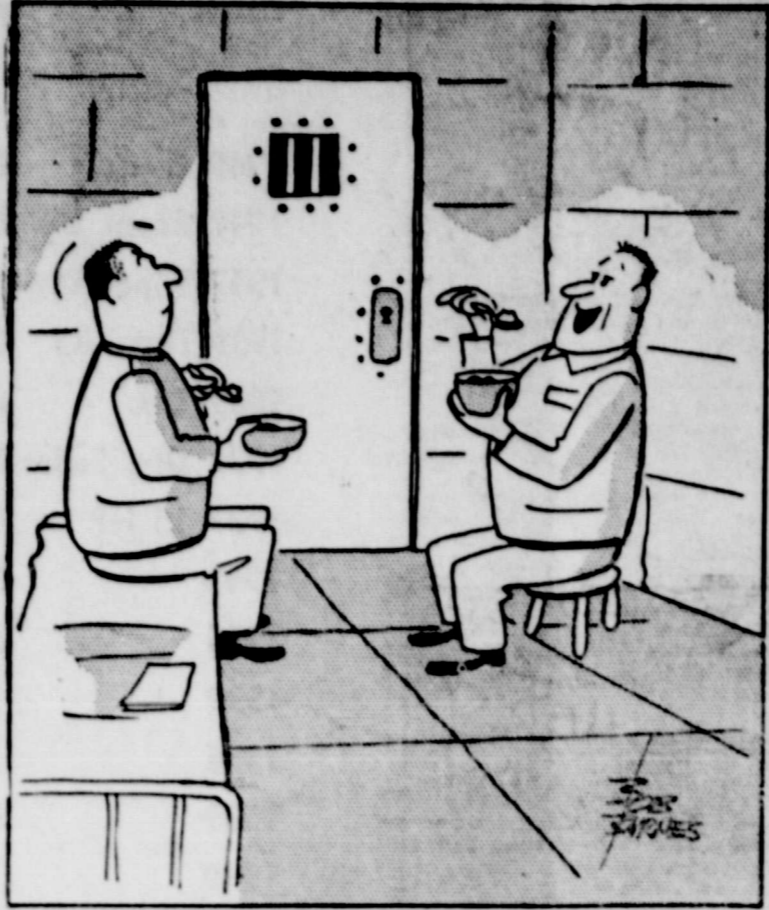

From Mrs. Ella Bates of Salina,  
Kan.: I remember the days of the  
horseless carriage, later called the  
"gas buggy." Some of the ear-  
liest makes of cars were; the  
Mier, Mitchell, Brush, Rambler.

GLEASON, Stevens-Duryea, Orient  
Buckboard. These were popular in  
the first decade of the century.  
Then came the Stoddard-Dayton,  
Mercedes Roadster, National,  
Overland, the Flanders Twenty,  
the Empire. In the 1920s there  
were such makes as the R. V.  
Knight, the Franklin, the Gardner  
and the Maxwell.

From J. Risor Camryn of Seattle,  
Wash.: I remember when "new-  
fangled" things began to interest  
me and when my father brought  
home an unbreakable lamp chim-  
ney. He dropped it on the floor to  
demonstrate. The next test was to  
flip drops of water from his fin-  
gertips on the heated lamp chim-  
ney. It burst into a hundred pieces  
and it was right over the butter  
dish on the dining room table! <

## Above the HULL by LITTLE HULL

**WE LEND MONEY** to Yugoslavia which certainly won't back us when the war with Russia comes; but we won't lend money to Spain which will fight on our side if it has any arms to fight with. Doesn't seem to make much sense, does it?

But it didn't make much sense when we agreed to walk out of southern Korea and when we announced that we wouldn't defend it! Very little of our foreign policy seems to make much sense! Maybe those who are conducting it are so brilliant that we common people can't keep up.

Their logic is over our heads! We are too dumb to understand the scintillating strategy which lost us China and which tempted the Reds into Southern Korea and which now appears to promise them Formosa if they will be a little patient. All we poor saps can see is that we are at war to the death with half of the world.

We can't even grasp the policy that supports the dictator Tito who ruthlessly shot down our aviators, who votes against us in the U.N. and who will doubtless fight against us in the inevitable war with Red communism. We can't fathom a policy that refuses to arm the only nation—Spain—also a dictatorship, which can really help us when Russia starts across western Europe—the nation which saved the lives of so many of our aviators during World War II.

We are too dumb to understand why our present leaders won't protect the only beach-head in the Spanish peninsula—which can help us save Europe when the war comes.

The American people through their representatives in congress, have voted a loan to Spain. The President, it is rumored, will prevent it's use. If he thus opposes the will of the people, we will still probably re-elect the area, come November, when he can depend upon to support just this sort of behavior.

The government is probably right after all—we are damn mighty dumb!

SUNDAY'S SERMON

By REV. ROBERT H. HARPER

Ruth, a Symbol of Family Loyalty

Memory Selection: Ruth 1: 16

After a ten-year sojourn in Moab and the deaths of her husband and two sons, Naomi returned to Bethlehem. Her two daughters-in-law set out with her but soon Orpah in tears turned back. Then Ruth, in answer to Naomi's urging that she also go back to her people, voiced the beautiful plea that is used as the memory selection.

In Bethlehem Naomi became an astute match-maker. When she learned how kindly Ruth was treated in the fields of Boaz, a kinsman of Naomi, she carried out a plan that might be made a scandal but for the high character of the persons involved. She sent Ruth to lie down at the feet of Boaz, as he slept in the threshing floor. When he awoke, Ruth asked him to cover her, as a near kinsman, and the rich bachelor promised to redeem Naomi's ground.

The following day, when a nearer kinsman declined to redeem the property, Boaz bought the ground and took Ruth to be his wife.

The book of Ruth is the seldom-told story of the love of two women for each other, who sustained a relation often held up to just—that of mother-in-law and daughter-in-law. And Ruth was indeed a "symbol of family loyalty" in cleaving to Naomi, her dead husband's mother. And it may be observed that Boaz was himself loyal to his family connection. The reward of Ruth was enough—she was happily provided for and she became an ancestress of Jesus Christ. So may we be loyal in all the relations of life.

## Arrangement for Thanksgiving Table Shown Garden Club

Mrs. Archie Corbett and Mrs. J. W. Fairley exhibited an arrangement for a Thanksgiving table at the meeting of the Hico Garden Club Friday, November 10, at the First Methodist Church. Mrs. L. N. Lane, vice-president, was in the chair.

There were about 25 ladies present. A homemaking class from Hico High School was present to see Mrs. Lane make corsages and tell how to wear them and how not to wear them. After the meeting appreciation was expressed to the committee, composed of Mrs. Lane, Mrs. Odie Petsick, Mrs. E. H. Randals Sr. and Miss Louise Blair, for such a nice program.

During the business session, it was voted that the club have Mrs. White as a guest speaker March 12, since she has that date open.

## Mmes. Baldrige and French Are Hostesses To Helping Hand Class

The Helping Hand Class of the Methodist Sunday School met in regular monthly social and business session in the west wing of the church on Nov. 14 at 4 p. m.

Hostesses for this occasion were Mrs. J. H. Baldrige and Mrs. Roy French. Delicious refreshments of individual cherry pies with whipped cream and hot chocolate were served to the fifteen members present.

The class meeting was called to order by the vice-president, Mrs. J. P. Owen, in the absence of Mrs. J. D. Wright, the president.

Two songs were sung by the class, with Mrs. J. W. Richbourg at the piano. Mrs. Owen read the 26th Psalm and all members joined in repeating the Lord's prayer. A short business meeting was held in which class members discussed the Christmas party set for the second Tuesday in December. It was decided to have a tree with presents for all, as usual, and also probably a short Christmas program. Mrs. Roy Stevens and Mrs. Owen will be hostesses for the December party.

After the business meeting Mrs. T. H. King led the class in a Bible guessing contest.

Members present were Mrs. Nettie Meador, Mrs. Owen, Mrs. Watt Ross, Mrs. Mollie Weisenhunt, Mrs. Baldrige, Mrs. Guy Eakins, Mrs. Richbourg, Mrs. Ed Ford, Mrs. French, Mrs. Andy Hutton, Mrs. King, Mrs. Stevens, Mrs. Frank Mingus, and Mrs. D. F. Couch.

## Fairy

By Mrs. Eunice Massengale

We were in the grip of Winter again from last Thursday until Sunday, and at this writing we have threatening weather, with occasional showers. We are needing rain very much, and hope to receive a good rain soon.

Mr. and Mrs. Hugh Wolfe were in Lometa Sunday to attend funeral services for her nephew, Rufus Underwood of Lometa, who died Saturday of injuries received in a car wreck between Temple and Waco Tuesday night of last week. His wife was killed instantly in the crash and funeral services for her were held on Wednesday. Interment was in a cemetery near Lometa. The couple had carried their daughter to Temple, where she was to undergo a minor operation. Leaving her daughter in the hospital, they decided they would drive to Waco and have supper with his sister, Mrs. Eva Eddy, and family, and it was on their return to Temple that night when Mr. Underwood attempted to pass a truck and met head-on with another car. Mrs. Wolfe remained for a visit with her sister, Mrs. Emma Underwood. Mr. Wolfe returned for her today (Tuesday). We extend deepest sympathy to all in these hours of sorrow.

Mr. and Mrs. Edwin Seilheimer and little sons of Fort Worth, Mr. and Mrs. George Stringer and Cathy Ann of Hico, and Mr. and Mrs. D. E. Allison, Ruby Jean and Darrel of Dublin visited Sunday in the home of their parents, Mr. and Mrs. Edd Allison, and Fozie, Mr. and Mrs. Clifford Tinkle of Hamilton visited in the home in the afternoon.

Mr. and Mrs. Richard Smith and children, Jerry and Marciene, and Mrs. Smith's mother, Mrs. Myrtle Enger, all of Brady, visited over the week end with Mr. Enger's mother, sisters and brother and families, Mrs. A. L. Newman, Mrs. Gladys Cox, Mrs. Eunice Massengale, Mrs. Lorya Heyroth, Mrs. E. M. Hoover, and Mr. and Mrs. Prentis Newman. They also visited with relatives at Cranfills Gap before returning home late Sunday.

In reporting the names of mothers present for little Doren Given Willeford's birthday party last Monday, we failed to give the name of Mrs. R. W. McAdams, who with her baby daughter was present.

Those from here attending the wedding of Mrs. Dora Houston and Mr. Pendleton of Winters at the Hico Baptist Church Saturday night were Mr. and Mrs. B. J. Parks, Mr. and Mrs. J. C. Massengale, Mrs. Eunice Massengale, Mrs. A. L. Newman, and Mr. and Mrs. Richard Smith and Mrs. Myrtle Enger of Brady.

Mrs. Gladys Cox visited Monday in the Willis Oglesby home in Hamilton with Mrs. Minnie McCarty and Mrs. Oglesby.

Mr. and Mrs. Carl Ray Sellers attended the wedding of his nephew, Joe Gilmer, to Miss Betty McGlothlin at Hamilton Saturday night at the Methodist Church at 7:00 o'clock. They also attended the reception held afterward.

Mr. and Mrs. Bernal Richardson and sons of Cranfills Gap were dinner guests of Mr. and Mrs. H. O. Richardson and Jerry, Sunday.

Mrs. T. L. Betts of Fort Worth spent the week end here.

Little Miss Cheryl Kay Price has returned to her home in Austin after several weeks' visit in the home of her grandparents, Mr. and Mrs. P. L. Cox.

Mr. and Mrs. Carl Ray Sellers, Carolyn and Jimmie Don visited in the home of his parents, Mr. and Mrs. N. S. Sellers and Joy Marie of Hamilton last Sunday.

Mr. and Mrs. D. E. Allison and

family of Dublin and Mr. and Mrs. Carl Ray Sellers and family were supper guests of the ladies' mother, Mrs. Eunice Massengale, Sunday night.

We are taking a biology test, hope we pass.

### Eighth Grade News

We are all hoping that we can have some basketball games, but we don't know of any yet.

This week we interview Sidney Sowell, who has brown hair, green eyes, and weighs about 104 pounds. He likes fried potatoes, mince-meat pie, blonde hair and blue eyes—especially those of Sherry Cunningham. Dale Evans and Randolph Scott are his favorite movie stars, and basketball is his favorite sport.

On Nov. 3 the Lucky Stars had a meeting, which was called to order by the president, Gwen Jackson, who has brown hair, blue eyes, is 4 ft. 11 in. tall, and weighs

87 pounds. She likes fried chicken and ice cream, basketball, spelling, and boys. Her favorite actress is Yvonne De Carlo, and her favorite actor is Cornell Wilde. She likes to hear "Barrel House Beanie" and the Andrews Sisters. She thinks she will wear gold and blue when she becomes 21, and sit on the boss's knee.—Horace Griffiths, Reporter.

### Seventh Grade News

Wedding bells are ringing! You should have seen this heavenly wedding. It was "spectacular."

We got our pictures today. They are all pretty good.

We are interviewing Sherry Cunningham this week. She is 5 ft. 6 in. tall and has blonde hair. Sidney says she has blue eyes. (What color are they, Sherry?) Sherry has played on the main basketball team as guard for two years. Her favorite singers are Bob Crosby and the Andrews Sisters. "Harbor Lights" is her favorite song, recorded by Bing Crosby. What is so important about the back seat on the bus, Sherry?—Shirley Clark, Reporter.

We Ask That "Fares" Play Fair

Judge Cunningham was telling about a taxi ride he took over to the County Seat last week. The cab was all littered with cigarette butts, plus candy and gum wrappers. This annoyed the Judge and he spoke to the driver about it.

To his surprise the cabman answered right back. "Don't blame me," he said "Fast as I clear this taxi out, the fares just mess it up again. I like a clean cab as well as anybody, but a man has to have some co-operation!"

Judge figures the fellow was in the right, and maybe we ought to

were served to twelve members and three guests. Doris Fillingim and Ray Battershell served on the committee to plan the party.

## WORM'S EYE VIEW

Hello, everyone! I didn't freeze over the week end. But I came so close it wasn't funny! As you all know, Mr. Knight doesn't leave the fires on in the building during the week end.

Enough of this, though. I see a pretty blonde coming my way. She is a Junior and whenever you see her, you also see Jimmy Kennedy. Who else could she be but Billie Jean Fulcher? Billie Jean is one of our pep leaders and also plays on the basketball team. She wears the flashiest engagement ring on her hand. Oh, boy!

Billie is about 5 ft. 4 in. tall and has blue eyes. She is very sweet and has a swell personality.

Well, if I don't freeze or leave the horrible school building I will see you all next week.

## BE SAFE, PARK RIGHT IS ADDITION TO CLASS IN DRIVERS EDUCATION

When one car parks wrong on our streets it probably causes the others to park wrong unless one skips into another lane and parks his car right. If this is done another car will come along, park in the narrow space and probably cause a bent fender or door. Drivers should abide by their common sense and park right—so that no accident will result.

Don't for any reason park next to a fire plug! You will only cause a hazard in case of fires nearby. Park at least twenty feet from a fire plug so the engine can have easy access to the plug.

When the rules of safety first are followed by all drivers, the results will be seen immediately. Remember: be safe, park right.

## Antihistamines Are New and Unproven, Could Be Dangerous

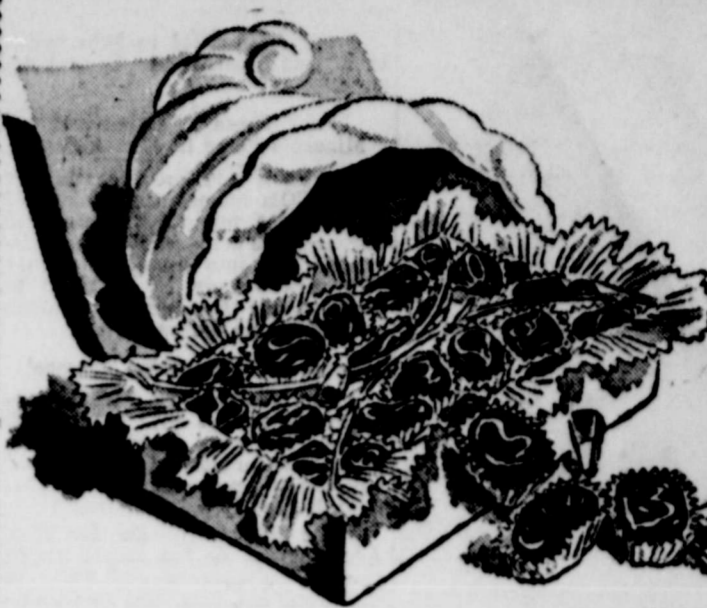

Austin, Tex., Nov. 14.—The wide advertising of antihistamines for the prevention of colds should not persuade people to place too much confidence in these drugs as a treatment for colds," Dr. Geo. W. Cox, State Health Officer, warns the citizens of Texas. "Those who decide to take any of the antihistamine pills should realize it is highly important for them to follow exactly the directions.

"Regardless of the effectiveness of these new products it remains most desirable to take the ordinary precautions against contracting a cold—adequate sleep, clothing adapted to the weather, well balanced diet, moderate outdoor exercise and avoidance of unnecessary contacts with those already suffering from colds. Extra rest and the drinking of large amounts of fruit juice are still important aids to physical well being and cure if a cold occurs.

"Unfavorable reactions such as dizziness, drowsiness and temporary loss of muscle control sometimes occur after taking this drug. Everyone is strongly advised against driving an automobile or working around machinery while taking the pills.

"Some readers of advertisements may get the idea that taking small doses of antihistamines every day will prevent colds. Such use of drugs should be discouraged. Antihistamines are still new and largely unproved drugs. Physicians have not yet determined what effect these products may have upon the human system if taken over a long period of time.

# Nurse Tells How Hadacol Was So Helpful To Her

Supplied Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin Which Her System Lacked

Mrs. Jennie Lee Adele, 412 N. 27 St., East St. Louis, Ill., a nurse, says she wishes she had found out about HADACOL sooner because since taking HADACOL she feels so good. Mrs. Adele was suffering a deficiency of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron which HADACOL contains.

Here is Mrs. Adele's own statement: "I have been a nurse for over 14 years. My food never seemed to agree with me. I heard one day how so many folks were being helped because of HADACOL. I tried it and after 3 bottles I could tell a big improvement. Now I eat anything I want—sleep well and I am full of energy."

**Why HADACOL Gives Such Fine Results**  
HADACOL does not bring just symptomatic relief. HADACOL now makes it possible to actually relieve the cause of aches and pains in the shoulders, legs and arms, certain nervous disturbances, and a general run-down weakened condition due to deficiencies of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron in your system.

HADACOL not only supplies deficient systems with extra quantities of Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron, and Niacin but also helpful amounts of important Calcium and Phosphorus

—elements so vital to help maintain good health and physical fitness.

**Why These Vitamins and Minerals Come In Liquid Form**

There's a very good reason why HADACOL comes in special liquid form. These precious Vitamins and Minerals are more easily and quickly absorbed into the blood stream this way—ready to go right to work. A big improvement is often noticed within a few days.

**Don't Be A 'Doubting Thomas'**

After reading Mrs. Adele's wonderful experience with HADACOL—how can you doubt that this great new nutritional formula will help you if your system lacks Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron, and Niacin? What HADACOL did for Mrs. Adele, it can do for you if you're troubled with aches and pains in the shoulders, legs, and arms, certain nervous disturbances, insomnia when due to an upset stomach, stomach distress and a general run-down weakened condition due to such deficiencies.

So what are you waiting for? Don't you see that HADACOL is the kind of product you need—the kind you should buy and the kind you should start taking immediately!

**Sold On A Strict Money-Back Guarantee**

HADACOL even helps build up the hemoglobin content of your blood (when iron is needed) to course through your body, carrying these great health-building elements to every body organ. No wonder HADACOL helps you feel wonderful!

Be fair to yourself! Give yourself a break if you have such deficiencies! Why continue to drag yourself around—a burden to yourself and your family—when relief may be as close at hand as your nearest drugstore if you suffer a deficiency of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron. This great HADACOL is inexpensive, too—costs only a small amount a day. Trial size, only \$1.25. Large family or hospital size, \$3.50. If your druggist does not have HADACOL, order it direct from The LeBlanc Corporation, Lafayette, Louisiana.

## "Let's Talk Live Stock"

By TED GOULDY

Fort Worth, Nov. 13.—Pressure on hog prices, which started late last week at markets over the nation, was continued at the opening of trade Monday. Top hogs at Fort Worth at \$19 and \$19.25 again reflected the advantages of hog growers in the Southwest since most cornbelt markets report hog prices around \$18.50 and under for top butchers.

Advantages of feeding more hogs in this section of the country this year is enhanced by the liberal feed crops from maize and a large corn crop. Rising population in the Southwest has further emphasized the shortage of pork produced near our home markets.

Industrial growth in this area continues to boom and still our production of the needed pork lags. Hogs are a profitable sideline for most farm operations whether you are a cattle feeder, dairy farmer or are engaged in general farming.

Look into it. The hogs can make a lot of money if handled right.

Packers apparently have taken a bearish point of view on meat for the near future, especially the weightier cattle, and the continuing weakness in the cow market reflects some slow-up in canned meats.

Naturally the pre-Thanksgiving season means that turkey and other fowl will occupy a large part of the meat buying dollars of the housewife for the next couple of weeks or so. Also the nimrods are bringing in some game that cuts the needs for meat purchases.

The more liberal supplies of meat are reflected in the current low ebb for broilers and fryer chickens, which for a week or so have been selling at the lowest point in a long time. When red meat gets more expensive, the fryer markets always climb.

The long-term thinking on cattle and calves is for higher prices. It is freely predicted that stocker calves should again hit the \$35 level if general rains came to the Southwest.

Barring a radical change in the over-all picture the Spring market for stockers will be high and many cattle are being wintered in that expectation.

Rain is needed nearly everywhere in Texas and would not hurt any particular section so far as livestock are concerned.

To give an idea of current values, here are some sales made at Fort Worth Monday. Birmingham & Patton of Gail, Texas, county seat of Borden County, had a load of 925-pound stocker cows at \$24.50. Mrs. N. N. Campbell of Morgan, Texas, sold a load of 24 calves at 411 pounds at \$29. John Herring of Henrietta, in Clay County, sold stocker calves for \$31 and averaged over 500 pounds, some of them would go 600 pounds.

R. B. Mansfield of Bowie had a load of 1,030 pound steers at \$26.25. G. W. Spinning of Post sold some fat cows at \$21.50. Miller and Scharbauer of Eidoson of Midland sold a mixed shipment that carried some fat calves at \$27, some Brahman steers at \$25.50, a few feeder steers at \$27.50, and some plain stocker steers at \$25.

P. W. Watson of Italy had a top Brahman bull that sold for the day's extreme top at \$25 per hundred, equal to the best price here in many weeks. He's been using this bull with both Brahman and white-faced cows at his place. S. B. Burnett Estate, King County, had three loads of fat cows at \$21 and a load of canners and cutters at \$18.50. Beggs Cattle Company, King County, sold 35 cows with some age as stockers at \$21.50 and slaughter Brahman cows at \$18 to \$21. Some mixed heavy calves and yearlings, Brahman and cross bred included, sold for \$27.50 and \$28.50.

W. N. White of Brady had 16 steers scaling 1,322 pounds at \$26 and Henry Green of Childress sold a load of steers at \$26.50.

**NEW SCHEDULE FOR PILOT TRAINING** — In accordance with recent changes in USAF pilot training programs, Basic and Advanced Pilot Training courses will each be of six months duration. The new schedule became effective with Aviation Cadet class 51-C, which entered training 17 May 1950. Prior to this date, Basic Training courses were 7½ months in length and Advanced Training courses were completed in 4½ months.

## Dr. Cox Reappointed State Health Officer Another 2-Year Term

Austin, Nov. 12.—The Texas State Board of Health has elected Dr. George W. Cox of Austin to his eighth consecutive two-year term as state health officer.

The vote of the nine member board was unanimous in favor of keeping Dr. Cox in the post he has held since 1936, the longest tenure in the 70-odd-year history of the State Department of Health.

Dr. O. B. Kiel of Wichita Falls, chairman of the board, called Dr. Cox "outstanding among the health officers in the nation." "The job he has done in his capacity is remarkable," Dr. Kiel said. "I speak for the whole board when I say Texas is fortunate to have such a man as Dr. Cox heading its public health activities."

In addition to Dr. Kiel, present board members are Dr. S. D. Coleman, Navasota; Pat J. Kavanaugh, a San Antonio pharmacist; Dr. John E. Mitchell, Tyler; Dr. A. W. Rogers, Corsicana; J. P. Burden, San Angelo; Dr. T. C. Terrell, Fort Worth; Dr. B. E. Pickett, Carrizo Springs, and Dr. L. S. Oates, Center.

Dr. Cox has aligned himself with the public health movement in Texas throughout his professional career. He is a former member of the State Board of Health. His medical degree was conferred at Tulane University. Some of the highlights of his tenure as the leader of State public health activities are:

A reduction of typhoid fever death rates of 97 per cent; a 96 per cent cut in malaria mortality; 43 per cent reduction in syphilis death tolls.

The common diseases of childhood — scarlet fever, diphtheria, whooping cough and measles—have been so sharply curtailed that last year the combined death rate from these four causes was less than one-third that of diphtheria alone 15 years ago. Influenza and pneumonia deaths have also fallen off sharply since 1937.

A 500 per cent increase in the number of local health units has occurred under the administration of the veteran health chief who strongly advocates decentralization of the state's health facilities "so people can get to them."

He is a past president of the United States-Mexico Border Public Health Conference, a diplomate of the American Board of Preventive Medicine and Public Health, and a member of the American Public Health Association, American Medical Association, and the Texas State Medical Association. He is also director of the Division of Emergency Medical Services and Public Health within the framework of the State's civil defense organization.
