

Star Lites

By Bill Ellis

EARLIER THIS summer, Friona EARLIER THIS summer, Friona librarian Darla Bracken approached Ye Editor, pointing out the library's emphasis on the Olympics. Her visit reminded me that as a young "cub reporter," I had covered the 1960 Olympic Trials in Palo Alto, California. Darla urged me to write about this.

Less than a month into my first newspaper job, there I was at Stanford Stadium, watching Amer-ica's top athletes try out for that coveted spot on the Olympic team. Some of the winners made names for themselves. Others just

basked while enjoying their brief claim to fame.

clain to fame. T've always been a pole vault fan, and 1 particularly enjoyed watching Don Bragg win the event by clearing 15-0. At the Olympics, Bragg set a new record with a jump of 15-5. A sideline to this is the fact that in the intervening years, two Friona boys have cleared 15 feet. Andy Kendrick's top mark this season, 15-3, would have won a silver medal in the 1960 Olympics. Bragg went on to make a movie

Bragg went on to make a movie or two, in the role of "Tarzan."

Glen Davis won the 400-meter hurdles, both in the trials and later in Rome, setting a new Olympic record, U.S. hurdlers placed 1-2-3. Davis repeated his gold-medal performance of 1956, when the Olympics were in Australia.

Olympics were in Australia. Jumper Ralph Boston won the long jump with a new Olympic rec-ord of 26 feet, 7-3/4 record. It stood until Bob Beamon topped 29 feet. Al Oerter won the discus throw when we saw the meet at Palo Alto. He and the other two American qualifers went to Rome and gave Uncle Sam another 1-2-3 sweep. Lee Calhoun had a fight on his hands to win the U.S. trials in the 110-meter hurdles. The two who pushed him, Willie May and Hayes Jones, did likewise in Rome, and again the U.S. placed 1-2-3. Wilma Rudolph was the "rising star" for the U.S. Women's track and field team. The long-legged Tennessee star easily won her qualifying events that we watched on that clear California afternoon. A couple of months later in the

on that clear California afternoon. A couple of months later in the Olympics at Rome, Miss Rudolph easily won the 100-meter dash (world record of 11.5), the 200-meter dash in 24.0;, and then anchored her team to victory in the 4x100 meter relay, where they set a world record of 44.5. In my mind's eye, I can still picture Miss Rudolph, pulling away from the field, especially in the 200-meter race, winning by ten yards. Tragedy struck down this

the 200-meter race, winning by ten yards. Tragedy struck down this great U. S. athlete within the last decade, when she was stricken by a rare disease that claimed her life. At the Olympic trials, we saw high jumper John Thomas lead the United States' contingent. He won with a jump of seven feet. But in the Olympics, two Russian jumpers outdid Thomas, who had to settle for third place.

Settle for third place. One of my disappointments at the trials was when Bobby Morrow, the 1956 gold-medal winner in the 100-meter dash at Melbourne, had 100-meter dash at Melbourne, had to give way to younger sprinters. Morrow, the Abilene Christian flash, was the first to crack the ten-second mark in his specially. We didn't get to watch the boxing trials, as they were held elsewhere. But when the Olympics

got underway, a promising young black fighter established himself as the favorite in his weight division. He went undefeated at the Olympics. His name was Cassius Clay. You may know him better as Muhammed Ali.

Eight years later, Pampa's Randy Matson joined the small number of Panhandle athletes who have won an Olympic gold medal with his win in the shot put. Matson threw the iron ball almost 70 feet.

the iron ball almost 70 feet. Speaking of area stars, the 1936 Olympics saw Joe Fortenberry, who attended Happy High School, pace the United States' gold medal in the first Olympic basketball competition. Fortenberry, the brother of former Parmer County Judge Paul Fortenberry, passed away in 1993 at the age of 82.

FRIONA TEAM Members of the Friona High School Future Homemakers' leadership team, which competed for national honors at St. Louis recently, are shown. Front row, I-r: Heather Martin, Blaire Jones and Jaclyn Peace. Back: Amber Martin, Diandra Lafuente, Amanda Taylor, Canna Ray and Jenny Hamilton.

FHA Team Wins **National Honors**

Eight Friona Students and two advisors recently attended the Future Homemakers of America National Leadership meeting in St. Louis, Missouri. Over 4,200 delegates from the

Fify states, plus the Virgin Islands, Puerto Rico and the District of Columbia attended the meeting. Texas had the largest delegation with 255 delegates.

lexas had the largest delegation with 255 delegates. The Friona Students took part in the STAR (Students took part action with Recognition) events. The eleven events included Applied Technology, Chapter Service Project, Chapter Showcase, Entrepreneurship, Focus on Children, Food Service, Illustrated Talk,Interpersonal Communication, Job Interview, Parliamentary Procedure, and Skills for Life. The Friona Parliamentary Procedure team qualified to participate by placing first at the Region I contest in March and winning first at the state meeting in April. Only the first place winners

winning first at the state meeting in April. Only the first place winners from each state may compete. In the Parliamentary Procedure event, students work as a chapter team to demonstrate working knowledge of parliamentary law by organizing and running an FHA/HERO business meeting. The event was evaluated on such criteria as knowledge of parliamentary procedure, demonstration of given abilities, personal manner of all team members and response to questions of evaluators.

members and response to questions of evaluators. Friona students started early in the school year to learn parliamentary procedures and how to set up a meeting. At contest they draw two problems that must be included in their meeting. They then have a 15 minute planning period to prepare for the contest. The Friona team received gold medals at a special recognition

"The older I get, the less I know", the old fellow said at his 80th birthday party. "I have lived into an age that I don't understand."

It was many years ago when a friend of mine, Gillis Reid, turned 80 and passed on those words of wisdom. At the time they didn't sound like wisdom to me. Now they do

This weekend in Atlanta, and for the next 16 days, many dreams will be realized, while others are shattered, during the 1996 Summer

Olympics. There will be more coverage and hype than most of us will care to hear during every nightly newscast.

Oh I know, it is the history ceremony and tradition we should be respectful of, right? Baloney.

Am I the only person in Parmer County who got tired of that Olympic flame wandering across the country? I know, I know, its an honor of a lifetime.

But to me, it takes some of the tradition away when there is a vehicle with a "back-up" flame in case the one being carried goes out, which it did a couple of times.

To be fair, it seems that if the flame goes out, they should have to go back to Greece and start over. The flame that lights this year's torch in Atlanta ain't going to be the one that left Greece. That's

Call Energas Company 48 hours before you plan to dig in streets,

show biz. So who really cares? It is all symbolic anyway. Or is it. In ancient times, when the

Olympic Games competition was held, the tribes stopped fighting each other and for a period of time lived and competed in peace until the games were over and they med battle.

resumed battle. Early American athletes like Wilma Rudolph, Jesse Owens, and Jim Thorpe, became legends because of their Olympic achievements. Their

achievements. Their accomplishments influenced countless numbers of Americans for their courage and determination.

No doubt many of this year's Olympic athletes have courage and determination too.

Things do seem to have changed from ancient times though. Modern day Olympics are about money and politics. Seems to me that something

has gone wrong in the spirit of the competition. It is big business now. MONEY!

now. MONEY! A recent TV segment gave these statistics: There will be 10,000 athletes, 2 million visitors, and 30,000 security personnel. Security costs alone were said to be \$300 million. Who pays for the security anyway? And dd you potice there are

And did you notice there are three times as many security people as there are athletes?

The Amarillo Globe-News has enlisted several Amarilloans who will visit Atlanta and who volunteered to call the Globe-News each night during their stay and "report on traffic, costs, and other events" at the Summer Games.

Now wait a minute. First they are going to report on traffic. Next they will talk about costs. And finally they will report on other events at the Summer Games. Do they give gold medals this year for traffic and costs? My heart is

Tarific and costs? My hear is pounding to read those reports. "Traffic was snarled all over Atlanta today, we paid \$27 for lunch, and by the way Olga Swamibuhtakajarian won four gold medals but we didn't get to see it because we were busy driving and eating. Maybe soon we will get to see some events. Right now we are looking at T-shirts.....! " So it goes.

Atlanta built an 83,500 seat stadium. New sidewalks, new lampposts, along new streets that lead to new parks.

197 countries represented, 3,779 women athletes, 42,500 support workers, and most important, 425,000 orders of french fries will be served.

fries will be served. Atlanta gathered \$750 million from 43 corporate underwriters and NBC-TV paid \$565 million for domestic television rights. The Olympic torch relay bore Coca-Cola's name. The torch stopped at Holiday Inns along the way (another sponsor) and the

way (another sponsor), and the vehicles were GM cars. Quote from July 14 Amarillo Globe-News: "ACOG (the Olympics committee) imposed ruthless financial discipline on an awart known for reading in it is to own event known for revelling in its own excess, run by an international body of royalty that alternates its annual meeting between Switzerland and Monte Carlo."

Monte Carlo." Inside the "grounds" the only thing visitors can bring in is bottled water. Maybe you have seen those TV shots of people dumping their snacks in trash barrels outside the gates, forced to buy food inside at inflated prices. All of this to see who can run 100 meters the fastest, or row

faster, or win a couple of volleyball matches. There is even a 10-meter air rifle competition. Wish I had saved my Red Ryder BB gun. Competition goes from about 10 a.m. each day until sometime

after 2 a.m. The closing ceremony will be close to midnight on Sunday, August 4. Some of the medal winners will go on to fame and riches. Most of the athletes will go back to their relative obscurity around the world. Atlanta will try to figure out

what to do with stadium, parks and buildings they built.

draw the winners' names. Excel donated 10 sticks of New

Excel donated 10 sticks of New York strips. These winners are going to have a nice bar-b-q. Betty Ann Jones won two sticks. Winning one "stick" apiece were Jimmy Grimsley, Richard Samarron, Matt Glasscock, Sue Humberg, Don Brucci, Kenneth McLellan, Clay Dutton and Gary Furgeson. Services Set For Eula Akens

Funeral services will be held Friday at 1:30 p.m. at the First United Methodist Church of Friona for Eula Akens, 92. Rev. Lee Roark, pastor, will officiate. A second service will be held Saturday morning at 10 a.m. at the Hodges Baptist Church in Hodges, with the Rev. Morris Poole, Methodist minister, officiating.

Burial will be in the Midway Cemetery, under the direction of Ellis-Blackwell Funeral Home, Mrs. Akens passed away Thursday Iuly 18 at Parmer

Hils-Blackweil Funeral Home. Mrs. Akens passed away Thursday, July 18, at Parmer County Community Hospital. She was born September 23, 1903, in Nolan County. She married Umberson Smith Akens June 3, 1925 in Jones County. He died in 1982

Mrs. Akens was a member of

EULA AKENS the First UMC of Sweetwater. She was a member of the Order of Eastern Star, having graduated from Hawley High School. She attended

Hardin-Simmons University, Abilene. She taught school in Jones County for several years. Mrs. Akens lived in Jones County until 1955, when the family moved to Friona. She lived in Sweetwater from 1968-1995,

family moved to Friona. She lived in Sweetwater from 1968-1995, moving back to Friona last year. Survivors include three daughters, Joanne Hairgrove and Millie Lawrence, both of Sweetwater, and Adabeth Smith of

Sweetwater, and Adabeth Smith of Friona. Also surviving are nine grandchildren and 12 greatgrandchildren.

grandchildren. Pallbearers will be Dale Hairgrove, Dee Hairgrove, Jay Lawrence, Kyle Lawrence, Steven Smith, Thierry De Roch, Neal Hoover, Ron Rains, Dusty Read. The family suggests memorials be made to Prairie Acres Nursing Home.

Do You Know...

the advantages of choosing TCA Long Distance?

Service

TCA Long Distance – Texas owned, with an outstanding reputation for service.

Simplicity and Convenience

You will continue to receive <u>one</u> phone bill just as you have in the past with no interruption of service.

Savings

1

Significant savings are available anytime. Depending on where you are calling, you can save up to 58%.

V Quality

Your calls are delivered over 100% digital switching facilities and a state of the art fiber optic network.

it's not too late to choose TCA Long Distance?

Choice

If you have previously selected a long distance company other than TCA Long Distance, you can still pick TCA Long Distance by checking the official ballot to be mailed by GTE.

Your selection of TCA Long Distance on the ballot will take precedence over any prior selection.

Support Our Texas Economy

When you check TCA Long Distance, your checks stay at home in Texas!

HEREFORD MADE REAL BEEF ore DRY DOG FOOD

Cattlemen Report Success With Matua In 1995-96 Even in the midst of the recent

drought conditions in the plains states region, cattlemen are reporting some very impressive success stories with Matua bromegrass under irrigation. Interest in Matua is still very high in spite of Matua is still very high in spite of the recent weather conditions," according to Keith Carmichael of Cutting-Edge Agri Products--the nation's largest seller of Matua. "We've been surprised at the number of inquiries this year, and because producers are beginning to 'ere a handle' on how to manage

'get a handle' on how to manage this grass, we're seeing more large plantings of 1000 acres or more," Carmichael commented. Although beef prices are in a

Although beef prices are in a relentless down cycle, a recent poll done by Cutting-Edge found many producers using Matua very satisfied. Reasons given included: performance of the cattle, cost of gain, animal health and hay quality. "Many producers are getting 40-45 cents per pound on the gain basis," says Carmichael, "and we nearly always have a list of people looking to put cattle on Matua."

In every part of the country, producers are finding that cattle show a real preference for Matua over other forages, including wheat,

show a rear preference for Matua over other forages, including wheat, and they perform well on it. A producer near Lazbuddie reported average fall gains of 2.89 lbs, per day and one near Muleshoe recorded 3.2 lbs, per day. "These were 'pay-weights' from the producer," says Carmichael, "after all, those are the only ones that matter anyway." One feedlot manager polled, who carefully monitors his grazing system, reported 93,000 head days on one circle (120 acres) during an 11 month period ending in October. "I know they grazed it during November to go completely around the calendar," adds Carmichael. "That would be well over 100,000 head-days for the year, and the cattle averaged just over 2 lbs, per day." Just down the road on the edge of Muleshoe, another producer

of Muleshoe, another producer recorded 40,000 head-days during the fall season on a newly planted 120 acre circle of Matua. In this system, early spring growth was chopped and bagged. Even though

the grass was completely "freeze-dried" and literally "blew away" in February, it was cut twice this spring--yielding 14.4 tons at 62 per cent moisture (5.5 ton DM).

spring--yreiding 14.4 tons at 62 per cent moisture (5.5 ton DM). Presently there are 855 head weighing nearly 500 lbs. grazing on the system in 15 acre cells. The cattle, which are "dry-lotted" each evening and fed haylage, go to a new cell every 1-2 days. In this system, the producer is able to maintain these numbers and the same high quality forage "all the way through." In this producer's opinion, "management is the key" to maintaining consumption and animal performance. In virtually every case, producers grazing Matua have found that some of it must be chopped or haved at some point in order to stay

hayed at some point in order to stay ahead of its rapid spring growth and maintain forage quality.

Even though Matua is a cool season grass that can provide a lot of "winter grazing" in some aras, it continues to grow through the summer months under irrigation. Research done by Dr. Ed Houston at the Texas A&M University Agricultural Research and Extension Center in San Angelo last summer,

Center in San Angelo last summer, shows Matua producing a ton per acre every 30 days throughout June, July and August with annual yield of over 8000 lbs. per acre. During a field day at the station in October in which he presented this data, Dr. Houston told the group, "We're trying to be cautious, but I have to admit, we're pretty excited about the Matua." Events this spring led Dr.

Events this spring led Dr. Houston to be even more optimis-tic. A fall planting near the center tic. A fall planting near the center went completely dormant during the winter.-"It received absolutely no water." Then on April 1, it revived--"every plant came back alive; I don't believe there was a single plant that didn't survive. I couldn't believe it. Matua has passed its first bet with ma, " ha add, "unwriving." test with me, " he adds, "surviving the summer and dry winter condi-tions--I believe it deserves a good lock in the root of the source." look in this part of the country

Some producers seem almost relentless as they try to push this New Zealand brome to try to find what its limits are. One cattleman near Plainview, Texas placed 450 head of cattle weighing 450 lbs. on 00 acres of pring almost determine head of cattle weighing 450 lbs. on 90 acres of spring planted Matua in late May. "When we visited at the Farm Show in October," recalls Carmichael, "all but 90 head were still on that circle. We sat down and calculated that he was running over 3000 lbs. per acre through July and August. We just haven't recommended that, especially on that new of a stand." Producers were asked to

Producers were asked to compare Matua to wheat pasture. "The real difference," states one Matua, "is from June to Matua just keeps on <u>I'll give you bargains sure</u>. producer who chops and bags both wheat and Matua, "is from June to October.

OR 272-4281

going after the wheat is done--that's all bonus, plus you don't have to replant like you do with wheat." One producer polled, who manages well over 500 acres of Matua near Lazbuddie, put it another way. He said, "We can 'graze-out' wheat or we can graze right on through the summer with Matua--it's really not much of a Matua--it's really not much of a choice. Besides, I get tired of replanting each fall." One cattleman in his second

year using Matua near Del City, Texas, is "very pleased." "We're running between 2000 and 2300 lbs. per acre now, and the relative feed value is running 150. I would have to say that the cattle are doing as good as they could on anything--even the best wheat pasture you can find.' the cattleman commented.

All producers polled seemed to agree-the key is management. "It responds to everything you can do to it," says one Friona, Texas cattleman, "and it has everything we want, Everyone we know who besit. If there it " has it--likes it.

For more information or a free video on Matua, contact: Cutting-Edge Agri Products, 800-753-6511. Your dealer for Matua bromegrass end is Withdhuck & Connegrass seed is Wiedebush & Company of Mulesho

NOTICE OF SALE

An advertisement of sale and removal to Texas printed in 1870 by J. A. Money, who died in January, 1884. Courtesy of Mr. Joe Menefee, a descendent of Mr. Money.

December next, on the eighth day, I aim to have a sale. For I am resolved to move away Unless I badly fail.

have three horses for to sell, A cart and yoke of steers. I have a buggy and a bell Some tables and some chairs.

I've corn and fodder, geese and goats, With fifty head of swine From large and fat to little shoats All tolerable fine.

I have some pots and ovens too, And kettle that is tried, I've slab and bedstead, good as new., And jugs and jars besides.

I have some plows and common Also a loom and sleys. I've barrels, boxes, planes and shears

And pails and pans and trays. I've many other things to sell

Too tedious here to say, If you would buy you would do well To visit me that day Or if you'd buy at private sale,

marriage.

Town Talk

By JUNE FLOYD Call 247-3681 With Your News Items

Pudge and Deke Kendrick

returned home Tuesday after a fun filled weekend in Phoenix. They accompanied their oldest granddaughter, Amanda of Mule-shoe, to the National Trampoline and Turbling accounting for the Amarillo.

and Tumbling competition for the third year in a row. This year, Amanda, who is the daughter of Jay and Sally Kendrick Messenger of Muleshoe, competed in three events: tumbling, double mini-trampoline and synchro trampoline. She is a member of the Acro Spirit tumbling team from Levelland.

Deke reported, "It was a very colorful affair in which thousands of tumblers from the age of five to

of tumblers from the age of five to over eighteen participated." She went on to say, "In the grand march in the Civic Center, each team displayed team flags as well as state flags and almost every state in the union was represented." She also reported that it was very bat in Dhorier. hot in Phoenix.

Amanda's mother and sister, Suzanne, were unable to attend due to their participation in the "Keepers of the Legend," but her father flew out for some of the final performances.

If any of our readers happened to read "Race-walking Dixies go extra mile" on the front page of the sports section of the Albuquerque Tribune are lung 18, 1006 and Tribune on June 18, 1996 and wonder whether the by line "Frank Spring" belonged to a descendant of Friona's pioneer merchant, Frank Louis Spring, wonder no longer.

Louis Spring, wonder no longer. Perhaps we should refer to him as Frank Spring IV. His father is Frank Louis Spring, son of Frank Augustus and the late Ethel Ruth Spring and grandson of the late Mr. and Mrs. F.L. Spring, who farmed north of Bovina several years before moving to town and establishing Spring Mercantile on the west side Spring Mercantile on the west side of Main Street many many years ago.

Most of the folks here who know the fourth Frank Spring know him as Austin. The four generations are Frank Louis, Frank Augustus, Frank Louis and Frank Austin.

One need never be surprised when a Friona connected person shows up anywhere he happens to

Keaton and Kristen Behrendsen are spending some time with their maternal grandparents, Carolyn and Terry Foster, who live in Oklahoma City.

The Fosters came to Friona during the Fourth of July weekend and spent several days visiting local kith and kin then the Behrendsen girls returned home with them. Carolyn is the daughter of Opal Baxter and sister of John.

Recent visitors in the home of Leon and Jeffie Talley were his parents, Alton and Mary Lee Talley, who recently moved from Carrizozo, New Mexico to Carrizozo, New Mexico to Carlsbad, New Mexico. The four Talleys spent one

weekend visiting in the home of Tracey and Suzie Talley and children, Sydney, Madison and Trevor, who live in Norman, Oklahoma.

House guests in the home of Ron and Edwina Davenport last week were their granddaughters, Bailey and Jianna Davenport, who Bailey and Jianna Davenport, wild live near Floydada, Texas. They are the daughters of Winfield and Patty Davenport, former residents of Friona.

Thirty-eight members of the late Aubrey and Elmina Crow Carlton family attended their eleventh family reunion in the home of Joe and Margie Carlton Borende in Lealman, July 6 and 7 Rexrode in Lockney, July 6 and 7. Other family members in attendance were Wyman, Tammy, attendance were Wyman, Tammy, Shelby and Devinney Rexrode of The Colony, Texas; Heath and Jeri Rexrode of Lockney; Sonny and Nell Carlton of Ovalo, Texas; and Jerry, Liza, Barry and Ricky Carlton and Jerry, Lisa and Chelsea Nunez of Clovis, New Mexico.

Also, Walter, Renda, Marti, mi and Casey Carlton of El Paso, Texas: Milton and Sandi Carlton of Austin, Texas; David, Patti, Micah and Jared Carlton of Plano, Texas; Debbie Carlton of Hart, Texas; Jim

and Donette Weatherly of Spade, Texas; and John, Kim, Brady, Kelsea and Tres Weatherly of Peggy Howard and Dale and Evelyn Randolph is that some member of

Special guests present were Tina Rexrode of Lockney: Ethelyn Vernon and Zula Carlton of Plainview, Texas; and Dorothy Crawford of Lubbock. ****

New residents in Friona this week are Kevin, Verna and Hyden Patton who moved from Hereford to 1500 Jackson Street last weekend.

The Pattons are owners and operators of Friona Heating and Air at 410 West Eleventh and have been commuting from the Deaf Smith County capital city for the past

eral months. Hyden, who is eight years old, has an older sister and brother, Jessica and Aaron, who are both

living in Amarillo at the present time They recently purchased the former home of Gaylord Maurer and are neighbors of Ruth and Wanda Brownd and Bob and Alva Dean Brownd and Bob and Alva Dean Bedgood. The Bedgoods moved here from the Houston area a few months ago. She is the daughter of Fairrie Parker and sister of Marlene

Drake We extend a hearty welcome to

the Pattons and the Bedgoods.

Marlene Drake and two of her grandchilren, David and Lacey Drake, recently made a trip downstate.

downstate. They visited with an uncle and aunt of Marlene's, Mr. and Mrs. Jack Bellows in Gorman, Texas. They also saw one of her cousins, Patricia Graham, who lives in Gorman and her daughter, Denna Tidmore of Flower Mound, Texas Texas.

Out-of-state visitors in the home of Betty and Junior Renner this week are Joe and Mary Smith of Willcox, Arizona. Betty and Mary are sisters.

'he Renners' youngest tter, Lana McKelvy, who lives The in Lubbock, was a weekend guest in their home. She accompanied her mother to Farwell to attend a bridal shower for Christy Phillips, bride-elect of Brandon Renner, on Saturday.

Louis Welch, who has been confined to his home following an accident the day before Father's Day, is making satisfactory progress and has an appointment with a surgeon in Amarillo next week He's very optimistic and hopes

to be up and around soon. He and his wife, Mamie Lou, received a long distance call from one of their grandsons, Logan Bingham of Amarillo, Sunday afternoon

Logan is visiting a friend in Germany and called his grandparents from Berlin about the middle of the

afternoon. Incidentally, it was 10:30 p.m.

Actually not every member of the Lane family said "Yahoo" when they won LOTTO Texas. One or two of them may have said "Yippee."

Prize: \$10,789,254.90*

Winning Numbers: 1 3 10 18 19 46

Their System. Number of

grandchildren, 1. Her age, 3. Her birthday, 10/18/91 (91 became 19)

and Lou and Butch's age when she was

born, 46.

First Purchase. Five new trucks. Best Part About Winning: "Now I can starch my overalls. I though was a little to

of class."-Butch Lane

Ann

Tamela Bandy and children, who in Berlin when he placed the call. live here and Todd and Lori Bandy and children of Muleshoe. The good news for Val and

Sunday evening, Patsy, Eugene, Brandon and Kaci attended a going away party in Muleshoe honoring the Todd Bandy family, who will be moving to Howe, Texas, soon.

Todd has accepted a position on the coaching staff of Howe High School. Howe is near Sherman and I had never heard of it until David and Carolyn Carson moved down there a few years ago. Since that time, I've learned that Daphne Cunningham is a former resident of this small town.

Darrel and Anita Harris returned

home Monday afternoon from Colorado City, Texas, where they had been assisting with the care of his mother, Cleone Harris.

Mrs. Harris has been hospitalized in Sweetwater, but was moved to Roscoe to a convalescent home late last week. Her condition is improved.

A birthday cookout in Val's and Peggy's back yard Sunday afternoon honored the head of the Gerry Taylor had out-of-state visitors recently. Her daughter, Lisa Zagorin of Washington, D.C., Guests were Pearl Howard, Evelyn and Ryan Randolph; Joey, Samantha and Joshua and David and

Lisa Lagorin of Washington, D.C., was accompanied to Friona by her daughters, Katharyn and Caroline. This was Caroline's first visit to Texas. She's just six months old and her Grandmother Gerry said, "She's a real cutie."

While the Zagorins were here, The four Buskes--B.K., Janet, Gerry accompanied them to Pampa for a visit with Ronnie, Suzanne, Dana and Mark Wood. Lindsay and Garland--returned home a few days ago after spending nine fun filled days on the West Coast.

In May, Gerry went on a tour to Hawaii. She reported, "This was my first trip and I thoroughly enjoyed it." Angeles, then rented a car for the rest of their California tour. They spent three days in Los Angeles

The group visited the islands of Ohua and Maui and saw a lot of very interesting things. However, the one that attracted Gerry's attention most was a farming valley named Iao.

If traffic and road building throughout the United States surely suggest that the cloverleaf should be our national flower.

It's A Boy For

John Knoxes

Mr. and Mrs. John Knox of Muleshoe became the parents of a baby boy at St. Mary's Hospital in Lubbock, Monday, July 8. He weighed eight pounds, two ounces and was named Mitchell Brian

Brian. Mitchell is the third son for the

couple. His brothers are Randall, seven, and Daniel, who is four and one-half years old.

one-halt years old. Grandparents are Tom and Barbara Mason of Friona. Mrs. Tom Mason, Sr. of Post, Texas and Mr. and Mrs. Tom O'Brian of Friona are the great-grandparents. Mrs. Knox and Mitchell were discussed form the hornital and

dismissed from the hospital and returned home later in the week.

Barbara and Eddie Houston of Friona and Cathy and Larry Rauscher of Borger, Texas announce the engagement and approaching marriage of their children, Shelly Lynn and approaching marriage of their children, Shelly Lynn and Rusty. The couple will exchange wedding vows Saturday, August 10 at 8 p.m. in the Western Cowpunchers Association in Amarillo. The bride-elect is a graduate of Adrian High School and graduated from Frank Phillips College in Borger. The prospective bridegroom is a graduate of Panhandle High School, Panhandle, Texas and also graduated from Frank Phillips College. He is presently employed as a security agreed in the Clonent Price Price employed as a security guard in the Clements Prison Unit in

It seems we're now the proud owners of a 4-wheel drive truck!

the home of Eugene and Patsy Bandy have been two of their grandchilren, Brandon and Kaci Bandy, who live in Plano, Texas. Brandon and Kaci, children of Johnny and Carla Bandy, also visited in the homes of Clay and

Recent out-of-town visitors in

of homes of movie stars and more expensive cars than they had ever seen on one tour; and Alcatraz. They also spent some time with one of Janet's aunts, Margie Hensley, who lives in Fountain Valley, California and went to Huntington Beach, Venice Beach and Newport Beach. Fisherman's Wharf where they Fisherman's Wharf, where they watched a gigantic fireworks exhibition on the Fourth of July, was one of the most interesting places they visited. The Buske family also attended one session of the game show, Debt; saw a movie being filmed and visited the Chinese Theatre where footbritte of mean store of a footprints of many stars are on exhibit.

Friona Graduate Presents Clyde W. Eby Lecture

Dr. Craig N. Coon presented the twelfth annual Clyde W. Eby Memorial lecture at North Carolina

Memorial lecture at North Carolina State University, Raleigh, North Carolina, on Monday, March 25. His lecture, which is part of the Poultry Science Enrichment Series, was on "Amino Acid and Uric Acid Metabolism in Poultry." He is a professor in the Department of Animal Science at the University of Minnesota, St. Paul, Minnesota. Dr. Coon graduated from

Dr. Coon graduated from Friona High School in 1962 and is the son of Mr. and Mrs. C. Nelson Coon of Seminole and brother of Rickey Coon of Seminole.

He leads a very broad based program related to amino-acid metabolism in broilers and layers. He received his undergraduate training in the Department of Animal Science at Texas A&M University in 1966, a M.S. degree

University in 1966, a M.S. degree in plant physicology and biochemistry in 1970 and his Ph.D. in biochemistry and nutrition in1973, also from Texas A&M. After receiving his Ph.D., he began his academic career as an assistant professor at the University of Maryland in 1973. In 1975, he moved from Maryland to the Department of Poultry Science at Washington State University. He was promoted to assistant professor at WSU in 1980, prior to his move in 1982 to the Animal Science Department at the University of Minnesota where he is currently Minnesota where he is currently located, and promoted to the rank of professor in 1990.

His research interests encomnutrition including: (1) the effect of the environment (temperature, humidity, light and density) on layer and broiler performance; (2) feed evaluation: (a) laboratory reed evaluation. (a) halocitativy assays of protein quality measure-ments, (b) amino acid availability, (c) calcium solubility and its relationship to poultry nutrition, (d) phosphorus digestibility assays, and phosphorus digestibility assays, and (e) the improvement of the nutritional quality of soybean products through the removal of oligosaccharide carbohydrates; (3) amino acid metabolism and requirements for broilers and layers; (4) the effects of diet upon carcass corrections in broilers; and (5) (a) the effects of the upon catcass composition in broilers; and (5) input/output data required for developing nutrient requirements for broilers and layers. Dr. Coon and his students have

published widely based on their research in these interest areas. To date, he has published 66 refereed journal papers, 75 conference and symposium proceedings and 85 abstracts. The Clyde Eby Memorial He has been involved in two

sabbaticals over the past nine years-one with Professor Morris at the University of Reading to study layer management and utilization for the "Reading Model" for determining economic requirements of amino acids for poultry; and the other with Dr. Jim McNab at the Poultry Research Center in Edinburgh to develop techniques for digestibility assays and the evaluation of differences in determining amino acid and energy availability by the Sibbald procedure or the modified European

digestibility procedure. Coon and Dr. McNab initiated phosphorus digestibility research during his 1991 sabbatical and since that time, he and his Minnesota cothat time, he and his Minnesota co-workers have developed a 48-hour assay for evaluating different feedstuffs for phytate and non-phytate phosphorus digestibility. Dr. Coon is a national/ international research leader/speaker in the areas of environmental affects

upon layer production and nutrient requirements and feed evaluation methodology. He and his co-workers have helped develop the new and improved. 002% pepsin nitrogen solubility in vitro assay compared with the standard AOAC 2% pensin procedure for evaluating .2% pepsin procedure for evaluating protein quality of animal protein foodstuffs. He has also been an international leader in developing in vitro calcium solubility procedures and in promoting the use of feed formulation based on a solubility syste

His laboratory recently discovered the advantages of removing oligosaccharides from soybeans for improving the nutritional value of the meal. His lab is currently working on new methods of working on new methods of extracting carbohydrates from soybeans and his research on amino acid and uric acid metabolism has evolved over a 25 year period and has been primarily directed toward understanding. enzymatic and metabolite differences in various tissues of poultry compared to metabolite differences in various tissues of poultry compared to mammalian species, especially how poultry are capable of syn-chronizing amino acid metabolism to best correlate with changes in uric acid production. Dr. Coon has received over two million dollars in extramural gifts and grants to support his nutrution

and grants to support his nutrution work over the past ten years. He was the recipient of the American Feed Industry Association's Nutrition Research Award from the Feed Poultry Science Association in

North Carolina Agricultural Foundation was begun by Mrs. Elizabeth Madden Eby to provide support for the enrichment of the Poultry Science Department in the Poultry Science Department in the College of Agriculture and Life Sciences at North Carolina State University. The objective of this program is to honor the memory of Clyde W. Eby and his many contributions toward the develop-ment of the dynamic poultry industry in the state of North Carolina.

Clyde Eby was a native of New Bern, North Carolina. After graduation from the Fishburne Military School in Waynesboro, Virginia, he attended the University of North Carolina, class of 1929, and was on the versity football and was on the varsity football team

CRAIG COON

Philadelphia, Pennsylvania. During World War II, he entered a wholesale lumber and log business with his father and brother. After his father and brother died, he added lines of poultry medications, supplies, equipment and other animal health products for sale. He later formed the Clyde Eby Corporation with distribution centers in five locations in North and South Carolina.

Peripheral Vision

Staring straight ahead, we can see only a small part of the world around us. small part of the world around us. Fortunately, our eyes reach further and, without quite noticing it, we are able to

without quite holicing it, we are able to remain aware of what's going on around us. Say, if you will, that we "see out of the corners of our eyes"--achieving side vision without turning our heads from side to side, while still focusing ahead. It's side vision-even unconsciously--that speeds our response time, that enables us to cross streets safely, ride a bicycle, drive a car or narticipate in sports

time, that enables us to cross stretes satery, ... or participate in sports. Vision problems in one eye may limit the peripheral vision on that side. Retinal damage and the onset or progression of glaucoma can also affect side vision. Your regular optometric examination includes a test of your peripheral vision, noting how well you can see to the left and right without turning your head or eyes. Of course, any change of vision suggests an eye exam, too. Brought to you as a community service by:

DR. HAROLD W. BRIGANCE

Optometrist O.D.

Week of July 21-27 Friona residents having birthdays next week are: July 21--Lisa McLellan, Mark Bavousett, Gaines A. Butman, Scott Ready, Jennifer Reed, Alene Wilkerson, Brent Gatlin, Bev Lindeman, Guy Patterson. July 22--Gay Cranfill, Monique Osborn Green, Nino Constancio, Michael Reyes, Maggie Torres. July 23--Pat Widner, Susie Perez, Peggy Monroe, Jay Jarboe,

Perez, Peggy Monroe, Jay Jarboe, Ken Jordan, C.C. Noland, John Ingram, Troy Talley, Jerry Carr, Dusty Lee Stowers, Lynn Truelove. July 24--Kenneth White,
