LADIES ASK GOVERNOR NOT TO MAKE SPEECH

Executive Declines and Gives Views on Prohibition--Petition Signed

By Over Nine Hundred Austin Ladies Presented in Effort To Persuade Governor

The Dallas News

Austin, Texas, June 26--There was an incident of more than passing interest transpired in the Governor's office late today when a committee of ladies from Austin churches presented the Governor with petitions signed by more than 900 mothers, wives and sisters of Austin asking him not to make an anti-prohibition speech in this city tomorrow night. He and the ladies engaged in quite a protracted discussion. The argument finally resulted in the Governor making it plain that he was against prohibition from principle.

After the Governor announced his determination to make the speech one of the ladies knelt on the floor of the executive office and prayed.

As his answer to the ladies, he quoted a speech of General Sam Houston, made to a committee of preachers in 1853, when General

Auto Like Train One Dead, One Dying

Oakridge, Cal., June 27—Dr. Weston H. Rice, local surgeon for the Southern Pacific, was killed and G. C. Wells, receiving teller of the Central National Bank, was probably fatally injured when the automobile in which Rice and Wells were riding collided with a suburban train early this morning. The men were returning from a professional call which Dr. Rice had made in Berkeley.

This is some of the results of reckless driving. It has been observed that the auto pleasure drivers in Pecos are becoming more reckless and it is only a matter of time when some one will be run over.

This fast driving with no headlights should be prohibited. If we have no law against running autos at night without lights we should have and it should be enforced.

Houston joined the Sons of Temperance. The General declined to join the prohibitionists. Governor Colquitt quoted the following in part from his declaration:

"The laws of Mexico, intended to prescribe and regulate a person's religious belief, were the first moving cause that inspired the Texas patriots to draw their swords in defense of enlightened freedom and religious toleration. The men that fought for and won her independence, dedicated her soil to be the abode and dwelling place of freedom to every kindred and tongue, coming from all nations to enjoy unmolested, as they may think proper, the religions and customs taught them in their native lands.

"In regard to the suppression of the evils of intemperance by legal enactment, I should give the measure my sanction and support if I thought possible to accomplish the object in that manner. I have given the matter some thought and I have come to the conclusion that there are insurmountable obstacles in the way.

"As long as the soil produces fruit and grain ardent spirits will be manufactured and used as a

beverage. To declare it to be a crime to manufacture and drink wine in moderation would in effect accuse Christ and the Holy Apostles of sinful practice. The first miracle of our blessed Savior was the manufacture of wine out of water. It was performed at the request of his mother at the wedding of her niece and his cousin.

"When a person's appetite for stimulating beverages becomes uncontrollable he should tough nor handle not. If I cannot indulge in the same moderation it is my misfortune. To undertake to prescribe rules of conduct for others, more fortunate, by legislative enactments is a species of legislation that will not be tolerated in a free land.

properly accredited delegates, and appointments may be made as follows:

Chief Executives of Nations, States or Provinces may appoint forty delegates each.

Educational Institutions interested in Agriculture may appoint ten delegates each.

National or State Societies interested in Agriculture, Forestry or rural home life may appoint ten delegates.

Local Societies (as above) may appoint five delegates.

Horticultural Societies may appoint five delegates.

Boards of County Commissioners, Mayors of Cities and Presidents of Towns, may appoint five delegates.

Local or County Granges or Farmers' Organizations having women members may appoint two delegates each.

THE PROGRAM AND OBJECTS:

There is a demand for the crystallization of the movement for better homes, for better sanitation, more practical education, more refinement and greater advancement morally, spiritually and mentally in the homes of the rural districts of all counties. The speakers before this Women's Congress will include many notable men and women workers for the higher standards of life upon the farm. There will be domestic science demonstrations and exhibits, and lectures upon the subjects that are nearest to the hearts of the farm women. Sociology, nursing in the home, hygiene, music, literature, dress, architecture, home making, business management for farm women, and other kindred subjects will be discussed by leaders from many institutions of learning and by the delegates.

Information may be obtained by addressing the Secretary of the Congress.

The Board of Organization (Authorized by the Dry-Farm-Congress).

Jos. W. Bailey Jr. Painfully Injured.

Winchester, Va., June 26th—Joseph W. Bailey Sr., son of United States Senator Bailey of Texas, is at 'The Retreat,' the home of Powell Kelly, near Berryville, Clarke county, Va., suffering from numerous cuts and bruises as the result of being hurt about the head and dragged down a slope of the Blue Ridge mountains between Bluemont and Berryville by runaway horses. He came from Princeton University last week to attend a house party at 'The Retreat,' and had accompanied some of his friends to the Southern railway station at Bluemont. He was returning to Mr Kelly's home when the harness broke, causing the runaway.

Duel Follows Feud. Woman Takes Part.

Carlsbad, N. M., June 27—Joe Walker and J. F. Hart emptied their six-shooters at each other yesterday afternoon in Bill Cole's horse pasture near town. Walker, with two wounds through his head, attacked Hart. The latter it is claimed was beaten about the head by Mrs. Walker, who came to her husband's rescue with a rock, and the combatants were finally separated by Louis Scott. Both are in a critical condition.

The conflict was the outcome of a two years' feud.

Onions Net \$600 Per Acre.

S. W. Huelster, the Davis mountain onion raiser, shipped in this week 5,000 pounds of onions from Balmorhea and sold them to the Pecos Mercantile Company. This crop was gathered from one-quarter of an acre of ground and netted Mr. Huelster \$150.00, which equals \$600 per acre, clear of all expenses by the 25th of June. Can you find a country where you can do better?

Belmont Addition

Is in west Pecos. I will sell lots 50 x 140 feet back, or a block of 10 lots, or 5 or 10 acre blocks just as you like on any sort of terms. I will trade more land in this addition for less land improved in town. C. S. McCarver, Phone 160.

To Texas Prohibitionists

We are just one month removed from the day which is to decide whether the saloons shall continue to run Texas and its politics or whether the liquor traffic shall be forever banished from the confines of our state.

It is with the people whether we shall win or whether we shall lose. We have a natural majority but we must get the vote out in order. The supporters of the saloon in 99 cases out of 100 have some selfish interest at stake and they will vote to a man. Our people, having only an unselfish interest, may allow something to interfere with the exercise of their franchise on July 22. To prevent this we must cover the state with speakers and reach the voter with literature. To do this costs money. We haven't the money, but our people have it in their pockets. Since the campaign opened we have received less than \$7,000, and, including money advanced by our state chairman, our books show receipts of not to exceed \$10,000.

Not a single county has come up to its full per capita assessment. Some have done well; some have done something, but most of the counties have done nothing, or practically nothing. Think of a paltry \$10,000 as compared with the multiplied hundreds of thousands being used by the whiskey crowd, and then, prohibitionists of Texas, blush with shame for the little that you have done toward helping to win your fight.

Do not lay this paper down, but take it with you and draw a check or secure a postoffice or express money order and send it to headquarters at once for every cent you feel you can possibly afford. Do not delay at all but let this money come forward. We must have it in order to get speakers out, and if there was ever a time when you wanted to do something in this cause, do it now!

TOM C. SWOPE, State Secretary.

The interest in the Home Mission study course is good, but a far greater number of women than do should attend these meetings and keep up with the bible lessons. This year over 11,000 women have been enrolled in the Home Mission study classes, which really is a small per cent of the membership.

This morning, from 8:30 to 11:30 the Rook and 42 Clubs were entertained by Mrs. Jno. Y. Leavell. The 42 club consisting of three tables occupied the parlor, while the Rook club of four tables were located in the back parlor. Several invited guests were present to enjoy the occasion. The playing was spirited, the morning cool and the hostess at her best. Punch was served during the games. A salad course was served at luncheon time. All went away feeling it was good to have been there.

Extra Special Announcement

We are authorized to announce that the Fort Worth Record will make the following unusual offer to Rural Route subscribers on account of the forthcoming prohibition campaign: The Daily and Sunday Record will be sent by mail to any Rural Route address or to those living in small towns where the Record is not delivered by local carrier, from now until July 31st, 1911, for \$1. or from now until August 31st, 1911, for \$1.50. Remit by money order direct to the Record Co., Fort Worth, Texas.

Every farmer should become thoroughly posted on this great vital question and the Record can be depended upon to give both sides of the question fully and impartially.

Texas Fuel

It was the discovery of fire that raised man into the rulership of the world and gave civilization its most useful element in progress. It melts the mineral rock, turns the wheels of commerce, warms the human race and broadens the horizon of human endeavor.

Geologists tell us that Texas is one of the latest additions to the western hemisphere, and the Ruler of the Universe, in creating Texas, gave us an abundant supply of everything on hand and was especially generous with us in minerals.

We have been supplied with a variety and an abundance of fuel. We have wood, coal, oil and gas in commercial quantities and after supplying home consumption, ship large quantities throughout the United States.

Coal.

Our coal fields have never been fully explored; government geologists have examined a portion of our territory and report a deposit of 31,000,000,000 tons, of which 8,000,000,000 is bituminous and 23,000,000,000 lignite. We mined last year 1,895,377 tons and employed 4,400 laborers in the mines. The coal taken from the mines was valued at \$3,419,481; to get all the coal out of the ground at the present rate of mining would require 17,000 years.

It is estimated that four and a half tons of coal used in making steam will produce one horse power one year ten hours per day. The latent forces we have stored beneath the ground surpass human comprehension.

Oil.

Texas oil illuminates the national fireside, lubricates the wheels of commerce and runs our factories. We have \$100,000,000 invested in the oil industry in Texas and we have taken 15,000,000 barrels of petroleum from the ground. We have 1,250 miles of pipe line and oil from Oklahoma fields is brought to Texas.

Gas.

Natural gas from the Henrietta field is piped to adjoining towns and there used for light and fuel, and the manufactured product is used extensively in the larger cities. We have 300 miles of main pipe line and approximately 50,000,000 invested in the gas industry.

Nature has solved the fuel problem in Texas for centuries to come and laid the foundation for a great manufacturing country.

The Family Paper

The printing press is the industrial educator of the age. The citizens of Texas lead those of all other states in the Union in the number of newspapers read per capita. The improvement of public highways and the establishment of rural free delivery routes has extended the zone of circulation and reading the newspapers has become as much a part of the work on the farm as caring for the stock, and it has proven about as profitable. The ability of a farmer can be as easily judged by the literature he reads as by the crop he harvests.

Pipe Lines.

Pipe lines are primarily city builders. The pipe line brings the oil field to the refinery and the gas well to the city and to the factory, reducing the cost of transportation, as well as providing a feasible method of distributing the products of the oil and gas wells throughout the state. All enterprising cities should be connected with a pipe line.

Farm and Factory.

The farm and factory go hand in hand and the prosperity of either is dependent upon the other. By bringing the factory to the farm we adjust economic conditions and the increase in value of live stock goes to the producer without increasing the price of meat to the consumer. By building factories in Texas we can greatly decrease the high cost of living.

Rural Telephones.

The scientist in giving the farmer improved varieties of products and the inventor in giving us machinery that reduces the cost of production, has performed a great service to the farmer. But the telephone, warm from the creative mind of the inventive genius is destined to companion in utility and convenience all human accomplishments for the intelligent promotion of agriculture. The telephone is the improved public highway of information and is as valuable to the farmer in selling his products as good roads are in hauling his goods to the market.

Mr. and Mrs. George Ehrenborg became the proud parents of a beautiful blue eyed baby girl Monday, June 19. Mother and baby are both doing well. The monthly tea of the Home Mission Society was held at the residence of Mrs. H. N. McKellar and every one had a most enjoyable time. The ladies were entertained with a name contest, followed by a tongue dance, in which ladies are supposed to be most skillful. At the close of the afternoon's pleasures, the hostess assisted by Mesdames T. B. Pruett and A. O. Taylor, served refreshments, consisting of ice cream and cake to about thirty ladies. Little Miss Marie Smith presided over the punch bowl and Miss Lucile Smith enlivened the occasion with a number of piano selections. These social affairs add greatly to the beauty and spirit of the Home Mission work and every one that attends will be given a cordial welcome.

Mr. and Mrs. J. S. Turner returned home from Pecos Thursday after a two days visit with friends in that city.

Mr. Jim Hutton, accompanied by his sister, Miss Nellie, attended the entertainment at Mrs. Dyers Friday night.

The people of this community enjoyed very much the farewell entertainment given at Mrs. Dyers. The young folks engaged in games of "Josie shooting the buffalo," and many others too numerous to mention, while the older ones chatted pleasantly of days gone by. Cake and cream were served as refreshments. In the wee hours of morning, all joined in thanking Mrs. Dyer for having been pleasantly entertained.

It was very gratifying to see such a large crowd at Sunday School Sunday. Several visitors were present, besides several had their names enrolled. We are always glad to welcome anyone who will come and take part in this good work.
