GAME LAWS OF NEW MEXICO AND TEXAS

Following are the federal game laws of the states of New Mexico and Texas for the season 1923-24:

TEXAS

Open Seasons

Deer (male), Nov. 1-Dec. 31.
Quail or partridge, chachalaca or Mexican pheasant, Dec. 1-Jan. 31.
Prairie chicken in Gray, Hemphill, Lipscomb and Wheeler counties only, Sept. 1-Sept. 10.
Wild turkey gobblers, Nov. 1-Dec. 31; exception in Brooks, Cameron, Hidalgo, Jim Hogg, Kennedy, McMullen, Starr and Wilkey counties, Nov. 1, 1926.
Dove, Nov. 1-Dec. 31; exception: West and north of International & Great Northern and Texas & Pacific railroads, Sept. 1-Dec. 15.
Duck, goose, brant, Wilson snipe or jacksnipe, coot, gallinule, Nov. 1-Jan. 31; exception: West and north of International & Great Northern and Texas & Pacific railroads, Oct. 16-Jan. 15.
Black-bellied and golden plovers, yellowlegs, Oct. 16-Dec. 15.
Rail, other than coot and gallinule, Oct. 16-Nov. 30.

No Open Season

Antelope; sheep (1928); does (1924); turkey hens; robins; prairie chicken; pinnated grouse; pheasant (except chachalaca); woodcock (1928); swans; wood duck; bitterns; little brown; sandhill; whooping cranes; gannet; grebes; gulls; herons; jaegers; loons; petrels; band-tailed pigeons; terns; and all shorebirds (except Wilson snipe or jacksnipe, black-bellied and golden plovers, and yellowlegs).

Hunting Licenses

Nonresident or alien, \$15; issued by game, fish, and oyster commissioner, deputies, and county clerks. Resident, \$2, not required in county of residence; issued by commissioner, deputies and county clerks.

Bag Limits and Possession

Three deer, 3 turkey gobblers a season; 15 in all of quail and chachalaca; 5 prairie chickens a day, 15 a season; 15 doves, 25 in all of waterfowl and shorebirds, but not more than 8 geese, 8 brant, or 15 plovers and yellowlegs; 50 sora and 25 in all of other rails, coots, and gallinules a day. Possession of all game permitted during open season and 10 days thereafter.

Sale

Sale prohibited of all protected game.

Export

Export prohibited of all game, except that nonresident licensee may ship game to his home for own use under affidavit that it was lawfully killed and will not be bartered or sold; provided that not more than two days' limit of migratory birds may be exported in any one calendar week. Game may be shipped to taxidermist for mounting under affidavit that shipper killed the specimen and that it is not being preserved for sale.

NEW MEXICO

Open Seasons

Deer (with horns at least 6 inches in length), squirrel (tassel-eared gray), wild turkey, Nov. 20-Nov. 30.
Quail (except bobwhite), Nov. 1-Dec. 31.

Turtle dove and white-winged dove, black-bellied and golden plovers, yellowlegs, Sept. 1-Dec. 15.

Duck, goose, brant, Wilson snipe, coot, gallinule, Oct. 1-Jan. 15.

Rails, other than coot and gallinule, Sept. 1-Nov. 30.

No Open Season

Does, Sonoran deer, elk, sheep, goat, antelope, buffalo, bobwhite quail, pheasant, ptarmigan, prairie chicken, sage hen, grouse, swans, wood duck, bitterns, little brown sandhill, and whooping cranes, grebes, gulls, herons, loons, band-tailed pigeons, terns, and all shorebirds (except Wilson snipe or jacksnipe, black-bellied and golden plovers, and yellowlegs).

Hunting Licenses

Nonresident: Big game, bird, and fish, \$35.25; big game and bird, \$30.25; big game, \$25.25; bird, \$10.25; fish, general \$5; limited \$1.25. Resident: Big game, bird and fish, \$2.50; big game and bird, \$2.25; big game, \$1.50; bird, \$1.25; fish, \$1; guide, \$5.25; duplicate \$1. Issued by county clerks and deputies designated by State warden. Alien resident of New Mexico or an ad-

PROGRAM OF THE WEEK OF PRAYER TO BE OBSERVED HERE

Following is the program for the Week of Prayer to be observed in an all-day meeting at the Methodist church on Tuesday, November 6, by the members of the Women's Missionary Society of Pecos:

Leader—Mrs. L. L. Thurston.
MORNING SESSION—10:00 A. M.
Opening song—No. 305.
Devotional—Rev. L. L. Thurston.
Talk—"Why Observe Week of Prayer"—By the president, Mrs. Albert Sisk.

Prayer.
Dialogue—"A Visit to the House of Good Will"—Mesdames Rannels, Pinner and Hibdon.

Faithful Workers Among Our Negroes—By Mrs. Ben Randals.
Special music—Song No. 63.

Adjournment for lunch.
AFTERNOON SESSION—2:00 P. M.
Hymn No. 119.

What About Our Teacher Training Center in China? Special Features of Our Work in the Laura Haygood Normal.—Mesdames Westerman, Adams, Reider, Taggart, Lusk and Tudor.

Circle of Prayer.

(a) For more enthusiasm among our society members.

(b) For the workers in our Laura Haygood school.

(c) For the student body of Laura Haygood school.

Song No. 205.

Something About the One for Whom This School Was Named—Mrs. L. L. Thurston.

A Graduate of This School Who Has Made Good.

A Sketch of One of Our Greatest Missionaries Who Was Born in China.—Mrs. Ben Randals.

Collection.

Closing prayer expressed in song—No. 272.

Adjournment.

The following committees have been appointed who will endeavor to make this day a pleasant and profitable one for all who attend:

Program Committee—Mesdames Thurston, Taggart and Randals.

Decorating Committee—Mesdames Lusk, Hibdon and Howard.

Menu Committee—Mesdames Taggart, Wilcox and McClure.

Automobile Committee—Mesdames Tudor and Jim Cooksey.

Hostesses for the day—Mesdames McKnight, Rhulen, Cavett, Roy Wilcox and Easterbrook.

Serving Committee—Mesdames Hibdon, Lusk, Rannels, King, Hurd, Love and Wadley.

Collectors—Mesdames Hollebeke and Reider.

ARLINGTON MAN GETS \$1,000 VERDICT ON DEATH MESSAGE

Verdict for \$1,000 damages was granted by a jury Saturday in

Forty-eighth District Court in a "death message suit" brought by W. C. Cowan of Arlington against the Western Union Telegraph Company.

In the petition, filed by P. Walter Brown, plaintiff's attorney, it was alleged that Cowan's brother, W. D. Cowan, Sr., died at Pecos on Jan. 9, and that the latter's widow wired the former at once of the death. The message was received at Arlington on the evening of Jan. 9, but was not delivered until Jan. 11 when it was received by mail, the petition charged.

W. C. Cowan alleged that as a result he missed his brother's funeral, which caused him to suffer mental anguish.—Fort Worth Star-Telegram.

20 quail, 25 doves a day or in possession; 25 ducks, 8 geese, 8 brant, 25 Wilson snipe, 15 in all of plovers or yellowlegs, 50 sora, and 25 in all of other rails, coot, and gallinules a day. Possession permitted during open season and first 5 days of close season. Under permit, game, except migratory birds, may be held in storage for first 90 days of close season; migratory birds may be held for a period of 10 days.

Sale

Sale of all protected game taken in the state prohibited.

Export

Export of all game taken in the state prohibited, except under permit; fee \$1.25 1 deer and 3 turkeys, and \$1.25 for bag limit of other birds and fish.

CHRISTIAN CHURCH DISTRICT CONVENTION WAS HELD IN PECOS

The Christian church of Pecos opened its doors Saturday, October 27, to the district convention No. 12.

An eager and interesting group gathered from the thirteen churches of this district. The address of welcome was given by Dr. Jim Camp of Pecos. Many good and inspiring suggestions came from the workers of the district churches.

Brother H. M. Bandy, who has given twenty-odd years in this district, being the first located pastor of the Pecos church, presided over the convention. Others were J. B. Holmes and S. W. Hutton of our state board with headquarters at Fort Worth, who detailed the work being accomplished in the state. Bertha McMasters of Fort Worth discussed the women's work from various angles.

Other speakers were Owen Lerengord, of Austin Park church, El Paso, M. A. Buhler of Marfa, Mr. and Mrs. L. C. Brite of Marfa and Mrs. H. L. Magee of Pecos.

The hospitality of the Pecos people was very much in evidence, and on Sunday, October 28th, a barbecue was given on the parsonage lawn. All delegates and visitors to the convention, the home church workers, and their friends, enjoyed the feast. Three beaves and a goat were barbecued and served with pies, salads, and other trimmings. The audience was shown slides, demonstrating the work through the state on Monday night and after thanking the people of Pecos for their generous entertainment the convention adjourned.

THE WEATHER

The first clear weather for a whole week was that when the sun shone out brightly for a few hours this morning. While the precipitation has been light, it came for the most part in the form of a light shower or drizzle in Pecos while in other portions of the county it was much heavier.

With the rain came much colder weather which, in many cases, brought out heavier underwear and in all cases overcoats or heavier outer clothing and caused a rush in the hardware stores where they were called to inspect flues and put up stoves.

R. P. Hicks reports an unprecedented, at this season of the year, demand for coal and on Wednesday his stock was almost depleted. He stated that he had two cars in transit, however, which should reach Pecos by the latter part of this week.

While a little ice and frost has been reported in some places, no vegetation has been damaged thereby in town to the knowledge of the writer.

J. W. MAY SAYS HE WILL RE-OPEN FREE SHOW IN PECOS

J. W. May spent the forepart of the week in Pecos looking after business matters. Before leaving for Loreine where he is now temporarily located he called on the ENTERPRISE to state that since moving his free picture show into the old Palace of Sweets building he had been compelled to shut down until some insurance matters could be adjusted relative to opening a picture show in the building. He also stated that this matter had practically been adjusted now and that he would again at an early date—probably in fifteen days—reopen the free picture show.

The ENTERPRISE doubts if a free or any other kind of a picture show can be made to pay in Pecos at the present time. The children are all busy nowadays with their school work, and in the writer's opinion, should not be encouraged to attend anything which will distract their minds from their school work.

ELIZABETH BACON DIES AT MASONIC HOSPITAL

Miss Elizabeth Bacon, teacher in the Beall school for the last seven years, died at 1 o'clock this morning at Masonic hospital, following a few weeks' illness. Miss Bacon made her home with Congressman and Mrs. C. B. Hudspeth. She was one of El Paso's best known teachers and always was active in school affairs and beloved by her pupils. Present at the bedside when she died were a brother, Lewis Bacon, Shreveport, La., and a sister, Mrs. J. M. Bacon, Pecos.

PECOS C. OF C. OFFERING REWARD TO CREW OF FIRST PRODUCER

The Pecos Chamber of Commerce is sponsoring a proposition which has as its aim the hurrying up of the bringing in of an oil well in the Pecos oil field. To that end they are circulating two different petitions asking donations of oil leases to the drilling crews who bring in the first wells in Reeves and Loving counties. There is no limit to the amount of five-year 88 form leases which one may give. These leases are to be filled out, according to the petitions, in the name of J. G. Love as trustee, who will in turn deliver to the drilling crews of each county bringing in the first commercial well the leases designated for the county for which it was donated.

It looks like a cinch for the drilling crews on both the Bell and Toyah Bell wells, both of which, it seems certain, will at a very early date be real commercial wells.

The Pecos Chamber of Commerce is a live and working organization and can be depended upon to do its part toward keeping Pecos on the map and this undertaking is a good one which will show to those endeavoring to bring in a field here in the Pecos territory that if we have no real money with which to help them along we as a whole are willing to give, and generously, of what we have to those who are putting their brains, time and energy in an effort to bring in the wells as real producers. The two propositions are being generously responded to and the crews which earn them will get a fat package.

MRS. E. L. COLLINGS ENTERTAINED BY HER CLASSES

In an attempt to show appreciation and love for one who has taken such an interest in the Y.-W. A. and Euzelian classes, the members of these two organizations gave Mrs. E. L. Collings a surprise birthday party, Friday evening, October 26, at the home of her daughter, Mrs. J. C. Wilson.

The color scheme for the occasion was pink and white and was carried out in a very artistic manner. The fires in the grates burned cheerily—all was bright inside in the back portion of the house, but without, the home and all therein seemed engulfed in profound silence.

A few minutes after eight o'clock everyone had arrived and Mrs. Wilson invited her mother to come over and see something unusual. Mrs. Collings readily complied and upon her arrival, with the signal words, "now listen," by Mrs. Wilson, all the lights were turned on—and then Mrs. Collings got the first of a series of surprises.

Several contests were played, then the subject "Resolved: That Mrs. Collings should have raised her children differently," was most ably debated by Miss Bettie Watson, affirmative, and Miss Warren Collings, negative. After a heated discussion and much deliberation, the judges, Misses Watson, Slaton and Richburg, rendered their decision in favor of the affirmative and presented Miss Watson with a highly valued reward—a box of shoe polish, so that she may continue to shine.

At the conclusion of the games and after each had written a birthday wish in a little booklet painted in the class colors and having the class emblems on its cover, Miss Gussie Richburg, in behalf of the class, presented Mrs. Collings with a set of beautiful ice tea glasses.

Delicious refreshments of sandwiches, hot cocoa and cake were served to the following: Misses Gladys Vest, Yetta Mae Slaton, Willie Watson, Eva Richburg, Bettie Watson, Warren Collings, Julia Ward, Gussie Richburg, Amanda Bean, Reta Kiser, Viola Ward, Beatrice Bowie, Louise Wadley, Delma Alexander, Estelle Hicks, Bobbie Bowie; Mesdames Dan Bowie, Herbert Holloway, M. B. Wilson, Ronald Roberson, J. C. Wilson and E. L. Collings.

The party was brought to a close with music and jokes—and each girl went home rejoicing in the knowledge of the fact that she was a member of Mrs. Collings' class.—CLASS REPORTER.

THE OIL NEWS OF THE PECOS, ARTESIA AND STOCKTON FIELDS

Kenneth Slack reports work on the Toyah Bell as progressing nicely. He states to the ENTERPRISE this morning that the mill work on the tools in the well had been completed and ample room for a hold on the tools now in the well had been made. They expect to take hold of the tools either Sunday or Monday and anticipate no trouble whatever in extracting them from the hole. "Within 30 days," says Mr. Slack, "we will have the Toyah Bell flowing. The gas is stronger than ever before and there is plenty of oil, too."

C. H. Willoughby writes the editor to the effect that he now has the money in hand to put up a standard rig over his well on the Cowan ranch in the southwestern part of the county. He states that all that is necessary now for the work to be resumed on his well is oil, gas and living expenses, and the race is on again. Willoughby is a stayer and with this assistance, which he should have no trouble in securing, should in a short time be able to prove this portion of the oil field since they expect shallow production and the formation through which they have gone already points to this. Read his ad on page five of this issue and if possible send him in a check and get the work started.

ARTESIA FIELD

(Artesia Advocate)

The activities of the oil field are again back to normal after being held up temporarily, after several days of bad weather. The majority of the drill wells are now operating, getting a little nearer the golden fluid which the local operators are confident can be found under the ground near Artesia.

The Illinois Producers have piped the gas to both wells Nos. 4 and 5. According to Martin Yates, the local manager, the new arrangement is very satisfactory and the supply is plentiful. The drillers have set two strings of casings in well No. 4, the 8 and 10 inch. Everything has gone well with these new locations and the management is well pleased with the present prospects.

The Brown well No. 1 is being pumped daily. The average daily production is not yet known. Well No. 2 is drilling at approximately 900 feet. It is understood preparations are being made to shoot this well at the next sand.

Several prominent operators have recently visited Artesia and made a favorable report to their companies, it is understood. Among these were: Operator Beede of Bartlesville, Oklahoma, who is with the Empire Oil Company; Major Howard of Wichita Falls, with the Humphrey Oil and Gas company; W. R. Potter with the St. Claire Oil company, of Tulsa, Okla.; W. R. Dougan of Fairmont, West Virginia; and T. O. Funk, of Parkersburg, West Virginia, spent several days looking over the field last week. Mr. Funk, we understand, is at present an extensive operator in the field near Long Beach, Cal.

Wiley Hawkins has been carrying on several experiments preparatory to giving Well No. 1 a thorough testing out. This well made three barrels of high grade oil on the pump in 25 minutes. Parties now interested in wells No. 2 and 3 are preparing to go forward with the drilling of these wells.

Ballard and Saunders, located south of the Belt well are drilling. They will install a rotary rig soon, it is understood. Windzor well, located one mile northeast of Lakewood is rigging up getting under way to start drilling within the next few days.

It might be of interest to several people to know that L. L. Taylor, one of the largest real estate men in Western Kansas has recently purchased property near Artesia, and we understand, will cast his lot with the people of this section.

FORT STOCKTON FIELD

(Fort Stockton Pioneer)

The weather conditions having cleared and the arrival of derrick timbers has had a wholesome effect upon the oil activity in the Fort Stockton field.

Quincy No. 1, on section 19, T. & St. L. railway survey, is being drilled below the 1400 feet level.

The Southern States Oil Company well

MIGHTY NIMRODS OUT AFTER THE ELUSIVE BLACK BEAR AND DEER

The season for hunting big game such as deer, bear, etc., opened Thursday of this week and doubtless as the ENTERPRISE goes to press both the Davis and Guadalupe mountains are running over with hunters.

There is said to be quite a lot of both black bear and deer in the mountains this season and doubtless the early arrivals will have little trouble in bagging their limit, provided they know where to go, how to hunt, and are good marksmen.

On Tuesday morning the Rev. C. A. Johnson and E. A. Brack left for the hunting grounds. J. B. Holmes, of Fort Worth, who is a preacher also and here attending the district meeting of the Christian church, was also one of the party. The Rev. M. A. Buhler, pastor of the Christian church at Marfa, chaperoned the hunters, and being familiar with the hunting grounds on the L. C. Brite ranch, where they have permission to hunt, will point out the game. The editor and family are now creating an appetite for both bear meat and venison and will expect a roast of each kind of the meat on the return of Messrs. Johnson and Brack.

On Wednesday of this week Jno. B. Howard and Hugh Roberson, accompanied by Judge Higgins and Judge Harper, both of El Paso, and two other gentlemen, friends of Jno. B., whose names the ENTERPRISE failed to get, left for the Davis mountains in quest of the black-tail deer and possibly a black bear. They are expert hunters, crack shots, and will without doubt bring back the evidence that they had been hunting in a game country.

B. G. Smith and Earl Easterbrook expected to leave either yesterday or today for a few days' hunt in the mountains below Fort Stockton.

Sheriff E. B. Kiser and Harry Anderson, the latter of the Groves Lumber company, will probably leave today for a week in the mountains in quest of the fat black-tail deer. Ed has been pampering his dog for a week, rubbing and anointing his joints in order to get him in trim. You have heard of pointers for birds, but Kiser has a deer pointer and if there are deer in his range he never fails to find them and point them. These two gentlemen hunt together nearly every season and seldom, if ever, return home without a deer or maybe more.

is drilling below 1036 feet in red beds.

The Trans-Pecos Oil company moved their office this week to the First State Bank building which was recently purchased by the company for an office building.

Derrick timber for Quincy No. 5 well, on section 6, block 114, G. C. & S. F. railway survey, has arrived, and the erection of an exceptionally fine derrick by contractor McDonald, is progressing rapidly.

Setting casing to the 700 foot level in the Quincy No. 2 well, on section 592, G. C. & S. F. railway survey, has been completed and a successful shut-off of water accomplished. Drilling on this well is now progressing satisfactorily.

Maj. F. J. Quincy, who has been in New Orleans, La., and St. Louis, Mo., for the past two weeks returned Tuesday and reports that while away he closed a deal with the Yortex Oil company to complete cleaning out the Troy well, on section 20, block 140, T. & St. L. railway survey.

The boiler in the pump room at the Santa Rita well in Reagan county, east of Fort Stockton field, exploded last Saturday morning. Night pumper Fred Boggs was seriously injured by the explosion. His head was cut and burned, left leg crushed, and broken between the hip and knee, hand broken and mashed. Other members of the Santa Rita well crew who were near, when the explosion occurred, were knocked down and two men were scalded, but their injuries are reported to be slight. Boggs' injuries were not considered of a fatal nature but very painful. He was sent to San Angelo.

Quincy No. 1, on section 19, T. & St. L. railway survey, is being drilled below the 1400 feet level.

WOMAN AND A WATER DROP. COUNTING FORD CHICKENS. STARVING CHILDREN. THE SHAH DIDN'T CARE.

County Clerk Nicdorf of Michigan issues with each marriage license "Ten Rules to Insure Happy Married Life." Here is a sample:
"Keep up the courtship period. Go 50-50 on the money and 50-50 on the love. Don't live with relatives, or keep boarders. Don't be a tightwad."

Such rules mean little. Every man knows that one drop of salt water, patiently studied, will tell you all about the Pacific Ocean, which is simply a collection of so many drops. Marriages would last longer if men realized that each woman is to all women what a drop of salt water is to the ocean. Study, analyze, interest yourself in the woman that the Lord has assigned to you. One is enough, and has within her, if you look for it, everything that you would find in ten thousand.

Democrats, counting chickens even before the eggs are laid, say that Ford, running independently, will take so many farmers from the Republican party as to make Democratic victory certain.

Democrats forget that Ford's chief plank will tell of the wonderful things to be done for the South, at Muscle Shoals.

Ford would draw farmers from the Republican party, but he might also break up the solid South, elect himself, and leave Messrs. Coolidge and McAdoo wondering what happened.

Cotton prices are strong. October cotton passed 30 on Wednesday, December went above 29 yesterday. Manufacturers would do well to buy their raw supplies now. Cotton will be higher—a good thing for the South and the North, as well.

Investigation in New York shows children underfed, undersized. Their parents need money to pay high rents. Landlords say, quite truly, "It is not our business. We are taxed; wages and materials are up."

But it ought to be the city's business, and it ought to be the business of the entire white race, to see that children are fed and have a chance. The undernourished children of Europe today may mean Asiatics ruling in Europe fifty years hence.

The English interfered with child

labor and child stunting, forbade the starving of children that they might be small enough for chimney cleaning, when they found that they grew up too small for the army.

In Germany the price of a loaf of bread jumps four hundred and forty million marks in a day. That number of marks would have been one hundred and ten million dollars before the war. No telling what will happen to men, when their money goes as crazy as that.

Even Nature seems to be fighting against miserable men. In South Africa, a deadly drought and scorching wind storms have dried up the water supply, while locusts, in swarms, have destroyed green plants. It is feared that all cattle will die.

War, disease, earthquakes, droughts, money panics, tidal waves and, worst of all, human beings and nations intent only on robbing and killing each other.

Certain philosophers have thought that among planets there might be some very sick, as there are sick individuals among human beings. This must be one of the sickest planets.

The Poles and the Turks have signed a treaty of "perpetual peace" and the document was probably signed on both sides without a smile.

It's a good treaty for the present, however, for with Russia getting stronger and wanting Poland on one side, the Dardanelles and the door into the Mediterranean on another, Poles and Turks will hang together or take their chances separately.

The Shah of Persia, invited to attend the Derby, said, "No, I know one horse can run faster than another and I don't care which it is."

A hundred thousand who feel differently attended the race between an American horse and the British Derby winner last week. Many very likely laid their first bet on a horse race because of excellent advertising the international contest had.

If you failed to see the race comfort yourself with this thought: *An automobile can be bought for less than \$500 that could run both of those horses and a half dozen others to death in a forenoon.*

MAKE UNCLE SAM YOUR SERVANT

It has often been said that Texas does a number of things better than any other state. Evidence to substantiate this is found in the enormous business university located at Tyler—The Tyler Commercial College.

This great institution enrolls more than four thousand students every year, and the success of its graduates is phenomenal. Boys and girls from towns like ours who have taken the various courses taught by Tyler Commercial College are found among the business leaders of our nation.

For those who do not find it possible to attend their school the management of Tyler Commercial College have arranged to send their courses by mail anywhere in the United States. By this arrangement any boy and girl, by spending a few minutes each evening at home, can complete any of their courses in Telegraphy, Byrne Simplified Shorthand and Typewriting, Byrne Practical Bookkeeping, Business Administration and Finance, Penmanship, Lettering, Salesmanship and Radio. The correspondence department of this school has grown to be very popular because the courses are found to be interesting from the very start.

This school goes so far as to guarantee to refund every cent of tuition at the completion of any course if it is not as recommended. The fact that no one has ever asked for this refund is evidence that their courses are what you should have to insure your future success.

Advantages of Courses by Mail
A correspondence course costs less than one-sixth of the amount required to attend school in person. You are permitted to remain at home and "earn while you learn," as well as to "learn while you pay." Instead of going to the school, the school comes to you. A standard-make typewriter is furnished you right at your home if you take the Shorthand course. At any time during the study of the course by mail you are permitted to enter the school in person without paying additional tuition.

Anyone who will mail the coupon below bearing the name and address will be sent a large, free catalogue of 200 pages. The editor of this paper will be glad to arrange for your scholarship. Mail the coupon today.

FINANCIAL REVIEW

Prepared For The Enterprise By The First National Bank, St. Louis

The last quarter of the year for the iron and steel industry was ushered in with a slight reduction in the output of both pig iron and crude steel. Statistics on the production of pig iron and steel ingots in the United States during the month of September are of more than ordinary interest, inasmuch as there is some feeling that the figures for September mark the extent of the decline in activity of the American iron and steel industry. The advocates of this optimism basing their belief on the following conditions; a better state of affairs in the construction industry, a growing demand from the railroad, and continued prosperity in the automobile industry. Whether improvement will take place at this time is difficult to say as the steel market shows substantially the same cross currents for the past six weeks or more.

The extent of the reaction from the high marks of May of this year, which culminated during the past month, amounted to approximately a 17 per cent increase in the output of iron and a 15 per cent decrease in the steel output. Statistics gathered by "The Iron Age" indicate that the September production of coke and anthracite pig iron was 3,125,512 tons, as compared with 3,449,493 tons for August with 3,867,694 tons for the record month of May, and with 2,033,720 tons for September, 1922.

The returns made to the American Iron and Steel Institute by producing concerns whose output during 1922 amounted to 95.35 per cent of the total production, show that production of crude steel by the reporting concerns amounted to 3,159,283 tons as compared with 3,056,755 tons for August and with 4,000,695 tons for May. Included in the tonnage for September were 2,536,972 tons of open-hearth steel, 613,709 tons of Bessemer steel and 8,602 tons for all other steel.

ANCIENT MASONIC BOOKS FOUND IN GARRET

London—The strange story of a hidden wealth hoard which was found in a small garret in Dundee after its owner had been removed to the local hospital was told at a committee meeting of the Dundee Parish Council, says the London Freemason. Robert Allan stated that recently the man, who was an elderly person, had been admitted to one of the hospital wards. A visit was paid to the garret occupied by him and in going over his belongings they came across the sum of 800 pounds in money. Amongst the papers in the room were a number of old minute-books belonging to a Masonic Lodge and dating back to about one hundred and fifty years ago. In the bottom of a trunk was a lot of old clothing, which was only fit to be destroyed, and was removed and disposed of accordingly. There was also discovered in the garret three guns and some ammunition, and in view of the Firearms Act he felt that he was not entitled to keep this, and intimated the find to the police who took charge of it.

The W. M. of the Masonic Lodge was communicated with, who expressed delight to have the custody of the books appertaining to the Lodge. It also appeared from information received that the man was drawing from the Lodge an annuity of 45 pounds per year. When the man came out of the hospital he had a presentation gold watch, which was in the custody of the Council and which he signed for. He also asked for the loan of 2 pounds, and signed for the amount. He did not take possession of the watch, but left it with the inspector. Later the watch and the rest of the money were handed over to him.

Night coughing—

exhausts you so that you are more tired in the morning than when you went to bed. Dr. King's New Discovery stops coughing by gently stimulating the mucous membranes to throw off clogging secretions. It has an agreeable

Ford
Truck Chassis
4370 Lbs.

Flare board body type, ideal for packers, plumbets and other hauling heavy merchandise. Body type to meet every hauling requirement can be supplied.

A dividend-paying business utility—a title the Ford One-Ton Truck has earned for itself through years of reliable service in diversified lines. Powered by the famous Ford Model T engine through the Ford planetary transmission and special Ford worm gear, it brings to the business man his delivery service the abundant power, reliable operation, and real economy for which the Ford product is notable everywhere.

It carries its load day in and day out with a minimum of attention. Its ease of handling adapts it for use in the limited areas about loading docks, warehouses and construction locations. Giving rapid, dependable hauling service at low initial cost, and at the lowest possible expense for operation and upkeep, it pays the highest dividend on the investment of any motor transportation equipment available to the business world.

PRODUCTION COSTS WITH RANGE CATTLE

(By A. D. Jackson, Editor, Experiment Station Publications, A. and M. College)

Of interest to Texas cattlemen is the cooperative study of the cost of production with range cattle, now being conducted in the northeastern portion of the range area of Western Texas; and which is a continuation of ranch studies begun several years ago by Dr. B. Youngblood, Director, Texas Agricultural Experiment Station, and now becoming generally classed as "Ranch Economics."

This is the first of a series of new and original investigations by the United States Department of Agriculture into the economics of ranching and computations with such factors as carrying capacity, for instance, are to be based upon the ratio tables and other data developed by the Texas Station and published in Bulletin No. 297 entitled "An Economic Study of a Typical Ranching Area on the Edwards Plateau of Texas."

Mr. Klemmedson is now at A. and M. College pursuing special studies in ranch economics, including the course being given by Doctor Youngblood, who has directed the principal preliminary studies on this subject in Texas and who will tender every facility at his command toward the successful study of the project at hand.

Both Mr. Klemmedson and Mr. Parr have special training for the particular investigations they are making. Mr. Klemmedson attended the College of Agriculture of Colorado and earned his degree of Bachelor of Science at the University of Illinois, where he also did some graduate work, which he is now continuing at the A. and M. College of Texas.

Speaking of the new project, Doctor Youngblood said: "I am pleased indeed, not only to see the problems of ranch economics receiving the attention of both State and Federal research men, but I am particularly pleased to see it placed in the hands of such men as Parr and Klemmedson. These men, hailing from the West, are well equipped for making accurate scientific studies of the problems of the West. While East Texas may be appropriately classed as a part of the Old South, the rest is essentially a part of the great West. Klemmedson, coming from Colorado, can easily appreciate the problems of Western Texas, while Parr, hailing from one of the oldest ranching sections of Texas, is especially well equipped both by training and manner of thinking to work with and understand Texas people and Texas problems."

"Texas being the birthplace of what is now recognized as American ranching, it is, of course, appropriate and logical that this State should be the seat of learning for those who would study ranch economic and social problems. It is only natural, therefore, that the Texas Agricultural Experiment Station, and for that matter the entire A. and M. College organization, should take the lead in such work."

BULLETIN NO. 1375 READY FOR DISTRIBUTION October 23, 1923. Mr. John Hibdon, Editor ENTERPRISE, Pecos, Texas, Dear Mr. Hibdon: I am sending you, under separate cover, a copy of Farmer's Bulletin No. 1375—Game Laws for the Season 1923-24—which has just been issued by the Department of Agriculture. It may be that many people in your locality would be interested in having a copy of this publication and if you will make public the fact that I have these bulletins for distribution, it will enable me to place them where they will be of value. I shall appreciate your generous co-operation in this matter.

FORT WORTH JUBILEE TO BE BIG DOINGS

The flickering campfire of a single scout of the U. S. Army glowing on the banks of the Trinity river in 1848 really determined the location of the city of Fort Worth.

This sturdy scout, courageously defying danger of savages and wild animals, mapped the course of a system of forts designed to subjugate and Americanize the vast tracts of territory accruing to this country through the annexation of Texas and the conquest of the Mexican war. The Unknown Warrior of Fort Worth's destiny will be fittingly commemorated in the historical pageant which will feature the celebration of the Diamond Jubilee in Fort Worth November 11 to 14. A young athlete will picture the selection of the bend in the river upon which Major Ripley Arnold built the military post of Fort Worth.

They are wearing old grey bonnets and 5-gallon hats now in Fort Worth in honor of the Jubilee. Costumes of all periods of American history may be seen on the streets, those of fifty and seventy-five years ago predominating. Guests from out of town may appear at all times from now until the middle of November in grandma's and grandpa's old attired togs and feel perfectly at home. Thousands of men, women and children in Fort Worth will bear them company.

Pageantry, parades, and pioneer diversions will feature the four days of merrymaking, and everything practically will be free. The historic pageant, the stage and pony express races, all of the amusements of the Pioneer Village, and the Indian exhibitions will be offered without charge to all guests. No fakery or carnivals will be allowed within the corporate limits of the city.

The Victory ball, which will be held in three sections on the night of Monday, Nov. 12, collects a small fee for dancers, but all money thus raised goes to the fund for disabled soldiers. This Victory ball is simply one of the thousands of Victory balls held every year for the Disabled Veterans' Fund all over the United States, under the auspices of the American Legion.

The coach and express races will be picturesque details of the Jubilee celebration. Homer D. Wade, assistant manager and Fort Worth representative of the West Texas Chamber of Commerce, has charge of the stage coach race. There will be no matching of team against team in this race, but the hazard will be one of time only.

The pony express race is a revival of the old time custom of carrying the mail by horse relaid every few miles. In the Jubilee race, three horses, or ponies, will be necessary for relays every two miles in a six-mile race. Ed Bateman, Fort Worth, has charge of this race.

All Texas mayors have been invited to be guests of Fort Worth on Mayors' Day, Nov. 13. The Kiwanis club has charge of this part of the program, and acceptances are coming in every day to the club secretary.

A "come play with me" spirit will pervade the celebration from start to finish. Mayor Cockrell has ordered a section of downtown several blocks in extent roped off and arranged for pioneer dancing, soft-drink bars, pioneer shows, games, and stunt features. Everything in the pioneer village will be free.

A WELCOME LETTER FROM S. E. WILSON Clinton, N. C., October 24, 1923. It has been a long time since I have written anything for a paper and will not write much now. Am back at my old home in Sampson County, North Carolina, where I was born 56 years ago. During my 30 years' absence, I note many changes, some for better, some for worse. Farming has advanced very materially, the land here once too poor to sprout is now making a bale and a half of cotton to the acre. But how do they do it? Why, by spending from 25 to 50 dollars per year to the acre for fertilizer. I have just been wondering what it would mean to all West Texas could we spend that much—yes, one half that much—on irrigation. I am sure the people of the West will some day awake to their wonderful opportunity and bring out the wealth that lies dormant in that fertile soil. I came here to attend the funeral of my only brother, where his mortal remains rest in his native soil. But it is my desire that the Resurrection morning shall find my sleeping dust in West Texas—the grandest country in the world to me.

WEDDED BLISS IN COVERED WAGON

Driving along down a country lane the other day we focussed a picture on the screen of memory that will not blot out. By the roadside, under the shade of a tree, was a covered wagon, and the inmates of this highland schooner were resting at noon time. They were sitting on a bed in the rear of the wagon, clasped in each other's arms, a prattling babe was lying on the bed, kicking up its heels, and they were busily engaged talking and cooing to that babe, oblivious of surroundings and road traffic. Yes, keeping house by the roadside, humble though it was, but it was their castle on wheels. To it was hitched a pair of common plug ponies, harnessed with just common ordinary plow gears. On the rear end of the wagon was the rocking chair, wash tub and a plain board cradle; underneath the wagon was the chicken coop, well filled with chickens, and of course they had a dog, and a cow and a calf were lassoed to the hind gate of the wagon, and we expect that that was the extent of their earthly possessions. To get a better glimpse of this camp and the folks by the roadside, we stopped our jitney and let on like there was something the matter with our motor; we raised the hood, fumbled around like we were fixing something, but all the while we were watching that housekeeping in a covered wagon. They never did see us, if so, they never let on, wrapped up in their own business, and a babe was the central figure in this canvassed home. We do not know where they were going, but west we expect, as the horses had their heads toward the setting sun. And say, you fellows who ride in a limousine, live in a big house, have your land and cattle, bank stock and merchandise, do you think that you have all the pleasure in the world? If so, you have made a bad guess, as that house on wheels, out in the big open, camping by the roadside, on the banks of the running brooks, under the shadow of trees in the wild woods, care free, traveling west, and maybe-so as the years come and go, he too will live in a big house, own stocks and bonds, sit on the bench, go to congress, for out of the loins of the comality come the rulers of men, the builders of empires and defenders of human liberty in the hour of stress—And so this picture of wedded bliss in a covered wagon on the road side lingers with us.—Albany News.

The English Way An American job in England had stepped on a weighing machine and was studying it with a puzzled eye. "What's the matter, don't you know what it means?" inquired a friend, more experienced in matters Britanica. "Let's see it."

He inspected the indicator and announced proudly: "You weigh eleven stones, two bricks, one piece of three by one-half inch board and a couple of shingles."

Tourist—"What's that beast?" Native—"That's a tazu-back hawg, huh."

Tourist—"Why is he rubbing himself on the tree?" Native—"Jes' stroppin' himself, huh, jes' stroppin' himself."

STALE NEWS Suitor: "Bobby, how do you think you will like me as a brother? Your sister promised to marry me at the party last night? That's news, isn't it?" Bobby: "Now. That was what the

Foreign Advertising Represented by THE AMERICAN PRESS ASSOCIATION.

With the recent flood waters of the Pecos river the reservoirs of the Buena Vista and Imperial projects have been filled to capacity. The rains at that time and later have put a good season in the ground in both these sections. This practically insures bumper crops under these projects for the coming year when they will forget the drought of the past season which all but disheartened those sturdy farmers. The construction of the Red Bluff reservoir will prevent a recurrence of such conditions as prevailed in that section the past year. Let's build it and forget our troubles.

Last Saturday was another of those big trade days in Pecos when all stores of the town were taxed to capacity to take care of the trade. Another real trade day is promised for the 17th of this month but the committee appointed by the Chamber of Commerce to get up the advertising have been too busy to do so. No doubt this occasion will draw big crowds of buyers anyway, but just because of the fact buyers are coming to market in such swarms as last Saturday is no valid reason why the trading public should not be reminded of the day. A wise head selects men for each job who have the time and inclination to do the work.

Saturdays from now until Christmas may be looked upon as fair samples of what will be the custom in Pecos after the completion of the Red Bluff reservoir. It will eventually be constructed and the 100,000 idle acres which will be fed by the waters impounded therein will all be bringing in revenue and blossoming as the rose.

Of course when the Red Bluff reservoir is delivering water for irrigation and the oil wells begin to produce oil Pecos will grow but it will grow in spite of our people. A city cannot be built without co-operation—it never was and never will be. Town builders are not those who sit around and do their level best to see that a neighbor whom they do not happen to admire, does not prosper. In order that a town or city may prosper and grow its citizens must of necessity prosper and grow. Of course every town has a certain per cent of selfish, disgruntled weaklings but they are not city builders. Pecos has its quota of both and it is growing—smaller and smaller. Let's wake up and forget the thriffliness, selfish hat and do something that will help.

Now, possibly, of our people are aware of the fact that Prof. and Mrs. Harp have been sought by towns over Texas and elsewhere in which Pecos would not begin to fill one corner. They are real musicians and know how to train orchestras as few are capable of doing. Some appear to have come to the conclusion that they are here to take from other music teachers of Pecos a portion of their pupils. This is anything but the fact. Toyah and Barstow have always had music teachers, and competent ones, but they ever have an orchestra until Mr. and Mrs. Harp entered upon the scene? Pecos has had and yet has splendid, competent music teachers for years, yet at the present time both Toyah and Barstow are so far in the lead that Pecos is not in it, so far as orchestras are concerned. Those desired for training by Mr. and Mrs. Harp are just so many other musicians—or rather musicians in the making. Their pupils will be elevated, ennobled, and help make Pecos noted for its splendid citizenship, intelligence, culture and refinement. Music is elevating,

Let's make musicians of all our young people who have the making in them. To this end Pecos should lend her every support to these good people.

The Baptists of Pecos are to be congratulated in securing the services of Mr. and Mrs. Harp in training their choir and orchestra for their church. Under the leadership of the Rev. J. M. Garner the Baptist church of Pecos is doing more and better work than at any other time in its history toward making that the leading church of Pecos. He has succeeded in cementing its membership together in a way which can only mean success. Mr. Garner is energetic and alert and never fails to grab anything which will advance the work in which he is engaged—that of drawing men and women into closer communion with the living Christ—and when he calls for assistance in doing this work his membership never fails him. He, as said before, is doing a splendid work and the acquisition of Mr. and Mrs. Harp will help materially in bringing out not only the members of his own church but those who are visiting in our town and those who have no church affiliations as well. If the other churches of the town play the game wisely, they will wake up, come alive and boost their own interests and while doing so praise this good man for his activity and keep foresight in recognizing a good thing and attaching it to his organization.

It is with profound regret that the ENTERPRISE publishes this week a notice of the death of Miss Elizabeth Bacon. For the past seven years she has taught in the Beall public school at El Paso and was beloved and respected by her pupils and her friends. She was the eldest of a large family of children left orphans at an early age, and had sacrificed her entire life to the care and education of her young brothers and sisters, all of whom are now creditable citizens. She was a beloved member of the family of Congressman and Mrs. C. E. Hudspeth, of El Paso, at whose residence she made her home. It is more regrettable that this accomplished educator should be removed from her labor of love and forever retire from an occupation in which she was of such a benefit to our growing citizens. She was a sister to Mrs. Joe Miller, teacher in the Balmorhea school and Miss Edna Bacon, county treasurer of Ward county. The ENTERPRISE joins in sympathy with her brothers and sisters and her host of friends.

TWO GREAT ORGANIZATIONS SPEAK

Two great organizations—the American Legion and the American Federation of Labor—have gone on record as opposed to the Klan. It would be hard to imagine two or more representative bodies, bodies that have any better right to say what Americanism really is. Especially is this true of the legion. These boys risked their lives for their country on the battlefield and they found at their side the Jew and the Catholic, the foreign born and representatives of every race, and they properly resent any movement that would curtail the rights and privileges of those who like they, offered their all that liberty and justice might prevail.

There is yet one great body that is silent which has peculiar reasons why it should frown upon this organization. That is the Protestant churches of America. They do not act. They sit still upon the fence and at the same time witness Protestantism split into two antagonistic factions. One of these factions see in the Catholic church what they claim is an evil and yet because of their action they see Catholicism solidified and Protestantism rent in twain. The other faction sees intolerance and bigotry in the saddle and lacks courage to speak.—Marshall News.

There are thousands of people dying every year for want of the most plentiful and the cheapest thing in the world—fresh air.

The Texas Public Health Association encourages everybody, children as well as grown-ups, to get out in the open air at all times of the year. It is one of the steps in the prevention or cure of tuberculosis.

The Modern Health Crusade, in which many thousands of Texas school children are enrolled, encourages its members to play out of doors. Sanatoria are demonstrating in practically every stage, that no matter what the local climate may be, fresh air is necessary for health.

The Texas Public Health Association, as a part of their life-saving program, financed by Tuberculosis Seals, advocates the establishment of county sanatoria, summer camps for underweight children, open schools and out door exercises so all may get the benefit of nature's remedy.

WHEN SUMMER 'GINS TO WANE

(By Mary Johnson Posey)
Wonder why the sunshine mellows so
As the summer days begin to go?

And why the sky bends a deeper blue
Above the forest's emerald hue?

Is it that sweet summer's loath to go
And see her flowers replaced by snow,
That she dons her loveliest clothes
And makes the blossoms on the rose?

The myrtle blooms to glow redder
Than when Spring stole thru the "medder,"
And the great hills have gone to dreaming
Beyond the river's silver gleaming.

Now the mock bird's gay and lilting note
Falls in sweeter cadence from his throat,
While the air turns into golden wine
As a breath of frost drifts down the wind.

Far away, October, ruddy flames,
Beyond the fields of garnered grains.
A soft blue haze drapes earth and sky;
Good-by, Summer, good-by, good-by.

HUGE EXPENSE LAID TO KLAN ADVERTISING IN MAIL

Atlanta, Ga., Oct. 29.—Dr. H. W. Evans, imperial wizard of the Ku Klux Klan, was charged with having purchased 14 carloads of one issue of a newspaper "published by Mayfield in Texas," and having copies mailed to klans throughout the United States in an affidavit sworn to by E. J. Jones, former cashier of the Klan and introduced in evidence Monday in Fulton county court in the suit of David M. Rittenhouse and others for a receivership for the Knights of the Ku Klux Klan. The issue contained a story complimentary to Dr. Evans and his photograph, Jones swore, and the total cost was \$16,000.

Jones in his affidavit charged that Dr. Evans, Paul S. Tithegojze and F. L. Savage, the latter at that time head of the Klan investigation bureau, went to Chicago last spring to take part in the city election there. Large sums, he said, were charged as expenses, attorneys fees, and for investigation. Expenses for working in an election are barred under the constitution of the Klan, he said, but that there were items entered on the books totaling \$77,000 for attorneys fees, and \$40,000 for investigation.

Mrs. Helen K. Steel, who recently filed a breach of promise suit against E. Y. Clarke, former head of the propagation department of the Klan in two affidavits read at Monday's hearing, told of alleged meetings with Tom Akers, formerly an employee of the publicity department of the Klan at which Akers urged her to file suit against Clarke. "She told of frequent meetings with Akers and how their telephone conversations were listened to by as many as three persons on extension telephones and transcripts of the conversations taken down by stenographers. The affidavits read Monday were made prior to the time Mrs. Steel filed her suit.

E. J. Jones, in another affidavit, declared that the Oklahoma, Texas, Virginia and New York klans had threatened to secede from the organization and to withhold the per capita tax and that Dr. William J. Mahoney was sent to Oklahoma to pacify and quiet the unrest there. On his return, he said, Dr. Mahoney reported to Imperial Wizard Evans that Oklahoma was withholding one hundred thousand dollars due to the imperial headquarters.

Jones further charged that B. G. Christy, in charge of propagation work in Illinois and Dr. Evans had split the fees received by Christy for new members in Illinois. He asserted that Dr. Evans had made the positive statement to him that he was getting half of Christy's fees and besides he was paying Christy \$75 a week and expenses from the Klan funds.

Jones told of an alleged effort made at a meeting of the klans of the organization in May, 1923, to prefer charges against Dr. Evans, F. L. Savage and others. Witnesses finally had to leave Atlanta without being heard, he said, the klans refusing to allow the charges to be filed.

MEMORIAL SERVICES

The Pecos High School will be host at the Armistice Day services to be held at the Methodist church Sunday morning, November 11, and cordially invites the Commander and members of the Richard Briscoe Post, American Legion, all ex-service men and all veterans of former wars to be present at these services, commemorating our dead soldiers and honoring those who are living. All citizens of Pecos will unite in these memorial services to the men who have given all time to our country.

OPPORTUNISTS IN BUSINESS

(American Forum)

1. There are opportunists in all walks of life. There are men who do not order coal until the snow and frost have come. There are men who do not patch up the roofs of their houses until it rains. There are men who lay by no savings for the day of disaster. There are men who take no thought for tomorrow. These men live from day to day without definite plan or purpose and without foresight.

2. The story is told of some Englishman who undertook the task of teaching a certain tribe in Africa to be more provident. These Englishmen bought some oxen, some plows and other farm implements and instructed the native how to make use of these "aids to farming." It was hoped that by this means the natives would learn to accumulate a surplus, so that when the lean years came they would not be without food. The result of this experiment was that when the ground was plowed and the crop was planted the natives in celebration of this event, held a great feast and killed the oxen and gorged themselves with food.

3. There are opportunists in business everywhere. With them, each bargain which they make stands alone. For them, "Sufficient unto the day is the business thereof—if they can get it." Such business men do not realize that every bargain they make is analogous to placing a brick in the building of their warehouse. Each brick, although in itself a single and definite thing, is really of use only as a part of the completed structure. Out of individual bricks the warehouse is built. The kind of bricks determines the kind of building. The kind of bargains made determines the kind of business that results.

4. Are you an opportunist in business? Are you living only from day to day in your merchandising practices? Do your salesmen understand that you have a real policy? Do they think that this so-called policy is only for talking purposes?

5. What is the final word to the salesman? That's the key to the whole situation. If he has lost a sale to your competitor, if he has not reached the percentage of sales in his district which you expected, do you say to him that "we can shade those list prices if we have to?" Do you say that Mr. So-and-So is a good customer, we want his business, go low enough to get it? If you do these things you are an opportunist in your business. As a result, your business is like a ship without a rudder. It wallows about in the waves of temporizing and unstable policies. You may be sure that the rocks and shoals of business difficulty are not far away.

6. Don't be such an opportunist in your business. You don't have to be, whatever your competitor may do. But this appeal is made to your competitor as well as to yourself.

7. You and your competitor will break no law of this land in dealing fairly with your customers. You will break no law of this land in dealing fairly with your own business. There is no law which forbids you to agree to be true to yourself and honest with all your customers.

8. Such opportunism as described above is a great weakness in our business today. The surface of the water at the bathing beach may be calm and placid enough, while beneath there exists unseen and dangerous undertow. The opportunist policy is the undertow in the business of today. The dangers that lie in it are not always obvious. Frequently they are subtle and unseen. They are there nevertheless.

9. What are these dangers? An opportunist policy will lead you into the danger of price-cutting. It leads to secret dealings with manufacturers and with retailers. It leads to rebates, "free deals" and secret cuts. It leads to selling below cost. It leads finally and inevitably to disaster.

10. Don't be an opportunist in your business. Don't let your competitor determine your business policy for you. Never forget that every bargain you make becomes a part of your business either for good or for ill. Day after day you are building up the structure of your business and the final result, the security of that business, the reputation of that business, will be determined by the individual bargains which you make, make your business that right kind of business. You are giving it the best years of your life. You are giving it your best thought and all your energy. Make it a permanent and worthy of itself.

ROBS CALOMEL OF NAUSEA AND BANGER

Medicinal Virtues Retained and Improved — Dangerous and Sickening Qualities Removed. Perfected Tablet Called "Calotabs."

The latest triumph of modern science is a "de-nauseated" calomel tablet known to the drug trade as "Calotabs." Calomel, the most generally useful of all medicines thus enters upon a wider field of popularity,—purified and refined from those objectionable qualities which have heretofore limited its use.

In biliousness, constipation, headaches and indigestion, and in a great variety of liver, stomach and kidney troubles calomel was the most successful remedy, but its use was often neglected on account of its sickening qualities. Now it is the easiest and most pleasant of medicines to take. One Calotab at bedtime with a swallow of water,—that's all. No taste, no griping, no nausea, no salts. A good night's sleep and the next morning you are feeling fine, with a clean liver, a purified system and a big appetite. Eat what you please. No danger.

Calotabs are sold only in original, sealed packages, price thirty-five cents for the large, family package; ten cents for the small, trial size. Your druggist is authorized to refund the price as a guarantee that you will be thoroughly delighted with Calotabs.—Adv.

The lower the rates the less money you pay for premiums. We ask more of your insurance for our services.—E. L. COLLINGS INSURANCE CO.

B. H. BANNER

ORCHESTRA CHORDS AND DIS-CHORDS

Mr. and Mrs. E. L. Harp wish to announce through this column to the Pecos orchestra that rehearsal will not be held this coming Saturday, as announced last week, but is changed to Monday night at the usual times. Also, hereafter, they will give their regular lessons on Monday, and rehearsal will be held that night. This new schedule goes into effect Monday the fifth. All Pecos orchestra students and members please take notice of this change.

When the Toyah orchestra was formed there was only one member who had played and studied good music. Mrs. M. A. Grisham, wife of Matt Grisham, a prominent ranchman, had studied violin under competent instruction, but her violin had been laid away and she had entirely given it up. She resumed her practice and is now a valuable asset to the lead violin section. The balance of the members, with the exception of one or two who played the violin by ear, but had no conception of the beauties of correct playing, had never played any instrument before. Toyah, being a small town, the few young players were not coached in musical rhythm by hearing the so-called popular melodies whistled on the streets and were not impregnated with the craze for worthless songs and dance music. The commencement was made under the instruction of an orchestral master who did not approve of teaching a rhythm of trash made popular in congested centres by cabarets and questionable resorts. The Toyah people commenced on good music of an easy grade by well known old and modern composers, and now are only satisfied with the best that can be procured. And now, when the difference between good music and popular trash can be readily weighed, the latter is almost received with a feeling of repugnance and regarded with aversion. The Toyah orchestra has had a good start ahead of its neighbors at Barstow and Pecos, and is now playing third and fourth grade music by the celebrated old and modern composers. There is hardly a program given by celebrated orchestras in this whole country but what some of the numbers can be found in the Toyah orchestra library and which the home orchestra can creditably render. Efreim Zimbalist, violinist, who played to a capacity house in El Paso Tuesday, and who is considered the greatest performer heard in the southwest for many years, played three numbers which can be found in the Toyah library, as follows: Salut D'Amour (Love's Greeting), by Elgar; Le Cygne (The Swan), Saint Seans; Traumerei (Dreaming), Schumann.

There has been such an enormous demand for the fortieth anniversary number of the Etude, published in October, that the supply is already exhausted. This number had a fine picture of the Toyah-Barstow orchestra, printed in the center of the editorial page. There were probably half a million copies circulated, and many from this neighborhood have mailed letters to the Presser Company at Philadelphia for extra copies. In a letter to Mrs. E. L. Harp the company states the orders will be held and will probably be filled at a later date.

Miss Lucille Dodson, of Barstow, is considered by Mr. Harp as one of his most promising pupils. She is a good reader, has a fine violin, and is mastering the third and fifth positions. She is of the quality of students who go towards making an orchestra worth while.

John Sweatt and Miss Catherine Sweatt, of Barstow, are making excellent progress in their study of the violin. They take a delight in practicing and do not consider it a task.

Miss Florence Burchard of Toyah has made wonderful progress in ensemble playing. She accepts the violin part assigned her, be it minor or a difficult one, with dignity and grace. She exercises a self assurance that she has it to play and she plays it with credit to herself and her instructor. She commenced on second violin with the advanced players and is now studying the solo and obligato parts to the standard overtures by Rossini, Verdi, Suppe and other celebrated composers.

Mr. Harp has received for the Pecos orchestra eighteen Conservatory books. These will be distributed to the pupils who have agreed to play correctly. The books contain the following compositions: Aida, Barcarole, Marche, Caval-

leria Rusticana, The Palms, Melody of Love, Traumerei and many other classics.

Wendell Nichols, one of the beginners in the Barstow orchestra, is studying the trombone. He is locating his tones with wonderful accuracy and his mastery of time is seldom excelled by a beginner.

The Toyah orchestra will have their rehearsals at the Christian church this winter. The church can be more easily made comfortable for the players and visitors than the school auditorium, and in every way is as well suited and is more easily heated.

More than one-half of the publications for full orchestra have the clarinet parts written for the A clarinet. Therefore it is very essential for a clarinet player to have two clarinets, an A and a B flat. Both instruments are alike in mechanism, but are pitched in different keys. These instruments are made that way to make it easier for the player to render his part. The expense of the instrument is the only drawback. There is no difference in the fingering of the instruments as both are played exactly alike, or practically the same as if a pianist uses two different pianos. Wendell Powell and Robert Simpson, of the Toyah orchestra, are the only clarinet players in the community orchestras who have instruments which are suitable to play any orchestra score published. A large number of beautiful selections are published for the A clarinet which the conductor does not procure because of the defective instrumentation in the clarinet sections of his orchestras. This will be remedied in time. When the clarinet player realizes the beauty of his instrument and takes a pleasure in playing it, he, or she, will recognize the disadvantage, and procure the other clarinet.

Wendell Powell of Toyah is on the road to proficiency in his study of the clarinet. His playing of the orchestra scores is a decided improvement to the wind section, and his high clear notes are produced in a manner which would be a credit to many professionals who have had years of practice and experience. A young man who can creditably play the clarinet, and read music, need never want for lucrative employment if he should happen to be cast among strangers and in need of assistance. The clarinet is a difficult instrument to play nicely, and if there are any fireworks or intractable or exacting stunts in an orchestra score, the clarinet gets them.

One of the best and most satisfactory rehearsals of the Toyah orchestra was held last Friday night at the Christian church. There was a good attendance and the students put plenty of animation and pep into their playing. Every day in every way they are getting better and better, and Mr. Harp is well pleased.

Mrs. Clyde Black has been chosen as leader of the Presbyterian church orchestra at Barstow. Dedication services were held at this church last Sunday morning and twelve members of the Barstow orchestra played for the services. Their music was up to the professional standard, attracted a large congregation and fully demonstrated the decided advantage to the churches and school this organization has given.

Miss Virginia Mauldin and Master John Haughton are two new violin students who have enrolled with the Barstow orchestra. These two increase the membership to thirty-five. The instrumentation is as follows: 16 violins, 4 cellos, 1 bass viol, 3 clarinets, 2 cornets, 1 mellophone, 2 altos, 3 slide trombones, 1 euphonium, drums and piano.

Miss Grace Sweatt and Mrs. Clyde Black are making excellent progress in the cello section at Barstow. Miss Grace will soon start in the fourth position on this beautiful instrument, and can now creditably play any of the cello parts of the music handled by either Barstow or Toyah.

Ten members of the Barstow and Toyah orchestras took part in the services of the Christian church at Pecos last Sunday night. They did not have any rehearsal, and played the entire song service through without an error. The following were present: From Toyah—Florence Burchard, violin; Gage Van Horn, Jr., cornet; Robert Simpson, clarinet; A. H. Bruce and Ernest H. ... trombone; A. O. Harris and J. ... basses. From Barstow—... and John Sweatt, violins; ... Thurston, bass.

The following members of the Pecos orchestra are playing this week for the opening exercises at the high school: Violins—the Misses Anna Mahala Murray, Bettie Blanche Harrison, Beverly ... Masters George Slover ... Jester; ... net, How...

SOCIAL EVENTS

HALLOWE'EN

Miss Margaret Love entertained a goodly number of her friends Halloween evening at a most delightful party. The rooms of the Love home were elaborately decorated in Halloween symbols and signs. The hostess and guests were costumed in Halloween apparel, and the whole presented the desired weird effect. After the games in which much merriment was had, delicious doughnuts and chocolate were served to thirty-five guests.

SURPRISE BIRTHDAY

Mrs. Lillian Butler chaperoned her class of young girls of the Methodist Sunday school to the home of their comrade, Miss Margaret Love, Monday night, and gave her a surprise birthday shower. Many pleasing and interesting gifts were presented to Margaret as an evidence of the love and appreciation with which they regard her. This was Margaret's thirteenth birthday anniversary. As a conclusion of the pleasant occasion all went en masse to the picture show.

HALLOWE'EN PARTY

The charming young Misses Lucille Ruhlen, Virginia Bozeman and Mary Catherine Heard delightfully entertained at a Halloween party Friday evening at the Ruhlen home. The decorations of black cats, bats, witches, etc., and the costumes of the hostesses and many of the guests gave just the desired weird atmosphere for such an occasion. Many interesting games and innocent pranks were played. As a climax to this delightful hospitality delicious refreshments of sandwiches and hot chocolate were served.

MISSIONARY SOCIAL

The Woman's Missionary Society of the Methodist church and other ladies were most delightfully entertained Tuesday afternoon of last week at the spacious and colonial home of Mrs. Oram McClure. Her sister, Mrs. Tom McClure, was joint hostess with her.

The unique decorations were suggestions of the approaching Halloween season. Witches and black cats were much in evidence. The witch's cauldron, from which the guests drew their fortunes, furnished much merriment for the occasion. A short business session was held in which plans were made for an all-day meeting to be held at the church Tuesday, November 6th. Most delicious refreshments were served to a large number of guests.

MR. AND MRS. DAN BOWIE ENTERTAIN

Mr. and Mrs. Dan Bowie entertained friends at a Halloween party Wednesday evening at their pretty bungalow home in the west part of town. Halloween symbols of the various kinds were used in decorating the home. The hostess and many of the guests were in Halloween costume. The evening was spent in playing interesting games and in dancing. Delicious refreshments of cake and hot chocolate were served to the following: Mr. and Mrs. Herbert Holloway, Misses Relia Kiser, Estelle Hicks, Mary Catherine Heard, Louise Wadley, Bettie Watson, Viola Ward, Beatrice and Bobbie Bowie and Messrs. Milton Wadley, Joe Glover, Frank Joplin, Brownlee Posey, Vernon Hicks, Joe Langham, Bunny Lavell and Camp Hurst and Addis Kirkpatrick of Barstow.

GRANDMOTHER NEWELL BIRTHDAY PARTY

The members of the T. E. L. class of the First Baptist church gave Grandmother Newell a pleasant surprise with a birthday party Saturday, Oct. 27, 1923. Grandmother Newell was celebrating her seventy-fifth birthday.

Rev. J. M. Garner gave a splendid talk on "Personal Service of Jesus While on Earth to Humanity," and the members of the class sang old songs for the three grandmothers—Newell, Brady and Wheat,—after which refreshments of delicious pumpkin pie, coffee and tea, were served to Rev. and Mrs. J. M. Garner, Messdames Winslett, Walter Browning, Jim King, Kenneth Slack, Mabel Beauchamp, I. W. Thompson, G. C. Parker, R. B. Norman, Johnnie Hudson and Grandmothers Newell, Wheat and Brady.

50 cent meals at the Orient. 6-11

enrolled for instruction for the Pecos orchestra: Mrs. Robert Stevenson, and the Misses May Kiser, Nona Garrett and Verna Garrett.

The following members of the Pecos orchestra are playing this week for the opening exercises at the high school: Violins—the Misses Anna Mahala Murray, Bettie Blanche Harrison, Beverly ... Masters George Slover ... Jester; ... net, How...

BRIDGE CLUB

The Thursday afternoon club met with Mrs. Hugh ... Thursday at 3 o'clock at her ... suburban home north ... There were five games ... played in which Mrs. W. ... won high score. A delic ... course luncheon was serve ... club members present and ... lowing invited guests: ... Wolff, Mrs. Ralph Spark ... Doty and Mesdames Har ... Anderson.

CHILDREN'S DAY

(By Judd Mortimer Lewis Chronicle)
I know what I'd do with the day
If I would leave the heavens the day
They are today; and the breeze
And the sun would shine, and
The birds would sing,
And the jessamine send us its
And morning glories would
Like bits of sky that a child
But all life's troubles I'd
And every day should be

The birds and blossoms
trees,
And brooks and meadows
Are as they should be.
To change the blossoms
But if I only might have
And every day was a Child
Oh, then I think you would
To see the changes come
To see how I would change
And the gladness that would
out.

Then never a limb should
They should all be strong;
And never a child in the
know
A bit of pain or a bit of
Or cause for weeping. And
And not a child should know
And not a child in the world
A thoughtless word or a
Just enfolding arms and the
When eventide stretched the shadows

There would be no orphans at all, not
They would play all day till the setting sun
Sent them indoors for the coming night,
And a father and mother would hold them
tight;
And, after supper, take them upstairs
And bend beside them to hear their prayers
And tuck each one in a snowy bed
And leave a kiss on its tousled head.
Oh, if I only might have my way,
Then every day would be Children's Day!

IF IT'S WORTH SELLING, IT'S WORTH ADVERTISING.

C. H. Willoughby and Family May Leave Tuesday

We will leave because it is impossible to stay unless Toyah, Pecos and the people of Reeves county co-operate in making it possible for us to complete the Willoughby No. 1 well. One friend stands ready to buy the drilling machinery needed which will cost several thousand dollars. Will YOU LOCAL PEOPLE furnish the actual living expenses for five people and oil and gasoline for the work in drilling?

We have no credit and doubt if you have so we cannot take any promises. You have been urged to CO-OPERATE and you will before this field is ever opened; that is, if it is opened in your lifetime. If you cannot back your faith in me and in the oil possibilities to the extent of actual living expenses and gasoline and oil I will find it mighty hard to get money with which to come back and finish the Willoughby No. 1 well. If you have lost faith and quit the situation is almost hopeless.

Necessity calls for action by Monday. I will work without pay if you will CO-OPERATE. I have been very plain so will close by saying that I have before me for my ACCEPTANCE an opportunity THAT YOU WOULD NOT TURN DOWN to stay here and work alone, without co-operation as I have done in the past and therefore will ACCEPT and leave next Tuesday if you people decide you will not co-operate. You must not misunderstand me. I want to stay and will if you ACT NOW.

C. H. WILLOUGHBY

SUBSCRIPTION BLANK

C. H. WILLOUGHBY, TOYAH, TEXAS.

Dear Sir:—With the understanding that the combined expenses to be paid by a local co-operative subscription for groceries, gasoline and oil to be used in completing the Willoughby No. 1 well will not exceed in all \$300 per month and: With the understanding that my money will be refunded after you have brought in the well a commercial producer but in the event that the well proves to be a failure I will not expect a return of my money, I am subscribing the sum of \$..... to be paid monthly into the Citizens State Bank, Toyah, Texas, with the understanding that the money paid in will be used only to pay expenses as above stated. It is further understood that no money paid shall be used until actual work is resumed on the well and that upon completion or in the event the required sum of \$300.00 is not paid in by local co-operation my money is to be returned.

WEEK'S REVIEW

Department of the study hall was not up to the standard. A bevy of names flouted students, showing the de- as a result there was a re- ment of seats. Those were changed to where be less liable to cause and the angels were put in quelling any distur- night come. So far, Mr. there has been general- ment than in former is only lately that there any necessity for com- sures. The rules of the ate that ones whose r in the deficient list s succession will have to ents to get reinstated.

Isn't seem to want to ay or Saturday. It is whether there will be en the two teams on ove days. But any- be football some time red.

the long and dark and e whatever it is) and there ce to keep warm. A for the heating system ed and there will be inside of the building

basketball sugad is e front again. Under ey they have got the organ- of a second team to practice first. May they repeat the rec- ords of the "Red Streaks" of former years, and come out with colors flying and with the district champion- ship.

Well, this is the end of a perfect day. And the end of my lessons, too. The bell rings out in a carol gay. And I'm going to walk home with you. The hours of my toil are for some time gone. And I think of school no more. But the feeling comes as I travel on. There'll be "D's" on my card by the score.

This parody of school is an awful thing. But you have to bear it, son. When some the bell of opportunity will ring. The door you will not have to shun. So apply yourself as best you can. The whole long school year through. Then the works that at first you began. Will give you the learning that is due.

We Seniors have not been doing much this week except study for exams. But we have decided on our rings and invitations and our sweaters are on the way. We hope to be wearing them before the tenth of November. And we are also looking around for a suitable class play; but, as yet, the right one has not been found.

Mr. Dean: "Joe, wake the fellow next to you, will you?"
Joe: "Aw, do it yourself—you put him to sleep."

CHAYOTE PLANT IMMIGRANT OF GREAT PROMISE IN U. S.

Among the plant immigrants to this country from Central America, the chayote promises to be one of the most satisfactory for use in the mild-wintered regions of the South Atlantic and Gulf Coast States and parts of California. The fruits and tubers of the chayote were among the principal foods of the Aztecs, Mayas, and other peoples previous to the Spanish conquest of Mexico and Central America, and the vine today is one of the principal food plants of the inhabitants of these regions, where it occupies the position horticulturally that the potato does in more northern districts. The chayote has been grown for more than a generation in restricted areas of the South, where it has been known variously as vegetable pear, mirliton, and mango squash. The chayote is related to the cucumber and squash, although the fruits are not similar, ranging in color from dark green to ivory white and in size from those weighing a few ounces to fruits 2 pounds or more in weight. There are also wide variations among the chayotes as to surface and shape. In the South the chayote provides an excellent fall and early winter crop. The period of its growth is from early October to its vigorous growth yield, a steady increase in yard will be enough

chayotes for the average family under favorable soil and climate conditions.

Although the chayote is used here chiefly as a vegetable, it also lends itself to use as a forage crop, an ornamental vine, for greens, for producing blanched shoots which are used like asparagus tips, and as a straw which is used in making extra quality ornamental baskets, hats, and other articles. In preparing chayotes for the table they are usually cut crosswise into thick slices, pared, and boiled until tender in just enough salted water to cook them. They may then be creamed or buttered and served. Because of its delicate texture and mild flavor the chayote is especially desirable for use in salads. It is prepared as above described, cooled, and then served on lettuce leaves with mayonnaise or French dressing.

ASSESSOR'S SON SUFFERS BROKEN NECK IN ACCIDENT

Alpine, Texas, Oct. 29.—Robert Phelps, son of County Assessor J. W. Phelps of Brewster county, was instantly killed in an automobile accident, about 30 miles south of Marathon Saturday. His neck was broken. Zenas Decia of Marathon was injured. Phelps was driving. The car skidded and turned over, throwing him out. His head was caught between a rear wheel and the running board. There was no fender. Decia was thrown clear of the car and escaped with minor scratches. Funeral services for young Phelps were held Sunday at Alpine, Rev. H. M. Smith, pastor of the First Methodist church, officiating.

To take out
And put down.

No Worms in a Healthy Child
All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or digest the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

The Quinine That Does Not Affect the Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness or ringing in head. Remember the full name and look for the signature of E. W. GROVE, Inc.

COUNCIL AND TEACHERS CONSIDER STUDY HALL CONDUCT

Norman notified the students that there would be a called meeting of their council representatives to meet with the teachers to consider the outcome of the conduct of the study hall of the past few weeks. The meeting will be held some time the latter part of this week or the first of next. This will be a chance for the students to show themselves self-governing in part, and prove up the student council. If it functions properly, this should be the opportunity.

KEEPING-UP CLUB HAS PART IN FRIDAY PROGRAM

The High School Keeping-Up club has a part in the program given at the school house Friday night. It is more interesting for that reason. It is being given for the benefit of the school, and therefore the whole school has an interest in it.

Dorothy: "What is a pedestrian?"
Jane: "An individual, my dear, that is always found in front of automobiles."
"It's three years since I was in this city," said the stranger, as he finished his dinner, "and I don't find much alteration."
"Don't find much change either," said the waiter, as he picked up the penny that was left under the plate.
Mr. Norman (in Math IV class): "What do you call the man who insures?"
Class: "The underwriter."
Mr. Norman: "Correct. Now you don't generally call the life insurance that, do you?"
W. D.: "No, you call him, the undertaker."
Mrs. Brooks: "Now can anyone tell me why you should read good literature?"
Arthur: "Yes. So you can appreciate the parodies."

BASKETBALL NEWS

That the basketball girls of Pecos Hi are full of pep and possess the ability "to put anything over" was evidenced by the crowd at the picture show Saturday night. The team were entitled to half the proceeds of the tickets sold by them and we are quite positive they sold most of the tickets. As a result a neat little sum was placed in the bank toward payment on new uniforms. As soon as the required amount is secured Mr. Kiser has consented to take the girls to El Paso to purchase their uniforms.

The Junior team is wide awake, and working, too. Most of them have willingly stayed to practice this week and some are trying out for first team. It is hoped that Toyah second team will play them Saturday. If they succeed in getting the game we're certain Pecos will come out on top.
A woodpecker sat on a Freshman's head and drilled, and drilled, for hours and finally busted his head. Unknown.
I'll fill your needs.

Editorial

History Honors Men Who Walk Lonely Paths that Good May Come to Those Who Doubt

Step on the Information Gas

To provide a better understanding of the economic factor underlying motor transportation in every part of the world, the first International Motor Transport Congress ever held in the United States will be convened in May, 1924, in the city of Detroit. The congress will be under the auspices of the National Automobile Chamber of Commerce. Delegates will attend from all quarters of the civilized globe. The conference is to last four days.

The automotive industry is of first economic importance in this country, whatever it may be abroad, and it will be well for those who have their millions invested in it to have brought home to them the fact that the great American market for the automobile is the American small town and the American farm.

The teeming millions in the great cities might lead the unthinking to imagine that all the motor cars in the world are bought by the rich city folk, but actually the city consumption is small as compared with that of the country. More nearly seventy than fifty per cent of all of the cars manufactured in this country, we are told, are bought in towns up to 5,000 population. The sooner the manufacturers have this fact driven home to them the sooner will they see the necessity of giving greater aid to the small town local dealers, many of whom do such yeoman work in the stimulation and creating of a market for the manufacturers they represent. Some manufacturers with forward vision fully appreciate what the local dealer is doing, but others fail to sense his importance and do not appreciate his effort.

Great as is the absorption of motor cars in the country, it would be even greater if the average local dealer could afford to cover his potential market more intensively. What he needs is backing to the limit, and no more constructive work can be done at the coming conference than the work of bringing before the industry the actual truth regarding the cultivation of the small town motor market, the backbone of American consumption, of everything that is worthwhile.

When the Scotchman returning from a visit to London was asked how he liked the town he said it was wonderful but that the people were not honest. He bought a box of matches—1,000 for a penny—and found the box contained only 982. We wonder what he would say of our political promises before election and political performances afterwards. Don't forget the season of political docility is at hand. Gather your roses while ye may.

We saw a soldier the other day—that is, he had been a soldier in the great war. Now he is selling needles for a house—needles—made in Germany. Surely the housewife is herself on the horns of a dilemma.
Evidently the national civil service league is not without a sense of humor. It recommends to the board of appointments that "the burden" of the executive shoulders should be selected by competitive examinations. Surely the board has been selected.

THE GREAT CONTROVERSY

The great controversy within religious circles revolves around two great facts:
FIRST: THE INFALLIBLE BIBLE.
The holy scriptures themselves state that they are inspired by Almighty God, therefore infallible. Jesus Christ while on earth testified to their authority, infallibility and right to supremacy in one's life. The orthodox church of Jesus Christ testified to their infallibility. They are the Word of God—the only rule of faith and practice.

Of course Satan is trying to break down belief in the authority of the scriptures. Rationalistic forces, the forces of infidelity, atheism, socialism and Bolshevism are denying that the scriptures are infallible. They are doing it because they want to destroy the authority of the scriptures. If the agencies of sin can destroy the scriptures then they have an easy road to the satisfaction of all the lusts and passions of human nature.

SECOND: THE VIRGIN BIRTH

The same set of forces are denying the fact of the virgin birth of Jesus Christ. God decided upon the plan for His incarnation. That plan, decided and created by the Trine God, fixed the virgin birth as the instrument for the incarnation. Therefore, the virgin birth is proof positive that Jesus Christ is the son of God. Satan knows that fact. Therefore, if he could destroy belief in the virgin birth he could logically destroy belief in Jesus Christ as the Son of God.

There is no fact in history more perfectly established than the fact that Jesus Christ was born of the virgin, and therefore is the Son of God.
Let me see you over America. The infallible Word of God shall be victor. Shall not you?

RICHARD LLOYD JONES SAYS

To Be Happy Keep Busy

You cannot rest your muscles sitting still. You cannot find out what your brain can do by going to sleep.

Work is the noble yardstick by which we determine the worth of all things. It is a blessing, not a curse.

The man who never does anything never knows anything. The man who never works never gets anything.

The traveled rail and the driving piston rod are polished by use. The idle piece of steel is red with rust.

History is the story of work, the record of achievements. In its index you cannot find the names of idlers.

To know work as a friend is the hallmark of wisdom. It is by journeying through the shadows of life that we learn the solace of daily tasks.

The tenderness that denies effort is cruelty. It makes characterless that which was endowed with strength.

Work is expression. If you can't express yourself one way try another—but try. If you can't build a cathedral, dig a ditch. But do something.

Only workers win the world's respect. God does not hold us responsible for results: only for faithfulness.

Work is the greatest educator. Tackle a job that is a little above you; grow to it and you engage in work.

Work is the highway to human welfare.

Copyright, 1923—By Richard Lloyd Jones.

Etiquette

What & When to do it

Any questions on etiquette will be gladly answered in this column if addressed to A. Leda, care of this newspaper.

Before me I have a letter from a reader and though my reader's argument is very plausible, it is, however, incorrect. The letter reads as follows:

DEAR A. LEDA: Will you kindly advise through this paper the correct position of a gentleman walking with a lady as regards being between her and the curb and between her and others walking on the walk.

Yours very truly, A. LEADER.

Though it seems, this assumption might be correct, it is not. A man should always walk on the side nearest to the curb, whether he is with one, two or three persons, this rule has no exception.

DEAR A. LEDA: If a woman meets a man at a tea or dance, may she invite him to call at her home or should she wait for him to suggest it? Whose place is it to speak first?

Thank you, MARION D. PENN.

This is a very technical point, Marion, and varies in different parts of the United States. In certain sections a woman takes to herself the right to invite gentlemen to call upon her, while in other localities it is the custom for the man to ask permission and the woman to grant it.

expressed his regret that the friendly gesture brings no happier response. Rumor has it that the local officials of the Knights of Columbus received an intimation from superior authorities, who are presumed not to interfere with either the politics or social affairs of the rank and file, that fraternizing with Masonic organizations is not to be encouraged.

Moem by Uncle John CARELESSNESS. A blame haphazard method in transacting our affairs, will allers add insistence and momentum to our cares.

K. OF C. TURNS DOWN MASONIC CLUB

Washington, D. C.—News dispatches recently carried the startling information that the Masonic Club at Woonsocket, R. I., had issued an invitation to the local chapter of the Knights of Columbus to a social meeting for the purpose of promoting good fellowship and exemplifying the beauty of tolerance. The Knights of

Columbus accepted and arrangements were well under way for a delightful love feast.

The Associated Press dispatch, however, this week carries the news that the Knights of Columbus have requested that the party be postponed but without giving any suggestion as to an acceptable date. The president of the Masonic club thereupon cancelled all arrangements and

Editorial We Need Not More Benefits But More Light To See Them—and Experience Is Our Light

Give Natural Law A Chance

So many persons keep themselves so busy looking for something to improve, something to criticize, something in our system of government with which to find fault that they fail to note the tendency of the country towards growth and improvement. During the war our iron and steel industries were suddenly geared to take care of the stupendous production necessary and incident to that gigantic undertaking.

No longer does America depend on the outside world for economic support and capital. The tables have been turned. Capital is supplied, not borrowed by us, thus opening up foreign markets that for years have been a closed book.

Bankers are disposed to the belief that special legislation will not help the farmer. We are inclined to agree with this theory. At best it will prove a palliative. Special legislation, as a fact, has no place in America.

Dollar wheat and twenty-five dollars a day plasterers did separate places in the news. They incite a little more howder, when they are linked together.

May we suggest that the United States Reclamation Service devote its thought to reclaiming for us a little of the liberty left to us by the fathers?

Fabst, of Brooklyn, has brought forward the most brilliant scheme to create greater respect for the employer. He assures us that bootleg whiskey is one of the most destroying complications of American girls.

Punchettes

RICH AND RIGHTWEIS

Riches are not an evil within themselves. There is no inherent wickedness in money. It is the love of money that is the root of all kinds of evil. When one sets his heart on money, he then becomes a menace to himself and to the world.

Christ really taught that heaven was a condition in which a Christian might find himself, and in which he might faithfully serve God and attain the highest rank in Christian character. Christ regarded riches as a stewardship. A man's wealth must be administered, not for his own sake and pleasure, nor for any selfish end, but for the glory of God and the benefit of humanity.

Habitual Constipation Cured

"LAX-FOS WITH PEPSIN" is a specially-prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action.

You can tell ENTERPRISE printing. It's just a little better than the rest.

PERSONAL

Doc Coates of Jal, N. M., was a business visitor in Pecos Thursday of last week.

Mr. and Mrs. S. M. Collier of Carlsbad, N. M., were Pecos visitors Wednesday.

Postmaster R. E. Johnson made a business trip to El Paso the forepart of the week.

Evy Bowles was in town from the ranch Monday looking happy and glad because he is living.

Mr. and Mrs. T. J. Good and J. M. McGinley of Mineral Wells were Pecos visitors Saturday and registered at the Orient.

The Rev. S. E. Wilson returned this morning from the East where he had been to see the body of his brother laid to rest.

Miss Mary Otto went out to the Weinacht ranch in the Davis mountains Tuesday and is the guest of Miss Stella Weinacht.

Mr. and Mrs. C. O. Finley of Valentine were registered at the Orient on Wednesday. Mr. Finley is a stockman and was here looking after business matters.

W. W. Courtney was in from the ranch the forepart of the week and states that the range is fine and stock in good condition for the winter in his part of the country.

Geo. W. Medley of Fort Worth is looking after the receiving and shipping of cattle to his ranch at Pampa. Mr. Medley is well known over this section as a cattleman of wealth.

Sib Curry, who for some time has been one of the efficient clerks in the grocery department of the Pecos Mercantile company, is confined to his room at Mrs. Lilly's with illness.

Vernon L. Sullivan was in town Saturday from Red Bluff where he and R. H. Gray are doing some surveying, locating other test holes which will be drilled there with a core drill at an early date.

Mrs. Beazley and her daughter, Mrs. Gaillard of Houston, were the guests last week in Toyah of the nieces of Mrs. Beazley and cousins of Mrs. Gaillard, Mesdames Ira and George Jackson.

Mr. and Mrs. Roy Wilcox will entertain this evening at a family dinner party in honor of his uncle, John Sisk, who leaves tomorrow for Greenville where he will be joined by his wife.

Frank Seay and Joe Billingslea of Toyah are in town today. Frank states that he believes they had more rain in his part of the county than at Pecos and that that part of the country "is some wet."

John Sisk will leave tomorrow for Greenville where he will work for the Pierce Oil Corporation. Mr. Sisk in the move receives a promotion and Roy Wilcox, who has been assisting him in the work here, will take charge of the Pierce station here.

Mr. and Mrs. Rufus Wright have returned to their home in Pecos and brought with them a wee baby daughter, born to them at the home of her sister, Mrs. E. K. Stiles, in Barstow, October 3rd. The ENTERPRISE extends congratulations and hopes the little daughter will ever be a joy to the hearts of her fond parents.

Our hobby. Fire protection and more insurance. Our motto—If you lose we pay.—E. L. COLLINGS INSURANCE CO. 64f

Mrs. H. C. Ferris and two little children are in El Paso visiting her parents. She went to El Paso last week to attend a meeting of a ladies' organization of the Episcopal church.

Mrs. A. L. Sherman, at one time a resident of Pecos, returning from a two months' visit in California, stopped off between trains one day this week for a visit with Mr. and Mrs. Will Glasscock. Her home is in Fort Worth and her husband is one of the owners of the Star-Telegram.

Dr. W. H. Moore was up from Fort Stockton Monday shaking hands with his many Pecos friends. Dr. Moore is a fine fellow and has many friends in Pecos who are always glad to give him the glad hand. He is now interested in the ranching business as well as healing the sick, lame and halt.

S. E. Wilson of this place is returning this week from a trip to North Carolina and Cleveland, Ohio. His brother, D. T. Wilson, who has been professor of mathematics and astronomy in Case University, Cleveland, Ohio, for thirty years, died October 12, and he went to attend the funeral. Professor Wilson has visited Pecos several times, and gave a lecture here on one occasion.

PROFESSIONAL GOLFER AT ALAMO LINKS

A Mr. Davis, professional golfer and instructor, is here for a short time to give instructions of the game to all who wish to avail themselves of his services. The inclement weather has kept many away from the links, but under more favorable conditions, might avail themselves of his services. Several ladies have signed up for instruction and quite a few are at the links today. Mr. Davis has been giving instructions at Carlsbad and stopped over here for a short time on his way to Phoenix, Arizona, where he has a professional engagement for the winter at the golf club.

NEW INSPECTORS ASIGNED THIS TERRITORY

Jack James, with headquarters at Lubbock, and Mat Walker, with headquarters at Midland, have been assigned this territory as inspectors for the Texas and Southwestern Cattle Raisers' Association to take the place of H. R. Roberson, who was murdered at this place on the night of April 1st.—Seminole Sentinel.

FIRE ALARM

Wednesday morning the Pecos fire siren notified the residents of a conflagration. The fire department responded promptly and stopped at the residence of Mr. Roger White. The ENTERPRISE could not ascertain the amount of damage, but it was generally reported to be small. The White residence is in the north part of town and formerly was occupied by Clem Calhoun.

THE CHURCHES

CHURCH OF CHRIST
Church of Christ meet every Lord's Day at eleven o'clock, Barstow, Texas.

BAPTIST CHURCH
Sunday should be a great day with us. The work is doing well along all lines. The people all seem happy and have a will to do things. Remember, Mr. Harp will be with us Sunday to direct the orchestra and choir. Let every one who plays an instrument be on time and get the full advantage of the practice as well as to help with the music. Sunday school begins promptly at ten a. m. The men's Bible class and the T. E. L.'s have experienced considerable growth as a result of a contest during the last month. The morning service is at eleven o'clock and the evening service at 7:30. Everyone is welcomed at any and all of the services.—J. M. GARNER, Pastor.

METHODIST CHURCH
Last Sunday was a good day with us. Mrs. Jessie Hurt joined the church and Joyce Curry's certificate was announced, he being sick and unable to be present. Folks seemed to enjoy the sermon, and I enjoyed the dinner with Brother Johnson and his good people. I am to preach to the Woman's Missionary Society next Sunday morning, and to the Leagues at 7:00 in the evening. In the morning I think I shall preach on the subject "The Probable Membership of Heaven's Missionary Society." In the evening my text, the Lord willing, will be "Is the Young Man Absolom Safe?" Special music is expected at both services. You are cordially invited.—L. L. THURSTON, Pastor.

MISS ELIZABETH BACON
Funeral services for Miss Elizabeth Bacon, a teacher in the Beall school for the last seven years who died Monday at an El Paso hospital, were held yesterday afternoon at 3 o'clock at the home of Congressman and Mrs. Claude B. Hudspeth, with whom Miss Bacon had made her home for the last four years. Pallbearers were Victor Moore, A. H. Hughey, J. P. Sheehan, J. Mack Crawford, John Harlacker and Virgil Traylor. After the services the body was forwarded to Shreveport, La., under the direction of J. J. Kaster for interment. Representatives of the El Paso Teachers' association attended the services. Miss Bacon was born at Overton, Texas, the daughter of Mr. and Mrs. Leron Bacon. She was a former student of the University of Texas, and received a degree for post-graduate work at the University of Colorado.—El Paso Times.

The deceased is a sister of Miss Edna Bacon, county treasurer of Ward county, and also of Mrs. Mary B. Miller of Pecos, now teaching in the Balmorhea schools. To these and other relatives of this most estimable young lady, the ENTERPRISE will join with a host of friends in deepest sympathy.

CHRISTMAS BAZAAR
The ladies of the Christian Aid Society will hold their annual Christmas Bazaar November 23 and 24. They will also serve hot lunch. 12-3t

POSTPONED
The entertainment which was to have been put on at the school by the Parent-Teacher association assisted by the various clubs of the town, has been unavoidably postponed until Friday night, November 16th, just two weeks from now.

EVERY man, woman and child that has one cent of non-interest bearing and unsecured deposit in this bank has same guaranteed by the Guaranty Fund System of Texas—which system has a membership of over Nine Hundred banks with approximately \$65,000,000.00 Capital and total resources of approximately \$225,000,000.00. This system has been in operation in Texas twelve years, under which plan no non-interest bearing or unsecured depositor has ever lost a single dollar. This system has passed through one of the hardest depressions, following the World War, the country has ever known, and STOOD THE TEST and MET ITS OBLIGATIONS by paying 100 cents on the dollar.

Therefore, this bank offers you absolute safety without a doubt or a moment's worry.
