June, the month of roses and brides, so far, has been dull along business lines-even matrimonial alliances are not coming up to the usual activity, but the roses are still beautiful and fragrant.

It is learned from press reports that the W. O. W. insurgents led by Claude Wilkinson, are still keeping up the fight against W. A. Frazer. the Soverign Commander. By injunction it is now sought to prevent him from presiding over the National Convention, which convenes in New York City on July 5.

"Truth must confess that in the United States today there is no enjoyment of private property or personal liberty." "Each has been surrendered to government bureauerats, and all stand shuddering under sentence of confiscation and destruction at the hands of official

national despotism. "Let us have an end of it. Inform President Harding that the citizenship will support hmi in a system of government that will banish spies, drive out the mercenaries, cut off the insolent inspectors and abolish the bureaus of audacity and usurpation and restore to the states the rights of home regulation."-Ex-Senator J. Ham Lewis.

Governor Neff has announced that he would take the stump in support of the measures mentioned in his proclamation calling the Legislature in psecial session.

These subjects include the bill authorizing the removal of officers who fair or refuse to do their duty. repeal of the suspended sentence law amendment to the prohibition act and abolishment of departments which overlap and duplicate. The governor has not yet announced his itinerary, but his first address will be made at Polcios, Matagorda Co., July 4.

The governor has said in explaining the purpose of his tour:

"This speaking trip may not be of any special benefit to those who listen, but it wil certainly be helpful in many ways to me. It will aid me in knowing the conditions and needs of the people generally, and will help me from many angles to properly sove the problems in which they are interested. There is no schooling for public servants that is equal to that which comes from an intimate acquaintance and an exchange of ideas with those who compose the rank and file of our citizenship."

"The more I see of public officail life the more I am impressed with the thought that a person is not qualified to hold an office of responsibility as representative of the people who does not live close to the people."

### Marfa Opera House

### A Trunkfull of Fun!

That's what Larry Semon provides in his latest comedy where as a "goof" stage hand he messes up a perfectly good show. He thinks that footlights, because of their name, were made to tramp on. He gives them thunder just as the "hero" says: "My isn't this an ideal day"-and when the stage manager a little later calls for some fog on the scene, Larry gives it to him-a barrel of home brew fog-barrel and all. That and a whole

# THE UNIVERSAL CAR

Out of the more than 3,000,000 Ford cars now in use, about sixty percent have been sold to farmers. Probably no other one thing has brought to the farm so much of comfort and profit as has the Ford car. It has enlarged the social life, doubled the facilities for marketing, brought the town next door to the farm, multiplied for the farmer the pleasures of living. A family car without an equal in low cost of operation and maintenance. We solicit your order for one now because the demand is large and continually increasing.
