**THE MODEL DAIRY.**  
M. Pierson, inspector for the State Board of Health, was in the city several days this week. In his inspection of the Model Dairy, he found that in a possible score of 40 under equipment, it scored 39; under a possible 90 score of perfect, it made 55.  
The Model generally averaged over 10% in all counts. This is a splendid showing, and Mr. Pierson justly feels proud of his Model Dairy showing, and the city can also be congratulated on the possession in its midst of such a Model conducted business. A sanitary dairy is one of the best assets of a healthy community.  
The New Era editor met Mr. Pierson and found him a very pleasant and intelligent gentleman. He expressed himself as well pleased with Marfa and its sanitary condition generally. Especially was he pleased with the manner of the conduct of the Model Dairy, stating that the sanitary condition there was far above the average found in his inspection trips; that the udders were thoroughly washed before milking; the milk from each cow was immediately taken to milk rooms instead of being held in tin until all animals were milked and that all vessels, he found, were thoroughly sterilized by use of the most improved steam method, etc.

**AN INTERESTING DISPLAY.**  
In the window of the Quality Stores, Inc., is a miniature ice plant in actual operation. It is made to install in home ice boxes, eliminating the necessity of ice. It maintains an even temperature well below freezing and is silent and full automatic. It is very dry cold, for instead of melting, it freezes, and last, but not least, it operates at less expense than one can buy ice.

**MARFA MANEUVER LIKE ONE OF LAST FALL PLANNED.**  
Plans for a divisional maneuver, covering practically the same scope as the one held last fall, have been completed, and the war department has been requested to authorize the troop movement, it was announced at headquarters of the 1st cavalry division Thursday.  
The plans call for the same time in the field as the former maneuver, but it is planned that a territory slightly west of that in which the White and Brown armies moved last fall will be used. The movement will still be in the Marfa district, however, and Marfa will be the base of operations.  
**Howze Makes Plans.**  
Details of the movement have been worked out under the personal direction of Major General Robert L. Howze. With his assistant chief of staff, Major Adna Chaffe, the general is now making a tactical inspection of troops in the Fort Clark and Marfa districts.  
As the last maneuver was highly recommended by Major General Willard Holbrook chief of cavalry, in his annual report, it is thought that the movement will again meet with the approval of the war department.—El Paso Herald.

**REPORT ALAMO LUMBER CO. SOLD TO MARFA COMPANY.**  
A rumor persists details of which are not yet available that the Alamo Lumber Co. yards at Alpine and Marfa have been sold to the Marfa Lumber Company. A. J. Hanna, Jr., is manager of the local yard, but has nothing to give out on the report. He says he "heard the report on the streets."—Alpine Avalanche.  
**FOR SALE.**—The Spencer Gregg place one block from Main street. If interested, write or wire Albert Gregg, 1010 West Craig, San Antonio, Texas.

**FORT BLISS OFFICERS ARRIVE IN MARFA.**  
Thursday, Major General R. L. Howze, Major Adna R. Chaffe and Lieut. J. G. Boykin arrived at Marfa from Fort Clarke, where they were on their annual inspection tour.  
Thursday evening, at the Marfa post, a reception was given the prominent visiting officers. There were present, besides the officers of the post, a number of prominent civilians of the city.  
Friday, the officers devoted their time to inspecting the Marfa post.

**CHURCH OF CHRIST.**  
We rejoice over the good attendance at the services and shall try to make every service as helpful as possible.  
The religious life of a people is the foundation on which to build their business, social and moral relations and with this in mind we try to plan our services.  
**Sunday Services.**  
Sunrise prayer meeting 6:30 a. m.  
Sunday school 9:45, special Easter program.  
Morning worship 11:00, subject, "The Open Tomb."  
C. E. 6:30 p. m.  
Evening service 8:00, subject, "I Know My Redeemer Liveth."  
Come and let's worship God together.  
M. A. BUEHLER.

**FELL AMONG THIEVES.**  
A letter was received this week from Chicago, stating that Kirby Aiken, who had been working for a large firm in that city, had disappeared and when found was in hospital, showing evidences of having been most severely beaten.  
It appears that Kirby had been sent to some bank and was waylaid by thieves, who robbed him and left him unconscious where he was found and taken to the hospital.

**SENIOR CHRISTIAN ENDEAVOR.**  
**(Easter Program)**  
Easter Sunday should be the happiest of all Sundays in the year and how grand it would be if every Christian Endeavorer would be present and take part in the Easter program Sunday morning April 20, at the Christian church, 6:30 p. m. The program will be in charge of group No. 3, led by Miss Orr. No doubt they are planning an interesting program and you will miss something if you are not there.  
Following the program Sunday evening, the Endeavorers will put on a program for church they taking the place of our regular choir on Sunday evening, and praising our Lord and Saviour with Easter Anthems. We want this to be the finest choir the church has ever witnessed. Let's urge and make a special effort to see that every Endeavorer is on hand to help us out.  
Our track meet program last Sunday was a great success and I think some of them almost jumped over the pulpit trying to win for their side but nevertheless, it was intensely interesting and enjoyed by all.

**MR. DAVIS.**  
Thursday morning, April 3, all the students in high school were given a surprise. Mr. Gregg introduced Mr. Davis, an inspector of weights and measures, as the speaker of the morning.  
He used a chart as a guide, on which was diagrammed "The Pyramid of Life." This showed the foundation stones which led up to destiny. Mr. Davis taught some good lessons in his talk, and the students enjoyed his visit very much. We always appreciate a visitor, and we extend our welcome to all who may come.  
—The Shorthorn.  
For any electrical repairing, see Gus Elmendorf, Jr., or call 83.

**BAPTIST CHURCH NOTES.**  
Our meetings, which lasted just eight days, were a great encouragement and blessing to the church. Eleven were receiver for baptism and the membership generally were revived.  
In addition to their services at the church, it was a great pleasure to have Brother Burkett and Mr. Paine in our homes.  
Bro. Burkett has returned to the South Side Church in Abilene, where he is in the midst of a building campaign.  
The pastor wishes here to express his appreciation of the earnest interest that our members displayed in the meeting, and the whole church wishes to thank the christian people of other churches who assisted us in numerous ways.  
All services will be held next Sunday. Several will be baptized at the close of the evening service.  
We have had the best average attendance of the Sunday school during the past month that we have had in many a day. Let's keep it up.  
The young women of the church met Wednesday afternoon and organized a Y. W. A. Mrs. Bunton is president.  
Mr. Anderson Polk has returned to Camp Marfa from the radio school at El Paso. He is now president of our senior union and has authority and commission to make it hum.  
Several of our members have recently been called away from home on account of sickness or death among relatives and some have been away for treatment. We welcome them all back and extend a word of christian sympathy and encouragement.  
S. F. MARSH.

**THANK YOU, TAX PAYERS.**  
We juniors think this a very appropriate time and place to express to the city tax payers of Marfa our gratitude for the community house. We have passed many happy hours in it and the young people appreciate the advantage of having such a lovely place in which to have their social activities.  
—The Shorthorn.  
—WIND—Better get some protection against storms and hail. Its cheap. Inquire of Jno. Humphris, insuror.  
I will pay you 8c a pound for dry hides 4c a pound for green hides.—Davis Market.

**HERALD PATRFINDER AT MARFA.**  
Marfa, Texas, April 11.—The El Paso Herald's Buick pathfinder car for the big endurance run next month arrived here at 4 P. M. Thursday, El Paso time, exactly 48 hours after leaving El Paso.  
The pathfinders state that the odometer distance registered 190.8 miles, and the road for the entire distance is very good.  
The route laid out passes thru Sierra Blanca, where the official noon control for May 17, the first day of the run, was established; Van Horn, Lobo and Valentine.  
Slight showers from Van Horn to Marfa laid the dust and made the going excellent.  
The route from Valentine to Marfa passes through the big Jones ranch and the foothills of the Davis mountains, over a well-graded road.  
The Buick jumped a small herd of antelope, which gave it a race for half a mile, the antelope crossing in front of the pathfinder and waving their white tails in token of victory.  
The pathfinder left here early this morning to lay out the route from here to Pecos by way of Fort Davis, Alpine and Fort Stockton.—El Paso Herald.

Condensed Austin News

A Federal charter has been issued for the First National Bank of Richland, Texas, with capital of \$30,000.

J. L. Chapman, commissioner of banking, says that the closed State Bank at Harlingen has been reorganized and that he expects it to reopen within the next few days.

The golden jubilee, convention of the Texas Woman's Christian Temperance Union has been concluded. An address by Governor Neff on law enforcement featuring the closing session.

The State Insurance Department, under John M. Scott, commissioner, collected \$1,138,000 in fees. This is much larger than for the same month last year and shows a large general increase in collections from this source.

The first aerial pictures ever made in Texas as aids to topographic mapping have been completed in the Cotulla sector. The army flyers will leave soon for Fort Worth to photograph the project on the West Fork of the Trinity.

In a letter by Assistant Attorney General W. W. Caves, directors of the Texas Technological College have been advised that the proceeds from the rental of the college lands must be deposited in the State Treasury to the credit of the general fund of the State, and can not be used by the school.

John A. Lomax, secretary of the Ex-Students' Association of the University of Texas, attended a meeting of the National Association of Alumni Secretaries in Charleston, W. Va. While he was away Mr. Lomax attended dinners given by University of Texas alumni in Washington, Baltimore, Philadelphia and New York.

The senior civil engineers of the University of Texas will make a tour of inspection of engineering works over the state on April 17. Houston, Galveston and San Antonio will be visited. Practicing engineers at these places have agreed to show the students around and explain details of construction to them. The students will travel in motor busses.

It has been learned in Austin that Director Mahaffey of the finance division of the Interstate Commerce Commission has advised parties at interest that no decision will be made in the several applications for rail-road extensions into the Rio Grande Valley until all records are in hand and a study can be made of the whole situation.

The educational survey commission has sent out questionnaires to 20,000 elementary school teachers of the State for the purpose of making a careful analysis of this portion of the teaching force with reference to maturity, preparation and experience. These questionnaires are being distributed to the teachers through the superintendent of schools.

Where a district judge who has been elected for a four-year term resigns and the governor fills the vacancy until the next general election, at which time a judge is elected, the election is for the unexpired term, the attorney general's department held in an opinion given to Judge G. O. Hamlin, Ninetieth Judicial District, presiding at Breckenridge.

John M. Scott, Commissioner of Insurance, left recently for Pinehurst, N. C., to attend a conference of the Insurance Commissioners of the several States to consider the differences which have arisen between the Western Union Bureau and the Western Bureau, fire insurance organizations, and to see if there can be a reconciliation in the interest of uniformity.

Construing an act of the second called session of the Thirty-Eighth Legislature, it was held by the Attorney General's Department that it is not necessary for persons residing outside of a city of 10,000 inhabitants or over to obtain an exemption certificate in order to vote and that the issuance of such exemption certificate is neither required nor authorized.

R. E. Seagler of San Antonio has resigned as a member of the House of Representatives of the Thirty-Eighth Legislature and entered upon the discharge of his duties as an assistant attorney general under appointment made by Attorney General Keeling. Mr. Seagler was speaker of the Thirty-Eighth House and had served in two other Texas Legislatures.

C. V. Terrell, State Treasurer, says that school districts whose bonds are owned by the permanent school fund are flooding the department with money to redeem these bonds before the optional or maturity period is reached, but they can not be taken up under such conditions. Mr. Terrell says that under a ruling by Attorney General Hogg the school fund can not release bonds for redemption until the date of option or maturity is reached.

Death Sentence For Filipinos. Manila.—Three leaders in the recent outbreaks of fanatics in Surigao province have been sentenced to death, and 198 others were given sentences of 30 years imprisonment.

MARKET REPORT

Latest report of markets, issued by United States Department of Agriculture, Washington, D. C.

Fruits and Vegetables.—New York round white potatoes firm at \$1.60@1.90 sacked per 100 lbs. in eastern markets. Northern sacked of round whites about steady at \$1.25@1.50 in Chicago. New stock, Florida spalding rose slightly weaker, ranging \$1.0@1.25 per double head barrel in leading markets. Florida pointed type cabbage stronger at \$2.4@2.50 per 1½ bushel hamper in Eastern cities. Texas flat and round types \$1.0@2.0 higher at city markets at \$7.0@8.0 bulk per ton. \$3.0@1.0 higher at shipping points \$30@40. Yellow varieties of onions steady to firm in New York and Chicago at \$2.2@3.0 sacked per 100 lbs. Irregular elsewhere at \$1.50@2.25. Florida strawberries in 32-quart crates and pony refrigerators 40¢@50¢ per quart in New York. Louisiana kindreds weaker at \$5.0@6.50 per 24-quart crate in Chicago at \$3.0@4.0. New York apples, Baldwin, sold slowly at \$3.50@4.50 per bbl. in eastern city. Michigan Baldwin, sold at \$1.0@1.25. North-western extra fancy Wisconsin \$2.2@2.50 per box leading markets.

Live Stock and Meats.—Chicago hog prices declined from 5 to 12¢ for the week closing at \$7.50 for the top and \$7.20@7.45 for the bulk. Medium and good beef steers 10¢@12¢ higher at \$8.0@12.00; butcher cows and heifers steady to 15¢ higher at \$4.0@10.75; feeder steers steady to 25¢ higher at \$5.25@9.00; light and medium weight veal calves 50¢ lower to 25¢ higher at \$1.50@11.50; fat lambs 50¢ higher at \$1.50@17.17; feeding lambs 50¢ up at \$4.0@12.00; steerings steady to 5¢ lower at \$14.25@15.50 and fat ewes 25¢ to 50¢ higher at \$12.50@15.25. Stocker and feeder sheep \$4.9@4.50 in Chicago. North-western market during the week ending April 4 were: Cattle and calves 33.318; hogs 4.000; sheep 10,413. In eastern whole-sale market prices were: Cattle \$12.00@13.00; veal \$1.50@1.75; lamb \$2.00@2.25; mutton \$2.00@2.25; light pork loins \$17.00; heavy \$16.00@17.00.

Dairy Products.—Butter markets continued unsettled during the week and very irregular and weak at the close. Foreign brand sales in New York are expected large shipment from New Zealand has arrived. Closing wholesale prices in New York market today: New York 39¢; Philadelphia 40¢; Chicago 37¢; Boston 40¢. Cheese markets weak and dull although present tendency is toward a steadier tone. Dealers still anxious to keep receipts moving. Wholesale prices at Wisconsin primary markets April 8 were: Single wheels 18¢; double wheels 17¢; longhorns 18¢; square prints 18¢. Cotton.—Average price of middling spot cotton in ten significant spot markets advanced 295 points during the week, closing at 31.25¢ per pound. New York May future contracts advanced 294 points, closing at 31.02¢.

TEXAS OFFERS 70 SECTIONS FOR U. S. POTASH HUNTERS

Washington.—The offer of 70 sections of land in Ector, Crane and Glasscock counties, owned by Will S. Edwards of Big Spring, as a site on which the government might prospect for potash, providing the Sheppard bill passes, was submitted to the senate committee on agriculture Wednesday. The bill as amended provides that in the event such drilling develops the presence of a mineral or other substance of commercial value the government shall be reimbursed for its expense. Senator Sheppard expressed the hope that other similar offers might be made from other parts of Texas where potash is known to exist.

New Orleans Rice Market.

New Orleans, La.—Prices remained unchanged in the local rice market Friday. The demand was light and limited to domestic sources. Fancy Blue Rose was sold at 5-9-16c to 5-5-8c a pound. Trading was very close in some instances, buyers and sellers being only 1-16c out of line, refused to concede either way to bring about a sale. Honduras grades were said to be selling at very irregular prices, fancy lots bringing from 6c a pound up to 7¢ for extreme fancy. The demand for Japanese has improved slightly, fancy bringing about 5½¢@5¾¢.

Fort Worth Stock Market.

Fort Worth, Tex.—Cattle and calves sold to a relatively broad demand Friday. Around 1,000 head of cattle and 900 calves arrived, including 300 head of stocker calves on through billing. Steer receipts were restricted to a few cars from South Texas that cleared at a general range of \$6.50 to \$7.10.

Ferry Boat Capsizes; Four Drown.

Ennis, Tex.—Four persons were drowned in the Trinity river 12 miles northeast of Ennis Sunday as a result of the breaking of a limb of a tree to which a ferry boat cable was attached, causing the capsizing of the boat. The dead: W. J. Ferris, 69, plumber of Ennis; Miss Eva May McCrory, 17; Miss Lola McCrory, 15, and Miss Lena Pipkin, 16, the latter three of Bristol, Ellis county.

Big Warehouse Fire at Houston.

Houston, Tex.—After a lapse of just one week Houston's fire epidemic broke out again Thursday in the complete destruction of the Kent H. Easter warehouse. Loss on the building, which cost \$150,000, and on the goods stored within it is variously estimated at \$500,000 to \$1,000,000.

Intercoastal Canal Project Adopted.

Washington.—The house rivers and harbors committee Friday reported the intracoastal canal project adopted favorably upon by the army engineers, as a part of the omnibus river and harbor authorization bill to be reported to congress. The canal will extend from the Mississippi river to Corpus Christi, and cost, when completed, \$16,000,000.

Breeding Sows Total 11 Million.

Washington.—The number of breeding sows on farms April 1 was estimated Thursday by the department of agriculture at 11,751,900 or 89.2 per cent of the number a year ago.

Death Sentence For Filipinos.

Manila.—Three leaders in the recent outbreaks of fanatics in Surigao province have been sentenced to death, and 198 others were given sentences of 30 years imprisonment.

Daddy's Evening Fairy Tale by Mary Graham Bonner

THE WINDOWS

"I don't think," said the dining-room window on the right, "that people appreciate us."

"It is Their Fault."

"Yes, then I can tell you."

"Well," said the dining-room window on the right, "I've been thinking what a pity it was that people didn't appreciate us in the way of giving us a little praise for all we help them to see."

"They look out of us and they become very much interested in what is going on down the street or up the street or across the street."

"They look out of us and see whether it is raining or whether the sun is shining."

"They look out of us and see all sorts of delightful and funny and interesting things but they don't say: "Windows, you are such a help!"

"They don't say a word more for us than they do for walls. And they can't see out of walls and walls aren't always the same."

"Of course we are always the same in a way, too, but yet we are able to let them meet all sorts of different things."

"Walls stay the same—unless they're repainted or repapered or something of that sort. But one day they can look out of us and see a great down-pour and the next they can see a sunny day."

"In the winter they can see the snow on the ground and on the trees and in the summer they can see the green leaves—though in the summer they open us all the way up or more than they do in the winter."

"Sometimes they complain if we're dirty and that is not our fault."

"We can't wash ourselves but we're always ready to be washed."

"No one ever heard a window scream or shriek or whine: "I don't want to be washed! I don't want to be washed!"

"No, no one ever heard a window say that. So when they complain that we are dirty it is their fault and not ours."

"But dear me, we have feelings. If anyone gives us an awful knock or throws something at us we will break—we have sensitive feelings like that."

"People, really, should say something kind about the way we give them so much pleasure."

"Just what I have been thinking," said the dining-room window on the left said again.

"People really should appreciate us by saying something nice about us once in a while."

"Just once in a while, that would do," said the dining-room window on the right.

Must Eat Her Egg

"Mamma, I can't eat this boiled egg," said a little girl at a seaside hotel.

"You can and you will eat it," snapped the little girl's mother. "You are always complaining about your food. Eat your egg at once or go upstairs and to bed for the day."

The little girl, in rueful silence, tackled her egg. Several minutes passed. Then she looked up piteously and asked: "Mamma, must I eat the beak, too?"

Why?

A little girl who had been besting her grandfather with an endless succession of questions during the evening had still one more question to ask before she went to bed.

"Granddad," she said, "were you in the ark?"

"Why, no," he exclaimed, smilingly.

"Then," she said, regarding him with innocent wonder, "why weren't you drowned?"

Marion Could Count

Little Marion announced: "Papa, I can count!"

"Wonderful! Begin then!"

"One million, two million, three million."—Ulk (Berlin).

Aspirin is the trade mark of Bayer Manufacture of Monocetate of Salicylic Acid

Traffic Fines for Streets

About \$750,000 worth of street construction and repairs will be done in Los Angeles, Cal., next year as a result of violations of the motor vehicle law by speeders and others. The law now in effect provides that all traffic fines collected must go into a special fund to be used for street work and nothing else.

QUITS ANNOYING PEOPLE

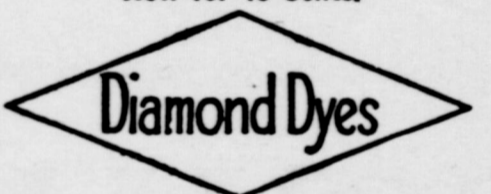

Girls and women of the most even disposition are quick to resent direct attacks on their character, or bold advances. But it is hardly explainable why these same folks tolerate disgusting pimples, blotches, bumps, "breaking out," etc., which are even worse pests than that. These skin diseases quit annoying people quickly after first few applications of the wonderful Black and White Ointment. It is proving the champion of the cause of men and women wherever it is being introduced, in freeing them from the aggravating annoyances of pimples, rash, blotches, tetter, ring-worm, eczema, etc. and the cost is so small, none need hesitate because they "can't afford it." The 50c size contains three times as much as the liberal 25c size. All dealers have it.—Advertisement.

Values

Our social order is safe just in so far as we can translate its values into terms of human life. The ultimate values are human values always; the sanctions of property itself are secondary; our last claim to our possessions is that we hold them for the common good.—Basile de Selincourt.

WOMEN CAN DYE ANY GARMENT, DRAPERY

Dye or Tint Worn, Faded Things New for 15 Cents.

Don't wonder whether you can dye or tint successfully, because perfect home dyeing is guaranteed with "Diamond Dyes" even if you have never dyed before. Druggists have all colors. Directions in each package.—Advertisement.

Home Humor

She (closing book)—Mercy! What a terrible creature that Minotaur was! It says that he used to devour a young maiden at a meal and then fall into a deep sleep. He—Overcome by the lass-he-chewed, I suppose.—Boston Transcript.

Don't Take Calomel for Inactive Liver; Bond's Pills Are Better

They are a prescription intended solely for the Liver and Bowels and remove the bile and poisonous waste in a mild, yet effective manner. One pill is the dose. 25c All Druggists. Refuse substitutes.—Advertisement.

Test New Explosive

Hexamethylenetriperoxidamine has been tested by the bureau of mines to determine its detonating value. It is an explosive that may be useful in armor-piercing shells.

Many people imagine that Worms or Tapeworm cannot be expelled entirely. A single dose of "Dead Shot" proves that they can. 372 Pearl St., N. Y. Adv.

The man who waits for something to turn up is apt to discover that it is his toes.

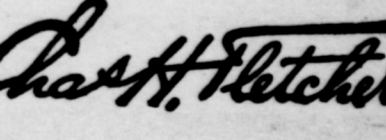

No intellectual giant is content to hide his light under a bushel.

Children Cry for "Castoria"

A Harmless Substitute for Castor Oil, Paregoric, Drops and Soothing Syrups—No Narcotics!

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of

Food; giving natural sleep without opiates. The genuine bears signature of

Take It at Night Makes Morning Bright. St. Joseph's LIVER REGULATOR for BLOOD-LIVER-KIDNEYS The BIG 25¢ CAN

CORNS Lift Off—No Pain! FREEZONE. Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.

Wonderful Results. Mr. Philan writes that he had kidney trouble, purchased Hobo Kidney and Bladder Remedy from a drug store at Winfield, Louisiana, and now writes to give testimony of the wonderful results he obtained by taking it. He says he never had a recurring symptom since taking Hobo Kidney and Bladder Remedy. Hobo is an herb balm made from an herb that grows in Louisiana and East Texas. It contains no alcohol, opiates, or habit-forming drugs but the herbs from which it is made carry a purifying property that has been found of great remedial value. For sale by all druggists \$1.20 a bottle. A six-bottle treatment costs \$6.00 and is guaranteed to give satisfaction or money refunded. Hobo Medicine Co., Beaumont, Tex.

Origin of Uncle Sam. The nickname Uncle Sam was first used in Troy, N. Y., in 1812.

### DECLAMATION CONTEST

On Friday morning, April 14th, the county declamation contest was held, and we were agreeably surprised at the number who took part in this division of the Inter-scholastic League.

There were fourteen junior girls, four junior boys. Delbert Hurley was the only senior boy, so he did not declaim that morning.

The outcome of the contest is probably known to everyone by now, but we shall name those who go to district.

For the junior girls, Cornelia Kilpatrick won first place, Pauline Sheppard second place and Willie Mae Bishop third place.

Richard Robinson won first place for the junior boys.

Annie McCracken was winner of the first place among the senior girls, Peggie Scannel second and Lois Nevill third.

We are proud of our winners and shall encourage them all we can.

Every one did well and we hope they will all re-enter next year. Of course there must always be a winner and several losers. We can't all win and we always admire a good loser.

—The Shorthorn.

### "AS IN A LOOKING GLASS"

(From the Shorthorn)

A permanent wave, soft hazel eyes, beautiful costume, a winning manner, the soul of generosity.

—MISS LEIGH.

Charming personality, brown hair and eyes, full of fun, artistic tastes. We all love her.

—MISS MOORE.

Stylish figure, reddish gold hair, good sport sweet contralto voice, a general favorite.

—MISS WILLIAMS.

Fine looking, dignified bearing, fair minded, determined, good natured, best superintendent ever.

—MR. GREGG.

Tall commanding figure, pains-taking, conscientious, fine school spirit, wonderful "Math" teacher, enthusiastic C. E. worker.

—MR. McMILLAN.

Slender figure, well groomed, neat appearance, reserved, alert, firm and philosophic, splendid instructor.

—MR. McKENZIE.

Brunette type, dressed in good style, a smile that won't rub off, patent leather hair, capable, discerning, keen sense of humor.

—MR. COMER.

(Note—The "reflection" of Miss Williams was unintentionally omitted in the publication of the Short-horn.)

### LIBRARY NOTES.

Are the town people taking an interest in our school? Just listen! We have had one hundred eighteen books presented to the library by our Marfa friends. Among these books are several complete sets.

There has been only one library book lost which has not been replaced.

Mr. and Mrs. Wilson have given two deer heads and a picture of Marfa twenty years ago, all of which now adorn library walls.

Extension work is being carried on successfully in the Marfa school library. Books have gone as far as Arkansas. Our library is progressing, students.

—The Shorthorn.

### LADIES AID SOCIETY.

Mrs. L. C. Brite delightfully entertained the Ladies Aid Society of the Christian church Tuesday afternoon at their regular meeting.

The meeting was opened by singing "What a Friend We have in Jesus."

Mrs. N. L. Casner presided. The scripture lesson was read by Mrs. L. C. Brite, followed by prayer by Mrs. T. D. Secret. At the close of the business session an interesting Bible contest, on Women of the Bible, was enjoyed.

During the social hour the hostess served a delicious two-course plate lunch. Fifteen members and one guest were present.

### THE LAST OF THE RICH VALLEY LANDS.

In Presidio, along the valley of the Rio Grande, are 25,000 acres of land subject to irrigation. These lands are most productive, producing, where cultivated, cereals, melons, chili, grapes, peaches, pears, plums, apricots and semi-tropical fruits, such as figs and pomegranates.

Cotton does especially fine, yielding a bale to the acre under favorable conditions, and owing to the distance from the railroad, cotton is the only crop which can be raised at a profit.

Of Vital Necessity.

Therefore it is of vital necessity that a railroad should tap this fruitful country. A survey has been made and a charter granted to the Orient railroad to build thru Presidio county to a point in the river a few miles below the old town of Presidio. The Mexican government is already working to extend the Orient, now bridged across the Conchos, to Ojinaga, just across from Presidio, Texas. Also, a survey of a railroad has been made from Ojinaga up the Rio Grande on the Mexican side to Juarez, opposite El Paso. Well-informed parties believe that in a short time all of these roads will be built.

Great Territory.

These lines will open up a great agricultural and mining territory, which, when developed, will be of incalculable benefit to both countries. The Conchos river has been called the Nile of Mexico. This ever-flowing stream empties into the Rio Grande just above Presidio. Standing on the hill upon which the historic town of Ojinaga is built and looking toward the southwest along the valley, one of the most beautiful panoramic views of the valley is unfolded. It is gradually lost in the blue converging mountains in the south. The valley is about 60 miles long by 15 in width.

Towns in Valley.

From El Povinir on the extreme south to Redford on the Rio Grande in the southern part of the Presidio Rio Grande valley, a distance along the river of about 75 miles, are many farms and villages. The principal settlements are Presidio, Ruidosa, Candelaria, Redford, Haciendita, Indio, Ochoa, Depot and Loma Alta.

Presidio.

This is the most important and populous town on the river between El Paso and Val Verde counties. It contains about 4,000 inhabitants scattered over considerable territory. Probably there are twenty-five stores in the town.

Presidio is also one of the oldest places on the river, having been an important point of entry into Mexico, and one of the important places during the days of the overland stages on the old San Antonio and Chihuahua trail. Presidio became a port of entry some time about 1867. Capt. Mose Kelly was sent there from El Paso to organize and take charge of same and therefore was the first deputy collector of customs.

Among the early pioneers of Presidio county most of them either first coming to Fort Davis or to Presidio were John W. Spencer, Richard C. Daily, John B. Davis, Captain Mose Kelly, Milton Favor, known as Don Miletton, Laeken Landrum, William Leaton, John Burgess and William Russell. Most of these first lived at Presidio. Afterwards, Milton Favor moved up and settled on the Cibola, John W. Davis settled the Alamito and John Spencer at the Spencer's ranch, now in what is known as the Indio settlement.

John Spencer was the discoverer of the celebrated silver mine at Shafter. The mine is about 20 miles from Presidio.

The best lands at Presidio, which can be irrigated, are now worth from \$25 to \$50 per acre. Formerly these lands sold from \$3 to \$6. There is little question that in a few years these lands will sell for \$100 and \$200 per acre, if not more.

### YE SCHULE GOSHP.

I don't know why Mr. Gregg made The Junior class Take the intelligence Test Meant for

The Grammar grades. I Do know, tho' That Mr. Gregg thinks That We are A Stupid bunch Of Blockheads, and I Also know

That Our class Was Not so bad In Grammar school But Somehow Somewhere between

The Lower school And High, we Lost Our prestige And Tho' we've Tried to find it We Never have, And Ever since We First began our

High School career We Have been The Target of Everybody's ridicule And We will say

Right Here that We're Tired of being Picked On and

Kicked Around like Hound Dogs. We Are Going to Win Some glory

For Our class This Year and then We'll Be like the Mouse Who drank The Liquor and

Then Stood up on his Hind Legs and said "Where's That blamed Cat That's been Chasing Me around All This time?"

I Thank you. —The Shorthorn.

### WERE GONNA WIN A WIN!

Who's gonna win a win? Who's gonna win a win? Who's gonna win a win?

WOW!

We're gonna win a win! We're gonna win a win! We're gonna win a win!

HOW?

E - A - S - Y - !

We couldn't help winning when our track boys and tennis players are working like they are. Why those boys are working every spare minute on their athletics, and we who are not working as they are should yell for them and tell them we know they are going to win for Marfa Hi. We juniors are back of you, and we intend to stay there and to boost you with all the yelling material we have, and we are sure that the entire high school is back of you, so, keep up your good work.

There are many events in which our boys are taking part. We find

the following schedule:

100 yard dash—Settle, Logan, Love. 120 yard hurdle—Logan, Hurley, Knight.

50 yard dash—Settle, Logan, Love. 220 yard dash—Harp, Settle, Love. 440 yard run—Gatrost, Barton, Lightfoot.

880 yard run—Knight, Hurley, Mason. Mile run—Knight, Hurley, Mason. Mile relay—Gatrost, Settle, Light-foot, Harp.

Run and broad jump—Gatrost, Logan, Hurley. High jump—Gatrost, M. Kilpatrick, Perrine.

Discus throw—Logan, M. Kilpatrick, Barton. Pole vault—Lightfoot, G. Howard. Shot put—M. Kilpatrick, Barton, Logan.

We know you're going to win for Marfa, boys, so let's go!

Tennis. Our tennis players are: Girl's singles—Clair McCracken. Girl's doubles—Helen Joyce and Evelyn Raetzsch. Boy's singles—Arthur Paul Carter. Boy's doubles—George Howard and Hugh Kilpatrick.

Let's have a big crowd at Alpine and drown out the voices of those pests who annoy our players. We can do it.

—The Shorthorn.

The delinquent tax list for the city will be published next week. Marshal Avant has been very faithful and effective in his collections and hence the list is very small for the City of Marfa.

**ORIENT PURCHASERS MAKE THE OVER LINE**

Last Saturday afternoon the men who about two weeks ago purchased the Orient railroad at its receiver's sale at Wichita, Kansas, arrived in Fort Stockton. They were met by several of our business men and together visited the great springs of this Spring City of Texas and together discussed the prospect of the dream of Arthur Stillwell—a great transcontinental line extending from Kansas City to the great undeveloped part of Tolobampo, Mexico.

At the dinner hour, the Orient party was guests of a number of our business men at the New Rooney Hotel. At the close of the meal, Mr. James Rooney called on Receiver W. T. Kemper for any information that he felt privileged to give out concerning the Orient's future prospects. Mr. Kemper, in responding, prefaced his remarks by saying the Fort Stockton depot recently burned, would be rebuilt and that credit was due to the people living along the Orient, the Texas Railroad Commission and the Interstate Commerce Commission, that the road has been able to hold on, and more credit was due Mr. Histed than himself for keeping the road in operation.

"The sale at Wichita the other day, Mr. Kemper continued, was the

**WHEN SUMMER COMES.**

One of the signs of our advanced civilization is the continuous developments along the lines of comfortable living.

Electricity has turned night into day and caused, especially, the drudgery of the housewife to become a task of ease and pleasure. But one of the wonders of the 20th century is the Frigidaire. Every household now can carry its ice making plant in the parlor, and during the hot summer days, when the dinner bell rings, make tea delicious with a little lemon and a lump of home-made ice.

As we were passing the window of the Quality Stores, we noticed one of the little wonders making ice, and it was a sight! Without any "fuss or feathers" the little machine was quietly working, like the busy bee, and when the water became frozen, it just stopped and called for more water.

first step in the reorganization plans of the line, and that Mr. Histed, the purchaser, represented men who have already put more than fourteen million dollars into the line and that they have not lost faith in it, also that the English syndicate had had its troubles along with the rest of us, but that now he believed they were going to raise the money necessary to finance the project and put the Orient through as originally planned, and in closing he said, "The project itself is well planned, and the future looks bright to us."

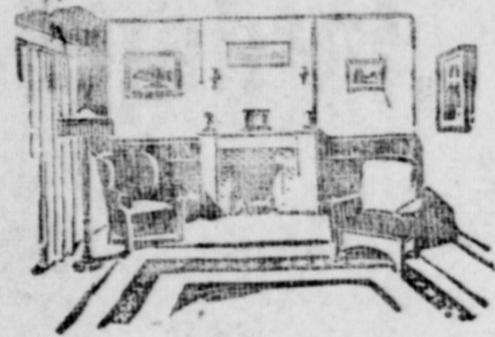

Glarance Gilmore, chairman of the Texas Railroad Commission, being present, was called upon and told of the efforts of the commission to help keep the Orient in operation during the last four years. He said the commission realized the importance of the road to the people it served and would not consent to the road being torn up unless there was no other way out of it, and that few realized how near the road reached suspension. —Fort Stockton Pioneer.

**ORIENT REVIVED.**

The Orient railroad is to be reorganized. Sale of the line is preparatory to putting this long stretch of railroad through west Texas and northern Mexico on a permanent basis.

That part of it that operates in Texas is doing well, according to reports. In Mexico, the section between San Sostene and Falomir has just been reopened to traffic.

It is good news to the southwest that the Orient is keeping going and is on the way to making money. If ever a railroad led a hand to mouth existence, it was the Orient. There were years when one hardly knew whether operation could be continued from one month to the

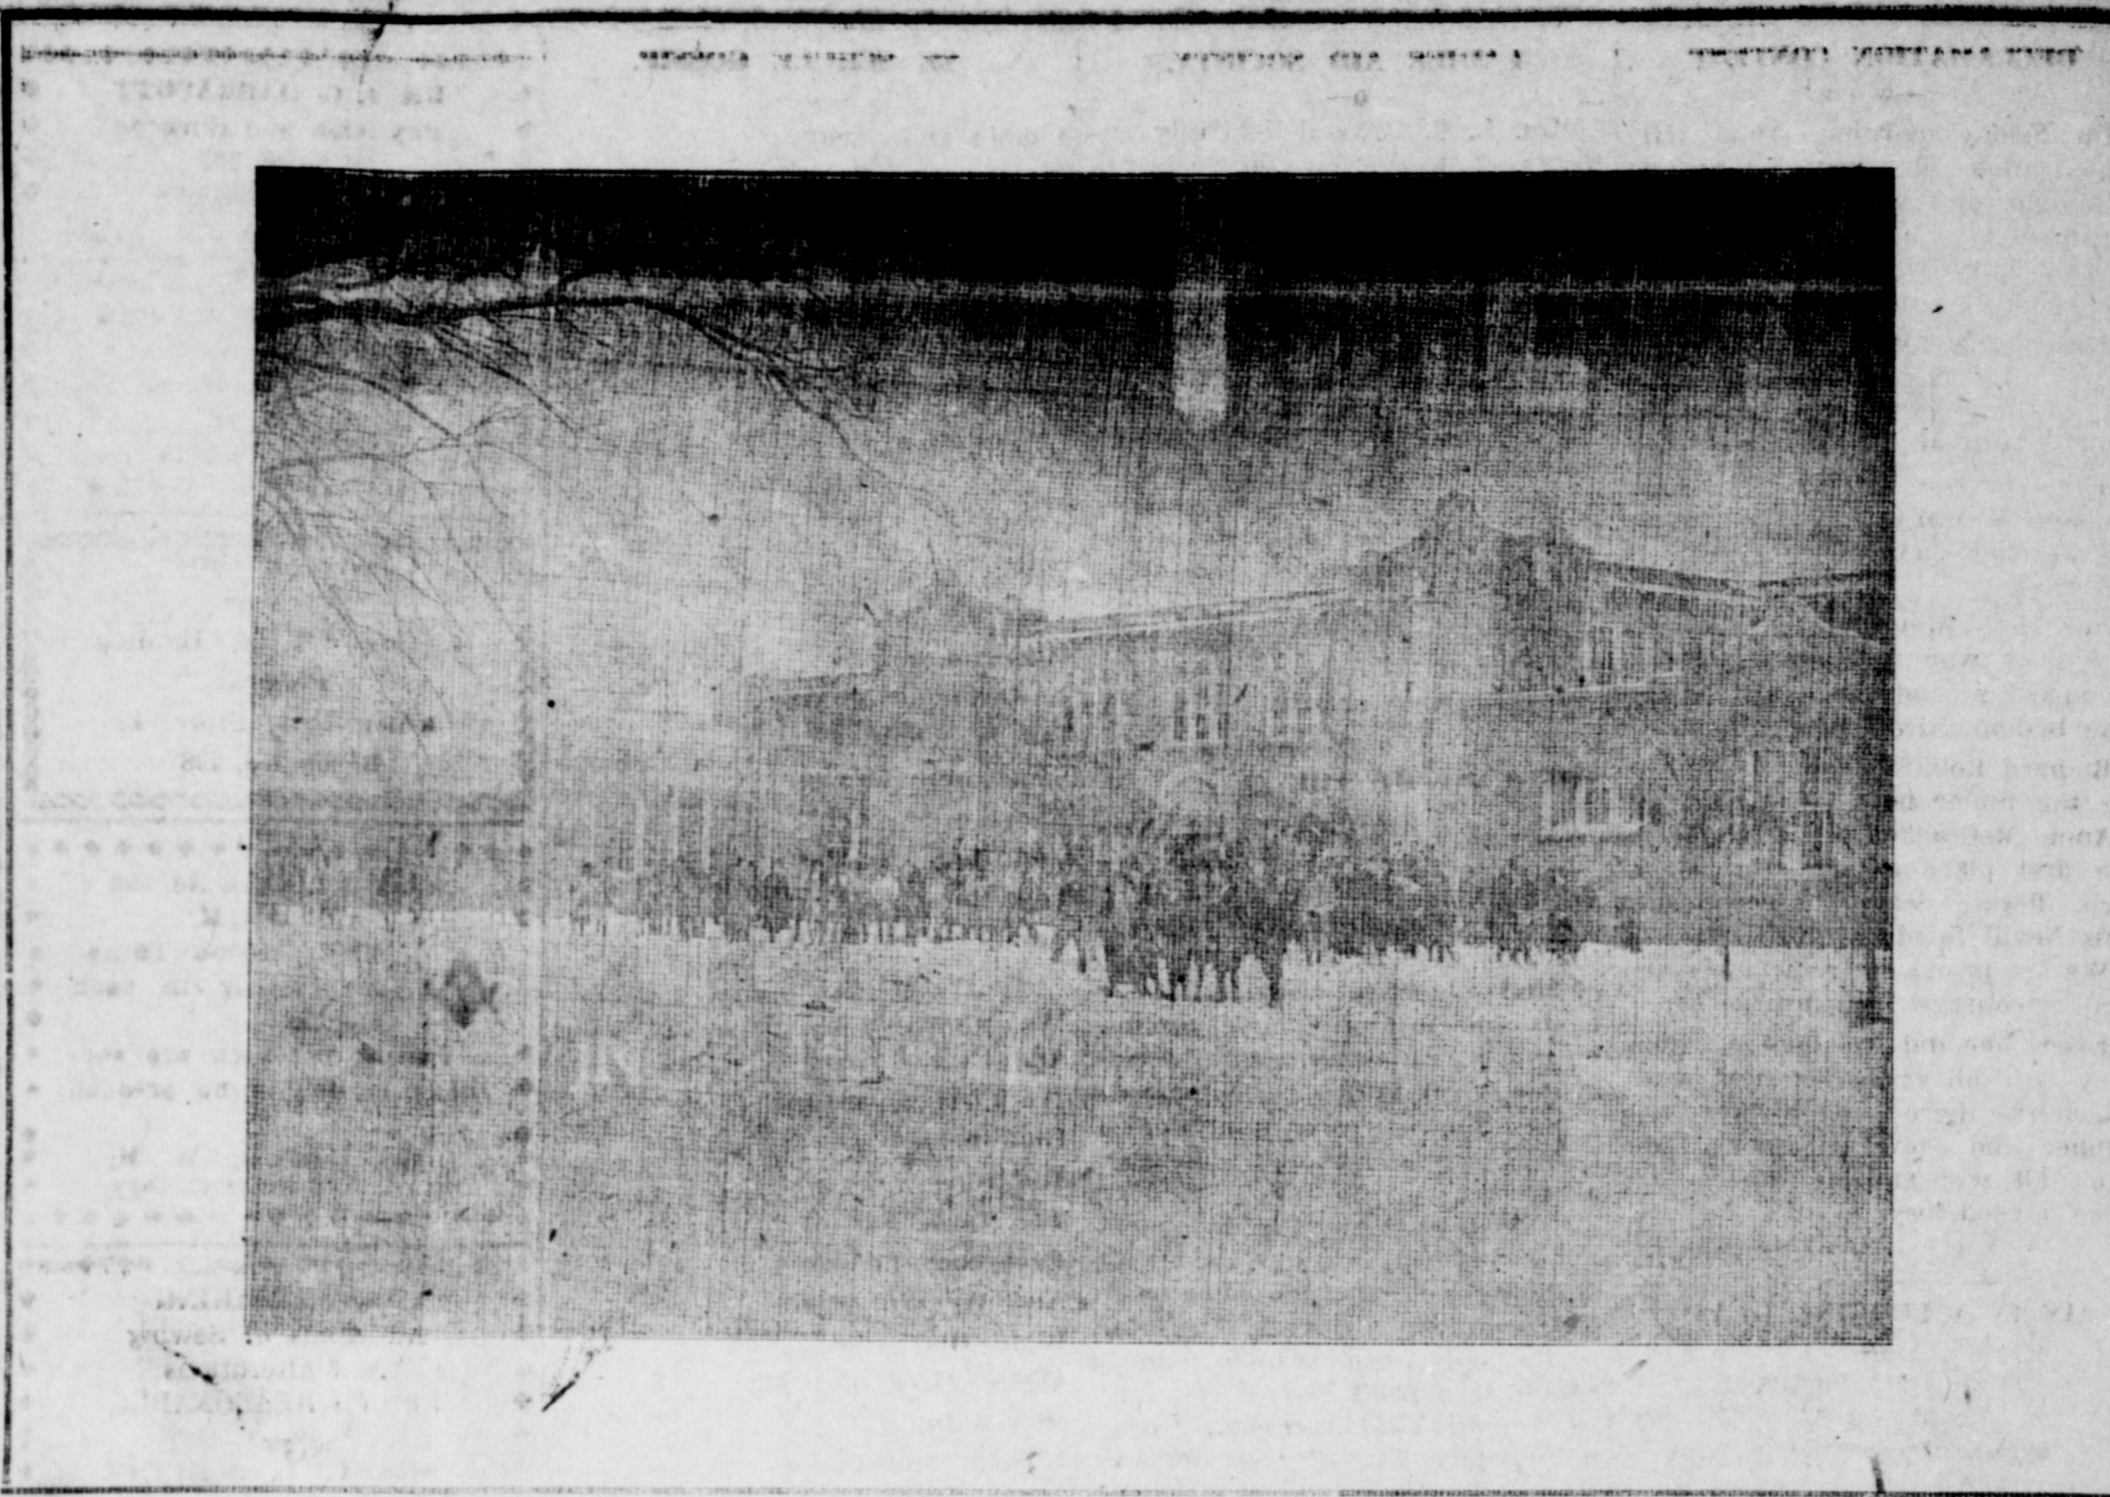

To buy new living room furniture, for your home at your expense would cost how much?

Agent.  
Marfa, Texas.

**THE NEW SCHOOL.**

Dear friends, tax payers and students, how would a beautiful building like this look on this hill where now stands this building which "like topsy, just grew up"?

We, the juniors, boost the new building, and we dedicate our issue of The Short-Horn to the school board of trustees, who are trying their best to secure for us a building in which we would all be proud and in which we could do work that would raise the standard of Marfa High School. We are sure that our trustees need no introduction but for the benefit of new comers we introduce to you Mr. H. O. Metcalfe, Mr. J. W. Howell and Mr. C. T. Mitchell, who we are proud to say, are our friends.

To these three men we dedicate, with sincere pleasure, the Junior issue of the Short-Horn.

Friends, in order to show you our need for a modern, up-to-date building, let us look into a few hard but true facts.

When Mr. Evans, the state school supervisor, made a report of this piece of patch-work which now stands on a beautiful location, he said some things which should make the people of this district realize our needs. In quoting from his report we say:

"The Marfa public schools occupy a site of nearly ten acres on a

sloping hill convenient to the homes of the school children. On this hill is found a large brick building—tripartite and almost Mosiac in its conglomeration, ill-arranged classrooms, dark, dismal stairways and dungeon-like basement laboratory. Heated by old-fashioned stoves that are innocent of jackets or air vents and flanked by windows whose size and position often violate every modern principle of modern lighting and ventilation, the building suffers the further disadvantage of forcing the occupants to scatter in all directions down winding stairways at each sound of the gong like threading a maze in order to reach the various class rooms. The auditorium (study hall) at first glance seems to offer a welcome opportunity for approval by reason of its comfortable size, fair lighting and good seating arrangement. But on close inspection it presents the appearance of a veritable fire trap, and conclusively shows that, like Topsy, it just grew up without architectural design or convenient means of exit.

Also, in his recommendations, Mr. Evans stated that "the citizens of Marfa give careful consideration to the maturing of plans looking to the issuance of bonds and the erection of a modern school plant in keeping with the standing of the school and the importance of the town."

Thus we see what an impartial observer thinks of our building. It is true, friends, that we have done fair work in the history of our school. We are now credited with twenty-three units. In fact, we are so proud of the history of our school, that we think this is a good time and place to give a brief outline of our credits.

In the year of 1915-16 we secured three units in English three in history, three in Spanish and three in Mathematics. In the year 1916-17, we acquired credits in history, solid geometry and physics. We added a unit in general science and half of a unit in civics the following year, and in 1919-20 we added a unit in the commercial department and one in the bookkeeping. In 1920-21 we acquired half a unit in shorthand, type writing and commercial arithmetic, while last year units were given in biology and public speaking and half units in home economics and economics. Our total number of units is 23, and we are proud of the fact.

But, friends, we know what some of you will probably say. You will say that as long as we are getting along all right and doing good work, why should we not be contented. We are not and shall never be until we shall see the day when instead of working handicapped in this building, we shall work with

a good will in a modern one. We have acquired credit, but we all know that a child handicapped with adnoits can work and learn. We also know that when those adnoits are removed and the child is handicapped no longer, he forges ahead and progresses.

We are not content to have a record like ours always. We want to progress and do greater and better work and we can do that when our handicaps are removed.

Let us get behind the school board and boost their efforts, and show our appreciation. Let us be able to say next year that the present trustees made our new building possible and if we just give them our hearty co-operation this will be possible. Here's to you, trustees! In the language of old Rip Van Winkle, "May you live long and prosper."

Let us get behind the school board and boost their efforts, and show our appreciation. Let us be able to say next year that the present trustees made our new building possible and if we just give them our hearty co-operation this will be possible. Here's to you, trustees! In the language of old Rip Van Winkle, "May you live long and prosper."

We wonder why Mr. McMillan goes bareheaded so much, and why did his hair get so thin. Did he sleep on a trundle bed that was too short for him while he was growing up, or did his mother used to stand him on his head while mending the seat of his pants?

ABOVE IS PAGE ONE OF THE JUNIOR EDITION OF THE SHORT HORN.—REPRODUCED WITHOUT CHANGE

**Announcing YOUR CHAUTAQUA Program for 1924**

Chautauqua is just ahead! Quite the biggest seven-day program we've ever presented. There's real economy in attending on the season ticket plan—costing you less than 20c per attraction.

**Comic Opera**  
"Robin Hood" is coming! DeKoven's great masterpiece produced by his assistant, May Valentine. Original cast of thirty people—an attraction worth the entire price of your season ticket.

**A Great Play**  
Ralph Keneving's big Eastern success, "The Great Commoner"—a play of the life of Lincoln. A great drama splendidly presented.

**Six Lecturers**  
Six lecturers of national prominence including such well-known men as Edward Amber, Otto Ralph Bingham and Arthur Walwyn B. Asst.

**Music Concerts**  
A week of musical Gems—Marimba Band, Ernest Gambale's famed concert company, Ralston Trio in songs of olden days, Auli Concert Artists, noted Eastern singing organization.

**Entertainment**  
Ada Roach and Ruth Freeman—inimitable entertainers—are returning! Ralph Bingham brings a riot of fun! And a "sure-enough" clown for the kiddies' Chautauqua. Entertainment plus!

Season ticket sale positively closes at 6 p. m. opening day

**BUY A SEASON TICKET**

next. But somehow the trains were always kept running.

Just when things looked darkest, the Interstate Commerce Commission granted the Orient preferential rate schedules, and freight began to drift its way. Then an oil field opened up in Orient territory. Then the road had a big wheat crop to haul. Now the road has plenty of traffic. Its prosperity is bound up with that of the wide territory it serves, and countless miles of land would be worth little if the railroad had to suspend service.

Within a few years we may see the gaps in Mexico connected by steel rails, and the entire system in operation from Kansas to the Pacific coast of Mexico.—Exchange.

**RALPH BINGHAM.**

Chautauqua patrons are requested to round up every pessimist and grouch in town for the third evening. The original "First Aid to Gloom" will be on hand to administer a generous dose of refreshing and exhilarating humor that will make a mummy smile. Who? Why, Ralph Bingham, America's premier fun maker. Ralph Bingham, the merriest soul who ever broadcasted joy, fun, mirth, and made you laugh until it hurt.

Don't get the idea that Bingham is a lecturer—he's just a fun maker whose wit and humor are original. The only reason he'll remind you of any one else is because he's so different. There will be stories, sketches, impersonations, songs, piano and violin stunts—and it will be just one big scream from beginning to finish. So be sure to loosen

**FORT BLISS OFFICERS TO MAKE INSPECTIONS AT FT. CLARK, MARFA.**

Major Gen. R. L. Howze, Major Adna R. Chaffee and Lieutenant Jess G. Boykin will leave Sunday for Fort Clark and Marfa to conduct the annual tactical inspections on the first cavalry brigade. At Marfa they will be joined by Col. Leroy Eltinge, commander of the first brigade, who will assist in the inspection of the Fort Clark garrison.

**Target Practice.**

One company of the eighth engineers and detachments from the first signal troop, 27th ordnance company, and post quartermaster department, will leave on April 20th for the Donna Anna target range to prepare the range for the regular target season. Communication between Fort Bliss and Donna Anna will be arranged by the signal detachment.—El Paso Times.

### SPRING COATS OF DISTINCTION; POLO CLOTH CAPE FOR CHILDREN

SPRING has never been more generous with charming clothes than it is this year. In every sort of apparel the note of refinement is emphasized—even sports clothes have "a grace in being gay." The earliest proclamation of fashion was that simplicity should be the corner stone of the new season's modes. That gave designers a good start in the right direction—they presented the tailored mode and it met with an enthusiastic welcome everywhere. Coats and suits, utterly simple in design, are worked out with an exquisite precision and the styles have made a sweeping success.

Coats for general wear are graceful and dignified, and of whatever sort, they possess distinction—which

This spring's coats for little girls of six or more are often amusing miniatures of those for grownups. Of course they are not exact replicas of them, but sufficiently like them to arrest one's attention. For the tinner girls there are pretty but even plainer coats, many of them in lively colors with light blue, pink, tan and yellow in the bright company.

Every season brings the cape more or less well up toward the head of the procession of wraps for the little miss or six or more years. It is a debonair garment suited to all ages, but especially to youth and childhood. The cape is greatly outnumbered by coats this spring, but this is often considered a point in its favor, and the cape is always good style. The model

GRACEFUL COATS FOR GENERAL WEAR

women adore. For decorative touches they depend mainly on tucks, bands and other self-trimmings or narrow silk braids, like souchache, or on summer furs or stitching. Colors are quiet with tan, beige and gray shades predominating, but they have a noteworthy rival in the new shades of green that are so effective with fur collars. Leopard skin is liked with them. Gray and dyed squirrel, summer ermine, gopher, Viatke squirrel and others that are not so familiar find themselves approved on spring coats. Viatke squirrel is very generously used on the plain twill coat shown at the left of the picture in a beige shade, but usually fur is con-

shown here ought to please all youthful critics because it offers all the attachments and accessories that a cape can possibly have. It is of polo cloth with slits for the arms to come through and pockets for the hands—and other things. There is a little decoration of narrow silk braid on collar and pockets and ties of the material at the neck finished with fascinating silk ornaments at the ends. Link buttons take on the responsibility of fastening the cape.

There are numbers of coats that have a cape attachment or cape sleeves among this spring's showings and they appear in the neutral and also in the liveliest colors. Bright tan,

**WRAP FOR THE LITTLE MISS**  
mixtures of white and blue or white and rose or the new spring greens are colors best suited to children. There are few very dark colors in the displays. Capes are plain and few wraps have as many accessories as the model pictured here.

(© 1934, Western Newspaper Union.)

### TEXAS INDUSTRIES BUSY, REPORT SAYS

#### Building Program, Etc., Will Absorb Unemployed Throughout State.

Washington.—Industrial conditions in Texas are declared satisfactory in the monthly report of the department of labor, issued Friday. It is stated that the enormous spring building program, agriculture, highway construction and other outside work will absorb existing unemployed throughout the State. The report sets forth that lumber mill operations have been curtailed on account of weather conditions, but the outlook for business is good and labor about normal. The iron and steel industry is declared to be operating on full time, but there has been some reduction in cotton mill operatives and a surplus of railway mechanics still exists.

The report on Houston is as follows: "All plants are operating, though some are on part-time basis. Additional building construction amounting to \$1,400,000 will be under way shortly, and construction of wharves and on improvements at the Turning Basin, involving approximately \$1,500,000, has been started. Contracts are to be let on three bridges in the near future and municipal improvements at an approximate expenditure of \$1,500,000 will offer a large amount of employment to both skilled and unskilled labor."

Conditions in Galveston are described as follows: "The labor supply and demand in this city is well balanced. Most plants are on full-time operations, with dry-docks working overtime. Building craftsmen are fully engaged on a large program. Contracts have been awarded and work will soon be under way on grade raising amounting to \$1,200,000 which will give employment to large numbers of workers."

Other cities listed in the report are Dallas, San Antonio, Fort Worth, Waco, Port Arthur, Texarkana and Beaumont.

### REPORT ACCEPTED BY COMMISSION

Paris.—The reparations commission Friday accepted the report of the Dawes committee of experts and recommended its acceptance by the allied governments, provided Germany will agree.

Louis Barthou, French member, announced France's acceptance. Sir John Bradbury, British member, informed his colleagues that Ramsay MacDonald and the British labor cabinet had approved the plan.

The Belgian and Italian members followed suit.

At the same time word came from Berlin that the German government virtually had decided to accept the Dawes report.

The plan now will be sent to the allied governments for separate consideration.

The United States also will be given an opportunity to study the experts' findings.

The American government is prepared to support the unofficial role laid out for the United States in the reparations settlement proposed in the Dawes report, it was understood authoritatively.

The United States would:

1. Furnish a considerable part of the huge foreign loan contemplated to put Germany on her feet.

2. Appoint American citizens on the various boards of control, to see that the Dawes financial plan is carried out by Germany.

**Highway Being Marked.**  
Belton, Tex.—Markers are being placed on the Pat Neff highway, formerly known as the Meridian highway, through Bell county, by the division headquarters of the state highway department, located at Waco. The highway enters Bell county north of Troy and extends through Temple, Belton, Salado and Prairiedell, crossing the Bell-Williamson county line near Jarrell.

**The I.-G. N. Merger Question.**  
Austin, Tex.—Colonel H. B. Moore of Texas City Thursday testified in favor of the International-Great Northern-Gulf Coast merger, insisting it would help Texas ports and the shipping public by giving them single line rates. He was not afraid of New Orleans, as it has physical disadvantages when reached over the Gulf Coast Lines, but admitted the latter are hauling loads there and are making money.

**Berry Crop Very Promising.**  
Brazoria, Tex.—The dewberry crop throughout the Brazoria section is looking very promising for a good yield. The crop will mature this month.

**Big Cotton Textile Mill.**  
Houston, Tex.—Work on a \$1,000,000 cotton textile mill will be started in Houston, Texas, within 60 days. The plans call for the employment of approximately 400 workers when the mill begins operation. Machinery equipment for the first unit will include 225 broad looms.

**Good Well at Corsicana.**  
Corsicana, Tex.—The No. 3 Hill of Stroube & Stroube is reported good for about 2,000 barrels a day initial flow.

### A FEELING OF SECURITY WHEN YOU USE SWAMP-ROOT

You naturally feel secure when you know that the medicine you are about to take is absolutely pure and contains no harmful or habit-producing drugs.

Such a medicine is Dr. Kilmer's Swamp-Root, kidney, liver and bladder medicine.

The same standard of purity, strength and excellence is maintained in every bottle of Swamp-Root.

It is scientifically compounded from vegetable herbs.

It is not a stimulant and is taken in teaspoonful doses.

It is not recommended for everything.

It is nature's great helper in relieving and overcoming kidney, liver and bladder troubles.

A sworn statement of purity is with every bottle of Dr. Kilmer's Swamp-Root.

If you need a medicine, you should have the best. On sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to try this great preparation, send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing, be sure and mention this paper.—Advertisement.

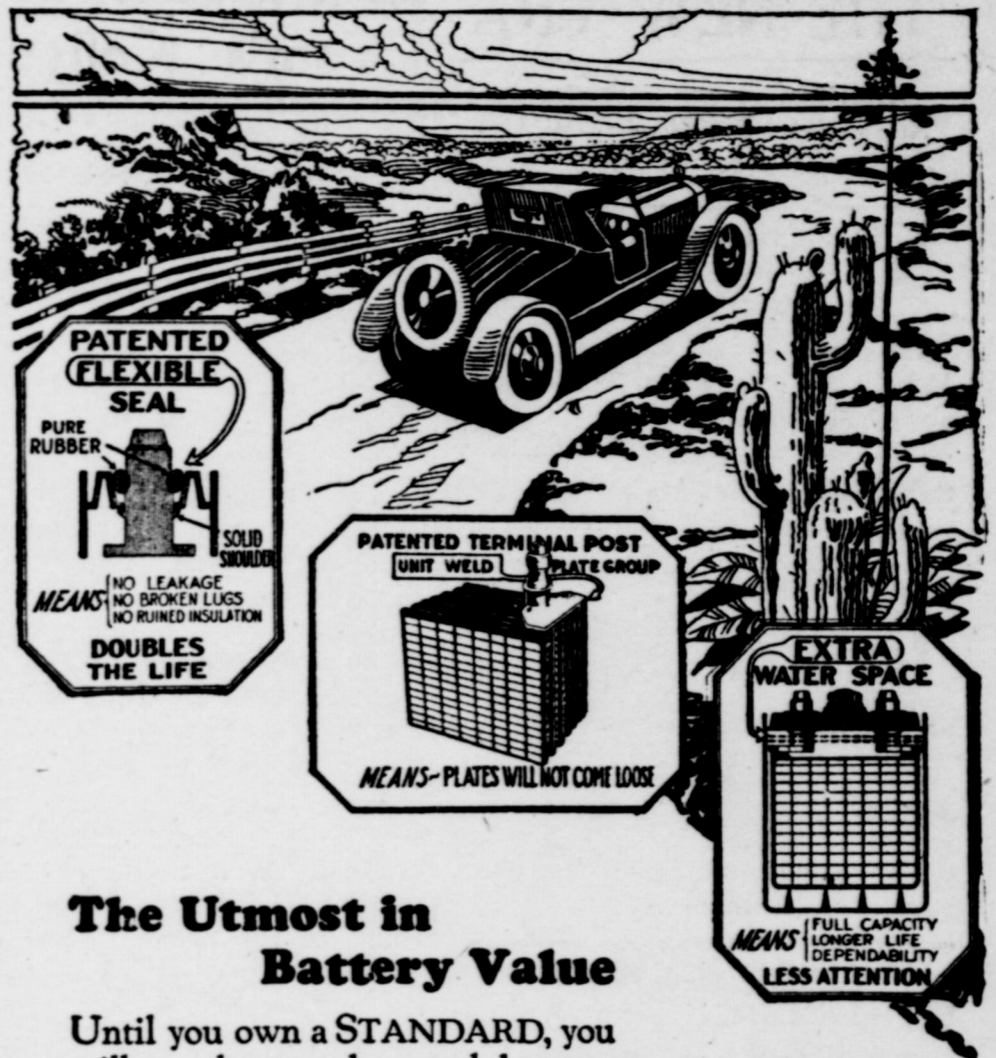

**To Erect Temple**  
A temple costing \$3,000,000 is to be erected in Ste. Anne de Beaupre to replace the destroyed one, according to an announcement of the Redemptorist Fathers; as well as a monastery costing \$500,000, to provide accommodation for the residing fathers. At the same time it was also stated that in view of the importance of the work a contest carrying a prize of \$15,000 may be opened to architects.

Wright's Indian Vegetable Pills contain only vegetable ingredients which act as a gentle purgative. 372 Pearl St., N. Y. Adv.

**Tree to Decorate**  
With proper attention and care, trees of small size will thrive in small patches of soil where larger trees, with their spreading root systems, might languish, says the American Tree association of Washington, D. C. The effect of these formally pruned trees is dignified and decorative, and gives a fine touch of green to a street lined with high-class shops or handsome houses in solid rows.

Cuticura Soothes Itching Scalp. On retiring gently rub spots of dandruff and itching with Cuticura Ointment. Next morning shampoo with Cuticura Soap and hot water. Make them your everyday toilet preparations and have a clear skin and soft, white hands.—Advertisement.

**The Bulrushes**  
Opposite Calro lies the island of Roda, where, according to Arab tradition, Pharaoh's daughter found Moses in the bulrushes. At the southern extremity of this island is the Nilometer, by which the rise of the Nile has been measured by the Calrenes for 1,000 years. It is a square well with an octagonal pillar marked in cubits in the center.

### The Utmost in Battery Value

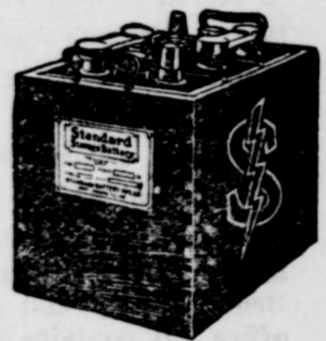

Until you own a STANDARD, you will not know what real battery value means.

Its exclusive, patented features, the fine quality of its materials and construction, grant the Standard Battery its unusually long life, its utter freedom from battery ailments, the stamina to thrive on battery hardships.

Standard Battery Service means longer life and greater efficiency. Look for its service sign for better service.

Standard Battery Mfg. Co.  
FORT WORTH, TEXAS

Standard Batteries are unconditionally guaranteed for one year. Their reasonable prices set the pace amongst fine batteries.

## DIAMOND STAR Pure Cane Sugar

NOWHERE in the world is there a better sugar refining plant than that which will presently be put in operation at Texas City, Texas. We intend to make it an institution in which the Southwest can take pride as in an achievement of its own people—an industry which will contribute something to the welfare of everyone living within the territory it will serve.

This enterprise represents an outlay of over \$5,500,000.

It will have an initial capacity of 350,000,000 pounds of refined sugar per year.

It is located on the Texas coast, where domestic and Cuban raw sugar will be brought direct to its doors.

It is the last word in mechanical perfection, designed and built to produce the best sugar that can be made.

Its situation will mean prompt delivery and adequate supply to dealers and consumers of the Southwest.

Don't forget these facts: In a short time you will have the opportunity of helping this enterprise to

take front rank among the other successful industries of the Southwest. Ask for Diamond Star Sugar.

Made in the Southwest

### NEW ERA'S BIG BEND EDITION.

We are in receipt of a copy of  
the Marfa New Era's Big Bend Edi-  
tion. Although Editor Kilpatrick  
seems to think the edition is not  
what it should be owing to typo-  
graphical errors and the conduct  
of a special writer in getting it up.  
We believe the edition to be a won-  
derful advertisement of the Big  
Bend country and a credit to the  
office. It contains a world of val-  
uable information for those who  
are not informed on the wonderful  
resources of this section. As we  
know by past experience, it is al-  
ways best to use the services of  
local writers and not employ any  
of the "slick tongued" unprinci-  
pled guys who make a business  
to get the confidence of country  
editors, who wish to give their  
readers something unusual in a  
special edition, and go out to the  
merchants and general public with  
a lot of false statements and prom-  
ises which no business firm could  
carry out. Better look out next  
time, Bro. Kilpatrick.—Fort Davis  
Post.

H. H. Kilpatrick, editor and gen-  
eral manager of the Marfa New Era,  
has just issued a dandy 32-page  
"Big Bend" edition. In this issue

## Tom's Kollyum

By Tom E. Childers

This kollyum is so independent  
in all things it makes some folks  
grin, but there are possibly some  
to whom it gives an "ake." But  
there's the old adage—grin and  
bear it.

There's quite a rumpus about the  
foot and mouth disease raging  
among the cattle in California. The  
Does say we humans can contract  
it, too. Say, Does, if a feller has  
an aching tooth in his mouth and  
an aching corn on his toe, might  
that be called foot and mouth dis-  
ease?

A guy asked me the other day  
why a smart chap like me was not  
married. Well, I would hate to see  
a girl starve, for one thing. 'Nother  
thing is, I'm not so smart as the  
questioning guy seems to think.

Speaking of fishing smacks, if a  
woman kisses her husband just be-  
cause she wants money for a new  
hat, might that be called a fishing  
smack?

Those sweet maids who are won-  
dering if they'll manage to get up  
courage by the end of the year to  
pop the question to certain quad-  
rupeds had better first flud out if  
said quadrupeds might not be too  
expensive critters to support.

If the photographers are having  
a dull season at this time, they'll  
have to be satisfied. I don't banker  
to have my likeness made on paper  
just now. You see, it's garden  
planting time, and I'm so blamed  
ugly a lot of folks might want my  
picture just to stick out in the gar-  
den to scare the rabbits away.

Pretty Little School Teacher  
hates me worse than a double dose  
of pizen right now. Cause why?  
Well, while at supper the other  
night I bet her a plate of ice  
cream that she didn't know her  
A B C's—and then proved it. The  
A B C's were of the deaf and  
dumb alphabet. For a few sec-  
onds I thought she was going to

he wrote a very interesting edito-  
rial, explaining why the edition  
was printed and, after giving the  
various reasons, he added that he  
was not open to congratulations,  
but hoped for better success next  
time. The Publishers' Auxiliary  
congratulates him on this issue and  
while we do hope that he will have  
better success next time, we are  
indeed glad that he filled 32 pages  
with local news. A-1 features and  
advertising.—Publishers' Auxiliary.

crack a catsup bottle over my nog-  
gin, but an SOS for a whole half  
dollar's worth of ice cream served  
to appease her wounded feelings.  
Top o' th' mornin' ter ye, me dar-  
lint, an' hev yez got me Oirish  
shlew reddy?

Art Brisbane of Lil' Ol' New Lork,  
who writes a copyrighted kollyum  
for some newspapers, seems to be  
stuck on that little old Australia  
quite a bit, judging from his kolly-  
um in a contemporary a few days  
ago. Me—Give me good old Texas,  
and especially this part of it.

### TOM'S KOLLYUM

April 19

Purty Leetle Editress,  
Keer ther Short Horn,  
Sity.

Deer Leetle Miss

My Boss wuz a fellin' ter me yis-  
tidy as haow yew wuz a tellin' ter  
yer maw as haow I wuz a fine feller.

Naow, Purty Leetle Editress yew  
air a riter arter my aown hart, but  
yew hed better be keeful as ter  
haow yew tell yer maw as haow I  
am a fine feller. Ef yew air not  
keeful yer maw will be arter me  
weth her rollin pin er yer paw will  
be arter me weth his shotgun afore  
I can say sum prares. Yer maw an'  
yer paw doan want no pore effictid  
suferin critter like me a botherin uv  
thar darter.

Sincerely yores

TOM'S KOLLYUM.

Rambling around town on my old  
mule Sunday P. M.—all by my lone-  
some—I saw one place where there  
are already lots of pretty flowers  
in full bloom, and from prepara-  
tions at other places, it looks like  
the majority of Marfa homes will  
soon have beautiful yards. This is  
as it should be, for those who love  
flowers are said to possess beautiful  
souls.

I observe that the juniors have  
done themselves tremendous proud  
with their edition of the Short-  
horn. An edition like that is really  
a credit to the school, and more  
so to the "pretty little editress" and  
staff. Some of those soph. scribes  
possess the makings of a better  
journalist than I am.

### HISTORY OF BIG BEND.

Dr. Stivers of Los Angeles has  
been in the Big Bend country for  
several months, collecting data for  
a book which he is now writing  
about this part of Texas.

Forty years ago, then a small boy,  
he lived at Fort Davis, where his  
father was stationed as a young lieu-  
tenant of the 25th.

The Doctor was acquainted with  
all the "old timers" of Presidio  
county, and doubtless his book will  
be worth reading.

### "MAKIN' EDITORS OUT O' THEM."

(With apologies to Will Carlton.)

The editor sat in her sanctum,  
Thinking the thoughts of the sad,  
"Shall we win? Shall we lose?"  
What she needed

Was something to make her mad.  
Then suddenly a voice unfamiliar  
Fell harshly on sensitive ears,  
That temper she needed was rising.

As the voice verified her own fears.  
"Good mornin, now, Mistress Editor,  
How's yer body terday?"

I'm glad ere ter home  
Cuz you editors is allus rannin'  
erway.

The "Shorthorn last week wasn't  
so sprightly  
Nor sharp as the one week before.

But I guess now you juniors and  
seniors

Will be whoopin' it up to 'em more.  
Them freshmen got out a fair paper,  
They'll pull for the prize purty  
smart.

An' our folks said this mornin' at  
breakfus

That they thought they wuz gittin'  
the start.

But I hushed 'em right up in a  
minute

An' spoke a good word fer you.  
I told 'em I thought ye wuz tryin'  
To do just as well as you knew.

That they can't expect much from  
no juniors

Nor blame 'em for what they don't  
know.

And maybe the seniors won't beat  
ye

If ye jest git together and go."

The editor sat in the sanctum  
And looked the old man in the eye,  
Then glanced at her brainy young  
classmates

And scornfully made reply.  
"You know not the stuff that we're  
made of,

Our newspaper genius is rare;  
You'll see that we have the best  
"Shorthorn"

The seniors with us can't compare.  
'Tis original goods that we give you.  
Our articles clever and new.

Our up-to-date "boosters column"  
Will be liked by more than a few.

The judges know a good thing when  
they see it.

We're willing their verdict to stand.  
We can't know all, do all and be  
all.

But we're "white faced", and best  
is our brand.

—The Shorthorn.

## Big Investment Necessary for Utility Service

The biggest single investment in a commu-  
nity is generally its utilities. To give a com-  
munity electric service it is generally neces-  
sary for the Company to put about five dollars  
of the investors money in plant and equipment  
for each dollar of gross annual revenue.  
No other business is run on so slow a turnover.  
This is because the electric business is an essential  
public service and is operated in the interest of  
the people who use the service. But it is to the  
people's interest to see to it that the company is  
able to grow to keep up with the needs of the  
community.

### DEATH CLAIMS O. A. McCracken, PROMINENT ATTORNEY

Widely Known Floresville Citizen Succumbs at Home in San Antonio After Long Illness. Was Apparently Much Better When Suddenly Stricken. Masons Conduct Funeral.

BURIED AT SAN ANTONIO.

Floresville and Wilson county was shocked last Sunday afternoon at about 2:30 o'clock, when a message was received from San Antonio stating that O. A. McCracken, prominent attorney of this city and widely known citizen of Wilson county, had passed away at his home at 919 West Woodlawn Avenue, San Antonio.

Mr. McCracken had been in bad health for several years and had withdrawn from the active practice of his profession some time ago. But he was apparently much better and it was while seated at the supper table with his wife last Friday evening that he was stricken with apoplexy which resulted in his death. He never regained consciousness after the stroke and passed away calmly on the Sabbath afternoon while surrounded by loved ones of his own family and relatives who had been by his bedside constantly since he was stricken.

The funeral services were held at the family residence Monday afternoon at 4 o'clock and were

MARFA MANUFACTURING CO. Marfa, Texas

conducted by Dr. Arthur J. Moore, pastor of Travis Park Methodist church of San Antonio. It was a beautiful and touching burial service, attended by a large concourse of sorrowful friends of San Antonio and various points in Wilson county. Following the religious service, Chief Justice W. S. Fly of the Fourth Court of Civil Appeals, of San Antonio, a life-long friend of the deceased, delivered a beautiful eulogy to the memory of his departed friend. Floresville lodge No. 515, A. F. & A. M., assisted by members of the Masonic fraternity of San Antonio then took charge and concluded the burial service with the zealous rites of that order. Interment followed in beautiful Mission Burial Park.

Never has it been this writer's privilege to view a more magnificent floral offering. Various designs and emblems were there from friends and organizations and the school children of Floresville.

Deceased had reached the age of 51 years when the grim reaper summoned him and practically all the years of his life had been spent in Wilson county.

The writer would be pleased, in his own humble way, to pay a tribute to this worthy and honorable citizen, our friend, but this will be done by one more worthy, a friend who has known him since his boyhood. The obituary will appear next week.

The deceased is survived by his aged parents, Mr. and Mrs. R. P. McCracken of Floresville, his widow Mrs. O. A. McCracken of San Antonio, one son, O. A. McCracken, Jr., who is a student of the University of California; two brothers, R. S. McCracken of Marfa and County Clerk W. Q. McCracken of Floresville; two sisters, Miss Eloine McCracken of Floresville and Miss Inez McCracken of Dallas.

The Chronicle-Journal joins the people of Floresville and Wilson county, and friends elsewhere, in extending to the bereaved ones our deep sympathy in their hour of sorrow. — Floresville Chronicle-Journal.

#### ESSAY CONTEST.

One morning we were all surprised when Miss Leigh called the names of twenty high school students and made them white in the essay contest. They were given the subjects, five in number and were told to select their subject out of the five.

The following week the winners were announced. Ruth Bailey won first place, Lillian Spencer second place, while Peggie Scannel and Hilda Marsh tied for third.

—The Shorthorn

"Spring-Tide Birds Are Singing"

Spring-tide Birds Are Singing, Singing

Photo by Wide World

LOST WHITE HOUSE EGG-ROLLERS

Lo, no mystery of Thine is sealed. Behold, Thy tongue speaks...

By JOHN DICKINSON SHERMAN

THE singing of Easter carols is likely to become popular in the United States. Christmas last year was marked by a tremendous revival of the singing of carols all over the country.

Christ is risen, Christ the living, All His mourners' tears to stay; Christ is risen! Christ forgiving...

Musical literature is rich in splendid compositions suitable for Easter carolling. One of the oldest—possibly the oldest—dates from approximately the year 750.

Another carol, more familiar, has been assigned to the Twelfth century, and was originally written in Latin. Its exact date and authorship are unknown.

A familiar carol is "Christ the Lord Is Risen Today, Alleluia!" by Charles Wesley. The tune for this carol, including the florid "Alleluia," comes from an old collection called "Lyra Davidica," published in 1708.

A friend and fellow worker of Charles Wesley was Edward Perronet, the writer of the famous "All Hail the Power of Jesus' Name." This hymn appears in a small collection of Perronet's hymns published by himself, and is there entitled "On the Resurrection." The collection itself, according to its title page, was published for the instruction and amusement of the candidly serious and religious.

John Ellerton wrote a fine hymn, "Welcome, Happy Morning, Age to Age Shall Say," based with freedom, yet with fidelity of spirit, upon the "Salva festa dies."

The celebration of Easter comes easy for the average man and woman. And not all who celebrate it do their celebrating in church or with religious rites.

From the beginning of time man has rejoiced at the turn of the year, when the sun began to come back to him. The winter, of course, was a time of discomfort, of food scarcity, of restricted activities.

One generation passeth away, and another generation cometh. The sun also ariseth and the sun goeth down, and hasteth to his place where he arose.

But in the spring all is changed. Each man feels a sort of physical resurrection in himself. "I have risen from a world of cold and of gloom and of dead things to a world of warmth and of light and of live things.

The shroud of winter melts into the past, Blue skies replace the gray. And then, rejuvenated, Spring returns. For this is Nature's way.

Moreover, deep in the heart of man is planted the wish for immortality and the hope of it. And at Easter this wish and this hope blossom anew. A future life is a matter of faith rather than of scientific proof.

Thou wilt not leave us in the dust; Thou madest man, he knows not why. He thinks he was not made to die;

Some of us hope for a future life because of our dread of separation from those we love. "Thill death doth us part," rums the beautiful marriage service—and even in this age of divorce the words are no empty phrase.

When Easter comes, we kneel beside Our graves, where lies such precious dust, And say while strewing fragrant flowers, "Because the Christ arose, ye must!"

This Easter there are many whose thoughts will turn to graves "Over There," where rest our soldier dead of the World War.

O Marys, weeping now in stricken lands! Your pleading voices cry, "Where is he laid, The young, the strong, the brave, who obeyed His country's call, went forth at her commands?"

But ask it not—he is not where he fell— And seek him not among unnumbered dead Whose dust is marked—a cross above each head— He may stand close beside thee, who can tell!

(So Jesus stood and Mary knew it not. Nor recognized the well-beloved face.) What though their bodies rest in common plot. The dust of heres halloos every place.

Moreover, there is an ethical demand for immortality. Justice has not always been done in this world. There have been untold millions whose lives have been starved and broken.

Also, such as it is, the present civilization is presumably the best this earth ever has seen and such as it is it has been won only after infinite toll and struggle.

It is an intolerable thought that man and all other sentient beings are doomed to complete annihilation after such long-continued and slow process.

SENATE VOTES FOR JAP EXCLUSION

Votes 76 to 2 Against Recognition of the "Gentlemen's Agreement."

Washington.—The senate answered Ambassador Hanjira's protest against Japanese exclusion legislation Monday by voting 76 to 2 against recognition of the "gentlemen's agreement" with Japan on the immigration question.

This action is preliminary to adoption by the senate by an overwhelming majority of the house Japanese exclusion provision.

Whatever the result would have been without the incident of the ambassador's letter, that communication served to change the votes of a number of administration leaders, including Senator Lodge of Massachusetts, chairman of the foreign relations committee.

The republican leader informed the senate in open session that he regarded the Hanjira letter as a "veiled threat," and declared that "in the face of that threat he would not support the immigration committee's proposal to recognize by law the 'gentlemen's agreement.'"

A number of other senators took the same view, and only one voice, that of Senator Sterling, republican, South Dakota, was raised in defense of the ambassador's action.

Carrying a Japanese exclusion provision against which the Japanese government has protested vigorously, the Johnson immigration bill was passed Saturday by the house, 322 to 71.

32,000 JAPANESE WILL LEAVE UNITED STATES

Mexico City.—More than 32,000 Japanese agriculturists are ready to emigrate from California and settle in various Mexican states, according to information received from the department of interior.

A statement published by that department Saturday says:

Arthur J. Braiff, a Mexican financier, personally interested in the matter, reports that more than 32,000 Japanese agriculturists with ample means are ready to emigrate from California, where they are residing, because of the prohibition against leasing or buying lands in the United States.

Various Latin-American governments have made proposals along similar lines. Because of the great importance of the matter the governor of Colima, Nayarit, Sinaloa, Sonora and Jalisco have been asked to give their opinion, since the Japanese colonists prefer lands in these regions.

When the opinions are received the interior department will formulate its conclusions for submission to the ministry of agriculture and development, and meanwhile the project is in abeyance pending decision.

TEXAS GUARDS TO DRAW \$125,000 QUARTERLY PAY

Austin, Tex.—Army drill pay received by Texas National Guardsmen for the last quarter of 1923 amounted to \$115,000. Indications point to a larger amount to be received for the first quarter of 1924, as only about half has been received to date, and this totals \$60,500, indicating the pay roll from the federal government for this quarter will be approximately \$125,000, an increase of \$10,000.

The rate of pay received by guardsmen for drilling one and one-half hours per drill period follows: Privates, \$1; corporals, \$1.40; first sergeants, \$2.80; master sergeants, \$4; second lieutenants, \$4.17; first lieutenants, \$5.56, and captains, \$6.66.

Each company is supposed to make one drill each week and can not receive pay if they drill less than 60 per cent of that time. In addition to this amount the guardsmen receive regular pay during the two weeks' encampment period each year.

Thaw Sane, Physicians Say

Philadelphia.—Counsel Wednesday confirmed a report that five physicians retained by him to examine Harry K. Thaw have expressed the opinion that he is sane. Thaw will come before a jury next Monday to determine his sanity, and the five physicians, it was said, will testify that he is now of sound mind.

Iceberg More Than Mile Long

New York.—Passengers on the liner Nieuw Amsterdam, which arrived Sunday from Rotterdam, told of having sighted off Cape Race an iceberg more than a mile long and with two towering pinnacles 200 feet high.

Heavy Hail Storm

Austin, Tex.—The heaviest hail storm in the history of the country swept a portion of Burnett County Wednesday, banking ice two feet deep on the ground.

PERUNA Tablets or Liquid for Catarrh Coughs Colds

care of the mouth

Zonite is acknowledged by dentists to be the ideal mouthwash — because it is absolutely non-poisonous, does not harm the delicate membranes of the mouth or throat and is a powerful, sure antiseptic.

Zonite KILLS GERMS

FOR OVER 200 YEARS

haarlem oil has been a world-wide remedy for kidney, liver and bladder disorders, rheumatism, lumbago and uric acid conditions.

SAM WOOLEY  
W. A. KERR (re-election)
- For District Clerk:  
MISS ANITA YOUNG (re-election)
- For County Clerk:  
J. H. FORTNER (re-election)

## UNION DRUG COMPANY

We notified our friends in the last issue of the New Era of our intentions. So many have asked why, we are going to advise all our friends the reasons we are making the change.

We want more business—we need more business. We are in a position to handle more business, and we are going to get more business.

You ask how and we say the solution is simple. We find we are confronted with the fact that our patrons, in many instances, are buying from out-of-town houses for two reasons: One is they can buy cheaper, and the other is, we haven't exactly what they want. When one buys away from home he does so because he owes it to himself to save what he can, and we do not blame him a bit; but when he does, he pays CASH and doesn't mind it, because he gets real value for his money.

Isn't that correct?

It is, and we can and will sell cheaper.

But, like them, we must sell for CASH.

By selling for cash we are able to put much more into stock, thus giving you a better selection and at the same time making you a present, every time you buy, of the overhead and interest it takes to keep books. We give you the cost of mailing statements, keeping books, possible lost accounts and many details that it takes to keep us going on a credit basis. The cost of keeping books amount to more than one would think, and by selling for CASH we give that to you and likewise a discount on all goods we can.

We sincerely appreciate the trade you have so willin gly give us. With your trade we will thrive, and without it lose. Help us win and save money.

We will quote you some of our cash prices in the next paper to give you an idea of why we say:

**PAY LESS AND STILL GET THE BEST**  
Trade at the Cash Drug Store

The *Rexall* Store

**Union Drug Company**  
Help Us and Save Yourself Money

**THERE** was so much talk about town regarding which tire dealer sold the best tires, that we decided to handle a few of each make in order to take care of everybody that came in. Since we put our business on a cash basis April 1st, we have had a steady increase over our previous business. There must be a reason. **HERE'S THE REASON. READ OUR PRICES:** We don't believe that First-class, Standard Tires have ever been sold as low as these prices.

				VALVE CORES
				LIGHT GLOBES

### FAIR PLAY...

**THERE** are wholesale grocery houses in West Texas that are selling tires direct to the consumer at wholesale prices, and we don't blame the people for buying them if they feel like they are saving money. **BUT**—If you will compare our Goodyear, Goodrich and Racine Cords with them in price, you will find both practically the same. **AND**—We give more than that. We give free air, water and service from 7 a. m. till 9 p. m. We do this because it is our desire to serve the public when they need our services. **We will save the public thousands of dollars every year.**

## CASNER MOTOR COMPANY
