SOCIALISTS ASK FOR A PEACE CONFERENCE

RUSSIAN WORKMEN AND SOLDIERS' PARTY WANT WORLD MEETING IN NEUTRAL COUNTRY.

SELECTIVE DRAFT AGES 21-31

Russian Duma Enthusiastic in Demonstrations of Loyalty to Allies; Hoover Would Control Food Prices.

Special to The Herald.

FORT WORTH, Texas, May 11.—The Executive Committee of the Russian Workmen and Soldiers' Party are today planning an international Socialist conference, to be held in some neutral country, to discuss a general world peace. The Socialists of all of the countries, either neutral or belligerent, will be invited to participate in the conference.

The great drive in France is still deadlocked. Both armies are fighting desperately, but gains of no importance have resulted.

The Russian Duma today cheered the Entente ambassadors and proclaimed its loyalty and that of the Russian people to the Allies. News dispatches characterize the actions of individual members of the Duma as being "enthusiastic demonstrations of loyalty."

Special to The Herald.

FORT WORTH, Texas, May 10.—Members of the House and Senate conference committee on the selective draft military bill agreed today, after a long deadlock, to make the ages for selective draft between the ages of twenty and thirty, inclusive. Those who are past twenty and not yet thirty-one are subject to registration.

The conferees from the House bitterly opposed the authorization for recruiting Ex-President Roosevelt's voluntary division for service in France, which has been insisted upon by the Senate conferees. The Senate members finally agreed to omit the provision, and the House members agreed to the Senate's proposal for prohibition at military posts.

Plan Agreeable to Staff.

The compromise bill is understood to be generally satisfactory to the administration and to the army general staff, on whose advice the original measure was framed. The most important change made in Congress was in the age limits, fixed by the staff at 19 to 25, inclusive. The Senate made them 21 to 27, and the house 21 to 40. The ages named in the conference agreement are 21 to 30, inclusive, making the draft applicable to all male voters under thirty-one.

Although there has been no direct expression from the White House regarding the Roosevelt volunteer proposal, administration opposition to it has been inferred from the fact that no provision for volunteers was contained in the bill as sent to Congress from the War Department. With the Roosevelt proposal, the conferees also threw out a Senate amendment under which three regiments of volunteers could have been enlisted for service on the Mexican border, introduced by Senator Fall, of New Mexico.

Exemptions Changed.

The section dealing with exemptions from draft was rewritten in part by the conference committee, and provision was made for hearings in exemption applications before local civil tribunals, with the right to appeal to a second tribunal and finally to the President.

Two of the House conferees refused to sign the conference report. Representative Anthony, of Kansas, would not accept it because the Roosevelt amendment was stricken out. Representative Kahn, of California, would not agree to the prohibition amendment, contending that it reflected on the moral standards of the Nation and that regulatory provisions should be left to the President.

Hoover Wants Food Control.

Herbert C. Hoover, who recently came from Europe to advise the Government on food conditions in Europe, says that without control we may see flour at \$20 a barrel before the year is over, but that with control "the present price of flour can be reduced 40 to 50 per cent and at the same time the producer be treated in a liberal man-

Fourteen Students Receive Diplomas At Wayland College

Dr. J. E. Cole, of Lubbock, delivered a splendid address before the graduating class of Wayland College on Wednesday evening, closing the seventh annual commencement program for that institution. His subject was "Faith in God."

Following the address, Dr. I. E. Gates delivered the certificates of proficiency to the B. Y. P. U. and Sunday School classes and the medals to the honor students of the different departments. Prof. J. E. Willis, acting president in the absence of Rev. R. E. L. Farmer, presented the diplomas to members of the class. Dr. J. E. Nunn, of Amarillo, representing the board of trustees, closed the exercises with a short commendation of the accomplishments of the faculty and student body during the year.

The class of 1917 is one of the largest Wayland College has graduated. Its members are Misses Mary Braselton, Plainview, honor graduate; Edith Kiser, Plainview; Florence Patton, Lorenzo; Lois Hatcher, Plainview; Esther Mayfield, Plainview; Mollie Goode, Plainview; Nora White, Plainview, and Bertha Craw, Tulsa; and Messrs. William D. Rumpel, Clarendon; William Z. Graham, Plainview; Calvin Kiker, Dallas; Hady Hay, Plainview; Jones Goode, Plainview, and Blake Bodton, Turkey. Misses Sycilly Roberts, of Amarillo, and Nora White, of Plainview, were awarded certificates of proficiency in penmanship.

Twenty Five More Tracts to be Planted With Free Beet Seed

H. M. Bainer and L. L. Johnson, agricultural demonstrators for the Santa Fe, are here today perfecting arrangements for the planting of more sugar-beet seed in the Plainview country.

Twenty tracts, averaging one-third of an acre, are already planted. These gentlemen will furnish seed free, through the Santa Fe, for twenty-five more tracts. They ask that all who are interested in trying out this experiment on a small plot should communicate immediately with Col. R. P. Smyth or Z. E. Black, as it is already a little late to plant.

Messrs. Bainer and Johnson have employed Col. R. P. Smyth to handle the experiments temporarily. They are in communication with several experts, one of whom is expected to take charge of the work by June first.

Geo. Hull of Paris Lets Contract for Building on Square

Geo. Hull, of Paris, Texas, has let the contract to J. B. Maxey for \$7,756 for the construction of a two-story brick business building on the northeast corner of the square.

The building will be twenty-five by eighty feet. The first floor will be used as a store room and the upper floor for offices. The building will be strictly modern and will probably be finished in buff brick.

Construction will begin as soon as materials specified can be obtained. W. R. Eubanks, of Paris, is the architect. J. B. Nance is local representative for Mr. Hull.

Mr. Hoover thus outlined food conditions in a statement to the Associated Press today:

"There is absolutely no occasion for food panic in this country nor any justification for outrageous prices unless the opposition of special interests defeats the President in obtaining the necessary powers to control the Nation's food fully and adequately. America's problem is not one of famine, for we have now and will have next year a large surplus. Our problem is, after the proper protection of our own people, to give to our allies the last ounce of surplus of which we are capable.

"Therefore, the Nation needs a food control for two purposes: To regulate prices and to increase the surplus. After providing for our normal consumption, we will have, together with Canada, a surplus for our allies equal to only sixty per cent of the food they require from us. If we take broad measures of control we can, with a little disturbance to economic machinery as need be, furnish them an additional 20 per cent."

BIG TRACTORS BREAKING KNIGHT RANCH FOR KAFFIR

Diversified Farming Without Irrigation Brings Big Returns From Crops and Livestock.

L. A. Knight started this week with two big tractors to break four thousand acres of land in preparation for this amount of acreage in kaffir corn. Mr. Knight last year used an International Harvester tractor, 20-40, equipped with fourteen plows, harrow and seeder, and has this year added a Fairbanks-Morse tractor, 30-60, with the same equipment. The land that is being broken now is leased and adjoins the Twenty-One-Mile Headquarters Ranch on the west.

Mr. Knight's operations last year are interesting, especially when it is understood that none but dry-farming methods were employed. Last year he raised 15,900 bushels of wheat, which sold for \$25,000. This year there are three thousand acres in wheat on the twelve thousand acres controlled by Mr. Knight. Between eight hundred and nine hundred acres of alfalfa yielded four cuttings which averaged a ton and a half to the acre, and a fifth cutting, which went a ton to the acre. This hay brought from \$16 to \$20 a ton. Following the cuttings of hay, nearly nine hundred bushels of seed was harvested. Alfalfa seed this year has averaged about thirty-five cents a pound.

Since January first of this year there have been sold from the Knight farms \$12,000 worth of hogs, raised and fed on these farms. There still remain seven hundred breeding hogs on the several places.

Five hundred head of cattle were sold last year, half of these as finished beef cattle, at an average of \$87.50 per head, and the others as feeder cattle.

Mrs. Knight last year sold between two and three hundred bronze turkeys, for approximately \$500. The birds were assembled at the Five-Mile Ranch and driven on foot to Plainview.

Forty head of Jerseys and Holsteins furnish milk and butter for the ranch hands and for Mr. Knight's family.

Euglossians Win The Inter-Society Debate at Wayland

The Inter-Society debate at Wayland College Tuesday night resulted in victory for the Euglossians by a narrow margin of two points over the Philomathelians. The societies debated for the loving cup offered by Austin C. Hatchell. J. M. Adams, Z. E. Black and Prof. H. P. Webb served as judges. Jones Goode and Gus Neil represented the Euglossians, with the affirmative of the question "Resolved, that the Government Should Own and Control the Railroads." Hardy Hay represented the Philos, and debated the negative side of the question.

Interest in the debate started early in the day, when the members and friends of the two societies decorated their automobiles and formed a parade of more than fifty cars. After their success, the Euglossians returned down town for a celebration.

The program was opened with a vocal solo by Miss Akard Britain. Awaiting the decision of the judges, there was a piano solo by Miss Ruth Harder.

Syndicate Will Plant 3000 Pounds of Beans on Properties

The Texas Land & Development Co. has purchased several thousand pounds of Mexican pinto beans for planting on their properties. Most of the fields used will be irrigated. The planting and cultivation will be under the direction of the company's demonstration agent, P. B. Barber.

AUTO LICENSES.

County Clerk Jo W. Wayland issued auto licenses to the following:

J. W. Young, Plainview, Chevrolet, No. 1326; T. P. Whittis, Plainview, Dodge, No. 1327; K. D. Thomas, Plainview, Ford, No. 1328; T. L. Largent, Plainview, Ford, No. 1329; A. E. Tucker, Plainview, Buick, No. 1330; J. E. Simpson, Lockney, Overland, No. 1331; W. S. Gentry, Hale Center, Ford, No. 1332; C. H. Springer, Hale Center, Maxwell, No. 1333; Walter E. Barrett, Hale Center, Ford, No. 1334.

NEW, BETTER AND BIGGER TENT FOR 1917 CHAUTAUQUA

Mrs. Grady Lindsay, Formerly of Plainview, Appears With the Althea Players, as "Miss Helen Peck."

Gilbert Fenton, representing the Redpath-Horner Chautauqua, is here today assisting the local committee in placing the advertising for the big seven-day event which opens two weeks from tomorrow.

He will bill the several towns around Plainview this afternoon and assist the committee in any way possible during his short stay. He has called a special meeting of the members of the association for this afternoon.

The ticket sale has been on for a week, and has been most satisfactory. The tickets in the hands of the committee have been already sold. Those at the drug stores will be available until the allotment is sold out. After these are gone the price at the gate will be \$3.60 for adult season tickets, instead of \$2.50, as they are now being sold. Children's tickets and students' tickets are selling faster than last year. Those who expect to take advantage of the very special low rates offered children and students will do well to buy at once.

Mr. Fenton is highly enthusiastic about the two big numbers, "Pinafore" and "Little Women." He thinks "Pinafore" is the biggest attraction ever placed on a Chautauqua circuit. There are forty people, with the orchestra. The leading lady role of Little Buttercup and the two leading male roles are sung by the same artists who presented the late Hippodrome, New York, production. Many of the minor-character parts are taken by members of the original Hippodrome company. Each of the three leading singers are being paid in excess of \$1,000 a month to appear in this production.

"Little Women," Mr. Fenton says, is far superior to "The Melting Pot," which proved so popular here last year. He says the personnel of the company is far superior to that of the production last year.

Many who have seen the program of the Chautauqua have noticed the picture of Mrs. Grady Lindsay, formerly of Plainview, with the Althea Players. They have wondered what name she is appearing under. Mr. Fenton let the secret out. Mrs. Lindsay is "Miss Helen Peck."

Mr. Fenton has assured the local committee that the tent which will be sent to Plainview will be better arranged than was that of last year, and the seats will be made more comfortable, the lighting better, and the side-walls in better shape. The new tent which will be used will seat four hundred more people than did the tent used last year, so that there will be none of the disagreeable crowding experienced last year.

PLAINVIEW LAD SECOND IN STATE DECLAMATION CONTEST.

Last week Edwin McMath, representing this district in the State Inter-scholastic Contest, at Austin, won second place in the senior boys' declamation contest. First place went to San Antonio.

There were no other entrants in the meet from Plainview.

Barber Goes to New Mex. to Buy Holstein Herd for T. L. & D.

P. B. Barber, agricultural demonstrator for the Texas Land and Development Co., left yesterday morning for Las Cruces, New Mexico, to purchase for his company's use on Pioneer Farm a carload of high-grade Holstein cows and calves.

Last year, when located at Las Cruces, Mr. Barber went to Iowa and purchased these cattle, after personal selection, for a farmer near Las Cruces. He is repurchasing them now for the T. L. & D. Co. He may include in the shipment, which will arrive next week, a registered Holstein bull, if one can be found to his liking.

Misses Mabel and Minnie Wells, of Lockney, passed through here today en route to Canyon, where they will attend the commencement exercises. Mrs. J. L. Smith returned yesterday from Wichita Falls, where she has been visiting for two months with her sister.

More Faculty Members to Give Wayland Junior Rating

At a meeting of the board of trustees of Wayland College last week, and at another Wednesday, a part of the faculty for the school year 1917-18 was selected.

Rev. R. E. L. Farmer was again chosen for the presidency. Prof. J. E. Willis is to teach History and mathematics; Miss Anna Dickerman, Latin; Rev. W. C. Carver, Bible, and Miss Ophelia Donell, voice. Prof. and Mrs. J. E. Watson will be in charge of the business department, and Prof. R. M. Crabb will serve as Director of Fine Arts.

Prof. and Mrs. T. L. Girault will not return. They will attend the University of Mississippi. Prof. E. J. Thomas has enlisted in the Citizens' Training Camp at Leon Springs, and does not expect to return. Miss Bess Brown, teacher of expression, will not teach next year.

In addition to filling the places made vacant in the faculty, the board will elect two additional teachers, add laboratory equipment and additional volumes to the library, with a view to qualifying as a junior college which can issue teachers' certificates under the new law.

Dr. J. H. Wayland announces that Wayland College has been entirely self supporting this year. The registration of the school exceeded three hundred during the year.

Boy Scouts Will Give Part of Bean Crop to Red Cross Society

The Boy Scouts of the two Plainview towns are busy this week working and planting their troop gardens, as requested by the Scout executives and the U. S. Department of Agriculture.

It has been difficult to obtain tracts of any size having water available for irrigation. The City Council has granted a special water rate where water from the city mains is used by the scouts.

The scouts will plant beans and black-eyed peas and will offer a part of the crop to the Red Cross Society without cost, for their distribution. The scout program is for "Every Scout to Feed a Soldier." To accomplish this, each scout is asked to interest nine others to plant plots that would not otherwise be planted. The government estimates that ten such gardens are necessary to feed one soldier.

In addition to the troop gardens, each scout will raise a garden of his own.

Crockett Received Car Registered Holstein Cows this Week

J. O. Crockett, owner of Richmond Terrace, received this week a shipment of twenty-two registered Holstein cows from Barrington, Illinois. These are choice animals from one of the best herds in America. They will be cared for at Richmond Terrace, and will form the nucleus for the fine herd of Holsteins Mr. Crockett proposes to add to the rapidly growing list of fine livestock in Hale County.

GEORGE M. BOLES, OF LUBBOCK, BUYS \$150 HELEN-TEMPLE BOAR.

Saturday Geo. M. Boles, of Lubbock, noted as a breeder of fine Hereford cattle, was here and purchased from Helen-Temple Farm a registered Duroc-Jersey boar for \$150. He bought other stock from this herd at the same time.

BIRTHS.

Born, to Mr. and Mrs. E. F. Anderson, Plainview, May 10, a boy.

Born, to Mr. and Mrs. Clarence Stewart, eight miles north of Plainview, May 6, a boy.

Born, to Mr. and Mrs. Frederick Goddard, of Runningwater, May 3, a girl.

Born, to Mr. and Mrs. E. D. Matlock, northwest of Runningwater, April 27, a girl.

Born, to Mr. and Mrs. J. C. Williams, of Northeast Hale County, May 5, a boy.

Born, to Mr. and Mrs. J. C. Holcombe, 2½ miles west of Plainview, April 30, a boy.

Mrs. S. S. Stoneker and mother, Mrs. G. J. Smith, left today for Lubbock, where they will visit Mrs. A. J. Cherry.

AGRICULTURE AND ECONOMICS POSSIBLE HIGH SCHOOL WORK

Prof. R. A. Burgess, of Merkel, Made Principal of High School, Will Teach Mathematics; Other Elections.

At a meeting of the trustees of the Plainview school district Monday night Prof. R. A. Burgess, of Merkel, was elected principal of the high school. Professor Burgess will also have the classes in mathematics in the high school.

The old teachers of the high-school faculty who were re-elected have not accepted yet, but so far as the board now knows there is yet to elect a teacher of science.

Miss Urshul Sanderson, who was re-elected to teach in the Lamar School, has resigned, and the board elected Miss Melba Wiley, of Canyon, to fill her place.

H. L. Sprott has been elected janitor of the high school. He will serve as janitor for all of the schools during the summer months. W. D. Logsdon was made janitor at Central School and H. C. McKee janitor at Lamar School.

Miss Myrtle Jackson has been definitely assigned as principal of Central School, and has accepted the position.

The trustees received bids for the purchase of the old West Side School Building. The bid of A. G. Harrison of \$675 was accepted. Mr. Harrison will cut the building into four parts and reconstruct them into rent houses on lots which he owns.

All of the equipment for the various laboratories, the library, the class rooms and the auditorium of the new High School has been received except the scenery for the stage of the auditorium. This has been shipped from Los Angeles, and is expected daily.

The school board is anxious to have agriculture and home economics made a part of the high-school work, provided the usual assistance can be obtained from the State for this kind of work. Miss Clara Hooper has been named for the head of the home-economics department provided this work can be made possible.

Dr. Anderson Made County Health Officer Dr. Ramsdell Leaves

In a called session Monday, the County Commissioners accepted the resignation of Dr. R. L. Ramsdell as county health officer and appointed Dr. J. C. Anderson to fill the unexpired term.

Dr. Ramsdell offered as the reason for his resignation the fact that he and his family are moving to San Augustine.

MISSOURI FARMER BUYS 160-ACRE IMPROVED SYNDICATE FARM.

J. E. Courtney and family, of Aldrich, Mo., who have been prospecting here for about ten days, have purchased from the T. L. & D. Co. an improved 160-acre farm five miles southwest of Lockney. They will move to their new farm at once.

Miss Jane Dillon Plainview Chautauqua, May 26, 27, 28, 29, 30, 31 and June 1.

Community Correspondence

IRICK NEWS.

IRICK, May 10.—Madame Rumor reports a wedding will take place in the Irick community in the near future.

The weather is very uncertain, but we are supplied with various kinds, including wind, rain, snow and sunshine.

Our school will close Friday, May 15th.

Mr. and Mrs. George Bullock and sister, Miss Marie Bullock, were callers at the Potts home last Wednesday. Little Mildred Lucille Jackson has a well developed case of measles.

Mr. and Mrs. Fred Lam and small son, Leonard Calvin, were calling on Mr. and Mrs. W. K. Collier Tuesday.

Miss Edith Smith spent the week end with home folks.

Mesdames Geo. Potts, Harry Whitfield and Geo. Bullock and Misses Marie Bullock and Tina Jackson were shopping in Lockney Friday.

Mr. and Mrs. Houston and family left Monday for a visit with friends in New Mexico.

Jack Frost visited the Irick folks last week.

Mr. and Mrs. B. F. Smith entertained a number of friends at a dance Friday evening, in honor of their son's, Everett's, birthday.

The young folks enjoyed a dance last Friday night at the home of Miss Alice Gordon.

RUNNINGWATER ITEMS.

RUNNINGWATER, Texas, May 10.—We had a nice snow here Sunday, wetting the ground for plowing this week. The Runningwater school closed last Friday.

The baseball boys are still winning games, having beaten Plainview Monday, 20 to 15. The fastest game of the season was played here Monday with Kress, 2 to 1.

Mrs. George Lock has moved this week.

No sickness is reported this week.

CONTROLLING GARDEN INSECTS

By N. D. ZUBER,
Texas Department of Agriculture.

During this period of war, high prices and food shortage, campaigns are being waged over the country for the purpose of increased food and feed production. Gardens are being especially agitated. A garden is considered by some to be of secondary importance, yet, if properly cared for, can be made to produce a great deal, and not only feed ourselves, but also aid in feeding our army and navy. Then, food must be sent to the Allies. A garden will occupy relatively little space, but will be worth a great deal.

Gardens are generally marred in progress by insect attacks. Below are given a few suggestions and simple

methods that, if followed out, will enable the control of most of the common garden pests:

Insects are divided into two general groups, relative to their feeding habits: those having chewing mouth parts and those having sucking mouth parts.

Chewing insects, such as the Irish potato beetle, cabbage worms, tomato worms, caterpillars, etc., can be very effectively controlled by spraying the foliage of the plants attacked with a solution of arsenate of lead. Arsenate of lead is used in solution for this purpose at the rate of 1 pound to 25 gallons of water.

Sucking insects, such as the melon louse, cabbage louse, turnip louse, onion thrips, and such other soft-bodied insects that may be found sucking the plant juices, may be effectively controlled by spraying the insects with a nicotine-soap solution. A strong soap wash is also effective. The nicotine-soap solution is an excellent spray for lice, and is prepared by dissolving 1 pound of soap in a gallon of hot water into which is poured one-fourth pint of nicotine-sulphate or "black-leaf 40." Stir well, and add 24 gallons of water. These sprays must be sprayed upon the insects, as its penetration of them is what counts.

The harlequin cabbage bugs and squash bugs cannot be controlled by the above spray when they are full grown, as their bodies are too tough to be penetrated by the spray. On small areas, hand picking of these grown bugs will be necessary. The young bugs will, however, be killed by this

bage, the cabbage bugs may be trapped upon a crop of mustard, planted in early spring for this purpose. After they have collected upon this trap crop, they should be killed by spraying with pure kerosene or some other strong spray.

The squash bugs will be found collected in the early morning under loose clods of earth. A good way to concentrate them is by placing small boards near the foot of the plants that they are attacking. They will be found collected under the boards in the early morning, and the grown bugs can be easily hand picked.

Cutworms, grasshoppers, and "pill bugs" can be baited with a poison bran mash and be effectively checked. It is prepared by mixing 10 pounds of bran, 1 pint of black molasses, one-half pound of arsenate of lead, and the juice of two lemons. Add just enough water to make a mash that can be squeezed out in small balls. Place a ball of the mash near each vine in the late evening.

Address Texas Department of Agriculture for further information.

'SOM MINING.

"Well, Rastus, I hear you are working again. What business are you engaged in?"

"I'se done be engaged in de mining business, sah."

"What kind of mining are you doing, gold, silver, or diamonds?"

"I'se doing kalsomining, sah."—Comus.

Mitchell Junior—a 40 h. p. Six 120-inch Wheelbase

SIXES

\$1460 F. o. b. Racine

7-Passenger—48 Horsepower 127-inch Wheelbase

Exclusive Styles

The Mitchell comes in two sizes now—Mitchell and Mitchell Junior. And in eight body styles. Each body is exclusive—designed by artists, built in our own shops.

Unique Features

There are 31 features in the Mitchell most of which all other cars omit. Things like a power tire pump, dashboard engine primer, reversible headlights, Bate cantilever springs.

This year we add 24 per cent to the luxury cost, which means stunning cars. Savings made in our new body plant pay all this extra cost. And this year, for the first time we announce 100 per cent over-strength in every vital part. Our old margin of safety was 50 per cent.

A Lifetime Car

The result of this double strength is a lifetime car. Over 440 parts are built of toughened steel. All safety parts are vastly oversize. All parts which get a major strain are built of Chrome-Vanadium.

Gears are tested for 50,000 pounds per tooth. Engines are tested for 10,000 miles without evidence of wear. And several Mitchells have already run over 200,000 miles.

No Extra Cost

All these advantages cost you no extra price. They will cost us, on this year's output, about \$4,000,000. But they are paid for by factory savings.

John W. Bate, our great efficiency expert, built and equipped this mammoth plant to build this one type economically. His methods have cut our factory cost in two. These factory savings—unique to Mitchell—pay for all these extras.

New \$1150 Size

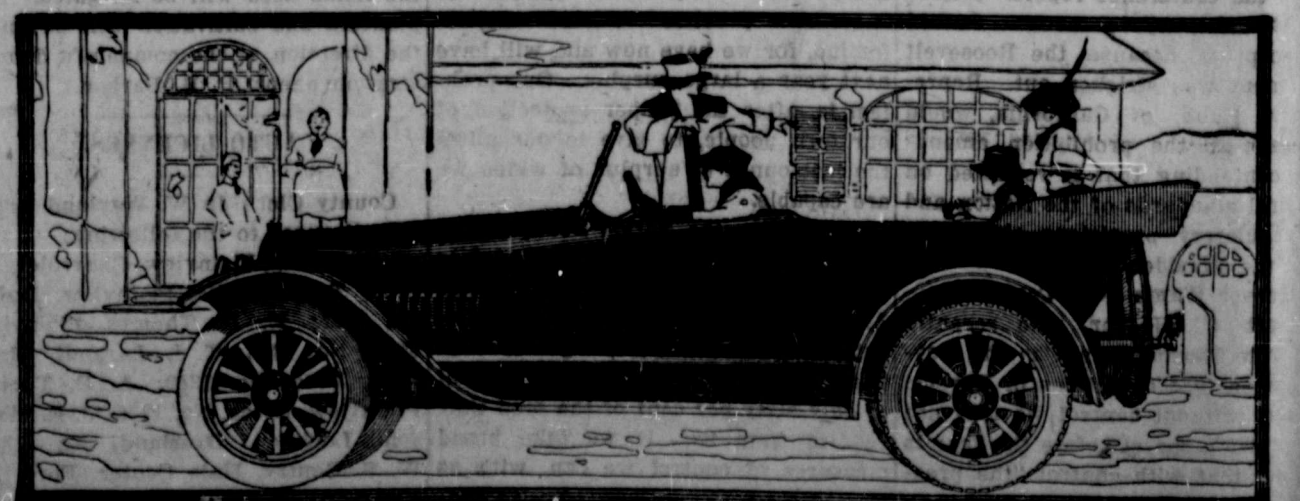

To meet a wide demand we now build two sizes of the Mitchell Six. But the smaller—Mitchell Junior—has a 120-inch wheelbase. See which size you like best, and which style of body. All new models are now on show.

Clark Jewel Oil Stoves

The high speed burners of Clark Jewel Oil Stoves Save Time and Save Oil

No matter what kind of kitchen work is to be done, whether boiling, baking, roasting, washing or ironing, these cool stoves with the hot fire will meet the need.

Two, three or four burner stoves all can be had with high shelves in a handsome Olive Green Enamel or Black Japan.

A Clark Jewel is the best stove to buy.

A White enameled splasher adds greatly to the appearance of a stove. It can easily be fitted to the high shelf and is a clean, sanitary feature.

The addition of a porcelain enameled top and removable drip tray makes a still finer stove.

High speed oil saving burners. Porcelain enameled hoods. A wick stop prevents turning burner too high. Burners seldom need cleaning, but are simple to get at.

Clark Jewel oil stoves are strong and durably made. They are handsomely finished in Black Japan or an attractive Olive Green Color. The burners are short and close to the top. The blue flame strikes the bottom of the vessel direct and gives quick results with little oil.

TO PLAINVIEW.**

No man in the entire British Empire has a reputation equal to Alexander Irvine as a speaker to men, and the men in the trenches listen to his talks with eagerness and delight. For eight months Irvine has been giving his time to the Y. M. C. A. of Great Britain, and during that time has been speaking on an average of twice a day. His coming to the Chautauqua is an event of unusual importance.

Besides "From the Bottom Up," Mr. Irvine is the author of "My Lady of the Chimney Corner." This book has given him a place amongst the literary men of the English-speaking world. It has been read extensively among the working class, and has also been read and enjoyed by the English royal family. The Princess Victoria told the author that it was the finest thing she had ever read of Ireland. The book has passed through its twelfth edition in London during war time. That is true of no other book published since the war began.

Since going to England he has preached in the largest and most exclusive churches in London to big crowds, as well as to great crowds of laboring men and the soldiers in the trenches.

He will deliver his lecture of the same name as his book, "From the Bottom Up," bringing his lecture up to the last minute, and dwelling largely on his work among the soldiers. The lecture is full of laughter and pathos, struggle, failure and success. Through it all is a philosophy of life.

As this is written Alexander Irvine is on his way to this country, and if, through the grace and power of the navies of the United States and the Allies, the German submarines do not sink his boat, and his body does not go to the bottom of the sea, he will be here to address us at the Chautauqua. Although born in Ireland and spending much of his boyhood in all parts of the world, Irvine has spent most of his life in the United States.

**TEXAS U. PROFESSORS GET
BUSY ON GARDENING PLANS.**

AUSTIN, Texas, April 27.—Twenty-five members of the University of Texas faculty who have not gone into a military company this afternoon began a practical project for assisting in the food situation. They have secured six acres of land close to town, and have pledged themselves to spend two hours a day in intensive cultivation of this plot. This afternoon, with hoes and other farming implements, they began the job of putting the land in condition. According to the present plan, the major portion will be put into black-eyes peas, butter beans and sugar beets. All the products of the land will be given to the local Red Cross association and sold for its benefit. The company of faculty men have duly elected officers, who will issue orders to the squad, headed by Prof. H. W. Harper. Prof. W. T. Mather was also active in organizing the faculty farmers.

**TWO YEARS IN BED
AND ROLLING CHAIR.**

Mrs. Wilson Gave Up Hope—Gains 25 Pounds on Tanlac, and Is Now a Well Woman.

"For two years I spent all my time either in the hospital, in bed, or in a rolling chair, and during that time I was given up to die, and I don't guess I would be here now if it hadn't been for Tanlac," said Mrs. E. O. Wilson. Mrs. Wilson is well known in Atlanta, her husband having been employed by The Constitution for a number of years. "I was a great sufferer from chronic indigestion," continued Mr. Wilson, and don't guess anybody ever had to go through with what I did. I was very weak and nervous, and at times had those dreadful smothering sensations

to the point of fainting. I had dreadful headaches, severe pains in my back and over my kidneys, and my joints ached all the time. For two years I had to live entirely on boiled milk, toast and soft-boiled eggs, and even that didn't digest well, and would sour on my stomach. I didn't know what it was to get a good night's sleep. I took one kind of medicine after another, until our house was almost filled with empty bottles, but instead of improving I was getting worse all the time. Finally they took me to the hospital for treatment, and I lay there for five long months, but even that didn't make me well. It was taking nearly every cent of my husband's wages to pay my doctor and drug bills. Our drug bill alone amounted to \$14 or \$15 a month, and one doctor bill amounted to \$108.

"It looked like everything had failed to help me, and I had about given up all hope when one day my husband brought a bottle of Tanlac home with him and asked me to take it. He said he had been reading and hearing a lot of good things about it, and didn't see any reason why it shouldn't help me. I was confined to my rolling chair when I began taking it.

"Do I look like an invalid now? I certainly don't feel like one, and I have actually gained twenty-five (25) pounds on eleven bottles of Tanlac, and feel as well as I ever did in my life. I can eat anything I want—such things as meat, turnips, hard-boiled eggs don't hurt me a particle—and I sleep as good as I did when I was a girl in my teens. I can get about as well as anybody, and just the other day I walked down town, and am running around the neighborhood calling on my friends nearly all the time now. I haven't a pain about me. I believe I am the happiest woman in Atlanta, and I think I have a right to be. I think my recovery is almost a miracle, and everybody in our neighborhood thinks the same."

Tanlac is sold in Plainview by Long-Harp Drug Company.—Advertisement.

"KNOW THYSELF."

A stout, baggage-laden, old English gentleman was trying to make a hurried exit from a railway carriage. At the door he stumbled on the foot of a brawny Scott.

"Hoots, toots, mon!" groaned the Highlander. "Can a yo look waur y're going? Hoot, mon, hoot!"

The burdened traveler slammed the door behind him and shouted through the window:

"Hoot yourself! I am a traveler, not an automobile."—Argonaut.

**Electric Lights Make Every House
the "BRIGHTEST HOUSE"**

No longer need you live in a darkened home—no longer need you use dangerous, dirty and unsanitary lamps. For now, no matter where you live—city or ranch—mountain or dale, you can have electric lights and electricity in your home. You can make it yourself—as easily as you hitch up old Dobbin—and all the city comforts are yours at the snap of a switch. A

Western Electric

24-Hour Sunshine Plant

Can be easily installed on your farm. You'll be surprised how very simple these wonderful plants are to install. You'll be surprised too, when you see how perfectly simple they are to operate, and you'll have the surprise of your life when you find what a wonderful change electric lights will make in your barn, in your home and wherever you install them!

You must realize too, that from the same sockets that supply the lights you can run a sewing machine, a washing machine, an electric iron, a vacuum cleaner or any of the other household helps. All you have to do is unscrew the light and then screw in the plug and snap on the switch and electricity does the rest.

There's nothing in all the world that will give a light as good as electricity and at the same time operate machines that will clean your home, wash your clothes and do the many little irksome tasks that make housekeeping on the farm a drudgery.

You Can Have This Wonderful Plant Right on Your Farm—Think of It

**We Are Selling Over 150,000
Plants Every Week**

To folks who demand quality plants, strong, hardy, well rooted plants—no hot house weaklings. Come where quality reigns supreme, and prices please.

MAXWELL SO GIVE \$5,000 IN PRIZES IN OWNER CONTESTS.

To substantiate among motorists everywhere their claim of the Maxwell's championship of the industry in low operating upkeep, upward of 2,000 Maxwell distributors and dealers will next month carry out in every State in the Union and throughout the eight Provinces of Canada a public and wholesale demonstration of the Maxwell's ability to stretch its fuel into the greatest known mix of gasoline and motor car distance.

Five thousand dollars in cash prizes are to be given away among the dealers, it is made known, together with an award of the National Maxwell Economy Championship Cup. The

cup is to be the trophy of the Maxwell dealer who attains the highest mileage to be recorded in the event, and with it he will capture a substantial award in gold.

The public and widespread demonstration is to be known as the National Maxwell Economy Proof Day, and the wholesale contest is to take place on Wednesday, May 23.

Owners' cars are to be used entirely, the rules providing that each dealer entering agrees to arrange for the use of two Maxwell five-passenger touring cars now in owner service. These he will borrow for the day. In each car there must be, according to the rules, four full-grown passengers, the driver and three official observers. In each town and city the two cars will make

the run together, each carrying its observers, who thus will check not only their own mount, but the other as well.

Results will be unofficial, it is stated, if the dealer participant fails to arrange for his observers to be either newspaper men, motor-club or board-of-commerce representatives or well known public officials.

Two one-gallon gasoline cans are to be provided each dealer participating. These will attach to the windshield. Instructions mailed broadcast by the Maxwell Motor Sales Corporation, Detroit, point out that the records will be disqualified unless the gasoline used is measured into the can on each of the two cars by one or more of the official observers arranged for.

In each instance the report of the dealer and his observers as forwarded to the Maxwell general offices in Detroit must bear the affidavits of the three observers. Otherwise it will not be accepted as official by the Maxwell Company.

Prizes are to be given under five dealer classifications. The top award in each classification is \$200 in gold, with a second prize of \$150 in gold. The third, fourth and fifth prizes will be \$100 in gold each. Then follow two \$75 and three \$50 awards, making ten in all for each of the five groups.

Since announcement of the prize offer, the return of the company's official entry blanks has been such as to indicate the demonstration will be almost unanimous among the thousands of Maxwell representatives. It already

has been made certain that the event will outstrip any similar undertaking in the history of the industry.

What economy attainments will be necessary to capture the prizes are understood throughout the entire Maxwell organization, for the dealers are familiar with the marks of 44 miles, in Michigan, and 45.6 miles, in California, accomplished by Ray McNamara, while only recently a Maxwell in Southern California captured a cup and hung up the record of 46.5 miles on one gallon, the highest official mileage so far attained with a Maxwell and one gallon of fuel, as far as the Maxwell offices in Detroit have record.

The year 1917 marks the crest of a wave which has swept into enormous proportions in the last decade, and which voices the challenge of Western musical audiences. Increasingly they are demanding "nothing but the best," and the standards of excellence are mounting steadily higher. A timely answer to that challenge comes in a remarkable company of artists who will be presented in concert under the personal direction of Mr. Charles F. Horner. Mr. Harrison Keller, violinist, and Mr. Stewart Wille, pianist, hold an enviable position in Eastern musical circles, and have combined their talents and energies in perfecting the art of interpreting the masterpieces, the beauties of which are so well known to music lovers. Splendid training and enthusiastic public approval have carried them to the front rank of American musicians.

PHONE 286 :-: **H. D. HYDE, Plumber** :-: PHONE 286

TO INCREASE THE SUPPLY OF TIN CANS.

The steps that have been taken, to increase the supply of tin cans for the coming packing season were announced today by Secretary Redfield. They consist principally in speeding up the manufacture of tinplate, in arrangements by the manufacturers whereby much of the tinplate ordinarily used in packing non-perishable goods will be diverted to the packers of perishable foods, and in the introduction of suitable substitute containers for many lines of non-perishable goods usually packed in tin. At present the canners are demanding 40 per cent more cans than the can manufacturers feel that they are able to promise.

The greatest saving in tinplate can be effected by using substitute containers for non-perishable goods, and the Department of Commerce, through the Bureau of Foreign and Domestic Commerce, is now preparing suggestions along this line. A great many familiar articles are put up in tin containers which can well be put up otherwise. Good substitutes are now in use for packing tobacco, coffee, tea, spices, baking powder, soap powder, white lead, powdered paints, syrup, cocoa, cheese, lard, butter, and peanut butter. It is suggested that packers of such products consider carefully the use of such substitutes before ordering any further supplies of tin cans. The Department will be glad to assist enquirers who may state the special uses for which they wish containers to replace tin during the present emergency.

In some instances the use of substitutes may mean temporary inconvenience, but no patriotic manufacturer will hesitate to "do his bit" to prevent a serious food shortage next winter. Some manufacturers who have been approached by the Department will be able to use substitutes without any sacrifice whatever. In fact, some of them will welcome an opportunity to abandon the elaborate containers that have come into use largely for advertising purposes during the last few years. A number of important concerns are already notifying their trade that in the future their goods will be delivered in substitute containers. A number of tinplate manufacturers have agreed to co-operate by refusing for the present to enter into new contracts for the sale of tinplate for use in canning non-perishable goods.

Economy in the manufacture of tinplate and tin cans is of prime importance and the manufacturers are making special efforts to prevent waste in the mills and factories.

The present high price of tin is attributed to the unusual demands of the last two or three years, combined with the present difficulty of getting the supplies from the Straits Settlements and from the tin refiners in Europe. Practically all of the world's supply of tin is mined in the Straits Settlements and Bolivia. For a great many years European firms have handled the output of both countries and

sold the refined product to tinplate manufacturers in Europe and the United States, although since the war started a smelting plant has been erected in New Jersey and the ore is now brought here direct from Bolivia.

Mr. and Mrs. Edwin White and baby have gone to Paris, Texas, where they will visit their parents.

TRUTH

As its advertisement—so the car. An honest announcement goes with an honest car.

Truth is the eternal test.

You will never read a Chevrolet statement making any extravagant claim.

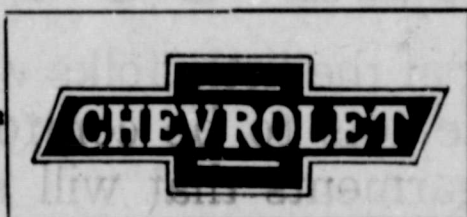

True, we have claimed certain qualities for our car—superior motor-power, easy riding comfort, low cost of upkeep—but we have always been prepared to support our statement with the proof.

We claim that the Chevrolet model—now as always—stands for the highest motor value in its price class.

Test our statement—see the Chevrolet car, ride in it.

You will find—as thousands of others have—that we have spoken the truth.

The Car Everybody Admires

EVERYBODY KNOWS VALVE-IN-HEAD MEANS BUICK

Buick owners appreciate the fact that they never have to apologize for lack of harmony of appearance, of consistency, of performance in their car.

Symmetrical body lines, excellence of genuine leather upholstery, completeness of detail and finish, with a general air of refined elegance, commanded favorable comment and admiration.

The quiet simply controlled Buick Valve-in-Head motor commands respect for its never failing ability to furnish power for every emergency. To know that they have at all times a surplus of power under their control for mountainous country or hard going, gives the driver of a Buick Valve-in-Head complete motoring satisfaction and affords genuine pleasure.

THE SCOUT'S PLACE IN THE WAR.

The seriousness of the present situation—the United States having declared that a state of war exists between this country and Germany—is not the lack of national resources, but the lack of an adequate system for utilizing them.

We have men, money, materials. Misplacement is the menace. Many have understood, erroneously, that the Boy Scout movement has something to do with military training; that somewhere underlying the training there is a fitting for military service. A Boy Scout may serve his country patriotically in many ways, but no part of his program includes the carrying of a gun.

The Boy Scout is trained for certain service. Efficiency consists in giving him immediate opportunity for performing that service.

His place is at home—or near it. His function is to do a boy's work under a mature man's supervision.

Just at present the Boy Scouts of America are under call from their chief executive and from the United States Department of Agriculture to perform a service of the production of food. "Every Scout to Feed a Soldier" is the slogan of the Scouts. A Scout with a hoe may equal a man with a gun.

In this work of production he is urged to interest others. For every soldier on the firing line, ten persons must provide. The Scout is the leader to interest nine others in utilizing ground which would not otherwise be gardened.

This particular service which the Scouts have been called upon to perform is a voluntary service. It is to be concerned in by the parents of the boys. It is not a war order. It is an appeal to American patriotism and the loyalty and the loyalty of the boy who swore that he "would do his duty to God and his country."

Surely each of us can find pleasure and satisfaction in encouraging the Plainview Scouts in their gardening work and to count ourselves among the nine who will enlist under them to "feed a soldier."

"BUY IT MADE IN TEXAS."

This week there convenes in Wichita Falls the annual "Buy It Made in Texas" Convention. Texas manufacturers and Texas jobbers are pushing made-in-Texas goods. Texas people—many of them—insist on the made-in-Texas product and give it the benefit of even a little difference in price, just to buy it made in Texas. This is a commendable spirit—subsidizing Texas industry by paying a little premium, if necessary, for Texas products. In the course of time the cost will be reduced, for Texas will know more about production, will increase the quantity and will give Texans the benefit of large-scale production. But there are many products of Texas manufacture which sell on the open market as cheaply as the foreign product.

Sheeting from the Posi City mills is of a good quality and the price is right. Many a Texas home is now using made-in-Texas sheets and other cotton fabrics.

Texas imports annually more than fifty million dollars' worth of pork products. Yet Texas leads in production of hogs. We buy in Plainview products of the hog prepared for the market in foreign packing houses; yet this is the premier hog-producing section of the Southwest.

Texas imports annually, according to Professor T. S. Minter, of the State Department of Agriculture, \$3,500,000 worth of black-eyed peas. Texas soil will produce peas and beans in abundance.

Texas can feed and clothe herself. Diversified farming will reduce to a minimum the importation of food products. More feed and food is a good slogan for Texas farms. Protection of infant Texas industries is a good commercial policy for the State. The retail merchants can help by featuring made-in-Texas goods. The consumer can be of assistance by insisting on made-in-Texas articles, letting his dealer know that he prefers the made-in-Texas brand.

"Buy It Made in Texas."

ABERNATHY ORGANIZES FARM-LOAN ASSOCIATION.

The unit of the farm-loan association to be known as the Abernathy Farm-Loan Association was organized Saturday.

It started off with fourteen members, as follows: R. Neis, A. Landers, J. B. Jones, C. G. Goodman, J. J. Merrill, H. D. Rosser, Fritz Fuchs, Jr., J. L. Lowery, J. P. Tarleton, W. C. Norwood, R. E. Echols, M. Goebel, Joe Martin, Jr., and Jack Barton.

The following officers were elected: C. G. Goodman, president; Fritz Fuchs, Jr., vice president, and W. A. Richter, secretary-treasurer. C. G. Goodman, A. Landers, J. L. Lowery, R. Neis and H. D. Rosser are directors.

The loan committee of the association was chosen as follows: S. B. Jones, C. G. Goodman and Fritz Fuchs, Jr., and J. L. Lowery, R. Neis and H. D. Rosser were chosen as substitute committees.

The loans asked for totaled \$68,750.00, and stock in the association \$3,437.50, being 687½ shares.—Abernathy Breeze.

HALE COUNTY WOMEN ATTEND TEXAS FEDERATION OF WOMEN'S CLUBS, AT CLARENDON, MAY 4-5.

The Hale County Federation of Women's Clubs was represented last week at the District Federation, at Clarendon, by its president and vice president, Mrs. B. M. Johnson, of Hale Center, and Mrs. J. W. Wayland, of Plainview.

The convention opened on Thursday evening, with a reception at the beautiful home of Mrs. J. B. McClelland. More than 150 delegates and guests were present.

Friday morning the main features of the program were addresses of welcome by T. F. Connelly, mayor; Dr. B. L. Jenkins, for the Commercial Club, and Miss Mary McLean, for the women of Clarendon, with response for the district by Mrs. J. A. Britain, of Seymour, and response from the State President, Mrs. Fred Fleming, of Dallas. These were followed by a very interesting historical sketch of Donley County and

Clarendon, by Mrs. J. N. Eddins.

Much of the time was devoted to club reports and reports of committees. These were far from being dull or tiresome. They were full of practical suggestions as to what women can do for civic improvement, home economics, conservation, civil-service reform, public health, the securing of better schools and libraries, and the promotion of art and music. These are only part of the lines of work done by the various clubs represented. Some were purely self-improvement clubs, while many had raised large sums for charity.

Surely it was an important event in our lives to have the privilege of seeing and hearing one of the most widely known and best loved women among club workers in America today, Mrs. Percy V. Pennybacker, of Austin, who has served as National President of Women's Clubs.

Mrs. Pennybacker brought a message directly from the United States Government to the women of Texas, urging the production and conservation of foodstuffs during this great crisis. She said: "This war is to be fought in the furrows and not in the trenches." She made an eloquent appeal to the women of Texas to do all in their power to eliminate the suffering of the starving men, women and children of our allies. Mrs. Pennybacker urged that we keep cheerful and do not give up all social gatherings. She gave a most effective talk on the importance of good cheer, love and affection in the home, and the need of rational patriotism. We should not make a young man feel a lack of patriotism because he chooses to serve his country as a producer rather than rushing to enlist.

Other splendid addresses were given by State President Mrs. Fleming, of Dallas; District President Mrs. R. W. Potter, of Bowie; Mrs. R. E. Buchanan, of Fort Worth, Mrs. W. A. Warner, of Claude, and many others.

Mrs. Warner made an earnest appeal for prohibition of the manufacture of liquor during the war. She said: "Statistics show us that 600,000,000 bushels of grain last year was used for the manufacture of liquor. One can readily see how much this amount is now needed for bread, and it would certainly go a long way in stopping the famine which will eventually come if some steps are not taken to use every bushel of grain practically. We are to feed our allies, we are to feed our soldiers, and Texas not only must feed herself, but must assist in helping the other States to feed those who are striving to make the world a democracy."

The keynote of the convention was

the producing and conserving of food. The plan is to work under the supervision of Miss Mary Gearing, of the Home Economics Department of our State University. A chairman is to be appointed in each county to organize different communities. Mrs. J. W. Wayland, of Plainview, was asked to accept the chairmanship of Hale County.

It may be encouraging to the club women of our county to know that the work accomplished by them, as reported by the delegates, received much praise. Only a few county clubs were represented, the 49 delegates being mainly from individual clubs.

Mrs. J. W. Field, of Haskell, was elected district president.

Weatherford was selected as the next meeting place. The State convention will be held at Waco next October.

MRS. B. M. JOHNSON, Delegate.

\$8,000 ACRES LAND FOR SALE.

Will sell 8,000 acres or more under the crop-payment plan. We have recently sold two and one-half sections under this plan, which is the only way for a man with limited means to buy, which is as follows:

You make a small cash payment down, and the balance is paid out by farming in wheat and turning in the proceeds (without interest) until the land is paid for, we receiving the proceeds from the wheat grown on half of the land purchased. The other half of the tract can be used by the purchaser for his benefit, as he sees fit.

We have succeeded in getting listings as above stated in Hale, Lamb, Castro and Swisher counties.

Prices on these tracts are absolutely right.

FARMERS' LAND LEAGUE,
Next Door to Herald Office,
Plainview, Texas.

MARRIAGE LICENSES.

County Clerk Jo W. Wayland has issued marriage licenses to:

S. T. Anderson and Miss Oscie Clendenen;

B. E. Cypert and Miss Goldie Brown; P. M. German and Miss Alice Jane Connolly;

C. W. Allen and Miss Alma Roberts; J. R. Morris and Miss Kayte White.

Stockton Henry, of Lubbock, spent Wednesday and Thursday visiting the family of E. Graham.

Mrs. Lee Miller, who has been visiting Mrs. McVickers, returned to her home, in Hart, today.

Diamond

"How Much Should a Tire Cost?"

J. F. Garrison

THIS may be a good deal like Abraham Lincoln's question: "How long should a man's legs be?" And it can be answered almost as shortly.

You don't need to pay a cent more than the price of a Diamond Tire for all the service and mileage you can ever hope to get from any tire.

BLACK SQUEEGEE TREAD
RED SIDE WALLS

Come into our store today and learn the "Fair List" price for your size. We will be glad to tell you, if we can, how to get more mileage out of the tires now on your car.

Every Diamond Tire must deliver full value in service. If ever a Diamond Tire fails, a cheerful, willing adjustment will be promptly made.

C. G. Electric Co.
Plainview, Texas.

ANNOUNCEMENTS.

Wednesday afternoon from three to six o'clock the ladies of the Methodist Church will hold an "Experience Meeting." Each lady is to earn a dollar and tell in rhyme how it was earned.

MRS. SANSOM HOSTESS.

Mrs. D. F. Sansom was hostess at a theatre party given at The Olympic Theatre Tuesday to those members of the Highland Club who were prevented from accepting her hospitality at the theatre party at The Mae I. Monday.

DAISY CLUB.

The Daisy Club met Saturday, with Mrs. Fred Cousineau. Five Hundred was played during the afternoon, after which was served a two-course luncheon.

The guests of the members were Misses Flora Mae Scudder, Ruby Miller and Louise Donohoo.

WEDNESDAY BRIDGE CLUB.

Plainview is justly proud of the patriotism and loyalty that its women are showing in their attitude towards food conservation. Like public-spirited women all over the United States, the social leaders are glad to "do their bit" by not wasting foodstuffs and by dispensing with refreshments at their social affairs.

The keynote of the meeting of the Wednesday Bridge Club with its president, Mrs. George Saigling, was loyalty and service. Groups of American flags, combined with those of our allies, adorned the rooms, and tiny American flags were given as favors.

The substitutes for the afternoon's games were Miss Lena Williams and Mrs. Tom Carter.

The next meeting will be with Miss Nelle Sansom.

RECITAL.

The pupils of Mrs. Mewshaw's High School Class in Expression and Physical Education and the High School pupils of Miss Nelle Sansom's music class will give a joint recital in the High School auditorium this evening at 8:30 o'clock.

The program will consist of one-act sketches, readings and folk dances by the physical-education class, interspersed with musical numbers.

On Monday evening, May 13th, the junior pupils of Mrs. Mewshaw and of Miss Sansom will give a similar recital, in the auditorium of the High School.

There will be no charge for admission.

HOME ECONOMICS CLUB.

The Home Economics Club met Tuesday afternoon, at the home of Mrs. A. M. McMillan.

Due to vacancies, Mrs. J. F. Duncan, Jr., was made president of the club and Mrs. McMillan vice president.

The club passed a resolution pledging themselves to the strictest economy of foodstuffs.

The lesson for the next year will be "Child Welfare."

The lesson for this meeting was "The Care of the Invalid"—(a) "General Principles"; (b) "The Invalid Tray." The paper was read by Mrs. G. Graham.

The next meeting will be with Mrs. George Saigling, and Mrs. W. W. Connell will be leader.

WEDDING ANNIVERSARY DINNER.

Mr. and Mrs. C. R. Houston entertained with a four-course, seven-o'clock dinner Tuesday evening, commemorating their sixth wedding anniversary.

Decorations were of cut flowers, carrying out the color scheme of pink and white.

Covers were laid for eight—the host and hostess, Mr. and Mrs. W. J. Klinger and Mr. and Mrs. R. D. Gibbs, two of the season's brides and grooms; Miss Leona Houston and A. P. Robinson.

The after-dinner hours were spent in merry conversation and games.

HIGHLAND CLUB MEETING.

Through an oversight, mention failed to be made of the meeting of the Highland Club last week. The club met with Mrs. L. T. Mayhugh, 601 Eleventh Street. To accentuate the note of loyalty to the Stars and Stripes, Mrs. Mayhugh had arranged numerous emblems of Old Glory in the rooms, and a picture of President Wilson, supported by the Red, White and Blue, occupied a prominent position.

After a series of pleasant games, Miss Madge May gave several vocal selections, accompanied by Mrs. Carter.

In accordance with the resolution adopted by the National League of Women's Service of Plainview, no refreshments were served.

The guests were Misses Pauline Milwee and Madge May and Mrs. George Saigling.

C. W. B. M. MET WITH MRS. B. H. TOWERY.

The C. W. B. M. of the Christian Church met Monday afternoon with Mrs. B. H. Towery, at her home, east of town.

Mrs. J. M. Adams was leader. The study for the afternoon was Argentina. Mrs. E. S. Keys gave a very interesting paper on "The Geographical Conditions of Argentina," and Mrs. Griffin told about the religious, social and political conditions.

A salad course was served.

W. M. A. TO MEET MONDAY.

The Woman's Missionary Auxiliary will meet Monday afternoon at 3 o'clock, at the church. The program follows:

Subject—"The Kingdom of God in the Dark Continent; Our Brother in Black in the Kingdom of God."

Bible Lesson—"Following Christ in Self Giving"—Mrs. John Lucas.

"Africa at Home"—Mrs. Dick Bryan. "Bishop Lambrecht and the Opening of the work in Africa"—Mrs. Polk Bryan.

"John Wesley Gilbert"—Mrs. T. E. Richards.

"A Visit to the Presbyterian Mission"—Mrs. W. N. McDonauld.

Round-Table Discussion—"Our Duty to the Negro"—Mrs. A. L. McDonauld.

Miss Ophelia Donnell, of Wayland College, left Thursday for her home, in Belton, Texas.

Clint Shepard left for San Antonio Tuesday morning to arrange to buy horses and mules for the U. S. Army.

The Right Model For Every Type of Figure May Be Had Here in the Famous

Frolaset

PRONOUNCED FRO-LA-SAY

Front Corsets Laced

Style without the sacrifice of comfort.

Comfort without any sacrifice of style.

Improved figure lines can only result from improvement in your corseting. And because Frolaset front lacing corsets are the most improved type of corsets on the market today, we recommend them to women who want their figures to appear to best possible advantage.

Your new outer apparel, if fitted over a Frolaset front lacing corset, will have a foundation that will greatly increase its effectiveness, accentuating every smart line and giving even the most inexpensive apparel expensive appearing lines.

Splendid values at \$2, \$3, \$3.50, \$5, \$6.50 and up

EPWORTH LEAGUE PROGRAM

FOR SUNDAY, MAY 13.

For the meeting of the Epworth League on next Sunday evening, May 13, at the Methodist Church, a special "Anniversary Day" program has been arranged, which follows:

- Opening Hymn—No. 451.
- Responsive Reading—Psalm 110.
- "Gloria Patria."
- Lord's Prayer.
- Doxology.
- Old Testament Scripture Lesson—Isaiah 59:1-13—Miss Maxie Speer, Leader.
- Solo—Miss Ada Clark.
- New Testament Scripture Lesson—Rev. 22:1-7—Miss Eva Jones, Era Agent.
- Address by the President, Ralph Porter.

General Subject—"Fruits of the Epworth Tree"—

1. "Spiritual Work"—J. E. Mobley.
2. "Social Service"—A. E. Harris.
3. "Recreation and Culture"—Miss Della Ansley.
4. "Missionary Work"—Miss Martilla Espy.

Special Offering for League Extension.
Call for new members.
League Benediction.

HALCYON CLUB.

The Halcyon Club met Wednesday afternoon, at the home of Mrs. J. P. Davis. Forty-two was played, and Mrs. Grady Pipkin won high score.

The guests of the club members were Mrs. J. O. Wyckoff, Mrs. E. Lee Dye and Mrs. Chas. McMormack. A salad and ice course was served.

Miss Mary Cox has accepted a position as stenographer with the Santa Fe. Miss Maude Kirk left Thursday for Canyon, where she will visit.

B. J. Thomas, a teacher at Wayland College, left Thursday morning for his home, at San Marcos, Texas, where he will visit before going to the training camp of the Officers' Reserve Corps at Leon Springs.

Miss Clara Hooper left Thursday morning for Sweetwater, where she will visit friends.

Miss Pearl Wright, who taught at Runnigwater the past winter, left Plainview Thursday morning for her home, in Hale Center.

Miss Minnie Hedges left Thursday for Lubbock.

Mrs. Taylor, of Eastland, Texas, passed through Plainview Thursday on her way to Floydada.

Miss Irma Oxford, who has been visiting Mrs. T. B. Richards, returned to her home, in Hale Center, Thursday.

Mrs. Ed Hayes and son are visiting Mrs. W. W. Wise, in the Liberty community.

Mr. and Mrs. R. T. Stephens have gone to Tulsa, Oklahoma, where they will make their home.

Miss Cora Anderson, who has been attending school here, left Thursday morning for Tulsa, where she will visit before going to her home, in Vigo Park.

Miss Adie Davidge and Mrs. W. H. Dickerson and children have gone to Clarendon, where they will visit the Misses Story before going to Paris, Texas.

Mrs. E. J. Woodruff returned home Monday from a business trip to Oklahoma City.

Mrs. A. B. DeWald, of Abernathy, was shopping in Plainview yesterday.

Mrs. A. B. Neal and daughter, of Denver, Colo., who has been visiting Mrs. M. T. Griffin, left today for their home. Mrs. Griffin and son went with them.

Mrs. W. C. Turner and baby went to Amarillo today to visit her aunt, Mrs. A. E. Morgan.

L. L. Johnson, agricultural demonstrator for the Santa Fe, is here today.

Dr. and Mrs. R. L. Ramsdell left Sunday for St. Augustine, where they will make their home.

FLETCHER.

The coming of Thomas Brooks Fletcher to any community is an event long to be remembered, and his lectures have that vital element which creates an incentive for higher ideas and more lofty emotions among the people who hear him. His lecture is one which makes the Chautauqua worth while, and memories of it create a desire for another such program.

Down in Paris, Tenn., B. Franklin Hunter was so impressed with the lecture by Thomas Brooks Fletcher that he wrote a poetic tribute, of six verses. In closing the remarkable tribute to Fletcher, he said:

"Chautauqua fields are vast, go forth! do well thy sowing;

The victory waits for those who do and dare.

Thou canst not fail. Be strong, strive on, forever knowing

Truth holds the laurels that her sons will wear."

That is part of a poet's tribute to Thomas Brooks Fletcher as a dramatic lecturer, orator, and as a man, from

a poet's viewpoint. But more than one million people in the United States and Canada have paid a tribute to the Thomas Brooks Fletcher lectures by paying money to hear them. The local Chautauqua program will present no greater number than the lecture by this famed orator. No attraction can be purchased that contains more "good things" than a lecture by Thomas Brooks Fletcher.

A HARD BLOW.

The politician rushed past the official Cerberus into the editorial sanctum.

"What do you mean?" he roared. "What do you mean by insulting me as you did in last night's Clamor?"

"Just a moment," replied the editor. "Didn't the story appear as you gave it to us, namely, that you had resigned as city treasurer?"

"It did. But you put it under the head 'Public Improvements.'—Everybody's."

Miss Ona Hanna, of Floydada, will attend the commencement exercises at Canyon.

Miss Elizabeth Carpenter went to Vernon, Texas, today to visit her brother, Paul Carpenter.

LIKE TURKEY DINNERS? There will be an old-fashioned turkey dinner served at HOTEL BROADWAY Sunday. Price, 50c. We will appreciate your patronage. It.

ANNUAL MUSICAL PROGRAM.

Miss Bettie Clements' music class will give their annual musical recital on Tuesday evening, May 15th, at the Methodist Church. Every one is welcome. No charge for admission. It.

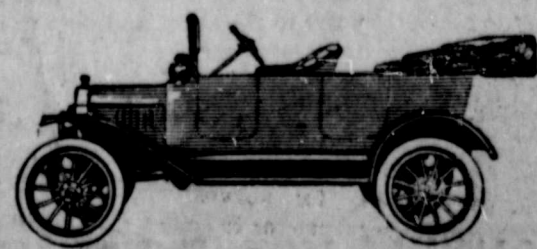

FOR SALE—A full-blood White Wyandotte cockerel and a few White Wyandotte eggs for setting. Will exchange either for setting hens. E. B. MILLER, Herald Office. 2t-pd.

You can not expect your Ford car to give the service and endurance you demand unless you have it cared for by men experienced in Ford methods. Runabout \$345, Touring Car \$360, Sedan \$645, Coupelet \$505, Town Car \$595—all f. o. b. Detroit. On display and for sale by

BARKER & WINN

THE KANSAS CITY STOCK MARKET IN DETAIL.

KANSAS CITY STOCK YARDS.
May 7.—Cattle receipts of 14,000 today included 2,300 head of stock cattle that passed through yesterday, but that left a liberal number, and a heavy run at Chicago weakened buyers here, resulting in a slight decline on some of the steers, many of the steers steady, butcher cattle and stockers and feeders strong. Thirteen thousand hogs sold 10 cents lower, top \$15.75, and four thousand sheep sold strong, Arizona spring lambs \$16.00.

Beef Cattle.

The best cattle here were pulp-fed steers from Colorado and Western Nebraska, 18 cars of these selling at \$12.00 to \$12.25, best natives here at \$11.75 to \$12.00, short-fed natives \$10.50 to \$11.50, light-weight cattle without much flesh \$9.00 to \$10.00. The supply of pulp-fed cattle was 35 cars, about one-half as many as on recent Mondays. Few are in sight for later this week, and the supply of that kind will be very light after this week. Butcher cattle hold their strength, the search for substitutes for steers at this season always resulting in high prices for cows, heifers and bulls. Good cows sell around \$10.00, bulls up to \$10.00, heifers \$11.35, veal calves up to \$13.50.

Six loads of stock steers sold at \$10.30 the first thing this morning, a strong price, and fancy stock heifers at \$10.25. Few stock steers sell under \$8.00, and stock cows commence around \$7.00. Feeding steers sell at \$9.50 to \$10.50, a few fleshy steers in

the last week up to \$11.25. Prices are 25 to 35 cents higher than a week ago, with a very good demand.

A good run at Chicago today weakened the situation, and sales here were 10 cents lower, top \$15.75, medium weights up to \$15.70, best light weights \$15.40, bulk of sales \$15.00 to \$15.75. Supplies here are augmented by daily arrivals of shipments of hogs from Western-range States, California, Arizona, New Mexico, and Colorado consignments having become regular incidents. These hogs are generally light weight, but that class is meeting a good demand from bacon makers, and sales of hogs 150 pounds and upwards average 16 to 25 cents higher than last week. Pigs sell at \$11.50 to \$13.75 in most cases.

Choice woolled lambs sold up to \$17.60 last week, and lambs of that grade would bring more money today, if there were any offered. Arizona and California spring lambs each reached \$16.50 last week, some Arizonas not quite so good here today at \$16.00. Texas is the big disappointment, sending only very small supplies of common sheep, and few goats. One double deck of Angora brushers, 67 pounds average, sold at \$9.00 last week. Twenty thousand brusher goats would be required to fill orders already held here.

"PEGGY" HILL.

Her folks named her "Phoebe Clara" Hill, but her friends made it "Peggy," and "Peggy" stuck. It seems to fit her better, for "Peggy" is just as jolly, just

as clever and just as entertaining as could be imagined, and, besides, the little "Dutch" girl is "Peggy" in one of the characters she frequently represents, and there is nothing like "reality," even on the platform.

"Peggy" has been carrying the gospel of sweet music and the philosophy of sunshine over the Chautauqua and Lyceum route for several years, and a big newspaper could be filled with favorable comments which have been made concerning her.

FOR SALE BY OWNER; IMMEDIATE POSSESSION.

2,050 acres patented land 7 miles north of Dawn and 9 miles south of Widorado, in Deaf Smith County, on public road, with 1,600 acres leased land; 200 acres being planted to row crops. Good school on adjoining land. Four good wells, 4 pastures, shallow water, good fences, good corrals and

KILL YOUR PRAIRIE DOGS

with our safety gas ball; simple to use, and cheaper than poisons. Largest percentage of kills. National "HIGHWAY" SIX

Why Not Drive the Best?

THE size of a man's hat does not indicate his mental capacity. Other cars may have dimensions similar to those of the National—but that does not prove the quality the same.

There is more to a National than power, speed, stamina, quiet operation, easy riding and durability. There is more to a National than beauty of body design and comfort of seating arrangement.

National enjoys a unique and distinct vantage among motor cars. It is the leader—the pioneer of Sixes—the international conqueror in contests—the car that sets the standards for mechanical efficiency and styles for body designs.

When you drive a National you know it is as new in every respect and as perfect in every detail as science has attained; as advanced and improved as possible without your risking experiments.

National built America's first stock sixes; and has devoted more than sixteen years to the study and betterment of engines for motor cars.

The Highway Six with its many new refinements and added luxuries is a step forward in National's ascendancy.

Nothing is omitted; nothing more could be asked for.

The more serious the purchase of a car is to your family, the more seriously you should consider Overland.

Consider what a guarantee it is to own a car backed by a company with \$68,000,000 assets; with an army of workmen that would populate a good sized city; with acres and acres of modern factories, and more than 4,000 dealers and branches.

The magnitude of The Willys-Overland Company is due to its management: due to the practical policy of utilizing prodigious production as a means to higher quality and lower prices.

The Willys-Overland Company guards its obligation to the owners of its cars as seriously as a conservative bank protects the interest of its depositors, large and small.

The Willys-Overland is predicated upon the need for cars of beauty, comfort and convenience in addition to long-lived utility.

The average family can participate in the luxuries of motoring because hundreds of thousands of other owners enable The Willys-Overland Company to distribute and bring down costs.

Such a car as the Overland Big Four would never have been possible at such a price as \$895 had it not been for over 300,000 similar Overlands which have already gone into service.

Come in and see the Overland Big Four and the most comprehensive line of motor cars ever built by any one producer.

CALOMEL DYNAMITES
A SLUGGISH LIVER

Crashes Into Sour Bile Making You Sick, and You Lose a Day's Work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50-cent bottle of Dodson's Liver Tonic, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful, and if it doesn't start your liver and straighten you up better and quicker harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose day's work! Take Dodson's Liver Tonic instead and feel fine, full of vigor and ambition. —Adv.

CLERK'S NOTICE OF ESTRAY TO NEWSPAPERS.

THE STATE OF TEXAS, County of Hale.

Drives Out Malaria, Builds Up System The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c.

WONDERFUL STUFF! LIFT YOUR CORNS.

Apply a Few Drops, Then Lift Corns or Calluses Off With Fingers—No Pain.

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift out, without a particle of pain or soreness.

This drug is called freezone, and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Put a few drops directly upon any tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus will loosen and can be lifted off with the fingers.

This drug freezone doesn't eat out the corns or calluses, but shrivels them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. If your druggist don't have freezone have him order it for you.—Adv.

Cold Days Require Coal Why is it that some folks always delay their coal buying and the installing of their stoves until the last minute when every member of the family has run the risk of serious cold or pneumonia and until all of the coal and stove dealers are so busy they cannot give the best service? Surely the wise man will not be caught in a blizzard with his coal supply not yet laid in. We have the supply of coal, we have the prompt service, and the prices are lower now than they will be when winter gets here. Isn't it good health insurance, isn't it good business, isn't it the sensible thing to do to place your order now? Just phone us at 162 and we will do the rest. ALLEN & BONNER

OTHER TRAINING CAMPS TO CARE FOR THOSE NOT ADMITTED NOW.

The great patriotism manifested throughout the country has led to a flood of applications for admittance to the training camps opening May 15th, for training reserve officers.

The War Department designated two camps for the Southern Department—one to be held at Fort Logan H. Roots, near Little Rock, Arkansas, and the other at Leon Springs, near San Antonio, Texas.

In order to give everyone who desired to do so an opportunity to make application to attend one of these camps, publicity was given to their organization through the public press.

War Department instructions governing the organization of these camps fixed the maximum limit of 2,500 for each. Of this number 150 are reserved for men who will be specially trained as reserve officers of the Engineers Corps, thus leaving 2,350 to be trained in Infantry, Cavalry, Field Artillery and Coast Artillery.

War Department instructions further provided that officers should be designated to examine those who desired to enter the camps, the purpose being to insure that those only were admitted who gave evidence of possessing the necessary qualifications and for the further purpose of making selections from the above, those best qualified being given preference.

The rush of applicants to appear before the examining officers has been so great that it was found impossible to check the enlistments just at the point when the authorized number had been secured. It has, therefore, been necessary to eliminate from these first camps some of those who were passed by the examining officers.

A great many applications are still being received at Department Headquarters from men who are keenly anxious to enter the service. So great has been the rush of applicants that it has been found impossible to reply to many, as the work of organizing the camps must have preference.

The War Department has stated that other camps are to follow, and it is believed that all those who are disappointed by not being admitted to those commencing May 15th will wait patiently for the organization of the next ones. Lists will be kept of those whom it has been necessary to exclude from the present camps, and preference will be given to them in considering applications for succeeding camps.

HOW RINGLING WOULD "BILL" BILLY SUNDAY, EVANGELIST.

The New York World has been asking various celebrities to write their impressions of Billy Sunday. In response to this request, Alf. T. Ringling, the veteran showman, tells "How I would 'bill' Billy Sunday as an attraction."

SUNDAY:

A master marvel among all mankind's most amazing men. The old earth has never known his like.

From the beginning of time to the moment at hand no replica of him has ever been nor ever will be until time shall be no more.

The mold of his making crumbled into atoms when the fiery elements of his being burst into life.

A Pre-eminence Pattern.

Providence was prodigal in producing this pre-eminent pattern of persuasive power. She gave him strength, speed, skill, virility, venturesomeness, brawn, bravery, brilliancy, brains, breath, bronchia—she made him of flame and fire, deft and dexterous, devout and daring—danger-defying and devil-defying. And above all she gave him voice and vocabulary, and when he uses these latter he becomes the absolute, unquestioned, inimitable, original antipathy to Bromideism.

He makes wrong write in remorse and Beelzebub's brazen brow bend beaten among the cohorts. He makes wickedness waver like a wraith in the wind, sin seek shelter and old rum run like a rabbit. He makes the burlesqued

bewilderments and bedizened beauties of Broadway look so lusterless that they even become loathsome to the Lothario. His is the absolute perfection and gem supreme in the big world's diadem of celebrated revivals. He is the soul—in fact, he is Sunday's supreme, stupendous, spectacular pageant of piety and propriety.

Also, a Colossal Caravan.

A colossal caravan of all the powers of good—a tremendous, titanic triumph and big outpouring of elevating wonders—a mammoth marvel of morals amazing and mighty. Its feature among features—its marvel among marvels—is Billy Sunday, and his great act is absolutely without an imitator anywhere.

THE FEATS OF DANIEL IN THE LION'S DEN, THE PROWESS OF SAMSON, THE SKILL OF DAVID OVERSHADOWED AND OUTDONE.

Billy Sunday exhibits twice daily the four fiercest creatures in all the universe—Moloch, Beelzebub, Baal and Satan—the four fearful, prowling marauders—more ravenous than the lion—more cruel than the tiger—more stealthy than the leopard.

The unconquerable terrors of all mankind now for the first time cowed and coerced into contemptuous cowering by the bold, brave breaker of the heretofore unbreakable monsters.

Menaces of Men.

These mastodontic menaces of man made to maneuver, march and counter-march, obedient to their conqueror's call, in all their hated hideousness.

An exhibition absolutely unique, original and almost unbelievable—placing the rings in the noses of Baal, Beelzebub, Moloch and Satan, and working them by lung reins, snarling, hissing, growling and howling, all to the delighted applause of the assembled thousands.

See the browbeating of Old Baal. See the belaboring of Beelzebub. See the manhandling of the Mighty Moloch. See the castigation of Satan. An act performed by one man without elaborate props or other paraphernalia and absolutely without a counterpart in exhibition annals.

WILLIAM RAINY BENNETT.

William Rainey Bennett, according to a Columbia, South Carolina, paper, looks like Bryan, talks like Roosevelt and is a second Billy Sunday. Mr. Bennett is the foremost inspirational lecturer in America today. If

you expect to hear a long, dry discourse, don't hear him. If you want to sleep, don't hear him. For Bennett is snappy, forceful, alive and energetic. His talk is brimful of humor, and will keep his audience on the edge of their seats the entire evening.

Bennett has a strong delivery, and never fails to clinch his arguments with sledgehammer blows.

Some of the more striking epigrams from Bennett's lecture "The Man Who Can" are as follows:

"Your health is your bank account. Don't overdraw it."
"Some men are down so low every mope they make is up."

"The poor man's son has the advantage over the rich man's son. He has everything to gain and nothing to lose."

"I would like an audience of the boys who are in the pool rooms tonight. I would like to get something into their heads besides ivory. I don't object to playing pool, but I would like to give the young fellows something to think about."

"You're never down until you admit it yourself."
