PERSONAL MENTION

S. H. Wilson of Lockney was in Plainview yesterday.

Mrs. W. C. Reeves and little daughter passed through Plainview yesterday on their way to Dallas and St. Louis to buy the spring stock for the Page Dry Goods Co. of Lockney.

Miss Nannie Mae Dunaway who has a music class at Hale Center, spent the week end with her parents, Mr. and Mrs. W. J. Dunaway.

Capt. and Mrs. T. A. White of Petersburg were Plainview visitors on Saturday.

Mrs. R. B. C. Howell and daughter, Miss Lela Howell, returned Monday from Lubbock where they had been with Miss Mary Howell, who is in a Lubbock sanitarium, where she is recovering from a recent operation for appendicitis.

Mr. and Mrs. C. B. Nobles returned yesterday from Amarillo.

Wayburn Mayben of Lockney was in Plainview Monday.

Mrs. J. H. Vandershoe and two children returned Monday to their home at Abert, after visiting her mother, Mrs. J. M. Johnson.

Vergil Dodson of Canyon, who has just been discharged from the navy passed through Plainview yesterday on his way from Lockney.

Lennie Sewell of the Marine corps, son of Mr. and Mrs. L. D. Sewell, who has been stationed at Quantier, Va., returned home this week.

Little Mary Elizabeth Barnes of Hale Center, spent the week end with her friend Sarah Knupp.

Mrs. Opal Hocker, who has been in the city selling Centralized Oil stock, returned to Kress yesterday.

Mrs. Ed Burns and son of Olton were in Plainview yesterday on their way from a Lubbock sanitarium.

Elias Ivey of Hale Center went to Amarillo yesterday.

Mrs. Nine McComas of Halfway, the recently elected president of the Hale county Federation of Woman's clubs, was in Plainview Saturday, transacting club business.

Dr. J. L. Penneck of Amarillo, a one time resident of Plainview, was in Plainview Monday on his way from Crosbyton.

Mr. and Mrs. True Rosser of Petersburg were in Plainview Saturday.

Miss Francis Rosser of Abert, spent Saturday and Sunday with Miss Nannie Mae Dunaway.

Mr. and Mrs. H. R. Vaughn of Hendersonville, Tenn., who have been visiting relatives in Floyd county were in Plainview Monday.

Mrs. N. W. Morgan of Lockney passed through Plainview Monday en route to Dallas.

Mrs. O. Z. Bundy, nee Miss Alice Smylie of Plainview, left Monday for her home at Hutto, Texas, after spending the winter with her parents, Mr. and Mrs. Smylie near Silverton.

Her husband, Capt. Bundy, is stationed at Lyons, France.

Mrs. J. M. Allen returned Monday from Williamson county, accompanied by her sister, Mrs. M. Merrick, who will visit relatives in this city.

E. A. Davis of Gordon arrived Monday to attend the funeral of his daughter, Mrs. L. C. Wilmoth, who died Sunday morning at her home in Floyd county.

Mr. and Mrs. C. D. Powell and child left Friday to make their home in Amarillo.

Price Rodgers of Plainview was in Amarillo Saturday.

Mrs. H. B. Adams returned home Sunday morning, accompanied by Miss Clem Blankenship and Mr. Surry Henry and two little boys, Douglas and Milton. Mrs. Adams went to Ranger a week before to the bedside of little Milton Henry, and brought the child back with her. Mr. Henry returned this morning to Sweetwater where he is car inspector for the Santa Fe.

J. S. Dougherty of Olton was in to renew the News for another year, Monday. Mr. Dougherty spent from Dec. 4th to Jan. 14th on the V. N. N. Ranch in Bailey county helping take care of a large herd of cattle.

Clarence and Floyd Bradford, who have been attending Wayland college, have returned to their home in Panhandle.

Mrs. Addie Holt, the trained nurse, and sister, Miss Virginia Thurston, spent the week end in Amarillo. They will leave in a few days for a trip of several weeks to San Antonio, Corpus Christi and Nacogdoches.

Mrs. E. H. Perry left Saturday for Wichita Falls, where Mr. Perry is now staying.

Mr. and Mrs. E. Foster of Pueblo, Colo., were here last week, visiting his sister, Mrs. O. C. Fluke.

J. B. Nance left Saturday for a trip to Wichita Falls, Paris and DeLeon, looking after oil matters.

Dr. E. M. Harp had business in Abert Saturday.

R. V. Muse of Brownwood arrived Saturday to visit his niece, Mrs. Dan Morgan.

Mr. and Mrs. Chas. Barnett returned Saturday from Aurora, Neb., where they had been since Christmas, visiting relatives.

Mrs. Lucy McEachern left Tuesday after a two weeks visit to the family of her brother-in-law, Dr. J. F. Owens. She is en route to Houston from a twelve month visit to a son in California. From Houston she will go to her home at Jacksonville, Fla.

J. W. Bussell of Runningwater went to Hale Center today to attend the Staked Plains Baptist Association which is in session there.

Mrs. Z. T. Sanders of Kress was in the city today on business.

R. C. Cox and mother of Hale Center were in Plainview today.

J. W. Rankin of Paris, Texas, was a business visitor in the city this week.

Raymond C. Willis of Ft. Sill, Okla., has been home on a ten days furlough to see his grandmother, who has been quite ill, but is better at this time.

Mr. and Mrs. R. E. Bonner and children of Lockney were in Plainview today, on their way to visit relatives at Tioga, Texas.

J. E. Nunn of Amarillo stopped over in Plainview today on his road from Abilene, to attend to church and college matters.

B. J. Zackary went to Hale Center today on professional business.

J. A. Cox is in Chickasha, Okla., on a business trip.

I. W. Little returned Sunday from Burk Burnett.

Mr. and Mrs. Will Price of Hale Center were visitors in Plainview Monday.

J. A. Clough of Ogden, Utah, C. M. Clough of Kansas City and W. S. Clough of Big Springs were called this week to the bedside of their mother, Mrs. E. J. Clough, who has been critically ill, but who is now recovering.

Dr. Waggoner of Lubbock was in Plainview Monday night on professional business.

Elmer Graham, an attorney, and Rhea Anderson were here in district court this week from Young county.

Mr. and Mrs. L. F. Cobb returned today from an extended trip to St. Louis and points in Central Texas.

John Vaughn came in today from Duncan, Okla., where he has been looking after his oil interests.

Jim Phillips left Saturday morning for a business trip to Kansas City.

Mrs. Janet Hartwell left Saturday for a trip to Wichita Falls.

Miss Ina Jordan, who is teaching school at Friona, spent the week end here with her parents, Mr. and Mrs. J. N. Jordan.

John Gray had business in Amarillo Saturday.

Go to "The Style Shop," in the Donohoo building, and see the newest styles in Head-wear. New patterns every day or two.

KRESS

Feb. 13.—Norman Ehresman of this community, died in Nashville, Tenn. He and his mother were called to Nashville to the bedside of his brother, and while there Norman and his mother were attacked with influenza-pneumonia, which proved fatal to him. He leaves his parents, who live east of Kress, and other relatives.

Joe Hinkle, who is a sailor in the American navy, writes to his parents here that he is now in the United States, having recently returned from a stay in Germany. Ed Evans writes that he will return home in June.

Mrs. D. E. Rudd has returned from a visit with relatives in Tarrant county.

Miss Lula Watts is here with her parents, Rev. and Mrs. Watts, recovering from an attack of the flu while a student in Clarendon college.

Mrs. A. J. Harris has returned from a visit with her mother in Tulsa.

A number of the young people of our community enjoyed a surprise party as guests of Mrs. Morton Saturday night. She didn't know they were coming, but she entertained them pleasantly.

Miss Agnes Morton left Monday for Tahoka, to spend the rest of the school term with her aunt, Mrs. Lovelady.

Miss Ruth Moore, who is teaching at Hart, and Miss Jannette Moore, who is teaching at Dinamit, spent the week end with their parents here.

John Woods, who is attending Canyon Normal, spent the week end here.

George Rouser, who is a soldier in France, writes to his wife here that he has had influenza, but is convalescent.

Carmen, little daughter of Mr. and Mrs. C. R. DeLong, is very seriously sick with typhoid fever. Mr. DeLong is in Waco, but has been wired to come home.

Rex Mr. Watts delivered an inspiring talk to the students of the high school Monday morning.

Roy Porter of Happy was here Saturday. He has "important business" here often.

Mr. and Mrs. Smith of Tulsa spent the week end here with their daughter, Mrs. J. W. Skipworth.

Mrs. Sanders of Plainview has bought Mrs. Lemaster's residence property in Kress and will move to it.

Walter Adkisson and sisters, Misses Nora and Edna, and Miss Henrietta Myre spent Wednesday in Plainview.

Mrs. W. W. Bookout left Sunday morning for Stratford to attend the funeral of her brother, Dave Reed, who died of the flu. He moved to Stratford from Kress a year ago, and had many friends here.

Go to "The Style Shop," in the Donohoo building, and see the newest styles in Head-wear. New patterns every day or two.

Prof. Roger A. Burgess, formerly principal of the Plainview high school who returned recently from service in the army, has become a teacher in Lubbock public school.

The senate killed the bill to repeal the appropriation for a state normal school at Alpine, though the state board of normal regents declare the normal is not needed.

To the Public

The report has gone out that I have rented out my hotel and quit auctioneering and have gone to the oil fields, a part of this is true, I have rented out the hotel, but expect to still make this my home, and will still hold sales as long as public wants me, so don't forget that I am still in the auction business and will give you the best service I can. Phone 317. W. A. Nash, Auctioneer, Nash Hotel. 2t.

Recommends Runningwater Boy

The following letter to H. C. Clark of Runningwater from Capt. Thomas V. Scoones, tells of service of Archie Gene Clark:

"Mr. H. C. Clark, Runningwater, Texas. My Dear Sir: In a few days your soldier will receive his honorable discharge and start for home.

"He is bringing back many qualities of body and mind which he has acquired or developed in the military service. The army has done everything it could do to make him strong, fine, self-reliant, yet self-controlled. It returns him to you a better man.

"You have been an important factor of that great army of encouragement and enthusiasm which helped to make him and us all better soldiers. You can now be a great help in keeping alive the good qualities he is bringing back from the army, in making him as good a citizen as he has been a soldier.

"His fare and necessary expenses to his home will be paid by the government. He will receive all pay due him. He may, if he wishes wear his uniform for three months from the date of his discharge. The government will also allow him to keep up, for the benefit of his family, his insurance at the very low rate he is now paying.

"His return to civil life will bring new problems for you both to solve. The qualities he brings back will help you now as your encouragement helped him while he was away, and in your hands and his, rest the future of our country.

"As the commanding officer I am proud of him. He has done his duty well. I, and his comrades will bid him good-bye with deep regret, and wish him every success after he returns home—that spot in every man's heart no other place can fill.

"Sincerely yours,
Thomas V. Scoones, Capt. U. S. G."

Spring Seed-Grain Loans

Regulations governing the making of seed-grain loans by the government to farmers in drought stricken areas for spring wheat sowing in 1919 are given in a point statement issued by the treasury department and the department of agriculture. The regulations in the main are similar to those that governed loans for fall planting in drought areas.

However, the maximum limit for loans for spring planting will be \$500, while the limit for fall planting loans was \$300. The money available is that remaining in the president's five million dollar special fund set aside for such loans. A survey of the situation, the secretary of agriculture has stated, indicates that the remainder of the fund will take care of the urgent cases.

The federal land banks of the districts embracing the affected areas are designated as the financial agents of the government in making and collecting the loans. They may designate local banks or other agencies to represent them in the taking of applications, forms of which will be asked to contribute their services for the good of their communities.

Ernest Phillips has moved from Meteor to the Bobbit community, where he will farm.

CENTENARY OIL COMPANY

There is Nothing That Pays Dividends as Quickly as an Oil Well

The Centenary Oil Co., is located on Block No. 62, in the Burk Burnett field, and is putting on ten acres on the eastside of the southwest quarter of that block.

This is no Wild Cat scheme, but handled by bankers and business men of Northwest Texas, some of them, that are no doubt known to you.

The company is capitalized at \$60,000, divided in twelve hundred shares of the par value of \$50 each, non-assessable.

There is absolutely no cinch, that any well will produce oil until it has been drilled in, but from the surrounding field we are sure of a good production, as one could be.

The Humble well just southeast of our tract produced 1,000 barrels in 11 hours. The Fisk well is already in, The Mystery well is in, these wells are on blocks 57 and 58, just southeast of our land.

North and northeast of us are the wells on block 82, producing 1,400 barrels per day, and the well on block 84, which is spouting gas and oil all over the hill.

The Clara well is still west of us, which with the others put us in proven territory.

The officers and directors of the company are J. B. McCarley, president, Wheeler, Texas; D. E. Holt, secretary-treasurer, banker, Wheeler, Texas; F. G. Ford, oil operator, Burk Burnett, Texas; J. S. Means, capitalist, Fort Worth, Texas; Geo. C. Bishop, abstractor, Abilene, Texas; Ocie Speer, general council, Fort Worth, Texas.

If you are interested, send in for as many shares as you want, for we guarantee you a square deal.

CENTENARY OIL COMPANY, Home office; Wheeler, Texas.

Richards Bros. & Collier know the standing of some of these men connected with this proposition, and you may ask them.

HALE CENTER

Feb. 17.—Carl Hewitt of Muleshoe was calling on friends here last week.

Mr. Arnold has moved his family here from Adrain and located on the S. L. Elliott farm west of town.

S. J. Whitacre and son, Guy, of Plainview and A. F. Quisenberry of El Paso drove over from Plainview Friday.

O. C. Sanders was a business caller in Plainview Saturday morning.

Lloyd Wilson arrived home Saturday morning. This is the second of our over-seas boys to return.

Mrs. Nick Alley departed for Mineral Wells Sunday night.

The Christian Endeavor young people of the Presbyterian church enjoyed a sing-song at the W. C. Grigsby home Saturday night.

Rev. Bryant preached a very interesting and instructive sermon to the fathers and sons Sunday morning.

Word from Miss Anna Akeson states that she is very pleasantly located in Washington, D. C., and has taken up her duties in the War Relief department.

W. F. Beard of near Olton was a business caller here Saturday.

Mr. Houston and Mr. Maggard are both convalescing from a flu attack.

Mrs. S. R. Burham, who was ill last week, is much better at this time.

Mrs. R. A. Wilson gave a very interesting report of the New Era convention, which she attended in Dallas, to the Presbyterian congregation Sunday morning.

Our telephone exchange is now located in the Reed building in the south side of the square.

Reynold Robinson's pretty cottage in the north part of town, is nearing completion, Patterson & Hosier are the contractors.

Contractor J. C. Elliott is erecting a very neat and convenient house on the Manly land out in Iowa Avenue.

P. B. Ogle and men are building a new residence southeast of town for Mr. Burton.

Leland Mount has been looking after the Galt threshing outfit since T. R. Galt's injuries received in the runaway.

LYNN COUNTY LAKE TO SUPPLY SALT WORKS FACTORY

Last Sunday, J. W. McRoe of Fort Worth, Texas, passed through Tahoka en route to Brownfield, where he is contemplating putting in a salt works factory. The lake that will furnish the substance for the factory is located on the north line of Lynn county, and it is the plan of the promoters to build a pipe line to Brownfield from the lake in this county.—Lynn County News.

Mrs. Dick Vaughn of Hereford spent two days this week visiting with Mrs. W. E. Thatcher. She was on her way to Plainview on an extended visit.—Canyon News.

RAISE A FEW GEESE; COST IS SLIGHT.
(Special Information Service, United States Department of Agriculture.)

A Good Farm Flock—These Are Toulouse Geese, the Largest of the Standard Breeds.

GEESE GROWING IS PROFITABLE

Good Grazing Supplemented With Light Feeds Keep Fowls in Good Condition.

QUITE FREE FROM DISEASE

Body of Water is Considered Essential During Breeding Season—Some Kind of Shelter is Necessary for the Goslings.

Geese can be raised in small numbers successfully and at a profit on farms and in localities where there is low rough pasture land and a natural supply of water. Grass makes up the bulk of the feed for geese, and it is doubtful, say poultry specialists of the United States department of agriculture, whether it pays to raise them unless good grazing range is available. Geese are good grazers and, except during the winter months, usually pick up most of their living. Their pasture may be supplemented with light feeds of the common or home-grown grains or wet mash daily, the necessity and quantity of this feed depending on the amount of pasture available.

One advantage in raising geese is that they are generally quite free from disease and all insect pests, but occasionally they are affected by some of the diseases common to poultry. A body of water where they can swim is considered essential during the breeding season and is a good feature during the rest of the year. The market for geese is not so general as for chickens, and this should be taken under consideration before embarking in geese raising. In the South many geese are kept for the production of feathers rather than for their flesh, and many cotton growers keep them to kill the weeds in their cotton fields.

Houses for Geese.
Except in winter or during stormy weather when some protection should be provided, mature geese do not need a house. Some kind of shelter, such as a shed open on the south side, a poultry house, or a barn is usually provided by breeders in the North and is used by many in the South. Coops, barrels, or some other dry shelter should be provided for young goslings. It is important that the houses should be kept clean and that the floors be provided with plenty of clean straw.

Geese, like other kinds of poultry, should be selected for size, prolificacy, and vitality. They should be mated several months prior to the breeding season to obtain the best results; therefore breeding stock should be bought in the fall. Goose matings are not changed from year to year unless the results are unsatisfactory. A gander may be mated with from one to four geese, but pair or trio matings usually give the best results. The wild gander usually mates with only one goose. When mated, geese are allowed to run in flocks. From 4 to 25 geese may be kept on an acre of land, and under most conditions ten is a fair average.

Incubation.
Geese are fed a ration to produce eggs during the latter part of the winter (about February 1), or so that the goslings will be hatched by the time there is good grass pasture. They are allowed to make nests on the floor of the house, or large boxes, barrels, or shelters are provided for that purpose. The eggs should be collected daily and kept in a cool place where the contents will not evaporate too freely; if kept for some time they may be stored in loose bran. The first eggs are usually set under hens, while the last ones which the goose lays may be hatched either under hens or under the goose if she goes broody. If the eggs are not removed from the nest in which the goose is laying she will usually stop laying sooner than if they are taken away. Some breeders prefer to raise all the goslings under hens, as geese sometimes become difficult to manage when allowed to hatch and rear their young. Hens

used for hatching goose eggs must be dusted with insect powder and have good attention, as, in the case of geese, the period of incubation is longer than in that of fowls. Goose eggs may be hatched in incubators and the goslings successfully raised in brooders, although this is not a common practice.

The period of incubation of goose eggs varies from 28 to 30 days. Moisture should be added to the eggs after the first week if set under hens or in incubators; this is usually done by sprinkling the eggs or the nest with warm water. Four to six eggs are set under a hen and 10 to 13 under a goose. They may be tested about the tenth day, and those which are infertile or contain dead germs should be removed. They hatch slowly, especially under hens, and the goslings are usually removed as soon as hatched and kept in a warm place until the process is over, when they are put back under the hen or goose. Some breeders who hatch with both geese and hens give all the goslings to the geese. Hens with goslings may be confined to the coop and the goslings allowed to range. The latter, especially if the weather is cold, are not usually allowed to go into water until they are several days old. In mild weather the hens are allowed to brood the goslings for from seven to ten days, when the latter are able to take care of themselves. Good-sized growing coops, with board floors, should be provided for the goslings, and they must be protected from their enemies, and given some attention when on range.

TO START WITH GEESE

Buy breeding stock or mate the fowls several months before the breeding season, which is in early spring. Breeders should be at least two years old. They are best when from three to five years old. Females are usually kept until they are twelve to fourteen years old, or as long as they will lay well, but ganders are not generally kept after their eighth or ninth year.

Begin feeding for egg production during the latter part of winter. Eggs are then available for early hatching and the goslings will be ready to graze as soon as good grass pasture is ready. The period of incubation varies from 28 to 30 days. Four to six eggs are set under a hen and 10 to 13 under a goose. Goslings should not be allowed to go into water, especially if the weather is cold, until they are several days old. Hens with goslings should brood them from seven to ten days, when the goslings are able to take care of themselves.

Preparing Geese for Market.

Before marketing the young geese the average farmer can feed advantageously a fattening ration either while the geese are on grass range or confined to small yards, but it is doubtful whether it would pay him to confine them to individual or small pens and make a specialty of fattening unless he has a special market or retail trade for well-fattened stock. Geese are usually killed and picked in the same manner as other kinds of poultry. Some markets prefer dry-picked geese, while in other markets no difference is made in the price of scalded or dry-picked geese. When feathers are to be saved fowls should not be scalded, but should be picked dry before or after steaming. On most farms where geese are raised the feathers are plucked from the live fowls at some time prior to molting. About one and one-tenth pounds per goose is the average yield of feathers. Feathers are worth from 30 cents to \$1 a pound, and the picking cost per goose is about 11 cents.

Houses Face South.

In most localities the poultry house should face the south, as this insures the greatest amount of sunlight during the winter. Proper ventilation and sunlight mean a dry house and healthy birds.

Calomel Loses You a Day's Work! Take Dodson's Liver Tone Instead
Read my guarantee! If bilious, constipated or head-achy you need not take nasty, sickening, dangerous calomel to get straightened up.

Every druggist in town—your druggist and everybody's druggist has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.
"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle doesn't cost very much, but if it fails to give easy relief in every case of liver sluggishness and constipation, you have only

to ask for your money back.
Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition.—Adv.

Things That Passed.
There had been a disturbance, and the case had come before the police court.
"Now, tell us," said the magistrate to the defendant, "what passed between yourself and complainant?"
Defendant—Well, your honor, there was two pairs of fists, one turnip, seven bricks, a lump of coal and uncountable names.

Grove's Tasteless Chill Tonic restores vitality and energy by purifying and enriching the blood. You can soon feel its strengthening, invigorating effect. Price 60c.

Surprise Natural.
"You ought to have seen the surprised look on the cop's face when his prisoner suddenly scooted."
"That was natural. A bolt from the blue is always surprising, you know."
—Boston Transcript.

Dr. Peery's "Dead Shot" not only expels Worms or Tapeworm but cleans out the mucus in which they breed and tones up the digestion. One dose sufficient. Adv.

The milk of human kindness is never run through a cream separator.

FIFTEEN ACRES IN BURKBURNETT FIELD

NOTHING BETTER.

This is the verdict of a successful level-headed man who recently bought stock in the R. C. Ware Oil Company. Two days ago he came to our office to say. "I have just returned from Burkburnett, went over practically the entire field, and I tell you I found nothing that looked better than the R. C. Ware Oil Compays' holdings."

When we purchased this acreage, we were at the time, enthused over our good fortune in securing such a location, and with increasing development the acreage has been made doubly sure.

Big wells under construction 1,000 to 2,500 feet on the north and northeast; while to the south there is new rigs and locations being made most every day.

We are Bound to Strike Oil

You will say so yourself when you intelligently consider our location. Why take chances when you can buy stock in a company operating on acreage located in the center of the proven field? Examine any map you wish and convince yourself.

When you invest in Oil Stock what are the vital points to be considered? Company, location, capitalization.

See what we have to offer:

Company Every member a successful business or professional man of Plainview; well known to be upright and foursquare.

Capitalization Only \$65,000. Low capitalization means big dividends. Stock fully paid and nonassessable.

Location Of this the above lines tell you. "None Better." Look up the location on anybody's map and be convinced.

Drilling Begins Soon The writer of this adv. just returned from Burkburnett Feb. 15 and there is new rigs and locations being made most every day around each of our locations. Don't wait. Opportunity does not linger. Invest now while you can buy at par. Liberty Bonds accepted.
