WILL ORGANIZE TOWN BEAUTIFUL

CAPTAINS FOR EACH FOUR BLOCKS—WILL WAGE GREAT CAMPAIGN

Last night, despite the fact that rain and snow was falling, the weather cold and muddy, about twenty-five representative men and women of the town met with the Board of City Development at the commercial club quarters in the auditorium to discuss plans for making Plainview the cleanest and most beautiful town on the Plains and possibly in the state.

W. E. Risser, chairman of the Board of City Development, presided and John Lucas was secretary. Mr. Risser told of his plans for beautifying and cleaning the town, which included the appointment of a captain for each four blocks, who would have charge of the work on these four blocks, and would encourage the people living on these four blocks to clean up their premises, make improvements about their places, use paint, plant shade trees, shrubbery and flowers and if needs be grass for lawns, and to whitewash the shade trees a little later in the season. He urged that each householder strive for one of the prizes in the better homes contest which is being fostered by the B. of C. D. He stated that arrangements should be made to employ somebody to haul off the trash at a nominal charge (it is likely the city council will have the city teams to do this without charge, so an alderman informs us.)

There was a general discussion of matters, in which Mr. C. A. Pierce, Mrs. C. C. Gidney, Mayor Waller, Mr. J. B. Maxey, Alderman E. H. Humphreys took a leading part. Mr. E. H. Perry brought his plan for making Plainview "The Rose City," which was favored by all present.

Supt. Patty told of the plans of the school board to plant flowers and beautify the front of the high school grounds.

The ministers discussed plans for beautifying the church properties.

Mrs. Beery told of plans of the N. O. N. club girls to assist in beautifying the grounds about the auditorium.

The improving of Auditorium park was also discussed, also the Ash street parking.

Further improvement of the cemetery was also planned.

Mayor Waller said that the city was not ready to proceed with improving the new city park just purchased, but as soon as funds can be spared a landscape gardener will be secured to have charge of laying off and improving the park.

A motion prevailed that a captain be appointed for each four blocks, and these appointments will be made in a few days.

A committee will also be selected to confer with the county commissioners relative to beautifying the court house yard.

Mr. Humphreys said elms are the best shade trees to plant, and they can be bought for 25c each.

Every person in Plainview will be urged to join in the greatest campaign this spring ever held off in Plainview for the town beautiful and clean.

Those who participated in last night's conference were W. E. Risser, John Lucas, Mayor Waller, Mrs. C. C. Gidney, Mrs. L. L. Dye, Prof. R. B. Sparks, Mr. and Mrs. A. A. Beery, Rev. O. P. Clark, Rev. W. C. Wright, J. B. Maxey, Alderman E. H. Humphreys, Ray C. Ayers, and Winfield Holbrook, Joe Keliheor, Prof. Ballinger, Supt. W. E. Patty, Rev. H. E. Bullock, Mr. and Mrs. E. H. Perry, C. A. Pierce, J. M. Adams, Rev. E. H. J. Andrews, and Col. R. P. Smyth.

WILL SPEAK ON NEAR EAST RELIEF SUNDAY

Eminent Speakers Will Occupy Local Church Pulpits at the Morning and Evening Services

Next Sunday, March 4th, the Near East Relief organization will have a field day in Plainview, for the purpose of insisting that the people of this county take over the support of twenty-four orphans in the Near East countries, at a cost of \$60 each per year.

N. L. Linebaugh, state director of the work, will speak at the Methodist church at 11 o'clock Sunday and at the Baptist church at 7:30 p. m., and Dr. J. W. White of Dallas, field representative, will occupy the pulpit at the First Christian church at 11 o'clock, and at the Presbyterian church at 7:30.

Miss Stella McCarty Dies
A very sad death was that of Miss Stella McCarty, age 17, who died at the family residence, on East Fourth street, near the railroad, Saturday night, from pneumonia.

The funeral was held at the Church of Christ, of which she was a member, Sunday afternoon, Pastor O. M. Reynolds conducting the service, and interment followed in the Odd Fellows cemetery.

She leaves parents, her father having been employed on the Santa Fe section crew, and a brother, Jack, who is messenger boy for the Western Union Telegraph Co., and he is very dangerously sick of pneumonia.

Mrs. Carroll, a sister from Durango, was here at the funeral.

Hale Center Team Wins

The Hale Center high basket ball team clashed with the Plainview girls on the Hale Center court Monday afternoon in a fast and furious basket ball game. The game ended with a score of 19 to 23 in Hale Center's favor.

The Hale Center girls are to play the Abernathy team Friday afternoon and if they win they go to Lubbock, and if they win there they will next go to Austin. If they win at Austin they will then be known as "The Basket Ball Team that made Hale Center famous.—American.

Have Tree Planting Day

Floydada, Feb. 25.—March 8th has been set aside as tree-planting day in Floydada by the Floydada Chamber of Commerce. To encourage the planting of more trees the Chamber of Commerce is arranging to furnish at cost all trees demanded for this occasion which they will obtain for a minimum price from the agricultural experiment stations. Residents are urged to select uniform trees and to plant them in uniform distances, etc.

Miss Foster Will Go to A. & M.

Miss Foster, the home economics instructor in Plainview high school, has resigned her position as such, and will leave tomorrow morning for College Station, to begin work in the home extension work of the A. & M. college. She will travel over the state, visiting counties in furthering the extension work.

Miss Foster has been with the Plainview schools about two years, and is a very competent young lady.

Castro's Long Drouth Broken

Demmitt, Feb. 23.—A slow rain has been falling here for the last fifty hours and is still raining this noon, making a total so far of one and one-half inches.

Stock on range are doing fine, as it has not been very cold. It is thought that a large per cent of fall wheat will come out and make. Anyway this rain will put a season in the ground so there will be a large acreage of spring wheat planted.

Will Inspect Rural Schools

Mr. O. M. Legg, county superintendent, has received a telegram saying that the inspector from the state educational department will arrive Wednesday afternoon to inspect the schools in Hale county that have applied for state aid.

Plan Candidates Are Defeated

In the El Paso city election, held Saturday, the anti-klan ticket headed by Senator Dudley for mayor, made a clean sweep by a majority of 2 to 1. The fight was very bitter, and all religious creeds fought side by side against the klan.

W. R. Moore, a Hill county farmer, has bought 1,760 acres of land from Charles Benson near Hale Center. His family will move as soon as his house is completed.

Mexican Arrested for Stealing

A Mexican was arrested and put in jail Saturday afternoon, on charge of having stolen a bucket of salted peanuts from the Santa Fe depot.

MASS-MEETING FOR TECH. COLLEGE CITY AUDITORIUM SATURDAY

Every Person in County and Town Urged to Attend and Assist in Campaign to Secure the Location of Institution.

A great mass-meeting of citizens of Hale county will be held at the city auditorium Saturday afternoon at 3 o'clock, to promote the interests of Hale county and Plainview for the location of the Texas Technological College, and every person in the county is invited to attend.

The steering committee which has the general charge of the campaign will make a report of what has been done so far to secure the college, and tell of the plans to be used in the future.

The committee which will attend the Jubilee meeting at Sweetwater Friday will be present and tell what was done and said on that occasion, and of what they learned while in Sweetwater.

The Boys' Band, which will attend the Sweetwater Jubilee meeting and furnish music, will be at the mass-meeting Saturday afternoon, and make things ring with its music.

The securing of the Tech. College would be the greatest thing possible for this town, county and the Plains, for in time it bids fair to become an

even greater educational institution than the State University at Austin, as it includes both sexes, and its work will be similar in many ways to that done at the State University, the A. & M. and the College of Industrial Arts, besides several other branches not covered by those colleges.

Plainview has bright prospects to secure the location of the Tech. College, and we believe will get it, but it is necessary for every person in the county to do his and her full part in the campaign that is necessary. Of all times it is needful that there be no sluggards, pullers back, complainers, grouchers, joy-killers, pessimists. Let everybody boost, help, talk Plainview, boost for Hale county, tell of the wonderful water supply, rich soil, delightful and healthful climate, good citizenship and moral social environments.

Don't fail to be at the meeting Saturday afternoon, for it will be the peepiest meeting ever held in the town.

Plainview will get the Tech. College. We have not the least doubt about the matter.

CONGRESS SOON TO END TERM

CLEAN UP OF IMPORTANT LEGISLATION CAUGHT IN JAM IS BEING PLANNED

Washington, Feb. 26.—Congress went into high gear today to endeavor to clean up important legislation caught in the pre-adjournment jam on which efforts will be concentrated for the remaining week of the session.

While the senate, in the words of its supporters, is performing the final "obsequies" for the administration shipping bill to make way for other legislation, the house tackles first the deficiency appropriation bill. This measure and farm credits legislation to be considered in the house tomorrow are the two of major importance out of about 100 other bills and resolutions of which there is prospect of enactment.

The fate of many of these rests more in the house than in the senate, where the pre-adjournment jam appears not as bad this year as in the house.

The shipping bill, the defeat of which is conceded, coming up first on a pending motion to recommit is expected to survive that but is certain on the next move to be buried finally by displacement for the "filled milk" bill or some other legislation. This will put in line for action also in the senate the "truth in fabric" bill, which raises the prospect of another filibustering movement there with threats of this seen also against several other measures in both houses.

The senate is expected to find time for some sharp debate on the administration's proposal for conditional American representation in The Hague International Court of Justice under the League of Nations, although no action is expected on it.

Efforts for enactment in the final week are also expected to be concentrated on the government employees' salary reclassification and the foreign service reorganization bills. Vigorous attempts to secure action in the house will be made in behalf of the Norris constitutional amendment, changing the date of the presidential inaugural and the convening of congress and the Mississippi flood control bill.

Plainview Petitions Key-Rate

Notification has been received by the mayor from the state fire marshal, that Plainview's fire record for the past year entitles the property owners of the town the same insurance key rate it has had for the past years.

When the new extension and enlargements, including an additional reservoir, now in course of construction, is completed and put into service, the key rate will be materially lowered.

Thirteen persons were burned to death and three others were reported missing in a fire in Kansas City Friday, which destroyed a two-story frame rooming house.

May Increase School Taxes

The patrons of the Hooper, Center Plains and Mt. Vernon schools in this county are considering the matter of holding elections to increase their rate of taxation, so as to give their schools more money.

The patrons of Runningwater and Halfway districts are considering changing their schools from rural to independent districts.

A peculiar difference between West and Northwest Texas schools and those in East and South Texas is, out here the people believe in taxing themselves for school purposes and down there to get as much as possible from the state and pay as little as possible themselves.

May Build Another Gin

T. J. Vines, well known cotton buyer and two years ago manager of the local gin, is contemplating the erection of a modern gin in Plainview for the coming season.

Chas. A. Malone is also planning to possibly install a gin in Plainview.

A largely increased cotton acreage will be planted this year and two or three gins will be needed to handle it for this immediate territory. A gin will likely be built at Petersburg to take the place of the one burned last fall, and possibly gins will be erected at other points in the county. Two gins are now at Abernathy, one at Hale Center, and one in Plainview.

Half-Inch Rain at Lockney

Fully half an inch of rain has fallen in this section within the past 48 hours. The first rain came Wednesday night, when something like a quarter of an inch fell. Last night it rained slowly all night, and this morning a thick fog and mist hangs overhead. The wind has been in the east for several days, and is still in that direction.

The rain, although short of a reason, will be of inestimable value to the wheat of this section. The early wheat has stood up remarkably well during the dry weather. It is well rooted, and has a good show to make splendid yields.—Lockney Beacon.

Odd Fellows Will Improve Cemetery

A. A. Hatchell informs us that the Odd Fellows will improve their section of the cemetery, and will set out forty trees along the driveways and walks.

All those who have relatives or friends buried in that part of the cemetery are asked to contribute enough money to purchase one or more trees at \$2 each.

Would Join International Court

Washington, Feb. 26.—A resolution to carry out the new administration proposal for American membership in the International Court of Justice, organized by the League of Nations, was introduced in the senate today by Senator King, Democrat, Utah. There was no decision and it went over indefinitely.

Deep Snow in Canada

A party living in Prince Edward Island, Canada, has written the following: "The snow here is 5 to 10 feet deep on the level, but it's piled up about 30 feet high along the railroad tracks. It's a reasonably mild winter, only 30 below zero as I write. But we're all dreading the big spring thaw, when the snow will turn to an ocean of slush."

Officers Inspect National Guard

Major Taulbee of the U. S. army and Major Bannister of the Texas National Guard were here the past several days making the annual inspection of the local battery of field artillery.

There are now sixty-three men and three officers in this battery.

Science Hill School Growing

Miss Vera Stambaugh, teacher of the Science Hill school northwest of Abernathy, spent the weekend here. She says many new people are moving into that school district. The school had only twelve pupils up to Christmas, but since then has increased to thirty-two, and several new ones were to enter yesterday.

Italy Adopts Treaties

Rome, Feb. 16.—The senate today adopted the treaties drawn up at the Washington armament and far eastern conference. It also ratified the treaty of Santa Margherita between Italy and Jugro-Slavia.

Mrs. DeGros's Nomination Fails

The state senate has refused to confirm the nomination of Mrs. Chas. DeGros of El Paso, whom Gov. Neff had nominated as one of the regents of the Texas Tech. College.

Buys Interest in Theatre

A. L. Burton has bought an interest in the Plainview Theatre and he and Mr. S. R. West are now conducting the business, with Mr. West as manager.

TILSON SCORES EDITOR NEWS

ENDORSES KLAN BUT WOULD NOT BECOME A MEMBER

Editor of the News:

I have read with interest your long tirade against the K. K. K. and your twisting and squirming methods to evade the force of my charges that you were an enemy of free speech. Now, I must qualify this somewhat, for I am loathe to believe you are at heart an enemy to free speech. But you have nursed and nourished a hatred and animosity for the Klan for so long that it has thoroughly insinuated itself through your system until it is a big part of your nature, and reason, argument and facts can make no impression on you.

You state in both your articles that you were imposed upon by Mr. Mock, because he didn't indicate to you precisely what branch of education he would speak upon, therefore you try to justify yourself and the City Council in your efforts to suppress the lecture. Of course, it would have been useless for you to hear the lecture for you are case-hardened, and like the Ephesians of Old, joined to your idols. But it is pleasing and encouraging to know that the court house was packed from top to bottom with intelligent and interested men and women, including the pastors of the three leading churches in Plainview, and after interrogating a large number, without exception, they pronounced it an able, patriotic, timely and Christian lecture, entirely dissipating the foolish prejudices and notions which many had formed of the Klan.

One other evidence of your opposition to free speech; you stated in both your articles that "Dr. Minor had no business in Plainview." Pray, and who are you? "Upon what character of meat does this our autocratic Caesar feed?" that he should dictate who shall come to Plainview; how long he shall stay, and what he shall talk about while there? This evidences your intolerance.

I have a very vivid recollection that only last summer when Dr. Hamlet, one of the greatest, most learned and patriotic ministers of the Baptist denomination in Texas, a man who has the confidence, not only of his own church, but of all other denominations that know him, except possibly the Catholic church—a man whose ideals and patriotism are of the loftiest character and who evidenced his patriotism and devotion to the principles of his government by taking his

SON IS FOUND AFTER 31 YEARS

FOUND BY WANT AD. AND COMES TO VISIT HIS PARENTS

Mr. and Mrs. M. D. Webb of this city have found their son, Jack Webb, who had been lost from them for thirty-one years, and whom they had thought dead. He lives at Holdenville, Okla., and has a wife and six children. He arrived here Sunday morning on the south bound train, and was met by his aged parents, and their meeting was very affecting.

Jack left the family home near McKinney, in Collin county, when seventeen years of age, while his father was away, and though the parents heard high school, spent the week end with home folk here.

Recently his sister put a want ad. in the Dallas News, asking for information relative to the long-lost brother, and he happened to read it, and at once communicated with her.

Though he had been gone more than three decades, and is now forty-eight years of age, his parents readily recognized him when he stepped from the train Sunday morning.

The Webb family has been living here for several years.

Women attending the National school of Democracy in New York declare that if the Democratic party should give any comfort to the west in the next campaign, it will not hold the feminine vote of any section of the country.

A Fort Worth newspaper has been sued for \$1,350,000 damages for libel by an oil promoter. This is the first intimation we have ever had that it was possible to libel an oil man. Wonder where that editor will get the money to pay such damages if he loses the case, as it is not often that newspapermen have more than a million dollars about their jeans.

The ministers in Tyler have signed an agreement not to perform any marriages where either of the contracting parties has been divorced. There is but one scriptural ground for divorce, and even in that case remarriage is not contemplated, and preachers everywhere should take the same stand that those in Tyler have taken. Marriage is a holy estate, and should be respected.

A New York court has just held that the sinking of the Lusitania was merely an act of war. That was what all level headed unprejudiced people in this nation thought at the time, for it was carrying large stores of munitions to be used in war and in sinking it the Germans were merely protecting themselves. It was an awful thing to sink a ship with thousands of civilians on it, but war is horrible, and those who sailed on the ship we'll know their danger, and should not have taken the risk.

There are those who seem to think that a political and personal enemy will grow up between Capt. Tilson and the editor of the News relative to their differences on the Ku Klux, but no such thing will occur, for we have the very warmest personal friendship and admiration for and confidence in the Captain, and know him to be absolutely honest and sincere. Captain Tilson has as much right to be wrong once in a long while as some others have of being wrong nearly all the time.

The trouble down at Austin is, that while each and every member of the legislature declares he is in favor of economy and the abolishment of all bureaus and official positions that are not absolutely necessary, when it comes to voting for specified economies and abolishments they balk, and thus there is no retrenchment and the army of office-holders is not reduced. It is much easier to get a majority of the legislators to vote to increase official positions or for additional appropriations than it is to vote against such propositions.

The Wisconsin legislature is about to abolish the National Guard in that state, for the reason that "Military training is demoralizing to young men and a center of militarism in the nation." While there is a rather radical position to take on the subject, the fact remains that we are exalting militarism too much, and if you train a nation of young men to be militarists war will naturally follow. The nations of the world should become weary of militarism, and put soldiering on a much lower scale that it is now held.

Judge W. P. McLean, Sr., of Fort Worth is one of the five surviving members of the convention of 1876, at which the present state constitution was adopted. He is opposed to a constitutional convention to write a new one next year or for several years, as there are now entirely "too many isms abroad in the land." He is possibly right about the matter, for there is so much radicalism and most people are so upset by conditions growing out of the war that a sane document could hardly be written. However, it is quite safe to say that no matter if a new constitution is written it will not be adopted by the people when they vote on it, for many thousands will vote against the whole simply because they oppose some one article. It will likely be many years before Texas has a new constitution.

E. L. Wilde of Portales was here Friday.

John Barleycorn is to get another blackeye, this time from the Mexican government. In a few days announcement will be made that no saloons nor sale of liquor will be permitted in a zone fifty miles wide along the boundary line of United States. This will be a great blow to the thirsty crowd who have since this country went dry been living in the border towns so they could get liquor across the river, at Nueva Laredo, Matamoras, Juarez and many other towns just across the line. Obregon, de la Huerta, Calles and other leading statesmen of Mexico are prohibitionists and are working toward having an entirely dry republic within a few years. As the saloon in America is gone forever, the Mexican cantina is destined to also go, for it is doomed. John Barleycorn and Juan Tecela are fighting a losing battle.

MANIA FOR TAXING

The Houston Chronicle says it is a good thing the people are beginning to think seriously about taxing, for taxing is a serious subject. To think about taxation without thinking of what is wise and reasonable to expect the government to undertake and what is wise and reasonable to leave in the hands of private enterprise is to get nowhere.

The government creates nothing by itself. What it gives to anybody it must take from somebody.

The rise in taxes, whether considered from a local or nation wide angle, has been matched by a rise in the socialistic drift.

Nothing has been so characteristic of American politics during the last three decades as a disposition to make the government a cureall for every ill the flesh is heir to. We have tried to make it parent, wet nurse, social secretary, moral purveyor, business advisor, and a manufacturer of personal purification.

It is impossible to tax the people into prosperity, while it is very easy to levy taxes so indiscriminately and so unwisely as to paralyze business, stifle industry, and retard progress.

It matters not where a tax is placed, the ultimate and inevitable destiny of the burden is on the shoulders and pocket of the consumer. No plan of taxation however ingeniously devised or on whatever commodity or product it is levied, has ever been found capable of being so enforced as to escape that result.

HAVE YOU A PLAN?

The columns of this paper are open to any citizen who has a plan or suggestion to offer for the good of this town and countryside.

Many people have splendid ideas in their heads, but are timid about letting them out.

They should not be backward in this respect.

The people need those ideas for development, for it is an established fact that development seldom results from idle and indifferent street talk or home dreams.

The people will listen if you will make a noise.

Liberty does not mean lawlessness. Liberty to make our own laws commands a duty to observe them ourselves and enforce obedience among others within their jurisdiction—William McKinley.

The harboring of ill-will and hatred is always injurious to the individual. It destroys your peace of mind and brings on premature old age. We should never hold our prejudice or passion more highly than we do our generosity, charity and sense of fairness.

Hale County Takes Forward Step
 Hale county has taken the most forward step in many years when its commissioners' court made an appropriation for county agent work. Plainview has been boosting for county agent work for some time, but there has been division on the question inasmuch that the matter has been sidetracked from year to year. Now the progressive element among the farmers and business men have gotten in line and employed a county agent. Much good will result from this work. County agent work is a necessity these days in order to develop the resources of the county.—Lockney Beacon.

The plant was a small affair of some 20 or 25 gallons capacity and was brought to town and the mash was destroyed.

Settlement was made with the Mid West Engineering Co. on the basis of their contract. The cancellation of the big highway across Briscoe county, No. 5-A, also made it necessary to cancel the contract with M. E. Worrell, another engineer who was threatening to sue the county. In the settlement Mr. Worrell was paid \$500.

The First National Bank of this city was made the county depository for the next two years, they being the only bidders. Their bid was two and one half per cent on both county and school funds.

If You Are Well Bred

You remember an unmarried woman pays the first call of the season on a married woman, also, it is customary for the younger matrons to call upon the older ones.

Brides usually wait to receive first calls and it is usual for neighbors and friends to call and leave cards immediately upon the return from the honeymoon.

Dr. Andrews Speaks On Work of A Christian Minister

At the Rotary luncheon today at noon, Rotarian Rev. E. H. J. Andrews, rector of the Episcopal church, gave a "classification talk" on his vocation, that of a minister. He declared that the minister is prophet, priest and pastor—prophet who looks forward to and encourages people to lead better lives; priest who presides over the worship of God in his congregation; pastor who works among his people and feeds them as does the shepherd

his sheep. His address was witty, serious, inspirational. He declared that one of the hardships ministers have to endure is that people do not treat them as they do ordinary men, but set them apart as if they dwell on a different plane. Dr. Andrews feelingly said that one of the most comforting things in a minister's life is to live in the same community many years, preside at the christening of the babes, bring them up in the Bible school, take them into the church and see them grow into manhood and womanhood and have families of their own, and know that he has had a large part in shaping their lives for usefulness to society and God.

Kiwanian Ray Knochhuizen was a guest, and when called upon for a talk evened up with Jim Anderson, Meade Griffin and other Rotarians for pulling the "thermometer stunt" on him while speaking during the recent Rotary-Kiwanis joint luncheon. He "poured in on 'em" good and strong.

Mr. Frank R. Day sang "Love's Old Sweet Song," and responded to an encore with an old Plains cowboy song, such as the cowboys used to sing as they galloped across the Plains after cattle. Little Miss Edith Gatton also sang two cute songs, that were appreciated.

Mrs. E. H. Humphrey's Niece Marries in Colorado City

One of the prettiest weddings Colorado ever witnessed was Tuesday evening at 7 o'clock at the home of Mr. and Mrs. C. M. Adams, when their elder daughter, Miss Frances Byrd Adams was united in marriage to Mr. Roy Douglas Buchanan.

The house was beautifully decorated in pink and white. The background was English ivy, which was twined over archway and stairways and artistically festooned over curtains and draperies.

The flowers were pink carnations, while the white was wedding bells, ribbons and dainty festoons of tulle over the dining table.

At the appointed hour Miss Juanita Pond played Lohengrin's Wedding March, and the bridal party entered from the stairs. First came Miss Ruth Buchanan, sister of the groom, in pink taffeta, and Miss Elsie Hooper, of Selma, Ala., cousin of the bride, in grape crepe de chine, then Miss Katherine Buchanan, sister of the groom, in blue taffeta, and Mrs. Thomas Dawes, matron of honor, in green crepe de chine. The little ring bearer, Jane Powell, cousin of the bride, of Plainview, clad in a Patsie frock of changeable orchid, wearing a wreath of orchids, carrying the ring in the heart of a rose. The maid of honor, Miss Marian Adams, sister of the bride, wore an orchid crepe de chine trimmed with silver lace. The maids, matron of honor and maid of honor carried Colonial bouquets of sweet peas, violets and roses. Then came the bride, on the arm of her father. She looked lovely in a wedding gown of metal cloth draped with chiffon, a wedding veil of tulle fastened with a wreath of orange blossoms, carrying a shower bouquet of roses and lilies of the valley. They were met at an improvised altar under the arch between the hall and parlor, by the groom and best man, Thomas Dawes, and Rev. E. B. Etson, pastor of the bride, who read the Episcopal wedding ceremony from the same book read at her mother's wedding. Immediately after the ceremony ribbons fastened to the wedding bell were pulled and a shower of real orange blossoms, sent by relatives in California, covered the bride and groom.

A reception followed the ceremony at which time pink and white ice cream, with hearts on it, cake, pink and white mints and coffee were served in the dining room, which was beautiful with the bride's cake as the center of attraction daintily decorated with roses resting on a white lace. From a white bell fastened to the chandelier were streamers of white, which extended to pink and white candles on the corner of the table. The bride's cake contained the emblems and caused the usual fun. Miss Buchanan got the ring, Miss Caroline Chambers the bluebird, Miss Ruth Rix of Big Springs the dime, Miss Earnest the swastika and Miss Mary Wood Rix of Big Springs the thimble. Mr. and Mrs. Adams were assisted in entertaining by Dr. and Mrs. Coleman, Mr. and Mrs. Prude, Mr. and Mrs. J. L. Bennett, Mrs. Shropshire, Mrs. Earnest, Mr. and Mrs. Lupton, Mr. and Mrs. Thomas R. Smith, Mr. and Mrs. Joe Smott and Miss McComas. The out-of-town guests were Mr. and Mrs. E. H. Humphreys and son, Mr. and Mrs. C. D. Powell and little daughter, Jane, of Plainview, J. A. Rix of Lubbock, Mr. and Mrs. C. B. Rix, Mr. and Mrs. W. W. Rix, Miss Alice Ann Rix, Mr. and Mrs. Harvey Rix, Miss Mary Wood Rix, Misses Eleanor, Lucile and Ruth Rix, Rev. and Mrs. E. B. Etson of Big Springs, and Miss Elsie Hooper of Selma, Ala.

Mr. and Mrs. Buchanan left on the east bound train for New Orleans. After spending a few days there they will sail for their home in Pernambuco, Dutch Guiana, where Mr. Buchanan is assistant general manager of the American Beauxite Co. They will spend their honeymoon in Cuba, Panama, Curacao, La Guyra, and Port of Spain. The bride and groom were both reared in Colorado. They come from two of the oldest and as good families as are found in the West, and will be an asset to any country in which they may choose to live. They have a host of friends here whose good wishes will

Definite decision to organize a live stock Growers' Shipping Association in Floyd county was one of the actions taken by the directors of the Floyd County Farm Bureau at its meeting in Floydada last Saturday afternoon. Organization of the association as recommended by a special committee named to investigate the wisdom of this action several weeks ago. This committee composed of J. H. Green, J. F. McCarty and W. D. Newell, reported the matter favorably. On the committee appointed to undertake the organization are J. H. Green, M. E. Latham, T. S. Wilson, M. D. Ramsey, W. D. Newell and J. F. McCarty. J. H. Green is chairman of the committee.

The meeting was a regular meeting of the board. Only one director, T. S. McGehee, of Lone Star, was absent. The recommendation of the constitution and by-laws committee to the effect that the State Farm Bureau Constitution and By-Laws should be adopted without change in the constitution and by-laws of the Floyd county organization, was adopted unanimously.

Directors present at the meeting were J. D. Farmer, J. J. Conner, A. F. Norton, M. D. Ramsey president, W. D. Newell secretary and L. A. Williams.—Floydada Hesperian.

Life in his hands and going with the doughboys to the shell-torn battle fields of France. That man came to Plainview to deliver a lecture and when it was surmised that he would lecture on the K. K. K., and the Roman heigerarchy there, boasted lovers of free speech, one of whom you were proud to be, which did everything they could to prevent it, even to shutting off the electric lights at the band stand, and according to prominent citizens, had supplied themselves with a quantity of over ripe hen fruit to administer to this distinguished livine should he presume to speak in the interest of the Klan.

Again you denounce the Klan parade pulled off in Plainview a year or so ago and without the semblance of reason charge that they came there to stir up strife and precipitate trouble. Now, I was not there, but I don't believe there is a semblance of truth in the statement. Those men—honest intelligent, law-abiding citizens—came to Plainview just as they have in thousands of other towns and cities and just as other secret organizations have done, to exercise their rights and privileges as American citizens. And while peaceably parading in your town a number of hoodlums and roughnecks urged on by a few fanatics offered them every insult and indignity that they could think of even to the tearing off or attempting to tear off the regalia from these men. The fact is, that whatever trouble there was that night, it was precipitated by this tough element in your town. And those devotees of free speech and free assembly were the cause of it.

Then try to parade yourself and boon companions before an intelligent people as a friend of free speech. You may talk and talk, until you are as grey as a Norwegian rat, but when you contradict it by your acts sensible people know where to place you. So much for your position on free speech, I will now, as briefly as possible, notice your vicious, unjust and untenable arraignment of the K. K. K. I hold no brief to speak for the Klan, but I know enough about it to know that you neither ignorantly or intentionally misrepresented the Klan and myself from start to finish.

You start out by saying that Tilson has donned the bedsheet, when I stated as plainly as it was possible, that I did not belong to the Klan, and I will further state that I never expect to belong to that or any other secret organization. I stated that I endorsed the principles of the Klan. You did the same thing, but with a pharasaical air of "I am more holy than thou," that I believe in these principles, but you (the Klan) adopt them for criminal motives and for criminal purposes, a mere camouflage.

Now, Mr. Editor, if you and the enemies of the Klan really believe what you charge you ought to be able to give some evidence of their criminality. The enemies of this organization have resorted to every means their energy and ingenuity could devise, fair and unfair, honorable and dishonorable to fasten upon and convict it of crime. They have ransacked all creation and invoked the power of the courts of every state, as well as the federal courts, from Englewood and Los Angeles, California, to Morehouse Parish, Louisiana, from Beaumont, Texas to Kansas City, Chicago and New York, to convict it of crime and have utterly and signally failed. They carried their unholy persecutions to the Senate of the United States, and after several weeks investigations with all the powers of the Federal government behind it, the Senate gave the Klan a clean bill of health,—said there was nothing wrong or criminal about it.

But, you, a little West Texas editor, away out here on the Plains, assume to know more about it than all the courts of all the states and the federal government combined after montas of investigation under the obligation of their oaths.

Again, Mr. Editor, do you know that there are possibly 200,000 Klansmen in Texas and between 3,000,000 and 4,000,000 sympathizers? Do you know that there are at least 3,000,000 Klansmen in the United States? And I hazard nothing in saying that eight-tenths of them are the very highest type of American citizenship.

Do you know that many counties of our state elected Klansmen to every office in the county? Do you know that the organization wherever you find it is composed of, among the very best element of our citizenship? It is said that a large majority of the members of the lower house of the legislature are Klansmen and sympathizers. Yet you join with Jim Ferguson, George Peddy and the Catholics in a wholesale and indiscriminate denunciation of this Order and its membership.

Say, Jess, old boy, honest Injun, didn't you steal some of Jim's and George's snuff? You sure sneeze just exactly like 'em. I suggest that these pals of yours, together with the City Council, Catholics and enemies of free speech and free assembly nominate you for president next year. Wouldn't you shine, though?

You know, Jess, that in the last campaign the republicans and bolting democrats denounced the regular democratic party, and the democratic convention as composed of K. K. K.'s, and their sympathizers. That convention composed of this criminal element nominated a full state ticket and you supported it. They even nominated Earle B. Mayfield, for the United States senate, and do you remember how you tore your shirt all off of you trying to elect this criminal (?) to the highest office within the gift of the people? Doesn't this contradict your sincerity of the criminal charges you have made against the Klan? And aren't you a sweet scented specimen of consistency?

Now, Jess, I am going to say that I have the very highest regard for you and I have never seen a local paper that I thought was more honestly and ably edited than "The News," but, Jess, you sure do get "batty" some times, as in this instance you have allowed your prejudices to get control and run off with your better judgment. But there is hope for you

that you will reform and return to your first love once more. You say that the City Council would have allowed a Ku Kluxer the use of the auditorium if they had stated frankly what they wanted with it. You might preach that 'till the crack of doom and you couldn't make one man in a thousand that know the parties and the circumstances believe it.

You state, if I remember rightly that if a member of the Ku Klux or Capt. Tilson had come to you and asked you to publish a meeting of the Klan that you would have done it. Would you? Let me impress on your mind this fact, that if Capt. Tilson had the same opinion of this organization that you claim to have, if he believed that it was "inherently evil, vicious, cowardly, un-American and un-Christian," and that its membership were criminals, law-breakers, mobbies and night-prowlers covering their identity with bedsheets to shield their crimes, he would have suffered his arms torn from their sockets before he would have even asked you or any other paper man to announce their meeting. Nor could you do it unless you threw yourself back upon an old and trite proverb "That consistency is the virtue of fools."

Now, my good friend, I want to commend to you the wholesome example of Hon. M. M. Crane of Dalals. You remember how he raved and ranted, snorted and vilified the Klan when it first appeared in Dallas, but after he had seen its beneficial, moralizing and uplifting, Christian influence, both in Dallas and Fort Worth, as well as in other cities, his mouth closed up like a clam, and he went into his hole and pulled the hole in after him. So I say to you "Go thou and do likewise."

Here is hoping that some thunderbolt of reason may knock the scales of prejudice from your eyes and that you may yet stand forth in the dignity of your American manhood and defend those heaven-born and blood-bought principles of free speech, free press, free schools, the freedom of conscience, the freedom of religious worship and all those grand and noble American principles for which the K. K. Klan stands for, and will pour out their last drop of blood to perpetuate these principles.

T. J. TILSON.

WILLINGNESS TO TAKE ADVICE IS SOMETIMES BEING GREATER THAN HE WHO GIVES IT

Must Uncle Sam Be The Goat?

German payments of reparations and Europe's payment of indebtedness must be made in the commodities of commerce. There can be no doubt about that, and the delivery problems are very different from those presented by the ordinary growth of balanced trade from one year to another.

Looking the situation straight in the face there is presented a great one-sided transaction—a flood of goods one way without corresponding movement of goods in exchange. Obviously such movements have in them the potentiality of mischief, in causing the derangement of regular established industry. Nor will we protect ourselves from dumping by high tariff walls.

The French, in thinking of reparations naturally visualize only money with which to pay the bill for the reconstruction of devastated territory, but it is out of the question for Germany to pay in that way. Germany must pay with labor or the products of labor. Now in the Ruhr, German labor declines to function. This is a serious situation. The Ruhr is vital to Germany, and soon unless the occupation be ended, Germany must import coal from England for her own industries to make good the coal held by France. If Germany must export to pay for the coal she must get from England then to what extent will England and the United States receive exports from Germany in order that France may receive her reparations. Back of the whole difficulty stands the United States, holding aloof from foreign entanglements. The phrase becomes almost a catchword when considered in the light of the actual situation unless America is satisfied to be the goat.

Keep Peace By Advertising

The larger metropolitan newspapers in both the East and West have been quick to sense the delicacy of the situation existing between this country and Japan, as outlined recently in the newspaper, and coming as a result of the Japanese invasion of Siberia at the invitation of the United States during the world war. While the subject is treated with a certain degree of reserve, nevertheless the tension is quite apparent at Japanese delay in withdrawing her troops from all Russian territory.

Relief is felt in the recent retirement of Japan from Chinese territory, which naturally bespeaks in a peaceful inclination stripped of any thought of territorial extension. If this policy be followed in the case of Russia, Washington will breathe easier.

One of these days the great power of advertising will be used to clear the atmosphere and prevent international misunderstanding. Perhaps no greater opportunity ever has presented than exists now in the Japanese situation. America practically stands sponsor for the good faith of Japan. However, nothing would make for better understanding than a few simple frank and authoritative publicly advertised statements which would indicate the real thought of the Japanese people.

When intelligent and honest advertising shall take the place of intricate diplomacy the world will rest on the bedrock of public understanding and that will mean world peace.

FAR ENOUGH

THE heretical, rationalistic forces do not seem to be satisfied with the wreck they have produced. They are responsible for the late war. They are also responsible for the crime wave sweeping this country and Europe. The orgy of sin and crime can be traced directly to false teachings. Like the vultures, they make a feast of the decaying carcass. Not satisfied with the murder, expense, wreck, and ruin produced, they have written a shorter Bible which will perpetuate the orgy.

The astonishing thing is that there are leaders connected with the training of our young men and women who have lent their names and their influence to the infamous, half-born production called the Shorter Bible. If these organizations permit their names and the names of their leaders to be attached to this abortion, then the righteous, orthodox Christian forces of America should crush them. Our boys and girls cannot be entrusted to such leadership. We cannot afford to have the faith of our children undermined by such infamous attacks upon God's infallible Word.

The Shorter Bible, so called, is one of the most blasphemous attacks that has been made upon God's Holy Bible.

Orthodox, self-respecting, consecrated men and women will not be insulted by such attacks.

Farm Bureau President At Home

President O. E. Bradfute, of the American Farm Bureau Federation, is a real dirt farmer. This is a picture of his farm in Green County, Ohio, from which he was called to lead the biggest farmers' organization in the world. Mr. Bradfute specializes in Black Angus purebreds—as he is shown in the foreground holding one of his prize winners.

Richard Lloyd Jones Says

BE BUSY

YOU cannot test your muscle sitting still. You cannot find out what your brain can do by going to sleep. Repose is not a prodder to progress. Its proper place is after work, not before work. Work is for the living; rest, for the dead. Be a live one. It has often been said "Thou shalt work" should be one of the commandments of every religion. Work is the noble yardstick by which we determine the worth of all things. It is the climax of God's gifts to man. It is a blessing, not a curse. Deprive a man of the right to work and you have imposed the superlative punishment, because man knows no joy or repose that is not found along the pathway of work. The man who never does anything never knows anything. The man who never works never gets anything. He may be given things, but he can only again give. He knows no building game. The traveled rail and the driving piston rod are polished by use. The idle piece of steel is red with rust. Better to wear out than to rust out. History is the story of work, the record of achievements. In its index you cannot find the names of idlers. Contribute something to the history of something.

To know work as a friend is the hallmark of wisdom. It is by journeying through the shadows of life that we learn the solace of daily tasks. The tenderness that denies effort is cruelty. It makes characterless that which was endowed with strength. Work is expression. If you can't express yourself one way, try another—but try. If you can't build a cathedral, dig a ditch. But do something. Only workers win the world's respect. God does not hold us responsible for results; only for faithfulness. Work was made for man, not man for work. He who falls at his task permits work to be his master. Success comes to him who is master of his work. Work is so respectable that there is no one no matter how rich or lazy who does not at least pretend to work at something and who does not want to be known as a worker. Work is the greatest educator. Tackle a job that is a little above you; grow to it and you engage in work. Tackle a job that is below you and you engage in drudgery. Put your heart into work and your labor becomes the light of life. Work is the highway to human welfare.

HONEY PHILOSOPHY for 1923

If we all got up at nine o'clock to-morrow morning, convinced that at ten o'clock we were all going to die—and we weren't, the troubles of the world would be solved in thirty days. The desperate effort to accomplish before the end, in science, in art, in industry in invention, in economics, in human conduct and all other factors of the national life would unfold a world of happiness and comfort and unselfishness that would spell contentment and disclose in an hour what brotherhood really would do for us if we ever tried it. Glory be to the grim reaper! If he was out of commission, we'd be a seething mass of selfishness, robbery and debauchery. If we lived here forever—my what an awful bunch we'd be.

Poer by UNCLE JOHN

We're all inclined to grumble if we're fat, or if we're lean. . . . We crave the happy medium that's supposed to be between—Nobody wants a figger like a load of prairie hay—Nor, it wouldn't be convenient to dry up an' blow away. . . . When a feller comes, disgusted with wal-DIVERSE OR lerin' in his fat, they tell him to reduce it, by PERVERSE avoidin' this or that—he mustn't eat potatoes, he must dispense with pork,—the more supplies he does without, the better it will work. . . . Then, they run across a feller that rattles in his shoes,—He follers out the schedule that they told him he could use. . . . The consomme, an' pabulum, an' vitamins, an' dope, may perk him up a little in the shadder-land of hope! But, that ain't solved the problems, an' I reckon, never will. . . . When Natur' holds a secret, she defies our highest skill,—For Natur' loves variety—the fat as well as thin,—And when she does her duty, what's the use of buttin' in?

The Golden Rule
All things therefore whatsoever ye would that men should do unto you, even so do ye also unto them: for this is the law and the prophets.—Matthew 7:12.
Most problems are simply a question of right and wrong. Rotary tells you to always do the right thing.
Service, quality, equitable and fair treatment and integrity are the basic principles of business success.
Faith in yourself, in your ability

and in the cause you represent is a wonderful thing. With faith you can do almost anything; without it you can do nothing.
Attendance at all Rotary clubs should never fail to average 80 per cent. It is the duty of all club members to attend all meetings unless unavoidably prevented.
No one is useless in the world who lightens the burden of it for anyone else.—Charles Dickens.

Worry Kills
Worry is the moth that cuts into the precious threads of thought and character. It confuses the judgment and enfeebles the will. Anxiety and fret are fatal to the integrity of nerve and brain. Worry is a poison and happiness a medicine; fretful people lower the level of life, breed disaster and confusion.—N. D. Hillis.
Chickens come home to roost—so do harsh words.

USE NEWS WANT ADS

The News carries more Want Ads than any other newspaper on the South Plains. There is a reason for this: Want Ads in the News get the results, for the News reaches the people of this section, and an adv. costs only a few cents.

If you have anything you wish to sell, trade, rent or if you want to buy, trade for or what not, you can find someone who will do business with you, if you put a Want Adv. in the News.

THE COST IS SMALL--THE RESULTS BIG

The rate is 15 words or less 15c per issue. Each additional word 1c.

Local Circulation for Local Advertisers

It does not matter to a Plainview merchant how many subscribers a newspaper may have a hundred or a thousand miles away, it is local circulation among people in this trade territory that counts—that is worth while, and the newspaper which has the largest list of subscribers in the Plainview country is the most valuable as an advertising medium, and especially is the newspaper that goes into the most country homes, for farmers buy more and larger bills of goods than town people. for their needs are greater and more varied

THE PEOPLE OF HALE COUNTY ARE SUBSCRIBERS TO THE NEWS

And they trade in Plainview, hence an advertisement in the News is the best investment a merchant or any one wishing to reach the people of the county, can make.

THE NEWS HAS LARGEST CIRCULATION

It has more subscribers at Plainview Postoffice than any other newspaper published.
It has approximately three times as many subscribers on the rural routes out of Plainview as any other newspaper published.
It has decidedly more subscribers at the smaller postoffices and rural routes in Hale county than any other newspaper published.
It also has good lists of subscribers in the communities in adjacent counties, among people who trade in Plainview. All these circulation facts can be substantiated.

The reason why so many people of the Plainview country are subscribers of the News is that it publishes the most local happenings and has an open and fearless editorial policy.

ANY MERCHANT IN PLAINVIEW WHO DOES NOT ADVERTISE REGULARLY IN THE PLAINVIEW SEMI-WEEKLY NEWS IS LOSING MONEY BY NOT DOING SO, FOR THE NEWS GIVES THE MOST SERVICE FOR THE MONEY.

LOCAL CIRCULATION IS THE THING THAT PAYS
