ST. LOUIS FACES COAL FAMINE

(Associated Press)
ST. LOUIS, Mo., July 28.—Industrial St. Louis faces a coal famine as a result of the miners' strike.

CHAMPION SECTION IS SCENE OF BIG RABBIT SLAUGHTER

Approximately 2,000 jack rabbits turned their toes to the July sun Tuesday in the big drive staged in the Champion community by some 175 men and boys from nearby farms and ranches, Roscoe and Sweetwater. The casualty list would have been longer, old-timers said, had the fields and pastures been clear of growing crops and rank vegetation.

When the last shot had been fired and the two converging lines of hunters met at Champion, a grand rush for the long tables laden with picnic delicacies and barbecue took place. The walk of five miles had whetted appetites to perfection and little was left of the viands.

Rabbits have destroyed a real deal of field and garden crops in the Champion country, but it is believed that the drive will bring relief from the animals.

Among the Sweetwater nimrods who participated in the hunt were Harry Cress, Dale Warren, Willis Barbee, Sam H. Terrell and wife, Weldon Terrell, Mrs. Thomas Trammel, O. H. Roberts and wife, J. N. Dulaney, E. Webster, Joe Birhead and others.

Advance requests for tickets indicate a crowded house for the Demetral-Chadwick wrestling bout, to be given Thursday night under the auspices of the American Legion, according to W. E. Smith, post commander, who is in charge of the ticket sales. The wrestlers will be seen in a finish match and as both are well known in wrestling circles, a monster crowd is expected.

With the possible exception of Eastland County, the home of R. N. Grisham, Congressman Blanton apparently has carried every county in the Seventeenth Congressional District in the Saturday primary, his majority being two to one over the Eastland County candidate. GOVERNMENT TRUCK TRAIN SCHEDULED HERE AUGUST 9TH

The United States Motor Transport Corps which is making a transcontinental tour of the United States is scheduled to reach Sweetwater on August 9, according to information received today.

The truck train left Washington, D. C., on June 14, and is en route to Los Angeles. It consists of about 40 automobiles and trucks, manned by soldiers and directed by U. S. officers and civilian representatives.

Very likely the train will remain overnight in Sweetwater, and the Board of City Development will make arrangements for the entertainment of the party as soon as definite instructions are received, according to Secretary Sheppard.

GOOD RAINS YESTERDAY

Generous rains fell over all parts of Nolan County yesterday, according to reports received today.

A heavy rain fell in the Trammell Lake section, and good showers are reported from the Roscoe section. The rain extended as far as Colorado, Big Spring and San Angelo. Abilene also reports good rains.

Roscoe got a heavy rain with some wind, but the fall did not extend but a short distance east toward Sweetwater. South, southwest southeast of the city, the rain was general over the divide country, according to W. C. Calvert, county farm demonstrator. Some hail was reported in that section, doing considerable damage to cotton.

Very little water fell in the immediate vicinity of Lake Trammell, but the lake is still full from previous rains.

ARRANGEMENTS COMPLETE FOR FARM CONGRESS

Special to The Reporter.

Programs are now ready giving complete information regarding the work of the Texas Farmers Congress and affiliated organizations at College Station, August 9, 10 and 11. These meetings will be of interest to all, but particularly so to those interested in horticulture, dairying, bee keeping, poultry raising, and the work of the various experiment stations.

Meals will be served at the College mess hall at the lowest possible price, and a small charge will be made to cover cost of janitor service, bed linen, ice, lights, etc. Railroad rate is one and one-half fare on the certificate plan, the only rate given this year for any convention. Pay full fare to College Station, taking a receipt from your local agent. Then when there are as many as 250 receipts turned in to the Secretary at College Station, return tickets may be purchased for half fare. Those attending the Short Course the week previous can take advantage of the reduced rate and remain over for the Congress meetings.

All dormitories have been screened and one of them is being specially prepared for ladies. Automobiles will be taken care of, and repairs and supplies can be secured at the College.

Officers of the Texas Farmers Congress are Will B. Munson, of Denison, president; Geo. S. Bruce, of Houston, Vice-President; M. Falkner of Waco, secretary-treasurer. Mr. Falkner will be glad to send you a program and full information. If you want a room reserved, write to Mr. Falkner at Waco, or to Dean E. J. Kyle, College Station.

SOIL SURVEY OF NOLAN COUNTY TO BE MADE

A soil survey of Nolan County will be made in the near future if efforts of W. C. Calvert and a number of interested citizens of this city are successful. Mr. Calvert, who is county demonstration agent, leaves Sunday for College Station to take up the matter of survey.

Assisting Mr. Calvert in securing Federal aid in the survey are James Spiller and Mayor George H. Sheppard.

Speaking of the benefits to be derived from having the survey made, Mr. Calvert said:

"By taking the soil survey map of the county, a farmer can locate his land, and determine the classification of the soils on his farm. By turning to the report he will find a description of these soils and determine the agricultural practices on these particular soils in his county, and where analyses have been made, learn the plant food and organic matter content of the same."

COKE COUNTY CROPS IN SPLENDID CONDITION

1920 Census to Force Increase House Members

(Associated Press)

WASHINGTON, July 27.—Unless the membership of the House is increased from 435 to at least 500 to meet the increased population shown by the 1920 census, ten states will lose one or more representatives, according to Representative Siegel, of New York, chairman of the census committee, which will frame the new apportionment bill. Those states are:

Indiana, Iowa, and Missouri, which will lose two congressmen each; and Illinois, Kentucky, Maine, Maryland, Nebraska, Vermont and Virginia, which will lose one congressman each.

Mr. Siegel explains that if the House membership is retained at its present figure, it will be necessary to increase the population basis in each congressional district beyond the 211,000 or major portion thereof now fixed. If this is done, he says, the ten states named will lose one or more of the present districts because their populations have not increased in proportion to those of other states.

On the basis of the estimated population of 106,000,000 for the whole country in 1920, an increase of approximately 14,000,000 in 10 years, Mr. Siegel says 65 or 66 new seats in the House must be created, if the 10 states are to retain their present numerical representation. While precedents warrant the increase, Mr. Siegel says there is strong opposition to it on the part of some of the present representatives, while others favor reduction to as few as 300 members.

Mr. Siegel expects the work of framing the new apportionment bill in accord with the new population to begin with the reconvening of Congress in December and he anticipates that the measure will be passed early in 1921.

Every decade since 1790, with the single exception of 1840, the House membership has been enlarged to keep pace with the growing population. Now the House floor is crowded when all members are present; seats nearly fill the chamber; the old individual desks have been discarded and an increase in membership probably will have to be solved by narrowing the width of the seats.

Ten years ago the House membership was increased from 391 to 345 on the basis of a population of 91,972,266 and the only exception to such a procedure occurred in 1840 when 10 congressmen were knocked out by the apportionment, the membership then being fixed at 232 after having been 242 for 10 years.

The last apportionment kept intact the numerical strength of all state delegations besides providing for certain increases, but even then several congressional districts fell short of the maximum basis of 211,000 population.

WHAT WILL IT MEAN?

Contrary to the expectations of some, Thomason and Looney openly champion of the cause of Pat Neff for Governor.

On the other hand, Thomason's manager and many of his and Looney's strongest supporters announced for Bailey, which goes to show that regardless of which candidate they support, little effect will be had on the voters who supported them as far as choosing between Neff and Bailey is concerned.

It may be that former supporters of Mr. Looney and Mr. Thomason will resent this line up of the factions and will support Neff instead of Neff. Voters resent anything which looks like a "frame up" on the part of factors and bosses.

From present indications Bailey has gained by the declarations of the defeated candidates. Far better for the other faction if they had not championed the cause of either candidate.

That rain is bound to come.

There is about as much system to the milk situation in Kansas City now as there is to the ice situation in Sweetwater.

There are still a few cannibals and savages in this enlightened time as is shown by the "trunk murder" and a few other murders of recent date.

Some of the smoothest political maneuvers of the age will be used in the Bailey Neff run-off. Watch 'em.

Southern candidates didn't have much luck in the primary. The fact that a man was a soldier doesn't qualify him for office. Being a soldier is a man's duty and a sacred privilege. He shouldn't try to be elected on a strictly soldier platform.

If crime were perfume Chicago should smell like a mixture of toilet water and bay rum.

Villa's promise to surrender to the present Mexican government sounds too much like politics to take seriously.

While the present and protected "dry" spell over the nation is good for the fish, it is mighty bad on fishing.

Reports from Washington say that ten leading cities have joined in the "uplift" campaign, which includes mental examination for delinquents. It is suggested that examinations should be postponed at Washington until congress meets again.

MEXICO DENIES CHARGES OF WIRELESS USE BY GER. MANY DURING WORLD WAR

(Associated Press)

MEXICO CITY, July 27.—Denial of published charges that the national wireless station at Chapultepec was used to communicate with Germany during the World War, and that its personnel is German in its most important components is made in a statement printed by El Heraldo de Mexico over the signature of F. Frias, the new director general of the national telegraph lines.

According to Senor Frias, the Chapultepec plant was in process of construction from the middle of 1917 to the middle of 1919, and, because it could not function at full efficiency during that time, communication with Nauzen was an impossibility.

Senor Frias asserts that the only Germans connected with the station are employed in the shop annexes and are engaged exclusively in making new wireless equipment for substations, while Mexicans direct and operate the station.

The Mexican wireless station, Senor Frias states, consists of 23 stations, 14 on the coasts and nine in the interior. The coastal stations are mainly for maritime service, while the interior stations, with Chapultepec, are for the service of the government, especially when other lines of communications are cut, a contingency he declares has been, unfortunately, common during the last 10 years.

(Associated Press)

AUSTIN, July 26.—A survey of the indigent migratory consumptives in El Paso is being conducted by George F. He is also personally interviewing a large number of tubercular people in the city in order to obtain records of the wanderings of these indigents, their financial condition, and other data which will help in solving the problem of how to care for the thousands of penniless seekers over the state.

THE GREAT WALL OF AMERICA

Armies are much seen and heard and every one of us gets to thinking that armies are the one big factor in national defense. Of course they are not; navies count equally. Navies are mostly out of eyesight; our navy is not a part of our landscape. It doesn't come down the street with a band. The biggest victory it will ever win will be the victory of being strong enough to win because the enemy will never fight a battle with it. That victory does not make much noise in the newspapers. The great naval victories are "bottlin' 'em in" victories, not "battlin' 'em down" victories. This was the first infid of victory that won the war. And every day that the world moves forward, and war becomes a battle for resources and for freedom to reach the outer world, the control of the sea becomes more and more the thing that decides. It decided against Germany; it would decide any big war today. Tomorrow it will be the one big referee.

No sensible Americans, even those who believe as many persons do, and as hard and as fast as they do, that universal military training is necessary to give us national defense, and health and spirit to our youth, and an assurance against professional militarism, will dream of letting the navy go down hill. The navy is always the Great Wall of America. With a navy good enough we would never have to fire a shot on our own soil. Furthermore, the navy is the only means we have to make an attack on an enemy. With a navy not quite good enough—a few thousand dollars short of being good enough—we could not put a single soldier's foot on soil overseas. The navy is nine-tenths of our ability of our ability to defend ourselves; it is nearly ten-tenths of our ability to strike a blow.

And when you hear anyone, even if it is your congressman, trying to prove that an egg almost fresh is good enough, or that a navy almost strong enough to win is strong enough you take out your little Fool Book and write his name in it. Because it would be better to have no navy than to have a navy that could almost win. The man who defends the policy of some navy, but not enough navy, is not even a pacifist. He hasn't brains enough to be anything—Collier's.

SOCIETY WOMEN OF RUSSIA NOW ACT AS WAITRESSES

(Associated Press) NEW YORK, July 28.—Many cultured Russian women now are acting as waitresses in Constantinople restaurants, according to word received here from an agent of the American Central Committee for Russian Relief.

These women still wear afternoon and evening clothes which they took with them when they fled from Bolshevik Russia.

"There is the spirit of the canteen about it all," read the agent's report, "and their compatriots and friends salute them in the usual charming manner of kissing their hands, and everyone talks with them and helps them in their serving."

Don't take the risk yourself. See J. H. Fultz at once and draw salary for time lost by sickness or accident.

ANGLO-JAPANESE PACT NOT COUNTER TO LEAGUE NATIONS

(Associated Press) TOKIO, July 28.—The Anglo-Japanese alliance does not run counter to the League of Nations, wrote Premier Hara, favoring a renewal of the pact, in the course of a contribution to the current issue of the Japanese Diplomatic Review.

Mr. Hara declared that the English alliance is intended for the preservation of peace and order in the Far East, with no particular country its objective.

The Japanese were determined to improve the relations with China and to develop the rich natural resources of China. It was a good thing, he thought, that the United States was taking an economic interest in China. But while the interest of the United States was economical to Japan the relations with China was really a question of life and death for the nation. He hoped this fact would be appreciated in a sympathetic way by the American people.

Concerning Siberia, the premier wrote:

"The original of Japan's expedition to Siberia was to aid the Czecho-Slovaks. In the meantime, however, Siberia has undergone serious upheavals, endangering the life and property of Japanese residents and disturbing peace and order in Manchuria and Mongolia. This is the reason why Japan cannot evacuate the country as soon as she expected. However, when peace and order have been restored in Siberia, safeguarding the life and property of Japanese residents, and ensuring freedom of communications, the Japanese troops will be withdrawn, with the repatriation of the Czecho-Slovaks."
