## HUGE INCUBATOR INSTALLED HERE

Mammoth Incubator With 10,000-Egg Capacity Goes into Action Today With Large Initial Order

### LACKEY TO MANAGE PLANT

Equipped with Every Modern Device and Capable of Hatching 3,500 Chicks Every Seven Days

Installation of the Buckeye Mammoth Incubator, with a 10,000-egg capacity, was completed Wednesday and the Sweetwater Hatchery, with G. A. Lackey in charge, actually began operations today with an initial order of 1,500 eggs.

The building is located just south of the Alamo Hotel and conforms strictly with the blue print issued by the Buckeye Co. In addition to the office space in the front end of the building, sufficient room is provided for another incubator of equal size in the event business justifies two at any time in the future.

To the average layman this mammoth incubator will prove a revelation. Covering a floor space of eight and one-half feet square and standing seven and one-half feet high, it is equipped with 108 upper egg trays and 36 hatching trays. The automatic egg turning trays, a modern feature added to incubators, gives a correct imitation of the old hen herself.

Three electric fans, each operated by its own motor, tends to keep pure air in circulation while hot water pipes are so arranged as to provide an even heat throughout the large incubator.

The water is heated in a large boiler by two oil burners and the temperature is constantly held at 100 degrees. A 5-wafer thermostat, a very sensitive and delicate instrument, is so arranged that it is impossible for the temperature to vary more than a fraction of a degree. In this way the heat is kept even throughout the entire incubator and guarantees perfect hatching.

Each of the 108 upper trays will accommodate 96 eggs, there being it possible to hatch approximately 3,500 eggs per week.

"With the incubator actually installed and orders coming in, the Sweetwater Hatchery, which incidentally, is composed of some of the best breeders in this territory and others interested in more and better poultry produce, feels that some of its backers are about to be rewarded for long and earnest effort," Manager Lackey said Thursday. "We feel that we deserve at least a fair share of success in our undertaking and if honest endeavor plays any part in the natural scheme of business then our hopes will soon begin to be realized."

Manager Lackey stated that the public is cordially invited to visit the plant and inspect the incubator.

## KILLED BY TRAIN

Cisco Driller Hit by Westbound T-P Passenger Late Wednesday—Leaves Wife and Children

CISCO, Texas, Jan. 31.—Joe Wheat, 27, was killed at a grade crossing two miles west of here late Wednesday when his car was struck by a west-bound T-P passenger train.

He was a resident of Chaney and is survived by a wife and three children.

He was an oil driller.

### NO DIFFERENCE

Pro Agent Confuses Wine and Beer—Bootlegger Free

HOUSTON, Texas, Jan. 31.—Some prohibition agents don't know wine from beer.

Mrs. Edith Moore, city chemist, makes that assertion and sticks to it. Recently a bootlegger went scot free in court because some beer he was charged with selling turned out to be wine when analysis by Mrs. Moore. The pro agent had made the charge read "beer."

Miss Lucile Meadows of Plainview is a guest of Miss Lorena Kelsey. They are Baylor College schoolmates.

H. M. Hoskins who lives south of the city underwent a successful operation at the local sanitarium and is resting well today.

## Plan To Reduce Income Taxes by 25 Per Cent Maybe

WASHINGTON, D. C., Jan. 31.—Republican proposals to give all tax payers reductions of 25 per cent in the taxes paid on their last income tax was met in the House today by Democratic plans to grant even larger reductions.

Representative Garner of Texas, ranking member on the Ways and Means Committee introduced a resolution proposing to apply the reduction to 1923 incomes. He demanded immediate action but Chairman Green overruled and it was referred to the committee.

## RECEIVER DENIES SALE OF ORIENT

Reports From Texas of Impending Sale of Orient Railroad Denied By Officials in Charge

### ROAD IN EXCELLENT SHAPE

Judge Pollock Who Appointed Kemper Receiver Also Takes Occasion to Brand Sale as False

By The United Press. KANSAS CITY, Mo., Jan. 31.—Wm. P. Kemper, receiver for the Mexican and Orient railroad today denied the report from Texas that the line had been sold.

"The Orient is in better shape than it has been for years," Kemper said. Judge George Pollock, who appointed Kemper receiver, also denied the sale.

Mr. and Mrs. Henry McCowen and brother Rodney are enjoying a visit from their mother, Mrs. McCowen of Snyder.

Mrs. Ben Jones visited her daughter, Mrs. H. C. Honerker and family at Slaton, and returned home Monday.

## SUBPOENA KLAN

Attorneys for Paddy Ask Senate Committee to Have Clark, Simmons and Others Testify

WASHINGTON, D. C., Jan. 31.—Luther Nickols and Scott Woodward, counsel for George E. B. Paddy in the contest for the Senate seat of Earl B. Mayfield, today asked the election to subpoena present and former officials of the Atlanta palace of the Ku Klux Klan to testify regarding alleged contributions from the Klan spent in Texas aiding in the Mayfield election.

Those for whom subpoenas were requested were E. Y. Clark, former imperial giant, W. J. Simmons, former imperial wizard, N. N. Furney, named as cashier of the Palace at Atlanta, and E. J. Jones.

### TO BUILD

Pastor Colorado Christian Church Announces Plans New Church

COLORADO, Texas, Jan. 31.—The Rev. J. E. Chase, pastor of the First Christian Church here, stated this afternoon that his congregation would begin construction within the near future of a new church building of brick and stone costing not less than \$50,000. An offer for the purchase of the present church site, corner Second and Chestnut, will be accepted. The new building will stand at the corner of Elm and North Fourth.

### ANOTHER WELL

Smartt No. 2 Drills in at 2906 in Mitchell County

COLORADO, Texas, Jan. 31.—Smartt Number 2, Sloan Oil Company, in section 21, block 25, T. & P. railway company survey, was drilled in today at 2906 feet and is flowing by heads good for 200 barrels or better as pumper. W. J. Vaughan of New York City, formerly manager of Underwriter's Producing and Refining Company, and who drilled the discovery well in Mitchell County, is in Colorado and authorized announcement this afternoon that he would drill two tests near Westbrook.

### GET UP AND HIT THE BALL

## PHYSICIANS URGE TEAPOT BOILING FIGHT ON DISEASE

Reports From Other Towns Causes Alarm Among Parents in This City; Time for Action

### FORTNER ISSUES STATEMENT

Several Cases Scarlet Fever, Diphtheria, Measles, Chicken Pox and Whooping Cough Reported

With alarming reports emanating from neighboring towns concerning an epidemic of contagious diseases and with several cases of Measles, Scarlet Fever, diphtheria, chicken pox and whooping cough reported in Sweetwater, Dr. A. H. Fortner, City Health Officer, urged today that local citizens take every possible precaution in combatting the various contagious diseases.

In commenting on the epidemic Dr. Fortner said, "All contagious diseases should be reported at once to the City Health Officer. Some of the cases are quarantinable for school purposes only while those most dangerous from a standpoint of transmission are, as a rule mild cases and do not necessarily require the immediate service of a physician. We will greatly appreciate, however, the full cooperation of the general public in fighting an epidemic that appears imminent."

"I also deem it advisable for all school teachers to keep a thermometer and when they discover a child that appears to be sick, with as much as a degree of fever, that they be sent home immediately."

At the present time there has been reported three cases of scarlet fever, 12 cases of measles in six families, one case of diphtheria, two of chicken pox and several cases of whooping cough. While these figures are by no means alarming they call for precautionary measures to be adopted by every citizen of this city.

The City Council passed a special emergency ordinance July 19, 1923, dealing with whooping cough. The ordinance positively forbids children with whooping cough being permitted to enter public places and those guilty of the offense are subject to a fine not exceeding \$25.

There also is a State law, enacted by the Texas Legislature which compels children with contagious diseases to remain away from public schools for a period of 21 days. Section 15 of the Sanitary Code pertaining to public health reads: "Persons suffering from measles, whooping cough, mumps, German measles (Rotheln), and chicken pox, shall be required to be barred from school for 21 days (at the discretion of the local health officer) from the date of onset of the disease, with such additional time as may be deemed necessary, and may be readmitted on a certificated (certificate) by him attesting to their recovery and non-infectiousness."

### MOONLIGHT LACKING

Marriage Licenses in Houston Do Not Reflect Leap Year

HOUSTON, Texas, Jan. 31.—A leap year—but without much leaping. Figures in the office of Albert Townsend, county clerk, shows this condition to be prevalent in Houston.

Townsend attributes the backwardness of the girls to the weather.

"It takes pretty moonlight nights to make marriage license business good," he said. "We've been having too much rainy weather."

### Weather

West Texas tonight, fair and colder in north portion. Friday generally fair.

## GRIFFIS FREED

Famous Character in Bergdoll Kidnapping Case Will Sail From Hamburg to New York Today

BERLIN, Jan. 31.—Freed from the Mostch jail where he was serving a sentence for the attempted kidnapping of Grover Cleveland Bergdoll, Lieut. Corliss Hooven Griffis, of Ohio, has gone to Hamburg where he plans to sail for New York today.

Perley Berger and Prince Gagarine, two others who participated with Griffis in the attempt to rush Bergdoll across the border, will be freed today, it was stated.

## TEAPOT BOILING IN POLITICAL FIRE

Senator Trammell of Florida Asks Resignation of Denby—Senator Lodge Opposes

### WITHOUT HUGHES APPROVAL

Secretary of State Says Naval Oil Reserve Leases Brought Up in Cabinet for Discussion

WASHINGTON, D. C., Jan. 31.—Increasing pressure was brought to bear today in an attempt to force the immediate resignation of Secretary of the Navy, Denby. There was a renewal of the bitter debate that has raged in the Senate since yesterday when that body reconvened in session this morning.

Senator Trammell of Florida, Democrat, introduced an amendment to the Walsh amendment expressing that it was the sense of Congress that the President should demand the immediate resignation of Secretary Denby.

The Trammell resolution was couched as follows: "It is further resolved that it is the sense of Congress that the President immediately request the resignation of the Secretary of the Navy, Denby."

Senator Lodge, who opposed the resolution, declared that he had not seen any evidence to question the honesty of Denby or that he was guilty of more than a mistake. "And here we are trying to force him from office without giving him the opportunity to defend himself. You are trying to do something that you would not do to the meanest thief in the District of Columbia. It is lynch law and is opposed to every rule of law and fair play."

Senator Trammell under pressure from all sides of the Senate, withdrew his motion but declared that it was only a temporary withdrawal and that he would press it again as soon as possible.

While the fires in the Senate were thus being fanned into a flame, doctors employed by the Senate Committee investigating the leases called at the residence of Col. Zively and examined A. B. Fall in order to determine whether or not he was physically able to testify and tell the details of the oil leases made while he was secretary of the interior. The physicians spent 30 minutes with Fall. Upon emerging they refused to make any statement whatever. They will report to the Investigating Committee tomorrow and would have nothing to say prior to that time. They will hold no consultations and it is presumed they will make separate reports.

### In Cabinet

By The United Press. WASHINGTON, D. C., Jan. 31.—The legality or propriety of the Teapot Dome and California Naval Oil Reserve leases was never before the Cabinet for discussion or decision, Secretary of State Hughes said today, in reply to an inquiry.

"The question of the legality or propriety of the naval oil reserve leases was never brought before the Cabinet for a decision. If the oil leases were ever referred to in the Cabinet I do not recall it and if they were it was only in a very general way."

Mrs. M. A. Belcher announces a called meeting Friday afternoon at 4 o'clock of all the girls in the Methodist Church from 14 to 20 years of age, for the purpose of organizing a "Young People's Missionary Society." The girls are asked to meet at Mrs. Belcher's home.

### BOOST SWEETWATER

John F. Clark, Nationally Known New Orleans Cotton Commission Dealer, Dead After Short Illness

By The United Press. NEW ORLEANS, La., Jan. 31.—John F. Clark, nationally known as a cotton commission dealer, died suddenly at his home following a two-days' illness which had led to an attack of bronchitis complicated by heart trouble.

He was head of the brokerage firm bearing his name. He had offices and agents scattered throughout the South. The funeral service will take place Friday.

## Millionaire Coco Cola King Left Her at Church

By The United Press. ATLANTA, Ga., Jan. 31.—While "waiting at the church" for Asa G. Candler, 73, multimillionaire, Mrs. Onezima DeBouchell received a letter breaking the engagement and charging her with improper conduct.

Albert Howell Jr., her attorney, charged today. The accusation was made by Howell during the \$500,000 breach of promise suit against the wealthy Coca Cola king.

Nearly a score of impassioned love letters telling of Chandler's love for the woman were read at the opening session in Federal District Court.

## WAR PRESIDENT SERIOUSLY ILL

Woodrow Wilson Treated by Dr. Sterling Ruffin Who Responded to Wife's Hurried Summons

### ADMIRAL GRAYSON EN ROUTE

Former President's Personal Physician Called to Bedside; Nature of Illness Not Stated

By The United Press. WASHINGTON, D. C., Jan. 31.—Woodrow Wilson is ill and under the care of a physician who called at noon yesterday and attend the former president. The physician, Dr. Sterling Ruffin, will see Wilson again today.

"I do not consider the condition of the former President as serious," Dr. Ruffin said today. "I do not, however, feel at liberty to state the nature of his illness at this time."

Admiral Cary T. Grayson, Wilson's personal physician, was due to reach Washington today from North Carolina where he has been on a hunting trip.

Dr. Ruffin, who was summoned by Mrs. Wilson, was one of the physicians who attended Wilson when he was stricken with the disease that has left him an invalid.

## ARGENTINE BUSY

Heavy Wheat Export From South America Port May Effect Price of Grain in This Country

BUENOS AIRES, Jan. 31.—Everything points to the coming season in the Argentine being a busy one.

The Argentine Department of Agriculture reports that the coming shipment of wheat from the Argentine will be a record one in every respect. Both the quality of the grain and the quantity of the exportable surplus are likely to be higher than was ever known before, the latter being estimated at as high as 5,500,000 tons. There are also about 1,500,000 tons of linseed to send overseas at about the same time.

The prospects of the fresh fruit trade are excellent, and an increased export trade may be expected. The dairy industry has shown a continual improvement during the past year and it is expected that the butter exports during the coming season will be exceptionally heavy, especially to Great Britain.

The smaller wool crop coming to the market is due not only to the decrease in the number of animals owing to the storms which destroyed over 25 per cent of the herds, but also because the product per animal was considerably lower, due to the lack of pasturage.

The exports of frozen and chilled beef during the past year marked a record one in meat exports, especially after the settlement of the packing house price difficulty.

The unsold stocks of hides are fairly low, but prices have dropped, due to the withdrawal of American buyers.

### PRICE WAR

Favorable Time to Die in Palestine Undertakers Scrap

PALESTINE, Texas, Jan. 31.—It may not be an inducement for one to "kick off" before his allotted time, but if one must die right now is a favorable time in Palestine.

Local undertakers are engaged in a price war on funerals, coffins, etc. It started when one undertaker issued circulars offering "cut rates" for funerals.

## FATHER CHARGED MURDER OF CHILD

Body of 15-Year-Old Millville High School Student Found in Clump of Woods by Detective Lore

### MURDER FOLLOWED QUARREL

Aged Grandfather Unfolds Plot of Heinous Crime; Father Arrested; in Jail Without Bond

By The United Press. BRIDGETOWN, N. J., Jan. 31.—Charged with the murder of Emma Dickson, 15-year-old Millville high school student, found in a clump of woods September 22, 1923, Thomas Dickson is in jail here.

He was arrested last night by Detective Lore after Benjamin Dickson, 82, grandfather, had made a statement that his son had killed Emma by hitting her on the head with a club. Emma and her father had quarreled on the night of September 13, the grandfather told Lore. The girl was chased from the house by her father who hit her on the head as they ran through a cornfield.

Thomas Dickson then hid the body in a shed. About 3 a. m., he put the body in a wheelbarrow and placed it where it was found today.

The father was arrested in his home last night and readily consented to accompany the detective. He was committed to jail without bond.

## Birth of Tiniest Babe Astonishes Medical Science

FORT WORTH, Texas, Jan. 31.—A baby girl, weighing scarcely three-quarters of a pound, believed to be the smallest living child in the world is making a hard fight to live in the baby hospital here, and to the astonishment of the medical profession, it is thought she will win her battle.

The stork left twin girls at the home of Mr. and Mrs. M. R. Watson. The first born weighed one pound and six ounces and died Tuesday morning. The other was rushed to the baby hospital where it is being kept in an incubator. Its cries are so audible that it can be heard for several yards. Physicians declare that the baby's breathing is regular and that she has the color of a healthy, well developed babe.

### ROBERTS ILL

Famous Actor in Serious Condition From Kidney Trouble

By The United Press. PITTSBURGH, Pa., Jan. 31.—The condition of Theodore Roberts is reported to be serious today.

Roberts, who won recognition as a film star, was unable to take his part in a play being presented here.

## ENLARGE PLANT

Wade Market to Double Cold Storage Space by 40x50 Addition—To Install Freezing Room

Work has begun on a 40x50 foot addition to the rear of the Wade Market, necessitated by increasing business of that concern. The addition extends back to the alley in the rear of their present location. Additional cold storage will be installed, practically doubling the cold storage space of this firm.

In ordinary cold storage for meat products, the temperature is kept somewhere above the freezing point, but in the addition a "freezing" room will be installed to keep some products such as brains, etc., that will not keep in ordinary cold storage.

In addition to an increasing retail business, this concern also does a large wholesale meat business throughout this section, handling cured meats in car lots.

### LEGION RECONSIDERS

Will Take Part in Reception Tendered W. J. Bryan at Austin

By The United Press. AUSTIN, Texas, Jan. 31.—The Austin Post of the American Legion has reconsidered its decision not to participate in the reception tendered W. J. Bryan here Friday and will take part in the welcoming ceremonies, it was announced today.

Everyone seems to be enjoying the fine weather these days except the coal man and possibly the plumber.

There is a vigorous denial in today's paper, from Orient officials who should know, that there is no possibility of any sale.

Sweetwater should by all means get on the dotted line with the amount required to aid in the purchase of Orient motor car service.

There is a ten-thousand-egg hatchery getting under way in Sweetwater today. This town is always a gracious host to new enterprises.

The old fashioned idea in connection with measles, whooping cough, and other diseases of childhood was that the sooner the child had them the better.

What is Yours? From day to day during the past few weeks, the Reporter has been carrying articles from various citizens of this town who have taken advantage of the invitation extended them in this column to discuss freely and frankly through the columns of this paper the things this town ought to do in 1924.

It is only by giving these things that mean advancement to this town and county—thought, care and time, that progress can be made.

J. H. Sabell of Knox City is at the local sanitarium for treatment.

Brevities

Poor Lo! He has gone into the shadows That cover the path of years, Away from the world and its madness

"Gap, what would you do if you had a million dollars?" asked Mrs. Johnson the other evening.

"What's—yaw-w-wn!—that?" returned Gap Johnson, of Rumpus Ridge, starting out a halfway doze.

"I wouldn't do nuth'n' 'til I got plumb rested."

Various things have been described as the "height of futility" but the best example of it is an old farm dog chasing a jack rabbit.

I long to go back to Nature, That I want, when I do my going, But somehow I always feel To go back in an automobile.

Burglar—Stick 'em up! No fooling or—

Radio Jones (frantically)—Sh-h-h! I'm just tuning into Havana, I think. Take anything you want, but shut up!

The man who is taking statistics for a new city directory approaches a mover's home in the suburb. At the doorway stands a stout, determined looking lady.

"Madam," he says, "my call is official. I am compiling statistics on the inhabitants in this part of our city. Might I ask what your name is?"

"Duffy—Honorio Duffy." "And your husband's name?"

"Naturally it's the same is me own—Duffey."

"I mean his full name." "Well, when he's full he thinks it's Jack Dempsey, but when I lay me hands on him it's still Duffy."

CLIMATE CHANGES.

The climate of the United States is changing. So claims Elias B. Dunn, former weather observer for New York City.

Old settlers in various parts of the country frequently make the same claim, especially in the northern and eastern States.

Weather Bureau officials in Washington, D. C., have disagreed. They say that climate merely moves in cycles—very warm for a while, then very hot.

the first official weather observations were made.

You've no doubt heard people say West Texas is getting colder or hotter or wetter or drier.

Dunn, nevertheless, is lining up with the old settlers. He is positive that the climate is changing, and he blames the big irrigation projects in the West.

Water in a dry country naturally evaporates quickly. This evaporation changes the moisture of the air and, affecting the barometric condition, generates storms which are not only local but go traveling.

Dammed-up water evaporates fast in a dry climate. In the Ohio valley, evaporation is 40 inches a year. It is over 100 inches a year in New Mexico, Arizona and southeastern California.

The old settlers often advance the theory that climate has been changed by the destruction of forests, which formerly stored up a lot of moisture and kept the snow from melting quickly.

MODERN YOUTH.

Much discussed and nearly as often cussed, the young men and women of the present day have grown from a general topic of discussion and a prominent place in the minds of editorial writers into the foremost thought of some who fear for the life of the Nation if youth continues in its present flight.

"The most pathetic sight in the present world is the American girl, with her charm and beauty and intellect, groping about for some niche, and, failing to find it, throwing all her enthusiasm into a quest for oblivion in jazz and hysteria."

While we admit that the "old gray mare ain't what she used to be," we hardly believe that life among the young women of the Na-

tion is as bad as the Madame has pictured it. Incidentally, Madame Schwimmer is from Hungary, and is at present living in Chicago, which may in some manner account for her observations.

The Madame's experiences with the women of Europe, and her observations in this country, put her into an authentic position to compare the womanhood of the two Nations.

Modern forms of entertainment are quite a shock not only to strangers, but to native citizens who have not kept up with the jazzy trend of the age.

Most Americans have ceased to worry about the youth of the nation. While foreigners may think that some of the men and women of tomorrow look like freaks, and lament the fact that there is no hope for their salvation, most of them come out of it all right.

**FARM WAGES.**

Do you want a nice job, very hard labor, ten hours or more a day, said job paying \$33.18 a month with meals included—or \$46.91 without board?

These were the average wages paid to farmhands in the United States during 1923, according to the Department of Agriculture and as far as we can gather compare favorably with ranch wages in West Texas.

If you want to compare this with former years, here's the information showing average monthly farm wages for male labor:

Year	With Board	Without Board
1923	\$33.18	\$46.91
1922	29.17	41.79
1914	21.95	29.88

"The peak year in wages of farm labor in recent years was 1920," the department reports. "The deflation of general prices then began and farm wage rates continued to decline until the fall of 1922, when an upward trend developed."

We print these farm wage figures because it is extremely important for the city man to appreciate conditions on farms as compared with prosperity in cities.

On the other side, while the average farmhand in 1923 got only \$33.18 a month, this included board and room. It depends on the cook, but it'd cost a lot to duplicate farm meals in cities—not to mention the matter of room rent.

The city man, who has only \$33.18

month left after paying for his personal meals and lodgings, can stop his car (if he has one) at the next farm and shake hands with the hired man.

Without board, the average farmhand got only \$46.91 a month last year. We wonder how many Sweetwater men are working for that. A lot more than the prosperous have any idea.

**NURSING THE INFANT.**

**Article I**  
The important rules and regulations concerning the baby upkeep are, for some unaccountable reason, usually given great prominence in the warmer months. Many infants arrive during cold weather and the problem of proper nursing is just as difficult at this season as in any other.

In most cases the mother has a proper or normal supply of milk. If the mother is somewhat nervous, the supply may vary from time to time. In many cases such a condition of supply depends on irregular nursing periods, amount of fluid intake, diet and the correct amount of sleep and rest. Again, the amount of milk supply may be reduced or influenced through fear, worry, fright, distress or sorrow. Painful breasts are usually the result of a break in the regular nursing routine.

The mother must carefully avoid all these unnecessary conditions, if proper, nutritious nursing is to be carried out successfully. Too much importance is frequently given to diet, tonics and nostrums as aids in nursing and milk supply. Young mothers are prone to adopt many nursing hints and theories from those who are entirely ignorant in such matters. Look out for advice. If you really need advice, get it from your physician.

Sometimes, if the mother is inclined to weakness or is anemic, any effort to stimulate milk supply is helpful. Warm milk, water at the right temperature (above 60 degrees F.) or weak tea, will greatly aid in such cases. On the other hand, if the breasts produce more than the child should have, the milk should

be expressed at least once daily, and discarded, as failure to empty an overfilled breast often endangers the supply.

The frequency of nursing must be determined by the individual as no two are the same. Longer periods give the little digestive system a rest, while shorter periods seem to give a regular, constant weight increase. Periods and weights will be given in article to follow.

**Without Information**

By The United Press.  
AUSTIN, Texas, Jan. 31.—The Texas Railroad Commission is without any information concerning the reported sale of the Kansas City Mexico and Orient railroad. So far as the Texas Railroad Commission is concerned the Orient is in the same status as it has been for the past six months, Commissioner Splawn said. He added, "We have no information that it is to be sold in the future or that there has been any change in its status."

**FOR CHAMPIONSHIP**

Roscoe to Play Sweetwater at Local Court Friday Afternoon

The quintet from the Roscoe High School will tangle up with the Sweetwater High School team Friday afternoon at 4 o'clock.

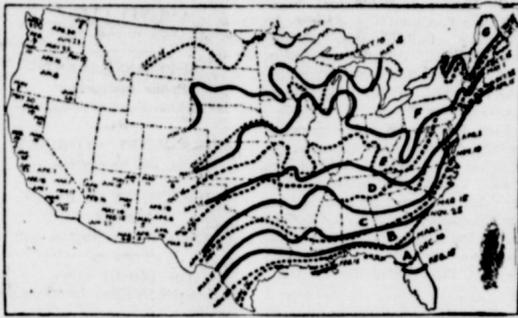

The Roscoe team won at a game at Roscoe Wednesday by a score of 12-6. If they win Friday, they will take the basketball championship of the county. If Sweetwater wins, another game will be necessary.

The local boys say that another game is going to be necessary.

Mr. and Mrs. Buddie Creach have returned to their home at Breckenridge after a week's visit here with her parents, Mr. and Mrs. Ben Jones and family.

J. P. Majors continues ill with the flu at his home on Elm street.

**WEATHER WISDOM FOR GARDENERS**

**Weather Wisdom for Gardeners**

Weather is something of which we possess a considerable quantity at this time of the year and a subject of vital importance to the gardener. While considering the thermometer, and doing fireside gardening, it is a wise idea to secure some weather data for gardening guidance alter on.

The date of the latest recorded killing frost in your neighborhood is an important factor. The latest killing frost on record in your locality will give you a basis of figuring just when you can take a gambling chance on an early garden with a good chance of winning. The latest killing frost on record is about a month later than the average date and so is usually safe to plant the hardiest seeds a month ahead of it.

The period of time between the latest and the average killing frost date increases as we move west. In New York there is a margin of 20 days, but in St. Louis the average date is 38 days earlier than the latest freezing date. Cleveland has a 36-day difference and Chicago latitude is

about the same as Cleveland. Allowing 30 days is playing reasonably safe. Plan to start your garden a month before the latest recorded killing frost.

There are many vegetables which frost will not injure, that is, frost, but not freezing weather. In general all the root crops are hardy and do not mind frosts so long as they are not frozen; most of the crops for greens are in the same category. But only one crop, the immature seeds of which furnish a delicious food, can be called hardy and that is the pea, and only certain varieties of the pea.

So while it is freezing or snowing outside gather up weather data and figure the date for the earliest possible start this year. It is a waste of seed to start too early and a waste of time to start a day too late. The frost records will give you a reliable basis of figuring the right time to start.

If the plants should be nipped you are not out much but if they are not you are just that much ahead with the garden and the odds are greatly in favor of escaping a killing frost.

**MANER'S Tobacco**

**Satan's Empire Falling**

But—"Millions Now Living Will Never Die"—Judge Rutherford.

THE WORLD faces a condition never before experienced. Fear has taken hold upon all classes of people because they see in a measure the things coming upon the earth. The nations are in distress and perplexity.

THE WAR did not make the world safe for democracy. The very foundations of civilization are now shaken by revolution, labor strikes, official lawlessness, profiteers, Bolshevism and anarchy. Both capital and labor are resorting to extreme measures. The common people have lost confidence in their leaders. The clergy have joined hands with big business and big politicians in an attempt to control the world, and these are opposed by radical forces.

EUROPE is completely bankrupt, with her restless host of unemployed and discontent is hourly increasing. Belligerent organizations are rapidly numbering their men and taking account of their strength. All contending forces are hastening to the great battle of the Armageddon. The disaster resulting is beyond the description of human words.

BUT let the people take heart. The Lord will cut short the trouble, bring order out of chaos, establish peace and righteousness; and millions of people now living will become obedient to His order of righteousness and will live on the earth forever in peace and happiness.

You are urgently invited to hear a lecture on this remarkable subject by

**H. H. DENGUS of New York**

At  
**Courthouse Auditorium**  
Friday, February 1, at 7:30 p. m.

Judge Rutherford's lectures have awakened a widespread interest in Bible subjects relating to our day. So great has been the demand for them that the following have been published in book form: "Millions Now Living Will Never Die!" 128 pages; "Can the Living Talk With the Dead?" 128 pages. Send your order to I. B. S. A. Lecture Bureau, C. C. Cox, Route A, Sweetwater, Texas.

Auspices International Bible Students' Association, organized by the late Pastor Russell. Judge Rutherford, New York City Bar, President.

**Welcoming**

The New 10,000-Egg Incubator to Nolan County

We are certainly glad to commend this forward movement on the part of the poultry industry of Nolan County. It means that the poultry men have taken definite steps toward putting their work on a business like basis. The poultrymen who show the foresight in putting in and patronizing this 10,000-egg incubator are the ones who are the best customers for

**PURINA HEN FOODS**

They know that Purina is the best food upon which to raise baby chicks—gets them to maturity faster. This means cash money when raising broilers, too. And then when eggs are high, feed Purina and cash in on the best market prices.

Delinquent Tax Payers in Amarillo Get Action

AMARILLO, Texas, Jan. 31.—County officials have started the filing of approximately 10,000 suits for delinquent county and State taxes.

The suits will seek to collect delinquent taxes on 25,000 pieces of Potter County property and represent nearly \$800,000, according to estimates made today by County Attorney Henry Ford and County Tax Collector Ben Golding.

**Abilene Gas 20c**

ABILENE, Texas, Jan. 31.—A two cent per gallon increase in the retail price of gasoline was posted by several of the oil and refining companies operating in the city. The price announced by the Texoma Oil and Refining Co., the Magnolia Company and the Jefferies Oil and Supply Co., was twenty cents per gallon, an advance from 18 cents.

**Barber Robbed**

ABILENE, Texas, Jan. 31.—Gaining entrance to the building through a rear window, burglars took \$46.25 from the safe of the Commercial Barber Shop on North First street, it was reported Wednesday morning by W. A. Farmer, proprietor of the shop.

Mrs. J. A. J. Bradford is ill with pneumonia at the family home on E. N. 2nd Street.

Mrs. Burrell Aycock and daughter, Miss Minta, returned to their home this morning at Midland, taking Mrs. Lang Aycock home with them for a visit of several days.

Mrs. J. L. Stephenson has returned from a visit of several days at Snyder with her parents, Mr. and Mrs. J. W. Meadows, and her sister, Mrs. John Davis.

**PLANT A TREE**

**Take Salts If Rheumatism is Bothering You**

Tells Rheumatism Sufferers to Take Salts to Get Rid of Toxic Acid.

Rheumatism is no respecter of age, sex, color or rank. It is not the most dangerous of human afflictions if it is one of the most painful. Those subject to rheumatism should eat no sweets for awhile, dress as warmly as possible, avoid any undue exposure and above all, drink lots of pure water.

Rheumatism is caused by uric acid or body waste matter, and is often generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this poison from the blood and cast it out in the urine; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly, cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this toxic acid, which keeps accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acids, remove waste and stimulate the kidneys, thus helping to rid the blood of these rheumatic poisons.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism.

**A Story Without Words Bartlett Suggestion, '24**

The following suggestion for the guidance of Sweetwater citizens during 1924 was furnished by City Secretary W. H. Bartlett:

**BRAKES VS. HONK**

Safety Contest Slogan Developed in San Antonio

SAN ANTONIO, Texas, Jan. 31.—"An ounce of brake is worth a pound of honk."

This unique slogan won the prize in a recent safety campaign.

"Recklessness brings sorrow; careful today, cheerful tomorrow," came a close second.

Mrs. T. H. Brigance of Fort Worth is visiting her sister, Mrs. A. S. Mauzey on Pine Street.

Mrs. J. W. Whitt of Tipton, Ok., left today for her home following a visit here with her brother, Judge A. S. Mauzey and wife.

Mrs. Howard Hord and little son have returned to their home at Clovis, N. M., following a visit here with her parents, Mr. and Mrs. C. T. Lynn and Judge and Mrs. H.C.Hord.

Mrs. M. E. Mauzey of Decker is here to spend the remainder of the week with her son, Judge Mauzey and wife.

## CITATION BY PUBLICATION THE STATE OF TEXAS.

To the Sheriff or any Constable of Nolan County—Greeting:

You are hereby commanded to summon Myrtle Dickson by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published; to appear at the next regular term of the District Court of Nolan County, Texas, to be held at the Court House thereof, in Sweetwater on the 1st Monday in March, A. D. 1924, the same being the 3rd day of March A. D. 1924, then and there to answer a petition filed in said Court on the 30th day of January A. D. 1924, in a suit numbered on the docket of said Court, No. 2140, wherein J. F. Dickson is plaintiff, and Myrtle Dickson is defendant and the cause of action being alleged as follows:

Suit for divorce from the bonds of matrimony existing between plaintiff and defendant; plaintiff alleges that he has been a bona fide inhabitant of the State of Texas, for more than a year prior to exhibiting his petition herein, and has resided in the County of Nolan, for more than six months prior to filing this suit; and that on or about the 15th day of October, A. D., 1919, defendant abandoned the board and bed of plaintiff with the intention to permanently abandon him, and that said abandonment was done by defendant voluntarily and was not consented to nor procured by plaintiff, and that defendant has not returned to plaintiff nor offered to return to him since abandoning him on the date aforesaid.

Herein fail not, but have you before said Court, on said day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at my office in Sweetwater, Texas this 30th day of January, A. D. 1924. (Seal) DAN CHILDRRESS, Clerk District Court, Nolan County, Texas. Jan 31 Feb. 7-14-21

County of Nolan, and State of Texas, to-wit:

Lots 16, 17 and 18 in Block No. 58 in the Orient Addition to the City of Sweetwater, Nolan County, Texas, which said property is delinquent to the State of Texas and County of Nolan for taxes for the years 1914-1915, 1916-1917-1918-1919-1920-1921-1922 aggregating the sum of \$53.06, including interests, penalties and costs, said taxes having been legally levied, assessed and rendered against said land and lots, and the same being a lawful charge and constituting a prior lien against the same in favor of the State of Texas and County of Nolan to secure payment of the tax.

And you are hereby commanded to be and appear before the Honorable District Court of Nolan County, Texas, at the next regular term thereof, to be held at the Court House of said County in the City of Sweetwater on the 1st Monday in March A. D. 1924, the same being the 3rd day of March A. D. 1924, then and there to show cause why judgment should not be rendered against you and the said land and lots as to under foreclosure of said lien to satisfy said taxes, interest, penalties and costs, and all court costs, all of which, together with other and further relief, general and special, being fully set out and prayed for in the plaintiff's original petition filed in said court on the 4th day of September and appearing on the docket there as suit No. T-193, wherein The State of Texas is plaintiff, and U. S. & Mexican Trust Company, a corporation, and all persons owning or having or claiming any interest in said land or lots are defendants.

Given under my hand and seal of said Court, at office in the City of Sweetwater in the County of Nolan, this 30th day of January, A. D. 1924. (Seal) DAN CHILDRRESS, Clerk District Court, Nolan County, Texas. Jan. 21 Feb 7-14

## ARE YOU RHEUMATIC?

Many Pangs That Pass for Rheumatism Are Really Due to Weak Kidneys

Do you suffer from agonizing pangs of rheumatism? Are you tortured with rheumatic joints and stabbing twinges? Then you should know that many so-called rheumatic troubles are due to an excess of uric acid and must be treated through the kidneys. When the kidneys are weak, the whole system is upset by these body poisons. Help your kidneys with a stimulant diuretic. Use Doan's Kidney Pills, the remedy your neighbors recommend! Here is a Sweetwater man's case: John Bryan, 808 N. E. Second St., says: "At times, my back was weak and lame and I suffered from a dull ache. My kidneys acted irregularly and I also had a lot of trouble with rheumatic pains. Whenever I was in this condition, I got Doan's Pills at Bowen's Drug Store, and used some. They always helped me."

## COAL: COAL!!

For the best grades of coal phone S. Edwards Gain Co., Phone 142. 233tfc

Mrs. O. F. Leerstang visited her father, A. T. Smith, who is ill at Merkel, the first part of the week.
