TILLIE

The Reporter is glad to introduce today for the first time "Tillie, the Toiler" as a permanent feature—so long as she proves entertaining to our readers. There is much humor in this comic strip, which is drawn by Russ Westover. "Tillie" is employed in an office, where she works during the few brief moments that she is able to devote thereto in the intervals between acquiring new hats, new dresses new beaux, etc. She is undeniably pretty, and she knows it, but there isn't the slightest trace of business in that pretty head of hers. Employers of any experience at all know "Tillie" very well, and so also do some long suffering mothers. Women will also appreciate the late fashions which she always appears.

WEATHER

There is one thing about a West Texas sand-storm—when the dust is stirring around right peart, one can always depend upon reading in the paper about a twister somewhere that twirled numerous persons into eternity, in addition to property damage. West Texas weather may be uncomfortable at times but there is always the consolation that it is much worse some place else. And judging from the tenor of news dispatches pouring over the wire into The Reporter today, the Midwest is in the grip of the worst storm in many years, with loss of life in many different states. Tangled wires have not added to the ease of gathering the bad news either.

WOMEN MEET

Club women of Nolan County have organized for mutual advancement. Included in the organization are three from Roscoe, three from Blackwell, one from Maryneal, one from Dora, one from Nolan, and nine from Sweetwater. Folks learn from association and the closer drawn the association, the more easily knowledge is assimilated. There is power in organization, as has been amply demonstrated in the past. And in the hands of these women, power will be exerted for good. And even more important is the closer co-operation in all parts of the county toward the making of it a better place wherein to live. Not only will the women who are members of this association profit by membership therein but the whole community will profit by the organization.

SCHOOL BOARD

Attention is called to the voters of Sweetwater that the regular annual election for members of the school board will be held the first Saturday in April, which, if our calendar is correct, is next Saturday. There are three trustees to be voted for this year. Service on the school board is one of the most thankless positions within the gift of electors—there is no remuneration connected therewith, only the satisfaction to be gained from unselfish service for the coming generation and for the community as a whole. So far as The Reporter has been informed, there are no candidates as yet in the field for the positions to be filled which are easily the most important offices in this city. Probably there won't be unless steps are taken to draft the right men into this so vital a public service. Or in other words, voters of Sweetwater, these are your schools. What do you propose to do with them?

The outskirts of a city do not necessarily clothe a community with decency.—Nebraska Daily Press.

BOY'S WEEK

A committee of boys called on President Coolidge to ask him to endorse Boys' Week that will be celebrated in this nation from April 27 to May 3. The lads received the endorsement and also some wholesale advice. The President gave all American boys the same advice that he gives his own. "I tell my sons," he said, "that there are only two things necessary for boys—work hard and behave themselves. Do that and there won't be a doubt about the future of this country." It will profit nations as well as boys to heed this counsel.

Depew, Oklahoma. March 24, 1924.

Mr. Freeze, Sweetwater, Texas.

Dear Sir:

I purchased a pair of Arnold Glove Grip Shoes from you in January, and I like them so well I am writing in regard to a pair of slippers. If you recall the time of sale—it was when I was working there on the U. S. Gypsum Co. Plant—and I wanted a pair of low cuts then but you were unable to fit me. If you can go by the number of this shoe: 213-3143-T 7, I would like very much to have a pair of tan or black in that same number. If you have the goods send them right along.

Yours truly, J. F. SMITH.

Lynch Davidson

Candidate For Governor Texas

LYNCH DAVIDSON has demonstrated over and over again that he is a friend of West Texas and has aided in its development in every possible way.

Lynch Davidson has made a striking success of his own business. He has the ability, and the program to put the government of Texas on a sound financial basis, eliminate waste, take care of the prison system and the enormous road program.

A big man in every way is required as governor of the state and in Lynch Davidson we find a man big enough for the job.

He has a message of vital interest to every property owner, tax payer, and citizen of the State of Texas.

You cannot cast your vote in the coming primary election intelligently unless you come out and hear Lynch Davidson outline his platform. When you do you will have something as a measure of comparison.

Lynch Davidson has served as Lieutenant Governor and is familiar with the situation at Austin.

He put the state railroad on a paying basis after numerous others had failed.

YOU WILL ENJOY HIS TALK AT THE COURT HOUSE AUDITORIUM MONDAY NIGHT!

ODD FELLOWS MEET

An unusually large attendance characterized the regular meeting of Sweetwater Lodge No. 55, Odd Fellows and heard the report of W. H. Hampton, representative to the Grand Lodge in Fort Worth—to be held next year at Wichita Falls.

Children from the Widows and Orphans' Home of Corsicana were present at Fort Worth meeting with their band and won considerable favorable comment.

J. M. Sims was elected recording secretary to assist C. E. Cameron as the local lodge has grown so fast there is too much for one man. He will assume his duties at the next regular meeting.

Burt Braley, driver of the San Antonio bus from Junction to Kerrville informed The Eagle Tuesday of the fact that the third shipment of pheasants for the Live Oak ranch had been received from Minnesota. For several weeks the Game, Fish and Oyster Commission has been shipping wild turkey caught on this ranch to points farther southwest, and it is understood that these shipments of some hundred or more pheasants is also being made by the Game Department, in exchange for the turkeys. Burt states that he sees hundreds of turkeys along the road on the divide and that those that have been caught do not seem to be missed. So far as our information goes, these are the first pheasants to be introduced into this part of the state.—Junction Eagle.

**LEON TROTSKY, DUCHESS OF YORK & HARRY F. SINCLAIR
 CARMEL THOMPSON, EX-SHAH OF PERSIA & FATHER DUFFY**

The Persian Parliament has abandoned the idea of forming a Republic, but has deposed the extravagant, Paris-loving Shah and installed his two-year-old son in his place, under a regent. The Duchess of York, wife of the second son of the British rulers, is expecting a visit from the stork in June. Leon Trotsky, Soviet Minister of War, asserts that Russia stands ready to co-operate with Britain's Labor Ministry to obtain disarmament and to nullify the Versailles treaty. Harry F. Sinclair, oil magnate, is facing jail as a result of his refusal to testify before a Senatorial investigating committee. Carmel Thompson, of Ohio, prominent in the Harding campaign and Republican candidate for Governor in 1922, was summoned before the same committee to tell what he knows of oil interests' activities in the Republican national convention in 1922. Rev. Father Francis P. Duffy, fighting chaplain of the 165th (New York) National Guard regiment in the 42d (Rainbow) Division, one of the few chaplains who won the Distinguished Service Cross for his valor under fire, is ill in his New York City parish house, suffering from a severe nervous breakdown.

 Debate—Subject: "Resolved that the United States should enter the League of Nations." Boys: Parks and Nemir, Roscoe, won over Morony and Hardin, Sweetwater. Girls: Roscoe won by default.
 All tennis matches were postponed until Monday because of the high winds throughout the day. The baseball match between the Sweetwater high school and that of Roscoe was postponed indefinitely.

MEADOR TRIAL

(Continued from page one)

authority during this trial and I have sustained the state's objection." When Williams attempted to explain the court rapped for silence and suggested tartly that the defense produce such legal authority as it boasted.
 The contention of the state was that Mrs. Meador had been in the courtroom throughout the trial and therefore was not under the rule. Williams later admitted that he desired to use the witness for effect only. She did not testify.

Trailing the Trial

Many of the spectators were amazed at the rapidity of court stenographer H. M. Millwee, at taking every question and every answer throughout the five and one-half days of one of the hardest fought legal battles seen here in years. Millwee was compelled to quote verbatim, absolutely correct, every word uttered by attorneys and witnesses. His shorthand notes cov-

ered slightly under 700 pages with approximately 300 words to the page—something over 200,000 words. And, it will be recalled that several of the witnesses and all of the lawyers asked and answered questions in rapid fire order. Millwee's work, too, is vitally important. If you doubt that, just ask any attorney what it means to have an accurate and rapid court stenographer.

A bit of local color was added to the Meador trial when it became known that Thurl Childers and Mrs. Asa Rawls, the latter a star State's witness, were married last November in Sweetwater County Judge A. S. Mauzey performed the ceremony in his office.

Here's a conversation that occurred in Robertson's Cafe Saturday. Louis Polk squatted on a stool and called for the "score card," or menu. When but a small portion of spuds appeared alongside a slab of dead cow, Louis arose to his feet with all the dignity of Cornelius McGillicuddy—whoever he is—and protested thusly: "I object to these potatoes." "Please state your objection," said Judge Robertson. "Your Honor, the potatoes, as served, are irrelevant, immaterial and have no bearing whatever on the hunk of the deceased cow." "Objection overruled, please proceed," responded the astute Robertson.

Seth Johnson and approximately 300 other persons were on deck early Thursday morning. Uncle Samuel

glass also ran—away from his business.

During the first three days of the trial the jury got plenty of exercise; on numerous occasions they were ordered to the ante-room while seven lawyers argued technical points of the testimony.

Many of the males of the species appeared in the courtroom wearing a three-day stubble on their manly chins. Occasioned, no doubt, by the fact that the local barber's union, en masse, spent the week in the same courtroom.

Here's one for the book. During a tete-a-tete between Horace, of the house of Heath, and Louie, old man Galbraith's son, this bit of conversation was overheard: Heath—"The acoustics are bad." Galbraith—"Gee, I thought his name was Meador."

James Henry Beall Jr., who has

been trailing a trial of his own at Roby, busted in the courtroom in mid-session Thursday morning and whispered violently, "What's going on here?" When told that the Meador trial was in progress J. H. B. Jr., remarked, "Well, you can tell the court that I'm here and they are at liberty to proceed with the case."

STORM STRIPS MID-WEST
(Continued from page one)
Property damage amounting to more than one million dollars has already been done by the raging waters and the Western Bureau predicts that the crest of the flood will not be reached until noon Sunday.

By The United Press.
Five Killed in Utah
PROVO, Utah, March 29.—Five railroad section hands were reported killed and seven others injured when an avalanche of snow, rocks and dirt descended upon a gang of 50 men who were clearing away snow in the Grand Canyon, 12 miles from here. Rescue workers were sent from Provo to bring the injured to hospitals and recover the bodies of the dead.

Hits Missouri
By The United Press.
ST. LOUIS, Mo., March 29.—Three persons were killed and 15 others injured in a mid-night tornado which hit Scott and Mississippi Counties, in southeastern Missouri, according to telephone messages from Charleston, Mo.

The heaviest casualties occurred south of Sikeston, in Scott County. A woman was killed and her husband badly crushed when wind toppled their home at Cape Girardeau, 30 miles north of Sikeston. Damage was heavy in southern Illinois and eastern Missouri. Dwellings were blown down, trees were torn up by the roots and all wire communication was reported down.

Tornado in Kentucky
By The United Press.
CAIRO, Ill., March 29.—The villages of Lamont, Heath and Maxon, in western Kentucky, were hit by a tornado today. Only one telegraph wire communication remained within the stricken area and it was soon put out of commission by a strong wind. River shipping was tied up along the Mississippi and Ohio rivers on account of violent winds. Several negro children were injured when the gale blew over the house in which they were hiding.

Blizzard Raging
By The United Press.
ST. PAUL, Minn., March 29.—Wire communication and transportation was practically paralyzed in Minnesota today by the worst blizzard in a decade. Scores of trains were stalled in the drift throughout the State. Limited wire communication was being maintained in the northeast. The snow turned to sleet which ripped down thousands of miles of telegraph wires.

Children Drown
By The United Press.
MELCROFT, Pa., March 29.—Searching parties today were futilely watching both banks of the Indian Creek, flood swollen, in an endeavor to locate the bodies of three children drowned here today while playing "ferry" boat. The children conceived the idea of playing "ferry" boat and launched a wooden trough in the creek. One of them became frightened and leaped ashore to safety but the other three paddled the trough to the mid-

dle of the stream. Becoming frightened when the current twisted the wooden trough downstream, they jumped into the water and were drowned.

Severe in West Texas
The storm which swept the Midwest found its reflection in West Texas in the shape of a screeching sandstorm that began shortly after noon Friday, raged with increasing intensity into the early hours of darkness and revived Saturday morning for a time.

With the exception of a lad named Beinbauer at Roscoe, no injuries were reported at a late hour Saturday. The lad is reported to have suffered a broken leg and other injuries when the storm damaged the house where he lived.

Hefners Comedians, the tent show playing Sweetwater this week suffered the most severe damage when the tent was ripped by the wind. They were prevented from showing Friday night. They gave their closing performance Saturday night at the R. & R. Palace through the courtesy of the management thereof.

Signs and awnings and some glass suffered, however, and most everything movable was picked up by the wind and sent elsewhere. Glass in the door of the Masonic Temple and entrance to M. J. Vaughn's store were among those demolished by the wind.

Boy Injured
What proved to be a near fatal accident occurred late Friday evening, six miles north of Roscoe, when an out house was blown upon the 10-year old son of Otto Beinbauer on the latter's farm. The youngster suffered a broken leg and an injured neck, but is reported to be out of all danger.

WAR VETERAN BURIED
E. W. Kirkpatrick Laid to Rest Amid Elaborate Ceremonies at McKinney

By The United Press.
McKINNEY, Texas, March 29.—Funeral services for General E. W. Kirkpatrick, member of the Trans-Mississippi division of the unit of Confederate Veterans, was held here Saturday afternoon.

Gen. Kirkpatrick died Monday night at Lincoln, N. M. The body was buried in the local cemetery amid elaborate ceremonies. Honorary pall bearers were made up of Confederate Veterans. Many out-of-town people attended.

EQUALIZE TAXES
Amarillo Adopts Unit System in Fairness to All

AMARILLO, March 29.—The city commissioners have let the contract for assessment of city property under the unit system to Stone, Gallagher and Ross, Inc., of Dallas.

The bid of the firm for the work was \$4,450. That of the nearest competitor was \$5,000.

Values assessed against local property will be based on an actual survey of all lots by engineers of the company making the assessment.

Maps and card records will be filed at the city hall and kept up to date.

It is said the new valuation will result in an absolutely fair distribution

of the tax burden among all property owners, large and small.

Delobians Enjoy Program
 Mrs. R. M. Chitwood was hostess Thursday afternoon at a meeting of the Sweetwater Delphian Chapter, when Mrs. John Hubbard directed a program on "The Peloponnesian War—Its Causes and Its Effects."

Mrs. Will Morton opened the program with a story of "The Beginning of hostilities and the policy of Petitions," and Mrs. J. M. Charlton closed with a talk on "The effect of Alexander's Conquest." Others on the program were: Mrs. Jay Ingram, Mrs. J. O. Aikens, Mrs. Benjamin Robinson, Mrs. Walter Boothe, Mrs. J. T. Hughes, Mrs. C. A. Rosebrough and Miss Lelia Poe.

1922 Bridge Club

Miss Janice Dulaney entertained the 1922 Bridge Club Wednesday afternoon and an additional table of guests. Beautiful carnations and violets furnished the floral decoration for the reception rooms where the game tables were placed.

When the usual number of games were completed it was found that Mrs. Ed Mays had made high score and Mrs. Abe Levy was second in high score honors. A beautiful Madeira embroidered handkerchief was

given each of them. An ice course was served at the conclusion of the party.

Guests outside the club were Mrs. Jay Ingram, Mrs. Abe Levy, Mrs. George Gray, Mrs. Ed Mays and Mrs. Bessie Gordon Harding of Hollywood, Cal.

L. O. V. E. Girls Meet

The girls of the L. O. V. E. Club met Thursday afternoon at the home of Miss Lucile McElrath and enjoyed several hours of various games and music.

Tables were placed for forty-two and mah jong and a number of enthusiastic games were played following a business session when the usual school activities were discussed.

The hostess served a salad course assisted by her mother Mr. R. A. Carter and Miss Alolyne McQueen. Candy Easter rabbits were given as guest favors.

Lloyd Kelsey passed through the city Saturday morning en route to Abilene to visit the Radford Wholesale Grocery headquarters, by whom he is employed at Lubbock. He returned last night to spend Sunday with his parents, Mr. and Mrs. S. H.

Kelsey.

Self Culture Club Meet

Mrs. W. W. Beall was hostess Friday at a meeting of the Self Culture Club at her home on Beall and E. N. 2nd Street. Mrs. F. G. Robertson was in the chair and heard committee reports and disposed of all federation correspondence in routine order.

The coming meeting of the Sixth District meeting of the T. F. W. C. at Colorado was the leading feature of the business discussion. Every member of the club signified their intention of attending at least one day of the meeting. They will make an effort to attend in a body one day.

Mrs. S. W. Browning led the program on "Education and Public Charity of Texas." Roll call response was current events; Mrs. G. E. Ramsey gave an "Original Tribute to Texas;" an interesting round table discussion on "The Art Survey of Texas" was led by Mrs. Browning; Mrs. W. W. Davis closed the program with a talk on "What the Texas Federation of Women's Clubs have done for Texas."

Mrs. Beall served a fruit salad course. Mrs. M. A. Belcher was special guest.

THE T. B. M.

BY BERTON BRALEY.

He got to his desk at nine-thirty. Dictated three letters or four. Then went out to lunch with the usual bunch (With "Back at Two" pinned on the door). Returned to his difficult labors. At three—'twas his usual way—Indulged in some chat about this thing and that. And then, at five, called it a day.

His wife gave the children their breakfast. And sent them off safely to school. Roused hubby from bed, got him properly fed (He groused through the meal, as a rule). She then washed the numerous dishes. Swept, dusted and cleaned until three. Gave the children a snack when they came tramping back. And had seven ladies to tea.

At night when they'd finished their dinner. She said to her spouse, with a smile, "My dear, let us go to a movie or show. I'd like to get out for a while." He groaned. "I came home from the office. Fagged out—you have nerve to suggest That we should step out and go gadding about When I am half dead, for a rest!"

In the good old days the home medicine cabinet was a stranger in most homes. The large glass cam-

phor bottle usually occupied one end of the mantel shelf and a bottle of Arabian Balsam or some other liniment adorned the other end.

The remainder of the family medicine outfit was tucked away in one corner of a pantry shelf or carefully secreted where it might be found, if one hunted long enough or wanted it had enough for immediate use.

Today all is different. If it isn't, it ought to be. Your family ill and

ailments, cuts, bruises and burns may be well looked after and successfully "bound up" for speedy recovery, if you value your health and happiness as you should.

In country or city, today, the handy medicine cabinet is one of the healthful signs of keeping fit for life's battle.

It is as essential that one should know where to find the iodine bottle or small roll of gauze bandage as quickly as possible as it is to know the police call or the doctor's telephone number. These compact steel or wood cabinets may be obtained today at a very moderate cost, if one is not built into the home. Get one as soon as you can, if this most useful and necessary health aid is not already a part of your life assets.

A modest outfit should consist of the following essential aids and simple instruments:

A small pair of sharp scissors, a medicine glass (marked with the correct liquid measurements), a glass spoon (small) and a clinical thermometer for taking temperatures.

A small roll of adhesive plaster (beware of the pink and black kind in open envelopes). A small roll of absorbent cotton, for placing on simple wounds. One or two rolls of bandages one inch and two inches in width.

A small (half ounce) bottle of iodine, for cuts and wounds. A collapsible tube of plain petrolatum, or small bottle of same.

A small bottle of alcohol. A small bottle of flexible collodion.

A small bottle of boric acid for eyes and washes. A small bottle of aromatic spirits of ammonia.

A jar of boric acid or zinc oxide ointment is most useful.

Don't fill up your cabinet with a lot of useless truck. Have only the things that are used and earn their keep.

George W. Baker Sells Juno Ranch

The ranch belonging to Geo. W. Baker known as the Juno ranch, was sold Wednesday to A. R. Cauthorn, of this city, for a consideration of \$6.00 per acre, including the ranch house and other improvements. The property disposed of to Mr. Cauthorn consisted of 12,682 acres of good grazing land, which adjoins the other ranch holdings of Mr. Cauthorn located a few miles from Juno. Mr. Baker in turn bought 8,529.5 acres of grazing land from Mr. Cauthorn adjoining his Dark Canyon ranch located about fourteen miles from Comstock on the Comstock-Juno road, for a consideration of \$4.50 per acre. This land has a two-mile frontage on Devil's River, and gives Mr. Baker a sizeable pasture along Dark Canyon with two miles of permanent water.—Val Verde Herald.

Water Engineers Inspect Brady Creek.

Messrs. Clark and Smith, state engineers representing the Flood Control Board, were in Brady yesterday, and in company with Wm. D. Cargill, secretary of the Brady Chamber of Commerce, spent the morning along Brady Creek checking up on the project of creating a reservoir on that body, both for water control and preservation. While nothing definite on their finding was given out by the engineers, it was learned that they found an admirable site for a dam on the John Sellman ranch, and just east of the F. M. Richards ranch. This site is at the point where Little Brady empties into Big Brady creek, and where it was estimated a body of water equivalent to 280,000 acre feet could be procured. This is equivalent to a lake covering 280,000 acres with water to a depth of one foot.—Brady Standard.

Mrs. R. H. Howe has returned from a two-weeks' visit with her daughter, Mrs. Bert Mays and family at Mertzou.

AMUSEMENTS

The big, sensational, thrilling number on the program presented by Golden Bros., Wild Animal Show, is a lion act, in which twenty full-grown, jungle bred African lions are assembled.

The group presents the acme of lion perfection as to size, appearance and training. The group if placed on the market would quickly sell for \$50,000, the normal price for a full grown male being \$2,500. The lions the unquestionably the finest specimens in captivity and are also the best trained lions known.

The twenty man-eaters are turned loose at one time in the big steel barrel arena in the center of the tent, one lone trainer in their midst. Capt. William Bernardi is the man—a trainer of lions, of international fame, and the control he exercises over the ferocious beast is certainly remarkable.

Crowding his way among them, armed only with a small whip, he proceeds to put the animals through a score of different poses and pyramids. Mounts one of the largest on a high pedestal and then straddles the snarling animal's back; feeds another raw meat from his naked lips; his head in another one of the beast's mouth, arranges the entire lot on the floor of the arena and lies on the top-most one. This is but one of the score of wild animal acts to be seen with Golden Bros., Wild Animal Show playing Sweetwater for one day only, Wednesday, April 9.

Capt. Bernardi and part of a group of twenty jungle bred lions presented with the Golden Bros., Wild Animal Show, Sweetwater one day only, Wednesday, April 9.

The price demanded for the violin was \$13,000.00 and was paid by Skovgaard. This violin fulfills the most enthusiastic expectations as all will believe who hear its tone.

AMUSEMENTS

Mellow moonlight—darkie melodies—dark eyed beauties—fried chicken—so many pleasant things have come back out of the Southland that it holds an indefinable charm for the writer, the poet and the musician. The photodramatists have capitalized "Southern atmosphere" with unusual success and a number of the most brilliant recent productions have been laid below the Mason and Dixon line.

Thomas H. Ince has succumbed to the lure of "New Aw-leans" in his latest production "Her Reputation," a vividly colorful story of the South of the old days and the west of today. An adaptation from the novel of the same name by Bradley King and Talbot Mundy, the picture is one of the most powerful screen features ever built around the power of the modern day press. "Her Reputation" will be shown at the R and R Palace theater Monday and Tuesday.

The opening scenes are of a Spanish wedding fiesta which occurs on the plantation of one of the old time Spanish families of New Orleans. Beautiful señoritas, dashing caballeros, and showering rose leaves are the picturesque background for May McAvoy's appearance in the role of a spoiled Southern beauty. The dainty little star is ravishing in the costumes of Madrid and the life of the South of the old days has been marvelously reconstructed even to including some remarkable types of old-time darkies.

\$13,000.00 "STRAD"

Violins may not have the sentiments and sensibilities attributed to them by imaginative musicians, but they have histories, interesting and varied, gay romances and dark tragedies, even as do their warm friends of mankind. A violin which is not only remarkable in itself, but with a remarkable story is one possessed by Axel Skovgaard, the Danish Violinist who is to appear at the East Ward School on Wednesday, April 2. It is as bright and polished as if it had left the hands of its maker but yesterday, and still the instrument is over 200 years old, being lettered "Antonius Stradivarius, Anno 1712"

It has recently come to light that the oldest Odd Fellow in Texas, so far as any record is shown, lives in Coleman. He is Mr. T. W. White, better known as 'Squire White, for fifteen years or more justice of the peace here. Mr. White was born in Sumpter County, Ala., Nov. 4, 1839. In his early life he came to Texas and joined the Odd Fellows lodge at Carthage, Texas, in 1860. Later he demitted to the Odd Fellows lodge at Chapel Hill, Texas, and again demitted to the lodge at Coleman. He has been an Odd Fellow for nearly 64 years, which his friends and brother lodgesmen believe to be the record for the state. He is entitled to a gold medal and Coleman Lodge of Odd Fellows are going to place his record before the Grand Lodge and attempt to secure it at the earliest date possible.—Coleman Times.

There's nothing in the paper!
 It is a burning shame.
 But what he meant was merely that it didn't print his name.

"Say, looky here!" cried Farmer Fum glegate. "That ain't the way I told you to do that! D'ye think I'm a fool, hey?"

"Wouldn't like to say yet," responded the new hired man. "I only came—yaw-w-wn!—yiste'd'y."

It happened in New England. A street car with the front sign reading Dorchester and the side sign Manderton and Milledgerville was in charge of an Irish motorman. He was hailed by a nervous little woman, who asked:

"Does this car go to Dorchester?"

"It does, lady; get right on," the motorman replied.

"But it says Manderton and Milledgerville on the side."

"We ain't going sideways today, lady; get right on."

The Worlds Lowest Priced Quality Car

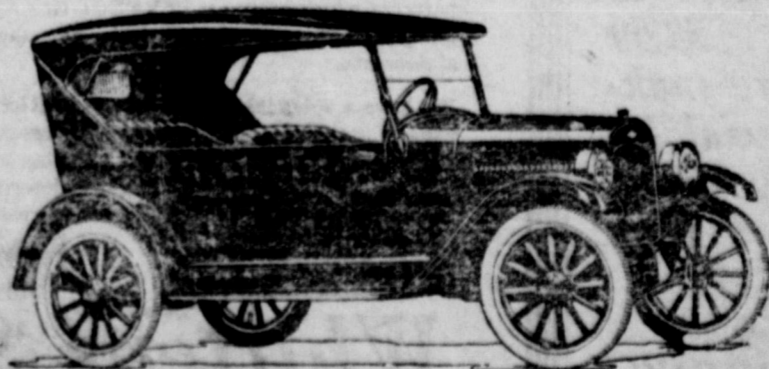

The superior model Chevrolet Touring car illustrated is the fastest selling quality car made. It represents the utmost in motor car value per dollar of cost.

So handsome a car for so small a price is possible only because of very large producing, distributing and financing facilities and seven years of sincere effort to produce and sell the best low priced automobile. Cars lacking Chevrolet quality and efficiency may sell for less but cost much more considering upkeep and depreciation.

From time to time fully equipped cars may be announced to be sold in some indefinite future at prices lower than Chevrolet but it must be remembered that the attainment of producing and distributing facilities superior to ours, which are absolutely essential to make a lower price possible, require much time and effort and the investment of many millions of dollars.

On the meantime Chevrolet is HERE, our price is the lowest that our large facilities and cadenship in sales make possible for a quality car with standard mechanical features. We occupy the following important positions:

- Manufacturers of the World's Lowest-Priced Quality Automobile.
- World's Largest Manufacturers of High-Grade Closed Cars.
- World's Largest Manufacturers of Standard Automobiles.

SPECIAL PRICES —

Unless you have always used the Blue Grass Hammer, you no doubt have experienced more or less aggravation with hammers the head of which would "mushroom", nick, chip, or crumble, claws would break, and handles work loose or break off.

There's a whole lot more besides "head" and "handle" to a Blue Grass Hammer—there's quality, service, satisfaction—every desirable requisite, minus the element of aggravation.

The Blue Grass is the kind of hammer the owner refers to as "good as new" after it has been long in service.

The head is of the highest grade crucible forged tool steel, perfectly tempered from poll to claw. Selected straight grain hickory handles.

Blue Grass is the hammer we guarantee.

The price of these fine hammers is regularly \$2.00 but we are making a special introductory price, for a short time only of

\$1.50
