Friday, September 26 has been officially designated as Sweetwater Day at the West Texas Fair at Abilene, and the following day, Saturday, Sept. 27 has been named as Nolan County Day at the Mitchell County Fair at Colorado, according to information received by the Board of City Development. The matter has been taken under consideration as to whether this city will attempt to send delegations and exhibits to the two fairs.

The invitation from Abilene is a most cordial one, asking for a big delegation from this city and the Boys' Booster Band for the Sweetwater Day. This day is expected to be probably the biggest day during the fair, it being Shrine Day and will probably be attended by a delegation from Fort Worth on a special train with the Moslah Temple Band. The amusement program on this day will be featured by automobile races in the afternoon.

Sweetwater's delegation is urged to be in Abilene by 10 a. m., on Sweetwater Day to take part in the big daily parade. If the delegation arrives later than 10 o'clock, arrangements will be made for a special Sweetwater parade, according to the invitation. The Sweetwater Band will be admitted to the fair grounds and grand stand free.

## CALL ROAD BIDS

Bids Called For on Highway 1 October 4 For Grading and Drainage Structure.

Actual construction is in sight on the main highways of the county, according to the highway report made by County Judge A. S. Mauzey, and bids will be called for on highway number one October 4, to include the grading and drainage structures on this highway from Sweetwater to the Mitchell County line, a distance of about 16 miles.

Work on the highway program is necessarily slow, the report states. A program of the magnitude of the one now in progress in Nolan County has never been completed in less than three years, and usually from four to five years has been needed. To alleviate the disappointing and disagreeable parts of the building of roads, the County Judge is issuing regular reports on the work designed to give the tax payers a clear understanding of the project.

"I am sure that a great many will say that they do not care for the highway discussions, they do not want talk, but want action and road construction and not hot air," Judge Mauzey stated. "This is very true and to the point, but the responsibility is too great to rush headlong into a hastily constructed system of roads, when by actual experience and observation, it has been learned that such haste creates waste."

Changes in location of the highways were pointed out in statements made before the bond election, Judge Mauzey stated. "We stated that curves would be cut out, roads straightened, and distances shortened. We also said that neither the county officials nor the people of Nolan County would have full control in building and locating the roads. We are in partnership with the State and Federal Departments on a basis of two to one in their favor, and even if promises had been made to follow every crook and turn of the present roads, such promises would not have been binding on the State and Federal Departments."

## BODY OF MISSING GIRL DISCOVERED

Bullet Hole in Left Temple Evidence of Murder—Disappeared From Home August 12.

### FOUND ON COLLEGE GROUNDS

Unusually Attractive Girl Had No Friends at College, Believed—One Suitor Sentenced.

By The United Press. KINGSTON, N. J., Sept. 15.—The mutilated body of Elizabeth Johnson, 15 year old Aqueduct school girl who has been missing from her home since August 12, was found today on the St. Joseph College grounds near Lake Carnegie.

There was a bullet wound in the left temple of the girl's head and it is believed by detectives to have caused her death. Identification of the body was made by bits of clothing about the body and jewelry on her hand.

Detectives said that the body was badly decomposed and they are of the belief that the girl has been dead since shortly after her disappearance. Joseph Johnson, the girl's father, prominent farmer of Aqueduct, near here, identified the body in the morgue.

The girl is described as having been exceedingly attractive. It is not known whether she had any friends at St. Joseph's college. About a year ago, the girl went with a young man, not a student of the college, against whom serious charges were filed. He was sentenced to six months in jail.

Hard feeling growing out of the recent political campaign in which H. A. Youngblood, successful candidate for Sheriff, is alleged to have been accused by the Smith supporters of being a Klansman, is said to have been responsible for the fatal shooting.

## B C D AUXILIARY ELECTS OFFICERS

Mrs. George Parker Heads Women's Organization For Year—Hear Committee Reports.

### CITY PARK IMPROVED

Auxiliary Has Spent Over \$1,000 on Park Beautification—Benches and Tables Added.

The Woman's Auxiliary to the Board of City Development held an interesting meeting at the court house Saturday afternoon and elected their new officers for the year and heard reports of all committee heads on their year's work.

Mrs. Willard Gibson, the retiring president occupied the chair and heard the reports and called for the election. Mrs. Gibson reported that during her administration, there had been spent about \$1,028 on beautifying the City Park, \$500 expended by the women's committee and the remainder by the Board of City Development, but the B. C. D. kindly gave the women credit for it. This was spent for trimming up the park trees, building tables, setting up posts to mark the drive ways, placing trash cans, new hose, opening the new park division and having it cleared up, planting flowers, and a number of other minor improvements. Mrs. M. C. Manroe reported 22 benches donated by the business firms of the city and a number of benches built around the park trees. Weed cutting at the park cost \$75.

Officers elected follow: President, Mrs. George Parker; first vice president, Mrs. J. D. Dulaney; second vice president, Mrs. Joe Boothe; secretary, Mrs. F. J. Neal; treasurer, Mrs. M. C. Manroe.

The following permanent chairmen were appointed by the chair to serve for the year: City Beautiful and Park, Mrs. Willard Gibson; sanitation, Mrs. Gus Rea; publicity, Mrs. L. C. Vinson; membership, Mrs. M. C. Manroe; John Perry; south side, Mrs. A. W. Canfield; west side, Mrs. George Massey; north side, Mrs. Otis Neely.

Three delegates were appointed to attend the County Federation meeting at Hylton, September 27: Mrs. L. C. Vinson, Miss Minnie Fowler and Mrs. J. D. Dulaney.

It was moved and passed that in the future all members of the auxiliary would be required to pay a membership fee of 50 cents for the year. Every woman in the city is eligible to membership and invited by the chair and membership committee to join and make the next year one that will reflect credit on the women of Sweetwater. The next meeting will be October 25.

**WORK AFTER DEATH**

The latest contribution from the spirit world adds a new angle to the many conjectures as to the fate of those who have "passed over." According to a current news dispatch, Lord Northcliffe has communicated with his private secretary, and stated that he had to work for his clothes in Heaven.

"I am wearing a gray flannel suit, and a soft shirt," Northcliffe's spirit is quoted as saying. "We have no money, but work out everything in kind. I worked for my suit."

The communication did not state where the Lion of English journalism got the gray flannel suit, nor did it say how long he had to work for it. Apparently heavenly styles differ little from those on earth. Northcliffe further stated that he had "teeth, finger nails, and everything."

The editor of the London paper in which the story of the Northcliffe heavenogram was published takes the incident with great seriousness. He publishes a signed statement in which he vouches for the sincerity of the private secretary that Northcliffe left on earth, and declares that the Northcliffe statement contributes important evidence of a future life.

If Northcliffe can keep us posted on the cut of clothes and the latest thing in hats and shirts in the great beyond, we may soon expect a regular service from Heaven. True to his newspaper training, the English editor who was such a power on earth should ferret out some exclusive stories from the Elysian Fields, and relieve the minds of a lot of us as to how hard we may have to work.

Our idea of heaven is all wrong, the spirit tells us. No floating about on wings and wearing of white robes in the life hereafter. "I am in perfect health. There is much for me to do," Northcliffe says. Tolstoi and Joseph Conrad share his country home.

The "spirit message," of course, was received through a medium. Such reports are interesting. It is your privilege to believe them or class them as "Bunk," as you see fit.

**THEY GOT BY**

The fact that Leopold and Loeb, millionaire murderers, "got by" with life imprisonment is expected to cause an increase of kidnapping in Chicago, according to police of that city, and has also cheered a number of other boys and girls, under age, held for murder in Cook County and awaiting trial.

The attorney for a youth brought up in the stock yards district of the city is using the Leopold-Loeb decision as a precedent with which he hopes to save his 19 year old client from the gallows. The lad has been sentenced to hang. The evidence is flimsy, the attorney says, and he and the youth can not see why the boy should die, when the confessed killers of Bobby Franks escaped the noose.

Two young girls and two boys under age who admitted they killed a woman for \$50 were in the court room when the Leopold-Loeb sentence was read. They are reported jubilant over the outcome of the trial. The murderers are more confident than ever that they are too young to hang.

Wealthy parents in Chicago are worried. Already the mother of one millionaire son has received threatening letters, and daylight bandits have made an unsuccessful attempt to loot her home and kidnap her son. Special police guard the boy on his way to and from school, and while he is at play.

After all, the slayers of Bobby Franks "got by" with very little. Under the Illinois law, they must serve at least 53 years in prison before an attempt at pardon may be made. Twenty years on a murder sentence, and one third of the 99 year sentence for kidnapping is the minimum time that they must put in behind the bars. They are cut off from the outside world, their flashy clothes have been changed for denim, and their carefully groomed hair has been cropped close to their skulls.

The parents of Loeb have learned one thing; their younger son is going to work. They do not want two of their boys to find their first jobs in the penitentiary.

**DAWES' PROFANITY**

The habit of profane speech, which brought Vice-Presidential Candidate Dawes back into the limelight and kept him there till he was nominated as President Coolidge's partner on the Republican ticket, is now one of the influences that threaten to relegate him to his former inconspicuity. Republican editors have begun to delete Mr. Dawes' profanity from reports of his public statements, and many individuals, particularly women, are criticizing him for setting a bad example.

When Mr. Dawes was in New York a few days ago, reporters from various newspapers interviewed him. The Republican Vice-Presidential Candidate was trying to light his black pipe which, in addition to his profanity, is one of the accessories of his political campaign. The representative of the New York Times (independent) quoted Mr. Dawes as having said, "Let me light the damn thing first." The New York World (independent-Democratic) reported Mr. Dawes thus: "Let me get the damn thing lit first." The Herald Tribune, a Republican organ, expurgated Mr. Dawes for the sake of the party. "Wait until I get it lighted," was the Herald Tribune's polite version.

Commentators are pointing out that while Mr. Dawes' candidacy will not result in his election as Vice-President it may temporarily cure him of using unseemly language in public.

**FRANCE NEEDS WHEAT**

Deficit in Crop Almost Double First Estimate.

By The United Press.

PARIS, France, Sept. 15.—Government and commercial circles are disquieted by reports that the deficit in France's wheat crop is about double what had been previously predicted.

The price of flour is steadily rising and the effect upon the cost of living has been immediate.

Flour rose two francs per quintal (hundredweight) a rise of four francs within a week. A cabinet meeting was called late Wednesday to discuss measures to halt the upward trend of the cost of living.

Continuous August rains through France and the colonies did serious damage to the crops and it will now be necessary for France to import 20,000,000 quintals instead of 10,000,000 as at first thought.

## FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Herbine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 60c. Sold by Bowen's Drug Store.

Rev. H. C. Slaughter, Evangelist and Mission worker, who was stranded in Sweetwater last week while on his way to Austin, conducted the preaching services of the Lamar Street Baptist Church Sunday.

Georgia Lady Says She Has Grown Stronger by Taking Cardui — Thoroughly Convinced of Its Merits.

Clyattville, Ga.—In a statement which she gave at her home on R. F. D. 1, here, Mrs. T. A. Copeland said: "I have, I believe, avoided a good deal of suffering by the use of Cardui, and am thoroughly convinced that it has been of great benefit to me.

"Before the birth of two of my children, I grew so weak and nervous I could hardly go, and suffered. . . I had a friend who told me of Cardui, so the next time when I grew so weak and run-down I began to use it. I used it three months. I grew stronger and less nervous. The baby was stronger and a better baby, and I really believe it was because I built up my strength with this splendid tonic."

Cardui has been in successful use for more than forty years. Thousands of women have written to tell of the beneficial results obtained by taking Cardui, and to recommend it to others. It is a mild, harmless, purely vegetable medicinal preparation—a product of practical experience, scientific investigation and pharmaceutical skill. Sold everywhere. NC-159

## The Oil Stove Has Grown Up

Few could have foreseen in the oil stove of their childhood days, the foundation of the present day perfection—a range of beauty and convenience—as big and powerful as the gas stove.

The grown up oil range does not smoke or smell. It cooks the minute it is lighted. Its flame is as simply regulated and as steady as a gas flame. It leaves no soot on pots or pans to kill the housewife's enjoyment of her perfectly cooked meals.

And best of all by burning oil, the universal fuel, it brings to women everywhere, a splendid, efficient cook stove which banishes forever the discomfort and hard labor of cooking with coal or wood.

Perfection's dependability and year 'round usefulness is already known to more than four and a half million satisfied users.
