## #hypocrites #liars # intolerance

Blackish. That is the name of a new TV show this season." A family man struggles to gain a sense of cultural identity while raising his kids in a predominantly white upper class neighborhood." The promo says the dad wants the family to be more blackish.

In other words, I guess, he wants his black family to stop being so white and get back to more of the black traditions. (There was more rioting and looting in Ferguson, Missouri this week.)

Not sure why but the premise of the show bothers me. It might be really funny and become a big hit. After all the most successful sitcom in history is said to be The Bill Cosby Show. We all watched the Huxtables and never thought of it as a black comedy. At least I didn't.

Now they want to point out that Blackish is a black people show. In today's world of racial chaos isn't this sort of awkward? Not at all, the producers would tell you. Members of the poor black community will be glad that affluent black folks are trying to be more like them.

Some of the most racial folks in society and politics are those who claim to be against racism. I'm not sure a new TV program called Whiteish would be as acceptable.

In our U.S. Congress there is a Black Caucus. No white Congress people allowed. There is also a Hispanic Caucus. There is no White Caucus and if there was it would be criticized as discriminatory.

And then there is tolerance. Democrats and others preach tolerance yet are amongst the most intolerant people in

America. If you follow important folks on Twitter (I don't) or Facebook (I do) you will find some of the most vicious, nasty, obscene comments from liberals who claim to be tolerant yet spew venom to those who do not agree with their agenda.

This past weekend in New York and other cities protestors marched about climate change. They can't call it global warming anymore since the global is not warming. These environmental protestors left tons of trash on New York streets. That is in the hypocrite category but they weren't concerned.

I'll bet most of the marchers had no idea what to do about climate change or even if it really exists. Carrying signs and protesting are fun events and an excuse to get out of the house for a while.

The news media that championed Obama's anti-war ideology is now championing his bombing of another nation, i.e. Syria. Yay we got out of Iraq. Yay now we are going back to Iraq. Guess the war is not quite over and al Qaeda and ISIS are no longer on the run. It is enough to make a sane man crazy.

Hypocrites, liars, and intolerance are all acceptable behavior across America today. We live in a nanny state where a non-elected person like the First Lady can dictate what your kids eat at school and the government whose motto is "In God We Trust" tells us where and when it is acceptable to pray and trust.

Vice President Biden said we were going to follow the terrorists to the Gates of Hell.

I think we may already be there.

# Squaws sweep Brownfield

From Coach Bryan Masse

Tuesday the Friona C team started off the night with a 25-16, 27-25 win over the Brownfield Lady Cubs. The girls played a solid first game and mounted a fierce comeback to win game two.

The JV team got off to a slow start and lost the first game 15-25. In the second game the JV Squaws eliminated some of their mistakes and pulled out a 25-21 win. In game three the ladies fought hard and made enough good touches to capture a 25-21 win.

To end the night with a sweep over Brownfield the varsity girls would have to battle through some tough situations for the win. In game one the Squaws were not on their game but still managed to pull out a 25-21 win.

Throughout game two the Squaws looked tired and made too many unforced errors, losing 16-25. Game three was a battle but the

from game three and carried it over to the fourth game with a 25-12 win. In the last two games the Lady Cubs

looked tired and the Squaws looked refreshed.

The Squaws are 18-10 on the season and play River

Road here on Saturday. The C team and JV will play at 12:00 p.m. and the varsity will follow.

es, cars, and relationships.  
Our sitting government has forgotten what upkeep  
really is.  
The upkeep on their 'houses' is long overdue and  
needs a thorough cleaning.  
If our government were a car it would look really  
good on the outside but the oil, fluids and filters are  
long overdue for a change. The tires would be miss-  
ing and replaced by cinder blocks.  
The upkeep on their relationships not only in-  
cludes other countries that are friendly but with its  
own people. There have always been tensions be-  
tween the countries that make up the world and here  
in between our own borders. The tensions inside  
our country threaten to bubble over every day and  
it seems as if our own government has a plan to turn  
this land we love into another demilitarized zone.  
We had that war. It was called the Civil War. Do  
we need another one?  
I do not believe that when dealing with other  
countries the answer is to blow them off the face of  
the earth. That will only bring our certain destruc-  
tion. Nevertheless, there has to be an answer.  
Maybe it is time for a good old-fashioned house  
cleaning.  
Would our representatives like what they see  
if they took a long hard look at how things have  
evolved? Maybe it is time that our representatives  
ask the question, "Why isn't this working?"  
What can we do as "We the People" instead of "I  
the People"?

## Good vs. Best

**BRETT HOYLE, Pastor, First Baptist Church**

Do you simply want good things, or do you want God's best for your life?

For example, simply wanting a secure, stable life is a good goal to shoot for, but it is not God's best. God's best is to love Him deeply and serve Him diligently as you live as a disciple who makes disciples.

Jehoahaz found this out as he reigned as king over ancient Israel in 2 Kings 13. Jehoahaz was having a rough time as his foreign policy was failing as the Syrians were attacking regularly and he was not able

to stand against them. This breakdown was the result of his wickedness and the people's idolatry.

Thankfully though, Jehoahaz cried out to the Lord, and the Lord sent a savior to deliver the people from the hand of the Syrians. God delivered His people because He is faithful and loves His people. After the Lord's deliverance from a fierce enemy you would hope to see that nation turn to Him, but they simply ignored Him as before and continue living in sin.

What stands out in this pas-

sage is God's gracious deliverance and the reality that Jehoahaz wanted a good thing that was not the best thing. He got what he wanted, but what he wanted wasn't good enough. He wanted deliverance more than God, peace and security instead of the Lord.

Anytime you want good things, instead of wanting God, you have fallen into the trap of not wanting what is best. God Himself, is the best we could ever want, and He invites us to come unto Him through Jesus Christ.

## Panhandle Parables

### Football In The Fall

**JEFF PROCTER, Minister, 6th St. Church of Christ**

Two of my favorite things are football and fall. They go together for me like peanut butter and jelly.

From the time you hear the first two-a-day whistles down on the high school field to the first crisp morning that sends a signal to the trees it's time to change, this time of year is my favorite.

Then before you know it, it is week 2 of the playoffs. Many teams are already starting their off-season and the wind from the north really has teeth.

As much as I enjoy these two things, I must remember they are but for a season in the year. It can't be fall all the time nor can football teams physically endure a season that lasted twelve months.

If you stop and notice there are things in transition and in different seasons all around you.

When winter comes, it makes me appreciate that things keep moving and spring follows closely and summer, sometimes around here, seems to jump into the middle of spring.

People are in different seasons of life. Some have teens, others will have their first child at the beginning of the year, still others are holding their first grandchild. What are the constants in all of this?

As much as some like change and some don't it happens, but there must be something that can anchor the soul when days are not what we had hoped for or are everything we ever dreamed

they would be.

That something is faith in a God we've not seen, but Who is visibly everywhere. A hope that goes beyond wishful expectation, but deep anticipation for what God will do next. Finally, a love that endures, enriches and sustains us as we journey and navigate the changes of life.

So that's it.

Paul in 1 Corinthians 13 ties these together: faith, hope and love. The first two are seasons, they are for this life, but love it is the greatest for it is without end.

My encouragement for you is to squeeze all you can out of this moment and enjoy it, work through it, or learn from it, but remember it is only a season.

## TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

EXAMPLE A

### NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN AIR PERMIT RENEWAL

PERMIT NUMBER 71815

**APPLICATION** Friona Wheat Growers, Inc., has applied to the Texas Commission on Environmental Quality (TCEQ) for renewal of Air Quality Permit Number 71815, which would authorize continued operation of the Friona Wheat Growers Santa Fe Elevator located at 103 East 5th Street, Friona, Parmer County, Texas 79035. This link to an electronic map of the site or facility's general location is provided as a public courtesy and not part of the application or notice. For exact location, refer to application.

<http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=34.634444&lng=-102.717777&zoom=13&type=r>. The existing facility and/or related facilities are authorized to emit the following air contaminants: particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less.

This application was submitted to the TCEQ on September 4, 2014. The application will be available for viewing and copying at the TCEQ central office, TCEQ Amarillo regional office, and the Friona Public Library, 109 West 7th Street, Friona, Parmer County, Texas, beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review in the Amarillo regional office of the TCEQ.

The executive director has determined the application is administratively complete and will conduct a technical review of the application. In addition to the renewal, this permitting action includes the incorporation of the following authorizations or changes to authorized facilities related to this permit: alterations. The reasons for any changes or incorporations, to the extent they are included in the renewed permit, may include the enhancement of operational control at the plant or enforceability of the permit. For more information about this permit application or the permitting process, please call the Public Education Program toll free at 1-800-687-4040. **The TCEQ may act on this application without seeking further public comment or providing an opportunity for a contested case hearing if certain criteria are met.**

**PUBLIC COMMENT** You may submit public comments, or a request for a contested case hearing to the Office of the Chief Clerk at the address below. The TCEQ will consider all public comments in developing a final decision on the application. **The deadline to submit public comments is 15 days after newspaper notice is published.** After the deadline for public comments, the executive director will prepare a response to all relevant and material, or significant public comments. Issues such as property values, noise, traffic safety, and zoning are outside of the TCEQ's jurisdiction to address in the permit process.

After the technical review is complete the executive director will consider the comments and prepare a response to all relevant and material, or significant public comments. If only comments are received, the response to comments, along with the executive director's decision on the application, will then be mailed to everyone who submitted public comments or who is on the mailing list for this application, unless the application is directly referred to a contested case hearing.

**OPPORTUNITY FOR A CONTESTED CASE HEARING** You may request a contested case hearing. The applicant or the executive director may also request that the application be directly referred to a contested case hearing after technical review of the application. A contested case hearing is a legal proceeding similar to a civil trial in state district court. Unless a written request for a contested case hearing is filed within 15 days from this notice, the executive director may act on the application. **If no hearing request is received within this 15 day period, no further opportunity for hearing will be provided.** According to the Texas Clean Air Act § 382.056(o) a contested case hearing may only be granted if the applicant's compliance history is in the lowest classification under applicable compliance history requirements and if the hearing request is based on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission may only grant a hearing on those issues raised during the public comment period and not withdrawn.

A person who may be affected by emissions of air contaminants from the facility is entitled to request a hearing. If requesting a contested case hearing, you must submit the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number, and fax number, if any; (2) applicant's name and permit number; (3) the statement "[I/we] request a contested case hearing;" (4) a specific description of how you would be adversely affected by the application and air emissions from the facility in a way not common to the general public; (5) the location and distance of your property relative to the facility; and (6) a description of how you use the property which may be impacted by the facility. If the request is made by a group or association, the one or more members who have standing to request a hearing and the interests the group or association seeks to protect must also be identified. You may also submit your proposed adjustments to the application/permit which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing within 15 days following this notice to the Office of the Chief Clerk at the address below.

If any requests for a contested case hearing are timely filed, the executive director will forward the application and any requests for a contested case hearing to the Commissioners for their consideration at a scheduled Commission meeting. Unless the application is directly referred to a contested case hearing, the executive director will mail the response to comments along with notification of Commission meeting to everyone who submitted comments or is on the mailing list for this application. **If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact relating to relevant and material air quality concerns raised during the comment period.** Issues such as property values, noise, traffic safety, and zoning are outside of the Commission's jurisdiction to address in this proceeding.

**MAILING LIST** In addition to submitting public comments, you may ask to be placed on a mailing list for this application by sending a request to the Office of the Chief Clerk at the address below. Those on the mailing list will receive copies of future public notices (if any) mailed by the Office of the Chief Clerk for this application.

**AGENCY CONTACTS AND INFORMATION** Public comments and requests must be submitted either electronically at [www.tceq.texas.gov/about/comments.html](http://www.tceq.texas.gov/about/comments.html), or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. If you communicate with the TCEQ electronically, please be aware that your email address, like your physical mailing address, will become part of the agency's public record.
