Closed Thursday - Sunday Phone 128 For Appointment

In the acute cases one gets marvelous results. Do not be afraid of such cases. In adjustments you have absolute control, and after a little experience you will soon realize you have an unequalled health system in your hands. I am in better shape to say that, because I have gone through every stage of "mixing," until today I am an out and out chiropractor.' Frederick L. Fischer, M. D.,

FEVER

CASE NO. 1496: Girl, seven years of age. History; July 4th, fell hard on sidewalk; July 5th, 6th and 7th, sick in bed, headache, vomiting; July 8th, fever 103, stomach ache, one leg and one arm aching and becoming difficult to use; July 9th, spinal analysis and spinal X-rays at Chiropractic Clinic; July 10th, spinal adjustment first time: July 11th, feeling pretty good; July 18th, playing again. This case illustrates two

points to remember: 1. Children respond rapidly when immediate aid is given. 2. Bad falls often injure the spine and cause illness. Ask your child if he or she, has fallen hard the next time they are suddenly ill.

HEAD PAINS CASE NO: 1440:

A man aged 55 years complained of shooting pains over left side of head for two years. These pains were constant every day. Sometimes the pain would dart into the ear area and would cause dizziness. He suffered from Asthma, too, and

DR. C. M. STAPP

Dr. C. M. Stapp Chiropractor, is a graduate of Palmer School of Chiropractic, Davenport, Iowa, where chiropractic was discovered in 1895. Palmer teaches all subjects pertaining to the human body, anatomy, physiology, neurology, etc., as well as the science and art of chiropractic The minimum course contains 2559 full class hours, or 143 semester hours, which compares favorably with the 2163 to 2400 class hours, or 120 plus semester hours required by the Universities of Texas for a B. A. or B. S. degree. Dr Stapp holds a Texas State License and a Nevada State License issued by the Texas and Nevada Board of Chiropractic Examiners. You may consult Dr Stapp with full confidence and the assurance that he is well trained in his profession as a chiropractic specialist. as a chiropractic specialist.

The Chiropractic Clinic uses the latest scientific instruments for a complete chiropractic analysis and the modern Palmer method of spinal adjustments for the correction of spinal subluxations causing organic distress.

While the wide scope of Chiropractic is amazing to the uninformed, we do NOT recommend chiropractic as a CURE-ALL. Chiropractic is effective in those cases only where the cause is found to be defective in organic energization due to spinal misalignment (subluxation). Most all of our cases are those that had previously resisted ordinary methods of healing Our examination is designed to climinate those we can't help. Case histories published here are from the files of Dr. Le Mond Clinic in Austin. They are displayed here to show the extent and scope of Chiropractic.

FEMALE TROUBLE

Lady, 39, irregular periods, right side pains, bad cramps man, age 30, came to a clinic for several days each month, complaining of headaches with back pains, bladder pains, neuritis in shoulder and sinus inflammation. She went to a
Chiropractor for headaches
because a friend had recommended Chiroprastic for headaches mended Chiropractic for that spinal analysis revealed the condition. Spinal analysis and spinal X-rays indicated defective energization of the Pelvic area and a subluxated (misaligned) vertebra in the neck, causing spinal cord interference. After a few months she was amazed to discover her female trouble and other symptoms had vanished with her headaches. An operation had been recommended. It is not necessary now for she fells fine. thanks to Chiropractic.

the coughing made the head CHRONIC FATIGUE pain unbearable. He went to various well known clinics CASE NO. 2931: A farmer, age where head X-rays were made 58, complained that for two of doctors. She had become for suspected brain tumor. No years he had suffered with low fearful that nothing would help could be had until he came back and leg pains that made ever help her. In that state of to the Chiropractic Clinic his work doubly difficult, also, mind she came to the clinic. to the Chiropractic Clinic his work doubly difficult, also, where we found that a fall he felt tired all the time, inwhere we found that a fall he felt tired all the time, infrom a horse and a kick from a

FRIONA CONSUMERS CO., Inc.

HENRY LEWIS, Manager

These are the Symbols of Your Future!

AMERICA

is the one place where they have ever existed in combination . . .

When we talk about our American system, we're talking about mething more productive, more promising, more thrilling than any system the world has ever seen.

And we're strong because we enjoy the unique combination of qualities that make our nation the most productive of any country on earth. Why? First, because we've built our whole system on a solid faith and belief in the dignity of the individual.

Out of our belief in the dignity of the individual has evolved the wonderful pattern of America. Our policy of free markets and free collective bargaining. Our belief in competition. Our adherence

to the principle of constantly better quality at consistently lower cost. Our emphasis on research—on invention-on new and better methods.

Our faith in the future and our desire ever to advance-ever to improve the lot of everybody, regardless of race, creed or color.

These-in combination-are America. And nowhere else in the world is there such a combination -that's your U. S. A. Let's keep it this way. Sure our system has its faults such as sharp ups and down in prices and jobs but we are trying to correct those faults -and with even better teamwork, the future is unlimited.

"Free government-of the people -by the people-for the people."

"Sound use of machine power."
