

RECORD FLU EPIDEMIC WANES AFTER 3-WEEK SIEGE

Column Left . . .

Speaking of immediate need of a new ambulance at the local hospital, the hospital was called to give ambulance service one day recently near Bovina. Attendants were unable to start the monstrosity now in use, and the Gib's Cleaners panel truck was pressed into service; but the delay resulted in the accident victims already having found other transportation.

Contributions still are needed for purchase of the new ambulance; about half the needed money has been raised.

A letter from Loyd Messenger tells that he probably will be at home in a short time.

Messenger is stationed at the Smith Barracks in Baumholder, Germany.

The new wing of the hospital now is in use with the first patients being moved to the wing this week.

The 1953 Hoblitzelle Achievement Award for the Advancement of Texas Rural Life will go this year to the professional worker in the field of agriculture who has made the most worthwhile contribution to agriculture in Texas during the past three years.

The award is a \$5,000 cash prize and a gold medal.

Possibly the award could come to the Panhandle this year; for we have some qualified men right here in this area or even the community?

Anyone wishing details of the award or nomination procedure may secure them at the Star.

Congratulations to the new owners of the Friona Cafe on the redecorating and remodeling of that downtown eating place.

Also must say that the dirt streets in Friona are in better shape than at any time since we have known the place.

Roy Wilson and City Marshall Roberts are attending a law enforcement school two hours daily at Hereford. Conducted by the Texas Highway Patrol the school will continue for four weeks.

Paul Renner, seriously injured when stabbed Christmas Eve as he was driving a taxi in Amarillo, is well known in Friona, living here from 1930 until about ten years ago.

Renner is a brother of John Renner who works with the Santa Fe section crew here, and he is a brother-in-law of H. H. Weis.

The stabbing in Amarillo was one of the first of the incidents in the crime wave at Amarillo that shocked the area and in which two people were brutally stabbed to death.

Rev. E. E. Houlette and family ate Christmas dinner with his sister, Mrs. Agnes Cottingham, in Clovis. It was the first time in 44 years that they had been able to eat together at Christmas time.

THE FRIONA STAR

Volume 28, Number 23

FRIONA, TEXAS, THURSDAY, JANUARY 8, 1953

SOMBRE CEREMONY—Governor Allan Shivers designates January 2-31 for the 1953 March of Dimes in a Statehouse ceremony climaxed by his official signature in the presence of General Robert J. Smith, Chairman of the MOD in Texas. Shivers noted that Texas has made "another first" but that it is ironically in the number of polio cases and in the amount of patient care funds advanced by the National Foundation for Infantile Paralysis.

Southward Stationed At Army Chemical Center

Pvt. Harold D. Southward, son of Mr. and Mrs. J. R. Southward of Friona, has assumed his new duties as a physicist at the Army Chemical Center, Maryland, the headquarters of the Chemical Corps' research and development program.

Pvt. Southward enlisted in the service in September, 1952. His last duty station was Fort Riley, Kansas. Southward is a graduate of West Texas State College and the University of Texas, and is a former employee of the University of Texas Defense Research Laboratory.

Mr. and Mrs. Earl Drake and Mrs. Virgil Howard and Josh of Abernathy spent the holidays in Houston visiting Mr. and Mrs. A. C. Winchester.

Kennedy Opening Mapping Service

W. G. (Bill) Kennedy has resigned from the Soil Conservation Service here and he has announced the formation of his own topographic mapping service here. He will specialize in mapping services, well locations, contour lines and ditch lines.

Kennedy came to Friona in May, 1949, and he has been associated with the SCS here since that date. At the time of his resignation he was the head of the local office as Work Unit Conservationist. No successor has been named as yet; the office will remain open with James Terrell reported in charge as Acting Unit Conservationist.

County - District Water Officials to be Elected in Area Balloting Tuesday

County committeemen and district directors of the High Plains Underground Water Conservation District will be chosen in elections to be held Tuesday, January 13th.

Three county committeemen are to be elected in Parmer County from a list of four candidates: C. V. Potts, D. B. Ivy, Raymond Euler and Rene Snead.

Willis A. Hawkins of Hart is the candidate for district direc-

tor for District No. 3 consisting of Parmer, Bailey and Castro counties.

Polling places in the county will be at the Friona American Legion Hall, the Bovina Legion Hall, the Farwell County Court Room and the Lazbuddie School.

Tom McFarland, manager of the district, emphasizes the importance of the election and of the duties of the elected officials.

The County Committeemen

will play a very important part in establishing the regulations of the District and seeing that such regulations are carried out. Three committeemen of the five-man board can approve an application for a permit to drill a well.

Beginning the first of February a permit will be required on any well to be drilled, whether industrial, municipal or agricultural. These permits will be issued free of charge and the forms can be obtained from any County Committeeman, well driller or the County Agent.

According to McFarland, one of the purposes of this application is to obtain information from the High Plains area regarding underground formations and well construction. This has been pointed out to the District as being very important information, not only to the people of the High Plains, but to the U. S. Geological Survey and is information that should have been gathered many years ago.

Indications point to prospect of a large amount of legislation confronting the District in the next few years. The directors feel that it will take the full cooperation of all the committeemen and the farmers and businessmen of the High Plains to keep control of ground water in the hands of the local county people.

Cub Scout Meeting Is Called Thursday Nite

One of the more important pack meetings for Cub Scouts and their parents will be held Thursday night at the Congregational Church basement. Meeting time will be at 8 o'clock.

Cubs having uniforms are asked to make inspection, grading on general appearance, the cap, neckerchief, shirt, belt, trousers, socks, and wearing of the insignias.

Several awards will be made at the meeting. Plans also will be made for local observance of Boy Scout Week - February 7-13.

Special awards have been posted by the Area Council for the best store window display prepared by any den at Friona or at Hereford during Scout week. Windows are to be ready by Feb. 9th, and the judging will be on Feb. 14th.

The award of \$5 to go to a den at Friona or Hereford will be given for purchase of handicraft for the den.

A similar contest will be held

between the Boy Scout Patrols of the two towns, with the award in the case being a Patrol Trail Chef Cook Kit.

Menefee Farm Sale Is Slated Tuesday

A general farm auction sale will be held at the Joe Menefee farm south of Friona on Tuesday.

Menefee is disposing of all his farm equipment, and items to go on the auction block vary from all types farm machinery to household furniture.

An itemized list of the sale items will be found on the Want Ad page.

The sale will commence at 10 o'clock, and the Pentecostal ladies will serve lunch.

Mr. and Mrs. Henry Lewis spent last Sunday visiting with her sister and family, the Claud Howards, in Sundown.

DISMISSED

Mr. Olen Ivy, Vickie Lee Harper, Mr. W. A. Knight, Mrs. W. E. Smith, Mrs. H. H. Elmore, Mrs. Lloyd Rector, Mrs. Frank Spring, Mrs. James Grimes, Kelly McFarland, Sarah Margaret McFarland, Mr. Mart McLean, Mrs. Reta Agee, Kim Caffey, Mr. F. M. Rollins, Mr. Ernest England, Mr. Dick Doshier, Mr. W. C. Dalton, Gene Merreman, Mrs. Stanley Venable, Mr. G. A. Collier.

Influenza cases of epidemic proportions have since Christmas touched most every family, the schools and businesses of the Friona area.

Manager Jimmie Baxter of the Parmer County Community Hospital has revealed that about 90 per cent of all callers at the hospital the last two weeks have been flu cases, many being hospitalized as initial cases or as those suffering from relapse.

Dr. Paul Spring was no exception, being a flu victim himself, but he kept on the job without interruption.

Cases are reported on the wane this week-end, having reached their peak probably on Monday of this week. The flu first hit in the vicinity about the 20th of December coming from the south where other epidemics were reported.

Absentees at the local schools hit a high peak last Friday with 106 students absent from the grade school alone. Grade School absentees from sickness totaled 50 on Monday, 66 on Tuesday, and 81 on Wednesday.

Teachers were compelled to give many of the mid-term exams over to include the entire student body.

New 1953 Chevrolets

On Display by Reeve's

Reeve Chevrolet is showing the new model '53 Chevrolets this week.

The improved features and increased eye-appeal are evident in the advertisement appearing elsewhere in this issue; or better yet, go around and let the Reeve boys give a demonstration.

Legion Zone Meet Here Tuesday Eve

The Friona American Legion Post 206 will be host Tuesday night to the zone meeting of the organization.

Starting at 7:30 the program will include eats and entertainment provided by the local post.

Steve Messenger Receives Honors, West Texas State

Steve Messenger of Friona is one of the high-ranking WTSC students recently honored with promotion to new membership in Alpha Chi, national honor society. Twenty-six students at WT were initiated or promoted to new membership.

Alpha Chi recognizes and promotes scholarship, good reputation and character. Membership is elective and the top ranking tenth of the junior and senior classes are eligible.

STORK FEATHERS

Born to Mr. and Mrs. L. E. Hendricks of Hereford, a girl, Barbara Jean, weighing 7 lbs, 5 oz. on Jan. 4th.

Born to Mr. and Mrs. George Martinez on Jan. 4th, a boy weighing 6 lbs, 12 oz.

Born to Mr. and Mrs. Raymond White, a girl on Jan. 7th.

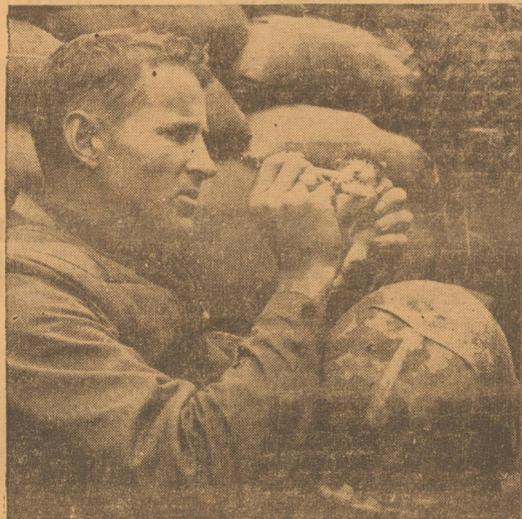

MEARS AT LACKLAND

Sam Mears, 20, son of J. H. Mears of Friona, is completing his AF basic airman indoctrination course at Lackland Air Force Base, the "Gateway to the Air Force".

Lackland, near San Antonio, is the world's largest air force base, site of Air Force basic training for men and women, headquarters of the Human Resource Research Center, and home of AF's Officer Candidate School.

Mears' basic training is preparing him for entrance into Air Force technical training and for assignment in specialized work.

Universal Language . . . Food

SOMEWHERE IN KOREA—(FHTNC)—Accepting her fate as an orphan of war, "Miss Hap," a two-week old Korean kitten, chows down on canned milk piped to her by medicine dropper with the help of Marine Sgt. Frank Praytor of Birmingham, Ala. The Marine adopted the kitten after its mother was killed by a mortar barrage near Bunker Hill. The name, "Miss Hap," Praytor explained, was given the kitten, "because she was born at the wrong place at the wrong time." (Official U. S. Navy Photograph—FHTNC)

Also misplaced were these youngsters—children of some 70 refugees from a North Korean fishing village—who grin with delight as they face their first real meal in many days. Crew members aboard the destroyer USS Cunningham, such as D. H. Bartley, engine room first class, USN, of Fort Wayne, Ind., were pressed into service to pass out huge portions of steaming rice and scrambled eggs to some very grateful customers. (Official U. S. Navy Photograph—FHTNC)

The Friona Star—

Editorially Speaking....

"A vigilant press has made the American people the best informed in the world."

Monday Morning Musings

Importance of the Tuesday election should not be minimized. Without question, and like it or not, increased water legislation is in the offing. The men you elect Tuesday as the county and district committeemen and directors will be entrusted with the responsibilities of keeping the control on as local basis as possible - and this is most important and will be increasingly so as the problem becomes more involved.

franchised company. Understand however that a firm is not liable under the present codes for internal labor trouble. The bus drivers representative union is publishing a statement in this issue of the Star setting forth their grievances. On the other hand the management of the transportation firm says that the prepared statement fails to tell the whole story. Wouldn't practice of the Golden Rule cure a multitude of ills? You may expect to hear quite a bit more on the bus strike; for various reasons Friona can be expected to have a ringside view of the developments.

MMM—
If these week-end editions of the Star continue we guess we will have to include a funny paper section. But it isn't funny to us!

Looks like we have a printer lined up now, however, and we are exerting every effort to get back on schedule.

MMM—
Met any of your new neighbors?

Chances are that you do have some, for a lot of new families are moving into the community, both into town (Friona) and onto the farms. Let's extend the glad hand - for these newcomers will be a prime factor in the growth and well-being of this good community; besides - we like them!

MMM—
The Brownfield News (Democratic) makes a very correct observation we submit.

Quote: If the Republicans only accomplish one thing they can be of service to farmers throughout the nation and particularly in this area by getting Farm labor problems out of the Department of Labor and into the Department of Agriculture...

MMM—
Most useless sign seen along the local highways:
"Speed Limit, Busses 55."

And when there are no busses!

Now we know nothing about the finer points of employer-union relationships - a country editor just isn't expected to understand such complicated double talk so often involved in these negotiations...

BUT - we do think the public without reservation entitled to uninterrupted service of a

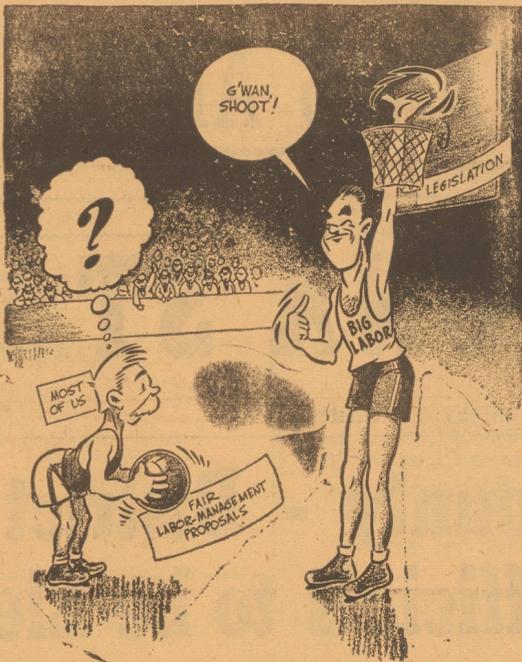

SUSPENDED . . . Nat Holman, CCONY basketball coach, and two other faculty members were suspended by the college for conduct unbecoming teachers, neglect of duty and disobedience of an official directive.

RECOVERED . . . Eddie Cantor waves as he leaves the Cedars of Lebanon hospital, Los Angeles, after recovering from a heart attack he suffered on a recent television show. He's ready for work.

THE AMERICAN WAY

Where's The Referee?

WASHINGTON AND

"Small Business"

—By C. WILSON HARDER

On this New Year's Day Washington predicts 1953 as the year of decision.

Much strife, much bitterness, is anticipated as issues that have long been kept in the shadows of indecision, are brought forth.

The decisions will have both worldwide and domestic repercussions.

Forexample: despite the world desire for peace and orderly operation of the world economy, C. W. Harder and the belief that some sort of international understanding is necessary, the future of the United Nations is a question mark.

Wishful hope may be supplanted by realization of hard facts.

Here are some of the indications. From California a freshman congressman, William Mallard, will arrive. As a reserve commander, he spent a few weeks in Korean waters following his election. On returning, he expressed surprise at the vast amount of commerce he observed being carried on with Red China by shipping carrying the flags of United Nations members.

It is obvious that this nation, supplying the major part of the non-Korean manpower in the Korean struggle, cannot sacrifice men to the overwhelming manpower reserves of the enemy.

The only way to win the contest is to shut off supplies. But, according to the new Congressman, supplies from U.N. members pour into Red China while Americans die for the U.N. cause.

Another stray in the wind.

The British have been keeping

© National Federation of Independent Business

Independent oil operators out of Iran by threats. U. S. State Department appeared to be on the side of the British and their oil monopoly, Anglo-Iranian Oil.

Apparently the situation became ridiculous.

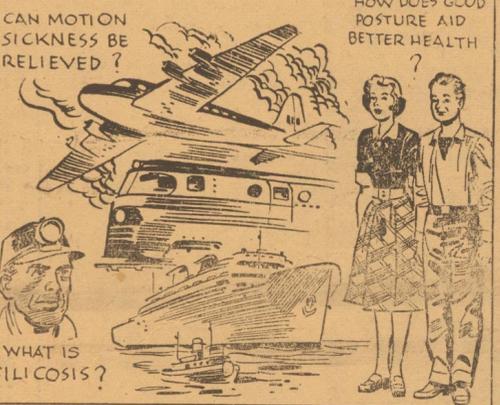

But whatever happened in the closing days of 1952, the U. S. State Department appeared to change policies with a statement advising it should be possible for American oil companies to trade in Iranian oil. Of course, so far, it is not known whether this statement was based on an attempt to open Iranian oil to free competition, or the first step to turn it over to one of the U. S. majors. But either way, it would be a step toward smashing the world oil cartel found to exist by the Federal Trade Commission.

While foreign affairs may seem remote from business along Main Street, it is a fact that controls, high taxes, inflation, and other damaging effects on the health of independent business are largely due to foreign policies.

Of course, the direction taken on anti-trust law enforcement will have a great deal to do with independent business welfare.

No one will predict just what will happen in this sphere.

It is felt that if the office in the Department of Justice charged with enforcement of the anti-trust laws is permanently removed from political pressure, as requested by a majority of the nation's independent business, the problem will be largely solved. As it stands now, the power of life or death for the nation's independent business is too closely held by a politically appointed Attorney General. On this one issue the delayed battle to decide which system is to prevail, monopolies or independent business, may hinge.

Answer to Question No. 1:

Those who suffer from the discomforts of motion sickness when traveling by boat, airplane, train can now often be greatly relieved. Sudden dizziness, headache and nausea (the characteristics of motion sickness) can be greatly reduced by drugs to allow for a smooth journey. These drugs should be used only on the advice of your physician.

Answer to Question No. 2:

If good posture is encouraged in children, they may be spared many aches and pains in later years. Not only is a person's general appearance greatly improved,

with shoulders back, head up, and abdomen in, but there is no unnatural strain on muscles and joints throughout the body. Good posture at all times—in standing and sitting positions—lessens fatigue and discomfort.

Answer to Question No. 3:

Silicosis is a disease of the lungs, due to excessive inhaling of stone dust. It occurs most often in miners or stonecutters. The symptoms are like those of chronic bronchitis. Silicosis can also cause growths in the lungs and can become dangerous. Industrial medicine is lessening the incidence.

MRS. HENRY L. DONNELLY

Miss Shirley Maurer - Henry Donnelly, United in Marriage

Miss Shirley Anita Maurer and Henry L. Donnelly exchanged marriage vows recently at the Friona Congregational Church, with the Rev. George Meyer officiating.

The bride is the daughter of Mr. and Mrs. Carl Maurer of Friona, and the bridegroom is the son of Mr. and Mrs. T. H. Donnelly of Artesia, New Mexico.

Preceding the service, Mrs. Maurer presented the piano selections, "I Love Thee", "O Promise Me", "Intermezzo" and "Traumerel".

The traditional wedding music was played by Mrs. J. C. McCracken of Hereford, who also accompanied Mr. Walter Renaker of Amarillo as he sang "The Lord's Prayer" and "Ave Maria".

Given in marriage by her father, the bride wore a star white gown of imported lace and tulle. The figurine bodice of lace was designed with a deep off-the-shoulder yoke, and the bodice was scalloped onto the yoke. The lace sleeves tapered to deep petal points over the hands. The bouffant skirt of layers of tulle was accented with lace scalloped panels to the hem of her floor-length gown. A shoulder-length veil of French illusion was secured by a bandeau of stephanotis. Her bridal bouquet was of stephanotis and white satin streamers surrounding a white orchid. She also carried an order of the service given her by the minister. For something old the bride wore a pearl necklace that had belonged to the mother of the groom; for something new,

pearl earrings, a gift from the groom; and for something borrowed and blue, a blue garter loaned by Mrs. F. N. Welch.

Bridesmaids were Miss Doris Ann Lange of Houston, Miss Jean Crawford of Amarillo, and Mrs. Dale Treider, Mountainair, New Mexico. Their gowns were designed with velvet bodices and full net skirts over taffeta.

Misses Lange and Crawford wore turquoise, and Mrs. Treider chose coral. Matching net stoles and silver mitts completed their ensembles. Their bandeaus and colonial bouquets were of Talisman rosebuds and satin ribbons.

Best man was Jerry Cole, Artesia, New Mexico. Ushers were Lee Cranfill, Friona; Dale Treider, Mountainair, cousin of the bride; and Gaylord Maurer, her brother.

Mrs. Maurer, mother of the bride, chose a gray lace dress worn over gold taffeta. Her accessories were gold, and her corsage was of pink carnations. Mrs. Donnelly, mother of the groom, was attired in a black taffeta suit with rose accessories. Her corsage was of variegated camelias.

Following the betrothal service and wedding rites, a reception was held in the Friona Women's Clubhouse. Assisting at the reception were Misses Lange and Crawford and Mesdames Treider, L. F. Lillard, George Treider and Ralph Miller. Miss Lange registered the guests.

The refreshment table centerpiece was a frosted coral arrangement. The tiered wedding cake was served by Miss Crawford, and

Mrs. Dale Treider presided at the punch bowl. Bouquets of roses and mums were used on the mantle and piano.

The bride's going-away costume was a French blue flannel suit and matching blouse complimented by a coat of blue poodle cloth. Her accessories were in black, and her corsage was a white orchid.

After a wedding trip to points in New Mexico, the couple will be at home at 422 S. Yale, Albuquerque, New Mexico. Mr. Donnelly is attending the University of New Mexico there.

The bride is a graduate of the Friona High School and the University of New Mexico. She is a member of Alpha Delta Pi sorority and AAUW. She was a teacher in the Central Point, Oregon, Consolidated High School until recently.

The groom served in the Marine Corps, and he is associated with the Donnelly Drilling Co. of Artesia. He now is a pre-law student at N.M.U.

Out-of-town guests for the wedding were Mr. and Mrs. Tom Donnelly and Mr. and Mrs. L. Baker of Artesia; Mr. and Mrs. Walter Horlacher, Ft. Collins, Colorado; Mr. and Mrs. J. L. Tryon of Amarillo; Mr. and Mrs. J. C. McCracken, Sylvia and Jack, and Mr. and Mrs. W. L. Davis, Hereford; Mr. and Mrs. Owen Seamon, Clovis; Mrs. Ray Hurst of Midland; Mr. and Mrs. John Aldridge, Nancy and Mary, Farwell; Mr. and Mrs. Walter Renaker, Amarillo; Joel Larstrom, Albuquerque, and Reuben Gischler of Eugene, Oregon.

Rhea News

By FLORENCE DEAN

Mr. George Schlenker and his son, Charles, visited last week with the Floyd Schlenkers and Cordie Potts. Mr. Schlenker is an uncle of Mrs. Potts and Floyd Schlenker.

Guests in the Floyd Schlenker home New Years Day were Mr. and Mrs. Carl Schlnker and Mrs. Elmo Dean and girls.

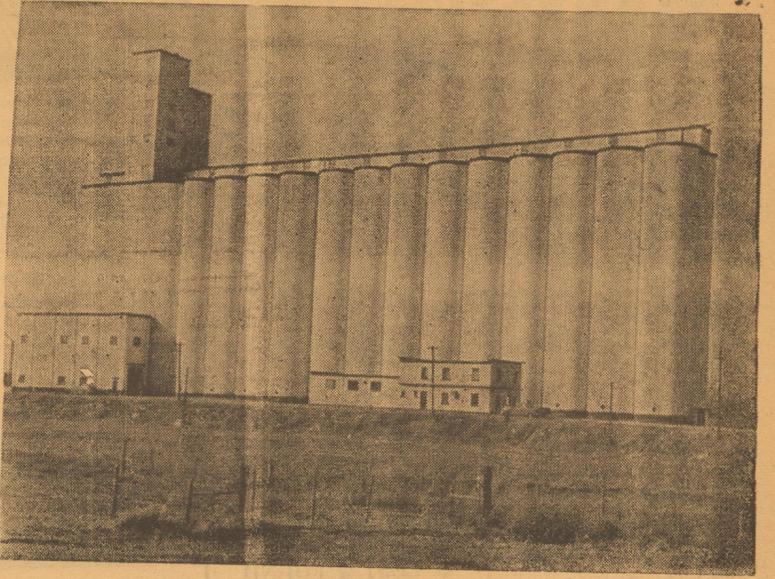

The Farm Bureau met Friday night at the Parish Hall. Mr. Aubra Ellison and Earl Stevenson of Bovina gave reports on the Bureau convention they had attended. Refreshments of coffee and do-nuts were served by Mr. and Mrs. Herman Schueler and Mr. and Mrs. Gilbert Schueler.

Arnold and Irene Schueler were both at home during Christmas. They both are in Indiana.

Mrs. Elmo Dean and Gladys and Lindy spent Sunday afternoon visiting Mr. and Mrs. Charlie Lovelace and boys and Mr. and Mrs. John Guyer in Farwell.

Mr. and Mrs. O. J. Beene returned Friday from Dallas where they attended the New Year Cotton Bowl game.

Mr. and Mrs. S. T. Thornton and Mr. and Mrs. Sam Williams attended the Horace Heidt show Sunday in Amarillo.

DICK DOSHER, Auctioneer

ORVAL FRANCIS, Clerk

Mind if I remind you of an old favorite salad that's perfect when fresh fruits go sky high? It's canned pear halves, icy cold, cozily nestled in a lettuce cup. On top of them goes a generous dollop of real mayonnaise, then a sprinkling of grated yellow cheese. Even the menfolk go for this tempting salad.

A few tips on pie pastry making: Use a pastry blender for cutting in fat; a fork seems best for mixing in water. Never stretch pastry; make several slits in top crust to allow steam to escape.

FRIONA SHOE SHOP

MR. AND MRS. HOBSON HARRINGTON

Dramatize your new moulded coiffure with bold earrings. Chunky metal ones are perfect for suits; for dress-up evenings I like the jeweled ones, particularly the delicate sprays that look like diamond snowflakes.

Mighty good to serve with a golden brown loin of pork is a sweet potato and apple scallop, made this way: Cook separately in boiling water sweet potatoes and sliced apples till almost done. In a greased baking dish place sliced potatoes and apples in layers. Sprinkle layers with cinnamon, brown sugar; dot with vitaminized margarine. Pour over all a bit of apple water. Bake in a 350° oven about one hour.

If you want a pretty dress to brighten up your Christmas holiday wardrobe, consider a jersey in one of the delicious bon bon colors that are so stylish now.

ANNOUNCING THE
KENNEDY MAPPING SERVICE

Having resigned from the Soil Conservation Service in Parmer County, I am establishing a service that I feel is needed in this area - that of topographic mapping, well locations, contour and ditch lines.

It has been a pleasure working with so many of you while with the SCS and I would appreciate the opportunity of showing you how I can serve you in your water application, and various farming and ranching operations calling for a skilled surveying service

WILLIAM G. (Bill) KENNEDY Jr.

Friona

Good Cooks Start Young

'Tis rumored that men make the best cooks... and here's one in the making. Using chocolate-flavored instant dessert as his base, our young chef is busily creating a "specialty" as his young sister looks on. First, he makes the basic recipe. To do this, cold milk is combined with the instant dessert and the mixture is whipped with a rotary beater less than 1 minute. Then, peppermint extract is added and ever-good marshmallows are folded in. Lo... and behold, a deliciously different dessert is ready to present to Mom on her birthday... or to surprise the family on Thanksgiving or other festive occasions.

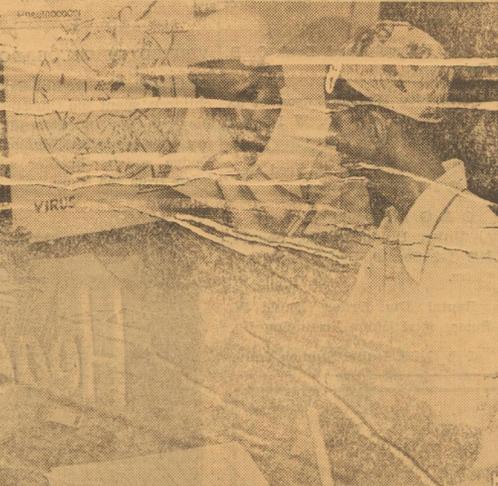

Mallow Mint Chocolate Dessert

2 cups cold milk
1/4 teaspoon peppermint extract
1 package instant chocolate dessert
8 marshmallows cut in pieces

Pour milk into large bowl; add peppermint extract and instant chocolate dessert, and whip rapidly with a rotary beater for less than a minute, until smooth. Fold in marshmallows. Turn into dessert dishes. Makes 6 servings.

SAUDI ARAB NURSES

FUTURE NURSES—These young Saudi Arabs are training for a practical nursing career at the Arabian American Oil Company's modern Health Center in Dhahran, Saudi Arabia. For three years student nurses study everything from microscopy to reading temperature charts, spending half their time working in the hospital wards. Aramco and the Saudi Government cooperate in pressing forward a modern preventive medicine program which has checked such diseases as malaria, dysentery and typhoid.

Lorette, New Orion-Wool Blend Introduced For The First Time

FABRIC MAGIC! Even after thorough machine washing, the Lorette dress (left) retained its neat pleats and fresh appearance as compared with the worsted dress which lost its shape, pleats, good looks, besides shrinking two sizes.

NEW YORK, N. Y.—Lorette, a new magic fabric by Milliken, was introduced here this week for the first time. A blend of 55% Orion and 45% wool that looks and feels like fine worsted, it has the remarkable properties of washability, resilience, non-shrinkability, and wrinkle resistance, all of which cut consumer cleaning and pressing bills.

Lorette made "her" formal fashion bow in a smartly styled pleated dress. An identically designed dress of fine worsted was also shown at the same time. To dramatically illustrate Lorette's remarkable talents, both frocks were washed in a home-type washing machine. Thoroughly soaked, the dresses were put through a wringer and hung up to dry.

Later, when the dresses were dry, the Lorette dress was as fresh looking and beautiful as when first presented. Its pleats were still perfect. The worsted garment was sadly out of shape, shrunken, and its pleats had vanished.

More than 125 leading manufacturers of women's sportswear, dresses, robes, and suits, and children's wear, already are producing Lorette creations in the latest 1952 fall fashions.

Over 1,000,000 garments and piece goods yardage will be available to consumers in retail outlets across the nation in July.

Lorette has been awarded the coveted Washable Seal of Approval by the American Institute of Laundering.

Toasted Corn Bread Tops Chicken a la King Taste

Just how the name "King" came to be associated with this popular luncheon, dinner or supper dish is a matter that usually brings forth a little discussion.

Some claim that Chicken a la King was named for a Philadelphia restaurant owner who dreamed up the dish late one evening, years ago, when his supply of chicken was low and a late-evening crowd ordered chicken. Others believe it was so named because it is fare fit for a king.

Whatever its rightful origin may be, you can't beat Chicken or Turkey a la King for goodness when it is served on toasted corn bread. Corn bread possesses a rich flavor that's naturally sociable with the tasty creamed chicken or turkey.

A strong point in favor of this combination is that the toasted corn bread will not go limp when it's covered with the hot mixture. Toasted corn bread makes the perfect base for the King method of using the strippings taken from the left over carcass of a holiday bird, whether it's turkey or chicken.

CHICKEN a la KING ON TOASTED CORN BREAD

1/2 cup green pepper, chopped
1 tablespoon onion
1/4 cup butter or margarine.
1/4 cup flour
1 cup chicken stock
1 cup cream
1/2 teaspoon salt
1/2 teaspoon white pepper

2 tablespoons pimiento, cut
3 cups diced cooked chicken or turkey
2 egg yolks, well beaten
1/2 cup chicken or turkey stock, cold
Toasted corn bread (recipe below)
Brown green pepper and onion lightly in butter or margarine. Blend in the flour. Add stock and cream and cook until thickened, stirring constantly. Add salt, pepper, pimiento, and chicken, and cook, covered, 20 minutes in top of double boiler. Just before serving, stir in the well-beaten egg yolks mixed with the 1/2 cup stock. Serve on squares of corn bread which have been split and toasted in toaster or broiler. Yield: 6 servings.

CORN BREAD
1 1/2 cups corn meal
1/2 cup sifted flour
1 1/2 teaspoons salt
3 teaspoons baking powder
2 eggs, beaten slightly
1 1/4 cups milk
1/4 cup melted butter or margarine.

(If self-rising corn meal and flour are used, omit salt and baking powder.)
Mix and sift the dry ingredients together. Combine beaten eggs, milk, and melted butter or margarine which has been cooled. Pour liquids over dry ingredients, mixing only until moistened. Pour into a well-greased 8- or 9-inch square pan and bake in a 400° F. oven until it shrinks from the sides of the pan, about 20 to 25 minutes.

The Man Behind the Pump - Always At Your Service

When the first service station appeared at the turn of the century, a new institution was ushered onto the American scene. The service station became a kind of blacksmith shop, general store, watering trough and wayside inn rolled into one. As it developed and more stations sprang up, a new unique personality was evolved - the service station operator.

The man behind the gasoline pump is for the most part an independent small businessman (19 out of every 20 stations are owned or leased by individuals). He contracts for supplies from one or more oil companies. He pays his own costs, hires his own employees and sets his own prices to meet competition. He makes a reasonable profit by working hard long hours in all kinds of weather.

To keep pace with his rivals, he sells the best products available and sets high standards of personal service from free air to clean rest rooms.

What makes this competitive service possible? A far-flung complicated network of oil companies, terminals and wholesalers whose efficiency, high standards of service and intensely competitive methods are in the best tradition of American business.

FAMILIAR SIGHT - Approximately 200,000 service stations such as this dot American highways to supply the needs of more than 50 million motor vehicles.

The next time you are at your favorite service station, bear in mind the words of the distinguished atomic scientist, Dr. Robert Millikan. He said, "Men who operate service stations have done more to teach the American people courtesy than all the professors in the colleges."

DESIGNED FOR SERVICE—It is easy to see that today's modern streamlined service station has come a long way from the days when the oil industry was young and gas stations were wide apart. Now, no matter how far one drives into the mountains or the desert, he will always find a station ready to serve him.

DARREL HARKINS

1st Door West of Sears Elevator

On Highway 60 Hereford

So the Public May Know:

True Facts REGARDING THE PRESENT STRIKE BUS DRIVERS AGAINST THE NEW MEXICO TRANSPORTATION COMPANY

We submit the following pertinent facts in explanation of the strike against the New Mexico Transportation Company serving this area:

ON OCTOBER 23rd, representatives of our union met with the New Mexico Transportation Company attorney, submitting an equitable contract calling for pay and vacation adjustments, etc.

NOTE:

Pay has been less for drivers operating for this company than for those of the two connecting companies to the west and the east:

NEW MEXICO TRANSPORTATION COMPANY: per 100 miles: \$5.87½

Pacific Greyhound (El Paso to Las Cruces): per 100 miles: \$7.91

Southwest Greyhound (connecting at Amarillo): per 100 miles: \$7.70

THE UNION proposed to submit the issue of wages and vacation procedure to arbitration BEFORE THE STRIKE occurred. The bus company refused. We still make the offer.

THE UNION IS WILLING and ready to meet at any and all times to resolve the issues to end the strike.

ON JANUARY 3,4 we again met at Roswell, offering to consider any reasonable compromise offer. The bus company representatives REFUSED to make an offer; in fact they indicated less benefits would be forthcoming than before the strike. BEFORE COMPLETION of the Jan. 4th meeting, the company representatives stated there was no need for further meeting and left town.

THE CONTRACT submitted by the bus drivers is similar to contracts in effect in other areas and is asking pay increase only to \$7.00 per 100 miles, still lower than that of the above mentioned connecting companies.

Potts, Erma Drake, Dolores Elmore, Gwen Green, Monty Baker Janet Sneed, Faye Scales, Maritta Watson, Linda O'Brian, Jacquelyn Magness Carola Singleterry Nevada Hand and Geneva Floyd. Next week we plan to make some clothes for a doll.

Rogers Believes Water Problem Pressing, Both Here And in Other Areas; Commends Ike Appointments

THE EISENHOWER APPOINTMENTS

Most everyone in Washington seems to be well pleased with the appointments that have been made by General Eisenhower. It is generally talked that the new President is not being dominated by political motives, but is seeking to satisfy himself as to the ability of the appointees, rather than to satisfy the political bosses of the several states. There is much comment here about the fact that Eisenhower is not consulting the governors or the senators of the states from which he chooses the appointees. There is much conjecture as to whether or not this will subsequently cause trouble between the President and the political leaders and high office holders in the states from which he has picked his men. Certainly it should not cause a break if the man chosen does a good job. Eisenhower is certainly to be commended for accepting full responsibility in these appointments. Should one of them turn out bad, it would be the result of an honest mistake and not the result of a political play. The American people have always been willing to accept an honest mistake where

there was a sincere desire to do right. They have never been willing to accept a mistake that was the result of political expediency alone. Texas need not worry about a mistake being made in Eisenhower's choice of his Secretary of the Navy. I have known R. B. Anderson of Vernon, Texas, for twenty years. In fact, he preceded me in the University of Texas law schools. Subsequently it was

my pleasure to have him as an instructor in one of the law courses. His brilliance of mind is well tempered by a natural ability to understand and appreciate the problems of his fellow man. He is to me a living example of a true American success story. Bob Anderson, by his own integrity, his own ability, his own industry, has made the most of the opportunities available to every American, whether he be rich or poor.

If Eisenhower has done as well on all of his appointments as he did on his Secretary of the Navy, he need have no fear as to his own success.

RETURN FROM VACATION

Dr. and Mrs. W. R. T. Metzner and Rannie returned Tuesday night from a vacation trip to Ohio, West Virginia and Florida.

THE NEW YEAR

This letter will reach you as the curtain falls on 1952 and rises again on 1953. The American people both young and old will stand, as they have in past years, on the threshold of great opportunities for progress and achievement in the New Year. Our lives and our efforts will be dedicated to the fulfillment of a desire that has dominated the minds of Americans since this country was founded: the desire for peace. Every lead and clue to the final realization of this desire must be thoroughly explored and scrutinized. The attainment of this desire will open doors of opportunity for the advancement and progress of civilization that have been heretofore closed solely because so much of the world's efforts have been devoted to means and machines of destruction rather than construction. The channeling of these efforts into peaceful pursuits will bring great blessings and benefit to the people of America and the rest of the world. The delay alone in research for the development and expansion of our natural resources has been tragic, simply because the money and the time had to be spent on war research and war materials. This is most clearly apparent to those of us who live in our section of the country. The great potentialities of the Southwest and especially the Panhandle of Texas are lying dormant. Water is our number one problem, and it remains unanswered because of wars and rumors of wars. If peace could prevail, it could be quickly answered. However, war or no war, it must be answered in the near future. We cannot delay much longer the impounding of surface waters, as could be done by the construction of the Canadian Dam, nor can we delay further research and exploration in the field of irrigation. With an ample supply of water, the Panhandle of Texas could become one of the most fertile and richest regions in the world from an agricultural standpoint. With our vast fuel supply, a stable water supply could result in the Panhandle becoming one of the great manufacturing centers of the world. Few regions in the world have the great opportunities that are open to us in the Southwest. Our resources must be developed and our initial task is to solve the water problem. This must be done whether peace is attained or not. We cannot continue to expand our natural resources at the present rate without further development and expansion. If we fail to further develop and to expend our present facilities to utilize our resources, we could be contributing measurably to a weakness in the future that could rebound to the benefit of Russia. This must not happen. An ample central water supply must be created not only for the northern part of the Panhandle and the western side, but also for the eastern and south eastern sections of the district. Much work has been done toward such a project in the southeastern section of the Panhandle that would be of immense benefits to the Hall, Childress, Cottle and Motley Counties vicinity. The pressure for the development of these facilities must continue if we are to continue in our forward progress. The year 1953 should see great strides made in that direction.

Symptoms of Distress Arising from STOMACH ULCERS DUE TO EXCESS ACID QUICK RELIEF OR NO COST Ask About 15-Day Trial Offer!

Over four million bottles of the WILLARD Treatment have been sold for relief of symptoms of distress arising from Stomach and Duodenal Ulcers due to Excess Acid—Poor Digestion, Sour or Upset Stomach, Gasiness, Heartburn, Sleeplessness, etc., due to Excess Acid. WASHINGTON, D. C. — (FHTNC) — Good-bye, good luck, and good duty! Eight Waves depart by plane for Naples, Italy, where they will serve with 15 other women from the Waves, Women Marines and Waifs at the headquarters of Admiral Robert B. Carney, USN, Commander-in-Chief, Allied Forces, Southern Europe. They will be the first U. S. enlisted women to serve at the North Atlantic Treaty Organization command at Naples. Seeing the Waves off is Capt. Joy B. Hancock, USN, director of the Waves (foreground). (Official U. S. Navy Photograph—1102721)

ODDLY ENUF! by Williams

IT IS MUCH EASIER FOR WORKERS TO BUY HOMES TODAY THAN IT WAS IN 1939. FOR WAGES HAVE ADVANCED FASTER THAN HOUSING COSTS.

PEOPLE IN GENERAL MANUFACTURING HAD TO WORK 296 WEEKS TO EARN THE COST OF AN AVERAGE HOME IN 1939. NOW THEIR WAGES FOR JUST 154 WEEKS WILL BUY A NEW 1953 HOME.
