## Revival at Baptist Church Grows in Interest Daily

The revival at the First Baptist church which began last Sunday morning is progressing in a great way. There have been large crowds at all the services, both morning and evening.

The audience, choir, and orchestra have been rendering real gospel music, with Mrs. Ed H. Schloeman at the piano. Joe Trussell, one of the South's greatest choir and congregational leaders and soloists, is leading the music in a splendid way, and bringing a special message in song at each service.

Rev. C. A. Morton, pastor of the church, is doing the preaching for the revival with unusual fervor and eloquence. Many who hear him regularly say he is preaching the most powerful sermons of his pastorate here.

There had been thirteen additions to the church by letter and baptism up to and including Wednesday night. Every evidence leads to the belief that this will be the greatest revival in the history of the church.

There will be no morning service on Saturday, but the regular night service at 7:30 will go on.

Services will continue throughout the following week twice a day, at 10 a. m. and 7:30 p. m.

The general public is invited and urged to attend the meeting.

## Morton Scott Local Dealer of Norge Refrigerator

Morton Scott, local furniture dealer since 1907, is introducing the Norge Refrigerator to the people of Gatesville.

The Norge, though new to Coryell county, is not a new product at all, says Mr. Scott. Seven years ago a regular standard Norge Rollator refrigerator unit was started in a room at the Norge factory. This unit has run continuously for seven years with the exception of 24 hours in each year at which time the unit was torn down, examined and reassembled. When last the unit was examined a micrometer gauge could not detect any wearing away in any part of the mechanism. It is estimated by engineering authorities that the constant running for seven years is equivalent to about 25 years of domestic use.

The rollator referred to in the name of the refrigerator is simply a mechanism which, because of its design, requires less electric energy to operate.

Gatesville and Coryell county are fortunate in being able to secure this refrigerator through a local dealer, Morton Scott. His ad of the Norge will be found on last page of this week's issue of The News. But for further particulars call and see one of the machines.

Circulars were dropped from the airplane which flew over Gatesville Tuesday advertising the new Norge. Twenty of these circulars were on red colored paper and are worth \$10 to the holders when applied on the purchase of a Norge Refrigerator, bought of Morton Scott.

## PROPERTY IS ASSAILED

(Dallas News)

Norman Thomas, (Socialist candidate for president), did not get started politically, so far as the presidency is concerned, when he campaigned in 1932. But the literal fact is that his successful opponent has put into operation more socialism than Norman Thomas could possibly have achieved, had he been elected with an opposition Congress on his hands. Democrats may bristle up at the statement of the case. But the current trend is toward Government ownership of that, with Government guarantee, Government insurance and Government employment.

For that matter, President Roosevelt quite frankly characterizes the New Deal as the magnification of human rights at the expense of, necessary, of property rights. The Norman Thomases would put a different interpretation on that in theory but the Socialist in power becomes usually a liberal by pressure of compromise in the effort to stay in power. Property is assuredly on the defensive. The threat of Minnesota's Governor to confiscate private wealth in his state, if measures to his liking are not authorized by the Legislature, is a sign of the times. In Texas the confiscation is less baldly proposed and, indeed, by increased taxation it can be effectuated within the frame work of the Constitution.

In general we are in a time when the powers that be are expected to act first and investigate afterward whether the functions assumed are either lawful or effective. That is really the sum of what commentators mean when they speak of revolution in process. It is a lawlessness of discontent, akin to that on which revolution always rely, but without definite objectives and without the personification of these objectives usually noted in revolutions of the typical sort.

## Hon. W. E. James of Austin Spoke to Good Audience on School Bills

Hon. W. E. James of Austin, assistant Superintendent of Public Instruction, spoke to a fairly large crowd in the District Court room Friday night, April 14, on our present school outlook. Mr. James spoke instead of Mr. Jones of Tyler who was unavoidably prevented from coming at this time.

Fred G. Prewitt, City Secretary, stated the purpose of the meeting to promote a better feeling and understanding toward educational matters. He then introduced Mr. James. The speaker prefaced his remarks by saying that he was an optimist, though he said his remarks might seem pessimistic, he asked the audience try to see a silver lining to the dark cloud. Mr. James further remarks were in part:

"Texas has faced many crises in the past. She has always, by valiant sacrifice won through to victory".

If we doubt the value of our educational system, we have only to step across our southern boundary, the Rio Grande, to see a nation older than ours, yet at least a century behind us in development. Education is, in a large measure, responsible for this difference. Mr. James declared that we are now facing a crisis in education and further said that the only apparent solution of our problems is a sacrifice on the part of all our people.

Mr. James placed the blame for our crisis in education on uncertain revenues. He explained that ad valorem taxes are indefinite, only about 60 per cent of ad valorem taxes have been collected each year of the past two years. The home-stead exemption amendment took 4 to 5 million dollars from the school fund. Sulphur, gasoline, cigarette taxes have fallen off because of decreased consumption. It is because of the decreased incomes that the state auditor and state comptroller have estimated that the scholastic apportionment for the coming year will not exceed \$8.00 per pupil. If this be true schools over the state will be able to have only 3 to 6 1-2 months school terms. Not only will it be necessary to shorten the school term but the teachers who have already taken from 15 to 25 per cent cuts in salaries will have to take further cuts of 25 to 50 per cent.

Many teachers over the state have taught this year for vouchers which can not be cashed, even at a great discount.

Mr. James pointed out that the only solution is added revenues to the school funds. He further said that it looked as though new taxation measures was the only source of revenue and that our legislators were elected on an economy platform and would not pass any new kind of taxation or raise the tax rates that now exist.

Following the address by Mr. James, a resolution was presented to the assembly which in its text asked that our legislature provide for the school system at any cost. The resolution was approved and Mr. C. E. Alvis and Mr. Dan McClellan were appointed as a committee to present the resolution to the proper authorities.

## Central Texas Presbytery Held Successful Session

### Mrs. George Lightsey Bitten by Rattle Snake

Wednesday shortly after the noon hour Mrs. George Lightsey was bitten by a rattle snake.

Dr. Hamilton was called, and at the same time Mr. Lightsey started to town with his wife. Dr. Hamilton met them at Pideoke where he rendered the patient first aid by making an incision where the snake's fangs entered. After reaching his office the doctor applied a suction pump drawing more blood from the wound.

Although it was some two hours or longer before major relief remedies were applied, Mrs. Lightsey showed wonderful resistance to the venom and she is now seemingly past danger.

Mrs. Lightsey was out soon after noon watching after a turkey hen when she encountered the rattler, which struck before she saw it. The fangs entered just above the ankle, and the snake apparently inflicted a full stroke. The spread of the fangs was over an inch, which indicated a fairly good sized rattler.

### R. M. Blakley Passed Away Here Tuesday

Funeral services were held at the City Cemetery, Gatesville, Wednesday afternoon at 4:30 o'clock, for Mr. R. M. Blakley, long time resident of Gatesville, with Rev. C. A. Morton officiating, assisted by Rev. O. C. Acree, pastor of the First Presbyterian Church of Cameron.

R. M. Blakley, son of a Baptist minister, was born in Arkansas. He came to Texas in his early youth and to Coryell County some forty years ago. The first five years of his residence in this county were spent in and around Killeen, the remaining 35 years have been spent in Gatesville.

Deceased had been in declining health for almost a year, and was forced to his bed about three weeks ago. He passed away Tuesday evening at 6:10, after having suffered a stroke of paralysis several days ago.

He is survived by his widow, two sons, Murray Blakley and Charlie Barker of Gatesville; three daughters, Mrs. Solon Y. Riddle of Waco, Mrs. T. W. Gouley of Wichita Falls and Miss Dorothy Blakley of Gatesville.

Pall bearers were Jack Horne, Lawrence Lackey, Luther Russell, John Franks, E. L. Plentje, and S. A. Cole.

### E. D. Brazil Died at Waco Hospital Thursday

The Scott Funeral Directors were called to Waco Thursday to bring the remains of Mr. E. D. Brazil of Arnett community who expired in a Waco sanitarium Thursday morning. He was about 38 years old.

Deceased has been a resident of Texas all his life, having lived in Coryell County for the past twenty-five years. He is survived by his widow, and five children, Thomas, Emily, Nona Dean, Erlene and Woodrow, all of Arnett.

### Good Rains Fell Here This Week

Rains that fell in this county both Tuesday and Wednesday nights were sufficient to give practically every section of the county a good soaking, enough for present needs, so many farmers report.

Other counties adjoining Coryell also report good rains.

### HON. T. L. MEARS SPEAKS AT HAMILTON

Hon. Tom L. Mears, prominent local attorney, spoke to a large audience in a democratic rally at Hamilton on Friday, April 14.

Mr. Mear's address was centered around an appeal to the people to rally to the leadership of our President in supporting emergency revenue measures, the main issue of which is beer for taxation.

At the close of Mr. Mear's address the body adopted a resolution asking our State representatives and senators to vote for submission of the beer question to a vote of the people.

The Central Texas Presbytery closed on Wednesday night, what is said by those in a position to know, to have been the most successful session the body has held in several years.

There were 22 ministers and 16 Elders present for the meet as well as a number of visitors. Rev. O. C. Acree, grandson of Mr. J. C. Gouley of our city and pastor of the First Presbyterian Church of Cameron, brought an inspiring message at the night session on Tuesday. His sermon was an admonition to the preachers and elders to be more zealous and fervent in their efforts and a plea that they rededicate and reconsecrate themselves to the work of the Master.

Rev. A. B. Eyers, pastor of First Presbyterian Church of Clifton brought a message on "Significance and Mode of Christian Baptism in the Light of the Holy Scriptures" at the morning hour on Wednesday.

Rev. W. R. Minter, pastor of First Southern Presbyterian Church of Austin brought a message on "Evangelism" at the Wednesday night session. Rev. J. Tilden Scherer, representative of Austin College of Sherman, spoke to the body on Thursday.

There were two Mexican preachers and two Mexican Elders as well as one Mexican Missionary present. These representatives went to the State Juvenile Training school on Wednesday where they held a service for the Mexican inmates of the institution.

The sessions of the Presbytery were largely attended during the entire meet. The Presbyterian church here was host to all the delegates and visitors at supper on Wednesday, at the Methodist church.

Dr. C. T. Caldwell, pastor of First Presbyterian Church of Waco was the oldest member of the Presbytery from point of service. He has been a member of the Presbytery for thirty years.

The only resolution of a general interest passed by the session was one asking the General Assembly not to cut its session so short as to impair the work of the denomination in order to economize.

Rev. N. R. Hawkins, pastor of First Presbyterian church of Taylor was elected Moderator of the body and Rev. James M. McLean was chosen clerk and treasurer of the body.

Though this Presbytery is entitled to four representatives to the General Assembly, only two were chosen, in order to economize. Rev. W. R. Hall, D. D. of Corsicana, was chosen as preaching elder representative and Mr. J. P. Kindrick of Gatesville was chosen ruling elder representative to the General Assembly of Presbytery Church U. S. A. to be held at Montreat, N. Carolina, May 25th.

### Floyd Ziegler Delivers Commencement Address

Hon. Floyd Ziegler, county attorney, delivered the commencement address to the graduating class of Flat school Wednesday night at the closing exercises of the school.

### Ed Henson Has a Three Legged Chick

Mr. Ed Henson is the possessor of a three legged chick that was hatched out at the Percy Witt hatchery Monday.

The chick has three well formed legs and feet, and from all appearances it seems well on its way to a "ripe old age." Very few freaks of this nature live but a short time.

## A NEW ERA IS BORN IN AMERICA

"America has not finished nor has it stopped its march of progress," says an exchange. "After every depression there has come a new era. A transportation started at the turn of the nineteenth century. Another era was that of national expansion, the throwing back of the America frontier; another, the development of the automobile, the telephone and airplane. A more recent era has been that electric science, the radio and further developments in other sciences. We have the strength, the courage, the brains and the will to do. America, March On,—into a new era."

And America has a man at the helm who has the courage to launch out on new seas, and grapple with problems in new ways. Along with the industrial and scientific phases of the many problems confronting our leaders there is a moral and social aspect that must not be lost sight of. President Roosevelt is emphasizing a new, or rather stricter, moral code for business. Men in big business must respect the interest of those who entrust to them their money, or their faith.

When the faith of the masses in their leaders and in big business is restored the return of prosperity will be on its way. After that every citizen will be ready to do his part in putting money to work in providing jobs.

Every citizen with an income has a duty to perform. He can best fulfill it and at the same time benefit himself, by adding his money to the money that is now coursing through the channels of industry. There will be some necessary improvement about his place that he can find to do that will aid in the fight against depression.

Jobs are cheaper and better than charity—and the providing of jobs is the surest way we have of hastening the new era. The people of Coryell County, and of America, are too proud and genteel to beg—but they will work, and want to work.

## MORE DEBT — MORE TAXES

In a recent address, Bernard M. Baruch said: "Our basic trouble is debt and taxes—yet we try to cure it by piling on more debt and support it by more taxes."

Whatever opinion many people may hold of Mr. Baruch and other financiers, you must see that this statement goes right to the root of the difficulties.

The post-war expansion of the government—national, state and local—may be fairly compared to the expansion in business that took place during the boom. New bureaus were added, new activities were taken on by the thousands, new bureaucrats began feeding at the public trough. It was all necessarily financed by higher taxes and by bond issues, made possible by the inflated prosperity of the time. And this expansion was indulged in by everyone, from the farmer who paid \$200 to \$400 per acre for an additional farm, to the manufacturer who doubled the capacity of his output.

The difference between government and business appears in what followed. Prices dropped, incomes dropped, and markets shrank. Business wrote itself down accordingly. But government did not. It is spending, up to this year, more money than it did in 1929. It has greater indebtedness. The new administration that went in last March has already cut expenditures, and has plans to further cut them.

## A BROADER WORLD VIEW NEEDED

In an editorial discussing a magazine article by ex-Secretary of State Henry L. Stimson, the New York Times says: "All told, Mr. Stimson's article is a reasoned and convincing plea for abandonment by the United States of the spirit of extreme nationalism and self-sufficiency which for a time marked its foreign policy after the end of the Wilson administration. That was a time of bitter animosities, both personal and political, which unfortunately too long swayed or directed our public conduct. From that period we have been slowly emerging."

Under the new administration, with Secretary Hull succeeding Stimson, the broader view of world relationship, if anything, is more pronounced. The conferences being held in Washington this week between the President and representatives of foreign nations aims at tearing down many of the barriers that have so long hampered world trade.

Those who have profitable business relations tend to be friends, not enemies.

In a world which has fast transportation and instant communication have destroyed distance, a policy of isolation means eventual suicide to any country—and vast distress in the meantime. The world needs franker and better relations between its powers—and it vitally needs encouragement of foreign trade. Of course our leaders must always look to the interest of our people in any new trade agreements entered into.

## WHAT'S WRONG WITH TEXAS?

Nothing's wrong with Texas, EXCEPT—

Entirely too many of us get up in the morning at the alarm of a Connecticut clock, button a pair of Ohio suspenders to a pair of Chicago pants, put on a pair of Massachusetts shoes, wash in a Pittsburgh tin pan, using Cincinnati soap, and a cotton towel made in New Hampshire; Sit down to a Grand Rapids table, eat pancakes made from Minneapolis flour spread with Vermont maple syrup, and Kansas bacon fried on a St. Louis stove; buy fruit put up in California, seasoned with Rhode Island spices, and sweetened with Colorado river sugar; put on a hat made in Philadelphia, hitch a Detroit 'mule' fed on Oklahoma gasoline to an Ohio plow and work all day on a Texas farm coped with a New England mortgage; send our money to Ohio for tires, wondering why taxes are \$2.75 per acre while Ohio farmer pay \$1.00 tax and drive on paved roads. And at night we crawl under a New Jersey blanket to be kept awake by a hound, the only home product on the place, wondering all the while where in the world

all the money has gone in this wonderful state of ours. If we all would buy more home manufactured products, it would help to give more employment and we could keep our money at home and be prosperous.—Selected.

## TEXAS LEGISLATIVE FACTS

By Texas Press Legislative Bureau

Austin.—The Legislature is now in the fourth month of its regular session. Under the constitution the \$10 per day compensation lasts 120 days. Extension of the session beyond this period possible, but the pay of members will be reduced by half. It is not likely that the session will be prolonged much beyond May 9, when the four-months period of high pay ends, though some members believe it will last until the latter part of May. There is strong sentiment among many leaders to bring the session to a close as early as possible, due chiefly to the fact that there seems to be an almost hopeless lack of harmony on many important subjects with little prospect of composing these differences. Up to this time efforts to levy new taxes have failed, with the single exception of an income tax which has House approval. But there will be a determined effort during the closing days of the session to revive the sales tax, principally on the plea that it is necessary to keep public schools open. Laws strengthening enforcement of the cigarette tax and gross production are expected to stop leaks that caused a loss of \$5,000,000 last year. There is also a possibility that all of the cigarette tax will be diverted to the school fund. Many observers contended that stoppage of leaks and reasonable reorganization of the school system in the interest of economy make any new tax unnecessary.

The general economy program depends upon what is done within the last few weeks of the session. With a weary Legislature, anxious to finish its work and go home, some measures may win approval that earlier in the session would have had no chance of adoption. Those citizens who wish to obtain substantial reduction in their tax bill would do well to watch the proceedings closely and not hesitate to let their representatives know their wishes. A good start has been made in the direction of economy, but this can be quickly offset in a last-minute stampede. If this doesn't come it will be due to lack of effort on the part of tax consumers. They are on the job and will not quit until adjournment is taken.

The income tax bill follows many lines of the Federal income tax. As amended it exempts \$2,500 of the income of married persons and permits exemptions of \$500 for each dependent. The rate graduate from one per cent on the first \$1,000 of net income for individuals to seven per cent on incomes in excess of \$11,000. The corporate rate is from two per cent on the first \$1,000 to six per cent on incomes in excess of \$6,000. Passage by the Senate is regarded as doubtful.

The Senate has passed the four major appropriations bills. The House has passed three and is yet to act on the educational appropriations. The judiciary appropriation bill has passed both branches of the Legislature and has been signed by the Governor. The eleemosynary and department bills, are in the hands of free conference committees to adjust differences between House and Senate measures. The appropriation bills call for reductions from 25 to 35 per cent below figures of the past two years.

A bill is pending in the House raising the scholastic age from six to seven years. Its adoption would reduce the number of claimants on State school funds by about 135,000 and would result in savings to the schools estimated at upwards of \$2,000,000, depending on the amount of the State apportionment. This would be in addition to savings in local funds through the resultant decrease in school enrollment. The measure is House bill No. 243.

The constitutional amendment limiting total State expenditures to \$22.50 per capita per biennium, already approved by the Senate, has been reported favorably in the House. This is a very important measure. If approved, it would be impossible for the Legislature to continue increasing State tax expenditures. The authority of the Legislature to increase appropriations is limited only by the ability to find sources of taxation. The amendment would provide an absolute limit, where there is now virtually none.

## New Frigidaire is Attracting Much Attention

A tremendous interest by all housewives is being shown in the new Frigidaire that has so very recently been placed on the market. Mr. I. O. Scott, local agent of the Frigidaire says their interest has been whetted by the talk that flies over the rumor route of discussion whenever any large manufacturer gets ready to spring something sectionally advanced in its newness.

The new household model of the Frigidaire answers the need for a quality built, economically operating refrigerator. It will sell for the unheard of low price of \$96, plus small freight charges. We believe it will meet an enthusiastic public demand because its price and operating economy will enable many families heretofore unable to afford mechanical refrigeration to invest in such a unit now.

There have been low priced refrigerators on the market before, but none that combines low price with quality and extremely low operating cost, he stated, nor were they built by a manufacturer of the standing and with the resources of Frigidaire and General Motors.

## School News from Pearl

EDITH DYSON, Editor

Emerson says, in Self Reliance, that after you have scrambled your eggs you can't unscramble them. He means that when a thing is done, you can't undo it. So, why spend precious hours and minutes in worrying and pondering over something that is past. Forget it. But there is one thing we can avoid that of making the same mistake again. Time is too important, and there are too many duties demanding your time and efforts for you to squander time grieving and regretting the past.

Remember with the poet: "Day is at the dawning, every day is the world made new."  
The thought is this, every day is a new one; yours to begin all over, make the most of it.

### Primary News

We are progressing nicely with our program.

We enjoyed an Easter Egg hunt last Friday evening. Two of the high school girls hid the eggs for us. It took us almost an hour to find all the eggs. Every student found at least one egg. Winfred Andrew found the most and received the prize.

Three 5-25 second grade pupils are ready for reading certificates. Two pupils have already received theirs which makes five out of a class of eight.

Two of the first grade pupils are ready for certificates.

### 3rd, 4th, and 5th Grades

Several of us made the honor roll last month. The 3rd Graders were Noel Webb, Othel Dipon, Wanda Smith, Charles Bynum, Edwin Graham, and Grady Hanes. 4th were Wilburn Davis, Reba Russel, Winston Freeman, Dorothy Graham, and Merle Franks; 5th grade were Irene Davis, Dora Lee Chandler, Jack Nabors, Gladys Williams, W. G. Andrew, Wayne Ballard, and Edwin Karl.

We enjoyed our Easter Egg hunt Friday afternoon. Murel Ford received an Easter rabbit for finding the most eggs, but Winston Freeman found the prize egg. After our searching was over, we spread our lunch and sandwiches, cookies, candy, and fruit.

### 6th and 7th Grade News

The 6th and 7th grades went on an Easter egg hunt last Friday afternoon. Charles Karl won the prize for finding the largest number of eggs. We all enjoyed the picnic very much and are all waiting anxiously for next Easter to come.

In geography we are drawing maps of the Central States and the South Atlantic States.

In grade arithmetic we have been reviewing for final exams, which will soon begin.

The 6th grade turned in their poem books Monday. We have been working on these books a long time.

We are reading a new book which is on the 7th grade reading list, entitled "Jimmy Makes the Varsity," and we are enjoying it very much.

### Freshmen

The Freshman class left the school house Friday afternoon at 12:30, loaded with Easter eggs and other goodies for our Easter picnic, in company with the 6th and 7th grades.

After a long but pleasant walk to Sand Springs the girls of the Freshman class hid the eggs while the others enjoyed playground ball. While they were hunting we spread the lunch which consisted of sandwiches, deviled eggs, pickles, cookies, fruit, candy and we had lemonade and grapejuice to drink. After we had eaten our lunch the Freshman class played the 6th and 7th grades a game of playground ball, and was defeated, but we enjoyed the game and hope to play them again soon.

In English we are studying quotations and hope to get them down thoroughly. We are still enjoying literature along with our regular lessons. We are now reading "The Merchant of Venice," which is very interesting. It is the first of Shakespeare's plays we have read.

You will have to work hard, Freshmen, because you just have three more weeks to go.

### Sophomore

The sophomores had a class meeting and decided to have a party on Monday night. Our president, Tinley Perry, is suffering over having two teeth pulled Saturday, although he is still able to come to school.

The Sophomores won a victory over the Freshmen last Wednesday in basketball, starring Grady Keeton high point man with 29 points.

### The Junior News

The Juniors are very excited since it is only two weeks until time for final examinations.

We are progressing very nicely in our studies.

Arthur Sims was absent Monday. Arthur is a very industrious stu-

dent and we miss him when he is out even just one day.

The chapel program was put on by this class, but the speaker we had secured was unable to come.

### Sports

The seniors, juniors, sophomores and freshmen classes are trying to see who will win in basketball. So far the seniors have won more than any of the other teams.

We have organized three basketball teams and are anxious to see who shall be the winners.

Freshmen: I don't know.  
Sophomores: I am not prepared.  
Juniors: I do not remember.  
Seniors: I don't believe I can add anything to what has been said.

Barber: Do you want a hair cut?  
Doyle: No, I want them all cut.  
Barber: Any particular way, sir?  
Doyle: Yes, off.

### Can You Imagine—

Buster Dyson without a smile?  
Theo Whately saying something worth while?  
Tinley Perry not making a speech?  
Miss Laura here to teach?  
Doyle Preston without an injured limb?  
Nona Bell Ballard being real tall and slim?  
Mr. Tharp being out of humor in class  
Vivian Andrew not being able to pass?

Jack Elam not going to Peabody once a week?  
Laneal Ballard being quiet and meek?  
Nona Jane and Ann not being together, regardless of time, place or weather?  
Yvonne Preston standing six feet tall?  
Erma Lee Brown being slow and small?  
Mrs. Harris being able to sing?  
Miss Hargis with a wedding ring?  
Miss Winters having fiery red hair?

Dawson Preston being on a tear?  
Iris Culp not being on time?  
How in the deuce we made this rhyme?

### Jokes

Grady was being examined for admission to citizenship.  
"Have you read the constitution of the United States?" ask the judge.  
"No, sir," said Grady.  
"Have you read the constitution of this state?"  
"No, sir."  
"Have you read the Declaration of Independence?"  
"No, sir."  
"Well, what have you read?"  
"I have red hair on the back of me neck."

Mr. Tharp, (laughing at something which Miss Laura did not think was funny) I laugh when I see something funny.  
Miss Laura: You certainly must enjoy yourself when you shave.

Erma Lee was at her first baseball game and was talking to her escort about it. She said, "Oh, isn't that pitcher just grand. He hits their bats no matter how they hold them."

## The Cook's Nook

All Recipes Here Are Made in Less Than Ten Minutes.

Meat loaf in six minutes! Corn fritters in five! Even a fancy Ice Cream Bisque in ten of them. Magic, that's what it is.

But it's magic you can duplicate in your own kitchen without benefit of wand or tall silk hat. The cook in the old song who could "make a cherry pie while the cat winks her eye" need have nothing whatever on you. In fact, you can beat her at her own game with a Delight Pie of your own, and completely outdo her in everything else.

It's done with mirrors, this kitchen magic. Easy recipes, quick methods, time-saving ingredients, these are the tools of menu magic, which can make every cook a Thurston, a Houdini or a Keating. The only difference between your magic and theirs is that there is no trick to it—no cards up the sleeve, no girls behind curtains to help you. Just assemble your ingredients form the pantry shelf—a few cans of this and that, your staples, a box of the appropriate crackers, and find out how easy it all is. The use of the crackers means that all hard work is already done for you, and it is their contribution which "turns the trick" we call magic!

In the following recipes, the time necessary for preparation is given at the beginning of each recipe. In some cases, extra time is needed for the actual baking or cooking, but this is the stove's time, not your valuable minutes.

**Don't Lose Your Grip, Young Fellow**

No matter what the passing "business conditions" may be, there's one fact that we can't get around, and that is that America is a great business nation—always was and always will be.

Other nations are famous for other things—Switzerland for scenery and tourists, Norway and Sweden

for fish, South Africa for mines and cattle. Of course America has all of these, but America's great central activity and Young America's great opportunity is—business.

Today's unusual business conditions are rapidly passing. The world of business will move forward. Every day thousands of young people are drafted into the great business system, taking modest positions at first perhaps but rising as swiftly as their talents permit.

Any young man or woman who says, "There's no chance in business today," is worse than foolish. Such weak-kneed ones are whipped before they start.

There is probably more opportunity today than at any time in the past three years.

Some young people, when they finish high school or grade school, are going to loaf around and talk about hard times.

Others are going to write to some good, well-managed school—we have in mind Tyler Commercial College and School of Business Administration at Tyler, Texas—get a catalog and begin planning a career. We recommend that T. C. C. catalog—it's a beauty.

Some are going up to business success; others are going down. Every boy and girl must determine his course for himself.

**How Hard Work Means Nothing**

(The Branding Iron)  
 Here's how hard work means nothing to her:

She just keeps on digging worms regardless of what the business prognosticators say about the outlook for this, or any other year.

If the ground is hard she scratches harder.

If it's dry, she digs deeper.

If it's wet, she digs where it's dry.

If she strikes rock, she digs around it.

But always she digs up worms and turns them into hardshelled profits. Did you ever see a pessimistic hen? Did you ever hear of one starving to death waiting for worms to dig themselves to the surface?

Did you ever hear one cackle because work was hard?

Not on your life. Hens save their breath for digging and cackle when they have produced. Success means digging. Are you a digger?

**OFFICERS FIND MONEY ON TRUCK DRIVER WHO CLAIMS WAS ROBBED**

Fort Worth.—An acquired suspicion of human nature on the part of Chief of Detectives Tom Jackson recently resulted in the imprisonment of a truck driver in Amarillo after he had told officers there he had been robbed, kidnaped and thrown from an automobile near the Panhandle city.

The truck driver, according to A. P. Pennington, Hillsboro, (Parky Pennington who formerly lived at Gatesville, and a brother to Roy Pennington,) employer of the man, had hauled a truck load of sugar from Houston to Larry Spain, Fort Worth public market manager, and had collected \$300 for the load.

On being informed by Amarillo policeman that the man complained of having been robbed of \$300 by bandits, Chief Jackson advised that the driver be thoroughly searched before any attempt be made to capture the highwaymen. The search revealed a sum approximating \$300 on the driver's person and he was placed in jail, according to information reaching Chief Jackson.

Many schools of the county and State have turn for San Jacinto Day today, April 21.
