LOOKING AHEAD
BY GEORGE S. BENSON
President—Hunting College
Searcy, Arkansas

Employment First

People who work in the fields, in mills, mines and shops, on railroads and in industry generally, are to be congratulated upon President Truman's choice of Fred M. Vinson, the new Secretary of the Treasury of the United States. His undertaking is enormous, delicate and vital. But it is my belief that nobody else in government is quite as well qualified to handle the job as Vinson.

The new cabinet member knows taxes. Things he has said already prove that he is keenly aware of two things that are currently the most important facts about taxes. (1) High taxes are necessary, now and for some time to come. (2) Wrongly devised taxes in the United States can wreck the financial structure of the entire world in a few months. Dark Ages might visit the earth again.

A Dependable Thing

The "yankee dollar" is one of few known quantities left in the financial world. While this condition lasts, there is a way for weak and depleted countries to gain industrial and then financial strength. The dollar will remain good so long as Uncle Sam keeps meeting his obligations promptly, fulfilling promises and paying the interest on his stupendous national debt.

Our debt is so big and America's moral obligations are so exacting that taxes must be high after the war, much higher than they have ever been in peaceful years before. Government has no way to get money except by taxing its citizens. Consequently the citizens have to be prosperous. There must be full employment, plenty of jobs at good wages—otherwise not enough taxes.

Holding our Ground

The world is relying on the solvency of America, on the soundness of the dollar, and it all depends on jobs. Mr. Vinson said: "Taxes should be levied in such a way that they have the least harmful effect on the expansion of business investment and the creation of jobs because productive employment is the source of . . . revenue which the government collects from taxes."

The Secretary's eye was not on taxes alone. In a recently published report he made it clear that productive employment is the foundation of America's living standard (highest in the world), the source of all income and the basis of prosperity for business and agriculture. We may be assured that Vinson will always do his best to prevent ruination of jobs by taxing business to a standstill.

A Rational Economy

Here is a powerful and rational sentence from Vinson's pen: "The sooner uncertainties in the post-war tax structure are removed, the sooner business management will be inclined to make firm commitments for expansion and the faster men can be put back to work following the wholesale cancellation of contracts that will occur with the unconditional surrender of Japan."

Persons who would like to see America in chaos, people who would like to see a dictator climb to power over America's wasted estates, may call the new Treasury head a friend of big business. He apparently is, to whatever extent such a friendship means jobs for workers, prosperity on the farm, customers in the store and food on the table for America's plain people.

SPORT SCRAPS

By JONES

"Back in the Saddle, again" It's true, but we haven't mounted just yet. The season's a pup, and we're just getting the bridle on. And so the horse is on us.

That's all beside the point, and the point is the GHS Hornets swing into action Friday of this week, with what's liable to be a heck of a lot of action when they meet Killen's Kangaroos, which is plenty for any man's ball club at this early season.

Don't suppose Coach Mitchell himself even knows what the starting line-up'll be, but our guess is it'll include 4 lettermen, Tatum, Ashby, Necessary and Tomblin (I think), and then, there'll be some other boys that were on the squad last year, and they were good ones, but just had better ones playing on the team last year.

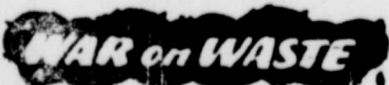

We'll do our best to have a line-up (Mitchell willing) and then we'll give you play by play in Tuesday's newspaper as usual.

The SWC doesn't open until the 23rd, and all are back in the running, and it'll look good to us. Nearly all have a mass of Material, most of it untried, but ere November, they'll be going strong.

And, your and our friend, Humble Oil & Refining Company is carrying on with their broadcast of each week-end, and around town you can get one of those "pocket-book schedules for the entire season. Wonder why Roy Pennington doesn't bring us some to pass out? We'd be glad to.

Besides the full SWC, Humble will also have intersectional games. Durnit, we sold our radio, and can't get'em here like we used to, but, maybe by the time the "and six months" is over, we'll get a television set, and you can see'em here. That's really "wishful thinking", Utopian, we'd call it.

Well we'll be seeing you Friday night!

HUMBLE BROADCASTS S.W. CONFERENCE GAMES THIS FALL

Humble Oil and Refining Company announced today that it will again broadcast Southwest Conference football games this fall. This will be the eleventh consecutive year that these games have been broadcast under Humble's sponsorship.

Humble will bring listeners all Conference games and many other important intersectional games in which conference teams play. A full schedule of interesting games has been arranged, and, with many service men back in college uniforms for the first time since Pearl Harbor, the 1945 season promises fans the best football they've enjoyed for years.

Back at the mike will be these old favorites, veterans of many Humble broadcasts, Kern Tips, Ves Box, Charlie Jordan, Bill Michaels, Dave Russell and others. These top Texas sports announcers will give accurate and colorful play-by-play accounts of each game, as well as bring listeners to interesting highlights that add so much to the enjoyment of the game.

Following its past custom, the Humble Company is also distributing pocket-sized schedules which are now available at all Humble stations. These schedules show all games in which Conference teams participate, and indicate which games will be played at night.

Further announcement of the stations carrying each game, times of broadcasts and announcers will be carried each week in the newspapers as well as posted in Humble stations.

The home of the bride's parents, Mr. and Mrs. Pat Jackson, Rt. 3, Gatesville, was the scene of the wedding that united in marriage Miss Doris Jackson and Cpl. Alvin Fleming, at 8 o'clock, August 31. The bride wore a Hannah Troy original suit of blue woolen trimmed with Kolinsky and black accessories. Her corsage was of white gardenias and carnations.

The maid of honor, Mrs. Gladys Britain, sister of the bride, wore navy blue with black accessories and a shoulder corsage of pink roses. David McBroom, a close friend of the groom attended as best man.

At the reception which followed the ceremony, Mrs. Jackson, mother of the bride, presided at the punch bowl and the three tiered wedding cake was cut by the bride and groom.

Mrs. Fleming is a graduate of Gatesville high school and is employed in the tax-assessor collector's office in Gatesville.

Students who helped carve out the Stilwell road from Ledo to Kunming, China; who helped lay down the parallel pipe line and telephone line, and who fought against the japs in the jungles of

Burma are in the school.

Army Answers**
Your Personal
War Problems

Your questions on allotments, matters as they relate to Army personnel and their dependents will be answered in this column or by letter. Write Headquarters insurance, legal problems or other Eighth Service Command, Dallas 2, Texas.

Q. How do pension rates for peace-time disabilities compare with those paid for war time disabilities?

A. Usually pensions paid off for disabilities incurred in peace-time service are 75 per cent of those paid for similiar disabilities incurred in war time service. However, war-time rates will be paid for disabilities resulting while engaged in extra hazardous service or service under conditions simulating war.

Q. Will the proceeds of a National Service Life Insurance policy that has been converted to a permanent policy be paid to the beneficiary in a lump sum?

A. Under the law there is no provision for lump sum payments of any national Service Life Insurance policy.

Q. Will a veteran who had ninety days service but who served half of his time prior to September 16, 1940, be eligible for education under the G. I. Bill?

A. Yes if the veteran had ninety days or more fo service and any part of it was after September 16, 1940, he is eligible for this benefit. The length of time he may receive schooling depends on the period of service on or before Sept. 16, 1940.

Q. Will the pension of a dependent parent cease by reason of remarriage?

A. The fact of remarriage does not operate to terminate such pension provided that dependency exists notwithstanding such remarriage. A new determination of dependency is required and if the remarried parent is found to be no longer dependent, payments will be discontinued.

Q. Must premiums on National Service Life Insurance policies contain a provision for the waiver of payment of premiums during a period of total disability which continues for six or more continuous months, provided such disability commences subsequent to the date of application for insurance while insurance was in force under premium paying conditions and prior to the attainment of age 60 by the insured.

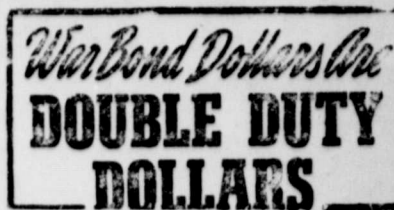

Q. Can a veteran making application know how much his pension will be when he applies?

A. No a rating board must determine from the evidence if a disability exists, if it is service incurred and to what extent it is disabling. Until such determinations have been made by the rating board no one can foretell whether a pension will be awarded or know how much it will be.

Q. If a veteran goes AWOL from a veterans Administration Hospital or leaves it against medical advice, will he be barred from readmission to the hospital?

A. He will be barred from readmission for a period of three months for the first infraction and six months for two or more infractions. However in case of medi-

cal emergency he may be hospitalized notwithstanding the uncleared infractions of discipline, but will be discharged on termination of the emergency.

"Dear News Editor: I wish to thank you for the publicity you gave my adv. in your paper on Friday, Aug. 10, 1945 by putting it on the front page. I was surprised to see it on the front page when I received my paper today (August 30). It takes my paper around 20 days to reach me, but I get lots of news from it that my parents fail to write me and I am happy to see that as many of the Coryell County boys are on the discharge list as there was in the paper and there'll be another happy day when I return to Levita. GETS BRONZE STAR MEDAL

Capt. John M. Antonich, of Gatesville, Corps of Engineers, Engr. Combat Bn., was awarded the Bronze Star Medal for meritorious service in connection with military operations against an enemy of the U. S. A. from 8 Nov. to 31 December '44. During which period, Capt. Antonich, Battalion supply officer and division engineer supply officer, performed his duties in an outstanding manner. Despite adverse climatic conditions and the necessity of opera-

ting over poor road nets, he displayed superior skill and ability in directing and maintaining an uninterrupted flow of supplies and equipment to the units of the battalion. His forethought and initiative in building up reserves of critical division engineer supplies made possible rapid replacement service of engineer equipment for

Division units throughout the offensive. His untiring efforts aided immeasurably in the accomplishment by the division of its combat missions. His leadership ability and superior judgment in handling of complex supply problems reflect the highest credit upon Capt. Antonich.

THE Army Answers

Your questions on allotments, matters as they relate to Army personnel and their dependents will be answered in this column or by letter. Write Headquarters Insurance, legal problems or other Eighth Service Command, Dallas 2, Texas.

Q. May a veteran at school under the provisions of the G. I. Bill and at the same time secure a guaranty on a loan to buy a home?

A. There is nothing in the law to prevent a veteran from participation in the benefits of both of these provisions of the servicemen's Re-adjustment Act.

Q. May the widow of a Spanish-American or a World War I veteran receive pension if she has remarried and the second marriage had been dissolved by divorce or death?

A. The widow of a Spanish-American veteran who has remarried and has subsequently had the second marriage dissolved may receive a pension by making a new application. The widow of a World War I veteran may not receive a pension under such circumstances.

Q. Is there any time limit in which a dependent parent must make application for death compensation based on the death of a son in service during war time?

A. There is no limitation as to when application for this benefit shall be made. The only requirement is that the parent be dependent as defined at the time of application.

Dear GI & GILL:

Newspapers, radio, etc., say we'll be buying this and that hand over fist, and lots of it in a couple of months or so, but if you want to know the facts, ask your merchant. He's been to the wholesale markets, or written them, and as far as ourselves, we've written about six Texas wholesalers for school supplies, and 5 of the six won't even sell us, and it's not bad credit either. One item we ordered from two houses a gross of \$1 fountain pens, and so far, have none. The "duration" was bad (of course for the soldier) and in a business way, but this "and six months" is going to be no house-party.

Just as well to make up your mind to make a lot of things you have now last a long while, and with present high labor costs, be ready to pay, OPA willing, approximately 25 per cent higher for what you buy. And, if the OPA isn't willing, you'll probably have to wait just that much longer to get what you want. Manufacturers, paying higher labor costs are not going to put out many things at 1942 levels with labor at 1945 prices. It, you might say, "isn't being done this season". So, be prepared to wait, and make what you've

got last. You'd better. At least, that's the way we understand it, right now.

Boys, wish you were home now. Football is starting, in fact, for Gatesville, we're afraid it's going to start with too much of a bang when we go up against those Kangaroos of Killeens, if that's what they call them. Because Killeen had an awful good football boys last year and the sob story just this minute is we meet 'em Friday nite and they say they've got all of their lettermen back, to our four, and they really poured it on us the last time we played them here (and we do hope you'd forgotten that). Anyway the best season of the year is on, and we'll have another evening added to our already scarce evenings.

Boys out, this year, include: Milner, Patterson, Franks, Chamlee, Crawford, Deavers, Tatum, Ashby, Davis, Flentge, Gilbreath, Bone Anderson, Gilmer Johnson, Freddie, Featherston, Dyingner, Sawyer, Pennington, McDonald, Necessary, Tomblin and Bell. Weaver, John Miller Stinnett and Ward are managers. There are some others, who have come out since we've "checked with Coach Mitchell", but we haven't their names as yet.

Ind. was recently awarded the Good Conduct Medal at the 1st Base Air Depot Warrington Eng.

Ray Painter, son of Mr. and Mrs. Arthur Painter has re-entered Baylor University and will be in training for the Baylor Varsity football team.

Mr. and Mrs. Ben Waller and daughter of Pt. Arthur have been visiting relatives and friends here, including Mr. and Mrs. Charlie Liljebled.

Sgt. Dan H. Hollingsworth, son of Mrs. W. W. Hollingsworth, arrived by plane in Washington, D. C., from Casablanca, Aug. 26. He is now stationed temporarily in California after 2 years in North Africa, he expects to be home on furlough soon.

It's our privilege!

The Southwestern Conference this year, with the Baylor Bears back in the race, and from the dope, they've got some good material, but will probably end up about midway, as they've very little experience, and it takes smart football clubs to win in the none better than SWC.

Boys are continuing to come home everyday, and with the points going down like the thermometer in cold weather, by Christmas, there are going to be an awful lot of them around, and that'll be awful good.

Somebody's going to catch the "occupation" and if we were a little younger, we think we'd like it. They say they're going to dress 'em up pretty, pay them a lot more, and make it nice and comfortable. That'd be right down our alley, if we were single, and plenty nearer 20.

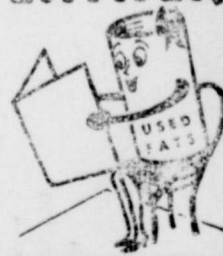

Seems funny. Nearly the entire summer passed and only one boy, may be two (we mean young boys) asked for a job. Usually, or at least when we were that young, we were always looking for a job, and once, had to kick out a window in the school building and "work it out", to get a position as janitor's assistant, rather broom and coal scuttle hus-

ers and we lay it on those tler. Got pretty wide should-coal scuttles. Four of them in the high school auditorium for each of the two big stoves was no pushover along about 5:30 to 8 o'clock every morning in winter, and then two more in each of the 2nd and downstairs rooms where they had stoves with jackets then. The coal bunker was where the gym is now, (about the middle of the gym) and the hill was slick with red clay and gravel, lots of mornings, and skidding was the order of the day.

What we did see last Monday (not yesterday) was about 30 people trying to hire out with the Social Security Board, and any one of them (qualified) could have gotten a job in Gatesville, but probably not at war plant wages. Times do change things.
