WEST COAST FLORIDA BOARDS UP

PENSACOLA, Florida, Sept. 18. (AP)—Frightened residents boarded up homes and business buildings along Florida's West Coast before an advancing hurricane and Gov. Millard Caldwell's office announced President Truman had declared a "state of emergency in Florida". The announcement came a few hours after the Weather Bureau disclosed the tropical storm had curved sharply after inflicting multi-million dollar damage upon Southern Florida and was headed back toward the mainland from the Gulf of Mexico.

Peanut Questionnaire Mailed Growers by ACA

This week the County ACA office mailed out letters to all probable peanut producers in the county asking them to call at the office to fill out a questionnaire giving the acreage of peanuts picked and threshed during the years 1944, 1945, 1946 and 1947, according to Frank Blair chairman of the Coryell County ACA Committee. Mr. Blair states that the ACA office has been advised that it will be necessary to establish 1948 peanut acreage allotments for all farms in the state on which at least 1.1 acres of peanuts were picked and threshed in any one of the years 1944-47, as well as for certain other farms.

It is very important that every farmer that has produced peanuts during these 4 years contact the ACA office before October 1st to sign this questionnaire. These questionnaires will be used as a basis for setting up acreage allotments on peanuts for 1948, and to determine a farmers eligibility to vote in the coming peanut marketing quota referendum. A peanut marketing quota referendum will be held early in December, at which time eligible farmers will vote as to whether or not they favor marketing quotas and penalty provisions on excess acreages for the 1948-49-50 crops of peanuts. If two-thirds of the peanut farmers voting in the referendum favor marketing quotas the support price or the 1948 crop will be 90% of parity up to December 31, 1948. Blair said that every eligible peanut farmer would be notified more in detail on what they would be voting on before the referendum is held, but stressed that every person who raises peanuts should contact the ACA office before October 1, 1947, and fill out a questionnaire.

FAST PLOWING

Plowing 100 acres an hour is a simple task for the hands on the Gene Cluck farm near Gruver, Texas. Four tractors can be seen pulling 12 fifteen foot Krause

plows which can plow 2400 acres in a day and night. The planes in the background are service planes from the factory which fly to the fields and repair any breakdowns to the plows. This system of plowing and repairing directly in the field is aiding farmers in getting their days work done quicker. (AP Photo.)

Come On, Texas!

When action aboard the Battleship Texas reached battle heat, her crew members used to shout, "Come on, Texas!" . . . which meant: "Let's get in there and fight!" After 35 years of service, through two world wars, she won't fight any more. The Navy has put her on the retired list, and, unless the State of Texas takes action, she goes to the scrap heap. But she won't go to the junk pile, if thousands of Texans can help it. They are already contributing to a \$225,000 goal needed to bring the old battlewagon to the San Jacinto Battlegrounds, below Houston.

She is seen above, steaming out to open sea, as she was in her glory as a capital ship of the U. S. fleet. To bring her home to Texas, Lloyd Gregory, chairman of the Battleship Texas Commission, urges every Texan to join the fund-raising campaign which began September 15.

All contributions are to be sent to Mr. Allan H. King, Battleship Texas Fund, National Bank, Houston 1, Texas.

Eddie Newton, formerly owner of the City Drug Store, has accepted a position with Behren Drug Company, Waco, and he and Mrs. Newton will make their home in Greenville, as he will travel out of that town, and in that territory.

NAGGING BACKACHE

May Warn of Disordered Kidney Action. Don't Neglect It!

Modern life with its ceaseless hurry eating and drinking, exposure, contagion, who's not, keeps doctors busy, hospitals crowded. The after effects are disturbing to the kidneys and oftentimes people suffer without knowing that disordered kidney action may cause the trouble.

After colds, fever and similar ills there is an increase of body impurities the kidneys must filter from the blood. If the kidneys are overtaxed and fail to remove excess acid and other harmful waste, there is poisoning of the whole system.

Symptoms of disturbed kidney function may be nagging backache, persistent headache, dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of strength and energy. Other signs of kidney or bladder disturbance sometimes are burning, scanty or too frequent urination.

In such cases it is better to rely on a medicine that has won world-wide approval than on something less favorably known. Use Doan's Pills. They have been winning new friends for more than forty years. Be sure to get Doan's. Sold at all drug stores.

THE REASON DOAN'S ARE FAMOUS
All over the country grateful people tell others: "Doan's have helped me; I recommend them to you."

LOOKING AHEAD by GEORGE S. BENSON President-Harding College Searcy, Arkansas

It Has Happened There

Most of us thought it would never happen. But it has. According to the Associated Press, the House of Commons on August 8 approved a bill giving the British government authority to tell its people where they must work and what they must do. This means that the government may order men and women to do whatever job it pleases: coal mining, farming, fishing, anything. Moreover, it means the government may choose the place where any man or woman must work.

This is a drastic step. Why is individual freedom thus destroyed by a country with such a long record of high devotion to the individual citizen and to freedom? The answer is simple. Two years ago a socialistic government embarked upon a campaign for government management of leading industries in England. Things were in such a bad way, because of weakness from war, that the people permitted this.

Crisis Upon Crisis The socialistic government relied upon nationwide sympathy and cooperation. However, this lasted only a few weeks. Then as absenteeism set in and productivity lagged, the whole system bogged down. The crisis came last winter, when a terrible coal famine came to that country with plenty of coal under ground. Under socialism crisis thrives on crisis, and there were more to come. In these crises, it is easy for men to accept disaster, if they think it will prevent more disaster.

This is what has happened. In an apparent final resort to keep government management of industry from becoming a complete failure, the British are taking this more drastic step. Yes, in peace-time one of the greatest liberty-loving countries in the history of the world has given its government authority to draft labor, and to tell each man and woman where to work and what to do.

Let's Have Freedom Despite their great love of liberty, the British people have now found that loss of individual freedom follows adoption of a government managed economy, just as night follows day. It leads to this every time. It is sad to see this great country, like others that have accepted the blandishments of socialism, willingly give up the freedoms for which her people have shed blood through the centuries.

A considerable number of our people are evidently inspired by foreign ideologies, and some are asking for government control of American industry. This step England is now taking is a real warning to all American workers that with government management of industry there must surely come government dictation to workers. The workers, in the face of constant crisis, are told where to work and what to do.

Seeing that these things point in every direction toward a totalitarian government, our people should make up their minds now that we do not want government managed economy. What is happening in liberty loving England is proof that such dictation cannot be avoided once government management is adopted. Let us determine now that such a blight shall not fall upon the freedom loving land of America.

Telephone companies the country over share many problems—one of them is the record number of dally long distance calls now being made. Along with this is the fact that most companies are operating with limited long distance facilities. This naturally slows long distance service sometimes, especially during peak hours. So, if you have a short wait occasionally, it simply means that lines are busy here, or along the route to the city you are calling.

It's Your Money, But ----!

As Suggested by Gatesville C. of C.

Oh, sure, it might happen to the other fellow—he might be "slickered", but not us. Whenever we read or hear of someone being "taken" in some kind of scheme, we are inclined to ask, "How could anyone be silly enough to fall for that? They surely would not get me to bite on it."

BUT SOMEONE DID!

Here are reports received of some of the rackets in your own territory:

Mrs. X's daughters had ordered some wearing apparel five months ago from a house-to-house salesman, paying a deposit down but articles were never delivered and the salesman refused to refund the deposit.

Mrs. B, likewise, ordered some shirts six months ago, paying \$4 down. Since then she has not

seen either the \$4, the shirts, or the salesman.

Mrs. L. gave a photograph of her child to a solicitor who agreed to make a large colored portrait of the picture at a very nominal fee. Later Mrs. L. was told that she must buy from the company an expensive frame. She advised the company she did not want to do this and asked them to return her picture. As far as we know she is still waiting for it.

Mr. and Mrs. Z (and a lot of their neighbors) ordered certain magazines from a house-to-house salesman, paying a deposit down. The magazines never came.

Mr. S. received through the mail some neckties, supposed to be made by blind persons. Wanting to help, he kept the ties and sent in his six dollars. Investigation showed the blind got one dollar, the promoter five.

Mr. M. being a friend of the schools, ordered 50 copies of a

patriotic booklet to be sent to the schools. He paid 25c each for them. Mr. B ordered 40 copies of the same booklet but they cost him only 5c each. The schools never received any of them to date.

All of these articles could have been purchased at fair prices right here in Gatesville and the person selling them to you would have been here the next day, the next week, and the next year, in case the merchandise was unsatisfactory, adjustments would have been made.

Investigate Before You Invest!

Bill Brazzil, formerly with The Walnut Springs Hustler, and a former resident of Flat was a visitor at the News office Wednesday. Bill is planning to accept a job with The Liberty Vindicator, at Liberty, in southeast Texas.

THIRD SUNDAY PLAY STARTS 2 P. M.: 2nd GAME FOLLOWS

Coryell City and Evant cross bats in the first of the third Sunday meeting of the Coryell County Baseball League Tournament, in which an award by the Pittsburgh Pirate Baseball Club will be at stake, and the name of the Tournament Winner to be engraved on the hoary old Coryell County Baseball League Tournament Cup.

Evant, with one loss, and Coryell City with one also, will be playing for "survival" in the tournament, now that Turnersville has emerged a two-time winner. Turnersville has beaten both clubs.

The "follow-up" or second game of the afternoon will be a "return match" between Turnersville and Crawford, who've already met this season, but Turnersville wanted another game, and got it. This will be a breather for Turnersville, since it will be just "another ball game."

The gate, split between Evant, Coryell City and Turnersville is looking up. In Mr. Sadler's Guaranty there's something over \$200 which, with a few expenses out, will be divided as originally decided between the three clubs to outfit them for next year's Coryell County Baseball Tournament, which, with a little hustle here, will be played under lights, instead of on the Sundays.

Team following, so far, has been swell, and the fans back of each club have been on hand, but the OPA or somebody must have stopped Gatesville folks, and their absence at the games is very, very noticeable.

Now, this can be improved on Sunday afternoon—you can still take that nap, go to that movie, read awhile, and still come on down (dressed like you want) and see a ball game, and a lot of your good friends from the rural sections.

That's beside the point, and the point is, that there was one jam up baseball game, decided in the last half of the ninth last Sunday, and it's just likely to be like this this'n.

Hornets Disin (?) Tonight, Ducks: How It'll Be, Is Another Big (!): Forecast, Tough

NINE LETTERMEN FACE HORNETS TONIGHT: DUCKS ARE NEVER EASY

In the second of a series of probably a dozen games, Gatesville High School Hornets tonight at 8, swing into action against a tried and true rival, the vaunted Taylor Ducks.

Never are they "buck soup" for anyone, but remembering the 1946 season, at which time, the locals handed them their worst defeat in modern history, it's a very safe bet that it's going to be a riled up Duck that takes to the gridiron Friday evening.

Franklin, with a team with an

early season reputation of the premier club of the "a's" in this section, handled them roughly on 33-13 count for Taylor's opener last week end, and smarting with that, and the vivid memory of last year's debacle in Taylor, it'll be a sudden surprise to us, if these Ducks don't act like game roosters instead of placid ducklings.

Friday evening will tell. And, Coach Lloyd Mitchell, always equal to an occasion—at least from his end of the business—has been routing the boys this week on how to trump the ace this week end, and, now, it's in their hands. Furthermore,
