Stock Show On Tap This Weekend

Record Entry Is Expected

A record number of animals—around 280—are expected to be entered in the 16th annual Farmer County Junior Livestock Show this weekend in Friona.

The expected entry list is a good increase over last year's total. Increases are forecast for each of the show's three divisions, with 160 barrows entered, 70 steers and 50 sheep. FFA youngsters and 4-H Club members from the county's four schools—Bovina, Farwell, Friona and Lazbuddie will participate in the show.

First order of business on Thursday is the weighing in of barrows and sheep, which will be done between the hours of 2 p.m. and 6 p.m.

Lazbuddie showmen will attempt to add to their consecutive win streak in the show, which has seen their entrant win the barrow show's grand champion trophy for eleven consecutive years and 14 years in the last 18.

Friona holds the edge in champions in the steer division, although entrants from Farwell have claimed the title three of the last four years.

Barrows and sheep will be judged on Friday, with the steer show on Saturday morning. The annual sale of all the top animals at 1 p.m. Saturday.

Judging of barrows will begin at 8 a.m. Friday, and continue until the show's grand champion is named. Sheep judging is slated to get underway at 1:30 p.m. Friday.

Judging the barrows and sheep will be Jerry Stockton, vocational agriculture instructor at Frenship High School. Steers will be judged beginning at 9 a.m. Saturday. Judging the steers will be Justin McBride, Deaf Smith County Agent, Hereford.

The sale annually ranks among much larger shows for its total, grossing more than \$40,000 for the past few years.

Dwain Menefee and Larry (Butch) Fairchild of Friona are co-chairmen of the show. Redge Priest of Friona is superintendent of the steer show, assisted by Calvin Miesner, Farwell, and Phillip Weatherly, Friona, and Darrell Mason, Lazbuddie, and Johnny Miller, Friona, are in charge of the sheep show, and Joe Tarter, Lazbuddie, is chairman of the barrow show.

Trophies and rosettes will be awarded to the top animals, courtesy of Farmer County Farm Bureau. Showmanship awards, sponsored by the Friona Star, will be given to a winner in each of the show's three divisions.

The show is co-sponsored by the Friona Young Farmers and the Farmer County Junior Livestock Show Association.

DRAWS A CROWD... Diane Day of the Friona Squaws (in white) drew a crowd wherever she went on the basketball court Tuesday night at Plainview. She is being covered up here by Patsy Gamble (11) and Sue Aiken (23). Elnora Moore (13) of the Tigerettes is seen in the background. Miss Day was held to a season low of nine points, as the Squaws fell, 37-30 in the bi-district contest.

MEET SLATED

Water, Inc., Still Needs Members

Parmer County members of Water, Inc. are urged to attend the organization's fifth annual meeting this weekend in Plainview, where Congressman George Mahon will be the principal speaker.

Local members of Water, Inc. are still being sought, since Parmer County lost its single-county district status in the organization by falling below 100 paid-up members.

"I believe we are within 15 paid members of meeting the membership requirements for a single-county district," stated a spokesman for the county unit this week. He said that the recent countywide meeting in Bovina had been disappointing as far as producing new members, or renewal dues from former members.

Because the county fell below the 100-member minimum, Parmer has been paired with two other counties, Bailey and Lamb, to form a new district.

The upcoming weekend could well be called "Water Week-end" for West Texas and Eastern New Mexico.

Activities get underway on Friday with a Texas House of Representatives Natural Resources Committee hearing, and will be climaxed with the membership meeting the following day.

Rep. John Allen, Longview, chairman of the 11-member interim committee, called the hearing at Plainview to coincide with the Water, Inc., meeting. He will be a featured speaker at the membership affair.

The hearing is slated for 2 p.m., Feb. 18 at the Plainview Holiday Inn. The published agenda calls for testimony on effective ground water management, pollution control, benefits and delays of water development projects and water price, use and priority.

Members of the committee are Allen, George Baker, Fort Stockton; Phil Cates, Lefors; Bill Clayton, Springlake; Joe Hawn, Dallas; Lynn Nabers, Brownwood; Walt Parker, Denton; Bryan Poff Jr., Amarillo; Bill Prensall, Bryan; Paul Silber, San Antonio, and Lindon Williams, Houston.

More than 300 persons are expected to be on hand Saturday, Feb. 19, when the Water, Inc., membership meeting is called to order at the Plainview National Guard Armory. The meet gets underway with registration beginning at 8 a.m. and concludes with a board of

directors meeting about 3:30 p.m.

A highlight of the daylong session comes at the luncheon when the expected speaker will be the Hon. George H. Mahon. The congressman is chairman of the House Appropriations Committee and has been a longtime supporter of studies seeking to find a supplemental water supply for the area.

Keynoting the Saturday meeting will be Don Maughan, director, United States Water Resources Council. He will discuss "New Criteria in Assessing Water Resource Projects and the Effect." Other featured speakers include Col. Floyd Henk, district engineer, Fort Worth District, Army Corps of Engineers; Norman Flaigg, area planning officer, Bureau of Reclamation; and Harry Burleigh, executive director, Texas Water Development Board. Emcee will be State Rep. Ralph Wayne.

Members of the board of directors, their wives and members of the Natural Resources Committee will be guests of the Plainview hosts at a reception-dinner Friday night at the Holiday Inn. Directors have slated a meeting Friday afternoon, then will meet again immediately following the membership meeting on Saturday to elect officers for the coming year.

President Gaston Wells has issued a special invitation to all 2,500 Water, Inc., members to attend the annual meeting. "This year, members will have an opportunity to hear one of the best arrays of speakers ever assembled at a water meeting," Wells said.

Plainview PCA Leads State

Plainview Production Credit Association, with loans totalling more than \$160 million in 1971, ranked first among Texas' 34 PCAs in amount of money loaned, according to James A. Rogers, the association's manager. This amount, he said, represented loans to 1,126 stockholders.

Loan volume for 1971 is up almost \$6 million or approximately 4 percent over the same period a year ago, Rogers reported.

Statewide, PCAs loaned a total of \$942 million to 15,873 stockholders, the manager stated.

BI-DISTRICT

Slaton Overcomes Cold Squaws, 37-30

It was a long, foggy trip back to Friona from Plainview Tuesday night for the Friona Squaws and their fans.

To the victors belong the spoils—Slaton probably had clear sailing going home to the south.

While the temperature outside hovered around the freezing point, it was even colder at times inside the gymnasium for the Squaws, who dropped a 37-30 bi-district game to the Slaton Tigerettes, to wind up their 1971-72 season on a sour note.

It was the second year in a row that the Squaws lost to a Slaton team at this point, being

knocked out of the regional playoffs.

If the Squaws could have hit on their free throws, they could have won the game, as the team outscored Slaton from the field, 20-16. However, Friona hit only 10 of 21 free throws, while Slaton connected on 21 of 32.

Diane Day, double-teamed most of the game, and given a hard time by Elnora Moore of the Tigerettes, had only nine points to show for the game—one of the lowest scoring totals she had in three seasons as a starter.

Miss Day missed six free throws in the vital fourth quarter, in-

cluding four one-and-ones, ending with three for ten both at the line and from the floor.

Sharon Smith had a hot hand in the first half, and her shooting carried the Squaws to a 19-14 lead at the half, when it appeared that surely the team was about to rid itself of the "early-game jitters."

Both teams were nervous at the outset, throwing away passes and missing easy shots. Slaton took a 4-0 lead, and Friona wasn't on the scoreboard until 4:30 was left on the clock, when Miss Day hit a free throw to make the score 4-1.

Miss Smith ripped the nets from 20 feet out, and Miss Day connected on two jump shots as the Squaws scored six points in the last 2:29 of the opening period for a 7-6 lead at the buzzer.

Squaw guards were doing a great job on Slaton's forwards in the second quarter. Miss Smith hit three jump shots, and Jill Riethmayer a set shot, as Friona threatened to break the game open, taking a 15-9 lead with three minutes left in the first half.

However, Slaton hung tight, trailing by just four at halftime, 19-15.

Things still looked okay for the Squaws in the third quarter, even though the points weren't falling in droves. Sharon Smith's jump shot with two minutes left in the quarter gave Friona its longest lead of the second half, 25-19. Both Miss Smith and Miss Day had shots that rolled around and dropped off the rim during the period. The team just couldn't seem to get the ball off the basket.

Slaton, meanwhile, rallied for five points to Friona's one in the latter stages of the third stanza, and Friona's lead was whittled to 26-24 at the buzzer.

The Tigerettes tied the count to start the fourth quarter, and the Squaws were hurt when their rebounding ace, Vicki Ulen, fouled out with 7:06 left in the game. Cindy Hutson also left

Strike Continues

The strike by the Amalgamated Meat Cutters Union against Missouri Beef Packers is in its second week, as union members continue to picket the plant three miles southwest of Friona.

"We are killing cattle, and are continuing to hire employees," said plant manager Howard McLean this week.

He said that the production, making heavy use of supervisory personnel, was increasing, and that he expected a further increase during the next week.

The next scheduled meeting between management and union officials remains as Monday, February 25.

Deadline Approaches For Exchange Student

Friona's American Field Service chapter is still seeking applicants to serve as host family for an exchange student at Friona High School next year, with the deadline for applicants fast approaching.

As of Wednesday morning, there had been no applicants either at the high school or to R.H. Horton, Jr., local chapter president.

"I know it is not a matter of money that makes Friona people reluctant to apply. I just don't know what it is," stated Horton this week.

The exchange student program has been a popular one in Friona, with several students spending a year locally, and adding greatly to the school program.

Each year there are more exchange student applicants than there are homes for the students. This year, some of the requirements have been dropped, such as parents' and students' ages.

Those who are interested in applying, or who would like further information on the program should call either high school principal Raymond Cook or Horton.

SCHOOL, CITY

Interest Slack In Two Local Races

Interest has been slack in two upcoming local elections, involving the Friona school board and city council.

With the filing deadline only 12 days away, only one candidate had filed in each election.

The school board will have two places to fill, the spots currently held by W.D. Buske and Richard Collard. Buske has said he did not intend to seek re-election, having served two terms. Collard has not said one way or the other.

Wesley Barnett, meanwhile, has filed for one of the school board positions.

Three spots will expire on the Friona City Council. Thus far, Mrs. Aubrey Rhodes has the only announced candidate.

Terms of Bill Ellis and Gary Brown are expiring on the council, as well as the mayor's position.

Deadline for filing for both races is March 1.

Principals, Counselor Get New Two-Year Pacts

The three principals in Friona's School System and the high school counselor were given new two-year contracts at the regular meeting of the Friona School Board Monday night.

John R. Cook, Tom Jarboe, J.T. Gee and Baker Duggins, who finish their present two-year pacts at the end of the current school year, were voted extensions by the board.

Contracts of the classroom teachers will be considered at a later meeting.

In other business, the board voted to accept the State Highway Department's recommendations in regard to changing the school crossing on Highway 60, subject to approval by the City of Friona. The state recommended having only one crossing in the middle of the block, and building a fence on the north side of the junior high building, to enforce that the crossing would be used.

Also recommended was the removal of the blinker lights

farther down the street in each direction.

Also approved was the placing of \$620.10 in escrow at Friona State Bank as the school's share of re-paving the alley behind the primary school building (alley running north and south between Eighth and Ninth Streets).

The board approved the use of the football stadium the week of July 23-30 for an evangelistic crusade to be sponsored by First Baptist Church.

Tax Assessor-Collector Porter Roberts reported that tax collections during January amounted to \$191,808.56. Collections as of February 1 stood at \$4,633 per cent of the tax roll.

The firm of Perdue and Brandon was retained for collection of delinquent taxes.

Superintendent Alton Farr presented his monthly reports on the various school funds. He also reported that the school would get two new international school buses for next year.

Charles Broadhurst says that it is always much easier to comfort the afflicted than to afflict the comfortable.

However, newspapers, like ministers, often need to afflict the comfortable, as well as comforting the afflicted.

HEART ATTACK?

KNOW THE SYMPTOMS

- Prolonged, heavy pressure or squeezing pain in the center of the chest, behind the breastbone.
- Pain may spread to the shoulder, arm, neck or jaw.
- Pain or discomfort is often accompanied by sweating, nausea, vomiting and shortness of breath may also occur.

WHAT TO DO

- Call your doctor and describe your symptoms at once.
- If your doctor is not available, get to a hospital emergency room immediately.

Sincerely Yours

By Rev. Albert Lindley

I do think I am adjusting back into my regular life of activities again following the little jaunt to England.

I'm told this very often and I am beginning to really believe that younger years provide a more efficient and effective adjustment from one way of doing, being or living, than older years--of course--that isn't my problem.

How was it that Confucius said it?--or someone else with a good publicity agent--"You can't teach an old dog new tricks"--but I think it can be done. Maybe a little slower and in a different mood, but it can be done.

Change is the thing we fight. We have all kinds of statements that we try to rationalize ourselves with, like--"Change for the sake of change is no good"--(That depends) and "What's wrong with the way we have always done it?"--(Maybe nothing--it depends.)

What I think I'm trying to say is that "change" in itself isn't always bad. I suppose like Linus of "PEANUTS" fame, we all like our "security blanket" and many of us have something equal to that blanket. We like to keep the "Status Quo," quoted, and don't like to "rock the boat," "change horses in mid-stream" and all those things. . . .

Now don't misread me--some attempts to change warrant these kinds of moods and ideas because the change may not be good. On the other hand--it depends on our idea about it all, how it is achieved and the long range outlook. "How good is it?" is a valid question to ask. Realize, however, that the answer in relation to the mood or idea of the person who seeks to *adjust*.

I speak of the "mood" of a person because I react differently if my toe aches, my tongue was burned with my first cup of coffee that morning, my dirty-footed-dog jumped on my not so dirty pants, etc. You know? All of those real important things that you start your day with and that help to determine your day. Ahw, come on now. . . you do, too.

Sometimes we are more open to change and it comes easily. Sometimes we just don't want to go through the trouble of readjustment. I suppose I'm guilty here because there are times when I will endure discomfort rather than go thru the problem of changing or seeking change.

Now, who is the loser? Yep. Me. Any of you wives ever notice how difficult it is to get your husband to stop for any reason while making a trip in the car? Pass up cafes, comfort stations, and probably wouldn't even stop for gas except that it is a necessity but all of us are not geared to "gas stop" living. . . .

Probably he has the problem of not wanting to change the situation. Since everything is moving down the road, why alter it?

Have you guessed yet that this is all something that has a very basic effect on your personal life? It does, you know? In fact, I think that in the area of the "You-God" relationship, this whole attitude is present.

We may not acknowledge it--who wants to be wrong?--but it is present. One of the great concerns for man today is the fact that rather than to acknowledge his "wrongness" and the need he has for "change" or "readjustment," in his "God-Man" relationship, he just won't do it and keeps his movement right on down the road, however wrong his direction or strong the necessity to stop.

What to do? Just acknowledge a need to readjust to God--and do it. . . He isn't the tyrant you may think he is. At least, give it a try. The change isn't all that bad. . . You might even like it. . . .

LETTERS TO EDITOR

The Friona Star
Friona, Texas

Bill:

I knew the letter from the "Name on File" concerning the new Fire Department building would stir up a controversy--wasn't disappointed, was I?

As for me--I have to agree with both sides--if that is possible. First, we do need to be concerned about the water situation in Friona. Those who live in town who are so naive as to think that we will not be out of water when the irrigation water for the farms is gone, sure have another think coming. The lack of water all over this area is getting more desperate all the time and all of us need to try to get the ball rolling to try to alleviate this problem. And it is true, you know, we sure won't need a new (or old) building for the fire trucks unless we have the water to put out the fires.

As for what the firemen do on Thursday nights--well, that is their business. If they meet to have a social hour twice a month--then that is fine--if they meet to conduct fire business--

then that is fine, too. What is really important is the fact that they are always ready when called to put out a fire. The service that they do the community and the area far overshadows any little "picky" items that anyone might complain about.

As everyone probably knows, we live in Western Addition, and for those of you who don't know--our water situation is very bad. I can't help but wonder if there would be enough pressure to put out a fire in that area during the peak summer months. There have been many times when our faucets have been turned on with the water running and all of a sudden the water stops flowing--completely. Not just down to a trickle--completely stops running just as if we had turned the faucet off ourselves. I don't know about you, but I would call this a desperate situation.

To sum it up--yes, Friona probably needs a new building to house the fire trucks, but we also need some water with which to fight the fires.

Sincerely,
Thelma Watkins

Friona Flashbacks

...from the files of the Friona Star

45 YEARS AGO--FEBRUARY 18, 1927

At least one local farmer and stock raiser, Mr. Floyd T. Schlenker, whose farm is 14 miles west of Friona, has met with success in his efforts to grow sweet clover on the Plains. Mr. Schlenker wished to grow some pasture for his registered spotted hogs, so he sowed his clover broadcast, and then planted it to oats with a disc drill. The oats came up first, then offered some protection for the clover, which followed. The hogs grazed on the oats, and by the time they were all gone, the clover was large enough to furnish grazing for the rest of the season.

40 YEARS AGO--FEBRUARY 19, 1932

The annual exhibit and entertainment of the McCormick-Deering line of farm equipment will be held by its local dealers, Buchanan & Rosson, in their show rooms across west of the court house in Hereford from 1 to 6 p.m. next Tuesday afternoon.

On Friday night of last week, as a number of young people were returning from a basketball tournament at Farwell, their car whipped crosswise in the road and turned over. Mrs. Edward Spring was driving. No one was seriously hurt.

30 YEARS AGO--FEBRUARY 20, 1942

American farmers are being asked to come to the nation's rescue in its need of scrap materials for war weapons, and the farmers of the Friona territory will have full opportunity to do their part.

Rev. Paxton Smith, of Ft. Worth, the newly called pastor of the local Congregational Christian Church, is announced to preach his initial sermon here Sunday at the 11 o'clock hour.

25 YEARS AGO--(1947 volume missing from files)

20 YEARS AGO--FEBRUARY 21, 1952

County Judge Dent of Lamb County emphasized the obligations of the individual and the farmer in better government in his talk Monday evening before the Parmer County members of the Farm Bureau in its annual meeting, held this year in Farwell.

Bill Sheehan, local attorney, now has a private office in the American Legion Building in Friona. Sheehan is located in the old library room, adjacent to the Chamber of Commerce offices which he formerly occupied.

15 YEARS AGO--FEBRUARY 14, 1957

Fifty persons attended a meeting of Hub community residents at the Methodist annex Friday evening. The purpose of the meeting was to discuss the possibility of building a community center. Bill Wooley acted as presiding officer, and the Hub Community Association was organized. Wooley was elected president of the association; James Mabry is first vice president, Dean Bingham second vice president and Melba Burleson, secretary-treasurer.

10 YEARS AGO--FEBRUARY 15, 1962

Political fever hit the area. Announcements were carried for B.M. Nelson, Dimmitt, for state representative. (Previously announced were Bill Clayton, Springlake, and W.T. (Bill) Miller, Milesdale); J. Frank Ford, Hereford, for state representative (Republican ticket). For the first time in recent history, there is a substantial number of Republican entries, and a Republican primary will be held in Parmer County this year.

5 YEARS AGO--FEBRUARY 16, 1967

Rev. W.G. (Bill) Burton, pastor of Friona's First Baptist Church for the past six and one-half years, tendered his resignation during the morning service at the church last Sunday.

Honored by the Friona Chamber of Commerce last Thursday were W.L. Edelman, man of the year; Mrs. Frank Spring, woman of the year; Lola Nelson, most courteous employee, and Mal Manchee, teacher of the year.

SPIRIT LAKE, IOWA, BEACON: "Seems like our nation is faced with one crisis after another. One problem is solved and six more crop up. Grainports being closed by strike create serious problems for our farmers and those in related businesses, like elevators, railroads, truckers, etc. President Nixon is blamed for everything bad that happens, while he gets no credit for any good development. When you think about the huge headaches involved you can't help but wonder why anyone would want to be President."

"REMEMBERED EVERYTHING BUT INSURANCE."

Life insurance to pay the mortgage on the home--an education fund for the children--monthly family income--retirement income. . . all such life insurance is available from the Ethridge-Spring Agency.

Ethridge-Spring Agency

The BIG Difference

FRIONA - PH. 247-2746

MOUNT CLEMENS, MICH., MACOMB DAILY: "Ever watch someone take a photograph of a lovely landscape with one of those instant-picture cameras--and then drop the waste portion of the film on said landscape? That's the human animal for you, also known as the litterbug. But the problem of these cameras is more than just litter. According to Friends ma-

gazine, the film contains noxious chemicals. If blown into a lake, they poison the water. If dropped in woods or fields, they are often eaten by animals with sometimes fatal results. They also stain clothing. The answer: A plastic litter bag to carry the scraps in until they can be disposed of properly. If anybody really cares about the landscape, that is."

TAG TIME. . . Carolyn Vaughn typifies the many Friona motorists who have been taking advantage of the special booth to purchase their license plates in Friona this week. County Tax Assessor-Collector Hugh Moseley, right, and his deputy will be at the law enforcement center (old City Hall) through Friday between the hours of 9-12 and 1-4. Moseley has other dates scheduled at Bovina and Lazbuddie (see advertisement in this issue).

"Rapid Parts System" Installed

Reeve Chevrolet-Olds has installed something new which should revolutionize the ordering of parts at the company. It is a teletype machine, or "Rapid Parts Order" system. The teletype is hooked up through the telephone company. A tape is punched which contains the information needed on the order.

When Ancel Renner, parts manager, is ready to send an order, he dials a number in Oklahoma City, and this alerts the regional parts office there, and the message is transmitted in rapid fashion, received on their machine.

There are several advantages to the teletype system of ordering parts. "For instance, if Oklahoma City is out of the part you order, or if there is some mix-up, you'll find out in a matter of minutes. Previously, you had to wait a week or 10 days, and then when your parts order came, you found out about the missing part, or the mix-up," Renner says.

Renner says that the more options and parts contained on the new cars gives a supply or repair house more parts to keep up with all the time. He sees

the Rapid Parts Order System as a big solution to the ever-increasing demand for parts. Glenn E. Reeve, Jr. states that there are other ways the teletype may be utilized in the future. "I would think that eventually we can order cars with the machine. It might be that by using the teletype, we can locate a certain car more quickly for a customer," he says.

NEW SYSTEM. . . Ancel Renner, parts manager at Reeve Chevrolet-Olds, demonstrates the company's new Rapid Parts Order System, whereby parts are ordered by teletype. The system is expected to greatly improve service on automotive parts for the company's customers.

Champ Indians Bop Chiefs — Frosh Win

Friona took three boys teams to Morton and came home with only one victory, Monday, February 14. The freshmen boys won their game, 74-68, the B boys lost 80-52 and the varsity boys lost 84-59.

The freshmen boys took the lead and never trailed. They held their longest lead of the game, 20 points, 60-40 with 1:21 left in the third quarter. All the boys on the team saw action to finish out a very good season of 17 wins and three losses. Four boys scored in double figures, Gene Strickland led the way with 24 points.

Friona led early in the B game but hit a cold spell and saw Morton score 12 points while we didn't hit a one to give them a 17-8 lead. Morton never trailed after this and outscored in every quarter except the second when we outscored them 14-13. Kent Patterson was high in this game with 13.

The varsity game was very exciting the first half. Morton took the lead and Larry Fallwell tied it up. Bill Bailey put Friona ahead 3-2, they went ahead 4-3.

Larry Fallwell fouled and hit both ends of a two shot free shot to give us another lead of 5-4, they tied and then went ahead and stayed ahead until Ron McPherson tied it up again 19-19 with 3:39 left.

Johnny Bandy intercepted a

pass and went in to score to give Friona a 21-19 lead. Friona led the rest of the first half and held a six point lead twice, 25-19 and 27-21.

Morton came back the third quarter and outscored Friona 28-8 and the last quarter 29-20 to give them the 84-59 win.

Larry Fallwell was high point with 18. Johnny Bandy had 19 rebounds and Ronnie McPherson had seven assists.

WHICH WAY TO GO... Jill Riethmayer (10), Friona forward, tries to figure a way to work the ball in, against Patsy Gamble of Slaton's Tigerettes. The Squaws were held to only ten field goals and ten free throws, their lowest point output in over two years, in losing the bi-district game to Slaton, 37-30.

Slaton Overcomes Squaws.

(Continued from Page 1)

30 seconds later.

Sharon Smith's free throw gave Friona its last lead of the game at 29-28 with 5:50 left to play, and the Squaws were to manage only a lone free throw the rest of the game, while Slaton scored nine points, taking advantage of Friona's desperation fouls.

Friona scored only two field

Totals	26-10	21-10	21	21	30

goals in the second half.

The 30 points was the lowest total ever recorded by a Friona team in the playoffs, spanning 26 games and 15 years. The team hit only 38.5 per cent of its shots from the field (10 of 26), and 47.5 from the free throw line (10 of 21).

Miss Smith led Friona's scoring with 16 points.

Miss Smith led Friona's scoring with 16 points.

Teams Take Cage Wins

Friona took three teams to Lockney Tuesday, February 8 and came home with two wins. The B-team boys won a close game by one point.

The varsity girls won their game 62-39, giving them a 5-0 last half record. The varsity boys lost their game 70-51.

The girls' game was fairly close the first half with Friona having a six point halftime lead, 26-20, but Friona came back and scored 14 points to nine for Lockney in the third quarter and 22-10 in the last quarter to take the 62-39 victory.

The boys' game was Lockney all the way as Friona never led or tied the game. Lockney outscored Friona in all four quarters.

Both games saw Friona in foul trouble with Friona having 26 in the B game to 13 for Dimmitt and Friona 30 in the varsity game to 17 for the Bobcats.

Friona took the lead in the B game and led until Dimmitt went ahead 34-33 with 4:40 left in the third quarter. Friona held an eleven point lead with 6:34 left in the first half, 19-8. Friona held their last lead of the game 41-40 with 1:33 left in the third quarter and tied it 43-43 with 38 seconds left in the quarter. Dimmitt outscored Friona 22 to 8 the last quarter that saw Friona draw 11 fouls to 3 for Dimmitt and they made eight free throws.

The varsity game was Dimmitt all the first quarter except for a 2-1 lead Friona held early in the game. Friona came back the second quarter and tied it at 23-23 when Willie Bailey made the basket and was fouled at the time and made the free throw to give us a 24-23 lead with 5:17 left in the half. Larry Fallwell gave us our last lead in the game at 27-26 with 4:01 left in the half, the next four minutes saw Dimmitt score ten

Boys Drop Pair To Visiting Dimmitt

The Friona boys lost two games here Friday, February 11 to the visiting Dimmitt Bobcats. The B-team lost 67-51 and the varsity lost 82-56.

Both games saw Friona in foul trouble with Friona having 26 in the B game to 13 for Dimmitt and Friona 30 in the varsity game to 17 for the Bobcats.

Friona took the lead in the B game and led until Dimmitt went ahead 34-33 with 4:40 left in the third quarter. Friona held an eleven point lead with 6:34 left in the first half, 19-8. Friona held their last lead of the game 41-40 with 1:33 left in the third quarter and tied it 43-43 with 38 seconds left in the quarter. Dimmitt outscored Friona 22 to 8 the last quarter that saw Friona draw 11 fouls to 3 for Dimmitt and they made eight free throws.

The varsity game was Dimmitt all the first quarter except for a 2-1 lead Friona held early in the game. Friona came back the second quarter and tied it at 23-23 when Willie Bailey made the basket and was fouled at the time and made the free throw to give us a 24-23 lead with 5:17 left in the half. Larry Fallwell gave us our last lead in the game at 27-26 with 4:01 left in the half, the next four minutes saw Dimmitt score ten

points while we scored two, in this period of time Friona drew six fouls to one for Dimmitt.

The last half was mostly Dimmitt as they went on to win 82-56. James Bartlett was high point with 15. Johnny Bandy led in rebounds with 13 and in assists with five.

Seventh Graders Lose Close One To Dimmitt

The seventh grade boys lost a close game here Monday, February 7 against the Dimmitt team.

Friona took a 3-0 lead and led all of the first quarter except for a 6-6 tie that Leslie Broadhurst broke with one second left in the quarter.

Dimmitt got the second quarter tip off and scored to tie it up at 8-8 and went ahead 9-8 on a free throw with only ten seconds gone in the second quarter.

Friona took the lead again 12-11 with two minutes left in the half but Dimmitt tied it up at 13-13 and took a 15-13 half-time lead.

Dimmitt outscored Friona

11-4 in the third quarter to give them a 26-17 lead. Dimmitt held their longest lead of ten points, 27-17, with 4:15 left in the game.

Friona came back and scored 12 points, while Dimmitt only scored three to trail by only one, 30-29, with 25 seconds left in the game.

However, Friona drew two fouls to give Dimmitt a 33-29 win.

Announcing the most complete warranty ever put on a used car.

Covers engine, transmission, rear axle, brake system and electrical system for 30 days or 2000 miles. And you get special savings on all parts and labor for the first 24 months.

USED VEHICLE DEALER WARRANTY

No. _____

This Warranty is issued by the undersigned, an authorized Chevrolet Dealer (hereinafter called the Selling Dealer) to:

Name _____ Address _____
City _____ State _____

(hereinafter called the Purchaser) in consideration of the purchase of a used motor vehicle (hereinafter called the Vehicle) described as follows:

Year _____ Make _____ Type _____
Motor No. _____ Serial No. _____ Stock No. _____
Mileage shown on odometer at delivery _____

STATEMENT OF WARRANTY
Subject to the provisions and conditions stated below, in the event of mechanical failure of the Vehicle, the Selling Dealer agrees as follows:
(1) For a period of 30 days, beginning _____ 19____, or 2000 miles after delivery (whichever occurs first), the Selling Dealer agrees to repair or replace the engine, transmission, rear axle, brake system, or electrical system—without charge—to the extent necessary to keep the Vehicle in a serviceable condition under normal use.
PROVISIONS
(a) Mechanical failures resulting from collision, accident, abuse or lack of maintenance, are expressly excluded from the above coverage.
(b) Repairs are to be made in the Selling Dealer's Service facilities.
(c) Such repairs do not qualify under any new vehicle warranty still applicable to the Vehicle.
(2) Upon the expiration of the warranty period specified in (1) above and for a period ending 24 months from the date the warranty period specified in (1) above commenced, the Selling Dealer will allow a discount of _____ off the normal retail charges for parts and labor repair necessary to keep the Vehicle in a serviceable condition under normal use.

GENERAL CONDITIONS
This Warranty is issued by the Selling Dealer only, and not by the manufacturer of the Vehicle.
This Warranty is expressly in lieu of any other warranties, expressed or implied, including any implied warranty of merchantability or fitness for a particular purpose, and any other obligations or liabilities on the part of the Selling Dealer or any other person to assume for it any other liability in connection with the sale of the Vehicle.
This Warranty must be available with the Vehicle at the time of application for any repairs or adjustments, and is not transferable or assignable. (Not effective as to certain states in California or Massachusetts.)

This Warranty is not valid unless signed by the Selling Dealer's authorized department head and by the Purchaser, who is to retain a copy.

Dealer's Name _____ Signature of Department Head _____
City _____ State _____ Signature of Purchaser _____

Many Chevrolet dealers are announcing the most complete warranty ever put on a used car. Count your blessings.

First, you're protected where it counts most: on the major mechanical parts of the car you buy. And that lasts a healthy 30 days or 2000 miles, whichever comes first.

Second, you get special savings on any parts or labor you need. From the day you buy for

24 months.

Third, the special savings are good all across the country at most Chevrolet dealers. Say you're on a vacation trip and find you need service. You just get in touch with a participating Chevrolet dealership.

All you do is show an OK warranty identification card you receive when you buy your used car.

Your Chevrolet dealers' OK warranty. It takes the guesswork out of used car buying.

LIONS PROGRAM. . . Cecil Maddox, center, had representatives from the Distributive Education and Industrial Cooperative Training present the program last Thursday for the Friona Lions Club. From the left are Holly Welch, Melissa Pruett, Kathy McLean, Maddox and Gary Duke.

Squaws Top Cooper In Warmup

The Squaws scored a 36-32 win over Lubbock Cooper, a class A district champion, on the Cooper team's home court last Friday.

The game was a warm-up contest for both teams prior to bi-district play.

Friona had to come from behind in the fourth quarter for the win, trailing by as many as five points during the game.

"Our guards didn't do a bad job, holding Cooper to only 32 points. We were getting the shots, but just didn't hit them," said Coach F.G. Crofford. The tempo of the game resembled Tuesday's bi-district playoff.

Vicki Ulen got in foul trouble during the second half, but Terri Bingham came in and adequately replaced her.

School ACTIVITIES

February 17-18-19--Parmer County Junior Livestock Show, Friona Bus Barn.

February 19--Forensics club at Dalhart Invitational Forensics Meet.

February 19--Girls' regional tournament, Lubbock.

February 21--FHA-FFASweetheart Banquet, High School Cafeteria.

February 26--Solo, ensemble band contest at Lubbock.

February 24-25--CTA Project.

Schedule, Team Rosters Given For Friona Little Dribblers

Friona's Little Dribblers will kick off their third season here next Monday, February 21, with seven teams competing.

Play continues through March 13. The complete schedule, along with team rosters, follows:

KNICKS
Jeff Whiteside, Danny Hand, Cipi Aragon, Seferino Leal, Randy Patterson, Toby Strickland, Mark Bavousett, Jimmy Lee Soliz, John Ingram and Danny Adkins.

HAWKS
John Carson, Jay Jarboe, Earnest Mills, Loly Mercado, Ricky Richerd, John Kothmann, Farron Young, Max White, Johnny Hodges and Bron Euler.

BUCKS
Edward Castillo, Curt Miller, Jody Lewellen, Robert Felder, Mike Hutson, Cris Barnett, Fred Garza, Mark Gammon, Paul Ortiz, Tony Melugin and Scott Richards.

BULLETS
Joe Bermea, Norman Kothmann, Terry Wilcox, Joe Rios, Pat Reznik, Ky Graham, Randy Richards, Criss Wyly, Jimmy Taylor, Douglass Ball and Enrique Rodriguez.

CELTICS
Bryan Johnston, Jim Fallwell, David Bartlett, Mark Edelman, Jeff Peak, Eddie Allen, Phillip Veazy, Jessie Soliz, Brit Eustace, Luis Ortega and John Jarecki.

LAKERS
Todd Bandy, Glenn London, Alan Monroe, Manuel Ramirez Jr., Darcy Renner, John Brown, Park Weatherly, Larry White, Alvin Hacker, Paul Lindley and Charlie Pena.

SUNS
Raul Brailiff, Tony Johnson, Ricky Jackson, Frank Hutchinson, Roy Caballero, Gary Don Schueler, Hugh McCann, Alan Anderson, Danny Mendoza, Steven Dorch and Alan McCright.

MONDAY, FEBRUARY 21
Hawks vs Bullets: Knicks vs Bucks; Celtics vs Suns; Lakers, open.

THURSDAY, FEBRUARY 24
Bucks vs Hawks; Bullets vs Celtics; Suns vs Lakers; Knicks, open.

MONDAY, FEBRUARY 28
Celtics vs Lakers; Bucks vs Bullets; Knicks vs Hawks; Suns, open.

THURSDAY, MARCH 2
Bullets vs Suns; Knicks vs Lakers; Bucks vs Celtics; Hawks, open.

MONDAY, MARCH 6
Hawks vs Lakers; Bucks vs Suns; Knicks vs Bullets; Celtics, open.

THURSDAY, MARCH 9
Knicks vs Suns; Bucks vs Lakers; Hawks vs Celtics; Bullets, open.

MONDAY, MARCH 13
Bullets vs Lakers; Knicks vs Celtics; Hawks vs Suns; Bucks, open.

We're putting our money where your mouth is.

A lot of people have been shooting at the telephone companies these days. And, in truth, we've had our hands full keeping up with the zooming demand for increased phone service. But General Telephone and, in all fairness, the other phone companies haven't been sitting around counting dimes.

For some time now, we've been paying a healthy "phone bill" ourselves trying to make our service do everything you expect of it. And a few things you don't expect. During the next five years we'll be spending millions of dollars in the areas we serve upgrading and expanding every phase of our phone operation. From laying underground cables (an important, if invisible area) to customer contact service (an equally important, but highly visible area).

But no matter how much we spend on equipment and expansion, it's what we do for you in your home or business that counts. Ladies and gentlemen, we're working as fast as brains, manpower and money can combine to make our service as efficient as possible.

DALE GALLMAN

Lazbuddie Showman Has El Paso's Champion Hog

**On The Farm
In Parmer County
MACK HEALD
County Agent**

This winter while trees are bare, homeowners should be on alert for bagworms. Although bagworms are exposed when broad-leaved trees drop their leaves, they may be overlooked until a damaging infestation occurs. Complete defoliation can result next season when large numbers are present. In addition to broad-leaved trees, bagworms also feed on arborvitae, cypress and other evergreens.

Though fall webworms and tent caterpillars are often mistakenly called bagworms, they are really markedly different. Bagworms make individual cocoons from tightly woven silk. Leaves and twigs are attached to the outside of the 1-1/2 to 2-inch long bag so that the bags look like dried leaves.

The larval and pupal stages last from early May to late July, during which time the insects stay in their bags. In the pupal stage in July and August the worms change to moths with only the male having wings. After mating, the female lays 150 to 300 eggs in the bag then drops to the ground and dies. The bags will remain on trees all winter. Some will be empty with only the pupal skin of the male protruding from the bottom while others will have the skin full of eggs. In areas where the worms do not pupate until spring, a full

grown worm will be found in the bag.

Any bags that may be found should be destroyed. Hand picking is effective on small trees and those with only a few bags. Diazinon, carbaryl or trichlorfon can be sprayed in May or June on large trees with large numbers of bags in the upper branches.

Last week was a busy one for several Parmer County 4-H members. The first part of the week found the county showing in El Paso. Youngsters exhibiting in the Southwestern International were Bruce and Steve Kalwasser, Vickie Gillian, Mark and Joe Haseloff and Mike Windham. Mark showed the second place mediumweight cross steer and the 14th heavyweight Hereford. Bruce Kalwasser exhibited his mediumweight Angus to sixth place.

On Saturday the Farwell Local Show was staged, with 4-H youngsters from the Farwell and Oklahoma Lane Clubs participating. Winning the lamb show was Deborah Harding with the Grand Champion and Lisa Hughes with the Reserve Grand. David Harding won first place with his cross lamb. In the steer show the top two heavyweight entries were selected grand and reserve. Grand Champion was shown by Mac Langford while Mark Haseloff exhibited the Reserve Grand. Joe Haseloff won the light-weight steer class and showed the Reserve Champion Hampshire barrow.

**GSPA Sponsors
Lecture Series
On Ag Income**

The Texas Grain Sorghum Producers Board is sponsoring a series of lectures by Arnold Paulson of Granite Falls, Minnesota. Mr. Paulson's topic will be "Agricultural Income: A Plan to Save Rural Communities."

Paulson has given several of his seminars in West Texas during the last year. In his lecture he illustrates the value of farming and farm income to the area and the nation's economy.

TGSPB Executive Director, Elbert Harp, said, "All businessmen and their wives are invited. This program is a part of TGSPB's educational program to stimulate thought and reveal the importance of agriculture."

Paulson's lectures are non-political in nature.

The schedule of the three hour seminars is as follows:
Monday, February 21, 1972, Hereford, Texas--Bull Barn, 6:30. Tuesday, February 22, 1972, Dumas, Texas--Community Building, 6:30 p.m. Thursday, February 24, 1972, Amarillo, Texas--Holiday Inn-West, 6:30 p.m.
Saturday, February 26, 1972, Plainview, Texas--Hale County Agricultural Building, 6:30 p.m.
Monday, February 28, 1972, Brownfield, Texas--Middle School Auditorium, 6:30 p.m. Tuesday, February 29, 1972, Lubbock, Texas--Moody Auditorium Lubbock Christian College, 6:30 p.m.

Dale Gallman, Lazbuddie FFA member, exhibited the Grand Champion barrow at the Southwestern International Livestock Show last week in El Paso.

Lazbuddie showmen had only eight animals in the show, but got a lot of mileage out of their entries, according to Scotty Windham, Lazbuddie vo-ag instructor.

Gallman's winning entry was a 209-pound crossbred barrow which won the crossbred championship and then won out in competition among all the breed champions.

The champion barrow sold at auction for \$7.70 per pound, and including premiums, paid Gallman a total of \$1706.00. Rick Seaton had the second

place Duroc entry, and Gallman had a second place middleweight Hampshire. Seaton also had an eighth place middleweight Hampshire and an 11th place Duroc.

Mike Windham exhibited the fifth place lightweight Poland China. Loy Dale Clark had the fifth place middleweight crossbred barrow, and a fifth place Angus steer, the only steer entered by the Lazbuddie boys.

All of the animals entered in the El Paso show were sold at auction. The Lazbuddie showmen plan to enter about 52 animals in the Parmer County Junior Livestock Show this weekend at Friona, including 33 barrows, 15 lambs and four steers.

**At Home In Parmer County
Jana Pronger**

Thursday, February 10, about 20 county residents enjoyed a program on sewing with knits presented by Sue Gilbert and Doris Hagens of Fabulous Fabrics of Lubbock. The program was sponsored by Parmer County Home Demonstration Clubs.

At this time the women from Lubbock are planning to return Thursday, April 6th and Thursday the 13th at 7 p.m. to present workshop sessions on construction of men's knit pants and sport coats in the Community Room of the First State Bank in Bovina. The session on the 6th will be for men's pants at a cost of \$6 per person and the session on the 13th will be on sport coats at a cost of \$7. Any interested person in the county is invited to attend either one or both sessions, as we must have a minimum of 20 enrolled to hold a class. The sessions will be from 3 to 3-1/2 hours in length with the Fabulous Fabrics representative demonstrating various construction techniques. She will also bring special sewing equipment and notions for sewing knits and manuals of sewing tips and instructions for knit sewing, which may be purchased at the workshop.

Those in the Oklahoma Lane and Farwell area may call my office (481-3619) for more information or to sign up. In the Rhea and Friona area call Mrs. Norman Taylor (295-6622-Parmer Ex.) and in the Bovina area,

Mrs. Wendell Garner (225-4884-Tharp Ex.)

Remember when radiation was just used to cure diseases? Now it's gone sophisticated. Today's consumer may buy bananas a la radiation. Not to mention tomatoes, papayas, strawberries, potatoes and onions.

Radiation in the form of ionizing energy is now used to preserve some foods. The radiant energy kills bacteria, yeasts, molds, parasites and other organisms associated with food spoilage or food-borne diseases. Radiation treatments have been used to extend the shelf life of highly perishable foods such as fish, poultry, oranges and strawberries. Research indicates that irradiated fish, stored in a refrigerator for two weeks, is just as acceptable as fish just caught.

Smaller doses of radiation inhibit the sprouting of potatoes and onions. And this treatment costs less than one cent for 100 pounds of potatoes. Radiation treatments can also slow the ripening of bananas, tomatoes, and papayas.

Preserving foods by irradiation is such a new process that the U.S. Food and Drug Administration (FDA) has to approve each new food before it may be marketed. It's predicted, however, that by the end of the 70's, a large number of foods preserved by radiation treatment will be approved for marketing in the United States.

Missouri Beef Packers, Inc. is happy to support the Parmer County Junior Livestock Show. Livestock is the lifeblood of our area, and the young showmen of Parmer County are doing their part to insure its prominent place in the future of our area.

- LAZBUDDIE (Sherley-Anderson Elevator office) February 24 (Thursday)

NOTE: Be sure to bring your license plate renewal notices and personalized check book, please. No Title Work, Please

HUGH MOSELEY
Parmer County Tax Assessor-Collector

The Bible is not a dictionary, but in many instances one can learn what a thing is by what God has said about it in His word. This is true of the word "sin." Since it is the only thing that can keep one out of heaven, men need to know God's estimate of it. A man's conscience tells him to do right and refrain from evil, but a knowledge of God's word is necessary to know what constitutes good and evil.

"Sin" is to act without faith (Rom. 14:23). Since faith comes by the word of God (Rom. 10:17), one must act in keeping with that word in order to act in faith.

"Sin" is the transgression of God's law (1 John 3:4). Thus, to live in violation of the law of God is to live in sin.

"Sin" is unrighteousness (1 John 5:17). So every breach of duty or anything that falls short of justice constitutes sin in the sight of God.

"Sin" is failing to do good when one knows what is good. So it is that even unused knowledge of God's will is sin.

Questions invited. Address "What Does The Bible Say?" Box 515, Friona, Texas.

Girl Scouts

Report

Girl Scout Troop 266 met Monday afternoon at Girl Scout House with three leaders, Mrs. Tom Mason, Mrs. Marvin Jordan and Mrs. Jesus Bermea, present.

Following presentation of the flag ceremony by Becky Norwood, Sonya Gore and Linda Ruzicka, the group toured the telephone office.

Refreshments were served by Karen Patterson, Linda Ruzicka and Mary Ann Rodriguez.

Sausage Dinner Will Be Held

Plans have been completed for the annual German Sausage Dinner, which is sponsored by St. Ann's Society, Bovina.

Serving will begin at 11:00 a.m. Sunday, February 20, at St. Ann's Parish Hall, Bovina, and will continue until 2:00 p.m.

Admission will be \$1.50 per plate. The public is being invited to attend by members of the society.

Blood Bank Unit

Schedules Visit

A mobile unit of the Amarillo Blood Bank has scheduled a stop in Friona on March first.

Facilities for accepting blood to be credited to the account of Shorty Jones, who is hospitalized in Amarillo, will be set up from 10:30 to 11:30 a.m. that day.

Persons interested in participating in this project are reminded to mark this time and date on their calendars.

HAVE BIRTHDAY. . . . The Trevino triplets and twins, children of Mr. and Mrs. Joe Trevino of Route 2, Friona, posed this week for a birthday picture. The triplets, Maria, Marta and Margarita, were three on February 16. The twins (in chair), Benito and Bernardo, had their first birthday on January 28. The triplets were the first ever born at Parmer County Community Hospital.

Study Club Has Meeting

The newly formed Rays of the Dawn Study Club held its fourth meeting in the High School Choir Room at 1:30 p.m. on Tuesday, February 15.

Mrs. Jerry Winkle served as moderator for the lesson, a study of worry and hope.

Mrs. Earl Jameson said, "Those who are ill, those who have problems, and those who despair should heed the words that 'God is in His heaven and all is right with the world.' Nothing happens by chance. All is according to a Divine Plan. That which causes an individual despair has been sent in order that he may overcome

the obstacle and advance himself upward in the eternal progression of life."

The next meeting is planned for 7:30 Thursday evening, February 24 in Room #6 of the High School. The public is cordially invited to attend.

LARGEST FLAGSTAFF EVER ERECTED WAS AT THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION AT SAN FRANCISCO IN 1915. IT STOOD 299 FEET 7 INCHES IN HEIGHT.

Girl Added To Stowers Family

Bobbie Jo is the name Mr. and Mrs. Bobby Stowers chose for their new baby girl. She was born January 29 and weighed 7 lbs. 9 ozs.

Bobbie Jo's grandparents are Mr. and Mrs. Allen Stewart of Friona, and Mrs. Jesse Stowers of Bovina.

Maternal great-grandparents are C.H. Stewart, Lone Star, Texas, and W.E. Smith, Fort Worth.

Plans Completed For Cub Scout Banquet

The Annual Blue and Gold Banquet will be held Friday, February 25 at 7:00 p.m. in the Grade School Cafeteria. Each Cub Scout will invite his family to share with him in celebrating the Boy Scout Birthday.

February is the highlight month of the Cub Scout year. It is the Anniversary Month of the Boy Scouts of America. On February 8, 1972 the Boy Scouts of America Organization became 62 years old.

Boy Scouts, and its younger brother organization Cub Scouts is a movement for boys that helps them become better citizens. More than 10 million boys and Scout leaders belong to Boy Scout organizations in 86 countries. Any boy from 8 to 18 years old may become a Scout in a program designed for his

age level: Cub Scouting, Boy Scouting or Exploring.

Cub Scouting began in 1930. It is for boys from 8-10 years of age. Friona has four groups of Cubs called Dens. Each den has two or more den mothers. These, together with a Webelos Den for boys 10-11 form a Pack.

Friona's Pack 56 has a membership of sixty boys. Adult leaders total fifteen plus the Cub Master and Pack Committeemen.

The Friona Lions Club sponsors the Boy Scout movement here.

Friday, February 18 is Uniform Day in Friona schools. All boys in the Cub Scout program will be wearing their uniforms to school on that day in honor of the Anniversary month.

Informal Buffet

Honors Newlyweds

An informal buffet in the home of Mr. and Mrs. Aubrey Rhodes Saturday evening was a courtesy for Mrs. Robert Tucker of Portales, New Mexico. Mrs. Tucker, who is the former Fran Dodd, and her husband are students at Eastern New Mexico University.

Other hosts were Mr. and Mrs. Tom Pruett, Mr. and Mrs. Robert Neelley and Mrs. Pearl McLean.

Tables were covered with white linen cloths and centered with red hurricane lamps and arrangements of red and white carnations entwined with ivy in Valentine motifs.

Special guests were Mr. and Mrs. Grady Dodd, Friona, and Mrs. Whynona Tucker, Portales, parents of the honored couple.

Others signing the guest register were Mrs. Louis Hillierd, Portales, who is the grandmother of the bridegroom, Mrs. Mary Frazier, Mike Burns, L.E. Harrison, Penny Tucker, Linda Tucker and Mike Tucker, all of Portales; Mr. and Mrs. Harry J. Charles and Mr. and Mrs. Kent Glasscock, Ginger and Melissa, all of Bovina.

Also Kathy McLean, Melissa Pruett and Priscilla Pruett.

Mrs. Moyer Presents Program

Following a demonstration of Macrame at the Thursday afternoon meeting of Friona Young Homemakers in the cafeteria of Friona High School by Mrs. Larry Moyer, each woman present was instructed on the beginning of a wall hanging. Mrs. Wayne Rhodes was a guest.

Hostesses, Mrs. Mickey Wilson and Mrs. Larry Moyer, served individual cakes topped with cherries and hot spiced punch.

Other members present were Mesdames Ernest Osborn, Eugene Bandy, Bill Brandt, Larry Dyess, Dale Smith and Ray DeBord.

DEBBIE HURT

Debbie Hurt Is On Dean's List

Debbie Bryant Hurt, daughter of Mr. and Mrs. Russell Bryant, 906 West Ninth Street, was listed on the Dean's Honor Roll at Texas Tech University for the fall semester.

Mrs. Hurt, a graduate of Muleshoe High School, is a senior personnel management major.

Condition Improves

Mrs. Herbert Schueller of the Rhea Community reported early this week that the condition of her mother, Mrs. J.T. Stehr of Dimmitt, who is a surgical patient at Plains Memorial Hospital there, is improved.

Mrs. Stehr expects to be moved to Golden Spread Rest Home, Dimmitt, soon.

Son Born To Ralph Reeds

Mr. and Mrs. Ralph Raymond Reed, 1407 West Eleventh, became parents of a baby boy at 4:03 p.m. Wednesday, February 9, at Parmer County Community Hospital. He was named David Rex and weighed 6 lbs. 7 ozs.

David has two sisters, Mona and Janetta, and one brother, Max. His grandparents are Mr. and Mrs. G.E. Reed, Friona, and Mr. and Mrs. Floyd Skeen, Melrose, New Mexico.

Mr. and Mrs. Ed Boggess, Friona, are the paternal great-grandparents.

introducing OUR NEW RAPID PARTS ORDER SYSTEM

Weight Watchers Organized Here

The Friona chapter of Weight Watchers, which meets each Monday at Girl Scout House, was organized January 10. Two groups meet regularly each week. One group meets in the morning and one in the evening. Total membership is about 160. Since the local organization became active, the members have lost more than 800 pounds. Good nutrition is stressed and exercise is recommended. Women who are involved in the program are very enthusiastic and report increasing energy with their weight loss.

Mrs. Grady Nelson, local lecturer attended Weight Watchers at Muleshoe before the local chapter was organized. Other staff members, Mrs. James Procter, clerk, and Mrs. Travis Stone and Mrs. Ira Bruce Parr, weighers, are former members of the Hereford chapter.

Local merchants are cooperating with members of this organization by stocking the specified food products recommended for diets.

A large number of recipes have been adapted for persons on the Weight Watchers program.

The two following recipes are approved.

1 tbs. prepared mustard
1 teaspoon Tobacco Sauce
3 tablespoons vinegar
3 packages Sweet and Low
1 teaspoon salt
1/2 teaspoon pepper
1/2 teaspoon garlic salt
1 tablespoon chili mix
Combine ingredients and cook until thick. *****

APPLE PIE
8 cooking apples-peeled and sliced
1-1/2 cups water or diet Lemon Shasta
6 tablespoons or 6 envelopes unflavored gelatin
Juice of 1 lemon
6 (one grain) saccharine tablets or artificial sweetener equal to 8 tablespoons sugar. (Apples will determine the amount of sweetener to use. Some are sweeter than others.)
2/3 cups non fat dry milk
2 teaspoons cinnamon
1 teaspoon butter flavoring
Sprinkle of But-R-Salt
Soften gelatin in liquid with saccharine tablets. Then dissolve mixture over boiling water. Add flavoring and lemon juice and mix.
Place the sliced apples in two nine inch pie pans. Sprinkle lightly with But-R-Salt. Mix non fat dry milk and cinnamon and sprinkle over pies. Bake 1 hour at 350 degrees. Pie will come from oven very watery, but will set in about 1 hour.

ENCHILADA SAUCE
46 oz. tomato juice
1/3 cup onion flakes
3 tbs. Worcestershire sauce

The Library Corner
BY MRS. VON EDELMON

With an increasing number of people retiring and having to live on a greatly reduced income, the "Social Security Handbook," should be of interest to many of you. And to those of you who find yourselves in this category, have you considered the library as a source of free entertainment. The variety of books is overwhelming—from how to train your dog to world history to the latest novel.

new decorating idea from "The World of Budget Decorating." "Brian Piccolo: A Short Season" is a touching true story of a professional football player stricken with cancer.

Some of the new books given to the library by the Friends of the Library are: "Land That Our Father Plowed," story of our pioneers; "Roosevelt"; "Edward R. Murrow". Several junior books given by the Friends are "The First Texas Ranger" and "Hibernian Nights," a book about Ireland.

TWO HEARTS WITH NEW LIVES

THEY HAVE NEW LEASES ON LIFE thanks to medical science. Louis B. Russell, Jr., the world's longest-living heart transplant recipient, is pictured with four-year-old Betty Wills of Noblesville, Ind., who has undergone heart surgery five times, and now wears her third pacemaker, a battery-charged power source attached to her heart to keep it beating regularly. Russell, an Indianapolis school teacher and leading Heart Fund volunteer, received his new heart three and one-half years ago.

Local Students

Return To LCC

Six graduates of Friona High School have enrolled for the spring semester at Lubbock Christian College. LCC is a small private senior college offering bachelor of arts and bachelor of science degrees in 16 majors.

Kathy Renner, daughter of Mr. and Mrs. Ansel Renner, 1302 Pierce, and an elementary education major, is a senior. Juniors are Janice Clark, daughter of Mr. and Mrs. Jack S.

Clark of Route 2; and Dale Neel, son of Mr. and Mrs. Odis Neel, 306 West Seventh Street.

Ted Procter, son of Mr. and Mrs. James Procter, 1405 West Sixth Street, and Kay Riethmayer, whose parents are Mr. and Mrs. Bob Riethmayer of Route 3, are sophomores.

Susan Floyd, daughter of Mr. and Mrs. Glenn Floyd, 1301 Columbia, is a freshman.

Club Meet Features

Lingerie Workshop

Two representatives of a fabric shop in Lubbock, Sandra Gilbert and Doris Hagens, presented a workshop on construction of lingerie at the joint meeting of Oklahoma Lane Home Demonstration Club and Rhea Home Demonstration Club in the Community Room of Bovina State Bank Monday evening.

Following the demonstration members of the Oklahoma Lane Club, who were hostesses, served coffee, punch and assorted fruit and nut breads.

Club Members See Project Hope Film

Highlight of the Tuesday evening meeting of Modern Study Club at Federated Club House was presentation of a film "Project Hope—Doctor, Teacher, Friend," by Mrs. J.T. Gee. The opening prayer was directed by Mrs. Leta Tannahill. Mrs. George A. Jones presented "S.S. Hope—Hospital Ship." Glenda Reeve presented a saxophone solo, "Whispering Hope." She was accompanied by Beverly Bailey, pianist. During a brief business ses-

sion Mrs. Lois Miller and Mrs. Glenn E. Reeve Sr. were elected delegates to the district convention. Mrs. Dalton Caffey was elected alternate.

Refreshments were served to three guests, Miss Reeve, Miss Bailey and Mrs. Herschel Johnson, and 17 members by the hostesses, Mrs. Paul Spring and Mrs. Deon Awtry.

The next meeting of the Rhea club will be February 28 in the home of Mrs. Keith Garner. A demonstration on the making of fondue will begin at 7:30 p.m.

Second Daughter

Born To Fields

Mr. and Mrs. Mike Field, 1611 James Avenue, became parents of a baby girl at 8:13 a.m. Tuesday, February 7, at Parmer County Community Hospital. She was named Sandy Kay and weighed 6 lbs. 7 ozs. Sandy has an older sister, Candy, who is two.

Grandparents are Mr. and Mrs. James E. Field, Dalhart, and Mr. and Mrs. Ardis Fallwell, Friona.

J.Q. Mrs. Friona, and Mrs. Dessie Fallwell, Fayetteville, Arkansas, long time resident of Friona, are the maternal great-grandparents. Paternal great-grandparents are Mr. and Mrs. Pierce Quigley and Mr. and Mrs. Tim Field, Sr., all of Dalhart.

Great-great-grandparents are John Simpson, Dalhart, and Mrs. Pop McNabb, Lubbock.

Most of us hesitate to speak of our present state as a recession, but we all know that the cost of living is rising faster than our income.

A recent release from Texas A & M University entitled "Using Credit Wisely," contained a lot of good information. Even though some aspects of her article doesn't apply to us, Mrs. Bonnie Fowler, home management specialist gives some very good advice.

"According to home management specialists, a family can get onto soft ice financially without realizing something has gone wrong.

It would appear that a breadwinner would know at once that his 'financial ice' was thinning out or becoming soft," according to Mrs. Bonnie Fowler, home management specialist with Texas A & M University Extension Service.

"The ice usually begins to thaw on pay day. That's when it becomes apparent there's not enough money to satisfy all the creditors and still have enough left to pay daily living expenses until the next pay check.

"So, the head of the house convinces himself that the repair man, or someone else, won't mind waiting for his \$10," Mrs. Fowler said. "Next pay day it is only fair to pay the repair man first. But the money goes out before the television payment can be made. And the car payment is harder to make.

The specialist stressed that the ice melts fast and temperatures rise to melt financial ice even faster. "When this happens you're really on soft ice that will continue to get thinner. One bill left unpaid is just that much more to pay the next pay period.

"That's when it's time to face facts," Mrs. Fowler said. "The family is living on a higher level than its income permits."

Counselled the extension specialist, "Often there are several sides to a debate and several possible solutions to a problem. But the only sensible action here is to face the facts about spending.

Mrs. Fowler offered these pointers on deciding when a family can afford credit:

1. Spend no more money than you make each month.
2. Use credit only for those things with lasting value.
3. And buy things which a person with your income can afford.

"One way to determine how much credit you can afford is to make a list of all your expenses," Mrs. Fowler noted. "Estimate high, rather than low. Remember to include taxes, insurance, house payments and other expenses.

"And plan to save. Binding yourself to fixed monthly payments is risky if you don't have some extra money saved. Now add your expenses. To this amount, add any monthly payments you're now making. Next, subtract this total amount from your take-home pay. The figure left is what you can afford for credit payments.

"If the bills cannot be paid and worse, if the debtor has to ask for a loan to pay off a loan, the ice is thinning to the breaking point," she warned.

The home management specialist warned those thinking of a refinancing loan to get all the facts. "It's likely refinancing will cost more. And if all bills are consolidated, the breadwinner could feel so relieved that he would somehow buy a new color television set, a better car or some home modernization," she cautioned.

"Then the race starts all over again, at a faster speed," she said.

"Families that overspend have no choice but to adjust their needs and wants to their income levels," Mrs. Fowler concluded.

KATHY RENNER

Kathy Renner On Honor Roll

Kathy Lynn Renner, daughter of Mr. and Mrs. Ansel Renner, 1302 Pierce, and a 1968 graduate of Friona High School, was listed on the Dean's Honor Roll for the fall semester at Lubbock Christian College.

Miss Renner, who is an elementary education major, will be in the first graduating class of LCC since its advancement to a four year college from a junior college. She will receive a bachelor of science in education in commencement exercises May 6.

Sheri Andrews Born Monday

The baby girl, who was adopted by Mr. and Mrs. James Andrews, was born Monday, February 7. She was named Sheri Elizabeth and weighed 5 lbs. 2 ozs.

Sheri is the first child for the couple. Her grandparents are Mr. and Mrs. Walter Ballard, Vega, and Mr. and Mrs. Jim Riddlehuber, Lubbock.

Savings Association Names Crow Manager

C. Gary Crow, a Certified Public Accountant, of Fort Worth and son of Mr. and Mrs. Clifford S. Crow of Friona, has been elected to the Board of Directors and named president and operating manager of Navarro Savings Association, Corsicana, Texas.

Crow and his wife, Laurel Ann, are parents of three daughters; Diana Marci, 12, Vanessa Camille, 5, and Tessa D Lynn, 1. He has three sisters; Nancy Norwood, Friona, Barbara Barnett, Jemez Pueblo, New Mexico and Linda Lancaster, Lubbock; and one brother, Larry of Arlington, Texas.

He attended Friona Public Schools and entered the U.S. Navy after graduation from high school and served four years. Then he entered Texas Tech University where in 1962 he earned a Bachelor of Business

Administration degree with a major in accounting.

After graduation Crow joined the national accounting firm of Peat, Marwick, Mitchell & Co., then became secretary and treasurer of Arlington Savings Association prior to taking a position with the Fort Worth accounting firm of Thrash & Aston where he has been a Certified Public Accountant for the past five years.

Chairman of the Board of Directors, James W. McPherson of Dallas, formerly a resident of Lubbock, made the announcement of Crow's election and stated:

"We are very pleased that he is coming with us. He is a professional and probably as knowledgeable in the savings and loan field as anyone in this area. I am satisfied he will do us an outstanding job."

Miscellaneous Shower Jetes Robert Tuckers

Mr. and Mrs. Robert Tucker of Portales, sister of the bridegroom, was covered with a white cloth and lighted with a red candle.

Hosts were Mr. and Mrs. Beck, Mr. and Mrs. Joe Fallwell, Mr. and Mrs. Leonard Coffey, Mr. and Mrs. Doyle Elliott, Mr. and Mrs. Andy Hurst, Mr. and Mrs. V.E. Nichols, Mrs. Martha Bates and Mrs. Decima Beene.

A Valentine motif was carried out in decorations and refreshments. The serving table, which was covered with a white linen cloth, was centered with a white anniversary candle surrounded by red carnations and baby's breath.

Assorted finger sandwiches were served with cookies, nuts, mints, spiced tea and coffee by Vicki Beck, Kathy McLean and Melissa Pruett.

The registration table, which was presided over by Penny Tucker, Portales, sister of the bridegroom, was covered with a white cloth and lighted with a red candle.

Sixty-three persons signed the guest register.

Those from out-of-town included Mrs. Wynama Tucker, Mrs. Louis Hilliard, Mrs. Mary Frazier, Mike Burns, L.B. Harrison and Penny, Linda and Mike Tucker, Portales; Mr. and Mrs. Harry J. Charles and Mr. and Mrs. Kent Glasscock, Ginger and Melissa, Bovina.

Former Friona Pastor Buried In Oklahoma

Rev. Frank Baber, former pastor of United Pentecostal Church here, died at Tulsa February 7.

During the five years Rev. Baber served as pastor of the church here, he built the present building of the church, which is located at the corner of Fifth and Grand.

At the time of his death he was co-pastor of the United

Pentecostal Church in Henrietta.

Survivors include his wife, Mary; one son, Charles Baber of Tulsa; and three daughters, Mrs. Shirley Hunt, San Jose, California, Mrs. Betty Barron, Marysville, Louisiana, and Mrs. Barbara Lane, Tulsa.

Burial was in the Henrietta Cemetery Wednesday of last week.

Pioneer Frionan Dies In Calif.

Elsie E. Livings, who moved to the Friona area from Indiana in 1909, died in Los Angeles February 1.

Mrs. Livings, who lived here until the early 1930's, was active in the Friona Methodist Church and Friona Woman's Club, which she served as president.

Survivors include two sons, Donald of Los Angeles and George of Temple; a number of grandchildren, including Steve Messenger of Friona; and several great-grandchildren.

Frionan's Sister Is Buried Sunday

Funeral services for Mrs. Helen Ruth Augustine, 48, a long time resident of Spur, Texas, and a sister of Mrs. Andy Hurst, were conducted from First United Methodist Church there at 3:30 p.m. Sunday with Rev. Howard Marcom, pastor, officiating.

Mrs. Augustine, who was an employee of Casrock Telephone Company, died about 7:55 a.m.

Funeral services for Mrs. Patricia Waldron, Kenneth Brown, Conda Jones, Mrs. Ralph Reed and baby boy, Frank Spring, Alejandra Garcia, Gary Ferguson, Doris Kendrick, Mae Magness, James D. Clark, Cheryl Stowers and babyboy, Sheryl McLellan, Mike Gowens, Maribeth Elliott, Marie Roden and A.T. Stowers.

Patients in the Hospital: Rosa Bautista, Opal Cobb, Heude Curry, Betty Evans, Alicia Flores, Buddy Foster, Estela Garza, Lula Mae Hyde, Leumoris L. Haney, George McKinney, Eune Martin, J.E. Melton, E.B. Moyer, Custodios Madrigal, Kaye Rogers and baby girl, Guadalupe Rodriguez, Elizabeth Riddle and Wilma White-ner and baby boy.

Frionans Return Home

Mrs. Danny Black and Mrs. Gary Cash and daughter, J'mal returned home Thursday after spending several days visiting relatives in southern Texas.

Mrs. Black was a guest in the home of her parents, Mr. and Mrs. Charles Polk. Mrs. Cash and J'mal visited Mrs. Cash's parents, Mr. and Mrs. C.D. Huddle in Baytown.

HOSPITAL REPORT

Admissions: Roberta Gallegos, Muleshoe; Doris Kendrick, Friona; Earlene Graham, Friona; Mrs. Ralph Reed, Friona; Mae Magness, Friona; Custodios Madrigal, Bovina; Tammie Hamilton, Friona; Maribeth Elliott, Friona; Marie Roden, Friona; Deloris Baysinger, Friona; E. B. Moyer, Friona; Patricia Waldron, Friona; Alejandra Garcia, Bovina; Leumoris L. Haney, Muleshoe; Kenneth Brown, Friona; Mike Gowens, Friona; Guadalupe Rodriguez, Friona; A.T. Stowers, Friona; Conda Lyle Jones, Farwell; Frank Spring, Friona; Opal Cobb, Friona; Gary Ferguson, Friona; James Clark, Friona; Rosa Bautista, Friona; Sheron McLellan, Friona; Kaye Rogers, Friona; Buddy Foster, Farwell; Lula Hyde, Friona; Alicia Flores, Friona; Betty Evans, Friona; Wilma White-ner, Texico; and Eune Martin, Friona.

Dismissals: James Collier, David Wines, Savis Graham, Earl Graham, Roberta Gallegos, Gloria Tijerina and baby girl, Earlene Graham, Patsy Webb, Tammy Hamilton, Robert Bone, Deloris

Baysinger, Sarah Gallegos, Patricia Waldron, Kenneth Brown, Conda Jones, Mrs. Ralph Reed and baby boy, Frank Spring, Alejandra Garcia, Gary Ferguson, Doris Kendrick, Mae Magness, James D. Clark, Cheryl Stowers and babyboy, Sheryl McLellan, Mike Gowens, Maribeth Elliott, Marie Roden and A.T. Stowers.

Mrs. Penrod Buried In Okla.

Funeral services for Mrs. Nolan Penrod, 64, who died at 11:15 p.m. Thursday at her home at Cushing, Oklahoma, were conducted from the Parkland Community Church at 2:00 p.m. Monday.

Mrs. Penrod was the mother of Mrs. Gary Brown of Friona.

Other survivors include her husband; three sons, Ernie Penrod, Farmington, New Mexico, Don Penrod, who lives in California, and Darrell Penrod of Cushing; three daughters, Mrs. Roy Shepherd, Farmington, New Mexico, Mrs. Sam Taylor, who lives in Kansas, and Lilah Ernst of Cushing; and several grandchildren.

Burial was in the Parkland Community Cemetery.

Do you really want your brother-in-law to know how much you earned last year?

Of course not. It's nobody's business but your own.

However, annually millions of taxpayers bear this kind of personal information to people who really shouldn't know. For what? Just so they can save a few dollars doing their income tax.

That's some price to pay.

You see, for only a few dollars more than it costs to do it with any amateur who might not know that work clothes in some instances are deductible, or that income averaging might save tax dollars, you can have your tax return done by a specially trained member of the H & R Block team with complete confidentiality. There are thousands of them in over 6,000 conveniently located offices. H & R Block's fees start at \$5 and the average cost was under \$12.50 for the 7 million families we served last year.

Furthermore, if your return is audited we will accompany you, at no extra cost, to the Internal Revenue Service and explain how your return was prepared, even though we will not act as your legal representative.

This means that H & R Block is ready to offer you year 'round tax service for just one low fee a year, with no extra charge for audits and estimates. Yes, we cost a little bit more than your relatives or friends or neighbors but when you think of what we deliver, you can't afford anything less than H & R Block.

DON'T LET AN AMATEUR DO YOUR BLOCK'S JOB.

H&R Block.
The income tax people.

FORMER SHOW RESULTS

Lazbuddie's Barrows, Friona Steers Prevail

The Parmer County Junior Livestock Show has been dominated by steers from Friona, and barrows and lambs from Lazbuddie, according to a tabulation of winners during the past 24 years of the show.

A tabulation of the records also shows that Hereford steers have dominated the grand championship of the steer division, with Hampshires and Poland Chinas barrows leading in the swine show.

Lazbuddie youngsters, who have had a reputation for excellence in showing animals for a number of years, have carried off 45 of the 94 championship trophies awarded in the steer, swine and sheep divisions since 1948.

The young showmen from the southeastern part of Parmer County have exhibited the grand champion in the barrow show 14 times in the past 18 years, including the last eleven years in a row.

In lamb judging, which hasn't been carried to a grand champion since 1959, Lazbuddie showmen have claimed 27 breed champion trophies out of 46 awarded in the last 13 years.

In the steer division, Friona showmen have exhibited 14 grand champions in the last 24 years. Farwell youngsters have won six of the awards in this division, standing second to

Friona. Friona showmen had won the steer banner six years in a row (1961 through 1966) before young Jacquelyn Langford of Farwell 4-H Club claimed the title in 1967.

Hereford steers have by and large dominated the show, winning titles ten of the last 12 years. The other two county steer titles were won by Angus calves, and were shown in successive years, by Rex Wells of Friona in 1964 and Mike Riethmayer of Friona in 1965.

No particular breed of hog has dominated the barrow show in the past 24 years, but the Hampshires have the most titles, six, thanks to winning four times in the last 14 years. Next comes Poland China, with six titles, and all other breeds have claimed the championship at least twice.

Durocs have won four grand championships, Chester Whites three, and cross breeds three. Berkshires have claimed the championship banner twice.

Friona is second to Lazbuddie in grand championships in the barrow division with five.

Rick Seaton of Lazbuddie, made show history by exhibiting the grand champion barrow three times in a row between 1966 and 1968, all with cross breed animals. Seaton won his fourth title last year.

Stock Show Scoreboard

(Champion Trophies Won Since 1948)

School	Steers	Sheep	Barrows	Totals
Lazbuddie	4	27	14	45
Friona	14	9	5	28
Farwell	6	2	3	11
Bovina	0	8	2	10

Champions Since 1948

Nostalgia Becoming New Innovation

Pausing in the whirlwind pace of our technology, mobility, and hypertension, we glimpse a trend crossing our nation. A sizeable portion of our population, while looking ahead, is engaging in collective nostalgia. After the turbulent decade of the sixties, the fad for things of the past allows many to breathe a sigh of relief, tinged with curiosity.

As with most fads which have great public appeal, this one is being widely marketed to an enthusiastic audience. On Broadway, in a surge of revivals, old movie stars are again "tapping their way to stardom." The film industry, not to be outdone and eager to cash in as well, grinds out geysers of sentimentality and profits. Even the hard-driving acid-rock music of the sixties is shifting to more folk rock, ballads, and blues.

Social analysts theorize that this wholesale diving into the past is directly proportional to the uncertainty of the times. The superficial trimmings of the simpler life styles alleviate the harsh realities of the present. The sixties left indelible marks on us socially, politically, and morally. The instabilities or urban living along with recession, unemployment, social turmoil, and a protracted war imbed us to grope for identity and the innocence we have lost.

Emanuel Swedenborg, 18th century scientist, philosopher,

and theologian throws an interesting sidelight on nostalgia in his doctrine of "remains":

"Remains are all the good and all the truth which lie stored up in man's memories and in his life" (Arcana Coelestia, 2284).

In other words, values implant themselves in both our conscious and unconscious mind during one's earlier years in a fondly remembered environment. They may lie dormant for years, only to emerge in later life, particularly in periods of turmoil and uncertainty; something we intuitively turn to as a source of strength.

Subconsciously, man is searching for the kind of world he considers more utopian than the present one. Older members of society are anxious to recapture the schmaltzy "good old days," remembering only the days which were good, and the young feel a romanticism about an era they never experienced. The yearning for a simpler life style puts the present in a nostalgic perspective.

While the craze for the old may be a collective defense mechanism, we might also observe the positive attributes. Some segments of society are taking the word revival at its literal best. Not content with the superficialities of nostalgia, they are reviving significant values. There is an active concern for our national resources, a struggle to end war, appropriations for medical research,

and an internal reformulation of spiritual values.

A case in point regarding the latter is the demand for religious materials. A spokesman for the Swedenborg Foundation, New York, publishers of Swedenborg's theological works, agrees with other publishers of religious literature that sales have actually increased in spite of a rather difficult year economically. More surprising is the fact that young people are among the best customers. This shift is to a younger readership dramatizes the emphasis on non-materialistic concerns.

It is this spiritual revival or regeneration as Swedenborg terms it, that is so heartening. What better time could there be to examine our life styles, attitudes, and actions than the

present? We must go further than the superficiality of nostalgia to come with the present realities of life and to prepare for the after life. In this respect the theology and philosophy of Swedenborg is deeply relevant. He discusses the importance of reviving spiritual values in his book "Divine Providence":

"He who is in evil in the world is in evil after his departure from the world" therefore if evil is not removed in the world, it cannot be removed afterwards. Where the tree falls, there it lies. So, too, does a man's life, when he dies, remain such as it has been."

Accepting this premise, perhaps the current wave of spiritual nostalgia is like a tender sapling which needs the "sun" of love and the "water" of truth.

Historical Briefs About The "King" Of Fibers
The name "muslin" comes from Mosul — once a great cotton manufacturing city in the Middle East.

Some people still believe a piece of cotton stuck to a dress means a letter is coming — and the shape of the cotton shows the sender's initial!

In 1793, Eli Whitney reinvented the cotton gin — which had been successfully used in India some 2,000 years before!

Little things can mean a lot to modern cotton growers, and many add small amounts of a minor element like Sequestrene zinc chelate to their soil — to break through "yield barriers" caused by micronutrient deficiencies.

NATURE-TOONS

HARRISONBURG, VA., NEWS-RECORD: "The ecological hysteria that surrounded the Alaskan pipeline project seems to have died down considerably, and although the pipeline has not received final approval, indications are clear that the go-ahead will not be withheld much longer. . . Permanent damage to the environment is apparently no longer a strong possibility, and the temporary damage that accidents might create is not sufficient cause to thwart a project whose economic benefits are potentially so substantial and widespread. Oil helps run this world and more is needed as the world continues to grow."

JACKSON, MISS., NEWS: "Capital punishment is when the government taxes you to get capital so that it can go into business in competition with you, and then taxes the profits on your business in order to pay its losses."

NEVER KEEP YOUR HEAD IN THE SAND TOO LONG ON A HOT DAY. YOU'LL GET BURNED IN THE END.

THE LATEST NEWS AND VIEWS ON FARMING

ZINC DEFICIENCY IN SORGHUM — THE SYMPTOMS AREN'T ALWAYS CLEAR

When it comes to diagnosing zinc deficiency in the soil, sorghum growers have to be pretty good plant dieticians. That's because crop hunger symptoms may not appear until it's too late to do anything about them!

Though sorghum requires only a very small amount of zinc to thrive, a certain level of this vital micronutrient must be maintained at all times for good crop production. Without adequate available zinc, the vigor of the plant is reduced, growth is slower, maturity is delayed, yields are cut, and quality suffers.

How can so minor an element have so major an effect? Because zinc is related to the normal use of carbon within plants, it is needed for protein metabolism. It forms part of the enzyme systems which regulate plant growth.

And, since zinc is concentrated in the sorghum plant where growth is greatest — in the shoot tips, nodes and seeds — a vigorously growing crop requires more zinc than one which is developing slowly.

When symptoms of zinc deficiency do appear in sorghum, they generally show up as pairs of oblong yellow areas on the side part of the leaf blade, between the midrib and the margins. If the deficiency is severe, there may be two or three pairs of these spots, which forecast the probability of greatly reduced grain and forage yields.

In some hybrid or parent lines, however, it is possible to get tremendous yield response to zinc — even when deficiency

symptoms never appear!

To overcome these two kinds of deficiency — obvious and hidden — more and more growers are turning to zinc chelate such as Sequestrene to clear up or prevent zinc hunger. The addition to the soil of just small amounts of this kind of micronutrient has shown unusual success in boosting yields in zinc deficient areas and has proven equally effective in lifting "yield barriers."

Why? Because chelates — compounds formed by combining a metal with an organic binder — can not become "tied up" in the soil, but remain in a soluble form the plants can absorb. And, since zinc chelate like Sequestrene can be applied dry or as a liquid, it may be conveniently and effectively combined with dry or liquid fertilizer.

All of which can add up to record yields from healthier-than-ever fields!

BUILD OUR YOUTH TODAY ...FOR A GREATER TOMORROW

We want to congratulate the members of the FFA and 4-H Clubs on their participation in this fine show. We're proud of your accomplishments in raising fine quality livestock and we know that the experience you gain through the JUNIOR LIVESTOCK SHOW will help you in the years to come when you own your own farms and ranches.

BROTHER & SISTER WIN. . . It was a brother and sister act for the grand and reserve champions of the steer show at the Parmer County Jr. Livestock Show last year. Carrie Haseloff had the grand champion steer, an 849-pound Hereford. Brother Mike exhibited the reserve champion. It gave the Haseloff family their third grand champion, and the fourth for Farwell exhibitors in the county show in the past five years.

Conservationist Urges Overseeding Pasture Lands

"Sowing small grain in some row crops in the late summer is becoming a common practice for livestock farmers on the High Plains of Texas," said Jimmy Lewis, Soil Conservationist for Hale County. "They obtain an early pasture for their stocker calves, and the soil and water conservation which is established may be incidental to their economy but it is very real."

The fall season, the weather and principally the rains that so often occur in September on the Plains of Texas is a determining factor as to the amount of fall seeded small grains sown in row crops.

In 1969, 10,000 to 12,000 acres of row crops (mostly cotton) were seeded to wheat or rye, and to wheat-rye mixtures. This was the year of the rains in September. In 1970, only about 5,000 acres were overseeded because of

extremely dry growing conditions during late summer and early fall.

The 1969 seedings were made principally in cotton. The 1970 seedings were made in both cotton and corn ensilage land which had been cut early.

The livestock farmer figures that most of this overseeded pasture is worth at least \$32 per acre. They graze the small grain for four months using two 400 pound stocker calves per acre. At one dollar per hundred weight for one month, this adds up to \$32 per acre for a four months grazing period. Again, depending upon the weather conditions, the grower may need to irrigate the pasture once or maybe twice during the four month's period.

James Cannon, Edmonson Community, Hale County, Texas, has seeded his cotton fields, at least 800 acres, each

year (1969-70) by plane. He recommends one bushel of seed per acre. Some farmers use one and a half bushels per acre of seed.

"The general procedure for most farmers in seeding rye, wheat, or rye and wheat in the row crop, is first, about August first to go into the field and run out the middles--rough the middles up a little," said Jeanne Browning of Browning Seed Company, Pilsenview, Texas. "Then seed the small grain with a plane or with an inter-row seeder with two discopeners per middle. Follow this seeding with an application of irrigation water if no rain occurs. On cotton, this should be the final application of water for the crop for the year. In this area of the South Plains that means on irrigation application about August 10-15."

Overseeding corn and grain sorghum has not been suc-

cessful except where corn or sorghums were cut for ensilage. Cotton is the best crop to overseed. Soybeans are considered the second best choice.

In cotton, on a wet fall season, the small grain does extremely well and aids the cotton crop by reducing the available moisture at a time when the cotton doesn't need it. This may improve the grade of cotton but no effect has been observed on the yields per acre. The small grain uses up the moisture, giving the cotton a better chance to dry down for harvest.

It appears that the small grain actually makes harvesting of cotton much simpler. The stripper slides along the grass cover with ease. Cannon checked the grades and yields of cotton from overseeded cotton versus cotton from clean cultivation. The grades were slightly better on overseeded plots, but there was no difference in yields per acre.

This practice is highly recommended by the Soil Conservation Service as an excellent control of wind erosion to cotton, and livestock farmers really like that extra, early pasture for those stocker cattle.

Bookmobile To Make Schedule

The High Plains Bookmobile Library will make its regular stops in the Friona area this week. Stops are slated on the following days:

Thursday, February 17: Oklahoma Lane, 9:00-10:00; Rhea Community, 10:45-11:45; Friona #1, 1:00-1:30; and Black, 1:45-2:45.

Friday, February 18: Hub, 8:45-9:45; White's Elevator, 10:00-11:00; Lazbuddie, 12:00-1:00; and Clay's Corner, 1:15-2:15.

Saturday, February 19: Farwell, 8:55-11:50; and Friona #1, 1:00-4:00.

Stockmen Have Reason To Dread Area Winters

To a city dweller, even a professional meteorologist or TV weather reporter, the preoccupation of ranchers and farmers with sky and wind must seem almost psychotic. It's hard to imagine how interested you can be in climate unless you're so completely at its mercy that a sudden change in it can bankrupt you.

And nowhere, at no time, do agricultural producers exhibit more anxiety about the weather than they do at this time of year from about Lubbock, Tex., to the Dakotas. Sudden blizzards through this great stretch of plains country have wiped out livestock fortunes in a week's time.

Take the first of January, 1949. Russell Hays, erstwhile San Angelo trader who had pyramided good deal upon good deal until he was handling sheep on

about as big a scale as anybody around, was feeling good. He was wintering over 16,000 lambs near Sydney, Neb. He'd sent them to wheat fields there in early November. Grazing was good, death losses were negligible, and it looked as if Russell, spending most of his time in San Angelo, could afford to bask in Phoenix or Florida if he liked.

Then on Jan. 2, a blizzard struck. For almost two months, the thermometer hovered around freezing or below as howling winds piled unceasing snow in impassable drifts. Russell hurried to Sydney, but that's as far as he could get. The snow was too deep to get out of town. The Air Force provided C-47 cargo planes which hauled hay from the Denver stockyards to drop on the 11 bands of Russell's

sheep scattered across the bleak wheatlands. He knew he was losing lambs by the hundreds, perhaps thousands.

Russell accompanied one of the planes from which GIs were to kick the bales. He was asked whom should be notified in event something happened to him during the flight. "Notify my banker," he said, giving the name of a Denver lender. "He'll sure be interested."

When the snow finally melted, insurance adjusters counted over 12,000 dead lambs.

A similar experience is vividly remembered by Charlie Waller of Roswell, N.M. He was wintering a large string of lambs in Kansas when the blizzard dumped deep snows which high winds turned into rooftop-high drifts. Hays was airlifted to his sheep, too. But relative-

ly few of the dropped bales did the stock any good; when the bales hit the snow they were buried and the wind quickly covered the holes where they landed. Out of several thousand lambs he put on the wheat, a remnant survived. He tried feeding these at his pens in Roswell as well as in the Cornbelt, but they never got fat. They'd suffered too much.

The most memorable cattle loss in recent history occurred in March of 1957 when a three-day blizzard left long untallied piles of dead animals through eastern New Mexico, the Texas Panhandle, southwestern Oklahoma and western Kansas.

That storm put many an old-timer to guessing as to how it could have killed so many more cattle than other far worse blizzards they'd weathered. Various ranchers told West Texas Livestock Weekly they figured the cattle suffocated as the snow melted around their nostrils and then were frozen in the bitter wind. Some New Mexico cattlemen said they'd performed autopsies of sorts and found "mud balls" in the throats of their stock.

The late George Blackstone of San Angelo, who wasn't in this blizzard but had seen a lot of bad storms in Oklahoma and Kansas, favored the suffocation theory. "It's sort of like sticking your head out of a car going 80 or 90 miles an hour," he opined. "The air's going past so fast you don't get any of it."

At any rate, rendering plants from far and wide couldn't haul in the dead cattle, so they were piled in huge trenches in the greatest livestock disposal operation since the buy-and-bury program initiated by Franklin D. Roosevelt during the Great Depression. Various government agencies, including the National Guard, were enlisted to help remove the carcasses.

Foster Zimmerman, agricultural agent in Union County, N.M., was pestered by farm reporters all over the country for an estimate of death losses. "I told them we weren't counting the dead ones," he said. "Hell, we're still trying to find out how many we have left alive."

Later, it was estimated 15,000 or more cattle died in Colfax and Union counties alone.

John and Jimmy Morrow, ranching in the Clayton area, lost all but 22 head out of a string of 325 choice quality heifer and steer yearlings, their own raising. Forest Atchley lost over 200 on his ranch near Gladstone, N.M. A short distance away, in the Sunray, Tex., area, various operators counted their losses in the hundreds. There were a lot of cattle on Panhandle wheat that year. Some owners found their part or all of their strayed cattle 25 miles downwind from their home pastures. Big losses occurred from near Amarillo to the Garden City, Kan. area.

That storm started out Friday, Jan. 22, in the form of a gentle rain, just right for the wheat, but turned to snow and sleet that evening. Cattle died for two days, then the weather became balmy. Only the hoofs and horns protruding from fencerow drifts gave hint that anything was wrong.

'Tightwad' Comic Has Heart of Gold

EVEN TIGHTWADS must turn generous when it comes to the battle against heart and blood vessel diseases, says Jack Benny, who more than 20 years ago helped raise more than a million dollars for the first Heart Fund Campaign. Still a "young" 39, Jack urges everyone to send a big check to this year's Heart Fund Campaign.

Patrol Investigates Accidents

The Texas Highway Patrol investigated 14 accidents on rural highways for Parmer County during the month of January, according to Sergeant W.F. Wells, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and nine persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for January, 1972 shows a total of 500 accidents resulting in nine persons killed and 217 persons injured as compared to January, 1971 with 467 accidents resulting in 17 persons killed and 235 persons injured.

Also during 1971, Lubbock County's 511 traffic accidents was the highest number recorded by any county of the Lubbock Department of Public Safety Region. Parker County ranked second with 429 accidents.

The nine traffic deaths for the month of January, 1972 occurred in the following counties: Lubbock, 3; Palo Pinto, 2; Cochran, Garza, Gray and Wheeler, one each.

Winning Conservation Essays Are Presented

First Place

Conservation-The Key To Survival

by Jackie Adams

When I sat down and thought about this topic, I began to realize just how important our natural resources really are. Also I began to realize how important the conservation of our water, soil, air, and even our wildlife is.

In past years when the subject of pollution would come up, I would turn off. I never thought it would affect me and as of yet it hasn't. But I have come to the realization that if we don't do something soon, our children might never know the true meaning of beauty.

I truly feel that our key to survival is conservation. Without our soil we would have nothing. Without our water we would be lost. Without our air we would be nonexistent. In so many places in our country people face a deadly crisis.

I am not blaming our parents for the problem we now face because it has been growing steadily ever since the first colony was created. Our books tell us that our larger cities chose to dump their waste into rivers and lakes at the time of their very creation.

I love my country and I feel that it is time to do something to preserve it. Day by day our resources grow smaller and smaller. Our supply of good fertile soil is running out quickly. No matter how much fertilizer or nutrients we put into the soil, it can never get back all it has lost.

The water, another vital part of our life, is continually getting worse. In Life magazine last year there was an article which listed all of the larger cities and rated the water supply of each according to its drinkability. The majority of these cities were facing a dangerous problem.

Our air is another resource

that needs to be considered. The amount of waste let off in our air each day is unbelievable. If something isn't done soon we will not have any air left to breathe.

Conservation, truly is "the key to survival" for us and for our children.

Second Place

by Barbara Griffith

"The Lord God took the man and put him in the garden of Eden to till it and keep it." The earth can be the garden God intended, fit for human habitation, only when man decides to support nature and wildlife instead of savagely destroying it.

Our air, water, and land are delicately balanced to support life. When this balance is broken through man's misuse and neglect, the damage done is irreversible. Man is becoming

self-annihilating as over population, pollution of air and water, land erosion, and wildlife extinction are threatening our very existence. Whenever we try to get more from our earth than possible, we are openly inviting disaster and eventually death. There is, however, one possible key to survival-conservation.

Man has used the soil to its fullest extent; the result is erosion. Man has exercised his carelessness by dumping wastes wherever satisfactory and blowing smoke and filth into the air, considering only his pocketbook; the result is pollution. And when we combine these man-made disasters, the result is wildlife extinction. Different species of wildlife face this peril daily.

When there is no water to drink, earth to live off of, clean air to breathe, nor food to eat, man may perhaps realize how

ridiculous and foolish he was to take everything he could from our world and not attempt to conserve or restore any of its natural possessions. However, it will then be too late. Conservation must take place now to avoid any more serious wastes and damages. Erosion, pollution, and wildlife extinction won't eliminate themselves. Man created them, he alone must stop them through conservation of our natural resources. A small amount of time and energy seem small prices to pay for a clean, healthful world. Conservation is the only possible solution.

Life was created by God for the benefit of man. God created the earth as a garden and man was placed in this garden "to till and keep it." Man bears the responsibility for the outcome.

Bovina Entrants Sweep Essay Contest Honors

The winners have been picked in the Farmer County Soil and Water Conservation District's essay contest. The topic for this year's essay contest was "Conservation-The Key To Survival."

All four winners were from Bovina High School. First place was Jackie Adams whose parents are Mr. and Mrs. Pierson Adams. Second place was Barbara Griffith, whose parents are Mr. and Mrs. Tom Griffith.

Third place was Brenda Joyce Dyer, whose parents are Mr. and Mrs. Travis Dyer. Fo-

urth place was Lea Looney, whose parents are Mr. and Mrs. Howard Looney. The prizes for the best essays will be presented to the winners at the awards assembly at the high school near the end of the school year.

This essay contest sponsored by the Farmer County Soil and Water Conservation District is a part of the Texas Awards Program sponsored by the Fort Worth Chamber of Commerce. Jackie Adams' winning essay has entered the Texas Conservation Awards Program and is competing for regional and state awards.

Missouri Beef Tells Of Expansion Plans

At a luncheon held in Boise, Idaho today, attended by members of the community, Missouri Beef Packers, Inc. headquartered in Amarillo, Texas, announced their expansion plans in Idaho for 1972.

A tract of land has been purchased nine miles southwest of Boise, Idaho. This will be the site of an ultramodern, multi-million dollar beef slaughtering and processing plant. Construction will commence in March, 1972.

The main structure will be of prestressed structural concrete and contain approximately 70,000 square feet of floor space. Slaughter capacity will be 4,000 to 5,000 head and breaking, fabricating and boning 2,500 head per week. Over 175 people will be employed at full production. Operations should commence in the first half of 1973.

The latest industry innovations and equipment will be featured in the slaughtering and fabricating operations. The plant will meet all standards of the Meat Inspection Division of the United States Department of Agriculture. It will also meet federal, state and local environmental control agency requirements.

The General Manager of the Boise Division will be Thomas M. Bevans. Mr. Bevans has been a resident of Boise for the past year. Prior to joining the company, he was a partner in St. Paul Dressed Beef and has over 25 years experience in the meat industry.

MBP was incorporated in 1964 at Rock Port, Missouri and operates beef processing plants in Rock Port, Missouri, Holton, Kansas, Friona, Texas and Plainview, Texas and is listed among Fortune Magazine's 500

largest industrial companies. The stock of Missouri Beef Packers is listed on the American Stock Exchange and the company reported sales for the year ended October 30, 1971 of \$303,997,615 with earnings of \$1,933,404 or \$1.69 per share.

In 1970, the Friona, Texas Division, was one of the six Texas companies that won the Governor's Industrial Expansion award and in 1971 the Plainview, Texas Division won Meat Processing Magazine's "Plant of the Year" award. The award was for outstanding achievement in construction, design, engineering, equipment, management in all production aspects and for the efforts made

visibly and otherwise to present the best possible image of a meat plant and company before the public.

RIDING THE DEVIL'S BACKBONE — An area of growing tourist popularity is the hill country southwest of Austin, where these two ranchers are riding along the Devil's Backbone, a scenic range of hills, not far from Canyon Dam Lake. President Lyndon B. Johnson's famed "LBJ Ranch," only a few miles north of the area, has served to focus motorists' attention to this region. (Photo Texas Highway Department)

FRIONA WINNERS. . . Larry Sanders poses with his steer which won first place in the medium-weight division of the 1971 steer show. Sanders' steer, an 840-pounder, was purchased by Bovina Feeders at a premium price of 80 cents per pound.

Stockman Discusses Trials Of Veterinarians

BY MONTE MOELKE

The lady pushed by to the veterinarian's reception desk in the finest supermarket style. She poked the lap dog nearly over the counter and said: "This is Ginger; she has a sore eye." Right after the lady introduced her sore-eyed dog, an old boy came in the door carrying a box full of puppies. I went out in the back. I didn't want to stand around waiting to hear the puppies' names.

While the vet was working on the dogs, I sat by the trailer with a saddlehorse that was foundering. Dog doctoring is time consuming, so I had plenty of time to study the new situation around veterinary clinics. I never had noticed before that you were supposed to introduce your patient to the doctor or his nurse. What sick cows and horses I've hauled to the vet's have remained anonymous. Most of them were so sick that all the good a name would have done was to provide a systematic way of marking their grave. Like most ranchers, I don't ever take anything to the doctor until it's so serious that a miracle wouldn't cure the side symptoms.

The horses at the ranch do have names. However, the riders don't use them. I imagine horses think their real names are monikers like: "You better watch your step, you John Brown sapsucker, you," or "All right you two-bit son of a show boat, you better stand up there before I . . ."

In front of company, the boys call them such names of endearment as "Pecos" or "Ramona." But when there's nobody around, those old ponies are called things that would make a mule skinner think he'd lost the use of the language.

When the vet finally got to my foundering horse, I told him the animal was named Jack of Diamonds, and that he had a belly-ache from breaking into the feed house and eating too much green hay.

Also I told him we'd start making up names for the cows we brought in. I realized it was going to be hard for a sheep and cow herder to stay up with the lapdog set, but I figured that ranchers were big enough outcasts without bearing the burden of being shunned at dog and cat gatherings.

The doctor must have been smelling too many sick dogs to be in a talkative mood. He didn't respond to the introduction. Jack of Diamonds was treated just like he was a nameless horse in a mass of 4 footed animals. I'd heard the healer sort of cooing to the poodle dogs inside, but his trailer side man-

ner with old Jack was on the borderline of indifference.

Veterinarians, you know, are as temperamental as song-writers. One time a long ways back, my Uncle Goat Whiskers asked a horse and cow specialist why he didn't move his clinic closer to the rendering plant. Whiskers had a good eye when it came to saving on freight. It was 15 years before the doctor was very friendly toward anyone in the family. I don't think Uncle Goat Whiskers ever tried to help a professional man after that incident.

Pet owners and herders are going to be hard to integrate around the animal hospitals. The only trait they have in common is that dogs and cats don't make any more money than sheep and cows do. I guess those common grounds may draw us all together.

Jack of Diamonds got over his illness and returned to the ranch in time to get cut up in some wire. This time, however, he's going to have to be cured by father nature, because I don't think either one of us is too popular in town.

Area Households To Be Canvassed On Employment

A number of households in this area will be interviewed during the week of February 14 for a survey of employment and unemployment conducted by the Bureau of the Census, Walter A. Freeman, Jr., Director of the Bureau's Data Collection Center in Denver, announced today.

The local interviewer who will visit households in the Friona area is Laura Hart.

This is a monthly survey conducted nationwide by the Bureau for the U.S. Department of Labor. A sample of households is scientifically selected to represent a cross section of all households in the United States.

The employment and unemployment statistics which are based on results of this survey are prime indicators of the economic health of the Nation. The December survey showed that 80.2 million persons were employed and 4.7 million unemployed. After allowance for usual seasonal patterns, both were virtually unchanged over November.

Information supplied by households participating in the survey is confidential by law and is used only to compile statistical totals.

LET'S COMMUNICATE!

THE MOST MASSIVE LIVING THING ON EARTH IS A GIANT REDWOOD TREE NAMED "GENERAL SHERMAN" STANDING ALMOST 275 FEET HIGH, THIS PULPY BEARMOOTH LOGGING RESULT WOULD REACH 22 FEET OF TIMBER - ENOUGH TO BUILD 35 FIVE ROOMED BUNGALOWS!

AMERICAN INDUSTRY CONSTANTLY STRIVES TO PRESERVE OUR WOODLAND ECOSYSTEM. IT'S REPAIRS DIVISION MARKS AND REPLANTS TREES FROM ONLY ONE YEAR OLD TO ITS 250,000-ACRE "TREE FARM" AND RECEIVED A SPECIAL AWARD FROM WASHINGTON STATE FOR DREAMING UP OTHER AREAS FOR PUBLIC ENJOYMENT!

WHITE'S 'Magic 50' WIDE TREAD 'SAFETY-GLAS'

Guaranteed 44,000 MILES!

4 PLUS 2 - Four plies of "steel strong" polyester plus two tough fiberglass belts gives six plies on the road surface for the absolute ultimate in safety. **GREATER MILEAGE** - The fiberglass belts prevent the tread face from contracting and expanding, thus eliminating tread wearing squirm. **GREATER STABILITY** - The wide 78 series low profile combined with the fiberglass belts gives a more stable tire, easier handling and greater high speed capabilities. **REVERSE MOLDED TREAD** - Uninflated tread curves inward—inflated comes out flat. Specialized shaping adapted from race tire building technique.
