We hear that it has been just as dry in Ruidoso, N.M., as it had been in the Friona area prior to this week. In fact, that community has requested its residents not to use municipal water for lawns, flowers, car washing, etc.

The city officials have also requested that all commercial car wash operations and service stations refrain from washing cars (we'd be right in style), and restaurants have been requested not to serve drinking water except when requested by customers.

The residents of that New Mexico resort city apparently are taking the emergency rules in stride. However, it prompted one restaurant owner to say that if it got any worse he was going to serve coffee grounds to his customers and tell them they'd have to "chew it and like it."

A recent article in the Mid-Continent Banker magazine dealt with the problems facing small towns, and what town leaders can do to keep the small town from slipping "into oblivion."

The article pointed out that between 60 and 70 million Americans live in towns under 10,000 population. There are some 7,697 communities of under 10,000--and 6,303 under 5,000. This is the bracket into which Friona falls.

The author of the article pointed out that the key to a community's long-range survival is jobs. Friona would seem to have bridged this important problem, with the addition of Missouri Beef Packers, the feedlots and other related industries and businesses.

The availability of jobs should continue to be good, as other industries to service the cattle and packing industries are envisioned for the future.

However, the writer warned that without modern retailing facilities, long-range survival for a community may not be possible, in spite of everything else a community may have going for it.

The author posed questions concerning the plans of present businesses to continue, after the present owners and operators retire. He asked the following questions:

(1) How many businessmen in your town are nearing retirement age? (2) How many of these businesses will be continued by second-generation, capable family members. (3) If there are no qualified family successors, do these merchants have anyone working for them who might run the business in the future?

Other questions asked were the following:

(4) What kind of selection do customers in your area have for products in the following classes: men's, women's and children's clothing; shoes for the entire family; major appliances; hardware-housewares-sporting goods; drugs; food; furniture?

(5) How much shopping for stylish or big-ticket items do townspeople do outside your town? (6) How many local merchants have modernized their shopping facilities (or enlarged them) within the past five or 10 years?

The writer urged Chamber of Commerce leaders to take the lead in seeing that the retail area of the community receive a facelifting if it were needed.

Some work has been done along this line, but if you look around, you'll agree that much more could be done.

The writer asks one final question which hits Friona right square between the eyes: "What is happening to presently vacated and deteriorating buildings? Are they being left as ever-present, ever more ominous eyesores to consumers, discouraging shopping visits and portraying a dying instead of a living community? Perhaps these buildings should be torn down and the sites converted into needed parking areas to supplement that always-limited on-street parking.

These are all problems that face the city of Friona. Someone in business, or perhaps a committee from the Chamber of Commerce, needs to be working on the problems stated.

Tourney Games Are Re-Set

Because of the rain, Tuesday's second semi-final game in the Senior Little League tournament was postponed to 5 p.m. Wednesday. That game pits Tucumcari against Las Vegas, N.M.

The Tri-City team will meet the winner of that game at 6 p.m. Thursday for the district championship.

Machine To Be Exhibited

Bill Pankratz, a Pee-Wee League manager, will hold a demonstration of the "T-Ball" system prior to Saturday's All-Star game.

The system uses a pitching machine, and is used in some areas for Pee-Wee age leagues, eliminating the pitchers. This keeps a top-notch Pee Wee pitcher from dominating the young league.

WITH 8-5 WIN

Local Stars Gain Tourney Finals

Two four-run outbursts and some good pitching by Ronnie Stone and David Dannheim carried the local Tri-City All-Stars to an 8-5 win over the Raton, N.M. All-Stars in the opening game of the District 3 tournament for Senior Little League here Monday.

The win by the local team sent it into the finals of the tournament this Thursday at 6 p.m., against the Tucumcari-Las Vegas winner.

Champions of the district to-

urnament go to the New Mexico state meet for Senior Little Leagues, to be held at Silver City, N.M. the weekend of July 29-31.

The Friona-Bovina-Farwell pitchers threw hitless baseball for six of the seven innings, as the Raton All-Stars got all of their hits and runs in a five-run fourth inning.

But the local stars batted around in both the fourth and sixth innings, scoring four times in each inning for the win.

Ronnie Stone, who starred for Bovina's Charles Oil during the regular season, started on the mound, and had the Raton batters eating out of his hand for three innings, in which he faced just 10 batters.

The curve-baller struck out seven batters, but became wild with men on base in the fourth inning when Raton bunched all four of their hits around a pair of walks for a five-run rally. Tri-City had taken the lead in the top of the inning when Raton 000 500 0--5 4 Randy Harrison opened with a single and stole second. Randall Snyder singled, but Harrison had to stop at third. With

runners on second and third, Kevin Hargrove hit a sharp ground ball that Raton's second baseman couldn't handle, and both runners scored for a 2-0 lead.

Singles by David Dannheim, Freddie Dale and Stone scored two more, and the locals had a 4-0 lead.

But the lead was short lived. After Stone struck out the lead-off batter, he ran into trouble. Four singles, two walks, an error and a wild pitch led to five runs, as Raton toned down the local rooters with a 5-4 lead.

In the top of the sixth, Hargrove led off with a single, and then was balked to second by Raton pitcher Ricky York. Brigham singled sharply to right, scoring Hargrove with the tying run. Dannheim then slammed a line drive that got away from the right fielder, scoring Brigham with the lead run and he went to third. Dale rifled a single to score Dannheim, and Harrison got his third hit of the game before the inning was over.

Dannheim came on in the fifth inning for Stone, and pitched hitless ball to finish up.

He hit a batter in the fifth with two out, and walked a man in the sixth but the Raton hitters never were able to savvy his left-handed offerings. Dannheim put the side down one-two-three in the seventh, striking out two, including the final batter.

In all, the local all-star pitchers struck out 13 batters. Their mastery of the game is seen in the fact that the pitchers accounted for 15 of the 21 outs, and outfielders had no put-outs.

V.E.E. Vaccinations Keep Vets Hopping

The Venezuelan Equine Encephalomyelitis quarantine has had horse owners and veterinarians in the Friona area jumping this week.

The main concern locally has been the procurement of the vaccine, which finally was accomplished, and the vaccination program is now well underway. Dr. Gary Cash, Friona Veterinarian, has been on the move early and late for the past week, and as of Tuesday had accounted for some 700 vaccinations.

Dr. Cash urges all owners of horses, mules or donkeys to have their animals immunized, whether they feel the animals are worth saving or not. "Because of the nature of the disease, it is imperative that every horse be vaccinated," Dr. Cash said.

The vaccine will be administered free if owners bring their animals to the Friona Veterinary Clinic.

Owners are also asked to watch their animals for any unusual sickness, and report them to their veterinarian.

Except for bringing horses to the clinic for vaccinations, they are not to be moved, according to the state quarantine.

The first supply of vaccine was secured by Dr. Cash, who flew to Amarillo for the vaccine. The reason for flying, he explained, was because the vaccine is mixed at the time it is dispensed, and it has a life of 12 hours during which it must be used.

Dr. Cash received 100 doses at Amarillo on Sunday, and returned to Friona and worked all day in administering those vaccinations. At that time, it had been ruled that animals

CROPS AIDED

Fall Tops 2-Inch Mark In Vicinity

That scurrying sound you've been hearing is the farmers of the area, getting off for one last trip for the summer.

A slow, soaking rain fell in Friona and its adjoining farmland territory Tuesday, bringing welcome moisture to farm crops, and allowing irrigation farmers to give their pumps a needed rest.

The rainfall, apparently heavier to the south and west of town, left amounts of up to two inches on many farms.

The beauty of the rain was in the way it fell--every drop soaking in.

Rain began in the city of Friona about 2 a.m. Tuesday, and continued intermittently during the early morning hours. By 8 a.m., a total of .9 inch had been measured in the official city gauge. Another .2 inch fell during the morning Tuesday, and a measurement of .12 inch was received in the early morning hours on Wednesday.

Rain is always needed in the summertime, but this one was timed just right in many ways. Many farmers with cotton were needing to give their crop an irrigation, and were finding it

hard to work it in, as much water as the grain crops are requiring.

The rain did the job for them, and in many cases, may provide all the moisture the cotton will need this season.

Rainfall was evidently heavier to the south and west of Friona, and somewhat lighter to the east. At Black, for example, the two-day total was 1.3

inches. Gene Welch and Doyce Barnett had .75 inch Tuesday morning.

To the south, Hub received 2.5 inches, and Lazbuddie got a two-inch rain.

To the west, Cordie Potts and Jim Dixon in the Rhea Community both reported two inches. Closer to town Ralph Wilson also had two inches.

At Bovina, the two-day total was 1.8 inches. Sherley-Anderson Elevator at Farwell measured 1.3 inches, but the city of Farwell had only .8 inch.

Yearbook Gets Supplement In

Mrs. W.L. Cleveland announced this week that the 16-page summer supplement to the 1971 Chieftain Yearbook of Friona High School has been received, and will be handed out to annual subscribers at the high school next Monday and Tuesday.

Those who purchased yearbooks are asked to pick up their supplement between the hours of 8 a.m. and 12 noon or 1-4 p.m.

McLean Is Friona Manager For MBP

Howard McLean, 37, is the new general manager of Missouri Beef Packers' Friona Division.

McLean replaced Dave LaFleur, who became company president on July 1, and has moved to MBP's Amarillo office.

McLean, who has 15 years experience in the packing industry, comes to Friona from Emporia, Kansas, where he was manager of the slaughter division of Iowa Beef Packers. He had been with Iowa Beef slightly over four and one-half years.

Previously, the new MBP manager was with John Morrill & Co. for approximately 10 years. With the Morrill Company, McLean served in various capacities, including cattle buying, beef sales, and managed a small plant in Ohio for the company.

"We are real happy to be with Missouri Beef Packers," said McLean, adding that it was his first time to be in the state of Texas.

"I've never been anywhere

HAPPY STARS... Six members of the Tri-City all-stars have a strategy huddle with Coach Bill Brigham. Those shown are Freddie Dale, Randy Harrison, Danny Waggoner, Paul Brigham, Ronnie Stone and Eddie Waggoner. Stone was the starting pitcher in Monday's game. Harrison, Brigham and Dale accounted for seven of the team's 12 hits.

Pause and Reflect

By Nelson Lewis

One cannot but wonder why the dread VEE that is destroying so many Texas horses was not stopped somewhere south of the border.

Surely we have sent enough money down to the good neighbors rat-hole to avoid reaping such a grim harvest.

The Department of Agriculture says the vaccine is still somewhat of a gamble, but if that's the only hand we draw in this game of chance then that's the one we must play with.

It must be stopped because Texas without horses defies the imagination.

While we are looking for a means of prevention let's look also at the true worth of these give-away programs: in this writer's opinion the spread of this disease is a good example of the United States trying to buy cooperation and friendship.

A ban on the movement of Texas livestock is not exactly a new venture in controlling disease.

Time was when Texas cow writers were as unwelcome in Kansas and Missouri as a skunk at a picnic.

In his splendid book, "The Longhorns," J. Frank Dobie cites several incidents relating to what was known in the late 1800's as "Texas Fever," "Tick Fever," "Spanish Fever" and "Trail Fever."

Throughout the north and east there existed a marked prejudice against Texas cattle due to a misconception concerning the ailment that felled hundreds of out of state animals.

The native Longhorn, born and bred in South Texas, had developed an immunity toward a tick whose bite spelled doom for "foreign" cattle.

As these cows trailed northward ticks fell, or were brushed from their bodies only to find a new home on cattle raised in more northerly climates.

The natural assumption was that Texas cattle were diseased and their flesh poisonous.

A traveler from the east made this entry in his diary-- "Nov. 4, 1870--halted at a rocky branch for lunch. Here an old Indian has half a beef dressed and hung on some saplings. The boys were afraid to buy any of his beef for fear it was diseased Texas beef out of some of the droves passing."

True to form legislators found it easier to pass laws against the Texas herds than to demand the research that would have eliminated the problem.

Things got so bad that in 1873 Missouri passed a law that no Texas cattle could come into the state unless they had spent at least one winter north of the Red River.

This wintering north of the Red was supposed to destroy the ticks due to their inability to propagate in the frigid climate.

Dipping entire herds to kill ticks was not compulsory until 1922.

Every rancher had to dip all his cattle every fourteen days or as an alternative remove all animals from a pasture for a period of seven to eighteen months.

Friona Flashbacks

...from the files of the Friona Star

45 YEARS AGO--JULY 23, 1926

We are informed by D.H. Meade that his plans are practically matured for the installing of a hatchery at his home in the north part of town. He plans for a 4,000 egg incubator and expects to have it ready to place baby chicks on the market by the first of the coming year.

35 YEARS AGO--JULY 24, 1936

A head-on collision which occurred on Highway 33 somewhere between Black and Summerfield Sunday afternoon came near ending the lives of seven Friona people and three youths of the Black Community. Mr. and Mrs. Tom Galloway and baby daughter; Mr. and Mrs. Henry Lewis of Friona, and Mrs. Charles Luna and daughter of Dallas were enroute to Canyon when hit by a car driven by the young man, whose names are not available. None were seriously hurt.

30 YEARS AGO--JULY 25, 1941

The members of the Panhandle-Plains Historical Society, and the city of Canyon will inaugurate a Victory Campaign, for the completion of the proposed addition to the present building, which now houses the Panhandle-Plains Museum. The museum has sponsored a drive to have bricks donated for the construction of the addition, and to date a total of 175,000 bricks have been received. Friona has been invited to participate in the campaign.

25 YEARS AGO--JULY 19, 1946

Margaret Staats, 13-year-old Summerfield girl who was critically injured on July 6 when a gun was accidentally discharged, is reported to be recovering satisfactorily in Dallas' Baylor Hospital, and will probably be released from the hospital within a few days. Miss Staats underwent an operation to remove a .22 calibre bullet from her spinal column.

20 YEARS AGO--JULY 19, 1951

Water users will have an opportunity August 9 to say whether they think the State Board of Water Engineers should create an underground water conservation district in the Panhandle-South Plains.

The Allen Stewart family and the B.W. Turner family are vacationing together in Colorado this week. Mrs. Roy Miller is operating the jewelry store in the absence of the owners.

15 YEARS AGO--JULY 19, 1956

Contract for Friona Wheat Growers' new 1,000,000-bushel expansion has been awarded to Chalmers & Borton Construction Company of Hutchinson, Kansas, it was announced this week. Construction will begin in the near future. The addition will be built along the Santa Fe track in a westerly direction.

10 YEARS AGO--JULY 20, 1961

Plans for Friona's Country Club building have been completed, and within the next week the board of directors will start seeking bids on the structure. The proposed clubhouse, on which bids will be sought, will be constructed of brick veneer. Overall dimensions will be 41 x 82 feet and will include a 41 x 82-foot social room, pro shop, cloak room, kitchen and rest rooms.

5 YEARS AGO--JULY 21, 1966

Cecil Maddox of Whiteface has been employed as head boys basketball coach in Friona, it was announced this week. Maddox replaces James Anglin, holder of the position the past two years. Maddox will also be a math instructor at Friona High School.

Cedar City, Utah, Iron County Record: "Once upon a time there was a teacher who didn't want an increase in pay; a carpenter who didn't ask for union wages; a man who healed the sick and afflicted whether they had insurance or medicine or whether they didn't; who traveled around the country feeding the people, and they crucified him."

Ticks infesting the ground--without hosts to feed upon--would die without issue.

The majestic Longhorn--the savior of Texas economy--the most picturesque of all nature's brutes--the symbol of Texas, has been preserved in a magnificent herd that may be seen in the Wichita Mts. Wildlife Refuge in Oklahoma.

Hopefully the efforts of today's skilled scientists will prevent the world-famous Texas Cow Pony from suffering the same fate as the Longhorns.

Congratulations!

If you read Sue Coleman's column in the Hereford Brand, you can skip the next few paragraphs.

I always enjoy reading them, but a recent one was especially interesting, so I'm borrowing it.

"It surprised me lately when a young friend from another city, planning to be married during this month of brides, said sensibly but regretfully that she and her fiancé had decided it was not to just go to a justice of the peace for the wedding.

"They didn't want to spend all their money and go in debt for a "real wedding," she continued, since they are still in college, earning their own way. Her mother, a widow with slender resources and younger children, could not afford and did not have space for even a home wedding.

"Since she seemed to feel that a civil ceremony was not what she wanted for her wedding, I surprised her in turn by asking why they didn't simply go to the pastor's study at her church to be married, or ask the minister to marry them in the college chapel, or even come to her mother's home with only the immediate family in the small living room.

"None of those possibilities had occurred to her. She assumed that there were "real weddings" in church or in a spacious home, with long white dresses and veils and flowers and candles and music and a reception and guests, or else the alternative was a civil ceremony in a justice's office.

"A recent note from her said happily that the couple had decided to be married in the minister's study, and I'm sure she will remember her wedding for the rest of her life with more pleasure.

"Not that a justice of the peace doesn't sometimes provide a dignified wedding service in a neat office, and sometimes a couple has a friend who is a justice of the peace, and want him to conduct the wedding. But those are exceptions, I think, and a hurry-up wedding in a grubby office is nothing to be remembered.

"But after talking with my friend, I wonder how many other couples are planning weddings they can't afford, or the kind they don't really want, because customs in recent years have almost obliterated the in-between kind.

"A trend back to home weddings is evident the last year or two, and I hope it continues. And also I hope more brides will realize that there are other simple weddings that can be beautiful, no matter what the purveyors of wedding dresses and trimmings say.

"I'll even give my blessing to those hippie couples who want to go out into the forest at daybreak and recite poetry to each other.

"They actually don't have something brand new; in pioneer days in this country there was something of a fad for couples to drive up to the minister's house in a buggy and be married sitting outdoors. And I knew one couple married on horseback out on the prairie by moonlight.

THE GOOD NEWS... City manager Jake Outland got a rare opportunity this week to use the measuring stick at the official U.S. Weather station, and measured 1.22 inches in Friona on Tuesday and Wednesday.

Building Permits Slow. Compared To 1970

Only five building permits were issued by the City of Friona during the month of June, for construction estimated at \$35,500.

The total construction represented by building permits for the year stands at \$273,150. This is considerably below the totals for the first six months of 1970, which was enroute to a record year with totals over a million dollars, including an apartment complex and a new bank building.

The totals for the month of June included two new residences worth an estimated total of \$26,300; a move-in residence valued at \$8,000 and three additions/alterations worth a combined total of \$1,200.

Other monthly figures released this week by City Manager A.L. (Jake) Outland showed that water consumption during June leaped upward, averaging 1,157,813 gallons per day--up 292,519 gallons per day from the May figures. This was in spite of the fact that the city received its best moisture of the year during June, a total of 2.18 inches.

Only one new water service was added during the month, making a total of 1,259 active services as of June 30. Concurrently, one new sewer tap was made, placing this figure at 1,222 at the month's end.

Police department records showed a decrease in the number of arrests from the previous month, to 23. Once again, the majority of these were for traffic violations (16). Also, there were four arrests for being drunk in public; two illegal aliens and one military person, absent without official leave.

Seventeen complaints were investigated, ranging from thefts to vandalism. Two automobile accidents were investigated during the month, with no injuries.

Three days were required by street department personnel during the month of June in hauling limbs from the streets of the city following the storm of June 11.

Scouts Get Merit Honors

Members of Boy Scout Troop 56 received merit badges in an informal ceremony last Saturday morning.

Scoutmaster V.R. Wilcox presented a Star award to Mickey Harrelson, and a first-class badge to Chuck Rector.

Second-class medals went to Gary Rector, Doug Norwood, Johnny Jones, Joe Jones, Noel White and Bryan Witten.

Tenderfoot badges were awarded to Juan Perez, Terry Wilcox, Gerald McCall and Phillip Hand.

Assisting with the presentation was assistant scoutmaster, Ray Dean Fleming.

Members of Troop 56 left Friona on Sunday for a week's camping trip to Camp Don Herrington.

PROGRAM ENDS

All-Star Contests Scheduled Saturday

The annual all-star games for the Intermediate League and Pee-Wee League will be held on Saturday to climax Friona's summer baseball program for 1971.

The Pee-Wee League will play a six-inning all-star game beginning at 6 p.m. The Intermediate League game, eight innings, will follow. Between games, the "Most Valuable Player" awards will be given for the two leagues.

Ronald Smiley will serve as announcer for the game. Waymon Wilkins will be the plate umpire for the Pee-Wee League game, and Larry Dyess will umpire the Intermediate League contest.

Ray DeBord, summer baseball director, this week announced the players chosen by managers for the all-star squads. They are as follows:

Intermediate League
Friona Star--Mitchell Smiley, Jody Menefee, Randy Waggoner, Mark Neill, Koty Kothmann and Raul Brailiff; Reeve Chevrolet-Olds--Jerry Martin, Edward Castillo, Keith Martin, Cliff McLellan, Rick Chavers and Wade Jameson.

Friona Feed Yard--Leslie Broadhurst, Lester Aven, Bryan Snyder, Bryan Johnston, Jesus Mata and Clint Mears; Friona State Bank--Terry Wilcox, Don Maynard, Mike Blackburn, Todd Bandy, Bobby Waters, and Joe Lafuente.

Pee-Wee League
Hi-Pro--Darcy Renner, Tirso Carrillo, Jimbo Evans, John Hodges; Tasty Cream--Mike Hutson, Chuck Nichols, Ernie Castillo, Hugh McCann, Friona Parts and Service--Ky Graham, Phillip Veazey, Pat Reznik and Gary Schueler.

B-J Bees--Joel Hight, Randy Richards, Curt Miller and Darrell Polk; Farmer County Implement--Roy Brito, Dan Adkins, Kirk Frye and Eddie Wilkins.

Piggly Wiggly--Chris Barnett, Kyle Barnett, Toby Strick-

land and Gary Looper; Ethridge-Spring--Jeff Peak, Park Weatherly, Rod Owen and Bernabee Aragon.

In the Pee-Wee League, players from the first, third, fifth and two from the seventh-place teams will meet those from the second, fourth, sixth and two from the seventh.

In the Intermediate League, all-stars from the first and fourth place teams will meet those from the second and third.

Members of first and second-place teams in each league will receive trophies, and members of the all-star teams will get awards.

DeBord was hoping on Wednesday to be able to complete all Pee-Wee League scheduled games by Friday to keep the all-star game on Saturday. If games are rained out, the all-star contest will be re-scheduled for Sunday or Monday.

TOPS STAR, 14-4

Reeve Clinches Title In Intermediate Loop

Reeve Chevrolet-Olds wrapped up the Intermediate League title for all practical purposes with a 14-4 win over Friona Star last Tuesday in the showdown game between the two teams which had been tied for the league.

Koty Kothmann had a two-hit shutout going in the third inning and a two-run lead when Reeve's bats began to boom. Reeve tied the score at two-all, and had the bases loaded when Jeff Whiteside took over on the mound.

Edward Castillo greeted Whiteside with a double that cleared the bases and gave Reeve a 5-2 lead that it never was to lose.

Three more runs scored before the side could be retired, and Reeve held an 8-2 lead.

The Star had taken a 2-0 lead in the second inning on a single by Jody Menefee, a stolen base, a double by Joe Bermeas and a ground ball.

Reeve, meanwhile, came back to bat around and score six more

runs in the fourth for a 14-3 lead. The Star scored once in their half of the fourth, so the game was called after four innings by the ten-run rule.

In the other Intermediate League game during the week, Friona State Bank surprised Friona Feed Yard with a 23-0 win, as Don Maynard pitched a four-inning no-hitter at the Feed Yard in another game shortened by the ten-run rule.

Maynard faced the minimum number of batters (12) in his four innings, striking out seven.

The Bank erupted for ten runs in the third, sending 14 men to the plate. Doubles by Alan Monroe, Mike Blackburn and Terry Wilcox were the big blows.

The Bankers came back the next inning to score 11 more runs, as their long-range shots were by Joe Lafuente, Monroe, Maynard and Bobby Waters. The Bank had 13 hits for the game.

ALL-STAR HARDWARE... Ray DeBord proudly displays the handsome trophies which will be given out during Saturday night's all-star baseball games. On the left, he displays the trophies for first and second place team members. The handsome plaque will be awarded to each member of the all-star team, and the fourth trophy is the sportsmanship award, one for each league.

MAD SCRAMBLE

Pee-Wee League Race Is Closest In Several Years

The closest Pee-Wee League race in many years entered its final week of play this week in Friona, with Piggly Wiggly clinging to first place, and all of the other six teams having a shot at second place.

Seems like every team in the league is capable of beating any other team on a given night, as results in recent games have shown.

Only one game separated six

teams in the league going into the final week, and practically every place in the standings was up for grabs.

Friona Parts and Service, which has been the most improved team during the second half, rose up to swat Piggly Wiggly, the league leaders, 28-14 last Tuesday. The Pig-Wigs, who were 5-1 for the first half of league play, are 2-2 for the second half, but still lead the league.

Friona Parts scored 10 runs in the third and 13 in the fourth in the wild game, sending 45 men to bat in four innings. Tasty Cream, the second-place team, missed a chance to move up to first place, when Hi-Pro came up with a 17-5 win, on a no-hitter by Tirso Car-

rillo. Darcy Renner socked three doubles for the winners, who were scoring their fifth win of the season and making for tighter standings.

In other games, Farmer County Implement scored its fifth win, an 11-10 decision over Ethridge-Spring.

Continuing their surge, Friona Parts downed the B-J Bees in a makeup game on Wednesday, 7-5, as Phillip Veazey had two hits and a pair of runs. Gary Schueler struck out eight B-J batters.

Not to be outdone, Ethridge-Spring scored a 12-1 win over Hi-Pro on Thursday. John White, Jeff Peak and Park Weatherly each had a pair of hits. Weatherly held Hi-Pro to only two hits.

DAVID PRUITT

Electric Co-op Names Sales Coordinator

James Hull, General Manager of Deaf Smith County Electric Cooperative, recently named David Pruitt to the position of Sales Coordinator for the firm's four county service area.

In Hull's announcement, he commented that as the agricultural picture changes and progresses, so must the rural electric systems that serve it. We, at Deaf Smith County Electric Cooperative, feel that we must work more closely with the farmer right in his business office which is the farm and/or ranch. The farmer and rancher in this era of time simply does not have the time to come to us to discuss his electrical needs, so we must go to him. Pruitt, in his duties, will help us accomplish this need as most of his time will be utilized in making personal calls on the agricultural producer—right out where it all begins—at the farm or ranch.

DAVID PRUITT

Pruitt and his wife Patricia are natives of Celeste, Texas, where both graduated from Celeste High School. Pruitt attended Kilgore Jr. College and graduated from Texas A&M University, receiving his B.S. Degree in Agricultural Economics. He received his Masters Degree in Agricultural Economics at Texas Tech University. He holds membership in National Honor Societies of Omicron Delta Epsilon in Economics, and Gamma Sigma Delta and Alpha Zeta in Agriculture.

Mrs. Pruitt attended East Texas State University where she received her B.S. and Masters Degrees in Education. She will be associated with the Hereford School System as special education teacher, beginning with the fall semester.

Mr. and Mrs. Pruitt have established residence at 436-B, Avenue B in Hereford.

HARVEST UNDERWAY. . . . Potato harvest was underway in the Friona area this week. The digger shown above was on the Bruce Parr farm. Parr reports that early indications are for a good yield, and one of the better grades for potatoes in many years.

Local Couple Attends National Meet At NYC

The eighty-fourth annual session of the United Commercial Travelers of America was held last week at the Americana Hotel, New York City, with Supreme Counselor (International President) Kenneth P. Fallon, Jr., Quincy, Massachusetts, presiding.

More than 2,000 officers, delegates, wives and guests from forty-eight states and ten provinces of Canada are registered for the session and will attend the Supreme Counselor's banquet Wednesday, which will highlight the event's social activities.

Attending from Friona were Mr. and Mrs. Carl R. Mason. The Fraternity's Number One International Civic Project is Aid to Retarded Children. The

ough this program, it has granted more than 2,500 scholarships the past nine years to teachers who wish to further their education in the field of mental retardation to better serve in the training of Exceptional Children.

In their own communities, members have contributed more than a million dollars and as many man hours promoting programs for Retarded Children and Sheltered Workshops, purchasing materials and equipment to be used in the promotion of educating and training these children to be useful and, often, self-supporting citizens.

A German manufacturer is developing a short range, small twin jet transport aircraft that will have a range of about 400 miles and will cruise at about 450 miles per hour. perience that will be invaluable to our membership, Naman said.

Mike and his wife, Darlene, have moved to Waco with their three children, Kent, Jamie, and Christi. They reside at 1906 Berlinger Avenue.

Hancock Taking ROTC Course

Cadet Mac W. Hancock III, 21, a graduate of Friona High School, is receiving six weeks -practical work in military leadership at the Army Reserve Officers' Training Corps advanced summer camp at Ft. Riley, Kansas from June 5-July 16.

Hancock, who is attending Tulane University, School of Law, New Orleans, La., is one of more than 13,000 students attending ROTC summer training at six installations in the United States.

The Army ROTC advanced camp is devoted to the practical application of leadership principles. Field training emphasizes the exercise of command and the making of sound decisions under pressure. These lessons reinforce the essential mission of Army ROTC—to provide the nation with young men who have excellent civilian educations and who voluntarily qualify themselves during their student days for commissions in the Army.

Bookmobile To Make Schedule

The High Plains Bookmobile Library will be in the Friona area on the following dates: Wednesday, July 21: Needmore, 10:00-11:30; Stegall, 12:00-1:00; Enochs, 1:30-2:30. Thursday, July 22: Oklahoma Lane, 9:00-10:00; Rhea Community, 10:45-12:00; Black, 1:15-2:30. Friday, July 23: Hub, 8:45-9:45; White's Elevator, 10:00-11:00; Lazbuddie, 12:00-1:00; Clay's Corner, 1:15-2:15. Saturday, July 24: Farwell, 8:45-11:45; Friona, 1:00-4:00.

Venezuelan equine encephalomyelitis (VEE), swept into Texas last week causing a statewide quarantine on all horses. The disease has been moving up from Venezuela through Central America for the last few years. VEE is an infectious disease of the central nervous system of horses. In some instances the mortality rate is as high as 80-90 percent. Transmission of the virus to man and animals is through bites of infected mosquitoes. Symptoms include a rapid rise in body temperature up to 106 degrees accompanied by a rapid pulse rate, loss of appetite and depression. Often the animal will walk in circles until it falls down. Death may occur in six to eight days. Also, a horse may hang its head, press its head against objects, assume a cross-legged stance, show a drifting gait or appear drowsy. Positive diagnosis of VEE is possible only after laboratory tests because it resembles two types of encephalomyelitis commonly found in the United States.

keep down the mosquito population. So far, South Texas is the hardest hit by the virus, with several hundred cases appearing in less than a week. Vaccine is supposed to be available in the Panhandle this week.

In speaking of the crops situation this week, the biggest news is the continued buildup of corn and grain sorghum in fields in various parts of the county. Last week, some minor mite infestations were seen in grain sorghum. Producers should be on the watch for mite buildup in fields where plants are water stressing or in fields that have been sprayed several times for corn leaf aphid and greenbug control. The mites are about a month early this year and are attacking corn fields before moving into milo. Buildup can be very rapid on milo, regardless of growth stage or amount of water available.

Areas around horse barns and houses where mosquitoes can multiply should be sprayed to

Farwell Man Appointed Naman's Chief Assistant

The Texas Farmers Union state office has announced the appointment of Mike McManigal as Administrative Assistant to president Jay Naman in Waco. McManigal's previous assignment with Farmers Union was as a fieldman in a seven-county area of the Rolling Plains. He was located at Merkel.

McManigal is a native of Farwell, where he attended public school. He received a BS degree from West Texas State University in 1963.

Prior to his employment with Texas Farmers Union, McManigal was employed by the Agricultural Stabilization and Conservation Service of USDA.

He served as the County Executive Director for ASCS in Silverton for three and one half years. Prior to this McManigal served three years in the Parmer and Reagan-Upton County ASCS offices.

In announcing the employment, Texas Farmers Union president Jay Naman said that McManigal's assignment to the position of Administrative Assistant would enable the statewide general farm organization to expand its legislative and membership service programs. "Mike has a tremendous background in farm program administration. He brings to the Farmers Union a wealth of ex-

Konis Art Workshop To Be In Ruidoso

Gallery III, in Ruidoso, New Mexico, will present Tom Knapp and Ben Konis in a two-man exhibit, opening Saturday, July 31, through August 16. Tom Knapp is noted for his exquisite work in sculpture and jewelry, and Ben Konis has exhibited widely in the Southwest and is known for his portrayals of the Navajo and Taos Indians and their lifestyles of today. Both artists exhibit year-round with Gallery III.

Konis has just recently returned from a research trip in Mexico, and his Mexican Village scenes and figures will constitute a major portion of his display, along with his Southwestern Indian figures and portraits. Mr. Konis paints in both pastel and oil media, stressing vibrant color use and bold application.

In addition to the Gallery III showing, both Konis and Knapp will conduct workshops at Carrizo Lodge in Ruidoso during August. The Konis Workshop runs August 2-16 and the Knapp Workshop runs August 19-27. At the completion of Mr. Konis' workshop, he and his family will return to San Miguel de Allende, in Mexico, where he intends to continue painting and studying in that colonial village through September.

BY REV. ALBERT LINDLEY

You probably won't appreciate this article so much, especially if you haven't been able to "get away" for a few days and more especially if it doesn't look like you will be able to "leave it all behind" for a while.

But, as I come to you out of my experiences, hopes, fears, joys and excitement, then I will simply have to say something about our recent trip. (I realize that this gets dangerously close to the situation which I have a hard time enduring. . . being plopped down and shown some family movies. . . of other families. . .) (But again, that's like not wanting to be involved in showing pictures of the grandchildren. . . unless you are doing the showing, right?)

Well, we had a wonderful trip to Connecticut, and even managed to get up into Maine and eat some lobster--naturally.

I always thought it was beans in Boston, but it is oysters. . . and "no" I didn't "raw" 'um down.

We visited Washington and were thrilled again by the edifices dedicated to Lincoln and Washington. I even waved at the White House but didn't see anyone waving back. There were a few "placarded carriers" in front but I understand that is normal policy in our "NOW" day.

The "Hope" diamond still had its brilliance and the Wright Brother's folly ("It will never work.") hung with antique beauty. I spent some time in the "Room of Quiet," The United Nations Meditation Room, in New York, and felt a closeness within the world--with all of our division.

Nothing can thrill me like the Liberty Bell in "The City of Brotherly Love" (where we were on July 4th), or the statue commemorating the Minutemen at Concord, Mass. (a far cry from the organization calling themselves by that hallowed name, today) or the excitement of the "rock" at Plymouth, Mass.

There were other areas of excitement such as the visit to the Statue of Liberty, and the fast trip was made from the 102nd floor of the Empire State Building to the sightseeing bus on the street in 4-1/2 minutes--including the two elevator changes, (yes, I know there is a faster way. . .), revisiting Mt. Vernon and seeing Old Sturbridge Village, Mass., where they lived it like it used to be. . . and the visit to "The Upper Room" in Nashville, all helped this to be the excitement it was for us.

Are you asleep yet? You might well imagine our delight at such a trip as this. . . and with the exception of 1-1/2 gallons of water and silt that was pumped into my gas tank at a service station and the one flat, all went well.

Now, since you know what I'm going to talk about when you visit with me, maybe I could get on to some kind of "wrap-up" that will leave you with some worth for having spent this time with me (and for paying your dime for this tabloid. . .)

Dag Hammarskjöld, the late Secretary-General of the United Nations, wrote of the "Quiet Room" in the General Assembly Hall of the United Nations complex, "We all have within us a center of stillness surrounded by silence." And he concludes his article with, "There is an ancient saying that the sense of a vessel is not in its shell but in the void. So it is with this room. It is for those who come here to fill the void with what they find in their center of stillness."

Following this concept, one can say that the worth of this world is not found in its shape but what goes on in its life. The worth of a nation is not found in its boundaries, but in its purpose, goal and what it seeks to be.

Wanna get religious? The worth of a church is not found in its structure--visible or invisible--but in its life and purpose for existence.

Wanna get personal? The worth of a person is not found in his physical make-up (sorry about that, Max Factor) but in the spirit or soul or personality of that person which makes him/her what he/she is. . . you like that?

Wanna get nasty? What's the worth you are seeking for the purpose of your existence? Why not visit your local "holy club" this next Sunday and really start working on this in earnest. . .

Dist. Governor To Speak Here

District Governor Floyd Sackett of Pampa will be the principal speaker at the regular meeting of the Friona Lions Club Thursday evening. The meeting begins at 8 p.m.

A Pampa school administrator, Sackett was born and reared in the Panhandle. He received his BA from McMurry College, and his M. Ed. Degree

from West Texas State University. He is a member of Pampa's City Traffic Commission, the Red Cross board, Cancer and March of Dimes boards.

Sackett's philosophy and motto is "It isn't your position in life that makes you happy or unhappy--it's your disposition."

This will be the District Governor's official visit to the Friona Lions Club for this club year.

New Production Slated For Canyon This Fall

The director of "They Came From Spain" held auditions in the Activities Center at West Texas State University Sunday afternoon, July 18. Eddie Thomas of Dallas spoke with 16 male applicants mostly from the Texas Panhandle and heard them read from a cutting of the script written by Margaret Harper, founder of TEXAS.

"They Came From Spain" will add a new dimension to light and sound production. Thomas, assisted by Bill Rhex of Amarillo, will present the exciting re-creation of Coronado's daring march across the Southwest beginning September 2 through

October 30 on Thursdays, Fridays and Saturdays. The search for Francesca will start Sunday, July 25.

There is one woman in the cast of the production "They Came From Spain," Francesca, the wife of one of the soldiers who traveled with Coronado. She was a shrewish, energetic and vehement person. The search for Francesca will begin with auditions to be held Sunday, July 25, at 1:30 p.m. in Room 202 of the Activities Center at WTSU in Canyon.

For further information write or call "SPAIN", Box 268, Canyon, Texas 79015. Telephone number is 806-655-2182.

Patrol Investigates 11 Rural Accidents

The Texas Highway Patrol investigated 11 accidents on rural highways in Parmer County during the month of June, according to Sergeant W.E. Wells, Highway Patrol Supervisor of this area.

These crashes resulted in no persons killed and nine persons injured.

The rural traffic accident summary for this county during the first six months of 1971 shows a total of 63 accidents resulting in two persons killed and 37 persons injured.

The rural traffic accident

summary for the 60 counties of the Lubbock Department of Public Safety Region for June, 1971, shows a total of 524 accidents resulting in 10 persons killed and 308 persons injured. This was 19 less accidents, 13 less fatalities, and 46 less injured than during May.

The ten traffic deaths for the month of June, 1971, occurred in the following counties: Floyd with two; Hale, Montague, Palo Pinto, Stonewall, Carson, Donley, Hardeman, and Hutchinson with one each.

What Does The Bible Say?

The expression "join the church" is widely used, but is unfortunate and misleading since it is not found in the Bible.

There is scripture dealing with the establishing of one's relationship to the church, one of which is found in Acts 2:47, "And the Lord added to the church daily such as should be saved."

The expression "such as should be saved" is used with reference to those who had become convinced that Jesus Christ is the Son of God, (Acts 2:37), repented of their sins (implied in Acts 2:37; see also Acts 17:30), and had been baptized for the remission of their sins (Acts 2:38).

The church belongs to Christ (Matt. 16:18). He prescribes the conditions of membership, receives those who fulfill the prescribed conditions and adds them to His church.

Conceivably, a man could "join" any number of religious orders yet never be added by the Lord to His church because the conditions of membership in different religious orders vary widely and are set up by men.

Questions invited. Address Sixth St. Church of Christ, Box 515, Friona, Texas.
