## ONE FIREMAN KILLED; TWO SERIOUSLY INJURED AT DALLAS SUIT FILED IN DALLAS COURT ASKS RECEIVER FOR "KLAN" THREE RANDLETT BOYS INJURED IN A AUTO CRASH SATURDAY

### WALLS OF BUILDING BURNING AT DALLAS CAVE ON FIREMEN

ONE KILLED AND TWO ARE PROBABLY FATALY INJURED. THREE OTHERS INJURED ARE SENT TO HOSPITAL.

DALLAS, June 30. (AP)—Walls of the burning Texas Wheel and Body Company at Commerce and Dove streets caved in early this evening and pinned more than a score of firemen under the debris. Captain Bern Harris, engine company No. 10, was killed. Two other firemen were possibly fatally injured and three others were taken to the emergency hospital. All fire fighting apparatus of the city except that held in reserve an absolute necessity had been called to the scene. Two complete sides of the three-story building caved in during the height of the fire. The most seriously injured were Assistant Fire Chief Charles Jones, probably internally injured, R. H. Stepp, Station No. 5, broken bones. The seriously injured, Captain Oscar W. Walker, hook and ladder company No. 6, Kenneth J. Spier, driver company No. 6, Al Brantley, 1912 South Harwood, explosion reported. Shortly after the first alarm for the fire, which was followed by a fire in the neighborhood to have originated from an explosion on the third floor the flames threatened the entire surrounding business district and a second, then a general alarm sounded. This brought all available fire fighting equipment. The building of the east of the burning structure was saved by a fire wall between the two. That on the west, a two-story frame building occupied by a junk shop and cafe, was crushed by falling walls and damaged by water. The frame building was separated by a narrow alleyway from the burning building and it was in this alleyway that the firemen were caught when the walls fell on them. A number of firemen handling three lines of hose on the Williams street side narrowly escaped the fire. The firemen who fell were following the collapse of the front of the structure. The collapse followed a muffled explosion and a terrific burst of flames from every opening in the building. The fire was quickly extinguished following the cave-in, and loss to the shop and body plant was estimated at \$15,000 by A. P. Kennedy, assistant manager of the company. Loss to the adjoining building was not estimated.

### OFFICIALS OF KLAN ARE DEFENDANTS IN SUIT FOR RECEIVER

CASE IS FILED IN DALLAS DISTRICT COURT SATURDAY. PLAINTIFF ALSO ASKS FOR \$50,000 DAMAGES.

DALLAS, June 30. (AP)—Suits asking appointment of a receiver to "demand an accounting of the defendants which show the amount of funds collected and received by them as officers of the Ku Klux Klan" was filed here this afternoon in district court by E. G. McCull, attorney for Preston P. Reynolds. The defendants were Z. E. Marvin, M. M. Hinton, J. D. Van Winkle and George K. Hatcher of Dallas, and H. C. McCull of Harris county. The petition requests that the defendants show how they disbursed the money received by them as officials of the Ku Klux Klan and when the amounts are known that they be required to pay to the receiver any funds which may be shown to have been expended improperly or in ways not authorized by the charter of the Klan. In case the defendants should refuse to make such payment to the receiver, the petition asks that the court order the receiver to sue the defendants for the sum of \$50,000. The plaintiff also asks judgment against the defendants in the sum of \$50,000, alleged damages he avers the defendants have done him. The suit alleges there are 2,000-3,000 members of the Klan in the country and 100,000 in Texas. McCull says he is a member of Dallas Klan No. 88 and that William J. Simmons is the supreme executive officer of the Klan. H. C. McCull is alleged to be the great titan and grand dragon of the realm of Texas. Z. E. Marvin is alleged to be the grand dragon of the Dallas Klan and M. M. Hinton is named as chairman of the Klan committee of Dallas. Reynolds alleges that the defendants control the politics and plans of the Texas Klan and have employed him to collect money to nominate and elect national, state, county and municipal officers. The petition alleges that \$250,000 was misappropriated to carry out political purposes and that efforts have been made to make the Klan a political machine. Reynolds says he was a life member of the organization until time of his alleged "banishment." The suit was filed before Judge James Towne Young in special district court.

### Crew Is Angry Without Their Ale and Porter

NEW YORK, June 30. (AP)—The Cunard liner Saxonia sailed today with an angry crew of British tars, deprived of their ale and porter during the trip to Plymouth and Cherbourg. Their anger was not abated when it was learned just before sailing that the officials who seized the Saxonia's malt beverages had allowed the sale of the same line to go with a large supply of beer. A medicinal supply of sixty-nine gallons of wine was held. This supply will be administered to passengers only on prescription from the ship's doctor.

### HOPE FOR COUNTER PROPOSAL TO OFFER OF 12-MILE LIMIT

WASHINGTON AWAITS GREAT BRITAIN'S REPLY TO LIQUOR SOLUTION. PLAN OF ACTION HAS BEEN FINALLY FORMED. Seizure of Vessels Depends Largely Upon Move of the Ship Owners.

By Universal Service. WASHINGTON, June 30.—Prohibition authorities went forward today in their determination to rigorously enforce the anti-liquor ban, fully prepared for the next move, which may bring a "show down" on the question of a ship seizure or pave the way to an amicable solution of the problem. The two most important developments awaited here are: 1. Great Britain's reply to Secretary of State Hughes' proposal of an anti-run running treaty in return for a concession allowing foreign ships to bring in liquor under seal. 2. Arrival at an American port of a foreign liquor carrying vessel which had reasonable notice of this government's attitude towards the bringing in of beverage intoxicants even under customs seals, or the return of one of the liners from which liquor under seal already has been taken. Marquis Curzon, the British foreign secretary has made it plain in a speech in parliament that the "give and take" treaty offer will be rejected. It is hoped by American officials, however, that the London government will come forward with a counter proposal rather than a flat refusal to accept the pact. Hughes to Find Plan. This government is eager to find some acceptable rather than a flat refusal to accept the pact. Hughes to Find Plan. This government is eager to find some acceptable rather than a flat refusal to accept the pact. Hughes to Find Plan. This government is eager to find some acceptable rather than a flat refusal to accept the pact.

### WEATHER FORECAST FOR COMING WEEK

WASHINGTON, June 30.—Weather outlook for the week beginning Monday: West Gulf States: Generally fair, normal temperatures. Upper Mississippi and lower Missouri valleys: Generally fair, normal temperature.

### ELECTION OF FORD WOULD BE BOWING DOWN TO MAMMON

SUCH IS STATEMENT MADE BY N. Y. REPUBLICAN COMMITTEEMAN. SAYS HE WOULD MAKE A PITABLE SPECTACLE. Has Shown Amazing Ignorance of National Problems, It Is Charged.

NEW YORK, June 30. (AP)—Election to the presidency of Henry Ford, "a mere bag of gold" would be bowing down to mammon, Charles D. Hillis, Republican national committeeman from New York, declares in a statement printed by the New York World today. "His candidacy," Mr. Hillis says, "must be taken seriously because of the obvious conviction of a vast number of people that a man who has created the most prosperous manufacturing enterprise the world has ever seen has evidenced the possession of qualities which would enable him to succeed to the presidency. He does not strike the prevalent note of the Trotsky note. He does not strike any note in consonance with contemporary liberalism. He does not strike any note against majority un wisdom, nor is he a chronic minoritarian. He has an amazing ignorance of national psychology and of political problems. His attitude towards public affairs is un-American. He looks to his history. Ford would make a pitiable spectacle as president because he has revealed a political knowledge and a sense of duty which would be ashamed of. And it is Mr. Ford who asserts that 'all history is mere bunk.' Henry Ford is nothing but the richest man in the world. He is part of our Americanism to be grudge no man his wealth if he has made it honestly and in service to the nation. If we place at the head of the But if we place at the head of the nation to speak for us before the bank, a money bag of gold, who knows nothing about anything but profit making automobiles, we shall bow down to mammon. Indeed, and the danger of loss of the world, Lincoln will degenerate into failure."

### EDGAR GRIFFIN, 21 DRIVER OF CAR HAS FRACTURED SKULL

MUCH DAMAGE TO PROPERTY AROUND WALNUT SPRINGS. WIND STORM IS ACCOMPANIED BY UNUSUALLY HEAVY HAIL. CONSIDERABLE DAMAGE REPORTED AT GLEN ROSE. No Lives Are Lost According to Reports Received Saturday Night.

Edgar Griffin, aged 21 years, driver of the automobile, is the most seriously injured. An examination revealed that besides several painful bruises and cuts, he is suffering with a fractured skull. Attendants at the hospital stated Saturday night that his condition was serious, but hopes were expressed for his recovery. The Younger Brothers Injured. Two of his brothers, Carl and John, aged 19 and five years respectively, were also brought to the hospital here. Carl suffered a broken leg, while John is nursing a number of painful cuts and bruises, including one across the bridge of the nose. Frank Milligan, aged 16 years, and Don Chandler were removed to their home in Handlett from the scene of the accident as their condition did not warrant transporting them to the hospital here. The Griffins are the children of Mr. and Mrs. Harry Griffin of Handlett, and the grandchild of former City Marshal Griffin of Burk Burnett. The father of the injured ones stated that a trouble call was received in the afternoon from a driver of an automobile who stated the spot to land assistance to him a mile east of Handlett, Edgar. The Griffins are the children of Mr. and Mrs. Harry Griffin of Handlett, and the grandchild of former City Marshal Griffin of Burk Burnett. The father of the injured ones stated that a trouble call was received in the afternoon from a driver of an automobile who stated the spot to land assistance to him a mile east of Handlett, Edgar. The Griffins are the children of Mr. and Mrs. Harry Griffin of Handlett, and the grandchild of former City Marshal Griffin of Burk Burnett. The father of the injured ones stated that a trouble call was received in the afternoon from a driver of an automobile who stated the spot to land assistance to him a mile east of Handlett, Edgar.

### STARTLING STATEMENTS MADE BY PRISONERS AS RESULT OF SCOPOLAMIN

LOS ANGELES, June 30. (AP)—The inmates of the county jail yesterday submitted voluntarily to experiments with scopolamin, the drug which Dr. R. E. House of Ferris, Texas, asserts those under its influence incapable of uttering falsehoods. After the drug had been administered all six reiterated previous denial of guilt. Several however made startling statements concerning their past.

### HEAVY FRENCH LOSSES IN THE ATLAS PLATEAU FROM REBEL TRIBESMEN

CASABLANCA, MOROCCO, June 30. (AP)—Heavy French losses are reported to have been suffered in the capture of the village of El Hecra, in the Atlas plateau, from rebel tribesmen. There was a hand to hand struggle, according to press dispatches, and the French lost 15 killed or wounded, 35 officers, 20 non-commissioned officers and 50 soldiers.

### GOVERNOR NEFF LEAVES "ROCKING SHIP OF STATE"

NEW ORLEANS, June 30. (AP)—Just before he boarded a steamer today for Havana, Governor Neff of Texas took occasion to let Austin know he was bound south and Texas might get along without him for a few days. The governor sent the following telegram to his office: "I board this morning a steady ocean liner. Will bid a happy farewell for 15 days to the 'rocking ship of state.' Signed 'Pat M. Neff, private citizen.'"

### "KLAN" DENIES THAT LEADING HOUSTON MEN ARE BANISHED

HOUSTON, June 30. (AP)—Denial that Mayor Oscar F. Holcombe, Rev. E. P. West, pastor of the Houston Heights Baptist Temple, and other prominent Houstonians were banished from the Ku Klux Klan at Thursday night's rally at Imperial Wizard H. W. W. Jones' speaking was made today by a high local Klan official who requested that his name be withheld. Mayor Holcombe's resignation from the Klan was accepted, this official said. He explained that Mayor Holcombe had not notified the Klan of a desire to quit the organization but that the Klan took cognizance of published reports to that effect. This report does not tally with the information furnished by the Houston Chronicle's Klan reporters and published Friday, that paper says today. The reporters heard all the proceedings and claim the four were ordered banished in accordance with the usual Klan treatment of members who have repudiated them. The Chronicle states: "Whether their resignations were accepted or banishment ordered seems to be the only question at issue."

### FILE MOTION FOR NEW TRIAL IN ROSS CASE AT LUBBOCK

AMARILLO, June 30. (AP)—The filing of a motion for a new trial in the case of Tom Ross sentenced to 20 years in the penitentiary for the killing of W. D. (Dave) Allison at Seminole, April 1, was the feature of the day in court at Lubbock today. The motion filed is merely the formal application for a new hearing and defense attorneys announced that an amended motion will be filed within the next few days in connection with the grounds upon which the new trial is requested. The Times Home Beautiful announced that the motion will be argued upon before the present term adjourns. The selection of the jury in the case of Ross was in the hands of the venire at Lubbock for murder in connection with the killing of Allison has been temporarily halted, pending the securing of a venire from which to complete the jury. Two jurors only were selected from the special venire summoned during the week. The venire was exhausted late Friday afternoon, after the entire day had been spent in examining the prospective jurors without selecting a man. The two jurors selected were qualified Thursday from the first 17 men examined. Sheriff Johnson of Lubbock county returned late Saturday night and announced that the 100 talleman had been secured and the selection of the good jury will be continued Monday morning.

### RACE UP THE NARROWS TOWARDS ELLIS ISLAND

NEW YORK, June 30. (AP)—An midnight flash from the Metropolitan tower a high light, the sirens of 12 boats, and the whistles of the tugboats and started up the Narrows towards Ellis Island with 3,748 immigrants eager to be first in under the quota line. The Potomac with 741 immigrants, and the King Alexander with 1,328 knockers at our doors had the edge, being anchored in Great Bay, nearest to the "line" across the Narrows between Fort Hancock and the Narrows, Fort Wadsworth on Staten Island.

### FRENCH EXPECTED TO REPLY MONDAY TO BRITISH NOTE

By Universal Service. LONDON, June 30.—The rising tide of labor unrest in France of the government is indicated in solemn warnings to the ruling class of Great Britain by J. L. Garvin, in the Observer, and Herbert H. Bootham, distinguished political economist, in the Sunday Times. Garvin will capture the government unless, instead of indulging in irreverent denunciations of labor, the ruling classes follow the strong policy outlined by Lord Milner. This policy would provide for the adoption of a strong program of social reform and would grapple with the social problems responsible for the labor party's growth. Lord Ramesay MacDonald for his sane attitude towards the present question of the hour, and commanding Philip Snowden for his increasing conservatism as labor approaches nearer to power. Garvin indicates that the supporters of the present social system must devote themselves to the enactment of needed reforms or they will be unable to stem the rising tide which is sweeping labor towards control of the government.

### DECLARES LABOR SWEEPS TOWARD BRITISH CONTROL

By Universal Service. LONDON, June 30.—The rising tide of labor unrest in France of the government is indicated in solemn warnings to the ruling class of Great Britain by J. L. Garvin, in the Observer, and Herbert H. Bootham, distinguished political economist, in the Sunday Times. Garvin will capture the government unless, instead of indulging in irreverent denunciations of labor, the ruling classes follow the strong policy outlined by Lord Milner. ### Adjutant General of Illinois and Other Officials Are Blamed For Riots and Tragedy at Coal Mines

SPRINGFIELD, Ill., June 30. (AP)—Adjutant General Carlos E. Black of the Illinois National Guard is declared "derelict in duty and primarily to blame" for not sending troops to Williamson county at the time of the Herrin riots, in the report of the legislative investigating committee, which is to make recommendations to the legislature this afternoon. Besides laying chief blame on the adjutant general, the committee declares that Colonel Sam Hunter, personnel officer at Herrin, was "absolutely incompetent, unreliable and unworthy to perform the duties assigned to him." Former Sheriff Melvin Thaxton of Williamson county and his deputies Sheriff and H. L. Storm are declared "irresponsible and incompetent to hold any office of trust in the state," in Williamson county or any other county. The state's attorney De Los Duty of Williamson county is one of the few persons connected with the riots who is not named in the report. Members of the senate are bitterly reproached for their failure to pass a bill continuing the Herrin committee in existence until missing witnesses could be apprehended. ### Supreme Court of State Upholds Validity Cooperative Marketing As Conducted By Cotton Bureau

ALSTON, June 30. (AP)—The supreme court today upheld the validity of contracts of cooperative marketing associations when it reversed and remanded the case of the Texas Farm Bureau Cotton Association against J. C. Stovall from Ellis county. The court held that the contract for pooling farm products is binding upon the farmer entering such an agreement. In a lengthy opinion by Chief Justice Cureton, contentions of the defendant that the marketing contract is unenforceable and uncertain were overruled and decisions of the fifth court of civil appeals and district court were reversed. The case is a test of the principle of cooperative marketing in Texas.

### AMERICAN STATE BANK BURKBURNETT DECLARES FIVE PER CENT DIVIDEND

BURKBURNETT, June 30.—At a meeting of the board of directors of the American State Bank of this place, June 30, a five per cent dividend was declared, payable at once. The directors expressed themselves as well pleased with the progress made by the bank during the past six months and the favorable conditions of the bank at this time. The directors, including R. E. Henry, John E. Haynes, J. M. Alexander, R. G. Harwell and E. B. Green, are all local men engaged in the various lines of business in this city.

### Verdict of Guilty.

ARLINGTON, June 30. (AP)—A jury in district court, Anson Jones county, this morning returned a verdict of guilty and assessed a penalty of 20 years against L. A. Ballard, charged with the murder of Frank Bates at Hamilton, according to word received here.

PART ONE  
LAY CORNER STONE  
NEW COURT HOUSE  
FOR HALL COUNTY

IMPRESSIVE CEREMONY CONDUCTED BY MEMPHIS MASONIC LODGE

BUILDING COMPLETED  
WILL COST \$150,000

Memphis Gets Next Meeting of Colorado to Gulf Highway Association

MEMPHIS, TEXAS, June 30.—The corner stone of the new \$150,000 Hall county court house was laid Thursday afternoon by the local Masonic lodge with the impressive ceremony used by that order. The ceremony was directed by W. H. Patrick, of Clarendon, as the representative of the grand master of Texas.

The stone was placed just above the basement at the northeast corner of the building. Upon its eastern face was inscribed the names of the members of the commissioners court of 1921-22, who let the contract for the construction of the building and upon the northern face the names of the present court were similarly inscribed.

In a metal box, hermetically sealed, were placed coins, seals and documents of historical interest, including current copies of the local newspapers.

The ceremony was witnessed by a considerable crowd including representatives from each of the Hall county towns: Estelline, Nowlin, Lakeview, Turkey and other neighborhoods.

Following the ceremony at the court house those present were invited to the tabernacle at the First Baptist Church to hear an address upon Masonry by Frank R. Jameson, of Amarillo. Mr. Jameson's address, which occupied an hour, was listened to with interest by a fair-sized audience.

Get Highway Meeting  
Memphis people are slated because the next annual convention of the Colorado-to-Gulf Highway Association is to be held here. A message from Secretary Sager, of the chamber of commerce, received Wednesday evening stated that the delegates to Alvarado had unanimously chosen this place. Those interested in the building of good roads in the county feel that this meeting will add interest to the local movement for better roads.

S. S. Baseball League  
Lively interest is being shown here in the contest in the local Sunday School Baseball League, with teams representing the Methodist, Baptist, Presbyterian and Church of Christ Sunday Schools. The Baptist and Methodist are now tied for first place. The contest will close in September.

Annual Meeting Held  
The annual meeting of the Methodist Women and Girls' Missionary Societies of the Clarendon district assembled here Tuesday in an all-day session. Dinner was served in the basement to a large crowd of delegates from all sections of the district.

Many interesting reports were heard and received and a most profitable and enjoyable meeting held.

Among the visitors was Miss Laura Edwards, recently returned missionary from Korea who described conditions and told of the progress being made in the work in that field.

A program was presented by the girl delegates from over the district, directed by Mrs. T. C. Delaney of Memphis. This was very beautiful and much enjoyed.

The next annual meeting of the societies will be held at McLean June, 1924.

Attend State Meeting  
The drill team and the band of the local W. O. W. camp leave this afternoon for the state meeting at San Antonio. Both will compete for prizes at this meeting.

Program is Arranged  
The local board for the Technical College will meet the first Sunday in August here and the following program has been arranged by the Memphis churches:

Dr. W. B. Bissel, president of A. & M. College, has been assigned as teacher for the men's Bible class at the Baptist tabernacle.

E. M. N. Marz, state superintendent of schools, to teach the men's Bible class at the Methodist church.

W. E. Sutton, president of Texas University, men's Bible class at Presbyterian church.

F. M. Bralley, president C. I. A., to teach men's Bible class at the Carnegie library.

Weddings Past Week  
Eugene Randall, a former Memphis boy, who now resides at Galveston, was married on Wednesday of this week at Orange to Miss Beas Yates of that place. Mr. Randall is engaged in the drug business at Galveston.

Burns Stephens of this place, who

is now employed at Brokenridge, was married on Monday of this week to Miss Alma Anderson of California. The ceremony was performed at the Methodist church at Brokenridge.

Local and Personal  
The local tourists' camp has been improved by a new camp, added tables and other conveniences which enlarge the capacity of the grounds.

W. M. Patrick, Boyd Messer, Clint Parsons, F. M. Lipscomb, John Hunt, Ernest Hunt, J. H. Rutherford and R. C. Weatherly, were among the Clarendon visitors here to witness the laying of the corner stone.

Mr. and Mrs. Courtney Denny returned yesterday from an extended visit to friends in Oklahoma.

J. F. Watson and family returned this week from Longview, where they spent two weeks with friends and relatives.

J. F. Bradley, a pioneer citizen and former county judge of this county, is reported very ill in California, where he went some months ago in search of health.

Miss Hazie Owen of Childress is here the guest of Mr. and Mrs. John Owen.

Misses Nada Pixler and Plack spent Friday here with friends.

Miss Yelena, F. M. Lipscomb, who has been here several weeks visiting at the home of her brother, W. M. Hise, returned home Wednesday.

Mr. and Mrs. Roy Bartlett of Clarendon, were the guests of friends here Thursday.

Mr. and Mrs. W. J. Turnipseed and Mrs. E. Compton spent Sunday in Quannah with friends.

Tiny Randall left this week for Galveston, where he will be associated with his brother, Eugene, in the drug business.

Attorney Sam J. Hamilton, here this week.

Miss Meas Browder, daughter of Mr. and Mrs. J. M. Browder, of the Diamond-Traut ranch, left last week for New York where she joined a party sailing Tuesday on the "Berengaria" for a three months' tour of Europe.

Mrs. J. C. Sides, accompanied by her little daughter, Jennie and Georgia, Saturday for Hillboro, where they will spend a week with relatives.

Mr. Wesley Woods and Miss Francis Perkins of Turkey, were married at the Baptist parsonage here Monday afternoon. Rev. Chas. T. Whaley officiating.

Mr. Henry Heath, of Vincent, Okla., and Miss Aliene Kersey of Memphis were married at the home of the bride's parents Tuesday morning. They will make their home at Vincent.

Charles Eldon Brower of Arlington, has returned home after spending ten days as the guest of Mr. and Mrs. T. R. Waterbury on the Little ranch near Parnell.

Jake Reed of Vernon, spent several days here this week with his sister, Mrs. Paul James.

Fly-Flu will kill mosquitoes, flies, roaches, moths, bed-bugs, chiggers, and red bugs—adv.

PRINCIPAL SPEAKERS MASONIC CELEBRATION, JULY FOURTH

M. E. TERRELL

H. W. LIVELY

W. A. BROWNING

JUDGE GUY ROGERS

Answers to invitations sent out to Masonic lodges in the fourteen counties comprising this district, indicate that the largest gathering of Masons ever assembled in this section will attend the July 4 celebration to be held at the Texas-Oklahoma fair grounds Wednesday.

Reports from the various lodges in the district have assured the local committee that each Masonic lodge in the fourteen counties will send their officers and a large delegation of members to the celebration.

Kendall Cook, chairman of the transportation committee, will have automobiles at the station to take the incoming visitors to the fair grounds. Cars in this service will be labeled with a red circle on the windshield and stationed at the Kemp hotel and on the downtown corners to carry local members and visitors to and from the grounds.

Word has been received from Mike H. Thomas, grand master of Masonic bodies in Texas, who was scheduled to address the Masons that he will be unable to attend the celebration.

A feature of the afternoon program will be a ball game between Faith Lodge No. 1158 and Wichita Falls Lodge No. 418, both of this city. A portion of the game track at the fair grounds has been marked off for the diamond and F. B. Bird, in charge of the game, promises that it will be worth going to see.

Auto Stehlik, chairman of the entertainment committee, has announced that donations are complete for the barbecue to be served in the evening and that arrangements have been made to feed the largest delegation that ever assembled here for a similar occasion.

Recent donations which have not been announced are 1,000 plates from the Woolworth Company and 1,000 napkins from the North Texas Notion Company. Barbécues, pickles, bread, lemonade and iced tea in abundance are promised the visitors by the committee in charge of the affair.

In the evening motion pictures on Masonic subjects that have just been released and are being shown here for the first time, will be exhibited. Several reels of the Masonic home in Fort Worth and the benevolent work that is being done by the fraternity are among the pictures that will entertain the visitors.

The celebration is being given under the direction of the National Masonic Service association, and is for all Masons, their families, members of the Order of De Molay, Eastern Star, Rainbow Girls, Knights Templar, Scottish Rite Masons and Shriners.

Cabbage and Sausage  
Woman's Diet  
I have doctored with the best doctors in the United States. Some said one thing and some another was alling me and all wanted to cure me open, but May's Wonderful Remedy saved me, so now I eat cabbage, sausage and anything I want to. Nothing hurts me. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One does not need a doctor or money to get it. Mack Taylor and druggists everywhere—adv.

WOMAN SICK TWO YEARS

Cured by Troubles Women Often Have—Relieved by Lydia E. Pinkham's Vegetable Compound

Medina, New York.—"I had a great deal of trouble such as women often have, and this affected my nerves. For over two years I was in this way, then I read the Buffalo Times about Lydia E. Pinkham's Vegetable Compound and have taken it with very good result. I am very much better and feel justified in praising the Vegetable Compound to my friends and neighbors who suffer from anything of the kind."—Mrs. W. H. Adams, 511 Elm Road, Medina, N. Y.

Feels Like Girl Sixteen  
Buffalo, N. Y.—"After my twin girls were born I was all run-down. My neighbors thought I was going to die. I saw your advertisement in the paper and bought Lydia E. Pinkham's Vegetable Compound. The first bottle helped me and I kept on taking it. I only weighed ninety pounds when I began taking it, and I have gained in weight and feel like a girl of sixteen. I never can say enough for Lydia E. Pinkham's Vegetable Compound."—Mrs. NELLIE DORRY, 26 Sumner Park, Rochester, N. Y.

BANK CLEARINGS IN FIRST HALF 1923 EXCEED THOSE 1922

GAIN OF ALMOST NINE MILLIONS OVER SAME PERIOD LAST YEAR.

JUNE, 1923, SURPASSES SAME MONTH LAST YEAR

Comparison of Two Months Shows Gain of \$228,556.43 For June, 1923.

Bank clearings for the week ending June 30 were \$1,639,519.19, a decrease of \$214,166.96 from the total for the preceding week.

Table with 2 columns: Day, Amount. Rows for Monday through Saturday, and weekly and monthly totals for 1923 and 1922.

BUILDING PERMITS MAKE LARGE GAIN TOTALING \$45,450

Following two weeks of inactivity, building during the week ending June 28, took on renewed life when 16 permits, involving an expenditure of \$45,450 were issued.

- List of building permits granted to the following: J. Caruthers, 1513 Kemp, one five-room residence, \$2,500; J. Caruthers, 1509 Kemp, one five-room residence, \$2,500; J. Caruthers, 1504 Fifteenth, one five-room residence, \$2,500; C. D. Hamberger, 1512 Taylor, one six-room residence, \$4,000; W. L. Hawkins, 1461 Grant, one seven-room residence, \$4,000; Myrtling and Walker, 1522 Pearl, one five-room residence, \$2,500; Myrtling and Walker, 1522 Pearl, one six-room residence, \$4,000; Myrtling and Walker, 1512 Harrison, one five-room residence, \$2,500; Myrtling and Walker, 1504 Bellvue, one five-room residence, \$2,500; Myrtling and Walker, 1108 Buff, one eight-room duplex, \$5,000; C. E. Russell, 2414 Kemp, sleeping porch, \$100; M. E. Taylor, 3201 Kemp, addition to residence, \$400; M. E. Taylor, 3184 Avenue J, one six-room residence, \$2,500; R. M. Cleveland, Block No. 13, Hibel-Taylor addition, garage, \$100. Total, \$45,450.

WICHITA EMPLOYEES TO BE GUESTS AT PICNIC WEDNESDAY. Officials and employees of the Texoma Oil and Refining Company will be guests July 4 at a picnic at Fries Grove, near Iowa Park.

Business Council Committee Issues Appeal to Wichita County Voters To Support Highway Amendment

Appealing to the voters of Wichita county to vote in favor of the proposed highway amendment to the state constitution placing control of through roads in the hands of the State Highway Commission, upon which Texas will express their will July 21, the special committee of the business council of the Wichita Falls Chamber of Commerce Saturday issued the following statement:

The business council of the Wichita Falls Chamber of Commerce has given this matter the most careful consideration and the undersigned committee has studied the provisions of the act. After considerable discussion this organization has unanimously adopted a resolution favoring the adoption of the amendment and we now urge our citizens to support the proposition by going to the polls on July 21 and voting for the amendment.

The new system of handling highways in Texas is being urged by those interested in federal road aid for the reason that the federal government is likely to discontinue aid in Texas unless we adopt the new system of highway construction and maintenance.

It is stated that in all the best countries of Texas, there is not one stretch of one hundred miles of open, permanent highway. We are building in a piece-meal, haphazard manner by each county handling its own road matters.

In Wichita county we have an excellent system of concrete roads, but we drop off in the mud in wet weather when we cross the county line in any direction. The Wichita Falls-Seymour road traverses a section of the northwest corner of Archer county where there is small hope of ever getting improvements under the present system.

It has been argued that east Texas might control the commission. This argument would apply now against all other states except if it would be applicable to the new

\$30,000 DONATED TO IOWA PARK FOR SCHOOL BUILDING

A gift of \$30,000, to be used to supplement a \$65,000 bond issue for a new school building, has been made to Iowa Park by Mr. and Mrs. W. F. George of that community, according to an announcement in the Wichita County Promoter, published at Iowa Park.

Iowa Park had voted \$60,000 in bonds for a new school building, and the George gift makes possible the erection of a larger and better equipped structure than would otherwise have been possible.

The building will be known as the W. F. George High school, Mr. George, a pioneer resident of Wichita county, recently completed a fine home at Iowa Park. The Promoter describes the building, contact for which was let Thursday night, as follows:

The building when completed will be one of the finest public buildings in Wichita county, and Texas, as far as that matter, being built of the best quality of food bricks. The front door on the east front to the south of 150 feet and a depth of about 110 feet. In height it will be two stories above the basement. It will contain thirteen class rooms, the superintendent's office and reception room, a gymnasium, an auditorium, a teacher's rest room, lavatories, shower baths, cloak rooms and in fact it will be

in every way a strictly modern building in every sense of the word. It will be steam heated and provided with electric lights. Ample fire escapes will be provided, although the building will be practically fireproof.

The gymnasium will have a seating capacity of 250 and will be of a size sufficient to accommodate all of the in-door games and contests which will ever be staged here. The auditorium will have a seating capacity of about 150. And can be thrown together with the gymnasium. It will be built east of and between the present building.

No expense will be spared in its construction and only the best of material will be used. The contract calls for completion of the building by the 15th of December. Work of estimating for the foundation will commence next Monday morning or perhaps sooner, if man and teams can be secured.

The contract for the erection of the new building and repairs will be made on the present school house, sanitary plumbing and steam heat being put in and the present auditorium being put up and class rooms made of the space. The heating and plumbing of both buildings will be done by J. Kottish, of Sherman, who will receive \$15,000 for the work.

The contract for electric wiring and fixtures was let to the Dusch Electric Company, of Wichita Falls, for the sum of \$1,500. All work on the old building must be completed by August 1.

Jerry M. Sabers, of Wichita Falls, is the architect in charge of the plans and supervision of the new high school building.

One of the rather unusual features is the public library room which can be closed without going through any other room or hall and another is the arrangement of the gymnasium and auditorium which permits their being thrown into one room and makes the area of the gymnasium a part of the auditorium.

SUNDAY AFTERNOON LAST TIME TO SEE TIMES IDEAL HOME

Through the courtesy of Jerome K. Stone, who has purchased the Times Ideal Home Beautiful, this home will be open to the public again Sunday afternoon, after which it will be closed to the public.

The hours Sunday will be from 2 to 10 p. m. and it is expected the number who call will be as large as the crowd last Sunday when more than 2,500 persons inspected the home. More than 5,000 persons have

passed through the building since it was opened a week ago. The food stuffs, including meat from the Sabitary market, fruits from the Busy Bee fruit store, and milk from the F. & M. dairy, which were placed in the refrigerator last Sunday, will be found in perfect condition this Sunday, being as fresh and palatable as when put in the refrigerator.

All those who have not been able to visit this modern home during this week are urged to do so Sunday afternoon, as it is well worth the time of any man or woman to see this carefully planned and ideal home.

SOUTH BEND DEPOT SAFE IS BLOWN BUT NO LOOT OBTAINED

SOUTH BEND, June 30.—The safe in the depot of the Wichita Falls & Southern railroad here was blown by yegmen believed to be from the Great Plains but a thick inner door was not affected and prevented the yegmen from securing the contents.

The explosion was heard by several persons who saw the yegmen flashing lights in the depot but were also giving the alarm. Agent Hollis, after being notified, immediately notified Sheriff Graham at Breckinridge and officers here. The sheriff and two deputies made a record dash, covering the 10 miles between the two cities in 14 minutes. Reaching the scene they learned that the yegmen had used a Ford automobile in making their get-away and what had been seen heading for Ellenville.

SYSTEM OF 'WARDS' RAILED N. C. June 29. (AP)—In compliance with the new state prison regulations which provide for the abolition of the whip and the setting up of a system of rewards for good behavior, Governor Morrison today commuted to indeterminate sentences the terms of 243 prisoners at the state penitentiary.

It has been argued that east Texas might control the commission. This argument would apply now against all other states except if it would be applicable to the new

**PART ONE**  
**PREPARATIONS FOR COMMUNITY PICNIC JULY 4 COMPLETE**

**BEGIN WITH PARADE AT 10 O'CLOCK BY CIVIC ORGANIZATIONS.**

**OATH OF ALLEGIANCE TO BE GIVEN NEW VOTERS**

**Old Time Fiddlers' Contest to Be One of Chief Features of Celebration.**

Final details for the Civic League community picnic, to be given in Scotland park July 4, were worked out at a meeting of the executive committee of the Civic League and luncheon clubs Saturday morning.

The festivities will begin with a parade at 10 o'clock Wednesday morning. The parade will form at Twelfth and Scott and proceed through the business district to the park. The community band, escorted by mounted police officers, will head the parade, followed by entries of the American Legion, Boy Scouts, Business Women's Club, Girl Reserve, luncheon clubs and other civic organizations. A feature of the parade will be the decorated floats entered by the branch civic leagues, the Girl Reserve and possibly others. Business firms or individuals are also requested to put decorated floats or automobiles in the parade.

Upon their arrival at the park, the picnickers will take part in the Americanization program as outlined for Independence Day. The program created and supervised by Hon. Tom McCullough of Dallas will deliver a patriotic address as a portion of the morning program. The community band, directed by John Kaufman, will furnish the musical program throughout the day.

An old fiddlers' contest for fiddlers over 55 years of age and within a radius of 100 miles of Wichita Falls, will be the feature of the afternoon program of stunts and athletic events to be staged by the various civic organizations. The University Club is fostering the fiddlers' contest as their stunt for the program and is offering a suit of clothes as the grand prize and a hat as second prize for the two winners in the contest. It is expected that contestants from this and adjoining counties, who have entered similar previous contests, will be on hand to compete for the prizes.

Boys under 12 years of age and weighing less than 100 pounds will be eligible to compete for the prizes of clothes and the boxing clothes offered as prizes in the second part of the morning program. A battle royale to be staged by the Kiwanis Club. Pat Carrigan, post of the American Legion will foster a three-legged sack race.

The Civic League has challenged the Business Girls' Club to a nine-inning game of baseball. The challenge has been accepted and this event promises to be one of the most amusing and entertaining of the afternoon program. A five-pound box of candy will be awarded the winning team.

Other stunts and athletic events, to be announced later, will be given under the direction of the Rotary, Lions and Technical Clubs. Altogether the day with the patriotic program in the morning, basket dinner and athletic events in the afternoon, promises to be one of the most enjoyable affairs ever staged by the Civic League.

**18 Months Term Sentence Given To C. E. Lawrence**

C. E. Lawrence, formerly a lawyer of Burkburnett, was sentenced to 18 months in the federal penitentiary at Leavenworth by United States District Judge Wm. H. Atwell Saturday afternoon.

Lawrence was found guilty by a jury of concealing assets from the trustee appointed to take his place of business went into bankruptcy. It was specifically charged that he concealed a cashier's check for \$1,000 and that this amount was an additional sum which should have gone to the trustee for satisfaction of unsecured creditors.

C. E. Gillin, who was found guilty of the charge of theft of freight in interstate shipment, was sentenced to four months in the county jail.

**LOCAL BATTERY TO LEAVE FOR LEON SPRINGS JULY 4**

Battery D. Field Artillery, will meet Sunday afternoon to draw equipment for the trip to Leon Springs on July 4. It was announced Saturday by Captain John H. Fletcher. No man is excused and all will be required to draw clothes and equipment and make the trip to the training camp, Captain Fletcher said.

The battery is now at full strength with a total of 65 men.

Rent those empty rooms by using a small ad in the Times' classified section.

## Carey

ASFALTSLATE SHINGLES

### "The Shingle that Never Curls"

THE extra-heavy, long-fibred, felt base in Carey Shingles is the shingle "skeleton." It carries extra quantity of the asphalt water-proofing and supports the tempered asphalt compound that gives Carey Asfaltslate Shingles a stiff body that never curls.

This makes a thoroughly weather-proof, long wearing roof covering. The crushed slate surface makes it spark-proof.

For beauty, Carey Shingles are made in three colors—Indian Red, Sage Green, and the beautiful Blue-Black, fadeless and permanent, never requiring painting.

We advise builders to specify Carey Asfaltslate Shingles instead of shingles that merely look like Carey's. Ask our price.

**FOUND GUILTY OF EMBEZZLING FUNDS OF NATIONAL BANK**

**W. O. NELSON SENTENCED TO 30 MONTHS IN FEDERAL PRISON.**

**SPECIAL SESSION OF U. S. COURT.**

Important Criminal Cases  
 Tried at Regular Term  
 In Fall.

W. O. Nelson, a former bank employee, was found guilty late Saturday afternoon of embezzlement of bank funds and Judge W. J. Wall of the United States Court sentenced him to 30 months in the federal prison.

Nelson was charged with the embezzlement, which consisted of \$1,000, with Frank McDowell serving as president of the bank at the time of the embezzlement. The funds were used to purchase a house in Dallas. Nelson was also charged with the embezzlement of \$1,000 of the bank's funds. Nelson was sentenced to 30 months in the federal prison. The case was on trial for the day in federal court. Nelson was sentenced to 30 months in the federal prison. The case was on trial for the day in federal court. Nelson was sentenced to 30 months in the federal prison. The case was on trial for the day in federal court.

### FOUND GUILTY OF EMBEZZLING FUNDS OF NATIONAL BANK

#### W. O. NELSON SENTENCED TO 30 MONTHS IN FEDERAL PRISON.

### SPECIAL SESSION OF U. S. COURT CLOSES

#### Important Criminal Cases to Be Tried at Regular Term in Fall.

W. O. Nelson, a former banker of Graham, was found guilty by a jury late Saturday afternoon of the charge of embezzlement of national bank funds and Judge Wm. H. Atwell of the United States District Court sentenced him to 30 months confinement in the federal penitentiary.

Nelson was charged jointly in the indictment, which contained eleven counts, with Frank McDowell, who was serving as president of the bank at the time of the alleged misappropriation of the funds. McDowell, who also owned a woman's ready-to-wear store in this city, failed to make his appearance at this special term of court and his bond of \$1,500 was ordered forfeited. Judgment nisi was entered and Judge Atwell set a bond of \$1,000.

The case was on trial throughout the day in federal court, having been begun late Friday afternoon. Argument of counsel was finished shortly after 5:30 o'clock Saturday afternoon and within a half hour after the court had charged the

jury, a verdict of guilty was returned. The defendant took the stand Saturday afternoon and denied that he had absconded with any of the bank's funds. He stated that he left Graham with less money than when he arrived there a few months before.

Under cross examination he told of meeting Mr. McDowell in Dallas and later picking up a man who had done some collecting for him in Graham and going to California and into Mexico. He also told that the collector, who was employed as a meat huckster in Graham before his employment by the bank had robbed him of his money, diamonds and clothes while they were making the trip into Mexico.

Immediately after Nelson was sentenced by Judge Atwell, the special session of the federal court was closed. The minutes were signed and the court attaches prepared to return to their homes in Dallas and Fort Worth.

A number of important criminal cases are set for trial for the next regular term of court here next fall. It was announced that Frank McDowell had been located, and would be returned to this state and division and would be tried at the fall term of court.

### BURROUGHS' CLERICAL FORCE MOVES TO FORT WORTH

Announcement was made Saturday, of the removal of the clerical department of the local branch of the Burroughs Adding Machine Company to Fort Worth, effective July 1. The sales and service department will be retained here, it was stated, the manager to be named at a later date.

G. W. Platty, who has been managing for the past two years left Saturday for Sioux Falls, South Dakota, where he has been transferred, and will have charge of the branch at that place.

Miss Lena Wilson, who has been the office manager here, will be connected with the Fort Worth office, leaving here in about ten days to take up her duties with that office.

### FINES TOTALING \$3,401 COLLECTED BY CITY SINCE APRIL

In response to inquiries of many persons who are curious and inclined to criticize a statement compiled by Desk Sergeant F. E. Johnson and submitted to Police Commissioner Young, was made public Saturday, by George H. Hodgins, chief of police. The statement is a report covering the activities of the police department since the date of their induction into office on April 12. It shows that approximately 600 cases have been handled by the department during the first 80 days of their term of office. Fines totaling \$3,401 have been assessed in the city court in the cases that came to trial.

Chief Hodgins said Saturday in discussing reasons for making the statement public, that many inquiries had been made at his office regarding the activities of the department and why arrests and raids were not given more publicity. Police and city officials of this administration have not thought it wise to make public every arrest for vagrancy, traffic violation and other petty offenses; for this reason, many people are of the opinion that the department is inactive and is not fulfilling its duty. Chief Hodgins said.

The report of the arrests and fines for the two months and 30 days of their service that will be filed with the office of the city clerk and submitted by Commissioner Young, to the council follows:

Number cases filed, April 10 to June 20, 576.  
Number cases found guilty, 249.

Number of forfeiture of bonds, 111.  
Number cases dismissed, 102.  
Number cases transferred to other courts and counties, 50.  
Number cases released after investigation, 54.  
Total number, 576.  
Amount of fines assessed April 10 to June 20, \$2,601.99.  
Number of fines collected, \$2,101.  
Amount of fines assessed and appealed to county court, etc., \$300.  
Total amount, \$2,401.

### PYTHIAN SISTERS HOLD ANNUAL INSTALLATION

Officers for the ensuing year were installed at a meeting of the Pythian Sisters held in the Knights of Pythian hall Thursday evening. Officers installed were Eunice Bolin, retiring past chief; Jewell Waddell, past chief; Francis Schuler, M. E. C. Susan Fagan, E. S.; Ida Westfall, E. J.; Harlie Station, manager; Florence Abiley, M. W. R. S.; Ella Ramsey, mistress of finance; Winnie Harris, quiet guard; Pearl Mackenzie, professor; Ella Ramsey, reporter; Anna Briggs, grand outer guard; Edna Lobough, grand manager; Eunice Bolin, grand protector.

At the conclusion of the installation service Mrs. Leita Gorsline presented Mrs. Bolin with a Pythian Sister's pin, in behalf of the sorority for her services as past chief during the year. Light refreshments were served to the membership following the business session. The lodge voted to adjourn for the summer months.

### BODIES OF FOUR KILLED BROUGHT TO GALVESTON

GALVESTON, June 29. (AP)—The shipping board steamer Brave Coast, bearing the bodies of Captain J. N. Nelson, supercargo J. J. Perry and wireless operator A. Glander, dropped anchor at quarantine here at noon today. The officers were killed at sea by Second Officer S. Tettus on June 6. Tettus later committed suicide.

### HEAVY RAINS, HAIL AND HIGH WINDS IN YOUNG COUNTY

Elizaville, South Bend and Newcastle reported heavy rains accompanied by high wind and hail Saturday afternoon. Light rains continued as far as Olney in this direction. No damage from the wind and hail was reported.

### BITS OF SOUTHERN MINSTRELSY TO BE GIVEN ON JULY 7

Under the auspices of the Civic League, Corvin and Warner, the "Two Boys From the South," will put on a show at the Labor Temple on Saturday, July 7. Bits of southern minstrelsy have been inculcated in the feature act which will be presented by Corvin and Warner. Rehearsals have been in progress daily for the past few days and everything is rounding into fine shape. A number of acts will be presented in addition to several special musical numbers.

### OPPOSE WORLD COURT FAVOR WINE AND BEER

BOSTON, June 30.—Resolutions opposing the participation of the United States in any world court of League of Nations and favoring the enactment of legislation to permit the use of light wines and beer were adopted at the closing session of the National Disabled Soldiers League today.

### AMERICAN BOOK CO. LOSES FIRST ROUND IN TEXT BOOK CASE

AUSTIN, June 30. (AP)—The supreme court today denied the mandamus application of the American Book Company seeking to compel State Superintendent of Schools E. M. N. Marrs to recognize alleged textbook contracts held by the book company. The suit involves contracts let by the state text book commission last December.

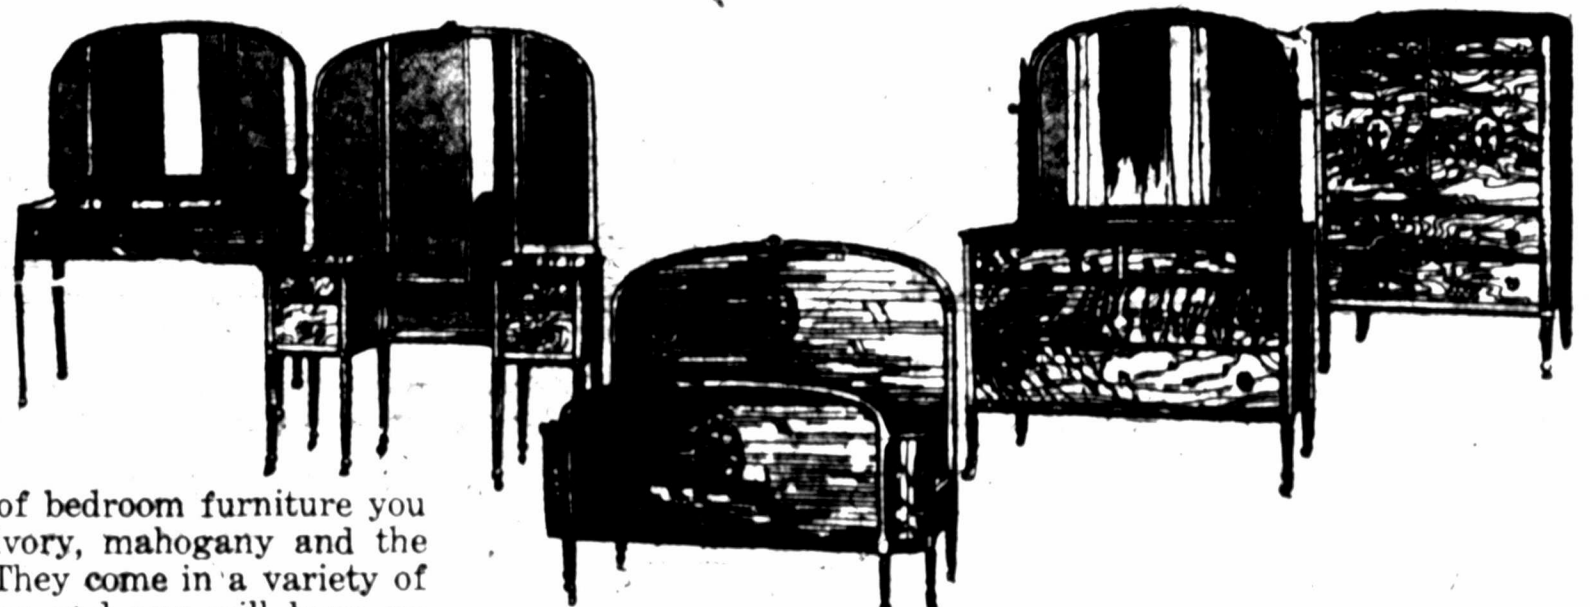

The court in an opinion written by Associate Justice Pierson, held that the state board of education is exclusively authorized by the constitution to distribute free textbooks and that unless the state superintendent in certifying textbooks did so at the direction of the state board because his acts were a nullity. The relator's company's petition does not allege that the state superintendent acted under authority of the board of education, the opinion stated, and for this reason mandamus action would not lie against Superintendent Marrs. "Only the state board of education has authority to determine what books have been contracted for with whom contracts have been made, and what matters should be placed in the requisition sufficient to enable it to ascertain the books to be used," the opinion stated.

The state board of education has taken no action in the textbook controversy which was before the legislature during recent sessions. The board probably will be called upon to pass upon validity of the book contracts before further steps are taken by contract companies. It was said.

McCONNELL BROTHERS

# Make Your Selection Now From Our Largest Showing of Bedroom Furniture

Never before in the history of our business have we had such a large showing of bedroom furniture. We do not say this boastfully but we are proud of the fact that at this time can supply your wants in bedroom furniture, no matter what your desires may be.

### GOMPERS ASSAILS STATEMENTS MADE IN HELENA SPEECH

#### SAYS LABOR REQUIRES MORE THAN TALK TO BALANCE ACTIONS

#### CHARGES ADMINISTRATION HAS AIDED THE OPPOSITION

Washington, June 28. (AP)—Statements made by President Harding in his labor speech at Helena yesterday were assailed today by Gompers, president of the American Federation of Labor, who declared that "labor requires more than a speech to balance against the acts that have gone before."

"We believe the president is sincere in not wanting the unions destroyed," said the veteran labor leader. "No sane person would want any such catastrophe. But we cannot indulge in any tumulus of applause over this late profession of faith, because the unions themselves have never been destroyed and still exist in this spite of the official acts of some of the president's leading officials and advisers. For their assistance today they owe no thanks to the administration."

Mr. Gompers pointed out in a formal statement that the oft-repeated charge of a conspiracy to crush organized labor had been repeatedly denied by "big business," and added that the president's declaration that he would not be a party to such a plan should remove any doubt as to his actual intentions.

Nothing to Take Back. "The Harding administration," continued the statement, "itself had been charged by labor with 'unfair' and comfort to that campaign and we are by no means inclined to withdraw from the assertion. It is difficult to find in the injunctions brought by the Harding department of justice against the miners and the railroad workers any great effort to conserve the forces of organized labor. Those whose memories are not too dim to recall that when the president's attorney general secured an injunction against the railroad workers, that attorney general was the one who said: 'So long and to the extent that I can speak for the government of the United States, I am opposed to the government of the country from destroying the open shop.'"

Not Day Reconciliation. Discussing Mr. Harding's reference to the effort to force nationalization of important national enterprises, the federation head declared that "the labor movement" never had stood for nationalization. "But a belief in government ownership," he continued, "is not a crime, and even if the whole labor movement were to stand for it, it would not constitute a reason for forcing government ownership upon the people of private capital in a war organized labor."

## Bulk of Wichita Falls Milk Good But Returns Low

### FACTS ABOUT FOOD VALUES HOUSEWIVES SHOULD KNOW

Milk and its products in the quantities designated equal in food value any of the portions of food shown below, and contain in addition a vital food substance essential to growth and health not found in others, except eggs. The comparative table:

	(quart)	Butter (1 pound)	3oz Cream (1/2 pint)
Tomatoes	6 1/2 lbs.	1 lb.	1 lb.
Beefsteak (round)	4 lbs.	1 lb.	1 lb.
Ham	1 1/2 lbs.	1 lb.	1 lb.
Eggs	1 1/2 lbs.	1 lb.	1 lb.
Beans	1 1/2 lbs.	1 lb.	1 lb.
Peas	1 1/2 lbs.	1 lb.	1 lb.

EXPENDITURE FOR FOOD

	Now	Should be
Meat and fish	25	15
Milk and its products	15	25
Bread and vegetables	10	10
Fruits and vegetables	10	10
Eggs	5	5
Sugar	5	5
Miscellaneous	5	5
Total	100	100

Editor's Note.—The following article was written for the Wichita Daily Times by Dr. L. L. Loney, who has just completed an analytical survey of conditions in Wichita Falls affecting the milk, butter and ice cream supply, especially related to sanitary conditions and methods employed in their production and handling. It is an expert investigation of wide experience and had intimate knowledge of dairy and plant conditions in 30 states and more than 150 cities, where his work has received the endorsement, support and cooperation of health officials and leading newspapers. The following article has been written with a view to the encouragement of greater consumption of the products of the dairy, and a sincere appreciation of their value as a food, while at the same time, pointing out the necessity of care in their selection.

By STUART T. TODD  
Wichita Falls consumers use approximately 1,000 gallons of milk daily—less than one-half pint per capita. Nearly fifty per cent of this amount is pasteurized, the remainder coming from nearby farms being sold in its raw state. The prevailing retail price is one cent a quart.

The industry as a whole is in a debilitated condition. None of the dairymen are prosperous. Few of them are making adequate monetary returns on their investment. Some are making a loss. As a result, conditions in a sanitary way are not up to a standard which should obtain.

Yet, the bulk of Wichita Falls milk is good, meaning there are a sufficient number of dairymen who handle their milk along sanitary lines and by methods that adequately safeguard the product to guarantee that which is pasteurized is of the highest quality. It is pasteurized in the percentage of reasonably safe milk up to three-fourths of the total supply. The other 25 per cent could be eliminated or brought up to the general standard of the others if they would get their milk supply cleaned to none in the state.

Dairy conditions in the Wichita Falls territory are unsatisfactory. Lack of water is the predominant handicap. A dairy to be run properly requires plenty of water. Many of the dairymen here either have the water they use some of them obtaining it from the river, or depend upon wells for their supply. In a few instances is the character of the water known. Cows often are compelled to drink stagnant pond water. All of which has a detrimental effect upon the quality of the milk.

Some dairymen have overcome the natural hardships and wrong conditions and are trying out a product which is worthy of public confidence. For the protection of the consumer the others should be compelled to immediately improve their conditions or lack of good water supply or quit business.

or it comes from a cow's milk after a short time in the refrigerator. Pasteurized milk is merely raw milk heated to a temperature of 145 to 160 degrees Fahrenheit, and held at that temperature for 30 minutes. This could be done in a few minutes in a kitchen. The bacteria content of a harmful nature, thereby rendering it safe for human consumption than the most sanitary conditions and by methods other than those possessing the greatest protective value. Pasteurized milk is nothing more or less than whole raw milk heated as above outlined. The methods employed are identical. The greatest difference so far as the consumer is concerned is the added element of safety secured by the pasteurized product, if through care and proper safeguards are not used on raw milk dairy.

Industry to use means of health insurance, an economic factor in the family budget. Milk, containing protective features is especially at a premium. Milk cannot be bought or sold by the yard. It is a highly perishable product. Increased production has precluded possibility of bringing it all direct from the farm in its raw state and delivering a safe product. Pasteurization is a commercial enterprise recognized by most cities having an effect of stabilizing the price of a safe milk at a figure within the reach of all.

Cheap Milk Menace. Cheap milk—that sold below a standard price—no matter how deep may be the cream line, is a menace because safeguards at the source of production are lacking at the dairyman's side. The price of safe milk is cheaper than cheap milk. And milk at the price prevailing in Wichita Falls is the cheapest article of food obtainable—and the best, if it is properly prepared. Buy from dairies of established reputation. Better yet, visit the dairy or milk plant from which your supply comes. Buy good milk, but their greater use comes when one quart of milk each day, and for the greatest efficiency among adults every man and woman should use at least a pint. It is not necessary to use it in whole milk form, but in ice cream, in butter, in cheese, in milk drinks may be found the vitamins content so necessary to human growth and good health.

Ice cream as a food is little known. Most persons consider it a luxury or at best a confection. It is more than either of these. The ice cream habit in the youngster should be encouraged. Instead of limiting the child to a small amount it should be given all it will eat, and often. If it is made of good material and a more bulky nature will be required and the health of the child will be improved if the ice cream is of known good character. Ice cream, like milk, should be selected with care. Individuals or consumers of established reputation should be patronized. None but the best obtainable should be used, in any dairy product.

There is no food so essential to humans, and some more nutritious than milk, ice cream and other dairy products. But they must be clean, they must be protected from contaminating influences, they must be prepared and handled with the respect for the responsibility of wholesome conditions. The color of milk precludes the possibility of determining its character by visual means except that it be dirty, and even then many housewives have been made believe that sediment can be skimmed out of milk. It is true dirt can not be strained out of milk. Much of it is soluble and eventually will be consumed. Where sediment is found at the bottom of the bottle, that milk by all means should not be used. The carelessness of the president of the dairymen that all milk contains more or less substance which often is visible. Clean milk produced in a cleanly manner, with due regard to the small preventive details will not show sediment. The housewife is entirely justified and by all means should refuse to buy milk containing visible sediment, which

### NEW COURT AT WACO HOLDS FIRST MEETING

WACO, June 28. (AP)—The new South court of civil appeals presided over by Chief Justice W. C. Davis was called to order for the first time this morning. All three judges being present. Chief Justice W. C. Davis of Bryan called the new court to order, stating that he was present only in an advisory capacity, since he had not as yet qualified. Expect Bank at Denton. BROWNSVILLE, June 28. (AP)—Monday, the first day that immigrants will be admitted to the United States under the new quota law, will see busy scenes along the Texas-Mexican border, officials said. Hundreds of Europeans, who have passed through the border during two years, are assembling at border points awaiting opening of the gates. It was said.

# SELECT SANIT

FROM THE FARMER TO YOU THROUGH THE FARMER'S OWN PLANT

## MILK PASTEURIZED and CLARIFIED

Not only do we safeguard the milk we sell our customers by the most scientific methods and with the most modern machinery after its production, but our protective measures extend even farther than that. The health of every cow on the sixty or more farms supplying us is assured by an annual tuberculin test. Every farmer furnishing us with milk has a personal interest in its cleanliness, its quality, because his profits depend upon the satisfaction you get, the security you feel in using it. This is a factor you cannot well afford to overlook.

Our method of pasteurization takes nothing from nor adds anything to the clean, rich, fresh, wholesome milk from healthy cows as it comes to our plant except that element of safety obtainable only in a pasteurized product. Your health, that of your family, is a consideration which demands the safest milk obtainable. Pasteurized milk is safe milk.

### THIRD SUCCESSIVE COOL DAY PLEASURES PEOPLE OF WICHITA

Exceeding the heat records of the early part of the week, when the mercury overstepped the century mark on several successive days, the temperature has now subsided to the summer records in the opposite direction on the thermometer. Saturday the maximum temperature was a little above 80 degrees, while the mercury immediately descended this nightfall. The lowest point for the day was 53 at 6 p. m.

DR. J. J. JONES, COUNTY AGENT, was hospitalized at the City Hospital at 11:30 p. m. Saturday night. Dr. J. J. Jones had been hospitalized with the camp work and had been believed to be in a serious condition.

# WICHTA DAILY TIMES SANITARY DAIRY PRODUCTS

The milk, butter and ice cream concerns represented on these pages have been selected for recommendation to Wichita Falls consumers by Stuart T. Todd, milk and dairy sanitarian, after personal inspection of premises and product in each instance for the Wichita Daily Times. Only those conforming to a high standard of sanitation and whose methods insure a safe product of dependable character have been tendered or permitted space under this heading.

# SPUDDERS INCREASE LEAD OVER CATS BY WIN FROM BUFFS

## Wins Sweep Series From Houston When Ripper Is Right and Knight Jinx Is Clouted to All Corners

Reverend dislodging the jinx that Jack Knight has held over the Spudders since the season opened, our hopefuls held forth and whipped Houston for the third straight time Saturday afternoon, thereby securing another full game in the lead of the champions. The Spudders' full game, Knight was walked for all of a dozen hits, walked out for half that many passes and three errors added in gave the home team ten counters.

The double-header scheduled for Sunday with the Buffs had been set for Monday and a single game for Tuesday. The Spudders' double-header for Sunday was scheduled for 2:30 o'clock and the Sunday game 3 o'clock. "Big Ed" Stauffer more than likely will work for the Spudders, while it would be difficult to name the starting San Antonio hurler.

### The Lookout

By AL PARKER

The big talk now is the possibility of another split season in the Texas League. It takes only a few days to change the entire aspect of the probability of the way the magnates will cast their votes. The Spudders are leading the league, they have certainly would use his influence toward a split.

If the Spudders are able to swing a split while they are topping the league, it would be only a business like move to do so, regardless of the general distaste with which the magnates are looked upon. It would mean a split season without a split. The Spudders are almost as much chance to top in the second half as in the first season without a split. The Spudders are almost as much chance to top in the second half as in the first season without a split.

The head of contention in splitting the season probably is going to be the date on which the split will occur. The Spudders are leading the league, they have certainly would use his influence toward a split.

Granting that there will be a split, the Spudders are leading the league, they have certainly would use his influence toward a split.

On conditions in South Texas are such that nothing but a split season can be expected. The Spudders are leading the league, they have certainly would use his influence toward a split.

The great trouble with the split season is that it is a business like move to do so, regardless of the general distaste with which the magnates are looked upon.

The outstanding feature of the Houston Buffs' play, if there was any, was the hit by the Buffs' pitcher, Wheeler, who pitched a shutout.

Another play in the Friday game would easily have put a Spudder out if it had been a strike out. The Spudders are leading the league, they have certainly would use his influence toward a split.

The Spudders are leading the league, they have certainly would use his influence toward a split.

The Spudders are leading the league, they have certainly would use his influence toward a split.

The Spudders are leading the league, they have certainly would use his influence toward a split.

## PANTHERS BENT AGAIN BY CRABS. SCORE IS 5 TO 4

PORT WORTH, June 30.—In a free hitting contest featuring many two-base hits, the Crabs took the final game of the series from Port Worth Saturday by a score of 5 to 4. Wachtel was hit hard in the first two innings, three doubles being made in succession after two were out. The Crabs' offense had the Crabs hot until the eighth, when doubles by Kraft, Hoffman and Phelan sent him to the showers. Kiefer, who finished the game, was effective and stopped the rally over short of a tie. Score: Crabs, 5; Panthers, 4.

Rip Wheeler tried his usual high class game and earned the verdict. The nine aces of the Buffs were well equipped and were good for a run and one tie early in the game with a mighty smash over the left field wall with Wheeler perched on first. Nearly all of the athletes helped along the attack with a double, a single and a triple. The Buffs made a drive for home in the fourth, but were held by the Crabs' pitcher, Kiefer. The Buffs' offense had the Crabs hot until the eighth, when doubles by Kraft, Hoffman and Phelan sent him to the showers. Kiefer, who finished the game, was effective and stopped the rally over short of a tie. Score: Crabs, 5; Panthers, 4.

The Buffs broke out in a brand new role, which he fanned eight of the Buffs. Wheeler usually puts over his wins without making any score, but he was not so lucky today. The Buffs' offense had the Crabs hot until the eighth, when doubles by Kraft, Hoffman and Phelan sent him to the showers. Kiefer, who finished the game, was effective and stopped the rally over short of a tie. Score: Crabs, 5; Panthers, 4.

## CAREY SUCCESSOR TO BOB BESCHER AS GREATEST BASE STEALER IN NATIONAL LOOP

The retirement of Fred Clarke, one of the greatest outfielders in the history of baseball, was deferred, as he put it: "Until I can find a capable successor."

A mighty hitter for 16 seasons during his career with the Louisville Colonels and the Pittsburgh Pirates, Clarke felt himself reaching the sagged edges in 1926, but was forced to "hold on" for several more years. His successor had not arrived—not until the spring of 1927, when Max Carey was brought in from the South Bend Club of the Central League.

"There's a boy who will wear my shoes next season," remarked Clarke to Tommy Leach, Hodus Wagner, George Gibson and other Pirates stars. "It's good enough to take my place right now."

Little did Clarke dream that 18 years later Carey would remain in the Central League, while he himself was forced to "hold on" for several more years. His successor had not arrived—not until the spring of 1927, when Max Carey was brought in from the South Bend Club of the Central League.

"There's a boy who will wear my shoes next season," remarked Clarke to Tommy Leach, Hodus Wagner, George Gibson and other Pirates stars. "It's good enough to take my place right now."

BOONE PASSES GRIGSBY BY ONE POINT FOR LEADERSHIP IN TEXAS LEAGUE BATTING

The Boone's continued hitting streak finally landed him at the top of the Texas League batting Thursday night when the Bears' slugger pounded out his 118th career hit for a .337 average. Donohue of Dallas, a week behind Boone, is the only other Texas Leaguer with 100 hits.

Becher of Wichita Falls leads in run getting with 28. Clarence Kravitz of Fort Worth has regained his old laurels and leads in homerun hitting with twelve. Players batting over 100 through Thursday's games.

Player-Club—A. B. R. H. R. B. Boone, W.F., 118 11 23 27 337. Conley, Da., 122 12 27 43 220. O'Neill, G., 45 4 12 23 278. Pate, F.W., 108 10 22 39 248. Goodwin, H., 141 11 27 47 267. ## Second Installment of \$100,000 Will Be Paid to Kearns Monday; Part of Money Already Is Given

By Universal Service.  
GREAT FALLS, MONT., June 30.—Jack Dempsey and Tom Gibbons will fight for the world's championship in Shelby July 4.

Jack Kearns will be paid the \$100,000 due for Dempsey's end, making the full \$200,000, on July 2.

Kearns has surrendered to the trustees for the promoters all of his rights, and Dempsey's rights, in the moving pictures.

These facts were given to the press Saturday afternoon by J. E. (Gene) Lane, former state senator and United States army major, who was empowered by the original promoters to act for them as trustee in the days of humid negotiations with Kearns.

Under the terms of an agreement signed early in the morning by the promoters Lane became supreme ruler of the fight and has full power to make all future deals.

Contract Lived Up To  
The L. E. Stevenson crowd, which found flaws in the original contract, and is now being given in its entirety by both the Kearns-Dempsey combination and the promoters who will be represented by Lane.

Lane said:  
"A long conference with Kearns and at the end we reached a harmonious understanding. The fight will be put on July fourth in Shelby, and it is already in his hands. The balance of it will be available by Monday.

"There will be no slip up on that. The reputation of the state of Montana is at stake and we mean do not propose to have our commonwealth labeled as one which started something and then couldn't go through with it, even if that enterprise was one engineered by private individuals."

Contractor Waives Claims  
"These men who have put up the money are of course, taking a gamble on getting back. If the receipts from now on total \$100,000 then the money will be repaid in full. If they do not, the money will be repaid pro rata to the twenty men."

"I have been agreed that the man who made the loan with a promise of rights to the money, A. J. Templeton, who built the arena, and who has been the promoter on that account, has agreed to waive such claims until such time as sufficient money is taken in to repay the loan."

"Kearns surrendered to me as

### William Jennings Bryan's Weekly Bible Talk Mary, the Mother of Jesus

By WILLIAM JENNINGS BRYAN

I wish it were possible to illustrate this lesson with a picture of Mary and her babe. Bodenhausen's Madonna is my favorite. But the idea so overloads the execution that any madonna is fascinating. And what an influence this picture has exerted on the heart and mind of mankind!

The relationship between any mother and her child is a tale, the sweetest and most lasting known, but here we have the most fortunate of mothers. "Thou art most highly favored, the Lord is with thee; blessed art thou among women"—these were the words of the angel Gabriel when he announced to Mary that she had been chosen to be the mother of Jesus who was to come "to save the people from their sins." Every mother dreams of what her child is to be and do, but Mary had evidence such as no other mother ever has, but she did not comprehend the full meaning of what she had heard and experienced.

Even when Jesus, as a child, lingered in the temple to dispute with the doctors the mystery had not been cleared up. She kept all these sayings in her heart. It required the crucifixion, the burial and the resurrection to give her a realization of her part in the world's redemption.

The Wearer Mother. But, as there was to be no other mother like her child, Jesus. Is it not strange that any one should question the virgin birth? The birth of Jesus was different from our own, but not more mysterious. A God who could bring man into the world as He did, could make a miracle-working God and all difficulties are removed. The method employed lends dignity to the Son of God and gives authority to His words.

And yet in nearly all the leading denominations there are members—even ministers—who doubt, if they do not openly deny, the record of Matthew and Luke on the subject. They say that only Matthew and Luke speak of the virgin birth, but they do not explain that these are the only Bible writers who make any reference to Christ's birth. Mark introduces Christ at the beginning of His ministry when He was baptized of John in the Jordan. John, the beloved apostle, in like manner passes over the incidents connected with Christ's birth and youth and records his words after he had preached.

Luke the Physician. Luke was a physician, the companion of Paul and author of the Acts of the Apostles. He describes the conception and birth of Jesus—even records Mary's question, the answer to which was "Full and complete information. All the Bible writers record the performance of miracles that, like this one, can be accounted for only by the exercise of divine power.

To reject the testimony of Matthew and Luke, and neither contradicted by any other Bible writer, is merely to substitute an unproven hypothesis for the word of God. Christ of the glory of a virgin birth is in greatly impaired, if not destroyed. The ability of the church to present Him as a savior sent from God.

There is a very evident reaction against the attacks made by so-called liberals on the veracity of the scriptures. My own church, the Northern Presbyterian, at its last general assembly two months ago, made the following clear and unequivocal pronouncement: "It is an essential doctrine of the word of God and our standards that our Lord Jesus Christ was born of the virgin Mary." The week before the Southern Baptist made a similar declaration for their church. The defenders of the Faith everywhere are increasingly active in other churches and legislatures are being urged to prohibit attacks on the Bible in schools supported by taxation.

The Boy of Twelve. The lesson for today is built about an incident in the boyhood of Jesus. At the age of twelve He went to Jerusalem with His parents to attend the Feast of the Passover.

It is worth while to note that Joseph and Mary were deeply religious and kept the ordinances of the church—of the present day may not take a lesson from them. They were simple folk—his carpenter and she a humble wife and mother. They had their living to make but they had time for fast days and feast days and for service to the synagogue. Life is very busy and complex now and religion has been some radical change in the nature of man he still needs religion in the need not greater because the temptations are more. Many suffer seriously because society and business have invaded the home and are diverting attention from spiritual things—away to the extent of overturning the family altar.

All were amazed that one so young should be so well versed in the scriptures.

Those who think Christ a deluded rascal—as some outside the church do—must admit that He had evidence of superior wisdom at an early age. In His question to His parents—His first recorded words—we catch the first intimation that He was conscious of His mission—"Know ye not that I must be in my Father's house?"

(The King James version reads

#### MARY, THE MOTHER OF JESUS—TEXT OF TODAY'S BIBLE TALK BY MR. BRYAN.

Now his parents went to Jerusalem every year at the feast of the passover. And when he was twelve years old, as they went up to Jerusalem after the custom of the feast.

And when they had fulfilled the days, as they returned, the child Jesus tarried behind in Jerusalem; and Joseph and his mother knew not of it.

But they, supposing him to have been in the company, went a day's journey; and they sought him among their kinsfolk and acquaintance.

And when they found him not, they turned back again to Jerusalem, seeking him.

And it came to pass, that after three days they found him in the temple, sitting in the midst of the doctors, both hearing them, and asking them questions.

And all that heard them were astonished at his understanding and answers.

And when they saw him, they were amazed; and his mother said unto him, Son, why hast thou thus dealt with us? behold, thy father and I have sought thee sorrowing.

And he said unto them, How is it that ye sought me? wist ye not that I must be about my Father's business?

And they understood not the saying which he spake unto them. And he went down with them, and came to Nazareth, and was subject unto them; but his mother kept all these sayings in her heart.

And Jesus increased in wisdom and stature, and in favour with God and man.

"Wist ye not that I must be about my Father's business?" Mary was not grieved at the sudden maturity of her son; it is one of the most prominent characteristics of a mother that her heart is centered on her child instead of on herself. She sacrifices for it as no one else does, but she makes no demands upon it. The normal mother does this; happy the son who appreciates the sacrifice proffered by a mother's uncompensating love and makes such return as he can, and happy the mother who has such a son, but each generation lives for the generation that succeeds it—that is God's plan.

One sentence carries Christ's life from this incident until He began His ministry—"And Jesus advanced in wisdom and stature and in favour with God and men."

This is Luke's record and it conveys an important lesson, namely, that one who is Christlike will grow in favor with men as well as with God. A Christian life is the one unanswerable argument in support of the Christian religion.

Matthew carries the narrative of the child Jesus up to the return from Egypt, leaving Him at Nazareth, passes over all of the intervening years until He appeared before John to be baptized.

We do not know through what preparation Jesus passed but we do know that when about 30 years of age He emerged from obscurity and began the work that He came to perform. He gathered about Him a few disciples, proclaimed His Messiahship, taught, wrought miracles, was crucified and buried, rose from the tomb, commissioned His disciples and ascended into heaven. He

set up His spiritual Kingdom on earth and it has been growing ever since.

His gospel is for every creature and His code of morals is to stand for all time. His philosophy fits into every human need and His teachings furnish the only solution of the world's problems, personal and political. It is easier to believe that He was as the Bible declared Him to be—the Only-Begotten Son of God, than to explain in any other way what He said and did and was.

### DR. KIEL CHAIRMAN HEALTH MEETING TO BE HERE NOVEMBER

Dr. C. E. Kiel of Wichita Falls has accepted the chairmanship of the health section of the Texas Conference on Social Welfare, which

will meet here November 6 to 7. It was announced by Dr. Carrie Weaver Smith, superintendent of the State Girls' Training School at Galveston, in a letter received Saturday by The Times.

"This conference will be the most important meeting of the kind which has ever been held in Texas," the letter continues, "and practical suggestions for constructive legislation along social welfare lines will be formulated.

"The health section is of tremendous importance, and under the able and enthusiastic leadership of Dr. Kiel, this section will make a lasting impression on public health conditions in our state.

"Dr. Kiel's response to this call for service is indicative of what we may expect from Wichita Falls in making this the most successful welfare conference in the history of Texas."

Mr. and Mrs. Philip Kleinman Celebrate Tenth Anniversary With Beautiful Dinner Party

Mr. and Mrs. Philip Kleinman were host and hostess to one of the most elaborately and beautifully planned dinner parties ever given at Kemp hotel Friday evening...

The dining room on the second floor was a symphony of beautiful colors when the guests arrived, with the tables arranged banquet style, decked in the rainbow hues of the bridal party ten years ago in Fort Worth...

The feature of the table decorations was the wedding cake centerpieces and the complete miniature bridal party at each end of the long, snowy board...

Out of town guests at the banquet included the following: Mrs. Kleinman and Miss Tillie Kistner of Dallas, mother and sister of Mr. Kleinman...

The little wedding party at the arches and under the wedding bells suspended therefrom were complete in every detail, and exquisitely lovely in the tiny little costumes of the infant flower maid...

The menu was a delightful one, opening with fruit cocktail in different colors for the fish and shellfish course with celery and olives and scallops...

The introduction to Wichita Falls maids and matrons of Mrs. Carl Lobitz, a very charming bride from Shreveport, La., was the social feature of the past week...

Bridge Tea at Wichita Club Introduces Attractive Bride; Younger Set Is Not so Busy

The introduction to Wichita Falls maids and matrons of Mrs. Carl Lobitz, a very charming bride from Shreveport, La., was the social feature of the past week...

Other entertainments throughout the week were more informal with the younger sets enjoying bachelorette parties and impromptu gatherings for the most part...

Mrs. Bonner's party Thursday afternoon was an especially enjoyable one, with twenty-two tables arranged for a bridge-tennis...

In the games Mrs. Brit Cranfill, who returned last week with Mr. Cranfill from their wedding trip to Colorado Springs...

The guests included Madamames Lobitz, C. L. Anderson, Hancock, Bernard, Meyer, Ewin, Chambers, Edie, Golding, Rubens, McGregor, Edna Adams, Kistner, Constan-

tin, Woodruff, Stringer, Richardson, Miller, White, Smith, Hays, McCutcheon, Joseph, Jarrell, Thomas, Nolen, Colvard, Upchurch, Decker, Bond, Gould, Bradford, Maxson, Merritt, Guy, Frick, Harry Davis, Horne, Ross, Williams, Walter Robbins, Bourland, Dillard, Albert, J. L. Jackson, Jr., Craven, Harry Weeks, Fred Weeks, Murchison, Tully and Miller of Houston...

Personal Mention

Mrs. T. N. Brown of Jackboro, Ark., is the guest of her sister, Mrs. J. G. Coleman, at 1102 Burnett...

Miss Gertrude Jeter of Eldorado, Ark., is the guest of her sister, Mrs. J. G. Coleman, at 1102 Burnett...

Roger Coleman has returned to Paris, Texas, after visiting Mr. and Mrs. J. G. Coleman, 1102 Burnett...

FIRST CHRISTIAN CHORUS HONORS MRS. B. BOGGESS

Mrs. Beulah Boggess, daughter of a former pastor, and for two years past prominent and faithful member of the First Christian Church choir...

Mrs. Boggess leaves Thursday with Miss Sara Beth for Waco, where they will visit her mother, Mrs. E. Strang, after choir practice at the church Thursday night...

Mrs. Boggess leaves Thursday with Miss Sara Beth for Waco, where they will visit her mother, Mrs. E. Strang, after choir practice at the church Thursday night...

Mrs. Boggess will be matron of Cicero College dormitory.

MRS. HENRY IS HONORED IN HONOR OF MRS. FINLEY

Mrs. R. G. Henry was hostess at a beautifully planned party in complimenting Mrs. R. H. Finley, who left Thursday to spend the summer in Missouri, at her home Wednesday morning...

The morning was spent at 1222 during the playing of which lead fruit punch was served to refresh the guests. In the cut for high score Mrs. Finley was most fortunate and was presented a breakfast tray, while Mrs. Peterson, who held low, was presented a novelty darning. The guest of honor received a beautiful corsage of Glens...

At the close of the games the hostess served frozen fruit salad with whipped cream and cake, for which the plate favors were little novelties of sweet peas. The guests included Madamames Noel Hays, A. C. Dulaney, Gilliam of Mexia, V. D. Tenneyson, R. H. Peterson, E. E. Fischer, L. I. Lucey, and R. H. Finley.

In the Pictures

Miss Marjorie Bright, daughter of Mr. and Mrs. J. D. Bright, and Miss Jewel Williams, daughter of Mr. and Mrs. H. A. Williams, are tennis champions of the local intercollegiate district who represented Wichita Falls at Austin some weeks ago and won second place for the state in the intercollegiate matches.

Mrs. Carl Lobitz was introduced to the maids and matrons of Wichita Falls Thursday afternoon at the Wichita Club at a beautifully planned reception and bridge party given by Mrs. Jewette Bonner. Mrs. Lobitz is a most attractive and talented addition to the young matrons' set in Wichita Falls, and was given a charming welcome Thursday.

Little Miss Joline Wood very successfully rehearsed the "Little Players" first play, "Mrs. Buzby's Pink Tea," and presented it at the home of another member, Miss Elizabeth Langford, two or three weeks ago. Joline is the talented young daughter of Mr. and Mrs. Claude Woods, and has taken a prominent part in many pretty local talent productions.

Mrs. R. A. Lyle is the new president of the Wichita Falls Women's Choral Club, organized a year ago by Mrs. W. S. Robertson, and which recently completed a splendidly successful year's work. Mrs. Lyle, who has taken a prominent part in the Musicians' Club for a number of years, and in church work, was specially honored in the closing annual banquet of the Choral Club in May.

Miss Dorothy Reed, daughter of Mr. and Mrs. X. X. Reed, is a talented local reader who has taken district and state honors in the University intercollegiate matches. Miss Reed was presented in recital with Miss Juanita Kinsey's pupils at Kemp Library Theater Friday night.

Margaret Fox, Campfire Girl and one of the younger musicians, has recently cut her pretty hair, so Dad and Mother (Mr. and Mrs. G. D. Fox) are no doubt very glad to have this remembrance of a very beautiful set of curls.

Little Miss Virginia Rogers, daughter of Mr. and Mrs. F. A. Rogers, was an attractive member of the Bradley-Bateman wedding party in Dallas recently, in which she acted as flower girl for the bride, Miss Mary Olivia Bateman.

## Bowie News

**Miss Lillian Brewster**  
 Wednesday night Mrs. J. S. Lillian entertained with a number party at her home on South Sanders. The next morning the guests enjoyed a sunrise breakfast at the Tourist park, north of town. Those present were: Misses Helen and Kathleen Worley, Grace Dixie, Nell, Alleen Burgess, and Estelle Vera Clark, Evelyn Young, George Williams.

**Miss Lillian Brewster**  
 Misses Lucile Lawson and Alberta Jameson entertained with an informal supper last Wednesday evening at the home of the latter on West Live Oak. In honor of Miss Agnes Slaughter who left Thursday morning for Camp Dixie, Georgia, to spend the summer.

**Miss Lillian Brewster**  
 The serving tables were decorated with baskets of yellow flowers and bouquets of daisies and baby's breath tied with yellow ribbon were given as favors. The honoree also received train letters written by the guests who were: Misses Mary Frances Waltham, Boba Slaughter, Glenn, Jameson, Lenelle, Boone, Vera Winder and Mrs. J. T. Hunt of New Castle.

**Miss Lillian Brewster**  
 In celebration of her birthday, June 21, Mrs. Fannie Ryan entertained her friends and relatives with a dinner. The hostess received many pretty gifts. Those present were Mrs. E. Killman, Mr. and Mrs. A. O. Hurd and children of Dye Mount, Mrs. Willie Williams and children, and Mr. and Mrs. Wesley Hissman of Newport.

**Children Give Pageant**  
 The pageant which was given last Saturday afternoon at the Chautauque tent was a very pretty affair and it showed that a great deal of time, both on the part of the instructor, Miss Lucile Reeves, and on the part of the children, had been spent in the preparation.

**Young Folks Picnic**  
 Wednesday evening, June 10, a crowd of young people enjoyed a chicken barbecue at the Cecil Thomas pasture, west of town. Those present were: Misses Countess Coffield, Mary Warren Shook, Sarah Speer, Elizabeth Davis, Janice Causey, Bernice Johnson, Lillian Causey, Frances Thomas, Opal Causey, Messrs Lyle Montgomery, Richard Thomas, David Selt, Howard Pigg, Hester Stewart, Gilbert Watson, James Young, Gordon Cady, Messieurs L. A. Speer and Wade.

**Picnic for Veterans**  
 Tuesday evening a picnic was given at Good Luck park honoring Anna Bell Webster of Dallas. After a swim picnic luncheon was served to the following: Anna Bell Webster of Dallas, Lucile Whitman, Catherine Caperton, Estelle Ashew, Wanda Hope, Helen Cooke, Valton Bates, Gliss Wilson, J. B. Appleton, Fred Green, Carroll Whitman, Ernest Butler, Messieurs C. P. Hatts, Wade Lum Lovett, C. P. Capera, Leonard of Wichita Falls, Misses Countess Coffield and Opal Conter.

**Wedding Anniversary**  
 Mr. and Mrs. A. W. Cunningham celebrated their 45th wedding anniversary June 25th with a family reunion at their home in North Bowie. There was a gathering of twenty-seven children, grand-children and great-grand-children. Of the seven living children only one, J. W. Cunningham of Paden, Okla., was unable to be present.

**Personal**  
 Little Miss Betty Agnes Workman returned home to Decatur after a visit with Miss Nettie McCormick.

**Personal**  
 Miss Ethel Shookford of Macoma spent last week end in Bowie as the guests of Misses Louise Chapman and Marie Box.

**Personal**  
 Miss Myra Slaughter left Thursday morning for Camp Dixie for girls, near Clayton, Georgia, where she will be instructor in dancing, swimming and life saving this summer.

**Personal**  
 Mrs. Minerva Baccus has returned home to San Antonio after a visit here with relatives.

**Personal**  
 Mrs. N. H. Huff is visiting relatives in Fort Worth.

**Personal**  
 Mrs. C. D. Whitman and Miss Lucile Whitman of Waco left Tuesday after a visit here with Wortham Whitman and family.

**Personal**  
 The Mamie Walker chapter of the C. I. A. entertained their husbands and men friends with a moonlight picnic Tuesday night, at the club house west of the city. After a swim a tempting lunch was enjoyed. Those present were: Messes Margaret Eudath, Tommie Mae Kerr, Lennie Mangum, Ruth Palmer, Mary Virginia Brown, Messrs. Donley Suddath, Bruce Palmer, Frank Layton, Edward Brown, Freddie Goodman, Messrs and Messdames Frank Hunter, Harold Ferris, Elmer Eaton, and C. C. Miller.

**Dinner Party**  
 Miss Christine Carter entertained with a lovely dinner party Friday evening complimenting Misses Louise and Rachel Majora of Chickasha, Okla. Daisies formed the house decorations and also centered the table. Refreshments were laid for Misses Margery Howard, Dorothy Dale, Maurice Mount, Rachel Brown, Helen Foyell, the hostess and the guests of honor. After dinner Miss Dorothy Dale entertained the guests with a party at the Majestic Theatre.

**Wednesday Club**  
 The Wednesday club was very delightfully entertained with a party by Mrs. J. O. Gilliland hostess. Shasta daisies added to the attractiveness of the room. The tables were placed for "forty-two." At the close of the game, Mrs. Homer Mann assisted the hostess in serving brick cream and angel food to the following guests and club members: Messdames E. C. Carter, H. Boddy, Cyrus Coleman, Isabelle Brainer, C. E. Brown, Mrs. Thompson, W. K. Millsapp, Julia Harper of Brownwood, L. B. Gill of Decatur, John Gilliland of Bowie, Ed Harris of Amarillo, J. C. Chestnut, F. P. Neville, A. J. Oheim, W. H. Myers, Sloan Fortenberry, F. F. Green, Lon Kelly, W. Mangum and Miss Etelle Pickens.

**Informal Bridge**  
 Mr. and Mrs. Cedric O. Taylor entertained informally with two tables of bridge Monday evening. Mrs. Lathair Kelley of Dallas scored high for the ladies and was given a bottle of Sachet powder and Mr. H. M. Mose made high gentlemen's score and was given a vase. An ice course was served to Messdames Mary Daggert, Lathair Kelley of Decatur, Miss Lu May McGinnison, Mr. and Mrs. W. H. Chilson, Mr. H. M. Mose and the host and hostess.

**One o'clock Luncheon**  
 Mrs. P. H. Boddy entertained with a 1:00 o'clock luncheon Friday in honor of her mother, Mrs. H. Boddy of Decatur. A color scheme of lavender and white was carried out in every detail. Places were marked by Messdames J. H. Ferris, J. M. White, W. W. Watson of Barry, Ill., R. H. Palmer, F. P. Neville, A. B. Stiggs and C. F. Easley.

**Community Sing Song**  
 The Unity Club will give their regular monthly community singing at the Methodist church Monday evening.

**Servants Club**  
 The Servants Club met Tuesday afternoon with Margery Howard. Margery Moore gave the life of James Whitcomb Riley. Laura Marie Marberry gave Eugene Field. Edgar Allen Poe was discussed by Taylor. The center, at the close of the program ice cream and cake were served to Misses Christine Carter, Ida Catherine Neville, Margery

# Toussaint Says He Stoops to Law But Bears No Animosity Against Any One; Thinks Juries Unfair

In a letter to The Times, Harry J. Toussaint, who was convicted of the murder of his father and sentenced to 99 years imprisonment, at Anson, June 23, states that he will stoop to the law and that he bears no animosity or malice toward anyone. He expresses the opinion, however, that both juries which tried him were unfair.

The letter follows: "I stoop to the law and will take my life sentence, but with it I also take faith and hope."

"A fairer judge than Judge Chapman at Anson, Texas, could never exist, though I can hardly comprehend my jury."

"Where would I have found three who would stoop so close to me for two and a half years, as did Major Hoffman, Mr. Cummings and Mr. McDonald? Better than a father has been my friend and past superior in the army, whose acts can never be repaid with money. So far not a cent have I been able to pay, but I trust the time shall come when I can fill my obligation."

"I do not know how to thank such men as Dr. Knickerbocker, Powell, White, Daniels, Muckelshay, Sigvena, Beckman, who were perfect strangers to me and yet tried to rescue me. Then my many friends and the state's witnesses who refused to speak other than the truth."

"Both trials, I secured nothing else than two unfair juries, failing to weigh the evidence as instructed by courts' charges."

"But to these all I would gladly extend a sincere hand shake and a smile and I hold not the least bit of animosity against any person who exhibited a sincere desire to convict me. As Christ on the cross stated 'forgive them, for they know not what they do,' so do I."

"The greater number of us wish to execute revenge, feeling we do justly. That may be proper, if we

adhere to the old Bible, but can you just one relate such an instance through Christ our savior?"

"God has made all men equal. Paul stated, 'I was a free man.' Yes, everything is born free, that has life, insects, fowls, beast and man. What right has man to punish his fellow man who has done him no harm? When an adulteress was once brought before Christ the Mosaic law quoted by the scribe, held that she should be stoned to death. Our Savior replied when requested for a decision, 'let him who has never sinned cast the first stone.' They retreated."

"We refer to the commandments: 'thou shalt not kill, steal, lie, bear false witness, commit adultery, etc. Is not one violation of these above as bad as the other?' Has God stated he loved a liar or an adulterer better than a murderer? No, he makes no exception. Our Savior has never even intimated that a fellow man should punish another. We state that we are Christians, but I fail to see it, as it takes love and truth to make such. In lieu of hatred and revenge, Christ preached love but not hate."

"Let all know, that they convict not one but two. As driving a wedge between us, you have separated the finest woman in the world from the man she loved. Such a love that has no parallel. Though she stated a few misunderstandings in an effort to save me, no one was interested to know my loyal and good I was to my wife. Christ stated 'whosoever God has

joined together let no man put asunder.' We state we are Christians, yet, you tear away from one's person, that which God has joined together and throw her out in the world alone. Her only friend is a father."

"Two and a half years does this woman stick to the man she loved. This is equivalent to five years in a penal institution. Should I deserve such punishment? Would not that period reform me as much as a life sentence?"

"It takes too long to explain, but to appreciate the punishment a fellow man places upon another, he must as I, first be thrown in confinement. In a way, I am glad I came to prison. It has developed a love for my fellow man in lieu of the hatred, as the general public possesses. Though in prison, I am that much nearer the proper ending."

"An appreciation of thanks do I extend to the public, that has been so good to my most lovable wife. Myself, I care not for, as I look to Divine, not man, to rescue me which shall come in time."

"With a farewell, I bid adieu. Henry J. Toussaint, Anson, Texas."

## HELP YOUR BABY FIGHT THE HEAT

It isn't the heat that kills our babies in summer. It is stale milk, at a time when heat exhausts their little bodies.

If you want a happy, healthy child this summer keep the milk cold every hour of the 24. The moment the temperature rises, bacteria germinate; the milk spoils.

Be sure to keep your refrigerator well iced from day to day with our Pure Distilled Water Ice, it will not only preserve your food better; it will save ice—slow down its melting.

Never symp on ice during summer. It is such a protection to health. Have plenty on hand for making ice cream, frozen dainties, cold drinks. Used cracked ice on the table to keep butter from melting and fresh vegetables from wilting.

## From Office Boy To Film Magnate For Barthelmiss

Like a page from one of Horatio Alger's famous books is the career of Richard Barthelmiss, the celebrated motion picture star. "From Office Boy to Motion Picture Magnate" might be truly written as the title for a story describing the career of this young man. The forthcoming production of "The Bright Shawl" in which Mr. Barthelmiss will be starred, will signalize his inauguration as vice president of the unit which will continue to make his pictures under the management of Inspiration Pictures.

This means that in less than six years, the young screen favorite has risen from an extra in motion pictures to a responsible position in one of the greatest film corporations in this country. "The Bright Shawl" which will be known as a John S. Robertson production, is being made under the direction of the man who created "Sentimental Tommy" and "Dr. Jekyll and Mr. Hyde." It will also find Mr. Barthelmiss conveying a new character for him. A romantic figure in quest of adventure, he abandons the homeliness and the role he has been portraying, and which have won him so many admirers during the past two years.

In speaking about his success, Mr. Barthelmiss says: "When I hear people allude to the lightning-like change from insignificance to success as though it were a fact, I always feel prompted to offer them the old and honored adage: 'Time wasn't built in a day.' Nothing can be accomplished except by hard work and application to it.

"Time is again, when I first entered motion pictures, I hunted for a job as an extra, only to be turned away with 'Nothing doing today.' It is some satisfaction to me now when these same studios tender me offers of almost incredible amounts of salary, in comparison with the old days when I was almost obliged to work for nothing in order to obtain screen experience.

"To this day I have an aversion to stardom, due to my first experience in the picture. You see, I started in slapstick comedy at the princely salary of \$25 a week and my main part was to serve as a target for villainous producers.

"You can't achieve success without working for it in the motion picture industry. When you can in any other field of endeavor," Mr. Barthelmiss goes on to say. "People who admired the finished beauty of many of the great works of historic value that we have brought to the screen as backgrounds for scenes in 'The Bright Shawl,' which was filmed in Havana, realize the colossal palms, acacia trees and other beauties of the workman who labored for that beauty. Neither do they realize the amount of money that went into the making of a motion picture star. He gets muscle-tired, brain-fogged and bone-weary, long before the heights are reached."

Richard Barthelmiss only a few years ago was working for \$8 a week filling out the cards on the contract of an insurance company. He did this to support himself in vacation time so that he would not receive a college education. He was found that even \$4 a week was not sufficient to provide for the needs of a boy and it was due to that and the chance of a better future that he accepted a princely salary of \$25 a week that he forewent a business career to enter the field where he has achieved what is believed to be enduring fame.

"The Bright Shawl" adapted by Edmund Gouling, from Joseph Roth's novel, will prove an absolute revelation as far as Barthelmiss' portrayals are concerned. Billed as one of the biggest productions of the year, it will be shown at the Empress Theater as a First National attraction four days, starting Wednesday.

## OLYMPIC MONDAY AND TUESDAY

## 'STRAND BEGINNING ON MONDAY

## Forman's Latest Production Is 100 Per Cent Comedy

If reviewers are inclined to grow old and crabbed, it is not the fault of pictures like "Are You a Failure?" the Tom Forman Preferred Picture, playing at the Olympic Theater Monday and Tuesday.

There is no outstanding star, but the honors of the picture easily go to Madge Bellamy, as the daughter of the lumber king, Lloyd Hughes, the pampered ward of two able-bodied aunts, and Tom Santelich, who plays Killdevil, the river front bully.

The story is a satire on the advertisements that are always striking you in the eye, accusing you of all kinds of terrible things, like settling with your feet on the table, and lacking other essential polite favors. Written by the magazine favorite, Larry Evans, it moves from an amusing beginning to a screaming climax, with laughs and speed enough for two ordinary pictures, yet never losing the human touch.

Oliver Wendell Blaine has developed into a nifty under the top castilian duster of two whizkid aunts. Alone in his bedroom, he dreams of performing deeds of Napoleonic valor, and he tries to train his dog, "Sport" to be a great fighter. But Sport, like his master, is dominated by the atmosphere of superiority about the house, and does not respond.

Oliver's bete noir is Killdevil Brown, the river-boss of the section.

## Viola Dana Will Be Attraction at Empress Monday

The inimitable talent of Viola Dana, who has a fresh and original idea in the latest North production in which this vivacious star is scheduled to appear, is "Crinoline and Romance" and it opens on Monday and Tuesday at the Empress Theater.

Advance information about this picture's screen work is large and it is a most interesting story.

In "Crinoline and Romance" Viola Dana appears in the role of a woman who is utterly unacquainted with the modern fireman, and in a manner which is usually associated with her acting is not lacking in her own characterization, by an unusual but she is a most interesting character that is completely different.

The story which Bernard McConville has provided for the star is concerned with the life of Miss Emily Lee, who lives with her grandfather on his farm in a remote section of North Carolina. The girl knows little of the world outside of her home, and she has never had the companionship of men and women of her own age.

Emily decides to revolt. She puts away with her "mamma" to the ultra-modern home of her fashionable aunt, Mrs. Westcott, where a perfect cotillion of very advanced young folk are her guests. Emily, in her own mind, causes a sensation, but, notwithstanding her old-fashioned ideas, she proceeds to captivate all the young men to the utter consternation of the other girls' think about it.

Emily, too, becomes modernized—her "mamma" tells her that she is to marry a man who is a fireman. Her grandfather, who is a fireman, tells her that she is to marry a man who is a fireman. Her grandfather, who is a fireman, tells her that she is to marry a man who is a fireman.

## EMPRESS ATTRACTION STARTING WEDNESDAY

## Mabel Ballin in 'Vanity Fair' at Strand Theater

Probably the most widely read novel ever written in English is William Makepeace Thackeray's "Vanity Fair" which was published in 1848. It was also translated into German and printed in Leipzig about 1870.

Thackeray died on December 24th, 1863, but lived to see this early novel of his adopted as one of the greatest fiction narratives of his age.

The Ballin production of "Vanity Fair" stars Mabel Ballin in the role of Becky Sharp and in the cast are such well known names as Hobart Bosworth, Harrison Ford, George Walsh, Marie Foxe, Willard Louis, Eleanor Boardman, Robert Mack and numerous others.

Many plays have been made from "Vanity Fair," notably in America, Langdon Mitchell's adaptation under the title of "Becky Sharp" which starred Mrs. Fiske as a starting point for several seasons. Marie Thibault gave another version at the Strand Theater. The first American production was that of Broadway made in 1899; another version was produced in 1912, and in 1920 Laura Keane gave a Dion Boucicault version in a different dramatization. The famous novelist's son, John Galsworthy, also made a stage adaptation of the novel under the name of his leading character, Becky Sharp.

This novel has also been depicted on the screen many times. Mrs. Fiske used a film version of Langdon Mitchell's play about 19 years ago. A new version has just been made at the Goldwyn studios by Hugo Ballin, in which Mabel Ballin is starred as Becky Sharp. This picture is being distributed by Goldwyn and will be the attraction at the Strand Thursday, Friday and Saturday.

The Ballin screen version of "Vanity Fair" was made in response to requests from picture-goers who had seen his previous productions and had been asked what great novel or play they would like to have Mr. Ballin produce next. The majority of answers were in favor of "Vanity Fair" and Mr. Ballin himself prepared the continuity, going directly to Thackeray's masterpiece.

## Faversham Now In Pictures After Notable Career

William Faversham, now appearing as a screen star in the "Bright Shawl" picture, "The Man Who Lost Himself" at the Strand Monday, Tuesday and Wednesday, is invariably ready to oblige the interviewer. Recently asked in New York what was the most significant moment of his celebrated career in the theatre, he had this to say:

"It seems to me that the most significant moment of my career was on the night when I appeared in Howard's play, "Aristocracy," was produced by Charles Frohman in New York. We had a splendid cast but things did not go well at rehearsal, so I threw up my part and decided to leave the stage forever. I even called a cousin to make a secured position in Calcutta but Paul Arthur, a member of the company, to whom I confided my plans, urged me to reconsider my decision. We sat up half the night discussing the proposition. He called me a fool and said I was going to make a hit of my life as Prince Smil in this play.

His First Success

"When Charles Frohman heard of my determination, he sent for me and our difficulties with the author, which had started my dissatisfaction were patched up.

"The following Monday night I made my appearance as Prince Smil. After having had an sleepless night I was in a state of mind that I had never been in before. I heard someone quite near me say: "That young man is made for life. It's one of those rare, first-night successes which sweep an actor to the top of the profession." Then, young Faversham—every one will know his name tomorrow.

"It came as a sudden flash to me: I was a success. It was the significant moment of my career. I didn't seem tired any longer. I no longer thought of Calcutta. It was the stage for me from that time on."

The period between Mr. Faversham's first success and his advent as a star in Selznick Pictures is a period marked by triumph after triumph, first as a prominent player, then as a star, finally as an actor-manager, who lent distinction to the American stage by his many fine productions.

## Miss Minter Is Taking Rest Cure At Sanitarium

Universal Service. LOS ANGELES, June 16.—Mary Minter is in a private sanitarium near Pasadena, she is here to take a rest cure, according to members of her family. How long the screen star will remain a patient is uncertain, but Miss Margaret Shelby, the actress' sister, told the representative of Universal Service tonight that "Mary may be home tomorrow or any day now."

When inquiry was made at the Shelby home, 761 South New Hampshire street, with the subject of Miss Minter's absence from home—a matter of about two weeks now—the truth came out only after considerable fishing.

"Mary is right near Los Angeles and she talked on the telephone today with mother," said Miss Shelby, the sister. Then she added:

"She is stopping with friends—a prominent family."

Another member of the Shelby family however, later supplied the missing link of information.

Miss Shelby recently revealed that, because of the noise made by carpenters in effecting alterations in the Shelby home Miss Minter decided to take a vacation here. Accordingly she rented a bungalow. It was stated, then gave it up when plans for a trip to China were about a nature. However, the tour was deferred by the illness of Mrs. Charlotte Shelby, the star's mother. At this time, it was stated, Miss Minter decided to go to the sanitarium.

Miss Shelby denied that her sister had left home as the sequel to any rumored divorce between her mother over financial matters.

Plan for Twenty Days.

AMARILLO.—Police officials and county juvenile officials here have evolved a novel method for handling unruly boys of Amarillo. Following a series of thefts by youngsters, it has been arranged that when a boy is caught stealing, he will be taken in charge by one of the local men's clubs for training.

## Prizes Announced Olds Motor Works Hill Climb Week

Distributors in Indianapolis and Los Angeles were the winners of the two grand prizes offered by the Olds Motor Works of Lansing, Mich., for the most spectacular performance of a four-cylinder car during "National Hill Climb Week" early in May. Second prize went to the Washington, D. C., distributor and the third prize to the Rochester, N. Y., dealer.

The Lathrop-McFarland company of Indianapolis and the J. W. Lovell company of Los Angeles and Los Angeles were each given the grand prizes of large, jiving cups. The Oldsmobile Sales company of Washington and George W. Henner of Rochester were also given smaller prizes. The Oldsmobile representative, in Cleveland, Denver, St. Louis, Springfield, Mo., and Chicago, all gave honorable mention to the factory for the stunts they put on. A tabulation of the stunts and contests staged during the hill climb week show that more than 300 hills were climbed by the four-cylinder car, while in high gear. Several companies carried as high as 21 men at a time. Others took 1000 lbs. of weight, and one took 1000 lbs. of weight. Only stock cars were used. The Indianapolis company engaged "Cannonball" Baker, the former race driver to give drive the week for them and made a record trip to French Lick and return, covering many grades in high gear, which had never before been attempted. The entire run was made without taking the car from high.

In addition to this run the Lathrop-McFarland company arranged runs in Terre Haute, Ind., Connersville, Marion, Ky., Wayne, Ho., Huntington, Loganport, Lafayette, Ark., Birmingham, Richmond and Paris, Ill. Baker drove in all of these hill climb tests and Oldsmobile negotiated every one in high gear. The Lovell organization sent a team over Lone Mountain, near San Francisco in high gear over Laurel Canyon, one of the worst grades near Los Angeles. This car carried 13 men and the total weight was 4,000 pounds. Exhibitions were also put on in San Diego, Cal. In every case an overland was carried.

George W. Henner sent four over Webster Dugway Hill in Rochester, carrying 21 persons. The car was in high gear. The weight of passengers alone amounted to 2,500 pounds.

In Washington, D. C., the four was sent over "The White House Hill" in high gear from a standing start, carrying 18 persons. The same last year, the record was 15 persons. The car was in high gear. The weight of passengers alone amounted to 2,500 pounds.

## Goodyear Factory Makes New Tread Says C. C. Randle

It has been recently established that a good portion of a certain undesirable humming noise coming from the rear system was caused by the "flat" axle designed by C. C. Randle last week.

Automobile engineers called in their engineers to work out a remedy but this was not done until the Goodyear company's engineers got to work on the job and made a new tread by combining the "All-Weather Tread" and "what was formerly known as the Rib tread tire."

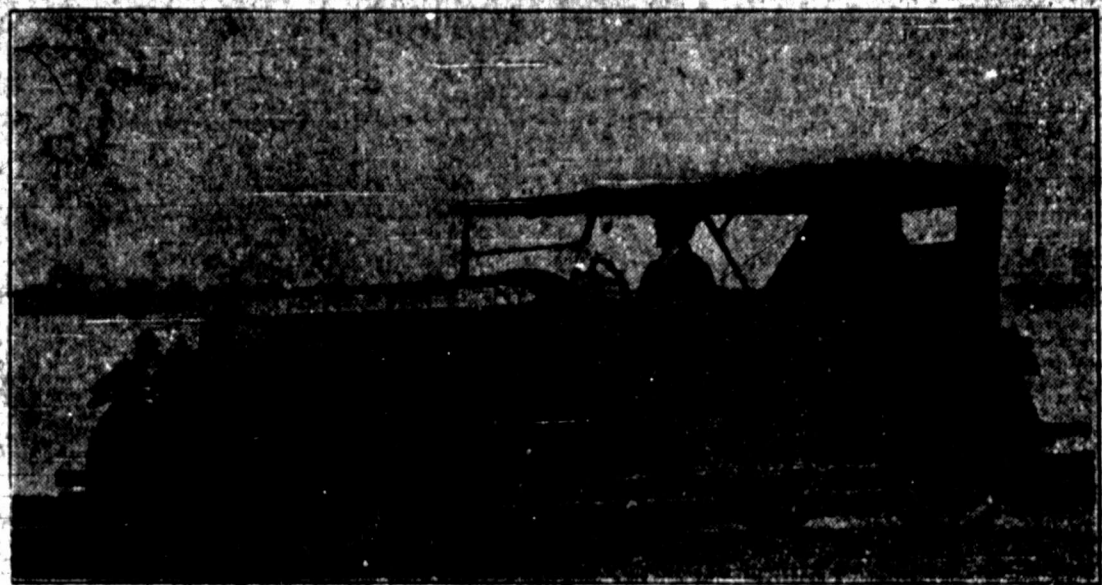

This combination has eliminated the "undesirable noise" Mr. Randle pointed out.

The new tread will not be on the market for a while because of the difficulty of getting rid of the old stock supplies before taking on the new tread. The new tread, however, the new Cadillac, Packard and Buick are now equipped with this new tread tire. It was stated that it will only be a short time until all owners can be taken care of by having an old car. It was stated.

Mr. Randle said that it is reasonable to expect that to the extent the demand for Goodyear tires increases, some people claiming to get as much as 25,000 miles out of a set of these tires. The new tread tires get 15 to 20 thousand miles out of a set of the famous Goodyear All-Weather tread.

Older customers are coming back after trying other tires and Mr. Randle declares that he considers this a greater compliment than getting a new customer.

## Ford Production Continues Below Great Demand

DETROIT, Mich., June 24.—June sales of Ford cars and trucks in the United States for the month of May totaled 171,306, according to a report just issued by the Ford Motor Company.

The May sales were more than 2,000 greater than those of April, due to increased output. Production has been the only limiting factor in the sales of Ford cars and trucks since January, for at all times orders on hand have been in excess of the manufacturing capacity of the company, great as it is.

The high production schedule which has been in effect the last few months, however, permitted May to show a gain of 4,414 retail deliveries over the corresponding month last year, and it marks the fourteenth consecutive month in which sales have gone above 150,000.

May deliveries bring the total of Ford sales in this country up to 22,184 cars and trucks for the five months from January 1, to June 1, an increase of 22,000 over the same months a year ago, and presenting a record-breaking sales figure.

Under the constantly growing demand, Ford sales for the present year will pass the million mark in July, a figure which would already have been attained had it been possible for the company to bring production up to the orders.

A Message From the White House  
Mr. Ford, the home of President Warren G. Harding, is proud of the fact that he is a loyal supporter of the civic institutions. For years he has been an active member of the National Automobile Club and has just received his membership for 1932 in the local organization, the Ohio State Automobile Association and the N. M. A.

## Packard Model Tests Worst Roads All Over Country

Roads just as bad as any the country could boast before the good roads movement was started in the United States still are to be found in an automobile trip from coast to coast. It is necessary now, however, if a motorist wants to encounter the very worst roads to do considerable planning and lay out his route carefully.

Engineers of the Packard Motor Car Company, as a test of the new Packard Single-Eight, the company's recently announced eight cylinder in-line car, mapped a route between Los Angeles and Detroit with a view to traversing the worst roads in the United States. So that each road would be encountered at its worst, the trip was made in March.

The car was shipped by express to Los Angeles. There it was met by Alvan Macaulay, president and Col. J. G. Vincent, vice president of engineering of the Packard. They gave the car a test of their own before it was sent on its journey across the continent.

Col. Vincent, who designed the new car, had told Mr. Macaulay its almost unlimited power would make it a good hill climber. They drove into the mountains to prove the assertion. On one mountain road, used for years for the testing of hill climbing abilities of automobiles, the new car, in high gear, traveled three miles farther than any car before had succeeded in going.

A trip then was taken to Death Valley to try out the cooling equipment. A test was made at a sustained speed of 15 miles an hour with a following gale of wind in a high temperature, conditions under which, it was agreed, any car could be forgiven for overheating. However the Single-Eight showed no indication of overheating at any time during the trip.

When the start of the cross country run was made severe conditions were met with almost immediately. A sand storm was encountered in the Mojave desert and had to plow through heavy drifts of sand.

The route had been laid out through the comparatively untraveled sections along the southern border and the roads were rough almost to the point of being impassable through Arizona and a part of New Mexico. In the latter state, however, short stretches of unusually good roads were found.

After traversing rough roads for a number of days a five-day rain started when the car was 200 miles east of El Paso, Texas. This put a finishing touch to the road. Motorists and salesmen who travel by motor car in that part of the country were laid up wherever they happened to be until the roads dried. The "Single-Eight" at times was slowed up by the conditions of the roads but it kept going. One stretch of highway was so bad that nine and a half hours were required to make 25 miles. Part of the time, however, was spent in hauling the heavy car of a Texas cattleman from the mire and towing it to the next town. Hope had to be made frequently to shovel mud away from the front of the car where it had piled up under the running boards like snow in front of a snow plow.

Rain and bad roads continued, practically all the way to San Antonio. At this point several hundred pounds of mud were cleaned off the car so springs and like places could be lubricated.

The highway department and chamber of commerce at San Antonio advised against an attempt to reach St. Louis by way of Dallas, Muskogee and Kansas City. But the crew of engineers laughed at the advice and started. The rain stopped temporarily and the mud, ruts and ruts of northern Texas and Oklahoma were negotiated in good time.

Western Kansas proved dusty but which, it was agreed, any car could be forgiven for overheating. However the Single-Eight showed no indication of overheating at any time during the trip.

After 100 miles through mud and 200 miles over badly rutted roads, requiring almost constant use of the brakes, in one part of the trip, it was found unnecessary to make any adjustment on the four wheel brakes.

Temperatures on the trip varied from 26 to 100 degrees Fahrenheit and storms from sand to rain and snow. When the car reached the factory it was taken apart piece by piece by the engineering department and every part checked to see if there had been any wear and tear. At the conclusion of the test the car was given a 100 per cent score.

## Auto Dealers Discuss Plans T. O. Fair in Fall

The Automobile Dealers Association discussed plans for the Texas-Oklahoma Fair, at their weekly luncheon at the Kemp hotel Tuesday noon.

C. H. Verchoyle, secretary of the fair association spoke to the dealers in regard to the plans and a show committee was appointed including W. S. Langford, Frank Quataer, E. V. Leslie and Lloyd Weaver. This committee will also handle the races at the Fair this fall.

Ed Dwyer of Bundy-Strong auto supply company had as his guests, H. A. Howlett and A. J. Price representative of the American Auto Parts Company.

Keep oil measure clean and in a clean place. No grit should be permitted to reach the oil reservoir of the engine.

## One of Them Now

By BERTON BRALBY.

When motorists would rather find their talk was dull and bleak to me. And most of what they said, I found was nothing else but Greek to me. They spoke of "clutches, pistons, gears." I listened quite unheedingly. They bored me almost unto tears. In other words—exceedingly.

They talked of "taking hills on high." Of roads that they'd been traveling. They'd spend long hours unraveling a lot of yarns about their cars. And things that they could do with them. I said, "What awful bore, my stars!" These motorists—I'm through with them.

By talk of motors I was bored. And loudly I made mock of it. But now I've got a little Ford. And all I do is talk of it. And now, where motorists are seen, I promptly seek a seat of them. And talk about my own machine.

(Copyright, 1932, NEA Service, Inc.)

## Permanent Roads Great Importance Says Mr. Goetz

Hordes of autos now remind us we should build our roads to stay. And departing leaves behind us a kind of roads don't wash away. When our children pay the mortgage.

A. S. Goetz of the Thurber Brick Company calls attention to the above in connection with the question of permanent highways in Texas.

"Texas is fortunate in having a brick plant that has been in operation for about 20 years and is producing a paving brick that is as good as any made anywhere in the United States," Mr. Goetz stated.

Mr. Goetz believes that brick paving will receive great consideration for highway construction in the future as well as for street paving and calls attention to the Eastland county road from Ranger to Cleco, about 20 miles long, which he states is considered the best in the state and which unprejudiced engineers concede will long outlive its bond issue.

# For 10 Days Only Trade in Your Old Tires

We must have used tires of all sizes, at once, regardless of condition

IN ORDER TO GET THEM QUICKLY WE ARE GOING TO OFFER YOU PRICES THAT YOU WILL AGREE ARE VERY ATTRACTIVE.

STANDARD BRAND TIRES SUCH AS:

# General Star Howe Dayton Brunswick

AND MANY OTHERS

## HERE IS OUR PROPOSITION

If you have any tires that you do not need, even old worn-out ones that are beyond repair, bring them here, and on every new tire purchased we will allow you the following prices, regardless of the condition of your old tires:

Woman Drives New Rickenbacker, Declares It Ideal

We are now in a position to answer the slogan of the new Rickenbacker car: "Ask the woman who drives one."

We drove one last week and the Victory Motor Company was in great danger of being minus a new coupe, if we had allowed our car-thieving instincts to get the better of us.

We don't pretend to be a mechanic, neither do we lay claims to having at any period been an auto salesman or demonstrator, but we have driven several makes of cars on the streets of this city for many years and we would cheerfully relinquish all claims to a future paradise for that Rickenbacker automobile.

Looks go a long way with a woman, but when she has driven a car very much she wants looks combined with a good motor, and she certainly likes a car that is easy to handle, whether she has driven much or not.

The car is a combination of already proven features as to mechanical and is not an experiment in connection, although it incorporates some new and highly satisfactory improvements such as the dirt-eliminating air cleaner and the vibrationless motor.

The ease of handling makes it a desirable car from a woman's viewpoint, as it can be managed with the slightest effort on the part of the driver and although it is a large car it does not tax the strength of even a delicate organism.

The exterior of the new Rickenbacker is a maroon as to body with gray disk wheels and bears the "hat" in the front.

After our ride through traffic and over rough roads we felt no movement, we felt no more strain than if we had spent the time in a comfortable rocker on a shady porch, and it took the combined efforts of our friends to persuade us to relinquish the car to its rightful owner and get back on the job.

Studebaker Makes Largest Shipment To Single Dealer

A solid trainload of Studebaker cars, consisting of 120 Light Sixes, has just been shipped from the big Studebaker factories at South Bend, Indiana, to the Studebaker Sales Company of Newark, N. J.

This shipment is unusual in two respects. First, the entire 120 cars have been sold at retail and will be delivered to waiting buyers just as soon as unloaded. And second, it is believed it represents the largest shipment to one dealer of a single model of car in the \$1,000 class ever made by a manufacturer.

This gives fresh evidence of the insistent demand for the Studebaker Light Six, that exists in the metropolitan district of Newark, just as it does throughout the country.

It is not surprising that these experienced metropolitan motor car buyers should create a tremendous demand for the Studebaker Light Six, according to Frank Keim, local Studebaker dealer.

To the majority of these purchasers, price is a secondary consideration. They demand a quality motor car—furged construction, dependability, reliable performance, thorough comfort and handsome appearance.

"The territory covered by the Newark dealers includes many of the fashionable suburbs of New York City. Thousands of New York business men make their homes just across the Hudson river in the New Jersey suburbs which constitute one of the most discriminating automobile markets in the world."

"Some idea of the high quality that is evident throughout the Studebaker Light Six may be gained by an inspection of the crankshaft and connecting rods which are machined on all surfaces—an exclusive Studebaker feature on cars at this price and one that is found only in a few other cars whose selling prices are from three to ten times as great as that of the Light Six. This is largely responsible for the exceptional elimination of vibration in the Light Six."

"Coupled with its high quality, is the remarkable fact that the Studebaker Light Six is the lowest priced six-cylinder car on the market.

"This low price is made possible by Studebaker's excellent manufacturing facilities, the size of which is indicated by the \$45,000,000 investment in plants and by the experience gained from 21 years' manufacture of high grade vehicles.

"Therefore, it is no wonder that the Studebaker Light Six appeals to experienced and discriminating motorists here at home."

Cotton Grading School. ARLENNE.—What is said will be the first cotton-grading school in this section will open July 7 at local business college and continue for six weeks. Prof. L. W. Ross, formerly of A. and M. College, will have charge of the grading work.

Plan Bathing Revue. FORT WORTH.—Arrangements are being made for an enormous Fourth of July celebration here. A bathing revue at Lake Worth will be one of the features. Plans also are under way for an extensive fire works display.

Can You Suggest Name for This New Rickenbacker Car

Did the first glance at this snappy roadster suggest anything to you that would exactly fit as a descriptive name for it?

Captain Rickenbacker insists that unless such a term comes instantly, automatically and almost unconsciously to mind in the very seconds that you set eyes on it, the name will have no merit.

He bases this on the psychological fact that all names and expressions which have endured have been of spontaneous origin, and not the result of cold calculation.

He offers a prize of \$100 for the happy suggestion that will be adopted as its popular appellation. This is the first photograph that has been published of the new roadster which the famous Ace of Aces disclosed to public view when he drove it around the Indianapolis Speedway on Decoration Day.

The color is gray, and the design is a perfect "streamliner" which is to say, the design is such that it displaces the air with the least amount of resistance, and then permits the air to close in behind again without creating eddy-currents or a partial vacuum.

It is the imperfect design which causes great clouds of dust to follow an automobile down the road," says Captain Rickenbacker.

Auto Great Factor 'Discover America' Campaign, N. M. A.

WASHINGTON, D. C., June 26.—Simultaneously with the announcement that many big national organizations are lining up with the N. M. A. slogan, "Discover America," the National Motorists Association declares itself squarely behind the movement to call America to Americans through more convenient, less costly and more profitable traveling.

While the exact plan of action is as yet only in the making it is known that the biggest hotel, transportation, industrial and automotive interests in the country are to give support to this idea to profit by traveling more in America. "See America First" is to be disseminated in favor of "See America All the Time."

### THE MOTORISTS' PROBLEMS

By WILLIAM M. STEWART, JR.

Motor Department: Now is the high gear officially tested in a car when making a hill climbing test. Does the car start in high gear as accomplished by the stroke of the motor or by a certain make of gear?

Usually the low and intermediate gears are removed and the gear case tested before the test. After the race an official inspection of the seal and case is made. It is a simple matter to start in high gear, especially if the car is given a rolling start.

Motor Department: I have experienced considerable trouble with the overheating of my Chevrolet 486, year 1922. Have had several mechanics work on it, but no satisfactory results. In operating the car on the level at a maximum speed of 25 miles per hour the water stands and boils, and through the radiator over-flow. Have had the timing and oiling thoroughly checked and the pump changed. The water pump has about three to four inches radius from the center which always remains cool regardless of heat on the remainder of radiator. I had an extra set of new valves installed these weeks before the trouble began. Also had some compound in the radiator, which a mechanic apparently removed with hot soda after the radiator was cleaned. Keeping you can offer a suggestion for the remedy of this trouble. I am—W. B.

From what you have stated it seems that the radiator is at fault. If a section of the radiator is not functioning you will experience overheating trouble. Would suggest that you have the radiator tested and repaired by a specialist in this line of work. It is very difficult, whether the radiator is new or old, to determine the effect of the compound you say you have used.

Motor Department: Which type of spark plug is preferable for use with a Bosch magnet, one with a hexagonal gap or one with a slanted gap? I find the latter type has a sharp point which ought to make it easier for the spark to jump. What is the better type?—L. E.

The magnet gives a hot spark that will soon burn away a sharp point. Heavy points are better. The single gap plug is just as good as any other when properly designed.

Motor Department: For some time I have been coming out under the brake lining of my Dodge car. It not only ruins the looks of the wheels, but prevents the brake from having any effect on that side. I got a new washer on and tightened the lock nut to the limit, but without success.—K. S.

Better take the wheel off and install new grease retaining washers. Also use a heavier grease in the rear axle during the summer.

Motor Department: I notice that the drain cocks in the bottom of the crankcase of my Overland are little above the bottom. Is the oil level correct when the oil stops flowing from these cocks? Is cork a good gasket material to use between the cover and the gaskets of the crank case?—OWNER.

The cork connects to what are called "standpipes" which bring the oil down to the lowest level. Trapped sheet makes a very good crank case gasket.

Motor Department: Could you tell me how many small gears there are in the differential to transmit the driving effort of the axle shafts? I have heard of cars having two, three and four of them.—L. N.

The differential has a large ring or crown gear, which is driven by a pinion gear on the propeller shaft; two bevel gears, one connected to

each of the axles which drive the wheels, and meshing with these there are a number of small gears. On the larger cars, there are usually four of the latter, while there are generally sufficient for the smaller type cars.

Motor Department: I have a magnet on my car. My spark lever is only effective when advanced about one-fourth of the distance and that point seems to be the only place the magnet works good. And then when the car runs at 25 miles an hour it seems to be laboring hard. It does not seem to have the power it should have.—E. K.

There may be a short circuit on the wire going to circuit breaker. Remove cable at breaker box and test by running current through them. The trouble may be due to the breaker box being loose or the breaker gap out of adjustment. Attention to these details should remove the trouble.

Motor Department: I have a mud hole and splashed water on the magnets, and I can't get a spark at all. The magnets had plenty of new fire and I tried to clean them to remedy the trouble.—S. K.

If the water stopped your magnets from generating current it will be dried out by this time. If it refuses to produce current clean off distributor outside and inside. Run the fire plug and paper between breaker points, look at collector ring brush to see if it is in good condition and collector ring is clean and the distributor is good and has no short circuit.

Motor Department: My fuel pipe leaks and I cannot stop it. Tightening it does no good. I live far away from any repair shop where I could have the threads fixed. Would it be advisable to use red lead or white lead on the joint, as they do on gas fittings?—S. K.

The gasoline would dissolve the oil in the lead, or if it set first, it would be difficult to take the joint apart without damaging it. Rub soap into the threads and paint them with a heavy coat of shellac before assembling. These substances are not so readily affected by gasoline and so may do the work to your satisfaction.

Motor Department: There is a strong smell to the exhaust of my engine and occasionally it misses explosions. It is not difficult to start and pull well, except when it begins to miss explosions. There is rarely any smoke except when starting. The color seems to be grayish, but it is not thick enough to develop any decided color. Please let me know what to do for this.—OWNER.

The gray smoke suggests too rich a mixture of gasoline and too much oil, as all alone would give a blue smoke and too much gasoline gives a black smoke. See if the spray nozzle is not open too wide, or the air valve stuck, so as to give too rich a mixture. Cut down slightly on the oil supply and note if the trouble does not disappear.

#### HELPFUL HINTS.

Few people realize how important it is to strain the lubricating oil. As it is put into the breathing tube, a fine wire gauze strainer should be in the throat of particles of dirt, etc., will clog the pump or passages if they are not kept out. This is more important with the plunger pump than with the gear pump, but clogged pipes may occur on any system.

Do not neglect to change the oil in the crank case because it is a dirty job. The manufacturer knows when it should be changed and his advice should be followed. If you could visit a repair shop and see a few engines that have suffered from neglect, you could be more careful of your own.

### ACCORDING TO N. M. A. REPORT MOTORISTS TRAVELING FURTHER ON LESS GAS BY CURBING WASTE

WASHINGTON, D. C., June 29.—The U. S. Bureau of Mines reports that the United States encourage the belief that car owners have already begun to act upon the gasoline economy suggestions broadcast several months ago by the National Motorists Association through the newspapers, trade papers, and the Literary Digest.

Though the rate of increase in registration of new cars is at the highest point in the history of the automobile, Uncle Sam reports that gasoline consumption has not increased as rapidly as reported. It has been pointed out the enormous aggregate savings in fuel possible through urging each car owner to watch the small, but cumulative, forms of waste.

That progress is being made in this direction is only a matter of noting that the indicated consumption of gasoline in April shows an increase of but \$9,000,000 gallons despite an \$900,000 increase in gas sold and an approximate increase of 1,500,000 automobiles in service.

The average car has not displayed any startling increase in gas mileage because of changes in design, while production of cars and traveling by motor have never reached a higher point.

There can be only one answer to the fact that the rate of consumption of gasoline is showing a tendency to decrease: car owners have come to realize that the saving of one gallon per month by each represents a combined saving of 13,000,000 gallons.

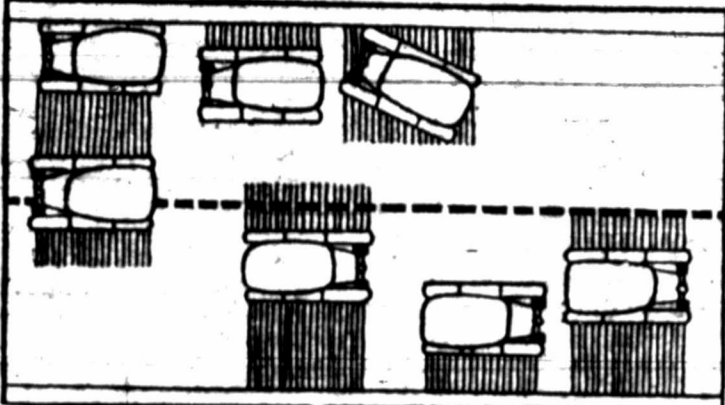

Additional evidence of this saving is found in the fact that the monthly consumption of gasoline is now but \$4,711,923 gallons in excess of the average monthly consumption in 1921, when there were but 10,000,000 cars registered.

The 3,000,000 additional cars are, therefore, resulting in a monthly gasoline consumption of only 12 gallons per car, which at an average of 12 miles to the gallon represents but 24 miles of travel per month per car.

Since the average car travels considerably in excess of this, particularly at this time of year, it is evident that motorists are traveling farther on less gas, due to curbing waste.

### SAVE ROAD SPACE!

"Don't Use More Space Than Auto Covers," Urged

Shaded portions (above) show spaces wasted when cars are parked on drives or boulevards.

Congestion in the downtown districts of some of the larger cities has grown to such a state of despair that authorities are now seeking the cooperation of owners to curbing waste of road space, as a help toward relief.

"Don't waste the highway," is the cry. By this is meant, don't take up space which your car actually doesn't cover.

For example, in parking, the correct method is to line up as close as possible. That leaves all the rest of the roadway to moving vehicles. But if the car is parked a foot off the curb, although parallel to it, there is waste of a foot, the length of the car, into the roadway.

If the street happens to be crowded with vehicles going in both directions, even this foot of waste may mean the crowding out of a line of autos and further congestion of traffic.

Angular Parking. This, however, is not so bad as parking with the rear jutting out into the street. Here there is a waste not only of the space between the car and the curb, but also that space which completes the

### MELVIN JOHNSON DENIED REHEARING BY HIGHER COURT

AUSTIN, TEXAS, June 29.—The death penalty assessed against Melvin Johnson in Liberty county, for the murder of Lucinda Daniels, was affirmed by the court of criminal appeals today when a second motion for rehearing of the case was overruled. The killing occurred on Nov. 16, 1921, and the court previous had affirmed the penalty.

The court also denied second application for rehearing in the case of J. N. Gunn, Bell county, sentenced to 99 years for the murder of his wife, Sarah Gunn.

The life sentence against Sidney Oliver, Hardin county, for murder in connection with the killing of F. Ray, was dismissed for want of jurisdiction for failure of the trial court to sentence the defendant.

Rehearing was granted W. H. Maddox, Robertson county, sentenced to 15 years in connection with the murder of Jim Uden. It was also granted for Stanley Fox, Harris county, sentenced to five years for the murder of G. V. Smith and Pat Walsh.

The court reversed and remanded the two year sentence given Bruce L. Rosen, Dallas county, for manslaughter in connection with the shooting of Alfred Stout on April 6, 1921. Rosen was a patrolman at the Rock Island railroad yards at Dalhart. Testimony of army officials was to the effect that Stout had deserted from Fort Bliss and had attempted to escape when

### MELVIN JOHNSON DENIED REHEARING BY HIGHER COURT

shot. Reversal was on grounds of reflection of certain testimony. The court recessed today until October.

MAIL IS ALLOWED IN SUM OF TEN THOUSAND AUSTIN, June 29.—Bill in the amount of \$10,000 was granted by the court of criminal appeals today to Gibbs Howard, W. W. Williams and Ed Walker, Comanche county, charged with murder. All three defendants were charged with the murder of Jack McCurdy. Howard and Williams were sentenced to five to 60 years, and Walker to five to 30 years. The court reversed the

### MELVIN JOHNSON DENIED REHEARING BY HIGHER COURT

judgment of the trial court on grounds that the defense did not warrant denial of bail.

Do not let oil in the gear case get below the teeth of the intermediate gear. The large gears can reach down and get oil enough and they splash oil on the others. But the intermediate gear does not reach down so far and so must touch the oil in order to get sufficient. A good practice is to have the oil up to the bottom of the shaft.

The river Jordan has an average fall of 13 feet to the mile, and its 50 years. The court reversed the

# REDMOND MOTOR CO.

809 10TH STREET, WICHITA FALLS, TEXAS

## Has Been Appointed Their Representative for the Wichita Falls Territory

The general attitude toward the Hupmobile is worth recording because it goes to the very root of wise automobile buying.

People in the mass do not continue to see superiorities in a motor car over a long period of years, unless the superiorities are actually there.

And it is an indisputable fact that motorists in the mass do spontaneously, continuously, testify to those merits in the Hupmobile which make it the wisest, soundest purchase possible in its class.

We Ask You the Pleasure of Showing You a Hupmobile

## Cord Quality

BUY NOW From Regular Tire Dealers at These Astounding LOW PRICES

Oldfield Cord Tires are race tested—holding all of the track records made in the past three years.

Oldfield Cord Tires are road tested—in the Wichita, Kansas, Economy Road Test, in the winter of 1922, the official record showed a set of Oldfield Cords had traveled 34,525 miles before the first tire gave way. And this is only one of many instances of unusual highway performance.

Oldfield Cords are built by one of the largest tire manufacturers, who must maintain the established reputation of these remarkable cords.

Here are the biggest tire and tube values ever offered by anyone. Come in today. Buy your tires now before our stock is exhausted.

Purchase from a regular tire dealer, located near you. We stand behind these tires and are ready at all times to give you prompt service.

FABRICS			
Size	Tire	Tube	
30x3	"999"	\$7.95	\$1.75
30x3 1/2	"999"	\$9.85	\$1.95

# Rickenbacker Six

A CAR WORTH ITS NAME

## 4-wheel BRAKES

### Again—Rickenbacker Engineering Leads, and Shows the Way

First assumed that leadership, by creating a motor free from any period of vibration—the most destructive force in an automobile.

The Rickenbacker "Tandem Flywheel" accomplished this.

Then the "Air Cleaner"—which doubles the life and renders your motor free from excessive carbon deposits.

And now—we announce the greatest improvement made in an automobile since the advent of the self-starter—13 years ago.

Here is a feature that is super-efficient; for not only do the four wheel brakes increase your tire mileage and eliminate all tendency to skid, but they offer the only practical solution of the twin problems of congested traffic and public safety.

With the same effort, you stop in about half the distance—with half the strain on tires, brake linings and other parts that you do in the same car equipped with 2-wheel brakes.

Or, with much less effort, your car stops in the same distance with still less strain on tires and axles.

Verily: "A demonstration is a revelation!"

For, if we told you here all the advantages of this great engineering achievement your credulity would be unequal to the test.

One cannot believe, until he himself has experienced the sensation, of riding in—and driving—a Rickenbacker with 4-wheel brakes.

So convinced are we of the superiority of four over two, we predict that one year from today 4-wheel brakes will be universal.

Remember this when rival salesmen try to argue against 4-wheel brakes—for of course they must, not having them, yet.

The superiority is so marked and so manifest, there is just no ground left for argument.

As we have stated, this is, and will be, regarded as the greatest single improvement in an automobile since the advent of that other epoch-making feature—the self-starter.

Here's a self-stopper—if you will! Amazing in performance.

Does not affect steering unless it be to give you better control of the car when turning.

Actually stops car on wet asphalt quicker than 2-wheel brakes do on dry, with no skidding.

There's a feeling of security when driving on a wet or slippery surface that is indescribable and most reassuring.

Equalized as no other braking system has ever been equalized—to compensate, not only for difference in traction of each wheel, but for difference in wear of shoes and drums.

Drums are finely machined to ensure absolute uniformity and smoothness of operation. Another example of Rickenbacker thoroughness and care.

Think of this greatly increased factor of safety—100 per cent more than you have been accustomed to.

Here is a mighty long step towards the solution of the traffic problem.

You can stop in "a car length" at any legal speed—or glide to a velvety pause, in half the distance you are used to.

No, NOT hydraulic—pneumatic—or electric. Mechanical—positive—simple—sure—a system any child can understand.

4-wheel brakes wear longer because the coefficient of friction per square inch of braking surface is less than half of what it is in two.

Tires wear longer for the same reason. Brake linings, too.

Silent, and uniformly efficient at all times and under all conditions—for all four brakes are of the internal, expanding type—dust-proof, clean, sightly.

By the way—Rickenbacker brake drums are painted a brilliant red, so that you will easily recognize this feature in a Rickenbacker Six. All four brakes alike—interchangeable! That's another wonderful advantage.

Of course you recall that the Rickenbacker was the first high-class car that had steel disc wheels as standard. That bit of courage and enterprise started the wood wheel on the road to obsolescence.

And now—this latest Rickenbacker invention will relegate to the limbo of the forgotten, the old style of brake.

Six equalizers—one in each wheel and one between each pair of brakes to front and rear. From now on, in the Rickenbacker Six, you will enjoy motoring as you never did before.

Phone, or come in and arrange for your demonstration.

Don't delay. First come must be first shown—and, of course, every progressive motorist in town will want a ride in this sensational Rickenbacker Six—with 4-wheel brakes.
