Sudden Explosion Is Suggested As Cause of Disappearance of Big French Dirigible Dixmude

BOLL WEEVIL IS BOTH CRAFTY AND MOST EXPENSIVE

CINCINNATI, Dec. 29.—The cotton boll weevil is proving itself to be a peculiar and crafty as well as a most expensive insect, Dr. N. L. McIndoo said today in addressing the Entomological Society of America at the "attractiveness" of cotton plants to boll weevils.

PARIS, Dec. 29.—A sudden explosion was suggested today as the cause of the disappearance of the dirigible Dixmude.

Advices from Rome said that nothing had been found among the effects of Lieutenant Grenadan, commander of the dirigible, whose body was recovered by fishermen off Sicily, to show that he felt the ship was in immediate danger.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

THE MOON AND SKY LAST NIGHT

As I walked in the street last night my eyes caught a clear out moon and a sky that was so beautiful it was almost staggering. Rarely had I noted such beauty.

I stood for a few moments and observed, and thought. Just the night before there had been a heavy fog and the city looked dull. There was no sight of moon or sky or stars.

But last night that half moon was so full of gold and sat among the stars like a queen on her throne. And such a sky! Deeply blue near the earth and graduating in color until high up it faded into a pale blue pearl.

I thought how like this contrast of night and sky are these spirits of ours. One day full of hope and encouragement and then, the next day, full of gloom.

It means so much to keep the skies about our hearts and hopes clear and full of blue, so that the stars may shine and help to cheer and gladden us on our way. And it means so much to help bring about this condition in the lives of others.

No one can read of the life of Robert Louis Stevenson without marveling over his patient, beautiful spirit. Each day for him was an opportunity for increased courage and a heart just a little more filled with sun and hope.

I once read of this man that his wife's name that brings us, as if, were, a breeze blowing off the shores of youth.

It may be difficult to push aside all the regrets that come to us from an accumulated past, but there is ample compensation in the fact that there can be no regret for unselfish love and service.

If you want to come out from a night of mist, fog and darkness, turn on the lights in your heart and then walk into the mist, fog and darkness of some other life, and you will get the same kind of a thrill—though keener and finer—I got the other evening when I was arrested by the beauty of that perfect half moon and incomparable sky.

A Lively Rum Demer. Livermore, Says Coolidge. We Work, Not Knowing Why. Some Wonders of Science.

By ARTHUR BRISMAN (Copyright, 1933, The Star Co.)

The demon may be down, but he is not completely out. On Christmas he sent 107 of his friends to one hospital, others went to bed at home, 87 died of boozing liquor in 1933. Tens of thousands have shortened their lives. Poisoned kidneys will soon begin yielding a rich harvest of trouble.

New Jersey demands three percent beer. But prohibition will prevent that for several years, at least. Mr. Livermore, who "makes a market" for other people's stocks by buying and selling more stocks than there is, knows all about stock gambling, pettily called speculation.

Coolidge will be elected, he says, and he will be big upward swing in all common stocks. "Coolidge will be elected," that's the prediction of some other party. The farmer is the question mark. Mr. Coolidge's message said the farmer's work out his own salvation. He said that the Illinois primaries will be enlightening.

Woodrow Wilson, 67 years of age yesterday predicted Democratic victory. He said he would announce his opposition to a bonus for soldiers. If he does, that will make it easier for Coolidge.

We build and go, not knowing for what or whom we build. They create a new world, and we are the water of the south sea, little dreamed that palms would grow, brown savage dance, and eat each other on these island reefs, or that white men would enslave the brown men and put them to digging phosphate, or making copper.

Alexander Gustave Eiffel, who died yesterday, at 71, built for the Paris exhibition of 1889, the Eiffel tower, man's highest structure, 1,000 feet high. It's only a top beside a fair sized mountain. But it's the biggest, all the world knows of it. Little he imagined, when building, that radio stations would send messages across the ocean, from that tower, or that Frustan flying machines would come trying to dynamite it.

Still less could he imagine the structure to be built by man in the future, that will make our mountain progress. It enables man to view astronomical observation, free of atmospheric dust and moisture. It carries up to 20,000 feet, breathing air pumped from below.

The Association for the Advancement of Science calls the automobile the greatest single contributor to the nation's ethical and material progress. It enables man to live three lives in one, increasing the farmer's production, saving his time, increasing human happiness everywhere.

Bankers that worry about automobile financing, take notice. An automobile is in a better race is a sound investment.

A dove that has reached the egg laying stage was changed from male to male, by a tubercular infection. The Carnegie Foundation proves that scientists think that the sex of a bird is determined by changed among human beings. Luckily mother nature has charge of that. Many foolish fathers and food wives would have all boys.

Dr. Alimoth Wright (right) fights disease. He takes blood from a well man, inoculates it with vaccine, puts it in a sick man's vein. Blood thus treated clears out the poison and restores most vitality. That's one scientific triumph.

Lenses, made from insect eyes are used to take photographs and prove the marvelous superiority of insect sight. Our eyes are imperfect. Insects see in ultraviolet light, and are able to see things we cannot see. They also see in the infrared spectrum, which is invisible to us.

Dr. McMurich of Toronto University tells the 2,000 assembled scientists that the world is full of modern science, has much stronger since Darwin's day. It seems incredible that man, as a creature, should be so ignorant of his own nature. "Directly as man's scientific knowledge grows, so grows his spiritual knowledge," said Dr. McMurich.

Scientists tell you that the parental instinct is 30,000 years old, the lowest animal forms, of those ancient times possessing Newton's formula, "Directly as man's scientific knowledge grows, so grows his spiritual knowledge," said Dr. McMurich.

Nature works everywhere under the same laws, at the north pole, at the equator, at the south pole, miles off in space. She works through attraction, mechanical, material attraction, expressed in Newton's formula, "Directly as man's scientific knowledge grows, so grows his spiritual knowledge," said Dr. McMurich.

Paternal affection is older than that. It's as old as the first life on earth. It's the love that has been known only knows how old that is. If, indeed, there ever was a first planet.

Nature works everywhere under the same laws, at the north pole, at the equator, at the south pole, miles off in space. She works through attraction, mechanical, material attraction, expressed in Newton's formula, "Directly as man's scientific knowledge grows, so grows his spiritual knowledge," said Dr. McMurich.

Attraction is nature's power. We can be relied on to do what we want to do, so she makes us want to do what she wants done. There are three attractions, the instinct of self-preservation, the instinct of love, and the instinct of knowledge. Often when we'd be better off out of the world. The instinct of reproduction supplies more of us, to a certain extent, than we can support. And ambition, the strange impulse that makes us work, fight, and strive, if necessary, to do better. It's the force that drives us on, that makes us progress and on we go, ingeniously would up, and set running, while we think we do it all ourselves. "If," said Dr. Johnson, "we know that the will is free, and that's an end of it." But do you know it? That 16-foot man, who was killed by a train, was 16,000,000 years ago, as far as counting the world goes today, each thinking himself a free agent. There is no chance, but that's what we are. And there is work within the law that rewards the workers.

COTTON MARKET

New Orleans Cotton. NEW ORLEANS, Dec. 29.—Cotton futures closed steady. American middling fair 22.15; good middling 23.15; middling 24.15; low middling 25.15; ordinary 26.15. Sales 2,000 bales, including 1,000 American.

New York Cotton. NEW YORK, Dec. 29.—Cotton futures closed barely steady. American middling fair 22.15; good middling 23.15; middling 24.15; low middling 25.15; ordinary 26.15. Sales 2,000 bales, including 1,000 American.

Local Cotton Market. Middling 100 per pound, receipts nominal. NEW YORK, Dec. 29.—The cotton market opened unchanged to 15 points higher today in response to reports of an active business in the southern spot markets and prospects for large exports during the next few days. January 15.15; March 16.15; May 17.15; July 18.15; October 19.15.

Chicago Produce. CHICAGO, Dec. 29.—Poultry alive, higher; fowls 110¢; chickens 120¢; turkeys 130¢; eggs 140¢. Butter unsalted; creamery extra 15¢. Eggs unchanged.

Coffee Market. NEW YORK, Dec. 29.—Coffee, Rio No. 7, 191; futures steady, May 92, July 82.

Sugar Market. NEW YORK, Dec. 29.—Raw and refined sugars, weak, lower; sugar 100¢; molasses 110¢; fine granulated 120¢. Sugar futures closed easy, approximately 13,000 tons, January 4.87, March 4.40, May 4.17, July 3.84.

STOCK MARKET. NEW YORK, Dec. 29.—Stock prices displayed a strong undertone in today's brief but active market. The closing was a net gain of 1.25 points, or 1.25 percent, over the previous day's closing. The market was characterized by a mixture of tax selling and profit taking, although short interest was not excessive. The sugar market was active, with a net gain of 1.25 points, or 1.25 percent, over the previous day's closing. The closing was firm. Sales approximated 600,000 shares.

ADVANCE RETAIL PRICE GASOLINE FOR TWO CITIES. ST. LOUIS, Dec. 29.—The retail price of gasoline in St. Louis today was increased from 12.9 a gallon to 13.8. An increase in the price of crude oil was given as the reason.

MUSKOGEE, Okla., Dec. 29.—The retail price of gasoline in Muskogee today was increased from 12.9 a gallon to 13.8. An increase in the price of crude oil was given as the reason.

HOOPS. The rum fleet hovering near New York has been selling its liquor to bootleggers at these prices: Scotch, \$12 a case; gin, \$12 a case; rum, \$10 a case. Wets point to these low prices as proof that prohibition is a failure.

The dry crowd retorts, and truthfully, that there are plenty of interior cities where one quart costs as much as a whole case aboard the rum fleet.

SOURCE. India cables that its foreign trade revival, which began in September, is gaining headway steadily. India is a long way off, but this may be important news for America. Some economists believe that India, for reasons unknown, is the source of world economic movement. The international price crash, which brought hard times to all countries several years back, started in India. It spread to Japan where the raw silk market collapsed, then out over the world.

FRED FERROT AND THE SMUGGLERS

Scene on the River. Act 1

Fred Ferrot. Wait! I am working as a revenue agent for the government. O well, strange things that have happened. If any smugglers try to smuggle anything in past me they'll soon find out they are mistaken. Hear comes 3 strangers. I don't like to judge by appearance but I don't trust their looks. Fred Ferrot. Good afternoon, do you like gum drops?

Fred Ferrot. I should say so. In fact they're the very things I do like.

3 stranger. That's a good coincidence, because we got a hole wagon load of gum drops and will be glad to have you take all you can carry in your pockets and your hands and your mouth when we drive past.

Fred Ferrot. O is that so, well that will have to be over my dead body. Go back were you came from and the next time you want to offer me a bribe offer it to somebody else they want.

Scene, same. Act 2

Fred Ferrot. This is fine weather I'm having. Hear comes 2 guys with big black mustaches. I wonder why they want.

Fred Ferrot. Good afternoon, do you like peraminins?

Fred Ferrot. You can't shoot that pistol. Hand it to me.

Fred Ferrot. Hand me that pistol. That's right. Now march ahead of me to the police station, the both of you. I can stand just so much and so forth.

The Meek Grass. Mistress—I told them 7 o'clock for dinner. Mary, but I think we'll give them a quarter of an hour's grace. Mary—Well, mum, I'm as glad of religion as anyone, but I call that rather overdo it—Till-Bits (London).

Judge C. L. Bass left the city Friday for a few days' business trip in south Texas.

This annual gathering has been held each year for the past 20 years. The members of the Eastern Star chapter furnished the food and social meeting Friday, at which time over 300 people were in attendance, some of them from Wichita Falls.

A banquet was served at noon Friday. The members of the Eastern Star chapter furnished the food and social meeting Friday, at which time over 300 people were in attendance, some of them from Wichita Falls.

A program of interest was rendered during the evening meeting. The members of the Eastern Star chapter furnished the food and social meeting Friday, at which time over 300 people were in attendance, some of them from Wichita Falls.

By fine one speeder 115 and another that a stop was taken in the police court Saturday morning to stop speeding and reckless driving. The busiest season experienced in some time was on Friday morning, dealing mostly with traffic violators.

Practically every speeder brought into the court Saturday morning. One of the cases was also on the police blotter.

Who Is Getting Oklahoma's Crude Oil Production

This and many other articles of special importance to persons interested in every branch of the petroleum industry are contained in this week's OIL and GAS JOURNAL.

Other features include a list of natural gasoline plants in the United States; Low Cost and High Returns from Converting Compression Plants into Oil Absorption; A Review of condition and an analysis of the causes of the depression of the past year in the Oil Business, by W. H. Gray; A summary of the crude petroleum situation throughout the United States showing production to have reached a new low point with a drop of nearly 42,000 barrels daily last week; The latest information on the refined oil market situation throughout the country and detailed reports on operations in every oil field in North America.

The Oil and Gas Journal sells for \$2.00 per year. There is a reason—QUALITY. Six months' subscription, \$10.00. CITIES AT NEWS-STANDS 15c.

Changes through fear are responsible for the hyperactivity of the thyroid and adrenal glands. Both are of utmost importance in governing the body's metabolism. The thyroid controls to a great measure the wear and tear of the body or the process of metabolism. The adrenal produces blood pressure through the nervous mechanism.

A Clear Explanation. Teacher—Johnny, what are the two genders? Johnny—Masculine and feminine. The masculine are divided into temperate and intemperate, and the feminine into frigid and torrid—American Legion Weekly.

JUST FOLKS - By EDGAR A. GUEST AT SIXTEEN MONTHS

At sixteen months, when they start to walk. And a few brief words is their sum of talk. When their smile is a marvelous joy to see. And they want to ride on their daddy's knee. When you get tired but they never do. For everything in this world is new. It's then, I say, that a baby says. For all of her care in her helpless days.

At sixteen months when they crowd with glee. And their arms reach up for the things they see. When a smile breaks out on that cherub face. The minute you call from your hiding place. When you know how the worst of you spoils your worth.

But to her you're the greatest man on earth. It's then, I say, that you're downright glad. The good Lord chose you to be a dad.

At sixteen months, let me say to you. There's a thrill in everything babies do. They'll keep you going and wear you out. They'll cling to your hand as you walk about. But you'll laugh and sing and you'll boast your fill. Of your marvelous baby. Oh yes, you will! For at sixteen months, I am here to state. Every baby, in spite of its dad, is great.

Rippling Rhymes by Wolf Mason

SPEDDING UP

If we suppress the vicious sports who daily cut up rough, we must speed up the sluggish courts where Justice makes her bluff. We must convince the wicked wight who robs his fellow-hicks that law at last is working right, and hitting on all six. The criminal too often think, as he proceeds to jail, that he'll be freed in forty winks, that justice won't prevail. His crime is so depraved, perchance, if he at once were tried, he'd see the doomsman dour advance, with hempen rope supplied. The public voice, aroused to ire, demands that he must pay, and on the gallows tree expire, all in the good old way. But weary weeks must drag their course, and weary months must slide, while lawyers wrangle till they're hoarse, before this case is tried. The courts are jammed and years behind, with cases old and stale; and judges face the beastly grind and wring their hands and wall. And when at last the slinger climbs to the defendant's chair, we have forgotten all his crimes, we know not why he's there. For seven weeks that sinful skate in jeopardy is tread, and then we hear a clerk rattle, "The jury disagreed." And later on he's tried again, before a yawning throng, and a few good useful honest men can't see where he was wrong. But if the erring mortal saw he'd surely get the gaff, he would not greet the threat of law with an indecent laugh.

First M. E. Church, South. At the First Methodist Episcopal Church, South, Tenth and Lamar streets, Rev. C. M. Simpson, the pastor, will bring a special New Year's message at 11 a. m. Sunday. At 7:30 p. m. Sunday night, he will present a message of peculiar interest to the young life of the city. He proposes to deal with the elements of success as presented from the viewpoint of hard-headed business men of world-wide reputation and influence. This will involve Morgan, Rockefeller, Edison, Eastman and others. The message will be gripping to all those young men and young women who have aspirations and ambitions. And all those young married couples who are looking ahead in dead earnest to success. The nature of the message will be of the popular kind such as to interest all, young and old. Special musical features of the day will be an anthem, morning and night by the choir, a vocal solo by Mrs. Hermoine Stuart Vaughn at the morning service and a violin solo by Miss Mary Clark at the night service. Sunday school meets at 9:30 a. m.; Junior league at 3 p. m.; Epworth League at 7:30 p. m. offering programs of interest to their membership and their friends.
