

# The Cisco Round-Up

VOL 38

CISCO, EASTLAND COUNTY, TEXAS, FRIDAY, MARCH 21, 1919

NO. 46

## April 14 to 20 Dress-Up Week--Cisco, the Shopping Center of the Central West

### CISCO A REMARKABLE CITY, HAS ALWAYS BEEN PROGRESSIVE

#### What Railroads Have Meant to the Town; The Past and the Present.

#### A Few Personal Remarks About Early Settlers and Their Loyalty to Their Home Town.

BY G. FISK

Cisco derived its name from John J. Cisco, a prominent New York banker, who was connected with the Texas Central railroad company which laid tracks across the Texas & Pacific at this point. This name was given by Major W. H. Abrams, land and tax commissioner of the Texas and Pacific railroad. It is claimed that Major Abrams has named more towns in Texas than any other man in the state. Practically all of the towns on the Texas and Pacific between Fort Worth and Sierra Blanca owe their names to Major Abrams. He claims as a town christener he is in a class to himself. Only one town, Midland, which was named Midway by Major Abrams, has changed its name, and he says that he cannot see how the change improved it any. Major Abrams had a good reason for giving a town a certain name but at other times he called them by some name which he thought was pretty, whether it fitted the place or not. Major Abrams also named some of the towns east of Fort Worth. Major Abrams still lives in Dallas and remains with same railroad for which he has labored these many years. It makes little difference who named the town or what it was named. The people of Cisco know practically nothing of Banker Cisco, but what difference does that make. None of our people would care to change the name. The naming of this little city was almost forty years ago, and since that time no doubt there has been more history made with the name Cisco connected with it than had been in a century prior to that time about all the people, towns and countries of that name. Then why should not Banker Cisco be proud of the name. The citizens of this little city know nothing of John J. Cisco. He may be resting on the other side, or he may be still living, but that matters very little. But there is one thing of which we are certain and that is if he is still alive he knows something of the town that bears his name. There is no doubt but that John J. Cisco is now wondering if he has not forgotten some of his claims to this section of the country, and if he has heirs, and if he has passed over, they no doubt speculate on the great history now being written about the little city, Cisco, Texas, discovered forty years ago where the Texas Central and Texas & Pacific railroads cross, down in central west Texas. Major Abrams should come out and visit the little city. He might feel very much like his protegee, Major Abrams, the town after his friend. Cisco is now a household word by thousands and thousands of people not only in Texas, but throughout the entire United States. The name has had very little to do with the notariety gained, but now the name means something. In the first place the people have all to do with any town, they make the name amount to something, and the citizens of Cisco are still adding merit to this name. Since the first year since Cisco could be called a town her people have been noted for their progressiveness, their thrift, their friendliness, their get-up-and-push and this class of people have been here all the while. The name could have died and the towns forgotten unless the people worked to keep the town on the map. And this the Cisco people have done. Cisco had a live bunch of people ever since the first train whistle was heard here. We say train whistle because it meant so much to every section in the early days to have a railroad. The people of to-day cannot imagine the benefit derived from the coming of a railroad. It was the signal that the territory into which

the road had been extended would be developed. It meant that people from various parts of the world would come and help to develop the country. It meant that the new towns which would spring up, on account of the new railroad, would have the most thrifty class of people in the world. It meant that freighting-teams and wagons hauling for hundreds of miles, would be done away with and that the people would be able to devote their time to developing the country and not so much of the time getting things from other towns by wagons. The new railroad penetrating a new country assured the ranchman who had to travel fifty and a hundred miles to see his neighbor would soon have neighbors near enough to be seen, at least every few days. The railroad traversing the new country meant that soon the driving of cattle hundreds of miles would be eliminated and that soon the ranchmen could drive to the railroad for shipment. When the railroad reached Cisco people from various parts of the United States came, and soon the second road reached here and still more people came until this became a little city made up of a cosmopolitan people, a thrifty class, most of whom had discovered a new world. The men who had the idea at that time to "go west and grow up with the country" were full of energy and "get up and get" it was really a man's job to go into the west and make good, hence West Texas was composed of an energetic people, and Cisco was the center of this entire country for years after the railroads reached this section of the State. The road moved on west and quite a number of people moved with it but the people who "made good" remained in Cisco.

Almost thirty-eight years ago R. G. Luse came to Cisco from one of the northern states for the purpose of establishing a newspaper. While getting the material together and arranging the details incident to beginning the publication he was trying to make up his mind what would be an appropriate name for his publication. He was invited to go out with some of the cattle men and witness their round-ups, which they had once a year, every spring, and it was while out on this trip that the name suggested itself to him. He said "if the cattle men can have their annual round-ups, then why cannot we have a weekly round-up, hence the publication from that time to the present time has been called the Cisco Round-Up. This paper has passed from owner to owner, has been moved from building to building, passed through the cyclone almost thirty years ago, but has always survived and the name has never been changed. No doubt this paper has been a great factor in helping to build Cisco. Men have owned it who have made great sacrifices for the town, and such men as Frank Vernon, Walt Smith and others, deserve great credit for the part taken in the building of Cisco. There is now a great future for the Round-Up, and the great good that may be accomplished is unlimited. The present management came here in 1911, and the editor has seen the people go through several droughts and at times the business was dull. The Cisco business men have always supported the newspaper when the business would justify it. They have discouraged the establishing of another newspaper, feeling that Cisco would better profit by having one good newspaper than having two poor ones, and now since the town is growing into a city the business is calling for better service and the

Home of Postmaster R. A. St. John

result will be, it is hoped, that soon the Weekly Round-Up will pass into a Daily Round-Up, and that soon the office will be located in a new home erected for the purpose. The old way of setting type by hand has passed away in this office. A typesetting machine has been installed for some three years, but now the business has grown until it has become necessary to have another machine. The management placed an order this week for the best, largest and most modern machine made. This order alone calls for an expenditure of about \$5,000.00. The Round-Up is determined to at least stay up with the procession.

Among the pioneer settlers of Cisco was W. P. Pulley who has been one of the business men for years and years. And Mr. Pulley has profited by his business projects. He has made money and invested it in property, and during the past few months he has sold his business and residence property at good prices. He has invested in oil leases and royalties until he is now independent. Mr. Pulley has always been one of our progressive men.

W. J. Donovan has been in the transfer business for years, and has made good. He put his money in a tract of land near Cisco and when the oil business opened up he found that it was very valuable. By cashing some of it was enabled to put on a truck and he bought one of the best. He still owns some good holdings.

Walter Ray who claims both Eastland and Cisco as his home got into the oil game in its early stages, and was very fortunate for his land proved to be in good territory. He has traded, bought and sold and now he is one of the rich men of this section. He has bought real estate in Cisco and is helping to build a city. He has an oil well going down on his land some five and one-half miles northwest of Cisco.

C. H. Fleming began keeping the books for J. P. Webster & Sons some twelve or fifteen years ago. He stuck to the job and proved that he has the real stuff in him. He made investments in the oil lands of the Ranger field early and has made big money. He will soon begin the erection of a new and modern bungalow for his home.

One of the old settlers who has been a friend to every man and enterprise is T. E. Johnson. Most people call him Uncle Tom. He has not accumulated much of this world's goods but he has contributed his part in helping to build Cisco. He is one of the great old Confederate soldiers, and it is said that he made just as good a soldier as he has made a good citizen.

M. S. Stamps is one of our young business men. He has been reared here and has been connected with the business interests of Cisco ever since he was old enough. He is now assistant cashier of the First Guaranty State Bank. Recently he sold his home on West Broadway and further west on the same avenue he is having erected a modern bungalow. Mark has made some money out of the oil business and is spending it in helping to build a city.

L. A. Harrison is a Ranger product and knows that country like a book. He came to Cisco eight years ago and since that time he has been a traveling salesman for one or the other of the wholesale grocery stores here. He is now with J. P. Webster & Sons. Soon after the

McCleskey well came in he with four others bought a hundred acre tract of land near the McCleskey tract and have held it all this time and the price has increased until they can now get almost a thousand dollars for one. Mr. Harrison has other holdings. He is getting ready to have erected a modern bungalow for his home.

W. C. Shelton is another pioneer settler of this section of Texas, and has for many years made Cisco his home. In the early history of this county he bought land when it was cheap. He continued to hold this land until it has increased in value on account of the oil development. He owns quite a good deal of acreage near Cisco, and has been helping to build a city.

Among the newcomers to Cisco, and those who are joining right in and helping to build a city, is J. T. McCarty. He came from Dallas and is interested in the Cisco Furniture Co. with his brother, W. B. McCarty of Abilene. Mr. McCarty has invested in Cisco property, and the firm has bought a business lot and contemplate having erected a two-story brick building on it for the furniture store. Mr. McCleskey has allied himself with the business interests of Cisco.

While he is no stranger to the people of Cisco, yet W. E. Spencer has never lived in this city until he moved here some six months ago. But no sooner had he moved here until he joined the progressive crowd and has been busy helping to build the town. Among the first things that he did was to have erected one of the most expensive and modern homes in Cisco. He has made thousands of dollars out of the oil business and is putting some of it into Cisco property.

W. E. Brown came to Cisco when a mere boy. He has been connected with the John H. Garner dry goods store for twelve or fifteen years. He is dependable and takes an active part in the development and improvement of the city. He has served on the school board for a number of years and is always active in this capacity.

Howard D'Spain is the prescription druggist for Dean Drug Co. He has been here for years and is one of our most progressive men. He recently purchased his home on Seventh Street and Avenue I, a most beautiful location. Mr. D'Spain is a quiet but very reliable business man.

J. A. Jensen came to Cisco five or six years ago, and bought his home when property was cheap. He is a jeweler and has one of the best locations in the city. He is making money and does his part when called upon for the building of a city. Mr. Jensen is enjoying a good business.

W. F. Walker is one of the old timers yet a young man. He was raised in Eastland county, taught in the rural schools, and for years he has been connected with different businesses of the town. He is now with the Huey Motor Co. Frank has been on the board of trustees of the Cisco school for quite a while and takes an active part in the educational interests of the town.

Mrs. N. J. Dowdy is one of the women who has seen Cisco grow from a little village to its present population. She is a pioneer settler and has made her home at the corner of Avenue F and Sixth St.

(Continued on page eight)

### REPORT ON OIL DEVELOPMENTS IN EASTLAND AND STEPHENS COUNTIES

#### The Drilling Progress and New Locations; Activities Increasing Throughout the Field.

#### Total Daily Production of Both Counties Aggregate More than 100,000 Barrels

##### BRECKENRIDGE DISTRICT

The daily production from Stephens county at the middle of the week was distributed approximately as follows:

	Barrels
Gulf Production Co.	6,400
The Texas Co.	4,850
Mid-Kansas Oil & Gas Co.	12,640
T. & P. Coal & Oil Co.	1,150
Sun Co.	425
Miscellaneous	1,550
<b>Total</b>	<b>27,015</b>

For once the West Texas territory has a real "gusher" and the term may be applied to the Mid-Kansas Oil & Gas Co.'s No. 1 W. E. Carey without subjecting the users of it to the just criticism which many have evoked in referring to any well in that territory that makes production without being pumped as being a "gusher."

The Carey well has had a checked experience, coming in first for a small producer, getting a dose of nitro and breaking loose with 3500 barrels of emulsion the most of which was salt water having the casing lowered and the salt water cut off, and then settling down to about 700 barrels steady production. Last week when the well was cleaned out it began jumping, got wild, blew the tools out, overflowed the storage, and at present is making about 8000 barrels natural, the oil going into earthen storage. The well is in section 53, block 5, T. & P. R. R. survey, on acreage that the Mid-Kansas got from the Texas & Pacific Coal & Oil Co. on a 50-50 basis.

The Carey is the biggest well so far developed in North or West Texas and puts Stephens county in the forefront of interest. Ever since the development got under way in West Texas, Eastland county has held the center of the stage, it being the general opinion that Stephens county would develop good sections but that the county would be very spotted.

The Sinclair Gulf Oil Co.'s No. 1 Carey, an offset to the Mid-Kansas Oil & Gas Co.'s No. 1 Carey, located two miles southwest of Caddo, is drilling around 2250 feet.

Gulf Production Co.'s No. 1 White reported last week making 1200 barrels a day, has increased its production to 3000 barrels after being drilled about 15 feet deeper, at 3,315.

This well was drilled to the top of the pay sand sometime ago, began making some oil but was not drilled into the sand. It is now one of the best wells in the county.

The Gulf Production Co.'s No. 1 Caldwell about 3 miles southeast of Breckenridge is making 500 barrels a day at 3430 feet, after completing a fishing job.

The Brazos Oil Co.'s No. 1 Masenberg got the top of the pay at 3372 feet, and is drilling with 2,000 feet of fluid in the hole. The Texas Co.'s No. 1 W. F. Houston is bailing water at 3425 feet. Lone Star Gas Co.'s No. 1 Cassell is shut down and will plug back from 3820 feet for a shot.

The Texas Co.'s No. 1 Groselose, three miles south of Breckenridge is making small heads at about 12 hour intervals, and has a hole standing full of oil at 3060 feet.

Texas & Pacific Coal & Oil Co.'s No. 1 Remington, one miles southeast of Caddo and in new territory is a 500 barrels well at 3190 feet after a dose of nitro.

The Caddo field has been developing south and west, with not much excitement east. The Remington well is also significant from the fact that it got production at less than 3200 feet, considerably shallower than some of the best production in Eastland county. It has been a general theory that the production

in Stephens county would necessarily be deeper than in Eastland, as the Gordon sand was believed to dip to the north from Ranger at a considerable angle. It now looks as though the dip goes west or northwest instead of north.

##### RANGER DISTRICT

The average daily production in Eastland county at the middle of the present week was about 73,480 barrels.

The distribution of the production for this county is about as follows:

	Barrels
Gulf Production Co.	5,375
Magnolia Petroleum Co.	5,700
Prairie Oil & Gas Co.	16,275
T. & P. Coal & Oil Co.	24,550
Sun Co.	450
Texas Co.	795
Miscellaneous	20,335
<b>Total</b>	<b>73,480</b>

The Ranger field proper, embracing all of Eastland and Comanche counties, made an average daily production during February of 60,530 barrels. For the 28 days this shows a total production from the district of 1,694,840 barrels.

The daily average production for the North Texas district for February was 52,719 barrels, according to pipe line runs recorded. This gives a total production for the month of February 1,476,132 barrels.

According to pipe line runs the total production for all of North and West Texas for February was 3,170,972 barrels, valued at \$7,134,687 according to the posted price of crude. With the premium attached the value of this oil will run to about \$7,500,000.

Eastland county, the most productive county in the state, made a daily average of 57,730 barrels for the month, recorded in runs. This oil was produced from 120 wells, making a daily production for every well in the county of 481 barrels. In addition to the producing wells there are 135 drilling wells in the county, and 60 to 100 rigs or wells just spudded in on March 1. Many of the wells that are producing are not completed, and the figures on completed wells and drilling wells naturally overlap.

The oil produced in Eastland county was distributed among the companies making the runs as follows. The Magnolia Petroleum Co., 4985 barrels a day; Texas & Pacific Coal & Oil Co., 9545 barrels a day; Prairie Oil & Gas Co., 33295 barrels a day; the Texas Co., 5410 barrels a day.

Comanche county section shows a daily average for the month of 4686 barrels from eight producing wells. This oil was run largely by the Magnolia Petroleum Co. whose pipe line runs show 2800 barrels a day. The other 1886 barrels a day was not connected up to pipe lines. In addition to the eight producing wells, varying in production from one barrel to several hundred barrels, there were 25 drilling wells in the district and four rigs all ready to begin drilling on March 1. The Comanche county district as grouped in these calculations, is not confined to Comanche county but embraces the territory adjacent to the Duke and Knowles production, extending several miles into Eastland and across into Erath counties.

Corsicana fields made a total production for the month of 18,687 barrels, 11,912 of which was heavy oil. In consideration of those figures it must be remembered that they represent only pipe line runs in the territories mentioned and are likely a little below the actual production from the districts named. There is

JOHN W. BAKER

**STATE TREASURER ADVISES INVESTING MONEY IN W.S.S.**

Two big reasons why every person should invest in War Savings Stamps are given by John W. Baker, State Treasurer of Texas, who was County War Savings Chairman in the 1918 campaign. Here is what he says:

"Thrift is the foundation upon which success is built. Those who save, succeed.

"The people who take advantage this year of the opportunity offered them in the Government Savings campaign to acquire the habit of saving sanely and spending wisely through the purchase of War Savings Stamps will be building for future prosperity and power. Thrift is power.

"Intelligent saving looks to future wise spending and is therefore, postponed enjoyment with interest.

"United States Government War Savings Stamps are the best and safest securities that money will buy. Those Treasury Bonds pay four per cent interest, compounded every three months. They increase constantly in value and that constant increase is guaranteed by the Government.

"There are two big reasons why every person should save and invest in W. S. S. First, it is to every one's financial interest to become the owner of as many War Savings Stamps as he can acquire. Second, there are still 2,000,000 American soldiers in France, Germany and Russia. They have to be taken care of, and money invested in War Savings Stamps will enable the Government to take care of them and bring them back home to America when they have finished the job of making world-wide peace permanent.

"This is no time for people to lay aside their patriotism, but instead a time when all of us must exhibit a higher type of patriotism than ever before. Investing in War Savings Stamps is profitable patriotism."

**WAR IS NOT OVER UNTIL BILLS PAID**

American soldiers in Europe must be fed and brought home. Until that is done the war will not be over, declares Carter Glass, Secretary of the Treasury. Buying War Savings Stamps will help the Government in making its final settlement of war obligations.

"There are two million American soldiers in Europe," Secretary Glass points out, "and obligation is just as much on the Government today as when the guns were firing to see that they are maintained in comfort, to provide for their return home. It is just as important, and even more important, to impress upon the American people the necessity of cultivating the habit of thrift and saving.

"The war will not be over until the United States Government has honorably met every commitment made in order to win the war."

**JULIUS HAD NOTHING ON CAESAR OF TEXAS**

J. Caesar of Rome, Italy, who took everything in sight he wanted, is dead and has been for a long time, but Caesar, Texas, is just a little more alive than anything else on its section of the map.

The word "Caesar" seems to stand for action and they do things at Caesar, Texas. For one thing—they stand loyally behind their Government.

Like thousands of other cities and towns, Caesar was swept by the War Savings movement last year. Every citizen who could bought or agreed to buy War Savings Stamps. Postmaster W. J. Vaughn now reports that every pledge has been kept, that no applications have been made to cash War Savings Stamps and that the Caesarites are still backing up the Government with their money.

Julius Caesar had "nothing on" Caesar of Texas.

**CITATION BY PUBLICATION**

**THE STATE OF TEXAS**

To the Sheriff or any Constable of Eastland County—Greeting:

You are hereby commanded that by making publication of this citation in some newspaper published in the county of Eastland, if there be a newspaper published in said county, (but if not, then in the nearest county where a newspaper is published,) for four weeks previous to the return day hereof, you summons Mary Gray Audenried and the unknown heirs of Mary Gray Audenried, whose residence is unknown, to be and appear before the Honorable district court at the next regular term thereof to be holden in the County of Eastland at the Court-house thereof, in Eastland, on the 21st day of April, A. D., 1919, File number being 4985, then and there to answer the petition of A. J. August, filed in said Court on the 12th day of March, A. D., 1919 against the said Mary Gray Audenried, alleging in substance as follows to-wit:

The plaintiff was lawfully seized and possessed of the following tract of land situated in Eastland county, Texas, being 236 acres off the North side of survey 475, S. P. R. R. Co. described as follows: Beginning at the N. E. corner of said survey 475 Mesq. Brs. N 17 3-4 E. 37 3-5 varas; thence S 701 varas stone mound for cor. Mesq. Brs. S. 7 1-2 W. 11 varas; thence W. 1900 varas stone mound for corner in W. B. line of survey 475; thence N. 701 varas to the N. W. Corner section 475; thence E. 1900 varas to the beginning.

That plaintiff was in possession of the above described land on January 1st, 1918. The defendants with force and arms entered upon the above described land and ejected plaintiff therefrom, and ever since unlawfully withheld possession

thereof.

That plaintiff and those whose estate he has had peaceable, continuous and adverse possession of the above described tract of land, cultivating, using and enjoying the same and having the same enclosed with a fence paying all taxes due thereon, under deed duly recorded in Eastland county, for more than five years next prior to the filing of this petition. By reason whereof he and holds and seized with the legal title to said land. That plaintiff and those whose estate he holds has had, claiming to have good and perfect right and title to the above described land, has had and held peaceable, adverse possession of the same, cultivating, using and enjoying the same having the same enclosed with a fence for a period of more than ten years next prior to the filing of this petition, by reason whereof plaintiff has and holds legal title to said land; That defendants are claiming and are asserting some pretended right or title or interest in and to the oil, petroleum, gas and other minerals in and under said land; that said pretended claim is a cloud upon plaintiff's title thereto, and that said lands are now valuable for leasing for the development of oil, gas and other minerals, but by reason of defendants claim, plaintiff has been and is still unable to lease said lands for said purposes to his great damage and loss.

Wherefore, premises considered, plaintiff prays that the defendant be cited according to law; that he have and recover of and from defendant title to the oil, petroleum, gas and other minerals on and under the surface of the aforesaid lands, and for a decree cancelling and holding for naught the defendant's pretended right and claim to said oil and gas and other minerals and that the cloud upon plaintiff's title to said mineral be removed and for costs for suit.

Herein Fail Not but have you then

and there before said Court, this Writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, in Eastland, this 12th day of March, A. D., 1919.

Attest: J. A. RUSSELL, Clerk, District Court, Eastland County, Texas. By WADE NICHOLS, Deputy.

**NEW BANK FOR CISCO.**

The American National Bank of Cisco is being organized with Cisco capitalists as the principal stockholders. F. A. Van Dever of Oklahoma City, is here organizing the bank, and will be the cashier. W. E. Morris, manager of the Ohio Cities Gas Co., will be the president. Permission has been granted by the Federal authorities. The location has not been determined, but two or three propositions are under consideration.

**INFANT DIES.**

Little Robert Johnson, the eleven months old boy of Mr. and Mrs. S. E. Johnson, died of pneumonia last Tuesday morning, and burial was made Wednesday afternoon in the Cisco cemetery. Mr. and Mrs. Johnson came to Cisco four months ago, and are the proprietors of the Gem Cafe. The child had been sick two weeks.

**CARD OF THANKS.**

We desire to express our thanks to the kind hearted people who rendered us such faithful service during the illness and after the death of our dear baby. We shall ever remember them and long to repay them for their kindness.—A. R. Wood and family. 1tp

**NEW FIRM HERE**

Cisco has a new firm known as Brace and McFarland, geologists. The firm is composed of O. L. Brace and R. S. McFarland, two young men of knowledge, full of energy and practical experience. They have opened an office in Cisco and it is with pleasure that the announcement is made.

ROSEWELL

**If You are Wanting the Choice Location in Cisco,  
We Hold the Master-key to Your Future Home.**

ROSEWELL  
77  
ROSEWELL

**Cisco is growing South because it is to be the select homesite of this city.**

# ROSEWELL

is your big opportunity. Lots are selling 25 to 50 percent cheaper than any other city property similarly located. During this special sale we will offer only 77 lots out of 235, at extremely low prices for cash only.

There is no oil or royalty lease on this site. You get a clear title of ownership with each purchase the day you buy. Another very attractive feature that Rosewell has to offer is that there will be no smelters, factories, refineries, etc., on or near this site.

## The City of Cisco

has already let the contract for the laying of water mains for the new Cisco residential section, and even now, by the time you are reading this announcement work will have already been started. Sewer lines will be layed at the same time. The home-builder will not have to wait for conveniences in Rosewell. Just a minute--Avenue H on the west side will have concrete sidewalks and curbs entirely through the addition, and 18th Street on the south will have concrete sidewalks and curbs through the site. Rosewell is inside the present city of Cisco, thereby giving you the same key-rate of insurance as anywhere in the city.

## Rosewell to Have Gas and Electric Lights

The Cisco Gas & Electric Company will extend gas and electric lines to this part of the city by the time your home could be erected.

Mr. Man--When you are looking for a business location you want it on the main street in the very best location possible. Alright--isn't it worth while to use the same good judgment and reason in choosing your home site? Remember when you locate in Rosewell you will be in the select residential area of Cisco. All the city conveniences will be yours and your neighbors will be prominent citizens. No home will be built on this addition to cost less than \$3,000.00. Last week we told you about Avenue H which is being macadamized on through Rosewell to the loop.

Call at our office and let us show you where you will eventually build your home. The time to buy the lot is right now during this special sale which will only last until March 31st, 1919 at 8 p. m. No lots will be sold after this date at the present prices. Buy a lot and find out who your neighbor is. You will like Rosewell. There's a reason.

### REPORT ON OIL ACTIVITIES (Continued from page one)

always some oil which doesn't come under the gauge of the pipe line companies, and this production is not included in these figures. They do represent, however, the most accurate data obtainable on the production which is taken care of in each field, and for which the owners of the oil are actually paid at the posted prices. Therefore, though ultra conservations in their nature the figures represent the money value of oil produced and taken care of in North and West Texas.

The Texas and Pacific Coal & Oil Co.'s No. 1 Norwood is making 480 barrels an hour after being drilled a few feet deeper this week; in the southern part of the John York survey, right north of the Magnolia well on the T. W. Connelley well.

The Norwood was a 5,200 barrel well when completed in February, at 3,400 feet. It lies in the "Big Well" district on the western edge of production in the Ranger field. South of it is the Magnolia's Connelley, and northeast the Emma Terrell, Copeland and Roper tracts.

Between the Slayden and Terrell tracts and the wells on the Norwood and Connelley, is the J. E. Butler tract of a thousand acres, practically untouched. It is still held by the Texas and Pacific Coal and Oil Co., and is likely one of the best pieces of acreage in the entire field.

The second test of the Gulf Refining Co on the Towland lease southwest of Ranger is making 150 barrels late in the week at 3370 feet. The No. 1 Rowland was completed several months ago for about 75 barrels a day.

John Markham and the Tidal Oil Co. have a 5000 barrel well in their No. 5 Copeland, three miles west of Ranger at 3440 feet.

For a time it appeared that the Copeland lease would be a "Jonah". The first well that reached the sand got 75 barrels a day, and the tract is an offset to the Emma Terrell where the Prairie got its big well several weeks ago. The next Copeland well got 200 barrels a day, and looked some better for the lease. No. 3 Copeland was an 1800 barrel producer, and No. 5, which came next, made 4000 barrels at completion. Now No. 5 is a 5000 barrel well and it is to be wondered if the several other drilling wells on the tract will keep up the percentage of increase which the completed wells have established.

The Prairie Oil and Gas Co.'s No. 5 Slayden, reported last week in late News flashes, is good for 1500 barrels a day and the No. 2-A Christmas of the same company is making 800 barrels a day. Both wells are west of Ranger in the proven area.

Benedum and Trees No. 1 Connelley south of Eastland has been shot with 100 quarts of nitro at 3290 feet, after plugging back from 3800 feet, and is good for about 30 barrels.

The Gulf Production Co.'s No. 1 Bressford, just north of Eastland, has been shot with 220 quarts at 3298 feet and is rated at 40 barrels a day. The well was drilled to 3,515 feet.

Texas and Pacific Coal and Oil Co.'s No. 1 Beldeman is dry at 3490 feet. Texas and Pacific Coal and Oil Co.'s No. 1 England was shot with 80 quarts and with no increase in production at 3445 feet.

Texas and Pacific Coal and Oil Co.'s No. 2 Walker is dry at 3610 feet.

Magnolia Petroleum Co.'s No. 1 Connelley in the shallow district near Olden, is dry at 1420 feet.

Warren Wagner's et al.'s No. 1 McCleskey is a 1000 barrel well at 3400 feet.

Magnolia Petroleum Co.'s No. 1 Davis is completed as gasser at 2980 feet.

Joe Bartle's No. 1 Gholson has been given a dose of 100 quarts and is good for 25 barrels at 3460.

Texas and Pacific Coal and Oil Co.'s No. 1 Clemmer was shot with 200 quarts during the past week at 3450 feet and is doing about 20 barrels.

Gholson et al.'s No. 1 Harrison is preparing for another shot, three miles west of Sanger. The Harrison tract lies west of the Slayden and in the big production district. It may follow the precedent of the Copeland lease, and yet show something big.

Magnolia Petroleum Co.'s No. 1 Allen in the Jno. Foster survey is shut down at 3500 feet. It got a show at about 3100 feet, and for a time looked very hopeful.

# ECONOMY WILL WIN

It has been stated that we must win the war through ECONOMY. Hence it becomes a patriotic duty to ECONOMIZE. We will help you to economize by selling you, at very close prices—

CLOTHING that wears well and holds its shape.  
SHOES that look right, fit right and wear right.

GROCERIES that are guaranteed pure and wholesome and to contain the maximum of nourishment.

We want to sell you HONEST goods at HONEST prices.

**Spend your money with the firm that will help you when your money is gone.**

**We have been here all our lives.**

# GUDE & SONS

Cisco, Texas

about 150 barrels a day. Texas & Pacific Coal & Oil Co.'s No. 1 Whitson is at the top of the pay at 3350 feet, and preparing to drill in. Prairie Oil & Gas Co.'s No. 4 Johnson is making heads at 3200 feet, estimated at 100 barrels a day. Hivick et al.'s No. 1 56-foot strip has 1500 feet of fluid in the hole after a 60 quart dose at 3510 feet. Texas & Pacific Coal & Oil Co.'s No. 1 Henson is shut down for storage at 3250 feet. Texas & Pacific Coal & Oil Co.'s No. 1 McKinney got the top of the sand at 34450 feet, drilled to 3500 feet, shot with 80 quarts, and got no production.

### CANADIAN AVIATORS PROVED WISE BIRDS

When the members of the Royal Flying Corps, who trained in the Eleventh Federal War Savings District, returned to Canada, many of them had become enthusiastic buyers of War Savings Stamps. Having been given a taste of buying Government securities for small amounts, they became so insistent that the Canadian Government inaugurated a system of War Savings Stamps, similar to that in the United States.

"The leading men of the world today," recently declared a Canadian financier, "those charged with directing its affairs, realize that the exercise of thrift is absolutely necessary for the restoration of normal conditions in all countries."

"It is to be observed also that these men consider it as necessary for the people of the United States and Canada—countries undamaged by the war—to save as it is for those of France and Belgium to do so. It is the condition on which financial and industrial recovery is based."

How about some oil company, bank, or other business concern building a grand stand on the High School campus? If interested, see the editor of the Round-Up.

Fancy Stationery at cost at Round-Up office.

### HEALTH

Normal health is a boon to which every human being is entitled. Physcultopathic treatment [scientific adjusting and mechanical treating of the human body] will energize and vitalize every organ and function of the human body, remove the cause, nature restores to health.

# The Cisco Round-Up

VOL 38

CISCO, EASTLAND COUNTY, TEXAS, FRIDAY, MARCH 21, 1919

NO. 46

## COUNTY SITE NEWS

Eastland, March 19.—At the meeting of the Commissioner's court last week nothing final was done in regard to the sale of the road bonds. The Court is making an effort to close the deal that is now pending for the sale of the bonds and get the money with which to start the work on the highway which is so badly needed. Parties purchasing the bonds are now looking into the legal points concerning them and it is very likely that the deal will be closed within a few days.

The Gulf Production Company is grading the road from Eastland to Breckenridge. This Company is now building a large supply station here and are operating many trucks out of here.

The Magnolia Petroleum Company is building a little city at Olden about three and a half or four miles east of here. They have graded many of the roads, laid out a town-site and have many modern buildings and others under construction.

Reports from the Bransford well at Mangum continue to be encouraging. The same is true of the C. U. Connelley and H. P. Brelsford.

The preliminary work is under way on the waterworks project, which is to be a large artificial lake northwest of town a mile or two. A pipeline will also soon be laid from town to a connection with Lake Tullie east of town two miles.

The Texas & Pacific Railroad Co. have recently purchased from Mrs. S. E. Steele of this city, several acres of land adjoining the company's holdings in the north part of Eastland. Several miles of track are now under construction and the roundhouse and shops will be moved here later, it is said.

**Suits Filed in District Court.**  
The following suits have been filed in the district court since our last issue:

P. E. Brown et al vs Minnie Milbourn et al.

Helen Moorman vs William Moorman, divorce.

A. J. August vs Mary Audenreid.

M. J. Nolen et al vs R. L. Brown et al.

Mina Hilderbrandt vs P. G. Hilderbrandt, divorce.

J. B. Mullins et al vs H. P. Brelsford et al.

N. C. Morris and Amanda Morris vs Atlantic Oil Producing Company, Jean P. Day and C. E. West.

B. W. McCarty vs George Langston.

H. C. Odle et al vs Otis Brooks et al.

City of Ranger vs Bunch & Sons et al, injunction.

Texas & Pacific Coal & Oil Company vs C. E. England et al.

Texas Pacific Coal & Oil Company vs Luke Lane.

Mrs. F. B. Christmas et al vs Unknown heirs of J. P. Bateman, deceased, to try title, for rent and for damages.

J. L. Meador vs F. E. Day et al.

F. L. Griscoa et al vs J. P. Davidson, the Unknown heirs of J. P. Davidson, to try title and for damages.

John M. Gholson vs Theodore Popajohn et al, to try title and for damages and injunction.

**Marriage License**  
The following marriage license have been issued by the County Clerk's department since our last report.

Arthur Wright and Ada Reed, Eastland.

E. A. Clayton and Mrs. Mattie Cook, Eastland.

Louis Doyle and Beatrice Brown, Ranger.

Raymond C. Richardson and Edan E. Putty, Desdemona.

Luther Moore Hart and Aley Burrow, Forrester, Texas.

Johnnie Vaughn and Miss Nettie Carroll, Carbon.

W. T. Hitson Jr., and Miss Minnie Ainsworth, Cisco.

**A REAL PIANO TUNER IN TOWN**

J. T. Cullins of Abilene, a piano tuner of 34 years experience has been in Cisco about ten days and has been doing a great deal of tuning. ## For Three Years Hudson Super-Sixes Have Lead

*Super-Six leadership was first established on the speedway. There it showed such performance and endurance as immediately placed it in the front as the greatest stock car that had ever attempted such feats.*

There are Seven Hudson Models  
Two open and five closed  
The 7-passenger Phaeton sells at \$2200

But present Hudson leadership does not rest upon what it has done in establishing the best time for one hour, or for one hundred miles or for its twenty-four hour performance, or for having made the best time in the greatest hill climb that was ever held, when it climbed to the top of Pikes Peak. The Super-Six is not distinguished because of any notable performance, although it holds more such records than any other car.

The greatest proof of Hudson leadership is shown by the way in which 60,000 owners use their cars. Such service soon made the Super-Six the largest selling fine car in the world.

### Acknowledged by Rivals

The Super-Six has not only influenced the mechanical design of other cars. It leads in body designing.

Hudson body designs are the standard of motordom. They are never freakish and although new types are always being developed, they never seem out-of-date. There is always a new model Hudson Super-Six, which six months or a year later is sure to appear as the new model of some other car.

This is not a mere boast. Everyone in touch with motor car development knows how the Sedan, the Touring Limousine, the Speedster, the Cabriolet, the Limousine and the Town Car Models, that first appeared on the Super-Six chassis, have served as patterns for other cars. Hudson owners always get the latest models. They may always know that the latest Hudson model will remain in vogue for a longer period than that of any other car because it sets the vogue.

Full production of Hudson will not be reached until before June. Until then buyers of open models will have to supply their wants from the limited stocks of those few dealers who may have such cars.

**Huey Motor Co.**

CISCO, TEXAS

### TURNER PLANS TWO ROUTES FOR NEW TROLLEY LINE

One Proposed Line by Breckenridge And Another by Ranger, Eastland and Cisco.

E. P. Turner and H. D. Palcom were in Fort Worth Wednesday afternoon on Interurban business.

Mr. Turner said the franchise was granted to himself and associates and not to him individually; says his associates comprise some nine or ten prominent business and railroad

men, the names of whom he is not at liberty to disclose at this time, but that they are in earnest about building the interurban line from Fort Worth to Mineral Wells and beyond to the oil fields, if they receive the proper encouragement from people along the proposed route.

They propose to carry freight as well as passengers, mail and express and propose to have an industrial department, whose business will be to encourage and assist the develop-

ment of fruit, truck and dairy farming, thus creating an extensive express business; also publish Texas Interurban quarterly (successor to the Texas & Pacific quarterly) for the purpose of boosting the territory along their line.

They will make two surveys from Mineral Wells to Abilene, one via Caddo, Breckenridge and Albany, and one via Ranger, Eastland and Cisco, after which the line to be adopted will be definitely decided by the board of directors.—Fort Worth Record.

Notices advertising entertainments, dinners, etc., where a charge is made, will be charged for at the regular advertising rate.

If bread is the staff of life, is sugar the cane of life.

How would "near-beer near-work" answer as a slogan?

The war used to be three thousand miles away—and now the President is.

The president was running nicely on his way to the League of Nations when his senatorial engine stalled.

It is time for a nice new spring hat with a nice gray spring countenance under it.

Senator Sherman looks like a peaceful and kindly gentleman. Who would have thought that he had a subuster up his sleeve?

If you have a job that will fix up a returning soldier or sailor, don't feel bashful about saying so.

Mr. Hoover is right when he decrees that Germany must be fed. Hunger is a poor political adviser.

"By their fruits ye shall know them." Lack of fuel, starvation, pestilence and terror mark the Bolshevik rule in Russia.

England is in the same position toward Ireland that some men are toward their wives. She can't live with Ireland and can't live without her.

In exclusive New York places Scotch highballs are selling for a dollar apiece. If they were selling at that price in Scotland they would not be selling.

Some of the newspaper object to President Wilson's "defiant and dictatorial attitude," while others subject to the Senate's "defiant and dictatorial attitude." Can it be that all America is becoming defiant and dictatorial?

"Button, button who's got the button?" We learn that few buttons have been made here since the United States entered the war and that the supply is almost exhausted. Be careful of buttons, unless you wish the time to come when you will be obliged to pin your clothes together.

Humidity after July 1st: Absent in the United States. Extreme in Mexico.

Americans have always been noted for their generosity. If there is any barley flour left in this country, and it were proposed to ship it to the Germans, there would not be a dissenting voice.

It is understood that to "watch the clock" is a bad habit. But we have not observed that the public displays any reluctance to watch the clocks on the fashionable hosiery.

When your son comes home from the army, don't on any account offer him corned beef. Presumably he will be grateful for it, but you won't in the least like the form his gratitude takes.

The doughboy who comes home from France expecting to be married at once will have nervous prostrations when he buys his first American newspaper and reads in the advertisements "Womens' spring suits, \$45.00. Women's oxfords, \$12.00" to say nothing of the produce and market report.

The congressional committee who drafts the revenue law evidently had no kids of their own and no sympathy with other people's kids. They laid a tax upon athletic goods without regard to the fact that 70 per cent of baseball bats, catchers' masks and mitts and athletic goods of every description are bought by boys under eighteen.

Be loyal to your home town. For instance if you can buy anything at home, do so.—Granger News.

Good advice Brother Alford, and that which is good for your town is good for any town. The average citizen does not realize to the fullest extent the importance of buying from the home people. Getting things from the home people makes it possible to employ men and women, and a larger pay roll the better business for every concern, by cooperation of this kind the town is built up and more people are benefited.

### Exchange Talk

The difference between the oil and "shell" game lies in the fact that you can at least see how the thing is done.—Colorado Record.

Now, Brother Whipkey you are not fair about the matter. People buy sure things in the oil game as well as in other business. To be sure there is a great deal of wildcatting in the oil business, but there is little skinning.

With the Sunshine Oil Corporation to start two more rigs as soon as the materials can be had and the rigs put up and Watson's well to be started soon, and the wells of the Sunshine and Troxell now making splendid headway it looks as if the oil boom was upon us.—Pecos Enterprise.

Did you ever hear of such wildcatting? It is true that no field is found until some one takes a chance and spends the money, but the oil field surely does not reach to Pecos. If it does, then so much the better, and those people deserve the best, and there could be nothing better than the discovery of oil.

Church attendance is getting better in Granger. When such is on the decline there is something very wrong. When a man or woman fails to attend church of his choice he is not doing his duty as a citizen because the churches and the schools are the foundation upon which all prosperous cities and towns are constructed.—Granger News.

A whole sermon in a short paragraph. It used to be the practice that the men let the women and children do the worshipping, but recently the men have begun to take life more seriously and realize more fully that men also have souls to save, then they do not want the women and children to be so lonesome in the other world. A large per cent of the men even yet take no active part in the church work, but the world is growing better, and it is believed that after a while as larger a per cent of men will go to heaven as do women. The attendance upon the services of the churches is a pretty good thermometer as to the good or bad morals in any town, and a new comer, or a visitor is usually judged by this.

Business activities in Gustine have increased at a surprising rate in the last few weeks and there is no doubt but what our little town will soon be a real live oil center. Better come to Gustine and get in on the ground floor.—Gustine Gazette.

That's the way the thing goes. Cisco was to have been the center, but Gustine has went and done it. She has put herself right in the midst of the activities, that is the Gazette has done it. The next number on the program, please.

Traveling salesmen who make this territory are all anxious to secure stock in the oil company that has been organized in Big Spring. Many of them claim to have a tip that oil will be found in Howard county, and all of them agree that it is the best proposition that has ever been offered in wildcatting.—Big Springs Herald.

Another country heard from. If the oil fields should reach to Big Springs west Texas will have more money than the city of New York, and the millionaires will be as numerous as the pesky coyote.

Watch the oil rigs go up and note the strange faces upon our streets. Gentlemen, the boom has started and few of our people yet realize the rapidity with which it is coming. Are you prepared or will you let the outsider grab all the opportunities that are in reality yours?—Pecos Enterprise.

Alright, we will watch the Pecos Country with interest, and if you get an oil well the procession will move further west.

The ball bearings in a piece of machinery insure less friction. When Jacob got the ball bearing of his hip broken, just to remind him that he had made a great promise, his machinery went lame on that side for the balance of his life, therefore he could not forget that promise.—Stamford Leader.

That recalls the story of the woman near Rising Star who had taken so many pills that all of her joints had become ball bearing. You see Jacob had the bearings only in his hip. This woman went him one better. If she has ever died the obituary has never been written.

### Establish Your Credit

If you are starting in business, you will soon find that you cannot carry that business far, unless you establish credit at the bank;—you cannot establish credit unless you deposit at the bank.

It will pay you to get a good strong financial institution like the Guaranty State Bank & Trust Co back of you. This is entirely in addition to the safety convenience and profit of having a CHECKING ACCOUNT here.

## Guaranty State Bank & Trust Co.

is a good depository for your funds.

## Churches

### Revival At The Nazarene Church

The revival at the Nazarene church is still in progress and the interest is intense. The preaching is after the old time order. The singing is splendid, and the crowds fill the house. Last Sunday night many people were turned away they could not get in the church.

A good many have been saved during the week.

Meetings will continue over Sunday at 10:00 a. m. and 7:30 p. m.

### FIRST BAPTIST CHURCH

Dr. A. E. Baten, Pastor. Sunday school and preaching at the regular hours. After the sermon at the morning service the building committee will report and show some beautiful pictures of church plans. Everybody invited.

### METHODIST CHURCH

Rev. Umphrey Lee, Pastor. The regular services will be held in the City Hall Sunday. It is hoped that every teacher in the Sunday School will be present and on time. Preaching at 11:00 a. m. and 7:45 p. m.

Bishop Anesworth will preach in the City Hall Friday night, March the 28th.

### CHRISTIAN CHURCH

"Not the Strangers church; but the church where no one is a stranger more than once".

Regular services next Sunday, Sunday school at 9:45 a. m. Preaching at 11:00 a. m. and 7:30 p. m.

Prayer meeting at 7:45 p. m. Wednesday. Strangers are especially invited to worship with us.—E. Buford Isaacks, Pastor.

### DISTRICT MEETING

The laymen and preachers of the Cisco district of the Methodist church held a meeting in Cisco on Thursday of last week when quite a number were present. This meeting was held for the purpose of making plans for the Centenary campaign. Among the speakers who attended were Rev. J. E. Crawford, G. W. Barcus and Rev. R. F. Brown of Waco. Prof. M. H. Smith of Ranger is the district director, while Judge Barcus of Waco is director for the conference.

### CATHOLIC CHURCH

There will be services on next Sunday morning, March 23rd at eight o'clock in the K. P. Hall.

### FIRST PRESBYTERIAN CHURCH

Rev. J. D. Leslie, D. D., Pastor. Services at 11:00 a. m. and 7:30 p. m. Preaching by the pastor. Subject for morning service: "Does it pay to be religious?"; night subject: "The need of decision in religion".

Sunday school at 9:45 a. m. A cordial welcome to all visitors and strangers.

### CHRISTIAN SCIENCE NOTICE

Services are held in the Odd Fellows Hall every Sunday at 11:00 a. m. and Wednesdays at 8:00 p. m. The public is cordially invited to attend.

### DIRECT ACTION

Gas Ranges have always led the way to the better cooked eats. It is a little different from the rest, and a little better than the best. Call and see them at Jno. Sherman's. New patterns due to arrive soon. 46c

### MEMBERSHIP DRIVE— CISCO PUBLIC LIBRARY

The Cisco Public Library will have a Membership Drive, beginning on March 31st, and ending April 4th.

The ladies will solicit for yearly, six months and three months subscriptions. Yearly subscriptions \$1.60, six months, sixty cents and three months 35 cents. In the meantime you are cordially invited to visit and inspect the Library which is in the home of Mrs. A. B. Johnson, on West 6th street.

This Library contains about 2,000 books and the latest books are to be had there.

### NOTICE

The Eastland County Singing Convention meets with the Pleasant Hill singing class the second Sunday in April and Saturday night before. Let every one interested be sure to be there, and especially the singers. We urge every class in the county to have delegates there on Saturday night for all business will be transacted at that time.—R. N. Hazlewood, President.

## Why Pay More to Live?

When we are selling Groceries, the same groceries that are selling elsewhere at fancy prices, for less for cash.

With every purchase to the amount of \$1.00 we give you 5 per cent discount.

If you believe in economizing this is one important opportunity. It is like drawing interest on your investment.

## Ramsey Brothers

Grocers

Prompt Delivery

Cisco, Texas

# If It Be A

## Chicken House or a Mansion

you will receive the same courteous prompt service and our estimates will be as carefully made, no matter how small or large the plans may call for.

If you will notice, the building material and accessories that we have are made for all and any kind of construction and building

a whole section in a short paragraph. It used to be the practice at the men let the women and children do the worshipping, but recently the men have begun to take more seriously and realize more fully that men also have souls to care, then they do not want the women and children to be so lonesome in the other world. A large per cent of the men even yet take active part in the church work, but the world is growing better, and it is believed that after a while as many as a per cent of men will go to heaven as do women. The attendance upon the services of the churches is a pretty good thermometer as to the good or bad morals of any town, and a new comer, or visitor is usually judged by this.

our estimates.

## Pham Lumber Co.

Guaranty Fund Where Your Funds are

CISCO,

**With Our Correspondents**

**PUTNAM POINTERS**

Mr. and Mrs. E. F. Brittain visit in Fort Worth this week.

The band boys of Baird gave an entertainment at the school house one night last week and it was enjoyed by all present.

Y. A. Orr is having erected on his business lot east of his drug store a nice business house.

Judge B. L. Russell has recently sold about \$2,500 worth of lots in Putnam.

The Sprawls brothers sold one lot in Putnam this week for \$2,500.

I understand that all the stock has been subscribed for another bank in Putnam.

J. C. Mayes has just installed a nice cafe just south of the brick hotel.

Judge Burkett recently bought some royalty from the Surles brothers for which he paid \$300 per acre.

The Cathey well one mile south east of Putnam is still belching over, and the general opinion is that it will be a good producer when it is brought in.

Col. E. H. R. Green of the Midland railroad will put down a well on the Scott ranch three miles south of Putnam. Some of the casing has been unloaded here.

A location has been made on the Geo. Brown farm two miles north-east of Putnam.

Parties have put up \$20,000 as a forfeit to drill a well on the Harwell land one mile south of town to begin within 90 days.

J. J. Clark has a contract for the drilling of a well on his land two miles west of town.

As high as \$500 per acre has been paid for leases and royalties for land near Putnam.

J. H. Surles made a business trip to Cisco Monday.

The new rock crusher is at work here crushing rock to be used on the highway.

The crop prospects were never better. There is not a vacant house in town and parties are coming wanting houses every day. The wonderful mineral water here, and this town surrounded by a great oil field there is no reason why Putnam should not make a nice little city of several thousand people.— Correspondent.

**PLEASANT HILL PARAGRAPHS**

Mr. and Mrs. Jno. O'Brien, of Breckenridge spent Sunday night at the H. Y. O'Brien home.

A. A. Abbott, is among the sick folk this week.

Mr. and Mrs. R. L. Poe, of Cisco attended church here Sunday.

Grandpa and Grandma Lockhart and little Miss Nellie Carmichael of Shady Grove were guests of Mr. and Mrs. Edgar Alton Sunday.

A little daughter arrived at the home of Mr. and Mrs. N. G. Kinnard the 15th. Mother and baby are getting along nicely.

Mr. and Mrs. Henry Haggerman were shopping in Cisco Monday.

N. S. Kinnard, returned home a few days ago from San Antonio where he has been visiting his son, Edgar at Camp Travis.

Mr. and Mrs. Jim Linebager spent the week with relatives in Cisco.

Ross Gentry and family of Britton, visited at the Frank Smith home last Sunday.

Mr. and Mrs. Rufus Key, of Fort Worth spent the week end with relatives here.

The entertainment at the Roy Tucker home Friday night, was very much enjoyed by all attending.

L. C. Reeves and W. J. Poe, were in Cisco Monday.

Rev. P. D. O'Brien filled his appointment here Saturday and Sunday.—Rex.

**C. C. McCARTY MOVED HERE**

C. C. McCarty of Oklahoma arrived in the city last week. He has many nice things to say about Cisco. He stated to a Round-Up reporter that he has come to stay, that he believes in Cisco, and from observations believes that this is going to be the oil city of this section. He says that here at Cisco we have the railroads, plenty of water and one of the most beautiful sites for a city that he has ever seen, and one thing that has greatly impressed him is the way the people have treated him. He states that he already feels at home. He is in the real estate, and oil business. He has rented the W. P. Puley home recently bought by E. Roper, and his family will arrive within a few days.

Anderson-Crawford Co., city property, insurance, oil properties, advertising. Office Daniels building.

**NEGROES HAVE CRAP GAME AND SHOOTING SCRAPE**

There was quite a good deal of excitement on the main street Monday morning when two negroes have shooting and running scrape. It seems that a crap game resulted in one of the darkskins cashing a check for the other one and the one giving the check asked the bank not to pay the check. Otis Kimble gave the check and B. B. Thomas cashed it, and when he found that the check was no good he accosted Kimble on the street and after a quarrel Kimble pulled a 38 revolver and Thomas hotfooted down main street with Kimble in pursuit. The shots went wild, and so did Thomas. The officers made arrests and took Kimble to Eastland where he is still in jail.

**THE FIRST DAY OF SPRING**

Friday, March 21st. And this spring means much in the history of Cisco and its citizens. The geographical location of the city has placed it in the preferred class and prospects are bright for its future. We are putting on city clothes, paving and macadamizing our main business avenues and residential streets we are building young sky scrapers, railroads, refineries, new banks, new hotels, new homes, new theatres, putting in big water and sewer systems, preparing to build good roads, new homes are being built as fast as help can be procured. People from all parts of the United States are coming to Cisco to make their future home, prosperity is being enjoyed by all. April 14th to 20th, is dress up and good fellowship week for the people of Cisco and Eastland county. Look through the Round-Up and notice the good and interesting things the live merchants of this city have to offer you. Remember all the news in a newspaper is not in the news columns, read the advertising in this paper, read them every week, you will find them offering opportunities and new goods that you are wanting.

**BREAK JAIL**

The three yeggmen who were in the Ballinger jail awaiting an ex-aming trial for having robbed the Winters bank broke jail last Sunday night, having pulled off the metal ceiling and burned the rafters in two with a hot poker, made a rope of the bed clothes and made their escape and their whereabouts are still unknown. Their names are Willis Newton, Jack Johnson and Walter Harris. These men are known by quite a number of people in Cisco.

Sid Richardson, oil operator of Fort Worth has purchased two lots on Goodwin avenue in Elfrethom Heights. Itc46

**DELICIOUS, AMBER COLORED COFFEE**

Prepared the Hotpoint Way

Prepare your coffee electrically with this artistically designed and attractively paneled six-cup percolator of unusually pleasing appearance, constructed entirely of copper, except spout, which is pure white metal; percolator is finished in highly polished nickel plate inside is heavily plated with pure silver in rich gray finish. Handle is of wood, nicely ebonized, and base is provided with fiber feet to protect table top from any scratches. Fitted with hinged cover with glass globe. Safety switch protects heating element from accidental burn-out from pot boiling dry, enabling user to quickly place pot in service again without bother or expense. Furnished complete with cord and attachment plugs.

We wish to announce to our friends and the public that we, J. T. Anderson and E. P. Crawford, have formed a partnership, styled Anderson-Crawford Co., and have opened an office in the Daniels Hotel Building for the purpose of conducting a Real Estate and Brokerage business.

Anything listed with us, whether city property or oil holdings, will receive our best attention. Because of our favorable connections we are enabled to get quick action on listings. Let us turn some of that city property into cash for you.

MR. BUYER, If you are in the market for anything, SEE US, we either have it or can get it, if it is to be had.

**INSURANCE**

The unusual development and rapid growth of the town has enabled us to secure the agency for a number of strong Insurance Companies that have not heretofore been represented in Cisco. We are therefore in a position to place your insurance risk very advantageously, and any business intrusted to us in this line will receive our most careful attention.

**ADVERTISING**

We also handle advertising matter for the leading Newspapers of the state and will soon be in position to place all kinds of advertising in any publication in the U. S. If you contemplate doing any out-of-town advertising see us before making your arrangements.

Office in Daniels Hotel

**HUSBANDS HONORED**

The members of the Merry Wives Club entertained their husbands on St. Patrick's evening, March 17, at the home of Mr. and Mrs. G. J. Ward.

The only decorations used were growing ferns and bowls of fragrant violets, developing the springtime feature.

Progressive forty-two afforded pleasure. Dainty tally cards in green and white, featuring the shamrock, held the score and the color scheme was further carried out in the service of the luncheon course. Fried oysters, sauce, pickle, potato chips, fruit salad, wafers, hot biscuits and coffee were refreshments offered. The salad cups having green decorations and tiny shamrocks being the chosen favors.

The club members present with their husbands and several substitutes were Mesdames G. E. Lingle, H. L. Winchell, G. D. Ward, G. Fisk, G. B. Kelly, C. H. Fee, F. E. Harrell, S. A. Newcomb, G. J. Ward; Messrs. G. C. Lingle, H. L. Winchell, G. D. Ward, G. Fisk, G. B. Kelly, S. A. Newcomb, G. J. Ward; Mrs. Beatty and Miss Al Williams; Messrs and Misses G. J. Dabney, Alex Spears and W. W. Moore.

**ST. PATRICKS' TEA**

The St. Patrick's tea, given by the Woman's Missionary Society of the Methodist Church on last Saturday afternoon at the Daniels Hotel lunch room was a success socially and financially.

A pleasing feature was the musical program given by Mrs. T. E. Webster, Miss Joyce Langston and Mrs. R. M. Ryder, consisting of piano and voice numbers.

Small silken Irish flags were the favors given to those who patronized the tea.

**TWENTIETH CENTURY CLUB**

The Twentieth Century Club met in regular session last Friday at the City Hall rest room, when a study of Belgium afforded an enjoyable hour for the large number of ladies present.

Two excellent papers were read, "The Salvation of the World" by Mrs. P. Pettit and "The City of Statues" by Mrs. B. T. Riddle. The round table talks brought out interesting facts concerning Belgium, its history, its geography, its people and their language, with Mrs. J. W. Mancill as director for this the last quarter of the club year.

Quite a lengthy business session was held, when reports from several committees were given. Mesdames C. H. Fee and Geo. Langston, parks, play grounds and streets committee, reported that they had conferred with the mayor and the secretary of the Chamber of Commerce and were assured of their hearty approval and co-operation in any such work that the club might undertake. Considerable discussion followed as to the advisability of the club doing civic work exclusively during the coming year. The drive for subscriptions for the public library was again brought up but no time was set for the work. A committee was appointed to investigate the Y. W. C. A. work, in cooperation with Mrs. H. H. Fielder, who has been requested by Y. W. C. A. workers to start the work at Cisco.

Club guests for the afternoon were Mrs. Wesley Ammerman of Fort Worth, Mrs. John R. McCutcheon of Taylor and Miss Al Williams of Philadelphia.

**SOCIAL MEETING**

A pleasant social evening was enjoyed by the members of the local Masonic Lodge, their families and a few guests on Thursday of last week at the Masonic Hall.

As it was in the nature of a get-together meeting a while was spent in greeting friends and getting acquainted with the new people and

visitors present. Mr. Jno F. Patterson acting as master of ceremonies gave cordial greetings and extended a hearty welcome to the visitors. Mrs. H. H. Journey and Mr. W. F. Walker contributed several popular songs and a talk on "The History of Cisco Masonic Lodge" was given by Judge D. K. Scott. Judge Jas. L. Shepard by request made a short speech on Masonry.

Refreshments of ice cream and fancy cakes were served and the happy occasion was brought to a close with a song in which all joined.

**HITTSO-AINESWORTH**

W. T. Hittson, Jr., and Miss Minnie Ainesworth were married on last Monday at the parsonage of the First Baptist church, Dr. A. E. Baten officiating. Both families from which these young people come are residents of Cisco. They will continue to make this city their home.

**MASQUERADE DANCE**

Saturday night was quite a gay one for society when a large crowd attended the masquerade dance at the residence of Mr. and Mrs. A. A. Webster given by Mesdames Webster and S. P. Baugh complimentary to Mr. and Mrs. John Abe March of San Angelo.

The green of "Ould Ireland" was given prominence in the decorations and dance programs, which were pretty affairs with tiny shamrock and an "Irish Gentleman's" hat attached.

A four-piece orchestra furnished the dance music and at nine o'clock the grand march started, led by Mr. and Mrs. Webster, costumed as George and Martha Washington, followed by Mr. and Mrs. March. Mr. March was dressed in Yama Yama costume and Mrs. March wore white satin evening gown. Mr. and Mrs. S. P. Baugh were next in line, but were not in mask costume.

Others enjoying the pleasures of the dance were Mr. and Mrs. G. J. Ward in Gypsy costumes, Mr. and Mrs. E. S. Huey, with Mrs. Huey as

**MAKE YOUR DREAM HOME COME TRUE**

The ideal home is first planned in air castles, and if we continue to dream of them, work for them sacrifice for them, eventually our fondest dreams will be realized.

To resolve that the air castle home is some day to come true, brings the whole family in closer accord, and is the surest way of ultimately acquiring the dearest spot on earth, HOME.

These illustrations and suggestions are for you to incorporate in your dream home, and we are sure you will find many ideas that will be of material help in perfecting the general arrangement.

Modern methods have developed home planning to a science, making possible pleasing exteriors convenient and well arranged rooms in which modern labor and time saving conveniences may be included even in the most inexpensive homes.

If your air castle is still afloat and you need assistance in developing it into a real home, we will be glad to help you realize your dreams.

Our complete photographic building service is conveniently arranged, and we invite you to call at our office and let us advise with you in making possible a home that will meet your every requirement.

Mancill, Red Riding Hood; Mrs. Buck Herick, Gypsy costumes; Misses Mabel Tucker and Lucille Brown, Yama Yama suits; Harry Gray, woman's costume.

Prizes were awarded to Mrs. W. E. Spencer and Mr. Carl Williams for the best costumes.

Punch was served throughout the evening.

**MRS. LINGLE HOSTESS**

One of the enjoyable affairs of last week was the bridge party given by Mrs. Geo. C. Lingle in compliment to her house guest, Miss Williams of Philadelphia and Mrs. V. O. Tansey, who was leaving for her new home in Albany.

After a series of interesting games a most appetizing luncheon was served, consisting of creamed chicken, potato chips, cheese, olives, hot rolls and coffee. Shamrocks were the favors given.

Average price of building lots \$160.00 One-third cash, balance three and six months.

### RUSSELL BROS SHOWS OPEN TO BIG CROWDS

The Russel Shows, which opened last night on the T. & P. right-of-way, have no complaint to make about the attendance as a throng of ladies, gentlemen and children crowded the big pike until a late hour. The show lived up to its standard as a clean aggregation. Polite attaches saw to the comfort of the public and the first night went off without a hitch. Free Rides on the Merry-Go-Round for the Children.

A representative of the show called on the superintendent of schools Prof. R. D. Green and invited every child to enjoy a free ride on the big carry-us-all. These tickets will be passed out by Mr. Green and the teachers, so that no child will be slighted. As the show is playing for the benefit of the Sunshine Nursery, the Russell Bros. have decided to reduce the fare on the merry-go-round (always 10 cents) to 5 cents for the entire time they are showing in Abilene.

Promptly at 7 o'clock last night, thousands of electric lights, in the twinkling of an eye, transformed night into day. Bands of music quickened the pulse and a happy throng threw themselves into the spirit of the hour and just had a grand old time.

There was something there for everybody. The big circus show was packed with people thoroughly interested in the many strange sights and everybody enjoyed the little Count Zalu's wonderful performance. Mohammed Kallus, the famous Hindoo yogi (magician) came in for a lot more of notice.

The Sunflower Minstrels with its Picaninny Band its sweet singers, clever dancers and funny comedians went over big. Beyond a question this is one of the best colored shows that has ever played Abilene this being the first season it has ever played under canvas with a carnival.

Wrestler Meets Worthy Opponent. Geo. Katsouaros champion light-heavyweight wrestler went up against a mighty good boy Friday

High for ten minutes. A. J. McDaniels an Abilene boy, accepted a ten minute challenge issued by the champion's manager and from the way he stayed the full time and walked away with the forfeit proves to us that we have some very good wrestling material around town. Katsouaros had no excuse to offer for not beating McDaniels but asked for another match. McDaniels accepted and the men will go for a longer period. —Abilene Reporter.

### MELVIN WELL NOW IS PRODUCING 500 BARRELS PER DAY

The biggest news of the week in the immediate vicinity of the Ranger field was the drilling to within a few feet of the sand of the Melvin well of the Beaver Valley Oil & Refining Company in the town of Ranger. Oil sprayed over the derrick while the tools were yet in the lime. The 6-inch casing is being set and the well probably will be drilled in next Tuesday.

The location of this well was carefully selected. It was made after some small producers on the Ranger townsite had been discovered to be on the edge of the clover-leaf formation. The Melvin well is supposed to be on the best part of the structure. Some experienced oil men are guessing up to 500 barrels as its production.

Members of the board of directors of the Beaver Valley Oil & Refining Company met here this week and approved plans for the company's 2,000 barrel refinery that is to be erected shortly at Cisco. Those present were Vice-President Levi Ozle, capitalist and oil operator of Anadarko, Okla.; Hay L. Ayres, oil operator of Anadarko; S. J. Hess, oil operator of Fredonia, Kansas, and C. M. Clauder, business man of Anadarko, Okla. They visited all of the company's properties in this part of the state.

Drilling with a star rig to start shortly on the Beaver Valley's block of nearly 12,000 acres in Montague county to develop a sand passed up at 325 feet in its deep test. This sand produces a high-grade oil and looks to be good for 10 to 20 barrels. The sand is about fifteen feet thick. Probably no other independent developing company in Texas has planned such a big drilling campaign for the year. A small amount of stock is being sold by the company to build the refinery. This is done because the company wants to turn its production revenues this year into the drilling of wells. —Cisco Correspondent in Abilene Reporter.

SHOOR WELL HITS SAND The Shoor well, drilled by the Humble Oil and Refining Company on the Shoor farm, five miles south of Cisco, got 1,000,000 feet of gas and is spraying some oil at 3200 feet. The well is drilling in black lime.

It eliminates the drudgery of ironing day, steps between stove and the ironing board, no "change" sad irons, fuel, soot and ashes, soot-staining and scorching of clothes, danger of burns

famed for its hot point always cool handle, attached stand, "rest the wrist" thumb rest, easily removable cord-protecting swith plug, highly polished nickel finish.

When you, too, have become the proud possessor of a Hot point Iron, as have over three million other women, the ease with which you can do your weekly ironing will indeed surprise you.

The Hotpoint turns a tedious task into a pleasurable household duty. It does your ironing better in less time. Thus leaves more time for other activities and recreation.

## Rheumatism Relief -- 25c.

Nature's Remedy (NR Tablets), Are Helping Thousands Who Tried Expensive Things Without Result. It's Guaranteed.

There are three vital processes of human existence,—the digestion of food, the extraction of nourishment from it and the elimination of waste.

Poor digestion and assimilation means failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism,—due to some interference with the process of elimination, failure to get rid of certain body poisons—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as rheumatic poison is allowed to remain in the body?

Think of this. It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and getting relief. Why pay five or ten times as much for uncertain things? A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days,—must help you, must give you prompt relief and satisfactory benefit or cost you nothing.

Nature's Remedy is not only for the relief of rheumatism. It improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the system. You've tried the expensive medicines and doctors, now make the real test. You'll get results this time. Just try it. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

Jesse L. Lasky features Fred Stone in "The Goat." We all know how to appreciate a Fred Stone picture.

We also will have Tom Mix and Mac Sennett in Side splitting comedies.

Prices: First Show 20c, Second Show 25c. The Two Shows for 40c

# Folly Theatre Saturday Afternoon and Night

## Why Prices Go Up and Down

This shows why prices fluctuate. The number of animals shipped to market varies from week to week. The demand for meat also changes frequently, and often unexpectedly.

This means that live-stock prices and wholesale meat prices change from day to day. Competition determines prices so that the supply on hand at any one time is just taken up by the demand.

Swift & Company doesn't like these price changes. We have to use the utmost skill in buying and selling in order to get our average profit of a fraction of a cent per pound of meat.

Swift & Company, U. S. A.

Cisco Local Branch, 546 5th St.

## THRIFT IS POWER

There are two roads in life. One leads to a quagmire of nothingness. The other leads to success. Both are lined with sign posts to show the wary traveller in which direction he is moving. But many people go along, their eyes on the skies, on the ground, or unseeing in dreamland, never noticing that they are advancing on the wrong highway. Do you know which road you are travelling? Here are the sign posts. The end of one will find you empty-handed. The end of the other will find you with funds for a sunny opportunity—with War Savings Stamps and Liberty Bonds working for you at over 4% interest.

### Spendthrift Road

"This is on me."  
"One more of the same."  
"Lend me five."  
"Charge this."  
"Here, boy."  
"Where do we go from here?"  
"Let's have another round."  
"You can go home anytime."  
"Your money's no good."  
"I can't be bothered with small change."  
"The sky's the limit."  
"I'm paying for this."  
"Don't be a piker."  
"It's all in a Lifetime."  
"More where this came from."  
"Aw, come on; be a sport."  
"Money's no object to us."

### Thrift Road

"What is the price of this?"  
"One will do."  
"The walk will do me good."  
"No, thank you."  
"I can't afford that."  
"Give me your best price."  
"I'll carry this."  
"I promised my wife."  
"I need the money."  
"Let me pay my share."  
"I can get along without this."  
"Is it worth seeing?"  
"This is what I've gotten for my money."  
"I could, but there are more necessary things to be taken care of first."

## Legislature Unanimously Urges Buying of War Savings Stamps

Wise spending, wise saving and the buying of War Savings Stamps is the financial program suggested by the present Legislature. In fact, a resolution was unanimously passed in both the Senate and the House in which the War Savings campaign is enthusiastically endorsed. Senator W. L. Dean of Huntsville and Representative C. F. Richards of Lockhart, presented the resolution.

"The importance of the War Savings Campaign is evidenced by this action of the Legislature," said Frank M. Smith, Federal District Director for the Eleventh War Savings District. "Every War Savings Stamp bought means much more for the support of the Government. It also means that the investor is making of himself a better citizen and laying aside a reserve for emergencies."

The resolution on War Savings, passed by the Texas Legislature, follows:

"WHEREAS an intelligent thrifty and saving citizenship is the greatest guarantee of the prosperity of a Nation or any subdivision thereof; and,

"WHEREAS, such characteristics are a certain proof of a strong, self-reliant and independent people; and,

"WHEREAS, the United States Government through a nation-wide educational campaign is seeking to inculcate the science of wise spending and wise saving through the practice of intelligent personal economy and conversation; and,

"WHEREAS, the United States Government through the War Savings Movement is urging its citizenship to attain the goal of success through the systematic and business-like saving and investment of their savings in United States Government War Savings Certificate Stamps and Thrift Stamps; and,

"WHEREAS, a safer and surer investment than United States Government War Savings Certificate Stamps, which constantly increase in value and which constant increase is guaranteed, cannot be had; and,

"WHEREAS, the flower of our State and the Nation have given their lives by the thousands upon the battlefields of France that the world

might be made safe for Democracy and the citizens of our State and Nation enjoy the blessings of world peace; and,

"WHEREAS, the United States Government spent of its treasure that victory might be won, believing that its people appreciate the blessings of peace to the extent that they will lend of their savings that the Victory bill may be paid and lasting peace assured; and,

"WHEREAS, there are still thousands of our soldiers guarding the Rhine and bearing the torch of Democracy on the snow-covered plains of Russia; and,

"WHEREAS, the test hour of the patriotism of our people and honor of our State is here; therefore,

"BE IT RESOLVED by the Legislature of the State of Texas that the citizens of the State of Texas be urged to the practice of wise spending and wise saving that by thrift they may acquire power and by saving succeed; and further,

"BE IT RESOLVED that the citizenship of Texas set itself, to the practice of thrift, giving expression thereof in the acquisition of United States Government War Savings Certificate Stamps and Thrift Stamps."

## "The end of an Imperfect Day"

## "Nervous Headache"

Nervous headache is the result of a run down weakened nervous system. You feel out of sorts—everything seems wrong—food disagrees with the tired stomach—you can't sleep and have a constant case of "the blues."

Rev. Geo. Heffelman of New Cumberland, Pa., tells how he was cured after he had almost given up hope. "Five or six years ago I became greatly worried on account of the condition of my nerves. I was prostrated and suffered so much I thought I would never be well again. I used one bottle of DR. MILES' NERVINE and began to improve from the first. I then used it until it completely cured me. It is without doubt the greatest nerve remedy ever discovered."

If you are troubled with a nervous affliction, you will find the first bottle of DR. MILES' NERVINE will bring relief. It is non-alcoholic and contains no injurious drugs—a safe, dependable and efficient family medicine. Ask your druggist about it.

DR. MILES' NERVINE

## Tin Pan Alley

There's one little section in New York they call Tin Pan Alley—the "home of a thousand pianos." It is the district of the popular-music publishers—the birthplace and the nursery of the nation's song-hits. Here the vaudeville singers go to be taught the latest songs,

which they in turn spread over the country.

From Tin Pan Alley the songs go direct to the Edison Recording Laboratories, and soon they are locked in the hearts of the little black discs.

Through the magic of

## The NEW EDISON "The Phonograph with a Soul"

You can RE-CREATE in your own home all the popular-songs from Tin Pan Alley. The gaiety, the laughter, the cleverness of the Alley's music is all waiting for you in The New Edison.

## If You Want to Save 25 Per Cent

Suppose you see our new line of wall paper.

During the next ten days we will offer you wall paper at a 25 per cent discount

Call and see this line before the stock is broken.

DER FRONT DRUG STORE  
CISCO, TEXAS.

# REFRIGERATORS

We have to arrive this week a large line of the well known Automatic Refrigerators. The stock will consist of every style and all the sizes, so right now when you can get just what you want, let us sell you the box you have been planning to buy next month. We want you to have what you want, and later in the season it may be hard to supply you.

## Mattresses

We cannot say too much to the credit of our all-cotton mattresses. We believe there is more value in them than any other that is sold at anything near the prices. Our three big sellers are as follows:

An all-clam cotton full size, forty pound, roll edge with a good grade of fancy art ticking at only **\$10.00**

The next grade is made up in the same way with 45 pounds of clam cotton with a good grade of fancy art ticking at **\$12.50**

Our best grade is the best in the land at the price. They are solid comfort, and the price is the only small thing about it. They sell like hot cakes at **\$15.00**

## Stoves and Ranges

We have now enroute our initial order for stoves and ranges and we are planning to make the stove business one of the largest and most attractive features of our business. We will carry the very best standard lines and sell them at the very lowest possible prices. The stoves will be in our store for inspection within the next few days.

# CISCO FURNITURE CO.

### PUBLIC SCHOOL NOTES

The High School department of the Cisco Public Schools is making strenuous preparations to make Cisco a big winner at the county meet to be held at Eastland April 4th and 5th.

This county meet has always been held in Cisco until this year and Cisco school has always been a winner in every department of the work by a large majority.

It is the ambition of the High school department to make this year a greater success for Cisco than ever on account of the meet being held on other grounds.

In the preliminary contests held at the City Hall Tuesday night, Fleming Waters and Miss Ruth Williamson were selected as the Senior declaimers, Marion Olson and Miss Ava Greer were winners in the Junior contests, with Bertha Waters and Arp Milling as close seconds.

The contest in spelling and debate will be held in the High School auditorium Friday afternoon and night. A list of twenty Juniors and eight

Seniors insure a lively spelling match and the debate will be a heated argument on Universal Military Training, the debaters are Miss Grace Myrick and M. B. Wood, affirmative and Herbert McCanlies and Fleming Waters, negative.

All those who bought tickets for last Tuesday night will be given a free admission on presenting the ticket purchased Tuesday night. All others will be charged 10c. Proceeds to pay expenses of contestants to County Meet.

In the preliminary contests in basket ball held at Cisco last Saturday for Cisco-Seranton division of the county. Cisco Senior girls won over Seranton girls; Dothan boys won over Pleasant Hill Senior boys; Dothan girls won over Pleasant Hill girls; Cisco Senior boys won over Pleasant Hill boys.

This leaves the Junior contests and the finals in the Senior basket ball to be played off at Cisco March 22nd. The feature of the day's contest will be the senior boys and girls games with Dothan. Cisco senior boys lost to Dothan some time ago,

but won over the strong Pleasant Hill team almost three to one, notwithstanding the fact that Dothan had had hard work to win by four points on the Pleasant Hill team last Saturday. As it looks now Cisco is an easy winner in these two senior contests. Games will be called at 2 p. m. This will be the best basket ball seen in the county this year. Be sure to be on the side line and root for the Cisco lads.

### SAILOR LETTER.

Mare Island, California, 3, 10, 19  
Dear Papa:-

I have been kept uncertain about whether I will stay here or where they will send me. But now I think I will be here long enough to receive a letter. I don't know when I will get discharged. I have put in request and affidavits and they were approved but I think they feel that they will have trouble with Japan yet.

There may be another quota in a few days to be discharged and if so, I will be in it.

Well, this is all the time I have so please write and tell me how everything and everybody is. Give my love to all.

Your son,

RAY JUDIA

P. S. Wish I had more time to write but they have discharged so many men, there are hardly enough of us left to keep up the station, they keep me going. Answer quick.

### NEW CASHIER AND TELLER

The Guaranty State Bank & Trust Co. directors have employed A. J. Wisdom of Clinton, Mo., as its cashier, taking the place of G. C. Lingle, resigned. They have also employed Byron Gaither of Kansas City, Mo., as teller for the bank. These two young men come to us well recommended and we gladly welcome them to our busy little city.

When you see a picture at the City all theatre you see a new picture, and when you read the advertising on any picture to be shown at this theatre, you may depend on it being all that it says and more. Every week on page two you will find the City Hall picture show program.

Where do I get lamp globes? At Jno Sherman's.

### Y. W. C. A. DRIVE

Mrs. H. H. Fielder local chairman of the Y. W. C. A. Drive assisted by the committee from the Twentieth Century Club will endeavor to raise Cisco's quota Saturday afternoon between 2:30 and 6 o'clock. The club committee, Mesdames H. L. Winehell, J. W. Mancill and L. A. Harrison will be at the City Hall during the drive and solicitors will canvas the town for donations, wearing the Y. W. C. A. badges. The funds raised at this time will be used to maintain the Y. W. C. A. work.

### A HIGHLY SUCCESSFUL SUBSTITUTE FOR THE HOT WATER BOTTLE.

An electric hot-pad that successfully supersedes the hot-water bottle for all dry applications of heat to the body. Made of hinged metal units which make the pad is flexible as ordinary use requires. Conforms readily to body curves or may be wrapped around a limb.

The temperature is controlled by small lever at the top end of the pad. Any temperature between 100 and 200 degrees Fahrenheit easily obtained and automatically retained. A small knob at the word "Low" (temperature 100 degrees) permits the operator to adjust the lever in the dark or under the bedcovers. Completely equipped ready for use.

Finished in highly polished nickel and furnished with soft white washable eider-down cover.

JOHN. C. SHERMAN  
CISCO, TEXAS

**SMOKING TOBACCO**  
FACTS FROM THE  
ENCYCLOPAEDIA

The Use of Flavorings Determines Difference in Brands

The Encyclopaedia Britannica says about the manufacture of smoking tobacco: "On the Continent and in America, certain 'sauces' are employed... the use of the 'sauces' is to improve the flavour and burning qualities of the leaves." Which indicates that a smoker's enjoyment depends as much upon the flavoring used as upon the tobacco. Your nose is a sure guide in the matter of flavorings. Try this simple test with several tobacco brands: pour some tobacco into your palm, rub briskly, and smell. You will notice a distinct difference in the fragrance of every brand. The tobacco that smells best to you will smoke best in your pipe, you can rest assured. Carefully aged, old Burley tobacco, plus a dash of pure chocolate, gives TUXEDO Tobacco a pure fragrance your nose can quickly distinguish from any other tobacco. Try it and see.

APRIL

**JOHN H. GARNER'S**  
THE BEST PLACE TO SHOP, AFTER ALL

DRESS UP WEEK  
14th TO 20th  
APRIL

**A TRIP THROUGH THE STORE**

I simply must tell you of some of the things I saw yesterday as I took a leisurely trip through John H. Garner's Store. We women dearly love to hear about and to see the newest, most beautiful wearing apparel and accessories and I'm telling you what I saw so you may know just what wonderful things to expect on your next trip to John H. Garner's.

As I went in the main entrance some new Lace Silk and Glove Silk Hosiery was being unpacked, in Black, White, Brown and Gray, but they were truly good values at \$2.50 to \$3.50 per pair, and what woman would not stop to see the appealing styles in Hand Bags, Ear Drops, Beads, Collar and Cuff Sets, all marked very reasonable. Never has spring time brought such Blouses as one saw of finest Georgette with a generous sized collar with beads around about it, dainty bits of embroidery were set here and there, and dozens of others, some more beautiful than I dare describe, prices upwards \$17.50. Have your finger tips ever tingled for the touch of some exquisite Silk Garments you saw displayed? Mine did when my glance rested on these beautiful garments of Silk Undergarments, Teddies, Gown, Camisoles, etc.

The most beautiful I have ever seen, as the saleslady laid them out on the case, tiny ribbon and rosebuds peeped from the folds of white, flesh, crepe dechine, lace, ribbons and embroideries, were of such daintiness and charm that I held my breath with the very joy of seeing them, they were priced from \$1.50 upward to \$17.50. Up in the balcony is the Ready-To-Wear department, I was shown lovely spring Suits, Dolmans, Dresses, Petticoats, Pettibackers, Georgette and Crepe Dechine Blouses, and can I safely say that I have never seen a more beautiful showing in a city than you will find at John H. Garner's, and too the Millinery Department is in the balcony and to see all those beautiful new Hats, one to match any Suit, Dolmans, Capes and Dresses you may select, and just to think you can go in to this Big Store and get anything you may want, without having to go elsewhere to find a few little odds and ends.

For me, I'm going visiting at John H. Garner's, often. It is a delight to pass half day's time away seeing the beautiful things one finds in this handsomely arranged Store.

**Dress Goods Section**

### 1,040 BILLS HANDLED BY 36TH LEGISLATURE

Total of 401 Originated in Senate, While 639 Were Introduced in the Texas House.

### NUMEROUS LOCAL BILLS UP

Session Exceptional in That No Bills So Far Vetted Except in Case of Duplicates.

Austin, Texas, March 18.—A total of 1,040 bills and sixty-six joint resolutions were introduced in the Thirty-sixth Legislature. Of these 639 bills originated in the House and 401 in the Senate. There were forty joint resolutions presented in the House and twenty-six in the Senate.

A total of fifty-three Senate bills and 129 House bills had been finally passed up to Saturday night. The Senate was a little more expeditious than the House, but the predominance of House bills is somewhat attributable to the large number of local bills, which originated in that body and were finally passed. It is only natural that the local bills should largely originate in the House. In the Senate only thirty-one counties are represented, while the 142 House members come from more than 100 counties. House members are more often solicited by "home folks" to introduce the home measures.

Of the eleven joint resolutions which were finally adopted seven first saw light in the House and four came from the Senate.

### No Bills Vetted On Merits.

This session has been different because no bills have been vetoed on their merits. Two local measures were vetoed because they were duplicates of bills previously passed.

One of the most important bills of the session, which has passed both houses, but is held up on conference report, is that establishing the State Board of Control. If the House rejects the report Monday it may kill the bill. The Senate in that event can save it by concurring in the House amendments, as it did today on the constitutional convention proposition. Thus the Board of Control measure, Senate bill 147, may finally pass.

Several bills of State-wide interest are included in the number which were enacted into law. Several of these are herewith enumerated and furnish a review of the work of the session.

Among the first to reach the Governor was the House bill 199, which authorizes court proceedings whereby corporations used for violating the anti-trust laws may return to the State.

Senate bill 244, which forbids the giving of assistance to voters, except when over 60 years of age or unable to write because of affliction and when assistance is given it must be done in the English language. This furnishes a literacy test and follows the disclosures of voting in the lower Rio Grande section.

Senate bill 36, creating a comprehensive system of State depositories whereby State funds, amply secured, will be kept in banks and draw interest on daily balances and requiring daily deposits by State officials.

House bill 257, levying a tax of 1 1/2 per cent on gross crude oil production.

Senate bill 35, creating a woman division of the State Labor Department, which was strongly advocated by many of the women's organizations.

Senate bill 312, taking from the Comptroller the collection of inheritance taxes and placing it with the local officers.

Senate bill 78, giving oil pipe lines the right of eminent domain and making them common carriers.

Senate bill 34, giving married women the right to contract similar to a feme sole.

Senate bill 64, creating the State Industrial Welfare Commission to look after minimum wages and working conditions of women and children workers.

**Campaign Expenses Limited**  
Senate bill 208, validating mineral rights in land sold under act of 1883, where the land was not classified as mineral bearing.

Senate bill 120, limiting campaign expenses. This is one of the most important bills of the session. The Governor is restricted to \$10,000, with a graded scale down to the minor offices.

Senate bill 5, prohibiting the issuance of election certificates to any person not eligible to hold public office.

Senate bill 14, prohibiting the operation of pool and billiard halls after May 1.

Senate bill 103, appropriating \$4,000,000 for two years of rural education.

Senate bill 18, free textbooks for school children.

Senate bill 32, increasing the salaries of all higher court Judges.

Senate bill 99, creating one board of legal examiners.

House bill 7, exempting honorably discharged soldiers and sailors from paying poll taxes.

House bill 27, selling all State quarantines property on the Gulf Coast and Mexican border thereby abolishing the State service.

House bill 329, establishing zones in pink boll worm areas where cotton may be grown and marketed under close supervision.

### Soldiers' Property Protected

Senate bill 82, authorizing the incorporation of companies to erect construct or improve structures and to prepare and sell materials used in such business.

House bill 196, increase salaries of District Attorney's in counties of over 100,000 population.

House bill 456, prohibiting the sale under execution deed of trust, mortgage or liens of property belonging to soldiers and sailors in the service of the United States of those who served as such during the present war, until twelve months after their discharge.

House bill 174, requiring the Live Stock Sanitary Commission to cooperate with the Federal Bureau of Animal Husbandry in discovering and destroying cattle afflicted with tuberculosis.

House bills 177, 178, and 180, companion measures from the Secretary of State, adjusting ranch lease taxes, charter and filing fees to meet decisions of the courts.

Senate bill 15, permitting garage companies to incorporate.

Senate bill 16, incorporating well drilling companies oil, gas and water.

Senate bill 18, incorporation to manufacture airplanes.

Senate bill 62, punishing persons who defraud hotels.

Senate bill 81, giving hotels lien on baggage of guests.

Senate bill 47, permitting sentences to be concurrent or cumulative in discretion of trial Judge.

Senate bill 24, prohibiting interest of mortgagee or trustee in fire insurance policy being invalidated.

### Fixing Standard of Weights.

Senate bill 25, forfeiting interest in life insurance if beneficiary convicted at death of principal.

House bill 1, correcting the law requiring the examination and licensing of dentists.

House bills 247, 248 and 249, companion measures from Warehouse and Marketing Department, invoking United States standards of weights and measures, fixing units of weights and measurement and registering public weighers.

Senate bill 39, allowing bail bond in vacation in misdemeanor cases.

Senate bill 106, prohibiting '49 dancing shows and dances in tents.

Senate bill 150, extending two years the time within which counties may repay the State for money borrowed to purchase seed and feed in drouth areas.

Senate bill 149, extending until September 1, 1919, the time within which the State will lend counties money for seed and feed purchases in drouth-stricken districts.

Senate bill 87, terminating the publication of the reports containing the decisions of the civil appellate courts.

Senate bill 227, exempting onion growers from market inspection law.

Senate bill 262, providing experimental apiaries at the A. & M. College.

Senate bill, for the Texas South-eastern Railroad to remove certain tracks.

Senate bill 381, for the Artesian Belt Railway to take up some of its track.

Senate bill 29, for the Riviera Beach & Western Railroad to take up its tracks.

Senate bill 144, making it forgery to sign a persons 'will without his consent.

Senate bill 316, permitting consolidation of insurance companies under same management of two or more Texas insurance companies under same management and control.

House bill 3, making it actionable fraud to make misrepresentations in stock and land deals.

House bill 10, permitting pensions for firemen and policemen.

House bill 41, providing system of oral depositions.

House bill, increasing pay of Jurors, jury commissioners and bailiffs.

House bill 181, fixing compensation of Tax Collectors in collecting motor license fees.

House bill 344, forbidding the making of the Industrial Accident Board a party in cases contesting its orders.

House bill 88, providing that suits against nonresidents and unknowns shall be the same as in other suits not giving claims of defendant.

**Eleven Amendments**  
The Legislature broke all records for the number of constitutional

amendments it has proposed and submitted to the people of Texas on three different dates, namely, May 24, 1919; Nov. 4, and the general election in November of 1920. Eleven amendments have been submitted as follows:

May 24, 1919: House joint resolution No. 1 proposing State-wide prohibition; House joint resolution No. 19, proposing State aid to purchasers of rural homesteads and for improvements thereon; Senate joint resolution No. 7, proposing woman suffrage; senate resolution No. 13, to increase the Governor's salary to \$10,000 per annum.

Nov. 4, 1919: House joint resolution No. 13, to permit the issuance of \$75,000,000 of State bonds for good roads purposes, guaranteed by license fees from automobiles; Senate joint resolution No. 23, authorizing the issuance of as much as \$5,000,000 for grade raising and other improvements on Galveston Island, \$4,000,000 by the city and \$1,000 by the county. House joint resolution No. 38, permitting the State Prison Commission to appropriate earnings of convicts to their dependent families (it would be a division of the convicts' income);

Nov. 2, 1920: Senate joint resolution No. 12, authorizing cities of 5,000 population and less to increase their tax rate from one-half of 1 per cent to 1 1/2 per cent; House joint resolution No. 7, empowering the Legislature to repeal all fee laws of State, district, county and other public officials and to substitute fixed salaries for such officers; House joint resolution No. 35, increasing from 5c to 7c on each \$100 of taxable values the amount of tax which may be levied by the State for Confederate pensions.

Nov. 4, 1919: On the foregoing date will be submitted the question of holding a constitutional convention. If it is ordered the convention will meet in Austin in June of 1920 and the delegates will be elected in March of 1920, one from each representative district.

### THE RED CROSS CLOTHING CAMPAIGN

The war is over, yes, but people in our allied countries are crying from the results of war just as surely as if they were still being mowed down by howitzers and Krupp guns. They must have food and clothing. In Northern France, Belgium, Italy, Roumania, Serbia, Greece, Montenegro, Palestine, Albania, Czechoslovakia and Poland the need for relief is so vast that the main problem can be coped with only by government measures. But very valuable and can be rendered by the Red-Cross, and accordingly its members, and the American people at large, will be asked to donate their cast-off clothing—clothing which will prove a genuine—God-send to the war sufferers. Herbert Hoover, head of the European Relief Administration, and our Red Cross representatives abroad have cabled that a supply of every kind of clothing is immediately vital to the millions just freed from the German yoke. So, in March, the American Red Cross will conduct a mammoth collection of

used clothing, shoes, and blankets, throughout the United States.

March is the psychological month for a salvage campaign. With the approach of Easter, when pale pink crocuses and sturdy tulips are stirring in their warm winter beds and preparing to change into gala summer attire, we likewise are changing our attire. Heavy coats, serge skirts, woolen suits which would be too out-of-style for a reappearance next year are doomed to be cast aside by their owners. Instead of a moth-balled senility for these garments, how much better to send them across the seas, where style will make no difference, where they will mean life to shivering women and frail children. Begin collecting your old winter clothes now, for the campaign will be held the week of March 24 to March 31.

Every kind of garment is needed. Piece goods as well, light warm cotton flannel and other kinds of cloth from which to make garments for wee babies. Ticking, sheeting, and blankets, woolen goods and shoes of every size are asked for. Any scrap leather can be advantageously used

for repairing footwear. Since the clothes will get the hardest kind of wear only strong, durable garments should be sent. The refugees of Europe can find no use for ballet slippers or flimsy ball gowns! Make your gift practical. Garments, however, need not be in perfect condition. Thousands of destitute women are eager to make a few francs by repairing and adapting gift clothing to their needs.

A quantity of useless articles has been turned in at former salvage collections. They increase the cost of handling, as such articles have to be picked out at the central collection point and they cause a deplorable expenditure for freight for which the Red Cross must pay. So please do not send ball dresses, flimsy dresses, clocks, glassware, carpets, toys, collars, neckties, crutches, canes, parasols, pillows, crockery, rugs or food-stuffs.

In this campaign the Red Cross is going to assume entire charge from the time of collection to the time when the baled clothing is delivered to the ships of the European Relief Administration, which will transport

it to Europe. The minimum allotment for the entire country is 10,000 tons of clothing and it is hoped that much more than 10,000 tons will be realized.

This collection is not a task for individuals or a group of individuals. It is a task of the greatest magnitude, needing the co-operation of every man, woman and child in the country. Ten thousand tons of clothing. Just double the amount ever asked for in any previous collection. But surely America, with its millions of well-fed, well-clothed, prosperous citizens will feel that in making this gift they are but paying a small part of the debt which they owe to these suffering peoples who for so many months fought their fight.

### OIL WELLS NEAR CISCO

As time passes we get more familiar with the oil terms and expressions, and at the same time we learn to have more patience with the slow development of the field. Last year when the drilling was begun on the wells near Cisco it was thought that within two or three months Cisco would have an oil well or the territory adjacent would be proven, but almost a year has passed and the drilling continues, but two of our wells are near the point where oil should be. The following is the report on the wells:

The Brown well which is being drilled by the Barnsdall people, is 3,280 feet, or was that depth Wednesday. The drill has been in the black lime for quite a while, and Wednesday night considerable gas was coming out, and a little grey sand was noticed mixed with the lime which was a good indication, and also the black lime had gotten very hard. All indications point to a good well within a few days.

The Schoor well which is being drilled by the Humble people, has reached a depth of over 3,000 feet, and Wednesday had a showing of gas. This well also gives promise of a good producer, and the result is that prices on leases and royalties have gone high in that section.

The Ammerman well by the Prairie people is still having trouble. This was the first well to spud in, but has had more trouble than any of the others. It is now setting casing at near seventeen hundred feet, not deep enough for a showing. The Fee well by the Sun people, is drilling, but is still not deep enough to attract much attention.

The Ray well by the Gulf people, which is near the Fee, is not deep enough to attract great attention but work is still going on and the well is about fifteen hundred feet.

There has been a new location by the Humble people on the Bert Britain farm four or five miles southeast of Cisco, about two miles from the Schoor well.

There has been a location made on the E. J. Ward ranch four or five miles north of Cisco, and a rig is up. This will be drilled by Gilman and Leonard.

It is stated that there have been two locations made some few miles west of Cisco, but names and places have not been given out.

**STATIONARY THAT IS CORRECT**  
Make your correspondence, a pleasure and a delight by using appropriate stationary. Special close out sale in this line at the Round-Up office, now going on.

We invite your attention to our statement on another page of this paper, made under call of the Banking Commissioner of the State of Texas, which shows a marked increase in deposits over the last call.

We want your account, whether large or small, and can assure you of every courtesy and favor consistent with sound banking principals.

**First Guaranty State Bank**  
CISCO, TEXAS  
"THE BANK OF STEADY SERVICE"  
No Depositor has Ever Lost a Dollar in a State Bank of Texas

**CISCO A REMARKABLE CITY**  
(Continued from page one)

Her property has become very valuable as she is close enough to sell for business lots. While she dislikes to give up her old home, yet it may become necessary so that the business part of the town may grow.

C. A. Rinehart has been in Cisco for years and has been connected with various businesses, and is now grocery salesman for Gude & Sons. Mr. Rinehart has made some money all the while, and he has saved it. He knows a great deal of the early history of Eastland county and more especially of Cisco.

G. S. Williams has been here for thirty-eight years and was postmaster for over twenty-one years. This is a correction of the statement in last week's paper.

R. T. Porter came to Cisco in 1883 and says that very few men who now live here were here at that time. Among whom he says is John F. Patterson, A. F. Casey and a few others. Bob Porter says that he been building Cisco ever since he came here and is still at it. He has been carpenter and contractor during all this time. He now owns considerable residence property here.

A. F. Casey is an old land mark for this section of Texas. He came here when the town was not a town. For years he was the leading photographer of this section of the State. He has contributed very materially to the building of Cisco, both in a business way and a moral way. Mr. Casey has always expressed himself plainly and there has never been a question as to where he stood on moral issues.

Mrs. Parnelline Matlock who has lived at the corner of Avenue F and Fifth street is a great character.

She has reached the ripe old age close to the century mark. Her great christian character will last to eternity. She contributes her mite to the church each year although her income is very meager. Her home is about to be crowded by the business growth, and soon she will be able to sell her lot for a good sum. She is a pioneer settler of Cisco.

**RURAL CARRIER EXAMINATION**

The United States Civil Service Commission has announced an examination for the County of Eastland, Texas, to be held at Cisco, April 12th, 1919, to fill the position of rural carrier at Gorman, Eastland and Romney and vacancies that may later occur on rural routes from other post offices in the above mentioned county. The examination will be open only to male citizens who are actually domiciled in the territory of a post office in the county and who meet the other requirements set forth in Form No. 1977. This form and application blanks may be obtained from the offices mentioned above or from the United States Civil Service Commission at Washington, D. C. Applications should be forwarded to the Commission at Washington at the earliest practicable date. Apply to Post Office for blanks.

When you see a picture at the City all theatre you see a new picture, and when you read the advertising on any picture to be shown at this theatre, you may depend on it being all that it says and more. Every week on page two you will find the City Hall picture show program.

Where do I get lamp globes? At Jno Sherman's.

**BIG THINGS IN OIL ARE DOING AT CISCO**

One of the most substantial Oil Companies of Texas adopts plans for a refinery same its new well sprays oil at Ranger before the sand is hit.

Probably the most important announcement made in Cisco regarding its industrial enterprises was that made recently by the Beaver Valley Oil & Refining Company of Cisco that it had completed arrangements for installing here a crude oil refinery of 2,000 barrels' daily capacity. Next in importance to this was the announcement that arrangements are being perfected to lay a pipe line from the Ranger oil field to Cisco. This line probably will supply crude oil to the Beaver Valley and Liberty refineries.

Of similar import was the news that the Beaver Valley Oil & Refining Company had brought in another well at Ranger. The well is No. 1 on the Melvin tract. It sprayed oil before the sand was entered and while the drill was yet in the black lime. Oil men are agreed that this is unusual and that the well may make up to 1,000 barrels daily when the sand is entered. It was well located geologically, being on the best spot of the structure.

**PRICE NOT RAISED**

It was currently reported that the Beaver Valley Company would at once announce that its issue of refinery stock recently offered to investors would be raised to \$3.50 a share. This was denied at the company's office, however, for it holds for delivery several thousand shares contracted for at the price of \$1.25 and stated that it wanted to give other investors an equal opportunity while this issue lasts.

The demand for this stock gave the company a good surprise. It was more gratified when the mails began to bring additional subscriptions from stockholders of record. This was proof to the company that its friends remained confident of its future during the latter period of the war that was so embarrassing to all industries that were not affected favorably by the war.

**REFINERY PLANS APPROVED**

At a meeting of the board of directors held in Cisco this week plans for the refinery were approved and the management announced that if nothing now unforeseen intervenes work on the plant should start in April. The directors visited all the properties of the company in this district and witnessed the first flow of oil spray from the Melvin well.

Vice President Levi Ogle of Anadarko declared that the way now is clear for the company to make rapid progress in both the production and refining departments this year. Mr. Ogle is a capitalist and a very conservative investor. His judgment on business matters in Southwest Oklahoma is final. His financial and moral interests in the Beaver Valley Company is not that of a hopeful wildcatter; it is that of sound business sense. He became an official in the company because of the great possibilities wrapped up in its assets.

Other directors present at the meeting were Jay L. Ayres, a representative business man of Anadarko, T. M. Clauder of Anadarko and S. J. Hess, capitalist of Fredonia, Kansas.

**OIL SOAKED DERRICK FOUND.**

The directors who had not visited the field lately found an oil-soaked derrick over a Texas & Pacific Company well on the Williams tract, four miles northwest of Ranger, which is an offset to the Hindman tract of 25 acres which the Beaver Valley has leased. They found other producing wells near and new derricks in all directions.

"It looks to us like the Hindman acreage is worth over a million dollars," said Mr. Ayres. "The board has approved the plan of President L. W. Tarkenton to drill an offset to the T. P. well just as soon as he can get to it."

**MONTAGUE COUNTY LOOMS**

Director Clauder went to Montague County after the meeting and is to make arrangements for the company's campaign to develop its shallow sand there. Funny thing about that shallow sand. The big block of leases there (nearly 12,000 acres) was secured by the company on the strength of a geological report which showed the acreage to be on the Pennsylvanian formation.

**A LITTLE STOCK OFFERED**

The above is some of the latest live news about the company that is putting Cisco on the map. We don't think of a better combination in business than business judgment yoked with determination, perseverance and movement. We have put all those qualities into the warp. The whole cloth will be a substantial refining company with increasing production. We haven't the slightest doubt the outcome before very long will be dividends that will make you smile and congratulate yourself that you also became a booster for home enterprise. We have been conservative and dignified in our statements. We are not running a circus or a wild-west show.

We have had a fine week. Orders for stock have come by wire from California, Arizona, and Pennsylvania. Inquiries have come from many other States, thanks to the good circulation of the

That meant that the company planned to drill a deep test, for the big oil sand there possibly is below 3,000 feet. So eager were they to get to the big sand as soon as possible that they cased off a shallow sand at 325 feet. The oil was found to be of high grade and the sand probably will produce 10 to 20 barrels daily. Star rigs are to be used in developing this sand.

**A MYSTERY DISCOVERED**

There is an air of mystery in the Beaver Valley office since the directors' meeting. It grows out of reports that something is doing in the region of the well of the Empire Gas & Fuel Company in Jefferson County, Oklahoma, which lies just over the river from the big block of Beaver Valley acreage.

"I can't tell you a thing about that rumor," grinned President Tarkenton, "but I may have a statement to make in a few days." There's something doing both in Montague County and in the river section of Jefferson County, Oklahoma. No end of scouts and lease men have been touring that region the last few weeks.

**DIVIDENDS ARRANGED FOR.**

Among other matters discussed by the directors was that of dividends. "The impression seems to have become current," says President Tarkenton, "that purchasers of the refinery stock issue will share in dividends produced only by the refinery. That is an error. Every stockholder will share in dividends created out of all operations of the company. The directors have agreed that about two-thirds of the company's net income after the refinery is in operation is to be paid in quarterly dividends.

"Do I believe the company will pay dividends? Do I believe the sun will rise tomorrow? Why did I put my personal fortune into this company? Why have I given it my time and attention and turned loose the other lines of profitable business that I followed? I don't believe that any man has yet failed in the oil business who used good common sense and constantly kept hammering at the game.

"Former Governor Haskell of Oklahoma made a million out of oil within eighteen months after he left office. He is one of the shrewdest business men that ever lived in the Southwest. He said in an interview in a New York paper not long ago that he didn't know of a man or company that had failed in the oil business in Oklahoma where good common sense had been exercised."

The directors had a good report from Burkburnett. The Beaver Valley Company has a 50-acre lease about three miles southeast of the town of Burkburnett. The recent trend of operations in that direction has proved that this lease is in the producing area. It is almost entirely surrounded by producing and drilling wells. It was announced that arrangements would be made to start drilling there probably by early summer.

newspapers. The Round-Up is getting its share of results. Don't delay your order for some of this stock. For goodness sake, don't expect us to break our necks and backs and waste our good white paper and ink recording a little old sale of less than ten shares. Use the coupon. Do it today. Many tomorrows have their sorrows.

**A GREAT OPPORTUNITY FOR YOUNG LADIES AND MEN**

The demand for Telegraph operators was never so great as at this time. Railroads are sending men out to get more operators and are offering special inducements to commercial school students. Several different Railway Companies have offered to place every graduate Tyler Commercial College can furnish. In fact they tried to get our promise to let them place every graduate on their lines. The largest Telegraph school in America equipped with wire of a main line railroad, all telegraph and freight blank and books of record, tickets, and in fact everything just as complete as found in the best equipped railroad offices, the best practical teachers to be obtained, thoroughly experienced in commercial and railway telegraphy, station and freight work—the Tyler Commercial College, of Tyler Texas is unable to supply the demands of the railroads, Western Union and Postal Telegraph companies for operators. We received a message from a leading railway company reading: "Can you furnish us with all the operators we need, we furnishing them with free transportation over our line from nearest points?" Just as surely as you complete our course of Telegraphy and Station work, just so surely will we place you in a good position. The same is true where our course of Bookkeeping, Short-hand Cotton Classing or Business Administration and Finance is completed.

Our Telegraph students are on all the leading Southwestern roads, and in Western Union and Postal Telegraph offices. Our graduates of other departments are holding high positions in the commercial world. With our help you can be a big success. Tyler Commercial College,

Tyler, Texas. Fill in and mail for large free catalogue. Make the start to day. Name \_\_\_\_\_ Address \_\_\_\_\_

**Battery "Maybes"**

Maybe your battery is in perfect condition.  
Maybe the water level is up just where it ought to be 1/8 inch above the plates.  
Maybe the battery is being kept charged as it should be.  
But why take a chance?  
A glance into each cell will tell you just where the water level is.  
A two-minute hydrometer test will give you exact figures on the state of charge of every cell.  
Or better yet, call on us and we'll do these things for you and give you the benefit of Willard consulting service.

We test, repair and recharge storage batteries and always carry a full supply of battery parts, new batteries and rental batteries.
